

THIS GOOD MORNING

AUTO ACHES
S'NO REMOVAL
LINES O' RHYME
U.S.-RUSS TRADE

by
Don Mitchell
Daily Iowan Managing Editor

THE PLIGHT of a good lady driver comes to this corner from Mrs. Sam Robinson, 501 W. Park Rd., Iowa City.

Saturday morning at 9 a.m. she was driving back to town from Coralville, heading south on Highway 6, West, and 1st Ave. All of a sudden, when another woman driver in a '50-'51 wine colored Oldsmobile hit Mrs. Robinson's auto. The woman rolled down her window and hollered that no damage was done. Mrs. Robinson pulled over and stopped to make a survey for herself of the injuries done her '53 light blue Plymouth. The driver of the Olds whizzed away.

Garage man estimated \$143 — and you know how estimates are. Appeal to the police asking if they could check the garages brought the cheery note "why don't you check yourself."

Mrs. Robinson checked, but no luck. Since she had a \$100 deductible insurance policy, she'd appreciate a call at 4397 from the owner of the other car.

NOTICE THAT A NEW BOOK is on order for the University entitled "Bury Me In An Old Press Box," by Fred Russell. If he'll just wait until SUI gets the new \$500,000 facilities, he can be buried in a press box equal to the Taj Mahal.

IT'S NOT IN THE NEWS BUT should be, dept. A well known and wealthy Arab tribal leader has the usual number of concubines, but over the years has remained without an heir. When subjects see him coming they are given to bowing low and hailing: "Long may you live, oh, mighty Impotentate."

THIS WEEK'S TRIBUTE to the idol of the airways, John Foster Dulles in Ankara, Turkey. **Hail to Peace, king of kings, Hail Ibn-Dulles and the doctrines he brings.** In the Baghdad Pact we now may act — with force if necessary. For lack of another, we'll shoot each other. Or Ben-Gurion, our pro-tem adversary. My hat I will doff, by the beard of the Prophet, and we'll all clink our glasses to the newest member of the second rate classes.

THE RACE IS ONLY STARTING and although Viceroy cigarettes had the inside track with 20,000 filter traps, the Parliament thimbles are surging ahead with 30,000 now. It's like the invisible horsepower race of the autos. Soon cigarettes will have filters on them as big as a washer on a fire hose and it'll take a vacuum cleaner to smoke one.

FLASH. By order of the city council all snow will be removed from city streets and walks by August 15.

As long as the streets are loaded with snow with no sign of relief, dogs and state-store brandy should be provided to brave souls that walk.

I ONCE KNEW A MAN who so hated to shovel snow that he kept a scrapbook full of clippings about people who had heard attacks shoveling it. Whenever the frau scolded about the deep walks, out would come the scrap book and a talk on the rigors of the task and probable consequences. Like all rackets this one was busted. One day the b.w. (big woman) hauled off and hit the chap square over the head with his huge scrapbook . . . the rigors of which are worse than shoveling snow.

TIME, the weekly views magazine, had a lot of fun sneering at the AP for the space man story from Russia which the service later admitted was in error. If the AP was as inaccurate as old Lucifer, things would be in a shambles — or maybe people would start believing it.

VICE PRESIDENT NIXON and Russia's Zarin had big talks on cultural exchanges between the two countries. The deal is set now but the items to trade have been settled. The first trade may be Nixon's dog Checkers for Laika.

GOOD MORNING.

Weather

Winter weather will remain in Iowa today with below freezing temperatures and some light snow in the northern part of the state.

Cloudy skies are forecast for today. Occasional light snow, beginning in the northeast, with snow increasing and overspreading the state by tonight.

Calls Campanella's Career Closed

By WHITNEY MARTIN

GLEN COVE, N.Y. — Roy Campanella's brilliant career as one of baseball's greatest catchers appeared at an end Tuesday. An auto accident broke his neck and left him temporarily paralyzed.

A seven-man team of surgeons worked over the negro star of the Dodgers for four hours and 20 minutes in an attempt to repair the damage to his husky frame and relieve paralysis from the chest down.

Afterward Dr. Robert W. Sengstaken, head of the surgical team,

termed the operation a success and said the paralysis is expected to disappear, but it may be six weeks before Campanella is up and around.

Dr. Sengstaken, who said the injury came within an inch of killing the player, did not rule out the possibility that Campanella might play baseball again. But the future nevertheless, was bleak for the heaviest hitting catcher in the

history of the sport.

The doctor said recovery might require months or even years. With age a factor in baseball, Campanella could not spend too much time away from the game if he is to continue.

"In my opinion," the surgeon added, "he would be foolish if he tried to continue playing baseball. But he's not my patient and I won't advise him."

Dr. Sengstaken was called in on an emergency basis to direct the operation.

At 36, Campanella already was considered by some observers to be over the hill — because of age and because of hand injuries that are a constant menace to a catcher's career. Thrive the National League's most valuable player, Campanella had one of his poorer seasons last year.

Campanella's car skidded on wet pavement as he went into a dangerous "S" curve about half a mile from his home in Glen Cove early Tuesday. He was driving back the 30 miles from New York to his North Shore Long Island home after a television appearance.

Six Nebraskans Murdered

Research Grants To SUI Physicists

\$82,550 from the National Science Foundation for 1958 projects of SUI physicists in the International Geophysical Year is the largest of 12 new gifts and grants totaling \$173,437.57 accepted for SUI by the finance committee of the State Board of Regents.

