

Daily Iowan Starts Income Tax Series

Every year Uncle Sam's tax collectors discover that uninformed or careless taxpayers have turned over millions of dollars more than it had coming to the Internal Revenue Service. Starting today in The Daily Iowan, Page 6, is the first in a series of eight articles to help you with your income tax. Information ranging from who must file to a description of the kinds of expenses you can deduct to lower your tax will be covered in the articles. The series, prepared by G. K. Hedenfield of The Associated Press, was checked by the revenue service for clear and factual interpretation of the complex tax laws. Be sure to read the series — clip each article for ready reference when you are ready to prepare your return.

AEC Makes \$75,305 SUI Grant

A new \$75,305 grant from the Atomic Energy Commission will be used to modernize SUI instruction in nuclear science and engineering, Karl Kammermeyer, professor and head of the SUI Department of Chemical Engineering, said Monday. The grant is subject to the approval of the finance committee of the State Board of Regents. The funds will provide a sub-critical pile for studies of controlled nuclear reactions in the chemical engineering laboratories. Equipment for heat transfer instruction and for metallurgical studies of uranium will be added to the mechanical engineering laboratories. Instructional facilities, including additional geiger counters and apparatus for the separation of materials with similar chemical properties, will be enlarged for studies in the chemistry of radio active materials. A sub-critical pile, Kammermeyer explained, gets its name from the original pile of graphite blocks for producing and controlling a chain reaction. A sub-critical assembly is one in which nuclear reactions are going on but never reach a point where the reactions might get out of control, he said. Cooperating departments in the modernization of SUI's nuclear studies include chemistry, mathematics and physics in the College of Liberal Arts, radiology in the College of Medicine, and all departments in the College of Engineering.

"A major reason for the cooperative program," Kammermeyer said "is that more and more SUI graduates are finding careers in nuclear and reactor phases of science and engineering." A survey course in nuclear energy, Introduction to Nuclear Science and Engineering, has been offered at SUI since 1956 for seniors and graduate students in science and in all branches of engineering.

Independence Farmer Charged with Murder

INDEPENDENCE — A county attorney's information was filed Monday charging Robert Wright 37, with murder in the fatal shooting of Lester Hoover, 59, Quasqueton farmer, last Saturday. Hoover's wife, Dorothy, 57, was wounded in the hand in the same shooting at Wright's farm. Wright, a former mental patient and occasional employe of Hoover, was held in the county jail here. County Attorney William Klotzbach said he would join in an anticipated defense request for a psychiatric examination for Wright. The Hoovers were shot after they had driven to the Wright farm to ask him to cut some wood for them, Sheriff E. A. Hart said. Klotzbach said Wright had been admitted twice to the Independence State Mental Health Institute.

Tax Time

WANT HELP WITH your income tax forms? You can get it from Paul Gillbaugh, right, of the Bureau of Internal Revenue, in Room 209 at the Post Office. The office is open from 8 a.m. to 4:45 p.m., Monday through Friday, from now until February 14. It will be open Monday and Friday only from that date until April 1, when the 5-day-a-week schedule will be resumed until the Federal income tax deadline of April 15. Questions also will be answered by phone.

Dynamite Found in Little Rock School

LITTLE ROCK, Ark. — A stick of dynamite, uncapped and unused, was found in an empty locker at integrated Central High School Monday Supt. Virgil Blossom called it a weapon of terror "to force us to close the school." The dynamite, relatively harmless in its uncapped state, was found after a 90-minute search by city police and federalized National Guardsmen. An anonymous telephone call to a local radio station manager, Ray Bartlett, started the search. Bartlett said the caller told him there were two sticks of dynamite planted in the basement of the 2,000-student school "in a locker." No second stick was found. The discovery of the dynamite climaxed a hectic first day of the new semester that was filled with rumors and tension. Earlier in the morning a Negro student — one of the nine whose integration into Central High touched off the Little Rock crisis — was knocked down by a white boy. Both were sent to the principal's office. Blossom said an investigation of the incident is pending. The dynamite search was carried out while some students were attending classes and others were lunching in the basement cafeteria, just a few yards from where the stick was found. Acting police Chief Eugene Smith said he believed the dynamite was put there "not to blow up anything but create hysteria." Blossom commented: "It appears that this is a part of a campaign to try to force us to close the school. This is an opinion on which the police, FBI and military agree. 'We further feel that no one in this community would actually carry out anything of this sort that would result in harm to the children. 'Every precaution is being taken for the safety of the children and at the same time carry on their educational program.'"

U.S. Could Take Attack, Strike Back

WASHINGTON — Military experts have told Congress the United States could sustain an initial surprise attack by the Soviet Union and will recover sufficiently to annihilate the USSR. The experts believe this country is ahead of the Soviet Union in the over-all missile field and can come pretty close to sending a rocket to the moon by the end of 1958 if Congress is willing to put up enough money. These and other views were given the House Appropriations Committee last week during closed-door hearings on the Administration's \$1 1/2 billion emergency program to speed up missile work and spread out bases for retaliatory strikes by long-range planes carrying hydrogen bombs. At another closed session last week, Sen. Lyndon Johnson of Texas, the Senate's Democratic leader, was disclosed to have suggested that Congress may have to take the initiative from the White House to build up U.S. missile work and airpower. A censored account of proceedings before the Senate Preparedness subcommittee last Thursday recorded Johnson as saying at one point: "I would say the executive has as yet not proposed any increase. We may have to initiate it here." The House Appropriations group made its testimony public as it called a meeting for Tuesday to act formally on President Eisenhower's request for additional defense funds. Included for the fiscal year ending June 30, is a \$296 million fund to expedite construction of three atomic submarines capable of firing from under water the 1,500-mile range Polaris missile.

Secretcy Hampers Science, Defense

WASHINGTON — An eminent scientist testified Monday that secrecy is hampering science so much he fears the United States might have to fight a war some day "with pieces of paper marked secret." This appraisal was given to the House Government Information subcommittee by Dr. Lloyd V. Berkner, president of Associated Universities Inc. and of the International Council of Scientific Unions. Dr. Donald J. Hughes, senior physicist at Brookhaven National Laboratory and former chairman of the Federation of American Scientists, said he believes that "secrecy, any amount, will hold back scientific development." Berkner and Hughes were the first witnesses at hearings on obstacles to the spreading of scientific information. Each emphasized a need for translating foreign scientific papers, particularly Russian, and of boiling down and indexing the vast volumes of such information from all sources so that scientists can tap it quickly. This probably will take a government subsidy, Berkner and Hughes said, but they predicted the few million dollars in costs would be more than regained through elimination of waste and duplication of scientific effort. The first priority in removing hindrances to the flow of scientific information, Hughes said, should be in the field of security and improving the system of clearing people to handle secret data. Berkner estimated 90 per cent of documents classified as secret could be declassified without harming security, or with beneficial results that would outweigh security considerations. "There is more than security of information," Berkner said. "There is security in progress, which is more important." Berkner proposed the setting up of a government commission to study and recommend to the President what must be kept secret and what can be made public.

French Accuse Reds Of Arms Shipments

PARIS — France Monday night indirectly accused two Communist nations — Czechoslovakia and Yugoslavia — of dispatching a huge arms shipment to rebels fighting the French in Algeria. Foreign Minister Christian Pineau told newsmen he had clear proof that a certain Driss Ben Said, identified as an agent of the Algerian National Liberation Front, had purchased the arms several weeks ago from a firm in Prague, Czechoslovakia. Pineau said the French had kept track of the arms — presumably through intelligence agents — as they made their way to Yugoslavia.

U.S. Markedly Stronger Than 5 Years Ago—Ike

Says Business Fell Harder Than Expected

WASHINGTON — President Eisenhower reported Monday that business has tumbled harder than expected, but "whatever our national security requires our economy can provide and we can afford to pay." In his annual economic report to Congress, Eisenhower cautioned that unwarranted wage or price increases — and government economists are concerned particularly about wages — could block an upturn and "court the danger of controls." The President said there are reasons to believe "the decline in business activity need not be prolonged and that economic growth can be resumed without interruption." "The policies of Government," he said, "will be directed toward helping to assure this result." There was nothing to suggest that the Administration is ready to "turn to big-scale pump pricing, a tax cut or red ink spending to buck up business and incomes. The emphasis was all on the idea that the downturn has really been moderate and things soon will begin picking up once more. But Eisenhower did wrap up in the economic report a package of 42 legislative items and prod Congress for action on them. All the major ones had been outlined or formally requested before — measures embracing such things as his farm, science and education and foreign economic programs. Senate Democratic leader Lyndon B. Johnson of Texas said members of Congress "hope that the President's generally optimistic forecast concerning the immediate future will be borne out by events." "The present business slump has pressed hard on a number of spots in our economy," Johnson said. "The President advocates self-restraint as the best antidote to some of the inflationary trends. It will be interesting to watch the reaction to his call." The President said the "latest challenge of international communism" — an apparent reference to Soviet strides in missiles and space — means the already heavy economic burden of national security will grow further. But he added: "If we follow suitable private and public policies, this challenge can be met without distorting our economy, or destroying the freedoms that we cherish."

AP News Roundup

INDICT KKK MEN LUMBERTON, N.C. — A Robeson County grand jury Monday indicted two Ku Klux Klansmen, and others allegedly of their group "unknown to the state," on charges of inciting a riot in connection with a Klan rally which was broken up Saturday night by Indian gunfire. Solicitor E. Maurice Braswell issued a capias for the arrest of the Rev. James Cole of Marion, S.C., self-styled leader of KKK groups in both Carolinas.

STOCKS UP NEW YORK — Most stocks rung up gains Monday as President Eisenhower's economic message was delivered to Congress. Key issues closed a few cents to \$1 or more higher. The market moved ahead prior to the President's report. It held most of the gains there-

after, although closing slightly under the best. Ralls generally were a weak spot.

GUATEMALA ELECTION GUATEMALA — Gen. Miguel Ydigoras Fuentes, a 62-year-old rightist, held a strong lead Monday in the race for president of Guatemala on the basis of unofficial returns. The unofficial counts also showed his two closest rivals were running almost even and there were indications Congress would have to elect one of the two final front runners. Ydigoras said he expected Congress to elect him. Otherwise, he warned, there would be trouble. "I would not make trouble," he said, "but the people would."

