# Faubus: Don't Vote To Integrate

## University Plans New Physics-Mathematics Annex

### Will Request \$9.5-Million For Projects

A Physics-Mathematics Annex and a new Commerce Building are the two new items on SUI's capital improvement requests. SUI's total request to the 58th General Assembly in January will be approximately \$9.5 million.

If granted, the money will be used for eight building projects, some improvements in the utility systems, and for purchase of land to be used for future building sites.

#### \$3 Million Higher

The 1958 capital improvements list is more than \$3 million higher than that requested of the last General Assembly; the majority of this additional \$3 million is proposed for the Physics-Mathematics Annex and the Commerce Building.

The proposed Physics-Mathematics Annex would be five stories high and between and connect by corridors to the present Physics Building and Schaeffer Hall.

By connecting this addition, the space could be utilized for offices and classrooms by departments in both buildings.

Plans for the new addition call for the basement to be used by the Physics Department. The Mathematics-Physics Library and Reading Room (presently in the Physics Building) would be moved to the first floor of the new addition.

The second, third and fourth floors of the proposed Mathematics-Physics Annex would be of modular design, with standard modules which lend themselves to subdivision of interior space in various sizes and arrangements of space as needed for offices, classrooms and seminar rooms.

#### Movable Partitions

All of the partitions would be movable, as they are in other examples of modular construction on the SUI campus: the Medical Research Building and the University Library.

The addition would cover a 107 by 59 foot area.

With the current emphasis being given to the importance of science education in Iowa and throughout the nation, the University estimates that in the future, more and more students will be enrolled in science courses at SUI.

In asking for the new Physics-Mathematics Annex, the University points to the fact that the recent federal aid bill emphasizes science teaching in college as well as high school and this bill is almost certain to affect future enrollments.

The Physics Department is presently crowded for space; much of the cosmic ray and satellite re-

### Hawaii or Iowa City??

THE TALENT WAS WILLING at Pi Beta Phi's "Tropical Party" Thursday. It was one of the last of the sorority rushing parties prior to preference night. Judy Weber, A2, Dayton, O., started to do the hula but was interrupted by master of ceremonies, Melinda Moravec, A2, Ft. Wayne, Ind., who wanted to try some rock and roll. All the actives donned Hawaiian costumes and served punch in coconut shells to their prospective members. Fraternities pledged their new members Thursday and their names and houses are listed on Page 7. The list of sorority pledges will be published in Saturday's Daily Iowan.—Daily Iowan photos by Robert Malone.

### Dulles: Quit Shooting— Russia Raps U.S.

UNITED NATIONS, N. Y. (AP)—The United States called Thursday for a prompt cease-fire in the Formosa Strait. But the Soviet Union declared only a complete U. S. military withdrawal from the entire area including Formosa itself can bring peace to the Far East.

The opposing views on the Formosa crisis were put before the 81-nation General Assembly by Secretary of State Dulles and Soviet Foreign Minister Andrei Gromyko on the opening day of general debate.

Peiping Regime Theme Song: 'No Cease-Fire'

WASHINGTON (AP)—American hopes for negotiating the Formosa Strait crisis with Red China were jolted Thursday by Peiping's return to its old theme that a cease-fire is out of the question. U. S.—Red China ambassadorial talks on the question started Monday at Warsaw. A second session was held Thursday and a third is scheduled for Sunday.

Peiping radio came out with this declaration: "There is no question of a cease-fire since China and the United States are not at war. Officials here said that did not leave much to work with at Warsaw if Peiping persists in this attitude. There was no reason to suppose Peiping would not, since the Communist Chinese cling to this viewpoint throughout 73 previous U. S.—Red China conferences at Geneva.

### Weather Forecast

Today:  
Partly cloudy, highs in 70s.  
Saturday:  
Partly cloudy, little temperature change.

### Mad Bear Tamed, Joins The Enemy

NIAGARA FALLS, N. Y. (AP)—Wallace (Mad Bear) Anderson, leader of a faction of young braves who sparked resistance to state attempts to survey the Tuscarora Indian Reservation last spring, went to work for the state Thursday.

Mad Bear and several other Tuscaroras were in a crew installing footings for new power line towers on the reservation. The job is part of the state's Niagara redevelopment project.

### Atlas ICBM Blows Up 80 Seconds After Launching

CAPE CANAVERAL, Fla. (AP)—A fire-belching Atlas missile blew up with a violent roar 80 seconds after launching Thursday on what reportedly was the first intercontinental range attempt. The 85-foot missile thundered away on what appeared to be a perfect launching at 3:26 p.m. (Iowa time).

Shortly after it curved from its speedy vertical climb, a bright ball of orange flame was seen.

There followed in quick succession a huge puff of smoke and debris which flashed against the afternoon sun as it plunged back toward the earth.

The failure was a bitter disappointment for Convair technicians who had worked 14 months to prepare the mighty rocket for Thursday's momentous 6,325 statute mile attempt.

Fifteen minutes after launching the Air Force announced that, "Approximately 80 seconds after the Atlas was test launched the vehicle exploded itself. The cause of the malfunction is not yet known."

### Old Gold Singers Set Tryout Dates

Tryouts for the Old Gold singers, a non-music major singing group at SUI, will be held in Room 224 of University School Saturday from 9 to 12 a. m. and on Monday and Tuesday from 3 to 5 p. m.

Anyone not free at the above times may contact director Gerald L. Lawson at Ext. 2637 or 8-4280 to arrange another audition time.

The Old Gold Singers, organized last year by the SUI Alumni Association and Music Department, sings primarily popular and entertainment type of music and provides entertainment for groups throughout the area.

Last spring the group made 17 appearances and requests already have been received for this year. Tenors and baritones are particularly encouraged to audition this year. Those trying out must be free for limited travel.

### HST Nixes Presidency

ALBANY, N. Y. (AP)—Gov. Averell Harriman Thursday night proposed that ex-President Harry S. Truman come out of retirement to run for the presidency in 1960. But Truman said no.

### KKK Flags Raised In Louisiana

#### Faubus Claims Legal Segregated School Plan

LITTLE ROCK, Ark. (AP)—Gov. Orval E. Faubus, exhorting the people of Little Rock not to accept integrated schools, assured them Thursday night he has a "legal plan" to operate the high schools as private institutions, barred to Negro students.

"The plan is sound and workable," he said in a televised speech. "It is all legal."

In Virginia, Gov. J. Lindsay Almond, Jr. took charge of and closed two schools at Charlottesville after a federal judge refused to interfere with a lower court's order to integrate. The way was paved in federal court for him to take similar action at six schools in Norfolk.

#### KKK Flags

And in Louisiana, symbols of the Ku Klux Klan were raised above a state university. The KKK flags were displayed at the New Orleans branch of Louisiana State University. One was tied to an 80-foot chimney and another to an observation tower at the former naval air station.

More than 50 Negroes were admitted to the school under court order at its opening last week. Their presence led to demonstrations by white students and scrawlings on the walls of buildings which read, "Go home niggers" and "Go back to Africa."

Back in Little Rock Faubus said the U. S. Supreme Court order may mean "the destruction of our school system, our educational processes, and the risk of disorder and violence that could result in the loss of life—perhaps yours."

"This price I could not see you pay without first offering you a legal plan whereby such a catastrophe can be avoided, and still provide the opportunity of an education for our children."

Outlining the plan, he said: 1. If the people vote against integration in the special referendum Sept. 27, the facilities of the public schools "will become surplus and not needed for public school purposes."

2. The school board, then, would be free to lease the buildings to a private agency. "I am sure you are aware such an agency already has been organized," he said. He referred to the Little Rock Private School Corp., organized Wednesday.

3. He called upon the city's board of education to offer "to a private group these unoccupied buildings after the election."

He cited, as authority for this, an Arkansas law of 1875. He said the plan is sound, workable and legal, adding, "To this the advocates of the so-called 'law of the land' can have no objection."

#### Sept. 27 Important

Faubus said "complete and total integration . . . will come sooner than you think" if the city votes Sept. 27, to reopen the schools on an integrated basis, as ordered by the Supreme Court.

He said the U. S. government cannot require a state to operate public schools, nor tell a State Government how tax revenues may be spent.

Then he said regarding integration, "In all cases involving the public schools and integration, the federal courts have said only that an agency of the state cannot maintain segregated schools."

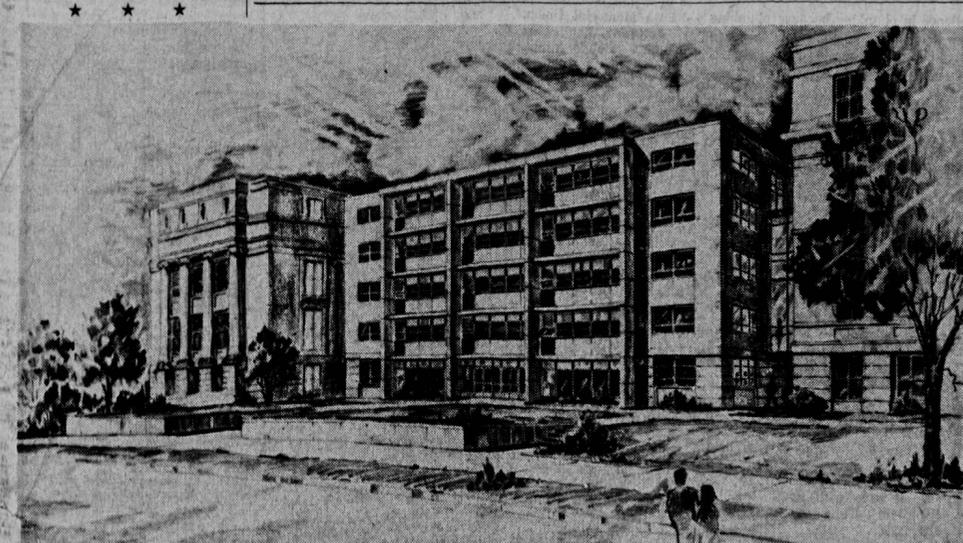

"This ruling does not apply in any way to private schools. Private schools are not affected by these decisions, even though the schools receive aid from state and federal sources."

