Roscoe Drummond—

U.S. Must Face Red Threat By Boosting Science, Research

By KAY WILCOX
Daily Iowan Staff Writer

The challenge to the United States today is to keep ahead of Russia in the arms race and to develop her scientific research and training in the classroom, Roscoe Drummond, New York Herald Tribune Bureau chief told an SUI audience Tuesday night.

"The two Sputniks represent the Pearl Harbor of the technological war," he said. The U.S. is faced with the realization that she is "fighting a challenge for survival," Drummond said.

The "smug complacency" in feeling we had nothing to fear from anyone, and society's inadequate

appreciation of the role of the scientists explains why we have fallen behind Russia in technological developments, Drummond said.

President Eisenhower reassured the American people that there was no immediate threat of war, but he underestimated the real danger, Drummond said.

"The danger is not that we will fall behind Russia, but that we may not catch up," he explained.

A shift in the balance of power to Russia might mean that the United States could lose their power to guarantee protection to her allies, and eventually lose the Cold War, he said.

Past indications in Washington seemed to be that nothing really changed, Drummond said. Recent developments, however, seem to show that the United States is moving in the right direction, he added.

There is a new mood in the White House. The President is taking personal charge and is keeping in touch with technological develop-

Roscoe Drummond
"We Face Challenge"

ments. There is an attitude of urgency which did not exist before, Drummond said.

The move toward bi-partisan cooperation in defense and foreign policy and the awareness in our NATO allies point out the efforts of the government to meet the Russian challenge, he said.

Our allies are now indispensable as bases for missile launchings in case of open aggression in Western Europe, Drummond said.

In the realm of national politics, Drummond forecasted the Democrats would increase their control of both the House and the Senate.

"The Administration will not have an easy time with Congress," Drummond said.

"We are in the period when it is impossible for the Democrats to elect a president, and the Republicans to gain control of Congress," Drummond said.

Increased defense spending and the budget-booster are going to put a strain on the Republican party, Drummond said. Opposition to more spending will come from both parties, Drummond concluded.

Dedication Thursday for New Center

Iowans will have an opportunity to learn about some of the medical research under way in their state during the dedication of the new Medical Research Center at SUI Thursday through Saturday.

The public is invited to attend an open house on Saturday from 9 a.m. to noon. On Thursday afternoon and evening, legislators, members of the Iowa Board of Regents, other state and federal officials and representatives of various health organizations will inspect the new building and be guests at a program.

SPUTNIK II HERE
WASHINGTON (AP) — The Naval Laboratory reported that Sputnik II passed over Iowa City at 2:21 a.m. today, moving from southwest to northeast. It will pass over Iowa again late this morning, crossing west of Iowa City at 11:18 a.m., moving from northwest to southeast.

TITO BETTER AGAIN
BELGRADE (AP) — President Tito has been given successful medical treatment for acute lumbago and his condition is improving, the official news agency Tanjug said Tuesday night.

Fruit Mart Robbed
A break-in Monday night at a fruit market on Highway 6 west of Iowa City is being investigated by the Johnson County sheriff's office.

George Anderson, owner of the Coral Fruit Market, said a combination shotgun-rifle and \$25 in cash were taken. Entry was made by forcing a back door in the building. The break-in was discovered at 8:30 a.m. Tuesday.

But when Gaillard went before the deputies with an appeal for support of the diplomatic authority of France, he was applauded — and this is rare — from all sections of the Assembly, the right, left and center.

He voiced irritation over the American and British action in sending arms to Tunisia. Most Frenchmen feel these arms will be turned against them by Algerian rebels.

President Virgil M. Hancher, Katherine LaSheck, sister of the late Dean Adelaide Burge for whom the new building is named, and five student representatives will each place a trowel of mortar before the stone is lowered into place.

President Hancher and Harry H. Hagemann, Waverly, president of the State Board of Regents, will speak briefly.

About 40 per cent of the work on the \$5,450,000 structure has now been completed. All of the structural framework is up and portions of the exterior are finished, George Horner, superintendent of planning and construction at SUI and associated architect for Burge Hall, reports.

SUI faculty and student representatives, members of the State Board of Regents, relatives of the late Dean Burge, Iowa City officials and other friends of SUI have been invited to attend the ceremony and a tea to follow in Currier Hall.

No federal or state funds are involved in building Burge Hall. The entire cost of the building and furnishings will come from earnings of the dormitory system.

LONDON (AP) — Princess Margaret Tuesday was presented with a \$42,000 diamond brooch as a gift from Dr. J. T. Williamson, owner of a diamond mine in Tanganyika which she visited last year.

The brooch was given to her by the colonial secretary, Alan Lennox-Boyd. He brought it with him when he returned from an East Africa visit.

LONDON (AP) — Soviet arctic explorers have discovered an active underwater volcano near the North Pole, the Moscow radio said Tuesday night.

Prof. Yakov Gakkel told a meeting in Leningrad of the discovery during studies of the underwater Lomonosov Mountain range, the radio said.

Prof. Yakov Gakkel told a meeting in Leningrad of the discovery during studies of the underwater Lomonosov Mountain range, the radio said.

U.S. Speeds Missiles For NATO Allies As Attempts To Heal Arms Rift Fail

Dulles, Pineau Still Look for Tunisia Accord

Premier Gets Confidence As Hurt French Unite

WASHINGTON (AP) — The United States and France agreed Tuesday night to try to work out a common policy with Britain and Tunisia governing future deliveries of arms to Tunisia.

Secretary of State Dulles and French Foreign Minister Christian Pineau failed to resolve the angry dispute, which has split the Atlantic Alliance, in a three-hour meeting at the State Department.

But Pineau said they had decided "to seek a procedure" which would avoid the danger of guns and ammunition delivered to Tunisia falling into the hands of rebels fighting the French in neighboring Algeria.

A State Department spokesman then reported that the United States within the next few days will be in touch with Britain, France and Tunisia to "work out an approach as to arms deliveries in the future."

The United States and Britain sent Tunisian President Habib Bourguiba 920 guns and more than 50,000 rounds of ammunition last week in the face of strong French protests. Diplomatic informants said that no further shipments are planned immediately.

Pineau told Dulles that "the U.S.-British move had created a 'great emotional reaction' in French public opinion and in Parliament.

The French National Assembly rallied by the nation's hurt pride over U.S.-British arms shipments to Tunisia, gave Premier Felix Gaillard a resounding vote of confidence Tuesday night.

The vote was 256-182. It gave the austerity-minded young leader special powers to lay down the economic law as he sees fit. It means higher taxes for Frenchmen.

The vote was taken as civil servants, perhaps a million strong, went on strike and shouted in the streets for higher wages.

In normal times, the economic issue might well have meant the ouster of Gaillard and his two-week old government.

But when Gaillard went before the deputies with an appeal for support of the diplomatic authority of France, he was applauded — and this is rare — from all sections of the Assembly, the right, left and center.

He voiced irritation over the American and British action in sending arms to Tunisia. Most Frenchmen feel these arms will be turned against them by Algerian rebels.

Break in East-West Negotiations Seen; No Solution Reached in U.N. Arms Talk

UNITED NATIONS, N.Y. (AP) — The United Nations late Tuesday added 14 nations to its Disarmament Commission in what appeared to be a futile move to head off a breakdown in East-West negotiations.

The action took place in the 82-nation General Assembly, which also rejected terms laid down by the Soviet Union for its future participation in U.N. Disarmament negotiations.

By a vote of 19 in favor and 33 against the Assembly turned down an Albanian proposal to enlarge the commission to 32 nations. The Soviet Union declared that only on this basis would it consider taking part in additional meetings of the commission.

Then the Assembly voted 46 against and only 9 in favor of the Soviet proposal to make an

82-nation "little Assembly" out of the Disarmament Commission.

The Soviet Union insisted that the Assembly vote on the 82-nation commission when the Albanian move failed.

Twenty-four nations abstained, including members of the Asian-Arab bloc.

In the final vote of the day the Assembly approved by a vote of 60-9 the proposal to add 14 nations to the commission, making it a 26-nation body. This was advanced by the West in the hope it would satisfy the Soviet demand for an enlarged commission. The only no votes came from the Soviet bloc.

After the vote U.S. Ambassador Henry Cabot Lodge issued this statement: "By the overwhelming vote of 60 to 9 the Assembly has emphatic-

ally proclaimed to the world—and to the Soviet Union—that it wants disarmament talks to continue. The Soviet Union cannot successfully disregard this massive expression of world opinion."

Lodge and other Western speakers made it clear that as far as they would go in attempts to persuade the Soviet Union from boycotting future U.N. disarmament negotiations.

But Soviet Dep. Foreign Minister Vasily V. Kuznetsov declared that unless the Assembly added all 21 additional countries the Soviet Union would refuse to take part in any more meetings of the commission, set up by the U.N. in 1952.

The Soviet plan would give the commission 16 Western and 16 Communist or "uncommitted" countries.

McElroy Sees NATO-IRBM By 1959

Ike, Dulles To Propose A-Stockpile in Paris

AUGUSTA, Ga. (AP) — Secretary of Defense McElroy said Tuesday he is "extremely hopeful" the United States will meet on schedule a commitment to start delivering 1,500-mile range missiles to Britain by 1959.

The Cabinet officer also told a news conference after a two-hour meeting with President Eisenhower that supplies of such intermediate (IRBM) missiles will be going to other North Atlantic Treaty nations — all within 1,500 miles of European Russia — earlier than had been expected.