LOVELESS PROTESTS WASHINGTON — Gov. Herschel C. Loveless, in a conference with Secretary of Defense McElroy, protested Monday against proposed cuts in the National Guard. Loveless said he was fearful any sizable cut in the National Guard would adversely affect the nation's defenses and would deny hometown military training in the future to thousands of young men.

WITNESSES 'ILL' WASHINGTON — The Senate Rackets Investigating Committee said Monday three key witnesses have pleaded they are too ill to testify in hearings starting Tuesday on alleged corruption in the Operating Engineers Union. However, chief counsel Robert F. Kennedy announced the hearings will start as scheduled, exploring first into the financial dealings of a self-styled "reform" union group in California.

20 Die, 300 Injured In Earthquakes; Toll Still Mounts LIMA, Peru — The death toll mounted Monday from earthquakes and landslides in the Pacific Coast countries of South America and record snow in Mexico. Reports from Callao, Peru, and the Colombian island of Tumaco, said tidal waves followed an earthquake in Ecuador Sunday. Heavy rains and earth shocks continued in Peru Monday. At least 20 persons were killed and 300 injured at Esmeraldas, northern seaport in Ecuador, where bodies were still being pulled from ruins left by the Sunday quake, and in several Chilean cities, including Santiago, the capital. Peruvian authorities still were trying to get through to two regions where at least 128 persons lost their lives in earthquakes and landslides last Monday.

Free 11 Convicted Under Smith Act SAN FRANCISCO — Eleven persons convicted of Communist activities in violation of the Smith Act were freed Monday by a U.S. Court of Appeals. The decision said the act had been reduced to a "virtual shambles" by the Supreme Court. The 11 include Joe Hall, right hand man in Hawaii of Harry Bridges, the West Coast longshore boss. Judge Richard H. Chambers wrote that the Supreme Court decision of last June "leaves the Smith Act, as to any further prosecution under it, a virtual shambles." Two other judges concurred in reversing the convictions. Last June, the Supreme Court ruled that mere membership in the Communist party was not sufficient ground for Smith Act convictions. The decision said "preaching abstractly" was not a crime under the act. The decision was based on the conviction of 14 persons, including Oleta O'Connor Yates, in California, and freed five of the 14.

Concern Grows As Employment Goes Down In Europe LONDON — Unemployment is on the increase in Europe and in some cases is beginning to cause concern. Seasonal slackness and a recession in the building and allied industries are cited by most authorities for the downward trend that showed up in the last three months of 1957 and continued into the new year. Unemployment increased in Great Britain, West Germany, Belgium, Sweden and Finland. There were a few more jobs in Italy, Austria and Yugoslavia, although Italy still had 1 1/2 million out of work. Nations with largely agricultural economies were unaware of any change and a few nations, notably France and Switzerland, reported they had practically no jobless. Unemployment is most acute in Italy and Western Germany. The statistics may be slightly misleading, authorities said, because many thousands who have jobs they don't like register as unemployed in the hope of getting better positions. West Germany's unemployment total was 1,212,866 at the end of December, the highest December figure since 1954. In Great Britain — where full employment has been taken for granted for several years — there were 335,000 jobless persons in mid-December. France has virtually no unemployment, the latest figure for the whole country being only 15,600 last November.

lowa City — 4 More Inches— Colder, More Snow More than four inches of snow is expected to blanket Iowa City by early today, with colder weather in store tonight. The Weather Bureau reported an accumulation of two inches in southeast Iowa by Monday afternoon. HIGHWAYS in this area were relatively clear of snow, although the Bureau said some could be expected to become snow-packed Monday night. Only scattered light snow is expected over the state today with increasing cloudiness. Highs today will be in the low 30s in Iowa City and in the low 20s in the northern parts of the state. The further outlook calls for somewhat warmer weather Wednesday and continued cloudiness. A heavy snow warning was in effect Monday for an area extending from northeast Kansas across northern Missouri, southeast Iowa, northern Illinois, and southern Wisconsin. The heaviest snowfall recorded Monday in Iowa was five inches at Council Bluffs, Atlantic and Audubon. A WIDESPREAD snow and rain storm floated eastwards into the Ohio Valley Monday night after dumping five to 12 inches of snow in the Plains and causing down-pours in the lower Mississippi Valley. Precipitation was generated as warm, moist air from the Gulf of Mexico mingled with cold winds from the North. It touched off severe thunderstorms in East Texas and caused the Weather Bureau to warn of tornado-spawning conditions in Louisiana. The storm, which began Sunday by dropping 14 inches of snow in the mountains of south central New Mexico, rolled an uneven ca-

lowa City — 4 More Inches— Colder, More Snow Michigan where heavy accumulations were predicted. Along the southern fringe of the snow belt, generally close to the Ohio River, there was sleet and freezing rain. The Northeast faced some relapsing of bitter cold which has gripped parts of New England during the last two nights, but near zero marks were indicated in parts of northern New York by morning.

A 'Capitol' Snow A LIGHT TOUCH OF SNOW turned the Iowa campus into proverbial winter wonderland Monday as winter returned to Iowa City. About two inches of snow fell here Sunday night and total snowfall is expected to reach four inches by early this morning.

Opens Drive For GOP Congress

'No Political Hassle Over Defense' CHICAGO — President Eisenhower, opening a new Republican drive for control of Congress, said Monday night America's security in this dawnning space era is markedly stronger than when he took office five years ago. At the same time, the President told about 5,000 cheering diners at a \$100-a-plate GOP rally — and a nationwide television-radio audience — there must be no political hassle over the status of this country's defense and its struggle for a just peace. Some Democrats, and some members of Mr. Eisenhower's own party, have sharply criticized the Administration's defense program in this congressional election year. Departing from his prepared text, Mr. Eisenhower remarked he wanted to say to all America: "Don't pay any attention to the pessimists — those people who, for reasons of their own, contend that 'America is fearful — America is weak.' "Let's throw back our shoulders and stand proudly and erectly. 'America has never been afraid to sacrifice for the common good. 'America does not want war — it wants only peace — just and secure and lasting peace. 'Our country wants all people to attain a better world for themselves and for their children. America's heart, her strength and her faith are dedicated to this single overriding objective.' He called, as he did in substance in his recent State of the Union message, for effective modernization of the U.S. defense setup. Even as Mr. Eisenhower was calling for removal of security and peace from politics, his chief aide, and Vice-President Nixon were hitting Monday night in GOP rallies, at Democratic attacks.

Free 11 Convicted Under Smith Act

WASHINGTON — The Senate Rackets Investigating Committee said Monday three key witnesses have pleaded they are too ill to testify in hearings starting Tuesday on alleged corruption in the Operating Engineers Union. However, chief counsel Robert F. Kennedy announced the hearings will start as scheduled, exploring first into the financial dealings of a self-styled "reform" union group in California.

The Irritated Young Men

The life of a newspaperman is not always easy. His life gets especially difficult if he tries to express his opinion in the columns of his newspaper.

It is safe to come out for the March of Dimes or the battle against highway deaths; it is safe to be against communism, to be for The American Way of Life, for peace and prosperity.

But beware all you editorial writers if you dare to point out some of the sore spots that exist in society in general or — in the case of The Daily Iowan — on campus.

Last week we printed an editorial under the title The Angry Young Men and hardly 24 hours had passed when we received letters and were stopped on the street or in local places of social gatherings.

Why in all the world, we were asked, did we print such an "insidious" piece of literature; how could we dare attack the fragile blossoming of individual and intellectual expression; how could we expose the flower of non-conformism to the stagnant mass of apathy rotting this campus?

Massive attacks like this, whether written (see below) or oral did not only surprise us, it also made us aware that we had much more reason to publish the editorial about the "angry" young men than we had originally thought.

The critical voices defending individualism, non-conformity and side-paths of life shunned by the "masses" did in no way indicate that they understood a word of what we had to say, but only saw our disagreement with beards, shabby appearance, and our extremely critical attitude toward unintelligible pieces of philosophy as the one about the two parts in man's being (the inner and the outer if our readers may have forgotten).

It is regrettable that most of our fellow students cultivate the trend to conformity, those students who are here only to achieve their highest goal in life; a comfortable suburban living with a sufficient bank account for early retirement. We can feel only sorry for this generation of future "organization men."

But we also feel sorry for those who believe that the mere fact of protesting against the conformity-happy "organization men" without being different in the last analysis will help society. A position of *l'art pour l'art* has never helped anyone, especially not young people.

The conformed masses will be shaken in their complacent attitude only by valid contributions to intellectual life and we stick to our original "piece of trash" in repeating that all the angry young men on this campus should check occasionally to see what riles their sensibilities. Reactions to our editorial show us that it is only an intellectual sandbarr that causes much aimless excitement.

But we are happy that some people started thinking. We realize that it is hard to admit that one's position is wrong. Nevertheless we are convinced that the angry young men are beginning to get irritated. That is what we had in mind, and we are sure that it will be for the common good.

War... Not Weapons

Ike's proposal for a ban on space warfare was still ringing throughout the nation's press when predictions of manned satellites to protect land masses below — clearly a military space project — were ventured by American military leaders.

While it may be interpreted as an unfortunate timing of materials, and intentional or not, almost certain to give the President's proposal a hollow ring, the space-borne combat unit predictions are merely a reflection of the world situation; an almost universal desire for peace enshrined in a war of hostile philosophies — with global suicide a distinct possibility.

The predictions of space warfare developments is a modern day re-affirmation of the "keep your powder dry" caution of an earlier era: work for peace, but recognize real danger — and is just as common-sense now as it was then.

If and when an agreement on the banning of space-warfare, complete with some sort of assurances that the agreement is more than a conglomeration of words masking hidden threats, is reached, then considerations of space-weapons can be relegated to oblivion. Until that day we may be sure that a potential "hot war" enemy is not going to ignore such potentially powerful weapons.

It is the same story, no less true because it is old — it is not a question of banning weapons, but of banning war itself.

Letters to the Editor

Bridge Safety; Two 'Angry Young Men Retort'

TO THE EDITOR:

On the Thursday before Christmas vacation I saw what I had been expecting for a long time. A car jumped the curb on the Iowa Street bridge and smashed into the sidewalk. There were very few pedestrians on the bridge at that moment. The time was 8:10 a.m. Ten minutes later the bridge would have been crowded with students on their way to 8:30 classes.

