## NATO Agrees on IRBMs, Offers To Talk to Soviets

PARIS (AP) — The NATO conference adopted a nuclear-age defense strategy of U.S. design Thursday to meet the Soviet menace.

The 15-nation Atlantic Alliance also offered in a windup communique to meet the Russians on the foreign minister level to discuss disarmament, an issue now stalled in the United Nations. British sources suggested later that other issues also might be discussed.

President Eisenhower hailed the decisions as bringing the ideal of peace a little closer as he boarded the presidential plane Columbine III for the overnight journey to Washington.

There he will report to the Amer-

ican people Monday over radio and TV at 7:30 p.m.

Secretary of State John Foster Dulles called a strategy of victory the plans to gird NATO nations in Europe with U.S. 1,500-mile range missiles and nuclear arms, while keeping open the door for talks with Moscow.

The results of the four-day meeting of Government heads were interpreted by diplomats as a victory for both those who wanted NATO to stress negotiations, and those who wanted to concentrate on military defenses.

West German Chancellor Konrad Adenauer, advocate of trying all means of reaching agreement with the Kremlin, said he was delighted with the results of the conference.

Adenauer's position for negotiation was backed by Prime Minister Macmillan of Britain, Premier Felix Gaillard of France, Premier Einar Gerhardsen of Norway and other European leaders.

The final communique called for full speed ahead in equipping NATO with nuclear stockpiles and intermediate-range ballistic missiles. The step was called necessary because the Communist rulers had given clear warning they intended to rule the world by force of subversion.

The U.S. weapons are expected to begin moving to NATO nations within a year or 18 months. Base sites will be negotiated. This leaves such reluctant nations as Norway and Denmark free to refuse the missiles.

At the request of Norway, backed by the Danes, the conference emphasized that NATO was so arming only because the So-

viet Union forced it to.

The communique also made these main points:

The NATO nations are ready to discuss any reasonable proposal to ease world tensions and promote progress.

There is a rising desire for freedom in the Communist satellites and if the free nations are steadfast, the totalitarian menace that now confronts them will eventually recede.

NATO must take account outside its own area because Soviet aims are worldwide.

NATO calls on the Soviet Government to keep its pledge at the 1955 Geneva summit meeting to unify Germany by means of free elections.

NATO nations support the independence of Middle East nations and the stability of this important area is vital to world peace.

Further improvement in political consultation among the allies is necessary and will be achieved.

NATO must achieve as high a degree of standardization and integration of weapons as possible in all fields.

## Criticism Of Summit Talks Hits Dulles

WASHINGTON (AP) — Chairman Theodore Green (D-R.I.) of the Senate Foreign Relations Committee said Thursday Secretary of State John Foster Dulles will be asked to tell the committee just what happened at the NATO meeting in Paris.

Results of the North Atlantic Treaty Organization sessions have been obscured "by a flow of words," Green said in a statement.

Several other Democratic senators endorsed the idea of trying for new disarmament talks with Russia, one of the proposals growing out of the NATO meeting. A Republican colleague said such talks would just be a waste of time.

Sen. Estes Kefauver (D-Tenn.) said that after he had read the NATO council's communique, he was "more disheartened by the apparent lack of positive accomplishments of the NATO council meeting than I was by the launching of the Soviet Sputniks."

On the other hand, Sen. Cotton (R-N.H.) said the results impressed him as at least "reasonably satisfactory."

## Vote of Confidence To French Premier

PARIS (AP) — Premier Felix Gaillard won a new vote of confidence from the French Parliament Thursday night.

The vote, which also approved first reading of Gaillard's 1958 French national budget, was 264-190.

The budget now goes to the upper chamber — the Council of the Republic — for consideration, after which it will come back to the National Assembly, or lower chamber, for second reading.

This permits owners of property damaged by tornadoes to apply for SBA loans at three per cent interest for repair and rehabilitation. Six Missouri counties were given similar ratings.

**THE WIND-TOSSED** areas looked as though they had undergone heavy bombing.

Residents had to boil their drinking water.

The State Health Department sent serum and vaccine to the hard-hit districts.

Midwestern headquarters of the Red Cross at St. Louis reported it had assigned 20 rescue workers to the stricken communities.

**THREE MOBILE** canteens were dispatched to Mount Vernon and a first aid truck to Wood River, Ill.

Mount Vernon, about 60 miles northeast of Murphysboro, felt the fury of a twister or twisters that literally bounced through the city of 16,500.

The number of injured in Murphysboro was estimated by police at 200. Mount Vernon reported 40 injured, 75 to 100 houses demolished or badly damaged and property loss of one million dollars.

**AT MAGNOLIA**, Ark., two persons died and eight were injured in two tornadoes. During one storm a man suffered a heart attack. Several dwellings were reported destroyed.

The Weather Bureau also forecast a developing storm, carrying heavy snow, for parts of the central Midwest. The new threat, knifing northeastward across the Mississippi Valley was expected Thursday night and today.

# SUI Drivers To Face Snow; Twisters Hit Three States

## Deaths Rise In Second Day Of Tornadoes

### New Storms Impede Aid; Possible Floods

MURPHYSBORO, Ill. (AP) — Tornado winds bearing heavy rain moved into twister-torn southern Illinois again Thursday night, creating new misery for this devastated area.

Following on the heels of tornadoes that Wednesday night killed 12 persons in southern Illinois and another in eastern Missouri, a new storm lashed Thursday night at the towns of Elkville, Royalton and Waltonville.

**ELKVILLE** is just 15 miles northeast of Murphysboro, where nine of Wednesday night's storm deaths occurred. Royalton is in the same general area. Waltonville is near Mount Vernon, another city where devastation was great Wednesday night.

No injuries were reported immediately as a result of Thursday night's blast by winds described by state police as of tornadic ferocity.

**A SMALL GARAGE** was wrecked at Elkville and some outbuildings knocked down at Royalton and Waltonville. Utility wires and some trees also were reported felled.

In all, a total of 15 lives were lost in tornadoes that roared through the southern Illinois-eastern Missouri area Wednesday and in Arkansas Thursday. At Magnolia, Ark., two tornadoes caused two deaths and injured eight persons about noon Thursday.

**FLOOD CONDITIONS** — not believed to have reached the critical stage — developed in some sections of southern Illinois as heavy rains drenched the area.

State police said that surface water had spread over some roads. A foot of water reportedly covered Route 148 between Mount Vernon and Waltonville.

The deluge was hampering efforts of officials in the various stricken towns to conduct cleanup operations and made life even more miserable for the hundreds left homeless by Wednesday's storm.

**MORE THAN** 250 persons were injured, and estimates of property losses ran into the millions.

Further storm damage was a possibility. The Weather Bureau said tornadoes and severe thunderstorms were expected during the night in extreme southern Illinois.

Meantime, in Washington, the Small Business Administration designated five of the counties in southern Illinois disaster areas. They are Jackson, Jefferson, Madison, Randolph and Perry.

This permits owners of property damaged by tornadoes to apply for SBA loans at three per cent interest for repair and rehabilitation. Six Missouri counties were given similar ratings.

**THE WIND-TOSSED** areas looked as though they had undergone heavy bombing.

Residents had to boil their drinking water.

The State Health Department sent serum and vaccine to the hard-hit districts.

Midwestern headquarters of the Red Cross at St. Louis reported it had assigned 20 rescue workers to the stricken communities.