The new NSF grant will provide \$33,300 for forthcoming firings of instrumented rockets in the Arctic under the leadership of James Van Allen, SUI physics head; \$35,150 for high altitude cosmic ray measurements with balloons by research associate Kinsey Anderson, and \$14,100 for Van Allen to use for cosmic ray instruments in the earth satellite program for IGY.

Fall Dorm Reservations Begin Now

Students who live in the six SUI dormitories will start this week reserving the rooms of their choice for next fall.

T. M. Rehder, director of dormitories and dining services, said preference will be given to present dormitory residents whose applications are submitted before March 1, along with advance payments of \$35.

At this point it seems likely that there will be plenty of dormitory housing for women students by next fall, Rehder said, noting that at least two residential units of the new women's dormitory, Burge Hall, will be ready for occupancy by then.

Many applications from prospective women dormitory residents were turned down last year, he said, due to a shortage of rooms.

Likewise, there will probably be an adequate number of dormitory rooms for men next fall, Rehder said.

"CLEO" BALKS at the thought of being the first American dog to zoom into outer space on this snow replica of the Vanguard rocket. David Herring, Johnston, Pa., creator of the 10-foot high rocket, holds up "Cleopatra" for a first-hand view of things to come. Herring is a student at West Virginia University.

THE GRANT brings to more than \$560,000 the NSF support in the past three years for SUI participation in IGY, 18-month period to study the earth as a ball in space. Scientists of 67 nations are involved.

Next largest grant accepted was \$64,165 from the Louis W. and Maud Hill Family Foundation, St. Paul, Minn., to support research in speech pathology by Prof. Wendell Johnson. With this supplement to previous grants for stuttering and related research centered at SUI, the Hill Foundation has now provided approximately \$180,000 for the work of Johnson and his associates.

Also to the SUI Department of Speech Pathology and Audiology came a \$14,202 grant from the U.S. Office of Vocational Rehabilitation, Department of Health Education and Welfare, for a training program in speech pathology for rehabilitation personnel next semester. The new grant takes the place of a USDHEW grant of last fall which was made too late to start the program during the fall semester, said James F. Curtis, department head.

THE USDHEW also provided \$4,184 to the SUI College of Dentistry for a research fellowship for Dr. Harold Krzycki in the Department of Periodontology.

Formerly a dentist in Woodbine, Dr. Krzycki is studying the regeneration of elastic tissues of the mouth following oral surgery. He is working under the direction of Dr. G. P. Ivancic.

The College of Dentistry also received \$600 from the M. F. Patterson Foundation Trust, Minneapolis, Minn., for general research in dentistry.

A grant of \$3,000 came from the Research and Development Laboratory of the Socony-Mobil Oil Co., Paulsboro, N.J., for research by Eugene Vessel, graduate student in chemistry from Bunker Hill, Ill. Under the direction of John Stille, Vessel will study oxidation reactions involving formation of nitro-paraffins.

The Allied Chemical and Dye Corporation, New York, renewed its annual fellowship for 1958-59 for a graduate student in the SUI Department of Chemistry. The amount is \$1,500 if the recipient is single, \$2,000 if married. Present holder of this fellowship is Charles Morreal, G. Rockford, Ill.

Dr. Walter M. Kirkendall, clinical associate professor of internal medicine, will use a \$2,500 grant from the Wyeth Laboratories to study the effects upon the kidneys of a new drug designed for the control of high blood pressure.

A sum of \$300 was accepted from the Howard Brody Charitable Trust, Davenport, to be used for research projects in the Department of Urology by Dr. Rubin H. Flocks, professor and head of the department.

For the SUI College of Pharmacy came \$200 from Dr. Ralph W. Lewis of Portsmouth, O. Presented through the American Medical Education Foundation, the gift is to be used as an emergency or loan fund for pharmacy students. Dr. Lewis was a SUI pharmacy graduate in 1927 and earned his Doctor of Medicine degree in the SUI College of Medicine in 1934.

The gift fund of the Hospital-School for Severely Handicapped Children received \$25 from Mr. and Mrs. Isaac Fuks, Iowa City, and \$11.57 from Chapter H.B., P.E.O., Red Oak.

POSSIBLY THE FIFTH AND SIXTH victims of a ruthless killer were found shot to death late Tuesday in a storm cellar near Bennet, Neb. They are: Carol King, 16, and Robert Jensen, 17. The pair had been reported missing after they failed to return from a date Monday night. In less than 24 hours officers have uncovered six slayings. Three of the bodies were found by police searching for a Lincoln, Neb., teen-age pair wanted for questioning in connection with three other deaths.

Senate Committee OK's More Defense Dollars

WASHINGTON — One Senate committee voted to authorize an extra \$49 million for defense Tuesday. Another one talked of raising the \$1,410,000,000 total in the emergency missile-defense money bill.

Both measures have already passed the House. The speed with which they are moving along of a new demonstration of congressional willingness to spend to meet challenges of the space age.

THE 49 MILLIONS in the authorization bill is also included in the larger money bill. Congress authorizes projects before actually providing the money in separate appropriations bills.

Major items in the \$549 million bill, which was approved by the Senate Armed Services Committee, are \$29,670,000 for the semi-automatic ground environment system for electronic detection of approaching aircraft and mechanical brain guidance for missiles, \$189 million for ballistic missile bases and \$194 million for dispersal of Strategic Air Command bases.

