

# 29 Die; Spring Blizzard Heads East

By THE ASSOCIATED PRESS  
Unseasonable blizzards raged through the Great Plains and Great Lakes region Monday, isolating communities, stranding travelers and leaving at least 29 dead.

It was the worst springtime blast in 30 years throughout the area of thousands of square miles.

Storm losses were expected to run into millions of dollars. Drifts in some sections of the Great Plains were 20 feet high. Small towns — overcrowded with refugees from trains, autos and buses — were reported running short on power and food.

Four persons were found dead in an automobile near Hooker, Okla., and in Nebraska an elderly woman in a car stuck behind a bus died, apparently of a heart

ailment. Another man was discovered dead in his auto near Atwood, Kan., and two were frozen to death in Texas.

In Illinois a 7-year-old school girl was killed when a truck hit the rear of a school bus during a snow storm at Wooddale, and five persons died at Effingham when two cars collided head-on in a driving rain storm.

An Iowa woman was found dead in her car near Normal, and her death was attributed by a coroner's jury to a heart ailment suffered during the storm.

Approximately 425 passengers of two trains stuck in western Kansas snowdrifts since Sunday were rescued after a highway was cleared to the scene, near Meade, Kan.

westbound City of St. Louis streamliner near Winona, Kan., were taken to Oakley, Kan., by five school buses. Union Pacific headquarters at Omaha said they were being housed in a school and a Masonic hall.

The other train was the Rock Island's eastbound Golden State Limited from which 225 were rescued after a highway was cleared to the scene, near Meade, Kan.

They had been on limited rations, and without water or heat. The locomotive and first five cars of the cross-country flyer were buried under snow in a 15-foot cut.

At least 25 passengers of the Rock Island train were overcome by carbon monoxide fumes during their isolation aboard the train. They were treated by a doctor who reached the train late Sun-

day. He was brought by a National Guard snow tractor.

Four other trains were held up since Sunday in the same general area because of impassable tracks ahead of them. They are the east-bound and west-bound sections of the Missouri Pacific's Colorado Eagle and the Santa Fe's Grand Canyon Limited.

These four trains were being held up at three separate towns until tracks are cleared, the west-bound Eagle was at Hoisington, the east-bound Eagle at Horace, near the Colorado border; and both sections of the Grand Canyon Limited at Garden City. Facilities for passengers were either available aboard the train or in the towns, general agents in Kansas City said. Those aboard were "doing okay" they said.

Snowdrifts, some as high as 20 feet, latticed the high plains from the Texas Panhandle to southwest Nebraska.

Skies began clearing in the extreme western part of the storm belt enabling a more careful search of highways. Early results of this grim task: four dead in a stranded automobile near Hooker, Okla., another man dead in his car near Atwood, Kan.; two frozen to death in Texas.

Other storm deaths attributed to the storm include two more in Kansas, one in Oklahoma, two in Nebraska, four in Texas, one in Iowa and another in New Mexico.

Illinois, where the storm moved in Monday, reported seven dead as a result of the storm.

Re to the east, the Weather Bureau reported, moderate to heavy snow fell during the afternoon over northern Missouri, southern Iowa, northern Illinois, northern Indiana and extreme northwest Ohio.

Heavy rain was reported in southern Missouri and streams in that area were rising sharply. No overflow had been reported.

The east Gulf States also received heavy rains over the weekend and this downpour extended into the South Atlantic region Sunday with amounts from two to four inches. Sharp rises resulted on streams in that area and some scattered light flooding was indicated for South Carolina.

Attention focused on attempts to free passengers on trains in the blizzard area.

A National Guard weasel reached the Golden State Limited late

Sunday night with a doctor and medical supplies. Garbled communications resulted in erroneous reports the passengers had been rescued earlier.

A Liberal pilot equipped a light plane with makeshift skis and flew to the train with food supplies. Snowplows Monday night reached the Union Pacific's westbound City of St. Louis, stranded with 400 passengers near Winona. During the morning helicopters from Camp Carson, Colo., and Ft. Riley, Kan., flew supplies of treated water to the train for its boilers.

The Rock Island's Rocket was stranded for hours near Rexford, Kan., but was freed by a snowplow Monday morning.

A Union Pacific local train whose only passengers were a woman and her child, was plowed

out of a drift near Firstview, Colo.

The Burlington Railroad stopped three of its trains in Texas because of storm conditions. The Rock Island held up four passenger trains at Pratt, Kan., and the Southern Pacific delayed three at Tucuman, N. M.

Many buses were either stranded or deliberately held up at waypoints throughout the area, their passengers received emergency food and shelter, often in small towns unused to entertaining people in such numbers.

## City Feels Impact Of Spring Snowfall

Iowa City Monday felt the effects of a spring blizzard which swept unexpectedly into the Midwest over the weekend.

Monday's United Airlines flight out of Iowa City was cancelled when it was feared that conditions at Eastern terminals would not allow the plane to land, R. N. Anderson, station manager at Iowa City, said.

### The Weather

Cold and Snow

Continued snow and a high temperature of 38 is forecast for Iowa City today after lows in the upper 20s last night. Iowa City can expect about one more inch of snow today — five days after the first day of spring.

## Iowa Storm Losses Heavy; 1 Man Dies

One of southern Iowa's heaviest late March snowstorms moved on eastward Monday afternoon, leaving a trail of blocked roads and snarled communications.

One storm-connected death was reported. Fred H. Calkins, 62, died of a heart attack in Columbus City while trying to dig his car out of the snow.

Hundreds of motorists were marooned in their cars, on farms and in small towns. Moderate temperatures — mostly near freezing — reduced the number of hardship cases.

The heavy snow up to late afternoon largely was confined to the southern third of Iowa. Snow depths included 14 inches at Council Bluffs, 12 at Audubon, 10 at Shenandoah, Albia and Des Moines and eight at Oskaloosa and Fairfield. Most town and country schools were closed in the heavy snow area.

Countless rural telephone lines snapped under the weight of the wet heavy snow as wind whipped the wires. Hamburg in southwest Iowa was without electric power overnight and a score of southwestern towns including Hamburg and Sidney were without long distance telephone service for many hours.

About 100 motorists were stalled in the Red Oak vicinity. At Wiota, just east of Atlantic, 40 cars were stranded. A foot of snow fell at Wiota and drifts piled up to a height of nine feet.

Near Shenandoah, snow plows broke an emergency path to the hamlet of Norwich so that a critically ill boy could be taken to a Shenandoah hospital.

## Iowa Highway Conditions

DES MOINES — The Iowa State Highway Patrol issued the following road report as of 7:30 p.m. Monday:

District 1 — Des Moines — One way traffic in places on Highways 60, 92, 169 and 69. North highways wet to normal; south roads normal to snow covered.

District 2 — Osceola — Highway 137 blocked; one way traffic in places on Highways 2, 169, and 69. Some freezing.

District 3 — Red Oak — Highway 34 closed east of Corning, open west; Highways 6 and 71 open but some one way traffic west.

District 4 — Denison — Some one way traffic on Highways 64, 59 and 71; U.S. 30 open.

Districts 5, 6, 7, 8, 9 — Cherokee, Humboldt, Spencer, Mason City, Allison and West Union — Highways normal.

Districts 11 and 12 — Marengo and Tipton — Light to moderate snow; roads wet to slushy to snowpacked and icy in protected areas; Highway 6 in vicinity of Davenport icy covered.

District 13 — Fairfield — Light blowing snow, some drifting; some one way traffic on roads in central portion, slushy and snow packed.

## U.S. Missiles For France A Possibility

WASHINGTON — President Eisenhower was reported to have discussed with Democratic and Republican congressional leaders Monday the possible assignment of U.S. guided missiles to France.

That word came from Sen. Thomas Hennings (D-Mo.), one of a sizable group invited to the White House from the Capitol to hear Mr. Eisenhower report on his Bermuda conference with Prime Minister Harold Macmillan of Great Britain.

One of the major announced results of the conference was an Anglo-American "agreement in principle" that "certain guided missiles will be made available by the United States for use by British forces."

Sen. Styles Bridges (R-N.H.), and others at the White House meeting said they were reassured that any atomic warheads for missiles sent to Britain would "remain in our custody."

Hennings said the question of giving France the same opportunity of getting missiles came up Monday. Several said they got the impression Mr. Eisenhower and Secretary of State John Foster Dulles felt it might be embarrassing to treat France any differently from Britain.

It remained to be seen, however, when the United States might be able to deploy intermediate range ballistic missiles (IRBM) to Britain, France or anywhere else.

Following the Bermuda announcement, a Pentagon spokesman said "we have a lot to do before we are ready to give our IRBMs to our friends." Missile experts estimated it would be a year or more before they can be put into operation even by forces in the United States.

Bridges and others said Mr. Eisenhower and Dulles emphasized there were no secret agreements reached at Bermuda.

Bridges quoted Mr. Eisenhower as saying he got "greater satisfaction" out of the talks with Macmillan than he derived from any other international conference he has attended.

Asked whether the President indicated that differences with British have been patched up — there was deep unhappiness on both sides during and after the British-French and Israeli attack on Egypt — Bridges replied:

"He did. He indicated he didn't discuss past issues in any detail at Bermuda."

## 'Plane' Bad Weather

A COLD, CLEAN SWEEP for this United Airlines plane was in order Monday at the Iowa City Airport. During the snowfall airport employees prepared the plane for take-off, but the United flight out of Iowa City Monday was cancelled because of the bad weather. The plane was grounded after it arrived an hour late from Des Moines.

## Stress Better Inter-Religious Relations at Adult Conference

By JOHN BLEAKLY  
Daily Iowa Staff Writer

Prof. Robert S. Michaelsen, director of the SUI School of Religion, outlined six steps to deeper inter-religious understanding in a talk Monday at the first annual Adult Educational Conference at SUI.

Speaking before an audience of 25 Iowa club women attending the conference, co-sponsored by the Iowa Federation of Women's Clubs,

See other stories of Monday's Adult Education Conference at SUI on pages 5, 6.

Michaelsen listed three "dos" and three "don'ts" that he said would lead to better inter-faith relations.

