'Misinterpreted and Misquoted:' Evy

Coach Forest Evashevski of SUI's Rose Bowl championship team asserted Wednesday that he was "misquoted and misinterpreted" in portions of an article in the issue of Sports Illustrated magazine which will appear on the newsstands today.

Evashevski denied making comments critical of the president of Indiana University or that he suggested that winning is the only thing that matters in college football.

The coach said he had received an advance copy of the magazine article.

The Iowa coach said he had particular reference to a section of the article, written by Jack Olsen, which quoted him as saying, "I tell you, that situation at Indiana just turned my stomach, the way that president turned on his coach."

"Had I been asked about the situation at Indiana," Evashevski said, "I would have said that I thought President Wells defended his coach to the fullest."

The reference was to new Hoosier coach Phil Dickens, barred from coaching activities for a year for alleged violation of the new Big Ten recruiting rules.

Evy further took issue with a section of the article which quotes him as stating, "the coach enters into a tacit understanding with the president that he will recruit good ball players by any means short of larceny."

Evashevski denied making such a statement. He added: "I know of no college president who will tolerate a disregard of ethics and rules."

The Iowa coach said that portions of the article are accurate.

He said, "However, they have taken pieces of things said and put their own interpretation to them."

He said he was further disturbed by a pre-publication release, sent

Forest Evashevski
Words Twisted

to sports editors, which carried a headline saying, "Iowa coach says winning, not good sportsmanship, is aim of college of football."

"They have twisted my words," Evashevski said. "When sportsmanship no longer has a place in college football, I will resign."

"I stated that the coach is merely a supervisor of good sportsmanship, but the actual builder of sportsmanship is the parent during his formative years."

Evashevski said most of the interview with Olsen was tape recorded, but portions were not.

Evashevski said Olsen told him he was assigned by the magazine to get a "different kind of article something with a flair."

At the end of the interview, Evy said, Olsen expressed disappointment that he had said nothing which would give him the type of story Sports Illustrated wanted and that it had been a run of the mill interview.

THE FABULOUS LOUIS "SATCHMO" ARMSTRONG, pictured above during his stay at SUI where he performed to capacity audiences last winter, Tuesday night cancelled a goodwill trip to Russia for the U.S. Government, because of the way his people are being treated in the South.

Satchmo Blasts Ike, Refuses Russia Trip

GRAND FORKS, N.D. — Trumpet player Louis (Satchmo) Armstrong said Tuesday night he has given up plans for a Government-sponsored trip to Russia because "the way they are treating my people in the South, the Government can go to hell."

Here for a concert, Armstrong said President Eisenhower had "no guts" and described Arkansas Gov. Orval Faubus as an "uneducated blow boy."

Armstrong Wednesday reaffirmed the statements he made to a Grand Forks Herald reporter. Shown a copy of the story that had been written on the basis of his remarks, Armstrong said "That's just what I said and still say."

He said the President is "two-faced" and has allowed Faubus to run the Federal Government.

At the Newport, R.I., vacation White House, presidential press secretary James C. Hagerty declined comment.

Armstrong was regarded by the State Department as perhaps the most effective unofficial good will ambassador this country had.

A trip by Armstrong to Russia under State Department sponsorship has been under consideration for some time.

The department announced the move at the same time it disclosed a final decision against renewing the passport of William Worthy, who visited Red China last December in his role as a correspondent of the Baltimore Afro-American.

Worthy's application has been rejected, the department said, mainly on the grounds he has refused to promise to abide by regulations.

A State Department spokesman hinted, however, that the 42 young Americans as well as Worthy might regain their passports if they pledged never to violate restrictions again.

All were given an opportunity to appeal the department's action.

They may turn to State Department passport officers for a review, or present their case to the appeals board.

The move to seize the passports had been foreshadowed by a warning given last month by Undersecretary of State Christian Herter.

The 42 tourists, then attending the World Youth Festival in Moscow, were told their visit would help Red Chinese propaganda.

Rose Bowl Film To Highlight Orientation

A highlight of orientation activities for new students at SUI will be the premiere showing of "A Few Notes for the Rose Bowl," a documentary film of the Scottish Highlanders' and SUI Marching Band's trip last winter to the January 1 football classic.

The half-hour color movie will be presented Saturday evening in the Pentacrest Room during the Iowa Memorial Union open house. It will be shown continuously from 8 p.m. The film features the groups performing at the Tournament of Roses Parade, during the intermission of the Hawkeye-Beaver bowl game and at Omaha, Phoenix, and Houston. Parents of Highlanders and band members in the area and other interested persons may attend the premiere of the movie.

Students entering the University for the first time who have not taken placement examinations will spend Friday taking mathematics, English, vocabulary and reading tests. Parents of the new students will get acquainted with faculty members and University administrators at an informal open house from 1-3 p.m. Friday in the Union.

President Virgil M. Hancher will welcome them and explain SUI policies and programs.

After a day of orientation meetings, advisory appointments and Highlander tryouts Saturday the newcomers will have an opportunity to relax at the Union. In addition to the showing of the Rose Bowl film, the Union staff and members of the Student Union Board will welcome them to the University, conduct tours of the building and entertain with skits, dances and songs.

On Monday a mass meeting for freshmen will take place at 7 p.m. in the Fieldhouse, followed by informal visits to faculty homes. Campus tours will be conducted Tuesday morning and afternoon, beginning at the information booth in front of Old Capitol and ending at the Library, where cokes will be served.

Open house for the new students will be held at the home of President and Mrs. Hancher between 7:15 and 10 p.m. Tuesday and Wednesday evenings.

Badminton, pingpong, handball, mixed volleyball, basketball and other games will provide relaxation Tuesday and Wednesday evenings at the Fieldhouse Play Night. Special exhibitions by members of the SUI fencing, gymnastic and wrestling teams will be presented. Coaches and team captains will be on hand to discuss prospects for the coming year. Square dances will climax festivities on both evenings.

An activities open house will be held in the Main Lounge of the Union from 1:30 to 4:30 p.m. Wednesday. Most of the student groups on campus offering opportunities for extracurricular participation will set up booths to attract new members and to explain club activities to them. An informal dance will be held in the River Room during the afternoon.

The University Induction Ceremony which traditionally opens the academic year will be held on the west approach to Old Capitol at 9:25 a.m. Thursday.

Nearly 400 orientation leaders and assistants who volunteered last spring will be on hand throughout orientation week to assist the new students, introduce them to faculty members and answer questions about SUI activities and traditions.

Claims First Successful Cold Vaccine

BALTIMORE — The first successful vaccine against a major common cold virus was reported Wednesday night.

The Baltimore Sun said the vaccine was developed by Dr. Winston H. Price, Johns Hopkins University scientist.

In a copyright story in Thursday's paper, Sun science writer Weidon Wallace reported the vaccine prevented colds caused by the JH virus in 80 per cent of 400 persons inoculated in a series of controlled tests.

The JH virus, isolated by Dr. Price in previous studies, caused 30 per cent of the common colds which came to his attention in investigations made over a two-year period.

The vaccine was made from the killed JH virus and produced no symptoms, discomfort or side effects whatsoever in persons who received it in Dr. Price's test, the paper said.

Although an unknown number of viruses are responsible for colds and Dr. Price's vaccine can't be expected to work against all of them, the Sun called it "the first breakthrough in finding a preventive for this ailment, one of mankind's most vexing complaints."

In Chicago, a spokesman for the American Medical Assn. said other vaccines have been developed against the cold in recent years without notable success.

"They haven't proved too successful because colds are caused by so many different types of virus," he explained.

"On this particular vaccine, we can't comment until we've seen the complete scientific report," the spokesman said.

To produce immunity, two shots of the vaccine are given, the second following the first by four weeks.

"Samples of blood serum obtained by Dr. Price from hospital all over the country revealed the presence of antibodies against this virus."

"Therefore it is one of the organisms which cause colds in all parts of the United States," the story said.

A technical account of the vaccine is in proceedings of the National Academy of Sciences now in print and soon to be released.

Boys training schools cooperated in the studies by Dr. Price, an official of the Johns Hopkins School of Hygiene and Public Health.

Armstrong Wednesday reaffirmed the statements he made to a Grand Forks Herald reporter. Shown a copy of the story that had been written on the basis of his remarks, Armstrong said "That's just what I said and still say."

He said the President is "two-faced" and has allowed Faubus to run the Federal Government.

At the Newport, R.I., vacation White House, presidential press secretary James C. Hagerty declined comment.

Armstrong was regarded by the State Department as perhaps the most effective unofficial good will ambassador this country had.

A trip by Armstrong to Russia under State Department sponsorship has been under consideration for some time.

The move to seize the passports had been foreshadowed by a warning given last month by Undersecretary of State Christian Herter.

The 42 tourists, then attending the World Youth Festival in Moscow, were told their visit would help Red Chinese propaganda.

Faubus Sits Tight As Zero Hour Nears

LITTLE ROCK, Ark. — Gov. Orval E. Faubus, nearing zero hour in his 16-day deadlock with the Federal Government, held two more long conferences behind closed doors Wednesday — and appeared to be sitting tight.

The hours ticked away with no sign that Faubus will attempt to avoid the crucial hearing Friday morning in Federal Court.

However, an informant high in Democratic party councils in Arkansas, said he understood the Governor will go into court and that an attorney will make two motions at the outset:

1. That U.S. Dist. Judge Ronald N. Davies disqualify himself and step down from the hearing.

2. That Faubus be permitted to see the secret report prepared by the FBI.

The informant could not be identified.

Judge Davies handed down the original ruling ordering that Central High School be integrated. Faubus has characterized Davies' action as "high handed and arbitrary."

It was Faubus' action in sending the National Guard to the high school, the night of Sept. 2, with orders to bar Negroes from enrolling, that brought him into conflict with the Federal Government.

His attorneys may contend that Davies — as a result of this background — is not qualified to hear the Government's petition Friday for a preliminary injunction against Faubus.

The injunction would order him to stop interfering with the enrollment of the Negroes.

On the second motion — that the FBI file be produced for Faubus to study — the Governor's attorneys can cite the Supreme Court ruling in the Jencks case.

In that decision, the high court ruled that, under certain circumstances, a defendant in a lawsuit is entitled to see evidence gathered by FBI agents.

There was little wind damage as high tides and heavy rains took three lives by drowning and thousands property damage into the thousands of dollars.

