Probers Cite West Trade With Russia

WASHINGTON (AP)—Senators investigating East-West trade were told Wednesday Great Britain and other allies, with U.S. permission, are selling Russia the means to build "the most modern weapons" of war.

Ralph R. Baldenhofer, a Midwestern industrialist and sometime government consultant, contended it would be "far better" to furnish the Soviets guided missiles or planes.

Strategic production tools can be used over and over again to make deadly implements of war, he said, while a missile "can come back at us only once."

Baldenhofer testified before the Senate Investigations subcommittee at the start of hearings called to check into the sale of potential war materials to the Soviet bloc.

Sen. John L. McClellan (D-Ark.), the subcommittee chairman, charged at the outset that Eisenhower administration officials have put "obstructions" in the path of the inquiry.

McClellan said evidence at hand indicates a "very disturbing" volume of free world shipments to Russia that are "indispensable in constructing or maintaining a war machine."

Check Passers Get 7 Years

Two women and a man were sentenced Wednesday to up to seven years after pleading guilty to charges of passing false checks.

Celia Mae Chapman, 18, of Davenport and Lucille C. Timmerman, 18, East Dubuque, Ill., were sentenced to Rockwell City and Leonard Holst, 23, of Marengo, was sentenced to Anamosa.

Sentence was pronounced by Judge James P. Gaffney in Johnson County District Court.

The three had waived preliminary hearing in police court and asked counsel advice when they appeared before Judge Gaffney Thursday.

Arrested with the three on the same charge was Rollin J. Klenk, 33, of Davenport. He was extradited to Rock Island, Ill., for trial on similar charges.

Holst's check was written for \$20; Miss Timmerman's for \$42.30, and Miss Chapman's for \$43.23.

Hancher To Talk At SUI Reunion

SUI President Virgil M. Hancher will be the principal speaker Sunday at the SUI reunion dinner in Atlantic City, N. J.

Hancher will give a report on the university.

Prof. Bruce E. Mahan, dean of the SUI Extension Division, is in charge of arrangements and will preside at the dinner. He also will supervise the SUI exhibit at the Atlantic City Auditorium.

Meter 'Education' Over; Parking Fines Now \$1

City authorities have decided that citizens have had enough "education" on parking meters and have lowered the boom on parking tickets.

Effective Wednesday, the Iowa City traffic bureau began charging \$1 fine for an offender's first ticket, instead of dismissing it in the past. The reason, City Manager Peter F. Roan said, is that the practice is costing the city too much money.

Cost 25 Cents

Prior to Jan. 1, 1955, parking tickets cost only 25 cents if the offender reported to the traffic bureau within an hour. On that date, the city instituted the graduated-fine scale which provided for dismissal of the first ticket, a \$2 charge for the second, \$3 for the third.

Starting Jan. 1, 1956, the first ticket was dismissed only if the offender had received none in 1955. Otherwise, a \$1 fine was levied.

The practice of dismissing the first ticket was begun in 1955 to "educate" the citizens on the changeover from the old 25-cent policy.

Now, Roan said, after 14 months, all motorists should be aware of the new policy and how it operates.

Dismissal Cost

The cost of first-ticket dismissal to the city in 1955 was between \$8,000 and \$9,000, he said at Tuesday night's council meeting. Only 4,882 of the almost 14,000 tickets issued during the year resulted in

A Might Tight

"DIAL 'M' FOR MURDER" uses the elements of a carefully planned murder and the undoing of the guilty party to keep the audience in suspense but here are (left to right) Rosalie Samburg, A2, Des Moines; James Rex, A2, Allentown, Pa., and Bob Bentley, A3, Ames, in one of the play's lighter scenes. The SUI production, directed by Prof. Harold C. Shiffler, will run today through Saturday and Feb. 22 through 25.

Plans Probe Of Campaign Contributions

WASHINGTON (AP)—Sen. Albert Gore (D-Tenn.) announced plans Wednesday night for a sweeping investigation of senatorial campaign contributions.

After a conference with Democratic leaders of the Senate, Gore said he had called a meeting of his Senate Elections subcommittee for 10 a.m. today to recommend the broad inquiry into "campaign contributions, federal elections and any evidence of corrupt practices which may be revealed."

A short time before Sen. Styles Bridges (R-N.H.), chairman of the Senate's Republican Policy Committee, issued a statement urging an expanded investigation of lobby pressures exerted on senators during their consideration of the natural gas bill.

Bridges said he thought the work ought to be done by the special committee of four senators appointed to look into a \$2,500 campaign contribution turned down by Sen. Francis Case (R-S.D.) in advance of the vote on the gas legislation. This came from the president of an oil and gas company favoring the legislation, but Bridges said there was "a great deal of pressure" against the bill, and said this should be investigated.

penalties. Fines were reduced from \$16,113 in 1954 to \$12,077 in 1955. Roan pointed out that tax revenue must be used to enforce parking regulations if fines fail to do so adequately. Tuesday the city council informally approved the proposal to stop dismissing the first ticket. The free ride is over.

Fines Pay for Scholarships, Grants—

SUI Parking Problem Helps 130 Students

By DWIGHT JENSEN

It hasn't made those familiar yellow tickets any more popular, but the SUI parking problem has provided more than \$11,000 in the last 4½ years to keep about 130 students in school.

These students, most unable to get financial aid from other sources, have been given tuition scholarships and grants from the fund.

The fund is maintained from parking fines by SUI students, faculty, staff and visitors for improper parking on University property.

SUI Dean of Students L. Dale Faunce, who administers the fund, said \$11,610.78 has been spent to help needy students since the fund was set up in May, 1951. Most of

In 'Dial M' Killer Tries Ideal Alibi

A diabolical murder plot and an equally clever trap set for the criminal are the highlights of Frederick Knott's "Dial 'M' for Murder," which opens tonight at University Theatre.

The plot concerns the planning of Tony Wendice, a tennis star, to murder his wife, Margot. He hires a killer and prepares for himself a foolproof alibi. The murder scene is the play's early climax, but the trap prepared for the criminal provides the most suspense.

Prof. Harold C. Shiffler of the SUI Dramatic Arts Department directs a cast headed by Rosalie Samburg, A2, Des Moines, and Bob Bentley, A3, Ames, who play the Wendices. James Rex, A2, Allentown, Pa., is Max Halliday, in love with Margot; and Jack Lee Morgan, G, Erie, Pa., plays the part of Captain Lesgate, an old classmate of Wendice's who would kill two for the price of one.

The part of Inspector Halliday, who, because of his clever sleuthing, becomes one of the play's major characters, is played by Curtis Pope, G, Iowa City. Minor parts are handled by Robert Stewart, A3, Iowa City, as a policeman, and Richard Roberts, A2, Perry, as a detective.

