Rehder Clarifies Status Of Barracks' Leases

A STATEMENT

Although University policy regarding married student housing lease renewals has been thoroughly explained both to The Daily Iowan reporter and to Mr. Richard Clark, the explanation as printed Friday on the front page of The Daily Iowan failed to include the principal basis for the University policy. To this extent, the explanation as printed in The Daily Iowan was less than adequate and was, accordingly, misleading.

In common with most leases, the University's married student apartment leases do indeed require, as a term of the lease, that the lessee must renew his lease within a stated period of time prior to its termination—in this case, two weeks, or by May 29, 1958 (if the lease termination date is June 12) or May 31, 1958 (if the lease termination date is June 14)—if continued occupancy is desired by the student.

However, the Housing Office has for the past six years asked student tenants to come in and renew their leases during the month of April, for these reasons:

1. Ever since September of 1946 there have been large numbers of married student families seeking University housing as soon as it is available. As of Tuesday, April 1, there were 764 names on this waiting list, representing either students who are presently enrolled but whose families are living in quarters which they consider less desirable than University housing, or prospective students who expect to enroll at the University this summer or this fall. An early indication of present student residents' plans enables the Housing Office to notify those students who are on waiting lists either that University housing will be available, or that University housing will not be available, in sufficient time to enable those on waiting lists to make their own plans accordingly. It is obvious what the effect would be on these students who are on waiting lists if it were necessary to wait until early June before they could be notified concerning housing availability.

2. By spreading the renewal period over the entire month of April, with several days devoted to renewing leases for students within each area, new leases can be typed and waiting when student tenants come in to renew them. This is thought to be a convenience to student tenants, in that it enables them to avoid waiting in line for new leases to be made.

The housing office has always been willing to wait for renewals or cancellations by the (generally few) student tenants whose summer and fall plans are not yet determined by the end of April. If renewals or cancellations can be completed early for most of the 698 apartment units, most of the incoming students can be notified about available housing in sufficient time.

It is believed that any student who has been on such a waiting list for housing for himself and his family will understand this policy and the reasons for it. For this reason we sincerely hope that residents will either come in to sign their new leases in April in accordance with the schedule sent to them early in March, or to give notice of cancellation.

Signed, T. M. Rehder, Director
Dormitories and Dining Services

The above is a signed statement by T. M. Rehder and is printed exactly as it was given to The Daily Iowan. The news story referred to in Rehder's statement above was written by a staff writer who attempted to present the facts in an unbiased manner. In the interest of fairness to all concerned, the story is hereby reprinted as it appeared Friday.

SUI married students are not legally required to renew their leases before May 30 as the leases are positively binding on both parties, Richard Clark said he was told Thursday by T. M. Rehder, director of dormitory and dining services. Clark is chairman of the Married Student Protest Group executive committee.

The lease states the lessee must renew his lease at least two weeks prior to its termination if continued occupancy is desired.

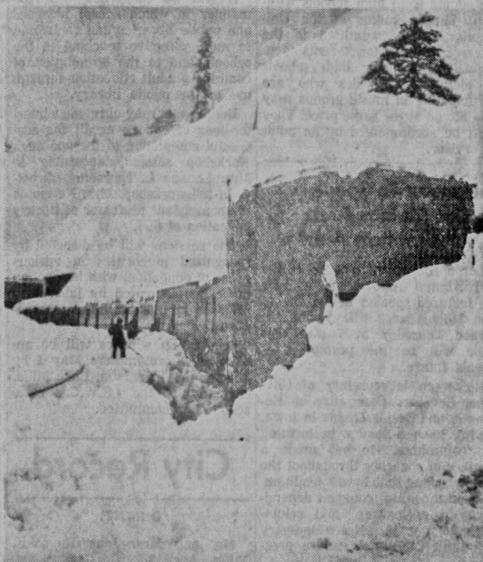

The schedule for lease renewal, which Rehder has said was set up merely for the convenience of the

student and the Dormitory Assignment Office, is as follows: Finkbine Park, today, April 7 and 8; Riverside Park, April 9 and 10; Stadium Park, April 14 and 15; Westlawn Park, April 16; Templin Park, April 17; North and Central Parks, April 18; Quonset and South Parks, April 22 and staff, April 23 and 24.

It was previously stated by the dormitory assignment office that all lease renewals must be completed by April 29 and names on the waiting list would be contacted April 30 for units not leased by that time.

Cuban War Begins in Silence

Storms Stagger California

Mail Train Stalled

A SNOW-TRAPPED mail train of the Southern Pacific railroad was still trapped by snow Friday about 20 miles northeast of Colfax, Calif. The train became snowbound Tuesday when it was hit by a slide. Wheels of the train are reported frozen to the rails. The more than 20 passengers and the crew have been removed safely.—AP Wirephoto.

Claim Khrushchev Distorts U.S. Summit Meeting Policy

WASHINGTON (AP)—The United States accused Soviet Premier Nikita Khrushchev Friday of distorting U.S. summit conference policy while standing amid scenes of Soviet "slaughter . . . and treachery" in Hungary.

A STATE Department statement sharply chided Khrushchev for demanding a show of "good will" on the issue of suspending nuclear weapons tests. It prodded him to reply quickly to a western proposal for beginning diplomatic talks later

this month on summit conference arrangements.

The United States reaction was voiced by State Department press officer Lincoln White after Khrushchev, on a visit to Budapest, called on this country and Britain to follow the Soviet example and announce suspension of the testing of nuclear weapons. Khrushchev said he was prepared to accept international supervision of a ban on tests, but White noted that Khrushchev did not say what he meant by international supervision.

On this issue the Eisenhower administration is now engaged in a top-level review, with a prospect of decisions possibly modifying U.S. policy in two or three weeks. But there is no prospect of any American suspension of tests by agreement with other nations until after the imminent Pacific test series is completed.

The State Department statement indicated a considerable irritation in Washington with what some authorities consider Khrushchev's successful propaganda campaign. It also showed a readiness to throw hard punches back at the Soviet Premier in the first on-the-record comment made in response to public statements by him since he took over the premiership from Nikolai Bulganin last week.

WHITE RECALLED that a United Nations resolution, opposed by the Soviet bloc but overwhelmingly adopted by the rest of the General Assembly, last November had laid out a step-by-step disarmament program beginning with a test ban under international inspection.