The Weather Bureau predicted the deluge that hit the Louisiana and Mississippi coast would spread into east-central Mississippi and Alabama during the night, then farther to the northeast Thursday.

Buras, about 50 miles southeast of New Orleans, received 13.36 inches of rain in 24 hours, while New Orleans got almost 7 inches and Biloxi, Miss., on the Gulf of Mexico, got 6.

The highest winds recorded near New Orleans were 64 m.p.h. early in the morning. Brookley Air Force Base at Mobile, Ala., reported gusts up to 67 m.p.h. during a squall at 1 p.m.

In its final advisory, issued at 4 p.m. CST, the Weather Bureau said tides of 3 to 5 feet would occur along the Mississippi coast and eastward to Pensacola, Fla.

WASHINGTON — The Federal Communications Commission Wednesday announced a tentative decision to go ahead with proposed trial demonstrations of subscription television service, possibly sometime next year.

The commission said its plan is to accept applications from individual television stations to inaugurate such service on a trial basis for a three-year period.

This would leave it to the individual station to decide what type of subscription service it desired to offer, either one of the five systems which have been formally submitted to FCC for approval or perhaps some system not yet developed.

The commission announcement said that at the conclusion of two days of closed sessions late Wednesday, it had instructed its staff to prepare the necessary orders for carrying out the proposed demonstration plan on an individual station application basis.

The commission said, however, that no such application will be acted upon before March 1958.

AFL-CIO Ethics Group Blasts Hoffa, Teamsters

WASHINGTON — The AFL-CIO Ethical Practices Committee Wednesday practically read Teamster Union boss James R. Hoffa out of the big labor federation. It issued a report linking Hoffa with what it called a rogues' gallery of hoodlums.

The hard-hitting report served on the Teamsters found the 1 1/2-million-member union — the nation's largest — to be dominated by corrupt leaders.

It put Hoffa, union President Dave Beck and West Coast Teamster chief Frank W. Brewster in that category and sternly pointed to what it said was a Teamsters Union failure to give any adequate answers to Senate Rackets Committee disclosures.

The findings — due for formal approval by the AFL-CIO Executive Council in New York next week — strongly hinted that the 15-million-member foundation will kick out the Teamsters if Hoffa is retained in any office of his union, much less its presidency.

Hoffa's strong grip over Teamsters affairs has weakened somewhat in the wake of August hearings in which he said he could curb local wars without blowing up the world.

That is why "Soviet diplomacy and propaganda" demand an end to U.S. nuclear tests, Dulles wrote in an article in the magazine Foreign Affairs.

The secretary predicted the time is near when America and its free world friends will have an arsenal of A-weapons which could hit specific military targets with a minimum of radioactive fallout.

He went on to outline what appeared to be an amendment to his theory of massive retaliation, a change designed to take care of small wars.

He suggested that brush-fire wars could be met on the spot with the aid of the smaller, "cleaner" weapons — without launching a counter-attack of such scope as might lead to a world wide nuclear holocaust.

His idea is that the availability of such weapons around the rim of the Communist bloc may in coming years so block Red hopes for a successful limited war with conventional weapons that the threat of massive nuclear retaliation would be unnecessary.

They also cited misuse of health and welfare funds, failure to discipline corrupt officials and promoting the interests of racketeers.

They concluded: "For reasons set forth in this report, the Ethical Practices Committee concludes that the International Brotherhood of Teamsters, Chauffeurs, Warehousemen and Helpers of America does not meet the standards for labor union practices set forth in the AFL-CIO constitution."

WASHINGTON — Warren Olney III, chief of the Justice Department's criminal division since 1953, turned in his resignation Wednesday.

He said his departure would clear the way for a departmental reorganization to strengthen the enforcement of civil rights under new legislation.

President Eisenhower accepted Olney's resignation with regret and praised him for "highly dedicated service" in the civil rights field. Atty. Gen. Brownell also commended Olney for his work as an assistant attorney general since the beginning of the Eisenhower administration.

The resignation, effective Oct. 15, was announced at the President's vacation headquarters in Newport, R.I.

In his letter to the President, Olney, 53, noted that the new civil rights law signed by Eisenhower Sept. 9 provides for creation of a separate civil rights division in the Justice Department.

WASHINGTON — The Federal Communications Commission Wednesday announced a tentative decision to go ahead with proposed trial demonstrations of subscription television service, possibly sometime next year.

FISHING BOATS and houses — as unlikely a combination as you can imagine — share flooded terrain of Buras, La., after Esther, third tropical storm of the season to strike the Louisiana coast, poured 13 inches of rain on the area as she passed through. Buras is a small town in bayou country near the mouth of the Mississippi.

Stop That, Esther

NEW ORLEANS — Tropical storm Esther broke up into squalls as it moved inland Wednesday, threatening areas of three states with floods.

There was little wind damage as high tides and heavy rains took three lives by drowning and thousands property damage into the thousands of dollars.

The Weather Bureau predicted the deluge that hit the Louisiana and Mississippi coast would spread into east-central Mississippi and Alabama during the night, then farther to the northeast Thursday.

Buras, about 50 miles southeast of New Orleans, received 13.36 inches of rain in 24 hours, while New Orleans got almost 7 inches and Biloxi, Miss., on the Gulf of Mexico, got 6.

Cloudy, Scattered Showers

The weatherman says considerable cloudiness today and tonight. Scattered showers and thunderstorms tonight.

Lows 54-62. Highs in the high 70s. Further outlook — Partly cloudy and cooler Friday.

Lone Tree School Reorganization Is Before Top Court

DES MOINES — An appeal from a District Court ruling that results of a Lone Tree School District reorganization proposal should be set aside, was argued by the Iowa Supreme Court Wednesday.

The case was appealed to the supreme court by the Lone Tree board of education.

The reorganization proposal, calling for inclusion of parts of Fremont, Pleasant Valley and Lincoln townships in the Lone Tree district, received a favorable vote in an election in September, 1955.

Subsequently three men, Wesley Wall, Carl J. Goetz and George R. Walter, filed suit against the Johnson County Board of Education, alleging conspiracy in the election.

After a three-week trial of the case, District Judge James P. Gaffney ruled that the result of the election should be set aside.

The Lone Tree Board of Education appealed the decision to the high court and other interested school districts entered the case as intervenors, splitting on both sides of the question.

The supreme court took the case under advisement after hearing the arguments. It will hand down its decision at a later date.

The Daily Iowan

The Daily Iowan is written and edited by students and is governed by a board of five student trustees elected by the student body and four faculty trustees appointed by the president of the University. The Daily Iowan's editorial policy, therefore, is not an expression of SU1 administration policy or opinion in any particular.

Page 2 THURSDAY, SEPT. 19, 1957 Iowa City, Iowa

The Governor As Chief Of State

EDITOR'S NOTE: This is the second of two articles by Kirk Porter, Professor and Head of the SU1 Political Science Department, dealing with the crisis occasioned by Governor Faubus' use of troops to block integration in Little Rock's Central High School. The first dealt with the constitutional aspects of the Supreme Court's 1954 segregation decision.

By KIRK PORTER

I hope it is not possible for a court to cite a Governor for contempt and perhaps send him to jail. Nobody knows. It never was attempted. Several times proceedings have been initiated, directed at a Governor, but in every case either the proceedings have been dropped or the Governor has yielded the point at issue.

Prof. Kirk Porter

This does not prove that he could have been taken into custody. We do not know for sure.

Personifies State

The Governor is Chief of State. He personifies the State, speaks and acts for it as no one else can. Every one of the State constitutions bestows upon him the power and the duty to see that the laws of the State are faithfully executed.

Under this sweeping mandate every officer and agency of the state and local government is in some degree subordinate to him. He is a symbol of Statehood in all its ramifications.

His office gives meaning to federalism. The life of the State as a body politic heads up in him. Our concept of federalism would be undermined and jeopardized if he could be arrested at any time, held and jailed, due to a dispute with some point of law.

The President's Power

The power of the Federal Government to enforce the laws of the United States would not be at stake. The President has abundant power to enforce the laws of the United States. Let him do it, and completely by-pass and ignore the Governor. Every officer below the rank of Governor could be dealt with pre-emptively. Officers in his military establishment or his State Police force would defy Federal authority at their peril.

They are not Chiefs of State. They could be dealt with. His orders to them would be of no avail if they defied the agencies of federal law enforcement.

without a hand being laid upon him. He might be a nuisance but he could not stand alone. Every one of his subordinates could be promptly handled, the Governor's futile orders to them notwithstanding.

But the Governor himself must be free to carry on all the manifold activities of States that have nothing whatever to do with the point at issue. Let federal authorities stick to their business of enforcing Federal law and not seek to chop off the Head of State in order to achieve one purpose.

Dignity Of Office

There is nothing new in this idea. In 1867 an effort was made to get the Supreme Court to issue an injunction forbidding the President to enforce certain laws that were thought to be unconstitutional. The Court refused, but held that anyone else who attempted to act in an unconstitutional way could be dealt with in due course. Orders of the President would not protect them.

It was unthinkable that the President could be enjoined at any time, cited for contempt and jailed because of a dispute with some judge over a point of law.

So it is with the Governor. Quite apart from principles of constitutional law there is dignity in that office that should be respected.

Two Farmers Union Groups Pan Benson

DES MOINES (AP) — Two different groups, each using the Farmers Union name, met in hotels a block apart in Des Moines Wednesday.

At one hotel was a farm conference called by the National Farmers Union and addressed by its national president, James G. Patton and its national counsel, former Secretary of Agriculture Charles F. Brannan.

Among those attending were officers and members of the Iowa branch of the National Farmers Union organized here in the last two years and chartered by the national group.

At a hotel a block away Fred Stover of Hampton presided over a meeting he termed in his official call as the 41st annual convention of the Iowa Farmers Union.

Since the revoking of the charter of the Stover group by the national organization, a Federal court decision has been given barring Stover from using some symbols and phrases held to belong to the national group.

Stover claims he has the right to use "Iowa Farmers Union" as the name of his organization, although barred from using the plow symbol which is the trademark of the national group.

The two meetings had one thing in common, a critical attitude toward Secretary of Agriculture Benson and toward the present profit situation in agriculture.

The meeting called by the National Farmers Union was opened with a speech by Brannan. He said that it was hoped through these grass-root meetings to arrive at a farm program which could be supported by all farm organizations.

