

# Last Home Game Pits Hawkeye Cagers Vs. Illinois Tonight

## Second Place In Conference Up For Grabs

**Gunther 33 From Mark; Hawks Close At MSU**

By LOU YOUNKIN  
Sports Editor

Iowa makes its final home appearance of the season tonight at 7:30 against high-scoring Illinois in the battle for second place in the Big Ten standings. The Hawkeyes end their campaign at Michigan State next Saturday against the league-leading and apparent title-winning Spartans.

Athletic Business Manager Francis (Buzz) Graham announced this week that reserved seats for to-

Athletic Public Relations Director Bud Suter has requested that fans arrive at the Fieldhouse a little ahead of schedule tonight. The Iowa team will make a brief presentation before game time in memory of its late coach, Frank (Bucky) O'Connor.

At halftime, Iowa track star Deacon Jones will receive the Iowa Amateur Athlete of 1958 Award from the Iowa Amateur Athletic Union. The presentation will be made by Athletic Director Paul Brechler.

night's game have been sold out. It is the first sell out of the year at the Fieldhouse.

Iowa City police have requested that persons driving to the game park on the east side of Iowa River to alleviate the traffic problems around the Fieldhouse.

### One-Half Game Lead

Iowa (7-5) currently holds down the No. 2 spot in the conference by a slim one-half game. Illinois and Michigan (6-5) are tied for third. Michigan State can clinch its first title by defeating Indiana at Bloomington this afternoon in the regionally televised contest.

Illinois is the highest scoring quintet in the Big Ten despite the fact they have no player in the top ten of the individual scorers in the conference. The Illini are averaging 86.7 points per game and their leading scorer is guard Roger Taylor with an 18.2 mark. He ranks 12th in the league.

Two other Illini rank in the top 20, however. Center John Wessels is tied for 14th with a 17.9 average and guard Mammie Jackson is 17th with a 16.8 mark. Forward Governor Vaughn with a 10.7 average and Al Gosnell at 8.2 rank 35th and 40th respectively.

### Perry For Gosnell

Ed Perry has moved into Harry Combes' starting lineup of late and will probably be in the starting lineup tonight in place of Gosnell. Perry stands 6'5" and is averaging five points per game.

Wessels is a familiar player to two Hawkeyes. Center Noiden Gentry and guard Bobby Washington teamed with Wessels as preps at West Rockford to capture the Il-

## I.C. Jail Escapees Get 10 Years

Four Iowa City jail escapees were sentenced to 10 years in the State Men's Reformatory at Anamosa in District Court here Friday.

Judge James P. Gaffney sentenced each of the four to serve concurrent sentences of not more than 10 years for larceny and not more than one year for breaking jail.

The youths, Lauren F. Stimmel, 21, Iowa City, and George A. Morse, 17, Larry J. Ervin, 18, and Lee B. Jacobs, 18, all of Rock Island, Ill., escaped from county jail Feb. 15 while being held on larceny charges.

They fled in a stolen car, and were caught in Cedar City, Utah, 38 hours later. They have been held in the county jail on a maximum security basis since they returned with Sheriff Albert J. Murphy and Deputy David J. Cook Tuesday.

The four were handcuffed when escorted in the courtroom by Murphy and Cook at 10:30 a.m. Friday.

Stimmel was the first of the four to be sentenced. The Judge questioned the youth about his family and school life. Stimmel said he had gone through the seventh grade.

The Rock Island youths were then called to be questioned and sentenced.

Judge Gaffney suggested to all in the courtroom that the youths were examples of "what happens when boys receive very little guidance or discipline." He said, "Evil divorce takes its toll."

The four youths were taken to Anamosa after receiving their sentence.

**ACQUITTED IN CONSPIRACY CHARGE**—Rep William J. Green, Jr. (D-Pa.), is all smiles and makes a fist as he poses for photographers after he was found innocent by a U.S. District Court jury on charges of conspiring to defraud the Government. Green was freed on charges of conspiracy in the construction of the Tobyhanna, Pa. Army Signal Corps Depot. (See story page 2.)—AP Wirephoto.

