

ROTC MEMBERS RECEIVED awards from Gov. Harschel Loveless during the 74th Annual Governor's Day ceremonies held Thursday at SUI. More than 1,300 SUI Air Force and Army ROTC Cadets paraded in honor of the Governor. —Daily Iowan photo by Brad Bathey.

## ROTC Students, Highlanders Take Part In Governor's Day

SUI's 74th Annual Governor's Day, an event which has survived three major wars, Thursday continued to be one of the most important and colorful traditions of "Old Gold."

Eighteen-hundred members of SUI's ROTC departments passed in review, honoring Governor Harschel Loveless, as the SUI Marching Band and Highlanders added a final touch of color and circumstance to the parade.

At a press conference in the Iowa Memorial Union after the parade, Loveless told The Daily Iowan that he hoped this issue would become a very potent one during the next gubernatorial campaign.

The governor said that past administrations, especially during the last 15 years, had "completely missed the boat in the area of capital spending."

Loveless said he felt that Iowa's legislative system does not conform to today's way of life and added that he favored a reorganization of counties as to numbers and sizes.

"Many Iowa counties do not have the necessary funds to support this issue (reapportionment)," said the governor.

Asked whether he would call a special session to discuss capital appropriations, Loveless said that our "out-dated" legislative system did not provide for such a session. He added that SUI's only sound approach for improvements would be through an appeal to the State

Board of Regents.

The governor's only comment in regard to the married student housing question was that private construction concerns should have made a greater effort to secure bids on the new MSH buildings. The fact that sufficient plots of land are lacking may pose the problem, Loveless said, presenting a definite snag to such efforts.

When questioned about Democratic chances for gaining seats in the General Assembly during the November elections, Loveless said he felt the Democrats should "easily pick up 65% of the House membership." He added that Democratic hopes were definitely brighter, especially since there has been a Democratic representative from every Iowa county for the first time in history.

## Gas War Still On?

Gasoline prices remained Thursday at 23.9 cents for regular and 27.9 for premium gas at about half the Iowa City dealers for major oil companies. All of the D-X, Phillips 66 and Standard Oil stations had raised their gas rates to 30.9 and 34.9 cents per gallon by 5 p.m. Thursday.

The two Texaco dealers, who precipitated the gas war in February by offering a cheap "open market" gasoline, did not raise their gas rates Thursday. The manager of Cannon's Texaco said they were discussing whether to return to the regular rates or to wait and see if the other companies intend to maintain regular rates.

Skelly dealers raised their prices, but as one of them said, "I don't know how long they will stay there."

The cut-rate dealers, Imperial, Petro-King, and Superior held their prices firm at 22.9 for regular gasoline. The manager of the Petro-King station said, "It wouldn't do much good if we raised our prices today and had to lower them again tomorrow." The independent station managers have said they intend to remain two cents below the "name" gas stations.

## Thousands Cheer Nixon on Return from Latin America

WASHINGTON (AP) — Vice President Richard M. Nixon called Thursday for a reappraisal of our policy toward Latin America, a few hours after flying home to a hero's welcome from an estimated 100,000 cheering, sign-waving spectators.

A beaming President Eisenhower, flanked by Cabinet officers, congressional leaders and dozens of diplomats, led the welcome. They saluted Nixon for courageously enduring rock-throwing riots and insults in Venezuela and Peru.

Mr. Eisenhower and Nixon in exchanging remarks at the airport both predicted the anti-American riots would bolster rather than weaken traditionally friendly ties with Latin-American countries.

Nixon met afterward for 90 minutes with Mr. Eisenhower and Secretary of State John Foster Dulles to review what he called the basic issues involved in economic troubles that have boiled up in Latin America in the past few years.

At a reception later he told newsmen who accompanied him on his trip, that relations with Latin America warrant top priority.

He said he has no plans at this time for a national radio report on Latin America.

Beaming proudly, Mr. Eisenhower greeted Nixon at the airport and confidently predicted that riots

against him in Venezuela would strengthen rather than hurt relations with Latin America.

"All America welcomes them home," said Mr. Eisenhower as he warmly greeted Nixon and his wife when they stepped off the plane which brought them from Puerto Rico, the last stop on their trip.

Nixon, seemingly flabbergasted and delighted at the big celebration to the White House waving and smiling to well-wishers along the route.

The crowd estimate was made by Wiley Buchanan, whose job as State Department protocol officer has made him something of a specialist on crowds at official ceremonies. He figured there were 15,000 at the airport and 35,000 along the route to the White House.

The sidewalk spectators, mostly Government employees excused from work, applauded steadily and jiggled "Welcome Home" signs as Nixon's automobile reached downtown Washington.

Mr. Eisenhower, realizing it was Nixon's day, sat back letting his No. 2 man smile and take the bows from crowds who clearly regarded him as a conquering hero.

At the airport, Nixon and his wife, Pat, a pink-flowered hat perched on her head, were greeted by congressional leaders of both parties, virtually the entire Cabinet, dozens of diplomats and other Government officials.

Hundreds of students from nearby colleges waved pro-Nixon signs and whooped it up as if at a football rally while two high school bands tooted along the sidelines.

## UAW May Work Minus GM Contract

DETROIT (UP) — The United Auto Workers has notified its General Motors Corp. locals to prepare to stay on the job without a contract after May 29.

Union locals confirmed receipt of the instructions from the UAW International, which refused to confirm or deny the instructions went out. There are about 100 UAW GM local unions representing 125 plant bargaining units with close to 325,000 workers at this time.

The letters back up the UAW's previous statement — by President Walter P. Reuther and Vice-President Leonard Woodcock — that it will not be forced into a strike, especially at General Motors.

General Motors notified the union April 29 that it was terminating its current 3-year contract on the May 29 expiration date. It was a move aimed at putting pressure on the union to sign a contract at the company's terms.

This left the union faced with the prospect of (1) a legal company shutdown of the plant after midnight, May 29; (2) its members working on without protection of contract at company pleasure; (3) a possible extension of the contract by mutual agreement.

The union, with 300,000 to 400,000 of its maximum membership of 1,300,000 already laid off and not paying dues, now as in the past does not relish a strike at General Motors. It could follow time-tested strategy of bringing strike threats to bear against Ford or Chrysler.

## Pakistani Plane Crashes, Takes Twenty Lives

NEW DELHI, India (AP) — A Convair plane of the Pakistan National Airways crashed and burned after a takeoff Thursday.

At least two of five Americans aboard were listed among the 20 killed. There were 38 passengers and crew aboard.

The American victims were identified by the airline as Mrs. Arthur Rude, of 260 California St., San Francisco, and Andrew Cairns who gave a Karachi, Pakistan, address. His U.S. address was not known here.

American survivors were listed as Homer Irving Huntington of White Sands, Calif., and Thomas A. Law, 65, a Huntington Park, Calif., attorney.

Mrs. Rude was travelling with her husband. His fate was not known immediately.

The company said 16 of the 32 passengers and two of the six crew members survived.

Eleven of the 18 survivors were injured severely enough to require hospital treatment, the airways said.

Most passengers were Indians and Pakistanis. The passengers included six Britons, two Germans, and a Russian family of three.

## Weather

Temperature changes today will be only slight, with the mercury ranging in the 70's and low 80's across the state.

Skies will be partly cloudy through tonight. Saturday's outlook calls for possible shower activity in the south or extreme south and continued mild readings.

## Pflimlin Asks Powers for Riot Curbing

PARIS (AP) — The hard-pressed French Government pleaded today for emergency police powers to deal with riots, chaos and rightist uprisings in behalf of Gen. Charles de Gaulle.

The Government faced a spectre of the rightist De Gaulle returning to power from bitter oblivion.

De Gaulle already has with him the mobs and military people who hold Algeria in defiance of the Paris Government.

Premier Pierre Pflimlin's two-day-old Government goes into a mid-morning session of Parliament with its appeal for a state of emergency — just short of martial law — in all continental France. The request does not include Algeria.

A cryptic bid for power from De Gaulle and quickening of the rightist revolt in Algeria forced the showdown upon Pflimlin.

He announced the decision to call for imposition of the state of emergency. It was made at a full Cabinet meeting with President Rene Coty at the Elysee Palace, the French White House, that lasted far beyond midnight Thursday.

Two Communist chiefs — whose party is excluded from the Government — made a 20-minute call at the palace while the ministers met. They were Jacques Duclos, the party's acting secretary general, and Waldeck Rochet, his top aide.

The Communists call De Gaulle a Fascist. They are among many French groups opposing his return.

The Communist newspaper L'Humanite issued a special edition appealing to France to "bar the road to De Gaulle."

Organized labor, led by Communists and Socialists, put out a flood of statements indicating union members were prepared to launch demonstrations and general strikes against reappearing of the 67-year-old fighting French hero of World War II as the Government's boss.

Pflimlin did not spell out exactly what the state of emergency would mean. It commonly means suspension of civil rights, such as freedom of speech and freedom of assembly.

The Government also will ask Parliament for special powers to maintain order, including dissolution of subversive groups. This was taken to mean militant right-wing groups, where De Gaulle finds much of his support.

# Mammoth Sputnik III Launched by Soviets

## Tank Airlift Requested By Lebanon

WASHINGTON (UP) — Riot torn Lebanon has appealed to the United States for a shipment of tanks to help put down the disturbances, it was learned Thursday.

The request was under study here. The State Department disclosed Wednesday that this country was sending small arms to the strategic Arab nations for use against anti-Western demonstrators.

These shipments did not include any major arms. However, dispatches from Beirut Thursday said Lebanon's Western-supported Government seemed to be winning the upper hand over rebellious opposition forces.

Diplomatic observers gave part of the credit to the U.S. small arms "airlift" and the dispatch of a reinforced amphibious marine task force to readiness positions in reach of Lebanon.

The Lebanese appeal for tanks was made to the U.S. embassy in Beirut last week when disturbances first began cropping up in major cities of the country. Many of the riots spilled over into attacks on U.S. Government property.