Points he told the women they should observe when attempting to understand other faiths and affect better relations with their members were:

1. Find out more about other religions.

"Public schools are not the best help in this sort of education," Michaelsen said. "The American policy of separation of church and state means that religious education in public schools is limited."

"I don't think it is the job of

schools to make students more religious," he continued. "But they should make them more informed about different religions."

"Unless people have a good understanding of different religions, mistrust and strife may develop. The understanding of various religions requires systematic study."

2. Find out more about your own religion.

"Those persons who have a sound grasp of their own religion are better prepared to develop a sympathetic understanding of other religions," Michaelsen said.

He drew an analogy between religion and politics to make his point.

"Republican and Democratic Congressmen get along better with each other than they do with people who have no politics at all. They at least think politics is important."

"Two people with divergent religious views may have a better understanding of each other than they would with someone who thought religion was nonsense."

3. Practice your own religion more.

"Charity, love, and the value of the human being all are an important part of the teachings in the world's great religions," Michaelsen said.

"In the practice of his religion, a person may develop a bond of love that transcends barriers of creed."

4. Do not generalize religious differences.

"We are inclined to make generalizations about religious matters," he warned. "Generalizations cannot stand on two legs when one analyzes individual men of different religions."

5. Do not over-stress religious differences.

"Friendly gestures between persons of different faiths are blocked when differences in religions are over-stressed," he said.

PRICE RAISED!

NEW YORK — The New York Post Monday fell in line with Manhattan's other two afternoon newspapers and raised its daily price to 10 cents effective today.

The other students are Sandra Levinson, A3, Mason City, Democrat; Larry Popofsky, A3, Oskaloosa, Democrat; Timothy Sullivan, A2, Cedar Rapids, Republican; and William Whitney, A2, Aurelia, Republican.

Under the Week in Washington program, Iowa college students spend seven days in the nation's capital as the guests of Iowa representatives Mervin Coad, Democrat, or Fred Schwengel, Republican.

The other students are Sandra Levinson, A3, Mason City, Democrat; Larry Popofsky, A3, Oskaloosa, Democrat; Timothy Sullivan, A2, Cedar Rapids, Republican; and William Whitney, A2, Aurelia, Republican.

The first of five SUI students chosen last week for a week-long stay in Washington, D.C. left Sunday for the nation's capital with three students from other Iowa colleges. He was Harvey Anderson, A3, Brayton, a Democrat.

George B. Mather of the SUI Institute of Public Affairs which is a co-sponsor of the Week in Washington program, said Monday that trip arrangements have not been completed for the other four SUI students.

## High Court Denies Segregation Appeal

WASHINGTON — The Supreme Court Monday dealt a blow to Virginia's policy of "massive resistance" to racial integration in its public schools.

With a minimum of words, the court rejected 8-0 Virginia's appeals from orders of lower Federal courts enjoining enforcement of racial segregation in Charlottesville and Arlington County.

Treating the appeals as routinely as possible, the court grouped them with 23 others in its list of orders and merely said as to all of them: "The petitions for writs of certiorari in these cases are severally denied."

Charlottesville, in the central part of the state, is the seat of the University of Virginia. Arlington County, just across the Potomac River from Washington, is populated heavily by Government workers and service personnel.

The court emphasized again its policy of giving lower courts wide discretion in bringing about desegregation "with all deliberate speed," as ordered in May 1955.

It did so by refusing to review orders of lower courts denying immediate admission of Negro children in Old Field, N. C., to a white school.

In both cases the U.S. Court of Appeals for the 4th Circuit (Maryland, Virginia, the Carolinas and West Virginia) affirmed orders of district judges directing the ending of segregation.

Judge Albert V. Bryan ordered Arlington elementary schools desegregated as of last Jan. 31 and high schools by next September. Judge John Paul ordered Charlottesville schools desegregated as of last September. Both these orders have been held in abeyance pending the exhaustion of appeals procedures.

Virginia now has 25 days in which to petition the Supreme Court to reconsider its Monday's refusal to review the two cases. Ultimately they will have to go back to the district judges for them to set new deadlines.

Almond questioned, among other things, the power of a Federal district court to enjoin a local school board, an agency of Virginia, without the state's consent to be sued. He also contended the Negro pupils had not exhausted state administrative remedies before going to Federal courts, and said Judges Bryan and Paul abused their discretion.

"We should not bemoan religious differences," Michaelsen concluded. "Our culture has been enriched by many religions."

Forbidden Point Slips Into Dr. Adams' Trial

LONDON — Ace sleuth Herbert Hannam pulled off one of his famous courtroom tricks Monday and slipped in a forbidden piece of evidence in the murder trial of Dr. John Bodkin Adams.

The society physician is accused of killing a wealthy Eastbourne widow, Mrs. Edith Alice Morrell, with morphine and heroin.

Hannam took the stand shortly after Justice Patrick Devlin dealt the prosecution a blow by ruling that Hannam could not tell the jury about prosecution claims that Dr. Adams tried to conceal two bottles of morphine when he was arrested.

Spectators in the packed courtroom of London's Old Bailey leaned forward expecting legal fireworks as the hawk-faced Scotland Yard detective told of searching Adams' surgery.

"In the course of that search," asked Atty. Gen. Sir Reginald M. Munnings-Buller, "was any morphia found on the premises?"

"Yes," replied the detective.

"What morphia was discovered?" continued the prosecutor.

"There were two bottles of morphia found in Dr. Adams' pocket," said the sleuth in clear, ringing tones.

## Regents Meet On Housing Postponed

By BILL McGRANE  
Daily Iowa Staff Writer

A meeting of the Building and Finance Committee of the State Board of Regents, scheduled here today to study plans for a proposed SUI married student housing unit, was cancelled Monday because of the bad weather.

The committee has made tentative plans to meet on April 5, because they hope to have a report of their findings of the study ready for the meeting of the full Board of Regents, April 11-12, in Des Moines," E. T. Jolliffe, SUI business manager, said Monday.

The committee plans to make a study of the housing unit plans which call for approximately 500 apartment units to be built on a 240 acre tract of land one mile west of Iowa City.

The regents group will study a detailed project assembled by the University architect and "an architectural representative of another source," Jolliffe said.

Full details of such a proposal would not be made available until after the matter has come up for consideration before a meeting of the full Board of Regents, and will only be available pending the board's action.

Site of the proposed building project is a farm that was purchased late last year for \$120,000 from Mrs. Mary C. Kessler and the other heirs of the late Leo T. Kessler. The purchase was made with money borrowed from private lenders, to be repaid from student housing fees.

The apartments, which would be similar to the Parklawn Apartments, would constitute the first permanent married student housing unit at SUI.

The continuing increase in the number of married students has made planning for such an addition necessary. It is estimated that by 1970 total SUI enrollment will have passed the 15,000 mark, making the present system of trailers and temporary housing for married students inadequate.

"We are convinced now that the married students are a permanent part of the University," said SUI President Virgil M. Hancher. Recent estimates are that nearly one out of every four SUI students is married.

SUI officials feel that the proposed site of the housing unit is close enough to be integrated with the present campus as the gradual expansion of the University will continue in the future.

## Last Tug Removed From Suez Canal

CAIRO — The tug Edgar Bonnet was lifted from its muddy bed in the Suez Canal Monday, opening the prospect of early passage of ships of up to 20,000 tons through the waterway. It has been blocked by war action since early November.

The big ditch will not be completely open to traffic, however, until Egypt's Suez Canal Authority gives permission for ships of large tonnage to proceed. The authority has announced that 15 days' advance notice would be given before the canal is opened fully.

# The Daily Iowan

The Daily Iowan is written and edited by students and is governed by a board of five student trustees elected by the student body and four faculty trustees appointed by the president of the university. The Iowan's editorial policy, therefore, is not an expression of SU1 administration policy or opinion in any particular.

## True Representation

Iowa legislators are expected to get into a major hair pulling over the nine different plans for reapportionment before them during this session.

This is the first time for 53 years that Iowans, and their representatives have taken a close, serious look at the situation, even though by statute, reapportionment is required each 10 years — or each time there is a federal census.

Of the nine plans there is only one that is almost practical enough to be accepted. It is Senate Bill S.J.R. 5, and the plan of Edward J. McManus, (D-Keokuk.)

Here are McManus' major points,

1. 50 senators on the basis of area.
2. 104 representatives; 50 on area, and 54 on a basis of population.
3. State division would be into 50 districts equal in size — or as nearly equal as possible. (Thus: 49 two county districts, and one (Kossuth) district of one county.)
4. Each district, regardless of population, would have one representative, plus one additional representative for every 25,000 population or major fraction thereof, (12,501) within the district as shown by the last federal census.
5. Reapportionment would begin by 1963, and if it is not installed by then, all legislators will be elected at large until reapportionment laws can be put into force.
6. All terms would last four years except at the time of the first election when half of the senators would be elected for two years, and the rest for four years. Terms for the first election would be determined by lot.

There is an amendment to this resolution but it is not generally considered to carry much weight. It was proposed by Sen. Lawrence Putney, (R-Gladbrook) and asks for a "Polk District," something like the District of Columbia. No person within a radius of five miles of the state capitol would be allowed to run for a state elective office nor vote on district matters.

This amendment is rather ridiculous and probably would not have been proposed if Senator Putney were from Des Moines.

The McManus plan is generally good but in the future, Iowa's population could grow to 5 million. This would allow more than 208 representatives, and the whole system would become awkward and unworkable.

Iowa already has a lot of men in the government considering the relatively small population of the state. California for example, with more than 11 million people, has only 40 senators and 80 representatives.

Because of Iowa's elaborate and somewhat old fashioned county system, with 99 units, it is hard to district the state for proper representation. A system allowing for 50 equal districts would be adequate.

Opposition leaders who do not want reapportionment or at least don't want any of the offered plans, say that with a representative setup, there is the possibility that Polk county (now aligned with Dallas) could hold sway over the government. The main complaint is that union labor organizations could control Des Moines and Polk — already represented by 10 men.

Iowa is weak, if organized labor constitutes strength. Only Polk county is very strong, and it is mild compared to areas in some industrial states.

Opponents of reapportionment must consider that at present the rural population, not always progressive, is controlling the state. In fact, less than one third of the state's people are running the government — better represented — than the other two thirds!

