Will Later Relay New Year Greeting

WASHINGTON (AP) — The president-elect Eisenhower radioed from America’s 48th satellite in space Friday the classic Christmas message, "Peace on earth and good will toward men." As the 58-foot Atlas rocket whirled in orbit Cape Canaveral, Fla., its unique communications system flashed the recorded words.

"This is the President of the United States speaking.

"Through the courtesy of scientific advance, my voice is coming to you from a satellite in orbit outside the atmosphere.

"My message is a simple one. Through this means I come to you and all mankind through this means to you and all mankind.

"The United States will make every effort to make this a Christmas free from war and all the other causes of suffering.

"The people of the United States wish to thank all the people of the world for their good wishes.

"Peace on earth and good will toward men.

"Goodnight.

"I am shocked to hear of the death of Cecil Malone. He was a true American. He will be missed by all.

"Sincerely yours, Dwight D. Eisenhower"