Lebanese officials explained that the tanks could be used both for anti-riot work and for coping with any aggressor that might violate the tiny country's borders. Lebanon has accused the United Arab Republic of sending in rebels to attack the Government.

There was no indication what disposition might be made of the request. But a continuing improvement in the situation inside Lebanon presumably would make granting the request less likely.

Lebanese Foreign Minister Charles Malik has charged that some 500 infiltrators from the merged Egyptian-Syrian UAR already have violated Lebanon's borders. Lebanon has not laid the charge before the United Nations however.

There were some indications the infiltrators were members of a nomadic group in southern Lebanon known as Druzes, which traditionally ignores borders.

But there also was a suspicion they might have been given military training in the United Arab Republic and slipped back into Lebanon from Syria to harass President Camille Shamoun's Government.

## Scientists Comment On Latest Sputnik

By ROGER DAHMS Staff Writer

The creation of organic matter, characteristic of that produced by living organisms, may be an experiment aboard Sputnik III.

Russia's latest satellite entry, a 3,000 pound vehicle announced Thursday morning, has been reported to contain a so-called "creation of life" experiment. The report has not been confirmed officially.

It is possible that a chemical experiment is aboard the satellite. If so, it actually may be successful, according to SUI scientists.

But don't expect the birth of a Lilliputian organism with X-ray eyes and the mental capacity of an electronic brain. That can't be.

The "creation of life" experiment is simply an attempt to create organic compounds from inorganic elements, SUI scientists believe.

But that has already been done successfully in the United States. And no little man evolved — not even a simple one-celled animal.

"Man cannot make even an amoeba," said Titus C. Evans, professor and head of the SUI Radiation Research Laboratory. "Creating an organism would not be the goal of the Russian experiment."

"If the experiment is successful, the matter would only be characteristic of living material and similar to a substance produced by living tissue," he said.

Professor Evans said the importance of the experiment to the Russians is apparently an attempt to prove that radiation had something to do with the original creation of life.

According to a copyrighted article by the New York Times News Service, a French Communist newspaper science editor, who was in Moscow in April, said the satellite would contain a mixture of elements representing the earth's pre-life atmosphere.

Using bombarding cosmic rays as a stimulus, the experiment would show whether life could be created from ammonia, methane, steam and carbonic acid, Lucien Marnier of L'Humanite said.

SUI research physicists cringed when asked if it is possible to "re-enact the creation of life."

"They feel that saying 'creation of life' is too ostentatious and is a misnomer because such experiments are not intended to create a living being, as is commonly believed."

"The reported Russian experiment is misunderstood," said Frank McDonald, assistant professor.

## Ike Trade Bill Passes First Hurdle

WASHINGTON (AP) — The Eisenhower Administration won a preliminary skirmish on the reciprocal trade bill Thursday when the House Ways and Means Committee approved a five-year extension of the program.

Critics seeking to hold the extension to two years and to win other points are expected to renew the fight on the House floor. The measure is not expected to reach the floor for another 10 days or two weeks at the earliest.

Administration forces made one major concession. They agreed to an amendment giving Congress a check on the President's tariff regulating authority.

The committee bill, in addition to giving President Eisenhower the five-year extension he asked, authorizes him to lower tariffs 25 per cent during that period in negotiating reciprocal trade concessions with other nations.

It also gives him the authority he asked to raise tariffs by 50 per cent if he deems it necessary.

The committee defeated a move to write mandatory oil and mineral quotas into the trade law. The proposal, sponsored by Rep. Frank Icard (D-Tex.), was rejected 14-10.

## Nikita Taunts West on Size Of Satellites

See New Pressure For Summit Talks

MOSCOW (AP) — The Soviet Union fired its third Sputnik into orbit Thursday, a 1½-ton, cone-shaped monster far heavier than any of the five satellites launched earlier.

In a Kremlin speech taunting U.S. science, Premier Nikita Khrushchev implied the West now must come to terms with Moscow, although the Soviet Union did not want to use Sputnik III, he said, to harm humanity or to blackmail the world.

Khrushchev appeared to be referring to the possible military implications of a rocket powerful enough to propel ponderous Sputnik III into space. It is more than twice as heavy as Sputnik II, the largest satellite launched previously.

Khrushchev told his Kremlin audience, which included visiting President Nasser of the United Arab Republic, he did not want to belittle U.S. achievements but "it would take a lot of orange-sized Sputniks to compare with ours."

"We must stop scaring each other," Khrushchev declared.

In obvious reference to an East-West summit conference, he added: "We must sit down at the same table and talk about how we can live together in peace on our common planet."

Sputnik III joins three small U.S. satellites and ends a month-long space famine for Soviet scientists. They have had no satellite aloft since Sputnik II dipped into the earth's dense lower atmosphere April 14 and burned.

Whirling about the earth once every 106 minutes at a maximum altitude of 1,168 miles, Sputnik III should be visible to the unaided eye in the rays of the rising and setting sun, according to an official announcement by Tass, the Soviet news agency.

The rocket that sent it aloft also went into orbit close behind and presumably also will be visible. No information was given on the rocket's size, but it must have been a big one. Tass said nothing about a living passenger on Sputnik III. Sputnik II carried Laika, the dog.

The official statistics on Sputnik III are: Gross weight 2,925.53 pounds; instrument weight 2,133 pounds; length 11 feet 8½ inches; diameter at base 5 feet 8 inches, angle of orbit 65 degrees from the equator.

The weight compares with 1,120 pounds reported for cone-shaped Sputnik II, 184 pounds for spherical Sputnik I, and 81 pounds for Explorer III, heaviest of the U.S. satellites.

Nothing was said about the closest approach to the earth or the possible life span of Sputnik III.

## The Alchemist — O Rare Ben Jonson

— O Rare Barry Fuller  
By HENRI COULLETTE  
Guest Reviewer

To those who think of Ben Jonson as a Latinist squatting in Shakespeare's shadow, I want to recommend the University Theatre's production of The Alchemist. Jonson writes comedy as though he had invented it, as though he were the first to perceive the disparity between the world and the individual's vision of it. He can make the simplest of theatrical devices invoke that disparity, the supplest blank verse describe it.

Even the best of comedies needs, of course, a talented crew of actors. Last night the players of the University Theatre made up just such a crew with Barry Fuller as coxswain. Fuller's performance makes it impossible to list this production with what has usually been the product of our campus theatre, a play with a weak lead and a strong supporting cast. He moves about the stage with grace and authority. He is an actor in love with his author and his audience.

Ruth Farstrup, who gave such a memorable performance in The Sea Gull, brings gusto and imagination to her characterization of Dol Common. Arlen Dean Snyder, if a step behind Fuller and Farstrup, is more than competent in the title role. Richard Briglia, Andrew Doe, Robert Baker contributed to the comedy. Robert Bostrom as Sir Epicure Mammon was excellent before intermission, weak after it. Rod Bladel was hampered by his youthful appearance, but his Ananias was well acted.

There were two noticeably weak moments. The speeches during the opening fight scene were unintelligible. Considering the action, the difficulty is understandable, but too much essential information is in those lines to be lost. Again, the moments during which Sir Epicure woo's Dol are dull, and I'm afraid the dullness must be attributed to the knight.

The production is directed by David Schaal, and he deserves credit for the excellent pace and the imaginative and delightfully bawdy stage business. Thaddeus Torp's set seems appropriate: the costumes by Margaret Hall are adequate.

One of the chief contributions a university theatre can make is the presentation of such great plays of the past as are not likely to be seen on the professional stage. I hope not too many seasons pass before the SUI Theatre again reminds us of Jonson's greatness.

## Starkweather Claims Caril Shot Two

LINCOLN (AP) — Charles Starkweather testified Thursday his 14-year-old girl friend shot down one of 10 persons slain during their January murder tour.

In a letter also introduced Thursday, Starkweather termed Caril Ann Fugate the most "trigger happy person I ever seen."

Called as a witness in his own defense, the stubby, red-haired teenager related in low tones that Caril Fugate shot Carol King.

Starkweather and Caril Fugate both are charged with first degree murder in the fatal shooting Jan. 27 of Robert Jensen, 17, Bennet high school student.

Jensen and Miss King, 16, had stopped on a country road near Bennet to offer help to Starkweather and his girl friend after their car became stuck.

The letter said Caril Fugate shot Miss King and also related how Caril pumped bullets into Merle Collison, Great Falls, Mont., salesman and last of the string of slaying victims, after Starkweather had shot Collison initially.

## Fraternity 'Kon Tiki' Floats Complete With St. Bernard

By JOE PENNE Staff Writer

Looking like a fraternity boy's version of Huck Finn's raft, a barge built by the Phi Delta Theta fraternity has attracted more attention on the Iowa River around Park Bridge than the new fanned inboards or canoes with tanned coeds.

The 10 x 16-foot barge complete with a St. Bernard dog, floats up and down the river behind the Phi Delta house 729 N. Dubuque St., and provides a spot for sun bathing, partying and swimming.

The barge, which cost \$64, was financed from fines collected in the house. Terry Loesch, AI, Spencer, claims that it is "the best investment made by the fraternity."

The barge, named Bette Mae and constructed by "Crazy Craft, Ltd.," was designed by Jim Collins, E3, Rock Island, Ill., but the idea was instigated by Gary Eschman, A3, Marion.

It is made of 12-inch planks screwed into a 2 x 4 frame mounted on 10 oil drums and is powered by as many fraternity brothers with poles as can pile on.

The Bette Mae was first launched about three weeks ago but it

## Mystery Missile Fired From Cape Canaveral

CAPE CANAVERAL, Fla. (UP) — A flame-trailing missile roared up from Cape Canaveral Thursday, but apparently it was highly secret and the air force did not identify it.

It left a cloud of smoke hovering over the launching area and disappeared, making a slow climb over the ocean. The missile headed southeastward accompanied by two jet planes.