Faubus placed heavy emphasis on the Sept. 27 balloting—although lawyers say they see no legal significance in it, in view of the Supreme Court order last week.

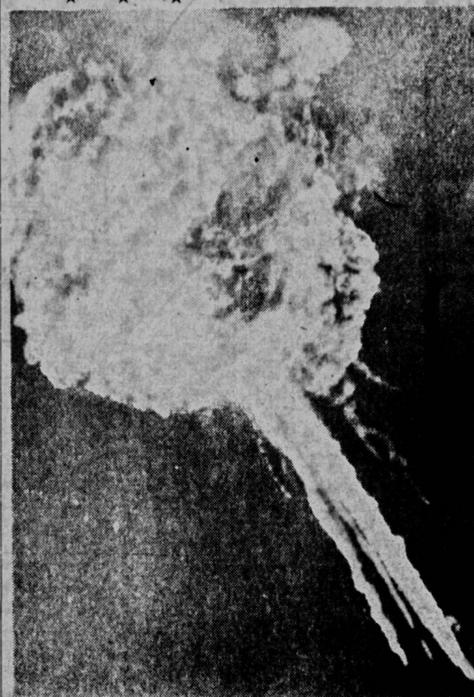

#### RUSSIAN UNDERGROUND

FRANKFURT, Germany (AP)—An organization of Russian exiles working for the overthrow of the Soviet regime claimed Thursday there are signs of organized underground activity in the U. S. S. R.

Can The Press Swing An Election?

It will be interesting this fall to see just how much power the press really has. Out in California, the Democrats are enjoying a popularity to which they are unaccustomed but are happily willing to encourage. And the Republicans - including this country's Republican press - are fighting this trend tooth and nail.

Senator Knowland

A national news magazine lately ran a Timely profile on the Democratic candidate for governor of California, Pat Brown. This magazine characterized Brown as a nervous, blustering, lone wolf but hail-fellow-well-met type who just wants to be liked. The Republican candidate, on the other hand, one William Knowland of Congressional fame, was portrayed as the loyal, brave, kind, obedient, cheerful, reverent, trustworthy Bill Knowland - friend of the working girl and her boyfriend.

We doubt if either of these caricatures are even close to accurate, but they are an indication of the manner in which the press is swinging behind the Republicans in California. (We can discount the Oakland, Calif., paper since it's Knowland-owned.)

And behind all the furor of the overwhelming vote Brown received from both parties through California's cross-filing type of primary, looms the larger issue.

California is a big power in the national political picture - second behind New York

state in representation - and any Democratic surge in state politics will undoubtedly carry over into the national scene and Congress. And with California the fastest growing state in the country population-wise, the Republicans do not take kindly to any growth of strength at the grass-roots level by the Democrats

At any rate, with the press backing Knowland and the people of California backing Pat Brown, it will be interesting to see how many minds the press has changed by the time the November elections roll around.

The Faubus Football Game

We've heard of high schools without high school football teams, but those progressives in Little Rock have come up with another first. They have a high school football team without a high school.

The whole thing came about fairly simply. Ole Orv' Faubus closed down the schools, so naturally such things as football teams, debating societies, cheating in tests, and other high school activities became a thing of the past.

But Ole Orv' hadn't reckoned with the passion the gridiron fans of Little Rock feel for the pigskin pastime. And when he saw which way the wind was blowing, Orv charged the school board with trying to in-

timidate him into opening the schools by curtailing after-school activities (which could take place just about anytime since there wasn't any school)

Well, the school board capitulated and authorized the football team to go charging back onto the field, and we're a trifle sorry. If they had waited just a little longer, Faubus might have been pressured into letting the kids go back to school as well as to football games.

After all, you may be able to buck the Federal Government and get away with it, but any coach will tell you it's pretty hard to withstand the assault of angry Football Fans.

The Many Paths To Human Dignity

Society Must Provide For Both "Mass" And "Elite" Education

By JOHN W. GARDNER Condensed from the NEA Journal

No man can say that life has been dull for American educators since the dawn of the Space Age on October 4, 1957. The clamor has been deafening. And a good deal of the uproar has been produced by individuals who never had two consecutive thoughts on education before that fateful day. Characters we had never heard of went into orbit and started beeping. Looking back on it, I think we would all agree that nothing really surprising has come out of all the commotion. The wise men said some wise things; men who weren't very well informed said some uninformed things; silly people said some silly things.

At any rate, the first flush of excitement is now over, and we have the opportunity to appraise our problems a bit more calmly.

One of the issues which has been most frequently raised in the public discussion of recent months has been the question of quality in education. I propose to discuss this question as it bears on higher education.

Arguments about quality in higher education tend to be rather heated and it must be said - rather pointless. There are many reasons why such conversations become muddled, the foremost being that they so often degenerate into arguments over "elite" versus "mass" education. People who engage in these arguments remind me of the two washerwomen whom Sydney Smith observed leaning out of their back windows and quarreling with each other across the alley: They could never agree, Smith pointed out, because they were arguing from different premises.

Our Society Cannot Oppose "Mass" With "Elite"

In the case of arguments over "elite" versus "mass" education, I am convinced that both premises should be vacated, because behind the arguments is the assumption that a society can choose to educate a few people exceedingly well or to educate a great number of people somewhat less well, but that it cannot do both.

The fallacy of this assumption is obvious. A modern society such as our cannot choose to do one or the other. It has no choice but to do both. Our kind of society calls for the maximum development of the individual potentialities at all levels.

The notion that so-called quality education and so-called mass education are mutually exclusive is simply archaic. We distort present-day reality when we try to force it into outdated molds. The demand to educate everyone up to the level of his ability and the demand for excellence in higher education are not incompatible. We must honor goals. A democracy, no less than any other form of society, must foster excellence if it is to survive.

This is easy to say, but it is not easy to bring about. We might as well confess that as a people we have some difficulty in coping with the concept of excellence. The difficulty does not lie at an ideological level. Our cherished views with respect to equality of opportunity do not deny the fact of individual differences. In fact, if we are really serious about equality of opportunity, we should be infinitely serious about individual differences because what constitutes opportunity for one man is a stone wall for the next man.

College is Not the Only Path to Dignity

If we did develop such an indomitable concern for individual differences, then we would learn to laugh at the assumption that a college education is the only avenue to human dignity and social worth. We would educate some young people by sending them on to college. We would educate others in other ways. Human dignity and worth should be assessed only in terms of those qualities of mind and spirit that are within the reach of every human being.

A genuine concern for individual differences would lead us to two extremely important emphases in education:

First, we would place greatly increased emphasis on the many kinds of human talent, upon the immensely varied ways in which individual potentialities may be realized; and second, we would place equivalent emphasis upon the great diversity of educational paths required by this diversity of talents. And no particular kind of ability or educational path would be regarded as socially superior or involving greater human dignity than any other.

Having accorded this recognition to individual differences, we should recognize the great variety of educational paths required to serve these differences. At the level of higher education, this means many kinds of institutions, and it means diversity within institutions. We should recognize that each of the different kinds of institutions has its significant part in creating the total pattern, and that each should be allowed to play its role with honor and recognition.

Junior Colleges Can Well Be "Excellent"

As things stand now, the word "excellent" is all too often reserved for the dozen or two dozen institutions which stand at the very zenith of our higher education in terms of faculty distinction, selectivity of students, and difficulty of curriculum. In these terms it is simply impossible to speak of a junior college, for example, as excellent. Yet sensible men can easily conceive of excellence in a junior college.

In higher education, as in everything else, there is no excellent performance without high morale. No morale, no excellence! And in a great many of our colleges and universities, the most stubborn enemy of high morale and therefore of excellence has been a kind of hopelessness on the part of both administration and faculty, particularly the latter - hopelessness about ever achieving distinction as an institution. Not only are such attitudes a corrosive influence on morale, they make it virtually certain that the institution will never achieve even that kind of excellence which is within its reach.

We should assert that a stubborn striving for excellence is the price of admission to reputable educational circles, and that those institutions not characterized by this striving are the slatterns of higher education. We must make the same challenging demands of students.

Humbleness Need Not Mean Shoddiness

We must recognize that there may be excellence or shoddiness in every line of human endeavor. We must learn to honor excellence (indeed to demand it) in every socially accepted human activity, however humble the activity, and to scorn shoddiness however exalted the activity. An excellent plumber is infinitely more admirable than an incompetent philosopher.

The society which scorns excellence in plumbing because plumbing is a humble activity and tolerates shoddiness in philosophy because it is an exalted activity will have neither good plumbing nor good philosophy. Neither its pipes nor its theories will hold water.

General Notices

General Notices must be received at The Daily Iowan office, Room 201, Communications Center, by 8 a.m. for publication the following morning. They must be typed or legibly written, and signed; they will not be accepted by telephone. The Daily Iowan reserves the right to edit all General Notices.