When the bill left the House it carried specific directions on which SAC bases would be affected. The Senate committee changed this to give the Defense Department authority to review the directions laid down in the House bill.

THE TALK of boosting the missile-defense appropriation arose in the Senate Appropriations Committee, where Secretary of Defense McElroy was a witness Tuesday. He reported the suggestions without giving any immediate reply to them, other than to say capable people had different views on what is most urgently needed.

The secretary's prepared testimony, given behind closed doors, was released to newsmen.

It showed McElroy told the senators that "on the whole our military position is sound."

He referred to the bill, containing some \$1 1/2 billion in new money plus transfer authority in \$10 million in old funds, as an advance action on the defense program for the fiscal year beginning next July.

The bill carries nearly \$1 billion for the Air Force, with heavy emphasis on work to speed missile development.

corporations in many industries. However, he was particularly critical of the Big Three auto makers in his testimony before the Senate Antitrust and Monopoly subcommittee.

Reuther said the big auto makers are "socially irresponsible" in the way they establish car prices. He said that if all manufacturers followed the pricing policies of General Motors, Ford and Chrysler, the nation would be in a major depression.

The union leader argued that the Big Three have a monopoly position that enables them to "rig" prices without regard to supply and demand.

HE PROPOSED that Congress create a special agency before which large corporations would have to present detailed records in justification for proposed price increases.

This Agency would tend to keep prices within reasonable bounds, he said, because "the public would have the means to determine for itself whether or not the price increase was justified."

Posse After Teenagers For 24-Hour Bloodbath

BENNETT, Neb. — Discovery of three more bodies in a rural area southwest of Lincoln Tuesday brought to six the toll of apparently related killings in a 24-hour period. Search was intensified for two Lincoln teenagers wanted for questioning.

Lancaster County Sheriff Merle Karnopp ordered a posse formed to search the vicinity. He declared Charles Starkweather, 19, one of the two sought "is the man we want."

The three bodies were discovered near Bennet, 20 miles southeast of Lincoln when officers converged on a farm where they found the abandoned car believed to have been driven by Starkweather and his teen-age girl companion. The two were wanted for questioning in connection with a triple slaying in Lincoln Monday night.

The six victims: Carol King, 16, and Robert Jensen, 17, Bennet high school students, reported missing after they failed to return from a date Monday night.

August Meyer, 70, bachelor farmer living near Bennet, 20 miles southeast of Lincoln.

Marion Bartlett, 57, his wife Velda, 37, and their 2-year-old daughter Betty Jean, all found dead at the Bartlett home in Lincoln Monday night.

The bodies of Meyer, Carol King and young Jensen were discovered Tuesday afternoon in a storm cave near Meyer's farm where a car believed to have been driven by Carol Fugate, 15, daughter of Mrs. Bartlett by a former marriage, and Charles Starkweather, 19, a friend of Carol Fugate's, was reported abandoned.

The macabre chain of events began Monday when relatives of the Bartletts, perplexed because Carol Fugate had refused to let them enter the home, had found a sign on the door saying, "Stay away. Everybody is sick with the flu."

Investigation disclosed Bartlett's body in a chicken coop, Mrs. Bartlett's body in an outhouse, and Betty Jean's body in a cardboard box stacked in a pile of cartons.

Louis Meyer, brother of August, said a .22 caliber rifle was missing from his home. He added that Starkweather was a good friend of his brother and had gone frequently to the farm to hunt.

Homer Tate, who operates a filling station eight miles south of Lincoln, said two persons matching the descriptions stopped at his station Monday afternoon, buying 45 cents worth of gasoline, two boxes of .22 caliber rifle shells and a box of 410 gauge shotgun shells.

Jensen's car, a 1950 dark blue four-door Ford with 1957 Nebraska license plates 2-8743 — was missing and officers believed Starkweather and his companion may be driving this car.

Starkweather is described as a stocky redhead, 5-foot-7, weighing 165 and bowlegged. Carol Fugate, his girl friend, has dark hair and is about 5-foot-5. Deputies reported late Tuesday a preliminary autopsy on Carol King showed she had been "the victim of an unnatural sex attack."

Clothes had been stripped from her body down to the ankles and she was almost nude when found. They said Jensen had been shot several times but Carol had been shot only once.

LAUNCH THOR SUCCESSFULLY CAPE CANAVERAL, Fla. — The Air Force Tuesday successfully test launched a Thor — the 1,500-mile range rocket with which it plans to try first to hit the moon and then to put a satellite into orbit.

The launching of the 60-foot long ballistic missile was one the Army well may try to emulate in its attempt to send up the Jupiter-C satellite vehicle. That attempt is expected within a day or so.

It also may have been the first launching of a completely assembled Thor, one complete even to the nose cone which is essential to protect the missile's warhead upon its return into the earth's atmosphere toward its target.

STATE DEPARTMENT SAYS KHRUSHCHEV DISTORTS AMERICAN INTENTIONS By WARREN ROGERS, JR.

WASHINGTON — The United States Tuesday accused Soviet Communist party leader Nikita Khrushchev of distorting American policy. It said his twisted views show the danger of rushing into a summit conference with the Russians.

STATE DEPARTMENT press chief Lincoln White administered a roughly worded rebuke when asked for comment on Khrushchev's remarks at a Minsk farmers rally Wednesday and a Moscow cocktail party later.