The Air Force said only that "a missile was launched."

## UAW May Work Minus GM Contract

DETROIT (UP) — The United Auto Workers has notified its General Motors Corp. locals to prepare to stay on the job without a contract after May 29.

Union locals confirmed receipt of the instructions from the UAW International, which refused to confirm or deny the instructions went out. There are about 100 UAW GM local unions representing 125 plant bargaining units with close to 325,000 workers at this time.

The letters back up the UAW's previous statement — by President Walter P. Reuther and Vice-President Leonard Woodcock — that it will not be forced into a strike, especially at General Motors.

General Motors notified the union April 29 that it was terminating its current 3-year contract on the May 29 expiration date. It was a move aimed at putting pressure on the union to sign a contract at the company's terms.

This left the union faced with the prospect of (1) a legal company shutdown of the plant after midnight, May 29; (2) its members working on without protection of contract at company pleasure; (3) a possible extension of the contract by mutual agreement.

The union, with 300,000 to 400,000 of its maximum membership of 1,300,000 already laid off and not paying dues, now as in the past does not relish a strike at General Motors. It could follow time-tested strategy of bringing strike threats to bear against Ford or Chrysler.

You Can Carry Water to an Elephant—But ...

Kira Features Syndicate

Only Actions Can Talk

As we Americans "stagger from crisis to crisis," we occasionally hit upon one difficult to comment upon meaningfully. Such an issue is juvenile delinquency.

The problem will never be solved by the intellectual search for general solutions, though this is helpful. As Justice Holmes once pointed out "generalities almost never apply to specific cases."

Final Slants—

Every year, spring brings a spirit to the world, a rejuvenating freshness that is always the same, yet new.

Says 'Misrepresentation' Is Charitable

TO THE EDITOR: It seems to me that, in terming the conduct of the Administration in regard to the rent increase issue as "misrepresentation,"

Representatives of the Married Student's organization have been repeatedly told that their attitude has indicated a certain lack of trust, a lack of trust in the assertion that the Administration and the Board of Regents were acting in the best interest of all parties concerned.

I would like to ask one question of the Administration which operates this University "just like any other big business"; is it "good business" to support one's action with deliberate "misrepresentations"?

WSUI Schedule

- WSUI — IOWA CITY 910 k/c Friday, May 16, 1958 8:00 Morning Chapel 8:15 News 8:30 Recent American History

When I see someone blocking a suit, or locking himself in his hand or on the board, I am always reminded of one of H. T. Webster's delightful cartoons, concerning the man who painted the floor of a room and left himself no exit, ending in a corner instead of the door.

Suppose the contract is 3NT and West, your partner, leads the queen of hearts. Your hand is: S—xxx; H—Kx; D—Jxx; C—QJxxx; while the dummy has: S—QJxx; H—xxx; D—Axx; C—Kxx.

Notice that if East fails to unblock, South makes his contract. He wins the first trick and knocks out the ace of spades. West continues hearts, won by East's king; but East has no more hearts, and West has no entries to regain the lead and run the established hearts.

Similar situations obtain when partner leads the king and you hold the ace doubleton, or when the lead is the jack and you have the queen doubleton. In each case you should unblock. All this is assuming that the board has no potential stopper in the suit.

When a young pike's fancy... SPIRIT LAKE — The strange death of two walleyed pike, one weighing more than seven pounds, in Big Spirit Lake was told Thursday by state biologists.

General Notices

General Notices must be received at The Daily Iowan office, Room 201, Communications Center, by 8 a.m. for publication the following morning. They must be typed on legibly written and signed; they will not be accepted by telephone.

HOMEcoming — There will be a meeting of all of the members of the Homecoming Committee on Friday, May 16, 1958 at 7 p.m. in the Board Room of Old Capitol Building.

FACULTY RECOGNITION DINNER — Tuesday, May 20, 6:30 p.m., Iowa Memorial Union Lounge. All full-time teaching and research staff are invited to attend this dinner honoring retiring staff members.

THE UNIVERSITY COOPERATIVE BABY-SITTING LEAGUE book will be in the charge of Mrs. Charles Schermerhorn from May 13 to May 27. Telephone her at 84240 if a sitter or information about joining the group is desired.

INTERVIEWS WILL be held this week for students interested in the position of executive secretary to the Student Council. Students with partially free afternoons are eligible and are asked to call the Student Council Office, extension 2350 for an appointment.

PLAINTIFFS for students, staff and faculty and their spouses at the Fieldhouse each Tuesday and Friday night from 7:30 to 9:30 p.m. Admission will be by faculty, staff or student I.D. Card.

RED CROSS INSTRUCTORS Course in Life Saving and Water Safety is open to men 18 years of age and over. Prerequisite: Senior Life Saving Certificate.

SCHOLARSHIP APPLICATIONS — Undergraduate students interested in obtaining information about scholarships for the 1958-59 school year are advised to check with the Office of Student Affairs.

WOMEN'S GYM — There will be recreational swimming at the Women's Gymnasium on Monday, Tuesday, Thursday and Friday from 4:15 to 5:15. All women students, staff, and faculty members are invited.

YWCA BABY SITTING — A baby-sitting service to the residents of Iowa City is being offered by the Personal Service committee of the Y.W.C.A. Call x2240 to make arrangements for transportation and price.

PENGUINS SWIMMING CLUB for University women will meet on Wednesdays from 4:15 to 5:15 until the end of the school year.

# Power Line Wraps Bus; Two Killed

DENISON, Tex. (UP) — A Greyhound bus, crashing out of control down a 20-foot bank, hit a 2,400-volt power line Thursday and became a crackling death trap that killed a mother and her baby and probably would have killed 17 other persons if they had budged from their seats.

Some of the passengers watched the mother, Mrs. Shirley Smith, 23, of Fort Worth, Tex., die in a cascade of blue sparks when she stepped out of the bus to rescue her daughter, Melanie Jane, 18 months old.

Melanie Jane had bounced across the plunging bus and fallen through a hole in its side. The passengers then had to watch helplessly for five minutes while Melanie Jane crawled across the rain-soaked ground to see what had happened to her mother.

She touched the frame of the bus, and, like her mother, was killed instantly.

The 16 passengers and driver stayed in their seats for 40 minutes until electricians cut the high tension lines and they could safely climb out.

Two other passengers were injured. They were C. E. Morgette, 69, of Kermit, Tex., whose leg and chest injuries were complicated by heart trouble. His condition was critical.

Mrs. Frank C. Trevino of Chicago was slightly injured and expected to be discharged soon from a Denison hospital.

The accident happened in a rainstorm north of Denison. Driver James A. Stowe, 37, of Tulsa, Okla., lost control of the Dallas-to-Minneapolis bound bus.

It skidded across the road, smashed against a dead tree, which it broke off, and then hit a pole supporting the high tension lines. The bus broke the pole and a live wire dangled across the metal top of the bus.

"It sounded like the wheels on our side of the bus were off the pavement," Mrs. Trevino said. There was a noise and a jolt. Immediately following that (there was) a ripping bump and the bus halted.

"My seat and my husband's seat were pushed over across the aisle and there was a gaping hole in the bus just behind us. I remember the driver telling everyone to sit still and not move a muscle. He said there were live wires around us."

Highway Patrolman W. J. Morris said Stowe probably saved the lives of the other passengers by telling them not to move. Stowe tested the frame of the bus for electricity with an insulated tool.

In retrospect, Stowe refused to speculate on the chances of his and his passengers' surviving if they had moved.

"The wires were across the top

## School Teacher Will Be Taken Back to Illinois

KEOKUK (AP) — Extradition of an Illinois school teacher to Elgin, Ill., was granted by District Judge J. R. Leary Thursday.

The teacher, Corydon Thomas, is charged with taking indecent liberties with a 14-year-old boy.

Thomas contends he was not in Illinois at the time the alleged offense occurred. He is a teacher and librarian at a school near Elgin, authorities said.

Notice of intent to sue has been filed by Thomas and his mother against William Spencer and Robert Bales, criminal investigators from Illinois, and James Tighe of the Iowa Bureau of Criminal Investigation.

They seek \$15,000 damages, charging the officers with malicious prosecution and illegal search.

## WE'LL PUT YOUR NAME UP HIGH IN THE SKY!

When You Join the WHBF-TV CHANNEL 4 "1000 FT. CLUB"

It's Free! It's Fun! Open to Everyone!

Your opinion ranks high at WHBF-TV — so high that we'd like to place your name on top of our new 1000 ft. TV tower as a sign of our appreciation for your comments about our new, clearer television picture.

Sunday, May 18, at 12 o'clock noon, our new 1000 ft. tower and maximum power transmitter located at Orion, Illinois, officially goes on the air. Our engineers are anxious to have your honest opinion as to the kind of home reception you get from these new WHBF-TV facilities. For your help you will become a member of Channel 4's "1000 Ft. Club" and receive an official membership certificate suitable for framing. Also your name will be placed in a special container on top of the new WHBF-TV 1000 ft. tower.

Tune in Channel 4, Sunday May 18, 12 o'clock noon for a special 1000-foot Club program.

HERE'S HOW YOU JOIN

- Tune in Channel 4 on Sunday, May 18, at 12 o'clock noon. A special program and top Hollywood movie will be featured. This program will mark the official switch-over to the new 1000 ft. tower. On Sunday May 18, and everyday thereafter, WHBF-TV will transmit from its new facilities at Orion, Illinois.
- Fill out the handy coupon below or write us a postcard stating your opinion as to the kind of home reception you get from the new WHBF-TV facilities. Please mail before midnight, May 31, 1958.
- Upon receipt of your card, we will send you an official "1000 Ft. Club" membership certificate. Also your card will be micro-filmed and placed in a special container at the top of the new WHBF-TV 1000 ft. tower.
- Keep tuned to Channel 4 for complete details.