He presented charts to show that the farmers net income is falling off while he is forced to pay more for what he buys.

At the meeting of the group presided over by Stover, speakers included directors of livestock commissions at market points.

"If any one national organization had put up the kind of fight for agriculture that this little organization in Iowa has we wouldn't have Benson in Washington today," said Julius Jacobson of Cresco, manager of the Farmers Union Cooperative Feed Service.

Family Footnotes

By MARTHA GARRETT

SUI Iowa Child Welfare Research Station

Two mothers recently were comparing notes on a mutual problem. Said one, "When Tommy begins to get discouraged with an activity, it's a constant puzzle for me to know when to come to his rescue. And sometimes I wonder if I should come to his aid."

Acknowledging this same problem, the second mother commented, "I'm sure I often interfere with things Jane really can do for herself. Other times I wait too long and she becomes discouraged and quits."

The following points will help us evaluate our thinking in regard to this very common problem.

We take pride in seeing our children complete what they set out to do. Successful completion of a reasonable number of activities is important to acquiring confidence in our abilities and is essential to healthy emotional development.

In any given age group there is a wide range of abilities. One child may breeze through an activity; another the same age may get off to a fine start, bog down and quit. But what often appears to be an unsuccessful attempt, judged by adult standards, may be a small triumph for the child who previously hesitated to venture into new activities. The fact that he has tried is growth for him.

In deciding when to help our children we might ask ourselves such questions as how important is this activity to my child? How important is it to me that the activity be completed? Sometimes we need to re-evaluate the demands we make upon our children.

Even though a child may possess the necessary skills, some days he may feel he cannot quite "go it alone." Then parental understanding, support and forbearance may be in order.

Iowa Road Group Acts On Interstate Highway Priority

AMES (AP) — The Iowa Highway Commission reaffirmed Wednesday its decision to give priority to the Loveland leg at the western end of Interstate Highway 6 but decided also to seek special need funds for the Neola-Council Bluffs diagonal of the same route.

The commission action was by a vote of 4-0 with Commissioner Cecil Malone of Atlantic abstaining from the vote. Malone earlier had protested against action until he had time to study a set of charts and figures on cost and traffic flow.

Council Bluffs and Omaha interests have been seeking priority for the Neola-Council Bluffs diagonal. Sioux City and Missouri Valley favor the Loveland segment priority. The interstate route which will roughly follow the line of U.S. 6 between Davenport and Council Bluffs does not yet have a formal designation. In the commission records it is known as Route 01.

AMES (AP) — The Cerro Gordo County road dispute with the State Highway Commission came up briefly at Wednesday's commission session.

C. J. Lyman, assistant attorney general assigned to the commission, told the commissioners that Cerro Gordo County officials want to meet with highway department staff members to iron out the matter.

"All we can do is leave it up to you," Commissioner Robert Brice of Waterloo told Lyman.

The dispute involves a controversial Rockwell-Swalesdale county road project on which work has been stopped.

A meeting to try to settle the matter is scheduled for Friday.

General Notices

General Notices must be received at The Daily Iowan office, Room 201, Communications Center, by 8 a.m. for publication the following morning. They must be typed or legibly written and signed; they will not be accepted by telephone. The Daily Iowan reserves the right to edit all General Notices.

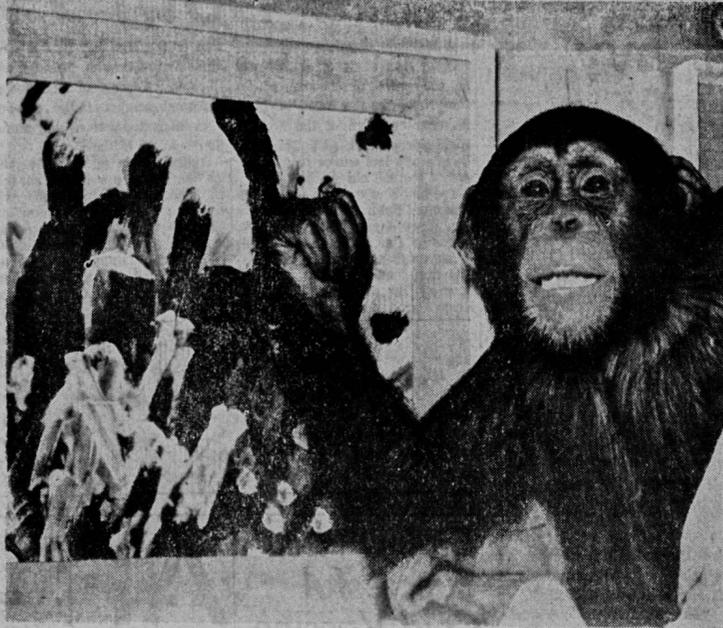

HIGHLANDERS — Undergraduate female students who are interested in applying for membership in the Highlanders, are invited to attend the Highlander tryouts, which will be held in the west end of the Fieldhouse at 4:15 p.m., September 21.

BOOK EXCHANGE — The Student Council Book Exchange, 111A Schaeffer Hall, will be open from 9 a.m. to 12 noon, and 1 to 4:45 p.m. on the following dates: Receive books — Sept. 23, 24, 25, 26; sell books — Sept. 26, 27, 30, Oct. 1; refund on books sold but not current texts — Oct. 1; return money and unsold books — Oct. 2, 3, and 4.

HOMECOMING — There will be a meeting of all the members of the Homecoming Committee on Thursday, September 26 at 7 p.m. in the Board Room of Old Capitol.

BABY SITTING — The University Cooperative Baby-Sitting League book will be in charge of Mrs. Weinstein from Sept. 17 to Oct. 1. Telephone her at 9-1443 if a sitter or information about joining the group is desired.

QUAD CAFETERIA — The Quadrangle Cafeteria will be open during the months of August and September during the following hours: Weekdays — 6:30 a.m. to 1 p.m. and 5:30 to 7 p.m.; Sundays — 7:30 a.m. to 1:30 p.m. and 5:30 to 7 p.m.

Patron Of The Arts

CONGO THE CHIMP gestures with pride at one of his efforts during a preview of his paintings in London. Dr. Desmond Morris of the London Zoo where Congo is a tenant says there is a difference between the latter's methods and those used by Betsy, the Baltimore, Md., chimp. "The American paints with his fingers. Our Congo uses a brush. A decided difference." Congo's 24 oil paintings and Betsy's 36 works of art went on public exhibition in the British capital Wednesday.

Explorer In Cuba Discovers—

Bullet-Proof Lizards, Bizarre Boas, And Bat-Crushing Snakes

WASHINGTON, D.C. — Lizards, apparently immune to bullets, bat-crushing snakes, pigmy boa constrictors, frogs that never are pollywogs, and frogs less than a third of an inch long are among the curiosities of reptile and amphibian life recently collected in Cuba for the Smithsonian Institution by David Hardy, a graduate student of the University of Maryland.

Bullet-Proof Lizards

Most curious of the lot are the "bulletproof" lizards. They are large iguanas, 3 to 4 feet long, with a curious resemblance to antillean lizards. Hardy found them in limestone outcroppings and on sandy islands along the Cuban coast.

Bat-Eating Boas

The bat-eating boas collected by Hardy are true members of the constrictor family and show a curious adaptation. In the Trinidad Mountains of Cuba's south coast are many bat caves. In their dark, damp depths literally thousands of fruit-eating bats spend the day asleep. They fly out at dusk.

Each cave consists of several chambers, which have very narrow entrances, often barely big enough for a bat to squeeze through. The big snakes hide, coiled in rock crevices, beside these entrances.

When the nightly exodus takes place a boa will strike time and time again, nearly always getting a bat, whose progress is impeded by the narrow aperture

lets, of course, is not quite true. Any creature can be killed if hit in the right place. Still, Hardy says, he captured one specimen with 22 shots in its body, apparently none the worse for the experience. The seeming immunity he believes is due to two things — the toughness of the hide and the quite primitive organization of the nervous system.

The supposed immunity to bullets,

he says.

Over and over again he has hit them with a .22 rifle. When shot, he says, they turn over on their backs and lie still, but when approached the apparently dead reptile suddenly "comes to life again," gets on its feet with marvelous speed, and disappears down a hole. About the only way to collect specimens is with a noose.

When the nightly exodus takes place a boa will strike time and time again, nearly always getting a bat, whose progress is impeded by the narrow aperture

lets, of course, is not quite true.

Any creature can be killed if hit in the right place. Still, Hardy says, he captured one specimen with 22 shots in its body, apparently none the worse for the experience. Pygmy Boas

Another curiosity of Cuba's reptile life is the pigmy boa, less than 2 feet long, which lives mostly on small lizards, which it crushes in its coils. It progresses rapidly through the hot sand of its habitat by a "side-winding" type of locomotion, familiar in some rattlesnakes but otherwise unknown. Other boas have the sinuous motion common to snakes in general.

In the side-winding movement, Mr. Hardy believes, the snake's body is momentarily almost completely off the ground with each twist. It may have been evolved, he speculates, as a means of relief from the searing heat of the sand.

Freak Frogs

The tadpoleless frogs are creatures of the rainforest canopy, found only in the tops of the tallest trees and chiefly in high mountain ranges. Mr. Hardy found one of the best collecting sites the summit of Pico Turquino in the Sierra Maestra Mountains, the highest peak in Cuba.

The eggs, laid in pools formed in hollows of large leaves, hatch as frogs, not tadpoles, metamorphosis being completed entirely within the egg. The pigmy frogs are very rare but are distributed all over the island, often with gaps of 100 miles or more between colonies.

FEDERAL AID

LECLAIRE (AP) — The LeClaire Independent School District will receive a Federal assistance payment of \$1,772, Rep. Fred Schwengel (R-Iowa) said Wednesday.

The payment is authorized under a Federal law reimbursing local school districts for increased educational costs brought about by Federal installations in the area.

Professor Advises Parents To Keep Kids In Style

It's just as hard on a youngster to be "overdressed" at school as to have clothes "not as good" as the others. Prof. Ralph Ojemann of the Iowa Child Welfare Research Station says.

Parents will be wise to find out what type of clothes their youngsters' classmates are wearing and provide similar wearing apparel, the SUI professor explains. Having shoes, caps and hairdo's like those of other children is important from five and six on, too.

