Gromyko Takes Over Shepilov's Soviet Job

Foreign Post Switch Signals 'Tough' Policy

MOSCOW (AP)—The Soviet Government changed foreign ministers Friday, relieving bushy-haired Dimitri Shepilov after only eight months in the office. Unsmiling Andrei Gromyko succeeded him.

Westerners in Moscow believe the reshuffle is a signal for a return to the tough policies of former Foreign Minister V. M. Molotov. Dour, noncommittal Gromyko rose to prominence under Molotov, and is regarded as a follower of Stalinist lines.

On the other hand, easy-spoken Shepilov was regarded as a protégé of Nikita Khrushchev, first secretary of the Communist Party.

Last year Khrushchev downgraded Stalin and adopted a let-live policy toward independent Communists in the satellites — policies from which the Soviet Party shows signs of retreating.

Gromyko, as former ambassador in Washington and representative at the United Nations, has symbolized in Western eyes the Russian postwar habit of saying "No" and casting vetoes.

There was no indication Shepilov was being purged. He returns to his old post as one of the eight secretaries of the powerful Communist Party Central Committee under Khrushchev. He was relieved of the secretariat job less than two months ago to allow him more time for his Foreign Ministry duties.

Before his appointment as foreign minister to replace Molotov last June 1 he was editor of the Party newspaper Pravda.

He replaced Molotov last June on the eve of a visit to Moscow by Yugoslav President Tito. The change looked like an appeasement of Tito. Molotov had taken a leading role in ejecting Yugoslav Communists from the Cominform in 1948.

Today the Kremlin, warned by the revolt in Hungary and the rise of an independent-minded Communist regime in Poland, no longer has such warm forgiveness for Tito.

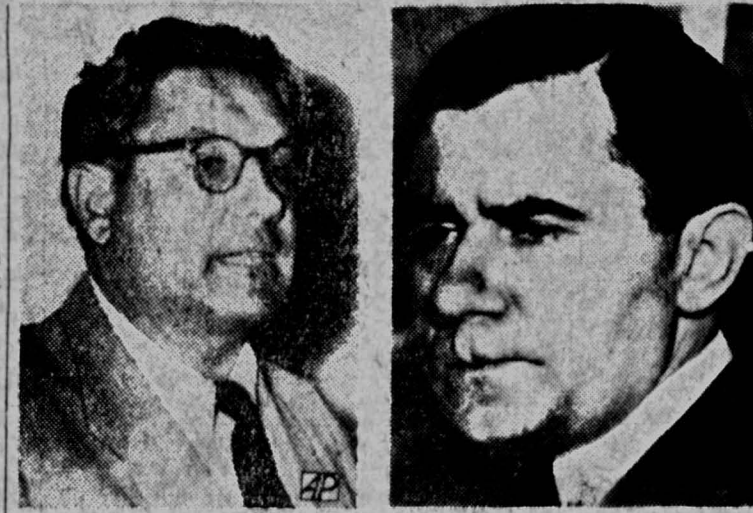

Gromyko attained a full membership in the Party's Central Committee a year ago. He is 47, four years younger than Shepilov.

Gromyko became deputy foreign minister in 1948. In 1953, after a year as ambassador in London, he was made first deputy foreign minister.

This was the fourth time since World War II that the Soviet Foreign Ministry has changed heads.

Molotov gave way to the late Andrei Vishinsky in 1949, but reclaimed his old job March 6, 1953, in the reorganization after Stalin's death. Molotov stayed until last June when Shepilov took over.

Molotov now is head of the Soviet Committee of Control, a high-level auditing and investigating agency which can poke a finger into almost any corner of the government apparatus.

Dimitri Shepilov Andrei Gromyko

Israelis Say No To Troop Removal

WASHINGTON (AP)—Israel Friday rejected, in effect, an American plan for withdrawal of Israeli troops from disputed Mideast territory. It offered a counterproposal which the State Department promptly labeled "not responsive."

The negotiations on a 2-part proposal put forward by Secretary of State John Foster Dulles continued. But they were understood to be foundering on Israel's insistence on a nonbelligerency pledge from Egypt or stronger assurances of American support before pulling out of the Gaza Strip and Gulf of Aqaba area.

After authorizing a statement of "regret," Dulles left a meeting with Israel's Ambassador Abba Eban and headed for Washington's National Airport. He took off with Henry Cabot Lodge, ambassador to the United Nations, for a hurry-up conference with President Eisenhower Friday night and Saturday at Thomasville, Ga.

The State Department said the conference would take up Dulles' efforts to get Israeli troops out of Egypt as well as other foreign policy problems.