Khrushchev pictured the United States as an aggressor who would "like to keep the world in a state of fear." He called for a summit conference at which leaders would tackle "simple things" first — as a diner starts off with hors d'oeuvres.

Baghdad Allies Establish Military Staff

May Lead to NATO Type Command

By WEBB MCKINLEY

ANKARA, Turkey — The Baghdad Pact allies Tuesday established a combined military planning staff. This could serve as the forerunner to a NATO-type unified command in the Middle East.

The five nation alliance, with U.S. backing, announced that the enlarged combined staff will take the place of the present planning organization.

INFORMED sources said the move was a step toward tying more closely together the loose military organization of the anti-Communist Pact. The decision was taken at a secret session of the Pact's Council of Ministers.

The United States is not a full pact member, but U.S. Secretary of State John Foster Dulles is attending as an observer.

The Pact's Council of Ministers approved a report of its military committee recommending the long-term defense building project, whose cost would run into billions of dollars.

The United States would help foot the bill.

The military committee's plans called for a communications hook with trunk and lateral highways, up from West Turkey to Pakistan.

HARBOR and storage facilities would be made available at seaports on the Mediterranean, Persian Gulf and the Arabian Sea. The plans also recommended civil airports which could be converted readily for military use.

The military committee recommended that any major assault from the north be met as far as possible in the mountain passes between Russia and Turkey, Iraq and Iran.

On the political side, informed sources said Secretary Dulles and British Foreign Secretary Selwyn Lloyd cautioned against adopting any inflexible position toward a settlement of the bitter Arab-Israeli disputes in the Middle East.

Police Investigate \$1,400 Safe Theft

Iowa City police are continuing an investigation today of the robbery of the Consumers Cooperative Oil Co. in which more than \$1,400 was taken. The break-in was discovered at 6:30 a.m. Tuesday.

Police said a temporary building used by the oil company — located at the south end of Capitol St. — was entered by breaking a lock from the door. The small building has been used since the company's station burned down in a December fire.

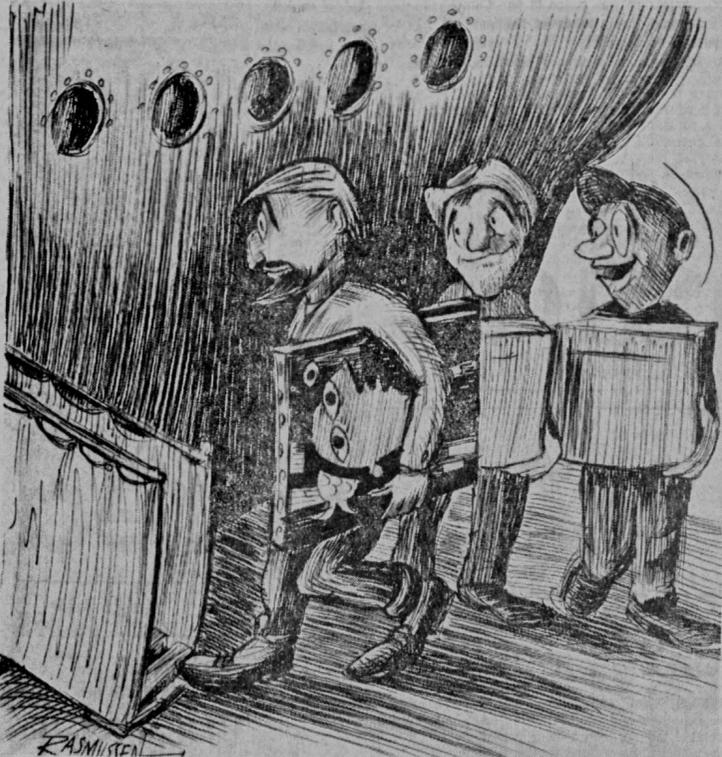

State Department Says Khrushchev Distorts American Intentions

difficulties which would beset a short, unprepared meeting of heads of government such as the Soviet Government has proposed," White said.

White said the United States is still pushing the idea laid down by President Eisenhower in a Jan. 12 letter to Soviet Premier Nikolai Bulganin. This called for talks at lower levels and possibly a foreign ministers meeting beforehand to prepare any summit conference and assure it of some success.

THE U.S. spokesman chided the Soviets for not replying to Mr. Eisenhower's letter. He said pointedly "We presume the Soviet Union will reply to the serious proposal."

"We cannot believe that the Minsk speech of the first secretary of the Soviet Communist party or indeed his remarks at the cocktail party are intended as an adequate reply," White added.

Says the Government's sending him to Russia to promote world understanding.

Scott Interprets-

Soviet Infiltration

By TOM SLATTERY

(This is the second of three articles dealing with problems confronting the United States in the cold war with Russia, based upon a press conference with world-famous John Scott, assistant to the publisher of TIME magazine. Material is also taken from his latest book "Political Warfare.")

trade the area of influence they have for the geographically contiguous area including portions of Iraq and Turkish territory. This would be a "spheres of influence" agreement similar to the one Britain and Czarist Russia made in 1913.

Deterioration in Cyprus

After years of intermittent violence, costing more than a thousand casualties, the situation in the strategic British Crown Colony of Cyprus is beginning to drift toward chaos.

ter protection of their adjacent bases on the mainland. Meanwhile, the split in the Greek ranks between the Right-Wing National Organization of Cypriote Fighters, responsible for most of the violence, and the Communist-dominated Pan-Cyprian Labor Federation suggests that even under self-government and self-determination the ultimate control of the island must still be determined between the two factions, with the Communist shadow in the background.