Liking the clothes he wears and feeling comfortable and appropriately dressed help give a child self-confidence, Dr. Ojemann points out.

DAM BIDS

OMAHA (AP) — The Corps of Engineers received two multi-million dollar bids Tuesday for construction of intake shafts and upstream tunnels for power installations at Oahe Dam near Pierre, S.D.

Oahe Dam is the fifth of the giant multi-purpose dams being constructed on the Missouri River.

Iowa Arsenal Activities To Be Curtailed

WASHINGTON (AP) — The Army Wednesday announced plans to close three Government-owned ammunition plants and to reduce activity in five others.

One of the plants slated for curtailed activities during the next nine months is the Iowa Ordnance Plant at Burlington, Ia., operated by Mason & Hanger, Silas Mason Co.

The Iowa Ordnance Plant at Burlington currently has about 2,000 employees. The plant makes conventional artillery shells and also has an atomic energy division.

Rep. Fred Schwengel (R-Iowa) said a few days ago the Army had advised him that about 120 persons would be dropped from the IPO payroll by Jan. 1 but the figure would include those who quit voluntarily or retire.

He said he was told employment would be not less than 1,850 on Jan. 1, 1958, and that few if any additional reductions currently are planned for 1958.

Another plant at which activities will be curtailed is the Elmwood unit of the Joliet, Ill., arsenal, which is Government owned and operated.

The Army said the closings of the three plants and the cutbacks at the five others will eliminate a total of 341 Government employees.

The Army said the closings and slowdowns are due to a combination of factors including completion of contracts, reduction in requirements for ammunition and the current economy drive.

One of the plants to be shut down is the Badger Ordnance Works, operated at Baraboo, Wis., by the Liberty Powder Defense Corp., an Allyn Mathieson Chemical Corp. subsidiary.

Two Iowa Citizens Given Fellowships

Two Iowa Citizens, Bill R. Baker and Philip Levine, have been awarded fellowships at Stanford University.

Baker received both his B.S. and M.S. from SUI, the latter in 1956. While here, he was the recipient of a grant from the National Science Foundation. His grant for the 1957-8 school year at Stanford is from Bell Telephone Laboratories.

Baker is the son of Mr. and Mrs. Richard Baker, 1618 Muscatine Ave.

Levine received a Stanford Fellowship in Creative Writing.

In Thailand— Army Head Given New Legal Power

BANGKOK (AP)—King Phumiphon Aduldet Wednesday night invested Thailand's new strongman Army Marshal Sarit Thanarat with legal power and shuffled the membership of Parliament.

The monarch named Sarit military custodian of Bangkok. Sarit headed the military junta that drove out Premier P. Pibulsonggram Monday night.

The deposed Premier disappeared and there are reports that the ruling junta is inviting him back home with promises for his personal safety.

The King dissolved the old Parliament and appointed 123 new representatives who are to serve until new elections can be held within three months.

The old Parliament had 283 members, of whom 160 were elected. The 123 appointed legislators are to run the national body until the remainder can be elected.

The King's selections were made on recommendations from Sarit's ruling junta.

They include Prince Wan, foreign minister in the old Cabinet and ex-president of the U.N. General Assembly; and Field Marshal Pinolunhawan, former defense minister and father-in-law of Police Gen. Phao Sriyanond, who left the country for Switzerland.

Actually, up to 99 per cent of the King's new appointees are believed to be holdovers from the last Parliament. Several former police officers were among the nominees.

The King's decree stressed that the 1932 constitution remains in effect.

Pibulsonggram was reported in Staheep, 140 miles from Bangkok with his son Raon, commander of the U.S.-trained Thai Marine Corps.

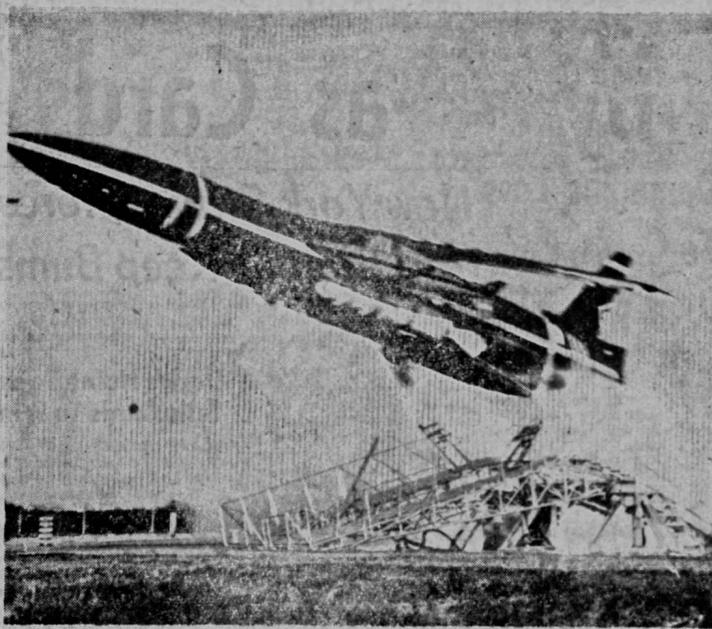

Another son, Brig. Gen. Anandh Pibulsonggram, is believed to have gone there to try to convince his father to return.

Sarit's army radio, in appealing to Pibulsonggram to return to Bangkok, assured him no personal harm will come to him.

"He can run for the next Parliament if he wishes," said an army spokesman.

Pibulsonggram, Sarit and Gen. Phao Sriyanond made up an army clique which ruled Thailand 10 years. They fell out last month when Pibulsonggram ordered his cabinet ministers to give up business interests. Both Sarit and Phao resigned from the Cabinet.

Sarit and Phao, while working with Pibulsonggram, have long been political enemies. Phao had command of Thailand's 40,000-man police force. This week he left the country. He arrived in Switzerland Wednesday.

A SNARK MISSILE leaves its launching platform during tests by Northrop Aircraft, which is producing the weapon at its plant in Hawthorne, Calif. Rocket boosters flame brightly as the Snark heads skyward. Northrup did not disclose where the testing took place. In Washington, Wednesday, the Air Force announced its first Intercontinental Missile Squadron will be ready to operate the Snarks before the end of the year. The squadron will be manned by 500 officers and men, most of whom are now in training at the Northrop plant in California.

Claim Snark Robot Flies Cross-Country

CHICAGO (AP)—The Chicago Daily Tribune said Wednesday night that an Air Force Snark robot bomber flew from California to the Washington, D.C. area and landed precisely in a 10-day circle.

The Tribune, in a dispatch from Washington, said: "The hushed-up transcontinental flight of some 3,000 miles was the first, completely controlled long-range missile run staged by the United States."

The Snark, it added, is capable of flying 5,000 miles to a target under precision guidance.

The article did not say when the flight took place, adding: "Defense and Air Force officials declined to confirm the Snark's historic crossing of the continent."

The story continued: "In the recent flight the Snark was controlled to make a robot landing, although in actual warfare it would plunge toward the target with its exploding atomic warhead."

"The Snark... is a winged missile resembling a piloted bomber. It is powered by Allison jet engine burning kerosene and can reach speeds of about 650 m.p.h. . . . The missile is 74 feet long, has a 42-foot wing and is 15 feet high."

However, in Washington, the Air Force denied that such a flight had been conducted.

A Defense Department spokesman said such flights of the Snark would be made over populated areas only under combat conditions.

AF: Snark On Duty By End Of Year

WASHINGTON (AP)—The Air Force announced Wednesday its first Snark squadron, equipped with Snark guided missiles designed to deliver a 5,000-mile nuclear punch, will be on duty before the end of the year.

SNARKS, though called missiles, are in essence, pilotless bombers and in some important respects are not comparable to intercontinental ballistic missiles, which Russia claims it has developed.

A guided missile is controlled in flight. A ballistic missile is aimed like an artillery weapon and has no in-flight guidance after it is fired except the built-in mechanisms.

The Snark squadron is in the last stages of organization, the Air Force said, and its 500 officers and men will be assigned to the Strategic Air Command shortly. The squadron's operation base will be announced later.

In other developments:

1. A missile was fired from the Air Force Test Center at Cape Canaveral, Fla., and it was unofficially reported to be a Navajo. A month ago it had been reported that work had been stopped on the Navajo, on the grounds it had not come along as far as the Snark.

2. Donald A. Quarles, assistant secretary of defense, traveled to the test center — part of Patrick Air Force Base — on a trip that may figure importantly in Secretary Wilson's decision on the intermediate-range ballistic missile.

THE NAVAJO is a 5,000-mile intercontinental-range guided missile, powered by a ram jet engine.

It was known for some time that the Air Force planned to fire its available Navajos for test purposes, despite cancellation of work on it.

Snarks are counted on to give the Air Force a new intercontinental bombing capability pending perfection of a ballistic missile with a 5,000-mile range.

The Air Force announced in July a \$73 million production order for Snark, a high-altitude, jet-propelled missile capable of delivering a nuclear warhead on a target 5,000 miles away.

If the Snark fulfills the claims made for it, it would be the first U.S. weapon capable of hitting targets in the heart of Russia from the continental United States.

The Snark travels at a speed about equivalent to that of sound. It is designed and has been tested to fly at altitudes of more than 50,000 feet.

Legion Asks Ike To Change Status Of Forces Treaties

ATLANTIC CITY, N.J. (AP)—The American Legion called on President Eisenhower Wednesday to take the lead in seeking revision of status-of-forces agreements with foreign governments.

"It is our considered belief," the Legion said, "that injustices to individuals have arisen from the administration of these treaties and agreements and will arise in the future unless pertinent provisions are modified."

Army Specialist William S. Girard is currently on trial in a Japanese court on charges he caused the death of a Japanese woman scavenging on a military firing range.

The Legion resolution, however, fails to mention his name.

Girard was turned over to the Japanese under a status-of-forces agreement.

The resolution calls on the President and Congress to incorporate these provisions in status-of-forces agreements:

1. That no member of the armed forces be subjected to trial by any foreign government for any act committed on a U.S. military post or in the line of duty.

2. That if the commander in the field determines the accused acted in the line of duty his decision is not subject to review.

In the resolution the Legion said it is its conviction that the rights "of our own citizens in the armed forces should not be sacrificed while said armed forces are engaged in protecting and securing the rights and privileges of the peoples of other nations."

The Legion's foreign policy resolution supports the military phase of the Eisenhower Doctrine in the Middle East.