## 2 Traffic Accidents In I.C.; 1 Man Hurt, 1 Driver Sought

Harvey Rowe, 22, Cedar Rapids is in SUI Hospitals with injuries suffered Friday night when his motorcycle apparently went off Highway #218 west of Iowa City. The machine flipped over in the soft mud of the shoulder.

Apparently no other vehicle was involved. He was taken to SUI Hospitals by Superior Ambulance. Police reported he was going east. The cycle suffered moderate damage.

The hospital said Rowe suffered a fractured ankle. His condition was reported as good.

In another mishap Friday night highway patrolmen were seeking the driver of a car found overturned about three miles west of Iowa City on the IWV road. The car, apparently eastbound, had gone off the north side of the road and into a deep culvert landing on its top. It was severely damaged.

At 10 p.m., several hours after the car was discovered, patrolmen were still seeking the driver. They could find no signs that anyone had been injured.

## Religion-In-Life; Scott To Speak

Nathan Scott, assistant professor of theology and literature at the University of Chicago, will speak on "Modern Literature and Issues of Religious Discrimination" Monday at 4 p.m. in the Senate Chamber of Old Capitol.

Scott, the main speaker for Religion-In-Life Week, is a member of the Federated Theological Faculty at the University of Chicago.

Scott was chosen as the main speaker because his interests fit the theme for the week, "Religion in the Arts," Paul Burian, A3, Cedar Rapids, said.

Activities today are: Lutheran Student Association meets at 7 a.m. for breakfast to start a day retreat. Newman Club meets at St. Thomas Chapel at 9:30 a.m. for a retreat.

A retreat starts at 9 a.m. at Brick Chapel for Wesley Students. Students will leave from Wesley House at 8:30 a.m.

The United Student Fellowship has a visiting missionary, Herb Munsterman, at the Congregation-

al Church to interview students interested in foreign missions.

Richard K. Curtis, professor of speech and homiletics at Bethel College and Seminary in St. Paul, will be the speaker at the Bethany Baptist Church at 6:30 p.m.

Activities Sunday: Newman Club retreat resumes at 10 a.m. Lutheran Student Association will have a special program at 5 p.m. Wesley Foundation is to meet at 5 p.m. for supper and a program centered around Religion-In-Life Week.

Activities Monday: Morning chapel will be heard at 8 a.m. over WSUI. Matlee Kattelman, A4, Omaha, Neb., will speak on "A Moment of Meditation."

Scott will speak in the Senate Chamber of Old Capitol at 4 p.m. on "Modern Literature and Issues of Religious Discrimination."

# Macmillan: Work, Not Talk, Way To Peace

## Half Way Reached In Berlin Deadline

**Khrushchev Lit Fuse Exactly 3 Months Ago**  
By HERB ALTSCHULL

BONN, Germany (AP) — Three months ago to the day, Soviet Premier Nikita Khrushchev lit the fuse to the dynamite-laden issue of Berlin.

The fuse sputters angrily now, the halfway point in the 6-month breathing space Khrushchev gave the Western Big Three to accept his formula for West Berlin.

**Khrushchev Formula**  
The formula: The Soviet Union is dissolving the World War II four-power agreement for occupation of Berlin. The U.S., British and French garrisons must get out of Berlin, 110 miles behind the Iron Curtain. West Berlin must become an unarmed, so-called free city, under some sort of U.N. supervision.

The Soviets want all Berlin incorporated into Communist East Germany. West Berlin is an escape hatch for East Germans fleeing Red rule. Economically booming West Berlin is a bright capitalist island in a drab Communist sea.

The Soviets say that by May 27 they will end their role as joint occupiers of Berlin and turn over all rights and responsibilities to the East Germans.

**Deal With Germans**  
The Soviets say that the Western powers then will have to deal with the East Germans on the supply routes to Berlin.

The West does not want to do this. It considers East Germany a Soviet puppet and refuses to recognize the regime. But in the Allied capitals it is well-recognized that to refuse to deal with the East Germans might mean war.