"Dial 'M'" first opened on the New York stage on Oct. 29, 1952, with Gusti Huber and Maurice Evans as the Wendices. Richard Derr as Max Halliday, and John Williams as the inspector.

The setting for the SUI presentation is by Prof. Arnold S. Gillette. Lighting is by Prof. Walter S. Dewey, and Prof. Margaret Hall designed the costumes.

The play will run through Saturday and Feb. 22 through 25. Curtain time for all performances is 8 p.m.

Ticket reservations may be made at the Theatre box office, Room 6A, Schaeffer Hall. SUI students will receive reserved seat tickets upon presentation of ID cards. Price of single admission to others is \$1.25.

the money, he said, has gone for tuition scholarships.

For this semester alone, the fund — known as the General Student Assistance Fund — has provided \$1,845 in tuition and aid scholarships for 17 students.

Last semester, students got \$655.80 in aid from the fund, while 27 students were given \$2,253.40 from the fund during 1954-55.

Restricted Parking

The system of restricted parking and requiring students, faculty and staff members to display identification on their cars was instituted in October, 1950, to combat SUI's parking problem.

"We need the fund badly," Faunce said, "to take care of unusual cases — which frequently

Flash Flood Hits Arkansas Resort City

HOT SPRINGS, Ark. (AP)—A flash flood running five feet deep swirled through this resort city in the early hours Wednesday, sweeping one woman to her death and swamping downtown business houses.

Floating lumber clogged a key storm sewer and the surging water smashed cars against each other and pushed through windows and doors, flooding shops in the city's main street.

Most of the business establishments, although left with a rug of mud when the water subsided, were open for business by afternoon.

About the same time, tornadic winds pounded an area of north central Arkansas, about 60 miles north of here killing one person and injuring six others.

The torrent at Hot Springs, the result of heavy rains that began shortly after midnight, came at the start of the tourist season in the Arkansas city of about 38,000 permanent residents. Hotels and motels were jammed with visitors.

Dead in the flood is Mrs. Hollie Barker, 33-year-old Nome, Alaska woman who was here with her husband prospecting for uranium.

She and her husband, sleeping in their car at a campsite about five miles northeast of here, sought refuge on top of the car when the flood struck. Both were swept off the car. Her husband grabbed a tree. Mrs. Barker's body was found about a quarter-mile from the camp.

Barker, treated for shock at a Hot Springs hospital, said he sat in the tree about four hours, until the water subsided, then walked about a mile to a farm house for help.

Before the rain stopped about daylight, a total of 5.74 inches had fallen, said the National Park Service here.

The Weather

More Snow

Snow, which seems to be a favorite word with the weatherman these days, is expected to fall on Iowa City by this evening.

High temperatures today will range from 29 to 28 in southern Iowa, the Weather Bureau's forecast said Wednesday night. Wednesday's high in Iowa City was 31, and the low was 13.

The snow storm will spread across Iowa from the west. The amount of snow falling on Iowa City will depend upon the path taken by the storm center, the Bureau said. The snow is expected to diminish Friday, leaving windy and colder weather.

tion about it when they learn that their money will be used to help some student through a financial crisis."

While the over-all responsibility for the fund lies with Faunce, awards usually are made to needy students after consultation and interviews with Counselor to Men M. L. Huit, Counselor to Women Helen E. Focht and Foreign Student Adviser Wallace Maner.

Tuition scholarships from the fund are handled through the University Scholarship Committee, of which Miss Helen Reich of the SUI

Red Cross Service

"We use it to perform on the campus the same type of service the Red Cross performs elsewhere," he explained.

"Parking violators are seldom happy," Faunce said, "when they find they have a ticket chalked up against them.

"But they usually feel a lot bet-

Iowa Cadet Presents Bouquet

FLOWERS FOR MAMIE—Cadet Roger Huggins of Elkader, Iowa, a former Coe College student, presents a bouquet of roses to Mrs. Eisenhower as President Eisenhower looks on. The Eisenhowers had just arrived in Moultrie, Ga. Wednesday for a 10-day rest at Milestone Plantation as guests of Secretary of Treasury George Humphrey.

Might Use Health Issue

WASHINGTON (AP)—Leading Democrats said Wednesday President Eisenhower's health will become a prime campaign issue if he decides to seek a second term.

Eisenhower, vacationing in Georgia, is expected to announce shortly after his return next week whether he will run again. Most Republicans and many Democrats believe that because of Tuesday's reassuring report on his recovery from a Sept. 24 heart attack his answer will be "yes."

Sen. Sparkman (D-Ala.), the 1952 Democratic vice-presidential nominee, said that if Eisenhower does become a candidate again "I don't see how his health can help but become an issue." Sparkman stuck to his belief, however, that Eisenhower won't run.

"The President's health is bound to be an issue because of all that he himself has said about it," Sparkman said in an interview.

"People will be talking about his chance of surviving four more years in the White House. 'It's what people talk about that makes issues.'"

Sparkman said he doesn't believe the Democrats will embark on any planned campaign of questioning Eisenhower's ability to withstand four more years of strain his job.

Sen. Magnuson (D-Wash.) said everybody is being kind to the President now because of his heart attack, but once he gets in the race, the bars will be down and he will be fair game.

Sen. Curtis (R-Neb.) said that if the Democrats raise the issue of the President's health, the Republicans will "invite them to consult the medical records."

"The Democrats practiced deception in 1944 when they propped up a corpse and ran Roosevelt for re-election," he said.

Seek Pay Raise For Student Help

The Student Council recommended Wednesday night that SUI consider raising the minimum wage for part-time university employees to \$1 an hour.

Minimum wage for part-time help is now 85 cents.

Council president Mark Putney, L.S. Gladbrook, noted that board and room fees for students are being raised while scholarship monies generally remain the same.

Putney appointed a committee to find the number of students now employed by the university and the range of the wages paid.

James Cooney, G, Washington, D.C., reported that the university parking committee would have its recommendation on the SUI parking problem ready in about two weeks.

Cooney is on the SUI committee and head of the Student Council committee which recommended a zone-sticker parking solution to the university committee.

He could not say what possible solution was being worked out but added that students "would be pleased" with the result.

The council also heard reports that Panacea rehearsals were showing progress, and heard a recommendation that the Student Council book exchange sell books for a shorter period next semester.

About 3,200 books were sold through the exchange this semester.

Two Negroes Beat White at Alabama

TUSCALOOSA, Ala. (AP)—Two Negro brothers who said they attacked a University of Alabama white student in anger over campus rioting against a Negro coed were charged with assault with intent to murder Wednesday.

Circuit Solicitor Olin Zeannah said the warrant was sworn out by Samuel Perrin Taylor, 19-year-old student who said he was beaten and kicked by two Negro men Tuesday night.