THE UNIVERSITY Cooperative Baby-sitting League book will be in the charge of Mrs. B. Conklin from September 16, 1958, to September 30, 1958. Telephone her at 5939 if a sitter or information about joining the group is desired.

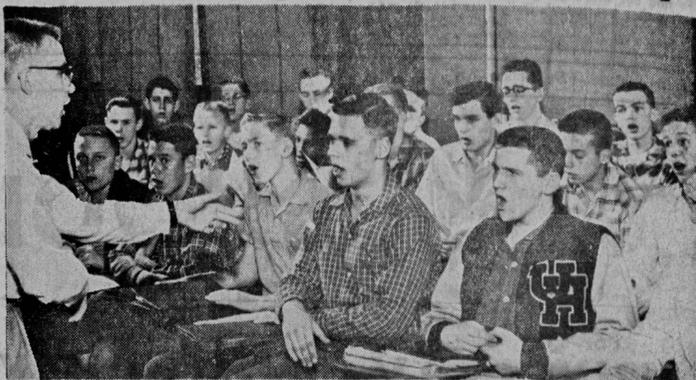

PARKING - The University parking committee reminds student motorists that the 12-hour parking limit applies to all University lots except the storage lot south of the Hydraulics Laboratory.

HIGHLANDERS - Tryouts - 4 p.m. Sunday, Sept. 21, Fieldhouse. Rehearsal Schedule - Week of Sept. 22 - Active Members - Monday, 3:30 p.m., Tuesday, 3 p.m.; Wednesday, Thursday, and Friday, 3:30 p.m.; Saturday, 9 a.m. Draw uniforms only during 1-3 p.m., on

INTERIM HOURS FOR THE MAIN LIBRARY Aug. 13 - Sept. 24 Monday - Friday - 7:30 a.m. - 5 p.m. Saturday - 7:30 a.m. - 12:00 Noon. Sunday - CLOSED.

RHODES SCHOLARSHIPS for two years' study at Oxford are offered unmarried men student who hold junior, senior, or graduate status. Those interested are asked to consult at once with R. S. Dunlap, Room 101-I University Hall, phone Ext. 2236.

NEW JOURNALISM students should attend the orientation meeting at 8 a.m. Monday in Room 305, Communications Center.

Individuals? Or merely a mass to be educated?

Terrible Catastrophe For A Humorist - Congressional (Laugh) Record Suspended

By GEORGE DIXON

The 85th Congress adjourned last Aug. 27, but a wonderful compensation for its absence was that the Congressional Record, which is popularly supposed to report its doings, kept coming in. However, a couple of days ago, even this was discontinued and the aching void became complete.

I do not know what I am going to do for funny reading matter between now and the convening of the 86th Congress on Jan. 7, 1959. I may just read the final issue over and over, savoring and re-savoring the indescribable hogwash with which it brims.

Irrelevant Nonsense

Actually the Congressional Record does not reach its apogee of irrelevant nonsense until after Congress quits. While Congress is in session it feels obligated to print a few factual reports of legislative progress now and then.

During the session all the baloney

speeches, canned eulogies, political plugs, and payoff puffs that are never actually delivered, must go into the Appendix. On days when there have been lengthy debates on the floors of House and Senate the Appendix must be limited, or the Record would run to more pages than "War and Peace." But, after adjournment, the Record is unconfined. Like an old aunt of mine, who always had shooting pains in her right side, it's all Appendix.

During the last three weeks, the Appendical asininity has mounted with every issue. It made the summit with the final edition. I would like to share with you a few of its rarer morsels.

Down the Drains

Republican Senator Leverett Saltonstall, of Massachusetts, has a 5 1/2-column plug for the United Fruit Company, which has its headquarters in Boston and is not niggardly with contributions to the GOP. Rep. Charles O. Porter, of Oregon, devotes 8 1/2 columns to the triumphs of a semi-pro ball club, most of whose talent is still in school. His panegyric begins:

"Mr. Speaker, the Drain, Oreg., Black Sox this month gained international fame by winning seven straight games in the National Baseball Congress tourney in Wichita, Kans."

While I appreciate that the Drain Black Sox may be internationally famous, I am not sure it rated 8 1/2 columns, especially when Senator Ralph W. Yarborough, of Texas, got considerably less than one

column for a bloodstirring proclamation beginning:

"Mr. President, one of Texas' great strongholds of democracy is Blacklands of north central Texas."

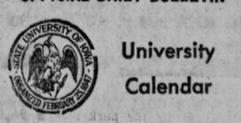

Rep. William E. Minshall, of Ohio, took space in the farewell edition to set the nation, and the world, straight on the way he voted for Mutual Security last July 2. Minshall said he had been recorded erroneously as voting "yea" when, in fact, he voted "nay." I don't recall what he was against, and I'm not going to all the trouble of looking it up now, but it's interesting to know that one doesn't have to be a horse to go "Nay."

Classified Material

Rep. James P. S. Devereaux, who is running for Governor of Maryland, expressed grief at the passing of Gen. Baron John de Kalb, who fought with Lafayette, and Rep. Lester Holtzman, of New York, reprinted a letter that a high school girl in his bailiwick wrote to Abraham Lincoln. Senator Paul H. Douglas, of Illinois, a former university professor, came out eruditely against alcoholism.

Rep. Abraham J. Multer, of New York, announced that the 14th Brooklyn Regiment acquitted itself well near Gettysburg less than a hundred years ago, and Senator Hubert H. Humphrey, of Minnesota, spoke well - for 9 1/2 columns - of the foreign policies of Senator Hubert H. Humphrey, of Minnesota. I can stand them removing Congress, but I can't stand them removing its Appendix.

OFFICIAL DAILY BULLETIN

University Calendar

FRIDAY, SEPT. 19, 1958

8 p.m. - Interfraternity Panhellenic Pledge Dance - Main Lounge, Iowa Memorial Union. Sunday, September 21 7:30 p.m. - Orientation Meeting for all new undergraduates - Fieldhouse.

Monday, September 22 1 to 5 p.m. - Registration for new students - Fieldhouse. 7 p.m. - Meeting of all new students followed by informal evening in faculty homes - Fieldhouse.

Tuesday, September 23 8 a.m. to 4:30 p.m. - Registration - Fieldhouse. 7 to 10 p.m. - Play night for all new students - Fieldhouse. Wednesday, September 24 8 to 11:30 a.m. - Registration - Fieldhouse.

1:30 to 4:30 p.m. - Activities Open House - Iowa Memorial Union. 7 to 10 p.m. - Open House for new students - President's home. 7 to 10 p.m. - Church night for new students - Student Fellowship Centers.

Thursday, September 25 Beginning of classes. 9:25 a.m. - University Induction Ceremony - West Approach to Old Capitol. 7 to 10 p.m. - Open House - President's Home. 7 to 10 p.m. - Church Night - Student Fellowship Centers.

Friday, September 26 9 a.m. to 4:30 p.m. - Tax and Accounting Seminar sponsored by the College of Commerce and the Iowa Society of Certified Public Accountants - House Chamber, Old Capitol. 7 p.m. - Pep Meeting - West Approach to Old Capitol. 8 to 12 p.m. - Union Open House - Iowa Memorial Union.

Saturday, September 27 9 a.m. - Public Affairs Symposium - Shambaugh Auditorium. 1:30 p.m. - Football, Texas Christian at Iowa City. 9 p.m. to Midnight - Post-Ballgame Party.

Tuesday, September 30 8 p.m. - AAUW Fall Reception - University Club Rooms, Iowa Memorial Union. Wednesday, October 1 4 p.m. - National Education Association - Shambaugh Auditorium.

Friday, October 3 8 to Midnight - CPC Fall Party - Iowa Memorial Union. Saturday, October 4 1:30 p.m. - Football, Air Academy at Iowa City.

NABOKOVIA A Collection Of Exotic Stories

By The Author Of Controversial 'Lolita'

NABOKOV'S DOZEN. Doubleday, \$3.50.

The title promises us a dozen, but like any good author, Vladimir Nabokov is always better than his word, and here are 13 stories.

"Stories," of course, implies fiction, and in a man with this Russian emigre's irrepressible compound of surging memory and imagination, there are probably no facts that he can really keep his hands off entirely, he must fuss them up and change and alter - though in a couple of cases he claims he has been completely true to his memory. We must doubt it. He glosses, embellishes, magnifies; like a magician, he works with a scarf but you think it's a rabbit, he begins with spades or diamonds and comes out clubs or hearts.

Apparently all these stories have been available in magazines or books, but they are of a caliber to require rereading - the woman so casual and open hearted with the gift of love; the fantastic first-person reflections of half a Siamese twin; the non-conformist; the ultimate flight; the ery ring of the telephone; the man who can see his wife, and cannot, can hear her, and cannot; the poet who didn't stay dead.

There was an American flavor to Nabokov's "Lolita" not only in the setting but in the vital and subtle interweaving of the Edgar Allen Poe story. This is pure exotic, not only Old World but other-worldly, done dispassionately and from that exalted point of view that has led so many reviewers to laugh and so many to weep at the mystic land of Nabokovia.

-W.C. Rogers

# Coralville Reservoir— Recreation Areas Planned

The water level of the Coralville Reservoir will be raised to an elevation of 667 feet by Monday, Colonel E. M. Fry, District Engineer of the Army Engineer's Rock Island District said.

The gates at Coralville Dam were officially placed in operation this week.