McElroy did not say how much earlier.

He did not specify, either, just how early in 1959 the United States expects to start turning over intermediate missiles to the British. Indications in Washington were it will be quite early that year.

Secretary of State Dulles told a news conference that 1,500-mile missiles will be available in operational quantities by the end of 1958.

Dulles unfolded an American plan for strengthening the Atlantic Alliance by creating a European network of rocket bases with a stockpile of atomic warheads.

This concept emerged as a key proposal which he and President Eisenhower will lay before the Dec. 16 meeting at Paris of the North Atlantic Treaty heads of government.

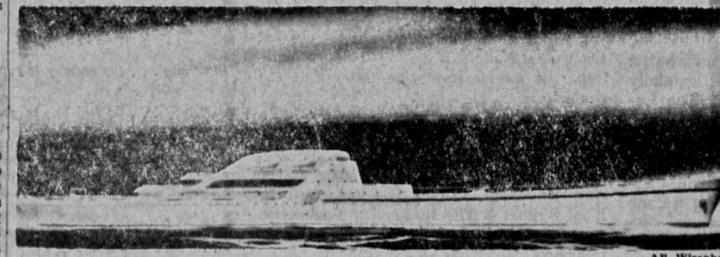

Dulles told his news conference he and Mr. Eisenhower would try at Paris also to reinforce the Allies' confidence that America would fight if necessary but only if necessary.

The secretary said America's NATO commitment to treat any attack on one NATO member as an attack on all "is as strong as it could be made."

But he said the Allies are concerned on two counts — that America might be trigger-happy or, conversely, might fail to retaliate against any Soviet attack in Europe not directly involving U.S. troops there.

He ruled out giving any veto to Allied nations on U.S. policy, but he said a way must be found to convince them America would use nuclear weapons if necessary but would not misuse them.

In discussing his rocket-atomic bases proposal, Dulles said prototype arrangements of this kind are already being made with Britain and Canada. He said a similar series of intermediate-range missile bases with nearby nuclear-warhead stockpiles, could be worked out with European countries.

AP Wirephoto

U.S. Atomic Fleet

ANOTHER MOVE TO CLOSE the scientific gap between the U.S. and Russia was made when the Maritime Administration and the Atomic Energy Commission jointly announced Tuesday that a contract had been let for the construction of a nuclear-powered U.S. merchant ship, the U.S. Savannah, shown above in an artist's conception. It will be 587 feet long, with a beam of 78 feet. The nuclear power plant will be similar to those used in U.S. atomic submarines.

Burge Hall Dedication By Hancher, Guest Today

A massive cornerstone containing a "time capsule" of articles reflecting contemporary life at SUI will be lowered into place during ceremonies at Burge Hall this afternoon at 3:30 p.m. The new women's residence hall will provide housing for 1,289 women when ready for occupancy next fall.

President Virgil M. Hancher, Katherine LaSheck, sister of the late Dean Adelaide Burge for whom the new building is named, and five student representatives will each place a trowel of mortar before the stone is lowered into place.

President Hancher and Harry H. Hagemann, Waverly, president of the State Board of Regents, will speak briefly.

About 40 per cent of the work on the \$5,450,000 structure has now been completed. All of the structural framework is up and portions of the exterior are finished, George Horner, superintendent of planning and construction at SUI and associated architect for Burge Hall, reports.

SUI faculty and student representatives, members of the State Board of Regents, relatives of the late Dean Burge, Iowa City officials and other friends of SUI have been invited to attend the ceremony and a tea to follow in Currier Hall.

No federal or state funds are involved in building Burge Hall. The entire cost of the building and furnishings will come from earnings of the dormitory system.

Buses For Students And Faculty Only

The services of the experimental shuttle bus which begins operation today at 7:23 a.m. will not be available to students' wives or staff and faculty wives, Leonard R. Brcka said Tuesday.

Brcka, who is head of a subcommittee of the University Parking Committee, said use is being restricted to students in order not to deprive commercial bus services of revenue.

The shuttle bus service is intended to help ease the parking situation at SUI by providing a means for students to get between the University's east and west campuses.

Richard L. Holcomb, associate professor and chief of political science in the Institute of Public Affairs, made a study of traffic between the two SUI campuses this fall. Holcomb reported to the University Parking Committee that both cars and pedestrian traffic might be reduced considerably by the shuttle bus service.

Brcka and his subcommittee first developed the idea of a shuttle bus as an experimental aid to the University community. Brcka said it appears that there is a definite need for the bus service.

The buses, which are marked "Campus Shuttle Bus" on front, will run on an experimental basis until Christmas vacation (Dec. 20) except they will not be operative during SUI's Thanksgiving vacation period.

Bus fare will be five cents and students and staff must present their identification cards when they board. Buses will leave their starting points at 7:23, 7:50, 8:05, and so on throughout the day until 1:23 p.m. when they will begin their last round.

Anniversary Conference Set for Welfare Station

The SUI Child Welfare Research Station, oldest of its kind, will celebrate its 40th anniversary Friday in a commemorative one-day conference that will include the presence of two of the station's former directors, other distinguished leaders and alumni.

To be held in Shambaugh Auditorium, the conference, entitled "Facets of Child Development," will feature addresses given by former directors Dr. Robert R. Sears and Dr. George D. Stoddard.

Dr. Sears will speak on "Personality Research: The Next Forty Years." After leaving the SUI station, Dr. Sears became director of Harvard University's Laboratory of Human Development and is now head of Stanford University's Department of Psychology.

Climaxing the conference will be Dr. Stoddard's talk on "The Long Step From Research To Practice" at the conference dinner at 7 p.m. in the Iowa Memorial Union.

Dr. Stoddard is a former president of the University of Illinois and currently dean of New York University's School of Education.

Presiding throughout the ceremonial conference following registration at 9:41 a.m. will be Boyd R. McCandless, present director of the SUI research station.

Other speakers will be SUI alumnus Sidney Bijou, head of the University of Washington Institute of Child Development; Orville G. Brim, Jr., director of the Russell Sage Foundation project for social science and parent education; and Dorothea McCarthy, Fordham University specialist in children's language development.

Reservations for the public, which is open to the conference, can be made until 5 p.m. Thursday. Invitations have been sent to all alumni and representative persons in child development.

SHUTTLE BUSES EASTBOUND

LEAVE northeast corner of Fieldhouse at 7:23 a.m., 7:35, 7:50 and 8:05, repeat cycle until 1:23 p.m.
STOP AT — Southwest entrance Med. Lab, University Library, top of Engineering Bldg. Hill, Corner of Clinton & Jefferson Sts., and Corner of Clinton & Market.

WESTBOUND

LEAVE St. Mary's Church at 7:23 a.m., 7:35, 7:50 and 8:05, repeat cycle until 1:23 p.m.
STOP AT — Corner of Capitol & Jefferson, Southwest entrance of Med. Lab, and Northeast corner of Fieldhouse.

ISC Challenge to SUI; 'Beat Us in Chest Drive'

The students at SUI have received a challenge. In a letter addressed to Bill Teter, president of the SUI Student Council, but sent to Tom Slattery, editor of the Daily Iowan, the Student Body President of Iowa State College challenged SUIIowans to surpass the ISC students' contributions to Campus Chest.

\$977.60 was collected for the Campus Chest on the first day of the drive Tuesday. Contributions can be made through Thursday.

Charles T. Manatt said in his letter that ISC students have contributed more than \$3,000 to their Campus Chest in a drive just completed.

Manatt wished the SUI Campus Chest committee the best of luck in its current drive and said, "frankly, I would like to challenge your student body to surpass the contributions of our students."

So there.

Head-On Crash in Snowstorm Injures Five Victims Said in Good Condition

Daily Iowan Photo by Jerry Moser

INJURED DURING A SNOWSTORM early Tuesday morning was Vernon D. Nagatz, above, and four others. Nagatz was taken to Mercy Hospital and is reported in good condition. The accident involved a head-on collision between a car Nagatz was driving and a pick-up truck driven by Laverne Christensen on Highway 6 about two and one half miles east of Iowa City.

Girard Home at Xmas? Anger in Japan Rises

TOKYO (Wednesday) (AP) — William Girard, the Illinois soldier convicted and given a suspended sentence by a Japanese court in the famous shellpicking shooting, had a good chance Wednesday of being home for Christmas after 10 months on the hot seat of an international controversy.

When the 22-year-old GI will be able to leave Japan will not be definite until after Dec. 3 — the expiration date for appeals.

But the three-year, suspended sentence pronounced Tuesday for the killing of a Japanese woman scrap collector is expected to stand.

Girard, who will have the final say whether his lawyers appeal, told newsmen he hasn't made up his mind.

His Japanese lawyer, Itsuro Hayashi, first said he would appeal if it were up to him. But after conferring with Girard he told newsmen the defense does not intend to appeal unless the prosecution does.

The government is not expected to use its right to appeal despite a rising murmur of protest among Japanese that the court was too lenient for the Jan. 30 shooting of Mrs. Naka Sakai.

Two major newspapers, Asahi and Yomiuri, took a dim view of the suspended sentence in otherwise laudatory editorials closing the case as virtually closed.

Christensen was charged by the State Highway Patrol with drunken driving after he was released from the hospital where he was treated for facial cuts.

Christensen is being held in the Johnson County Jail in lieu of \$1,000 bond.