Zeannah said both Negroes made statements that they attacked Taylor because of resentment over the explosive Atherine Lucy case.

On the campus petitions were circulated by a student-faculty group asking that Miss Lucy be allowed to return to classes.

Hickenlooper and Hoegh Seek Office

DES MOINES (AP)—United States Senator Bourke B. Hickenlooper, 59, of Cedar Rapids and Gov. Leo A. Hoegh, 47, of Chariton, announced Wednesday that they will seek re-election this year.

Hickenlooper's announcement followed by two hours Hoegh's plan to obtain a second term as Iowa's chief executive.

Prior to his original election as senator in 1944, Hickenlooper served in the Iowa legislature and as lieutenant governor and governor. He is an attorney by profession.

PARKING PROBLEMS—
(Continued on page 5)

Order Sets Aside State Police Power

NEW ORLEANS (AP)—A three-judge federal court Wednesday threw out the segregation laws that Louisiana had devised to sidestep the U.S. Supreme Court ban on separate white and Negro public schools.

After Wednesday's decision, U.S. Dist. Judge J. Skelly Wright ordered New Orleans to desegregate its public schools "with all deliberate speed." He said this did not mean mixing of classes would come "overnight or even in a year or more."

Dr. Clarence Scheps, president of the New Orleans School Board, said, "The board's next step will be to appeal the decision. The board has committed itself to keep segregation, if possible."

Police Powers

In 1954, after the Supreme Court decision, the Louisiana Legislature passed a series of laws that segregated schools under the state police powers.

One act ordered separate schools in order "to promote and protect public health, morals, better education and the peace and good order in the state." The act specifically declares segregation is "not because of race."

But the three-judge federal court Wednesday ruled that the police power provision does not save the laws from being declared invalid. The court ruled that the laws were unconstitutional.

Deliberate Speed

Judge Wright granted a temporary injunction against continued segregation in New Orleans public schools. He told the school board to mix classes "after such a time as may be necessary to make arrangements for admission of children to such schools on a racially nondiscriminatory basis with all deliberate speed."

The judge added that "the problem of desegregation in the Deep South is considerably more serious than generally appreciated in some sections of our country."

"The problem of changing a people's mores, particularly those with an emotional overlay, is not to be taken lightly," Judge Wright said.

Utmost Patience

"It is a problem which will require the utmost patience, understanding, generosity and forbearance from all of us of whatever race."

"But the magnitude of the problem may not nullify the principle," Judge Wright continued. "And that principle is that we are, all of us, free-born Americans with a right to make our way un fettered by sanctions imposed by man because of the work of God."

Judge Wright ruled on a suit of 95 Negro children against the Orleans Parish County School Board. The National Assn. for the Advancement of Colored People has filed the suit on behalf of the children.

88 N. AFRICANS DEAD

ALGIERS, Algeria (AP)—French sources said violence in Tunisia and Algeria killed 88 persons in the 24 hours ending at dusk Wednesday night as French troops continued mopping-up operations.

City To Give Weekly Good-Driver Awards

A prize will be awarded to Iowa City's "driver of the week" beginning next week, Charles S. Crook Jr., chairman of the Chamber of Commerce Safety Committee, said Wednesday.

A bouquet will be awarded to a lady winner and a pair of theater tickets will go to the winning gentleman, Crook said.

Members of the committee will look for acts of courtesy by Iowa City motorists and a prize will be given to the person performing the most courteous act as adjudged by the committee, Crook said.

Preventative Measure

The plan has been undertaken as an accident preventative measure, he explained. The committee called for con-

structive criticism of the city's traffic problems and advice for measures which would give Iowa City an improved safety record.

"Iowa Citizens and SUI students must want better safety and must cooperate with any safety program developed," Crook emphasized.

Civic Cooperation

"Additional legislation, road signs and other innovations are useless without civic cooperation," he said.

Committee members are: Leslie Moore, shoe store operator; Donald Seavy, principal of Longfellow School; Fred Lewis of the Iowa City Police department; and Bruce Parker, assistant foreman of the SUI physical plant.

Miss Milnes Is Bride Of Mr. Phillip Crumley

Mrs. Phillip James Crumley

Miss Virginia Anne Milnes, daughter of Mr. and Mrs. Robert T. Milnes, Burlington, became the bride of Mr. Phillip James Crumley, son of Mr. and Mrs. Dwight M. Crumley, Rippey, in the First Methodist Church of Iowa City Saturday, Feb. 4.

The bride is a senior at SUI, majoring in speech pathology. She is a member of Pi Beta Phi sorority. The groom is a junior in the SUI College of Dentistry. He is affiliated with Lambda Chi Alpha, social fraternity, and Psi Omega, professional fraternity.

Dr. L. L. Dunnington officiated at the 4 p.m. ceremony.

The bride, given in marriage by her father, wore a gown of ivory satin with classic lines, a pointed midriff and V neckline. The skirt ended in a cathedral train.

Miss Marilyn Milnes and Miss Mary Milnes, Burlington, sisters of the bride, were bridesmaids.

Mr. James McLeran, Audubon, a junior in the SUI College of Dentistry, was best man.

Ushers were: Mr. Jerry Hargitt, Mason City; Mr. Donald Conlon, Spencer, a freshman dentist student; Mr. Miles Turnbull, graduate student from Diagonal, and Mr. Ned High, SUI junior from Rippey.

A reception was held following the ceremony at the Pi Beta Phi sorority house, with Mrs. Harriette Evans, housemother, in charge. Sorority sisters of the bride served.

Post-Game Party To Feature Combo, Cabaret Theme

Al Eastman's Combo will play for the Union Board-sponsored post-game party, Saturday beginning at 9:30 p.m. The party, usually held in the Main Lounge of the Iowa Memorial Union is being held in the River Room for the first time.

A cabaret theme will be carried out by the use of colored lights, tables and candlelight. Refreshments will be served.

Co-chairmen of the party are John Elman, A4, Des Moines, and Dixie Conway, N4, Des Moines. Committee members are: Ed Karl, A3, Sioux City; Lydia Saggau, N3, Denison; and Jean Barrett, A2, Davenport.

SUI Items

ZETA TAU ALPHA
Zeta Tau Alpha alumnae will meet today at 7:30 p.m. in the home of Miss Helen Reich, 324 Woolf Ave.

Prof. Anna Overland of the SUI College of Nursing will show slides and discuss her recent trip to Europe.

PHI EPSILON PI
Phi Epsilon Pi social fraternity recently pledged Jerry Bookin, A2, Ottumwa; Jim Foster, A1, Highland Park, Ill., and Al Dorosin, A1, Marshalltown.

HOME EC. CLUB
An old-fashioned Boston Baked Bean supper will be held today at 6 p.m. in the dining room of Macbride Hall. This is an annual event sponsored by the Home Economics Club. Tickets are on sale in Room 117, Macbride Hall, for 75 cents each.