Until the question of the Mahaffey Bridge is resolved, the gates will be operated to hold the water level in the reservoir to that level unless greater storage is required for flood control.

The Army Engineers have developed a master plan for utilizing the recreational potential of the reservoir area. Included in the plan are picnic areas, boat launching ramps and provision for group camping.

### No Cottage Area

The plan does not provide areas for cottage sites. These areas will not be set aside until the full pattern of public use has been established after the project has been in operation for several years.

The Coralville Reservoir flood control project was constructed at an approximate cost of \$15 million over the past nine years. Initial contracts for construction were started in July, 1949, and continued until May, 1953. Construction was stopped at that time until August, 1954, because of the Korean War. Major construction activity at the dam and in the reservoir area is essentially completed now.

Under normal operation the reservoir level will be held at a low conservation pool elevation of 670 during the normal flood season from March through June to provide maximum storage capacity for control of flood waters.

During the remainder of the year a higher conservation pool elevation will be held at 680 providing water conditions permit. The conservation pool will provide water for sustaining a minimum flow of 150 cubic feet per second in the Iowa River below the dam, according to the Army Engineers.

In fulfilling its primary objective as a flood control project, the dam and reservoir will provide a substantial reduction of average annual flood damages on 31,000 acres of land in the Iowa River flood plain along an 83 mile reach of the river below the dam. About 326,000 acres in the Mississippi River flood plain below the mouth of the Iowa River will also be benefited by a reduction in high water flows.

### Protection for City

The reservoir will provide a high degree of protection to the city water plant, much of the University plans and commercial facilities in Iowa City.

From the recreational aspect, the reservoir is expected to be a valuable addition to the existing lake areas in Iowa. A lake having about 1820 acres of surface will extend above the dam when the conservation pool is held at an elevation of 670 feet. With the conservation pool at 680 as it will be during the major part of the recreation season the lake surface will be about 4900 acres. At the 680 elevation the conservation pool will be second in size only to Spirit Lake, the largest body of water in Iowa. The 4900 acre lake will extend about 27 river miles above the dam.

Reconstruction of the dam at Lake Macbride will also provide for a lake about 800 acres larger than that which existed prior to construction of the Coralville Dam.

## Coralville Recreation Areas

The Army Engineers has proposed the following in master plan for recreational facilities at the Coralville Reservoir:

- 1) Turkey Creek Heights—In the vicinity of the dam on the east side of the river. A good rock-surfaced parking and overlooking area has been built to view the lake, the dam and the control structure.
- 2) West Overlook—On the west side of the river affords a good view of the lake and the dam. A rock-surfaced road extends to this overlook from its junction with U. S. Highway 218. A road leading north to a boat ramp is planned with a parking and picnic area, not far from the ramp. A boat livery by a concessionaire near the ramp is a possible future feature.
- 3) Linder Point—Large park area beginning at a point about one fourth mile from U. S. Highway 218 and extending three fourths mile east. The north portion provides a good overlook area. The greater part of Linder Point Park is wooded and will be available for picnicking and hiking. An access road through the west part of the park is planned. A deep ravine which will be partly flooded will provide a small harbor and stopping place for boaters.
- 4) Picnic Point—Small picnic area on the west bank of the river accessible by boat only. It will provide a small picnicking and resting area for boaters. The area is about one half mile down-
- 5 & 6) East and West Boat Launching Areas—On each side of the river located near the Mahaffey Bridge. A potential picnic area is located on the high ground on the west side.
- 7) Organized Group Camp—Bordering the east side of the river west of an adjoining road leading north to the Moseman Bridge. Several organized groups may be able to make use of this area for their activities. The area is partly wooded.
- 8) Moseman Bridge Boat Camp—Boat Ramp and parking area to be constructed on the north side of the river at the site of the Moseman Bridge. It can be reached from a road to the north and is expected to be used mainly by boaters from Cedar Rapids and areas north of the ramp.
- 9) Mid River Park—Picnic and parking area on the high wooded ridge near the old Mid River station of the CR & IC Railway. It can be reached by an access road leading from the by-pass road which was built during the relocation of U. S. Highway 218.
- 10) Curtis Boat Ramp—Boat Ramp and parking area will be located on the south side of the river at the old river crossing of the bridge on U. S. Highway 218 near Curtis. It should be as easily available for use by people from Cedar Rapids as by people from Iowa City.

## Film-Lecture Series Tickets Available

Season "passports" are still available for the 1958-59 series of color Adventure Film-Lectures sponsored by the Mountaineers at SUU.

The fifteen Sunday afternoon and evening programs this year will feature films taken by noted world travelers on all six continents.

Adult season passports for any seven programs for \$2.50. Passports any 14 programs for \$7.50. SUU students and children may see any seven programs for \$2.50. Passports may be obtained by writing Film-Lectures, P.O. Box 163, Iowa City.

The six programs to be given from October through December will include "The Mighty Amazon," an exciting picture of life among the South American river, on Oct. 26; "Italy—A Tale of Ten Cities," on Nov. 9, which will show a journey along the ancient Appian Way on the road to Rome; and two programs Nov. 23 showing the Hell's Canyon country along the Snake River and the Scandinavian fiord country.

Julian Gromer will present the Amazon film, Curtis Nagel the program on Italy, and Alice and Arthur Dewey the Nov. 23 programs.

Nov. 30 Beverly Putnam will bring to the campus her story of an all-girl African safari; and Dec. 14 Charles Sharp will bring a film showing scenes inside Russia, Poland, Czechoslovakia and East Germany.

All programs will be held in Macbride Auditorium at SUU. Afternoon programs will begin at 2:30 p.m. and evening programs at 7:45 p.m.

### 3 Local Teams Play Tonight; City High Here

Iowa City's only undefeated high school team, the U-High Blue-hawks, open their quest for a share of the Eastern Iowa Hawkeye Conference crown on the road tonight as they tangle with Wapello.

Coach Bob Hoff's club, fresh from their 20-7 conquest of Kalona last week, are also facing an undefeated outfit. Wapello wrapped up their first game, 19-0 at the expense of Lone Tree in their opener.

Although neither team is considered strong enough to be a conference contender, the traditional rival incentive should be strong enough to make this one of the top Eastern Iowa contests.

Regina, in its first season of football, and still looking for its first win of the season, will invade Ft. Madison to do battle with the Bull Dog reserves.

Fort Madison will use their varsity for the first quarter, then turn to the reserves for the remainder of the contest regardless of the score.

#### City High Home

In the big one, the Hawkeyes of City High will entertain the surprisingly hot Dubuque Rams in a Mississippi Valley conference game on the City High field at 8 p.m.

Last week, the Rams soundly whipped Moline, 25-7, while the Hawkeyes dropped their opener at East Moline by a count of 28-0.

The strong Ram line of Coach Johnny Orr will be led by high school lineman of the week, Dion Kempthorne. Kempthorne was a Mississippi Valley all-conference guard last year.

#### Montgomery Top Rusher

Engineering the Dubuque winged-T attack will be junior quarterback Tom Buelow, but pacing the Ram backfield will be half-back Ken Montgomery, who racked up an amazing total of 185 yards in 19 carries — a 9.7 per try yardage — against Moline to take over the top spot in the Mississippi Valley individual rushing statistics. He is described as Dubuque's fastest and shiftest runner.

Against Moline Buelow also starred as he connected for two touchdowns.

Coach Frank Bates, of the Hawkeyes, made two major starting lineup shifts during the past week of drills as he continued his search for better blocking to spring his backfield talent free, something they couldn't do in the opener. The new faces added were Don Westcott at left guard for Bill Bralley and Steve Machovec at right end replacing Jim Dunham.

Big George Dickerson, who stepped up as head coach when Sanders died of a heart attack last month, has the same theory, and he has left unchanged most of the Bruin training routine.

#### Open Saturday

So Saturday UCLA will field a squad at full strength, with nary an injured player, when the Bruins open the season here against Pittsburgh.

Dickerson followed the Sanders pattern of departmental coaching, letting the various assistants handle their specified jobs and himself acting as general overseer.

The Bruin workouts, in Sanders fashion, are quick, fast and, for the players, generally interesting.

The one difference might be that where Sanders was never too close to the individual players, Dickerson, who was Red's assistant for his nine years at UCLA, was always the father-confessor type.

It was part of George's responsibility, and also his nature. It was to him the players brought their personal problems. If the problems needed Sanders' attention, Red assumed them.

This isn't to say that Dickerson, himself a fine lineman, is on a buddy-buddy basis with the youngsters. He commands respect.

As for the Pitt engagement, Dickerson observed:

**No Scout Report**  
"We'll be flying blind. They are not using the same attack they use to. We have no scout reports or movies on them."

"We'll have to diagnose them as the game develops."

Pitt Coach John Michelsen did indeed revise his offense. He opened it wide in spring practice, using a split end and a wingback on almost every play, and emphasized the passing game.

### Touchdown Tendencies—

By ALLEN N. SMITH

TCU 7-Point Favorite, UCLA Picked Over Pitt

The gridiron sport, without waiting for the Yankees, Braves, et al to wind up their baseball business, gets off to a roaring start this Saturday with many of the nation's top teams in action. Here's the way the Smith Touchdown Tendency System of Ratings sees them.

The top intersectional scuffle pits Pittsburgh against a much-improved UCLA squad. The System sees a 7-point win for the Bruins. Texas Christian can uphold the Lone Star State's honor with a 7-point triumph over Kansas.