"It is perhaps significant," White added, "that this statement by Mr. Khrushchev is made in Budapest where the U.S.S.R. demonstrated its 'good will' by the slaughter of Hungarian people just over a year ago when they sought to lift from their backs the yoke of a foreign-imposed domination."

"The world will long remember the use of Soviet tanks and treachery on that occasion."

He said Khrushchev seems to wish to distort the United States attitude toward a summit conference although it has been fully set forth in the voluminous exchange of correspondence between President Eisenhower and Nikolai Bulganin, the former Soviet premier. "The main problem, however, is to reach meaningful agreements with the Soviet Union," he said, "and we in association with the British and French have specifically proposed talking with the Soviets through diplomatic channels the latter half of this month. We are awaiting the Soviet reaction to this proposal."

ASSAULT CHARGE
Gerald Stout, 419 S. Madison, was charged Friday with assault and battery, police said. He was released on \$35 bond.

12:01 Deadline Passed; Dawn Attack Feared

By LARRY ALLEN

HAVANA (AP)—Rebel chief Fidel Castro's declared total war to destroy President Batista began in ominous silence here at 12:01 a.m. Saturday.

Not a warlike sound was heard in the center of the deadened city at that moment.

Only mounting tension and military preparedness of government forces were apparent.

Castro's favorite guerrilla type attack usually comes just before dawn. Government forces throughout Cuba were dug in to meet what may come then.

Castro said war would be waged pitilessly against all armed forces and persons supporting the President until he was toppled from power.

"From this instant on, the country is in a state of total war against the tyranny of Batista," Castro declared.

He said "The war will be waged implacably."

When news of his announcement came Havana's streets and night-spots were deserted. Civilians stayed behind locked doors in their homes awaiting Castro's first big move.

As the first step, Castro said that action would be intensified by armed patrols attacking the armed forces and the nation's transport and communications system.

Rebel sources in Havana said they awaited Castro's word as to what action should be taken to win in the nation's capital.

There were no immediate reports of any outbreaks in Havana or elsewhere in Cuba.

Reinforced police patrols and secret police maintained a sharp watch in all sectors of the capital.

President Batista awaited the showdown with a confidence that seemed cocky.

Army chiefs beamed. Their hope was that Castro, who has stuck for 15 months to guerrilla hit-and-run attacks, would finally be drawn into an open fight. They believe he could quickly be wiped out if he risked it.

Castro ignored a last-minute offer of amnesty by Batista's government to all rebels who down arms. He said his columns already were on the move throughout Oriente Province, on the east end of the island.

"THE FIGHT against Batista has entered its final stage," the 31-year-old guerrilla leader said in a statement issued from his hideout in the Sierra Maestra range in Oriente province.

Rebel Leader Fidel Castro
"The fight has entered its final stage."

Group Sues McElroy to Stop U.S. Nuclear Research Tests

By WILMOT HERCHER

WASHINGTON (AP)—On the streets of New York and London, at the United Nations and in the District of Columbia courts, groups of people called Friday for an end to nuclear tests.

A NUMBER of scientists, churchmen and other individuals sued Secretary of Defense Neil McElroy and the five members of the Atomic Energy Commission in an extraordinary attempt to place judicial restraint on U.S. tests.

Nobody in the legal community gave the suit much chance of succeeding.

THE PLAINTIFFS said they planned similar actions in Great Britain and the Soviet Union. About 5,000 strong, the British

started a 4-day march on Aldermaston where their government conducts research on the H-bomb and other weapons.

On Monday, in a field near the research laboratories, they plan to adopt the following resolution: "We urge the governments of Britain, Russia and America to stop testing, manufacture and storing of all nuclear weapons immediately."

IN NEW YORK about 500 "walkers for peace" converged on the U.N. headquarters to present a petition. They got a courteous reception.

The suit filed in the U.S. District Court here contends among other things that the Atomic Energy Act is unconstitutional.

Dr. Linus Pauling, professor of chemistry at the California Institute of Technology, and a Nobel Prize winner; veteran Socialist leader Norman Thomas; and Lord Russell, the British philosopher, better known as Bertrand Russell, were among those listed as plaintiffs.

Dr. Bach Says U.S. Ruled By Fear of Russia

DES MOINES (AP)—Dr. Marcus Bach, SUI professor of religion, told the Des Moines Chamber of Commerce Friday "our greatest tragedy is that we are being ruled by fear of Russia rather than faith in the United States."

"We have been trying to best Russia on her terms — fear and force," he said. "Our terms are faith and freedom."

"We have been baited and plotted by Russia to leave our source of strength . . . compassion and concern for the pain and poverty all around the world."

Dr. Bach is widely known for his first-hand study of religions over the world. He has been at the SUI School of Religion 16 years.

AWS Conventioneers Hear Their Generation is "Self-Centered"

Accusations that their generation is cautious, conforming and "gloriously self-centered" were examined Friday by more than 100 coeds from some 40 Midwestern colleges and universities attending a convention of Region II of the Intercollegiate Association of Women Students at SUI.

They were guided in their attempt to "psychoanalyze" their college classmates and themselves by Dean Eunice C. Roberts of Indiana University, who gave the keynote address of the convention Friday morning.

STUDYING the values which you hold will be important only if you understand their implications and project them into your own life, Dean Roberts told the group.

Seventy-two per cent of the coeds who answered an opinion poll for Dean Roberts at the opening of the convention said they considered most of the college students they know to be tolerant and conformist in their point of view but unwilling to crusade for tolerance or conformity.

The same percentage said they believed most college students are optimistic about the future because they believe their destinies lie within their own control.

Sixty-eight per cent said they feel most students believe the main purpose of a college education is to prepare primarily for earning a living rather than for a personal appreciation of our civilization.

SPEAKING to the coeds Friday evening, President Virgil M. Hancher of SUI pointed out that all segments of our population — not just college youths — are preoccupied to some degree with gaining security, anxious to accept conditions as they are so long as they can be assured of a comfortable life.

President Hancher attributed this overwhelming concern for security to the increasing mobility of our population and the continuing tensions which we face. The young,

so called "silent generation" has not had the comparatively tranquil childhood and youth their parents and grandparents had in which to prepare for today's assaults upon nervous and emotional mechanisms, he pointed out.