INFORMATION FIRST
Information First will meet today at 4 p.m. in the Senate Chamber of Old Capitol. William Keck of Keck Architects, Chicago, Ill., will speak on "Planning Your Home of Tomorrow."

DELTA ZETA
Mrs. Herbert Gamber recently was elected president of Delta Zeta alumnae in the Iowa City area at an alumnae meeting at the home of Mrs. C. Woody Thompson, 1119 Dill.

Mrs. Gamber succeeds past president Mrs. Esther Clark. Also elected were Mrs. Jerome Butts, secretary, and Nancy Knapp, treasurer.

The next meeting will be held March 6, at the home of Mrs. Gamber, 226 S. Lucas. Any alumnae who have not been contacted may call Mrs. Gamber at 8-0672.

NEWCOMERS' ASSOCIATION
The bridge group of the Newcomers' Association will meet Monday at 7:30 p.m. in the University Club Rooms in the Iowa Memorial Union.

Mrs. Edgar F. Riley is hostess. Committee members are: Mrs. John L. Lach, Mrs. Charles H. Read, Mrs. Theodore C. Cole, Mrs. Leo G. Erickson and Mrs. William Suter.

Instruction for beginners will be given as usual.

Miss Ray, Mr. Miller Married in Iowa City

Mrs. Rodney Wayne Miller

Miss Marilyn Ray, daughter of Mrs. Herbert Ray, Park Forest, Ill., and the late Dr. Ray, and Mr. Rodney Wayne Miller, son of Mr. and Mrs. Wayne B. Miller, Sedalia, Mo., were united in marriage Saturday, Feb. 11, in the St. Thomas More Chapel.

Msgr. J. D. Conway conducted the double ring ceremony at 10 a.m. The bride was given in marriage by her uncle, Dr. Ralph M. Ray, Homewood, Ill.

The bride wore a champagne taffeta afternoon dress with matching lace and pearl hat and shoulder length veil. She carried a crescent shaped bridal bouquet of beige cymbidium orchids and baby white roses.

Maid of honor for the bride was her sister, Miss Connie Ray, who is a student at Michigan State University. Roger C. Miller, brother of the groom, was best man. He is a student at the University of Missouri.

Ushers were William Idema, Minneapolis, Minn.; Robert Brady, Sheldon, and Richard Gleichman, Rockford, Ill.

The bride will graduate from SUI in June. She is a member of Delta Gamma social sorority. Mr. Miller received a B.A. degree at SUI in 1953, and is now in the SUI College of Law. He is a member of Sigma Phi Epsilon social fraternity and Phi Delta Phi.

The couple will be at home at 18 N. Lucas St. after Feb. 18.

Fall Orientation Interviews Begin

Students interested in being leaders or assistants in the fall AWS orientation program may register for interviews today and Friday at the information desk in the Office of Student Affairs.

Interviews will start Monday and continue through Feb. 29 in the Office of Student Affairs Conference Room.

About The Servicemen

Ensign Don F. Hummel was graduated from the Navy Officer Candidate School in Newport, R.I., Jan. 27. Hummel received a B.S.C. degree from SUI in 1955.

Graduates of the school completed courses in seamanship, navigation, operations and tactics, naval weapons, military justice and marine engineering.

Pfc. William J. Stevens is with the Eleventh Airborne Division sent to Germany in January to replace the Fifth Infantry Division.

Stevens is the son of Mr. and Mrs. William O. Stevens, 513 S. Dodge St. He graduated from Iowa City High School in 1954.

Pvt. Robert R. Handy has been graduated from the Seventh Army Non-Commissioned Officer Academy in Munich, Germany. He is a machinist with the 545th Signal Company.

Handy, the son of Elvin R. Handy, 421 Kirkwood Ave., is a 1953 graduate of St. Mary's High School. He attended SUI before entering the Army in August, 1954.

Pvt. James M. Hogan was graduated recently from the Quartermaster School supply records course at Fort Lee, Va.

Hogan is the son of Mr. and Mrs. Cetus J. Hogan, 614 S. Johnson St. He graduated from St. Patrick's High School in 1953.

Wayne H. Welcher has been appointed clerk of his recruit company at the Great Lakes Naval Training Center, Great Lakes, Ill. Welcher is the son of Mr. and Mrs. Lynn W. Welcher, 1504 Yewell St.

M. Sgt. Frederick R. Petriken, Iowa City, has re-enlisted in the Army for six years at Fort Richardson, Alaska. He is first sergeant in Company K of the 53rd Regiment and has been in the Army since 1939.

His wife is with him in Alaska. James Gaines, 1121 Fourth Ave., is now serving at the Naval Air Station, San Diego, Calif. Gaines is a hospital corpsman third class.

Leland O. Waymire, former SUI student, has been commissioned second lieutenant in the U.S. Marine Corps at Quantico, Va., after completing the Marine Officer Candidate Course.

Marine 2d Lt. James O. Hepner has been assigned to duty at Camp Lejeune, N. Carolina after completing the Officers' Basic Course at Quantico, Va.

Hepner is a former SUI student. Pvt. Eugene F. Milder, son of John H. Milder, R.R. 2, is a member of the 43rd Anti-Aircraft Artillery Battalion's Battery C basketball team.

Milder is a 1953 graduate of St. Mary's High School. He was em-

Camp Planned for Crippled Children

Plans for a summer camp for crippled children were made at a recent special meeting of the Johnson County Board of Crippled Children and Adults.

Harley Van Akkeren, director of Camp Wapsie near Central City, spoke to the group. He showed colored slides of Camp Wapsie.

The crippled children camp will be held at Camp Wapsie Aug. 26-31. It will accommodate 18 children and their families.

The camp staff will include personnel especially trained in dealing with crippled children.

Money from the Easter Seal drive to be held March 10 to April 10 will help to finance the camp.

May Not Be Ready To Play Against Wisconsin—

Cager Payne Sprains Ankle

By PAUL JESS

Tom Payne, sophomore reserve forward from Quincy, Ill., may not be able to play against Wisconsin here Saturday night.

The tall youngster hurt his ankle in scrimmage Wednesday night. The extent of his injury will not be known until X-rays of the leg are examined by doctors and team trainer Doyle Allsup.

"I don't believe he has more than a sprained ankle," said Allsup. "At least I'm hoping that it's just going to be a sprain."

Ankle Swelled

Allsup reported that Payne's ankle was swelled somewhat but that he didn't appear to be in a great deal of pain. The trainer expressed doubt as to whether Payne would be able to go against Wisconsin.

"The way it feels now I don't think I'll be able to play Saturday," said Payne Wednesday night. "They've got my ankle taped up now and I've got to see a bone specialist in the morning."