THIS WINNING SMILE flashed by Dorothy Kynett, 6 E. Court St., helped her to capture the Sweetheart of Alpha Tau Omega title at the fraternity's spring formal recently. She is employed by University Hospitals.

## Eight Spring Parties Highlight SUI Good Weekend Social Activities

By DONNA BLAUFUSS  
Society Editor

SUI students may need tranquilizers and no-dozes in two weeks, but this weekend it's party, party, party!

Veiled women and a rebirth of ancient dynasties will invade the ACACIA house tonight between 8 p.m. and midnight when they hold their "Night on the Nile" costume party.

From pyramids to roses go the themes as the ALPHA XI DELTA house will be bedecked tonight for their annual spring formal, entitled "Fountain of Roses." Leo Cortiniglia and his band will play at the house from 9 p.m. to midnight after a 6:30 p.m. dinner at Curt Vocum's.

Continuing the weekend's festivities, the Alpha Xi's will be hostesses Sunday night at a 6 p.m. bar-b-que for members of Delta Upsilon. The informal dinner will be followed by dancing and bridge.

"Just Spring" is the theme of the KAPPA KAPPA GAMMA spring formal tonight at the Mayflower. Dinner will be served at 7 p.m., to be followed by dancing at 1 a.m. to the music of James Wilke and his band.

The DELTA CHI house will be transformed into "Chez Playboy" tonight from 9 to 12 p.m. The temporary night club is being planned in conjunction with Playboy Magazine and decorations will include

features and articles from the magazine. Dinner at the Ox Yoke Inn in Amara will precede the dance. Bob Watson and his quintet will play and the Old Gold Singers will provide the entertainment during the intermission. Highlighting the evening will be the selection of a "Delta Chi Playmate."

Good Ole Saturday night has not been slighted in the party plans either.

Outer space enters the campus atmosphere Saturday night as the CHI OMEGA spring formal, "Starfire," unfolds its stratigraphic theme at the airport in Cedar Rapids. Bob Watson will play at the dinner-dance from 8 to 12 p.m.

From modern space science to fantasy land we move as the members of ALPHA CHI OMEGA present their formal "Over the Rainbow" Saturday from 9 p.m. to midnight. Decorations have become a major project for this week, as the walls have been repapered in light blue and the theme will be completed with a gold pot at the end of the colorful rainbow.

"A Breath of Spring," hopefully a cool one, will surround members of ZETA TAU ALPHA and their dates Saturday at their annual spring formal at the Sheraton-Montrose hotel in Cedar Rapids. After dinner, the couples will dance from 9 to 12 p.m. to the music of Gary Behm and his band.

PIH KAPPA will dance at their formal Saturday night at the Knights of Columbus Hall. Dinner will be served at Bill Zuber's in Amara before the dance. Music will be provided by Joe Glattly.

## Public Opinion Lecture by Persons Set

Judy Klemesrud

SUI's beauty representative for the College Beauty Queens Contest, is Judy Klemesrud, Al. Thompson, a member of Zeta Tau Alpha sorority and a journalism major. The contest is sponsored by the makers of Campana and Solitair make-up and the three regional winners will appear in their advertisements of June, 1958. These finalists will be chosen from the 78 United States colleges represented by a group of judges.

### THE ULTIMATE SIGN

WASHINGTON (UP) — One placard stood out today among the many signs welcoming vice-president Richard M. Nixon home: "Sticks and stones may not break your bones, Nixon — but the Democrats will."

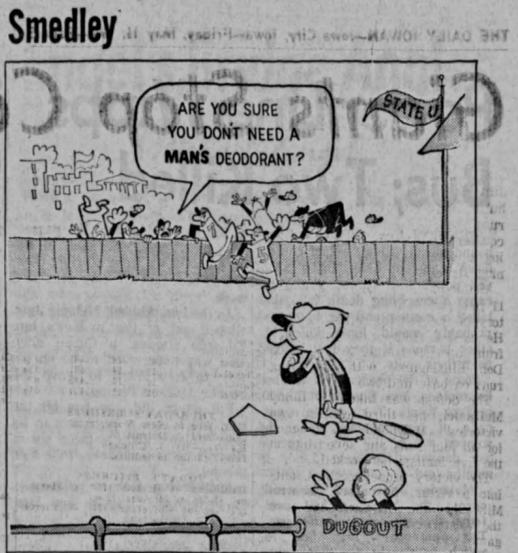

Prof. Stow Persons of the SUI History Department will speak on "Public Opinion: A Democratic Dilemma" in a Humanities Society lecture Monday at 8 p.m. in the Senate Chamber of Old Capitol.

Interest in the study of public opinion, says Professor Persons, appeared in the U.S. only in the 20th century. In his speech, he will trace the historical circumstances out of which this interest arose, and he will analyze the major forms of discussion of the theory of public opinion as an issue of political philosophy.

Professor Persons edited and also contributed to "Evolutionary Thought in America" published by the Yale University Press, and he was co-editor of "Socialism and American Life." His latest work, "American Minds," a general history of American thought, will be published next week by Henry Holt and Company.

Professor Persons received his B.A. and Ph.D. degrees from Yale and was assistant professor of History at Princeton before coming to SUI in 1950.

Among the awards Professor Persons has received are the Helena P. Bulkeley fellowship in American history, the John Addison Porter prize in American history and the Willis Tew prize in history.

## FCC Charged With Unfair TV Grants

WASHINGTON (UP) — House investigators charged Thursday the FCC permitted fat profits and "back door" transfers in granting TV channels.

The charges were contained in a report laid before a House Commerce subcommittee investigating Federal regulatory agencies by its staff investigators.

The report accused the FCC of setting tough standards for granting of TV licenses and then making it easy for the successful applicants to sell their TV interests at a fat profit to unsuccessful applicants.

The subcommittee placed in the record 18 "representative" TV controversies. Chairman Oren Harris (D-Ark.) said they illustrated "many of the interesting things" the subcommittee is investigating.

He said the group would begin looking into some of them next Tuesday, starting with fast transfer cases involving channel 7 in Denver, Colo., and channels 11 and 2 at St. Louis, Mo.

All involve the fast transfer of TV licenses or the "buying off" of rival applicants.

Staff Investigator Robert S. McMahon told the subcommittee the "back door of transfer" often had worked like this.

Applicants appear before the FCC at lengthy hearings. The FCC finally grants a license to the applicant it considers most qualified under tough competitive standards.

The successful applicant then sells his station's assets, including the all-important license, to one of the unsuccessful applicants. The FCC approves such transfers at routine hearings at which only minimum standards are required.

Chief Committee Counsel Robert Lishman said the report indicated "there is serious doubt as to whether there is any consistency" in FCC decisions.

McMahon said "stations have been sold for large sums of money where actual operations has barely begun and where indications were that the buyer was basically purchasing a channel allocation since the seller had little else to sell."

In the Denver channel 7 case, he said, Aladdin Radio and Television Inc. sold out to LTF Broadcasting Corp., a wholly-owned subsidiary of Time, Inc.

He said the estimated cost of construction of the station at the time of sale was \$336,285 but Aladdin was expected to receive about \$2,901,372 in excess of the net book value of its stock.

Besides Denver channel 7 and St. Louis channel 11, the 18 cases cited by McMahon included:

Channel 10, Sacramento, Calif.; channel 5, Boston; channel 3, Hartford, Conn.; channel 13, Indianapolis, Ind.; channel 7, Miami, Fla.; channel 12, Jacksonville, Fla.; channel 8, Tampa, Fla.; channel 7, Seattle, Wash.

Channel 3, Madison, Wis.; channel 10, Knoxville, Tenn.; channel 10, Norfolk, Va.; channel 4, New Orleans, La.; channel 12, Wilmington, Del.; channel 12, Providence, R. I.; channel 9, Minneapolis, Minn., and channel 15, Fort Wayne, Ind.

### NAME AF HEAD

WIESBADEN, Germany (UP) — Col. William T. Daley, a 42-year-old command pilot, was named Thursday as Chief of Staff of the U.S. Air Force in Europe. Daley, of Eureka, Calif., has been Executive Officer at air force headquarters here.

## Sixth Annual Conference on Labor-Management Saturday

A 9:30 a.m. to 4:30 p.m. study Saturday of arbitration as an instrument of industrial peace is expected to bring some 50 men from labor, management and government to SUI.

It is the sixth annual Conference on Labor-Management Relations. The day's schedule will proceed from a keynoting address "Some Reasons for Increases in Labor Arbitration," to a concluding discussion of a demonstration of an arbitration hearing.

George Strong, general counsel and arbitration division head, Federal Mediation and Conciliation Service, Washington, D.C., will keynote the conference.

Clarence M. Updegraff, SUI professor of Law, will serve as arbitrator in the demonstration hearing. Burton H. Foster, Chicago, SUI College of Commerce alumnus and now an international representative for the United Automobile Workers, will act as the labor attorney. Robert H. Foster, Milwaukee, industrial relations counsel for Allis-Chalmers Corp., will serve as attorney for management.

Members of Updegraff's class in Labor Arbitration will act as witnesses in the mock dispute referred to a disinterested third party, the arbitrator.

They include Michael Marks, L1, Bettendorf; Lloyd Courter, L2, and Donald Diehl, L1, Boone; Stuart Smith, Burlington; Samuel Carpenter, L3, Centerville; William H. Teter, L3, Des Moines; Robert Lego, L2, Iowa City; F. J. O'Rourke, L2, Marshalltown; Philip T. Saunders, L2, Mason City; George Mariner, L2, Oelwein; and Neil J. Nutting, L2, Waterloo.

Joseph S. Murphy, New York City, vice-president of the American Arbitration Association, will speak on "Implications of the Growing Reliance on Arbitration in Dispute Settlement." He will also speak on "Selecting the Arbitrator" at the conference luncheon in Iowa Memorial Union.