To counteract the instability caused partly by the moving of families to keep up with job opportunities, our schools have been given the task of helping children to make life adjustments rarely required in a simpler society, the SUI president explained.

"THE TRANSFER of community church and parental responsibilities to the public schools has no doubt contributed to a diminution of time spent on purely intellectual pursuits," he continued.

Dean Roberts will help the coeds summarize the findings of convention workshop groups and to evaluate these findings in sessions this afternoon and evening.

Boy Saved From 25-Foot Drop In Cedar Rapids

CEDAR RAPIDS (AP)—A 3-year-old West Union boy kept spectators awed and his mother frantic as he pranced around a 25-foot high ledge of his grandmother's home here Friday.

Young Larry Cook, visiting his grandmother, crawled out of the house onto a 15-inch third-story ledge which encircles the home.

His mother, Mrs. Gerald Cook, 31, missed him and went looking for the youngster. She spotted him and started to follow. Meantime, a crowd started to form in the street.

The youngster crawled to a corner of the ledge, fell to a small roof just below and started to cry. His mother finally caught up with him.

The Cedar Rapids fire department was called out to rescue both mother and son from the roof.

SAN FRANCISCO (AP)—Rain-soaked California, soggy and dripping after weeks of almost incessant storms, faced the prospects of more rain today and of a stormy Easter Sunday.

Coastal areas Friday were pounded by towering waves from the Pacific.

In the interior valleys creeks and rivers vaulted their banks, flooding thousands of acres and driving more than 5,000 persons from their homes.

Twelve persons have died in the storms the past few days.

Damage to property and to crops range into the millions.

President Eisenhower Friday designated most of the state a major disaster area, qualifying it for immediate Federal emergency relief.

San Francisco had 3.96 inches of rain up to noon Friday for the first 3½ days of April. The normal fall for the entire month of April is 1.49 inches.

The snow pack in the Sierra was estimated at 269 inches at Norden and 175 at Badger Pass.

In San Francisco, rain has fallen — generally heavily — on 55 of the first 94 days of the year.

The Weather Bureau said Saturday's rains probably will bring the water to "above danger level" in the delta area where the Sacramento and San Joaquin rivers converge to flow into San Francisco Bay.

In a special bulletin the weather bureau said winds and high tides "will aggravate the already critical situation in the Delta Saturday afternoon."

Link Waterloo Marine With Child-Abuse

WATERLOO (AP)—Marine Sgt. Glenn R. Farnsworth, 31, who was to have been transferred to duty in California Friday, instead sat behind bars here, charged with mistreating three young girls.

Farnsworth was arrested during an intensive police search late Thursday, a few hours after the third Waterloo girl since Jan. 17 had been picked up by a motorist and mistreated.

The sergeant was charged in Municipal Court Farnsworth with sodomy, assault with intent to commit great bodily injury and lascivious acts with a child.

Appearing outwardly calm, Farnsworth asked time to consult an attorney. Bond each charge was set at \$5,000 and he was taken to jail.

Farnsworth, a native of Hoisington, Kan., has been stationed at the Naval-Marine Training Center here for the past two years. He is married and has no children.

Police Chief Harry Krieg said a 16-inch-long leather strap was used to beat a young girl last Jan. 17 after the girl had been picked up by a man. He said a second girl abducted Feb. 7 had been sexually molested.

The chief said the girl abducted Thursday was driven to a country road outside the city. He said the girl's hands were bound with leather straps and that she was beaten with a brush handle about 18 inches long.

The girl was found along the roadside by a passing motorist and taken to her home. She was placed under a doctor's care.

Two Injured in Accident Friday Near Iowa City

A two-car collision Friday afternoon resulted in extensive damage to both cars and minor injuries to the drivers, according to Iowa City Police.

Cars driven by Arnold Lee Doeres, Lone Tree, and Ron Walters, Mount Pleasant, collided at the entrance to the Imperial Oil station, Hwy 218 S., police said. The men were taken to University Hospital where Walters received 10 stitches in his right arm, and one of Doeres' fingers was treated.

RAIN AGAIN
The weather man says rain today and part of Sunday with temperatures cooler to unchanged. Highs today will be in the low 50s in Iowa City.

Ike Cuts VA Requirements For Home Mortgage Loans

WASHINGTON (AP)—In an effort to whip up the sluggish home building industry, President Eisenhower Friday announced a return to the no-down-payment plan for GI mortgage loans.

The action was one of seven announced by the White House to stimulate home building and make it easier for buyers to obtain financing.

Effective immediately, the President said the Veterans Administration (VA) has removed the 3 per cent down payment requirements on VA-guaranteed home loans. This requirement was imposed on July 30, 1955 as an anti-inflationary measure.

The White House said it will remain optional for lenders to require a down payment but the VA does not expect such demands to develop generally.

ALTHOUGH no down payment will be required starting Friday veterans will continue to have to pay in cash the expenses of closing the loan.

Elimination of the down payment requirement on VA loans was one of two administrative actions announced by the President, who is weekending at Gettysburg, Pa.

FIVE OTHER steps were taken to carry out provisions of the \$1.850,000,000 housing bill which Mr. Eisenhower signed on Tuesday.

The other Administrative action, not provided for in that bill and requiring no legislation, is the release of an additional \$325 million to the Federal National Mortgage Association (FNMA) for special assistance programs.

Of that total, \$25 million is for purchase of Federal Housing Administration (FHA) insured mortgages in slum clearance or urban renewal programs, 50 million is for purchase of FHA-insured mortgages on dwelling units for elderly persons, and 25 million is for purchase of FHA-insured military housing mortgages.

Easter Bunny and Friend

AGAINST A BACKDROP of lilies, Jennifer Gaus, 2, made friends with a bunny Friday in an Easter scene in Rockefeller Center's Promenade Gardens. The tot was visiting the gardens with her parents when the bunny, a Belgian hare named Fauguer, came strolling by with its owner.

The Daily Iowan is written and edited by students and is governed by a board of five student trustees elected by the student body and four faculty trustees appointed by the president of the University.