Eban spent 75 minutes with Dulles at the State Department. It was a long-heralded conference at which Eban was expected to reply to Dulles' proposal to him last Monday.

This proposal was that Israeli forces quit the Gaza Strip and Gulf of Aqaba area on assurances that the United States would:

1. Support the right of all ships to "innocent passage" through the Strait of Tiran into the Gulf of Aqaba.
2. Pledge to work for stationing UN forces and observers along the borders of the Gaza Strip to prevent any terror raids.

Eban was expected to reply to Dulles and request further clarification. However, after the meeting, State Department press officer Lincoln White issued a statement with Dulles' approval.

"We regret," it said, "that the ambassador's reply does not seem responsive to the U.S. positions communicated to Mr. Eban last Monday. The matter is being further studied on both sides and we are awaiting further clarification of the Israeli position as set forth by Ambassador Eban today. We expect to be in close touch with the ambassador before Monday."

Ambassador Eban was besieged by reporters when he emerged from his meeting with Dulles. He said he had handed Dulles a document setting forth Israel's views and had backed up this paper with an oral argument.

"We believe that our proposal is appreciative of American interest in this subject and constructive in its spirit and content."

But U.S. officials who saw the Israeli counterproposal also called it "negative."

Eban said the proposal could not be described as "the latest views" of the Israeli Government. Rather, he said, they were the "latest formulation" of Israeli views, which had not changed.

Eban said the proposal could not be described as "the latest views" of the Israeli Government. Rather, he said, they were the "latest formulation" of Israeli views, which had not changed.

Key Senate Groups Endorse Mideast Plan

WASHINGTON (AP)—Two key Senate committees declared Friday they strongly support President Eisenhower's program to use military force, if necessary, to defend the Middle East against Red aggression.

The Foreign Relations and Armed Services Committees issued a joint report on the subject. The report was sent to the Senate along with a modified version of Mr. Eisenhower's Middle East resolution.

Although the language of the resolution was changed by the committees, they said the revised version "strongly supports" the President. They said the changes clearly provide that "should aggression occur and should American help be requested, help would be forthcoming promptly and forcefully."

Beside the military features, the resolution waives restrictions on the use of up to \$200 million of foreign aid appropriations to enable the President to give military and economic assistance to nations in the Mideast. The President had asked this power also.

The two committees urged congressional adoption of the revised resolution "to put the Soviet Union on notice that Communist aggression in the Middle East would be a serious threat to the vital interests of the United States."

The committees' report served to back up Mr. Eisenhower's stated opinion that the resolution, as revised by committee Democrats, "is intended and designed to accomplish the purposes" he sought.

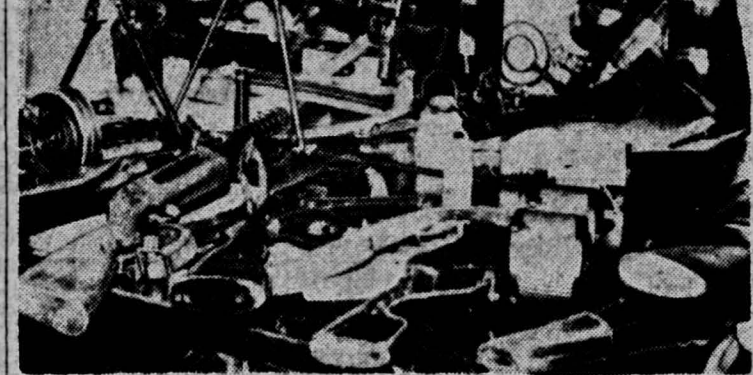

Last month the House passed the resolution in substantially the same form as Mr. Eisenhower submitted it in a special message to Congress Jan. 5.

The Senate committee struck out language giving the President "authority" to use U.S. troops against any overt Communist aggression against a Mideast nation. It substituted an amendment saying: "If the President determines the necessity thereof, the United States is prepared to use armed forces."

Switch On

SAGINAW, Mich. (AP)—Sam Williams, 74, hired to shut off outdoor Christmas light decorations in a business district, pulled the switch on a red box. Moments later, he was surrounded by firemen who showed him the right one.

Arsenal Uncovered

SAN FRANCISCO NARCOTICS CHIEF George White, left, talks with Haig Terzian after the latter's arrest on a charge of possessing a marijuana cigarette led to the discovery of a huge arsenal — including 16 machineguns in working order, in his home and that of a friend. Terzian calls himself a "gun collector" but authorities are investigating possible illegal aspects of many of the weapons he has assembled.