Payne doesn't know just how the injury occurred. "I was driving across the free throw line for a shot at the basket, I don't think I ran into anyone, I must have just come down on my foot wrong," he said.

'Stay Off It'

"They told me to stay off it," said Payne, "we won't really know how bad it is until they see the X-rays."

O'Connor Said It Will Be a 'Bad Blow'

O'Connor reported that the sophomore forward walked off the court under his own power so there was hope that he had nothing more than a bad sprain.

O'Connor said that it will be a "bad blow" to the team as a whole if Payne is lost for the next game or two. "Those are the games we're aiming for now. We are not even thinking about Illinois yet, that game is a long way off."

Late X-ray

Because of the nature of the accident and the late hour, a special team of technicians had to be called in to handle the X-rays, Allsup said. For this reason the full extent of Payne's injury could not be determined immediately.

Payne has not been a starter since Sharm Scheurman's return to the team after an early season injury. Payne filled in at guard for Scheurman but has since returned to his normal forward spot as a top reserve.

The promising sophomore has played in nearly every game for the Hawks. Although he has not scored many points, his substitute performances for the team have been excellent.

Played Well Monday

Against Purdue Monday night Payne played about 10 minutes and scored six points on three field goals. He also collected four personal fouls. His floor play and rebounding was good, showing promise of great things in the future.

O'Connor didn't name a fill-in for Payne in case he is unable to perform in the Saturday night Wisconsin game, indicating that the coach has hopes that Quincy sophomore will be ready for duty by that time.

"It will all depend on how he feels and what the X-rays show," said O'Connor.

Iowa Defense, Illini Offense Lead Big Ten

CHICAGO (AP)—The two teams battling it out for the Big Ten basketball title, Illinois and defending champion Iowa, are backed by the league's best offensive and defensive records, respectively, official statistics disclosed Wednesday.

The Illini (8-0), No. 3 in the current AP national poll, not only paces the league in scoring with an eight-game average of 93 points, but also leads in field goal and free throw shooting accuracy.

Iowa's Hawkeyes, although averaging only 77.1 points in eight games, tops the loop defensively with an average yield of 68 points. Illinois is third defensively with a 74.1 average yield.

Iowa, Illini Meet

The only meeting between Illinois and Iowa is a March 3 clash at Iowa City which presumably will settle the championship and the right to represent the Big Ten in the NCAA tourney.

Latest figures show Ohio State's pacesetter Robin Freeman slipping several points to a 31.1 average for nine games. The Buckeye star now is only 1.6 points ahead of Michigan State's Julius McCoy, who has 29.5 for eight games.

Wally Choice of Indiana made the biggest jump in the individual race last week, moving from seventh to fourth place with a 20.7 average. In third spot is Wisconsin's Dick Miller with 21.9.

3 Players Among Top

The rampaging Illini have three players among the top 10 individual scorers, including George Bon Salle with a 20-point average, good for a sixth-place tie with Minnesota's Jed Dommeyer; Bill Ridley, No. 9 with 19.5; and Paul Judson, No. 10 with 18.9.

Choice is the best individual shooter from the floor with a 52.7 per cent accuracy to lead contenders for the Jack Prowell Trophy which will be awarded this year in honor of the late Champaign, Ill., sports editor.

The conference notes that almost the same number of personal fouls are being called this season as last year. In 1955, fouls per game averaged 38.65, while to date this season the average is 38.64.

Choose Hawk All-America

Jack Mathews, top low hurdler on the Iowa track team, was named Wednesday to the National Collegiate (NCAA) all-American track and field team.

The junior from Ames was one of three athletes selected as the nation's best in the 220-yard low hurdles. The other two are Charles Pratt of Manhattan and Loren Clark of Southern California.

Iowa Coach Francis Cretzmeyer said that Mathews was picked primarily because of his second-place finish in the NCAA meet at Los Angeles last season behind Pratt.

Mathews won the Central Collegiate championship in his event last season besides placing third in the Big Ten meet.

He is the first Hawkeye to rate all-American honors, awarded by the NCAA board on track and field, since distance runner Rich Ferguson was selected in 1953.

COACHED FOUR SPORTS

MORGANTOWN, W. Va. (AP)—West Virginia University athletic director Robert (Red) Brown formerly coached four sports. He handled basketball and tennis at West Virginia and coached football and track in high school.

Herky Sez..

By TERRY BLEDSOE

THIS WEEKEND starts what may be the stretch run for Iowa's touted winter sports teams... the final turn, and the last dash down to the tape.

How good are the teams—gymnastics, swimming, wrestling and track, as well as basketball? Answer: very. Teams have posted what is probably the best winter record in the university's history thus far: an .800-plus average through the first two-thirds of the season, and it's only natural that eyes should be cast toward the conference meets the first weekend in March.

At least one observer has already labeled Iowa as the top track team in the conference. Dick Holzappel's gymnasts suffered a crippling blow with the loss of Sam Ballie, but added a strong all-events man in Steve Carlsson, and still should finish well up in the league.

The swimming team is still undefeated, with a victory over Michigan the most notable of a series of classy performances. Two top divers were added at the semester, and the team now boasts three men in that event capable of scoring in dual meet competition.

At least one, Jake Quick, must be regarded as a strong conference championship contender; he has yet to meet a strong challenger. With luck, Coach Dave

THE FINE PERFORMANCE

of Lincoln Hurring, Quick's diving, and two good relay teams will count heavily in Iowa's favor.

The wrestlers, who with the addition of Dick Govig achieved what was probably their best balance in recent years, promptly lost it again when Ralph Rieks was declared ineligible.

Nevertheless, a team boasting Terry McCann, Ken Leuer, John Winder, Harlan Jenkinson, and Simon Roberts, as well as the recently returned Govig, will challenge any in the circuit, and the wrestlers may well go all the way.

THE BASKETBALL situation,

of course, is well known. Iowa is in the thick of the fight for first place; promises to remain there until the climactic games in early March.

That's an impressive list. Iowa, then, is regarded—and not only by Iowans; observers have expressed the same thought—as a potential conference champion in no fewer than five sports. By March 3, the outcome in all these sports will be known.

This could be the year.

Tom Payne Hurt in Practice

Briggs Named Washington Athletic Head

SEATTLE (AP)—George C. Briggs Jr. was named director of the turn-of-millennium University of Washington Athletic Department Wednesday by Vice-President H. P. (Dick) Everest.

Everest said "Mr. Briggs has accepted." The 31-year-old Briggs has been assistant director of athletics at the University of California since 1953.

Indications the football troubles still were bubbling came earlier in the day when a group of alumni met with President Henry Schnitz to recommend their choices for the athletic director's post, left vacant when Harvey Cassill resigned last week.