Civic Music Group Announces Program

The Iowa City Civic Music Association is opening its twelfth season of concerts by nationally famed artists with an appearance of the well-known Barilly String Quartet from Vienna, on November 8th.

The brilliant young pianist, Byron Janis, will give a recital on January 17. For its third concert on February 12th, the Civic Music Association will present the world-renowned Chamber Ensemble, Virtuosi di Roma.

A concert by the Oberlin College Choir on March 31, will close the 1957-1958 season.

Season memberships are available to all students and residents in the community. No tickets are available for individual concerts. Memberships may be purchased at the Fieldhouse during registration, or at the Eble Music Co., 14½ Duquesne Street.

OFF THE CUFF

Really Blown

By ALAN HOSKINS
Daily Iowan Sports Editor
It appears that a highly regarded national magazine "blew one," and blew it bad.

The magazine, Sports Illustrated, which is on the newsstand today, contains an article concerning Iowa football coach Forest Evashevski's view on intercollegiate football. The article, entitled "A Heretic Speaks His Mind," contains several statements which Evy says are "misquoted and misinterpreted."

After reading the article, it is obvious that some misquoting had to be done. For one thing, in all his years here at Iowa, Evy has always spoken his mind, and has backed it up. It's not likely, then, that he would all at once, change his policy and start denying things he had already said, unless he actually did not say that which he was quoted as saying.

Also, Jack Olsen of Sports Illustrated, who wrote the article, confided to Evy after the interview that "he was disappointed that Evy had said nothing which would give him the type of article Sports Illustrated wanted (Olsen told Evy the magazine wanted a different type interview, something with a flair), and that it had been a run-of-the-mill interview."

Any observer can easily see this was not a run-of-the-mill interview, but a very big story. It would appear Olsen decided to give Sports Illustrated the story it wanted, even if he had to "stab in the back" one of the top coaches in the nation to do it.

One of the statements which Evy vigorously denies concerns the Big 10's suspension of Phil Dickens of Indiana for violation of the Big 10 recruitment rule.

The article quoted Evy as saying that "the way Indiana president Herman B. Wells turned on his coaches turned his stomach."

Wednesday, Evy said that had he been asked about the situation at Indiana, he would have said he thought President Wells defended his coach in the fullest. This seems very much more likely, for, although not publicly announced, it is widely believed that President Wells defended Dickens, and had asked for leniency for him when Dickens was placed on a one-year suspension. Undoubtedly, Evy had been informed of what the Indiana president had done.

It's a pretty safe guess that if the editors of Sports Illustrated had not gone over the taped interview Olsen had with Evy, they certainly will shortly. It's also a pretty good bet that someone at Sports Illustrated will be hauled over the coals before this furor is over.

It appears that Evashevski is the victim of what most journalists hate most: "sensational journalism." Truth and dignity were sacrificed for sensation, and now a great coach has to pay for being cooperative by being called a heretic.

EVY DID SAY, however, that portions of the article are true. The worst misrepresentations were those concerning Dickens' suspension and a headline which indicated Evy did not believe in sportsmanship.

One of the statements which Evy did make concerning his own future is a bit surprising.

Said Evy: "I don't expect to stay in football much longer; a couple of more good seasons, and I'll have had it. I'm 39 now, and I hope I'm not in football after I'm 45. I think it's a young man's game."

This will come as quite a blow to many Iowa fans, for few if any people had given any thought to Evy dropping completely out of the coaching ranks. Iowa fans certainly will be hoping Evy isn't too quick on the withdrawal.

EVY HAS SOME kind words for Iowa in his article. For instance, his view on recruitment contains the following quote:

"There's plenty of pressure on the coach to recruit good men, take my word. I'm not talking about Iowa, now. But at most colleges, the pressure is on the coach from the president on down."

Evashevski also maintained in the article that he should be shouldered with the blame for Iowa's only 1956 loss, to Michigan, 17-14, a team which Evy has wanted to defeat more than any other.

Said Evy: "I don't have a great deal of sympathy for the coach when he's blamed, because he's getting paid. Like the way I cost us the Michigan game last year by anticipating that Michigan would do something they didn't. It was my own fault, and I should have been blamed."

It looks to me that Evy nor the team is to blame for the Michigan loss, but certain fellows named Herrstein, Shatsky, Kramer, and several others are the real culprits.

Braves Win, Lead by 4 as Cards Falter

Burdette Hurls 4-Hitter For 16th Victory

MILWAUKEE (AP) — Righthander Lew Burdette fashioned a four-hitter as the Milwaukee Braves whipped the New York Giants, 8-2, Wednesday night and took a four game lead over second-place St. Louis in the National League pennant race. The Cardinals lost to Brooklyn, 6-1.

Burdette, who had been knocked off the mound in five of his last six previous starts, allowed only three singles and Willie Mays' 35th homer.

Whitey Lockman opened the game with a single and scored later in the inning on Ray Jablonski's single. Burdette then retired 14 men in a row until Mays homered with one out in the sixth. After that, Burdette retired ten more in order until Hank Sauer clipped a long single with two out in the ninth.

The victory was Burdette's second over the Giants this season and his 16th against nine losses.

The defeat was charged to starter Johnny Antonelli, who gave up the first five of the Braves' 11 hits.

Manager Bill Rigney of the Giants was thrown out of the game in the fourth when he walked onto the field to protest the second ball called on Antonelli while the pitcher was in the process of walking in the Braves' second run.

The paid crowd of 31,566 pushed the Braves' home attendance over the 2 million mark for the fourth straight season.

The total attendance for 67 Milwaukee home dates this season now is 2,029,301.

New York 000 001 000—2 4 1
Milwaukee 001 141 01X—8 11 3
Antonelli, Crono (5), Constable (6), Monzant (6), Miller (6) and Thomas; Burdette and Crandall.

L — Antonelli.
Home runs — New York, Mays, Milwaukee, Patko.

Cubs 6, Phils 4

CHICAGO (AP) — Ernie Banks regained the major league home run lead with his 42nd round tripper, and rookie Dick Drott gained his 15th pitching triumph Wednesday as the Chicago Cubs beat the Philadelphia Phillies 6-4.

The youthful Drott thus became the first Cub 15-game winner since Warren Hacker won the same number in 1952.

Banks and Walt Moryn unloaded back to back homers against Robin Roberts in the fourth inning.

Roberts, in going down to his 21st setback, hooked up in a scoreless duel with Drott until the fourth. Then Bob Speake singled and Banks and Moryn hit out of the park shots in succession. Banks put the Cubs ahead for good when he doubled to bring in Drott in the fifth.

Philadelphia 000 000 031—4 8 0
Chicago 000 319 02X—6 10 0
Roberts, Qualters (7) and Lonnett; Drott, Elston (9) and Fanning.
W — Drott, L — Roberts.
Home runs — Philadelphia, Anderson, Chicago, Banks, Moryn.

AP Wirephoto
ONE DOWN, ONE TO GO, is probably what Brooklyn shortstop Charley Neal is staying to himself as he fires ball to first in an effort to complete a double play against the St. Louis Cardinals. Del Ennis was forced at second as Don Zimmer backed up the play, which failed to get Cardinal Eddie Kasko at first. The Dodgers dealt the Cardinals a staggering blow in their effort to overtake Milwaukee's front running Braves, by whipping the Red Birds, 6-1.

Gets 1st Series Ducats, Wife Will Watch on TV

MILWAUKEE (AP) — A 41-year-old factory worker put together a couple of long-shot chances and came out of it Wednesday with the first Milwaukee World Series tickets and a week of vacation at the right time to enjoy them — if the Braves win the pennant.

But Roy R. Culligan may have pushed his luck too far — he only ordered one strip of tickets and his wife also is a Braves fan.

"She can watch the TV," Culligan told a newsman firmly. There were sounds of feminine indignation in the background and Culligan said, less firmly:

"Well, maybe we'll match to see who uses the ticket for the fifth game, if there is one."

In mercy, the newsman forbore further questioning on this point.

Culligan decided last June to save one week of his vacation for the second week in October, just in case the Braves won the National League pennant. Earlier this week, he and his wife discussed whether they should order two strips of reserved bleacher tickets or one strip "for a good seat."

"I said, what the heck, with the odds against us let's order one good seat," Culligan said.

And Wednesday morning, when postal workers dumped nearly 50,000 orders out in the Braves ticket office at County Stadium, Roy Culligan's order led all the rest. For one strip.

Damaging Loss To Cards, Only 9 Games Left

ST. LOUIS (AP) — Brooklyn's fading champions, still a major nemesis to St. Louis, dealt Cardinal pennant chances a body blow Wednesday night with a 6-1 victory behind their tall young fast-baller, Don Drysdale.

First-place Milwaukee defeated New York 8-2, putting the Red Birds four games behind with only nine to go.

Drysdale was rapped for 11 hits, 10 of them in the first five innings, but steadied in the late innings to get his 16th victory against 9 defeats.

The 21-year-old, righthander is the biggest winner on the Brooklyn staff this year.

He needed help from Ed Roebuck in the ninth after walking two men and Roebuck closed it out.

Charley Neal's two-run third inning home run gave Drysdale all he needed. The Dodgers poured over four unearned runs in the seventh and eighth.

Wally Moon's home run in the eighth, was the only Cardinal run. The Cards left 12 men on base and saw a five-game winning streak ended.

Brooklyn 002 000 130—6 8 1
St. Louis 000 000 010—1 11 3
Drysdale, Roebuck (9) and Walker; L. McDaniel, Merritt (7), Wehmeier (8) and Landrith.
Home runs — Brooklyn, Neal, St. Louis, Moon.

Reds 2, Bucs 1

CINCINNATI (AP) — A bases-loaded single by Smoky Burgess scoring Don Hoak gave Cincinnati's Redlegs a 2-1 victory over Pittsburgh Wednesday night, for a sweep of their series-of-two.

Bob Skinner hit his 13th homer of the year in the eighth for the Bucs.

Pittsburgh 000 000 010—1 7 0
Cincinnati 000 000 101—2 7 0
Smith and Peterson; Lawrence and Bailey.
Home run — Pittsburgh, Skinner.

TURNER IN CLOSE WIN

ATLANTIC CITY, N. J. (AP) — Hustling Gil Turner of Philadelphia kept on top of favored Virgil Atkins Wednesday night to gain a close 10-round decision over the St. Louis veteran.