**THREE MOBILE** canteens were dispatched to Mount Vernon and a first aid truck to Wood River, Ill.

Mount Vernon, about 60 miles northeast of Murphysboro, felt the fury of a twister or twisters that literally bounced through the city of 16,500.

The number of injured in Murphysboro was estimated by police at 200. Mount Vernon reported 40 injured, 75 to 100 houses demolished or badly damaged and property loss of one million dollars.

**AT MAGNOLIA**, Ark., two persons died and eight were injured in two tornadoes. During one storm a man suffered a heart attack. Several dwellings were reported destroyed.

The Weather Bureau also forecast a developing storm, carrying heavy snow, for parts of the central Midwest. The new threat, knifing northeastward across the Mississippi Valley was expected Thursday night and today.

A Modern Christmas Carol

## Evashevski To Stay at SUI; Regards Iowa 'Native' State

Forest Evashevski announced Thursday he will remain at Iowa as head football coach.

The announcement came in the midst of reports linking him to the coaching vacancy at Texas A & M.

Evashevski said he had conferred Thursday with State University of Iowa President Virgil M. Hancher and that the football problem at Iowa was largely resolved. He said:

"After my conference with President Hancher, I have decided to remain at Iowa as head football coach and hope to continue coaching for at least the duration of my contract."

Evashevski, who came to Iowa in 1952, has six years remaining on a 10-year contract which pays \$17,500 a year. It was learned that Evashevski recently turned down a proposed salary raise after reports arose that he might be leaving Iowa.

Asked about this Thursday, Evashevski said:

"My remaining at Iowa has never been a question of money. I feel that I am being adequately compensated. I would not accept a raise in pay at this time."

Evashevski also said:

"After six years here I now regard Iowa as my 'native' state and I feel that my loyalty to this state and its fine people is too strong to move elsewhere."

"My health has always been a strong factor in any decision regarding my continued coaching. After a complete examination by physicians I have been assured that coaching will in no way endanger my future health."

Texas A & M authorities confirmed Wednesday that the college had been in contact with Evashevski.

only by extremely severe weather, which is not expected. About 2,500 students will ride trains home, the officials said.

Meanwhile, in Chicago, the National Safety Council said 100 Americans may die in traffic accidents during the 30-hour period from 6 p.m. Tuesday to midnight Wednesday.

The council figures 45 million persons will travel on streets and highways during this time, the Associated Press reported.

Motorists were urged to be careful and considerate.

## Mitchell Sees Fewer Jobs, Strikes in '58

WASHINGTON (AP) — Secretary of Labor Mitchell Thursday forecast economic troubles ahead in 1958, including fewer jobs and more strikes. But he expressed the view the nation will see an upswing around midyear.

Mitchell told a news conference 1958 probably will wind up as a reasonably good year, though not as good as the recent consecutive years of prosperity.

"I don't think we're in for a serious economic situation," Mitchell said. "The economists I've talked to believe they see an upturn somewhere around the middle of 1958."

Mitchell said the usual winter employment decline will probably be worse this time, although he wouldn't go so far as some economists who predict as many as six million unemployed by March. The Government has reported 3,200,000 unemployed in November.

**Final Contract Let  
For Coralville Dam**

A \$54,000 contract was let Thursday in Coralville for final work on the Coralville dam reservoir, George L. Rhoer, resident engineer here for the Army Corps of Engineers, announced Thursday night.

The project calls for clearing of timber from the dam to the bridge on new Highway 218. Work is expected to start within 15 days and be completed before June 30, Army engineers said.

The dam itself has been completed and was scheduled to go into operation early next year. But operation was delayed about six months, Rhoer said, after the Iowa State Conservation Department asked that the water level capacity in the reservoir be raised.

## Farm Action Is Doubtful, Says Cooley

WASHINGTON (AP) — Prospects for enactment of major farm legislation at the next session of Congress were called discouraging Thursday by Rep. Cooley (D-N.C.), chairman of the House Agriculture Committee.

Collapse of the once-united House farm bloc, partisan politics, and clashing differences between Congress and Secretary of Agriculture Benson all point to a legislative stalemate, he indicated.

Cooley told newsmen, however, that his committee will meet soon after Congress reconvenes Jan. 7 to consider proposals which would countermand Benson's dairy price support order of Wednesday.

He made no predictions on the outcome, however.

**TROOPS LEAVE LITTLE ROCK**

LITTLE ROCK, Ark. (AP) — The Army Thursday removed all soldiers from Little Rock, Central High School and a military spokesman said no troops would be on duty during the Christmas holidays.

A token force of federalized Arkansas National Guardsmen has been on duty to enforce a federal court order for integration.

## Snow Expected On Iowa Roads Mercury Low

### Train, Air Travel Seen To Be Normal

SUI students leaving Iowa City by auto for the 2-week Christmas holiday may face hazardous driving conditions if they head northwest, southeast or northeast.

The Weather Bureau said late Thursday that snow began falling in northwest Iowa and is expected to reach an accumulation of four to five inches.

In the southeast, light rain or snow is forecast. It is expected to end today, weathermen said.

Winds in the northeast which may reach 20 miles an hour are expected to make driving conditions difficult, the bureau said.

Temperatures are expected to drop somewhat today, lessening the chances of melting snow. The highs for north Iowa are forecast in the 30s and those for the south in the low 40s.

Iowa City police reported road conditions in Iowa as normal Thursday afternoon.

Airport officials, who expect 60 to 70 students to use air travel home, said Thursday they expect no weather difficulties. Flights were cancelled here Wednesday because of heavy fog.

Rock Island Railroad officials said train travel would be hindered

## Stadium Fence Causes Move Of 6 Families

Families of six SUI students living in Stadium Park will be moved next month to "avoid any possible danger" from work on the new stadium pressbox. SUI housing officials announced Thursday.

Wives of the students complained to University and Iowa City officials last week that a high board fence erected in front of their apartments prevented rapid access in case of fire.

T. M. Rehder, director of SUI Dormitories and Dining Services, said the students will be moved at no expense to them. They will be relocated in barracks apartments at other student housing areas, Rehder said.

The board fence was built Nov. 26 by W. A. Klinger Inc. of Sioux City, contractors for the pressbox. H. J. Klosterman, the company's construction superintendent, said last week the fence was built to protect children in the area once construction work begins.

Mrs. Daniel Berry, spokesman for the women and chairman of the married student wives committee, said last week she complained about the fence Dec. 2 to Robert Briceland, assistant manager of SUI married student housing, and Iowa City Fire Chief Al Dolezal.

The fence blocks a cinder drive between Iowa Stadium and the barracks apartments. Mrs. Berry said she complained that if a fire broke out in one of the apartments facing the fence, fire trucks would have to reach the area from the rear.

She said Dolezal came out and looked at the fence and told her there "wasn't anything he could do about it."

Mrs. Berry said she talked later with Howard J. Yambura, manager of SUI married student housing. "I told him we were upset about the fence," she said.

Yambura said after his talk with Mrs. Berry that the pressbox is being built by the Athletic Department and, as far as married student housing's jurisdiction in the matter is concerned, "that's the way it stands."

Mrs. Berry said residents in her area received letters from married student housing after the fence was built saying it "would be an inconvenience."

Mrs. Berry said Thursday she was "satisfied" with Rehder's arrangements. "I think it'll work out all right," she said.

**Western economists** consider it likely, in addition, that the prices charged the Ministry of Defense for war materials produced in Soviet factories are kept at levels much below the cost of their production — with the consequent factory deficits covered out of appropriations "for the national economy."

Zverev set total Government expenditures in his budget message to the Supreme Soviet at 8 per cent above the 617 billion rubles spent during 1957.