Briggs' name was not on the alumni list. The university's athletic troubles began in November when members of the football squad revolted against what they called the "tyranny" of Coach John Cherberg. Cherberg was fired late in January.

It will be Briggs' job, Everest said, "to make an immediate search for a football coach, and he already is beginning this task."

Joe Kuharich, coach of the professional Washington Redskins, has been considered the administration's choice for the coaching job. He has denied having had any contact with the university on the matter.

Fullmer, Turner To Clash in Bout

NEW YORK (AP)—Middleweights Gene (Cyclone) Fullmer and Gil Turner will have an added incentive Friday night when they clash for the third time at Madison Square Garden.

Matchmaker Billy Brown of the International Boxing Club told the two 160-pounders Wednesday that the winners may get a crack at France's Charley Humez, the European middleweight champion, March 23.

Under New Management—

Marquette Hopes for Football Victories

MILWAUKEE (AP)—The recent reshuffling of Marquette University's football coaching staff means that the Midwestern independent is tired of playing dead on Saturday afternoons.

With a new athletic director, head football coach and staff, all of whom either played or coached at Notre Dame, Marquette will try to put football back on the winning track and keep it there.

This was made clear Tuesday by the two men most intimately concerned with the dismissal of F. L. "Frosty" Ferzacca as head coach and the hiring of Johnny Druze to take his place.

They are the Rev. John G. Holbrook, chairman of the 9-man Athletic Board, and Laurence A. "Moon" Mullins, whose appointment as athletic director Jan. 21 signaled the coaching change that occurred two weeks later.

New Athletic Day "A new athletic day is dawning here," said Father Holbrook, "mostly because of fresh vigor." Mullins said he saw no reason why Marquette can't be successful "in a football way" again, adding: "... If success depended on breaking rules of the National Collegiate Athletic Assn. or methods not compatible with the good name of Marquette, we'll never be 'big time.' If you get there wrong, you'll never stay there long."

Never a Losing Season

Between 1915 and 1933 Marquette's teams, mostly under Jack Ryan and Frank Murray, never had a losing season. They went undefeated in 1917, 1918, 1922, 1923 and 1930. In 1936, Marquette helped Texas Christian inaugurate the Cotton Bowl.

Father Holbrook said the new football program "will cost a little more, but it is a healthy and good thing. We were getting stale in our thinking."

Marquette plans no change in its football scholarship program which provides for between 20 and 25 for room, board and tuition—about the same as Notre Dame.

"Our simplest problem is to get the boys," said Mullins.

Ralph Cooper and Bert Bell Discuss Football League Hassle

NFL, Canadian Officials Meet; Discuss Problems

PHILADELPHIA (AP)—There appears to be no end to professional football's international war of dollars even though the National Football League and the Canadian pro are close to settling many of their mutual problems.

Bert Bell, commissioner of the NFL, and Ralph Cooper, chairman of the Canadian Football Council, agreed in principle Wednesday on almost all of the thorny problems and conflicts between the two organizations, but admitted there was nothing they could do about the soaring salaries.

Bell said, and Cooper assented, that "we can't and don't want to do anything that will restrain the rights of players. If they are free agents—players not under contract or option to either league—the highest bidder will get the man."

Bell and Cooper did agree to recognize contracts and options already on file in league offices. In plain English, they agreed not to raid each other of player talent.

Bell opened the session with the statement that he had "absolute authority to make any deal with Canadian football I feel fair and just."

Cooper, who represented the nine teams which make up the Canadian Big Four and Western Inter-provincial leagues, replied that he did not have such authority. He said: "I am here to talk over an agree-

Santee To Get Fair Hearing

OAKLAND, Calif. (AP)—Miller Wea Santee will have "the very fairest of hearings" in New York Sunday before the Executive Committee of the National Amateur Athletic Union, its president promised Wednesday.

"I will be in New York to preside at the meetings," said Carl Hansen of Oakland, new AAU president. "As far as his suspension or non-suspension is concerned, I will make no prediction at this time."

Santee, now a Marine lieutenant, threatened legal action Tuesday if he is barred from running in the 1956 Olympic Games.

He was suspended by the Missouri Valley AAU last November for taking "excessive expenses" for three track meets in this area last spring. The suspension was lifted, after six weeks, but Santee later withdrew from indoor competition at the request of an AAU investigating committee.

Hansen said Wednesday that "I named that investigating committee myself and kept it secret because I did not want its members harassed by outside interference while they were at work."

Hansen said the seven-man committee would present its findings in the Santee case to the Executive Committee at its New York meeting Sunday.

"The committee's report may be with or without recommendations," he said. "In any event it will be up to the Executive Committee to make a decision."

Morgan Gets Research Aid

Phillip F. Morgan, SUI professor of sanitary engineering and Iowa City council member, Tuesday received one of three research awards granted by the American Society of Civil Engineers at its national convention in Dallas, Texas.

Called "one of the outstanding members of the sanitary engineering profession," Morgan was praised for developing a method of speeding up the treatment of sewage, for training others to use the method and for making it available to his profession.

While working at MORGAN the laboratory of the Iowa City sewage disposal plant for four years, Morgan developed a new catalytic reduction process of sewage disposal.

The process, which is already in use in cities in Ohio, Minnesota and Pennsylvania permits faster digestion of sewage sludge and allows greater loads on sewage plant treatment digesters.

Several SUI sanitary engineering students aided Morgan in his research.

Juvenile Authorities Given Custody of 'Wild Flight' Driver

Gary Howard Smith, 16, charged on four counts arising from a wild auto flight from shooting policeman early Sunday, was bound over to juvenile authorities Wednesday.

Smith, 717 S. Capitol St., was bound over to Mrs. Martha J. Walcher, acting county probation officer, on a charge of resisting arrest. Smith pleaded guilty before Police Judge Roger H. Ivie on three other charges — improper use of registration, driving without a valid operator's license and reckless driving. Judge Ivie continued the charges for sentencing.

Smith, driver of the car, and three other youths were halted about 2 a.m. Sunday when a bullet from a pursuing police car blew out a rear tire on Highway 218. Patrolmen had chased the boys through downtown Iowa City and out onto the highway at speeds of more than 90 miles per hour.

Police had become suspicious when they noted that front and rear license plates on the car did not match.

Jerald Hostler, 15, was charged with displaying improper plates. The complaint was originally filed Feb. 3. He is scheduled to appear in police court Friday at 8 a.m. He pleaded innocent to the charge Monday.

The other two youths in the car were not charged.

Closed Circuit TV Talks To Bring 60 Educators to SUI

A Conference on Closed Circuit Television will bring some 60 educators from about 20 states to the SUI Continuation Center Feb. 26-28.

Purpose of the conference will be to review progress and consider prospects for future development of television as a way of projecting lectures, discussions and demonstrations simultaneously to several classrooms within the same institution. Prof. Sam Becker of the SUI Television Center, explained Tuesday.