The Soviets have said any attempt by the West to force its way to Berlin would be "resolutely rebuffed." They have remarked that their 22 divisions are not in East Germany just to play games.

**2 Alternatives**  
The West is therefore faced with two alternatives: Knuckle under in some way and allow the East Germans to regulate the flow of supplies to Berlin or refuse to knuckle under and force its way to Berlin.

Many Western leaders, particularly in the United States, fear the eventual loss of their position in Berlin if they start dealing with the East Germans.

Other leaders, notably in Britain, would prefer to take the position that the East Germans are only agents of Moscow.

**To Welcome Ozark Sunday**

A 20-minute ceremony to welcome Ozark Airlines to Iowa City will be held Sunday at 8:53 a.m. at the Iowa City Airport.

The Chamber of Commerce will serve free coffee and doughnuts to spectators after the ceremony.

**Student Council Needs Married Candidates**

Not enough candidates have filed applications for Married Student representatives to Student Council, according to Len Flander, L3, Iowa City, student body president. Married Students who wish to run in the March 18 All Campus Elections, must file their applications at the Student Council office by 4:30 p.m. March 6, said Flander.

Application forms are available at the Council office, said Flander. At present there are three Married Student representatives on the Council. Flander was a Married Student representative when he was elected in 1958.

## 5 Years, \$60,000 Fine—Beck Sentenced

TACOMA, Wash. (AP) — Millionaire former Teamster President Dave Beck was sentenced to five years in prison and fined \$60,000 for tax evasion Friday by a judge who said exposure of Beck's "insatiable greed is a shocking story."

U.S. Dist. Judge George H. Boldt denounced the pudgy 64-year old former Teamsters' union president as a man who "cheated every last humble American" by evading \$240,000 of income taxes.

The judge assessed Beck \$10,961.52 court costs and ordered him to produce the \$70,961.52 total of fines and costs Friday to avoid going to jail.

**6 Counts**  
Beck was sentenced to five years on each of six counts and fined \$10,000 on each count, the

prison terms to run concurrently. It was the maximum fine, but the ex-labor leader could have been sentenced to a total of 30 years imprisonment.

In midafternoon Beck posted the \$70,961.52 and was released by the U.S. marshal's office.

Beck told newsmen: "I have a great and firm belief in our judicial system. I am not the first innocent person to be sentenced nor will I be the last."

Judge Boldt quickly denied Beck a new trial, without even permitting his attorney to argue for it. The defense has announced it will appeal.

**Beck Smiling**  
Beck was jaunty and smiling as he entered court. During the judge's 20-minute de-

nunciation of him, Beck shifted his feet and clinched and unclenched his hands.

"Mr. Beck," said the judge, "plundered his union, his intimate associates and in some instances his personal friends, most of whom quite readily would have given him anything he asked."

Beck, who rose from laundry truck driver to head of the nation's largest union, could have had a thrilling and inspirational success story, the judge said.

Beck, now retired on a \$50,000 pension by the Teamsters' Union, also faces the probability that the government will bring a civil action to recover the \$240,000 in delinquent taxes, plus penalties.

**Game Parking Request**  
Iowa City police asked Friday that people attending the basketball game this evening park on the east side of the river.

Police said some lots around the fieldhouse are unusable because of the recent warm weather.

They suggested the lot by University Library as one place people might park for the game.

**Democrats Choose L.A. After Fight**

WASHINGTON (AP) — Democrats settled Friday on Los Angeles as the site for their 1960 presidential nominating convention, but only after a 5-hour wrangle.

The Democratic National Committee rejected competing bids of Philadelphia and Chicago for the convention scheduled to open on July 11, 1960.

Clashes between National Chairman Paul M. Butler, Mayor Richard Daley of Chicago and Gov. A. B. (Happy) Chandler of Kentucky marked a series of defeats for insurgents who sought to overturn the choice of Los Angeles by the national committee's site subcommittee.