The conference is co-sponsored by the SUI Bureau of Labor and Management and the College of Law. Cooperating organizations include the Iowa Federation of Labor, Iowa Manufacturers Association, American Society for Personnel Administration, American Arbitration Association, Cedar Rapids Personnel Bureau, Marshalltown Industrial Bureau, and Northeast Iowa Industrial Management Club.

## Theon Heads Dental Group

Dr. Erling Theon, SUI professor of Dental Technology, College of Dentistry, was elected chairman of the Iowa section of the American College of Dentists recently.

The dental professor, a member of the SUI dental faculty since 1915, is a past national president of Omicron Kappa Upsilon, national honor society in dentistry. Others named to offices of the Iowa section of the ACD are Dr. Karry G. Bolks, Sioux City, vice-chairman, and Dr. Leslie M. Fitzgerald, Dubuque, secretary-treasurer.

The American College of Dentists was organized in 1920 to elevate the standards of the dental profession and increase public appreciation for its services.

# Giants Stop Cards

ST. LOUIS (AP) — Willie Mays and Jim King backed up young bonus hurler Mike McCormick with home runs Thursday as the San Francisco Giants topped St. Louis 4-2, ending a seven-game Red Bird winning streak.

McCormick, 19, was tagged for 11 hits but notched his third victory of the season without a loss. He needed ninth-inning relief help from Jim Constable who fanned Don Blasingame with the tying runs on base and two out.

The defeat was taken by Lindy McDaniel, his third against two victories. McDaniel was touched for all four runs and seven hits in the five innings he worked.

The victory propelled the Giants into a virtual first-place tie with Milwaukee and Pittsburgh and gave the Westerners a split of the two-game series.

Stan Musial went hitless in four trips. San Francisco ... 120 010 000—4 9 1 St. Louis ... 000 110 000—2 11 0 McCormick (9) and Schmidt (16) ... Mabe (16), Paine (8) and H. Smith (7) ... McCormick, L. McDaniel.

## Pirates' Streak Ends

PITTSBURGH (AP) — George Crowe's third homer of the year with a mate abroad in the eighth powered the Cincinnati Redlegs to a 9-4 victory over Pittsburgh Thursday, halting the Pirates' winning streak at six games.

The Redlegs jumped off to a 3-0 lead in the first inning, lathering starter Bob Friend for a walk, a fielder's choice and four singles — three of them back-to-back. Crowe's homer provided two more in the eighth and four runs crossed the plate in the ninth.

Friend, tagged for three runs in the first inning, settled down and blanked the Redlegs the next six innings on two hits.

Cincinnati ... 300 000 024—9 14 0 Pittsburgh ... 010 2 0 100—4 11 0 Haddix, Klippstein (4), Jeffcoat (8) and Burgess, Bailey (8); Friend (9), and Folles, Kravitz (9), W — Klippstein, L — Friend.

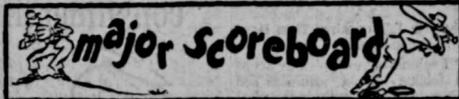

## Dodgers Finally Win

CHICAGO (AP) — Los Angeles' Clem Labine won his first start since Sept. 29, 1956, Thursday as the Dodgers broke a 2-2 tie in the 11th against a shaky Chicago defense and ended a six-game losing streak with a 4-2 victory over the Cubs.

Labine scattered seven hits in a masterful performance before he left in the 11th for pinch-hitter Duke Snider whose walk blossomed into the Dodgers' decisive run.

Norm Larker grounded to second sacker Bobby Adams and Joe Pignatano, running for Snider, scored when Adams' throw to the plate was too late. Pinch-hitter Carl Furillo's sacrifice fly scored Gilliam with an insurance run.

Los Angeles ... 020 000 000—4 9 2 Chicago ... 010 000 001 00—2 8 1 Labine, Roebuck (11) and Roseboro; Drott, Freeman (9), Mayer (11), Elston (11) and S. Taylor, W — Labine, L — Freeman.

## Indians 8, Tigers 5

DETROIT (AP) — Outfielder Roger Maris hit his fourth home run in three games and drove in two other runs with a double Thursday, leading the Cleveland Indians to a 8-5 triumph over the Detroit Tigers.

His clout Thursday gave the Indians the edge they needed as Cal Harris, Frank Bollin and pitcher Lou Sleater all hit home runs for the Tigers. Minnie Minoso hit a two-run Cleveland homer in the ninth.

Trying to capture the deciding game in the three-contest series, the Tigers used six pitchers with Paul Foytack, who finished, making his fourth appearance in six days.

Cleveland ... 002 211 002—8 9 2 Detroit ... 000 220 100—5 8 1 Narleski, Mossi (5) and Brown; Hoett, Shaw (3), Sleater (5), Morrison (6), Aguirre (7), Foytack (9) and Hegon, Lutz (6), Wilson (9), W — Mossi, L — Hoett.

## Garver Shuts Out Sox

KANSAS CITY (AP) — Ned Garver's shutout pitching and Vic Power's line blast over the left fence gave Kansas City a potent one-two punch Thursday and the Athletics defeated the Chicago White Sox 3-0.

Garver, who won his fourth game of the season, was hooked up in a scoreless duel with right-hander Jim Wilson until Power came up in the sixth inning with two out and Mike Baxes and Hector Lopez on base with singles. He poked one of Wilson's softball curves into a pole back of the left field fence and that was all the help Garver needed. The Kansas City right-hander allowed the Sox only seven hits.

Chicago ... 000 000 000—0 7 1 Kansas City ... 000 003 000—3 7 0 Wilson, Quatters (7) and Lollar; Garver and House, L — Wilson.

## Olympics Consider Dropping Sports With Pro Aspects

TOKYO (AP) — Avery Brundage, president of the International Olympic Committee (IOC), warned Thursday certain sports may be dropped from the program because of professional aspects.

The bespectacled Chicago sportsman mentioned only one sport under scrutiny, water polo. But he indicated that others which are stepping stones to professionalism also may get the knife.

It's known that the IOC executive has taken a dim view of such sports as ice hockey, which uses professional players; boxing and basketball, whose performers have made the sports their careers.

He announced programs for both the 1960 winter games at Squaw Valley, Calif., and the summer games at Rome. The programs showed evidences of an attempt to streamline the games.

Brundage said Wednesday the Olympics were getting too big and expensive.

The winter games will include Alpine and Nordic skiing, figure and speed skating, ice hockey, and an event calling for a 20-kilometer cross country ski race and shooting. Bobsledding has been dropped from the program for insufficient interest.

Changes were made in the order of events in the summer games at Rome. Swimming will be held the first week, with track and field the second week.

In the past track and field, the feature of the games, has been held at the start of the Olympics, with the rest of the program anti-climatic.

Another decision was that one medal will be awarded to gymnastics teams instead of medals to each member of teams. In the new setup, the individual team members will receive diplomas.

# Hurlers Keep Yanks Rolling In American

NEW YORK (AP) — They're no longer calling the New York Yankees the Bronx Bombers ... it's now Stengel's Sharpshooters.

That's because while the Yankee has suddenly gone into a deep freeze the pitching has become hot.

The opposition is finding it more difficult to score against the Yankees than did the Confederates. All of a sudden, the Yankee hit corps has become a Walter Johnson and Lefty Grove rolled into one.

ONLY 20 GAMES have been played but the Yankees already have turned in six shutouts. Baltimore's Orioles have been their chief victim. They haven't scored in the past 27 innings against the Yankees. Thursday's rain, which wiped out the finale of the three-game series, may have been a blessing to Baltimore.

The canniest marksman of them all has been Bob Turley, the former scatter-gun member of the Yankee firing line. Still using his aim-from-the-hip delivery, no wind-up Bob has knocked off the opposition in all five starts, going the route each time. His three blanking all have been against the Orioles. His earned run average for the first 45 innings is 1.00.

NEXT COMES Don Larsen, of perfect game fame. The erratic right-hander, also an advocate of no windup, has dropped three straight opponents without even a return fire. In 23 innings the enemy has yet to tally one.

Bobbie Shantz, the left-handed specialist, also has turned back three rivals without a setback although his era is a slightly imperfect 2.35. Whitey Ford, the ace of the staff, has only a fair 2-2 won-lost mark but he has held the opposition to a 1.64 earned run production.

Only Tom Sturdivant and Johnny Kucks, among all of Stengel's sharpshooters, have been slightly less than spectacular on the hill. Sturdivant, with a 1-1 record, has been clipped for 10 runs in 13 innings, while Kucks, also 1-1, has been touched for seven runs in 18 innings.

## Powell Named Athlete Of Year at Iowa State

AMES (AP) — Frank Powell of Omaha, captain of the undefeated Iowa State College wrestling team, was named Athlete of the Year in the opening ceremonies of the Velshea program Thursday night.

Powell, a senior, was selected by a vote of the student body from a list of 24 men who had been named Athlete of the Week during the year. In the last three years Powell won three varsity letters in wrestling and two in football. He won two Big Eight Conference championships in wrestling.

# Iowa Faces Gophers In Big 10 Baseball

Iowa's baseball team will try to move out of a ninth place tie in the Big Ten race today against third place Minnesota in the first of a 3-game series at Minneapolis.

The Gophers have a 5-3 mark in conference play and are a half-game behind the league leaders, Michigan State and Ohio State. Iowa has a 3-6 mark and is tied with Indiana for ninth.

Not only will Iowa have a chance to move up in the standings, but the Hawkeyes can knock the Gophers out of the title race as they did a year ago. The Gophers must win at least two of three if they expect to stay in title contention.

Iowa is expected to start sophomore Roger Ruden on the mound against the Gophers. Ruden has a 2-1 conference mark, allowing 13 runs and 29 hits in 20 innings.

Ruden will be facing the second best hitting team in the conference. The Gophers are hitting a robust .301 and lead the conference in home runs with 10, and extra base hits with 30.

