

THE WEATHER

Iowa City will have fair skies and continued high temperatures today. The mercury is expected to rise to the mid-nineties with no precipitation in sight for the weekend.

Thursday's high was 90 degrees and the low was 66 degrees.

Move To Bar Foreign GI Trials

Quill and Scroll Names Prof. Benz Executive Secretary

Lester G. Benz, publisher of The Daily Iowan and assistant professor in the SUI School of Journalism, has been named executive secretary of Quill and Scroll Society, international honorary society for high school journalists.

The appointment was announced today by Dr. George H. Gallup, director of the Institute of Public Opinion at Princeton, N.J., and chairman of the trustees of Quill and Scroll.

In his new position, Benz will direct the promotional program of the organization and edit Quill and Scroll Magazine. He will succeed Edward Nell, who died in April. Quill and Scroll has more than 200 active chapters in Iowa high schools. Its more than 5,000 chapters are located in every state in the Union and in some dozen foreign countries.

As assistant professor at SUI, Benz will continue to teach part-time on the Iowa Journalism faculty. He will resign as publisher of The Daily Iowan, a position he has held for the past two years.

A former high school teacher at Gowrie and Fort Dodge and a newspaper publisher at Sheffield and Osage, Benz joined the SUI Journalism faculty in 1953. In the four years that he directed the program of the Iowa High School Press Association, that organization's membership has quadrupled and the services of the association have been greatly expanded.

Benz is a graduate of Morning-side College in Sioux City and holds an M.A. in education from SUI. In 1955 he was a winner of the Alumni Achievement Award at Morningside.

He is a former president of the Iowa Press Association and in 1949 his Mitchell County Press-News at Osage was named the outstanding weekly newspaper in Iowa.

He is a member of Sigma Delta Chi, national professional journalism fraternity; Kappa Tau Alpha, honorary society in journalism; Pi Kappa Delta, Iowan forensics fraternity; and Phi Delta Kappa, professional fraternity for men in education.

With the appointment of Benz, Dr. Gallup announced that the headquarters of Quill and Scroll would be moved to Iowa City and will be affiliated with the SUI School of Journalism. Offices have been maintained in Chicago for many years.

McClellan, Counsel Deny Setting Trap For James Hoffa

WASHINGTON (AP) — The chairman and counsel of the Senate Rackets Investigating Committee Thursday denied in court they baited a trap to snare Midwest Teamsters boss James R. Hoffa.

Hoffa is on trial for an alleged bribery-conspiracy plot to obtain the committee's secrets. The testimony was given by Sen. John McClellan (D-Ark.), the committee's chairman, and Robert F. Kennedy, its chief counsel.

The 4-week-old trial began to move swiftly after U.S. Dist. Judge Burnita S. Matthews declared a mistrial as to Hoffa's co-defendant, Miami attorney Hyman I. Fischbach, whose counsel had become ill. Fischbach is to be tried later.

McClellan and Kennedy were called after the government's key witness, John Cye Cheasty, an investigator on the McClellan committee staff, wound up 10 days of testimony. Cheasty has told how Hoffa paid him to get a job on the Rackets Committee staff and feed Hoffa data from committee files.

LINER FREED HAMILTON, Bermuda (AP) — The grounded cruise liner Reina del Pacifico was pulled off Devil's Flat reef into the channel Thursday night.

Ground tackle equal to the power of 10 tugs moved the ship off the reef, eight miles north of Hamilton, where it perched since last Monday night with 566 passengers aboard.

Odds-Maker To Go Back To Minneapolis

DAVENPORT (AP) — Police reported Thursday they had been told that Leo Hirschfeld intends to turn over his odds-making service here to a Bettendorf man and return to Minneapolis.

Hirschfeld, 60, is head of Athletic Publications, Inc., which for the last 25 years operated at Minneapolis a sports dope sheet and a service to clients wanting odds on sports events.

Hirschfeld was questioned here Wednesday by Scott County officials about an odds-making service which he recently opened in a downtown Davenport office building.

Police said they had on file a routine report by a police detective, quoting Hirschfeld as saying he intends to turn over his Davenport operation to Jack Bankman of nearby Bettendorf and operator of the Cinarco Camera Store here. Bankman declined comment.

Meanwhile, Scott County Attorney Martin Leir said he and state agents are still checking to see whether the odds-making service is legal in Iowa, although Hirschfeld told them that he does not have any clients in this state.

Leir said Hirschfeld's books and photostatic copies of his records are being studied.

President Hancher OK

President Virgil M. Hancher of SUI was reported in good condition Thursday night following a prostate operation earlier in the day in University Hospitals.

The attending physician, Dr. R. H. Flocks, head of the SUI Department of Urology in the College of Medicine, said Pres. Hancher will be in the hospital for seven to ten days.

Dr. Flocks said the operation Thursday was in no way connected with the mild heart attack Pres. Hancher suffered last fall.

Feminine Protest

ACTRESS VIVIEN LEIGH was escorted out of the House of Lords after shouting from the gallery in protest against the demolition of the old St. James theater in the British capital. A group of businessmen want to tear it down and put up an office building.

Supreme Court Clears Way For Japanese Trial of Girard

WASHINGTON (AP) — The Supreme Court, in an 8-0 decision of far-reaching import, Thursday cleared the way for Japan to try GI William S. Girard for manslaughter.

The high tribunal ruled that the Eisenhower administration violated no provision of the Constitution or laws when it waived any right to try Girard by U.S. Army court-martial and decided instead to turn him over to Japan.

The eight justices upheld the agreement between the United States and Japan. The pact gives legality of the status-of-forces primary right to try American servicemen to the United States in some cases and to Japan in others.

It also provides that one nation shall give "sympathetic consideration" to waiving its right on request from the other nation.

After a dispute with Japan as to who had the primary right in the Girard case, top-ranking American officials decided to allow Japan to try the soldier in connection with the fatal shooting of a Japanese woman scavenging for scrap metal on a rifle range which American and Japanese forces shared. This decision was approved by President Eisenhower.

Girard, a 21-year-old Army specialist third class from Ottawa, Ill., is accused of fatally wounding Mrs. Naka Sakai last Jan. 30 by shooting her in the back with an empty cartridge case fired from the grenade launcher of his rifle. Girard was on guard duty at the time.

The decision was hailed as "good news" by the Japanese ambassador here, and in Japan Girard was promised a "fair and fast trial."

But in Congress there were renewed demands for action to scrap or change the status-of-forces pacts which have been signed with about 50 nations.

Rep. H. R. Gross (R-Iowa) called the court decision "another assault on the Constitution of the United States."

Secretary of Defense Charles E. Wilson quickly issued a statement that the United States "will render every possible assistance to Girard and his counsel in the protection of his rights."

Wilson had previously said that if the status-of-forces pacts were canceled, the United States would have to pull its forces out of foreign lands and retire to a "fortress America."

The U.S.-Japanese agreement entered into under a mutual security treaty which became effective April 28, 1952. One article of the treaty authorized the making of administrative agreements between the two countries concerning the disposition of the armed forces of the United States in and about Japan.

Chief Justice Earl Warren read Thursday's decision in a clear, firm voice in a well-filled courtroom. It said that the Senate ratified the security treaty after considering the administrative agreement, which had already been signed.

It further noted that the Senate SUPREME COURT (continued on page 6)

Leader of Moslems Aga Khan, 79, Dies At His Lakeside Villa

GENEVA (AP) — Aga Khan, Moslem religious leader who lived like a king of old, died Thursday at his lakeside villa in suburban Versoix. He was 79.

His heart began to fail six years ago. Thursday it gave out. Sorrowing Moslems of all sects prayed for the soul of the spiritual head of 20 million Ismaili Moslems — the man who had weighed himself in gold, diamonds and platinum.

Prince Aly Khan, 46, former husband of actress Rita Hayworth, seemed destined to succeed his father as the Ismaili leader. But his half-brother, Saruddin, 24, might AGA KHAN (continued on page 6)

Yocum, City Tiff: Max Gets Permit As City Sends Bill

Max Yocum and the City Council seem to have settled some of their differences because Max is at it again — and with a permit granted him this week by the council, Yocum began moving a former service station into the eastern part of Iowa City Thursday. He expects to complete the work today.

The latest development in Yocum's last house-moving venture was a bill presented him this week by the city for \$265. The bill is for street department labor and materials used in the removal of the roof from a house Yocum moved last week.

Yocum said the City sent him a letter stating that the bill must be paid on or before the close of business July 8. The bill is still unpaid and Yocum said, "... they haven't paid me for the \$2,000 damages for the house yet, either."

French Trial

A PARIS GENDARME ESCORTS handcuffed DeWayne McOsker to court Thursday for a hearing on charges of murdering an Algerian in a black market dispute. The 21-year-old U.S. soldier from Manhasset, N.Y., was off duty at the time of the Paris street fight. An Army spokesman said Thursday in Paris that France has refused a request for U.S. custody of the accused GI.

Khrushchev Calls Ike Report 'Stupid'

PRAGUE, Czechoslovakia (AP) — Soviet Communist boss Nikita Khrushchev said Thursday President Eisenhower's report on the possibility of a "clean" hydrogen bomb is "stupid."

In a speech in this Communist capital, the victor in the latest Kremlin shakeup declared: "President Eisenhower is a talented man of great principles. But look at what a stupid thing he says when he says there is a clean hydrogen bomb."

How can you have a clean bomb to do a dirty thing? It means the destruction of women and children. What a contradiction! They call dirty things clean."

The White House issued a statement saying: "It is rather amazing that Mr. Khrushchev would think efforts by American scientists to eliminate dangerous fallout from atomic explosions is 'a stupid thing.'"

The avoidance of mass destruction in an atomic war is and has been a prime objective of President Eisenhower and his Administration, no less than the aim of eliminating the possibility of war itself. Such efforts to which the United States is dedicated are and will be continued."

President Eisenhower told his June 26 news conference scientists had informed him that possibly within four or five years they might produce an "absolutely clean" H-bomb.

This would be a bomb free of radioactive strontium-90 fallout which can contaminate vast areas. Present bombs are called "dirty" because of the high amount of fallout involved. A "clean" bomb could be concentrated on military targets.

Khrushchev, here with Soviet Premier Nikolai Bulganin on what is advertised as a goodwill visit, made his comment toward the end of an hour talk to cheering workers at Prague's Stalingrad metal-lurgical plant.

Iowa City Slated To Participate In Civil Defense Alert

Iowa City will participate in a Civil Defense alert today at some time after 10 a.m. The signal to take cover will be a wailing tone or a series of short blasts on sirens or other warning devices. At this time.

