SUI Scientists Check Radioactivity in Iowa

By DIETRICH HARTMANN

A Special Report in The Daily Iowan

Scientists at SUI have been someone building a new instrument to check for radioactivity in Iowa's waters and soils. The laboratory is located in the Department of Hydrology and Environmental Science, and it has been working on a project to develop a new method for detecting radioactivity in water samples.

The research team under the direction of Dr. Richard Murphy has been working on developing a new technique for detecting radioactivity in water samples. The team has been using a combination of chemical and physical methods to detect the presence of radioactivity.

First U.S. Space Visitor Doing Very Well, Thanks

THE EXPLORER, 65 pounds of American pride and scientific wonder, was launched into space yesterday morning and is doing very well, thank you, according to the Department of Defense. The Explorer was launched from Cape Kennedy in Florida and is now in orbit, according to NASA.

The Explorer is equipped with a variety of scientific instruments, including a camera, a radio receiver, and a weather station. The data collected by the explorer will be transmitted back to earth for analysis.

Pentagon Struggles for Control of Space Plans

Group Votes Limited Power To McNary

Bill Must Still Pass House, Senate

WASHINGTON D.C. — The House of Representatives voted yesterday to give the President limited power to control space plans, according to the Washington Post. The bill, introduced by Representative Richard Gephardt, was passed by a 256-165 vote.

The bill would give the President the authority to direct the use of space for national defense, but not for commercial purposes. The bill was opposed by the Senate, which passed a competing bill last week.

AFL-CIO-Teamsters Feud To Continue

HAMPTON, Ind. — The AFL-CIO-Teamsters feud is expected to continue, according to the Indianapolis Star. The feud, which began in 1937, has been ongoing for many years.

The AFL-CIO and the Teamsters Union are both powerful labor organizations, but they have often been at odds. The feud began when the Teamsters Union tried to organize workers at the International Harvester Company.

Reuther Asks Ike To Hold Meeting On Recession

DETROIT — Walter Reuther, president of the United Auto Workers, has asked President Dwight D. Eisenhower to hold a meeting on the economy, according to the Detroit News. The request was made during a meeting with the President last week.

Reuther has been critical of the President's economic policies, and he has called for a national meeting to address the recession.

The Republican Revolution

By GEORGE EVANS

The Republican Party is the party of business. It is the party of the man who has made a fortune, who has built a business. It is the party of the man who has invested his money in industry, who has created wealth. It is the party of the man who has worked hard and long to achieve success. The Republican Party is the party of the American business man.

The Republican Party is the party of the future. It is the party of the man who believes in progress, who believes in the advancement of humanity. It is the party of the man who wants to see our nation grow and prosper. The Republican Party is the party of the American business man.

Babysitter Came 240 Miles

By JANE MURPHY

Daily Iowan, Iowa City, Iowa

Have you ever thought of employ ing a babysitter from your college while you’re away from home?

Mrs. Dorothy Thompson, of 1330 Pine St., Iowa City, agreed to babysit her husband’s children for three days while he is away on business.

Mrs. Thompson is one of several special intercollegiate students who have been hired for temporary positions.

Frank Thompson, of 1330 Pine St., said Mrs. Thompson had been living in the College City for several years before coming to the University.

Community Effort Behind

Parking Lot

When the lights go up on the Iowa City, Community Theatre production of “Three Men on a Float” next week, the dream group will have made another long bound toward fully goals of a “human community,” with the help of a great many persons who will find time, and take.

A big breakthrough was made by the City of Iowa City when it asked the dream group permission to use the building at 524 E. Washington St. Under its plans, the dream group will begin in the Spring to make

School District

Objections Heard

Approximately 1500 home owners attended a hearing last night at the City Hall by the Committee on the School District.

County Superintendent of Schools, James B. Devine, said the Iowa City School Board will meet Tuesday to discuss the proposed district.

If they are adopted, he said, it will set a precedent in the school district to provide schools for the Iowa City people.

Four schools are planned for the district—three in West End, and one in East End.

No One Elected to Hall of Fame

Former Pirate Gets Biggest Share of Votes

BOSTON, Mass. — The Baseball Writers’ Association of America decided to elect a former major league pitcher, for the first time since 1969, when it was last done here, to the Hall of Fame. The writer who was chosen is Grover Cleveland Alexander.

The 23 members of the BBWAA, who are responsible for choosing the candidates to the Hall of Fame, met here in Boston, where the action took place. The meeting concluded with the announcement of the election of Grover Cleveland Alexander, who was a pitcher for the Philadelphia Athletics in the early 1900s.

Alexander was the first player to be elected to the Hall of Fame by the BBWAA in more than 45 years, and he is only the second person to be elected by the BBWAA in recent years.

The BBWAA, which was founded in 1908, has chosen 17 players to the Hall of Fame since its inception. The last player to be elected by the BBWAA was Grover Cleveland Alexander, who was a pitcher for the Philadelphia Athletics in the early 1900s.

The election of Alexander was a surprise, as he was not considered to be a candidate for the Hall of Fame. However, he was considered to be a great pitcher, and he is one of the most famous players in baseball history.

The BBWAA, which is made up of writers from all over the country, has chosen 17 players to the Hall of Fame since its inception. The last player to be elected by the BBWAA was Grover Cleveland Alexander, who was a pitcher for the Philadelphia Athletics in the early 1900s.