Letters to the Editor

Corrections, Complaints

TO THE EDITOR:

This is more a correction than a protest: The Daily Iowan of January 24 in the article by Karen Clause unfortunately omitted acknowledging that quotations were used from printed material, i.e. my articles "America Seen from France," "American Scholar, Spring, 1957, and "How the French See America," Yale Review, Winter, 1958.

hence, my complaint. Please spare me these exercises in Communication Skills. Dennis Roberson, L1 1 Triangle Place P.S. I acknowledge no liability!

Air Scout Squad Formed at SUI

By DICK LYNES
Daily Iowan Staff Writer

The only Air Scout unit in the Iowa City area has been formed under the supervision of SUI Air Force ROTC Detachment 225, it was announced Tuesday by Air Scout project officer Capt. Clark Scott, assistant professor of Air Science.

It turned out for the first two meetings is any indication of success, the troop will become a permanent

Barker Fourth Nominee for County Att'y

Charles A. Barker, 35, filed Tuesday for nomination to the office of county attorney. He will oppose Roger H. Ivie for the Republican nomination in the June primary election. Ivie filed for the nomination last week.

Barker said, if elected, "I will continue the same general policies Mr. Tucker has effected." County Attorney William Tucker previously announced he would not seek re-election.

Barker has been assistant county attorney for the past three years and a member of the Clearman, Oehler and Barker law firm. He received an engineering degree at Iowa State College in 1948 and was graduated from SUI College of Law in 1950.

Barker is a member of the Iowa City planning and zoning commission. His five-year term expires in May.

A World War II veteran with 3½ years in the Navy, Barker is a member of the American Legion. He also is on the official board of First Methodist Church and a state and local board member of the Wesley Foundation.

Barker was president of the Iowa City Junior Chamber of Commerce in 1953, and past chairman of the Young Republicans. He lives at 1515 Dubuque St., is married and has four children.

Two Democrats, Ralph L. Neuzil and Emil G. Trott, filed for the county attorney office last week. All four men are graduates of SUI College of Law.

Four Students in Community Theatre Cast

Rehearsals are now being held for the Iowa City Community Theatre winter production of "Three Men on a Horse," to be presented Feb. 13-15, at 8 p.m. in the Old Eagles Lodge, 23½ E. Washington St.

Iowa City, Coralville residents and four SUI students have been cast in the play, the Community Theatre group announced.

Included in the cast are Virgil M. Hancher, G. Iowa City; James E. Larson, A3, Boone; Keith Hogan, A1, Durant; Rodney Shutt, A3; Mrs. James Moore, bank teller; Michael Velez, 5th grade teacher at Herbert Hoover school; David A. Beuter, English and reading teacher at Iowa City Junior High; Thomas E. Kohler, Jr., program assistant at WSUI.

Dean Frein, announcer at KKIC; Mrs. Joseph Szuhay, secretary at University Theatre; LeRoy Hester, shoe repairman at Short's Shoe Shop; Mrs. Hood Gardner, secretary at University Hospitals; and Mrs. Robert Evans, secretary in SUI communications skills department.

"Three Men on a Horse" is being directed, arena-style, by Emma Sue Phelps, graduate student in dramatic art and assistant program director at WSUI.

Miss Phelps directed theatre-in-the-round at Bluefield, W.Va., where she helped organize the Bluefield Little Theatre.

Tickets for the production are now on sale at Towner's Beauty Salon and Jackson's Electric. They may also be purchased in the Jefferson Hotel lobby the afternoon and evening of Monday, Feb. 10, and Tuesday afternoon, Feb. 11. Reservations can be made by telephoning 4350.

Kiwanians Hear About Brainstorming

Iowa Citizens will have a chance to try their hands (or heads) at "brainstorming" next week.

A course designed to teach creative thinking by thinking out loud in groups (a technique called "brainstorming") will be offered for the first time during the winter, 1958, session of adult education classes here, Ralph Wahrer, director of distributive education and adult classes for the Iowa City public schools said Tuesday.

Wahrer described the course to a noon meeting of the Iowa City Kiwanian club at the Jefferson Hotel.

Wahrer said the course is intended for men and women of all ages who are interested in increasing their ability to think creatively.

The aim of brainstorming, Wahrer said, is the production of ideas from a group of people who attempt to solve a specific problem by thinking up as many ideas as possible within a given period of time.

Examinations may be taken for Engineer, Chemist, Electronic Scientist, Mathematician, Metallurgist and Physicist to be located at the Redstone Arsenal and Army Ballistic Missile Agency, Huntsville, Ala. The Civil Service Commission said salaries in these fields range from \$4,480 to \$12,690 a year.

Available field representative positions, for duty with the Rural Electrification Administration of the Department of Agriculture, are paying entrance salaries of \$5,440 to \$6,390 a year, a Civil Service news release stated.

Further information and application forms may be obtained from Parizek at the Iowa City Post Office, or from the U.S. Civil Service Commission, Washington 25, D.C.

On tonight's program, Miss Cross will play five short sonatas by Cimarosa, Mozart's "Sonata in E-flat major, K. 282," "Carnaval, Op. 9" by Schumann and Prokofiev's "Third Sonata, Op. 28."