THREE YOUNG PUPILS at Holy Rosary school in Pittsburgh, Pa. kneel in prayer at a church while firemen fight a 6-alarm blaze Friday which caused extensive damage to the interior of the school. The blaze broke out while nearly all pupils of the school were at home for lunch during the noon recess. All children were safe from the fire. Nuns led them to prayer in the church as they returned for classes.

Bomber Crew Brings Flaming Plane to Base

SAVANNAH, Ga. (AP)—A B-47 bomber crew battled flames in the plane 180 miles out over the Atlantic Friday and brought the craft home safely after one man had parachuted and another had lost consciousness.

Radio messages indicated the 4-man crew first decided to ditch the bomber when fire broke out in the tail section as it cruised over the ocean on a training flight.

After one man parachuted it was discovered that another was unconscious, apparently from lack of oxygen. The pilot then headed for Hunter Air Force Base here, home base of the plane.

Capt. Charles E. Steward, Baytown, Tex., regular observer aboard the bomber, parachuted. The Coast Guard reported a Navy plane dropped a life raft to him and that he was picked up later by the merchant vessel Rio Dale. A later ship-to-shore phone call said he was uninjured.

Air Force officials hurried the three returning crewmen to a hospital for a checkup. All were reported in good condition. Later they were questioned by a board of inquiry. Newsmen were unable to talk to the trio.

Radio messages received in Charleston indicated the crew had decided on ditching after the fire developed. Then it was discovered that Lt. Alfred A. Raneri Jr., of Omaha, Neb., had passed out from lack of oxygen.

Capt. John F. Nielsen of Miami, Fla., the pilot, decided to try and reach Hunter. The flames had been extinguished when the bomber landed. It circled the field until its fuel load was reduced, before attempting the landing.

Also aboard was Capt. James L. Pentz Jr., of Memphis, Tenn. The bomber took off from Savannah on a routine flight.

The Weather

Cloudy and Cool

The early February spring will come to an end today. Though there is no need to get skates ready again, the Iowa River might be covered by thin ice over the weekend.

The weather wizard predicts temperatures in the upper 20's for today, with no change seen for the remainder of the weekend.

Winds will diminish during the morning and clouds are predicted to hang around most of the time today. Rain however is not expected.

Tickets for University Theatre's 'Othello' Gone

Tickets for the University Theatre's production "Othello" were all gone early Friday morning for the remaining performances.

Stands tickets may still be obtained by students with the presentation of ID cards at the Theatre in the Dramatic Arts Building on the night of any performance.

Stands will have to wait in the Green Room of the Theatre and at certain times, they can take any unclaimed seats or sit on the steps at the side.

The current production will be presented tonight and on Monday, Tuesday and Wednesday evenings.

The current production will be presented tonight and on Monday, Tuesday and Wednesday evenings.

Students in the Graduate College and the Colleges of Commerce and Liberal Arts may pick up their grades in the basement of University Hall Tuesday from 8:30 a.m. to 12 noon and 1 p.m. to 4:30 p.m. Students in the professional colleges can get their grades from the dean of their respective colleges Tuesday.

Unknown Marksmen Start Terror Wave

PRINCETON, Ind. (AP)—The night rider terror of a 103-day-old strike at a Princeton electrical relay plant spread to Evansville Friday with a report of shots fired over a home.

Sheriff Earl Hollen said feeling is running high in Princeton and nearby Oakland City and "there is fear among the people," especially since a baby was shot through the head early Wednesday.

The 4-month-old baby, Julia Ann Russell, remained in critical condition in Deaconess Hospital. She was shot in her crib by one of seven bullets fired into the trailer Mr. and Mrs. Ronald Russell, in Oakland City.

The strike started Nov. 5 over the firing of the local union president for unexplained absences from work.

'Atomic' Lightning Rod Bought For Lincoln's Tomb

ST. LOUIS (AP)—An old-time lightning rod salesman has sold the State of Illinois on the merits of his "atomic lightning arrester" and has his sights set on the nation's Capitol and other public buildings.

"First real advance in lightning rods since Benjamin Franklin flew his kite," said Charles A. Sargent, who has been selling lightning rods for 61 years.

Workers are installing one of Sargent's "radio activated" devices on Abraham Lincoln's Tomb near Springfield, Ill., on the premise it will "pull static out of the air" and in effect stop a lightning bolt before it strikes.

The gadget is a 12-inch rod surmounted by a copper disk 9 inches in diameter and containing what Sargent described as "a secret radium formula" discovered by a Belgian inventor.

"It's a combination static eliminator and lightning preventer," said the 77-year-old St. Louisan. "The more radium, the more power."