Other leading intersectional contests probably will result in a 6-point victory for Missouri over Vanderbilt and a 7-point decision for Rice over Louisiana State. Penn. State appears 20 points stronger than Nebraska.

Arkansas will experience a tough struggle with Baylor, but figures to annex a one-touchdown victory. Texas A&M rates a 14-point choice over Texas Tech.

In the South, the System figures a 13-point superiority for Georgia Tech over Kentucky, a bare 7-point decision for Duke over North Carolina, a 6-point defeat of N.C. State by North Carolina and Florida a 7-point margin over Tulane. Clemson should down Virginia by 13.

In Pacific Coast games, Oregon State is expected to subdue Southern California by one, Washington State is a 6-point pick over Stanford, and California gets a 13-point nod over College of Pacific while Washington is piling up a 20-point bulge over San Jose State.

### Iowa Divides Workouts Between Offense, Defense

The Iowa Hawkeyes went through a pair of light-contact drills Thursday during which both offense and defense were stressed.

While the first team ran plays in a dummy scrimmage, the second squad was on defense against plays initiated by the reserves.

Randy Duncan Hitting Targets Again

The two teams switched from one phase to the other several times during the day.

Gerry Novack, a 205-pound junior, moved up to the No. 2 squad at guard replacing sophomore Bill Ringer and Lloyd Humphreys was back at the No. 2 center post in place of Steve Turner. Novack had not previously been listed on the 3-deep lineups while Humphreys had been second team center earlier this week.

Randy Duncan and Olen Treadway quarterbacked the first two teams respectively the last part of the afternoon workout and a great share of the plays were devoted to the aerial attack. As in Wednesday's scrimmage, both men hit their receivers time and again with bulls-eye accuracy.

Mitch Ogiogo saw limited action at quarterback. He is still trying to shake the effects of an ankle sprain received two weeks ago today.

Geno Sessi said Thursday morning that he will be out for the entire season. He said he will undergo a knee operation this morning and will not return to action this year. By missing the entire year, Sessi, who is a junior, will be available at the halfback position two more years.

### Delany Says Elliott Trains Too Much, Denies Pro Offer

PHILADELPHIA (AP)—Ron Delany, former Villanova University star, said Thursday no one ever offered him \$25,000 to turn professional along with Herb Elliott of Australia and Wes Santee, former Kansas star.

Delany, who arrived here from his home in Dublin, Ireland, Tuesday night, asserted, "every one seems to know more about it than I."

#### Has Good Job

"I wouldn't turn pro anyway. I have a good job with the Irish Airlines. I'll represent that company over here while I'm pursuing my graduate studies at Villanova."

Delany, commenting on the mile race Elliott won in world record time of 3:54.5 in Dublin a month ago, said:

"The pace was fast all the way through. I thought I was in the wrong race. That Elliott is something. He does nothing but train. Before that race, he did 25 miles a day and when he remained away from the track he took a 30 mile walk."

#### No Fun in It

"If you have to work that hard there is no fun in it. I practiced about 30 minutes a day before the race. The pace was so fast that if I hadn't been running before

### Seixas, Richardson Gain Semifinals In Tennis Tourney

LOS ANGELES (AP)—Vic Seixas and Ham Richardson survived both the heat and two troublesome challengers Thursday and gained the semifinals of the Pacific Southwest Tennis Championships.

In an exhausting quarter-final matches, Seixas knocked off Sweden's Ulf Schmidt 4-6, 6-2, 8-6, 11-9, and Richardson ended the upset run of ex-Stanford quarterback Jackie Douglas 7-5, 6-2, 5-7, 6-4.

### Ronnie Knox Back in Canadian League

TORONTO (AP)—Ronnie Knox, one-time glamor boy of college football, will report to the Toronto Argonauts of the Big Four Union late Thursday, it was announced by Managing Director Lew Hayman.

quarterback property of the Chicago Bears of the National Football League, has been loaned to the Argonauts for this season. Knox is a former star with UCLA. He played seven games—at \$1,000 a game—for Hamilton of the Big Four in 1956.

## Do You Think for Yourself? (TAKE THIS TEST AND FIND OUT!\*)

Do you believe you could fool a lie-detector machine if you put your mind to it? YES  NO

Do you believe society should adopt new ideas at the expense of old traditions? YES  NO

Are you completely at ease when people watch you at work? YES  NO

Do you judge your parents as you do other people? YES  NO

Do your emotions ever lead you to do something that seems unreasonable, even to yourself? YES  NO

Do you try to plan ahead rather than make snap judgment decisions? YES  NO

If your roommate suddenly inherited a million dollars, are you sure your relationship would remain the same? YES  NO

Can you honestly say you pay more attention to political issues than to the personalities of the candidates? YES  NO

**The Man Who Thinks for Himself Knows...**

ONLY VICEROY HAS A THINKING MAN'S FILTER... A SMOKING MAN'S TASTE!

One more question: Do you think about the filter cigarette you choose or just smoke any brand? If you're the kind of person who *thinks for himself*... you use judgment in your choice of cigarettes, as in everything else.

Men and women who think for themselves usually smoke VICEROY. Their reasons? Best in the world. They know the difference between fact and fancy. They know that only VICEROY has a *thinking man's filter* and a *smoking man's taste*.

\*IF YOU HAVE ANSWERED YES TO 6 OF THESE QUESTIONS YOU ARE A PERSON WHO THINKS FOR HIMSELF!

Now at .318, Runnels at .319—

# Williams Gains In AL Batting Race

## Braves Win, Magic No. 2 For 2nd Flag

KANSAS CITY (AP) — Back-to-back homers by Bill Tuttle and Roger Maris in the first inning started the Kansas City Athletics off to a 4-1 verdict over the Boston Red Sox behind the 5-hit pitching of Bud Daley Thursday.

Bob Cerv also came through with a bases empty homer for the A's in the eighth, his 37th of the season. The Sox scored their lone tally on a home run by catcher Pete Daley in the second.

Pete Runnels, the American League's leading batter, went hitless in four trips and his average dropped from .322 to .319, a percentage point ahead of teammate Ted Williams. Ted got one hit in three times at bat to remain at .318 in the chase for batting honors. Cerv's home run, his only hit in three times up, kept him at .315.

The setback was the ninth for the Red Sox in their last 10 games. Meanwhile, the A's took over possession of sixth place, 2½ games back to Boston.

Kansas City . . . 010 000 000—1 5 0  
Boston . . . 010 000 018—4 7 0  
Boswell, Wall (7) and P. Daley, White (7); B. Daley and Chitt. L. — Bowfield.

Home runs — Boston, P. Daley (2), Kansas City, Tuttle (10), Maris (20), Cerv (37).

### ChiSox 6, Orioles 2

CHICAGO (AP) — Brilliant relief pitching by Barry Latman, 22-year-old right hander, gave the Chicago White Sox a 6-2 victory over the Baltimore Orioles Thursday.

Latman relieved veteran Ray Moore with two runs in one out and two on base in the first inning. Relying chiefly on a blazing fast ball he gave up only three hits until he walked the first man in the ninth. Turk Lown relieved him then and retired three in a row.

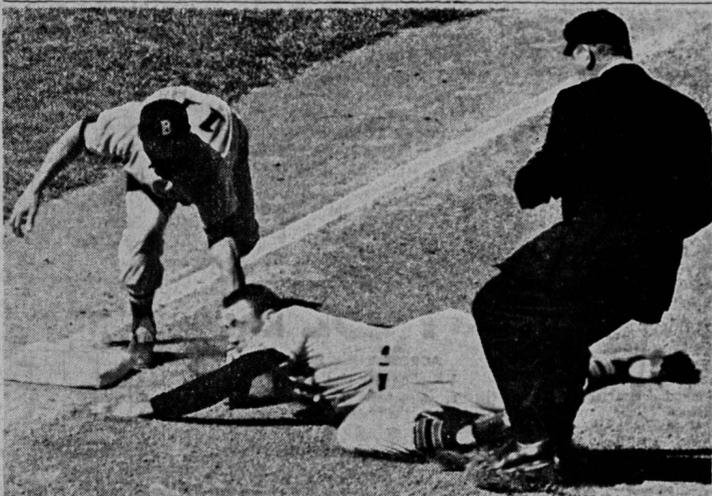

Jack Harshman was the loser.

### Pirates Get OK For Series Plans

PITTSBURGH (AP) — The Pittsburgh Pirates said Thursday they have received permission from Baseball Commissioner Ford Frick to have plates for World Series tickets prepared.

The Pirates are 5½ games behind the league-leading Milwaukee Braves but still have a mathematical chance of winning the pennant. The Pirates have seven games remaining and the Braves eight.

The Pirates front office stressed that it is not having tickets printed. Only the plates used to print tickets are being made.

Just Missed a 3-Bagger

KANSAS CITY'S BILL TUTTLE was tagged at third base by Boston's Frank Malzone when he tried to stretch a double into a triple in the second inning of Thursday's game. The play went from Jim Piersall to Don Buddin to Malzone. Umpire Frank Umont called the play. Tuttle had homered in the first inning as the A's won, 4-1.

He was unable to go the route against his former teammates for the sixth time in eight starts.

After striking out the first man to face him, Moore walked three in a row. Then Gus Triandos singled for two runs. That's where Latman took over and retired the side on a double play.

Baltimore . . . 200 000 000—2 4 1  
Chicago . . . 010 020 026—6 7 0  
Harshman, Loes (7) and Triandos; Moore, Latman (11), Lown (9) and Lohar. W — Latman; L — Harshman. Home run — Chicago, Boone (13).