Iowa, on the other hand, is the Big Ten's weakest hitting team. The Hawkeyes are hitting at a .211 clip and have failed to hit a home run in nine games.

Minnesota has the league's leading pitcher in third baseman Jack McCarten who has a .483 mark and two home runs. Kevin Furlong leads the Iowa hitters in conference play with a .294 mark, and is followed by Don Peden (.235) and Dick Weatherly (.222).

In Saturday's twin-bill, Iowa will start captain Jack Nora and Ron Drennan against the Gophers. The Hawkeyes wind up Big Ten play next weekend at home with a single

## Action Continues In Davis Matches

LONDON (AP) — Britain, Italy and Denmark, three strong contenders for the European zone Davis Cup title, took 2-0 leads over their opponents Thursday in second-round matches of the worldwide tennis competition.

Poland led Switzerland, 1-0, before rain halted play at Lausanne and France and Chile were tied 1-1 at Paris as teams battled for quarter-final berths.

Meanwhile, the powerful United States squad, which regularly enters the challenge round against Australia, was in riot-swept Caracas for an opening American zone match against Venezuela, starting Friday.

Perry Jones, the U.S. captain, left New York by plane to join his team members—Ham Richardson, Barry MacKay and Bill Quillian, who already are on the scene.

# Light into that Live Modern flavor

Smokes cleaner  
Tastes best

PUFF BY PUFF L&M FILTERS TODAY'S L&M GIVES YOU...

They said it couldn't be done ... a cigarette with such an improved filter ... with such exciting taste. But L&M did it!  
L&M's patented filtering process electrostatically places extra filtering fibers crosswise to the stream of smoke ... enabling today's L&M to give you — puff by puff — less tars in the smoke than ever before. Yet L&M draws easy ... delivering you the clean rich taste of the Southland's finest cigarette tobaccos. The best tasting smoke you'll ever find.

The beautiful Delray 2-Door Sedan, one of three budget-priced Delray models.

## Chevrolet's dollar-stretching DELRAY YOU JUST CAN'T TIE THIS BUY!

Here's surefire proof Chevrolet always knows how to give you more for your money—from longer, newer, lovelier bodies to a wider range of engines, transmissions and suspension systems. The more you look the more you'll find to like in Delray—THE LOWEST PRICED OF ALL THE LOW-PRICED CHEVROLETS!

Chevy doesn't have any "smaller" models. The big, beautiful Chevrolet Delray is just as long, just as wide, just as softly sprung on the same 117-inch wheelbase as the luxurious Bel Air models. Like every other Chevrolet, it has the extra solidity and quality of Body by Fisher. There's no stinting on optional equipment, either. You can get anything from Fuel Injection\* to Level Air\* ride, any Chevrolet transmission, any Chevrolet engine, just as you choose. Take a long, long look at this one next time you drop in at your Chevrolet dealership—because the more you demand for your money the surer it is you'll decide on Delray!

\*Optional at extra cost.

They're Full-Size Chevies  
No skimping in seat width, leg-room, wheelbase—Delray gives you every generous dimension offered by any Chevrolet.

## A COMPLETE CHOICE OF ENGINES

You can order a Delray with Chevy's top Fuel Injection V8 if you like—or get any one of the five V8's or the Blue-Flame Six!

**2**  
AUTOMATIC DRIVES  
Choice of time-proved Powerglide\* or supremely smooth Turboglide\*—the only triple-turbine drive in Chevy's field.

UNIQUE Full Coil Suspension  
Delray's standard suspension system puts a cloud-soft coil spring at each wheel, blends this with the beautiful roadability of four-link rear control arms!

and Delray is the only car in its class with the extra rigidity of an all-new Safety-Girder frame, the extra clarity of Safety Plate Glass all the way around, the extra convenience of crank-operated vent windows!

**CHEVROLET**  
Drive with care ... everywhere!

See your local authorized Chevrolet dealer for quick appraisal—prompt delivery!

# Khrushchev Pledges Help To Nasser

MOSCOW (UP) — Premier Nikita Khrushchev marked the end of Arab leader Gamal Abdel Nasser's 18-day Soviet visit Thursday with a public pledge of all the Russian help Nasser needs to unite the Arab people. He also accepted an Egyptian invitation to visit Cairo.

Khrushchev and the president of the United Arab Republic issued a joint communique expressing "deep satisfaction" with the development of close relations between their countries.

Later, Khrushchev delivered a personal toast to Nasser at a Kremlin ceremony, saying: "You have our sympathy and you will have all the necessary help."

"We want the unity and solidarity of the Arab people under your leadership, which will guarantee that the colonizers will not return to your sacred land."

"We want you to strengthen the United Arab Republic... we know from experience what liberation for foreigners means."

The joint communique announced that Khrushchev, accompanied by Soviet President Kliment Voroshilov, would visit the United Arab Republic at Nasser's invitation. No date for the trip was set.

In his toast, Khrushchev told Nasser that Russia is very much interested in Arab affairs.

"We have all the means to give you disinterested and fraternal help," he said.

He added that Russia has but one wish for the Arab world—"that the boot of no colonizers' soldier ever set foot in Egypt again."

"We want your country to grow stronger," he said. "We need only one thing — your friendship."

Nasser extended his invitation for a return visit by the Soviet officials during a speech in the great marble hall of the Supreme Soviet in the Kremlin.

Khrushchev also addressed the meeting, which was attended by 2,000 persons, including top Soviet leaders.

Nasser was greeted by a standing ovation from his audience. He congratulated Russia on the launching of Sputnik III, which he said would benefit all mankind.

Then he said his country's revolution was carried out successfully at a time when there still were 10,000 British soldiers in

Egypt. The establishment of Israel, he said, was a move to try to force the Arabs to subordinate themselves to "imperialist blocs."

He said there was only one road for Russia and the United Arab Republic — the road of cooperation.

## No Points For Faulty Equipment

DES MOINES (UP) — Iowa motorists won't be assessed any points if their cars are found to have faulty equipment during voluntary inspections, State Safety Commissioner Russell Brown said Thursday.

Annual voluntary safety checks on motor vehicles now under way or planned in many Iowa communities are "point-free," Brown said.

Generally, under the state safety department's "point system," a driver whose car is found to have faulty equipment is assessed two points.

But Brown said that faulty equipment found during the voluntary community inspection programs won't cost any points if the motorist has it repaired immediately.

## Reuther Criticizes Big Corporations

MIAMI BEACH (UP) — Auto workers boss Walter Reuther said Thursday the recession occurred because big corporations have been taking more than their share of the national income.

In a first-shaking, 77-minute speech to the Textile Workers Union of America convention, Reuther said that "the wage earners, consumers and farmers have been short-changed" in the distribution of the economic pie.

"From 1952 to 1957 corporation profits went up 79.2 per cent while the average manufacturing wages increased only 19.2 per cent," he said.

"In short, we are having a depression because the big corporations are taking a disproportionately large share of the fruits of technology."

Reuther proposed a 4-point program to be taken by the Federal Government to end the economic slump. It would include an increase of unemployment benefits, tax cuts for the low and middle income workers, reduction of some excise taxes that are hampering the movement of inventory, and a public works program to build schools, hospitals and highways.

Before Reuther took the rostrum, the 1,300 Textile Union delegates elected without opposition William Polloc of Philadelphia as president of the 225,000-member union. He will serve for two years.

Reuther, speaking without notes, said it is ironic that the nation is in an economic slump now.

"The same know-how that has made possible the H-bomb and earth satellites gives us the tools of economic abundance. For the first time we can solve poverty, hunger, ignorance and disease."

But instead, Reuther said, "The American economy is limping along in low gear with rising unemployment while the Russian economy is expanding twice as rapidly as ours was growing (before the recession)."

"The task is to get adequate leadership if we are to avert disaster. America can be equal to the necessary leadership if we try. We are failing because we are not trying."

Other SUI faculty members to make the trip include Neil B. Fisher, assistant professor of Hygiene and Preventive Medicine, and M. P. Powell, associate professor of Hygiene and Preventive Medicine. The itinerary was planned with the help of Carl V. Blomgren, public health engineer for Region 4, Iowa State Department of Health. Guides at Winterset and Council Bluffs will be Superintendent William Gordon and Chemist Myron Rew, respectively. Blomgren will explain the operation of the Griswold Water plant.

The group was to leave Iowa City this morning and stay overnight in Council Bluffs.

## Attorney Says Wessling Was Mentally Ill

DES MOINES (UP) — Gary Lee Wessling, 17, was "mentally a very sick boy" at the time of a downtown gun battle with police here, his attorney said Thursday at the opening of Wessling's trial on a charge of assault with intent to commit murder.

In his opening statement to the jury in District Court, Defense Attorney Verne Lawyer declared that Wessling had drunk "quite a little bit of beer" and had taken three capsules of a hypnotic drug before the shooting.

Wessling and another youth, Richard Craig, 19, are accused of assaulting Police Patrolman Kenneth Kline with intent to commit murder on Feb. 26. Kline was wounded and a taxicab driver, John O'Keefe, was killed during the gun battle.

County Atty. Ray Hanrahan in his opening statement said the state will show that both Wessling and Craig fired shots at Kline. He said Kline was shot in the back and added:

"I think, after you have heard all the evidence, you will agree it was with intent to kill." Hanrahan told the jury.

## SUI Items

ZOOLOGY SEMINAR will hear Gordon Marsh, professor in the SUI Department of Zoology, speak at 4:10 p.m. today in Room 204, Zoology Building. The topic of his talk will be "The Effect of Direct Current Fields on the Axial Regeneration of Dugesia Dorocephala."

UNITED LUTHERAN CHURCH WOMEN executive board will meet at 7:30 p.m. today at the church.

SIGMA DELTA CHI, men's journalism fraternity, will have its last meeting at noon today in the East Alcove of the Iowa Memorial Union cafeteria. Plans will be made for the initiation to be held Sunday. Mr. Sudhansukumar BASU, editor of the Hindustan Standard English language daily published in Calcutta, will speak to the group.