## \$4.5 Billion For Soviet Science

MOSCOW (AP) — Finance Minister Arseny Zverev told the Soviet Parliament Thursday the USSR will spend a total of 18.2 billion rubles in 1958 on scientific research.

At the official exchange rate of four rubles to a dollar, this is the equivalent of about \$4½ billion.

Zverev also told the Supreme Soviet 1958 science research spending would increase by 1.8 billion rubles — or \$450 million over 1957.

Zverev announced that 1958 appropriations for the Ministry of Defense are scheduled at 96.3 billion rubles for 1957.

He termed this small reduction a "reflection of the tireless efforts of the Soviet Union in directing the strengthening of peace and friendship among peoples."

In Soviet budgetary practice, Ministry of Defense appropriations include only a part of actual total spending for military purposes. Other forms of military spending are hidden in other appropriations and cannot be estimated.

Western economists consider it likely, in addition, that the prices charged the Ministry of Defense for war materials produced in Soviet factories are kept at levels much below the cost of their production — with the consequent factory deficits covered out of appropriations "for the national economy."

Zverev set total Government expenditures in his budget message to the Supreme Soviet at 8 per cent above the 617 billion rubles spent during 1957.

Future Student Housing

THIS IS THE PRELIMINARY architectural sketch of the planned Hawkeys Apartments that will house 192 married student families. The financing for the apartments, authorized last week by the Iowa State Board of Regents, will begin in the near future. T. M. Rehder, Director of SUI Dormitories and Dining Services said Thursday. The project will cost an estimated \$2.6 million, university officials said. It is a modification of the original plan for 500 apartments. University officials said last week they were unable to obtain sufficient funds to finance the 500-apartment project. Plans call for the housing units to be built on a 240-acre tract one mile west of Iowa City.

# Comiskey Denies Sister's Charges

## Name Hula Bowl Starters

HONOLULU (AP) — All-America collegiate players and 12 of the National Football League's top professionals take the spotlight in the post-season bowl lineup with the announcement Thursday of the rival rosters for Hawaii's 12th annual Hula Bowl game.

The college all-stars, who have taken 50-21 and 51-20 thumpings from the Hawaii All-Stars in the last two games, hold a 13-5 edge

## Not Having Your Head in The Game

TENNESSEE FORWARD, DON REEVERTS (34), had a head like a balloon in the Volunteers' game with Bucknell University; but, the balloon turned out to be a basketball. Reeverts grabbed the ball after a Bucknell player missed a fieldgoal attempt. Bucknell players are Jack Flanagan (30) guard, Bob Ericsson (31) forward, and Ellis Harley (32) forward. Tennessee won the opening game of the Carrousel tournament in Charlotte, N.C., 81-79.

## Vice-President Says He Didn't Seek Top Job

CHICAGO (AP) — The brother vs. sister feud over control of the Chicago White Sox Thursday brought a counter charge from vice president Charles Comiskey against Wednesday night's blast at him by his sister, Mrs. Dorothy Rigney.

Comiskey, 32, issued a long formal statement at the office of his attorneys in rebuttal to Dorothy's charges that Chuck had used "rule or ruin" tactics in an effort to control the club. Mrs. Rigney is club secretary-treasurer and is administering the Comiskey estate.

Comiskey denied Mrs. Rigney's assertion that he tried to push her mother, the late Mrs. Grace Comiskey, aside so he could become club president in her stead in 1952.

"I never asked my mother to make me president or attempt to 'push her aside,'" Comiskey's statement said. "I resigned in 1952 because I could not work out satisfactory salary arrangements." He said he returned to the club later in 1952 at his mother's request.

The statement also credited Thomas J. Sheehan, former family attorney, for the help and guidance which his sister claimed Sox counsel Roy Egan, her attorney, provided to keep the club for the Comiskies.

"I am definitely not grateful to my sister's attorney for trying to drive a wedge between us," Chuck said. "This referred to his sister's assertion Chuck was 'ungrateful' for past aid from her and Egan."

Chuck's statement reiterated his belief that Dorothy was the "victim of bad advice" from Egan which triggered his sister's blast Wednesday night.

The current Comiskey squabble ballooned into a public battle this week during a probate court hearing on Chuck's petition to get control of 1,781 shares of stock willed him by his mother, who died Dec. 10, 1956. Wednesday, Judge Robert J. Dunne restrained Mrs. Rigney from voting for 60 days any of the 4,062 shares she holds as executrix of the estate.

That resulted in indefinite postponement of the annual club stockholders' meeting which had been scheduled Thursday and at which presumably a new president to succeed Mrs. Comiskey would have been elected.

Comiskey now has 1,694 shares of stock, including 564 shares held in trust by his wife, Donna Jo. Although he does not get this stock until he becomes 35, his wife and a bank received court release Thursday to vote such stock in any club business.

## Klein Says He Will Definitely Play for Bears

DECATUR, Ill. (AP) — Dick Klein, 250-pound right tackle who helped bolster the Iowa line the last two years, has dropped out of school and hopes to play with the Chicago Bears next fall.

Klein now works for the A. E. Staley Co. He said he quit college for personal reasons. He had one year of eligibility remaining. "I will be playing pro football next year and it definitely will be with the Bears," he said.

He was drafted by the Bears two years ago. Because he attended Georgia and then served in the Navy before coming to Iowa, his original college class was graduated in 1956.

George Halas, owner of the Bears, said in Chicago he would not attempt to sign Klein until after he had conferred with Iowa officials. He said he wants to assure them he did not influence Klein's decision to leave the school.

**BEERLESS BETTORS**

DETROIT (AP) — Detroit horse racing fans may find themselves without any beer to cry in next season.

The State Liquor Control Commission has ruled against renewing the liquor license of Sports-service, Inc., which holds the bar concession at the Michigan Racing Assn.'s Detroit race course.

## Indicate Sanders To Get Aggie Job

COLLEGE STATION, Tex. (AP) — Henry (Red) Sanders wound up talks with Texas A&M College officials regarding the coaching job Thursday with no official announcement forthcoming. But all indications pointed to the man from UCLA becoming head football man of the Aggies if he wants to.

Sanders would succeed Paul ('Bear') Bryant, who is returning to his alma mater at Alabama after the Aggies play Tennessee in the Gator Bowl at Jacksonville, Fla., Dec. 28.

Texas A&M college sources, who did not wish to be named, said "final okay has to come from Sanders."

## Could Drop Seixas From Doubles Play

MELBOURNE, Friday (AP) — Captain Bill Talbert sent out an SOS Friday for a lefthander to work with his U.S. Davis Cup squad and at the same time hinted he may gamble in the doubles to give Vic Seixas a rest on the second day.

"I have asked Danny Pails, our professional, to try to secure us a southpaw," Talbert said. "This is to get us accustomed to playing Mervyn Rose."

He added Pails has his eye on a young schoolboy in a junior tournament at Kooyong Stadium. "He has a very good serve," said Talbert. "We may use him."

## Red Rocha Is Pistons' New Head Coach

DETROIT (AP) — Red Rocha, former NBA player, Thursday was named head coach of the hard-pressed Detroit Pistons. He succeeds Charley Eckman, whose forced resignation from the National Basketball Assn. team was announced Wednesday.

Announcing the surprise choice, Fred Zollner of Ft. Wayne, Ind., wealthy owner of the Pistons, described Rocha as "a very smart ball player with the Pistons last year as a forward."