In a state which still has a large number of rural residents, the farm vote, although it is not a majority, can control the entire state, on an area basis. The present Iowa system, allows for only nine men to be elected on a population basis.

Senator McManus' plan would be well taken if it would allow all representatives to be elected population-wise. Iowa City's Sen. D. C. Nolan has offered a plan where only 14 are elected the representative form of government.

Iowa City's Representative, Scott Swisher has a bill asking for 75 senators and 150 representatives all to be elected on population basis. Representative Swisher would put too many men in the government to make it efficient, even though it would be completely representative.

Iowa's cumbersome method of amending the constitution slows state progress and keeps Iowa more conservative than is deserving for a growing state.

## Buster Blahzay

"I think you'll find that if you carry the 2x over and subtract z from your y factor your equation will balance."

## Egypt Insists Israel Accept UN Plan

By J. M. ROBERTS  
Associated Press News Analyst  
Cmdr. Elmo H. Hutchison, USNR, Middle East director of American Friends of the Middle East, has just come from Cairo with word that Egypt's President Gamal Abdal Nasser will recognize the State of Israel if she will accept the original United Nations plan for her existence.

Hutchison says Nasser told him three weeks ago that Suez, Gaza and the Gulf of Aqaba were secondary problems which would be immediately wiped out if Israel would accept two things:

1. Establishment of a demarcation line more in accord with the original UN allotment of territory, including internationalization of Jerusalem.
2. Responsibility for the return or compensation of Arab refugees from Palestine.

Hutchison, former chairman of the Israel-Jordan Mixed Armistice Commission, thinks that under those circumstances Nasser would be able to call off the campaign of hate and recognize that Israel is in the Middle East to stay.

Many observers do not think Nasser could do it and keep his job, since the ultimate elimination of Israel has become almost a religious tenet among the Arabs.

Hutchison thinks that, with firm adherence to principles, with unwavering support by the United States, the UN might bring it about.

The United States, he says, must stick to the "honest broker" attitude adopted during the current crisis and go farther. She must tell the Arabs that once the demarcation line has been firmly established, Israel will not be permitted to expand. And she must tell the Arabs that Israel's existence will be protected.

The Arab fear of Israeli expansion has been one of the great factors in the whole situation ever since Israel annexed following the 1948 war, more territory than allotted to her by the UN in the partition of Palestine. Israel's refusal to limit immigration has heightened this fear.

As a practical matter immigration has become a less important matter since Israel's population is no longer increasing, but it still is an important political matter for her leaders.

For the Arabs to even discuss the possibility of Israel's co-existence is a new thing. For Nasser, it is a backing away both from the "holy" war and from his own idea of an all-Middle East Arab state. But Hutchison says he was very careful in leading up to the subject, and that Nasser knew full well what he was saying.

## Bermuda Talks Indicate Britain May Become Secondary Power

By DIETRICH HARTMANN  
Daily Iowan Staff Writer  
The 4-day talks between President Eisenhower, and British Prime Minister Harold Macmillan in Tucker's Town on the British Bermudas are over.

As usual after international conferences a communique was issued and newsmen who accompanied the two statesmen to the Atlantic island were not the only persons disappointed with the amount of information provided by that common statement.

Mr. Eisenhower and Macmillan told the puzzled world that the HARTMANN negotiations had been "generally satisfactory" and the friendly ties that were endangered by Britain's lonely Egyptian police action had been repaired. There had been no doubt before the conference that the two leaders would be able to strengthen the Anglo-American alliance.

What this alliance would be like in the years to come was the main topic of the talks.

Purpose and results of the conference probably can be formulated this way:

1. America is taking over from Britain new responsibilities as the leader of the free world.
2. Britain is remodeling her position in the world from that of a leading world power to a secondary power according to her changed capabilities — politically, economically and militarily.

One indication of this changed relation between the two leading Atlantic powers was the announcement of American military membership in the (formerly) entirely British supported Baghdad Pact.

The shift of guard in the Middle East from Britain to the United States, as manifested in the declaration of the so-called Eisenhower doctrine, was completed with American participation in this pact, a participation the Administration tried to avoid for years.

The British Prime Minister had to tell his old war-time friend that Britain was no longer able to maintain the role of full-fledged world power; that she had to face a secondary role. Mr. Eisenhower had to accept the fact that new burdens are going to be put on the shoulders of this country already pledged to oppose communist aggression in any conceivable part of the world.

After Britain's disastrous expedition to punish her former satellite — Egypt — and after Macmillan had taken over from the old-style Anthony Eden, British leaders started to reconsider Britain's role in the world as a whole.

The first indications of a drastic change was the visit of England's defense minister Duncan Sandys in Washington early in February. The Englishman told the State and the Defense Departments that they had to expect large cuts in the military forces Britain maintains throughout the world.

Sandys told his American colleagues that Britain saw no justification in maintaining an army that had taken nine per cent out of Britain's budget yearly and had cost more than \$25 billion since Korea if this army was not even able to fight the Egyptians successfully.

Bluntly Sandys told Washington that England planned to stream-

line her defense economically and technically and that it was up to the Americans to help arm the "new" British forces with the necessary atomic weapons, mainly guided missiles.

Britain's troubles are mainly economic. Though the British industry is setting new production records every year it can not hold the pace with the United States and with several European countries, mainly Western Germany.

Britain lives on exports and has to balance her financial position, which will be hard this year even after the United States allowed her to postpone payment of interests for a total of more than \$37 billion she had received from this country since World War I.

British taxes are the highest of any country in the free world and people are getting tired of paying for the pretense of a position in the world which is impossible to maintain because of the rise of Soviet Russia and America.

Britain's political influence on the other hand has decreased considerably since the last war. It is not necessary to list all the parts of her once powerful empire that have become independent and still are becoming independent. The last was the African state of Ghana.

The ties to the most powerful and loyal dominions, Canada, Australia and New Zealand which were still strong during the second World War have become rather superficial.

None of these states, which today lean more toward the United States than the old motherland, were willing to follow Britain in her Suez action.

Former Prime Minister Eden gave his reason for the halt of military action in Egypt when he declared that only the danger of the whole Commonwealth falling apart because of Suez made him give the cease-fire orders last November.

In addition to political and economic setbacks, Britain has been unable to keep the pace in military and technical development with Russia and this country. She is far behind in the development of atomic weapons and in the conventional arms field the situation is even worse.

The American President and the British Prime Minister talked about this situation, not new to either statesman, though neither admitted it. Mr. Eisenhower did not make any commitments that could have taken the form of official agreement.

The new role of Britain, after a general pattern has been found in Bermuda, will be the topic of various conferences to come.

How Britain's new role will take effect is still to be seen. One development, however, seems to be clear already.

The same day that the talks in Bermuda ended, continental powers in Rome signed an agreement that will establish a new economic giant in Europe, the 6-nation Common Market.

Britain is anxious to be member of another agreement, to be signed in April — the community of the OEEC countries — which will economically unite most of Europe (The Daily Iowan, Feb. 2, 1957).

The English want to be sure to play an important role in this new set-up and they want to watch the Germans, who might overtake them, if Britain does not join the European community effort.

## Letters to the Editor

### Dunnington Attacked

TO THE EDITOR:  
Dr. L. L. Dunnington's attitude toward the fundamental truth in scripture are a distorted and untrue representation of the Protestant Evangelical faith.

He is evidently afraid of the truth as set down in the Bible. His claim that Fundamentalism is not on the College level is an insult to such minds as Dr. Martin Luther, Zwingli, Calvin and many present day doctors of Theology and other avocations.

If by his remark he is flaunting God's revelation and promises toward man as contained in the scriptures then he is unfit for the Christian ministry.

Men to be proper candidates for the ministry should be chosen by God, filled with the Holy Spirit and be a living testimony to the hope which is his through the precious teachings of our Lord Jesus Christ.

Dr. Dunnington shows none of these qualifications. His problem with fundamentalism is that it seeks and exposes the truth from God's revealed word, and he not being spirit can not discern spiritual matters.

The New Testament clearly tells us that: "Unspiritual men can not discern spiritual things." (1 Cor. 2:10-16) Does the man reject 2 Tim. 3:16? What he fails to understand is that; Salvation is God's plan in Christ in the New Testament and not the creation of a new world order.

God's primary interest is not in the preservation of the flesh but the salvation of the soul. A spirit filled man will conduct himself, will not have to concentrate on being a good socialized citizen. It will be automatic with him.

God's promise is not a better reward by human merits but future reward for those who love him. The whole Reformation of the fifteenth century was a concern of brilliant and spirit filled scholars for a resurgence and reestablishment of basic fundamental scripture truth. God forbid further distortion of his truth by a man's modernism and humanism.

JACK WAUGH, G  
Denny Motor Court, RR6  
\*\*\*

### Dunnington Defended

TO THE EDITOR:  
Sharp criticism the Rev. Mr. Dunnington's decision not to debate Fundamentalist Verne Kaub reveals a superficial consideration by these critics of what such a debate would involve.

Kaub's "Resolved: That no conflict exists between the Christian Faith and the facts of science," indicates a complete misunderstanding or misrepresentation of what Dr. Dunnington has said.

Dr. Dunnington merely pointed out the numerous discrepancies in the Bible that make a literal interpretation impossible. This in no way puts science and the indefinable term "Christian Faith" in opposition to each other (as Mr. Kaub seems to imply Dr. Dunnington has done) by selection of his debate resolution.

The fact that Kaub presented his challenge in this fuzzy manner, with no consideration of definition of terms presents a pretty good indication of what the debate would turn out to be.

Thus it is probably good sense that motivated Dr. Dunnington to refuse such a debate, not an "icy, conservative isolationism" his position has been interpreted as representing.

On the other hand, if Dr. Dunnington should refuse to debate (discuss would be better) his concepts with fundamentalists who are willing to submit themselves to the discipline of logic and clearly defined subjects, he would deserve the condemnation he has been receiving.

I doubt that he would refuse a discussion under the latter conditions.

Kaub's motivation in calling for the debate might be considered. Pamphlets accompanying his letter cite him as "a vigorous defender of the American Way of Life," and an "able champion of our great heritage." Noble-sounding phrases that really say nothing, but are a good indication of the nature of Mr. Kaub's approach to differences of belief and opinion.

