## Kalona Girl Killed in Accident

**A Good Idea, Mommy**

CHILDREN SHOULD BE SEEN, but with life preservers on at all times when near the water. Gail Perry, 21-month-old daughter of Mr. and Mrs. Murvin Perry, 1307 Prairie du Chien Road, is in good hands this summer since her parents always observe the rules of water safety. If you're going boating, see Page 2 of today's Daily Iowan and find out how to enjoy water sports — safely.

### Iowa Historical Society Denied Use of City Property

The Iowa City City Council Thursday afternoon denied a petition by the Iowa State Historical Society, asking permission to place a portion of the society's new building on city property.

If the Council had approved the society's plans, the entrance steps on the west side of the building being erected on the corner of Gilbert Street and Iowa Avenue would be within one foot of the sidewalk and three feet onto city property.

The council denied the petition on the grounds that it was contrary to city policy.

**Second Property Trouble**

This is the second dispute over property lines that the society has had since construction began last month.

William J. Petersen, associate professor of history and society superintendent, appeared before the council Monday night and said the petition was made necessary by the earlier dispute.

Last month Mr. and Mrs. Elmer E. Paul, 401 Iowa Ave., started court action against the society claiming that the new building was too close to the Paul's property line. As a result of the suit the building was moved three feet to the west.

**Must Redesign Entrance**

Petersen told the council Monday that the building itself would be on the society's property but that the ornamental steps would extend onto the city property.

Petersen said that if the petition was denied it would mean redesigning the entrance and would greatly reduce the attractiveness of the structure.

Thursday afternoon the council also awarded a \$23,450 contract to Knowing Brothers of Iowa City for the installation of sewer improvements on six streets.

### 'Tea House'

**Tryouts Slated for Monday and Tuesday**

Tryouts for the Iowa City Community Theatre production "Tea House of the August Moon," by John Patrick, will be held Monday and Tuesday at 7:30 p.m. in the basement of the Unitarian Church, Donald Stribling, G. Iowa City, will direct the play which is scheduled for Oct. 17 and 18 at City High School Auditorium.

The play has a large cast, predominantly male, and Stribling urges anyone who is interested to attend tryouts or sign up for one of the backstage committees.

"Tea House of the August Moon" was a recent Broadway hit, and an equally popular movie.

### Gen. Shehab Wins Election By 6-to-1 Vote

**New Lebanon President A Compromise Choice**

BEIRUT (AP) — Gen. Faud Shehab won Lebanon's presidency as the 6-to-1 choice of Parliament Thursday. The Army commander's victory as a compromise candidate settled one immediate crisis of the 83-day-old rebellion. But it seemed to breed others even as the Lebanese celebrated with jubilant gunshots.

A breakup threatened the pro-Western cabinet of Premier Sami Solh, who has long been a critic of Shehab. That could complicate the tenure and assignment of 10,000 U.S. troops in Lebanon and the U.S. 6th Fleet offshore.

**"Continue Fight"**

And rebel leader Saeb Salam, although pleased by the election of Shehab, sent word to the Associated Press from his barricaded headquarters, that basically nothing is changed: "We will continue to fight until our demands are met."

Chief of these demands is quick withdrawal of American forces and immediate resignation of President Camille Chamoun.

Chamoun announced he has no intention of resigning. He said he intends to serve until his term expires Sept. 23. He gave this word to newsmen upon emerging from a conference with Shehab. And the general said he will not resign from the Army until Sept. 24, meaning he does not intend to assume the presidency until then.

There was no sign of a quick American withdrawal.

**Would Pull Out Troops**

Secretary of State Dulles told a news conference in Washington several hours after the vote here that the United States would pull out the troops if asked by a duly constituted Lebanese Government. Those troops landed at the request of Chamoun after the Iraqi coup July 14. Shehab has not announced publicly whether he intends to keep them.

### Dulles Warns of War Danger Unless Reds Bow to U.N. Authority

WASHINGTON (AP) — Secretary of State Dulles said Thursday the world faces grave danger of war unless Russia agrees the United Nations should be allowed to act against indirect aggression in the Middle East.

At the same time, Dulles pledged the United States would withdraw its troops from Lebanon whenever it is asked to do so by a duly constituted Lebanese Government.

**Raps Communists**

At a news conference, Dulles said an emergency summit talks between President Eisenhower, Soviet Premier Khrushchev and others should concentrate on the problem of indirect aggression — by which he meant Communist subversion of existing regimes.

It will be impossible, he said, to restore stability as long as Middle East rulers live under a threat of assassination and murder at the hands of fanatic foes.

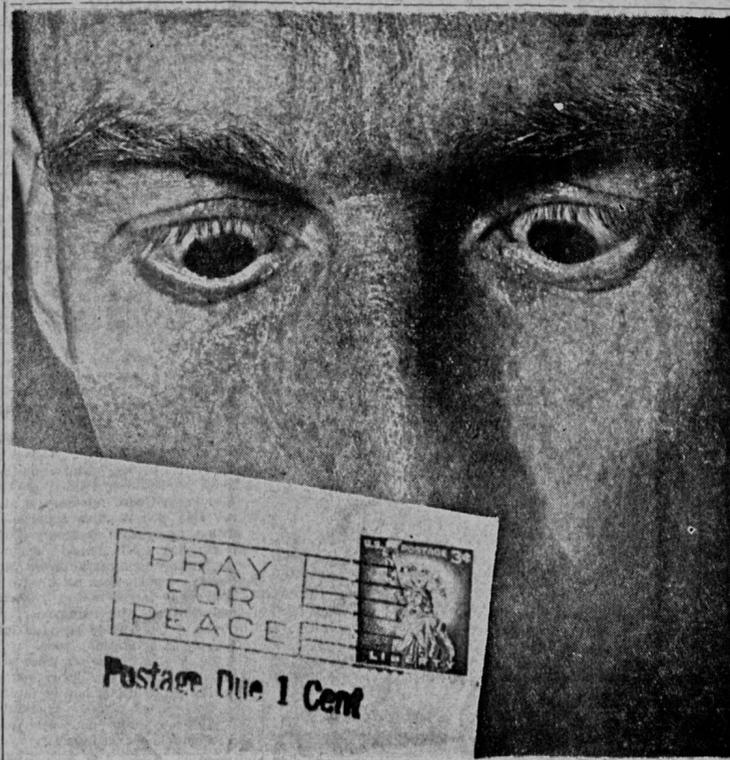

"If the practices of indirect aggression as they are being developed at the present time are allowed to persist in the world," Dulles said, "and if no way is found to check that, then I believe the world is indeed in grave danger of war."

**Need U.N. Control**

"I believe that that can be made apparent. Also I believe that if the Soviet Union does not want a war they will almost have to agree that these practices should be brought under some kind of control by the United Nations."

Dulles suggested two possible U.N. moves:

1. Keeping a constant check on inflammatory radio broadcasts beamed into the area, calling world attention to any incitement to violence;
2. Setting up a U.N. commission to throw a mantle of international protection against any country imminently threatened.