Judge Roger Ivie scheduled a preliminary hearing for Friday at 4:30 p.m.

Prosecutors are pleased that they completely won their argument that Girard committed a grave crime against Japanese law though he was in uniform during Army duty hours.

The verdict could become a precedent for other Japanese trials of American soldiers accused of exceeding their duty.

Also pointing against a prosecution appeal for a jail sentence was the strong desire to prove that Japanese justice is fair, and to let the controversy fade into history.

Presiding Judge Yuzo Kawachi declared, "We've arrived at a decision that is fair and just and satisfactory to everyone concerned, including the prosecution, the defense, the United States, Japan and the soldier."

Kawachi gave Girard the stiffest sentence that could be suspended, and accepted all major prosecution arguments except the demand for a five-year penalty.

Girard's hands trembled as the judge sternly read his 4,000-word judgment, rebuking the soldier for yielding to "childish whim" when he shot an empty brass casing at Mrs. Sakai.

Oh Yeah! Well, I'm two-hundred and FIFTY per cent American!

MERCURY Marches On!

Firmly esconced as we are in the more or less liberal atmosphere of the University town, we perhaps tend to ignore or treat lightly the theses of ignorance, superstition, and outright fabrication that occasionally drift idiosyncratically under our academic - and we trust, intellectually inclined - noses.

Ordinarily the half-truths, the distortions, the lies that go to make these unfortunate theses are clad in patriotic colors, carefully phrased to incite emotional rather than "rational" response, and are surreptitiously slipped into the company of acceptable and "realistic" ideas or concepts.

That is why it is so refreshing - in a disgusting sort of way - to run across pure, unmitigated nonsense crammed shoulder-to-shoulder, so to speak, into one harmonious hole, (sic). The "American Mercury" magazine, once the epitome of magazine journalism under H. L. Mencken (oh how the mighty are fallen...), now lends its name, honor, and reputation to the dissemination of this sort of mischief - wholesale.

To read the magazine is to get an uneasy feeling that the Communists have infiltrated the whole structure of American Government, down to and including the garbage man - half-truths sandwiched between slices of respectability, albeit flavored with 200 per cent American sauce.

To read the tracts, published under the name of the magazine, and containing largely articles printed in past issues of the Mercury, is to lose the slices of respectability while retaining the rest.

EXAMPLES: (From Tract No. 8, "YOU ARE BEING ROBBED"). "For 125 years - from 1789 to 1914 - 25 presidents of the United States spent less than \$23 billion altogether.

"In 1912, Bernard Baruch ushered Woodrow Wilson into the White House. William H. Taft, Wilson's predecessor spent less than \$3 billion during his entire administration, Wilson, advised by Baruch, spent \$47 billion.

"President 'Pearl Harbor' Roosevelt spent almost 400 billions of dollars... What 'High Tax' Harry alone spent would have provided a \$5,000 house, free and clear of any mortgage, for you and 38,200,000 families in the United States... President Eisenhower... a budget of over 86 billions of dollars, the largest peace-time budget in the history of our country."

We might speak of non-comparable data, appeals to emotion, non sequiter, etc., but except for the fact that too many of the uninitiated would swallow it whole, we could merely ignore it.

MORE EXAMPLES: "The master minds behind this diabolical plot create tax-exempt international organizations to carry out the 'planned' conspiracy - the United Nations, the International Monetary Fund, the International Bank for Reconstruction, UNESCO, are just a few of them. The stooges for the International bankers in these organizations receive TAX-EXEMPT SALARIES. You, the hard working, tax-paying citizen carry the burden of supporting them."

"It is 'planned' that Christian civilization will collapse under this program."

"Our nation has lost its way because you and I have failed to fulfill our sacred duties

as trustees and custodians of a great Christian heritage... Let us listen to God's plan for America.

"At the same time let us clean house here at home. We want no dual or Fifth Amendment citizens. They are a disgrace to our country.

"By this time surely we also know that the United Nations is a swamp and a death-trap. Its aim is revolution throughout the world."

"Four planned sinister events took place in 1913: 1. The graduated income tax law was passed (16th Amendment). 2. The Federal Reserve Banking Act was passed. 3. The Anti-Defamation League was organized by B'nai B'rith. 4. The Rockefeller Foundation was established. These four events were not unrelated.

"From this date forward, we were to be lied to, brainwashed and betrayed. Nationalism was thrown out the window for un-American internationalism. The money properly belonging to the citizen was taken from him by the Marxist graduated income tax and squandered..."

"They (International Bankers) caused the creation of Israel which lost our nation the century of friendship with 450 million of the Islamic world in the strategic areas of Asia and Africa.

"They brought on the planned crash of 1929... 'Pearl Harbor' Roosevelt fronted for them and embroiled us into the 'planned war' in 1941."

"Karl Marx, one hundred years ago, announced his credo. He cried: 'Away with God! Away with Christ! Away with the Bible! you have everything to win by embracing Communism - You have a world to gain!'"

"The Mercury proposes that the American people promptly start - in this country - an American citizen's trial. We propose that a Constitutional Freedom court - made up of a solid cross-section of taxpaying citizens - try for treason and subversion the following..."

(A long list) - then - "Those who ignore our generous immigration laws and illegally have flooded seven million people into these United States."

(From tract No. 10). "Day by day, in every way, the decisions of the Supreme Court confirm that it has become an important weapon in the arsenal of this nation's mortal enemy. Without these Supreme Court decisions, the Communists would have little chance to succeed."

"An economic earthquake is coming! The recent Civil Rights Bill is an act of a Police State - not of a Republic made up of 48 sovereign states."

"They' also illegally flood our country with alien-minded immigrants to grab your job."

"Mercury's aim is to replace Ignorance with knowledge!"

Well, that is not all of the content of just these two pamphlets by far, but, we think, quite illustrative.

Our contempt for this nonsense is supreme, and were it not for the fact that it is extremely dangerous - like the demagogue, we would ignore it.

How do you view it?

a group of dogs who are rather progressive musicians gathered together in new york and discussed an invitation to play in concert at sui. here is a transcript of the conversation as sent to me by their canine agent, noman grunts.

included in the group were chico jefferson, george schmearing, benjamin badman, mr. austro-alien jazz, lawrence milk and louis lipstrong.

jefferson... i'd like to go to iowa. i know it sounds corny, but i've never stalked around that state. in fact, the way my records are selling there, i didn't even know it existed until we received the invitation.

schmearing... well, i played there last year and had a terrible reception. it isn't bad enough they don't understand improvisation, but they even think birdland is a part of the bronx zoo.

badman... my twin, steve hellenback, says they may go for something like "three lil fishes in an iddy biddy pond."

mr. austro-alien... sui must be a very classical institution. the abbreviation sounds like a latin pronoun. sounds square though.

milk... good evening ladies and gentlemen... a-one, a-two, a-three... alice gone, my female vocalist, burst a bubble on the show the other day and when i finished slapping her with my glass slipper, she said that at least they appreciate her in the progressive state of iowa. iowa even has jim hedges.

lipstrong... the country is run by southerners.

jefferson... i'd still like to go. the alfred celler trio was there last week and they drew a few people... with chalk... but they were people. we both use stringed instruments... i use a flute and a

and with this they ended their conversation... ate their chlorophyll dog food to get the taste out of their mouths... all but one decided not to come to sui... because too few would appreciate them. they felt sui is not going to the dogs. it is regressing from them.

lipstrong... it sounds like sui might be about as progressive as little rock high-school.

mr. austro-alien... what is this jazz? you mean that we can't bring some culture to the athens of the mid-west?

milk... there is one trouble with iowa. we can't call our music champagne. it has to be ginger-ale.

lipstrong... it sounds like sui might be about as progressive as little rock high-school.

Campus Chest-

Those Who Benefit

By TOM EPPERSON

Daily Iowan Staff Writer

(2nd of 3 articles on the Campus Chest - where your monee goes, how, why, and what for.)

Two more of the organizations benefiting from SU1's present Campus Chest drive are the American Cancer Society (ACS), 15 per cent, and National Scholarship Service and Fund for Negro Students (NSSFNS), 15 per cent.

THE AMERICAN CANCER SOCIETY is the only voluntary health agency in the United States devoted to the control of cancer through a comprehensive program of education, service and research. It is supported wholly by voluntary public contributions, which total millions of dollars each year.

The ACS undertakes to assure the American citizen the largest possible return for his cancer contribution. Research is its major concern. Twenty five per cent of all money donated by the public helps to find causes and cures for cancer. The society supports grants-in-aid, fellowships and institutional grants to laboratories, hospitals and clinics carrying on significant cancer research.

THE PROFESSIONAL AND PUBLIC education programs help doctors informed of all that is currently known about diagnosis and treatment of cancer, and bring to all people knowledge to prevent the needless loss of lives.

The ACS strives to keep the public well informed. This is done through the use of pamphlets, posters, exhibits, radio and television programs, newspaper and magazine articles, special aids for schools, lectures and motion pictures.

In January, 1956, the Iowa ACS division announced a grant for the construction of a radioactive cobalt-beam therapy unit at SU1. The "cobalt bomb" is expected to make possible more effective radiation therapy. The unit at SU1 is one of the less than 30 in the nation.

THE NATIONAL SCHOLARSHIP SERVICE and Fund for Negro Students is an independent agency, established to increase higher educational opportunities for qualified Negro students in inter-racial colleges in this country.