The car narrowly missed one student. He saw the car bounce over the curb a few feet in front of him and glance off the railing. The rear of the car climbed almost to the top of the banister and ricocheted back into the street. Had the student been a few steps farther forward, had he started to class 5 seconds sooner, he would have been crushed between the right front fender of a green Studebaker and the concrete railing.

Does someone have to be killed before a hand railing is installed there?

Some of the best drag racing in these parts is seen there almost every morning. You are so close to some of the cars that you can almost reach out and touch them. The average distance between the outside lane of traffic and a person on the sidewalk is between three and four feet. Because of the red light on the corner, the bridge develops into a dragstrip when the light changes. And you are there, just four feet away.

Wayne R. Beal, A2 B203 Quadrangle

Readers are invited to express opinions in letters to the Editor. All letters must include handwritten signature and address which will be printed — typewritten signatures are not acceptable. Letters become the property of The Daily Iowan. The Daily Iowan reserves the right to shorten, select representative letters when many on the same subject are received, or withhold letters. Contributors are limited to not more than two letters in any 30-day period. Opinions expressed do not necessarily represent those of The Daily Iowan.

In Wednesday's Iowan, I think that in all justice to the angry young man who wrote the intriguing letter, you should have printed the whole thing. Granted, the excerpts looked a bit obscure, but perhaps they would make more sense in relation to the entire letter. Just a while back you were attacking apathy on this campus; but here is a student writing a sincere letter and what do you do but pick flaws and sneer. I for one should like to see the whole letter printed so that I may judge for myself. I don't know how for other students feel about this, and you won't know either, because it's a safe bet that none of them will bother to write letters.

Yours for more and better pipe smoke,

Timothy A. Ross, A1 730 N. Van Buran St.

P.S. All things considered, I think The Daily Iowan is a fine paper.

DEAR GOD: Your editorial damning the bearded existentialist, was one of the most insidious pieces of literature I have ever had the displeasure of reading. Exactly who in

hell are you, to pass judgement on "the bearded one."

I am not an existentialist. I'm not even sure I know what an existentialist is, although I have read Sartre and Kierkegaard. I doubt whether many persons on this campus could define existentialism. Obviously, you are among the majority. Upon occasion, however, I do think — which is evidently a little chore you neglected when writing your piece of trash.

Your editorial is not only anti-intellectual. It is anti-thinking, anti-individualistic, and conducive to the stagnant mass of apathy which is rotting this campus.

There used to be a time when universities were centers of revelation. Students were not afraid to step just a little out of the narrow walk of the mass, and express themselves. And now? One student decides to strike out to try to find a meaning to his existence, and you try to push him back into the mass. Mr. God, show me a student today who blindly follows the perverted value system of contemporary society, and I'll show you a citizen tomorrow who will never think for himself. Conformity may be an overworked word, but it is still inadequate to describe the state of this university.

I would gladly cancel my subscription to The Daily Iowan, but since it had been arranged that I was required to subscribe automatically before entering the university, I can't very well cancel, can I? Oh, and let's see more pictures of "drunk" Sarah Churchill. It adds so much to the quality of The DI.

Jerry A. Minnich, A1 Quadrangle B-154

Thanks to Sputnik Satellite Saved Us From Immediate Economic Difficulties

By GEORGE KAUFMAN SUI Economics Graduate Student

Everything Russia does, does not harm us. Though the military men looked jealously on as Russia launched its two satellites and the complacency of the majority of Americans was badly disrupted, economic and businessmen started breathing a little easier, for Sputniks I and II may well have prevented a serious business slump.

THE DOWNWARD TREND of the economy which started near the beginning of the last quarter in 1957, is gaining momentum. The dreaded disease of recession, unemployment, is rapidly increasing. November saw over 5 per cent of the country's labor force unemployed. Major cutbacks in production during the last two weeks of 1957 by the automotive industry caused additional layoffs in not only its own but also related industries such as steel. With the Christmas buying spurge over the normal January reduction in the labor force should be greater than usual. Besides the actual decline in the number employed, the number of hours worked per week by the remaining employed is also decreasing. This situation catches the unions in a squeeze, as they now have to choose between unemployment for some of their members or reduced working hours for all. At least one major union, the United Auto Workers, has chosen the former alternative.

Production, the determinant of employment, shows little evidence of reversing its downward slide. Steel, automobiles, primary metals, lumber, coal and petroleum are all below their corresponding outputs of a year ago.

SO FAR THE PICTURE is vastly similar to that of early 1954, but two important factors are considerably different: prices and government spending. Normally a reduction in production and the number of hours worked along with an increase in unemployed have exerted a downward pressure on prices. So far this has not been the case. Consumer and wholesale prices are continuing their

upward spiral. This has been alternately blamed on labor unions, administrative pricing, and increased profit taking by the middleman. But no matter the reason, some economists now foresee a new type of price inflation — production recession period.

With the discussed declines in the private sector of the economy, the situation could well have turned into a recession worse than either the 1949 or 1954 ones. But at this moment, Russia launched her Sputniks and almost overnight Congress' attitude turned from one of economy to one of increasing defense spending. Since the launchings, reports and testimony from various military men and scientists have succeeded in attracting attention towards our lagging defense program and the need for more and more funds.

IN DIRECT CONTRAST to last year, Eisenhower's recent State of the Union address was met by rejoinders of not enough and too rigidly. (Anybody recall last year's economy drive?) Indications are that the Democratic controlled Congress will outdo the Administration in allocating funds for defense. Reliable estimates indicate an increase of over two billion dollars resulting in a record peace time budget of over \$74 billion. This increase will certainly take up a considerable portion of the decline in private spending.

If the present downspring reaches its bottom early in the spring and starts its revival soon after wards in early summer, it will be the first time in quite a while that nearly all economists have analyzed the situation correctly. To see whether this will actually occur, this corner is keeping its eyes on two indicators, the actual start and speed of the increased government spending and inventory liquidation. If both of these variables show unfavorably, the recession may be with us for a while longer than commonly predicted, but no matter what, we may well thank Russia and the Sputniks for keeping us out of further economic difficulties.

General Notices

General Notices must be received at The Daily Iowan office, Room 201, Communications Center, by 5 a.m. for publication the following morning. They must be typed/legibly written and signed; they will not be accepted by telephone. The Daily Iowan reserves the right to edit all General Notices.

ORCHESTRA — The Modern Dance Club will have its regular workshop hours Tuesday at 7:30 p.m. in the Mirror Room of the Women's Gymnasium.

RECREATIONAL SWIMMING — Monday, Wednesday, Thursday, and Friday at the Women's Gymnasium from 4:15 until 5:15 p.m. All women students are invited.

STUDENT TEACHING IN SOCIAL STUDIES — All students planning to do student teaching in the area of the social studies are notified of a group meeting on Thursday, Jan. 23 at 7:30 p.m. in room 332 of University High School. Only those in attendance at this meeting will be eligible for student teaching during the second semester.

YWCA BABY SITTING — A baby-sitting service to the residents of Iowa City is being offered by the Personal Service committee of the Y.W.C.A. Call X2240 to make arrangements for transportation and price.

DEGREE CANDIDATES — Candidates for degrees in February may pick up their commencement announcements at the Alumni House across from the Union.

STUDENT INDEBTEDNESS — All accounts must be paid at the Treasurer's Office before registration materials will be issued for the second semester.

PLAYNITES for students, staff and faculty and their spouses at the Fieldhouse each Tuesday and Friday night from 7:30 to 9:30 p.m. Admission will be by faculty, staff or student I.D. Card. The Weight Training Room will be at the following times: Mondays, 4 to 6 p.m.; Wednesdays, 4 to 6 p.m.; and Fridays, 4 to 6 p.m.

1958 HAWKEYES — The 1958 Hawkeye notes are due and payable at the Treasurer's Office. Registration materials will not be issued until Hawkeye Year Book notes are paid. Please pay before January 24th.

FAMILY-NITES at the Fieldhouse for students, staff, faculty, their spouses and their families on the second and fourth Wednesdays of each month. Recreational swimming and family-type activities will be available from 7:15 to 9:15 p.m.

COOPERATIVE BABY SITTING — The University Cooperative Baby Sitting League Book will be in the charge of Mrs. Ernest Zuber from

Friday, January 24 8 p.m. — University Play — "Epitaph for a Bluebird" — University Theatre.

Saturday, January 25 8 p.m. — University Play — "Epitaph for a Bluebird" — University Theatre.

Sunday, January 26 4 p.m. — University Chamber Singers Concert — Iowa Memorial Union.

Wednesday, January 29 8 p.m. — Recital — Norma Cross, piano — Macbride Auditorium.

Thursday, January 23 4 to 5 p.m. — Faculty Coffee Hour sponsored by AWS — Library Lounge.

Friday, January 24 8 p.m. — University Play — "Epitaph for a Bluebird" — University Theatre.

Saturday, January 25 8 p.m. — University Chamber Singers Concert — Iowa Memorial Union.

Sunday, January 26 8 p.m. — Iowa Mountaineers Film-Lecture — "By Jeep Around the World" — Macbride Auditorium.

Hello, sports fans everywhere — Other journalists give you the news after it happens, and some even give it to you as it happens. Well, I'm going to give it to you before it happens.

FLASH: The Texas A & M Search — the story behind the story. . . You've read of Myers, Erdelatz and others . . . of the 3,422 candidates considered . . . but now for the first time in print anywhere, the really big names who have refused — and why.

JOHN FOSTER DULLES: Still loyal to "The Team." EZRA POUND: Interested, but has prior commitment. ERNEST HEMINGWAY: Flew in, flew out as soon as he found out the place was dry (and he would not be coaching the bull fighting squad). WILLIAM FAULKNER: Refused when he heard Hemingway had been considered.

NIKITA KHRUSHCHEV: Fresh from a highly successful season with the World-Girdling Red Rocketeers, Coach Khrushchev was a top prospect until he refused to be fingerprinted. MIKE TODD: Turned the Aggies down cold when they refused to enlarge the stadium to seat 8 million and to re-do it in pastel colors to harmonize with Elizabeth's eyes. JOHN KENNEDY: Will be available in '60.