### Did YOU Forget, Too?

**Goodbye to Old Postal Rates, the Price Went Up Today**

By DON ELFSTROM Staff Writer

Crowds in the Iowa City Post Office Thursday said goodbye to the old postal rates, and prepared for the new.

New postage rates, including the 4-cent first class letter, went into effect today.

The new best seller in stamps is a lavender 4-center bearing a portrait of Abraham Lincoln. Sales also have been good for 1-cent stamps this week, Ellis S. Crawford, assistant postmaster, said.

A limited edition ochre-colored 4-cent stamp marking the 175th anniversary of the birth of the South American liberator Simon Bolivar also has gone on sale. Most forthcoming commemorative stamps of this type will be 4-centers, Crawford said.

**Post Office Ready**

With the exceptions of airmail postal cards, small 4-cent envelopes and 100-stamp coils, the Post Office had a complete stock of the new materials Thursday. The stamp dispenser has not yet been altered for the new selection of stamps.

Air mail rates are now 7 cents for letters and 5 cents for cards. The new 7-cent airmail stamp pictures a white jet airliner against a blue background.

**Rates on regular post and postal cards have been raised from 2 to 3 cents. Third class letters will require 3 cents postage for the first ounce and 1½ cents for each additional ounce.**

There will be no increase in bulk rates until Jan. 1, 1959, but the book rate has been raised from 8 cents to 9 cents for the first pound, and from 4 to 5 cents for each additional pound.

The limit for third class mail has been increased from 8 ounces to, but not including, 16 ounces. Previously, items weighing over 8 ounces went for the pound rate.

**Penalties imposed**

Recipients of mail postmarked today or later will have to pay postage due in the amount of the difference between the new and the old rates. After October 31 an additional penalty of 5 cents will be added to the postage due.

If the addressee refuses to pay the postage due, the mail will go back to the sender, who will be asked for the balance due. If he refuses, the mail is to be sent to the dead letter office.

While the higher rates are expected to bring the Post Office Department an additional \$450 million between now and June 30, 1959, the end of the Government's fiscal year, post office authorities estimate the Department still will be \$600 million short for the year.

### It's Hotter'n The Dickens In the Union

By TOM MAINE Staff Writer

"It's so hot up here I'm surprised the paintings haven't melted off the walls," James Irwin, A.I. Eldora, a waiter at the Iowa Memorial Union, said Thursday.

Irwin referred to the new section of the Union where the air conditioning of the Union has been off since July 26. Irwin had retreated to a room in the depths of the older part of the Union where he was folding towels.

**90-Degree Hi-Fi**

Although the temperature in the Union's hi-fi room was 90 degrees, about 20 stalwart classical music enthusiasts lounged there while they studied.

Connie Ballen, A.I. Des Moines, and Dorothy Dilkes, A3, Iowa City, took their books to an umbrella-covered table on the Union terrace where they found the 84 degree temperature much pleasanter than the 89 degrees just inside the windows in the lounge. "At least there is a breeze out here," Dorothy said.

Employees in the Gold Feather room said the number of customers had dropped considerably since the air conditioner stopped working.

**Pipe Sprung A Leak**

Many of the Gold Feather Room's regular customers have been eating in the Union cafeteria during the hot spell. The cafeteria is in the older part of the Union where the air conditioner is working.

According to George F. Stevens, assistant director of the Union, the air conditioning system broke down when a pipe in a well sprang a leak.

The water supply for the air conditioner comes from a deep well just outside the building. A derrick must remove the pump to fix the pipe, Stevens said. He thought repairs would be completed by Tuesday.

### Weather

It doesn't take a crystal ball to predict the weather — the forecasts are beginning to sound like a broken record. Again today Iowa City will have partly cloudy skies with scattered showers and thunderstorms. Highs today are expected to be between 80 and 88. Further outlook for Saturday calls for—you guessed it—partly cloudy and mild.

### 3-Year-Old Carol Yoder Hit by Car

**Johnson County's 11th Traffic Fatality of 1958**

By Staff Writer

A 3-year-old Kalona farm girl was killed by a fast-moving car while her mother watched late Thursday evening. Carol Yvonne Yoder had wandered onto Iowa Highway 1 eleven miles southwest of Iowa City when she was struck by a car driven by Jerry L. Goodwin, 22, of Wayland.

Johnson County Sheriff Albert J. "Pat" Murphy said the child's mother, Mrs. Daniel Eugene Yoder was in the yard of her farm home when the child apparently followed her grandfather across the highway. Mr. Yoder was away at the time of the accident, about 6:30 p.m.

**Followed Her Grandfather**

The grandfather, Emmett Swant, told Highway Patrolman Joe L. Smith of Iowa City that he had been playing with the girl in the front yard adjacent to the highway. He said he crossed the road to talk with a friend, Noah C. Miller of Kalona, and did not notice that the child was following him.

One witness said the child was almost across the highway when she turned back toward the farmyard. Her mother was calling to her when the impact occurred.

**Body Thrown 113 Feet**

The body was found almost 113 feet from the point of impact. Death was instantaneous. The girl had a broken neck, broken back and other injuries.

Neither Goodwin nor his companion, Robert Kaufman, also of Wayland, was injured.

Carol, Johnson County's eleventh traffic fatality of 1958, was the Yoder's only child. The body was taken to a Kalona funeral home where arrangements are pending.

### Soviet Sputniks Hit Radiation Too

MOSCOW (AP) — Soviet scientists announced Thursday night their Sputniks, too, have found a mysterious halo of radiation circling the earth.

It apparently is the same band or cloud of radiation detected by the U.S. Explorer III at heights of 800 miles and above.

Two of Russia's prominent cosmic ray experts detailed the Sputnik findings in lecture to an International Geophysical Year session.

James Van Allen, SUI physics professor, early this year reported Explorer III had wheeled through radiation that swamped its cosmic ray counters.

### Man in Iowa City Jail—

### Claims Sure Cancer Cure; Accused of Posing as Doctor

By JOE PENNE Assistant City Editor

Ralph Lucas, 67, of Ackley, who police say claims to have found a sure-cure for cancer, is scheduled to be arraigned today in police court on a charge of obtaining money under false pretenses.

The distinguished-looking, slightly greying Lucas was returned to Iowa City Wednesday afternoon from Dubuque where he was being held on a bad check charge.

**Sold \$50 Worth of Pills**

In Iowa City Lucas is accused of posing as a doctor and selling a local resident \$50 worth of "cancer and preventative" pills which police said turned out to be common hay fever tablets.

When Lucas was taken into custody by Iowa City police he had a bag which contained a stethoscope, thermometer, pills, syringes and a mimeographed sheet which outlined his cure, which was called the "physiochemical treatment."

The mimeographed sheet was entitled "The Oral Treatment of Cancer and Its Biology" and begins with a first sentence which warns against "fake cures, and Indian doctors who have increased

the mortality rate from cancer."