NSSFNS gives counselling and college advisory services to thousands of students each year through their schools and their guidance counsellors.

THE NECESSITY OF THE NSSFNS program is pointed out by the fact that the American Negro composes over 10 per cent of our population while composing only about 1 per cent of our inter-racial college population.

This means that a large segment of our national manpower potential remains under-educated and under-skilled at a time when the nation cannot afford to be so wasteful.

In the past six years NSSFNS has helped 3,500 students gain admission to over 300 inter-racial colleges and win scholarships totaling over \$1,000,000. NSSFNS added \$200,000 to this sum in the form of direct supplementary aid.

OF THE 1,695 COLLEGES AND UNIVERSITIES in the United States, 1,059 will accept Negro applicants. These institutions grant more than 30,000 scholarships annually totaling over \$20,000,000 a year, most of which are open to Negro students.

It is NSSFNS's main job to make this information known to the Negro student.

Letters To The Editor

Jump Iowan; Slam Sororities; Answer Driscoll

TO THE EDITOR:

With unconstrained glee The Daily Iowan prints letters to the editor, for it is such stuff which demonstrates that the bogeyman of student apathy has been put to flight. Yet assuredly this is not the purpose of the letter to the editor columns; it is to disseminate opinions.

Mr. Hedges and others hold opinions, and they have been good enough to allow us the opportunity to test the validity of these beliefs for our own (dis)satisfaction. This too has been done with unconstrained glee...

However, this is only an adjunct to my concern; editorial letters are supposed to reflect opinions on problems and issues; not opinions of personality. I do not know Mr. Hedges, nor do I know where he comes from. I could find it very easy to attack him personally, for I am ignorant of him as a human being. It would cost me little emotion, because for me he lacks personality; he is a name made out of letters, and a single view made out of words.

Ignorance of this type can breed courage of a kind - with it as a weapon I could readily attack Negroes as a group, as they have been; Jews as a group, as they have been, and any person as their representative.

Mr. Hedges attacks Negroes out of an ignorance bred by a belief in status quo and the ultimate vitality of one to judge another, and to judge by the standard of that status quo; Mr. Wescott attacks the Negro from behind a neutral place of statistics, and thereby infers his objectivity - but the question of segregation is not a scientific one.

But I think we attack Mr. Hedges out of an ignorance which is irresponsible, for we only know him as a letter in a newspaper. We should not, therefore, attack him; we may attack his views. We may not attack the events or facts which gave rise to these views, anymore

than we can attack the statistics Mr. Wescott uses. They are valid - it is only the use to which they are put that we should castigate. And to attack Mr. Wescott who had nothing to do with the compilation of these statistics would be irrelevant... It does neither ourselves nor opinions any good to leap upon Mr. Hedges with the cleverness of our personalities.

The Daily Iowan has a responsibility not only to foment the thinking of its readers, but to choose its materials according to editorial standards. The Daily Iowan would be doing a greater service if it would print representative samples of opinion, adding editorial comment concerning the quantity and ratio of this opinion, rather than "Again, Mr. Hedges, and again, and again."

D. G. Siegel, G 703 4th Ave.

TO THE EDITOR:

In answer to Miss Driscoll's letter (Daily Iowan, Nov. 15), let me say that since I've been in Iowa City, I have been pleased to note that there is much less apathy among the people here than in, for instance, Chicago, where people are more interested in television, cars, their parakeets, fur coats, getting to work on time, coffee breaks, catching buses and subways, etc., than anything else. They also have many more places to drown their thoughts than we have here.

From my contacts with people here, I have found an "all-pervading" interest in things other than the parking problem and the "somewhat milked-dry question of Godot." People here do care about their future, Sputnik, Russians, elections, space-ships, Venusians and the like. In fact, most of them are quite concerned. To prove this, perhaps everyone who is interested in things "outside" should wear a little sign stating, "I Care, I Feel, I'm Concerned!" How else

can they show their interest since the whole student body couldn't "suddenly run about emotionalizing" nor have a "bad case of war-nerves"?

I think people are "sparking" all over the place and if this is apathy - I'll take it.

Carolene Ross 228 1/2 E. College

TO THE EDITOR:

The combined efforts of sorority women and fraternity men and their University appointed watchdogs to make the coming IPC-Panell dance a real worthwhile money extravaganza have fallen backwards.

We now anticipate, somewhat less than anxiously, a mediocre shuffle.

Plans were to engage one of the nation's leading bands, perhaps Louis Armstrong. Fraternity men have shed \$5, while paying house-bills, towards this end.

Alas, Alack and woe to the sorority girls for they have ended all possibilities of anything other than a sober evening spent listening to some Hot Licks Harry and his Hungry Six.

The girls will only scrape up two skins each. For only \$2 more a gay soiree that would really wail could be expected.

Let's face it. Most of the guys are earning bucks by sheer, horrid labor. The lasses can come into cash by sending daddy a tear and a kiss.

Why the difference in price? Let the far out University defend itself - because that's where the final word on anything but acts of God come from.

It's '57, man, not '27. Live modern!

Bob Ives, et al 828 N. Dubuque

OFFICIAL DAILY BULLETIN

University Calendar

WEDNESDAY, NOV. 20, 1957

8 p.m. - University Symphony Orchestra Concert - Stuart Canin, Soloist - Iowa Memorial Union

Thursday, November 21

2 p.m. to 6 p.m. - Open House - Medical Research Center

6:30 p.m. - Dedicatory Banquet for the Medical Research Center - Iowa Memorial Union

4 to 5 p.m. - Foreign Student Coffee Hour sponsored by AWS - Library Lounge

4 p.m. - Lecture by the Honorable U Win, Ambassador from Burma, sponsored by the School of Journalism and Mass Communication

7:30 p.m. - Young Democrats speaker, Representative Scott Swisher - "Capital Improvements at State Institutions" - Pentacrest Room, Iowa Memorial Union

8 p.m. - Graduate College and Anthropology and Sociology Colloquium - Morton King Jr., Lecturer of the Liberal Arts College, Northwestern University - "Integration of the Negro in our Society" - Shambaugh Auditorium

8 p.m. - Home Economics Department - Omicron Nu Honor Society Initiation - House Chamber, Old Capitol

Journalism and Oriental Studies - Senate Chamber, Old Capitol

Friday, November 22

7 p.m. - 40th Anniversary Banquet - Child Welfare Research Station - Iowa Memorial Union

8 p.m. - Art Guild Film Series - "The Sea Around Us" and "Admiral World" (short) - Shambaugh Auditorium

Saturday, November 23

11 a.m. - Department of Psychiatry Lecture by Dr. Marvin Stiel, University of Pennsylvania - "Experimental Psychogenic Asthma" - Medical Amphitheatre

Monday, November 25

8 p.m. - Humanities Society - Senate Chamber, Old Capitol

Wednesday, November 27

12:20 p.m. - Thanksgiving recess begins.

General Notices

General Notices must be received at The Daily Iowan office, Room 201, Communications Center, by 8 a.m. for publication the following morning. They must be typed or legibly written and signed; they will not be accepted by telephone. The Daily Iowan reserves the right to edit all General Notices.

WEIGHT TRAINING ROOM - The Weight Training Room will be open for student recreational use at the following times: Mondays, 4 to 6 p.m.; Wednesdays, 4 to 6 p.m.; and Fridays, 4 to 6 p.m.

FAMILY-NITES at the Fieldhouse for students, staff, faculty, their spouses and their families will begin November 13 and will be held on the second and fourth Wednesdays of each month. Recreational swimming and family-type activities will be available from 7:15 to 9:15 p.m.

UNION BOARD GAMES subcommittee is sponsoring a "Turkey Shoot" Blind Bogey Bowling Tournament which began Monday and will continue through Nov. 25. The winning man and woman entered in the contest will each receive a ten pound turkey. Entry fee is ten cents. Proceeds go to help buy Christmas toys for the Children's Ward in University Hospitals. All students and faculty members are eligible to enter. In the tournament, all contestants guess what their score for the line will be, then try and bowl as close to that score as possible, except they do not bowl the fifth frame. The score for that frame is drawn from a hat.

TOWN MEN BASKETBALL - The first practice will be held Thursday at the North Gym in the Fieldhouse at the following hours: 7:30 p.m. - Town sections Black, Dean and Leonard (Burlington Street and South)

8:30 p.m. - Town sections Macbride, MacLean and Spencer (west of Iowa River and Church Street and North)

9:30 p.m. - Town sections Schaeffer, Pickard, Thatcher and Totten (north of Burlington and south of Church Street)

The girls pictured—Beverly Wendhausen, A2, Davenport; Mary Ann Smith, A3, Mampton; Carole Turner, A1, Moline, Ill.; and Mary Kay Seabury, A3, Council Bluffs—are among the AWS members who are presenting skits at housing units this week to publicize their coffee hours.