Venturi Falters, Comes Back To Retain Lead at Half-Time

AUGUSTA, Ga. (AP) — Ken Venturi staged an almost unbelievable comeback at the Augusta National Friday and retained his one-stroke lead at the half way point of the 22nd Masters Golf Championship.

WHO'S EXCITED? — Ken Venturi whips off his cap and throws it on the ground after he curled in a long putt on the 18th green for a birdie and a par-72 for the round in the Masters Golf Tournament in Augusta, Ga. Friday. The gallery in the background shows approval as the San Francisco pro closed out a total of 140 to lead the field for the second day.

Venturi, after using up 40 strokes on a first nine that was as wretched as Friday's Georgia weather, came back with birdies on the last three holes and a four-under par 32. That gave him even par 72 for the day and a 36-hole total of 140.

But Ken's brilliant performance couldn't dim the lustre of his playing partner, the irrepressible amateur Billy Joe Patton, who fired a second round of 69 and tied for second place at 141 with Texas pro Billy Maxwell.

Between them, Venturi and Patton have been responsible for two of the greatest amateur feats in Masters history. Friday they both lived up to the billing they gained when Billy Joe trailed Sam Snead and Ben Hogan by only a stroke in the hectic 1954 Masters and when Venturi lost by a stroke to Jackie Burke in 1956.

The results on a miserably wet, windy day left the 1958 Masters as a wide open champion which any one of about a dozen players could win.

Tied for fourth place two strokes off the pace, were Stan Leonard, 41-year-old Canadian pro who has a lock on Canada's PGA championship, and silver-haired Bo Wininger, who plays from Odesa, Texas, Maxwell's home town.

Bracketed at 143 were Sam Snead and Cary Middlecoff, both former winners of the Masters, ex-PGA champion Chick Harbert and Art Wall Jr., Arnold Palmer and Dow Finsterwald, representing the younger generation of pros.

The big 6,980-yard, par 36-36-72 Augusta National course was entirely different from the comparatively easy layout that saw par broken 17 times on the first round.

Softened by rain which didn't end until about noon, swept by a bone chilling wind that dropped temperatures into the upper 40s and with the pins placed in inaccessible locations, it was a course to challenge the greatest players.

Some of the best failed to make the final 36 holes as the field was slashed in half for the final 36 holes. Out of the running were U.S. Open Champion Dick Mayer, amateur champion Hillman Robbins, 1956 Masters winner Jackie Burke, Mexico's Robert De Vincenzo and Japan's Koichi Ono, among others.

Ben Hogan, one of the all-time greats who missed the cutoff when it was first instituted last year, barely made the grade with a 77-149.

Forty-three players who made 36-hole totals of 149 or better survived the cutoff. There were just 86 starters in this year's Masters, due to tightened eligibility requirements. Only the low 40 and ties for 40th place were permitted to continue.

San Francisco Gets Giant Hero Rhodes in Trade

PHOENIX, Ariz. (AP) — Jim "Dusty" Rhodes, pinch hitting hero of the Giants' 1954 pennant drive and world series triumph Friday was optioned to San Francisco's Class AAA Phoenix club of the Pacific Coast League.

The move came as no surprise after two seasons in which the 30-year-old outfielder hit .217 and .205 and a disappointing spring during which he had but two singles in 11 times at bat in exhibition games.

So, in two days the Giants, who moved from New York to San Francisco this spring, have seen two heroes leave — Bobby Thomson was traded to the Chicago Cubs Wednesday.

Dusty hit .341 during the regular season of 1954, mainly as a pinch hitter, and his homer in the 10th inning of the opening World Series that year against Cleveland won the game and sent the Giants on their way to four straight victories. He hit safely as a pinch batter in the next two games to tie a World Series record.

PHOENIX, Ariz. (AP) — The big 6,980-yard, par 36-36-72 Augusta National course was entirely different from the comparatively easy layout that saw par broken 17 times on the first round.

Softened by rain which didn't end until about noon, swept by a bone chilling wind that dropped temperatures into the upper 40s and with the pins placed in inaccessible locations, it was a course to challenge the greatest players.

Some of the best failed to make the final 36 holes as the field was slashed in half for the final 36 holes. Out of the running were U.S. Open Champion Dick Mayer, amateur champion Hillman Robbins, 1956 Masters winner Jackie Burke, Mexico's Robert De Vincenzo and Japan's Koichi Ono, among others.

Ben Hogan, one of the all-time greats who missed the cutoff when it was first instituted last year, barely made the grade with a 77-149.

Forty-three players who made 36-hole totals of 149 or better survived the cutoff. There were just 86 starters in this year's Masters, due to tightened eligibility requirements. Only the low 40 and ties for 40th place were permitted to continue.

2 Iowans On National Swim Team

MINNEAPOLIS, Minn. — The Big Ten dominated the 19-man All-American swimming team of the National Swimming Coaches Association, the selection sponsored by the Wheaties Sports Federation.

Two SU Iowans were named to the championship team: Gary Morris, freestyle sprinter; and Lincoln Hurring, backstroke.

Fourteen of the All-Americans are from the Big Ten. Yale with three men and Harvard with two were the only schools to crack the Big Ten dominance.

The official team is: Freestyle sprints: Gary Morris, Iowa; Donald Patterson, Michigan State; Fred Westphal, Wisconsin.

Freestyle distance: Roger Anderson, Yale; Dick Handley, Michigan; John Parks, Indiana; William Steuart, Michigan State.

Backstroke: Lincoln Hurring, Iowa; James Dolbey, Yale; Dave Pemberton, Northwestern.

Butterfly stroke: John Hammond, Harvard; Tim Jecko, Yale; Tony Tashnick, Michigan.

Breaststroke: Cy Hopkins, Michigan; Franklin Modine, Michigan State; James Stanley, Harvard.

Individual medley: Cy Hopkins, Michigan; Joe Hunsacker, Illinois. Springboard diving: Donald Harper, Ohio State; Richard Kimball, Michigan.

CHICAGO (AP) — Dethroned middleweight champion Carmen Basilio has a big smile for nurse Lois Dornorff as they view his picture taken last week after his title match with Sugar Ray Robinson. Basilio left the hospital Friday after being treated nine days for the eye injury he received during the fight. Only a small trace of injury can be seen and doctors said he can fight again when he chooses. — AP Wire-photo.