The paper said the treatment pills, which were called Lucramycin, a derivation of Lucas' name, was a product of mold but stressed that it was "cheese mold used with a brewer's yeast, that was dried and put in capsule form." There was also product "X" included that was the basic ingredient.

In addition to his claim of having found a cancer cure, Detective Harland Sprinkle of the Iowa City Police Department said Lucas claims to have done atomic research and invented an atomic reactor that would kill the electrical mechanism of any airplane motor in flight.

**Claims Great Success**

Sprinkle said Lucas thinks he has the right thing for a cancer cure and claims great success with a considerable number of people from around the United States during his 22 or more years of work.

Lucas was turned over to Johnson County authorities by Dubuque police because of the more serious fraud charge, which carries a maximum penalty of seven years in prison.

### The Iowa Mountaineers—

### Leave Wednesday for Europe

Among the hordes of American tourists in Europe this summer will be 29 persons carrying ice axes, ropes and rucksacks as well as suitcases.

These 29 persons are members of the Iowa Mountaineers Club which is planning a hiking, mountain climbing and sightseeing trip in eight European countries starting Wednesday.

According to Miss Libby Beall, SUI Hospital social worker and a member of the tour, the objectives of the trip are to select new and outstanding scenic points and the most intriguing peaks to climb.

**Pictorial Mountains**

The Mountaineers are particularly interested in mountains with the best view and which afford the best pictures, she went on to say. They plan to climb the most thrilling peaks in each European mountain range.

The trip will take the climbers through Germany, Austria, Italy, Switzerland, France, Yugoslavia and Belgium. They plan to climb in the Bavarian Alps, the Austrian Tyrol, the Italian Dolomites, and the Swiss and French Alps. They hope to have time to scale the Matterhorn and Mont Blanc.

John Ebert, WSUI chief engineer and leader of the outing, said the group not only wants to climb mountains but also to photograph unusual views. Photography is a strong interest of many of the Mountaineers, Ebert said.

**Room and Board**

While in Europe, the group plans to stay mostly in climbing huts on the lower slopes of the mountains they climb. The huts afford bunks and meals and are run by retired guides, Ebert said.

The huts are inns that furnish a night's lodging and three meals for between one and two dollars. The Mountaineers choose these huts because the trip primarily is to climb, not to experience the rigors of camping out, Ebert said.

Part of the group will travel to Europe by ship and some will go by plane. They plan to meet in Munich, Germany, where they will

THE IOWA MOUNTAINEERS have spent most of this week getting out their heavy socks, sweaters and parkas as they prepare to leave for a mountain climbing trip in Europe. Above center, Erma Jo Thomas modeled her climbing uniform as Daryl Yoder (left) helped her fit her crampons. John Ebert, president of the club, and his wife watched the process. The four Mountaineers above are all from Iowa City and will leave Wednesday to join the other 25 members of the group in Munich, Germany.

pick up six tour members who are already in Europe.

Part of the group will spend four weeks on the trip and others will stay as long as eight weeks.

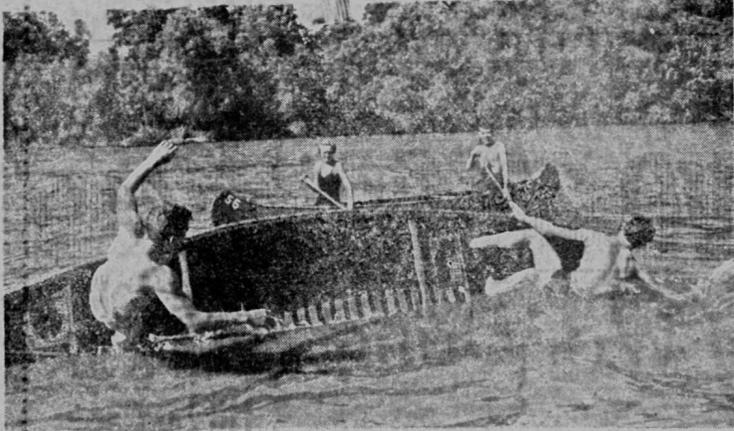

**Climbing Equipment**

The equipment the Mountaineers will take from the United States includes personal clothing for sight-seeing, crampons for climbing in ice and snow, ice axes, sun glasses and ropes. The rest of the climbing equipment will be furnished by guides in Europe.

Iowa City members of the tour, besides Ebert and Miss Beall, are Mrs. Ebert; Miss Phyllis Lane, physical therapist at the SUI Children's Hospital; Miss Erma Jo Thomas, nurses aid in the SUI Hospital School; and Daryl Yoder, SUI chemistry storekeeper. Other members are from many parts of the United States and Europe.

## To Ride Safely... Four: Two in Middle on Bottom, Rowers Close to Waterline; Two: Both Kneel.

By ANN HARRINGTON  
 Staff Writer

Organization of two boat clubs and a 4-fold increase in Johnson County boat ownership in the last five years signify the growing local interest in boating.

From less than 100 boat registrations five years ago, the Johnson County number is now close to 550. Iowa City has organized two boat clubs in the last two years.

Murvin H. Perry, assistant to the director of the SUI School of Journalism and president of the Iowa City Boat Club, attributes this growth to a combination of prosperity, improved equipment and the discovery that the sport actually is fun.

**Modernization Helped Boating**  
 "People began to have money," he said, "about the same time motors were quieted down and improved, electric self-starters installed and hard wooden seats replaced with plastic-covered sponge rubber. "This took a little work out of the sport and people discovered it was fun."

The Iowa City Boat Club and the Coast Guard Auxiliary were both organized in recognition of the need for safety in the expanding family pastime.

Perry says, "It is our goal to promote safe boating with a minimum of restriction on local water use."  
 "This is the area of my greatest concern," he continued. "Too many times I have seen the freedom to enjoy water sports lost because people did not of their own responsibility restrain their activities from endangering the life and safety of others."

The Coast Guard Auxiliary is affiliated with the national service group. This club requires applicants for memberships to first pass a written examination on history of the Coast Guard, safe boat operation, mechanical aspects and motor operation, and correct lighting.

Although the club is affiliated with the Coast Guard of the United States, membership does not involve draft during national emergency. Owners of larger boating craft in this organization, according to Leland Novotny, vice-commander, possibly could be asked by the Government for help in such an emergency, but compliance would be entirely on a voluntary basis.

- Here's What to Remember**  
 The 14 basic safety rules recommended by the guard are:
1. Do not go out in bad or threatening weather.
  2. Wear your life preserver or have it ready for immediate use.
  3. Tell people when and where you are going - do not go elsewhere.
  4. Equip your boat properly.
  5. Avoid excessive or sudden bursts of speed.
  6. Be a swimmer.
  7. Arrange a schedule with your relatives.
  8. If you capsize hang on to the boat.
  9. Think - do not panic.
  10. Do not overload the boat.
  11. Avoid horseplay.
  12. Keep clear of bathers and swimmers.
  13. Familiarize yourself with the area in which you operate.
  14. Always reduce speed in narrow passages and congested areas.