If at home — Get into your home shelter immediately. If you have none, shut all outside doors and windows and take cover in the basement or a first-floor room.

If outdoors — Seek the best available cover and remain there until you get word to come out.

IMPORTANT: If you see a bright flash of light, take cover instantly. The alert signal will be a steady blast of 3 to 5 minutes of sirens or similar devices. When you hear this, DO NOT: 1) Use your telephone; 2) become panicky if your radio is silent for a short time. This is necessary to switch to emergency broadcasting frequencies. Remember, Conelrad—1240 and 640 kilocycles—is the place to get further civil defense instructions during the alert. Turn your radio to one of these frequencies as soon as the alert is sounded.

House Group To Put Rider On Ike's Foreign Aid Bill

WASHINGTON (AP) — A House battle began shaping up Thursday night to add to President Eisenhower's new foreign aid bill a prohibition against foreign court trials of U.S. servicemen.

The move developed in the wake of the Supreme Court's decision in the case of GI William S. Girard. The court upheld the legality of a decision by U.S. officials to turn Girard over to the Japanese Government for trial on a manslaughter charge.

Rep. Bow (R-Ohio) said he was studying Eisenhower's \$3,242,333-000 foreign aid measure "to see where an amendment might be offered." The aid bill was cleared by the Rules Committee Thursday for House consideration starting Monday.

Bow said the Supreme Court decision in the Girard case "makes it even more urgent" that Congress act on his resolution aimed at preventing the prosecution of U.S. servicemen in foreign courts.

Rep. Wayne Hays (D-Ohio) predicted that Bow's resolution, which has been brought in the Rules Committee, "will be put on as an amendment" to the foreign aid bill.

The resolution is opposed by the Eisenhower Administration, whose spokesmen contend its adoption would force the recall of U.S. forces from all parts of the world.

If the House and Senate should vote to incorporate it in the foreign aid bill, Eisenhower would be faced with the dilemma of having to accept it or veto the whole bill.

The Supreme Court decision brought these other repercussions: 1. Rep. Ayres (R-Ohio) introduced a bill calling for a "full and complete" investigation of the Girard case.

2. Sen. Thurmond (D-S.C.) said he would press for adoption of his resolution putting Congress on record as being opposed to the surrender of any U.S. servicemen to foreign courts for trial.

Administration spokesmen generally expressed satisfaction with the high court decision, but many members of Congress were sharply critical.

Rep. Gross (R-Iowa), in a House speech, called it "another assault on the Constitution of the United States and an undermining of the rights of the individual."

To a reporter he added: "It simply makes imperative the immediate consideration in the House of the Bow resolution."

On the other hand Rep. Judd (R-Minn.) told a reporter, "I think the decision will clear the atmosphere and the results will be helpful around the world."

Judd said the decision shows that America does not want to set up one law for itself and another one for other countries.

He said the Government's decision to turn Girard over to the Japanese was "an error of judgment, not something in violation of the Constitution."

Eisenhower was informed promptly of the decision but the White House said he had no immediate comment.

Girard's Family Is Shocked at News Of Court Decision

OTTAWA, Ill. (AP) — The Supreme Court's decision Thursday permitting Japan to try GI William S. Girard in the killing of a Japanese woman shocked and saddened his family in Ottawa.

"I sure thought they (the court) were going to be fair about it," said William's older brother, Louis. "I didn't know anything like that could go on in this country."

Mrs. Girard said she heard news of the court's decision on the radio. "It made me feel awfully bad," she said.

Louis said the family had made "no plans yet" to attend William's trial in Japan. "Maybe somebody will; at least somebody should," he said.

"I sure couldn't make the trip to Tokyo," said Mrs. Girard, "but I would like to."

Louis said he didn't think the court's decision "would go that way." "Mom didn't either," he said. "None of us did."

NASSER'S MOVE? WASHINGTON (AP) — U.S. officials say they expect Egypt's President Gamal Abdel Nasser to announce some new, possibly sensational Middle East move in a speech to his people set for July 23.

Some authorities believe that Nasser this year may demand that United Nations Emergency forces leave his soil, or that he may announce a blockade of the disputed Gulf of Aquaba.

Shocked by Ruling

THE GIRARD FAMILY, shocked by the court ruling, are pictured after receiving the news that the Supreme Court upheld the U.S. Government's decision to turn Army Specialist 3/c William Girard over to Japan for trial. William's brother, Louis, a garage mechanic, said: "I didn't know anything like that could go on in this country."

## Lawbound Virtue

Fiery—and respected—labor leader John L. Lewis told the House Labor Committee Tuesday that there is "no necessity" for federal legislation on welfare funds.

With proper deference to the widely quoted but ill-defined qualities that have made this nation great—namely liberty and free enterprise—he launched into an emotionally charged attack on Governmental measures which would attempt to prevent abuses of labor funds such as have been exposed within our largest unions.

"Yet we speak calmly here today of our Government adopting measures from which our forefathers fled to populate this country."

He went on to say that legislation cannot achieve virtue—as the duller intellect must instantly perceive. However, it is possible to legislate institutions to guard against the worst effects of individuals who lack "virtue."

Faced, as we seem to be, with irrefutable evidence that union funds are being misused—and with contemptuous disregard for the workers involved—we must consider the corrective methods available to us.

Mr. Lewis, doubtless projecting his own sterling honesty into other union leaders, said

that what was needed was more honesty, not more laws.

This may well be true, but although man has many times found it possible to improve his social institutions, he has rarely been successful in attempts to improve the honesty and virtue of the general public.

No, Mr. Lewis, were we to follow your advice to its logical conclusion, we would not have such institutional safeguards as police, better business bureaus and customs inspection—even though experience tells us that we need more than honesty and virtue in these areas.

"More and more is being heard about the field of 'public relations'. Put simply, public relations is just good-will on a business basis. Most everyone knows that good-will is perhaps the most important asset in any business."—London, Ont., Press.

"Who will be next? Whose life must ebb away because of this high speed nonsense? Fifty miles an hour will get you there—alive! You can save time—to the graveyard—at 60, 70, 80 or 90."—Anchorage, Alaska, Daily News.

## Examine Reapportionment

Reprinted from Waterloo Daily Courier

REAPPORTIONMENT of the Iowa General Assembly is often viewed as an issue between the metropolitan counties which are gaining in population and the counties which are commonly losing population.

More importantly, however, reapportionment is an issue between over-taxed, under-represented northern Iowa and over-represented, benefit-receiving southern Iowa.

As the map below illustrates, southern Iowa is getting a free ride in the state tax field. Wealth is being drained out of prosperous northern Iowa to pay all the cost of general state government and in addition subsidize local benefits in southern Iowa to the tune of nearly three million dollars a year.

THE IOWA TAX Commission has prepared tables showing the amount of state taxes collected in each county for the 1955 fiscal year and the amount of state funds allocated to or spent in each county for the 1955 calendar year.

The state taxes include the sales, use, income, corporation, gas, cigarette, beer, motor carrier, inheritance and insurance levies and revenue from liquor store profits, motor vehicle licenses and fishing and hunting licenses. The allocations back to the counties include state school aid, agricultural land tax credits, homestead credits, military service tax credits, social welfare aid, all road money from state sources spent in the counties including primary highway expenditures and allocations of liquor store profits to cities.

THE FIGURES SHOW how northern Iowa, particularly the larger counties, is being taxed to provide benefits in southern Iowa.

The county figures will vary from year to year because of primary road expenditures and other factors; but the north-south pattern has become a permanent feature of Iowa government.

ture of Iowa government.

This pattern means that the 41 southern Iowa counties shown on the map below, in effect, pay not a dime for the support of general state government such as state departments, state colleges, state hospitals and state penal institutions. They get all of these general state services free and, in addition, get a subsidy of nearly three million dollars a year in local expenditures from state funds collected in northern Iowa.

THE DIFFERENCE between the total collected in state taxes in all counties and the amount allocated back to all counties was \$4,578,193. That is the amount used for general state purposes. The 41 southern Iowa counties, on a per capita basis, would have paid 33 per cent, or \$13,720,803, of that amount.

In other words, northern Iowa not only subsidized local expenditures in these southern Iowa counties by nearly three million dollars but also paid an additional amount of \$13,720,803 as southern Iowa's share of general state government costs. It is fair to say, therefore, that northern Iowa is subsidizing southern Iowa to the tune of more than 16½ million dollars a year.

Of course, some of the 41 counties in southern Iowa pay considerably more in state taxes than are allocated back to them in state aid. But of the 41 Iowa counties which in that year received more in allocations than they paid in state taxes, 30 are in southern Iowa.

NATURALLY THERE is some justification for equalization of state services to less prosperous areas without regard to the tax contributions made by those areas. A child in southern Iowa should have a good educational opportunity regardless of the tax base in his school district. Since wealth tends to gravitate to the larger cities, it is proper that this wealth

should be taxed to maintain a fair level of state services in rural areas. Ability to pay is one yardstick for measuring a fair tax system.

BUT, WHILE NOT opposing moderate application of the principle of equalization, we most vigorously oppose a system in which over-represented southern Iowa, with the aid of a few small counties in the north can cram this kind of a tax pattern down our throats.

What we have in Iowa is taxation without fair representation; and any good American has a right to fight such an undemocratic system.

THIS, THEN, is the situation in Iowa:

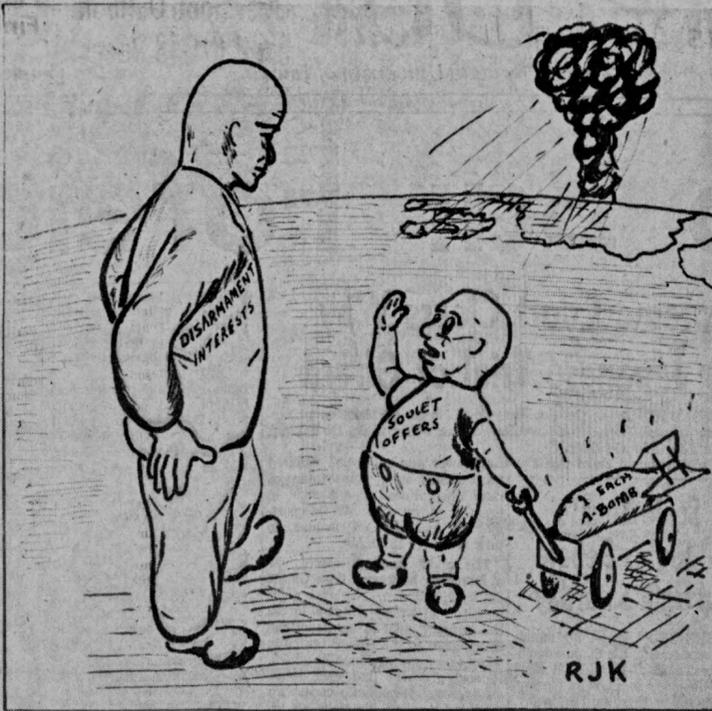

1. North Iowa is subsidizing southern Iowa to the tune of more than 16½ million dollars a year.

2. These 41 southern Iowa counties with only 33 per cent of the state's population have 40 per cent of the seats in the Iowa legislature. With the assistance of a few legislators from small counties in northern Iowa, southern Iowa can control the Assembly and vote more tax inequalities.