Second SUI Symphony Concert To Feature Violin Solo by Canin

No tickets remained Tuesday afternoon for the University Symphony Concert to be presented at 8 p.m. tonight in the Main Lounge of the Iowa Memorial Union. If the lounge is not filled at 8 p.m., persons without tickets will be allowed to enter, music department officials said. The 97-piece orchestra, directed by James Dixon, instructor of music, will open its second concert of the season with Bach's "Brandenburg Concerto No. 3 in G Major." The work is scored for three

groups of equally balanced solo strings without accompanying parts. Stuart Canin, head of the violin department and associate professor of music, will join the orchestra as soloist for Tchaikovsky's "Concerto for Violin and Orchestra in D Major, Op. 35." The concerto, which Canin said is "part of the standard violin repertoire," was described as "impossible to play" by the man to whom the composer had originally dedicated it, Leopold Auer. Later it was rededicated to Adolf Brodsky who first performed it with the Vienna Philharmonic Orchestra. The orchestra will continue with

two nocturnes by Debussy: "Clouds" and "Festivals." The composer described the pieces thus: "Nuages" (Clouds) renders the immutable aspect of the sky and the slow, solemn motion of the clouds, fading away in grey tones slightly tinged with white. "Fetes" (Festivals) gives us the vibrating, dancing rhythm of the atmosphere with sudden flashes of light... the background remains persistently the same: the festival with its blending of music and luminous dust participating in the rhythm." The concert will close with Stravinsky's "Firebird Suite." The Symphony will perform the 1919 version, with a reduced orchestration from the original score for the complete ballet.

School of Religion Staff Members Will Go to Meeting

Prof. Robert Michaelsen, administrative director of the School of Religion, and the Rev. Mr. Robert J. Welch will represent SUI at the national convention of the Religious Education Association in Chicago Nov. 24-26. The Religious Education Association, in operation for over 50 years, is comprised of persons in the field of religion in education, the Rev. Mr. Michaelsen said. The creative work of the convention, to be held in the Palmer House, will provide for exploration of the problems and issues posed by the convention theme, "Images of Man in Current Culture and Tasks of Religion and Education."

President Elected In Czechoslovakia

VIENNA, Austria (AP)—Broad-faced Antonin Novotny, who as a boy sold Communist newspapers on Prague street corners, became president of Red Czechoslovakia Tuesday. The 53-year-old party boss succeeded Antonin Zapotocky who died last Wednesday and was buried yesterday. Novotny's election by the Red-led Czech Parliament was proclaimed by a cannon salute from the bastions at ancient Hrdeany Castle. The vote was by the traditional and unanimous raising of hands in the rubber stamp parliament. Novotny thus became the nation's president as well as party secretary.

Cherry Buffington Heads Currier Unit

Cherry Buffington, A1, Mount Pleasant, will head the Currier Hall New Student Council for the 1957-58 school year. Other officers elected are: Joan Okubo, N1, Mundeleville, Ill., vice president; and Marjory Skarin, A1, Western Springs, Ill., secretary. The New Student Council is composed of 13 freshmen and transfer students who work on special projects throughout the year. The main purpose of the group is to give new students a voice in the government of Currier through these representatives.

Set Hoffa Wiretap Trial for Friday

NEW YORK (AP)—Teamsters Union boss James R. Hoffa's federal court trial on wiretap charges Tuesday was scheduled to begin Friday. Hoffa is charged with conspiring to illegally tap the telephone in the Teamsters Union's Detroit office so he could eavesdrop on underlings. The same federal grand jury that returned this indictment also charged him with perjury in his appearance before it. The perjury case was to have been tried first. But it has been held up by a legal technicality now before the U.S. Supreme Court. Hoffa recently was elected president of the big Teamsters Union. However, a federal court order has thus far kept him from taking over the office. His opponents in the union have charged the election was rigged.

Try and Stop Me

NATURE CLASS is now called to order. What's the heaviest flying bird in North America? Answer: the trumpeter swan, which has a maximum weight of over 40 pounds. What is the only bird in the Western Hemisphere whose upper bill is movable? Answer: the woodcock. Addenda: the ostrich cannot fly, but its 12-foot stride carries it over the terrain at 40 miles an hour. The wild goose, on the other hand—or wing—can fly at 60 miles an hour and holds the bird altitude record of nearly 5 1/2 miles. Class is dismissed while the goose hangs high! Sad is the fate that befell a lighthouse keeper in Maine. He lost his job after 10 years of faithful service. He just couldn't get out of the habit of frugally turning out the light before he went to bed.

SUI Rifle Teams Hosts in Match

Three SUI ROTC rifle teams will be host to Coe and Grinnell Air Force ROTC units in a shoulder to shoulder match at 9 a.m. Saturday on the Army range. Two ROTC Army teams and one Air Force team will represent SUI in the five team match. A team is composed of five members who fire 10 shots in each of four positions—prone, kneeling, sitting and standing. Match winner is determined by the team getting the highest number of points. This will be the first match of the season for SUI ROTC teams.

Attorney Asks Check Into Work Law

The history of Iowa's so-called "right-to-work" law suggests that the law is either being complied with or ignored—and an objective investigation of its observance is needed, a Sioux City attorney said Tuesday at SUI. Harry H. Smith joined with SUI labor-management specialists to discuss effects of the controversial act at the Labor Law Short Course, now in session at the SUI Continuation Center. Some 40 representatives of Iowa labor unions are participating. Smith pointed out that no criminal prosecution has occurred in the 10 years of the "right-to-work" law's existence in Iowa, one of 18 states which has such a law to make union membership unnecessary for employment. There have been a few isolated attempts to enforce the law through district court injunctions—civil procedures which have rarely been upheld in appeals to higher courts, he observed. This lack of enforcement of the law suggests, in part, Smith continued, a reluctance on the part of employers to use the law to hurt a union. Not only is it hard to gauge the impact of the law because of lack of reliable court tests, but also with industrial conditions generally on an economic upgrade recently in Iowa, partisan pressures have been relaxed, Smith concluded.

Not only is it hard to gauge the impact of the law because of lack of reliable court tests, but also with industrial conditions generally on an economic upgrade recently in Iowa, partisan pressures have been relaxed, Smith concluded.

SUI Items

THE GEOLOGY WIVES CLUB will meet today at 8 p.m. at the home of Mrs. Sherwood Tuttle, 1217 Melrose Ave. Mrs. William Furnish will talk on "Aspects of Family Life in an Overseas Oil Community." Assisting the hostess will be Mrs. Vernon Dow, Mrs. Harold Gluskoter, Mrs. Richard Northrup, and Mrs. Willis Rich.

TAU KAPPA EPSILON will meet today at 7:30 p.m. in the recreation area Conference Room of the Iowa Memorial Union. All members are urged to attend.

PONTONIERS will meet Thursday at 7 p.m. in Room 110 of the armory.

THE UNIVERSITY CLUB will have a Thanksgiving tea Thursday at 2:30 p.m. in the club rooms of the Iowa Memorial Union. Mrs. U. Win, wife of the Burmese ambassador to the United States, and Mrs. George Baxter Smith, wife of the provost of the University of Kansas at Lawrence, Kansas, will be honored guests.

AN AWS STUDENT-FACULTY COFFEE HOUR honoring foreign students and faculty members will be held Thursday from 4 to 5 p.m. in the Student Lounge of the University Library. Take your coffee break there.

ALPHA DELTA SIGMA fraternity will meet at 7:30 p.m. today in the Communications Center lounge. Prof. John Kottman will discuss the advertising agency business. All interested persons are invited to attend.

SUI Air Cadets To Visit Texas In Air Force Tour

Forty Air Science cadets will leave Iowa City airport at 5 p.m. Thursday for Perrin Air Force Base in Denison, Tex., in the third SUI Air Force ROTC tour this semester.

The freshmen and sophomore cadets will fly to Perrin in a Fairchild C-123 airplane sent from Smyrna Air Force Base in Tennessee.

Perrin is the training center for F-86 all-weather interceptor fighter airplanes. The cadets will take an orientation and familiarization tour of the base.

Major Harold B. Orr, SUI assistant professor of air science and director of leadership will accompany the cadets on the trip.

The cadets will return to Iowa City sometime Saturday afternoon.

HEARING ON RAILROAD DES MOINES (AP)—The Iowa Commerce Commission said Tuesday it will hold a hearing at its offices Dec. 3 on the plan of the Minneapolis & St. Louis railroad to close its Grand Junction depot and consolidate its agency there with the Chicago and North Western railroad in Grand Junction.

TODAY'S ROBERT E. LEE

The present day General Robert E. Lee is stationed at Langley Air Force Base, Va. He is president of the Society of Air Force Clinical Surgeons.

Omicron Nu To Initiate Home Economics Head

Prof. Floy Eugenia Whitehead, chairman of the Department of Home Economics at SUI, will be initiated in the SUI chapter of Omicron Nu Thursday at 8 p.m. in a ceremony in the House Chamber of Old Capitol.

Barbara Brown, Cherokee graduate student in home economics is president of the SUI chapter and will preside at the ceremony.

Purposes of Omicron Nu, national honorary organization in home economics, are to promote scholarship, leadership and research in the field as its part of the worldwide movement in home economics.

Election to membership is based on achievements in home economics. Initiates of the SUI chapter must have been on the campus at least two years.

A reception will follow the initiation ceremony Thursday evening in the House Chamber. Guests will include juniors and seniors majoring in home economics, graduate students and faculty members in home economics and nutrition and alumni members of Omicron Nu.

Jail Term for Bad Check

Leonard B. Prizler was sentenced in Johnson County District Court Tuesday to a year in Ft. Madison Penitentiary after pleading guilty to a charge of passing a bad check. The false passing of a \$5 check at Leo's Standard Service in Iowa City on Nov. 7 was the sixth offense by Prizler, according to an information filed by Assistant County Attorney William Barker. The six offenses cited have all been since 1952.