Old-fashioned lightning rods are simply metal conductors put on a structure to convey a stroke of lightning to the ground, but Sargent said his device is something else again.

"It collects the negative electricity over a wide area and conveys it into the ground," he said. "Without any negative electricity in the air there can be no stroke of lightning in this vicinity because it takes a joining of positive and negative electricity to produce lightning."

Sargent sold his "atomic lightning arrester" to a sub contractor for about \$800 after expounding its virtues to the office of the Illinois state architect and others. The sub contractor is engaged in an overall \$28,000 repair project at Lincoln's Tomb, damaged by a lightning bolt last May.

The Lincoln Tomb sale is his first, Sargent said, but he hopes to sell them for the Capitol in Washington, the Senate Building, the Truman Library at Independence, and other public buildings.

Mrs. Jackson was quoted as saying, "Well I'm not too scared. He's threatened me so many times I'm used to it."

Witnesses in the store said Mrs. Jackson saw the man approaching through the crowd and screamed, "Help me! My husband is after me."

Mrs. Jackson ran around corners with the man in pursuit. He cornered her.

An employee seated at a desk in the office, said the man shouted, "You don't have to run. It won't do you any good."

Then, she said, he raised the gun and began firing.

Two women customers fainted during the uproar.

Shoots Wife In Crowd

DETROIT (AP)—A man waving a .32 caliber revolver chased a woman clerk through hordes of bargain hunters in the second basement of Detroit's largest department store Friday, shot her dead and escaped through the crowd.

The victim was Mrs. Helen Jackson, 50, a clerk at the J. L. Hudson Co. for nearly 19 years. She was shot three times in the stomach.

A detective identified her assailant as her estranged husband, Rolin J. Jackson, 52, of suburban Dearborn.

Mrs. Jackson and her sister had reported to police Thursday that Jackson had threatened to kill both of them.

Mrs. Jackson was quoted as saying, "Well I'm not too scared. He's threatened me so many times I'm used to it."

Witnesses in the store said Mrs. Jackson saw the man approaching through the crowd and screamed, "Help me! My husband is after me."

Mrs. Jackson ran around corners with the man in pursuit. He cornered her.

An employee seated at a desk in the office, said the man shouted, "You don't have to run. It won't do you any good."

Then, she said, he raised the gun and began firing.

Two women customers fainted during the uproar.

Crowell-Collier Prexy Resigns His Position

NEW YORK (AP)—Paul Smith resigned Friday as president of the financially harassed Crowell-Collier Publishing Co.

Crowell-Collier recently abandoned publication of the American magazine, Collier's and the Current Security and Exchange Commission (SEC) is investigating a Crowell-Collier \$4 million bond issue in 1955-56. The Commission seeks to determine if the publishing firm misrepresented the sale of the issue as "private" and thus not subject to SEC registration.

University Briefs

ORIENTATION — Women students wishing to serve as orientation leaders for the 1957 fall semester should make interview appointments before Feb. 25 at the Office of Student Affairs.

Sandy Swengel, A3, Muscatine, chairman of the 1957 women's orientation group, said 200 leaders and assistants are needed for the fall program beginning Sept. 21. The interviews, conducted by the AWS orientation committee, will be held Feb. 18 to 25.

UNIVERSITY CLUB — Members of the University Club will entertain new SUI foreign students at supper Sunday. This is one of a series of events planned by the club to honor foreign students.

Mrs. Frederick C. Blied is chairman of this committee. She announced that any townspeople who wish to entertain foreign students should contact Mrs. Wallace W. Maner, hostess at the SUI International Center.

LAKESIDE LABORATORY — The 1957 Summer Session at Iowa Lakeside Laboratory, west shore of West Okoboji Lake, is the subject of the monthly bulletin printed by the SUI Extension Division.

Five thousand copies were printed. These will be sent to Iowa high school principals and superintendents, science teachers in Iowa high schools and colleges, and to a selected group of science teachers in bordering states.

AMA REPORT — Military service confronts most of the medical students in the country's 76 approved 4-year medical schools, the American Medical Association (AMA) announced in a recent report.

During the 1955-56 academic year, 81.5 per cent of all male students enrolled were subject to military service.

Male students with military liability in 1955-56, constituted 81 per cent of the first year class, 82 per cent of the second year, 82.5 per cent of the third year, and 80 per cent of the fourth year.

SUI to Host Girl Scouts

Some 300 Girl Scouts from Iowa City, Coralville, West Branch and Lone Tree will visit the SUI International Center next week as a high light of Girl Scout International Month.