3. With 33 per cent of the population, these 41 southern Iowa counties pay only 29 per cent of the state taxes. Yet they receive 39 per cent of the state funds allocated back to counties.

IN OTHER WORDS, the prosperous small-population counties of northern Iowa ought to stop thinking of reapportionment as a rural-urban issue. They ought to start thinking of reapportionment as a means by which they can fight off tax raids on northern Iowa wealth.

While equalization of state services can be justified to a degree, it should be accomplished as a matter of fairness and justice rather than through political robbery in a malapportioned, horse and buggy legislature.

That's All I Go Mister! Honest!

## Grant Nine Year Life Span

National Safety Council Receives Funds Hope Satellite Gains Knowledge of Atmosphere

CHICAGO — The National Safety Council today received a grant of approximately \$175,000 a year from the Automobile Manufacturers Association, the Association of Casualty and Surety Companies and the National Association of Independent Insurers.

The money is being contributed to finance expansion of the Council's activity in the formation and service of state and local safety councils.

Creation and strengthening of such state and local citizen groups to support public officials in bringing about greater traffic safety was the objective of the four regional conferences sponsored last year by the President's Committee for Traffic Safety.

The funds were presented to the Council through the joint Automobile and Insurance Industries Committee on Highway Safety, and were accepted for the Council by Gen. George C. Stewart, its executive vice president.

"These funds," said Gen. Stewart, "will enable the Council to approximately double its present field service staff of 10 men."

"It also will make it possible for the Council to comply with the many requests for aid in forming and improving state and local citizen safety groups that we have been unable to meet with our present limited personnel."

"We will begin immediately to recruit and train additional personnel to provide the expanded services to state and local safety councils envisioned in this grant."

Gen. Stewart said the funds provided by the grant will be used on the national level, and do not reduce the need for funds provided on the state and local level for the actual formation and maintenance of citizen safety organizations.

"Without more and more such state and community groups working continuously and energetically to meet the traffic accident problem, there is little or no chance that the traffic toll will ever be reduced to any substantial degree," he said.

At the present time, the Council said, there are approximately 250 local safety organizations in the nation. These groups encourage more effective official programs, including police supervision, traffic engineering, driver licensing, improved and uniform legislation and public education.

Each of the donor groups is active in conducting safety programs of its own and in supporting and encouraging the safety efforts of other groups. The Automobile Manufacturers Association is composed of the nation's leading manufacturers of motor vehicles. The Association of Casualty and Surety Companies represents 140 capital stock companies writing casualty insurance and surety coverages and the National Association of Independent Insurers represents 291 independent companies writing casualty insurance and surety coverages.

NO PLACE LIKE INDIANAPOLIS — Manuel Bond walked home to his home after 48 days in jail to spend a few restful hours in his favorite easy chair.

But there was no chair. In fact, there was no home. All Bond could find was an empty lot.

Seems as if the Indianapolis Redevelopment Commission couldn't find Bond so they had to go ahead and tear his house down for a slum clearance project.

Bond never did find out what happened to his easy chair.

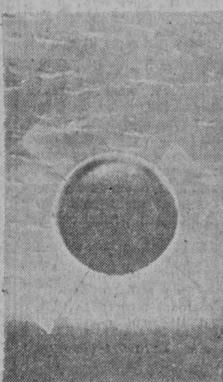

WASHINGTON, D. C. — Rough values of the density of the earth's atmosphere up to an infinite height have been predicted by a Smithsonian Institution astronomer.

At the great height of 800 miles, a region which may be penetrated by orbits of future man-launched satellites, Dr. Theodore E. Sterne of the Smithsonian Astrophysical Observatory and the Harvard College Observatory has recently predicted to the American Astronomical Society that the weight of the atmospheric particles encountered will be only about 250 grams per thousand billion billion cubic centimeters, but still a long way from the vacuum of space, which he evaluates as about one gram per million billion billion cubic centimeters.

Quite precise knowledge of atmospheric density at great altitudes can be found, the report points out, from the time a satellite stays aloft. In a perfect vacuum presumably it would continue forever. Its lifetime is limited, however, by the frictional drag of even the most tenuous sort of atmosphere.

The density falls off rapidly with altitude. Air Force scientists already had calculated probable densities up to 540 kilometers. Dr. Sterne carries similar calculations to much greater distances, more than covering the entire region which an artificial satellite is likely to encounter.

Such calculated densities, Dr. Sterne says, are only rough estimates, later to be improved on the basis of actual measurements made by observing the lifetime of the satellite itself. Such better knowledge of the earth's extreme upper atmosphere actually is a

Earth Satellite

major objective of the satellite program.

According to Dr. Sterne's calculations an object of the size and mass of the satellite to be launched sometime this year conceivably may continue to circle the earth for about nine years. There is a high likelihood, however, that other factors will reduce or increase this flight time.

TRANSPORTATION GOING LA CROSSE, Wis. (AP)—Ray C. Mosey apparently is going to do a lot of walking this summer. He reported to police that the battery was stolen from his car, and that a pair of eight-foot, green oars were stolen from his boat.

## General Notices

General Notices must be received at The Daily Iowan office, Room 201, Communications Center, by 8 a.m. for publication the following morning. They must be typed or legibly written and signed; they will not be accepted by telephone. The Daily Iowan reserves the right to edit all General Notices.

WOMEN'S SWIMMING AND CRAFTS — The women's gymnasium will be open to University women — students, student wives and daughters, staff — each Monday evening June 24 through July 29 for crafts and swimming. Crafts begin at 8 p.m. and swimming is from 9 to 10 p.m. Bring caps and children's suits.

SWIMMING — Summer recreational swimming hours at the Women's Gymnasium are 4:15 to 5:15 Monday through Friday. All University women are invited.

FREE DANCE — Union Board will sponsor a dance Friday, July 12 from 9-12 p.m. in the River Room. Music will be by Leo Cortimiglia and admission will be by I.D. card.

BABY SITTING — The University Cooperative Babysitting League will be in the hands of Mrs. Abigail Newburger from July 9 to 23. She may be reached at 6684 if one desires a sitter or information about joining the group.

OPERA — Tickets for the opera, "Albert Herring" to be presented on July 23, 24, 26 and 27, at Macbride Auditorium, will be on sale at the Iowa Memorial Union East Lobby starting at 9:30 a.m. July 17 and continue until 5:30, July 27. All seats reserved. Tickets are \$2.

PLAY NITE — The facilities of the Fieldhouse will be available during summer session. Mixed recreational activities each Tuesday and Friday night from 7:30 to 9:30. Family night will be Wednesday from 7:15 to 9:15 during which children of faculty, staff, and student body may attend if accompanied by parents. Admission will be by faculty, staff or student I.D. card.

## New 'Hit' for Shostakovich

By GEORGE DIXON  
King Features Syndicate

WASHINGTON, D. C. — Most of my fellow oracles who feel they can spare a few minutes from civil rights are currently engaged in evaluating the shakeup in the Kremlin. They write with the positiveness that is accepted only from those who are guessing. Inasmuch as I haven't been in Russia either, I will tell you what I think the anti-party purge portends.

The ousting of Georgi Malenkov, Lazar Kaganovich and Vyacheslav Molotov, means — unless there are other factors not yet discernible — that Malenkov, Kaganovich and Molotov are out. Conversely, although this could be modified by the fact that the geophysical year is due to last eighteen months, the elevation to the presidency of F. R. Kozlov, Otto Kuusinen and Mrs. Ekaterina Furtseva probably means — barring a last minute shift in the aurora borealis — that good old F. R., Otto and Ekaterina are in.

Ekaterina is the first woman to make the ruling body of the Communist Party, but whether she will bring a softening influence to it we can only wait and see. We must also weigh the possibility that she was promoted so that Shostakovich can top the million-record mark with a new hit, "When Ekaterina Plays Her Concertina Everybody Goes 'Ti-Dee-Um' Around The Presidium."

There seems to be little substance to rumors that Ekaterina was made large in the party so Katie and Bertha, the big women of the Democrats and Republicans here, wouldn't feel so conspicuous.

The Soviet hierarchy would seem to be taking a decided risk in elevating a woman to the ruling class. Given half a chance, women become subversive individualists. This may well be the beginning of the end for communism. Women are fundamental foes of collectivism.

Anyone who has ever tried to collect them knows this. My soothsaying colleagues are divided as to whether the anti-party purge bodes good or ill for improved relations between the Soviet Union and the United States. Some say it bodes ill because any time the Russians make any change it bodes no good. Others contend it bodes good because relations couldn't get iller.

I see possibilities for good in it. Look any day now for Ekaterina to make a goodwill tour of New York so she can go shopping.

The good that this might do could be nullified, however, if she comes on to Washington and is put up at the Blair House. The "charming widow of Blair House," as the married Mrs. Victoria Geaney is known hereabouts for some incomprehensible reason, does not take kindly to suggestions as to how the State Department's VIP flop-house should be run. If Ekaterina exercised her female prerogative of horning in, I would bet on Victoria to be victorious, although it might lead to war.

I would not anticipate any difficulty with Mrs. Furtseva in this country such as was had with the Russian Olympic star in London. If Ekaterina comes here and swipes a hat, we can keep the owner from hollering copper by reimbursing her out of foreign aid.

To sum up: the changes in the Central Committee of the Soviet Communist Party lead to one inescapable conclusion: We'd better keep our left up.

## Hungary Has Liberal Policy

By CARL HARTMAN  
Associated Press Newswriter

BUDAPEST — Today's Hungarian regime denounces former Premier Imre Nagy as a traitor, but it has kept his liberalized policy toward the farmers.

Nagy in his two weeks of power abolished the hated system of forced crop deliveries, and Premier Janos Kadar has not restored its most objectionable features.