### Braves 9, Cards 3

ST. LOUIS (AP) — The Milwaukee Braves lowered their "magic number" to two with a 9-3 defeat of the St. Louis Cardinals Thursday night.

Former Cardinal Red Schoendienst hit safely four out of five times, including three doubles.

Now any combination of two Brave victories or two Pittsburgh Pirate losses will bring a National League pennant to Milwaukee for the second season in a row.

The Braves spotted the Cards two runs in the first inning but came back with a 4-run, 5-hit attack in the fourth, knocking Red Bird starter Sad Sam Jones out of the box and giving pitcher Bob Rush the lead. Rush is now 10-6 for the season.

Milwaukee . . . 000 401 103—9 13 0  
St. Louis . . . 200 001 000—3 11 1  
Rush and Crandall; Jones, Wight (4), Chittum (2) and Green, L. — Jones. Home runs — Milwaukee, Logan (11), Pafko (3).

## Red Hot Johansson Seeks Title Scrap With Patterson

NEW YORK (AP) — Promoter Bill Rosensohn returned from Sweden Thursday hopeful of making a title fight between Heavyweight Champion Floyd Patterson and Sweden's undefeated Ingemar Johansson next June.

"Johansson is red hot now after his one-round knockout of Eddie Machen," said Rosensohn. "He and Patterson could draw a million dollar gate and maybe twice that on theater television."

"I had some long talks with Edwin Ahlquist, Johansson's manager. As you know I offered them \$100,000 for a fight with Patterson. I'm sure we can get together. I expect to see Cus D'Amato, Patterson's manager, in the next day or so to discuss the fight with him."

How about Sid Flaherty's Machen has a contract for a return bout with Johansson before Johansson could fight Patterson?

"From what I was able to gather in my talks with Ahlquist that contract is not legally binding," said Rosensohn. "I'm not worried about it myself. I'm going ahead with plans for the fight."

## Shadow Wave Captures No. 1 Pace Classic

DELEWARE, Ohio (AP) — Shadow Wave which did not race as a 2-year-old, flashed a pair of 2:01 miles Thursday over Delaware County Fairgrounds' half-mile oval to capture the country's No. 1 classic for 3-year-old pacers, the Little Brown Jug.

The chestnut son of Adios, driven by diminutive Joe O'Brien, was never in trouble as he made all but one post a winning one in capturing two straight heats.

### Favorite Sixth

Bye Bye Byrd, the world record holder at 1:57, 4-5 and a pre-race favorite, never figured in the 13th annual classic. He finished sixth in each heat, once eight lengths off the pace, and once 11 lengths back.

Shadow Wave, owned by the S. A. Camp Farm of Shafter, Calif., and superbly handled by the Canadian-born O'Brien, was off the pace only at the end of the first quarter of the first mile, where O'Brien Hanover led by a head.

Shadow Wave moved out front at the half and won going away from Thorpe Hanover by two and a quarter lengths. In the second heat, Shadow Wave broke in front and was never seriously challenged. He finished a length and a half ahead of Thorpe Hanover.

Wins \$36,541

The speedy chestnut, which had collected \$31,031 in winning 13 of 22 previous heats this year, added \$36,541.64 to his payroll, the major portion of the \$65,252.94 purse.

His pot was the greatest ever taken by a Jug winner.

Del Miller, in the sulky behind Thorpe Hanover as the latter chased Shadow Wave across the finish line, finished second in the Jug for the fourth straight year for a \$13,050 payoff.

## Ortiz 8-5 Favorite Over Busso

NEW YORK (AP) — Johnny Busso won a split decision in their first fight but Carlos Ortiz Thursday was a firm 8-5 choice to even the score tonight. The two young, lightweight contenders from New York clash at Madison Square Garden in a 10-round television bout.

Busso, 24, and third ranking among the 135-pound contenders, came on strong in the last four rounds to hand Ortiz, 22, and ranked fifth, his first pro loss in 28 scraps, June 27.

It was a fast, brisk battle all the way. Two officials gave it to Busso, 5-4-1 while a third saw Ortiz the winner by a 6-4 score. Ortiz was a 9-5 favorite that night.

A right handed blow to the jaw that sent Ortiz reeling to the ropes in the eighth round turned the tide. Busso apparently has more power in his right but Ortiz is a faster man with either fist.

Despite the odds, tonight's fight could be just as close as the first one. Busso is seeking his fourth straight victory.

## Grand Opening

THE NEW J. C. PENNEY Co. opened Thursday morning in Iowa City and many shoppers were on hand to look over the new building and merchandise. The new store is L-shaped with 137-foot frontage on College Street and 75½ feet on Dubuque Street. The store has 26,500 feet of floor space, about double that of its former location. A. H. Arneson, manager of the Iowa City Penney Co., said the new store will feature all of the newest innovations in retailing with particular emphasis on a attractive presentation of merchandise. All departments in the new store have been increased in size compared with the former Penney store. —Daily Iowan Photo.

### NEW PROJECTS—

(Continued from page 1)

search, for instance, is now carried on in the basement hallway of the Physics Building for lack of other laboratory space.

**More Economical**  
University estimates show that a new building especially designed to provide classroom and office space is more economical to build than a laboratory building or a building in which laboratories are included with classes and offices.

A new building for the College of Commerce is the second new item on the SUI capital improvements list.

The proposed 175 by 52 foot Commerce Building also would be five stories high and would be located on the north side of Iowa Avenue, between Dubuque and Clinton Streets.

Like the Mathematics-Physics Annex, the Commerce Building will be essentially an office and classroom building, with space available to other departments as needed.

The University anticipates that the SUI College of Commerce will be one of the faster growing colleges on the campus, probably doubling in size as SUI enrollments continue to increase.

**Many Non-Majors**  
Besides the courses offered to commerce majors, the College of Commerce also teaches a number of non-majors and provides "service courses" for other departments.

University figures show that the total teaching responsibility in the College of Commerce extends to approximately 40 per cent more students than are enrolled as commerce majors.

In addition to the expected increase needed in teaching facilities, the University anticipates increasing demands for services which the College of Commerce provides to Iowa businesses through its service bureaus.

Many of these service bureaus are now located in various temporary and permanent buildings around the campus.

In asking for the new Commerce Building the University explains that it is always desirable for a major college to be located in a building especially planned and arranged for its particular purposes and operations, and this is also a factor in maintaining accreditation for a college.

**Higher Costs Noted**  
The University's Legislative requests for capital improvements for the 1959-61 biennium are for the same projects as requested of the last legislature — with the amounts requested necessarily adjusted upward to reflect recent building cost increases — plus the two new buildings.

SUI's capital improvement requests to be presented to the 58th General Assembly include, in order of request, the following:

1. An addition to the Law Center and additional equipment — \$392,500.
2. Modernization of utility service to campus buildings — \$1,869,500.
3. Construction of a Volatile Storage Building adjacent to the Chemistry - Pharmacy - Botany Building — \$95,000.
4. An addition at the southwest corner of the University Library — \$945,000.
5. Improvement at the Iowa Lakeside Laboratory on Lake Okoboji — \$31,500.
6. Land purchase for future SUI buildings — \$157,500.
7. Construction and new equipment for a new Pharmacy Building on a site near University Hospitals — \$1,638,000.
8. Construction and equipment for a new chemistry wing on the present Chemistry - Pharmacy - Botany Building — \$1,543,500.
9. Construction and equipment for the Physics-Mathematics Annex — \$1,250,000.
10. Construction and equipment for the Commerce Building — \$1,522,000.

## Thursday's Score: 5 Migs, 3 Boats

TAIPEI, Formosa, Friday (AP) — Chinese Nationalist jet pilots claimed Friday they shot down five Communist MIGs and sank three Red torpedo boats in the Quemoy area Thursday.

They claimed also the possible destruction of a sixth MIG and damage to a fourth PT-boat. Nationalist Air Force headquarters reported all its Sabre Jets returned to base safely. U.S. headquarters said no American pilots were in the action.

But the American Command on Formosa has indicated U.S. jet fighters will go into action to aid the Nationalists if Communist planes attack Nationalist cargo planes making supply drops on the offshore islands. The Reds thus far have refrained from such attacks.

**Reds Down Plane**  
The Communists charged that 16 Nationalist planes flew over Fukien Province on the mainland Thursday and that one was shot down and another hit. Peiping Radio made no mention of any losses to its planes or torpedo boats.

Another broadcast, however, charged that American warships penetrated Red Chinese territorial waters six times Thursday and quoted a Foreign Ministry spokesman as calling these "serious armed provocations." He said the Red Chinese Government was giving its "sixth warning against these provocations."

The dogfights over Quemoy took place as the Nationalist planes were escorting a supply convoy to besieged Quemoy. While the sky battle was going on, two more LSTs (landing ship, tank) managed to run the Red artillery blockade of the island and unload supplies, the Nationalists said.

In recent days the Reds have relied solely on their artillery to try to turn back Nationalist convoys, but this time they sent out MIGs and torpedo boats. The official Nationalist account said four of the speedy PT-boats attacked Nationalist convoy vessels in mid-afternoon about 11 miles southeast of Quemoy. That was when Nationalist Sabre Jets swooped down on the torpedo boats.

**30 Red Planes**  
In the late afternoon, the Nationalists said, the Communists sent out MIGs, and swirling dogfights started. The total number of Red planes in action was put by the Nationalists at 30, compared to only four Nationalist Sabre Jets.