In the showdown, the national committee voted 71-35 to accept the subcommittee's choice. Camille F. Gravel Jr. of Louisiana, who headed the site subcommittee, said the party would receive about \$750,000 in benefits from Los Angeles.

Chicago's bid for the convention was defeated on a voice vote. Gov. David Lawrence of Pennsylvania then moved to pick Philadelphia. His motion was defeated 67-39.

Chandler, who was battling for Chicago, accused Butler of taking "jet-speed" action to seal the voice vote against selection of the Illinois city.

Butler challenged Daley's contention that at a meeting of the site subcommittee here in December Chicago had bid \$325,000 for the convention and had said the national committee could have this amount in cash if it desired.

**Kremlin Talks Called Good Preparation**

MOSCOW Radio Says 'Tough Line' Taken

KIEV, Ukraine (AP) — British Prime Minister Harold Macmillan declared Friday night his Kremlin talks were "a valuable preparation for wider international negotiations which must follow." But he said the Soviet Union must show it is ready to reach fair agreement if it really wants peace.

Sources close to the British delegation said Macmillan has abandoned hope of bringing East and West closer together on the Berlin crisis in view of Soviet Premier Nikita Khrushchev's uncompromising stand.

**Echo Of Meeting**

There was an echo of his meeting with Khrushchev in the Kremlin as Macmillan rose to toast Ukrainian Premier N. K. Klachenko at a formal dinner ending his visit to Kiev, Ukrainian capital.

"It is not enough to wish for peace or even to talk about it," Macmillan said. "It is the duty of all countries to work for it."

"Of course difficulties or misunderstandings arise between nations. When they do it is the duty of statesmen to do all they can to remove them and to frame their policies in such a way as to lessen international tension."

**Need Genuine Desire**

Macmillan said he believed differences should be settled by negotiations "but such negotiations must be based on knowledge gained by full discussions and conducted with a genuine desire to reach fair agreement."

"Of this at least I am sure. If by successful negotiations we could settle some, at least, of the outstanding differences between nations and if we could thereby dispel suspicion and the fears of war, people all over the world would then be able to bend their energy increasingly to the constructive paths of peace," he said in conclusion.

Anastas I. Mikoyan, Soviet first deputy premier, contended Friday night that Macmillan took a "tough line" in his talks with Khrushchev.

**'Tough Line' Charge**

Radio Moscow quoted Mikoyan as saying that "when the talks turned to the peace treaty with Germany and the Berlin question, the Prime Minister had assumed a tough line, possibly weighed down by his Allied commitments."

A final meeting between Macmillan and Khrushchev is scheduled for the Kremlin next Monday. But is expected to be confined to drafting a communique expressing a general desire for trade and cultural relations.

Macmillan flies to Leningrad today.

**Rider Reported In Fair Condition; Still Paralysis**

The condition of James R. Rider, El, Galesburg, Illinois, was reported in fair condition Friday by University hospital officials. His condition had previously been listed as serious.

Rider suffered a neck fracture in an auto accident at the intersection of Iowa Avenue and Riverside Drive last Friday.

Hospital authorities said Rider still has some paralysis of both arms and both legs.

**SATELLITE ATTEMPT**

VANDENBERG AIR FORCE BASE, Calif. (UPI) — A third attempt to launch the much-delayed Discoverer I Satellite into a polar orbit is expected to be made here today, barring further technical problems.

There was no official Air Force announcement, but it was learned the 2-stage vehicle carrying a 1,300-pound satellite has been readied for another attempt sooner than expected.

# Green Acquitted Of Defraud Charge

LEWISBURG, Pa. (UPI) — A Federal jury which deliberated three hours acquitted Rep. William J. Green Jr. (D-Pa.), and two co-defendants Friday of conspiring to defraud the Government in connection with the purchase of a \$33 million Army depot at Tobyhanna, Pa.

The jury of seven men and five women freed the Philadelphia Congressman, John P. Gilboy Jr., of Norristown, Pa., and Frederick J. Raff, of Hartford, Conn., contractor. Gilboy's engineering firm designed the Signal Corps installation at Tobyhanna built in 1953.