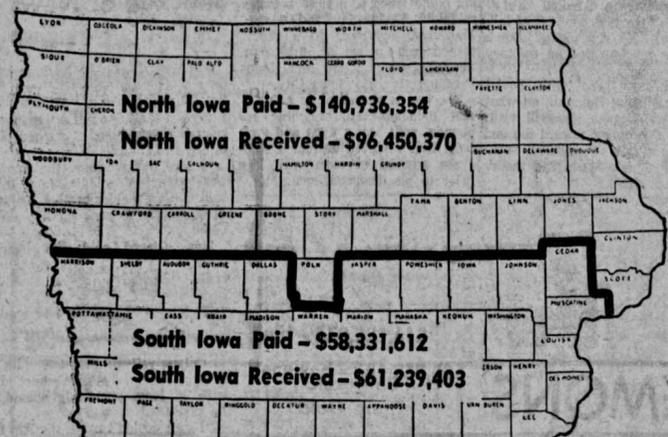

What the peasants used to dislike most was the government's way of setting a delivery quota in the spring on the basis of past crop yields and then holding them to it, no matter what their luck with the weather and other risks. This often resulted in farmers having to buy grain to hand over to the government. The quota system is now out.

Almost as important, prices to farmers have been raised an average of 35 per cent—more in the case of wheat, Hungary's basic crop. This year the peasant will get the equivalent of \$2.30 to \$2.80 per bushel for his wheat, figured at the official exchange rate. In terms of the real value of the Hungarian forint on world markets, the true price would be only about one-quarter of that but on the Hungarian market he will be quite well off.

Peasants are still forbidden to trade for resale except to authorized government buyers. This measure is designed to curb speculation. They may, however, sell to other farmers for their own use.

Hungary is no longer one of Europe's prime producers of bread grains. Low prices and forced deliveries combined to drive farmers to other crops, or to leave surplus land fallow. Since 1953 Hungary has had to import wheat and this year is expected to need 400,000 to 500,000 tons again.

Most of it will probably come from Soviet Russia.

### Teachers' Workshops Study Pupil Problems

Helping children build solid foundations for mental health through a real understanding of the emotions and actions of other people and themselves will challenge the best resources any teacher has. This conclusion has been reached by 22 elementary and high school teachers attending workshops which will close today at SUI.

Sponsored by the Iowa Mental Health Authority and the Grant Foundation in cooperation with the Preventive Psychiatry Research Program of the Iowa Child Welfare Research Station, the workshops have been coordinated by Alberta Wells and Maxine Delmare of the Research Station under the direction of Prof. Ralph Ojemann. Ojemann is director of the SUI Preventive Psychiatry Research Program.

The teacher must develop the capacity to analyze the "why" of her own actions as the first step in learning the "causal" approach to teaching, the workshops found. The "causal" approach looks for underlying causes of behavior rather than making arbitrary judgments about the child's behavior.

Only when the teacher has become emotionally mature herself to withhold judgment of others until she is at least beginning to learn the "whys" behind their actions can she function effectively in helping children overcome such problems as shyness, temper tantrums, and jealousy and develop rich, creative personalities.

Providing the emotional climate, the understanding, and the right level of competition for the individual students in her classroom calls for a teacher with a fine sensitivity to the feelings and drives of others, SUI workshops found.

And since she must consider always the emotional, mental and physical needs of each individual student, instead of treating them as a group, the teacher probably faces as complex a job as persons in any of today's professions.

Children taught in a democratic atmosphere develop the ability to work with others much more readily than those in classrooms under an "autocratic" teacher, workshop speakers pointed out. Studies show that while children in the automatically run classroom may make few aggressive moves at the time, they have more of a tendency to become overbearing and bossy once they are "out from under the thumb" of the teacher.

Extreme demands placed on small children to become toilet-trained, able to dress themselves, etc., may lead to attempts later to dominate others to compensate for inadequacies they felt, the teachers learned. Children with parents who are overly aggressive may also tend to imitate them, one speaker pointed out.

To teach cooperative skills effectively, the teacher must have warmth of personality herself, an imaginative insight into the problems of others, and the ability to seem to follow while directing their activities, the workshop stressed.

### Stratton Signs Bill For Open Sessions

SPRINGFIELD, Ill. (AP)—"Freedom of information" measure requiring public bodies to hold open meetings when legal action is taken was signed into law Thursday by Gov. William G. Stratton.

Sponsored by State Rep. Paul Simon (D-Troy), a weekly newspaper publisher, the bill permits closed meetings when no official business is transacted. The law applies to governmental agencies supported by tax funds.

Penalties of a \$100 fine and 30 days in jail are provided for violations.

Listed as exceptions to the law are sessions of the Illinois Commerce Commission, Parole and Pardon Board, juries and meetings where acquisition of real estate is involved.

## SUI Items

**ICE CREAM SOCIAL** — An ice cream social will be held on the lawn of Wesley House, 120 N. Duquesne St., from 7 to 9 p.m. Monday. Home-made ice cream, home-made cake and beverages will be served. The public is invited.

**WHITMORE ELECTED** — The election of Charles H. Whitmore, who received a J.D. degree in 1940 from the SUI College of Law, to membership on the Board of Trustees, Grinnell College, was announced Thursday by Howard R. Bowen, Grinnell President.

Mr. Whitmore, who graduated from Grinnell in 1935, is president of the Iowa-Illinois Gas and Electric Co.

**POET NOVELIST** — Earle Birney, poet and novelist from the University of British Columbia, will speak at 3 p.m. Monday in University Temporary "A" on "Recent Canadian Poetry and American Criticism." Birney is a former major in the Canadian Army and one of Canada's most prominent writers. The lecture will be open to the public.

### Polio Funds: \$44 Million

Over \$44 million was raised during the 1957 March of Dimes drive, Basil O'Connor president of the National Foundation for Infantile Paralysis announced recently.

An important share of the funds will be used to bring maximum rehabilitation to people scarred by paralytic polio during the past years, O'Connor said.

"Years of research and the expenditure of millions of dollars have given us a powerful weapon in Salk vaccine," O'Connor said. "We are pledged to keep down the ranks of new victims by seeing that every American under 40 seeks Salk vaccine protection."

New techniques and methods have been discovered to combat polio, O'Connor said. "These are now helping reclaim countless numbers of victims who would otherwise spend idle years in hospitals or as heavy burdens on their families at home," he said.

O'Connor reported there were over 60,000 patients who could be benefited by the organization's rehabilitation services. "Those crippled by other causes who could also benefit from the newly acquired knowledge and skills would reach into the millions," he said.

### U.S. Marines Need College Graduate Officer Candidates

The United States Marine Corps Procurement Officer in Des Moines announced today the need for qualified college graduates to attend the Officer Candidate Course to be held in Quantico, Va., Sept., 1957.

Members of the Officer Candidate Course attend ten weeks of training, and may be commissioned as second lieutenants in the Marine Air Force or as Ground Officers when they graduate.

Persons interested in attending the officers' school may write for further details to Capt. Melvin W. Snow, Rm. 223, Old Federal Bldg., 5th and Court St., Des Moines.

**NEW CHAMP** — PRINCETON, N. J. (AP)—Bessie, a Brown Swiss cow, has a proclivity for productivity. She is, in fact, the new world record-holder for butterfat production in a single year.

From April, 1956 through April, 1957, she manufactured the equivalent of 14,496 quarts of milk and 1,930 pounds of butter. In dairy-men's terms that's 31,166.6 pounds of milk and 1,544 pounds of butterfat.

## Iowa's Fabulous Team Has Varied Interests

By DON BOCK  
Daily Iowan Staff Writer  
Remember the "Fabulous Five" — the 1955-56 Iowa basketball team? This team—the greatest in Iowa basketball history—was the object of frenzied cheers that could be heard from the banks of the Iowa River to Stadium Park. It was this team that vaulted SUI into national basketball prominence.

Milt "Sharm" Scheuerman, Bill Seaburg, Bill Logan, Carl "Sugar" Cain, and Bill Schoof were the starting five of this outstanding team. They, along with two top reserves — Lester "Babe" Hawthorne and Bob George — were the clutch players who rewrote the Iowa basketball record books in that memorable season.

During a recent visit with one of these former greats, "Sharm" Scheuerman, we reviewed the many accomplishments of this not-to-be-forgotten team.

They won 20 of 26 games for a 76.9 percentage, winning the Big Ten championship with a 13-1 mark. They also won the National Collegiate regional tournament, and finished second in the national final tourney. Incidentally, this loss (to the San Francisco Dons) ended a 17-game winning streak—longest in Iowa history.

Other achievements included: An Iowa record of 13 straight Big Ten wins; — the greatest total number of wins, 20 (No other Iowa team won more than 19); Broke two National Collegiate tournament records — 240 points and 119 field goals—for a 4-game series.

Other Iowa scoring records which fell were: the single game free throw total and shot percentage (.94 and .895); season's team free throw percentage (.684); and the single game field goal percentage (.800 by Seaburg).

My visit with "Sharm" was not only entertaining, but informative.

Before signing a professional baseball contract with this team, which is affiliated with the Kansas City Athletics, Schoof coached freshman basketball at Cornell College, Mt. Vernon.

Bill Schoof was not only very capable on the hardwood, but enjoyed much success as a pitcher for the Hawkeye diamondmen. Schoof currently has a 7-4 win-loss record with Pocatello, Idaho, City, and they have a 10-month-old baby girl) can be found in Cedar Rapids, where he sells life insurance for Banker's Life.

"Every Hawkeye fan will remember for some time to come, calm and collected (often referred to as "The Rock Island Iceman") "Sharm" Scheuerman. He now works under Frank "Bucky" O'Connor and Otto "Otts" Vogel, Iowa's basketball and baseball coaches. "Sharm," who is a natural-born leader, loves every minute of this work, and plans to continue coaching.

Scheuerman, perhaps the greatest as well. Have you ever wondered (as I did) where the members of this "golden-era" team are and what they are doing? "Sharm," who is keeping in touch with his former teammates, provided me with the answers.

Bill Seaburg, the deadly-shooting guard who served up 9 for 9 free throws against conference rival Illinois on March 3, 1956, is serving at present with another organization—the U.S. Army—at Camp Chaffee, Ark.

Seaburg, appropriately called "Billy Radar" because of his seldom-missed jump shot, plans to continue working for his former employer — the King-Merritt Investment Co., in Davenport, after his discharge from the armed services.

Bill Logan, an all-conference center in 1956, is engaged in a bank training program in Denver, Colo. After completion of this training, Logan plans to return to his hometown, Keokuk, to work with his father, who is also in the banking business.