I am not a member of Dr. Dunnington's congregation, nor am I a Methodist. However, I have a distaste for misrepresented statements and positions.

If we are going to attack Dr. Dunnington, let us do it on the basis of his real contentions.

THE FEDERAL BUDGET  
As is now being demonstrated in a flood of mail to Congress, the American people do not and never have demanded a peacetime budget of \$71.8 billion — COUNCIL BLUFFS NONPAREIL.

A GOOD SPANKING  
Bad Boy Nasser needs a good sound spanking that will put him in his place. The trouble is the spanking may involve international conflict. — BOONE NEWS-REPUBLICAN.

## Budget Size Disturbs Bridges; Break Forecast

By GEORGE DIXON  
King Features Syndicate

WASHINGTON, D. C. — Sen. Styles Bridges, of New Hampshire, ranking Republican in the upper branch of Congress, is letting it be known that he is on the verge of breaking with the Administration over the size of the Eisenhower budget. Bridges has already taken

to baiting Director of the Budget Percival F. Brundage.

The outwardly smooth Bridges has been fuming inwardly for a long time against Eisenhower budgeting, and particularly against Brundage for whom he positively has no time.

But he flared up the other day when the budget chief declared that all the purported clamor for cutting the budget was just newspaper talk. That, in fact, he had received only three letters from taxpayers complaining of Government spending.

This made Bridges so hot he grabbed a telegraph blank and dashed off this blister to Brundage:

"I read in the press that you say the criticism of your huge budget is just newspaper talk. You are quoted as stating you have received only three letters from taxpayers. Well, here's a fourth, because I am a taxpayer, too."

Whenever newcomers to Capitol Hill are introduced to the 5-term congressman from South Carolina, William Jennings Bryan Dorn, they almost invariably exclaim:

"Whoever named you must have been a tremendous admirer of the Great Commoner!"

Rep. Dorn always replies that the name was bestowed upon him by his father, the late T. E. Dorn, but that admiration for William Jennings Bryan had nothing to do with it.

"My father," he adds, "named me for Bryan because he was angry at Woodrow Wilson."

When pressed for amplification, William Jennings Bryan Dorn always explains:

"I was born on April 14, 1916. That day my father read something in the papers that convinced him President Wilson was leading us into war, and the only immediate way he could think of to

show his displeasure was to name me after Bryan."

Sen. Norris Cotton, of New Hampshire, is frequently asked if he was named for the late Senator George Norris, of Nebraska. He always answers in the negative, explaining that "Norris" is an old family name.

The other day he attended a meeting of the Senate Public Works Committee where Secretary of Commerce Sinclair Weeks was being questioned about the Neuberger Bill to eliminate billboards from transcontinental highways.

But when it came Cotton's turn to take up the interrogation, bells began ringing for a vote on the Senate Floor, and the session had to be postponed.

It was not resumed until next morning. Secretary Weeks took the witness chair, and the senators took seats around him. Then Sen. Albert Gore, of Tennessee, who was presiding, turned to Cotton and said: "You may proceed, Senator Norris."

"Thanks for the compliment," returned the New Englander graciously. "He's dead. But he was a great senator."

Sen. Hubert Humphrey, of Minnesota, has been subjected to a lot of needling because he was one of the very last to leave the big Eisenhower reception and dance for members of Congress. He has finally been goaded into entering this statement in his own defense:

"My daughter, Nancy, has just turned 18. This was her first party. She did not want to leave. 'I said to her, 'Nancy, I am becoming very embarrassed. Nearly everyone else has left.'"

"She gave me an indulgent look and replied firmly: 'Daddy, I don't care if you are embarrassed. I'm having a good time.'"

"That is why we stayed."

### MATTER OF JUSTICE

It's small wonder that the crook who takes a realistic look at the way some judges administer justice decides it's best to violate the law in a big way or not at all.

— CEDAR RAPIDS GAZETTE.

### TIME TO GRIPE

Remember the time to gripe is not when you pay your taxes, but at the budget hearings in July when the tax levies are made.

— BRITT NEWS-TRIBUNE.

## General Notices

General Notices must be received at The Daily Iowan office, Room 201, Communications Center, by 8 a.m. for publication the following morning. They must be typed or legibly written and signed; they will not be accepted by telephone. The Daily Iowan reserves the right to edit all General Notices.

**BABY SITTING** — The University Cooperative Baby Sitting League will be handled by Mrs. Robert E. Caldwell from March 26 to April 6. If a sitter or information about joining the group is desired, call Mrs. Caldwell at 7165.

**ZOOLOGY SEMINAR** — Zoology Seminar will meet at 4:20 p.m. Friday in Room 201, Zoology Building. Dr. C. C. Wunder, Department of Physiology, will speak on "Gravitational Aspects of Growth."

**CLASSICS COFFEE HOUR** — The Classics Coffee Hour will be held from 3:30 to 5 p.m. Wednesday in Room 110, Schaeffer Hall. Slides will be shown at 3:30 p.m. Everyone is welcome.

**STUNT-TUMBLING CLUB** — The club will meet from 4:15-5:30 p.m. Tuesday and Thursday through March at the Women's Gymnasium. All women students are welcome to take part in the tumbling, trampoline and apparatus activities sponsored by the Women's Recreation Association.

**PLAY-NITE** — The facilities of the Fieldhouse will be available for mixed recreational activities each Tuesday and Friday night from 7:30 to 9:30, provided no home varsity contest is scheduled. Members of the faculty, staff, and student body and their spouses are invited to attend and take part in the activities in which they are interested. Admission will be by faculty, staff, or student I.D. card.

**WEIGHT TRAINING** — The Weight Training Room will be opened for student use on Mondays, Wednesdays and Fridays between the hours of 3:30 p.m. and 5 p.m. The North Gymnasium will be opened for student recreational purposes each Friday afternoon from 1:30 p.m. to 4 p.m.

**STUDENT COUNCIL BOOK EXCHANGE** — The Student Council Book Exchange will return money and unsold books through March 29. Unsold books can be picked up at the Student Council Office in the southeast corner of the Iowa Memorial Union from 2:30 p.m. to 4 p.m. Monday through Friday. Books and money not claimed by 4 p.m. March 29 will become the property of the Student Council.

**THURSDAY, APRIL 4**  
4 p.m. — Panel Discussion — Faculty, Students, Administration — "What Academic Freedom Means to the Student" — Senate Chamber.

**FRIDAY, APRIL 5**  
8 p.m. — Sigma Xi Open House — Dr. George W. Beadle, Chairman, Division of Biology, California Institute of Technology, "Molecular Recipes for Living Systems" — Chemistry Auditorium.

(Notices of university-wide interest will be published in the General Notices column. Notices of campus club meetings will be published in the SUItems column each day in another section of The Daily Iowan.)

## official DAILY BULLETIN

TUESDAY, MARCH 26, 1957

### UNIVERSITY CALENDAR

Tuesday, March 26

8 p.m. — Humanities Society presents Professor Curt Zimansky, SUI — "Arian's Astronomy: The Wonder Book of the Heavens" — Shambaugh Auditorium.

Wednesday, March 27  
8 p.m. — SUI Symphony Concert (Barber Program) — Iowa Memorial Union.

Thursday, March 28  
8 p.m. — Graduate Council Computer Lecture — Mr. John W. Caperton — "Applications of Computers to Problems in Mathematics and the Physical Sciences" — Shambaugh Auditorium.

8 p.m. — College of Law and Department of History present graduate lecture — Katherine Drinker Bowen — Senate Chamber, Old Capitol.

Friday, March 29  
8 p.m. — Art Guild Film Series — "Flamenco" and "The Story of Silver" — Shambaugh Auditorium.

Saturday, March 30  
10 a.m. to 4:30 p.m. — City Editors Conference — House Chamber, Old Capitol.

Brass-Woodwind Small Ensemble Workshop — North Rehearsal Hall.

Sunday, March 31  
9 to 12 a.m. — City Editors Conference — House Chamber, Old Capitol.

Monday, April 1  
2 p.m. — University Faculty Newcomers Club Tea — University Club Rooms, Iowa Memorial Union 8 p.m. — University Concert Course, Richard Tucker, Tenor — Main Lounge, Iowa Memorial Union.

Tuesday, April 2  
7:30 p.m. — Annual Hancher Public Speaking Contest Finals — Senate Chamber, Old Capitol.

Wednesday, April 3

# Louis Armstrong Concert Scheduled At Union Tonight

Louis Armstrong

The mighty Louis "Satchmo" Armstrong will present a sell-out concert at 8 p.m. tonight in the Iowa Memorial Union.

"Tickets for the concert have been sold out since last Thursday," Larry Popofsky, A3, Oskaloosa, Central Party publicity chairman said Monday afternoon. Approximately 1,800 tickets have been sold for the concert.

In the decade since the end of World War II Armstrong has become a symbol of the freedom and individuality that American jazz music personifies. It still shocks some people to find that Europeans and Asians love American Jazz.

Wherever Armstrong has appeared — in Japan, Africa, Europe — the response has been the same. Thousands surround him at the airport and beg for tickets to his concerts.

"Satchmo" has played in almost every European city that has the facilities for a concert program. He has made no particular effort to alter his program for their consumption — that is, to a large extent, the secret of his success.

Armstrong was the first jazz musician to appear in Russia since the early twenties. He is often referred to as "America's Ambassador of the Happy Music."

"Satch" is not only a trumpeter, but a singer and composer as well. He began with a bugle at an early age. He then became a clarinetist and finally a trumpeter.

Armstrong has made more than one thousand recordings, and has appeared in 38 motion pictures since his first film appearance in "Pennies from Heaven."

Accompanying Armstrong in his concert tonight will be Barrett Deems, Billy Kyle, Velma Middleton, Trummy Young, Edmond Hall and Equire Gersh.

The SUI Central Party Committee is sponsoring the concert.

**A QUICKY FOR SUPPER**  
Quick supper: Add a can of chunk-style tuna fish to a can of macaroni and cheese sauce along with some grated onion and minced parsley or green pepper. Top with grated cheese and bake it in a hot oven.