8 p.m. — St. Ambrose College Choir — Rev. Cletus Madsen, Director — "The Music of the Church" — Macbride Auditorium.

struction of a \$33 million Army depot at Tobyhanna, Pa.

Green, Democratic chairman of Philadelphia, burst into tears as the verdict was returned in the U.S. Middle District court here.

The three defendants were among seven originally brought to trial seven weeks ago.

But this week, presiding judge Frederick V. Follmer ordered verdicts of acquittal for the other four, including former Democratic Congressman Herbert J. McGlinchey, of Philadelphia.

The Government attempted to show that a friendship between Gilboy and Green, which took the two to Madrid and Paris together, was linked with contract awards at Tobyhanna. Chief Government Prosecutor Oliver Dibble also attempted to show that contacts between the men even included the purchase of white-wall tires for Green by a former firm of Gilboy's.

An hour after the jury began its deliberations, it asked Follmer for instructions regarding commissions allegedly received by Green's insurance and bonding company in connection with Tobyhanna contracts.

Follmer replied the mere fact that a man was in Congress did not deprive him from operating his business. He added that because Green received commissions did not make them illegal.

Green, a member of the House Ways and Means Committee serving his seventh term in Congress, did not offer a witness in his defense. His attorney, Joseph S. Lord III, said he did not put the Congressman on the stand because there was nothing for him to deny.

Lord said the Government's case was built on "fluff."

## Spring Water

WASHINGTON, Feb. 27. (UPI) — Congress was told Friday that it must supply an extra 13 billion dollars if it expected the new Interstate highway system to be completed on schedule in 1972.

Federal Highway Administrator Bertram D. Tallamy gave the bad news to a Senate Public Roads Subcommittee considering ways to keep the big road building program moving along.

Tallamy said no Federal funds could be allocated this year unless Congress provided new revenue to make up a deficit already showing up in the special trust fund set up to finance the program.

President Eisenhower had asked the lawmakers to boost Federal gasoline taxes a cent and a half a gallon to put the fund on the pay-as-you-go basis required by the 1956 highway act. But his proposal seemed to have no chance of passage.

The subcommittee recessed its hearings without tackling any alternate money-raising methods.

Washington, Feb. 27. (UPI) — A Polar rocket apparently blew up, a Jupiter was fired successfully and the Army pushed ahead with plans for an imminent moon shot at the busy missile test center Friday.

The Jupiter fired Friday was aimed over a 1,500 mile range and the Army said the flight was successful. It was a routine test of the tactical ballistic shell, nose cone engine, warhead and fusing system.

The Navy announced later, however, that the missile may have broken up shortly after launching. Sources close to the project confirmed this.

It was the fourth time that the temperamental Polaris has blown up in five attempts during the latest development series.

# Nasser Film Causes Riot; Two Killed

BEIRUT, Lebanon (UPI) — A newsreel of Gamal Abdel Nasser touched off bloody clashes today between rival Lebanese factions.

Two persons were reported killed and at least 10 wounded.

Premier Rashid Karami, who led the Lebanese revolt last summer, appealed for calm in a radio address and asked the people not to listen to "agitators." He warned iron-handed justice awaited those who sought to disturb state security.

Armored cars were rushed to key points in the city to prevent new outbreaks. The streets were as deserted tonight as they were during the tense days of the summer revolution. Most troops were removed after the flareup, but some were kept on duty at Riyad Al Solh and Martyrs square.

The fighting started after the face of Nasser, president of the United Arab Republic, was flashed on the screen at the Hollywood Theater during the showing of a newsreel.

Applause for Nasser was punctuated by some boos from the audience. Fist fights began outside the theater, touching off shooting. Three trolley cars were destroyed in the fighting.

Despite the clashes, the visiting San Francisco ballet performed to a full house at its evening performance.

Former Moslem rebel leader Saeb Salam and Moslem youth leader Adnan Hakim joined the premier in appealing for calm.