Logan, who averaged 18.3 points per game for the Hawkeyes, played this past year for the Chicago-Denver Truckers in the National Industrial Basketball League. He married the former Joan Tyler of Ottumwa in Aug., 1956, and is looking forward to becoming a father this month.

Carl "Sugar" Cain, the dynamic forward who was picked on the all-tourney team of the N.C.A.A. regionals and finals, numerous all-conference teams and many all-midwest selections, entered the Army last fall and is stationed at Ft. Leonard Wood, Mo.

He was elected to the U.S. Olympian

pic basketball team, but received a back injury in a practice session and was unable to participate in the games in Australia. As a result of this injury, Cain spent the first half of this year in Army hospital, but has now returned to active duty as a drill instructor at Ft. Leonard Wood.

est playmaker in Iowa history, is married to the former Karlin Sutton of Clinton. He and his wife, who was a runner-up in the 1956 "Miss Iowa" contest, expect a child next month.

Lester "Babe" Hawthorne and Bob George came off the bench to spark the above players to victory many times during that great 1955-56 season. Hawthorne was commissioned in the Army in June, 1956. George, who is married and has a 1-year-old girl, works for the North Dakota Geological Survey in Bismark, N.D.

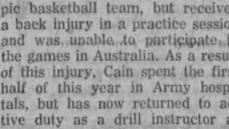

A glance at the Iowa record books tells one that these men, who regarded each other more as brothers than friends, performed in spectacular fashion for SUI. The drive, determination, and will to win these men displayed in that terrific season will no doubt insure them much success in the years to come.

### O'Connor Optimistic Over Hoop Outlook For 1957-58 Races

Frank "Bucky" O'Connor, SUI basketball coach, commented Thursday at the noon luncheon of the Rotary Club at the Jefferson Hotel, on the outlook for this year's basketball team and gave a resume of the SUI golf team's activities.

O'Connor told the audience this year's basketball team will have substantial depth at all positions. He pointed out that he doesn't want to sound overly optimistic, but it will be composed of as good — and possibly better — material than in previous years. Considering all factors, he believes Iowa will have a good basketball team for the 1957-58 season.

O'Connor said the starting positions will probably not be decided until early December but contenders for first string slots should include James McConnell, George Seaburg, Dave Gunther and Nolan Gentry.

O'Connor also reported on the progress of SUI golfers taking part in the State Amateur Golf Tournament now being held at Mason City. He said a number of boys from SUI, participating in the tournament, still have good chances to win the title.

Commenting on the new Finkbine golf course, O'Connor said many of the younger golfers using the new course appreciate being able to play on a championship course.

O'Connor said the 1957 golf season for Iowa turned out to be one of the best seasons Iowa has ever had. SUI's golf team finished second in the Big Ten tournament and eighth in the N.C.A.A. tournament at Colorado Springs this year.

In evaluating the national tournament, O'Connor pointed out that golfers who have year around weather conditions conducive to playing golf do not do any better than the boys who must fight snowballs during the winter months.

est playmaker in Iowa history, is married to the former Karlin Sutton of Clinton. He and his wife, who was a runner-up in the 1956 "Miss Iowa" contest, expect a child next month.

Lester "Babe" Hawthorne and Bob George came off the bench to spark the above players to victory many times during that great 1955-56 season. Hawthorne was commissioned in the Army in June, 1956. George, who is married and has a 1-year-old girl, works for the North Dakota Geological Survey in Bismark, N.D.

### Valley Forge Lives As Scout 'Army' Finishes Invasion

VALLEY FORGE, Pa. (AP)—The canvas city of Valley Forge was completed Thursday as more than 52,000 Boy Scouts and their leaders settled down for the week-long fourth National Jamboree.

The final contingents of khaki-clad youngsters moved into this historic park and pitched the last tents of nearly 30,000 erected for the celebration.

The jamboree officially opens this morning. Pennsylvania state police shut off roads leading to the immediate park area, where George Washington's army spent its bitter winter 180 years ago.

A haze of wood smoke hung over the picturesque valley early Thursday as the youngsters turned out their own breakfasts — a menu of french toast, milk and cereal. The boys will have eaten their way through more than 3,000 tons of food by the end of the jamboree July 18.

WSUI To Air Syngé Play  
"Playboy of the Western World," a play by John Millington Syngé, will be featured on WSUI's "Broadway Tonight" program at 7 p.m. today.

The play is the recorded version of the highly rated Cyril Casach production, and stars Siobhan (pronounced Shivan) McKenna.

## Trail

By WHITNEY MARTIN

NEW YORK (AP)—Sam Snead is 43. Ben Hogan is 44. Jimmy Demaret is 47, and Cary Middlecoff is 36.

This isn't a happy birthday piece, as their birthdays fall on different dates. It's just a reminder that the really "big names" in golf the past 15 or 20 years, the players who names are pretty well known even to those who don't follow the game closely, are getting along, with two or three of them approaching the point of no return.

We were talking to Ed Carter about this, and wondering just which of the younger crop of tournament performers would rise above the crowd to take the place of the old crowd as really outstanding performers.

Middlecoff, of course, has several more good years ahead of him, as Jackie Burke, who at 34 has gained a substantial following.

Carter is a tournament manager of the P.G.A., among other things, and as such has a chance to observe the progress and estimate the potentialities of the later arrivals on the tournament scene. Naturally he couldn't put himself on a spot by giving a complete list of names, and saying in effect "that's it; the rest are just a bunch of boys."

He just mentioned a few he thought had outstanding potentialities, hurriedly explaining there were others.

"I believe," he said, "that over the next five years Doug Ford is going to be outstanding. He has a really solid game."

"Ken Venturi is another I believe will be watching. He practices like Hogan. Seven hours on the practice tee mean nothing to him, and he's strictly a down-the-middle player."

"Gene Littler is another. He had a sound swing, but developed a sort of loop in it and didn't know what to do about it. He listened to all kinds of advice, and got confused. Now he has his swing straightened out again."

"And I tell you another who could be a really great fooler. He's George Bayer. Did you see the round he had in the tournament at Kansas City?"

"He had two eagles and seven birds on nine holes, which means he was 11 under par for those holes. However, he was five over par on the other nine in getting his 66. Four pars, five bogies, seven birds and two eagles on 18 holes in spectacular shooting, if not exactly consistent."

"As I said, there are others. They have to be good to start with, and then they have to sell themselves to the public and the press. But the material is there to replace the elderly stars in popularity. It just takes time. Remember Hogan was 35 before he won his first National Open, and Snead and Demaret haven't won it yet."

The best crack we heard concerning the overtime game played by Yankee stars in a night club, in which a guest in another party charged Hank Bauer put the slug on him, was:

"If he'd been a pitcher he'd never have hit him." Bauer at the moment was sporting an average of .203. He denied hitting anybody. Anyway, Casey Stengel's reaction to the affair was swift and decisive. What other manager could bench a Yogi Berra, and refuse to start his best pitcher, and drop a slugger of Bauer's power to the eighth spot in the batting order, and get by with it?

He not only got by, but his team registered a shutout, and also pulled a triple play.

### 3 Former Champs In I.A.G. Round Four

MASON CITY (AP)—Defending champion Bob Leahy of Denison shot into the fourth round of the Iowa Amateur Golf Tournament with a one-up victory over Les Johnstone of Mason City in a spectacular sub-par duel Thursday.

The 29-year-old champion fired a 4-under par 68 as he set a blistering pace that Johnstone, husband of the state women's champion, almost matched.

John Campbell of Oskaloosa, playing par 72, surprised Rod Bliss, of Des Moines, twice the state winner, one-up. Bliss, tournament medalist, had been carried 19 holes in the morning before beating Jack Bunker of Cherokee.

Jack Webb of Spirit Lake, and Herb Klontz of Cedar Rapids, both former champions, swept into the fourth round with ease.

Webb, who eliminated John Leichty of Iowa City with a 30-foot putt on the 19th hole in the morning, was a 5 and 4 winner over Bruce Osmundson of Thompson, in the afternoon.

Dr. Charles Updegraff of Boone, was one under in eliminating Bud McCordell of Newton, 3 and 2. McCordell lost to Leahy in the 1956 final.

Jim Rasley of Des Moines, defeated Ken Kornelise of Clinton, 3 and 2; George Lee of Humboldt, stopped Les Fields, Cresco, 1-up and Jim Aossy of Cedar Rapids, knocked out John Eymann of Forest City, 3 and 1 in other third round matches.

# Thomas' Homer Breaks Cardinals' Back

## Antonelli's 5 Hitter Hands Giants 1-0 Win

NEW YORK (AP)—Valmy Thomas hit a homer for the only run of the game and Johnny Antonelli pitched five-hit ball Thursday as the New York Giants defeated the league-leading St. Louis Cardinals 1-0.

St. Louis . . . 000 000 000-0 5 0  
New York . . . 000 001 000-1 5 0  
L. McDaniel, Wilhelm 8 and H. Smith; Antonelli and Thomas. L.-L. McDaniel.  
Home run—New York Thomas.

### Braves 7, Bucs 2

PITTSBURGH (AP)—The Milwaukee Braves advanced to within 2 games of the league-leading St. Louis Cardinals Thursday night by beating the Pittsburgh Pirates 7-2 but still dropped to third place.

The Philadelphia Phillies took over second place by one percentage point, defeating Chicago twice.

Johnny Logan drove in three of the Milwaukee runs, two on a homer which climaxed a four-run assault in the fourth inning.

The Pirates committed six errors.

The victory may prove somewhat costly for the Braves as they lost the services of shortstop Felix Mantilla and centerfielder Bill Bruton who were hurt when they collided trying to catch Bill Virdon's leadoff blooper in the first inning. The ball fell for a double and led to a temporary one-run lead for the Bucs who had won four in a row.

The defeat was charged to starter Bob Friend who was lifted for a pinch hitter in the seventh.

Bob Trowbridge went all the way for the Braves.

Gene Littler is another. He had a sound swing, but developed a sort of loop in it and didn't know what to do about it. He listened to all kinds of advice, and got confused. Now he has his swing straightened out again.

"And I tell you another who could be a really great fooler. He's George Bayer. Did you see the round he had in the tournament at Kansas City?"

"He had two eagles and seven birds on nine holes, which means he was 11 under par for those holes. However, he was five over par on the other nine in getting his 66. Four pars, five bogies, seven birds and two eagles on 18 holes in spectacular shooting, if not exactly consistent."