# Delta Zeta, SDT Elect Officers For Spring

Jan Bauman

## Delta Zeta

Jan Bauman A2 South Pasadena, Calif., has recently been elected president of Delta Zeta social sorority.

Other officers elected are: Jacqueline Norgaard, P3, Onawa, vice-president and pledge trainer; Gloria Martens, A3, Winterset, and Pat Nelson, A2, Lombard, Ill., co-rush chairmen; Sheila Chase, A3, Rockford, Ill., corresponding secretary; Ann Risk, A3, Wingate, Ind., recording secretary, and Virginia Foss, C3, Columbus Junction, treasurer.

Among the newly-appointed officers are: Rosemary Johnson, A1, Prophetstown, Ill., scholarship chairman; Margaret Steinmann, A2, Kahoka, Mo., judiciary chairman; Anne Turner, A4, Rockwell Papadakes, A3, Britt, and Bonnie City, house manager, and Athena Paker, A1, Ottumwa, social chairman.

## LEMONS IN SAUCE

You'll need to add 2 tablespoons of lemon juice to a quarter cup of butter for a lemon-butter sauce for fish or vegetables. The trick in preparing this, is to cream the butter and then mix in the lemon juice very slowly so the butter will gradually absorb it.

Kay Ginsberg

## Sigma Delta Tau

Kay Ginsberg, A2, Des Moines, has recently been elected president of Sigma Delta Tau social sorority.

Other new officers include: Harriet Kunk, A3, Iowa City, first vice president; Rosalie Samberg, A3, Des Moines, second vice president; Edith Rovner, A2, Des Moines, treasurer; Fayna Manvitz, A2, Omaha, Neb., secretary; Jo Moskowitz, A3, Flushing, N.Y., house manager; Silvia Green, A2, Omaha, Neb., standards chairman. Marlene Abrams, A2, Cedar Rapids, and Mattie Katelman, A2, Omaha, Neb., co-social chairmen; Sharon Goldberg, A3, Quincy, Ill., and Marilyn Shor, A2, Davenport, co-rush chairmen; Bobi Folberg, A3, East St. Louis, Ill., judiciary chairman, and Judy Ferdinand, A3, Chicago, activities and intramurals chairman.

Among the newly-appointed officers are: Rosemary Johnson, A1, Prophetstown, Ill., scholarship chairman; Margaret Steinmann, A2, Kahoka, Mo., judiciary chairman; Anne Turner, A4, Rockwell Papadakes, A3, Britt, and Bonnie City, house manager, and Athena Paker, A1, Ottumwa, social chairman.

## SUI Students Pinned

Shirley Barker, A3, Keokuk, Alpha Xi Delta, to Marshal Young, A3, Rapids City, S. Dakota, Delta Tau Delta.

Sharon Marsden, N2, Atlantic, Alpha Xi Delta, to Gene Sprout, C4, Iowa Falls, Sigma Nu. Alice Fickel, A1, Fairfield, Gamma Phi Beta, to Bruce Burton, A2, Carroll, Delta Tau Delta. Sharon Reemtsma, N2, Davenport, Gamma Phi Beta, to John Miller, A1, Harlan, Delta Tau Delta.

Neva Paulsen, A4, Ames, Alpha Gamma Delta, to Lanny Gustafson, A4, Council Bluffs, Delta Chi. Sally Shook, A3, Burlington to John Deunow, A2, St. Ansgar, Delta Chi.

# WRA Applications, Volleyball Sheets Due Wednesday

Applications for the Women's Recreation Association Board are due at 4 p.m. Wednesday in the Women's Gymnasium office.

Any women enrolled in SUI are eligible to apply for positions on the WRA Board. Applications may be obtained in the office of the Women's Gymnasium.

Board positions open are for the heads of the following sports: tennis, swimming, volleyball, bowling, basketball, mixed volleyball, softball and golf.

Any woman selected to head a sport will be in charge of handling the intramural tournament for that sport.

The Board members must set up the tournaments, arrange for people to officiate the competition and in general see that the tournaments run smoothly.

Spring intramural competition will include mixed volleyball, golf and softball.

Applications for mixed volleyball are due in the office of the Women's Gymnasium at 4 p.m. Wednesday. This round robin tournament will begin Wednesday and Thursday, April 3 and 4. The tournament will be divided into four leagues. Each team will play every team in his league. The top teams in each league will compete for the championship in the final playoff.

Any organized housing units may enter teams in the tournament. Each team consists of four women and four men. The women must be from an organized housing unit, but the men may be from any number of housing units.

The softball and golf tournaments will begin the third week in April and run for one month.

Additional information concerning these tournaments may be obtained by contacting the intramural chairmen of the various housing units or by contacting the office of the Women's Gymnasium.

## Edward S. Rose says—

Inquire of Mr. Lester Beck at First National Bank

**"A big company works for me..."**  
JOHN D. EVANS, University of Pennsylvania, 1952

"I began working on a training program for General Electric in the summer of '52. Right now, I'm Employee and Plant Community Relations Manager" of my company's new plant in Burlington, Iowa. One of the advantages I found in working for a big company such as General Electric is that, because of its size, it is able to give me, and other college-graduate employees like me, a wide variety of training and experience in any one of 159 plants all over the country. Through an extensive on-the-job training program, it is providing me with the opportunity to become one of the top men in my field, and I know that as long as I apply myself to each job, I'll keep moving up. The way I look at it, General Electric is helping me help myself. That's why I say I'm working for a big company, but a big company works for me, too."

size. 27-year-old John Evans is just one example of the thousands of college graduates at General Electric, each being given the opportunity for self-development so that he may grow and realize his full potential.

As our nation's economy continues to expand in the years ahead, thousands of young people of leadership caliber will be needed to fill new positions of responsibility in American industry. General Electric feels that by assisting young people like John Evans in a planned program of personal growth, we have found one way of meeting this need.

A Manager of Employee and Plant Community Relations at General Electric holds a responsible position: he handles employee benefits, health and safety, training, wage and salary administration, and community relations.

Progress Is Our Most Important Product  
**GENERAL ELECTRIC**

This wide framework of opportunity is a unique characteristic of a company of General Electric's

## After the Battle

The boys' basketball firing is over for another year, and out of the two championship tournaments at Des Moines Saturday come some interesting observations.

One is that St. Mary's of Iowa City showed it was made of championship stuff when it rallied to capture its second straight title—a crown which for a time seemed on the verge of flying out the proverbial window.

The Ramblers, winners of 40 in a row and practically unchallenged this season, had the fight of their young lives in overcoming a Calumet five which itself had never tasted defeat.

A winning streak—particularly a 40-game string—is always a burden. No matter how good the team, the pressure builds with each additional win. That the Ramblers were able to shake off this pressure and rally to overcome a nine-point deficit in the final quarter is an indication of the team's caliber.

DENNIS

That this was a great ball club cannot be denied. It was a club which broke or tied six records during championship competition. The Ramblers' 89 points against St. Mary's broke their own single-game point record of 81 set in 1956. The 225 total points in the tournament broke the old mark, also their own, of 211. Their 42-point defeat of St. Mary's was the widest margin of victory in Class B tournament history.

Dennis Walljasper, the 6-5 center who must be considered a good college prospect, set three of the records himself. His 28 points against Calumet broke the single game and final game records and his 64-point total for the tournament tied the mark he set last year.

But, in all fairness to a valiant Calumet team, it must be pointed out that had their 6-7 center, Dennis Runge, not fouled out early in the fourth quarter, the outcome might have been different.

This cannot be—and was not—used by the Indians as an excuse for defeat. If a man cannot avoid committing five fouls in a ball game, then that's his tough luck. It might even be said that Rambler guard John Cahill cleverly induced Runge to commit his fifth personal—although it was a call which, by Cahill's own admission, could have gone either way.

But the fact is this—while Runge was in the lineup, the O'Brien county entrant was in command of the contest. Calumet led by nine points going into the fourth period and things didn't look too good for the Ramblers.

The thing which some observers, myself included, had feared was taking place—St. Mary's was finding itself comparatively stymied by the presence of a couple of big boys in the opponent's lineup. The rebounds just were not falling to the Ramblers with the frequency which had been the case throughout the season.

After Runge left, it took the Ramblers just two minutes to roar into a tie. Moments later they led. Calumet scored only four points in the final quarter. St. Mary's scored 16.

Whether St. Mary's would have been able to stage such a spurt with Runge in the game is a moot point. Perhaps they could have. Perhaps not.

The point is they did overcome what for a time looked like an insurmountable lead. For this the Ramblers deserve every bit of the praise heaped on them.

From my best seat in the house—in front of the television set—Saturday night, I was impressed with the caliber of basketball played in the Class A final—as well as the B windup.

From this vantage point I must say it looked like St. Mary's was the third best team on the court during the evening, and this is not a slam at the Ramblers. After listening to reports from friends and observers around the state concerning the poor quality of Class A basketball in Iowa, I was about ready to concede that perhaps Rambler backers who insisted their boys were the best around had a case. However, I saw in the Class A championship tilt two smart, well-coached teams who knew what to do with a basketball.

In all fairness, I thought they turned in a performance superior to that shown in the B finale.

But, to go one step further, I thought the B game produced some of the best basketball I have ever seen in that class. Calumet, particularly, was surprisingly efficient. Unmentioned in pre-tournament conjectures, the Indians showed the caliber of ball which proved they belonged in the final.

And St. Mary's was, as the final score indicates, even more classy. I'd go so far as to say that you could throw any of the four teams together and come up with some interesting basketball.

# Thompson Leads West to Upset Win

## Gary Given Outstanding Player Award

**BULLETIN**  
KANSAS CITY (AP)—Pint-sized Gary Thompson, All-America from Iowa State, ignited the West to a 64-60 upset victory over the East in the annual Shriner's East-West basketball game Monday night.

Thompson, a 5-10 fireball from Roland, Iowa, not only quarterbacked the underdog West team expertly, but outscored the more illustrious shooters on the East squad, among them All-America Lennie Rosenbluth of North Carolina and South Carolina's Grady Wallace.