IOWA MOUNTAINEERS will have their first horseback ride of the season Saturday on the timber trail near Solon. A campfire supper will follow. Groups will leave from the Mountaineer clubhouse at 3 p.m. and members should register at Lind's Camera Shop.

NEWCOMERS CLUB will have their annual spring luncheon Saturday at Ronneburg's Restaurant in Amana. The group will meet in the Iowa Memorial Union parking lot at 1 p.m., where transportation will be provided. All student wives who are newcomers this semester may attend the event.

NEWMAN CLUB will have a box social beginning at 2:30 p.m. Sunday at City Park. Softball will be played, followed by the auctioning of the box lunches. Girls who take boxes will decorate them by 2:30 p.m., when the boxes will be picked up at South Currier and filled with lunch. Transportation will be provided from Currier at this time also.

TOWN MEN will hold a regular meeting Monday 7:00 p.m. in the East Lobby Conference Room, Iowa Memorial Union. Reports by the committee chairmen will be given. The executive council will meet at 6:30 in the Union Cafeteria.

HILLEL FOUNDATION will have regular Sabbath service tonight at 7:30 p.m. The service will be followed by refreshments and a discussion of the weekly portion title "Behar."

CONTRACTS UP NEW YORK (UP) — Signs of an upturn in construction contracts in April were noted by an official of F. W. Dodge Corp. today on the basis of partial figures now available.

George Smith, vice-president and economist of the construction news firms, said April contracts for non-residential building in the 37 states east of the Rocky Mountains were up 18 per cent over April 1957.

## Zsa Zsa Dares Congressman To Repeat Charge In Public

WASHINGTON (UP) — Actress Zsa Zsa Gabor Thursday challenged an Ohio Congressman to leave the sanctuary of the House floor and repeat his charge that she is "apparently the most expensive courtesan since Madame Pompadour."

The fiery, silver-haired beauty said she would sue the Congressman, Democratic Rep. Wayne L. Hays, if he did. Actually, Miss Gabor said, her recent troubles make her more the Marie Antoinette type.

Madame Pompadour was the mistress of King Louis XV of France. Marie Antoinette was the wife of Louis XVI. Before losing her head under the guillotine, she was said to have remarked about the French peasants starving for lack of bread: "Let them eat cake."

Hays made his statement Wednesday during House debate on the \$3,605,000,000 foreign aid bill. Under the Constitution, members of Congress cannot be sued for any statements made on the floor of Congress.

Hays noted that Miss Gabor had received an expensive fur coat and sports car from Lt. Gen. Rafael Trujillo Jr., son of the president of the Dominican Republic. The Congressman tried in vain to block further U.S. foreign aid to the Trujillo Government.

It was brought out previously that Trujillo gave actress Kim Novak an \$8,400 sports car, a \$3,500 pearl ring and \$1,500 earrings.

Today it turned out that another Hollywood figure had enjoyed the General's favor. English star Joan Collins, according to her studio, got a diamond bracelet. The studio said she wouldn't say how much it cost. Just that she received it some time ago.

Hays quoted from a telegram which he said he had received from the Dominican ambassador. He said it showed that young Trujillo received a \$50,000 monthly allowance from his father while attending

school in this country. Then Hays told his colleagues:

"I submit to you that if he keeps on fooling around with Zsa Zsa Gabor, who apparently is the most expensive courtesan since Madame Pompadour, the old man is going to have to raise the ante."

Miss Gabor, here to help open a new nightclub, challenged Hays to "come out from behind Congressional walls of immunity and repeat his statements about me."

"Let him come into the open and I will sue him for his slanderous statements," she said in a statement. "I do not believe that the halls of Congress were intended to be used to slander anyone."

There also was some difference between Miss Gabor and the Dominicans over the value of the fur coat she received from young Trujillo, an estranged husband with six children.

Miss Gabor said it was chinchilla and worth \$17,000. An aide to Trujillo had been quoted as saying it was a mink worth \$7,000 to \$8,000.

But in any case, the actress said it had caused her more trouble than Marie Antoinette had with her jewels.

At one point on her arrival in Washington Wednesday night she called it a "stinko" coat that was "going to be old in six months." A little later she said it was "the nicest gift I ever received." Then she called Trujillo one of her best friends.

Everything, including clotheslines, outhouses, and wire fences on the property was sold. Buyers are required to move the houses by July 1.

Thursday's bidding was dominated by professional house wreckers and movers although there were several young couples displaying interest in buying a house.

IOWAN RETIRES CHICAGO (UP) — Retirement of William J. Whalen, 65, native of Lansing, Iowa, as operations vice president for the Milwaukee railroad was announced Thursday.

## DM Freeway Forces Homes To Be Auctioned

DES MOINES (UP) — A day-long auction here Thursday disposed of 17 houses and several other structures in the right-of-way of the combined route of Interstate Highways 35 and 80 north of Des Moines.

The structures all are located on property the Iowa Highway Commission had bought or condemned for the new highway.

Everything, including clotheslines, outhouses, and wire fences on the property was sold. Buyers are required to move the houses by July 1.

Thursday's bidding was dominated by professional house wreckers and movers although there were several young couples displaying interest in buying a house.

QUADRUPLET CALVES Born in Michigan MUNSING, Mich. (UP) — The birth of quadruplet calves, described as a two-million-in-one rarity, occurred on an upper peninsula farm near here Wednesday. The first-calf mother was bred through artificial insemination.

John Campana, Michigan State University agricultural agent, said the two bulls and two heifers born weighed 173 pounds.

"This happens maybe once or twice a year in the United States," he said. "But it's the first time I know of that it happened as a result of artificial breeding."

## Walton Head Of Lawyers

Robert Walton, L2, Rock Island, Ill., will be installed as justice of the SUI chapter of Phi Alpha Delta, professional legal fraternity, in ceremonies Saturday evening.

Celebration of the chapter's founding 50 years ago will begin at a banquet for active members and alumni in this area at 6 p.m. Saturday at Hotel Jefferson. Walton will confer honorary membership in Phi Alpha Delta on Judge Henry N. Graven, Greene, U.S. District Court for the Northern District of Iowa.

Other officers to be installed Saturday evening are Boyce Nelson, L2, Ringsted, vice-justice; James Molloy, L2, Independence, clerk; Sheldon Rosenfeld, L2, Des Moines, treasurer; Donald Dietl, L2, Boone, marshal, and Jay Honohan, L1, Boone, representative to the Iowa Law Students Association.

The new officers will be installed by Attorney Robert Jackson, Des Moines, past national supreme justice of Phi Alpha Delta.

Ira E. Delk, L3, Des Moines, is the outgoing president of the SUI chapter. James Havercamp, L3, Davenport, is chairman of arrangements for the banquet.

## SUI Engineering Students Visiting Waterworks Plants

Waterworks of Winterset, Griswold, Council Bluffs, and Omaha, plus the Omaha sewage treatment plant, will be visited today and Saturday by eighteen SUI students and three faculty members of the College of Engineering.

This year the annual sanitary engineering inspection trip is to Southwestern Iowa area plants "considered typical of present sound engineering practices," explained Philip F. Morgan, professor of sanitary engineering.

Other SUI faculty members to make the trip include Neil B. Fisher, assistant professor of Hygiene and Preventive Medicine, and M. P. Powell, associate professor of Hygiene and Preventive Medicine. The itinerary was planned with the help of Carl V. Blomgren, public health engineer for Region 4, Iowa State Department of Health. Guides at Winterset and Council Bluffs will be Superintendent William Gordon and Chemist Myron Rew, respectively. Blomgren will explain the operation of the Griswold Water plant.

The group was to leave Iowa City this morning and stay overnight in Council Bluffs.

# Open Bids on Bleachers for Baseball Field

Bids were opened Thursday afternoon for permanent bleachers for the SUI baseball field.

Low bidder was Frantz Construction Co. of Iowa City with a base bid of \$79,463 and an alternate bid of \$10,200. The base bid is for the seating and lower part of the bleachers while the alternate bid covers the roof and roof supports.

George L. Horner, superintendent of planning and construction said the bid should be approved within a week. The bid must be approved by the Board in Control of Athletics, with final approval coming from the Board of Regents.

Other bidders were: Barrows Construction Co., Coralville, \$75,349, alternate — \$16,619; Don Gammon Construction, Iowa City, \$79,613, alternate — \$13,163; Viggo M. Jensen Co., Iowa City, \$86,256, alternate \$10,000; W. A. Klinger, Inc., Sioux City, \$87,887, alternate — \$9,756 and Larsen Brothers, Council Bluffs, \$85,670, alternate — \$9,600.

# Symphony To Give Concert Wednesday

The SUI Symphony Band will present its second concert of the year Wednesday at 8 p.m. in Iowa Memorial Union.

The Symphony Band is conducted by Frederick C. Ebbs, assistant music professor and director of University bands.

Guest conductor will be Clifton Williams, graduate of the Eastman School of Music. Associate conductor is John B. Whitlock, SUI assistant director of University bands.

Williams is a member of the faculty at the University of Texas, where he has taught theory and composition since 1949. He holds a degree from Louisiana State University as well as from Eastman School of Music.

Williams is also known as founder and chairman of the annual Southwestern Symposium of Contemporary American Music. The symposium is now in its seventh year, having presented approximately 350 new works by American composers throughout the United States and Pan American countries. He is also founder and editor of the Southwestern Composers Journal.

Awards and prizes which Williams has won include: Houston Symphony Composers Award, 1950; three first prizes, Texas Composers Guild; Oswald Memorial Awards, American Bandmasters Association, 1956, 1957.

The first number on the program is "Fantasy on Portuguese Folk Songs" written by Leroy Ostransky, in 1949.

Ostransky received his Ph.D. from SUI in 1951. He is presently composer in residence at the College of Puget Sound, Tacoma, Wash. He also holds degrees from the College of Puget Sound and New York University.