BEHIND THE Sports Desk
By Alan Hoskins
Sports of Sorts

I was quite surprised and concerned when I heard that Forest Evashevski might be considering quitting his position here at Iowa as head football coach.

Evy has quite often stated that he does not plan to grow old in the coaching game, but that he would quit after this season had never occurred to me.

Evy has refused to comment on the rumor that he might quit, except to say that his plans at present are indefinite.

Speculation as to why he might quit now is varied and not too substantial. Only 39, Evy should have several good years left and still not be too old.

I doubt that the fact the rumor popped up immediately after Iowa's loss to Ohio State had anything to do with it. Maybe the new Big Ten aid plan could have something to do with the rumor. It is common knowledge that this year's freshman football squad is below par, and with the new plan, the future doesn't look bright, especially here at Iowa.

However, Iowa should have a pretty good team again next year despite losing five starters from this year's fine team. It would appear that Evy would prefer to stay at least one more year, especially with Iowa being eligible for the Rose Bowl again next year.

Fortunately, this is only a rumor. Who knows, Evy may have no intentions at all of quitting.

If he should, however, it would be a tremendous loss to Iowa football. It doesn't take a very old person to remember the days when Iowa was always a contender for the cellar.

I only hope that if Evy has any intentions of quitting this year, he reconsiders, and sticks around. He's done too much for Iowa football to leave now.

★ ★ ★

I WONDER if Time magazine will criticize Oklahoma coach Bud Wilkinson this week after his statement Sunday. In rehashing the Sooners upset loss to Notre Dame, Bud said:

"I was willing to settle for a scoreless tie in the third quarter."

His statement was borne out by the Sooners' strategy. Twice in the third quarter, once on the Irish 40 and another time in Notre Dame territory, Oklahoma had a fourth down and one yard to go situation.

On both occasions, they refused to gamble and punted. These were the only two times Oklahoma got into Notre Dame territory in the last half except for a pass to the Irish 24 in the closing seconds.

It would appear to me that Wilkinson and the Sooners were just as guilty of quitting as Iowa supposedly was. Wilkinson admitted he would have settled for a tie, even in the third quarter.

The Hawkeyes didn't decide to accept a tie until the closing minutes, and then, only because of several circumstances which necessitated that strategy. And I could find no particular reasons why the Sooners should have accepted a tie, they had no more to gain than we did with a tie.

★ ★ ★

WHICH REMINDS ME. Maybe justice is catching up with Sports Illustrated after their slanted article on Evashevski several weeks ago.

Two weeks ago, Sports Illustrated used Minnesota quarterback Bobby Cox on its front cover with a feature article calling Cox the nation's best quarterback. Well, anybody that's aware of the Gophers' success this year knows that Bobby's performance has not been the best quarterback play in the country.

Then last week, SI carried a picture of some of the Oklahoma players on the front cover plus a long article entitled, "Why Oklahoma is Unbeatable." So what happens Saturday, the Irish snap their 47-game winning streak.

Also, in last week's issue, it carried a picture of Evy at Michigan this year. In the background is a player with the number 20 on his helmet.

Many think this is halfback Don Dobrino of last year's team, although it could be quarterback Ron Bosrock.

I don't know exactly why, but I don't feel too bad about the misfortune of Sports Illustrated.

ND Picked Over Iowa By 1; Ohio State Over Michigan

By CHARLES CHAMBERLAIN

CHICAGO (AP)—The Ol' Swami keeps one step ahead of the posse to get in his last football fling of the season:

Notre Dame 14, Iowa 13—The season is over for Iowa's Hawkeyes who fumbled away the Big Ten title in losing to Ohio State last week. It's just beginning for the Irish. Ol' Swami looks for the momentum of that Oklahoma triumph to carry Notre Dame over a team that will be difficult to get "up" for its finale. On paper, however, it's strictly Iowa.

Ohio State 19, Michigan 16—Means little but added prestige for the Buckeyes. OSU coach Woody Hayes promises that star halfback Don Clark will be ready to romp.

Wisconsin 20, Minnesota 13—Wisconsin is the most improved club in the conference and received a big lift in defeating Illinois.

Michigan State 34, Kansas State 6—The Spartans, whose upset by Purdue a month ago kept them from the Big Ten crown and Rose Bowl, will go all out for an impressive finish to retain the nation's No. 1 spot.

Purdue 27, Indiana 7—Nothing but leaks in the Old Oaken Bucket for the Hoosiers.

Illinois 14, Northwestern 7—Strange things happen when these two rivals get together — and Northwestern usually comes out on top. The Wildcats haven't a victory this season but they hold a jinx over the Illini who have failed to defeat Northwestern at Champaign since 1928 and have won only three games in the series since 1944.

Marquette 13, Arizona 7—Saturday night — A battle of the haymots. Arizona has a tie and seven straight losses. The Warriors have lost their last 18 starts. It's Marquette's big chance.

Nov. 30 — Notre Dame 27, Southern California 7 — The Irish keep rollin'.

Dec. 7 — Notre Dame 14, Southern Methodist 13 — and rollin'!

Rose Bowl — Ohio State 42, Oregon 14 — A vacation.

Swami's record to date: 46-14-1, .767.

Snow Moves Hawks Inside For 2nd Time

Hampered by the state's early snow storm, the Iowa football team was forced again Tuesday to hold practice sessions inside the Fieldhouse.

The second team had some contact work against the fourth and fifth teams but the rest of the squad ran through only a dummy scrimmage devoted both to offense and defense.

Coach Forest Evashevski grew more concerned over the weather situation. Two days have elapsed in which the Hawkeyes lacked space to demonstrate how they could comply with Evy's edict to "get tough" for the season finale against Notre Dame and had no room to bone up on their passing game.

"Physically we are in pretty good shape but mentally I don't know," Evashevski said. "The fellows really took that loss to Ohio State last weekend at heart and I don't know whether they can get fired up for Notre Dame or not."

Sales Underway For Season Tickets

Francis Graham, business manager of athletics, announced Tuesday that sale of basketball season tickets is under way for the home Iowa games.

The tickets for the 11 home games sell for \$22. The first home game is against Southern Methodist Dec. 3.

Orders for individual game tickets will not be accepted until Monday, Nov. 25 Graham said. These reserved seat tickets are priced at \$2.

The home games start at 7:30, except for the Oregon State game Dec. 21, which will be televised regionally.

Middies Won't Play in Bowl Unless They Defeat The Cadets

WASHINGTON (AP)—Capt. Slade Cutter, Naval Academy athletic director, made clear Tuesday that the Middies won't go to any football bowl game unless they beat Army.

And this, Cutter emphasized, is the last he wants to hear the word "bowl" mentioned until after the Army-Navy classic at Philadelphia on Nov. 30.

Cutter classified Navy's bowl situation at a Washington Touchdown Club Luncheon.

"I get sick and tired of hearing all this bowl talk," he said. "We are not going to any bowl if we don't beat Army."

Navy has been prominently mentioned as a possible opponent of the Southwest Conference champion in the Cotton Bowl at Dallas

Town Men Basketball

The intramural basketball season will begin on Wednesday, Dec. 4. The first practice prior to the opening of the season has been scheduled for Thursday, Nov. 21, at the Fieldhouse. All town men interested in playing intramural basketball are asked to report to the North Gym at the time indicated.

Thursday, November 21
7:30 p.m. — All men living in town sections Black, Dean, and Leonard. (Men living on Burlington Street and South.)

8:30 p.m. — All men living in town sections Macbride, Mac Lean, and Spencer. (Men living West of

Touchdown Tendencies— Hawks to Third; MSU Holds First

By DR. ALLEN N. SMITH

Barring an upset defeat or poor showing against Kansas State, Michigan State will be the nation's No. 1 college football machine in 1957 in the Smith Touchdown Tendency System of Ratings.

Rating itself No. 1 for the third successive week, Michigan State rolled over Minnesota, 42-13.

Ohio State's brilliant 17-13 win over Iowa not only shoots the rampaging Buckeyes from fourth to 2nd, but it enabled them to wrap up both the Big Ten title and the Rose Bowl bid. Iowa, fifth a week ago, is a strong third.

Unbeaten Auburn, the nation's top defensive club, defeated Georgia to gain the No. 4 position.

Oklahoma's stunning upset by Notre Dame sends the Sooners reeling from the runner-up position to 5th. Notre Dame's 7-0 victory snapped the 47-game winning streak of the Sooners and also Oklahoma's string of 123 straight

games without being shut out. Texas A&M's surprise 1-point loss to Rice drops the Aggies from third to 6th.

Once-beaten Mississippi overpowered Tennessee, 14-7, in a pivotal Southeastern Conference contest to apparently clinch a Sugar Bowl bid. This triumph enables Ole Miss to hurdle three places to the No. 7 slot in the rankings. Wisconsin, combining a rugged defense with a potent running attack to down Illinois, advances from twelfth to 8th.

Navy, once again the scourge of the East, vaults from eleventh to 9th. The Midshipmen, playing under wraps, romped to a 52-0 victory over outmanned George Washington.

Michigan's unimpressive victory over Indiana demotes the Wolverines from eighth to 10th. Tennessee is a close-up 11th.

Rice rounds out the list at the 12th niche.

Ohio State meets Michigan this Saturday in the game of the week.