Basilio was snappy and chipper in a news conference following his discharge from Wesley Memorial Hospital. He needed a nine-day treatment of an eye Robinson pummeled into a black egg-sized mess here March 25.

Basilio said it would take a week or two before he decided whether to seek a rubber match with Robinson; to retire, as his wife, Kay, would like him to do; or to contemplate regaining the welterweight title he vacated last Sept. 23, when he took the middleweight crown from Robinson in New York.

Basilio, who now has been stripped of both the welterweight and middleweight titles in losing all of his four Chicago appearances, asserted Friday that:

"If my eye didn't get hurt, I think I would have stopped Robinson." Films indicate a right uppercut by Sugar Ray late in the fifth started the trouble and the eye ballooned as the sixth round started.

NEW HAVEN, Conn. (AP) — Murray Rose, sensational Australian Olympic star, won his second National AAU indoor swimming title Friday night amid an outbreak of record performances.

Rose, who captured the 1,500-meter freestyle title Thursday night, established a meet record in the 220-yard freestyle test Friday night in a dramatic finish.

The blonde, 19-year-old Aussie won in 2:02.5 as he nosed out Australian teammate Jon Henricks, and Dick Hanley of Michigan, the defending champion.

All three finished under the meet record of 2:04 which was set by Ford Konno of Ohio State in April, 1955.

Bill Zorzyk, 24, of Northampton, Mass., America's only male gold medal winner in the 1956 Olympics, set American and meet records in winning the 220-yard butterfly. He edged out NCAA champion Tony Tashnick of Michigan.

Zorzyk was timed in 2:18. The listed American record is 2:18.7, which he set last April. The meet mark was 2:19.4 established by Jiro Nagasawa, Japanese star, two years ago.

George Schepps, general manager of the Dallas baseball club, said Friday that he is "very interested" in trying to put a pro football team in the Cotton Bowl.

The International Football League, Inc., is being organized by Jack Corbett, a former Dallas man who has owned several minor league baseball clubs, Schepps said.

It is to be a 12-team league, with the cities to be selected from Boston, Brooklyn, Buffalo, Cincinnati, St. Louis, Kansas City, Minneapolis, Milwaukee, Toronto, Montreal, Houston, Dallas, Mexico City, Seattle, Portland, San Diego, Havana, Miami, Louisville and Denver.

Corbett notified Schepps by mail Friday that Dallas, Denver, Miami and Houston are the only four that already have been granted franchises.

DES MOINES (AP) — A new professional ice hockey league of 10 teams extending from Des Moines to Seattle and into Canada has been proposed.

P. L. George, Des Moines sports promoter said Friday the league "is only in the talking stage, but I understand there will be an organization meeting late this month or early in May."

The eastern division would be composed of Des Moines, St. Paul, Minn., Omaha, Denver and Winnipeg, the Tribune quoted Wright. The western division would include Seattle and Calgary, Edmonton, Vancouver and Victoria, in Canada.

SOME CHANGE! — Dethroned middleweight champion Carmen Basilio has a big smile for nurse Lois Dornorff as they view his picture taken last week after his title match with Sugar Ray Robinson. Basilio left the hospital Friday after being treated nine days for the eye injury he received during the fight. Only a small trace of injury can be seen and doctors said he can fight again when he chooses. — AP Wire-photo.

Basilio, Recovered, Leaves 'Jinx' City

CHICAGO (AP) — Dethroned middleweight champion Carmen Basilio left a hospital and his unlucky fight city Friday, uncertain of everything except that he could kick Sugar Ray Robinson if they meet again.

Basilio was snappy and chipper in a news conference following his discharge from Wesley Memorial Hospital. He needed a nine-day treatment of an eye Robinson pummeled into a black egg-sized mess here March 25.

Basilio said it would take a week or two before he decided whether to seek a rubber match with Robinson; to retire, as his wife, Kay, would like him to do; or to contemplate regaining the welterweight title he vacated last Sept. 23, when he took the middleweight crown from Robinson in New York.

Basilio, who now has been stripped of both the welterweight and middleweight titles in losing all of his four Chicago appearances, asserted Friday that:

"If my eye didn't get hurt, I think I would have stopped Robinson." Films indicate a right uppercut by Sugar Ray late in the fifth started the trouble and the eye ballooned as the sixth round started.

Gavilan Wins Split Decision Over Jones

PHILADELPHIA (AP) — Cuba's Kid Gavilan, showing flashes of the form which once earned him the welterweight title, outpunched the veteran Ralph "Tiger" Jones of Yonkers, N.Y., Friday night to win a split 10-round decision at the arena. Gavilan weighed 155, Jones 155 1/2.

Gavilan took another step on what he hopes is the road back to title contention by the simple expedient of landing oftener and more telling blows in the nationally televised fight.

The 32-year-old Cuban belied his age as he kept the pressure on the rugged Jones with slashing bolo punches in this third meeting of the two veteran campaigners. Gavilan won over Tiger back in 1953 and lost to him last February at Miami, Fla.

The two judges, Jimmy Mina and Nate Lopinson scored Gavilan the winner, Nina 47-44, and Lopinson 47-43. Referee Joe Sweeney awarded Jones the decision 46-44.

NEW HAVEN, Conn. (AP) — Lou Schaeffer, a 17-year-old Berea Ohio, high school junior, set a national AAU indoor 100-yard backstroke swimming record Friday in qualifying for Friday night's finals.

Competing in his first major meet, Schaeffer raced the distance in 56.5 seconds in Yale's 25-yard pool to pace a strong field, including defending champion Charley Krepp of the North Carolina A.C.

The listed record of 56.8 was registered by Yoshi Oyakawa of Hawaii and Ohio State in 1954.

BOSTON (AP) — Joe Cronin, general manager of the Boston Red Sox, said Friday the club is satisfied to remain at its present location — Fenway Park.

Earlier in the week plans for a \$10 million sports center in Norwood to include a 60,000 capacity stadium were announced.

Boston Celtics May Play Without Star Russell Again
ST. LOUIS (AP) — The Boston Celtics faced the fact Friday their injured defensive star, Bill Russell, may be of little help against St. Louis Saturday night in the fourth game of the National Basketball Assn. championships playoffs.