**Water Facilities Growing**  
 Most boating done in Iowa City, Novotny says takes place between Iowa City and the Coralville Dam and between Coralville and the New Coralville Dam, an area of 7 miles.

The Coralville reservoir will add a 17-mile waterway to Iowa City's boating facilities.

Iowa City also will be getting the addition of Lake McBride, about 1,000 acres of water. But this, Novotny says, will not affect pleasure boating.

According to state law, state owned lakes are open only to fishing vessels powered with up to six horsepower motors.

Daily Iowan Photos by Bob Malone

## General Notices

General Notices must be received at The Daily Iowan office, Room 201, Communications Center, by 8 a.m. for publication the following morning. They must be typed or legibly written and signed; they will not be accepted by telephone. The Daily Iowan reserves the right to edit all General Notices.

**THE PH.D. FRENCH** examination will be given on Friday, August 8, 2:30-5 p.m., in room 309 Schaeffer Hall. No advance registration is necessary.

**VETERANS** - Each Public Law 550 veteran must sign a VA form VB 7-1996a to cover his attendance from July 1-July 31, 1958. A form will be available outside Veterans Service beginning on Friday, August 1, 1958. Regular sign up will continue on August 4 and August 5. Open hours are from 8:30 a.m. to 12 noon and from 1:00 to 4:30 p.m.

**CANDIDATES FOR DEGREES IN AUGUST** - Commencement announcements have arrived. Orders may be picked up at Alumni House across from Iowa Union.

**PH.D. GERMAN** Reading examination, Wednesday, August 6, 3-5, in 104 Schaeffer Hall. Register in 101 Schaeffer Hall if you wish to take exam.

**KOREAN VETERANS:** University students and staff members who entered service for the Korean Conflict while a resident of the State of Iowa may secure application blanks for the Iowa Korean Service Compensation (Bonus) from the Veterans Service in University Hall beginning Tuesday, July 29, 1958. Beginning at once, the Veterans Service will distribute sheets giving information about eligibility, procedure, etc. Office open hours are 8:30 a.m. to 12:00 noon and 1:00-4:30 p.m. weekdays.

**RECREATIONAL SWIMMING** pool will be from 4:15 to 5:15 Monday through Friday. It is open

to all women students and staff members. Please bring cap.

**PARKING** - The University parking committee reminds student motorists that the 12-hour parking limit applies to all University lots except the storage lot south of the Hydraulics Laboratory.

**THE UNIVERSITY** Cooperative Baby-sitting league will be in charge of Mrs. Young from July

## Good Listening - Today on WSUI

**FALL FASHIONS** are viewed with a critical, and somewhat jaundiced, eye by Emma Sue Phelps on Morning Feature today at 9:45. Miss Phelps predicts mid-lady will doff her September sack in favor of "the look of an undressed set of bagpipes". Headache bands are on their way back, too. Be ready.

**WORLD HEALTH** and the United Nations organization which is trying to look after it are explored on UN Radio Presents at 11:45 a.m.

**CANADIAN EDITORIAL OPINION** is reviewed every Friday at 12:45 by the staff of the Canadian Broadcasting Corporation. Over the Back Fence is the program's title; it is a review of newspaper editorials from the press of Canada.

**MENUHIN AND BRITTEN** were among the principal performers at the 1957 Aldeburgh Festival of Music and the Arts. One of England's great summertime attractions, the annual Aldeburgh Festival was recorded last year by the BBC. More than two hours of music from the Festival will be heard this afternoon on Mostly Music following the presentation at 1 of the feature work, Concerto for Piano and Orchestra No. 2 by Menace. Beginning at about 1:30 listeners may hear Yehudi Menuhin and Benjamin Britten playing Sonata in C Minor for Violin and Harpsichord by Bach, a Bartok Violin Sonata, Sonata in G for Violin and Piano by Grieg and Fantasia in C by Schubert. An orchestral portion of the Festival will be heard beginning at about 3 p.m. with Pamela Bowden,

contralto, Julian Bream, lute and guitar, and Millicent Silver, harpsichord playing with the Festival Orchestra conducted by Charles Mackerras music by Dowland, Henze, Villa-Lobos and others.

**DIABOLIQUE** is the French psychological thriller which, in motion picture form, left many a patron with heart in mouth. Its authors have another such in "Man at Night," a BBC production to be heard on Broadway Tonight at 7.

**THE DIARY OF ANNE FRANK** will come under discussion in the Ideas and the Theatre segment at 8:30 p.m. Discussants include N.Y.C. drama critics Brooks Atkinson and Richard Watts.

**TRIO TONIGHT** turntable Woody Herman, singing, Cal Tjader at 9 p.m.

# U.S. Favors October For Meet With Russ

WASHINGTON (AP)—The United States Thursday proposed the first week of October for the start of East-West technical talks on what would be needed to prevent surprise attacks in this nuclear missile age.

In a note to Moscow, this country suggested the talks take place in Geneva, where scientists representing the East and West already are discussing ways of policing a possible future ban on nuclear tests.

Designated by U.S. and U.S.S.R. Experts for the proposed October talks on preventing surprise attacks would be designated by the United States and Russia, and possibly by certain other states.

Their assignment, the U.S. note said, would be "a study of the technical aspects of safeguards against the possibility of surprise attack." The note said they would "concentrate on the means and objects of control and on the results which could be secured from these safeguards."

This was taken to mean that the experts would examine such specific questions as setting up aerial and ground inspection teams which would be on the lookout for any big-scale military buildups.

**Future Meeting**  
Such technical discussions, the note said, would be "helpful in determining whether a meeting of heads of government would provide opportunity for conducting serious discussions of major problems and would be an effective means of

reaching agreement on significant subjects."  
In other words, the outcome might determine whether the subject could be pursued profitably at a later summit meeting.

The issue of safeguarding against surprise attack is regarded as a central problem in developing any effective disarmament system, and it has been bounced back and forth between East and West for some time.

Last April 28, President Eisenhower proposed that the technical experts be put to work analyzing the practical problems involved in arriving at various disarmament goals. The present Geneva talks on nuclear test control methods are one result.

Earl E. Harper  
Co-Author of Book

Earl E. Harper, director of the SUI School of Fine Arts, has written the first chapter of a recently published book, "Handbook of Problems in School Music."

The subject of this opening chapter will be "Moral and Spiritual Values in Music Education," and it is based on an address presented by Harper at the Music Educators National Conference in Chicago a few years ago.

The new publication, to which many U.S. music education leaders have contributed, is regarded as an encyclopedia in this field.

# SUI Physicist To Try Longest Balloon Flight

An instrument-carrying balloon, expected to last longer in flight than any to date, is scheduled for launching Thursday at Fort Churchill on Hudson Bay.

SUI physicist Kinsey Anderson and three SUI students will try to near a 100-hour maximum with a Skyhook balloon with a 75-foot inflated diameter. They will suspend a 30-pound box of cosmic and X-ray measuring equipment and a radio transmitter under the helium-inflated sheath.