Referee Jay Mangold, the only official, awarded Turner the verdict by a 5-4-1 score on rounds. The 26-year-old Philadelphiaan, an 8-5 underdog to his higher ranking welterweight rival, won the last round to earn the verdict.

Turner weighed 151, Atkins 149 1/2.

New York City Explores Aid Plan To Keep Bums Injury Hurts Cyclone Line

NEW YORK (AP) — New York City's Board of Estimate explored for two hours Wednesday Nelson A. Rockefeller's latest proposal to keep the Dodgers in Brooklyn, then adjourned without announcing any decision.

Walter O'Malley, Dodgers' president, had agreed to defer his decision on whether to move the club to Los Angeles until the board had time to consider the proposal presented to him and Mayor Robert Wagner at a morning conference.

Wagner said nothing was settled Wednesday and also declined to disclose the contents of Rockefeller's latest proposal.

"We are going to discuss the question further tomorrow," the mayor said.

Today's decision, if one is made, may have a bearing on whether the Dodgers stay in Brooklyn or move to the West Coast city. It will take 9 of the 16 votes on the board to approve Rockefeller's plan.

O'Malley declined to say whether he thought Rockefeller's proposal was a better one than that offered by Los Angeles but the fact that he agreed to defer his decision until the Board of Estimate had a chance to vote on it gave indication that he still was of an open mind.

Rockefeller has indicated he would lend financial aid to O'Malley in the building of a stadium in the Flatbush and Atlantic Ave., area desired by the Dodgers if the city would approve condemnation of the land.

Last Monday, the Los Angeles City Council, in an 11-4 vote, agreed to make available to the Dodgers 300 acres in Chavez Ravine. In exchange, the Dodgers would give the city Wrigley Field, which O'Malley acquired when he bought the franchise of the Los Angeles Pacific Coast League club early this year.

Injury Hurts Cyclone Line

AMES (AP) — Coach Jim Myers of the Iowa State football team came out even on his injury problems Wednesday.

He lost one player temporarily when Bob Bird, regular left guard, suffered a facial cut under the eye during the day's workout. But Prentiss Lamont, reserve fullback who had been out with a knee injury since the start of practice, was back in uniform.

The extent of Bird's injury and whether he will be able to play in the opener against Denver here Saturday, will not be determined until he is given further examination Thursday.

Tackle Don Metcalf, one of the first string linemen, will shed the east on his injured arm Thursday but is not expected to be ready by the weekend.

Johnston Wins In Trans-Mississippi

LAS VEGAS (AP) — Mrs. Ann Casey Johnstone of Mason City, Ia., breezed through the first round of the Trans-Mississippi Golf Tournament Wednesday with an 8 and 7 victory over Margaret Muench, of Rancho Santa Fe, Calif.

Eighteen-year-old Joanne Gunderson of Kirkland, Wash., winner of the Women's National Amateur last month, was bumped out of the Trans-Mississippi by Barbara Williams, Richmond, Calif., 3 and 2.

Mrs. Johnstone was runnerup to Miss Gunderson in the National.

Sports Trail

By WHITNEY MARTIN

Berra's 2 Homers Edge Tigers, 4-3

Maglie Wins For Yankees; Sox Triumph

NEW YORK (AP)—Every fall you read that some college football coach, hearing that a man assigned to scout his team had been caught in a snowdrift or missed train connections and failed to make the game, has sent a complete report of his team's plays to the rival school.

It's all done very quietly, of course. Nobody is told about the bean geste except the reporters and a few other disinterested parties, who are warned not to mention it, at least without using the coach's name.

Anyway, we never thought such kindly consideration would be observed in the prize fight business, yet here we have

BASILIO

Basilio was the first to diagram his plays. In a magazine Sports Illustrated article, complete with sketches, he explained just what tactics he was going to use against his heavier rival.

Now Robinson, not to be outdone from the sportsmanship standpoint, in a publicity release explains his own formations and when he is liable to use certain plays.

It's strictly psychological warfare, with the idea that if a fighter starts to think, and to try to remember what the other fellow said he was going to do, he would become properly confused, particularly if he took a right to the chin when the blueprint called for a left hook to the body.

You know Basilio isn't going to stand off and try to box the taller, longer armed and more clever Robinson, so when he says he's going to crowd in and hook to the ribs he isn't disclosing anything Robinson doesn't already know.

And when Robinson says he is going to take advantage of his longer reach and keep Basilio at bay with a left jab, or catch him coming in with uppercuts, he also is picturing the obvious.

We think Rocky Marciano would have been pretty safe in giving a scouting report on himself to an opponent. It would have been a simple report, but it would cover everything. Rocky would just have to say: "I plan to come out swinging right, left, right, left until something drops."

It's all a little silly, this outlining of battle plans. After all, the two fighters know each other's general style, and there are only so many moves, in boxing.

Torpid Favored For Little Brown Jug But Filly Feared

DELAWARE, Ohio (AP)—No filly has ever won the Little Brown Jug for 3-year-old pacers, but one of the fast-stepping ladies is getting a lot of attention in Thursday's 12th annual \$73,528.15 classic over Delaware Fairgrounds' half-mile oval.

Torpid, owned by Sherwood Farms of Irvington, N.J., and driven by Johnny Simpson who wants to add the "Jug" to his Hambletonian conquest, still ruled the odds-on favorite, however.

But Newport Judy, property of the Newport Farm of South Plainfield, N.J., and piloted by two-time Jug winner Del Cameron, was moving up in the public fancy. She won here Monday as the Grand Circuit opened, but the experts were pointing to earlier happenings to prove she has a chance.

At Vernon Downs, near Utica, N.Y., Newport Judy was clocked in 1:57 as she lost by a short nose to Good Counsel. Torpid has never gone that fast.

Torpid is expected to be a 1-9 favorite in the pari-mutuels by 3 p.m. race time, with Adios Express, owned by S. A. Camp of Shafter, Calif., and Newport Judy next in line among the favorites.

SUN FIELD

BALTIMORE (AP)—They call baseball games because of sunshine in suburban Glen Burnie and it's getting worse every day.

The baseball field is so laid out that after midsummer the setting sun shines directly into the faces of the batter, the catcher and even the umpire.

NEW YORK (AP)—Two home runs by Yogi Berra and fine relief pitching by Bob Turley carried the New York Yankees a bit closer to another American League pennant Wednesday as they defeated the Detroit Tigers 4-3.

Berra's homers drove in all the Yankee runs. All were off Duke Maas, first of three Detroit pitchers. His first homer came in the third inning with Gil McDougald and Mickey Mantle on the bases after a walk and a single. The second was a lead-off homer in the sixth.

Turley relieved Sal Maglie, who was credited with his second American League victory, after Charlie Maxwell had hit his 24th homer and Frank House had walked with one out in the eighth.

The Yankee fireballer then proceeded to strike out pinch hitters Bill Taylor and Dave Philley on six swinging strikes and carried over into the ninth, where he also fanned Bill Tuttle on three pitches. He then walked Reno Bertoia but Ray Boone hit into a double play.

The Tigers jumped out in front with a run in the second on singles by Al Kaline, Harvey Kuenn and House.

Detroit: ... 010 100 010-3 10 1 New York: ... 002 003 004-4 0 2 Maas: 5 (6); Byrd (8) and House: Wilson (8); Maglie, Turley (8) and Berra.

W—Maglie, L—Maas; Home runs—New York, Berra (2), Detroit, Maxwell.

Sox 7, Orioles 5

BALTIMORE (AP)—The Chicago White Sox held off the pesky Baltimore Orioles for a 7-5 victory Wednesday night, maintaining their feeble mathematical chance for first place in the American League.

The Sox had to scrap to protect a six-run lead from the fifth inning on to stay within 9½ games of the league-leading New York Yankees. The Sox have 11 games to play and the Yanks, 1-3 victors over Detroit, Wednesday afternoon, have 8.

Although the White Sox jumped off to a two-run lead in the first inning and ran across five more in the fifth, they helped the Orioles stay within striking distance with a faulty defense.

The Orioles scored three unearned runs out of five to trail by only 7-5 through seven innings. Jim Wilson picked up the win for the White Sox although he needed help from Gerry Staley in the seventh.

Chicago: ... 200 050 000-7 9 3 Baltimore: ... 000 111 200-5 6 1 Wilson: 5 (7); and Batters: Ferrarese, Walker (6); Moore (8) Zverker (9) and Zupo.

W—Wilson, L—Ferrarese; Home runs—Chicago, Jackson, Baltimore, Green.

A's 2, Red Sox 1

BOSTON (AP)—Kansas City edged Boston 2-1 Wednesday behind the seven-hit pitching of Tom Gorman. Jimmy Piersall's homer on Gorman's first pitch accounted for the only Boston run.

Kansas City: ... 000 200 000-2 9 0 Boston: ... 100 000 000-1 7 0 Gorman and Smith; Sullivan, Sister (9) and Daley, White (9).

W—Sullivan, L—Ferrarese; Home runs—Boston, Piersall.

Tribe 8, Nats 3

WASHINGTON (AP)—Mike Garcia won his 6th straight game and his 12th of the season Wednesday as Cleveland defeated Washington, 8-3. Billy Harrell, who batted across three runs with a double in a five run fifth inning uprising led Cleveland's 14-hit attack with 3 hits.

Cleveland: ... 100 050 020-8 14 1 Washington: ... 011 100 000-3 10 1 Garcia and Brown; Kemmerer, Ramos 5, Hyde 7, Wiesler 9 and Courtney.

L—Kemmerer.

CHAMP INJURED

MACOMB, Ill. (AP)—Glenn Wilson, 1937 NCAA trampoline champion, suffered a broken nose Tuesday when he was knocked from the netted frame to the floor while helping instruct a pupil at Western Illinois University.

He won the tumbling maneuvers title at the Naval Academy in Annapolis this spring.

Wilson, a senior at Western Illinois, is from Fort Madison, Ia.

PENNANT PROTECTION - By Alan Maver

SAL MAGLIE, IN THE AMERICAN LEAGUE AGAIN— THIS TIME WITH THE NEW YORK YANKEES.