Anyway, Casey Stengel's reaction to the affair was swift and decisive. What other manager could bench a Yogi Berra, and refuse to start his best pitcher, and drop a slugger of Bauer's power to the eighth spot in the batting order, and get by with it?

He not only got by, but his team registered a shutout, and also pulled a triple play.

The Phillies edged past the Milwaukee Braves into second place by one percentage point, 2 games behind the league leading St. Louis Cardinals.

The doubleheader was one of the most exciting of the season for the 25,897 fans at Connie Mack Stadium as they saw bids for no hitters in each game go awry in the late innings.

Chicago . . . 000 000 000-0 5 0  
Philadelphia . . . 000 000 001-1 5 0  
(11 innings)  
Rush Lown 11 and Neeman; Haddix and Lopata; Lonnett 11, L.—Rush.

Chicago . . . 000 000 001-1 4 0  
Philadelphia . . . 002 000 10x-3 7 0  
Elston and Silvera; Sanford and Lonnett.  
Home run—Philadelphia, Lonnett.

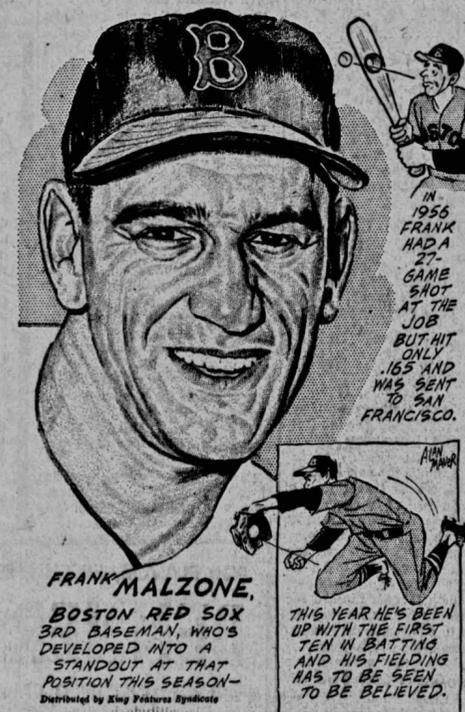

Score Wed Wednesday To Former Schoolmate

BOYNTON BEACH, Fla. (AP)—Herb Score, 24-year-old Cleveland Indians' pitching star, and a high school classmate, Nancy McNamara, were married Wednesday at St. Mark's Catholic Church.

The couple left on a honeymoon trip which will have to be short, because Score is scheduled to report Monday to a Cleveland doctor who will decide whether he has recovered sufficiently from an eye injury to return to baseball.

Father Tom Kelley of New York officiated during the 55-minute ceremony which was attended by about 400 persons.

REALLY MAKING GOOD - By Alan Mavor

FRANK MALZONE, BOSTON RED SOX 3RD BASEMAN, WHO'S DEVELOPED INTO A STANDOUT AT THAT POSITION THIS SEASON—Distributed by King Features Syndicate

## Yankees Top Athletics 3-2

Mantle Raps 23d 4 Bagger To Widen League Lead to 3 1/2

KANSAS CITY (AP)—Mickey Mantle hit his 23rd home run Thursday night in the 11th inning to give the New York Yankees a 3-2 victory over the Kansas City Athletics.

The triumph increased the Yankees' American League lead over second place Chicago to 3 1/2 games as the White Sox lost to Washington.

Mantle's homer sealed the Athletics' 12th loss to the Yankees without a victory this season.

The pitching decision went to Art Ditmar, ex-Athletic hurler who relieved starter Bob Turley in the eighth inning. Ditmar was hit rather hard but managed to escape except in the eighth when Kansas City took a brief 2-1 lead.

He gave up three hits in that inning and one each in the ninth and tenth.

Mantle hit his winning homer off Tom Morgan, who had relieved starter Virgil Trucks in the eighth inning with one out.

Turley and Trucks duelled to a 1-1 standoff through seven innings, and neither figured in the final outcome.

The Yankees tied it up in the ninth when Mantle singled, took second on a single by Bill Skovron and came home on a single by Harry Simpson.

It was Ditmar's sixth victory against one loss.

New York . . . 000 000 101 01-3 8 1  
Kan. City . . . 100 000 010 00-2 15 0  
(11 innings)  
Turley, Ditmar 8 and Berra; Trucks, Morgan 8 and Thompson. W.—Ditmar. L.—Morgan.  
Home runs—New York Berra, Mantle.

### Nats 6, Chisox 5

CHICAGO (AP)—The last place Washington Senators surged from behind in the ninth inning Thursday night on a bobbled infield drive by Milt Bolling and a hit by Rocky Bridges to down the second place Chicago White Sox 6 to 5.

The error was charged to Chicago shortstop Luis Aparicio.

The Comiskey held the lead from their half of the first inning until the error and hit lowered the boom in the last inning.

White Sox pitcher Jim Wilson walked Herb Plews, the first batter to face him, and that set the stage for a three-run Washington uprising. With two out, Roy Sievers and Clint Courtney hit back-to-back singles, and then Julio

Bequer doubled, accounting for the runs.

Washington . . . 300 010 002-5 13 0  
Chicago . . . 401 000 000-3 8 1  
(11 innings)  
Ramos, Kemmerer 4, Byerly 8 and Courtney; Wilson, Derrington 7, Howell 8, LaPalme 9, Staley 9 and Moss. W.—Byerly. L.—LaPalme.  
Home runs—Chicago, Landis, Rivera.

### Birds 5-5, Tribe 4-4

CLEVELAND (AP)—The Baltimore Orioles jumped from sixth to fourth place in the American League standings Thursday night with two victories over the Cleveland Indians by identical 5-4 scores. The first game went 11 innings.

The Indians, who have now lost seven straight, fell to a fifth place tie with Detroit, which lost a single game to Boston.

The sweep made it four straight for the Orioles over the Indians, and evened them at six games apiece for the season. Cleveland won 17 of 22 games with the Orioles last year.

All three were under the listed world record of 3:40.6, set by Istvan Rozsavolgyi of Hungary at Tata, Hungary, last August. Dan Waern of Sweden, finished fourth in 3:40.8.

## Hartack's Back Injury Better Than First Feared

CHICAGO (AP)—Injured Bill Hartack, the nation's leading jockey, will return to riding a lot sooner than first expected after a spectacular spill at Arlington Park damaged his spine.

Latest study of X-rays showed that a "wing" of a vertebra in the small part of his back had been fractured. At first doctors thought the vertebra itself had been broken

and said he would be sidelined for as long as four months. "After studying new spot pictures, the injury is not really serious," said Dr. Paul Tobin, one of the attending physicians at St. Joseph's Hospital in nearby Elgin. "I would say he probably would be back on the saddle in about 10 days."

Official Squelches Indian Shift Rumor

CLEVELAND (AP)—William R. Daley, board chairman of the Cleveland Indians, Thursday night flatly denied rumors that the club would be moved to another city.

Daley, in an "official statement," said the management and stockholders do not now intend, and never have contemplated, transfer of the club to any other city.

GOLF RECORD

BERLIN (AP)—U.S. Army Capt. Bert L. Scoggin Thursday night claimed a world record in marathon golf after shooting 260 holes in 18 hours, 55 minutes.

The 38-year-old quartermaster officer from Pomeroy Wash., started on the 6,016-yard Wannsee golf course at 2 a.m., aided by two lamps and a flashlight.

He wound up his record smashing attempt at 8:45 p.m., again using the lamps.

HISTORIC RACES

Laurel race track in Baltimore, Md., has been the scene of three great match races—Hourless and Omar Khayyam in 1917, Eternal and Billy Kelly in 1918 and Sarazen and Happy Thoughts in 1923.

CHAMP RETRACES

Walter Burkette, former PGA champion, turned in the best score for one round in the U. S. Open at Inverness when he shot a final round 65 to tie with Julius Boros for fourth place.

## 3 Finns Run 1,500 Meters Under Record

AABO, Finland (AP)—On the same track where Australia's John Landy set the world mile record of 3:58 three years ago, three Finns Thursday surpassed the world record for the 1,500 meters with times that approximated a mile in 3:57.

Olavi Salsola won the race in 3 minutes, 40.2 seconds. Olavi Salonen, who was placed second by the judges, was given the same time while Olavi Vuorisalo was third in 3:40.3.

All three were under the listed world record of 3:40.6, set by Istvan Rozsavolgyi of Hungary at Tata, Hungary, last August. Dan

Waern of Sweden, finished fourth in 3:40.8.

## Bosox 9, Tigers 7

DETROIT (AP)—The Boston Red Sox scored two runs in the 10th inning, after pitcher Lou Sleater committed two errors on one play, and defeated the Detroit Tigers 9-7 Thursday.

Boston led from the first inning of the rain-drenched game until the last of the eighth when Ray Boone homered for Detroit with a man on base and knotted the score at 7-7.

In the top of the 10th Frank Malzone walked and Billy Consolo sacrificed. Sleater kicked the ball in trying to pick it up, allowing Consolo to reach first, then threw low for a second error as Malzone scooted to third. Duke Maas replaced Sleater and retired one man but pinch hitter Gene Stephens singled past the drawn-in infield for one run and Jimmy Piersall lifted a long sacrifice fly that scored another.

Boston . . . 121 020 010 2-0 13 0  
Detroit . . . 110 003 020 0-7 16 2  
(10 innings)  
Fornieles Delock 6, Minarcin 10, Stone 10, Chakales 10 and White; Larry Byrd 3, Aber 7, Sleater 8, Maas 10 and Wilson. W.—Delock. L.—Sleater.  
Home runs—Boston, Consolo, Detroit, Boone.

## July Firecrackers

# Iowa News Roundup

By THE ASSOCIATED PRESS

**DES MOINES** — A Highway Commission hearing on the proposed improvement and relocation of Highway 60 northwest of Des Moines, drew no objectors Thursday.

The seven-mile project, costing an estimated \$1,300,000, would extend along the Dallas County line between the new location of Highway 141 in Jefferson Township and the point where the old Highway 60 crosses into Dallas County, about a mile south of Boone County.

**DES MOINES** — Paul J. Houser, 52, director of the engineering division of the Iowa Health Department, was reported in "satisfactory" condition Thursday at Iowa Methodist Hospital. He was stricken by a heart attack at his office Tuesday.

**DES MOINES** — The new State Truck Reciprocity Board, created by the 1957 Legislature, held its first meeting Thursday and elected Commissioner John M. Ropes of the Commerce Commission as chairman.

The board is authorized to make reciprocity agreements with other states as to the use of Iowa highways by trucks from other states. This authority formerly was given the state safety commissioner.