The flight will be the first of 12 SUI stratospheric probes with similar equipment during an approximately 40-day period. Length of the later flights will depend largely upon how far the 20-mile-high winds carry the first balloon away from base radio receivers.

**Flights "Set"**  
At launching time the flights will be "set" with timing devices for 100 or 50-hour periods, with small parachutes returning the scientific equipment to earth, Anderson explained Thursday.

He said he hopes at least to triple the amount of data which he collected with 14 balloon flights lasting 16 to 30 hours last summer at the International Geophysical Year base in the middle of Canada's Northern Lights belt.

**200 Hours of Data**  
Anderson gathered some 200 hours of data last summer on "around the clock" radiation effects linking magnetic storms with solar bombardment of earth's atmosphere. Such electrical disturbances of the upper atmosphere often affect radio communications, he said.

Student members of Iowa's Fort Churchill party will be Louis Hinton, A2, Davenport; Donald Enmark, E2, Princeton, Minn.; and Donald Stilwell, A4, Iowa City. Two other students—John Koras, E3, Toddville, and Merle Russell, E3, Fairfield—helped to build the apparatus in the SUI Physics Building.

# Union Baby-Sitters Will Retire Sunday For the Summer

The Union Board Tot and Tending Program, which provides baby-sitters for married students' children during Union activities, will be discontinued for the summer after Sunday, George Stevens, Student Union Board advisor, said.

The Tot and Tending Program is a new development which has been on an experimental basis, Stevens said. The Union board hires students of the College of Nursing to baby-sit in the East Lobby Conference Room of the Union each Sunday and Wednesday evening, 6:45-9:45. There is no charge to parents.

Stevens said the service will resume at the beginning of the fall semester, on a specific program basis. Baby-sitting service will be given only during certain types of programs which are yet to be decided, he explained.

# GOP Outlook Improved In Farm Areas: Benson

WASHINGTON (AP)—Secretary of Agriculture Benson expressed belief Thursday the political outlook for Republicans has improved substantially this year, particularly in farm areas.

"But the outlook for the Republicans has improved substantially, particularly from the farm standpoint because farmers are enjoying a combination of like-bountiful production and improved farm prices," he said. "The sentiment in farming areas is good."

# "Freaks, Bushers" Start Critical 4-Game Series Today

MILWAUKEE (AP) — The teams known to the haughty Yankees — who likely will oppose one of them in the World Series — as the freaks and the bush leaguers collide Friday night in the opener of the first critical series of the National League campaign.

The freaks are better known as the San Francisco Giants. The bush leaguers are the Milwaukee Braves, of course.

Only a handful of County Stadium's 43,768 seats have not been sold, indicating complete sellouts for the four-game series that may have a lasting effect on the NL race.

The Giants — labeled a "freak" team by Yankee Manager Casey Stengel Wednesday night — and the Braves — described as "bush league" by an unidentified member of Stengel's entourage during the 1957 World Series — have been taking turns in the first place for the past few weeks.

A sweep of the series by either Bill Rigney's youngsters or Fred Haney's world champions could deal a triphammer blow to the pennant aspirations of the other.

Off past performances, a sweep is unlikely. The Braves hold a 7-5 edge in games played to date, including a 3-3 standoff at San Francisco and a 4-2 bulge in the not always friendly confines of County Stadium.

That 4-2 advantage at home may be misleading as the Braves' overall win-loss record here is only 26-23, while they sport a 28-19 mark on the road.

## Barry Meerdink To 4th Round of USGA Golf Meet

ST. PAUL (AP) — Barry Meerdink of Muscatine, Iowa, came through with two victories Thursday and moved into the fourth round of the USGA Junior Golf Tournament.

Barry raced through Tommy Hornbuckle of Albuquerque, N.M., 6 and 5, after going 19 holes for a victory over Bill Lovett of Portland, Ore.

Meerdink's conquests put him among the 16 surviving contenders for the championship. Iowa's other entry, Jay Krachmer of Cedar Rapids, lost in the second round to Jimmy Allen of Athens, Ga., 2 and 1.

## Iowa Girl National Archery Champion

GRAYLIN, Mich. (AP) — A Dysart, Iowa, girl, Linda Seebach, won the junior girls instinctive event in the national archery contests Thursday.

## Miss Kimball Leads in Iowa Women's Golf Meet

CEDAR RAPIDS (AP) — Judy Kimball, a 20-year-old Sioux City blonde, took a huge stride toward the Iowa women's golf championship Thursday.

Judy shot a third round 75 for a 231 total and an 8-stroke lead over her closest challengers — Sharon Fladoos, the 15-year-old Dubuque girl, and Andrea (Andy) Cohn of Waterloo.

Sharon fired a 76 over the Cedar Rapids Country Club course and moved into a second-place deadlock with Andy at 239 for 54 holes. Miss Cohn, the 1956 state champion, had a third round 81.

Miss Kimball, a University of Kansas student who started play-

## U.S. Team to Poland for Track Meet

WARSAW (AP) — The doorman at Warsaw's Grand Hotel had to use a fire hose Thursday to clear a path for American athletes through 300 gaping, admiring Polish fans.

A dozen big American flags fly in Warsaw. As buses carried the American athletes through the city, people stopped to watch and often to cheer.

That was Poland's welcome to American men and women track stars who are expected to give the Poles a beating Friday and Saturday in Warsaw's biggest track event in a decade.

"What a contrast Poland is to Russia," said Coach Payton Jordan of Stanford. "The team is relaxed for the first time since the night we got to Moscow. Everybody was tense in Moscow last week."

The Americans lost the meet in Moscow under the Soviet system of lumping men's and women's points together by a 172-170 margin. By the American way of scoring, U.S. men won and the women lost.

Here the Americans figure to win by any scoring system. But Poland, unlike the Soviet Union, is abiding by a written promise to Dan Ferris of the U.S. Amateur Athletic Union and the competition will be scored as separate dual meets for men and women.

## May See New Faces in Card Lineup

PHILADELPHIA (AP) — The St. Louis Cardinals are sinking fast with a popgun attack in a league of home run hitters and may turn in desperation to a new lineup.

Last in the National League in runs and homers, the Red Birds are floundering in sixth place, a long drop from their second-place finish a year ago.

Fred Hutchison, known as one of the game's most patient managers, indicated he may have to revamp his lineup and insert rookie outfielder Gene Green behind the plate.

The 6-foot-3 Green has only seven homers but is batting .292 despite a recent slump, which is far above the anemic averages of the Cardinal catchers.

"Runs, that's all we need," Hutch said after Wednesday night's 5-1 defeat by the Phillies. The Cards collected only seven hits, all singles.

Green said he is ready to catch at once if it will insure his staying in the majors.

"At Rochester I hadn't caught for more than a month, went behind the plate and threw out two runners going to second," he said.

The Cards tried Green behind the plate in one early season game but took him out midway in the game after he made two throws into center.

But it's the only move that figures to add power to the attack.