On tonight's program, Miss Cross will play five short sonatas by Cimarosa, Mozart's "Sonata in E-flat major, K. 282," "Carnaval, Op. 9" by Schumann and Prokofiev's "Third Sonata, Op. 28."

On tonight's program, Miss Cross will play five short sonatas by Cimarosa, Mozart's "Sonata in E-flat major, K. 282," "Carnaval, Op. 9" by Schumann and Prokofiev's "Third Sonata, Op. 28."

On tonight's program, Miss Cross will play five short sonatas by Cimarosa, Mozart's "Sonata in E-flat major, K. 282," "Carnaval, Op. 9" by Schumann and Prokofiev's "Third Sonata, Op. 28."

On tonight's program, Miss Cross will play five short sonatas by Cimarosa, Mozart's "Sonata in E-flat major, K. 282," "Carnaval, Op. 9" by Schumann and Prokofiev's "Third Sonata, Op. 28."

Civil Service Tests Announced

Several new U.S. Civil Service examinations are now open for application, Lester J. Parizek, Civil Service examiner in charge, announced.

Examinations may be taken for Engineer, Chemist, Electronic Scientist, Mathematician, Metallurgist and Physicist to be located at the Redstone Arsenal and Army Ballistic Missile Agency, Huntsville, Ala. The Civil Service Commission said salaries in these fields range from \$4,480 to \$12,690 a year.

Available field representative positions, for duty with the Rural Electrification Administration of the Department of Agriculture, are paying entrance salaries of \$5,440 to \$6,390 a year, a Civil Service news release stated.

Further information and application forms may be obtained from Parizek at the Iowa City Post Office, or from the U.S. Civil Service Commission, Washington 25, D.C.

On tonight's program, Miss Cross will play five short sonatas by Cimarosa, Mozart's "Sonata in E-flat major, K. 282," "Carnaval, Op. 9" by Schumann and Prokofiev's "Third Sonata, Op. 28."

Four Step Protection Saves Children's Teeth

A four-part program to protect the dental health of children was outlined Tuesday evening by Dr. William G. Goodale of the SUI College of Dentistry for members of the Lincoln School Parent-Teacher Association, Iowa City.

Dr. Goodale urged parents to take these steps to make sure their children will grow up with good teeth — begin their regular dental examinations at the age of 2½, provide a well balanced diet low in sweets, teach them to brush their teeth after every meal, and ask their dentist to apply fluoride to their teeth if the water they drink is not fluoridated.

Fifty per cent of the youngsters first examined by the dentist at or more dental cavities, Dr. Goodale said. Thirty per cent have seven or more cavities. Twenty-five per cent at that age need to have one tooth extracted.

Since sugar left in the mouth after eating sweets is the major cause of tooth decay, children should be limited in the number of times during the day when they are permitted to eat foods high in sugar, Dr. Goodale said. We are apt not to realize how much sugar many foods contain, he explained. A piece of apple pie, for example, contains about 12 teaspoons of sugar; a popular candy bar, 13 teaspoons; a popular bottled soft drink, 9 teaspoons; and a stick of gum, one-half a teaspoon of sugar.

Dr. Goodale suggested that sugarless gum and a sugarless soft

drink now on the market for diabetics might be substituted for brands high in sugar. Chewing gum does help clean food off the teeth and provides relief from emotional tension in some cases, but too many youngsters want a fresh stick as soon as the "sweet" taste is gone, the SUI speaker said.

Leaving sugar in the mouth causes the enamel of the teeth to break down because of the acid which forms from the sugar, Dr. Goodale explained. If a cavity developed in the enamel isn't filled promptly, decay spreads until finally the nerve is involved and infection goes into the system. If a decayed tooth in a small child is not removed, the second tooth coming through underneath can become involved, too, resulting in early loss of a permanent tooth.

Teaching small tykes to brush their teeth takes a little patience, the speaker said. Parents should help with this task, insisting that it be attended to as soon as possible after each meal, since sugar

left in the mouth even a few minutes can start dental trouble. Children should be taught to rinse the mouth with water after eating between meals if it is not possible to brush the teeth.

Browns Get Gibbons; 3 Other Hawkeyes Drafted

Eagles Draft Burroughs, Van Buren, Lapham

PHILADELPHIA (AP)—Four Iowa Hawkeyes were drafted Tuesday when the National Professional Football League opened its winter meeting.

End Jim Gibbons was drafted by the Cleveland Browns in the 5th round and center Bill Lapham was chosen by the Philadelphia Eagles in the 14th round.

The San Francisco 49ers named Drake end Jerry Mertens in the 20th round.

Cleveland selected Gibbons by exercising Detroit's fifth round choice.

The first four rounds were drawn by the champion Detroit Lions Alex Karras of Iowa was drafted last month. All-America tackle then.

Karras will join a former teammate, Jerry Reichow, who played with the Lions last year. Another Iowan, Jim Doran of Iowa State, also is with the Lions.

In the 11th round, Tom Newell, Drake back, was taken by the Green Bay Packers and Iowa State end John Scheldrup was named by Detroit.

EARLIER TUESDAY the Baltimore Colts, already loaded with talked quarterbacks, dipped into the draft and came up with quarterback Ray Brown, hero of Mississippi's Sugar Bowl winner.