The 6-10 rebounding genius continued to take physio-therapy treatments for his badly sprained right ankle.

Boston is behind 2-1 in the best-of-seven series.

Russell is walking around on crutches to give the injured foot a rest. He suffered the injury Wednesday night, crashing to the floor after a play on which he was called for goal-tending.

Says More Fallout In Northern States

By JOHN A. BARBOUR
Associated Press Science Reporter

NEW YORK (AP) — Weather patterns are giving the northern United States more radioactive fallout than the rest of the nation, an Atomic Energy Commission spokesman said Friday.

Merrill Eisenbud, regional manager for the AEC, said too that the Northern Hemisphere was getting a heavier dose of radioactive fallout than the Southern Hemisphere, due partly to location of nuclear blasts.

BUT NOWHERE, he said, was fallout approaching dangerous levels. The shift of winds gave some cities like Salt Lake City, Boise, Idaho, and Grand Junction, Colo., a heavier fallout than other southerly areas. This was indicated by the collection of radioactive dust on gummed plastic strips placed in those areas.

New York City and other cities in the northeastern United States got heavier fallout doses than some cities in the South because of a combination of winds and rain and snow.

These measurements showed up in collected samples of rain and snow.

High-altitude winds, blowing the

State Office Candidate Challenged

DES MOINES (AP) — Commerce Commissioner John M. Ropes, Iowa Republican, Friday challenged the right of a Sioux City man to a place on the ballot for one of two Republican nominations to the Commerce Commission.

Ropes who seeks renomination, asked Secretary of State Melvin Synhorst to withhold the candidacy of John Hamilton Cruickshank of Sioux City for the June 2 primary. Ropes, in a letter to Synhorst, questioned approximately 136 signatures on Cruickshank's nominating petition. He said they "apparently were affixed after the date of the affidavit" attesting the signatures.

Synhorst sent the letter to Atty. Gen. Norman A. Erbe with a request for an opinion defining the secretary of state's duty to canvass the Cruickshank petition and authority to refuse certification.

Ropes and the other Republican commissioner, John A. Tallman of Clarion, who also filed for renomination, and six other candidates are seeking the two Republican nominations.

Erbe said he plans to give Synhorst the opinion Monday. Tuesday is the deadline for certifying candidacies for the state primaries. It also is the deadline for filing candidacies with county auditors.

Ropes said two commission employees, Eugene W. Powers, superintendent of the motor transportation division, and Robert Price, in the division, examined petitions of candidates for commerce commission nominations while Ropes was out of town.

Ropes was in Washington, D.C. last week and in Sioux City this week.

To be nominated in the primary, the two high men in the Commerce Commission race must receive 17 1/2 per cent of the total vote cast for the nomination.

Hammarckjold Returns From European Trip

GENEVA (AP) — Dag Hammarckjold wound up his two-week European trip Friday night and took a plane for New York.

The U.N. secretary general, who earlier visited Moscow and London, had a final talk before he left on Middle East affairs with Foreign Minister Mahmoud Fawzi of the United Arab Republic. These presumably included this week's Israeli-Syrian border clashes.

A communique said only that the two discussed international and Middle East developments.

HUMBLE YOUTH

MISSOULA, Mont. (AP) — This western Montana city has decided to put juvenile offenders to work.

The work will be washing city-owned cars, polishing fire trucks, helping patch streets, and janitorial duties in public buildings.

City Manager Alan W. Cuthbertson said the city hopes that callouses will replace glorification in the person of the juvenile offender.

The Men's Shop

debris of atomic explosions, scatter it mostly in the Northern Hemisphere.

Eisenbud and others at the AEC's Health and Safety Laboratory spoke at a news conference, giving details of a regular semi-annual AEC fallout study released earlier Friday.

RAW DATA on fallout is not necessarily the best measure, however, Eisenbud said. Some radio active isotopes are more dangerous than others.

Eisenbud explained it this way: Strontium 90, formed in the fireball of an atomic explosion, closely resembles calcium. Calcium is a mineral needed for human growth, as a major part of the human skeleton.

As calcium is absorbed from the soil into plants, some radioactive strontium is also absorbed. Some plants are eaten by humans and the radioactive strontium is partially accepted into bone structure in lieu of calcium.

Some plants are eaten by cows, and part of the strontium eventually gets through into the cows' milk. Some of this eventually is ingested by human beings and becomes part of human bone too.

Eisenbud said that beyond a certain level the AEC believes this radioactive strontium could cause cancer of the bone and other diseases. Since it retains its radioactivity for a long while, strontium 90 has a cumulative effect which can make it a danger especially in the growing bones of children.

However, the level of strontium 90 in milk, as monitored by the AEC, is not expected to get any higher than 20 or 30 strontium units by the year 2,000. The AEC has a safety level of 100 strontium units which it says is only a tenth of what some consider the safe maximum.

AFTER THE YEAR 2,000 the AEC expects the cumulation of strontium 90 to level out because existing strontium 90 will be losing its radioactivity by then as fast as new strontium 90 replaces it.

Another potentially dangerous radioactive isotope in fallout is cesium 137. Cesium resembles potassium which is absorbed and used by the body.

Although cesium 137 has a short radioactive life, it could possibly affect the reproductive cells in the human body and endanger future generations by producing deformed children.

However, the level of cesium 137 is considered slight by the AEC.

Kerosene Burns Prove Fatal for Richmond Woman

Burns suffered March 26 proved fatal to a 73-year-old Richmond woman Thursday night.

Mrs. Elizabeth Horesowsky died of burns received when she accidentally threw kerosene on a smoldering fire at her home in Richmond. The fire flared up and caught her clothing on fire, severely burning 30 per cent of her body.

Funeral services are planned for 9:30 a.m. Saturday at St. Mary's church in Riverside, with the Rev. W. F. Boeckman officiating. Burial will be in the Mount Olivet cemetery.

Chicago Man Arraigned On Counterfeiting Count

CHICAGO (AP) — The head of a printing firm and one of his employees were arraigned Friday on charges of possessing and manufacturing counterfeit money.

Detectives and Secret Service agents said the men had printed \$136,000 in fake \$5 and \$10 bills.