The situation is getting desperate. The Cardinal coaches were in session on the bus after Wednesday night's game when veteran pitcher Sal Maglie interrupted by quipping to third base coach Stan Hack:

"You must be feeling lonely at third base."

Hack recalled that last year the Red Birds weren't worried when the other teams jumped ahead because "we knew we'd eventually have our big inning"

## Braves Top Dodgers, 4-1, To Increase National Lead

MILWAUKEE (AP) — The Milwaukee Braves rallied for three runs in the eighth inning Thursday to beat the Los Angeles Dodgers 4-1 and increase their league lead at least temporarily, to a half game over the Giants.

In the process, young Juan Pizarro won his second straight decision since being called up from the minors as he put the Dodgers down with four hits and without an earned run. He beat Chicago, 4-1, last Friday.

It was the second straight triumph, too, for a lefthander against the once-feared right-handed Los Angeles batting order. Warren Spahn beat them Wednesday night 4-3. Thursday's victory gave Milwaukee two of the three games in the series.

Los Angeles . . . 000 010 — 1 4 0 Milwaukee . . . 000 100 028 — 4 8 1 Hodges, Williams (8), Kipp (8), Birger (8) and Pignatano; Pizarro and Rice. L — Williams. Home run — Milwaukee, Aaron (23).

## Redlegs 10, Giants 9

CINCINNATI (AP) — The Cincinnati Redlegs rallied for six runs in the last two innings Thursday night and defeated the San Francisco Giants, 10-9, as pinch hitter Pete Whisenant singled home the winning run with one out and the bases loaded in the last of the ninth.

The defeat dropped the Giants a full game behind Milwaukee's National League leaders and came

as the Redlegs wiped out a 9-4 San Francisco lead.

The winning run came off Ruben Gomez, the fourth Giant pitcher and the winning hurler was Joe Nuxhall, the sixth Redleg hurler. San Francisco . . . 004 201 110 — 9 13 2 Cincinnati . . . 000 301 051 — 10 17 0 Worthington, Johnson (6), Grissom (8), Gomez (8) and Schmidt; Newcombe, Lawrence (3), Schmidt (4), Keller (5), Jeffcoat (7), Nuxhall (9) and Bailey. W — Nuxhall. L — Gomez. Home runs — San Francisco, Wagner (2, 3), Kirkland (9), Cincinnati, Dropp (4).

## Phillies 4, Cards 3

PHILADELPHIA (AP) — The veteran Jim Hearn, promoted to a starter's role by Manager Eddie Sawyer, pitched the Philadelphia Phillies to their third straight victory over St. Louis Thursday night, 4-3.

St. Louis . . . 010 000 013 — 3 10 0 Philadelphia . . . 200 200 003 — 4 8 1 Jackson, Brosnan (5), Paine (7) and Landrith; Heston, Farrell (3) and Hegan. W — Hearn. L — Jackson. Home run — Philadelphia, Anderson (15).

## Cubs 5, Pirates 4

PITTSBURGH (AP) — The Chicago Cubs took advantage of a wild pitch and an error in the eighth inning Thursday night to defeat the Pittsburgh Pirates 5-4. Ernie Banks hit his 29th home run of the season for the Cubs, taking over the major league leadership in that department.

Rain, which delayed start of the game for 40 minutes fell again as the Cubs batted in the ninth. After

a 32-minute delay the contest was called off.

Chicago . . . 000 100 31 — 5 10 3 Pittsburgh . . . 011 010 10 — 4 10 1 Solis, Drett (5), Elston (6), Hobbie (7), Henry (8) and Neenan; S. Taylor (7); Raydon, Face (7), Gross (9) and Foiles, Hall (8). W — Hobbie. L — Gross. Home runs — Chicago, Banks (29), Pittsburgh, Stuart (6).

## Tigers 3, Red Sox 2

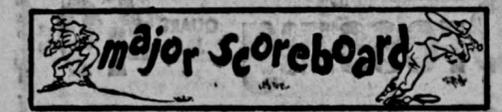

DETROIT (AP) — Frank Lary edged rookie Bill Monbouquette in a tense pitching duel Thursday and the Detroit Tigers defeated Boston 3-2 on Frank Bolling's disputed double in the eighth inning.

## Yanks 8, A's 3

KANSAS CITY (AP) — The New York Yankees manhandled five Kansas City pitchers for a 13-hit, 8-3 decision over the Athletics Thursday night, avenging two straight losses here to the upstart A's.

New York . . . 002 011 202 — 8 13 0 Kansas City . . . 000 003 000 — 3 9 0 Maas, Kucks (6) and Howard; Urban, Herbert (3), Daley (7), Gorman (7), Terry (8) and House. W — Maas. L — Urban. Home runs — Kansas City, Maris (15).

### Fall Fashion Calls For Longer Hems

PARIS (AP)—Young Yves Saint-Laurent, the new Christian Dior, set fashion buyers on their ears Thursday by dropping hemlines a revolutionary five inches—right back to the middle of the calf.

At first incredulous, some buyers got back their breath in time to say they are "delighted Dior's done something different." One New York fashion editor called the Saint-Laurent "curve" line the first really new thing she's seen in Paris this season. "We had all the rest in the New York collections."

Saint-Laurent's lengthening of the hem amounted to the deliberate challenge to buyers: "Will you follow the others, or will you follow me?"

The answer can hardly be in doubt. Saint-Laurent, who took over last year as head designer at Dior, has the smash success of the season.

It's not all a matter of letting down your hems. The Dior silhouette, while based on a high waistline like all the others, achieves a new and different shape.

Fullness is evenly distributed all around the figure, and the effect is something that looks new to the eye, though it may owe a bit to the trapeze, the baby doll, and even the sack—which no one is allowed to mention anymore. Actually, some of the looser cocktail creations might aptly be described as bags, if not sacks.

### Adult Education Declining Says Iowa State Professor

Although Iowa adult education programs have taken great strides forward, recent enrollments have tapered off, according to Glenn E. Holmes, associate professor of vocational education at Iowa State College.

Holmes spoke to some 300 Iowa school superintendents who concluded their annual Conference for School Superintendents at SUI Thursday. The conference was sponsored by the Iowa State Department of Public Instruction and the SUI College of Education.

Holmes reported there was a gradual increase in adult enrollment in Iowa until 1947-48, when a peak of 15,400 was reached. Since then, there has been a slight annual decrease to about 11,490 in 1956-57, he said.

**Not Too Successful**

"We have not been too successful in convincing people that in our American democracy they have an obligation to continue to learn," he told the superintendents. "In many Iowa communities the adult evening school has not been established in the minds of people as a part of their lives and living."

Holmes said that for the past five years, typing has held first place as the most frequent course offered in Iowa adult education programs. Following typing in popularity are sewing, agriculture, homemaking and driver education.

World affairs courses have slipped greatly, Holmes reported. In 1953-54, world affairs ranked as the 19th most frequent offering in

adult education. By 1957-58, it dropped to a 44th ranking.