Baltimore, armed with the first choice at the selection meeting as the result of a previous deal with the Chicago Cardinals, selected the 21-year-old Brown even though the Colts own such fine quarterbacks as John Unitas and George Shaw.

However, a Baltimore spokesman indicated Brown could be used as a pawn in a deal for veteran strength at another position.

The 12 NFL clubs, gathered for their annual four-day winter meeting, selected 312 players through 26 rounds of the draft. Tuesday's drafting began with the fifth round of the annual 30-round pickings since the first four rounds were held last Dec. 2.

Following the draft, which took all of the first day of the meeting, the owners were to meet in executive sessions to take up various league problems.

Baltimore acquired the Cardinals' fifth choice in a deal last year which sent tackle Tom Finnin to Chicago. Finnin later was released by the Cards and wound up at Green Bay.

Green Bay, selecting second in the fifth round, grabbed Joe Francis, 195-pound triple threat half-back from Oregon State. The Packers indicated they would use the Pacific Coast single-wing tailback star of the 1957 Rose Bowl, as a T-quarterback.

Bob Jewett, Michigan State end who was named the outstanding player in the North-South Shrine game at Miami when he caught 14 passes, was the choice of the Chicago Bears.

Daily Iowan Photo by Don Hanesworth

AN INTERNATIONAL TOUCH was present Tuesday night when German gymnastic star Christa Hacker got together with Iowa gymnasts Staffan Carlsson, left, and Ted Segura, right, before an exhibition in the Iowa Fieldhouse. Carlsson is from Orbro, Sweden, while Segura is from Mexico City, Mexico.

Capacity Crowd Cheers 13 German Gymnasts

By JERRY LAMBERT
Daily Iowan Assistant Sports Editor

The Deutcher Turner-Bund, German Gymnastics group, received standing ovation Tuesday night in the Fieldhouse from a capacity crowd of approximately 1,000 people.

The group, composed of five women and eight men, were chosen from the more than 1.5 million people who make gymnastics a popular form of recreation in Germany. They are not professionals, only common people with daily occupations ranging from teaching to working as a clerk in a bank.

Alex Karras Starts Wrestling Tonight

DES MOINES (AP)—Alex Karras, the Iowa Hawkeyes' All-America tackle, makes his first professional wrestling start at Veterans Auditorium here tonight.

Karras, a 240-pounder now, will meet an old timer at the wrestling game, Al Montana, in a special one-fall match with a 30-minute time limit.

Promoter Pinky George said if Karras is successful tonight he would like to pursue a wrestling career for six months and devote the other months to professional football. Karras recently signed with the champion Detroit Lions and will report for training in August.

Hockey Players Ask Recognition

CHICAGO (AP)—Chances are good that the six club owners in the National Hockey League will recognize the NHL Players, Assn., Ted Lindsay of the Chicago Black Hawks, president of the players, group, said Tuesday.

"Some of the owners are for us and some are fighting us, but I think our chances of recognition are good," he said. "We are not trying to do anything detrimental to hockey. Anything that is done has to benefit the players and league."

The group is to meet with club owners in Palm Beach, Fla., next Tuesday.

West Virginia Falls, But Still No. 1

Deacon Jones Running Opponents into Boards

The drumming footsteps of Charles (Deacon) Jones on eastern board tracks are sounding the end to victory hopes of some of the nation's best distance runners.

The little Iowa runner, already well known as an Olympic steeple-chaser and a National Collegiate two mile and cross country winner, has won both his 1958 two mile starts by literally running his opposition into the boards.

Jump Shot Upsets Cage Predictions

CHICAGO (AP)—Development of the jump shot has played havoc with predicting the outcome of basketball games, Bradley coach Chuck (Ozzie) Orsborn said Tuesday.

He told the Chicago Basketball Writers' Assn. that years ago a team that made 30 per cent of its field goals figured to win and a team that hit a third of its shots was a cinch.

"But today, we as well as other teams have hit 50 per cent and still been beaten," he said. "Accuracy has been developed by the jump shot, by better coaching of kids in the junior high school and by better equipment."

Orsborn whose Braves have an 11-3 record and rank No. 12 in the Associated Press poll told how Bradley defeated Cincinnati 79-73 several weeks ago. Cincinnati has a 13-2 mark, is ranked No. 3 and has the nation's top scorer, Oscar Robertson.

"We played a zone defense against them," Orsborn recalled. "We figured to let Robertson get his shot. He piled up 36 points. But we cut down the other four players to where they were getting five or 10. It paid off in victory."

Will Investigate Drugging Reports

NEW ORLEANS (AP)—The Orleans Parish district attorney's office Tuesday ordered an investigation of reports that welterweight Andrew Brown was drugged before losing his fight Monday night with Billy Lynch of Hartford, Conn.

Dist. Atty. Leon Hubert said he asked the police department's narcotics squad to check Brown's report that he was given two "little pink pills" containing narcotics in his dressing room just before the fight.

Brown, who took his third loss in his 36-bout pro career, told newsmen Tuesday he could not recall anything that happened from shortly after he received the pills until the 10th round of the fight.

The boxing commission did not hold up the purses.

Finigan To Giants For Harris, Virgil

DETROIT (AP)—The Detroit Tigers Tuesday night announced completion of a deal with the San Francisco Giants of the National League, bringing first baseman Gale Harris and infielder Ossie Virgil to the Tigers in exchange for infielder Jim Finigan and cash.