Rocha, 34, has had no coaching experience but both Rocha and Zollner said they did not think this would be a handicap.

Zollner said Rocha was given a contract running until next Oct. 1 with an automatic renewal for one year as long as the team shows "progress." He said the salary will be the same as Eckman's but he did not disclose the figure.

The former Oregon State player broke into pro basketball in 1947 at St. Louis, played one season with Baltimore and four seasons with Syracuse before joining the Pistons last year as a forward.

Rocha, 34, has had no coaching experience but both Rocha and Zollner said they did not think this would be a handicap.

Zollner said Rocha was given a contract running until next Oct. 1 with an automatic renewal for one year as long as the team shows "progress." He said the salary will be the same as Eckman's but he did not disclose the figure.

## Football Stars in 2 Sizes

THIS PICTURE OF THE BIG AND THE SMALL was taken at the Stanford practice field Thursday, where members of the West Shrine team are working out. The East-West Shrine football game will be Dec. 28 at Kezar Stadium in San Francisco. Bobby Oliver (76), Baylor tackle, is shown with his arm around the neck of Stuart Vaughn of Utah. At right, Larry Cowart (59), Baylor center, rests his arm around neck of Stanford's Jack Douglas. Iowa's Alex Karras and Jim Gibbons will also play in the Shrine game.

**STANFORD WON'T WITHDRAW**

SAN FRANCISCO (AP) — Stanford's board of trustees Thursday voted not to withdraw from the Pacific Coast Conference at this time.

## Two Charged In Connection With Holdup

DUBUQUE (AP) — Two Cedar Rapids men held in connection with the \$1,669 holdup of the New Vienna Savings bank south of here Wednesday were charged Thursday with entering a bank with intent to rob.

The men are Donald Roloff, 38, a house painter, and Theodore Grapes, 45, a factory worker. They were arraigned before Justice of the Peace Thomas Barrett, Dubuque, who set bond at \$25,000 each.

Grapes asked for a preliminary hearing and requested that a lawyer be appointed to defend him. The hearing was set for 11 a.m. Monday.

Roloff waived preliminary hearing and was bound over to the January term of the grand jury.

Assistant County Attorney William Timmons said any additional charges against the men, who were being held in the county jail, would be made by the grand jury.

## Army Chief Backs Santa 100 Per Cent

WASHINGTON (AP) — Gen. Maxwell Taylor wants everybody to be sure of one thing this year — he is "100 per cent behind Santa Claus."

The Army chief of staff grinned Thursday at some ribbing questions at a National Press Club luncheon. They were inspired by his directive before Christmas last year discouraging the exchange of Christmas cards among officers in the Pentagon.

He said then his chief aim was to avoid burdening the Pentagon mail system.

"By the time some of you people had that on the air," Taylor said, "Taylor was against all Christmas cards. By the next day, Taylor was against Christmas."

"Now I want this understood — I am 100 per cent behind Santa Claus. I am for him every minute. But if any Army officer in the Pentagon sends me a Christmas card, he is going to have to justify it to me."

## Audrey Faints At Scene Of Movie Birth

HOLLYWOOD (AP) — Actress Audrey Hepburn and firmland attorney Greg Bautzer collapsed Wednesday night after a realistic birth scene at the premiere of the movie "A Farewell to Arms."

The scene showed Jennifer Jones in the throes of agony.

Both Miss Hepburn and Bautzer left their seats to head for the lobby. The actress fainted on the stairs. Bautzer collapsed in the lobby. Both were soon revived.

Miss Hepburn's husband, actor Mel Ferrer, said before taking her home: "The war scenes and the delivery scene apparently were too much for her."

Friends said Bautzer had been suffering from flu.

The movie was adapted from Ernest Hemingway's novel.

## Government Offer Too Low—So She Gives Land Away

RICHMOND, Va. (AP) — A 68-year-old Negro woman told U.S. District Court Thursday she will give up without compensation her 50-acre farm near a dam in southern Virginia, rather than accept a Government offer of \$3,200 for the property.

Mrs. Eliza Terry, only remaining resident on land taken by the Federal Government for the John H. Kerr Dam near Clarksville, agreed to move from the property next week.

"I'll move this week," she said, "but they can have the money. They seem to need it."

Mrs. Terry, who said she supports herself and her 19-year-old son by raising livestock and renting farm land, first refused the Government offer in 1955.

She said the property was worth at least \$5,000. Mrs. Terry says she has lived in the same six-room house since she was 5 years old.

She was urged by the court Thursday to again consider the Government offer and was told she would have until Jan. 15 to vacate.

The money, court officials said, will be held for five years, after which it would revert to the Treasury.

**PSYCHIATRIST AT SUI**  
A noted psychiatrist will speak on the "Psychoses of Early Childhood" Saturday at SUI's Psychopathic Hospital in a program designed to bring new information to the personnel who staff Iowa's mental health institutions.

Dr. J. Franklin Robinson, director of the Children's Service Center of Wyoming Valley, Wilkes-Barre, Penn., will be the lecturer. He completed his residency in psychiatry at SUI in 1933.

# Eighth Thor Missile Launched, Called Success in Washington

CAPE CANAVERAL, Fla. (AP) — An Air Force Thor ballistic missile rose beautifully into the sky Thursday and flew presumably hundreds of miles out over the Atlantic.

It was the third of America's big guns — the giant, long-reach weapons of push-button war — to be test-launched here this week.

Never before has this Missile Test Center disposed of so much destructive power so swiftly. And it was as beautiful a flight to watch, on a perfect sunny afternoon, as veteran observers here have known.

Within 25 minutes of the launching, the Defense Department in Washington announced that the Thor intermediate-range ballistic

missile — IRBM — had been test-fired.

"The missile flew its prescribed course and landed in its pre-selected impact area," the announcement said.

That was Pentagonese for a successful launch, a successful flight, a successful everything.

The Thor, an estimated 60 feet long and weighing probably more than 50 tons — the exact figures are secret — was designed to deliver a nuclear warhead against targets up to 1,500 miles distant. Its average speed over that range would be near 7,000 miles an hour.

There have been seven previous Thor firings here, three of them called wholly successful. One of the missiles flew 3,645 miles, more than twice its designed range.

The Air Force gave no indication of the range, altitude and size of target assigned for Thursday's test.

The diminishing ball of flame — trailing smoke for miles — could be seen for about two and a half minutes.

The Air Force Atlas intercon-

THIS THOR Intermediate Range Ballistic missile was successfully test-fired Thursday from Cape Canaveral, Fla. The Air Force says the Thor flew its prescribed course and landed in the pre-selected area.

## Rackets Group Gets Leads On Court 'Fixes'

WASHINGTON (AP) — Sen. John McClellan (D-Ark.) said Thursday the Senate Rackets Committee may extend its investigation of alleged Teamsters Union violence and the activities of Judge Raulston Schoolfield of Chattanooga, Tenn.

McClellan, chairman of the committee, reported that questioning of three witnesses at an executive session Thursday had produced further leads and clues.

The senators have received testimony linking Judge Schoolfield's name with alleged payoffs totaling thousands of dollars to "fix" cases in his criminal court.

Witnesses swore last Tuesday that \$18,500 of Teamsters funds were "passed" to influence a 1953 case in which Schoolfield ordered a jury to acquit 12 Teamsters officials accused of conspiracy to commit violence.

In Chattanooga Thursday the judge said, "I am preparing a reply to this, but I want to get all of the facts in front of me and be thoroughly conversant with everything about it."