**Handwork Popular**

"One can see immediately that the most popular course offerings are largely work with the hands," Holmes said. "There is little evidence of any work in liberal adult education having to do with general self-improvement." He explained the popularity of hand work as an escape mechanism from mental challenges for many adults. "Some simply are not interested in thinking," he said.

### House Votes 7% Pension Increase

WASHINGTON (AP)—The House voted 375-2 Thursday to boost Social Security pension benefits by seven per cent.

This enthusiastic approval carried along an election-year custom that goes back to 1950—doing something for the old folks.

Only Rep. Noah Mason (R-Ill.) and Rep. Bruce Alger (R-Tex.) voted "no" on the bill which also would mean a boost in payroll taxes.

**To Senate Next**

The next step is up to the Senate, with not much time remaining before Congress expects to adjourn. Similar legislation has been proposed there; and several senators have made speeches in support of it.

Sen. Lyndon B. Johnson of Texas, the Senate Democratic leader, said Tuesday he would help get the bill before the Senate.

Under the House bill there would be a minimum of \$3 a month in old age, survivors and disability benefits.

**Increased Benefits**

The 12 million persons now on the retired rolls would go to a range of \$33 to \$118 a month from the present range of \$30 to \$108.50. Maximum family benefits would go from \$200 to \$254 a month.

For workers going on the retired rolls at 65 in the future, the top monthly benefit would reach \$127. However, the maximum could not be achieved for some years.

Retired workers could earn as much as \$100 a month at jobs, rather than \$80, without losing their benefits.

Payroll taxes would go up in order to pay for the added benefits. The rate would be increased 1/4 per cent each for workers and their employers Jan. 1 and the taxable wage base would go from \$4,200 to \$4,800.

**LAUNCHING POSTPONED**  
CAPE CANAVERAL, Fla. (AP)—Technical troubles Thursday prompted the Air Force to call off a launching of its Thor intermediate-range ballistic missile.

### Switchblade Ban Passed by Senate

WASHINGTON (AP)—A bill designed to help keep switchblade knives out of the hands of teenage gangs was passed by the Senate Thursday and sent to President Eisenhower.

The measure bans such knives from interstate commerce or their manufacture for introduction into interstate commerce.

Sen. Warren G. Magnuson (D-Wash.), said the knives are used only for weapons, particularly by juvenile gangs in large cities. He told the Senate that most of the knives are imported. He said the bill would not do away with them all together but would reduce their availability.

### 2,500 Freshmen Invited To Attend SUI Orientation

It's a busy summer for the SUI Office of Student Affairs as hundreds of letters and pamphlets are being mailed prospective SUI students for Orientation Week this fall.

About 2,500 freshmen and transfer students are expected to attend this year's activities starting Sept. 21, Miss Helen Focht, counselor of orientation, said.

Orientation Week consists of teas, get-acquainted activities, open houses and mixers. About 600 students and faculty are working on this year's program.

New students will be divided into

100 groups of about 25 each for the orientation activities, Miss Focht said. These groups will be directed by four student orientation leaders, she continued.

Letters to orientation leaders and assistants, "Code for Coeds," and "Orientation Handbooks" have been mailed this past week, Miss Focht said.

Arrangements for Orientation Weeks are being made by the Orientation Councils for both men and women, under the direction of Kay Lund, A3, Dixon, Ill., and Jim Tilton, A4, Rockford, Ill.

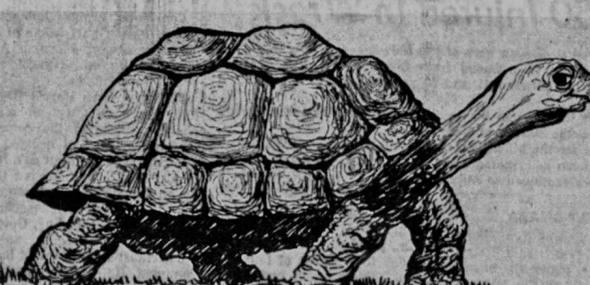

### Student to Present Clarinet Recital

An SUI graduate student will present a clarinet recital Sunday in the North Music Hall at 7:30 in partial fulfillment of the requirements for a master of arts degree.

Joseph Joffe, G. Brooklyn, N.Y., will present Leonard Bernstein's Sonata I and II, Helmut Wirth's Sonata, Swan Hennessy's Trio, Op. 54, and Richard Hergig's Sonata for Clarinet and Piano.

Joffe, will be accompanied by Norma Cross on the piano, and assisted by Virginia Jones, G. Bremerston, Wash., clarinet, and Robert Glidden, G. Rippey, bassoon.

# Allies Don't Agree On Summit Meeting

LONDON (AP)—Britain and France sent divergent plans for a Mid-East summit meeting to Premier Khrushchev Thursday, in effect returning the ball to him. The two allies disagreed on a date and auspices for such a meeting. The United States held off until today. But Secretary of State Dulles indicated President Eisenhower favors the proposal of Britain's Prime Minister Macmillan. Macmillan wants a special summit session of the U.S. Security Council to open Aug. 12—in New York, Geneva or elsewhere. He is asking U.N. headquarters in New York to act at once to arrange

the meeting and said he is willing to attend. Dulles told a Washington news conference the United States considers Aug. 12 as an agreeable date for opening a U.N. summit session. He said the meeting presumably could go ahead without Premier de Gaulle if the French leader decided to stay away. De Gaulle proposed that the conference open in Geneva Aug. 18. He objected again to summit talks within the U.N. framework. Instead he accepted the original Soviet proposal for a meeting of the Big Four powers plus India, with U.N. Secretary General Dag Hammarskjöld sitting in. Any Other Date OK

# Bill on Freedom Of Information Passed by Senate

WASHINGTON (AP)—Congress sent to the White House Thursday a bill designed to discourage arbitrary withholding of government information that the public is entitled to know. The measure advocated by spokesmen for newspaper editors and broadcasters, is popularly known as "the freedom of information bill." Senate passage by voice vote sent it to the President.

The bill amends a law enacted in 1789 that authorized department heads to make regulations for the custody, use and preservation of official records. The amendment says that withholding of information from the public or limiting the availability of records to the public is not authorized.

# Combat-Ready Arms Aim of AEC Program

WASHINGTON (AP)—The Atomic Energy Commission (AEC) is aiming at perfection of quick-on-the-trigger nuclear weapons, ready within minutes for use as bombs, missiles or artillery pieces. This variety includes the big, mass destruction bombs and missile warheads; smaller yield weapons for battlefield use, and anti-aircraft missiles. Although the AEC emphasized the requirement for immediately ready nuclear weapons, it reiterated its contention that the possibility of an accidental nuclear explosion, such as might result from the crash or accidental release of a bomb, is so remote as to be negligible.