HTA May Resign Government Body

NEW YORK (AP)—The Harness Tracks of America (HTA) implied Tuesday they might be forced to resign from the United States Trotting Assn. unless that governing body amended certain by-laws and regulations which violate Federal antitrust laws.

Members of the HTA in their annual meeting demanded that the USTA, with headquarters in Columbus, Ohio, take immediate action to "eliminate or amend" its rules.

Gavilan Says He'll Win Back Crown

CHICAGO (AP)—Kid Gavilan, who at 31 has dreams of regaining the welterweight crown, says he is going to prove he is as spry as ever when he meets Walter Byars tonight.

The 10 rounder at Chicago Stadium will be televised and broadcast nationally (ABC), 10 p.m. (EST) and scored under the five point must system.

The battle scarred Gavilan, who never has been knocked cold in 138 fights, will be making his first Chicago appearance since losing a chance for Bobo Olson's middleweight title in April 1954.

His record is 105-28-5.

Byars is a 25 year old left hook specialist who gave Gavilan a good boxing lesson in Boston last December. He began his fighting ca-

reer in Korea and won the all-Marine featherweight title in 1953 and 1954.

Also low-cost trips to Mexico \$149 up, South America \$399 up, Hawaii Study Tour \$478 up, Around the World \$1298 up.

Midwest Road Crews Face Biggest Cleanup in Years

By THE ASSOCIATED PRESS
Road crews tackled one of their biggest November snow cleanup jobs in years Tuesday in the wake of a blustery storm that paralyzed highway traffic, closed schools and damaged unharvested crops in parts of the Midwest.

At least 40 deaths were related to the widespread storm system that also triggered twisters in the South and damaging winds in the Midwest and East.

Monday's snowstorm left Black River Falls, Wis., buried under a 15-inch blanket. Dansbury, Wis., had 14 inches; Winona, Minn., 13 inches and Council Bluffs, Iowa and Ames, Iowa, nearly a foot.

By late Monday the storm center had moved northeastward over eastern Lake Superior and snowfall had tapered off or halted throughout most of the storm-battered area. However, snow continued in upper Michigan.

Strong winds whipped over the snow area, hampering cleanup efforts and causing some damage. Gusty winds up to 56 m.p.h. blew the roof surface off the airport administration building at Muskegon, Mich. Pellston, Mich., had wind gusts up to 63 m.p.h.

In Wisconsin, crews had most

main roads opened by noon but indicated a start on secondary roads might not be made until Wednesday.

More than 200 schools remained closed throughout the Minnesota storm area.

Minnesota farmers expressed concern over their crop outlook. From 15 to 25 per cent of the soybean crop and 50 to 85 per cent of the corn crop are unharvested in some major agricultural areas.

Flood waters of the Little River receded swiftly in Hopkinsville, Ky., after inundating the downtown section to a depth of four to five feet. However, southeast Missouri battled its second major flood of the year. Counties of Dunklin, Pemiscot and New Madrid were hardest hit. Thousands of acres of cotton and soybeans were under water left by drenching rains.

Mr. and Mrs. Russell Gordy, on whose farm the plane crashed, said they didn't see or hear the plane. Although some livestock was nearby, Gordy said he hadn't been to the field.

The engine was found several yards away from the remainder of the wreckage.

The plane was discovered after an all-day search by private aircraft and CAP planes. Aerial spottings of the wreckage were made by Arley Brooks of Kahoka and Capt. Ray Kendall of Ottumwa, Iowa, flying a CAP plane.

Brooks led Sheriff Charles S. Milligan and other ground searchers to the scene.

The plane laid for two days at

most within sight of a farm house about a half-mile south of the Iowa-Missouri line in the northeast corner of Missouri.

Mr. and Mrs. Russell Gordy, on whose farm the plane crashed, said they didn't see or hear the plane. Although some livestock was nearby, Gordy said he hadn't been to the field.

Nonagenarian Meets Octogenarian

LONDON (AP) — Ninety-year-old Sen. Theodore Francis Green (D-R.I.), said Tuesday night that for a man 83 years old Sir Winston Churchill is in amazingly good health.

"I was very pleasantly surprised to find Sir Winston in such good form," said Green. He lunched with the wartime Prime Minister Monday at the residence of U.S. Ambassador John Hay Whitney.

"He was very alert and up to date on world affairs," Green said. "If anything, he was in even better shape than when I saw him last year."

Green is currently on a fact-finding tour of 15 NATO countries.

2 Die in Train Derailment; Blame Engineer for Speeding

MEDFORD, Mass. (AP) — A speeding Montreal-Boston express train — the Boston and Maine's Red Wing — derailed and was wrecked Tuesday at an overpass crossing in this suburban city six miles north of Boston.

Two were killed. More than a score were injured, none critically. The accident occurred at the site of a roadbed reconstruction project, where railroad officials said, a restricted speed limit was in force.

The railroad statement said the train was traveling at "excessive speed."

W. Paul Duggan, general chairman of the B&M local of the Brotherhood of Locomotive Firemen and Enginemen, said the tape of the automatic speed recorder on the engine indicated it was going 70 m.p.h.

Duggan said a sign posting a 15 m.p.h. limit because of track repairs at the scene had been removed. He said 70 m.p.h. was the normal speed for a train at that point.

The railroad statement said its preliminary inquiry indicated there

were no equipment defects. It added the train "was going at excessive speed in a restricted speed area posted and placed on bulletins last Friday and observed by all other trains passing through the area since Monday morning."

It was raining when the train left the tracks. The rails were torn up from the bridge back to a siding switch several hundred feet short of the overpass.

The other half of the engine and several of the derailed cars smashed one brick building flat, and ripped out a 50-foot section of a four-story brick warehouse of the Converse Rubber Co. More than 50 workers were in the building, but none was near the damaged section.

The train was made up of nine cars — two Pullmans and two coaches, two milk cars and the remainder mail and baggage cars.

Find 4 Dead In Airplane Lost 3 Days

KAHOAK, Mo. (AP) — Wreckage of a private plane carrying four Illinois persons was discovered in a muddy hay field Tuesday about 25 miles northwest of here.

The four plane Piper Tripacer had been missing since Sunday night on a flight from Liberty, Mo., to Chicago. Its last radio report was made to Kirksville, Mo., about 7 p.m. Sunday.

The victims were identified by Civil Air Patrol Wing Commander J. Orval Ladd of Kansas City as: Charles Chiaramonte of Melrose Park, a Chicago suburb, the pilot; his fiancée, Miss Carol Schierhorn; his cousin, Frank Chiaramonte; and Frank's wife, Freda, all of Forest Park.

Ladd said identification was made by papers found on the bodies.

Thief Grabs \$500,000 in Diamonds

DETROIT (AP) — A lone bandit fired tear gas into the face of a New York gem merchant Tuesday and escaped with a satchel which the merchant said contained cut and polished diamonds worth \$500,000 wholesale.

Max Monderer, 47, the merchant, said the man missed another \$50,000 worth of diamonds he carried in a case in his overcoat pocket.

Monderer told police he was a salesman for A. Monderer and Sons of New York. He lives at 320 Riverside Drive, New York City.

The salesman said the robbery happened at 8 a.m., just as he walked into the lobby of the Metropolitan Building in downtown Detroit to call on a customer. Several diamond merchants are located there.

Police Lt. Earl Miller said three or four persons who witnessed the incident bore out Monderer's report that a young man, 20 to 22, fired tear gas into his face, grabbed a satchel he was carrying, ran out and fled in an automobile.

Monderer's eyes were washed out at a hospital and he was treated for facial gas burns.

Although partially blinded and half choked by the gas, Monderer said he chased the bandit nearly a block but lost him in traffic after he jumped into an automobile that drove off.

Fear of Communism Costs U.S. Prestige in Asia: U Win

By ROBERT MacFARLANE
Daily Iowan Staff Writer

America's preoccupation with Communism has caused her prestige in southeast Asia to decline, U Win, Burmese ambassador to the United States, told members of the Iowa City Kiwanis Club Tuesday.

Southeast Asian countries, the ambassador said in a speech entitled "Southeast Asia Looks at the United States," do not sympathize with the American contention that communism presents a greater world threat than colonialism, and that peoples anxious to gain independence must "take it slow" in order to avoid falling prey to the Communists.

"We see the United States compromising some of its traditions and historic policies when it gives aid to colonial powers at the expense of peoples who are trying to gain complete independence," he said.

The American tendency to view some international political issues in terms of black and white, the diplomat said, is another factor which has damaged relations between the United States and southeast Asian countries. This is especially true of the neutrality problem, he said.

"Those who condemn neutrality often fail to notice that the United States observed such a policy for the greater part of its history," he said.

India, Burma and Ceylon, he continued, prize their independence above all else and some feel that some of it would be lost if they joined a military alliance. These countries want to avoid any kind of alliance which might involve them in war, he said, and believe that the best security for themselves is to be found in a position of non-commitment to either of the two big military camps.

On the more optimistic side, U Win assured the Kiwanians that a "great fund of goodwill" still exists between the United States and the southeast Asian nations. Much of this, he said, was built up after World

U Win
America Too Preoccupied

of the world's population, U Win said, have three main preoccupations: preservation of their freedom, abhorrence of war, and a desire to improve the living conditions of their people.

Raising living standards of their own people remains the greatest problem of these nations, the diplomat said, but progress has been slow and the peoples of southeast Asia want results in a hurry.