Held in bond of \$15,000 was Dennis G. Recktenwald, 34, of suburban Northbrook, president of D. & R. Specialties and Advertising Letter Service. Police said he admitted he was boss of the counterfeiting operation.

John Thomas Hagan, 18, an employee, was held in \$10,000 bond. Paul J. Paterni, special agent in charge of the Chicago Secret Service office, said Chicago police received a tip about the operation several days ago and that the company was placed under surveillance.

Working with Government agents, police seized Recktenwald as he left the firm. Recktenwald then led them to Hagan's quarters where four plates used in making the bogus money were found, as well as uncut sheets of money.

Paterni said the counterfeit money was of good quality except for a dull grey appearance and lack of detail in the portraits.

Unemployment Again Shows Slight Increase

WASHINGTON (AP) — New job data indicated Friday night that unemployment was still increasing at the end of March.

The Labor Department's Bureau of Employment Security said the volume of initial claims for unemployment insurance benefits — claims filed by newly idled workers — reached 421,900 for the week ended March 29. The volume was up 17,500 from the previous week and compared with 212,300 for the same week in 1957.

The bureau said that while most states reported declines in such claims, the reductions were generally small. They were more than offset by increases in a relatively few states. The largest increases were reported by Pennsylvania 5,900, Maine 5,400, New York 4,700, Michigan 3,700, New Hampshire 2,700 and Missouri 2,200.

The increases in Maine and New Hampshire were attributed to renewed benefit rights for insured workers.

The increase in Pennsylvania was attributed largely to temporary layoffs in metal, construction and clothing industries. Pre-Easter layoffs in candy factories and clothing firms contributed to the rise in New York, while new job separations in the auto industry, chiefly in Detroit, were responsible for most of the rise in Michigan. Missouri reported temporary shutdowns in several shoe making plants.

The bureau said reports from the states showed that unemployment among workers insured for benefits increased by 14,700 to a total 3,278,900 during the week ended March 29. This raised the rate of unemployment among insured workers from 7.8 to 7.9 per cent. A year ago the rate was 3.9 per cent.

Texas Noospaper Gives Applykants Spelling Eggzams

TEXARKANA, Tex. (AP) — A newspaper simply has to have percellle with proper qualifications to garentee a readable product.

The Texarkana Gazette gives every applicant for editorial positions a spelling test and the misspelled words in the paragraph above were some of those made by applicants.

Ruth Mahaffey, wife of the Gazette editor, gives the tests and grades the papers. The champion misspeller was a 45-year-old woman who spelled technique "teacenic."

"The only person who has made a perfect score," said Mrs. Mahaffey, "was a 47-year-old woman with an eighth-grade education and we hired her."

No Sack Dress For First Lady

WASHINGTON (AP) — Mrs. Mamie Eisenhower in a trapeze-line sack dress?

Never, said the First Lady's social secretary Friday.

As a matter of fact, Mrs. Eisenhower was shocked when she read reports she had ordered for Easter one of the sack line gowns which flare from the shoulders to just below the knees, her social secretary, Mrs. Mary Jane McCaffree reported.

Does Mrs. Eisenhower like the new sack look? "No," said Mrs. McCaffree vehemently.

She said the First Lady is staying with the same type she has been wearing in the past years. She prefers the full skirt and sometimes slightly modified sheath skirts.

East, West Debate Nuclear Test Issue

By WILMOT HERCHER

WASHINGTON (AP) — East and West traded verbal brickbats Friday on the issue of halting nuclear weapons tests. Government officials taunted and giped at each other.

Meantime, within the Western world, groups opposed to nuclear test blasts dramatized their stand with legal moves and demonstrations.

A number of scientists, church men and others filed suit against Washington officials to halt U.S. tests, and anti-bomb demonstrators marched in New York and London.

At a government level, Soviet Premier Khrushchev denied that Russia's suspension of nuclear tests is a propaganda gimmick, as President Eisenhower described it, and aid: "If Eisenhower really thinks we have stopped atomic and hydrogen bomb tests for propaganda reasons, then why don't he and other Western statesmen try the same propaganda and halt the tests themselves?"

Khrushchev told a crowd in Budapest, Hungary, that stopping the tests is not only a matter of life and death but would be a first step toward disarmament and would promote solution of other urgent world problems.

He called on British Prime Minister Macmillan as well as Eisenhower to "follow the example of the Soviet Union, prove your good intentions."

The U.S. State Department last November calling for international agreement on the step-by-step disarmament program. Press officer Lincoln White noted the Russians also blocked efforts to carry through a resolution setting up a 25-nation Disarmament Commission.

White said the Soviets had turned back "the greatest expansion of intention of good will" which had been made in recent months.

There were these developments:

WASHINGTON — A group of scientists, churchmen and other individuals sued Secretary of Defense McElroy and the five members of the Atomic Energy Commission in an extraordinary attempt to halt U.S. tests. Similar suits were planned in Great Britain and Russia, the two other nuclear testing powers.

WASHINGTON — The Atomic Energy Commission declined comment on statement by Sen. Humphrey (D-Minn.), that recent Russian tests had literally poisoned the world's atmosphere with radioactivity. In a Senate speech Thursday Humphrey said that last week in San Francisco, for example, "radioactivity in rainfall rose to 200 times the safe limit."

BERKELEY, Calif. — The California State Health Department last week reported that a sharp rise in the radioactive content of bay area rainfall was noted over the March 22 weekend, presumably as a result of Russian test explosions in Siberia.

Radiological checks gave a reading 200 times higher than the standard established as safe for drinking water, but a spokesman said there was no community danger.

NEW YORK (AP) — An Atomic Energy Commission spokesman said weather patterns are giving the northern United States more radioactive fallout than the rest of the nation.

Merrill Eisenbud, regional AEC manager, said New York and other northeastern U.S. cities got heavier fallout doses than some cities in the South because of a combination of winds and rain and snow. But nowhere, he told a news conference, was fallout approaching dangerous levels.

OTTAWA—The Canadian Foreign Office said that Russian tests have led to a sharp rise in radiation in Canadian latitudes. No specific figures were given.

The statement said Canada hopes Russia's announced intention to halt tests is "the prelude to renewed negotiations on disarmament and does not imply continuing Soviet rejection of the United Nations as the forum for negotiations."