ROBERT OPPENHEIMER: Negotiations broken off when the Aggies discovered he could not get clearance for Wing-T information, and it was also feared the team might be a little weak at right end. JOHN GEIN: An ingenious play-maker, but Aggies feared that too many heads would roll. HAROLD STASSEN: His experience would be invaluable for Alumni relations, but can't seem to get the nod. DAG HAMMARSKJOLD: All but signed until they discovered his intention to set up a buffer zone between the 40 yard lines.

ALBERT SCHWEITZER: Decided that he was needed more where he is. JOINT CHIEFS OF STAFF: Negotiated as a group. Were refused because the Aggies feared that they would never get a coordinated air-ground attack going. WALTER REUTHER: Stalemated over a share-the-gate proposal. MAO TSE TUNG: Intrigued, but would rather continue his poetry.

Bill McCusker, A4, Waterloo, is an advertising man who will doubtless go a long way in the profession. Examples posted on the DI advertising bulletin board: Picture of GI combat boots with caption "Warm her heart for Christmas." Picture of beaming executives around sales receipt figures: "Who says yellow journalism doesn't pay?"

LESSON FOR THE WEEK: Not everyone who runs in circles is a wheel, nor every figure with four right angles a square — and the most heavily inhabited area does not always have the densest population.

Must Level Arms Race

By J. M. ROBERTS Associated Press News Analyst President Eisenhower and Secretary John Foster Dulles, in their reaction to Russia's latest suggestion for a summit conference, are more in line with America's European allies than they have been since Geneva.

There has been a growing restlessness in Europe because the United States always seemed to be turning down Russian suggestions for negotiations in an off-hand fashion. This restlessness persisted despite the Russian demonstration at last summer's disarmament conference, and in subsequent negotiations at the United Nations, that she was not ready to make concessions.

The President and Dulles got an earful on this at last month's NATO meeting in Paris. That probably explains why they are now making suggestions about

methods of approach rather than turning a wholly cold shoulder. In return for this, the Allies are presenting a united front in their demand that Russia engage in spadework at lower levels before any summit conference. The Allies were under considerable propaganda difficulty in breaking off the disarmament conference in London despite ample demonstration of its futility. They don't want to be in a similar position after people everywhere have worked up hope in a summit conference and she did over Geneva two and a half years ago.

Toward that end they would like to be sure before they start, that the top leaders would have before them at least one important topic on which there is good chance of agreement.

The West is now particularly wary because Geneva produced what sounded like an agreement on the methods of German unification, only to have the Russians continue their refusal of any form of implementation. That meeting was hardly over before Moscow renewed its campaign for recognition of two Germanys.

No lasting accord for co-existence or anything else can be made until the German problem is settled, along with that of the captive states of eastern Europe.

The danger the free world has faced recently, however, is that Russian advances in military science might make it impossible to maintain even the status quo.

The compelling idea now is to establish the realization on both sides that the arms race must be leveled off, even if there can be no settlement of issues until later.

Star-gazers Welcome

Thursdays at Observatory

By CHERYL JENNISCH

Although the possibility of observing an earth satellite through the telescope in the Physics Building observatory is nearly impossible, many amateur astronomers spend Tuesday evenings gazing at the moon, planets and stars.

Classes from local schools, Boy and Girl Scout troops, SUI students and Iowa City residents often climb the many stairs to the dome of the Physics Building.

The observatory is open to the public every clear Tuesday night. On hand to help amateur astronomers are members of the SUI Astronomy Department who adjust the telescope and explain which heavenly bodies can best be viewed.

During the coming month, observers will be able to see the Andromeda Nebulae, a galaxy outside our own galaxy, and the Orion Nebulae, a vast cloud of very thin gas inside our own galaxy in the constellation Orion. These two nebulae are visible on moonless nights.

Most people do their moon-look when the moon is full, SUI astronomers say, but the best time to see the moon is during its first phase. They explained that shadows on the moon during this time make the surface easier to see.

Although the dome was completed in 1942, it was not used until 1955. An Astronomy Department spokesman said he believed the

lens in the telescope now is the same one used in one of the first telescopes purchased by SUI in 1874.

SUI astronomers said a magnifying lens of 20 times is usually the highest one used on clear nights. Higher magnifying lenses are not used because of the haziness and unsteadiness of the Iowa City air.

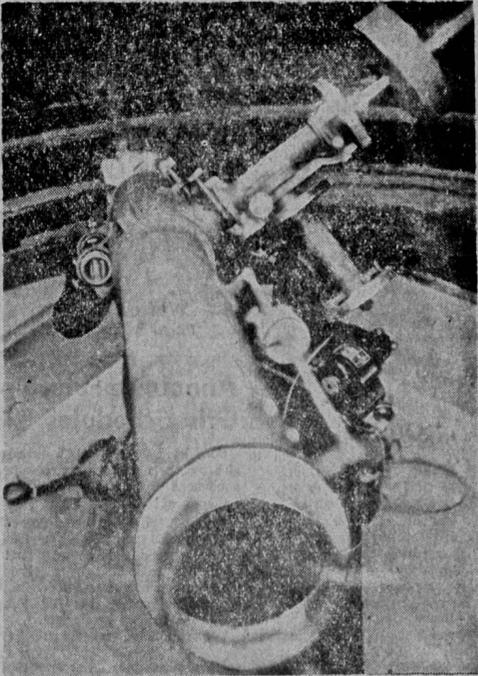

The mounting for the telescope is equipped with a small drive motor which moves the telescope to counteract the rotation of the earth and keep the telescope properly focused.

To view different sections of the sky the dome may be rotated. Cartoonists who show telescopes sticking out into the sky from an ob-

servatory have never really taken a good look at one, an SUI astronomer said.

He explains telescopes are not so exposed because viewing powers of the telescope would be affected. The attention of first-time visitors to the observatory is often distracted from the stars to a 24-hour clock sitting against the wall. The exact time in places all around the world can be seen by checking the hands of the clock.

One of the first questions asked by visitors to the observatory is what planets can they see. SUI astronomers point out that it depends on the time of year. Venus can now be seen as a crescent in the early evening sky and Uranus will be visible during February.

A Show Each Week

ONE OF THE MANY VISITING viewers, Alex Mehaffey, G. Appamatow, Va., looks through the telescope inside the dome of the Physics Building. The observatory is opened to the public for stargazing and moon-watching every clear Thursday night. One lens used in the present telescope was also used in one of the first devices purchased by SUI in 1874.

Final Application Date Set For 'Week in Washington'

Four Iowa college professors have been awarded one-week expense-paid trips to Washington, D.C., for a look into the workings of politics in the national government, Robert F. Ray, director of the Iowa Citizenship Clearing House (ICCH) announced Monday. Ray is professor and Director of the Institute of Public Affairs at SUI.

The four political science faculty members are Prof. C. Edwin Gilmore of Grinnell College, Grinnell; Prof. Robert J. Horgan of Clarke College, Dubuque; Prof. John R. Mashek of Iowa State College, Ames; and Prof. Wellington W. Whittlesey of William Penn College, Oskaloosa.

While in Washington the professors will be the guests of Congressman Fred Schwengel (R-Davenport), first Iowa district, and Congressman Merwin Coad (D-Boone), sixth Iowa district. The

professors will meet Congressional and national political leaders, attend sessions and hearings of Congress and pursue individual research projects, Ray explained.

Twenty students at Iowa colleges also will be awarded "Week-in-Washington" trips this year, Ray said. Deadline for filing applications for the trip is Feb. 1. Students attending any of 24 colleges and universities in Iowa are eligible to apply. Application forms can be obtained through political science instructors.

The awards are made by the advisory board of the Iowa Citizenship Clearing House, composed of representatives of both political parties, college instructors and administrators. The program is financed with foundation funds and contributions from the Democratic and Republican parties of Iowa. Headquarters of the ICCH are at SUI.

Mountaineers Slate Film, Sunday Talk

A 61,000-mile journey, "By Jeep Around the World," will be the subject of a film-lecture to be presented Sunday at SUI. Ted Bumiller will describe his trip at 8 p.m. in Macbride Auditorium in a program sponsored by the Iowa Mountaineers.

The young Cincinnati architect spent one year, 16 tires and 2,300 gallons of gasoline on his journey through 30 countries.

His adventures included photographing bullfights in Spain, Bastille Day in Paris, and the gaiety of a German beer garden in Munich. One of his most pleasant surprises on the journey was a pantomime acted in the Gardens of Tivoli, Copenhagen, the oldest amusement park in the world.

Traveling alone, he often slept in cemeteries to escape the curious crowds, but lived with the people of the land whenever possible. He shared a life of saffron-robed monks, faced the charge of a water buffalo whose horns tore a four-foot gash in his jeep and barely escaped the stabbing knife of a bandit in India. His jeep broke down in the Australian bush, where a man can die without water in 24 hours.

Bumiller has shots of his climb to the top of the Matterhorn, a 15,000-foot mountain of ice and rock, in an unseasonable snow storm, and pictures of skin dives in the Mediterranean.

Lutheran Church Circle Meets Set

Circles of the First English Lutheran Church will hold their first meetings of the year this week.

The meetings will be held at the following places: Maya Winther Circle in the home of Mrs. Robert Sutherland, 1413 Ash, at 8 p.m. today; Esther Bacon Circle in the home of Mrs. Edna Benjamin, 1035 Howell, at 8 p.m. today; Edith Eykamp Circle at the home of Mrs. C. P. Berg, 528 N. Dubuque, at 1:30 p.m. Wednesday; Ruth Zartman Circle in the home of Mrs. Frank O'Conner, 204 Golfview, at 1:30 p.m. Wednesday.

CLASS PRESIDENT

Barbara Delaney, daughter of Mr. and Mrs. L. A. Delaney, 522 E. Burlington St., has been elected freshman class president at Ottumwa Heights College in Ottumwa.

Interviews for Foreign Teaching Positions Set

Two government representatives will interview interested qualified candidates for teaching positions in American Army Schools overseas next month at Iowa State Teachers College in Cedar Falls. Ermina E. Busch, Director of the SUI Educational Placement Office, announced Monday.