WASHINGTON, Feb. 27. (UPI) — Congress was told Friday that it must supply an extra 13 billion dollars if it expected the new Interstate highway system to be completed on schedule in 1972.

Federal Highway Administrator Bertram D. Tallamy gave the bad news to a Senate Public Roads Subcommittee considering ways to keep the big road building program moving along.

Tallamy said no Federal funds could be allocated this year unless Congress provided new revenue to make up a deficit already showing up in the special trust fund set up to finance the program.

President Eisenhower had asked the lawmakers to boost Federal gasoline taxes a cent and a half a gallon to put the fund on the pay-as-you-go basis required by the 1956 highway act. But his proposal seemed to have no chance of passage.

The subcommittee recessed its hearings without tackling any alternate money-raising methods.

# Radioactive Minnesota Wheat Is Not Dangerous, Says AEC

WASHINGTON (UPI) — Atomic Energy Commissioner Willard F. Libby said Friday that Minnesota's "hot" wheat is a cause for "real concern." But he estimated a man would have to eat a ton of the grain to get a dangerous dose of radioactivity.

Libby made the statements before a Congressional Atomic Energy Subcommittee headed by Chairman Chet Holifield (D-Calif.).

Dr. Maurice Vissscher, a member of the Minnesota committee on atomic energy problems, touched off a furor last week when he reported that radioactivity levels in wheat and a number of other farm crops in Minnesota exceeded permissible levels. Vissscher, head of the physiology department at the University of Minnesota, also accused the Atomic Energy Commission of lack of concern about the problem.

A Liborite member of the British Parliament promptly proposed that Minnesota wheat be banned from Britain.

Libby told the joint committee there is "nothing good about radioactive fallout." And he said the strontium-90 content of wheat is "a matter of real concern to us."

He stressed, however, that the permissible content levels in Minnesota, were based on a "steady diet" of radioactive material.

He concluded, the high values of the Minnesota wheat probably will not show a steady rise unless nuclear testing rates exceed "the very heavy ones of last year."

Charles Dunham, chief of AEC's Division of Biology and Medicine, testified that the permissible levels of radioactivity cited by Vissscher have been set as the permissible level for a lifetime diet of the grain.

There was no report of progress in the negotiations, but a Pan American spokesman said the company was optimistic that a settlement would be reached before the expiration of a 30-day cooling off period.

The union, which represents mechanics, stewards and stewardesses, and airport personnel, said its members employed by Pan American had authorized a strike on or before March 1.

Negotiations were understood to be bogged down over the union's demand for a 32-hour work week. The TWU previously expressed the belief that the introduction of jet planes would cut the amount of work necessary and consequently cut employment.

A company wage offer of 25 cents an hour spread over a two-year period was rejected. The employees currently earn from \$1.95 to \$2.95 an hour for a work-week of 37 1/2 to 40 hours.

# Nudist Camp Bars Jayne Mansfield

RIO DE JANEIRO (UPI) — A Brazilian snake dancer said Friday she had barred nudist Jayne Mansfield from a Rio Bay nudist colony because the actress wanted to keep her pants on.

Snake dancer Luz Del Fuego owns Ishla Do Sol (Sun Island) and runs a nudist colony there. Each year she and her friends retreat from Rio to the island to celebrate carnival in the raw.

Luz recounted that she was sunning on the beach with a friend, Domingos Ricceta, during carnival when Jayne and her husband, Mickey Hargitay, arrived in a launch.

# Mrs. Duncan Offered To Go With Hired Killers: Witness

VENTURA, Calif. (UPI)—Elizabeth Duncan met with two ex-convicts in a dimly-lit cafe and offered "if necessary" to accompany them on the murder for hire of her pregnant daughter-in-law, Mrs. Esperanza Esquivel testified Friday at the trial of the Santa Barbara, Calif., matron.