Elected the game's outstanding player, Thompson had the high score of 16 points, eight in each half. Rosenbluth's 14 was tops for the East. Wallace, who led the nation's major colleges in scoring during the regular season, was scored to 12.

The score was tied three times and the East had a lead as late as 5 minutes to go before the team coached by Bill Strannigan of Iowa State pulled away on buckets by Jim Krebs of Southern Methodist and Thompson.

WINNER OF THE NORTH AND SOUTH Amateur Women's Golf Tourney, Barbara McIntire, of Toledo, Ohio, blasts her way out of a sand trap in the rain Monday on the 15th hole at Pinehurst, N. C. Miss McIntire defeated Mrs. Ann Casey Johnstone, of Mason City, Ia., 3 and 2 to win the title.

## Wild Celebration After Rambler's Retain Title

"The wildest dressing room scene in 20 years," was the comment of one veteran state tournament reporter after St. Mary's thrilling state B championship triumph over Calumet, 55-52, in Des Moines Saturday night.

Immediately following St. Mary's second straight Class B title, the Ramblers dunked coach Don Green in the shower and then engaged in a wild battle of milk showering. After the trophy presentation following the Class A title game, the Ramblers were escorted back to Iowa City by a noisy car caravan. They arrived about 1:30 a.m. Sunday.

The Ramblers now hit the banquet trail this week with the annual parish dinner tonight among the first. Thursday night, they'll be honored along with St. Pat's at a local Knights of Columbus banquet and Sunday, they'll be at the Northeast Iowa Catholic conference banquet in Dubuque.

But a happy reception looked doubtful for about 27 minutes Saturday night. St. Mary's crown and 40-game winning streak were tottering before the Ramblers broke loose with a brilliant 12-point effort which shot them into the lead in a little more than two minutes.

Dennis Walljasper's free throw and immediate jump shot gave St. Mary's a 51-48 command of the contest.

Calumet, riding the crest of its own 29-game win streak, slammed back to grab a 52-51 edge with four minutes to play. But Walljasper tipped one in, the Ramblers went into a ball control act and that was it.

Walljasper's 28-point firing and the ball-hawking tactics of John Cahill and Dave Maher played a big part in the St. Mary's victory. But in all justice to the Indians, who were on the verge of the biggest upset of the season, it looked as if the loss of Dennis Runge, Calumet's 6-7 center, was the deciding factor.

While Runge was in the contest, Calumet piled up a 48-39 lead over the invincible Ramblers. When the Indian star left with five fouls shortly after the fourth quarter started, it was all over.

Runge and 6-3 Don Feddersen led Calumet's rebounding efforts, which were mighty indeed until the big boy fouled out.

Delmar Dau, a slim freshman, led the Indians in scoring with 17 points.

Don Lumsden with 10 points was the only other Rambler to break into double figures.

St. Mary's (Calumet)  
Supeppel, 0 2 4 Feddersen, 1 2 3  
Lumsden, 3 4 4 Kruse, 4 4 2

## Top Scoring Duo After Stanley Cup

DETROIT (AP)—The greatest one-two scoring punch the National Hockey League has ever known will shoulder Detroit Red Wings hopes into the club's 27th Stanley Cup series beginning here Tuesday night against the aggressive Boston Bruins.

Gordie Howe and Ted Lindsay the old pros of the title-winning Red Wings, ran away with the 1956-57 scoring race like no two players ever have before. Their combined 174 points is the highest total ever amassed in a single season by two players on the same club.

The two finished one-two in the NHL scoring derby, Howe taking first place with 89 points and Lindsay, a 13-year veteran of NHL wars, edging Montreal's Jean Beliveau for second place with 85.

## Two Former Hawks Star in C. R. Loss

DENVER (AP)—Despite fine scoring by two former Iowa basketball stars, Cedar Rapids Sanitary Dairy dropped its opening round game in the 50th National AAU Basketball tournament to tall and talented Seattle Autos, 91-83 Monday afternoon.

Augie Martel and Bill Seaberg led an otherwise dismal scoring attack with 16 and 14 points, respectively.

## Alex Karras, Cover Model

Alex Karras, Iowa's all-American tackle, has been selected as cover model for the 1957 Official Collegiate Football Guide, it was learned Monday.

The guide is produced for the NCAA by the National Collegiate Athletic Bureau.

The publication will be released sometime this summer.

Karras was chosen in final competition over Bob McKeiver, Northwestern's all-Big 10 scat-back.

The rugged Hawkeye junior was named to enough All-America teams this last fall and winter to be selected on the consensus All-America squad.

## State Meet's Top Rally By Dowling

Dowling of Des Moines parlayed the greatest comeback in Iowa state tournament annals into the school's first basketball championship in history, 69-66 over West Waterloo, at Des Moines Veterans Auditorium Saturday night.

The Irish, on the short end of a 51-36 count in the third quarter and still trailing 55-44 with nine minutes left in the game, rallied valiantly in the stretch to add another chapter to West's "always a bridesmaid" saga.

The Wahawks captured their only state title in 1925. Since then they have tried seven times without success to repeat.

Saturday, as the Class A final contest move into its closing minutes, it looked like they finally were going to make it.

Then the Irish, spearheaded by Glen Mankowski and Tommy Formaro, closed in with a rush. They fought to a 66-63 tie, then fell behind 65-63 with 40 seconds left on Bob Ruisch's shot from the corner.

Dowling responded and tied the game again on Ted Tormey's tip-in, then Formaro, stole the ball and fired up a fast break which shook Jim Harris loose for the decisive counter.

## Phillies' First Negro May Open at Short

CLEARWATER, Fla. (AP)—The Philadelphia Phillies may open the National League season with their first Negro player in the starting lineup at shortstop.

The newcomer is John Kennedy, a 23-year-old rookie who at the moment isn't even on the Phillies roster. He had been assigned to Schenectady of the Eastern League after being signed by the Phils, who spotted him playing with the Kansas City Monarchs.

"I don't know if he can do the job," said Manager Mayo Smith. "But if the season opened tomorrow, he'd be my shortstop."

Kennedy may win the job by default. Thus far General Manager Roy Hamey's search for a shortstop from other league rosters has drawn a blank.

"We have to have a shortstop," said Hamey. "But no one is willing to give up who we think is a good exchange for a front line player."

"Brooklyn has Bob Lillis, but we're not going to give what they want for him. It's the same thing with Cincinnati. Alex Grammas is okay, but we won't give more than some minor league material for him."

"Everybody wants Richie Ashburn. But they're going to have to offer more than they have so far to get him."

The hole at short has been worrying the Phillies for a couple of seasons. Granny Hamner, who used to have the job, has back and shoulder trouble which hampers his batting swing and since he can't hit has turned to pitching.

## Cage Coach Quits At Northwestern

EVANSTON, Ill. (AP)—Waldo Fisher, coach of Northwestern University's basketball team which finished the season in the Big Ten cellar, resigned Monday to accept appointment as assistant athletic director.

Stuart K. Holecomb, director of athletics who announced the resignation, said Fisher's first responsibility in his new position will be to aid in selecting a new basketball coach.

## Gymnasts in Fourth Place NCAA Finish

Iowa's gymnastic team, led by an outstanding performance by Sam Bailie, finished fourth in the National Collegiate gymnastic meet held at Minneapolis, Minn. the past weekend.

It was the highest spot ever won by a Hawkeye team. Previous bests were sixth in 1954 and 1955. Bailie finished third in all-around competition and scored 35 of Iowa's 50 points. The 35 points brought Bailie's career total to 1,001½ in 32 meets and 373 in the 12 meets of 1957.

High Hawkeye finishes were Bailie's second in the side horse and Joe Timm's second place in the trampoline. Bob Justice finished sixth in the trampoline.

In addition to second in the side horse, Bailie finished fourth in free exercise, fifth in flying rings, sixth in parallel bars, and ninth in both the trampoline and horizontal bars. The meet was won by Penn State with 88½ points. Illinois, the Big 10 and defending NCAA champion, was second with 80, and Florida State finished third with 63½. A total of 23 colleges competed in the meet.

Iowa entered only four men in the meet. Stan Beebe failed to qualify in the trampoline.

## Nude Question Can Swimmer Win If He Loses Trunks?

LONDON (AP)—Can a swimmer be declared the winner of a race if he loses his trunks and finishes in the nude?

The Amateur Swimming Assn. can hardly wait to get the official decision because that is exactly what happened to an unfortunate boy recently in Newcastle. The youngster finished first but some people maintained that despite the embarrassment, losing your trunks has its advantages—you can swim faster without them.

He's creating America's fourth coastline  
THE grades this gentleman is making have to be good because America's largest construction project, the St. Lawrence Seaway, depends on them. When it is finished in 1959, America will have a fourth coastline 8,000 miles long. Ships will sail 2,300 miles into the nation's industrial heart. Milwaukee, Chicago, Detroit, Cleveland and Buffalo will be seaports.  
To get the job done, 3,000 bulldozers, power shovels, draglines, dredges and trucks must rip 180 million tons of earth and rock from the valley floor. This takes machines with guts. And that's why most of these huge machines use Timken tapered roller bearings. Timken bearings roll the terrific loads, keep wheels and shafts moving day in, day out, in steady, friction-free rhythm.  
Keeping these machines rolling smoothly is just one way the Timken Company keeps America on the go. We're working hand-in-hand with all industry to make machines go faster with more precision, fewer breakdowns, minimum maintenance. We're helping to improve the machines that are improving America.  
This desire for continued progress made us a leader—the world's largest manufacturer of tapered roller bearings and removable rock bits. And a leading producer of fine alloy steel.  
Would you like to get in on the ground floor with a company that's on the go? If you're interested, we'll tell you more in our booklet, "Career Opportunities at the Timken Company". Drop us a card soon. The Timken Roller Bearing Company, Canton 6, Ohio.  
Timken bearings keep America on the GO... and you keep going up when you go with the Timken Company

# Gyrogilding—Out for Awhile

Daily Iowan Photo by Dave Branson

A BROKEN ROTOR BLADE Saturday cut short tests of the gyrogilder built by two SUI senior engineering students from Iowa City. Plane builders Darrell Loan, left, and Roger Wymore survey the damage that resulted when the rotor blade hit the concrete runway at the Iowa City airport during a test flight. The plane was about two and a half feet off the ground when a crosswind tipped the craft. The tip of the wood blade was broken. Loan holds a piece of the broken blade. The plane builders hope to have the damage repaired in time for further tests on February 3. Saturday's test runs were the third for the craft. The first flights on January 1 were described as very successful.