The interviews will be held in the college faculty rooms at ISTC Thursday and Friday, Feb. 20 and 21, from 3 p.m. to 9 p.m. and Saturday, Feb. 22, from 9 a.m. to 9 p.m.

Approximately 900 teachers will be needed to serve in Japan, Okinawa, France, Germany and Northern Italy, Miss Busch said.

Applicants must be United States citizens and have a B.A. degree with two years of public school teaching as of June, 1958. The teaching must have been within the 5-year period immediately preceding hiring. Women applicants must be unmarried.

No written test is required. To be eligible for a personal interview the applicant must have with him a completed application form, an official transcript of undergraduate and graduate credits, evidence of the required degree and a photocopy of a valid teaching certificate.

Persons desiring interviews should make arrangements for appointments not later than Feb. 10, Miss Busch said.

Additional information and application forms can be secured from

E. W. Goetch, Placement Consultant in Charge of Overseas Teacher Recruitment, College Placement Bureau, Iowa State Teachers College, Cedar Falls.

Inks High Score In Library Test

Leonard Hitchcock, son of Prof. and Mrs. Orville A. Hitchcock of 419 Beldon Ave., is one of ten Carleton College freshmen to be excused from attending classes in library instruction, James H. Richards, Carleton librarian announced.

Hitchcock, a graduate of University High School, was exempted because of the high score he received in a Library Experience Test given incoming students last fall.

Hitchcock's father is head of the SUI Speech Department.

Plan to Show Pictures About Retarded Children

The Johnson County Association for Retarded Children will show two moving pictures about retarded children Wednesday at 8 p.m. at their monthly meeting at the School for Severely Handicapped Children.

In the future, these meetings will be held regularly on the third Wednesday of each month. Anyone may attend the meeting and see the pictures.

SUI Singers Plan Concert For Sunday

The SUI Chamber Singers will present a vesper concert Sunday at 4 p.m. in Iowa Memorial Union.

Stephen Hobson, SUI music instructor, conducts the University Chamber Singers, and Willa Starkey, A1, Vancouver, Wash., is accompanist.

The vesper program will open with four motets by Francis Poulenc based on paraphrases of events leading to the Crucifixion. "Exultate Deo," also by Poulenc, will follow. This opening group will be sung in Latin, but translations done by J. Richard Wilmet, associate professor of sociology and anthropology at SUI, will be provided the audience.

The program will continue with Edward Grieg's "Four Psalms." Based upon old Norwegian church-melodies, these psalms reflect a deep devotional mood expressed in a complex chromatic and polyphonic style.

The concluding selection will be the "Magnificat in C" by Johann Pachelbel. The "Magnificat" text comes from Luke 1:46-55 and is sometimes referred to as "the canticle of the Virgin Mary."

SUI Items

PHYSICS COLLOQUIUM will hear Prof. Cornelius P. Browne of Notre Dame University speak on "Isotopic-Spin Selection Rules in Nuclear Reactions" today at 4 p.m. in Room 301, Physics Building.

INTER-VARSITY CHRISTIAN FELLOWSHIP will discuss church music today at 7:30 p.m. in the East Lobby Conference Room of the Iowa Memorial Union. Dale Noble, G, Riceville, is studying music at SUI and will be the speaker.

5569 RESEARCH AND DEVELOPMENT COMPANY will meet today at 7:30 p.m. in the Board Room of Old Capitol. Hugh Hansen, assistant professor of Economics at SUI, will discuss "Comparative Economic Systems." All Army reserve officers may attend.

WOMEN'S RECREATION ASSOCIATION (WRA) Intramural Basketball season will be held from Feb. 18 to March 18. Games will be played in the Women's Gym on either Wednesday or Thursday of each week. Any woman student living in town who would like to play on a team may contact Sharon Van Oteghen, 8-2913.

PLAN NOW TO HEAR

Wm. Branham, a prophet sent of God. As John the Baptist was sent for a witness before the first coming, this message is a witness to the whole world for the second coming. The Lord confirms the preached word with signs following (Math. 11 verse 5, Mark 16 verses 17-20 and John 14 verse 12). A ministry not seen for 19 centuries. Jan. 24 thru Feb. 2, 7:00 p.m. daily. Hippodrome (seats 7,000), Waterloo, Ia.

R. J. Reynolds Tobacco Company, Winston-Salem, N. C.

If you answered "No" to all questions, you obviously smoke Camels—a real cigarette. Only 6 or 7 "No" answers mean you better get on to Camels fast. Fewer than 6 "No's" and it really doesn't matter what you smoke. Anything's good enough!

But if you want to enjoy smoking as never before, switch to Camels. Nothing else tastes so rich, smokes so mild. Today more people smoke Camels than any other cigarette. The best tobacco makes the best smoke. Try Camels and you'll agree!

They're Here! New Spring CAPEZIOS!

Test your personality power

Have a real cigarette—have a Camel

BEHIND THE Sports Desk

By Alan Hoskins

Ploen Case

About two weeks ago, former Iowa football star Kenny Ploen received notice from his Clinton, Iowa, draft board that he would be inducted into the Armed Forces on Feb. 6.

Since then, Col. Glenn R. Bowles, director of selective service in Iowa, has put Ploen's case under review. And justly so.

To induct Ploen into the Army now as a private would show very poor judgment on the part of the Clinton draft board, the Iowa selective service, and the Armed Forces.

I'm not saying this because he was a great athlete; that has very little to do with it. Ploen was an honor student in the Army ROTC, as well as being eligible for a ROTC commission pending his graduation from Iowa.

And he definitely was planning on returning to Iowa to finish his last year on a five-year engineering course, as he would have had he not dropped out for a semester to play Canadian football.

Kenny went north only on the assurance that it would not endanger his ROTC standing by going to Canada. Reportedly, friends who checked with a draft board member at Clinton, say they were told the day after a board meeting that Kenny could go to Canada without danger of being drafted.

So Ploen went up to Canada and played football, figuring on returning to Iowa to get his engineering degree during the spring semester. But, when he got back, the draft notice was waiting.

Now the matter is up to the review board. Ploen will go along with what the board says. If they say he's to be inducted, he'll be one of the first there, and will never say a word about the decision.

But it'll be a mistake if they do draft him. Of course, reviewing the success the United States has had lately in launching the Vanguard, and other similar failures, another mistake wouldn't be out of line.

Putting an honor student, who received the highest ROTC honor or a cadet can earn when he was named Cadet Colonel, in the Army as a private certainly does not seem justified.

The Army definitely needs men like Ploen to train other men, and otherwise help the Armed Forces. He can do this as a commissioned officer, but much less as a private. The United States is far enough behind Russia now, without making privates out of our top ROTC cadets.

★ ★ ★
WITH ALL the apologies coming out of Texas to Iowa State football coach Jim Myers, there must be more to Myers' refusal of the Texas A&M job than meets the eye.

Now that Myers has joined a fairly long list of prominent grid coaches that have turned the Aggie job down, it looks like Texas A&M officials are really beginning to worry about finding a new and worthy successor.

The job no longer is as lucrative as it once seemed. With approximately a half dozen coaches already on the "not interested" list, the next candidate will take a long look at the situation before accepting the job.

And for good reason. Paul (Bear) Bryant did not leave Texas A&M because of loyalty to his alma mater, Alabama. A coach just doesn't leave a team that's been as successful as A&M to move to a college which has had nothing out of the ordinary over the past few years. Unless, of course, he knew what the prospects for the coming years were.

I think that Texas A&M overstepped itself once too often when somebody suggested Eddie Erdelatz of Navy for the job. That's when Myers said no.

A&M now will probably have to settle for something far less than Myers. They may have gotten a little bigger than they really are.

Howard Leads Buckeyes Past Iowa, 70-64

Buckeye Ace Has 22 Points, 18 Rebounds

COLUMBUS, Ohio (AP)—Ohio State won its second Big Ten basketball game in three days by downing Iowa 70-64 here Monday night.

The victory put the Buckeyes into a second place tie in the Big Ten standings with idle Indiana.

Frank Howard was a tower of strength for Ohio State. The 6-foot-6 forward scored 22 points and picked off 18 rebounds.

Ohio State was in command throughout the game. Iowa led three times, but never by more than two points, and Ohio State put on two scoring spurts that dashed the Hawkeyes' chances.

The two teams battled on even terms until about 7 1/2 minutes were left in the first half. Then Ohio State whipped in three field goals within 31 seconds to wipe out Iowa's last lead.

Moments later, the Buckeyes staged a drive that netted them 12 of the next 15 points and a 45-34 halftime lead.

Ohio State's biggest margin, 14 points, came as the result of a spurge midway in the second half that produced a 61-47 lead.

They held a sizable margin until late in the game, when Iowa began to close the gap against Ohio State reserves, but there was not enough time remaining.

Larry Swift topped the Hawkeye scoring with 18 points. The Buckeyes had a slight edge percentage-wise, sinking 35.2 per cent of their shots from the floor while Iowa made 34.2 per cent.

It was on the backboards that the Buckeyes dominated the Iowans.

With Howard leading the way and center Larry Huston grabbing 12 rebounds, Ohio State out-rebounded the tall Hawkeyes by a wide margin, 57-34.

Howard also did a fine defensive job, holding Iowa's leading scorer, Dave Gunther, to only nine points. Gunther sat out most of the last half.

The victory was Ohio State's fourth in 13 starts and gave the Buckeyes a 3-2 Big Ten mark. Iowa, 7-5 over-all, is 2-3 in the conference.

★ ★ ★
MADISON, Wis. (AP)—The University of Wisconsin rolled to a 66-52 Big Ten basketball victory over Michigan State Monday night. The Badger upset shattered Michigan State's immediate hopes for a first place conference tie with Michigan.

The Badgers, who held a slim 29-27 halftime lead, poured it on in the second period, leading by 10 points or more as the final minutes ticked away.

With six minutes left, Wisconsin went into a semi-stall. During this time the Badgers collected eight points in free throws to help bolster the final edge.

The Spartans jumped off to a 12-6 lead and were in full control until midway in the first half when Walt Holt led a Wisconsin rally that carried the Badgers into a 17-15 lead. The lead changed hands five times before Wisconsin piled up its 29-27 halftime edge.