Anita May, C3, Germany, is chairman of the SUI Foreign Students Committee planning entertainment for the Girl Scouts, who will be guests at the International Center in groups of 60 from 4 to 5 p.m. Monday through Friday. This will be the fourth year that the Center has held open house for Girl Scouts.

Exhibits being arranged for the Scouts' visit include dolls from all over the world, jewelry, books and textiles woven from unusual fibers. Foreign students will take the Girl Scouts on an "arm-chair tour" of the 42 countries represented on the SUI campus.

Folk dances and songs, talks on traditions, and the showing of colored slides made at the rural International Festivals add to the campus in December are scheduled for open house entertainment.

Engle Hits Ivy League Attack on Big Ten

By JOHN BLEAKLY
"Wisdom is a butterfly, and not a bird of prey."

With these words of poet W. B. Yeats — and an impressive number of facts — SUI English Prof. Paul Engle, a poet himself, contrasts the Big 10 universities with the Ivy League Schools in the March issue of "Holiday" magazine.

In a 13-page article, "The Mighty Big Ten," Engle defends the mid-western schools' philosophy of education against the more formal concepts of the eastern schools.

Engle's article is a reply to "The Ivy League Colleges — Their Natural Superiority," by Prof. Henry M. Robinson of Columbia University, published in the November, 1955 "Holiday."

In an easy-flowing style, Engle, head of the SUI Creative Writer's Workshop, outlines the advantages of the large state university — "the university for all the people."

The state university's large number of courses — from home economics to nuclear physics — and the lack of uniformity on campus help to make the Big 10 schools a source of training and hope for the modern generation, Engle writes.

Big 10 schools are well represented in the arts and music and drama, Engle continues. Looking at SUI, he points to the annual Midwest Student Composer's Symposium in which SUI participates.

At another point, when discussing the "big business" of Big 10 college football, Engle relates the views on athletic subsidization of Iowa's quarterback Kenny Floen.

Engle's article is not all praise for the giant mid-western schools, however. They are growing too fast, he writes; there is a tendency to tolerate mediocrity and too much emphasis on specialized education.

At times, he continues, research is overemphasized — sometimes to provide "facts" to present to "practical-minded" legislators.

Nevertheless, Engle concludes, the Ivy League, with its education for the few, is only a parasite on the mighty Big 10, with its education for many.

"I CAN'T DRIVE FOR THE GENERAL TOMORROW WITH THOSE CRUMPLED FEATHERS! I WANT YOU MEN TO PUT ON NEW ONES!"
"BUT WHERE WILL WE GET THEM?"
"BORROW THEM! GET THEM FROM THE JUNK YARD—ANYWHERE! USE YOUR IMAGINATION!"
"READY TO GO, SIR."

Tigers Favored Over Iowa Trackmen In Indoor Opener

Tigers Take On 3rd-Place Spartans On Road Tonight

Assumes its spoiler role in Big 10 Basketball race taking on Michigan State's proving Spartans at East Lansing, Mich. tonight.

The Spartans, tied for third with conference mark, must win in the running for the Iowa, in eighth place with record, has no such compulsion.

The Hawkeyes gave evidence of their lowly position with a 74-67 victory over Purdue Saturday that they might not be of their lowly position.

The Iowa State had to overcome a 10-point deficit to tie the Purdue club, 88-88, in the last second Monday game.

The official starting lineup for Iowa includes Tom McConnell in place of Bill W at guard, but indications are that the dead-eye Chicago guard — now the leading scorer of the Hawkeyes with 183 points — has regained his job with Saturday's 19-point effort.

Hawkeye starters will be Martel at the other guard, Gunther at one forward and Billy George Seaberg at the center.

Michigan State, which lost its first three conference games and now has won five straight, will start George Ferguson (6-3) and Larry Hedden (6-5) at the forwards, John Green (6-5) at center and Jack Quiggle (6-3) and Pat Wilson (6-0) at the guards.

From all appearances, it would seem that Green is the boy who is making the Spartans click. They haven't lost since he became eligible at the semester.

Green is a service returnee who didn't play basketball in high school. Although he has averaged 11.2 points per game, his chief forte is his tremendous jumping ability. He has grabbed 84 rebounds in only seven games, only 17 less than Hedden — the Spartan rebounding leader — has collected in 15 contests.

Michigan State, which has a 9-7 record for the season, has averaged 73.6 points per game. The Spartans have given away 69.7 points per game to opponents.

Iowa, 7-8 overall, has averaged 68.8 offensively and 68.5 on defense. Hedden is the top Spartan scorer with 213 points for a 14.0 average, but Quiggle, who missed one game, has figured in 210 points for a 15.0 per game average.