Shellady in Sheriff Race

Walker D. Shellady, 56, Wednesday entered the race for Democratic nominee for Johnson County sheriff in the June 4 primary election.

Shellady, 101 Grandview Ct., is a native of Fremont township, and was graduated from Lone Tree High School. From 1926 to 1948 he was associated with the Goodyear Tire and Rubber Co. Since that time he has been a breeder of Aberdeen Angus cattle in Fremont township. He is also in the feed business.

Shellady is married to the former Genevieve Church. They have one daughter.

He is a member of the Iowa City Elks Lodge and Masonic bodies.

Shellady's father, Charles B. Shellady, at one time was a member of the county board of supervisors and held several local offices.

University Briefs

DENMARK RESEARCH — Dr. B. Shannon Danes, research assistant professor of physiology and ophthalmology at SUI, will leave Friday for Copenhagen, Denmark, where she will conduct tissue research. Dr. Danes will return to SUI in September. Her research will be sponsored by the American Cancer Society.

ADVERTISING TALKS — SUI's three Introduction to Advertising classes will hear talks on Feb. 24 by Verl D. Brewer, manager of advertising sales promotion for the D e s Moines Register and Tribune. Prof. Ellis Newsome, head of the advertising sequence at the SUI School of Journalism, emphasized Wednesday that students in marketing, advertising and related areas may attend one of the classes to hear Brewer. Class times are 8:30 and 10:30 a.m. and 1:30 p.m. Brewer is a member of the American Marketing Association and the Sales Promotion Managers' Association.

ADVENTURES IN ART — Composition of a mural showing the different activities of going to school will be the classroom project of this week's "Adventures in Art" television program, produced by SUI for televising over WOIT-TV, Ames, Friday at 1:30 p.m.

DESERT SHIP WANTED — TUCSON, Ariz. (AP)—Chamber of Commerce officials in this desert community had no ready answer for one man who wrote to inquire about employment opportunities. The applicant was a ship captain.

Program Fits— Cold Interpretation

By WILLIAM DONALDSON

What is probably the major event of the SUI music season took place Wednesday night when the American-born violinist, Yehudi Menuhin, performed before a capacity audience in the main lounge of the Iowa Memorial Union.

His program consisted of Beethoven's Sonata No. 5 in F major, ("The Spring"); Mozart's Concerto No. 4 in D major (K.218); Bach's Partita No. 3 in E major; Bartok's Rumanian Dances; Ravel's "Habanera;" and "Perpetuum Mobile" by Novacek.

There is a certain coldness to Menuhin's style, and it lent itself well to the above selections. His playing Wednesday night was not flawless, but it came close to perfection. Some of his high tones had the utmost clarity and typified Menuhin at his best. Perhaps his was not a definitive performance, but it was a memorable one.

A word of praise is due the piano accompanist, Albert Hirsh, who proved himself a first-rate artist. The cadenzas in the allegro movement of the Mozart piece were composed by Menuhin—typical of the work he has done during his 31 years as a violin virtuoso.

Menuhin made his debut in San Francisco in 1925, when he was only eight years old. During his years as a child prodigy he performed with the leading orchestras of New York, Paris, Dresden, and London.

Before a voluntary retirement in 1935, Menuhin made his first world tour, playing 110 concerts in 63 cities. He emerged a mature artist in 1937 after two years of study and performed under the world's

—By Menuhin
greatest conductors of this era — Serge Koussevitsky and Arturo Toscanini among them.

The violinist has been lauded by the UN and the Pope for his concerts during and after World War II in the war-torn countries of the world.

During a tour of New Zealand in 1951, Menuhin came upon a book on yoga which views the body, the mind, and ethics as one unit. His interest in the theory increased when he toured India the next year, and he has followed its theories ever since.

Menuhin is a recording artist for RCA Victor. Some of his records are Bartok's Sonata for Violin and Piano; Prokofiev's Sonata No. 1 for Violin and Piano; and Brahms' Violin Concerto in D (with Furtwaengler conducting).

Menuhin's biography was published in 1955. It was written by his friend, Robert Magidoff.

Menuhin is married to Diana Godek Menuhin, who was once a ballerina with Sadler's Wells Ballet company. They have two children.

Rotary To Hear Talk on Lincoln

Dr. William Sproul, Des Moines physician, will speak to the Iowa City Rotary Club today at noon in the Jefferson Hotel.

His subject will be "What Abraham Lincoln Means to Us Today." Dr. Sproul is president of the Iowa Academy of General Practice and a member of the board of directors of the American Academy of General Practice. He has studied Lincoln and the Civil War period as a hobby.

He was graduated from the SUI College of Medicine in 1926.

Parking Problem—

(Continued from page 1)

Office of Student Affairs is chairing improper parking.

Fines which go into the fund are levied for improper parking in SUI's 35 off-street lots — 15 are faculty and staff lots — in alleys and on other SUI property.

Fines are \$1 for the first violation, \$2 for the second and \$4 and disciplinary action for the third. The fine for failing to have proper identification on the car is \$5.

How serious is SUI's parking problem?

Faunce estimated that nearly 4,000 student cars compete for parking space on and around the campus.

About 1,000 faculty and staff cars are registered to share the 870 spaces in SUI reserved lots and Faunce said "two to three times this many" use the unreserved lots.

TRAVEL TIME

GRAYLING, Mich. (AP)—Ben Delamater traveled 110 miles each way between his Grayling home and his Saginaw job for 16 years. He estimates there were 2,000 trips. That's 230,000 miles. He recently retired.

Karston To Begin Life Imprisonment

William G. Karston, 30, of Hamilton, Ill., was taken to the Fort Madison State Penitentiary Wednesday from Bloomfield to begin serving a life sentence for the robbery slaying of an Pulaski farmer.

A verdict of first degree murder was returned earlier Wednesday, after nearly 20 hours of deliberation.

Karston's attorney, George E. Flagg Jr., of Des Moines, said there would be no appeal.

The Rev. Seymour J. Gaines, 36, pleaded innocent Wednesday in Des Moines to a first degree murder charge.

The Rev. Mr. Gaines, pastor of Union Baptist Church, is accused of fatally shooting John Brown, 47, of Des Moines, on Jan. 15.

Hoegh Explains

Gov. Leo Hoegh said Wednesday in Des Moines that he restored the citizenship of William Haubrich so that Haubrich could qualify for office after being elected mayor of Mapleton.

Hoegh explained that an Iowa attorney general's ruling of 1912 and a Kentucky Supreme Court decision were that a governor could restore citizenship of a person sentenced for a federal offense.

SUI Physics Club To Study Cosmic Rays, Transistors

By ELDON LIBBY

A young organization at SUI has as its goal a better knowledge of science.