Holt took the scoring honors with 22 points. High for Michigan was Bob Andereg with 16. The Badgers hit 20 out of 25 free throws. Michigan had 16 of 28.

HEADED DOWNHILL, Iowa's Frank Mundt, lost his balance and fell Saturday night in the Hawkeyes' 79-75 win over Indiana in the Iowa Fieldhouse. While Mundt fell, Hoosiers Archie Dees (center) and Frank Radovich (33) managed to keep their eyes on the ball and avoid the flying arms and legs. The win knocked Indiana out of a tie for the Big Ten lead with Michigan.

Gymnasts Trounce NU; MSU Tips Swimmers

Iowa captured all seven first places and six second places Saturday to swamp Northwestern, 80 1/2-30 1/2, in a Big Ten dual gymnastics meet in the Iowa Fieldhouse.

It was the second straight for the Hawkeye gymnasts, who defeated the Air Force Academy in their opening last week.

The Hawkeyes were led by Staffan Carlsson, versatile performer from Orebro, Sweden, who captured four first places to score 24 points, only 6 1/2 less than the Northwestern total. Carlsson was first in free exercise, horizontal bar, parallel bars and tumbling.

Other Iowa winners were Tim Joe in the trampoline, Bill Buck in the sidehorse, and Tom Novak in the still rings.

Northwestern's top point getter was Ed Shekut, who scored seven points in five events. The Wildcats top finisher was Jay Kramer in the tumbling event.

Iowa's next dual meet will be Saturday against Chicago in the Iowa Fieldhouse. The meet will start at 3:30 p.m.

Free Exercise — 1. Staffan Carlsson (I) 17 1/2; 2. Ted Segura (I) 15 1/2; 3. Bill Anderson (N) 14; 4. Bill King (I) 14; 5. Ed Shekut (N) 14.

Trampoline — 1. Tim Joe (I) 17 1/2; 2. Harlan Bentley (I) 14; 3. Shekut (N) 11; 4. Justice (I) 17 1/2; 5. John McCurdy (I) 14; 6. Shekut (N) 11; 7. Dick Plato (I) 14; 8. Kent Shodeen (N) 13; 9. Shekut (N) 11.

Side Horse — 1. Carlsson (I) 16; 2. Tom Novak (I) 13; 3. Segura (I) 13; 4. Shodeen (N) 12; 5. Shekut (N) 11.

Parallel Bars — 1. Carlsson (I) 16; 2. Harlan Bentley (I) 14; 3. Shekut (N) 13; 4. tie, Godfrey Steyk (I) and Shodeen (N) 13.

Still Rings — 1. Novak (I) 14; 2. Marshall Claus (I) 13; 3. Joel Koppie (N) 13; 4. Steyk (I) 13; 5. Shodeen (N) 13.

Tumbling — 1. Carlsson (I) 15; 2. Jay Kramer (N) 13; 3. Anderson (N) 11; 4. Dave Doner (N) 9; 5. no fifth.

Jones Two-Mile Winner at Boston

Charles (Deacon) Jones, Iowa track star, won the two-mile run in Knights of Columbus games at Boston Garden Saturday night.

Jones passed Gordon McKenzie of the New York Pioneer Club on the next to the last lap to gain the win. The Iowa distance ace was timed in 9 minutes, 4.2 seconds.

It was the first indoor competition of the year for Jones, who is defending Big Ten one and two-mile champion. Jones was a member of the U.S. Olympic team in 1956.

Jones' time was the best he's ever recorded on an indoor track. Deacon's previous best was 4:09.9 made in Chicago in March, 1956. Jones said he felt very good and had been pushed in the final lap he could have broken nine minutes.

West Virginia Widens AP Poll Lead

Burlington N.D. No. 54 For St. Mary's

By LOU YOUNKIN
Daily Iowan Sports Writer

St. Mary's of Iowa City ran their consecutive winning streak to 54 Monday night by edging Notre Dame of Burlington, 61-56. It was the 13th win of the season for the Ramblers and the fourth defeat in 13 starts for Notre Dame.

Accuracy at the free throw line meant the difference for St. Mary's. The Bee Cee's scored 23 field goals to 21 for St. Mary's, but the Ramblers dropped in 19 of 24 gifters while Notre Dame was able to hit only 10 of 18.

St. Mary's extended a narrow 14-13 first quarter lead to 20-13 at the end of the period on a fielder by Mike Blackman and two by Vic Belger.

The Ramblers increased their lead to 15 points twice in the second period and led at halftime, 39-26.

The Bee Cee's solved the Rambler full court press in the third quarter and pulled up to within four points going into the final period, 51-47. Roger Trautner dumped in 12 of the 21 Notre Dame points. Terry Klein accounted for seven of St. Mary's 12.

When Steve Mallick dropped in a free throw to open the fourth quarter and narrow the Rambler lead to three points, Coach Newell Breyfogle put his team into a stall. St. Mary's scored only one basket in the quarter, but added 8 free throws to maintain their advantage.

Trautner led Notre Dame with 21 points as Don Stiengebreder added 16. Dave Maher, high scoring Rambler guard, was held without a field goal in the last half by Stiengebreder, but five first half baskets and 10 free throws, 7 in the last half, gave him scoring honors for St. Mary's with 20. Klein and Belger chipped in 18 and 16 respectively.

St. Pat's Falls To Cedar Rapids

By DICK LYNES
Daily Iowan Staff Writer

Cedar Rapids St. Pat's defeated Iowa City St. Pat's here Monday night 85-71 in a Northeast Iowa Catholic conference basketball game.

Cedar Rapids, with its scoring power spread out over six players, all of whom scored in the double figures, took charge of the game early in the second half and from there slowly stretched it lead.

Iowa City enjoyed early 7-5 and 11-7 leads, but six points by Nick Cambridge and a bucket by Terry Dagget put Cedar Rapids ahead 14-11.

Although the Irish never went ahead again they kept the score within one or two points throughout the rest of the first half and tied the score on five different occasions in the second quarter.

Early in the third quarter the Shamrocks turned a 42-41 lead into 54-43 margin in less than a minute and a half, and from there ran away from Iowa City.

Iowa City was hampered by the fact that two of its regulars, John Millecker and Gary Crowley, picked up four fouls in the second quarter. Millecker fouled out late in the third quarter. Crowley managed to continue the game without picking up his fifth personal.

Crowley led the Iowa City scorers with 18 points while Maynard Rogers had 15 and Bulgarelli 16 for the Irish. Cambridge had 21 for the winners, followed by Pete Puffall with 17, Dave Novotny with 13, Butch Young, Linn Trosky and Daggett each with 11.

NL Hurlers Protest Coliseum's Short Fence

NEW YORK (AP)—Leading National League pitchers issued a loud lament Monday over the Dodgers' 250-foot left field fence in the Los Angeles Coliseum and blasted what they called a growing tendency in baseball to favor the hitters.

It's the biggest farce I ever heard of," said Johnny Antonelli, the San Francisco Giants' ace. Bob Friend, star of the Pittsburgh Pirates' staff, termed the situation "ridiculous."

Complaints also were heard from Warren Spahn of the World Champion Milwaukee Braves and other pitchers, past and present, who said the game was turning into a "hitters' paradise and pitchers' nightmare."

Some suggested that the game's greatest need was uniformity, or near uniformity, in outfield measurements.

The commotion was raised by the announcement that the 101,000 capacity coliseum, new home of the transplanted Brooklyn Dodgers, would have a 250-foot left field line bulwarked by a 40-foot wall. The rightfield foul line will measure 300 feet from home plate and center field will stretch to 440 feet at its farthest point.

The Dodgers figure to play a steady tattoo on the wall or keep balls flying over the short left field wall with their right hand hitting power consisting of Gil Hodges, Roy Campanella, Charlie Neal and Gino Cimoli.

Spahn, who won 21 games for the Braves last season, said he believed the Los Angeles park will affect the fastball pitcher more than the sinker ball thrower, of which he is one.

"Know what I'd like to see?" Spahn asked rhetorically. "I'd like to see the day when the baseball people pass a rule making it mandatory for a ball to travel at least 300 feet for a home run. The minimum now is 250. That's no minimum at all."

World Burdette, who won three Lewis Series games for Milwaukee in helping beat the New York Yankees last fall, said the short left field wall would not affect his pitching style.

"I pitch my own strength rather than a hitter's weakness," he said. "Remember you still have to get the ball up in the air to hit a home run. When a ground ball can become a home run, that's when I'll begin to worry."

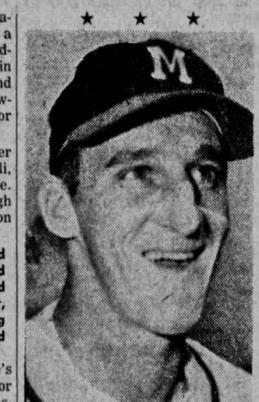

Basilio Named Hickok Winner As Top Athlete

ROCHESTER, N.Y. (AP)—Middleweight Boxing Champion Carmen Basilio Monday night hailed in another big prize when he was named winner of the eighth annual S. Rae Hickock "Professional Athlete of the Year" award.

The 30-year-old ex-Marine from Chittenango, N.Y., was presented with the \$10,000 diamond-studded, gold-buckled belt that goes with the award at the annual Rochester Press and Radio Club dinner for the benefit of the polio fund.

Basilio, who has won 11 world titles, is the only boxer to have won the Hickok award. He is also a professional athlete of the year.

Basilio, who has won 11 world titles, is the only boxer to have won the Hickok award. He is also a professional athlete of the year.

Warren Spahn "Pitcher's Nightmare"

Announce Future Grid Schedules

Completed Iowa football schedules for the next four years were announced by the Iowa Athletic Department Monday.

Iowa will play five home games in 1958, 1959 and 1960. The 1961 Big Ten schedule is complete but Iowa has to add two or three non-conference games, depending on whether or not the Big Ten goes to a ten-game schedule.