Game time is 7 p.m. (CST). The game will be broadcast by radio stations WMT and KCRG, Cedar Rapids, and WSUI in Iowa City.

Take a 2-minute preview of your path to RCA engineering

Specialized training program

Earn a regular professional engineering salary as you work on carefully rotated assignments giving you a comprehensive view of RCA engineering. Your individual interests are considered and you have every chance for permanent assignment in the area you prefer. Your work gets careful review under RCA's advancement plan and you benefit from guidance of experienced engineers and interested management.

Following training, you will enter development and design engineering in such fields as Radar, Airborne Electronics, Computers, Missile Electronics, For manufacturing engineers, there are positions in quality, material or production control, test equipment design, methods. You may also enter development, design or manufacture of electron tubes, semiconductor components or television.

Direct hire

If you are qualified by experience or advanced education, your interests may point to a direct assignment. The RCA management representative will be glad to help you. Many fields are open . . . from research, systems, design and development to manufacturing engineering . . . in aviation and missile electronics, as well as radar, electron tubes, computers, and many other challenging fields.

... and you advance

Small engineering groups mean recognition for initiative and ability, leading on to advancements that professional as well as financial. RCA further helps your development through reimbursement for graduate study under a liberal tuition refund plan.

Now . . . for a longer look at RCA

See your placement director about an appointment with an RCA engineering management representative who will be on campus . . .

WEDNESDAY, FEBRUARY 27, 1957

Talk to your placement officer today . . . ask for literature about your RCA engineering future! If you are unable to see RCA's representative, send your resume to: Mr. Robert Haklisch, Manager College Relations, Dept. CR-632 Radio Corporation of America Camden 2, New Jersey

Injuries Hurt Hawkeyes in Key Events

A bruised and battered Iowa track team will entertain Missouri in the first home dual of the Hawkeye indoor season today.

Field events will start at 1:30 p.m. Running events will begin at 2 p.m.

The Hawkeyes, with at least six men hampered by injuries, must rank as the underdogs against the powerful Tigers.

The Iowa injury list reads like this:

Gardner Van Dyke — out of the pole vault with a vertebral injury in his back.

Tom Burrows — out of the 60-yard dash with an injured leg.

George White — sidelined in the hurdle competition with a pulled muscle.

Red Wilson — out of the 880-yard run with a pulled muscle.

Dave Ingram — hampered by a bruise or pulled leg muscle in the 70-yard low hurdles.

Gastonia Finch, letterman quarter miler — slowed by a muscle kink.

The chief hope for the Hawkeyes lies with Charles (Deacon) Davis, Olympic distance man, and Jack Mathews, Iowa's No. 1 hurdler, and second-place finisher in the Big 10 last year.

Jones appears certain to capture two firsts in the mile and two-mile runs, but Mathews may run into trouble from Charles Batch, who broke a couple of 60-yard hurdle records as Missouri beat Kansas State last week.

Because of the time schedule, Jones will be unable to try for a triple win — in the 800, mile and two-mile — which he accomplished in the Wisconsin-Northwestern triangle last week.

The loss of Van Dyke, rated one of the top vaulters in the Big 10 this season, gives Missouri an undisputed sweep in the pole vault.

The Hawkeyes have no other vaulter capable of placing in competition.

Karl Englund, the Missouri jumper who went 14 feet, one-half inch at the Michigan State Relays, probably would have been given a favorite's role anyway.

Finch, second in the Big 10 indoor and outdoor meets in 1956, will hook up in a 440-yard dual with Pete Orr, Missouri's Big 7 champion in the event.

Joe Camamo, Iowa's top broad jumper, will fight it out with Dick Strinni of the Tigers, and indications are that Camamo will have to exceed his personal best to win.

Iowa has no men in the 60-yard dash, half mile, shot put or high jump who can match the best marks of Tiger athletes.

The mile relay, however, with Camamo, Tom Ecker, Finch and Gary Meeks or Fred Hartman running for the Hawkeyes, promises to be a battle.

Hawk Mat Team Beats 'Cats, 16-12

Special to The Daily Iowan
EVANSTON, Ill. — Iowa's Barron Bremmer pinned Chuck Laws of Northwestern in the heavyweight match, the final event on the program, to give the Hawkeyes a 16-12 wrestling victory here Friday.

It was the first loss of the season for the Wildcats after five wins and two ties.

It was the fifth win against two defeats for the Hawkeyes.

Ken Kraft, Northwestern 167-pounder, sent Northwestern into a 12-8 lead with a 5-2 win over Jim Craig of Iowa, but Tom Shaheen of the Hawkeyes won his first match of the year, a 5-2 decision over Carl Bittner in the 177-pound division, to narrow the gap to 12-11.