Ropes said the board set up a policy of open hearings. Another point of agreement was that any person or persons asking for an appearance before the board will be required to file a request in writing 15 days in advance, stating the subject to be presented.

Besides Ropes, members of the board were present were Russell Brown, representing the Safety Department, and Carl Schach, for the Highway Commission. Also attending was John Carlson, director of the motor vehicle registration division, who is not a board member.

**DES MOINES** — Russell Brown, 32, a career safety man and a Republican, was sworn in Thursday by Democratic Governor Herschel Loveless as acting state safety commissioner, effective Aug. 1.

Brown, for the last year and a half director of the state safety education division, will succeed Clinton H. Moyer, who resigned the \$8,500-a-year position to return to the practice of law at Marion.

The governor said recently when he announced that he had appointed Brown "on 20 minutes notice," that Brown would serve an indefinite term. Loveless said he wanted to try a professional safety man in the post.

**DES MOINES** — Male prisoners who apparently tried to dig a "peephole" in a wall separating them from five women inmates at the Polk County jail have been thwarted by deputy sheriffs.

Sheriff Wilbur T. Hildreth said Thursday the men, who used a spoon, two short pipes and a third piece of metal, apparently were merely attempting to dig a hole between the two cells rather than planning to escape.

Although the men succeeded in digging out a layer of cement plaster almost an inch thick, they still had a long way to go, when caught.

Next to the plaster was a layer of bricks. Steel boiler plate was on the other side of the bricks.

Five women were in the adjoining cell, he said.

**DAVENPORT** — A spokesman for the Dewey-Portland Cement Co. said here Thursday afternoon that a final agreement on a new contract had been reached between

representatives of the firm and the United Cement, Lime and Gypsum Workers Union.

The plant and union had reached a tentative agreement July 1 and there had been no work stoppage at the plant.

The spokesman said the agreement is in line with the pattern of recent settlements in the industry but did not immediately disclose specific terms.

**DAVENPORT** — Louis L. Pickett, superintendent of the Ruthven Consolidated School, is the newly named superintendent of Scott County school system. He will assume his new position Aug. 1.

He succeeds Hartzel M. Perry, who was asked to resign by the County Board of Education.

Pickett served nine years as superintendent at Ruthven, and prior to that, was for 19 years superintendent of Mingo Consolidated schools. He is president of the Iowa Adult Education Assn.

**CHEROKEE** — An Iowa farm wife who tried to hide two cans of sardines in her brassiere, was fined \$50 and given a suspended 30-day jail term on petty larceny here Wednesday.

Mrs. Ewald Franzmeier, Truesdale, mother of two children, was arrested after a grocery store manager said he spotted her trying to hide the two cans.

Three Cherokee grocery men signed the information against Mrs. Franzmeier.

**CORNING** — Harvey L. Biddison, 31, of Villisca, Thursday was sentenced to 25 years in the State Penitentiary after pleading guilty to charges of robbery with aggravation in District Court here.

Biddison and his wife, Geneva, 38, was accused of attempting to rob a filling station in Corning Tuesday night.

Mrs. Biddison, who is being held in Adams County jail in lieu of \$5,000 bond on charges of being an accessory to assault and battery and attempted robbery, has not yet been arraigned in District Court.

The sheriff's office said the couple was identified by Otto Sundstrom, 57, filling station owner, as the ones who ordered gas at his station Tuesday night. Sundstrom said Biddison slugged him several times with the butt of a revolver after demanding cash.

**ROCK ISLAND, Ill.** — A \$10 a week pay boost for 3,130 hourly employes at the Rock Island Arsenal was announced Thursday by Col. D. L. Hine, commanding officer.

The pay boost will be effective July 26. Hine said the increase is the result of a survey of wage levels at the arsenal.

**STATION BREAK** — LONG BEACH, Calif. — After granting a woman a divorce recently, Superior Judge Ralph K. Pierson asked her informally why she was willing to let her husband have their TV set. Her answer: "Well, I've been sitting watching it for four years now while he's been out playing around. So I guess it's his turn."

**DOORS OPEN 1:15** — **JEWELRY** NOW SATURDAY — A Gay Musical Spree ... From Washington Square to the Champs Elysees!

**PRACTICE WITH THE TELETRAINER**, a device used to teach proper methods for making business and social telephone calls, was a novel experience for teachers attending a one-week Workshop in Business Education at SUI. Teachers are Evelyn Fordyce (seated), Argyle, and (left to right) William R. Trabue, Fort Madison; William J. Masson, Professor and head of the Department of Office and Business Management at SUI and director of the workshop; Lorena Bartlett, Fort Madison, and Helen Fay Pearson, New London. Forty teachers from Iowa and surrounding states are attending the workshop to learn advances in office practices and new techniques in teaching business subjects.

## Telephone Usage Covered At Business Workshop

"Answer your telephone as though you expect each call to mean an opportunity, not an interruption," Frances W. Colflesh told teachers attending the second annual Business Education Workshop at SUI Thursday.

Miss Colflesh, public information counselor for the Northwestern Bell Telephone Company, discussed the importance of good telephone usage and demonstrated the "teletrainer," a device available to Iowa schools served by her company. The teletrainer unit consists of two telephones and a control panel that provides dial and busy tones, ringing signals and a loudspeaker. It may be used in the classroom to practice telephone manners and to observe various telephone practices.

"Giving and receiving information over the telephone can be a pleasant and rewarding experience — if you use the instrument correctly and effectively," said the speaker. Most people feel they know how to use the telephone but actually could be more efficient and pleasant in their telephone habits, Miss Colflesh stated.

Discussing good telephone practices, Miss Colflesh urged answering promptly. No one likes to be kept waiting, she pointed out. Speak directly into the telephone in a normal, conversational tone of voice with the mouthpiece about an inch from your mouth. Don't move the mouthpiece back and forth while you're talking because the resulting changes in volume

may annoy your listener. Identify yourself immediately and clearly, giving the name of your company if your office has no switchboard. If you must leave the telephone, be sure to tell the person at the other end of the line that you're doing so. If it is necessary to be away from the phone more than a few minutes, give the caller a choice between waiting on the line and calling back.

Before you make a call, be sure of your number. A wrong number inconveniences you and the person called. Use your directory to find numbers. Wait for the dial tone before you begin dialing. Carry your finger all the way over to the finger stop and let the dial return to position by itself. Give the person called time to answer.

Telephones play an important role in the business world. You create good or bad will on the basis of your telephone personality, Miss Colflesh stressed. "Keep in mind that your voice and your helpful manner must always give the impression that your voice and smile give in person," she concluded.

## Vocational Advisers Meet Here, July 31

Vocational rehabilitation personnel of seven midwestern states will gather at SUI July 31-Aug. 2, for a regional Workshop on Rehabilitation Training.

Iowa, Minnesota, Missouri, Nebraska, North Dakota, South Dakota, and Kansas will send their state directors of vocational rehabilitation and commissions for the blind and other key personnel to the in-service training sessions in the Iowa Center for Continuation Study and Iowa Memorial Union.

Principal leaders of the workshop will be Dr. Leonard Miller, assistant chief of the training division for the federal office of vocational rehabilitation, Washington, D.C., and Howard L. Ben-shoff, former Iowa director and now regional representative of the OVR in Kansas City, Mo. In charge of local details is John Muthard, coordinator of the SUI graduate program in rehabilitation counseling.

Keynoting the importance of such in-service training and personal upgrading workshops, Professor Muthard explains, is the fact that the number of professional workers in vocational rehabilitation programs is being rapidly expanded.

"As a result we expect to increase the present U.S. figure of 65,000 handicapped persons brought annually to economic self-sufficiency to a goal of 200,000 by 1960," he says.

**BOMB TEST VICTIM** — LAS VEGAS, Nev. — The first known case of human injury as the result of an atomic test blast in Nevada was reported Thursday.

The Nevada Test Organization said W. U. Schofield, 73-year-old rancher of Hiko, sprained his neck muscles when he turned his head suddenly as the blast wave from the big July 5 explosion reached his home.

Hiko is about 100 miles north of the test site. Two windows in Schofield's home were blown out by the blast.

## Mountain Tops Goal for Sixty Iowa Climbers

A remote and primitive mountain area at the southeastern tip of Maligie Lake in the Canadian Rockies will be the goal for 60 Iowa Mountaineers on their annual summer outing in August.

Among advance registrants from Iowa City for the 1,900-mile journey are:

Maxine Bodden; Mr. and Mrs. John Ebert and children Johnny, James and Joel; Celia Ecker; Don Irwin; Phyllis Lane; Marilyn Led-wa; Dr. Robert McCoy; Mr. and Mrs. William Primak and children; Erma Thomas; Daryl Yoder.

The outdoor enthusiasts will have two to three weeks of climbing, hiking, fishing and horseback riding in the Canadian wilds. The states and Canada are represented in registrants for the trip.

Mountaineers from eastern Iowa traveling by club bus and private cars will leave Iowa City, Aug. 9, and are scheduled to stop at Lake Louise, Aug. 12 and reach Jasper in the province of Alberta, Aug. 13, where all registrants are expected to meet.

The group will drive 15 miles to Medicine Lake and from there travel by boat across the lake, 11 miles by bus along the Maligie River and 17 miles by launch to the group's basecamp.

Maligie Lake, the largest body of water in the Rockies, is surrounded by ice-crowned peaks which tower a mile into the sky. The basecamp will be located at the southeastern tip of the lake on a large meadow in a flat, well-drained area spotted with spruce trees. The altitude is about 5,500 feet. There are 15 peaks in the general area of the basecamp, most of which reach an elevation of more than 10,000 feet, with Mt. Brazeau topping 11,300 feet.

The area is famous for its brown speckled and rainbow trout. A motor launch will be available to take fishermen to nearby fishing sites.

The trip is one of 20 major outings which the club has sponsored since its founding in 1940.

**CAREFULLY REMOVING** dirt which has accumulated over the centuries, SUI Archaeologist R. J. Ruppe prepares to study an Indian skull which he unearthed last weekend at Council Bluffs with the help of engineers from the Iowa State Highway Commission Excavating "fill" for new U.S. Highway 75, the engineers found two mass graves containing a total of some 50 skeletons, some buried between 1000 and 1100 A.D. and the remainder buried from 1400-1500 A.D. The skull on which Dr. Ruppe works here was from the later grave, while the skull on the table at his right was from the earlier burial. The small pile of bones in foreground is the skeleton of an infant, found buried with the skeleton of a young Indian woman.