THE TIMING OF HIS SALE BY BROOKLYN PROHIBITS SAL FROM BECOMING FIRST TO PITCH WORLD SERIES BALL FOR ALL 3 NEW YORK TEAMS. (HE'S 17TH TO WEAR ALL 3 UNIFORMS). BUT THE YANKS WON'T MIND THE EXPENSE IF HE HELPS GET THEM INTO THE SERIES, AND GIVES THEM HIS BOOK ON MILWAUKEE.

Distributed by King Features Syndicate

Moore-Anthony Even Money for Title Bout

LOS ANGELES (AP)—Champion Archie Moore and challenger Tony Anthony were even money choices Wednesday for their world light heavyweight title fight Friday night, and many experts predict a knock-out well before the 15-round limit.

As Moore, the fortyish king of the 175-pounders and his 22-year-old rival from New York indulged in light loosening drills in the gym, the fight mob freely forecast a comparatively early end to the nationally televised affair at the Olympic Auditorium.

Declared Jack Kearns, a "member of the board of directors" which seems to counsel the champion to some degree anyway: "Knockout? Sure. They're both good punchers and any time two good punchers get in there one of 'em is gonna get carried out."

"With everyone talking about bringing the Bums from Brooklyn out here, who cares? We got two good bums here already."

"Neither fighter is a stranger to the deck of a ring. Archie went for the count in his two attempts to win the heavyweight title, against Rocky Marciano in 1955 and last November against Floyd Patterson.

Anthony has been stopped four times, the last against Bobby Boyd in August 1955.

However, Anthony was a middleweight in those days and is unbeaten in his eight fights as a light heavyweight.

Sugar Ray Appears In Excellent Shape For Basilio Fight

GREENWOOD LAKE, N.Y. (AP)—Sugar Ray Robinson is fit to go 15 rounds without tiring and may be punching harder than ever says Dr. Alexander Schiff of the New York State Athletic Commission.

Dr. Schiff gave the middleweight champ the regular pre-fight physical Wednesday at his training quarters and found him in the usual "excellent" condition.

"I have examined Robinson several times in the past," said Dr. Schiff. "But it seems to me that the muscles surrounding his shoulder area have increased in size."

"Before the first fight with Gene Fullmer last January, those muscles seemed flat. Now they seem to be bulging. They should give him better or stronger punching power."

Robinson refused to make any outright prediction about his Sept. 23 title defense against Carmen Basilio, the welter champ. "I'm confident that I am ready to go the distance," he added.

Two-A-Day Drills End For Hawks

The Iowa Hawkeyes ended their two-a-day practice sessions Wednesday as head coach Forest Evashevski sent the defending champs through long defensive and offensive drills.

The first team, under quarterback Randy Duncan, worked mainly on defense against Utah State plays, while the second team, with Gene Veit at quarterback, worked mostly on offense against a different group of reserves.

The Hawkeyes will practice in the afternoon only from now until their opening game Sept. 28 against Utah State.

Evashevski made no changes in his first team lineup Wednesday which had captain Jim Gibbons and Don Norton at ends; Alex Karras and Dick Klein, tackles; Frank Bloomquist and Bob Cummings, guards; Bill Lapham, center; Bill Gravel and Mike Hagler, halfbacks; and John Nocera, fullback.

Pick Sooners Over 8th Ranked Pitt

By WILL GRIMSLEY

NEW YORK (AP)—Imagine walking down a dark alley on a moonless night. Underneath are loose cobblestones and fresh banana peels. Sinister characters with blackjacks lurk in every doorway.

That's the sensation we get in stepping into the first week of college football expertise, armed with little more than tea leaves and a prayer. Excuse the bumps, please.

Oklahoma 20, Pittsburgh 7: The Sooners, with expert coaching and topflight material, win No. 41 straight and take a big step toward their second national championship in a row. Pitt ranked 8th nationally, is strong defensively.

Texas A&M 28, Maryland 7: This is the team that, except for sanctions, would have been in the Cotton Bowl. Plenty of team speed.

Navy 21, Boston College 0: Keep your eye on a 165-pound Navy full-

back named Dick Dagampat, tough on both offense and defense.

Georgia Tech 14, Kentucky 7: It's hard to pick against Coach Bobby Dodd when he knows he has a fight on his hands, and he knows.

Southern Methodist 13, California 7: The debut of two new coaches and California is favored in most quarters. We pick Bill Meek over Pete Elliott, in this one, figuring the Bears will be slower starters.

Rice 20, Louisiana State 14: This is the situation in which L.S.U. often pulls upsets, but Rice has too much depth.

Texas 19, Georgia 7: Darrell Royal brings a little of Oklahoma's hit-em-fast technique to the Longhorns.

Vanderbilt 20, Missouri 6: Boyce Smith's expert passing and Coach Art Guepe's multiple offenses are the decisive factors.

Oregon State 13, Southern California 12: The Trojans' new coach, Don Clark, hasn't had time to get organized: OSC is champ until defeated.

The others: South—Duke 14, South Carolina 0; North Carolina 21, N. C. State 7; Tulane 13, Va. Tech 12; West Virginia 19, Virginia 6.

Midwest—Texas Christian 21, Kansas 7; Cincinnati 14, Dayton 13; Detroit 19, Marquette 14; Wyoming 13, Kansas State 0.

Southwest—Arkansas 18, Oklahoma State 7; Baylor 21, Villanova 6; Tulsa 14, Hardin-Simmons 0.

Far West—Stanford 35, San Jose State 12; Nebraska 19, Washington State 14; Oregon 14, Idaho 0; Washington 20, Colorado University 14; Iowa State 21, Denver 0; Arizona 14, Brigham Young 0.

BIRDIE STRING

RICHMOND, Va. (AP)—Dick Mullein, assistant pro at Richmond's Hermitage Country Club, has golf circles buzzing. He set no record for the course, but he made seven consecutive birdies from the second through the eighth holes for a 30 on the first nine. He had pars on the first and ninth. His 67 for the 18, however, was four strokes over the 63 record set by Bobby Cruickshank.

Blame Flu For 19 Deaths In England

LONDON (AP) — Asian flu was blamed Wednesday for the deaths of 15 adults and 4 children in the Midlands and northern England. Hundreds of thousands of Britons were stricken in the spreading epidemic and confined to bed. Some industries were crippled by absence of manpower, schools were closed and hospitals were sorely over-burdened. No total casualty figures were compiled by health authorities but towns and cities in the affected areas reported influenza victims running into tens of thousands at different places. Schools that stayed open were operating with from 20 to 50 per cent absent.

Dr. C. H. Shaw, deputy medical officer in the steel town of Sheffield, said he attributed 14 recent deaths there to epidemic. "There is little doubt," he said, "that some of the cases started with flu and turned to pneumonia." More than 15,000 pupils were absent from Sheffield schools. Frank Harris, a 28-year-old bus driver at Wednesbury in Staffordshire, died Tuesday night in the arms of the girl he was to have married later this week. Doctors told his family he was suffering from Asian flu.

In nearby West Bromwich, three children died after contracting the disease. A fourth child died at Gateshead in the north of England. Health Ministry officials in London insisted there is no general epidemic in the country.

"Asian flu is much milder than the ordinary type," a spokesman said. "This outbreak has reached epidemic proportions only in certain areas, not sufficient to warrant wholesale use of anti-flu vaccine." The Government was reported to feel little anxiety about the outbreak after receiving medical advice that Asian flu leaves no ill-effects and usually can be cured by a two-day rest in bed.

The epidemic hit production at coal mines, factories and textile mills. Mails were threatened in some areas, and transport services cut in others.

Doctors and nurses have been given Government priority for shots of Britain's anti-flu vaccine. Until they all have been injected, the vaccine will not be available to the public generally.

Coralville Firemen Douse Flames

VOLUNTEER FIREMEN squirt water through the windows of a coal storage bunker of the Iowa-Illinois Gas and Electric Company's Coralville power plant Wednesday morning after spontaneous combustion started a fire that lasted for about 45 minutes. The Coralville volunteer fire department spent another two hours after that dousing scattered pockets of flame throughout the bunker. No estimate of the damage is available.

Iowa News Roundup

MISSING BOYS FOUND — Two four-year-old Cedar Rapids boys who had been missing for three hours, were rescued Wednesday afternoon when they were found adrift in a boat in the middle of the Cedar River here.

They are Brad Scott, son of Mr. and Mrs. Bernard Scott and Louis Brundage, son of Mr. and Mrs. Paul Brundage. The boys wandered away from home and were found by two unidentified Cedar Rapids men who took them to their parents.

The boys were unable to give any details of their venture but they apparently had discovered the boat along the shore of the river, climbed in and set it adrift.

SENTENCE SUSPENDED — MASON CITY — Norris Leegard, 30, of Albert Lea, Minn., was paroled on a one-year suspended sentence Wednesday for the theft of two ponies from the M. L. Lewis farm east of here Aug. 24.

Leegard and Virgil L. Cox, 34, of Mason City, were arrested on theft charge Aug. 26 after the ponies were sold at an auction at Eagle Grove. Authorities said Cox had a check for \$847 for the animals which the owner valued at \$5,000. Cox previously had been given a one-year suspended sentence.

RAILWAY WINS APPEAL — DES MOINES — The Iowa Commerce Commission has been directed by the Polk County District Court to allow the Chicago and Northwestern Railway Co. to substitute a caretaker for its station agent at Owasa, southeast of Iowa Falls.

In a ruling by Judge Tom K. Murrow on an appeal by the railroad, the court set aside the commission denial Jan. 30, 1956 of an application by the railroad to discontinue its agency service.

Judge Murrow declared there is only an occasional need for an agent at the Owasa station. He said the total time required by an agent to process freight shipments is less than one hour a week.

\$189,000 APPEAL DISMISSED — DES MOINES — Attorneys for F. B. Dickinson & Co., formerly of Des Moines, have dismissed their appeal of a \$189,432.79 judgment given the Government in a faulty wooden corn bin case.

U.S. Atty. Roy Stephenson said notice of the dismissal was received from the U.S. 8th Circuit Court of Appeals in St. Louis, Mo., Wednesday.

The Government's case grew out of a 1949 contract between the Commodity Credit Corporation and Dickinson & Co. for construction of 1,441 wooden bins of 3,220 bushels capacity, each, in 22 southern Iowa counties.

As a result of faulty construction, the Government contended, some of the stored corn was damaged and an expenditure of thousands of dollars was necessary to make the bins weather — and grain — tight.