Newsmen asked McClellan if he had decided not to subpoena Schoolfield for questioning. He replied, "I have not said that." He added the door was still open if the judge wanted to volunteer some testimony. Schoolfield was invited to appear before the committee this week but did not show up.

Robert F. Kennedy, committee counsel, said he talked with Schoolfield Tuesday night and at that time the judge indicated the press of court work would not permit him to come to Washington. McClellan has indicated his committee may lack authority to subpoena a judge.

McClellan was asked whether the committee might go into the matter of "jury irregularities." He replied only that this was possible "in areas where management-labor relations are involved." The committee's assignment is to investigate improper activities in the management-labor field. Stone, one of Thursday's witnesses, headed a special grand jury which in 1951 investigated charges of jury irregularities in the Chattanooga area.

## Safe Breaking Suspect Is Held In Cedar Rapids

CEDAR RAPIDS (AP) — Alan Randall, 28, of Cedar Rapids, was arrested here Thursday and charged with breaking and entering in connection with a \$2,300 safe robbery at the tavern his father operated.

Authorities said Randall and two confederates entered the Green Gables Tavern here last September and robbed the safe.

Police identified one of the suspects in the burglary as Tom Blake of Rochester, Minn. They said officers left for Rochester Thursday night to pick up Blake.

Also sought is an unidentified man, believed living in California.

Detective Capt. John Kuba said Randall and Blake will be questioned concerning other safe burglaries in the Cedar Rapids area.

## Secret Agent For Trujillo Is Sentenced

WASHINGTON (AP) — Attorney John Joseph Frank Thursday received a jail sentence of from eight months to two years for acting illegally as an agent of Generalissimo Rafael Trujillo and the Dominican Republic.

Frank, 42, former FBI agent and attorney for the supersecret Central Intelligence Agency, was convicted by a jury in U.S. District Court Dec. 9 on four charges of violating the Foreign Agents Registration Act.

The crux of the allegations was that Frank acted on behalf of Trujillo and the Dominican Republic in this country, but failed to register with the Justice Department.

U.S. District Judge James R. Kirkland, who passed the sentence, allowed Frank to remain free under \$10,000 bond pending an appeal.

Frank, a 6-foot-2, 217-pound former football star at Georgetown University, thanked the judge for allowing him to remain free on bond while he appeals.

William H. Hundley, chief prosecutor in Frank's trial, asked for a stiff sentence.

Frank was indicted by a grand jury last May during an investigation into the disappearance of Jesus Maria de Galindez and Gerald L. Murphy.

Hundley described Frank as perhaps the only man within the court's jurisdiction who could help solve the disappearances.

De Galindez, a critic of Trujillo, disappeared March 12, 1956, after leaving a class at Columbia University where he taught.

Murphy, 23, a flier from Eugene, Ore., disappeared in the Dominican Republic the following Dec. 3. Some reports said Murphy, at the time a pilot for the Dominican Government airline, had boasted of knowledge of the circumstances of De Galindez' disappearance.

Renting of an airplane by Murphy at Linden, N.J., March 6, 1956 figured in Frank's trial. Air Force Sgt. Harold L. French testified that he went to the airport with Murphy and that they met Frank, who was introduced by Murphy as "Mr. Kane." French said Frank was in the company of two Dominicans, both identified as former consular officials in New York.

French further testified that he helped Murphy install additional gasoline tanks on the plane to increase its range. Murphy returned the plane about three weeks after leaving it. In court Hundley spoke of the plane being fitted out for a strange venture, but never mentioned De Galindez in that connection.

Frank's chief counsel, Edward L. Carey, pleaded unsuccessfully for a suspended sentence. As an attorney, Carey said, "Frank has been stigmatized as long as he lives," and called this punishment enough.

Hoffa awaits jury decision

NEW YORK (AP) — A federal court jury trying Teamsters boss James R. Hoffa on wiretap charges reported Thursday night that it was hung and unable to reach a verdict. But the trial judge ordered them to try again.

U.S. District Judge Frederick V. Bryan told the seven men and five women on the panel:

"I am going to ask you to make a further effort to see whether you can agree. I do not know how you stand and I am not going to ask you. It is your duty to decide this case one way or the other."

The jury got the case at 4 p.m. Wednesday. Thursday night they sent in this note to Judge Bryan:

"The jury has had this case for 28 hours. We cannot agree unanimously."

Hoffa, with Owen B. Brennan, president of Detroit Teamsters Local 337, and Bernard Spindel, a professional wiretapper, have been on trial since Nov. 22.

They are charged with conspiring to wiretap the Detroit headquarters of the Teamsters Union so Hoffa could eavesdrop on his underlings and guard against their disclosure of data to labor racketeers.

Conviction carries a maximum penalty of a year in jail and a \$10,000 fine each.

## ICC Ruling Won't Affect Union Talks

OKLAHOMA CITY (AP) — A ruling by the Interstate Commerce Commission (ICC) against the "hot cargo" clause in Teamsters Union contracts won't have any bearing on future negotiations, a union official said Thursday.

James E. Hamilton, president of Teamsters Local 886 whose contract with nine Oklahoma City freight lines instigated the ICC ruling, said the decision does not change the status of our contractual situation.

"We agreed in good faith with the Motor Carriers Assn.," he said. "And at that time we understood the contract was constitutional."

The ICC ruled that enforcement of the "hot cargo" clause by truckers jeopardizes their ICC franchise. The clause allowed Teamsters to refuse to handle merchandise from a firm with which a union has a dispute, or which was not organized.

Doctors Find Gein Insane

WAUTOMA, Wis. (AP) — Two doctors hired by the defense to examine admitted slayer Edward Gein have reported that he is insane.

William Belter, counsel for Gein, said a psychiatrist and psychologist have given the opinion that the Plainfield recluse who has admitted killing and butchering two women and robbing several graves "is legally as well as medically insane."

Belter declined to identify the experts who examined the 42-year-old bachelor handyman at the Central State Hospital for the Criminal Insane at Waupun.

Belter said their report had no official standing but would be used as evidence if state experts declared Gein sane and competent to stand trial on charges of first degree murder in the death of Mrs. Bernice Worden, 58, Plainfield hardware store operator.

The official report on Gein's sanity has been completed by authorities at the hospital and their findings have been mailed to Circuit Judge Herbert A. Bunde, Wisconsin Rapids. Judge Bunde, who will decide whether to commit Gein to the hospital indefinitely or order him to stand trial, is out of the city and will not make a ruling until next week.

Newspaper Strike Negotiation Set

ST. PAUL, Minn. (AP) — The St. Paul Dispatch and Pioneer Press and the striking Newspaper Guild Thursday set a negotiation session for 10 a.m. Monday.

The Guild, one of three unions whose walkouts shut down operations of the newspapers Wednesday, said it requested the meeting and management negotiators had agreed.

Members of the Guild followed mailers and typographical workers out on strike for higher wages and other benefits.

State labor conciliator William T. Sampson said earlier that no negotiation sessions between management and mailers-union representatives was likely until the day after Christmas.

Publisher Daniel H. Ridder said striking typographical workers would not settle their dispute until after the mailers' contract is settled.

The strikes and resulting shut-down of the newspapers — only dailies in St. Paul — were being felt among city merchants whose last-minute pre-Christmas shopping advertising was left stranded.

# Indonesia Seizes U.S. Houses

JAKARTA, Indonesia (AP) — The military Thursday put the first squeeze on non-Dutch Western business in Jakarta since the onset of the angry dispute with the Netherlands over West New Guinea.