Then Bremmer sacked it up for Iowa with 5:52 gone in his match.

Other winners for Iowa included Ralph Rieks, by forfeit in the 137-pound class and Simon Roberts at 147 pounds.

The Hawkeyes again wrestled without the services of Gary Kurdelmeier, their ace 177-pounder who is sidelined with an arm infection.

Iowa will meet Wisconsin at Madison in another dual today.

173 pounds — Don Duck (N) defeated Larry Moser, 3-2.
156 pounds — Don Wehrle (N) defeated Gene Luttrell, 3-3.
137 pounds — Ralph Rieks (I) won, by forfeit.
147 pounds — Simon Roberts (I) defeated Steve Propeck, 6-1.
157 pounds — Chuck Arends (N) defeated Tom Halford, 3-2.
167 pounds — Ken Kraft (N) defeated Jim Craig, 5-2.
177 pounds — Tom Shaheen (I) defeated Carl Bittner, 5-2.
Heavyweight — Barron Bremmer (I) pinned Chuck Laws, 5:52.

Iowa Meets Michigan in Pool Today

Iowa's swimming team will attempt to break the Michigan spell over the Hawkeyes in all sports when they tangle with the Wolverines at 2 p.m. today at Ann Arbor.

Thus far, the Hawk splashes have lost only one meet, a one-point defeat to Illinois.

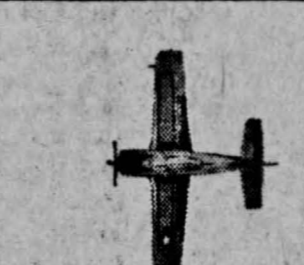

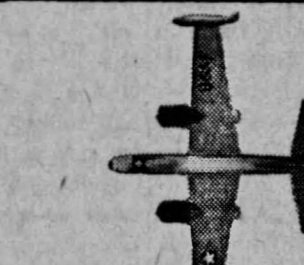

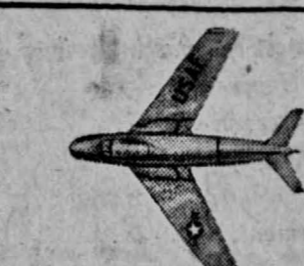

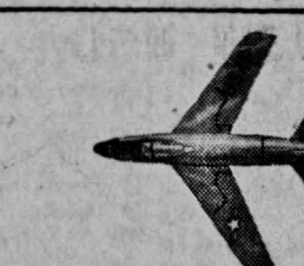

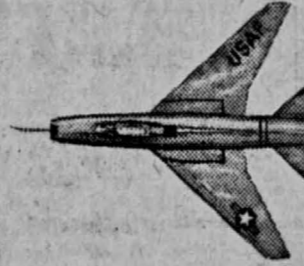

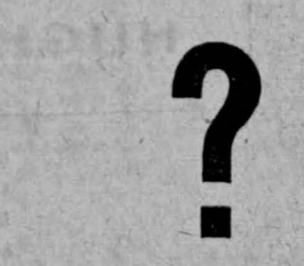

There is every indication that today's meet will be the tale-teller as to what team will be favored in the Big Ten championships at Minneapolis in March. Iowa Coach Dave Armbruster labeled the meet the "most crucial and toughest on the schedule."

The Michigan fans will see two of the Big Ten's outstanding sprinters clash, Iowa's Gary Morris and the Wolverine's Dick Hanley. Morris set two Minnesota pool records in last week's match with the Gophers. The sophomore speedster from Clinton also holds the Iowa records in the 100 and 220 yard freestyle races. Hanley, also a sophomore, won fifth place in the Olympic 100 meters at Melbourne.

Kim Austin will go for the Hawks in the breaststroke while Jake Quick and Estell Mills handle the diving chores. Coach Armbruster said, "The outcome of the meet hangs on these three events (sprint, breaststroke, diving). The rest of the points depend on Earl Ellis and Tom Jacobson." Bob Pratt and Jim Davidson will participate in the sprint relays.

Armbruster pointed out that where Iowa was strong so was Michigan, the reason why the meet will be close all the way.

NORTH AMERICAN HAS BUILT MORE AIRPLANES THAN ANY OTHER COMPANY IN THE WORLD

 T-28 Worthy successor to the world famous AT-6	 B-45 America's first four engine jet bomber
 F-30 The Sabre Jet that turned the tide in the Korean War	 F-80D America's first all-weather, one-man interceptor
 F-100 America's first operational supersonic fighter	

Engineers, scientists, physicists, mathematicians . . .