The completed schedules:

1958
Sept. 27—Texas Christian at Iowa City
Oct. 4—U.S. Air Force Academy at Iowa City
Oct. 11—Iowa at Iowa City (Dad's Day)
Oct. 18—Wisconsin at Madison
Oct. 25—Northwestern at Iowa City (Homecoming)
Nov. 1—Michigan State at Ann Arbor
Nov. 8—Minnesota at Minneapolis
Nov. 15—Ohio State at Iowa City
Nov. 22—Notre Dame at Iowa City

1959
Sept. 28—California at Berkeley
Oct. 3—Northwestern at Evanston
Oct. 10—Michigan State at Iowa City
Oct. 17—Wisconsin at Madison
Oct. 24—Purdue at Lafayette
Oct. 31—Kansas State at Iowa City
Nov. 7—Minnesota at Iowa City
Nov. 14—Ohio State at Columbus
Nov. 21—Notre Dame at Iowa City

1960
Sept. 24—Oregon State at Iowa City
Oct. 1—Northwestern at Evanston
Oct. 8—Michigan State at East Lansing
Oct. 15—Wisconsin at Iowa City
Oct. 22—Purdue at Iowa City
Oct. 29—Kansas at Iowa City
Nov. 5—Minnesota at Minneapolis
Nov. 12—Ohio State at Iowa City
Nov. 19—Notre Dame at South Bend

1961
Oct. 14—Indiana at Iowa City
Oct. 21—Wisconsin at Iowa City
Oct. 28—Purdue at Lafayette
Nov. 4—Ohio State at Columbus
Nov. 11—Minnesota at Iowa City
Nov. 18—Michigan at Ann Arbor
Nov. 25—Notre Dame at Iowa City
(2 of 3 non-conference games to be scheduled.)

Kansas 2nd; K-State 3rd

By THE ASSOCIATED PRESS

West Virginia's Mountaineers, hustling harder than ever after one close call this season, racked up their 13th straight basketball victory last week and took a firmer grip on first place in the weekly Associated Press ranking poll.

Before taking 10 days off from competition while they face mid-year examinations, the Mountaineers whipped Pittsburgh 71-64 last Wednesday. It was their second decisive victory after a one-point squeaker against Villanova Jan. 8.

In the voting of 97 sports writers and broadcasters in the AP poll, West Virginia drew 71 votes for first place and 13 for second. Kansas' returning to second place in the balloting with the return of Wilt Chamberlain to the lineup, drew seven first place votes. Cincinnati also drew seven.

The point scoring on the usual basis of 10 for each first-place vote, nine for second, etc., reflected the Mountaineers' domination of 925 votes out of a possible 970. Kansas drew a second-place total of 728 while Kansas State took third with 628 points.

Cincinnati's Bearcats moved ahead of idle San Francisco into fourth place. While the Dons were resting on their 12-1 record, Cincinnati routed Houston and St. Louis in the tough Missouri Valley Conference and made their season record 12-2.

Maryland moved up from eighth to sixth in the ratings. North Carolina suffered a corresponding drop. Oklahoma State in seventh place, Kentucky, ninth, and Bradley, 10th, retained their places.

Football Giants Sign Former Lion Dublinski

NEW YORK (AP)—The New York Giants of the National Football League Monday acquired Tom Dublinski, a free agent who saw service with the Detroit Lions at the start of his pro career.

Dublinski, a quarterback, was inactive last season. He played with Detroit in 1952, 1953 and 1954 and later with the Toronto Argonauts of the Canadian League.

Reform Income Tax Rates, Iowa Tells House Group

WASHINGTON, D.C. — Iowa industry is experiencing a "creeping socialism" which can be eliminated only if moderation is offered in the present excessive and discriminatory income tax rates, a representative of the Iowa Manufacturers Association declared Monday.

Testifying before the House Ways and Means Committee, which is considering changes in the Federal income tax structure, L. P. Boudreaux, auditor for Penick and Ford, Ltd., Inc., Cedar Rapids, strongly supported the proposed Sadlak-Herlong tax reform presented by two members of this committee.

Boudreaux said that this bill, introduced by Rep. Antoni N. Sedlak (R-Conn.), and Rep. A. S. Herlong, Jr. (D-Fla.), would enable small manufacturers to accumulate adequate funds for expansion, increase job opportunities for people, and increase payrolls.

During the period from 1940 to 1950, Boudreaux said, expansion in non-farm job opportunities was not sufficiently large to absorb all surplus labor in Iowa.

"The situation will become more acute unless something can be done to improve the availability of risk capital for Iowa's small industries, thus enabling them to carry out expansion programs," Boudreaux said.

Boudreaux believes that if the Federal Government permits the continued rate of corporate income tax to remain at its present wartime high, it will continue to prohibit the adequate accumulation of funds out of the current operations of small manufacturers, which are now so vitally needed in Iowa to finance expansion programs.

The individual income tax rates are discouraging the primary source of venture capital for our small Iowa manufacturers, Boudreaux continued, by taking away the possible savings of individuals who otherwise could provide these necessary funds.

"Offering lip service to our great economic achievements with one hand, and at the same time smashing down the incentives of free man through tax exploitation with the other, is gradually suffocating the golden egg-laying goose," he said.

Boudreaux explained that the Iowa manufacturers, not unlike producers in other parts of the United States, have been willing to invest their capital and energies with land and labor in an attempt to produce goods and services which offer a better way of life.

But it is not surprising, under the present income tax structure, that the forces of growth are slow, Boudreaux said.

"The manufacturers of Iowa are consciously aware of the adverse effects of the present corporate tax structure; namely, the inevitable deterioration of our greatest national asset — competition," he told the committee.

Boudreaux strongly believes that, in addition to the direct stimulant to business improvement, there would be a significant economic growth without inflation if the reforms of income tax structure presented by Sadlak and Herlong were to be adopted.

Two Break-ins At Coralville Early Monday

Deputy Sheriff Don Wilson is investigating two break-ins at Coralville early Monday morning.

Burglars entered Dale's Standard Service about 3 a.m. and Babb's Restaurant a half hour later, Wilson reported.

Dale Vilbrower, owner of the service station said the burglars entered through a rest room and took \$1.65 in change. Ten cartons of cigarettes also were missing.

Entry was forced at the restaurant by breaking the glass front door, Wilson said. The juke box, shuffleboard and cash register were rifled of about \$65.

Wilson said he found two sets of footprints at both places. He also discovered similar car tracks near both establishments.

OMVI Charge Filed in Court

Charles J. Rickman, 32, Des Moines, was released without bond Monday in Iowa City police court on a charge of driving while intoxicated. He is to return for arraignment Jan. 27 at 8:30 p.m.

Rickman was arrested at 12:50 a.m. Sunday by a highway patrolman as he drove on Highway 6 near Oxford. He was held in Johnson County Jail until the court hearing Monday morning.

In court, he told Judge Ansel Chapman he was enroute to the Great Lakes, Ill., naval hospital for a physical checkup on a 100 per cent disability granted for severe tuberculosis. He said he was not able to post bond and was required to be at the hospital before 8 a.m. today or his pension would be automatically terminated.

Because of these conditions, the release was approved by the county attorney's office.

Two motorists were fined in Iowa City Police Court Monday by Police Judge Chapman.

Lawrence M. Benfer, Al Davenport, was fined \$5 and \$5 costs on two counts, speeding and driving on the left side of the street.

On a charge of failing to give information after an accident, James J. Mahoney, 125 W. Burlington St., was fined \$10 and \$5 costs.

Parking Tickets Issued In Last Year Total 10,432

An annual report listing 11,623 "crimes" committed in Iowa City during 1957 has been compiled by Police Chief Oliver A. White.

The figure includes 10,432 parking tickets issued and 559 traffic violations. Criminal complaints listed numbered 632.

The report lists the following major crimes:

One homicide, one rape, four robberies, two cases of aggravated assault, 34 burglaries, and 25 auto thefts. The homicide charge has been disposed of with a prison sentence and the rape count remains pending.

The greatest number of criminal complaints consisted of larcenies and intoxication. The report lists 263 larcenies and 155 intoxication reports. Also listed were 13 reports involving forgery or false drawing of checks, two sex offenses other than rape, and 45 on disorderly conduct.

On the basis of the complaints, 11,319 charges were filed in Iowa City police court. Of these, 10,432 were for parking violations.

There were 10,510 convictions on the charges filed through guilty pleas or trial. A total of 763 charges were dismissed. Twenty-six remained pending at the end of the year.

Also listed in the report were 83 motor vehicle accidents resulting in personal injury to 105 persons and 682 accidents in which property damage occurred.

Innocent Plea By Doucet on Arson Charge

Donald L. Doucet pleaded innocent Saturday to a charge of setting fire to his rented home in Coralville last summer.

Also at the arraignment before District Judge Harold D. Evans, Doucet filed for a bill of particulars on a charge of defrauding insurers. This lesser charge was filed separate of the charge of arson.

Judge Evans set trial on the arson charge for the February court term.

Your Income Tax - No. 1- Income Tax Deadline Is April 15, But There Are Advantages in Filing Early

EDITOR'S NOTE: This is the first in a series of eight stories on your income tax, designed to save you time and money in filing your return on 1957 income. Clip and save each of the eight articles for ready reference when you begin calculating your tax.

By G. K. HODENFIELD
AP Newsfeature Writer

THERE'S NO USE trying to ignore it any longer. It's that time again when Uncle Sam expects all his money-making nieces and nephews to file their income tax returns.

The deadline isn't until midnight of Tuesday, April 15. However, if you have a refund coming, odds are the sooner you file your return the sooner you'll get your money. Even if you owe Uncle Sam more than he already has taken, it's wise to get started now. Those who wait until the last minute are more apt to make mistakes, and mistakes can be costly.

By this time Uncle Sam should have mailed you a copy of the same type of form that you used last year. If he didn't, or if you are paying income tax for the first time, you can get the forms and instructions sheets from your local bank or post office, or from any Internal Revenue Service office.

Before you start the actual work on your tax return it might be well to develop the proper mental attitude by repeating slowly several times: "It just isn't true that Uncle

Sam wants all my money and the shirt off my back — it only seems that way."

Actually, the tax laws provide numerous ways in which you can reduce the government's annual bite. The tax collectors insist they want only what's due, and not a cent more. They proved that last year by refunding millions of dollars to surprised taxpayers who had made careless mistakes in filling out their forms.