# Research Conference To Hear Professors

Five SUI faculty members will participate in the Society for Research in Child Development Conference which will be held in Iowa City, April 4-6.

Lloyd W. Lowell, assistant professor of SUI's Parent and Family Life Education Department will be in charge of arrangements for the event. Approximately 125 are expected to attend the meetings.

SUI faculty members participating on the program include Dr. Genevieve Stearns, professor of orthopedics at University Hospitals; Ralph H. Ojemann, professor of child welfare research; Howard V. Meredith, professor of physical growth in the Department of Child Welfare Research; John B. McKinley, research associate of orthopedic surgery at University Hospitals; and Manfred Kuhn, associate professor in the Sociology and Anthropology Department.

Sessions will be held in Shambaugh Lecture Room of SUI's Main Library.

# Local ADS Ranks In Playboy Contest

The SUI Chapter of Alpha Delta Sigma, (ADS) professional advertising fraternity, was chosen Monday as one of the 10 finalists in a national advertising contest sponsored by Playboy magazine.

The Chicago chapter of ADS selected the finalists from nearly 200 entries submitted by the 43 chapters of the national advertising group.

Advertising men in the Chicago area will rate the finalists.

The SUI chapter entered five advertisements. The group chose their own ideas and then divided into five small groups to carry out their plans. The fraternity members also conducted research to find the per cent of SUI students reading Playboy before they designed their entries.

# Mitchell Group Initiates 41

The Billy Mitchell Squadron of the Arnold Air Society initiated 41 men recently.

The Mitchell Squadron is an honorary fraternity composed of 115 Air Force Reserve Officers Training Corps cadets who are selected on the basis of drill proficiency and leadership ability, according to Col. Charles G. Kirk, professor and head of air science at SUI.

Students initiated were: Karl Horn, A2, Audubon; Jerry Rein, A1, Burlington; Charles Crabtree, A2, Carroll; John Price, A1, Cedar Falls; William Dyer, A2, and Bruce Trimble, A1, Cedar Rapids; David Hutchins, E1, Central City; Roger Graves, A2, and Allan Thomas, A1, Clinton; James Bowers, A2, Coralville; Danny White, A1, Davenport; George Howes, A2, Darchester; and Philip Wore, A1, Farmington.

Other initiates include: Douglas Larson, A1, Harlan; John DeBrie, E1, Hills; William Reinders, E3, Humboldt; Robert Borts, E1, Iowa City; John Bruce, A1, and Jackson Miller, A1, Marshalltown; Richard Cahalan, A1, Mason City; James Egan, A1, Missouri Valley.

David Thomson, A2, Mt. Vernon; Lowell Shickel, A1, Nevada; James

# ISC Speakers To Give Scientific Papers Here

The Iowa section of the Society for Experimental Biology and Medicine will meet at 7:30 p.m. today in Room 179 of SUI's Medical Laboratories Building.

Scientific papers will be presented by Pearl Swanson, Charlotte Roderuck, and Clarence Suelter of Iowa State College, and R. M. McLampy of the Iowa Agricultural Extension Station.

# City UN Chapter To Be Organized; 1st Meeting Set

An organizational meeting of persons interested in forming an Iowa City chapter of the American Association for United Nations (AAUN) is scheduled for April 4 at the Wesley House.

Mrs. Herman Burian, 533 S. Summit St., organizer of the movement, said the idea originated at the state essay contest in Des Moines last June. She added that Mrs. James Schramm, president of the Iowa chapter of the AAUN, suggested a chapter in Iowa City.

Mrs. Burian said the recent visit of Mrs. Eleanor Roosevelt indicated SUI interest and plans for the chapter were started. "She (Mrs. Roosevelt) feels very strongly on the idea of an Iowa City chapter of the AAUN because of participation of the university," Mrs. Burian said.

AAUN chapters spread information about the work of the UN and the issues presently before the world body. Mrs. Burian said. The chapter will be open to everyone. The first project scheduled, if the chapter is organized, will be planning for a city-wide demonstration on UN day in October.

# Humanities Lecture Tonight in Library

An illustrated lecture, "Apian's 'Astronomy': the Wonder Book of the Heavens" will be presented to the public tonight at 8 p.m. in Shambaugh lecture room by the SUI Humanities Society.

Curt Zimansky, associate professor of English at SUI, will discuss the work of Peter Bienczwiz, 16th century German astronomer, mathematician and geographer who wrote under the Latinized name of Apian, short for Petrus Apianus.

Color slides accompanying the lecture will show woodcuts in the book by pupils of Artist Albrecht Durer and illustrations of astronomical calculating devices of the time.

# Journalism Head Honored at Dinner

Prof. Leslie G. Moeller was honored for ten years of service as director of the SUI School of Journalism at a testimonial dinner Saturday night.

The dinner was planned as a "surprise party" by faculty members of the School of Journalism. A reception at the home of Prof. and Mrs. Ellis Newsome preceded the dinner.

Edward F. Mason, associate professor emeritus on leave of absence from the School of Journalism, described the highlights of Moeller's career. Dean Dewey B. Stult of the College of Liberal Arts spoke on the School of Journalism as a part of the College of Liberal Arts. Moeller was presented with a color photograph of the Communications Center. The picture was taken and processed by photography students of the School of Journalism.

### Youth Urged To Dismiss Politics: Ray

Robert F. Ray, director of the SUI Institute of Public Affairs, said Monday that Americans often urge their children to avoid making a career of politics even though they believe in free government. Ray, speaking at the first annual Adult Education Conference in Shambaugh Lecture Room, said many parents tell their children that "politics is a dirty business."

"We can't call politics dirty," he said. "Politics provide the only machinery we have to produce leadership."

Ray told the delegates to the conference, composed of Iowa club women, that creating interest in politics begins in the home. Women can do the most effective job here, he said to the all-woman audience of about 30.

"The United States can not give leadership to the world and use second class people for the job," Ray said.

He urged the audience to give part of its time to support of a political party and to help make political careers attractive to the young men and women of Iowa.

### Two SUI Alumni Given Fellowships For Study in Rome

Two SUI graduates of 1953 were among 10 American students named to receive Rome prize fellowships for study during the 1957-58 school year at the American Academy in Rome, Italy, Dean Walter F. Loehwing of the SUI Graduate College said Monday.

Eugene E. Matthews, G. Davenport, in the art department, received one of two awards in the painting classification. Matthews is presently working toward a masters of fine arts degree at SUI.

John O. Lenaghan, Clinton, was one of three students chosen to further their study in the classics. Since 1955, Lenaghan has been a graduate student at Princeton University.

The awards, which carry a \$3,000 stipend, are made to further the development of the fine arts and classical studies in the United States by granting fellowships to outstanding young American artists and scholars, Dean Loehwing said.

### City Editors Meet To Feature Hovey

Graham Hovey, editorial writer for the Minneapolis Star and Tribune, will be the featured speaker at a two-day conference of city editors at SUI Saturday and Sunday.

He will discuss "Press Performance and United States Foreign Policy" at a dinner Saturday evening.

Approximately 25 newsmen from Iowa and surrounding states are expected to attend the conference. Hovey is widely known for his coverage of fighting and politics in Africa, Italy and France during World War II. He is a native of Cedar Falls who started newspaper work as a reporter on the Waterloo Daily Courier in 1938.

He spent five years reporting from abroad and three years as a Washington correspondent covering the State Department, the embassies and other agencies and offices concerned with foreign policy.

Hovey has been a member of the School of Journalism staffs at the University of Minnesota and the University of Wisconsin.

### Bank Burglar Arrested After Returning for Car

CRESTON, Iowa (AP)—Arrest of a bank burglar whose getaway car became stuck in the mud was announced Monday by the FBI. Thomas Gordon Tinkle Jr., 35, Memphis, Tenn., was seized when he returned with a wrecker to extricate his car from a mudhole near Shannon City, south of here.

The Shannon City office of the First State Bank of Diagonal was robbed of \$500 in silver and 3,000 to 4,000 unissued travelers' checks Saturday night or early Sunday. Tinkle was seized later Sunday.

### That's My Sister!

BEEMING WITH PRIDE, Mary Ann Seberg, A3, Marshalltown, admires a recent magazine article about her movie-star sister, Jean, who starred in the recently finished movie, "Saint Joan."

### Two Sisters Disagree On 'Lonely' Hometown

By MARLYS CREGER Daily Iowan Staff Writer

Former SUI student turned actress, Jean Seberg, was quoted in a recent issue of a national magazine as saying that acting was her way of escaping from the humdrum life in her hometown, Marshalltown.

But her sister Mary Ann, A3, Marshalltown, disagreed Monday. "She knew, like we all did, that she was headed for something bigger than she could find in Marshalltown," Mary Ann said.

The magazine quoted 18-year-old Jean, who has just finished the film version of George Bernard Shaw's "Saint Joan," as saying that she felt loneliness and isolation in Marshalltown.

Jean is also quoted as saying, "I never felt as if I belonged here (Marshalltown). I'd look at all the people in this town who just get up in the morning and go home to bed, and I'd think, if that's all

there is to life I don't want it."

Mary Ann doesn't think Jean was so lonely. "She had so many friends, and letters — she got more mail than all the rest of the family put together," Mary Ann said.

Mary Ann said she liked Marshalltown "just fine," but then you know how we all feel about our home towns.

Mary Ann said she thought possibly Jean was misunderstood. "At least I was never aware of any feelings she had against Marshalltown."

Mary Ann is a speech pathology major at SUI. She won't be going back to Marshalltown to work after graduation, she said, but she would like to go to a city of about the same size.

"Marshalltown is a good size for children to grow up in," she said. Jean is expected to arrive in Marshalltown today from New York for a visit. Mary Ann plans to take a week off from school to visit with her sister.