## More FBI 'Raw Files' Go to Trial Defense

KNOXVILLE, Tenn. — The Government yielded segments of its secret FBI "raw" files in the four-day-old Clinton segregation trial Thursday. But it fought tenaciously to save every possible scrap from hard-probing defense lawyers.

Under a ruling by U.S. Dist. Judge Robert L. Taylor, U.S. Dist. Atty. John C. Crawford Jr. ceremoniously handed over to the defense a transcription of a witness' statement to the FBI.

After studying the document overnight, Taylor ruled that the statement — made by Robert G. Crosson, chairman of the Anderson County Clinton School Board — was pertinent to the trial of 16 defendants on criminal contempt charges in U.S. District Court here.

As such, the judge said, the defense was entitled to know what Crosson, a witness here, had told the FBI during its investigation of mob violence which erupted in the little town of Clinton, 20 miles northwest of Knoxville, last fall.

## Engineers' Corps Establishes Office At Offutt Air Base

OMAHA — The Omaha District Corps of Engineers Thursday announced establishment of an office to handle military construction for eastern Nebraska and parts of southern and eastern Iowa.

Earl Fiala, formerly head of the Lincoln area office, was appointed engineer of the Nebraska-Iowa area. A. L. Stark will be his assistant. They'll headquarter at Offutt Air Force Base here.

The Lincoln and Offutt resident offices, formerly area offices, will report directly to the newly-created area office rather than to the Omaha District office, the announcement said.

Additional projects assigned to the new Nebraska-Iowa area are the Waverly, Iowa, and Omaha Air Force stations, Des Moines project, office and the Davenport, Iowa, Army Reserve Training center.

Allyene N. Thurber was appointed resident engineer at Lincoln, replacing Fiala.

GOOD EVENING, IS THE LADY OF THE HOUSE IN?

**WADE OUT FROM HOME.** Andrew J. Gray (left) and Carrel K. Bean, Richland, Kan., leave the Gray home here wearing knee boots and with pants legs rolled up as a result of a flash flood which inundated most of this farm town. Bean is manager of the Richland grain elevator owned by Gray and Mrs. Gray. Mrs. Gray is the former Georgia Neese Clark, treasurer of the U.S. during the Truman administration.

## Religion Needs Views Of Scientists, Scholars

"Rear guard actions" of Christians giving ground slowly in the face of scientific progress were reproached Thursday at a national seminar for college teachers at SUU.

"We should be grateful that scientists and scholars are working out details within the Christian totality," declared Prof. George Forell of the SUI School of Religion. He urged spokesmen for religious groups to stop stressing the gaps in knowledge where answers are yet to be found. He decried the point of view that "science doesn't know this, so this must be religion's area."

For instance, the view that "we can still believe in God because man has yet to make a living cell" is negative and defensive. As in physics and geology, it implies a step-by-step retreat as science transforms the unknown into knowledge, he explained.

Such a view makes the fighting fundamentalist a kind of agnostic, for he shows by his anxieties that he is not sure that God is the source of all being, giving the ultimate unity to man and the universe, Professor Forell told members of the seminar, Religious Perspectives in College Teaching.

The basic claim of Christianity, he said, is a total claim: that everything that is is because of God, that human beings have been created for fellowship with Him, and that communion with God was made possible through the appearance of Jesus Christ upon the earth.

The scientist can examine human claims about God, but the Deity is beyond and above such examination, Professor Forell added.

Prof. Ian Barbour of Carleton College, former Chicago physicist who now heads the Department of Religion in the Minnesota college, led the day's discussion on common ground between religion and the natural sciences. Supported by the Danforth Foundation the three-week seminar will close today.

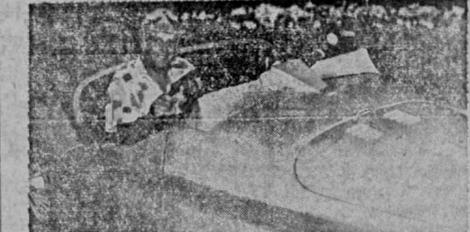

### HOLDS INITIATION

The Epsilon Chapter of Phi Delta Kappa, professional fraternity for men in education, held a formal initiation Thursday night in the SUI Memorial Union.

The pledge was administered by Prof. E. T. Peterson, Dean of the SUI College of Education.

Registrar Ted McCarril addressed the candidates on the problems faced by institutions of higher education in the face of increasing enrollment in the next 15 years.

Candidates initiated were: Edwin Gordon; Robert L. Hubbell; Robert D. McLaughlin; Monarram W. Mahmoud; Robert J. Mahne; Camille R. Nobile; Charles E. Railsback; Marlin H. Roll; Robert F. Schneider; Eugene C. Whitman; Milton V. Wisland.

**FOREIGN SPORTS CARS,** American sports cars and American late model stock cars will compete Sunday in the Iowa International "300" race at the Iowa State Fairgrounds track in Des Moines. Eddie Loetscher, a leading big-car driver, is pictured above in the LeMans Jaguar he has entered in the 300-lap, non-stop, 150-mile grind. This race is Iowa's longest non-stop race and each driver will be required to pass a physical before being allowed to compete.

## ALCOA Plant New Addition Ready To Start

**DAVENPORT** — The Davenport Works of the Aluminum Company of America (ALCOA), announced tonight that formal production operations in a newly completed \$54 million plant expansion will begin tomorrow.

Representatives of trade and business publications, newspapers and magazines toured the facility today.

The additions to the 130 million dollar plant include a 160-inch hot mill; a plate stretcher with a pulling force of 16 million pounds; a 100-inch cold mill for rolling and finishing wide, coiled aluminum; a foil-rolling facility with an annual capacity of 24 million pounds and plate-treating and aging furnaces which can accommodate plate in 60-foot lengths.

E. B. Fassel, works manager, said the plant is now operating at 70 per cent capacity. The newly completed facilities are linked with a 144-inch rolling mill installed in 1954 under an Air Force contract.

Fassel said the new facilities in combination with existing ones at the plant now form the nation's leading production unit for the rolling, heat-treating and levelling of aircraft sheet and plate in tapered form.

W. T. Mittman of Pittsburgh, Alcoa production manager for sheet and plate aluminum, said that aircraft needs represent only about 17 per cent of the company's production. The housing industry and related fields are becoming a major market, he said.

## Powder Derby: Western Pair Finishes First

**PHILADELPHIA** — A pair of lady pilots who finished second in the 1955 and 1956 Powder Puff Derbies, were awarded first place Thursday in the 1957 transcontinental air event.

On the basis of a handicap system, derby officials gave top prize of \$900 and a brace of trophies to Mrs. Alice Roberts, Phoenix, Ariz., and her co-pilot, Mrs. Irish Critchell, Palos Verdes Estates, Calif. Two veteran fliers had brought Mrs. Roberts' Beechcraft Bonanza 2,600 miles across the U.S. at an average speed of 188.53 miles an hour. Their handicap was 162 miles an hour.

Mrs. Roberts has 550 hours in the air. Her co-pilot, with 4,000 hours, was a WASP ferry pilot in World War II.

A Civil Air Patrol pilot, Mrs. Doris Eacret of Elko, Nev., and her co-pilot, Mrs. Jean Parker Rose, Arcadia, Calif., finished in the No. 2 spot for \$600 after the handicapping. Their cross country average speed was 138.39 against a handicap speed of 112 for their Cessna 140A. Mrs. Rose was the 1950 Powder Puff winner.

### BLOOD TIES

**MILWAUKEE** — A woman's circle at a local church decided to sponsor a worthwhile project. It was suggested they help a family with two sick children needing frequent blood transfusions.

The eight women in the circle then volunteered to donate blood — their husbands. "The men have begun making their contributions."

## Aga Kahn— (continued from page 1)

ascend to the Gadi — the seat of office — as their father did in Bombay at the age of 8.

There have been reports the Aga Khan was upset over Aly's reputation as a playboy. In his 1954 autobiography the Aga Khan deplored the "clamorous publicity" attending Aly and Rita's romance, and the "fantastic, semiroyal, semi-Hollywood" wedding which was its climax.

At the deathbed were the beautiful Begum, the Aga Khan's fourth wife; and Aly and Saruddin.

The Aga Khan was known as a man with an eye for a beautiful woman, as a lover of fast horses, and a devotee of luxurious living in the 52 villas and houses he owned in Europe and Asia. But he took a deep interest in world political problems, and was president of the League of Nations in 1937.

"Have fun, it's later than you think. One must experience life to dominate it," he once observed.

He was firm in his Moslem faith and this devotion aroused the admiration of Ismaili Moslems. They proved it in the ceremonies in which the Aga Khan's weight — once more than 240 pounds — was matched against gold, platinum or diamonds.

At the diamond weighing ceremonies in Bombay in 1946 he mounted a platform where a huge chair was balanced against a scale. The scale worked in reverse — as the diamonds were placed on a platform the dial moved slowly back to zero.

A great part of the cash value of the gems went to charitable institutions and works he maintained for his sect. A part went into his own coffers.

In the last few months his weight dropped to 132 pounds.

## Engaged

The engagement and approaching marriage of Miss Barbara Jean Compton, D3, Bagley, and Daryl L. Carter, G, Sioux City, is announced by the bride-elect's parents, Mr. and Mrs. Delmer H. Compton of Bagley.

Miss Compton is a student in Dental Hygiene at SUU. Mr. Carter will receive his M.A. degree in August. He is employed as advertising manager of Walker's Shoe Stores in Waterloo, Iowa. The wedding date is set for Aug. 9 at the First Methodist Church in Jefferson.

**PLEASE BE PATIENT** NORFOLK, Va. — The Norfolk Virginian-Pilot reports this sign in a rural gasoline station, observed by Preston Charles:

"Buzz twice for night service; then keep your shirt on while I get my pants on."

# Hy-Vee Presents exclusively . . . their ANNUAL GIFT EVENT

Come early Avoid the Rush! Fri. and Sat., July 12-13 (10 a.m. - 5 p.m.)

FREE—5x7 Vignette PORTRAIT—FREE of your child

(age limit 1 month to 7 years or GROUP of CHILDREN just so one is under 7 years)

The DeSpain Portrait Service will be here for this SPECIAL EVENT. This photograph will be taken by an expert, with the amazing Strobolite, which is the best light ever perfected for photographing children and tiny babies.

Just Bring Your Child To Our Store

NO COUPON — NO ENTRY FEE — NO HANDLING CHARGE

NO APPOINTMENT NECESSARY! Remember there is NO charge for the sitting of the picture, and NO OBLIGATION to make a purchase of any kind. This is a BONAFIDE FREE OFFER.