PREMIER CHARLES DE GAULLE tucked his hand in his jacket in a pose reminiscent of an illustrious French predecessor as he entered Paris' royal palace to present a draft of his new constitution to the consultative committee. Pro-De Gaulle supporters and opponents clashed in several areas of France as campaigns for the October referendum on the new constitution got under way. (AP Wirephoto)

# 25-50 Injured In Wreck

MILWAUKEE (AP)—Eleven cars of the Milwaukee Road's Olympian Hiawatha passenger train bound from Chicago to Seattle derailed Thursday, injuring between 25 and 50 persons. Authorities reported no fatalities. The cars left the rails in the southern part of Milwaukee County near the Milwaukee suburb of Oak Creek. A spokesman for the Milwaukee Road said the cause of the derailment had not been determined and that the seven cars that did not leave the tracks continued to Milwaukee. —AP Wirephoto

# NIKES AT OMAHA

WASHINGTON (AP)—Rep. Glenn Cunningham (R-Neb.), said Thursday the Army plans to install Nike anti-aircraft missile sites in the Omaha area to protect Strategic Air Command headquarters at Offutt Air Force Base.

# PLEADS GUILTY

Donald J. Masson, of Washington, Ia., plead guilty in police court Thursday to a charge of failure to have a vehicle under control. He was fined \$5 and \$4 costs.

# Executive Shot to Death; Police To Question Woman

INDIANAPOLIS (AP)—A handsome, 54-year-old drug firm executive was shot to death in his car Thursday and police said they want to question a 40-year-old divorcee.

Forrest Teel, who died after his white Cadillac backed in wild circles out of a parking lot shortly after midnight, was in charge of all marketing of drugs made by Eli Lilly & Co.—a business of \$200 million a year.

Police said the woman sought for questioning had been a "personal friend" of Teel and had been divorced two months ago. She was married and the father of a son.

Witnesses reported two persons sped away in a cream and blue car after Teel was shot near the fashionable Meadowbrook apartment area on the Northeast Side.

Two .25-caliber bullets, removed from Teel's abdomen, apparently came from a small automatic pistol of a type commonly favored by women, police said.

Police couldn't find why Teel, a sportsman and flying enthusiast, was in the Meadowbrook area, about five miles from his home at the late hour.

Teel was wearing a blue suit but no tie, and his shirt was unbuttoned at the neck.

Didn't Attend Meeting A friend said Teel had called home Wednesday and told his wife he wouldn't be home for dinner. He was a board member of the Country Club of Indianapolis but didn't attend its meeting Wednesday night.

Police found \$210 in Teel's billfold and said there were no indications of any robbery.

No Powder Smell "It's too early to say," said police Capt. Michael Smiley when asked about a move. "There was no powder smell in the car, but I believe he was shot inside the car."

Teel joined the Lilly company in 1926 as a medical service representative at Chanute, Kan. He later served as a salesman in Cuba and Colombia and was executive vice president of Eli Lilly International Corp. before taking charge of merchandising in 1954.

He is survived by the widow and a son, Tom, 14.

# Divorcee Wanted For Questioning Found Unconscious

INDIANAPOLIS (AP)—A 40-year-old divorcee wanted for questioning in the fatal shooting of pharmaceutical executive Forrest Teel was found unconscious in an automobile Thursday night.

Police said Mrs. Connie Nicholas was found in her car along a northeastern Indianapolis street. Officers said she had evidently tried to commit suicide by taking an overdose of sleeping pills.

She was taken to Indianapolis General Hospital for treatment. Police said Mrs. Mrs. Nicholas had been a personal friend of Teel and had been divorced two months ago.

Police issued a nationwide pick-up order for Mrs. Nicholas after detectives found three letters in her apartment, one of them a love letter addressed to Teel.

Detectives said one of the three letters threatened suicide, and asked that the woman's body be cremated "in a blue negligee and my ashes scattered from an airplane over the airport."

The letter told how articles in the apartment which belonged to Teel should be disposed of, officers added.

Detectives said investigation revealed that Mrs. Nicholas had recently purchased a small caliber pistol.

Mrs. Nicholas was reported in critical condition and officers had not been able to question her.

# Goldfine Cited For Contempt Of Congress

WASHINGTON (AP)—The House Commerce Committee voted unanimously Thursday to cite Bernard Goldfine for contempt of Congress.

The case now goes to the House itself for action probably next week.

If approved by the House, it would go to the U.S. district attorney for possible presentation to a grand jury.

From there on, it would be handled as any criminal case — that is, a trial by jury if an indictment were returned.

Conviction would subject the Boston industrialist friend of presidential assistant Sherman Adams to a penalty up to \$1,000 and a year's imprisonment.

Chairman Oren Harris (D-Ark.), told newsmen after an all day closed meeting of the committee that the group had decided on a citation based on Goldfine's refusal to answer 22 questions put to him by an investigating subcommittee.

On Cape Cod in Massachusetts, where he is weekending, Goldfine's counsel, Samuel Sears, said the industrialist's camp would have no comment. He said the committee's action was "hardly any surprise."

# Warn Unions Of Alliances With Hoffa

WASHINGTON (AP)—President George Meany of the AFL-CIO Thursday sternly warned affiliated unions against alliances with James R. Hoffa's giant Teamsters Union.

Any such alliance, Meany said, "gives aid and comfort to those responsible for the despoilation of the Teamsters Union" and is detrimental in the long run to the welfare and interests of all unions affiliated with the AFL-CIO.

Meany said he looks forward to the day "when members of the Teamsters Union who have been victims of shameless exploitation by some of their leaders will take the necessary steps within this union so that it can take its proper place in the AFL-CIO."

He added it was hoped "that the ugly picture presented to the McClellan committee, portraying, as it did, betrayal of union trust, dishonesty, corruption and racketeering by some in high positions within the leadership of the Teamsters Union . . . would impel the honest and decent elements of the Teamsters leadership to seize the initiative and lead the rank-and-file members in a protest movement against these exploiters and betrayers."

**ATTENTION TEACHERS!**

This will make interesting reading for you men teachers who need additional earning during the rest of August and during the school year.

There is money selling, if you have a good product the majority of people can afford, and if you know how to present it. We trained a group of teachers in June to sell Volume Library. Here's a run down on what about 50% of this group has done in 7 weeks.

	Average hours per week	Average earnings weekly	Av. Hr. Earn.
H.A. Ill.	20	\$40	\$2.00
B.B. Iowa	45	90	2.00
G.C. Ill.	14	85	6.00
G.G. Wis.	38	200	5.00
B.J. Iowa	29	90	3.00
V.K. Wis.	36	90	2.50
J.N. Ill.	10	20	2.00
K.T. Ill.	8	20	2.50

G. G. is leading our summer group with \$1500 earned in 7 weeks. He had never sold, had been approached to sell "sets" but wouldn't because of the price. He liked the single volume idea, took the training in Coralville. If you need to earn, preferably have had no selling experience, can spend a minimum of 8-12 hours per week during your school year come to Coralville, 2 miles west of Iowa City, and talk with Dean Drury, 734 12th Ave. in the evening, or at 416 10th Ave. during the day. Phone 81201, or 84822.