The trade actually was made over the weekend in New York but was held up until the Giants could obtain waivers on Harris and Virgil.

Duke Defeat Came After Latest Poll

By THE ASSOCIATED PRESS

West Virginia's basketball team beaten for the first time this season just after being ranked No. 1 in the nation for the sixth straight week, gets an extra chance to put the pressure on its rivals before the next ballot is taken.

West Virginia took the top rating in the weekly Associated Press college basketball poll, based on games through last Saturday, by a wide margin over Kansas. The votes of sports writers and broadcasters were counted Monday and a few hours later Duke knocked the Mountaineers out of their unbeaten status by a 72-68 score.

Mountaineer Coach Fred Schaus claimed the pressure of a 14-game winning streak had nothing to do with West Virginia's defeat.

"The pressure didn't beat us; Duke did," he said.

West Virginia's next start comes Friday against Florida State.

Kansas, the No. 2 team, remains idle until its big one against fourth-ranked Kansas State Feb. 3.

Oklahoma State, No. 6, beaten 70-64 by unranked Houston and knocked out of the Missouri Valley Conference lead, meets St. Louis Saturday. Kentucky, No. 8, the 71-52 upset victim of Georgia Tech, continues its tour, meeting Georgia tonight and Florida Friday.

Cincinnati, which edged out Kansas State for third place in this week's ratings, gets two chances to improve its position and scoring record. The Bearcats meet Miami of Ohio Thursday and Duquesne Saturday.

In the voting based on last week's results, West Virginia drew 73 of 110 first place votes and 1,000 of a possible 1,100 points. Idle Kansas received 12 votes for first and 834 points. Cincinnati rose to third with 14 firsts and 760 points. Kansas State, San Francisco, Oklahoma State, North Carolina, Kentucky, Maryland and North Carolina State completed the top 10.

JOHNSTONE VS. STREIT
HOLLYWOOD, Fla. (AP)—Ann Casey Johnstone of Mason City, Iowa is paired with Marlene Stewart of Toronto in the 13th annual Hollywood women's four-ball matches opening Thursday.

Deacon is pleased with his successes. He won a watch and permanent possession of a large trophy at Philadelphia, the trophy going to the runner making the fastest time in the event in three seasons. Jones' mark broke a three-year-old meet record.

But he's not satisfied. He would like to break the American indoor record of 8:50.5, made in 1954 by Horace Ashenfelter.

Next race for Jones probably will be in the Millrose Games in New York's Madison Square Garden Feb. 8. Managers of the big eastern meets now realize the appeal to fans of a runner who uncorks such finishes and they want him as an attraction to feature.

But if he runs at the Millrose meet, it will be his last race in the east this season, because the intercollegiate meets start Feb. 15 and continue through March 8. These are followed by big mid-western affairs such as Chicago Relays, Milwaukee Journal meet and Cleveland K. of C. meet.

Crowbars Used To Free Campy from Wreckage

(Continued from Page 1)

The car flipped over and crashed into a telephone pole. Rescuers had to use crowbars to get to Campanella.

The Dodgers — recently transferred from Brooklyn to Los Angeles — tried to take an optimistic official outlook.

Other catchers are on the Dodger roster and ready to take over. But as Dodger Vice President Buzzy Bavasi put it: "You just don't replace a fellow like Campanella."

Campanella was the league's most valuable player in 1951, 1953, and 1955. In the latter year, the Dodgers won their first World Series.

In 1953, Campanella hit 41 home runs, most ever recorded by a catcher. The same year his 142 runs batted in also set a record for catchers.

He was seven times a member of the National League All-Star team in the annual mid-season game.

Campanella also was the highest paid player in Dodger history in 1956 when he signed a \$42,500 contract. His 1958 contract, signed last November, called for \$36,500. He batted only .242 last year and hit but 13 homers.

The 215-pound Campanella, a native of Philadelphia, was due to report March 1 for spring training with the Dodgers at Vero Beach, Fla. He also was engaged in plans to move to Los Angeles.

which the Dodgers will represent for the first time this year.

Married and with six children ranging in age from 4 to 16, Campanella owns a prosperous Harlem liquor store. He has a \$38,000 yacht which he was trying to sell before leaving New York.

As a veteran of more than 10 years in baseball, Campanella is eligible for a \$75 monthly pension when he reaches the age of 50.

If permanently injured, he gets \$250 a month for life under baseball's pension plan, starting six months from Tuesday.

Campanella joined the Dodgers in 1948, as the third Negro on a team that already included Jackie Robinson and Don Newcombe.

His lifetime batting average of .276 does not in itself indicate the value to his team of 242 home runs and 763 runs batted in during his Dodger career.

Campanella was plagued by injuries, beginning with a dislocated right thumb in 1950. His hands were injured often. He had two operations on his left hand to remove bone chips and calcium deposits.

Heads Together, But Not Talking

Daily Iowan Photo by Brad Bathey

IT'S DOUBTFUL that much was said last Saturday when Iowa's Gary Kurdelmeier and Oklahoma State's Dick Beattie put their heads together as they wrestled in the 177-pound class. Kurdelmeier decided Beattie, 3-2, when Beattie was penalized two points for stalling. The Cowboys handed the Hawkeyes their second loss of the season, 18-4. Iowa's only other decision came in the 123-pound class where Larry Moser remained undefeated with a 5-3 victory over Robert Taylor.