The second composition will be "Capriccio Concertato" by William Rivard, G. Iowa City. He is completing his Ph.D. at SUI. He has studied at the College of Puget Sound and Florida State University, where he received his B.A. and M.M. degrees. His other compositions include works for orchestra, brass choir, chamber music and solo sonatas.

"Antiphony for Winds" by Kechley will be the third number on the program. Kechley is presently on the music staff at the University of Washington.

The next three numbers on the program are all compositions by Williams, which he will conduct. "Solemn Fugue" is one of Williams' most recent compositions. "Fanfare and Allegro" was the 1956 Oswald-American Bandmasters Association Award.

"Symphonic Suite," in five movements, won the 1957 Oswald-American Bandmasters Association Award.

The final portion of the program consists of three national marches. "Colonel Bogey," an English march by Alford, better known currently as the march from "The Bridge on the River Kwai." "Gerona," a Spanish march by Lope, is an example of contemporary Spanish band music.

The final number on the program is the well-known American march "The Stars and Stripes Forever" by Sousa.

# Loveless Tells Importance of ROTC Cadets

Gov. Herschel Loveless told 120 senior ROTC students Thursday that the future of the United States may well depend upon the ability to think independently amid complicated technical and organizational detail.

Speaking at a luncheon at the main lounge of the Iowa Memorial Union following the Governor's Day review of Army and Air Force ROTC units, Governor Loveless told his cadet audience that the ROTC program enables a student to develop the ability to think on his own. "Without this ability," he said, "we could become lost as a nation."

"In today's atomic age," he continued, "we cannot help feeling at times that we are pretty inconsequential." He pointed out that we must never forget that the complicated machines and technological developments of today were developed by human beings.

"Many people say that Iowa is the bright spot in the economy today," Loveless continued. "I hope that Iowa will mean to you what it means to me—a good place to live, now and in the future."

Governor Loveless was introduced by SUI President Virgil M. Hancher, who was among honored guests including Major Gen. Fred C. Tandy, Adjutant General of the Iowa National Guard and State Senator D. C. Nolan.

Other guests of honor included Col. John L. Wilson, commander of the Rock Island Dist. Military Engineers; Earl E. Harper, professor and director of the Iowa Memorial Union, and Iowa City Mayor Louis Loria.

President Hancher was introduced by Col. Charles G. Kirk, SUI professor and head of air science.

**Wray Given Time To Appeal Traffic Charge by Judge**

Leroy Wray, North Liberty, charged with failure to keep his vehicle under control while crossing a bridge, was fined \$20 and court costs Thursday by Police Court Judge Ansel Chapman.

An oral appeal was made by Wray's attorney and Judge Chapman allowed the defendant 10 days to file the \$150 appeal bond necessary for a case to be heard in District Court.

Judge Chapman's decision came after a 2-hour hearing Wednesday in which evidence on both sides of the Wray case was heard.

Wray testified that his collision March 21 with a car driven by an SUI student and carrying three other students was brought about by a blowout of the right front tire of his car.

He said the blowout caused him to strike the concrete edge of Buckner Bridge, located about one mile north of Iowa City on old Highway 218.

**Men's Honorary Plans Initiation**

Omicron Delta Kappa, men's honorary organization, will initiate their new members at 6:30 p.m. Sunday in Danforth Chapel, followed by election of officers at 7 p.m. in the Pentacrest Room of the Iowa Memorial Union.

All members of the group, new and old, may attend the ceremonies.

A regularly scheduled meeting of the group will be held at 12:30 p.m. Monday in the Middle Alcove of the Union. The business meeting will be held during an informal luncheon.

## New DI Staff Takes Over Today

The new Daily Iowan staff will assume responsibilities today. The new editor, Jim Davies, A3, Iowa City, succeeds Tom Slattery, G, Chicago. Davies' former post, that of news editor, is being taken over by Jerry Kirkpatrick, A3, Pleasantville. Jean Davies, A3, Cresco, will be

the city editor, succeeding Marilyn Lyon, A4, Des Moines. New society editor will be Donna Blaufuss, A3, Flossmoor, Ill. Jane Hubly was society editor this year. Dick Lynes, A4, Waterloo, will take over sports desk from Alan Hoskins, A4, Zeating. Walter

Kleine, G, Louisville, Ohio, will be the chief photographer, succeeding Don Hanesworth, G, Iowa City. Don Mitchell, A4, Santa Ana, Calif., managing editor, and Suzanne Forse, A4, Burlington, will continue in their present positions until June 1, when their positions

will be discontinued for the summer. Members of the new staff have been working with outgoing personnel for about a week to learn their duties. A policy statement by Davies will appear on page 1 of Saturday morning's Daily Iowan.

## Elect New DU President

John B. Bremner, A4, Iowa Falls, has been elected president of Delta Upsilon social fraternity. Other members elected to office are: Marlin Hefti, A3, Britt, vice president; Paul Wentzien, C3, Gladbrook, recording secretary; Dan Wiedemeier, A2, Burlington, corresponding secretary; Tom Turk, C3, Osage, senior delegate and pledge trainer; and Dave Fitzsimmons, A3, Boone, junior delegate. These men will hold office through the fall semester of the 1958-59 school year.

John Bremner  
New President

Mr. and Mrs. Robert Harfall, West Liberty, girl, May 15.

## Iowa City Theatre Group To Elect Officers Tuesday

The Iowa City Community Theatre will hold a general membership meeting Tuesday, at 8 p.m. in the basement of the Unitarian Church at the corner of Gilbert and Iowa Avenues. The group will elect four officers and three members to the Board of Directors. The slate of nominees presented by a committee composed of Mrs. John Rushton, Mrs. Junious Tate and Mrs. Joseph Szuhay at the April meeting is: President, David Beuter; vice-president, Mrs. Arthur Kern; treasurer, Thomas E. Koehler, Jr.; secretary, Miss Roberta Sheets; board members, Michael Velez, Mrs. Edward Lucas and Ronald Gee. Further nominations may be made from the floor at the meeting.

Final reports on "Orpheus Descending," the final play of the season, will be heard and plans will be made for the spring banquet to be held late in May, at which time officers will be installed and "Irving's" awarded. Summer projects including actors' and directors' workshops and children's theatre, will be discussed. The program will consist of a reading of an original one-act play (adapted from a short story which appeared in The New Yorker) by Hugo Sippel. The readers, under the direction of Mr. Sippel, will be Mr. and Mrs. Dale Ballantyne, Eugene Weiner and Miss Martha Hempstead. Refreshments and a social hour will follow the program.

## D. Mitropoulos Visits SUI Campus

Dimitri Mitropoulos, conductor of the Metropolitan Opera Orchestra, came to Iowa City without notice Wednesday to hear the SUI Symphony Orchestra concert. Mitropoulos remained in Iowa City as a guest of James Dixon, conductor of the SUI orchestra and a protege of Mitropoulos. He left Thursday. His visit to Iowa City went unnoticed. Dixon said Mitropoulos came down from Minneapolis where the Metropolitan had been performing while on tour. Mitropoulos said he was very impressed by the professional quality of Wednesday's concert, Dixon said. Mitropoulos was formerly conductor of the New York Philharmonic Orchestra.

## Creation— (Continued from page 1)

of the Department of Physics. "Creation of life is not a proper term for such an experiment. It sounds too spectacular and is too easily misunderstood to mean the creation of an organism." "Creating organic compounds from inorganic elements is not new to the scientific world. Such experiments were reported in 1953 by the University of Chicago.

Experiments showed that simple electrical discharges passing through a combination of hydrogen, methane, water and ammonia, in a highly reducing atmosphere, produced many simple organic compounds. Scientists at the Carnegie Geophysical Laboratory in Washington manufactured various combinations of amino acids — the building blocks of protein — from carbon dioxide, nitrogen, hydrogen, water and ammonia. These elements were stimulated by a spark-coil discharge to produce an organic compound.

The rumored Russian experiment is thought to be a modification of these earlier experiments in the United States. The only major difference, McDonald believes, is the use of cosmic rays instead of synthetically activated particles.

McDonald, a noted cosmic ray researcher, said he does not think cosmic rays above the earth's atmosphere would have any different effect on the elements than a bevatron, an atom-smasher which shoots charged particles at extremely high velocities.

"This machine would probably do the same as cosmic rays in space," he said.

Many scientists now think that life might have started when lightning began striking the earth's original, reducing atmosphere. This action on the earth's elements caused the formation of a variety of organic compounds which then began interacting.

Coincidental joining of these organic substances could have produced living organisms, scientists have theorized.

The rumored Russian experiment comes at a time of worldwide interest in producing organic compounds in the laboratory. The Russian experiment, should it be successful, could provide sensa-

**JUDGEMENT SOUGHT**  
A petition seeking a \$3,500 judgement against the Delko Builders Incorporated, Des Moines was filed Thursday in Johnson County District Court. Mr. and Mrs. Tony Whetsline, 1314 Second Ave., claim the company did a poor job of painting their house two years ago.

## False Currier Fire Alarm During Night

Currier girls fled into the street in night clothes at 2 a.m. Thursday morning and remained for half an hour after a fire alarm went off.

According to A. F. Rittenmeyer, assistant fire chief, the fire department received a call from Dorothy M. Leslie, head of women's dormitories and Currier Hall.

She told V. J. Shimon, assistant fire chief on duty at the time, that the fire alarm in Currier had gone off and the building had been evacuated. She said they didn't think there was a fire, but asked that a truck be sent up to check.

The firemen found nothing wrong in the building.

The fire alarms in Currier are set off by breaking a glass window which releases a button, throwing an electric switch. None of the windows were found broken.

Rittenmeyer said the alarm could have been set off by an electrical short in the system, or by a thermo-couple (a device that melts when the temperature of the area around it rises to a certain temperature, closing an electrical contact).