This series of articles is designed primarily to help the vast group of Americans who deal directly with the government on taxes due for salaries and wages earned during 1957. If you are under age 65 and had an income of \$600 or more during 1957, you must file a return, re-

gardless of whether any tax is due. If you are 65 or over, you must file if your gross income was \$1,200 or more.

If your income was below these minimums you don't owe any tax. So, if your employer or employers withheld any taxes during the year, you must file a return in order to get a refund.

You can fill out your form and mail it in just as soon as your employer (or employers, if you worked for more than one during the year) provides you with his record of how much you were paid and how much was deducted for taxes during the year. This information will come to you on form W-2, and a copy (copy B) of this form must be attached to your return when you file it.

There have been no major changes in the tax laws since last year. There has been only one major change in the form 1040—the addition of a line on the first page for the listing of travel and reimbursed expenses, etc. However, after the forms were printed, the Internal Revenue Service decided that the public hadn't been given enough warning of the details involved, so it ruled that you are not required to use the new line. A

later article will explain this new line.

In addition to filing an income tax return for money earned in 1957, many taxpayers will have to file a declaration of estimated income and tax for money to be earned in 1958.

This is designed primarily for self-employed persons, but it also applies to other taxpayers who will have income during the year that will not be subject to the withholding tax.

The declaration includes the amount of any such income and the amount of tax that must be paid on it. Then the taxpayer must make quarterly payments to IRS to cover the difference between the estimated total tax due and the amount paid through withholdings.

The idea is to keep taxpayers on a pay-as-you-go basis. If you find later that you have underestimated your tax, your nearest IRS office can tell you how to file an amended declaration.

After you get your facts and figures together on your 1957 income, the next thing to decide is which of the various forms to use. That will be the subject of the next article.

Man's Condition Critical After Automobile Crash

Elmo C. Heitzman, 62, Riverside, was reported in critical condition Monday night at Mercy Hospital from injuries he received in an automobile accident southwest of Iowa City Saturday evening.

Heitzman suffered a basal skull fracture when he failed to turn at a "T" intersection on a country road about four miles southwest of Iowa City. His car crashed into the ditch and struck the embankment at the far side of the intersection. He has not regained consciousness since the accident, the hospital reported Monday.

The accident was discovered by a passing motorist about 6:45 p.m. Highway Patrolman J. L. Smith, who investigated the accident, said Heitzman may have lain in the wreckage for about a half-hour before he was found. A check-out slip indicated that he had bought groceries between 5:30 and 6 p.m. at Coralville.

SNOW-PACKED highways and streets contributed to a number of other accidents over the weekend, none of which involved personal injury.

A semi-trailer driven by LaVern Altenberg, Grand Marais, Minn., was extensively damaged about

5:30 a.m. Monday when it failed to make the turn at the intersection of Highways 6 and 218. The semi crashed into the ditch on the south side of the highway, spilling corn when seams in the trailer split.

In another accident, Brant L. Stum, 20, an Iowa State Teachers College student, escaped injury when his car, a convertible, missed a curve on Highway 6 just west of the intersection with Highway 218 about 5:15 p.m. Sunday.

The car came to rest on its top, after snapping a guy wire on a utility pole.

Highway Patrolman J. L. Smith filed a charge of failing to have the vehicle under control against Stum in the court of Justice of the Peace J. Newman Toomey. The hearing is set for Saturday.

IN OTHER MISHAPS:
A car driven by James H. Gaffey, Parnell, skidded into a parked car Monday as Caffey turned from Dubuque Street onto Wright Street.

A car driven by Harold D. Fish-

SUI Prof Points Dangers Of Hasty Action in Crisis

An SUI sociologist Monday night pointed to three dangers of hasty action in a climate of crisis aggravated by hysterical reactions to the Sputniks, Little Rock, President Dwight D. Eisenhower's illnesses and signs of economic recession.

These dangers, Harold Saunders, professor and chairman of Sociology and Anthropology, said threaten higher education in America in the form of sacrifices of one goal to another.

For instance, certain pressure groups are urging that the U.S. sacrifice unduly the arts of making peace to the art of waging war. Secondly, they would subordinate the social sciences and the humanities in favor of the physical sciences and industrial engineering.

Thirdly, they would sacrifice the hard-earned gains which America has made toward democratization in favor of a more rigid bureaucratic society, he said.

Speaking to a meeting of Phi Delta Kappa, honorary educational fraternity, Saunders urged a "painful but searching reassessment of our educational institutions." But a series of crises can release educational prejudices which may upset the balance of educational and non-educational needs, he said.

It is important, he continued, that the clamor for technological achievement not be allowed to hinder higher education in its role as a "high road to increased mobility" — for instance, freedom of movement from one socio-economic level to another (vertical mobility) or from one living area to another (horizontal mobility).

PTA MEETING SPEAKER
Dr. William G. Goodale will be the principle speaker at the Lincoln School PTA meeting today at 8 p.m. Goodale is assistant professor and acting head of the SUI Pedodontics Department. He will present a program of children's dental problems.

High Court Voids Controversial Act

WASHINGTON (AP) — The Supreme Court, splitting 5-4, ruled Monday that one business concern cannot sue another on the ground the latter sold goods at "unreasonably low prices for the purpose of destroying competition."

The four dissenting justices said the Robinson-Patman Price Antidiscrimination Act has in effect been repealed by the decision.

Justice Harlan, who spoke for the majority, said Congress never made Section 3 of Robinson-Patman a part of the Clayton Antitrust Act. For this reason, Harlan said, the section is not one of the antitrust laws whose violation can

lead to private causes of action — treble damage suits — authorized by the Clayton Act.

The court ruled in two treble damage suits brought under Robinson-Patman's Section 3 and upon which U.S. Courts of Appeals had disagreed.

In one case, the Court of Appeals in Chicago said that Nashville Milk Co., and Illinois Corp., could not maintain such a suit against the Carnation Co. which has a plant at Morrison, Ill.

Nashville charged Carnation sold milk at unreasonably low prices to destroy competition. The Supreme Court in this case agreed with the lower court because the violations alleged fell within Section 3 of Robinson-Patman.

In the other case, the Court of Appeals in Denver said Frank Melvin Thompson, retail grocer of Albuquerque, N.M., could sue Safeway Stores, Inc., on allegations that Safeway sold grocery items in Albuquerque at substantially lower prices than those charged in other cities in the state.

He charged Safeway sold at unreasonably low prices to destroy competition. The Supreme Court said Thompson could not maintain his suit on the allegation of Safeway sales at unreasonably low prices but that he was entitled to a trial as to his charges of unlawful price discrimination.

Prof. Ruppe In Washington

Reynold J. Ruppe, professor and archeologist at SUI, left for Washington, D.C., Monday to attend a week-long meeting of the committee for the recovery of archeological remains.

Primarily concerned with the problems of salvaging archeological sites which may be destroyed by future road building, dam construction and other public works, the 4-man committee serves as an advisory board to the National Park Service and other agencies of the Department of the Interior.

Army ROTC Names Distinguished Student

James G. Milani, L3, Center-ville, has been named Distinguished Military Student by the department of military science and tactics at SUI. A senior in the College of Law, Milani is a cadet captain in the senior division of the Army Reserve Officers' Training Corps.

Milani received the award for outstanding performance at summer camp, being among the top 10 per cent in his military class, and for exhibiting high qualities of leadership.

Procter & Gamble Rated As Excellently Managed

The Procter & Gamble Company, which has a factory in Iowa City, is one of 20 companies which rated scores of 90 per cent or better from the American Institute of Management in its annual designation of excellently managed companies.

CUBAN BOMBER

HAVANA, Cuba (AP) — Police said a young Cuban, Mario Escam-bros, was wounded critically Monday when a bomb he was carrying exploded prematurely as he walked along a street.

If You Are Under 80 You Are Not Too Old For Life Insurance

Let us tell you how you can still apply for a \$1,000 life insurance policy to help take care of final expenses without burdening your family.

You handle the entire transaction by mail with OLD AMERICAN of KANSAS CITY. No obligation. No one will call on you!

Tear out this ad and mail it today with your name, address and age to Old American Insurance Co., 3 West 9th, Dept. L2514B, Kansas City, Missouri.

Driver Injured

LAVERNE ALTENBERGER, Grand Meadow, Minn., was injured early Monday morning as the truck he was driving failed to make the turn at the junction of Highways No. 218 and 6, 5 miles west of Iowa City. About 800 to 1,000 bushels of shelled corn was dumped in the fresh snow.

'Missile Push Won't Result In Other Cuts'

DES MOINES (AP) — Despite a projected expansion in missile research, the Eisenhower administration contemplates more spending on reclamation projects in the next fiscal year, Secretary of the Interior Fred Seaton said Monday.

Seaton, who has been mentioned as a possible candidate for the Republican nomination for president in 1960, was here to address the \$25-a-plate All-Iowa Republican Jubilee Monday night.

But he said he feels the proposed establishment of a department of science in the cabinet "couldn't possibly do any good and might do some harm."

Seaton said his address at the Republican fund raising dinner would be devoted to "trying to put the missile controversy in its proper status and to cite the record" of the two major political parties on the missile program.

But the secretary of the interior said that despite the need for more missile spending, the administration isn't planning to reduce total expenditures for Bureau of Reclamation projects for flood control and land reclamation, water conservation and the like.

In the 1959 fiscal year, he said, the administration's proposed budget calls for a greater total of expenditures.

Inspection Set In AFROTC

Two Air Force officers from the Office of Inspector General, Maxwell Air Force Base, Ala., will conduct an AFROTC inspection at SUI today and Wednesday.

Purpose of the inspection is to evaluate the detachment and its cadet organization.

The inspecting officers, Lt. Col. James T. Cousin and Lt. Col. Charles M. Callis, will give the detachment either a satisfactory or unsatisfactory rating.

Corps Commander Jerry Jenkinson, C4, Des Moines, Wing Commander Rodney Anderson, A4, Des Moines and the Wing Staff will conduct a briefing at 8 a.m. today explaining their various duties and responsibilities to the inspectors.

The inspecting officers have just completed a review of the detachment at Coe College in Cedar Rapids.

YOU MEAN ME?
DES MOINES (AP) — A news reporter asked Secretary of the Interior Fred Seaton Monday if he might be referred to as a possible candidate for the Republican nomination for president in 1960. The cabinet member answered: "Huh!"