About 300 American, British, French, Belgian and other Western businessmen were summoned to a meeting with military authorities and told they must surrender a fourth of the houses they own in Jakarta.

They were told the houses must be given up within a short time and would not be paid for. The reason was not clear.

The businessmen said the proceedings were conducted in Indonesian so they did not understand everything that was said.

The action appeared to reflect what many here say is a sharp decline of U.S. prestige in Indonesia.

They say the decline began with the Little Rock school integration case, which brought angry editorials in the Indonesian press; and gained momentum when the Russians launched their Sputnik.

Lately, some officials are showing rising irritation about U.S. aloofness in Indonesia's campaign to pressure the Dutch to surrender West New Guinea — or West Irian as the Indonesians call it.

Some officials blame U.S. neutrality for the rising popularity of the Communists.

Premier Djuanda said only Wednesday that positive action by the United States on the Irian issue would help stabilize the political situation in this area.

President Sukarno told a visiting U.S. congressman: "Indonesians are slipping into the Communist camp since America has consistently refused to help us over West Irian. If the United States backed us I could guarantee our entire nation would be pro-American overnight."

Even such a friend of the United States as Mohammed Natsir, former premier and now chairman of the big Moslem Masjumi party, spoke in a similar vein recently.

"It is difficult for me," he said, "to explain to my party why America remains neutral in the current Dutch-Indonesian-West Irian dispute when both Russia and the People's Republic of China are backing our cause."

A Western diplomat said the United States apparently believes the West Irian issue is not a popular movement but something drummed up by President Sukarno.

### Dutch Exodus

DUTCH CITIZENS AT JAKARTA, Indonesia, queued up at the Netherlands legation awaiting visas and other essential documents prior to an exodus of some 50,000 jobless residents of Dutch extraction. Virtual industrial paralysis followed taking over of the Dutch-owned shipping companies by the Indonesian government.

### SUI Facilities Are Scheduled For Vacation

Here is a schedule of SUI and Iowa City facilities which will operate during Christmas vacation:

SUI University Library: Closed Sundays, Dec. 22 and Dec. 29; Wednesdays, Dec. 25 and Jan. 1. Open weekdays from 7:30 to 5 p.m. and Saturdays from 7:30 to 12 noon.

Quadrangle Dining rooms: Closed after Friday evening, Dec. 20, until Sunday, Jan. 5.

Student Health Services: Open weekdays 9 a.m. to noon and 1 p.m. to 4 p.m.; Saturdays and Sundays open 9 a.m. to 12 a.m. Doctor on call for students at General Hospital Dec. 25 and Dec. 31.

Recreational Swimming: Closed during vacation period.

Baby-Sitting: Services available during entire vacation period.

Iowa City Public Library: Open weekdays from noon to 9 p.m. and Saturdays from 9 a.m. to 6 p.m. Closed Dec. 25 and Jan. 1. Open from 12 noon to 3 p.m. Dec. 24 and 31.

Fieldhouse: Open weekdays and Saturdays from 2 p.m. to 5 p.m. Closed Dec. 24 and 25 and Jan. 1. No Playnites or Family Nites during vacation. Students, staff and faculty admitted by I.D. cards.

Iowa Memorial Union: Open with limited facilities from Dec. 20 to Jan. 5. Gold Feather Room open from 8 a.m. to 5 p.m. No food served.

WSUI: Full operating schedule from 8 a.m. to 10 p.m. Monday through Saturday during vacation except for Christmas eve, Christmas day and New Year's day.

Daily Iowan: Published on regular schedule with the exception of Dec. 25, 26, and Jan. 1, 2.

### Fire Truck Policy Issued

CEDAR RAPIDS — The Cedar Rapids City Council Thursday laid down a new policy concerning use of city fire equipment on calls out of the city limits.

Officials said that until March 1, the city will charge a \$100 fee for use of fire equipment during the first hour, with fees graded downward thereafter.

After March, officials said, the fire department will only leave the city limits on three occasions:

When there is a fire in any of the schools in the Cedar Rapids school district; when there is a major fire or catastrophe in a Linn County town and help is requested from the mayor or fire chief of that town, and on fires in city property outside the city limits.

The new policy arose out of a case last Monday in which a private residence burned down outside the city limits.

### Christmas Scene To Have New Look

LUXEMBURG, Iowa — The nativity scene on the birthday of the Christ child will have a modern look in the outdoor Christmas display on the grounds of Holy Trinity parish here.

Instead of shepherds and wise men offering gifts the figures around the manger will depict:

A father bringing a large Christmas basket; the mother and homemaker offering a loaf of bread; children offering gifts of corn, poultry and other produce of the Luxemburg community.

Pupils of the parish school made the preliminary drawings for the figures, assisted by students at Clarke College in Dubuque. Parents and other parishioners also are helping to mold the final display.

### Power Company Wishes To Issue Stocks, Bonds

WASHINGTON — Iowa Power and Light Co. of Des Moines has applied to the Federal Power Commission for authority to issue 10 million dollars of first mortgage bonds due in 1968 and 50,000 shares of \$100 par value cumulative preferred stock.

The company proposes to issue the bonds in January and fix the rate of interest by competitive bidding. It requested exemption from the competitive bidding requirement for the proposed January issue of the stock.

The company proposes to use the proceeds from the sale to retire bank loans and finance construction during the first half of 1958.

**BOND ISSUE APPROVED**  
WEST BRANCH — Approval of a proposed \$392,000 bond issue to finance a new high school was voted here 416-190 Wednesday.

Daily Iowan Photo by Boris Yaro

### Decorations at Veterans Hospital

DELTA UPSILON FRATERNITY MEMBERS decorated these lobby windows of the Veterans Administration Hospital this week. The other half of the display shows an angel and three shepherds coming to worship.

## Sen. McManus Book To Outline Town Improvement

DES MOINES — State Sen. Edward J. ("Mick") McManus of Keokuk announced Thursday he is a candidate for the Democratic nomination for lieutenant governor in the primary election next June.

A fourth generation Iowan, serving as senator from the 1st District in the 1955 and 1957 sessions of the legislature, he followed a family tradition. His grandfather, Edward P. McManus of Keokuk, and a great grandfather, John Downey of Charleston, both formerly represented Lee County in the state senate.

McManus was born in Keokuk in 1920 and graduated from Keokuk Public High School. He attended St. Ambrose College in Davenport and received his liberal arts and law degrees from SUI. A veteran of World War II, he served as a U.S. Naval Aviator from 1942-1946. Since 1946 he has been engaged in the general practice of law in Keokuk, where he was city attorney for five terms. He was state judge advocate of the Iowa American Legion in 1947 and is presently a member of the Iowa Development Commission.

McManus is a member of the American and Iowa Bar Associations, Knights of Columbus, American Legion, and Elks. He is married and has five sons.

### 1958 Management Internships Available

Management internships are available for 1958 in the U.S. Departments of Defense, Labor, Agriculture and the Interior, the Bureau of the Budget and the Civil Service Commission, it was announced Thursday.

SUI students interested in the program may obtain application forms at the University Placement Office.

The management intern program is designed to recruit young people who show promise for executive and senior staff level careers in the Federal service.

Selection is based on a written examination, which tests the applicant's general ability and knowledge of administrative and public affairs, and on private interviews.

To take the written test on Jan. 11 application should be made by Dec. 26; on Feb. 8 by Jan. 23, and on March 8 by Feb. 20.

The tests are tentatively scheduled for Room 208 in the Iowa City Post Office building. Application forms may be secured at the Post Office or at the SUI Placement Office.