Robert J. Spayde, assistant U.S. district attorney, said there is now a controversy over whether certain other creditors or the Government will get the remaining assets of the Dickinson firm, which was put into receivership.

IOWA LAWS VIOLATED? — AMES — The State Highway Commission has ordered its dis-

trict engineers to check the road-building procedures of county engineers and boards of supervisors.

In a letter to the state's 99 county engineers and boards, Commission Chairman Chris Larsen Jr., of Sioux City said the action was taken because of a report "that some of the counties in the construction of their secondary road work are doing acts that are not in conformance with Iowa law."

Iowa law permits counties to reject bids from private contractors and undertake the work itself if they can do so as cheaply without changing specifications, the commission said.

STRIKE AVERTED — BETTENDORF — Settlement of new contract differences was announced Wednesday by officials of Riverside Foundry and United Auto Workers Union.

Bargaining committees reached an agreement early Wednesday on a two-year contract and averted a strike at the foundry here. The union earlier had granted a 24-hour extension of the strike called for midnight Tuesday.

Union officials said the contract provides for a general wage increase of a fraction over 25 cents an hour. The contract also contains a pension plan and an escalator cost of living clause, they said.

Union membership will vote Friday on whether to accept the contract. The union's old contract with the company expired last Monday. Current wage scales in various classifications range from \$1.80 to \$2.42 an hour, the company said. The plant employs about 450 persons.

Whoops! Engineer Finds He Has A Loose Caboose

NEW ULM, Minn. (AP) — A Chicago and North Western freight train arrived here Tuesday night to find its conductor, who usually rides in the caboose, waiting on the station platform.

The conductor was left at the post, as the jockeys say, when the engineer took the train out of Sleepy Eye, Minn., after a stop there.

Left sitting in the caboose with several freight cars ahead of him, the conductor secured an automobile and drove at a fast clip 14 miles to New Ulm to meet his train.

The engineer was surprised to learn he had left the train's tail section in Sleepy Eye. The train was sidetracked and the engineer returned to Sleepy Eye to pick up the stranded cars and caboose.

The train crew, whose names were not obtained, believe pranksters uncoupled the cars. The freight is a local running between Tracy, Minn., and Waseca, Minn.

SUI Grad Student Awarded \$1,500 Ethyl Fellowship

Township P. Culbertson, of Oklahoma City, has been awarded the Ethyl Corporation graduate research fellowship at SUI for the 1957-1958 academic year, the company announced today.

The award is one of 19 fellowships that the company is providing at leading colleges and universities, marking its 21st consecutive year of such support of higher education. In addition, the company is offering undergraduate scholarships at five other institutions.

Total value of the grants is \$50,000. Culbertson will receive \$1,500 for living expenses plus an allowance for tuition and fees. In addition, the university department concerned receives \$500 for expenses in connection with the fellow's research work.

Culbertson received his B.S. in chemistry from the University of Oklahoma in 1951 and his M.S. in 1952. At SUI, he is studying for his Ph.D., expected next year, under Prof. Stanley Wawzonek.

Band Manager Reports \$900 Theft

— CEDAR RAPIDS (AP) — L. E. Thacker of Dallas, Tex., business manager of an orchestra, reported to police Wednesday that a thief entered his room at the Roosevelt Hotel here and stole a brief case containing \$900 belonging to orchestra members.

Not long after Duede had built the plane he hit a fence and smashed the propeller. He dismantled the craft and stored it in buildings on the farm where he did much of his flying.

Duede had sold the engine — a 3-cylinder Italian job. Weeks learned that much of the original work had been done in a Stuart machine shop, also fallen into disrepair. There he found the gas tank and throttle controls of the plane. In another tumbledown shed on the original farm, he found the steering wheel and landing gear.

Duede died last September. The plane he hit a fence and smashed the propeller. He dismantled the craft and stored it in buildings on the farm where he did much of his flying.

SUI's Linguist Expects Student Progress Test Increase

Some 12,000 more Iowa children than last year are now expected to take electronically scored tests measuring their educational skills and progress, Director E. F. Lindquist of the Iowa Testing Program at SUI said Wednesday.

With more than 100,000 students in 563 Iowa high schools now completing their annual Iowa Tests of Educational Development (ITED), an estimated 175,000 youngsters are being registered for the elementary schools' Iowa Tests of Basic Skills (ITBS), to be administered in January.

In 1956-57 some 99,000 Iowa students took the ITED and 165,000 the ITBS, the Iowa testing director reported.

School administrators have until Oct. 15 to sign up their pupils for the ITBS, said Professor A. N. Hieronymus, who directs the nationally used tests for grades three to nine.

Representing elementary schools of some 670 Iowa school systems, the 1957-58 test-takers will be scored on such basic skills as vocabulary, reading comprehension, capitalization and punctuation, arithmetic, map reading and use of reference books.

Answer sheets for both the Iowa Tests of Basic Skills and the Iowa Tests of Educational Development

are returned to the University, where they are scored electronically at the rate of about 5,000 per hour on special equipment designed by Professor Lindquist. Several years in the development, the machines outperform at least 500 red-pencil welders in speed and accuracy.

Each pupil's results are then reported back to his school, to enable teachers and parents to become more reliably acquainted with each youngster's progress.

The September tests for high school students, the ITED, contain 700 items in a battery of nine tests: (1) basic social concepts, (2) natural sciences, (3) correctness and appropriateness of expression, (4) mathematical thinking, (5), (6) and (7) interpretation of readings in natural sciences, social studies and literature, (8) vocabulary and (9) information sources.

Starting last year, Iowa "norms" or averages have been studied in comparison with national "norms" in both the ITBS and the ITED, which are also widely used in school systems of other states. The studies indicate that Iowa students are more than "holding their own" with pupils in the rest of the nation, Dr. Lindquist said.

In its nest on the ground floor of East Hall the "electronic brain" device is expected to score more than one million answer sheets from all over the nation during the current school year. For instance, at least a half million high school students take Iowa Tests of Educational Development in states outside Iowa, and another half million non-Iowans take Iowa Tests of Basic Skills.

The equipment also scores and computes on the SUI campus answer sheets for Minnesota, Illinois and Ohio state testing programs and for the national Educational Testing Service located at Princeton, N. J.

Oldest Iowa-Built Airplane Becomes Public Property

DES MOINES (AP) — The skeleton of an ancient airplane, built by a pioneer Iowa flier in 1915, became public property this week.

The fuselage, landing gear, controls and wing struts of the air-age relic were turned over to the State Department of History and Archives here by Mrs. Carl Duede of Stuart and Evert Weeks of Des Moines, the collector who found the plane under some collapsed farm sheds near Stuart.

Built by Carl Duede, one of the nation's earliest pilots, the plane was termed by Weeks as the "oldest remaining, original, Iowa-built aircraft."

An ardent collector and student of antique aircraft, Weeks learned of the Duede plane last fall when a Des Moines car collector told him that "I think there are some parts of an old airplane in a barn near Stuart."

Mrs. Duede knew of the dismantled plane but had not seen it for many years. Weeks corresponded and visited with her, and last May he went to Stuart and rummaged through a shed with a collapsed roof. In the wreckage he found Iowa's oldest airplane.

Not long after Duede had built the plane he hit a fence and smashed the propeller. He dismantled the craft and stored it in buildings on the farm where he did much of his flying.

Duede had sold the engine — a 3-cylinder Italian job. Weeks learned that much of the original work had been done in a Stuart machine shop, also fallen into disrepair. There he found the gas tank and throttle controls of the plane. In another tumbledown shed on the original farm, he found the steering wheel and landing gear.

Duede died last September. The plane he hit a fence and smashed the propeller. He dismantled the craft and stored it in buildings on the farm where he did much of his flying.

Up In The Air DONALD L. PICCARD, 31-year-old Swarthmore balloonist — son of one of the famed twin brothers, Jean Piccard, first explorers of the stratosphere, soars aloft from Valley Forge airport near Norristown, Pa., in an experimental flight using twelve balloons. The bags, open at the bottom with a line running up through the inside to the top of the balloon, were filled with ordinary illuminating gas. Piccard, who landed near Lancaster, 30 miles away, said he could deflate the plastic bags by virtually pulling each bag inside out.

Iowa City Newsnotes LOCAL GAS RATES

Commenting on the ruling of the Iowa Supreme Court released Tuesday, Charles H. Whitmore, president of the Iowa-Illinois Gas and Electric Company said the ruling in all probability will permit resolving without further litigation the company's request for rate increases still pending in Iowa City.

"This ruling," Whitmore said, "is not only extremely gratifying, but most essential to the maintenance and future development of utility facilities in keeping with the service requirements and desires of the people and industry of Iowa."

MED-TECH EXAMS

The Board of U.S. Civil Service Examiners, Veterans Administration Hospital, Iowa City, Ia., announces Civil Service examination for the position of Medical Laboratory Technician, GS-2 to 6, \$2,960 to \$4,080 per annum.

Applicants should file S. F. 57, Application for Federal Employment, and Civil Service Commission form 5001 ABC with the Board of U.S. Civil Service Examiners, Veterans Administration Hospital.

Applications received prior to or postmarked prior to October 2, 1957 will be rated as of that date. Applications received thereafter will be rated and certified as the needs of the service require. Information regarding qualifications and availability of forms may be secured from any post office.

LAW GROUP MEETINGS

The Johnson County Bar Association is planning a series of joint meetings with other business and professional groups in Iowa City and Johnson County.

The purpose is to allow the members to become better acquainted with the members of the other groups and to discuss common problems.

The first of such meetings was held at the Mayflower Inn Wednesday night with the Johnson County Bankers Association of which Thomas J. O'Brien of the First National Bank in Iowa City is president.

Welcome back Episcopal students!
You are invited to the annual STUDENT-FACULTY DINNER
Time: Sunday, September 22nd, 5:30 p.m.
Place: Trinity Episcopal Church, 320 E. College St.
Speaker: The Rt. Rev. Gordon V. Smith, Bishop of the Diocese of Iowa.
For reservations, Call 3333.

ONLY ONE

Yes, only one medium completely Covers the University Market . . . and that medium is The Daily Iowan

When you want to sell merchandise, you have to tell your prospective customers about it. And when your prospective customers are University students, the one sure way to tell All of them about it is to advertise in their own newspaper, The Daily Iowan. If you want the extra business the student market can give you, Call 4191 and take advantage of the services The Daily Iowan offers you.