LIKE TO HELP WITH THE NEXT ONE?

The North American airplanes of the future will come from the creative potential of today's young men. Possibly you — or members of your graduating class — will help to engineer them. One thing is certain. They will have to be the best to merit the space reserved alongside the famous North American planes pictured in this ad.

Designing the best airplanes to meet the demands of the future is the challenging work North American offers to graduate engineers and to specialists in other sciences. If you want to work on advanced projects right from the start . . . enjoy recognition and personal rewards . . . live and work in Southern California . . . then join North American's outstanding engineering team.

See your Placement Officer today to arrange for an appointment with North American Engineering representatives . . . they will be on campus on:

February 18

If you are not available at this time, please write:

Iowa Fencers Meet Badgers, Spartans

Iowa's fencing squad tries to advance above the 500 mark in the victory column today when they face tough Wisconsin and Michigan State at Madison.

The Hawkeye dualers have wins over Indiana and Indiana Tech, while losing to Notre Dame and Wisconsin.

Hawk coach Frank Craig Friday gave this tentative lineup: Bob Bring and Brad Bathey in foil; Bob Hicklen and Bill Bulguren in sabre; and Dave Dittmer and Phil Shore in epee.

Bailie's 3 Firsts Give Gym Team 56½-55½ Victory

Special to The Daily Iowan
ANN ARBOR, Mich. — Iowa's unbeaten gymnasts remained that way — but just barely — Friday, defeating Michigan 56½-55½ for their seventh straight victory.

Again it was Sam Bailie who paced the Hawkeyes to their win. Bailie captured first places in the free exercise, sidehorse and flying rings events and took second on the high bars, the parallel bars and the trampoline.

The night's work by the little Iowa star was worth 30 points to the Hawkeyes.

Joe Tim, who captured the trampoline competition, won Iowa's only other first place.

The gymnasts will move on to East Lansing tonight, where they will take on Michigan State's Spartans in a dual meet.

Klein, Janda Okay After Knee Surgery

Two Iowa football players who underwent knee operations Friday came through the surgery with flying colors, according to Dr. W. D. Paul, team physician.

The gridders, tackle Dick (Sleepy) Klein and reserve fullback Jon Janda, were in satisfactory condition after going under the knife Friday morning for correction of cartilage ailments, Dr. Paul said.

The Hawkeye physician said both would be shape to participate in spring drills.

Klein is a sophomore and Janda a junior.

Both sustained the knee injuries during the regular 1956 season.

YOU CAN HELP ME A LOT BY:

- Being at home or having someone else there, or
- Arranging with a neighbor to let me in, or
- Leaving a key at our office.

Many Thanks!

IOWA ILLINOIS Gas and Electric Company

IT'S A DATE TO READ YOUR METER

Mark your calendar, date book, or memo pad! We've set twelve big dates with you in 1957. The reading date card you've received from Iowa-Illinois, like the typical one shown above, tells you just when your meter reader will call.

This new system is intended to give you better service. Our 38 meter readers throughout the company read over 227,900 meters every month, so they're mighty busy — just like you. We thought if you knew when to expect our man you'd like to arrange for a neighbor to let him in or leave a key at our office if you can't be at home. It's one way you can help us serve you better.

We'll appreciate your help. Keep your date card handy.

yours for better living

Delay In U Need

UNITED

The United States has delayed the Middle East for Israel to Israel's stalemated UN.

The UN Assembly session scheduled for next week has been postponed because of the delay.

This was said, so Israeli Eban could not consult with David Ben-Gurion.

Israelis are completely satisfied with the UN Assembly meeting for which they are planning demands for sanctions.

A leading Arab spokesman called the UN Assembly meeting for which they are planning demands for sanctions.

Jamali said the cause of the rael "even sanctions" to Arab refugees said the problem affected the whole Middle East.

The United States so far in direct Israel to persuade Egypt, leaving the situation in the hands of the Arab states in shaping up the situation.

Some other were consulted with the hope which would out imposing or military force. It was reported one of these countries.

Canada was hoping for a revival of the UN for the Assembly instructions to the gency Force behind the Israel withdrawal from the Gaza Strip.

The Canadian earlier this year more vague the United States vague resolution and the Canada another turn.

The Arab pressing for against Israel Israel's failure UN requests Egypt.

They held a direct consult President Eban State J attempted to prevent an American withdrawal of Israel failed over the Arabs are ready for sanctions in Washington.

In Washington White House discuss the Middle East.

Announcing William Knowlton the Republican surmises that Mr. Eban is ready at that leaders what fraction plans.

Earlier, it Thoms, however, was cautious and flying today.