### SUI Doctor Gives Women Tips on Health Problems

Women attending the first annual Adult Education Conference here Monday were told by Dr. Franklin Top, head of the SUI Hygiene and Preventive Medicine Department, that women's clubs can initiate community surveys to determine health needs, then take steps to meet them.

Dr. Top spoke at the conference, co-sponsored by the Iowa Federation of Women's Clubs and SUI's Extension Division, in Shambaugh Lecture Room.

Health problems which Top listed for community study included the need to keep a high enough per cent of population immunized against infectious diseases to prevent possible epidemics.

We cannot safely become complacent about tuberculosis because of new drugs developed to treat it, Top warned.

It is still a community problem, since new cases are being found, many of them among older people, who may get the disease or are open to reinfection if they become careless about nutrition, Top explained.

Women's groups were urged by Top to back fluoridation of community water supplies if the water does not naturally have enough of this protection. Addition of fluoride can bring a 60 per cent decrease in dental cavities, Top said.

Need for accident prevention programs is underscored by such statistics as these, Top said:

1. Accidents cause more deaths than anything else among those aged one to 24, with 50 per cent of these accidents taking place in the home.

2. Accidents are the second cause of death between ages 25-44 and are in fifth place from 45 on.

Top stressed the need to set up local health departments as well as to provide greater financial support for the state health department, which ranks 46th among the states in tax support received.

### Highlanders To Perform In Chicago

Fifty-two members of SUI's Scottish Highlanders will perform at the First U.S. Men's National Curling Championship in Chicago Stadium Wednesday through Saturday.

The Highlanders, largest drum and bagpipe band in the world will open the championship games Wednesday. The next day 22 of the girls will return to campus, and the other 30 will stay to play on the three remaining evenings, and make other appearances.

Curling is an ancient Scottish sport which consists of sliding a horizontally-revolving, or "curling" stone down a 139-foot strip of ice, attempting to make it come to rest near the center of a three-ring-bulls-eye at the far end. Curling is often called the "roaring game."

### Snow Doesn't Stop Legislative Action

DES MOINES (AP)—With snow piled deep on the Iowa landscape Monday, the House passed bills to license and regulate weather modification enterprises and legalize the building of a swimming pool at Fonda.

Although many members failed to reach Des Moines after the weekend adjournment, the House proceeded on a noncontroversial calendar and 20 bills were approved.

The Senate, reduced in numbers by the heavy snowfall, forwent discussion on controversial measures and passed nine noncontroversial bills Monday afternoon.

There was no morning session in the Senate, but 42 out of the 50 senators answered roll call in the afternoon.

### British May Delay Debt Installments

WASHINGTON (AP)—The Senate approved Monday an agreement permitting Great Britain to postpone seven annual payments on billions of dollars of loans from the United States.

By voice vote, it amended a 1945 agreement calling for annual British payments of \$134,400,000 toward principal and interest. The amendment would allow postponement until Dec. 31, 2001, of any seven of the annual payments.

President Eisenhower had recommended the action, at the request of Britain which argued that the unending economic effects of the recent Middle East fighting would make payments this year a hardship.

The outstanding principal of British loans from the United States totals around \$4,060,000,000. House action is necessary to complete approval of the amended agreement.

### University Briefs

Dr. George S. Easton, professor of oral diagnosis in SUI's College of Dentistry, is attending the 34th annual meeting of the American Association of Dental Schools in Atlantic City, N. J. The meeting will end Wednesday. Dr. Easton will discuss the objectives of a course in oral diagnosis before the Conference Session on Oral Diagnosis.

Two representatives of the State University of Iowa circle of Omicron Delta Kappa, upperclassmen's leadership honor society, installed a new ODK circle Sunday on the campus of the University of South Dakota. Dean of Students M. L. Huit and Frank Myers, senior medical student, Sheldon, took part in the ceremony. Dean Huit installed the new South Dakota officers in his capacity as Provost Deputy of ODK's Western Province.

University High School band will present a concert tonight at 7:30 p.m. in the U-High gymnasium.

### Plans Slated To Improve SUI Campus

SUI Grounds and Building Department plans to spend \$5,000 for campus improvements this spring, R. J. Phillips, superintendent of maintenance and operations, said Monday.

"We have already spent about \$1,000 for tree-trimming this spring near Burge Hall, women's dormitory now under construction, and Old Capitol," Phillips said.

Campus laws were raked and cleaned up last week, but it is still too early in the year to start other improvements he said.

Phillips said plans for improvements this spring include planting shrubs and evergreens and arial and fertilizing the grass.

The department will continue with improvements as soon as the ground dries up from the snow, Phillips said.

"Fifty 'Please Use the Walk' signs have been placed on the campus, Phillips said. "We are certainly happy the way everyone is cooperating by not walking on the grass. I don't know what happens after 5 p.m., but between 8 a.m. and 5 p.m. it looks pretty good."

### In Russia:

## Education May Bring Changes

By MARY LYNN BOOTH Daily Iowan Staff Writer

Mass education is working to produce tremendous changes in the structure of the Soviet Union, Prof. Nicholas V. Riasanovsky of the SUI History Department said at the first annual Adult Education Conference, Monday in Shambaugh Lecture Hall.

He spoke to the Iowa Federation of Women's Clubs during the first of the two-day conference sponsored by the Federation and the SUI Extension Division.

"There has been no major change so far, however, in the basic structure, control, and aims of the Soviet Union," he said. "The same group of leaders has remained in control and the state has remained totalitarian."

"Until this situation changes," he added "there will be no serious change in the Soviet policy. There will be only 'managed liberalization' on a very small scale."

Speaking on "The Soviet Union and Eastern Europe," Riasanovsky outlined factors which "seem to indicate a more liberal Soviet Union since the death of Stalin."

These indications are:

- 1. More ease of travel to and from the Soviet Union.
- 2. A certain relaxation of the police state.
- 3. A more "friendly" overseas policy.

"This trend toward relaxation in Soviet structure seems to have a logic of its own beyond the ideas of Soviet leaders," he said. He described the upheavals in Soviet leadership since the death of Stalin.

Stalin, and said there had been speculation that Soviet policy would become "tougher" with each change.

"Yet, until the October incident in Hungary, Soviet policy pointed to the same 'relaxed' trend despite changes in leadership," he said.

Riasanovsky explained the reason for this was that certain psychological forces were working toward relaxation. Mass education has accounted for these psychological forces, he said.

"When the Communists took over in 1917," he said "60 per cent of the people of Russia were illiterate. Now with compulsory education, there is virtually no illiteracy in the Soviet Union."

"Even though this education is strictly limited to state-dictated courses of study, it is more difficult to control educated minds than ignorant minds."

Riasanovsky, the author of "Russia and the West in the Teaching of Slavophiles," said a manifestation of the Soviet Union's "relaxation" policy is the "amazing phenomenon of Poland — the fact that Poland has gained a special kind of economy within the Soviet world."

Riasanovsky stated the role of Communist ideology — the philosophy that Communists are fundamentally hostile to the non-Communist world — has remained upmost in Soviet policy.

"Unless a real change in Communist doctrine appears, which will indeed eliminate that basic doctrine, or unless the Communist party loses its hold on the Soviet government, no real change in policy can take place," he said.

Chesterfield King gives you more of what you're smoking for!

What's it like to work for a big, expanding company like IBM? What would I be asked to do? Would I get ahead fast? These were some of the questions that filled Bob Everett's mind as he faced up to the big problem, "How can I put my M.B.A. training to the best possible use?"

Bob came directly to IBM from Cornell in July, 1955, with an M.B.A. in finance. He was immediately assigned, with twenty-nine other M.B.A.'s, to a Business Administration training program. This six months' program comprised general orientation in the entire IBM organization, a six weeks' field trip to the

Syracuse branch office and several months at the Poughkeepsie manufacturing facilities. There he gained a functional knowledge of IBM machines, particularly the 700 series of giant electronic computers.

His training completed by January, 1956, Bob was assigned to the Methods Department as a Methods Analyst at IBM World Headquarters in New York City. Here, with the cooperation of operating department personnel, he worked on the development of systems and procedures for the various Division areas. In addition to normal methods techniques used in developing systems and procedures, he studied these projects in terms of possible machine application for either IBM high-speed giant computers or conventional accounting equipment. One project was the study of the Machine Ordering procedure with the objective of simplifying and mechanizing it and at the same time improving the source information to provide for a more complete analysis of sales and production backlog.

Developing a new system

Keeping the boss posted

Why Bob picked IBM

Bob made a careful study of existing opportunities before selecting IBM for his career. He had a dozen campus interviews; took nine company tours. IBM's M.B.A. program interested him — because, as he says, "It gave me a chance to review the entire company before starting an actual line assignment."

By December of the same year, Bob was promoted to his present job — Administrative Assistant to the Controller of the Data Processing Division. "The first function of an Administrative Assistant," says Bob, "is to filter out the 'hot' projects from those that can be handled later. You follow through on projects assigned by the controller and keep

him posted on their progress." Bob's new position affords a pleasant diversification of work: charting divisional responsibilities of the controller's function... plans for decentralization... costs of regionalization... summarizing key financial and statistical information for presentation to top management.

Bob points out that there are many areas in Business Administration at IBM for men with an M.B.A. or a B.S. in accounting: corporate, general, and factory accounting; internal audit; methods; payroll and taxes. Administrative and management positions constantly open up at World Headquarters, IBM's 188 branch offices, many plants and laboratories.

"Opportunity certainly exists at IBM," he says. "Growth factors alone will account for many new executive positions. A second factor is the trend toward decentralization, which also creates new jobs. These factors, plus IBM's 'promote-from-within' policy, add up to real opportunity."

IBM hopes that this message will help to give you some idea of what it's like to be in Business Administration at IBM. There are equal opportunities for E.E.'s, M.E.'s, physicists, mathematicians and Liberal Arts majors in IBM's many divisions — Research, Product Development, Manufacturing Engineering, Sales and Sales Assistance. Why not drop in and discuss IBM with your Placement Director? He can supply our latest brochure and tell you when IBM will next interview on your campus. Meanwhile, our Manager of College Relations, Mr. P. H. Bradley, will be happy to answer your questions, write him at IBM, Room 10001, 590 Madison Ave., New York 22, N. Y.