The bag of five MIGs and possibly a sixth was the second highest claimed by the Nationalists since hostilities in the Formosa Strait flared anew Aug. 23. The Nationalists claimed destruction of seven MIGs and damage to two more on Sept. 8.

The only setback acknowledged by Taipei was damage to a supply convoy patrol vessel hit by Communist shore guns but towed to safety.

In the Quemoy artillery duel, the Nationalists replied to a furious attack, but to what extent the defense ministry did not disclose. It is common knowledge they have to be much more careful in their expenditure of shells because of their supply problem.

## Rebel Shoots U.S. Consul

NICOSIA, Cyprus (AP) — A young gunman seriously wounded U.S. Vice Consul John Page Wentworth in his garden here Thursday night. It was an apparently misguided terrorist attack that came just after Wentworth had finished a romp with his tiny daughter.

He was hit twice in the stomach and once in a leg by bullets fired over the garden fence near the New U.S. consulate building on Likavitos Hill. The gunman escaped.

Wentworth was taken to the British Military Hospital here and officially listed as in dangerous condition.

## Sign Up for Hawkeyes During Registration

All SUI students will have an opportunity to subscribe for a 1959 Hawkeye during the three days of registration next week, Walter Barbee, A3, Spirit Lake, 1959 yearbook business manager said Thursday.

Freshmen, sophomores, juniors and graduate students may sign for their copies at the Hawkeye booth in the Fieldhouse, just outside the exit door of the registration area.

No money is necessary in subscribing for the book at this time because payment isn't required until just before second semester registration. A student may, how-

ever, pay for his book at any time during November or December.

Barbee emphasized that there will be no sale of books at publication time next May.

"The only way to be sure of obtaining a copy here in the fall," Barbee said, "and the easiest way to sign up is at the Fieldhouse during registration."

Seniors will receive a free copy of the 1959 Hawkeye if they are to be graduated in February, June or August of next year.

To obtain this copy, each senior must make application to the registrar for the book. This may be done during registration in the checkout lane at the senior table.

## Will Oppose 10-HP Limit On Reservoir

Definite action to oppose a 10 horsepower limit on the Coralville Reservoir Lake was taken by a newly organized group, the Coralville Lake Recreation Committee, Thursday night.

After voting to form a permanent organization, representatives of organizations interested in developing the reservoir recreation facilities named Dick Clark, Cedar Rapids, a committee of one to investigate the horsepower ruling.

The U. S. Army Corps of Engineers at Rock Island, announced Thursday, that only boats with motors of 10 horsepower or less will be permitted on the Coralville Reservoir Lake.

Wendel Simonson, game warden, said the Conservation Commission had made no recommendation for a horsepower limit on the Lake and he could not see how such a rule could be enforced.

Representative Fred Schwengel (R-Davenport) met with the group and assured them that he would do all he could to give them his support. Schwengel is a member of the House Public Works Committee.

A 10-man committee was named to organize the new group, which includes representatives of the Iowa City and Cedar Rapids Boat Clubs, the Junior and Senior Chamber of Commerce organizations from Iowa City and Cedar Rapids, the Isaac Walton League, the Coast Guard Auxiliary, the State Conservation Commission, the Redmen, sporting goods dealers, recreation directors and cottage site interests.

Members of the committee include: Wendie Thomas, Clarence Updegraff, Cliff Hoag, Russ Putnam and Murvin Perry of Iowa City; Dick Clark, Roy Gaddis, Leslie Edmonds and Ed Lieske of Cedar Rapids; and C. D. Schlessel-manna, Cou Falls.

## SUI Grad Elected Industrial Prexy

Richard J. Healy, son of Mrs. John J. Healy, 322 N. Linn St., Iowa City and an SUI grad, was elected president of the American Society for Industrial Security in Washington, D.C. last week.

Healy is assistant director of industrial relations for security at the Ramo-Woodridge Corporation, Los Angeles.

## Iowa Citian's Jewelry Exhibited

The Davenport Municipal Art Gallery, in connection with a fall opening show of Iowa and Illinois artists, has placed a jewelry collection belonging to Mrs. Jennie Adams, 1601 Jackson Ave., Iowa City, on exhibition from Sept. 7 to Oct. 15.

Mrs. Adams, an SUI graduate, designed and executed the jewelry. Her work on display includes pendants, earrings, and bracelets.

## News Digest

### Commuter Train Safety Devices Were Working Properly

NEW YORK (AP)—A signal engineer said Thursday all safety devices were operating properly when a Jersey Central commuter train ran through them Monday and plunged through an open drawbridge into Newark Bay.

Bodies of seven more victims were washed ashore at Bayonne, N. J., during the day, bringing the number of confirmed dead to 34. The number listed as still missing indicate a final death toll of over 50.

Opening testimony at the ICC hearing deepened the mystery of why the 5-coach train had ripped through a derailing switch and plowed over bare ties for 490 feet before it hit the open draw.

Police investigators have said the train's brakes were on and its throttle at very low speed when it hit the water.

### Nine Convicts Riot At Idaho Penitentiary

BOISE, Idaho (AP) — Nine convicts staged a brief rebellion at the Idaho Penitentiary Thursday, and held 10 unarmed guards hostage for a little more than an hour.

They gave up when a single official walked into the cell block and told their ringleader they could talk to newsmen but if they didn't surrender in 10 minutes.

### Britain To Withdraw Infantry from Cyprus

LONDON (AP)—Britain announced Thursday night it will soon withdraw from Cyprus an infantry brigade stationed there to meet possible emergencies in the Mideast.

A Defence Ministry spokesman said two of the brigade's three regiments will return to Britain early next week and the third will take over garrison duty in Libya.

The number of troops involved was not disclosed.

### AF Cadet Invited to Judge Miss California Pageant

COLORADO SPRINGS, Colo. (AP) — Remember that U.S. Air Force Academy cadet who had two girl friends in the Miss America beauty pageant?

Next year Cadet Edward Hopkins, 21, if he chooses, may get a close look at a lot of good-looking girls. He has been invited to be a judge at the Miss California pageant next June.

### First American Wounded On Quemoy Since Renewed Hostilities

TAIPEI (AP)—An American soldier wounded on Quemoy arrived in Taipei Friday on a Nationalist evacuation plane.

He was the first reported American casualty since renewal of hostilities for the offshore islands Aug. 23.

The soldier, Army Specialist 3. C. George Johnston of Springdale, Pa., received an arm wound during a Communist artillery shelling.

Johnston was attached to the small U. S. Military Assistance Advisory Group on Quemoy.

## High Scholastic Average

**WINNER OF THE BRIGGS Award, John Price E4, Iowa City, received an engraved medallion this week from SUI President Virgil M. Hancer. The award is given annually to the senior with the highest scholastic average, who was elected to Phi Eta Sigma, honorary scholastic fraternity, as a freshman. Price will enroll at SUI this fall for his final year in electrical engineering. He was employed this summer with the military products division of International Business Machines, Corp., Poughkeepsie, N. Y.**

## Today's The Day! Sorority Pledges to Get Invitations at 4:30

Prospective sorority pledges will be tense today as they wait for the news of their acceptance into the sorority of their choice.

Envelopes containing invitations to pledge will be distributed to the rushees at their housing units this afternoon at 4:30.

Amid the maze of fraternity men, taxis and waiting cars, the girls will go to their respective houses for the formal pledging ceremony at 5 p.m.

Screams of elation and tears of joy will be apparent as the girls arrive. After many frantic phone calls to anxious parents, the girls will have dinner at the house.

Most new pledge classes will then be escorted to the Pledge Prom for the active and pledge members of the sororities and fraternities.

## SUI Officers At Retreat

Officers of social fraternities at SUI are attending the second annual Interfraternity Council Leadership Retreat, which opened Thursday afternoon at the Wapsie Y Camp near Cedar Rapids.

"Academic Ethics in Fraternities" is the theme of the retreat, planned especially for presidents and pledge masters of the University's 20 social fraternities.

Consultants for the retreat include Robert Wilcox, SUI Student Health Service, and Arthur Mittman, director of SUI's examination service, Frank Nash, Iowa City, president of the SUI Alumni Interfraternity Council; SUI Dean of Students, M.L. Huit; Ronald Roskens, SUI fraternity advisor; George Marx, scholastic advisor to SUI fraternities, and Dirck Brown, SUI counselor to men.

## Johnson County Woman Killed

WASHINGTON, Iowa (AP)—Mrs. Barbara Maier, 58, a farmwife of near Iowa City, was fatally injured Thursday afternoon when her car struck a bridge abutment on Iowa 92 about two miles east of here. She died later in the Washington County Hospital.

Deputy Sheriff Robert Swift said Mrs. Maier was driving alone in her eastbound car when it went out of control, swerved to the side, hit the bridge and landed against a fence. The victim was the wife of Anton Maier.

The car, a 1956 Cadillac, was a total loss. It was the third highway fatality in Washington County this year.

# 21 SUIlowsans To Receive Certificates

Twenty-one SUI students will receive certificates today for completion of the 12-month course in physical therapy at SUI.

Five of the seven Iowans in the group and two from out of state will work in Iowa institutions. Dr. Wm. D. Paul is in charge of the course and Mrs. Olive Farr is physical therapy director.

Nine months of the year-long program are given to specialized courses in basic and medical sciences and technical subjects, and three months to supervised practice of physical therapy in three of the following institutions: University Hospitals, the Hospital School for Severely Handicapped Children and the V.A. Hospital, all in Iowa City; and University Hospital and Creighton Memorial St. Joseph's Hospital, Omaha, Neb.