LONDON — Four thousand British demonstrators set out on a 50-mile, four-day protest march to Aldermaston, Britain's nuclear weapons research center.

NEW YORK — An estimated 500 peace marchers, some of whom had arrived by foot from Philadelphia and New Haven, Conn., demonstrated in front of the United Nations. They carried a petition asking the U.N. to urge a halt to nuclear tests.

SAN RAFAEL, Calif. — Plans for what was described as part of a nationwide series of protests were announced by the Marin County Committee for a Sane Nuclear Policy, just north of San Francisco.

Members will participate in a "nonviolent demonstration" Easter Sunday in front of the University of California Radiation Laboratory in Berkeley.

Chairman Philip Drath said other groups will demonstrate at U.N. headquarters in New York, at Cape Canaveral, in Florida, and at the Atomic Energy Commission facility at Livermore, Calif.

TOKYO — A Government source said Japan has proposed a complete prohibition of nuclear tests to the United States, Britain and Russia.

PEIPING—Red China's Premier Chou En-lai pledged Chinese support of Russia's test ban and said Red China "holds the United States and Britain should do the same." He spoke at the Hungarian Assembly.

NEW DELHI — India's Prime Minister Nehru urged other atomic powers to follow Russia's example. He noted Western skepticism of Soviet motives, but told a news conference: "A good step is a good step whenever it is taken."

CHICAGO — Sen. Neuberger (D-Ore.) said he thinks Adlai Stevenson is the Democrat's best presidential hope for 1960. Recent world events in nuclear testing, Neuberger said, only serve to "heighten the wisdom" of what Stevenson said in the 1956 campaign. The for the United States to take the Democratic nominee called them lead toward halting the bomb tests.

Bourguiba Turns Down Supervision

TUNIS (AP) — An informed source said President Habib Bourguiba told the American-British good offices team Friday he could accept no international supervision of Tunisia's border with revolt-torn Algeria.

The source, who is close to Bourguiba, disclosed this development on a key issue in the attempts of U.S. Dep. Undersecretary of State Robert Murphy and British diplomat Harold Bealey to reconcile France and Tunisia.

French Premier Felix Gaillard has demanded that the frontier be sealed to prevent crossings by Algerian nationalists rebelling against French rule.

The informant said the President told Murphy and Bealey the Algerian National Liberation Front (FLN) had threatened to set up a provisional government in exile in Cairo within a month if Bourguiba yielded on the frontier issue.

This would embarrass Bourguiba politically. He has openly claimed his distrust of President Nasser of the United Arab Republic of Egypt and Syria. Many FLN followers live in Tunisia.

Formation of a provisional FLN government which probably would be recognized by most Arab and Communist nations might force Bourguiba to review his ties with the West.

Churchill May Pay April Visit to U.S.

WASHINGTON (AP) — The White House said Friday President and Mrs. Eisenhower hope Sir Winston Churchill will be able to make his scheduled visit to Washington later this month.

Churchill returned to London Thursday from the French Riviera where he was stricken by pneumonia on Feb. 18. On his arrival at home he was described as pale but otherwise looking well.

SAN RAFAEL, Calif. — Plans for what was described as part of a nationwide series of protests were announced by the Marin County Committee for a Sane Nuclear Policy, just north of San Francisco.

Members will participate in a "nonviolent demonstration" Easter Sunday in front of the University of California Radiation Laboratory in Berkeley.

Chairman Philip Drath said other groups will demonstrate at U.N. headquarters in New York, at Cape Canaveral, in Florida, and at the Atomic Energy Commission facility at Livermore, Calif.

TOKYO — A Government source said Japan has proposed a complete prohibition of nuclear tests to the United States, Britain and Russia.

PEIPING—Red China's Premier Chou En-lai pledged Chinese support of Russia's test ban and said Red China "holds the United States and Britain should do the same." He spoke at the Hungarian Assembly.

NEW DELHI — India's Prime Minister Nehru urged other atomic powers to follow Russia's example. He noted Western skepticism of Soviet motives, but told a news conference: "A good step is a good step whenever it is taken."

CHICAGO — Sen. Neuberger (D-Ore.) said he thinks Adlai Stevenson is the Democrat's best presidential hope for 1960. Recent world events in nuclear testing, Neuberger said, only serve to "heighten the wisdom" of what Stevenson said in the 1956 campaign. The for the United States to take the Democratic nominee called them lead toward halting the bomb tests.

Solons Ask Action On FCC Violations

WASHINGTON (AP) — House investigators called Friday for Justice Department action on "the violations of law thus far disclosed" in their probe of the Federal Communications Commission (FCC).

A preliminary report by the special House subcommittee on Legislative Oversight did not go into details. Chairman Oren Harris (D-Ark.) told reporters at a news conference that the record already has been furnished to the Justice Department. And he said: "I do not think it was our responsibility to pinpoint these things item by item and charge individuals by name in this report."

PREVIOUSLY Harris has mentioned possible violations of law in contacts which interested parties have made with FCC commissioners on pending cases. Friday he also mentioned perjury.

The subcommittee has heard some apparently conflicting testimony in its weeks-long inquiry into a fight for TV Channel 10 in Miami, Fla.

In general, the House investigators said their hearings to date "have revealed certain highly improper activities in connection with the Federal Communications Commission" which should be brought to the attention of the House for early remedial action.

THEY SAID the hearings have revealed that over the years a pattern has developed of "questionable conduct" on the part of some commission members and some industry organizations and individuals

who are subject to commission regulation.

"The questionable propriety of some of this conduct, in the opinion of the subcommittee, has seriously undermined public confidence in the Federal Communications Commission thus affecting adversely the administration of law by the commission," the report said.

The subcommittee had four legislative recommendations which Harris said will be introduced when the House comes back April 14 from its Easter recess. They would:

1. Require the FCC to adopt a code of ethics prescribing standards of conduct for members and employees.
2. Eliminate a provision of law permitting FCC members to receive an honorarium, or payment, for speeches or articles.
3. Sharpen existing prohibitions against informal contacts with commissioners on pending cases.
4. Provide that the President may remove any member of the commission for neglect of duty or malfeasance in office, but for no other cause. The act now contains no provision for removal, the report said.