### WOODEN STATISTICS

PUEBLO, Colo. — Earl Weirershausen worked for four years on five coffee tables in his spare moments — and kept statistics on them. He figured he used 3,906 separate pieces of wood for the in-laid tops after collecting these pieces for 20 years at a lumber company where he works as a cabinet maker.

## Hunn to Head County Heart Fund Drive

L. E. Hunn, Iowa City, has been selected chairman of the 1958 Heart Fund Campaign in Johnson County, Dr. Herman J. Smith, president of the Iowa Heart association, announced Thursday.

Hunn is chief of special services at the Veterans Administration Hospital.

The Iowa Heart Association will conduct its annual fund-raising drive during February. A door-to-door collection by volunteers will take place Sunday afternoon, Feb. 23, Smith said.

He said 75 per cent of the funds will be used in this county and in Iowa to support local heart programs.

Heart diseases accounted for over 57 per cent of all deaths in Iowa in 1956, Hunn said. Nationwide, 29 per cent of the victims were under 65 years of age.

Members of the committee include Bruce E. Mahan, professor in the SUI Extension Division, John Richard Wilmet, associate professor in the Department of Sociology and Anthropology, Betty Van der Smissen, assistant professor in the Department of Women's Physical Education, and Robert F. Ray, professor, Dean Zener, associate professor, and George B. Mather, assistant professor in the Institute of Public Affairs.

Judging for the contest was completed Wednesday, but the results will not be announced until after Christmas.

### 10 New Members In Honor Society

The Upsilon Chapter of Phi Lambda Upsilon, honorary society for biochemistry, chemistry and chemical engineering, initiated ten men Wednesday, Dec. 18.

The new members include Robert G. Doone, G. George A. Pearce, G. and Fred J. Schultz, G. all of Iowa City; Allan A. Gundersen, G. Glen Ellyn, Ill.; Roger D. Holm, G. Dubuque; Robert J. Klare, E3, Clinton; Franklin L. Montgomery, G. Galesburg, Ill.; Dwight A. Payne, Jr., G. Waterloo; Dean O. Skovlin, G. Mason City; and Ernest L. Yeakey, G. Sikeston, Mo.

An initiation banquet was held after the initiation at the Ox Yoke Inn, Amama, with Charles W. Davidson, professor, College of Law, as guest speaker.

**THINKING THUMBERS**  
GREENSBORO, N.C. — There's more than one way to use a thumb in hitchhiking. Three little military cadets, ignored by automobiles on a main thoroughfare as evening approached, stationed themselves besides a pedestrian crossing. When an automobile approached, they pushed the button that puts on the red light for traffic. One of the halted motorists relented and gave them a ride.

## AAAS Meet Will Feature SUI Faculty

Four members of the SUI faculty will give papers at the annual meeting of the American Association for the Advancement of Science (AAAS) in Indianapolis, Ind., next week.

Dr. William B. Bean, professor and head of the department of internal medicine in the College of Medicine, will speak Dec. 28 to members of the Medical Science Section on the relations existing between clinical medicine and basic research. Dr. Bean is vice-president of the section.

Prof. Ralph Ojemann of the Iowa Child Welfare Research Station will speak on a panel entitled "Problems of Gifted Children" Dec. 27, at a joint meeting of the AAAS and the International Council of Childhood Education.

Fritz Rohrllich, associate professor in the SUI Physics Department, will speak Dec. 28 to members of the Physics Section in a symposium on "Theoretical Spectroscopy." Professor Rohrllich's topic will be "Recent Progress in the Theory of Atomic Spectra."

John Stille, instructor in chemistry, will speak Dec. 29 in a symposium on pyridine chemistry for members of the Chemistry Section. His paper will deal with research he had done at the University of Illinois before joining the SUI faculty last September. The research was done with Professor C. S. Marvel, University of Illinois polemar chemist.

**FOOL'S CANCER CURES**  
Of the 4,000 inquiries received during a 10-month period by the American Medical Association Bureau of Investigation, over 1,000 were on the subject of "cancer cures" and "treatment." All of the treatments inquired about were worthless.

The Iowa City Chamber of Commerce is waiting for advice from its Washington attorneys before making a decision on a proposed air lines service change. Keith Kafer, Chamber of Commerce manager, said Thursday.

The group has until Dec. 28 to file an exception against the proposal to drop United Air Lines service to Iowa City. Curtis S. Henderson, Civil Aeronautics Administration examiner, recommended the change in a 7-state study issued Friday.

Kafer said Ozark Air Lines has expressed a desire to serve Iowa City if United drops service. It is very possible Ozark would provide more than the two flights daily to Iowa City, which United now has, he said.

## Auto Plate Sales Reach 3,410 Here

Johnson County residents purchased 3,410 auto license plates since sales began Dec. 2, Lumir W. Jansa, Johnson County treasurer, said Thursday.

The total is more than double the same 3-week period last year, Jansa said. When new complete plates are issued, the rush is always more than years when only "year clip-ons" are issued, he said.

Jansa said auto owners are purchasing plates early this year to get small license plate numbers.

A total of approximately 10,000 plates are expected to be purchased before Feb. 1, when penalties are added to auto plate costs, Jansa said.

## Prof. Rouse Given Research Fellowship

Hunter Rouse, director of the Iowa Institute of Hydraulic Research, has been awarded a National Science Foundation Senior Postdoctoral Fellowship for study and observation of research in Germany, England, Italy and France starting in August, 1958.

During his year abroad, Prof. Rouse plans to work in three principal areas: fundamental research in the mechanics of fluids, the training of advanced students, and documentation of the historical development of hydraulics. His schedule calls for three months each at the University of Gottingen, Cambridge University, the Italian School of Hydraulics at Rome, and the Ecole des Ponts et Chaussees at Paris.

Recently the co-author of the first history of hydraulics ever to be published, Dr. Rouse is also the author of such books as "Fluid Mechanics for Hydraulics Engineers," and "Elementary Mechanics of Fluids." He is the co-author of "Basic Mechanics of Fluids," and the editor and co-author of "Engineering Hydraulics." He is also the editor

Kafer said Ozark Air Lines has expressed a desire to serve Iowa City if United drops service. It is very possible Ozark would provide more than the two flights daily to Iowa City, which United now has, he said.

Fellowship in Karlsruhe, Germany, for the two years, 1959-61. A graduate of MIT, he earned his doctor of engineering degree at the Technische Hochschule in Karlsruhe.

During his 18-year period on the SUI staff, the last 13 as director of the SUI institute, approximately 175 M.S. and Ph.D. degrees have been granted to students of fluid mechanics representing 24 different nations.

In 1948 Dr. Rouse received the George Westinghouse Award of the American Society for Engineering Education "for contributions to the improvement of teaching methods for engineering students."

## Army To Develop Advanced 'Eyes'

WASHINGTON — The Army said Thursday it has contracted for a two-year scientific study to develop better television and other advanced "eyes" for troop commanders in battle.

The contract, with the Cornell Aeronautical Laboratory, Buffalo, N. Y., is aimed at improving systems of battle field surveillance by radar, by invisible infrared light and by sonic, meteorological, unmanned plane, photographic and television means.

The Army said that war has both spread and speeded up so much that a commander of the future must be able almost instantly to scan a large battle area, locate a potential target, prepare information to guide missiles, launch a missile and then verify the results.

The Army said that war has both spread and speeded up so much that a commander of the future must be able almost instantly to scan a large battle area, locate a potential target, prepare information to guide missiles, launch a missile and then verify the results.