Students must hold a bachelor's degree from a recognized college for admission to the course, which is part of the SUI graduate college.

Graduates of the SUI course are eligible for membership in the American Physical Therapy Association. Before receiving certificates from SUI, they must pass the examination given by the American Registry of Physical Therapists. The group receiving certificates today brings to 276 the total number of graduates of the course since the first class finished in 1943. From 1942-46 the physical therapy program was given as an emergency course at the request of the Army.

SUI students receiving certificates in physical therapy today are: Nick Piper, Ames; Robert Davison, Burlington; Robert Banwell, Clarion; Mrs. Jill Armstrong Faber, Dubuque; Marilyn Weydett, Dubuque; Peter Turner, Mason City; Jim Dahm, Pella; Paul Kirkegaard, Sioux City; Fred Duhart, Orlando, Fla.; Mrs. Barbara Babcock Berglund, Rockford, Ill.; Robert Beardsley, Rock Island, Ill.; Robert Greenwood, Lafayette, Ind.; Eleanor Earl, South Bend, Ind.; Natalie Grodnik, Minneapolis, Minn.; Richard DonTigny, Harve, Montana; William Penn, Broken Bow, Neb.; Dick Ellis, Trenton, Neb.; Jesse Coulter, Orangeburg, S.C.; Louis Weiland, Mitchell, S.D.; Brian Taugher, Berlin, Wis.; Mrs. Panayota Varouxi Chari, Athens, Greece.

## Greeks to Give Pledge Prom For New Classes

Large reproductions of the fraternity and sorority pledge pins will decorate the Iowa Memorial Union Lounge tonight at the annual Pledge Prom. From 8:30 to 11:30 p.m.

The dance is sponsored by Women's Panhellenic Association and is designed to introduce the new pledge classes to each other and the other active Greeks.

will provide the music. During intermission, several groups of sorority and fraternity activities will present skills and entertainment.

The dance was initiated last year as a means of acquainting the new pledges with each other. The party is not a date affair, and most houses will come in groups.

## Far East Meeting Postponed

NEWPORT, R.I. (AP)—President Eisenhower Thursday night postponed until next week a scheduled meeting with two of the nation's top defense chiefs on Far Eastern and other problems.

The President originally planned to meet at the summer White House here Friday with Secretary of Defense McElroy and the chairman of the Joint Chiefs of Staff, Gen. Nathan F. Twining, but White House press secretary James C. Hagerty phoned newsmen that the conferences are off until next Tuesday.

Hagerty said it had been decided there was no need for the two officials to fly here since Mr. Eisenhower will be returning to Washington for the day, at least next Tuesday and can see them at the White House.

This underlined an earlier statement by Hagerty that there was no emergency nature about the meetings.

## Paul Shaw Picked For Ford Survey

Paul Shaw, 528 E. College St., Iowa City is one of 18 Iowa residents selected to represent their hometown during the 1959 Ford Consumers Conference, composed of 400 representative American automobile buyers from all parts of the nation at Dearborn, Mich.

Chambers of Commerce in the 18 Iowa cities assisted the Gallup Organization in choosing hometown representatives from among the various local service clubs.

Ford created the Consumers Conference to demonstrate the extensive steps it takes to produce a car the public wants and buys, and also to combat criticism from some quarters that industry does not design the cars with the public in mind.

# Rackets Probe Ends; New Laws Demanded

WASHINGTON (AP)—The Senate Rackets Committee ended a 7-week probe of Teamsters Union scandals Thursday with demands for corrective legislation at all levels of government.

Sen. Irving M. Ives (R-N.Y.), vice chairman of the group, said "the American people should rise up and demand that this thing be corrected."

The record of hearings, he asserted, is packed with evidence of misconduct by Teamsters officials crying out for corrective steps by local law enforcement officials and for new federal laws.

"There is just no end to the scandals," Sen. Frank Church (D-Idaho) exclaimed as the hearings were adjourned until after the November elections. "The Teamsters' treasuries seem to have attracted a host of parasites."

The final day of this phase of the investigation brought these other developments:

**New Developments**

- The committee produced evidence of alleged collusion between James R. Hoffa, Teamsters president, and Chicago insurance men Allen Dorfman and Dr. Leo Pearlman which was said to have cost union welfare funds more than \$600,000.
- Counsel for the committee said he has evidence that Hoffa once threatened to have a lawyer for a rival union bumped off. Hoffa denied it 14 times in subsequent questioning. The chesty lieutenant Teamsters boss swore that he never told Sol Lipman, attorney for the Retail Clerks Union, that he could have him shot with impunity.
- Hoffa announced he was going to try to get Godfrey P. Schmidt, a New York lawyer, thrown off the union's court-appointed monitoring board.

**Costly Hospital Plan**

Allen Mayerson, assistant professor of insurance and actuarial mathematics at the University of Michigan, testified the union had chosen the most costly way of handling the sickness, hospital, and death benefit insurance program of its 22-state Central Conference of Teamsters and its Michigan Conference.

Mayerson said the welfare funds had paid Dorfman and Pearlman commissions at least twice as much as others normally charge.

He said his studies show that the Union Casualty and U.S. Life Insurance Co., jointly got the contract and that the Teamsters paid in the first three years alone between \$600,000 and \$650,000 more for insurance coverage than rival bidders would have charged.

Hoffa acknowledged he had an angry meeting with Lipman on an unspecified date and had told him the Clerks were making a mistake in a break with the Teamsters.

Robert F. Kennedy, committee counsel, asked whether Hoffa hadn't told Lipman he could have him killed without fear "because juries treated you very well."

"I did not say to Sol Lipman anything like that," Hoffa exploded.

Hoffa disclosed he intends to ask U.S. Dist. Judge F. Dickinson Letts to oust Godfrey P. Schmidt from the Teamsters' board of monitors. Schmidt was one of three men appointed by Letts last January to oversee union operations during Hoffa's term as president.

# Highlanders To Elect Committee, Hold Tryouts

The SUI Scottish Highlanders will elect their governing committee and hold tryouts for prospective members Sunday afternoon, according to Pipemaster William Adamson.

The Highlanders, the world's largest bagpipe band and an all-girl organization, will elect five members to the governing committee from among some 90 active members returning to the organization this year. The election is slated for 3:45 p.m. Sunday at the Highlander barracks. From the governing committee, one SUI co-ed will be elected chairman of the organization.

The tryouts for new members of the Highlanders will be held at 4 p.m. on the main floor of the SUI Fieldhouse, west of the basketball court. Because of the Highlanders' international fame for playing and performing traditional Scottish tunes and dances, some 350 to 400 freshmen are expected to try out, Adamson says.

During the tryouts, the prospective members will be grouped in tens and taught the first step of the "Highland Fling." Although the auditions are not based on the ability to play drums or bagpipes, Adamson says a musical background and marching experience are desired. The governing committee and Adamson make the final selection of those to be admitted to the organization.

Those active members returning have worked with the group for at least one year. They will begin rehearsals Monday and will make their first appearance of the season at the Iowa-Texas Christian football game in Iowa City Sept. 27.

**POWER LOAN**

WASHINGTON (AP)—The Rural Electrification Administration Thursday approved a \$137,000 loan to the Spink Electric Cooperative, Redfield, S. D., to improve its rural power system.

# This Week In Pictures

## Tragedy Struck In Jersey . . .

**DEATH RODE THE RAILS** in New Jersey Monday when a commuter train plunged into Newark Bay while a lift-type drawbridge was only partially lowered. Two engines and two other coaches (beside the partially submerged coach pictured) sank into the 35-foot-deep waters. Although rescue workers saved as many lives as possible, the death toll had raised to 27 by week's end. Investigation disclosed that the train's engineer, who died in his cab, had a heart condition which probably contributed to the accident since the train ignored warning signals on the approach to the drawbridge.

## Milwaukee Got Series-Happy . . .

**BRAVES FANS** stood in the rain in Milwaukee Wednesday, waiting to drop World Series ticket orders into a special mail box in front of the main post office. All the orders dropped in Wednesday were to be postmarked at 12:01 a.m. Thursday—the earliest postmark the club would accept for the order. Going into their Friday night game with the St. Louis Cardinals, the Braves needed only three wins to clinch the National League pennant.

## And The Cards' Hutch Got Fired . . .

**ST. LOUIS** Cardinal manager Fred Hutchinson had a grim look Wednesday when general manager Bing Devine relieved Hutchinson of his duties. Last year, Hutchinson steered the Red Birds into second place in the National League but the Cards have limped along in the second division much of this season. With only days to go, the Cardinals look to be fighting it out for the lower rung of the first division ladder. Third base coach Stan Hack will finish out the season as Cardinal manager.

## Rah! Rah! Little Rock . . .

**INTEGRATION** halted the Little Rock Central High School winning streak at 35 games, but only temporarily. After Gov. Orville Faubus closed the school to thwart the Supreme Court's desegregation decision, all extra-curricular activities were suspended. But irate fans and parental pressure changed the school board's mind and the team was again allowed to take to the field, even though school remained closed. There is a move afoot to reopen the schools in Little Rock on a private basis through a newly formed "Little Rock Private School Corp." although no action is intended until after Sept. 27, when the people will vote on whether they want their public school system integrated or segregated. The three men in the left picture, with attorney Leon Catlett in the lead are charter members of the school corporation.