Unless something can be done to lift their huge populations from moral and physical degradation, U Win said, rising tensions in these areas may cause trouble not only for Asians but for the world in general. He cited a U.N. survey which showed that in recent years the gap between the lowest and highest standards of living in the world has widened, not decreased.

The Burmese ambassador's speech to the noon meeting of Kiwanians in the Jefferson Hotel was one of a series he is making during a nine-day visit to IOWA.

War II when Asian peoples became aware that this country was bringing pressure on the colonial powers to grant independence to their Asian colonies.

The lead among nations taken by the United States in efforts to establish the United Nations Organization strongly aided a favorable American position in Asia, U Win said.

Marshall aid, commodity loans and technical assistance to war-devastated European nations and nations of southeast Asia have also done much to build good relations in Asia for the United States, he said.

Foreign capital, of which the United States remains the most important source, is necessary to meet the challenge of economic and social improvement in southeast Asia, the ambassador said.

The nations of southeast Asia, containing one-fourth to one-third

AP Editors Begin Conference Today In New Orleans

NEW ORLEANS (AP) — The Associated Press Managing Editors Assn. will open the first business session of its annual convention today with a full discussion on the problem of secrecy in government.

First, the federal government's views will be presented by Murray Snyder, assistant secretary of defense. His talk will be followed by a speech by Rep. John E. Moss (D-Calif.), chairman of the House Government Information subcommittee. Moss' committee has been working to remove some of the barriers between the government and the press.

After the talks, the APME Freedom of Information Committee, headed by Mason Walsh of the Dallas Times-Herald, will present resolutions to the membership.

In addition, the annual report of the APME president, Frank Eyerly of the Des Moines Register and Tribune, is expected to be devoted largely to restrictions on freedom of information.

Inmate Has 120 IQ; Start Check of Mental Hospitals

DES MOINES (AP) — Gov. Herschel Loveless said Tuesday night he has learned of a case where a man with normal intelligence is being held at the Glenwood State School and has ordered a survey of all Iowa mental hospitals to see if there are other instances.

The governor cited the case of Mayo Buckner, 67, who has been a patient at the Glenwood school for the mentally retarded for 59 years.

The governor said the Buckner case "is a shame on humanity." He added that he has "the ball rolling" on a survey of institutions.

"We want to know as quickly as possible whether there are a number of such injustices in the hospitals," Loveless said.

Records in the Buckner case showed that: He was committed to the Glenwood institution when he was eight years old and was designated then

as "a medium-grade imbecile." Recent tests have shown that he has an IQ of 120. Average IQ is 100 and institution officials say Buckner never should have been sent to Glenwood.

Gov. Loveless said he planned to talk with Alfred Sasser, named superintendent at Glenwood six months ago.

Sasser said Tuesday night there are a number of other persons at Glenwood with normal intelligence and "They never should have been sent here at all." Stating that persons with an IQ above 70 do not need to be in an institution, Sasser said there are at least 178 patients at Glenwood with an IQ of 70 or higher.

These include a number of patients sent to the institution a number of years ago.

Sasser said there is little chance of persons with normal intelligence being committed to Glenwood now.

EVIDENCES OF OPPOSITION

MOSCOW (AP) — Soviet Fleet, Russia's official navy newspaper, charged Tuesday there still are evidences of opposition in the Soviet armed forces to political indoctrination by the Communist party.

CORN GRINDER ACCIDENT

DELOIT (AP) — Walter Fredrickson, 42, was killed late Tuesday in a corn grinder accident on his farm northwest of this town in Crawford County. His arm was caught in the grinder and he was dragged into the machine.

Ex-Southern Educator To Discuss Integration

"Integration of Negroes in American Society" will be discussed here Thursday by a sociologist who has had personal contact with the problem as a professor in the South. Morton B. King Jr., visiting lecturer at Northwestern University, will speak at 8 p.m. in Shambaugh Auditorium. A question and answer period will follow the lecture.

The lecture is being sponsored by the Sociology and Anthropology Colloquium in cooperation with the Graduate College. It is open free of charge to all interested persons, William Nardini, G. president of the Colloquium, said.

"We invited King because not only is he a professionally trained sociologist but he has been professor and chairman of the sociology and anthropology departments at the University of Mississippi where he gained considerable insight into this problem," Nardini said.

King has also taught at Mississippi State College, the University of North Carolina, Southern Methodist University, and Michigan State University.

The Sociology-Anthropology Colloquium is a group organized and run by the graduate students in the department.

Its objective, Nardini said, is social scientific research. "We are interested in inviting persons to the campus who have done significant research in the social sciences," he said.

"We do from time to time invite speakers who do not present research findings per se, but do discuss a topic of sociological interest," he explained.

He said King is an example of this type of speaker.

"We were interested in him because he had contact with the problem at Mississippi University," Nardini said, "and he can talk about this problem which is being so widely discussed."

Religion Instructor To Attend Dallas Theological Meet

James C. Spalding, instructor in the SUI School of Religion, will leave Thursday to attend a meeting of the Southwest Theological Discussion Group in Dallas, Tex.

The discussion group, subsidized by the Hazen Foundation, will meet Friday and Saturday at the Perkins School of Theology at Southern Methodist University.

Comprising the group are approximately 25 men from Texas, Oklahoma and Missouri, whose primary interests are in theology. Spalding, who came to SUI in 1956, received an invitation to join the discussion group when he was an instructor in religion at Trinity University in San Antonio, Tex.

The main line of discussion will be the role of tradition in various periods of history of Christian thought, Spalding said.

Ike To Give Third Speech On Security

AUGUSTA, Ga. (AP) — President Eisenhower will make the third in a series of "chins-up" speeches to the nation from Cleveland Tuesday night, Nov. 26.

The speeches, Eisenhower said last month, are intended to bolster America's confidence in its national security program in the light of Russian advances in the development of missiles and other space weapons.

The President made the first in the series of talks from Washington Nov. 7. The second he delivered in Oklahoma City on Nov. 13.

Eisenhower's vacation headquarters announced plans Tuesday for a third speech in the series.

The President's talk, which will be carried nationwide on television and radio, will be for 30 minutes starting at 9 p.m., EST. He will speak from Cleveland's Public Auditorium and will be introduced by George M. Humphrey, former secretary of the treasury in the Eisenhower Administration.

James C. Hagerly, White House press secretary, announced that the theme of Eisenhower's Cleveland speech will be "The Value of International Cooperation in Our Nation's Security."

Three Jailbreakers From Indiana Captured

CROWN POINT, Ind. (AP) — Police have captured three of seven prisoners who escaped from the Lake county jail early Monday, including two of three accused slayers, but an admitted sex killer, possibly the most dangerous, was still at large.

The latter is George R. Brown, 25, East Gary, object of one of the most extensive manhunts since the days of Indiana's desperado John Dillinger. Sheriff Jack West gave "shoot-to-kill" orders in the hunt for the four fugitives.

BETTER LIGHT for BETTER SIGHT

makes homework easier

Your child's homework can suffer from conditions of poor lighting — so check up NOW on lighting in the study area. Poor light robs visual health through eyestrain, fatigue and poor posture. Eyesight is priceless. Guard it with better light — it costs so little!

Scientific requirements for good lighting:

- The correct amount of light — at least 150 watts for reading or close work.
- Correct diffusion of light — proper shading to avoid glare and deep contrast of shadow.
- Correct placement of light — planned to conserve precious eyesight. Use the 15-inch "rule" as an approximate guide for the average right-handed child. Place a lamp with a shade 15-inches high 15-inches to the left of the work center on table or desk.

SEE YOUR LIGHTING EQUIPMENT DEALER FOR SUGGESTIONS ON PROPER LIGHTING FOR YOUR CHILD'S STUDY AREA

Murray Fellows Named

FIVE SUI STUDENTS were named "Murray Fellows" and presented \$500 checks by Allin W. Dakin, administrative dean, in a ceremony Tuesday in Old Capitol. Dean Dakin relates the "Horatio Alger" story of John F. Murray to the recipients — Susan Irene Brender (seated), A4, Iowa City; (standing, from left), Deryl Fleming, A4, Graettinger; Edward C. Halbach, L4, Clinton, and James E. Arens, C4, Lawler. John Senneff, L4, Mason City, named as the fifth Murray Fellow, was out of the city at the time of the ceremony. Based on scholarship, leadership and promise of ability in the student's field of study, the Murray Scholarships were made possible by the late Mrs. Bessie Dutton Murray of Wheatland through a trust fund of \$125,000 set up in 1945.

BELL TELEPHONE SYSTEM

Opportunities for Majors

in
Engineering • Physical Sciences

Representatives will be on the Campus Thursday and Friday, November 21 and 22.

BELL TELEPHONE LABORATORIES
Research and development in electrical communications, electronics, microwaves, acoustics, switching systems for the Bell System and national defense projects.

OPERATING TELEPHONE COMPANIES
Engineering, construction, operation and maintenance of communication facilities. The following companies will be represented on the campus.

- Northwestern Bell Telephone Company
- Illinois Bell Telephone Company
- American Telephone and Telegraph Company Long Lines Department

WESTERN ELECTRIC COMPANY
Manufacturing, purchasing, installation and distribution of equipment and supplies for the Bell System and national defense projects. Military engineering service.

SANDIA CORPORATION
Research and development in electronics, mechanics, physics and mathematics in nuclear weapon ordnance.

Please make arrangements for interviews at the Engineering Library