And to achieve this goal it is building equipment for cosmic ray balloon flights, powerful radio sets, and taking telescopic photographs.

Now 3 1/2 months old, the Physics Club will hold its first meeting of this semester today.

The organizer of the club, Prof. Fritz Rohrlch of the SUI Physics Department, said Wednesday that any student who wants to join the club may attend the meeting in room 311 of the Physics Building at 8 p.m.

He said requirements for joining do not include a scientific background, only the desire to learn by working on one of the projects.

The projects selected by the students at the original meeting concern work with solar batteries and transistors, digital computing techniques, cosmic ray observations and astronomy.

Prof. Frank McDonald of the Physics Department is assisting the students with the solar battery and transistor projects.

McDonald explained solar batteries as "devices for absorbing the sun's energy to make electric current."

He said that the students will set up various transistor circuits using the solar battery for power. (Solar batteries have been named as possible sources of energy for man-made earth satellites.)

McDonald said that the transistors can be used in place of vacuum tubes such as those found in radios.

The digital computing techniques project will be headed by a physics instructor Ernest Ray.

"A digital computer is about the same as a desk calculator except that the computer punches its own buttons electronically and operates much faster," Ray said. He said that tapes with mathematical combinations and numbers to be figured are fed to the machine. He

added that a digital computer can do figures in one hour that would take a man months to do with a desk calculator.

Prof. James Van Allen, head of the Physics Department, is in charge of the cosmic ray observation project.

Record Cosmic Rays
Van Allen said that the students working on that project will make equipment involving geiger counters and will learn the operation of the counters. He said that later in the semester rubber balloons six feet in diameter will carry equipment 18 miles high to record cosmic rays. The students will send the balloons up from a site near Iowa City, he said.

"For one flight, two or three balloons can carry the equipment to that height. When one explodes, the rest of the equipment will float down with the remaining balloons," Van Allen said.

Radio transmitters will send the information from the counters to receiving sets on the ground when the balloons are in flight, he said. He added that instructions on the equipment will request its return to SUI when it lands.

The fourth project will be guided by Prof. Hugh Johnson, of the Mathematics and Astronomy Department.

Johnson said that the students in his project would construct a camera to take pictures through the five inch telescope on the dome on top of the Physics Building.

"The camera will not need a lens since the telescope lens will be sufficient for the pictures," Johnson said.

Explain Einstein
At tonight's meeting Rohrlch will explain the "special" theory of relativity by Einstein for the laymen's understanding.

Rohrlch said, "Before Einstein, mechanics was based on Newton's law. Einstein found that Newton's mechanics is valid only for motion with speeds which are slow compared with the speed of light. For large velocities, Einstein constructed a new mechanics namely relativistic mechanics."

He said that the "general" theory of relativity differs from the "special" theory because it includes the theory of gravitation and is valid for all accelerated (changing speeds) motion.

He added that any student who has completed the mathematics skills requirement should be able to gain a general understanding of the theory from his talk.

Officers also will be elected at the meeting.

Prof. Rogow Writes Book

A new book by Prof. Arnold A. Rogow of the SUI political science department, will be published this spring by the Cornell University Press.

The book is entitled, "The Labour Government and British Industry, 1945-51." It was published in Great Britain Jan. 27, 1956, and is now on the market there.

Rogow gathered the information for the book while in England in 1951-52. His trip was financed by a fellowship from the Social Science Research Council. A series of interviews with about 150 persons helped contribute to the subject matter of the book.

The London Tribune plans to run Rogow's book in serial form in the near future.

John Strachey, former minister of food under the British Labor Government, had this to say about the book: "Mr. Rogow has an unerring eye for the key questions which faced the 1945-1951 Labour Government and which will face, in one form or another, its successors."

Dr. Bush Tells Lions Problems of Dentistry

One of the greatest difficulties of the practicing dentist is time, Dr. James Bush, SUI professor of dentistry, told members of the Iowa City Lions Club at their meeting Wednesday.

Dentists need time to sit down with their patients and talk about what they are going to do and why, Bush said.

Too many people do not know enough about the dentist's work, he said. The primary concern is with the outside layer of the tooth, the enamel, and with the two inner layers, dentine and pulp, he explained.

The x-ray is used to detect cavities in these inner layers, Bush said. "X-ray is an insurance policy against making errors," he said.

Each person can do 90 per cent of prevention of tooth decay himself, Bush stated. Reducing the frequency of sugar intake and brushing the teeth frequently will accomplish this, he said.

"There is great hope for the future of prevention in fluoridation," Bush said. There is a decrease of 60 to 70 per cent of decay in a child's mouth if they have fluoride in the drinking water during development of the teeth, he stated.

Bush warned against the use of fluoride toothpaste by small children. "Too much fluoride can cause the enamel to become mottled," he explained.

For protection of the teeth, both children and adults should have x-rays taken of their teeth every six months, Bush said.

RATIONED ANGER
COLLEGE PARK, Ga. (AP) - Mr. and Mrs. William T. Wheeler after 70 years of married life agreed on a simple formula for keeping a marriage functioning and it is: "Don't both get mad at the same time." Wheeler is 91, his wife 86.

Co-op Engineer Plan Set by Grinnell-SUI

Special to The Daily Iowan

GRINNELL - A cooperative engineering curriculum has been established by Grinnell College with the SUI College of Engineering, President Howard R. Bowen announced Wednesday.

The five-year combined program was worked out by Prof. Wayne B. Denny and Prof. Grant O. Gale of the Grinnell physics department in consultation with Dean F. M. Dawson and Prof. Joseph W. Howe of the SUI College of Engineering.

Known as the "3-2" plan, the curriculum permits a student to attend Grinnell for three years, concentrating in mathematics and the physical sciences, then take two additional years of engineering study at SUI. At the end of the five years, the student will receive his A.B. degree from Grinnell and a B.S. degree in engineering from SUI.

"Graduates with this type of training are now very much in demand by industry and other fields," said Gale, guidance adviser at Grinnell. "For a number of years now, the trend has been for advanced technical schools as well as employers to encourage longer and broader study in preparation for professional careers in engineering," he explained.

The new program with SUI is similar to the five-year combined engineering programs Grinnell has had for the past several years with Rensselaer Polytechnic Institute, Troy, N.Y., and the School of Engineering at Columbia University.

General contractor for the improvements is Bert Newsome, of Des Moines.

Workmen are now completing the laying of industrial composition tile in the workroom of the Iowa City Post Office, Postmaster Walter J. Barrow said Tuesday.

The tiling is part of a \$18,876 improvements program which has been underway for the past several months.

The program includes interior and exterior painting, installation of handrails at the entrances, replacement of roofing, removal of the old flagpole from the roof, placing of a new steel flagpole in front of the building and the installation of swinging doors into the vestibule.