### Jailed Following Chase

**PATROLMAN WAYNE STALKFLEET** escorted Robert Adams, Vancouver, B.C., (right) and Gordon J. Miller, Toronto, Ont., to the county jail where they were to spend the night. These two men and another (not pictured), Harold S. Franklin, Toronto, were the subject of an 80-mile-an-hour chase with highway patrolmen early Thursday morning.

### CHASE— (Continued from Page 1)

there would be shots." Acting on the assumption that the men in the car might be armed police then fired one shot into the right front tire. Police then fired warning shots over the car. When the men in the car failed to get out the police converged on the car and ordered them out again, this time "assisting" them. Patrolman Reddick said Franklin was asleep in the back seat and had to be carried from the car. All of the men admitted drinking before they were arrested. When stopped, the men had over \$400 in Canadian and American money in their possession, and Miller's pockets contained quarters and half dollars.

### Mercy Nurses Give Program At Yule Party

Distribution of gifts and presentation of a special program were the features of the annual student-faculty Christmas party for nurses at Mercy Hospital Thursday evening. Meeting in the Recreation Room of the Nurses Home, which was specially decorated for the season, the students and their instructors had refreshments following the gift exchange. Caroling is another part of the students' Christmas celebration. Wednesday evening the freshmen visited the Johnson County Home on R.R. 3 and the Veterans Hospital to sing carols for the patients. The juniors and seniors plan to visit Mercy Hospital and the Mary O. Coldren Home tonight to sing carols.

### Car-Truck Crash Kills Serviceman

**COUNCIL BLUFFS** — A sailor was killed Thursday night in a Highway 75 smashup 15 miles north of Council Bluffs involving three cars and a truck. Meyer Funeral Home in Council Bluffs identified the dead serviceman as James H. Zerahn, 20. Police said initial reports from the accident scene indicated that Zerahn was riding in the first of three cars of sailors. The first car smashed into a stalled semi-trailer, and the other two cars crashed into the first, officers said. None of the others were seriously injured, according to police reports.

### Condition Is Good Of Gunshot Victim

Herbert Wonick, 50, 1016 N. Dodge, was reported in good condition at University Hospitals Thursday night with extensive facial wounds from a 12-gauge shotgun blast. He was wounded at 12:30 p.m. Thursday, about four hours after being released from Mercy hospital where he had been a patient for three days, police said.

### Storage Deadline For Sorghums Extended

**WASHINGTON** — The Agriculture Department announced Thursday that the deadline for storing 1957-crop grain sorghums under price support loans and purchase agreements has been extended one month — that is, through Feb. 28. The extension is to give producers more time to find storage and to dry the grain sufficiently to make it eligible for storage under price support programs. The department said abnormally high moisture content of this year's crop makes much of it currently ineligible for price support. It said this situation has tended to disrupt normal marketing and to weaken prices. The national average support rate is \$1.86 a hundredweight.

### VEHICLE REGISTRATIONS

**DES MOINES** — The Iowa Reciprocity Board will confer in Omaha with Nebraska motor vehicle administrators Friday for the purpose of negotiating a new reciprocal trade agreement, it was reported Thursday.

## Defense, Discussion Are NATO Goals

By THE ASSOCIATED PRESS  
**WINDUP:** NATO chiefs finalized military-diplomatic decisions. President Eisenhower said he believed Paris summit conference has "done something to make the ideal of peace a little closer — certainly the chances of war more remote."

**STRATEGY:** Communique set forth plans to equip NATO nations in Europe with U.S. 1,500-mile range missiles and nuclear warheads, linked with arrangements to keep the door open for fresh talks with Moscow on disarmament and perhaps other issues. Secretary of State Dulles called this "a strategy of victory."

**POLITICAL:** France, annoyed by shipment of British-American arms to Tunisia last month won a point in the conference decision: Further improvement in political consultation among the Allies is necessary and will be achieved.

**SCIENCE:** A NATO science committee will be set up to promote training of scientists and to study a French plan for a research foundation. The goal is to seek to increase the effectiveness of national efforts through pooling scientific facilities and information and sharing tasks.

**SUMMARY:** In the words of Secretary General Paul-Henri Spaak of Belgium: "We have established this policy line: 1. The will to defend ourselves; 2. The will to talk."

dent moved to a microphone, looked up and began: "It's always for me a moment of sadness when I must say goodbye to Paris." There was a wistful note in his voice, but then his tone changed. "All of us," he said, "are working for the ideal of peace — even all the masses behind the Iron Curtain." This was not in his prepared speech. Then, glancing at French Foreign Minister Christian Pineau, Mr. Eisenhower referred to all the leaders of the NATO nations who worked with him at the Paris conference. "I think this group has done something to make the ideal of peace a little closer," he went on, "certainly the chances of war more remote."

President Coty pronounced a few words of thanks. Ike bowed, smiled once more and glanced out of the open doorway to his waiting plane. With Coty at his side, the President strode forward between two lines of 40 uniformed members of France's Republican Guard.

Ike moved between them to the Columbine. There was a flurry of quick farewells. He waved both arms to the crowd — and was gone. President Coty turned away. Reporters heard him say in French, "A warm, kind man."

### Cars Pile Up On Iowa Ave.

A chain-reaction pile-up on the Iowa Avenue bridge Thursday resulted in more than \$1,000 damage among six cars, police reported. They said the driver who apparently caused the accident with a sudden stop left the scene unidentified. Five east-bound cars blocked part of the bridge when officers arrived. Three of them had to be towed off, police said. Another driver who swerved to avoid the line of damaged cars struck the bridge's concrete railing, damaging his right headlight and front fender. Police said he left without leaving his name. No one was injured, officers said.

**SALARY RAISE QUESTIONED**  
**MASON CITY** — A. M. Schanke, a former member of the Iowa Legislature, asked the City Council Thursday to rescind an ordinance which granted Mayor George E. Mendon a salary raise from \$6,000 to \$8,400 annually, effective Jan. 1. The pay-raise ordinance was adopted on the eve of the November municipal election. Schanke, a former Mason City postmaster, claims the ordinance is invalid because it does not take effect until after the election. Mendon was re-elected.

His doctor said he was fine, but he looked tired after his strenuous five days at the conference. He rode through 13 miles of waving and cheering people to reach his special plane, Columbine III, at Orly Airport. It was dark when his car swung up before a small building on the airport's apron. The strong lights highlighted his lined face.

As the President got slowly from the car, President Coty of France hurried forward. He pumped Ike's hand and said something. Ike beamed. As he marched forward, Coty had to hurry to keep pace. They entered a small room for Ike's farewell speech.

The President had planned to make the speech in the open, but changed his mind late Thursday afternoon.

Earlier in the day also, the President's press secretary, James C. Hagerty, released a prepared speech which the President was to have read at the airport, but those plans were changed, too. Ignoring his prepared remarks, the Presi-

### RR Bulk Shipping Is Recommended

**PIERRE, S.D.** — Ben J. Heineman, board chairman of the Chicago & Northwestern Railway, said Thursday railroad operators in the future must largely abandon passenger and less-than-carload freight service.

He told a hearing before the South Dakota Public Utilities Commission railroads will have to develop bulk shipment service.

"We must face the impact of economic forces operating today. The trucks have us licked so far as less-than-carload hauling is concerned," he said.

Heineman testified at a hearing into the Northwestern's application to provide centralized agent service at 16 points in the state, abandoning 53 station agencies on the line.