Mrs. Esquivel, sometimes tearfully, sometimes angrily, testified that she introduced Luis Moya, 22, and Augustine Baldonado, 25, to Mrs. Duncan last Nov. 13 in her "Tropical Cafe" at Santa Barbara. She said the contact was to "do a job," although the witness claimed she had nothing to do with the killing of Olga Duncan four days later.

### Offered \$6,000

Both Moya and Baldonado testified yesterday, under examination by prosecutor Roy Gustafson, that they met with Mrs. Duncan at the cafe and received an offer of \$6,000 to kill Olga Duncan, wife of the defendant's son, Frank. Mrs. Esquivel, 38, brought to the jammed courtroom from the Ventura County Hospital where she

had been under observation as a tuberculosis patient, said she didn't know what kind of job Mrs. Duncan intended paying Moya and Baldonado to do.

Gustafson sought to establish that a \$6,000 contract for murder was struck by the grandmotherly defendant at the cafe. Under Gustafson's examination, the witness testified she overheard Mrs. Duncan ask Moya and Baldonado if \$3,000 would be enough.

Moya testified yesterday he got Mrs. Duncan to boost her offer for the killing from \$3,000 to \$6,000. Mrs. Esquivel also quoted Mrs. Duncan as saying she had some pills, rope and a car.

### Blood On Hands

She admitted that she saw Augustine Baldonado and Moya early on the morning of Nov. 18 when the two convicts testified they returned to her house with blood on their hands and clothes from a grave in the Casitas Pass area where Olga's body later was found.

Young Duncan was back in court Friday, sitting behind his mother, after leaving the courtroom Thursday as Moya calmly recited how his wife was killed.

Asked how his mother reacted to Thursday's testimony, he said: "She said she tried not to listen to them. She just didn't hear anything."

# Arrest Acid Throwing 'Philosopher'

MUNICH, Germany (UPI)—A 53-year-old self-styled "philosopher" sought for the acid sabotage of a Rubens masterpiece in the state art gallery surrendered to police Friday.

Walter Menz hauled a solution containing acetone at the painting, "The Descent of the Damned into Hell," at the gallery Thursday.

A lawyer called police Friday morning and said Menz was in his office and wanted to give up. Police said he offered no resistance when taken into custody.

Gallery experts said the damage caused to the painting might be irreparable. The acid ate away the paint in part of the picture, making chalk marks on the canvas clearly visible.

No formal charges were lodged against Menz for the present. Police hoped to uncover the motives for the attack but expressed belief only a psychiatrist would be able to tell the "decisively important things" that motivated Menz.

The Rubens was valued at \$250,000. Gallery records showed it had been tampered with before, apparently during the Hitler regime. Some one inked the name "Goering" on the body of one of the stouter "damned" descending into hell.

# Security Troops Use Guns, Gas To Disperse Africans

BLANTYRE, Nyasaland (AP)—Security forces broke up an African demonstration with guns and tear gas near Blantyre Friday. One African was killed and two others were wounded in this latest

## To Elect Student SPI Trustees

Students who wish to apply for election to the Board of Trustees of Student Publications, Inc., the policy-making body for The Daily Iowan and Hawkeye, must file their candidacy papers before 5 p.m. Tuesday, March 3, in the Journalism Office, 205, Communications Center.

The nine-member board elects The Daily Iowan and Hawkeye editors. It makes broad policy decisions and controls finances for The Iowan and Hawkeye.

One one-year post and two two-year posts on the Board will be filled at the All-Campus Elections March 18. The Board consists of five students, elected by the student body, and four faculty members, appointed by SUI President Virgil M. Hancher.

Students filing candidacy papers must obtain 25 signatures from students in their own colleges, have 26 semester hours credit, and grade point averages of 2.0 or higher.

# Bridge Tourney Sunday

The All-University bridge tournament will be held Sunday from 2 to 5 p.m. in the River Room of the Iowa Memorial Union.

Bridge teams from 14 housing units have registered for the tournament which is open to all housing units on campus. The teams are composed of two members.

Trophies will be awarded the winning north-south team and the winning east-west team.

The Student Union Board is sponsoring the tournament.
