## Area Drivers Lose 1,100 Points In New Patrol System

Drivers lost more than 1,100 points for traffic violations in this area during the Memorial Day weekend as the State Highway Patrol swung into its new "concentrated effort" program, Captain Leonard Simms said Monday.

Under a recent change in patrol procedure, Simms said the entire State Highway Patrol of approximately 200 men goes on duty in a single shift on three occasions during the week. The first two single shifts were from 2 p.m. to midnight on Friday and Sunday he said. Regular split shifts were used on Saturday.

Simms said that during the three day weekend, the 56 highway patrol officers in this area issued 189 summonses for speeding, 190 memorandums for other moving violations and 220 memorandums for faulty equipment on vehicles.

These violators will lose an average of four points for speeding, said Simms, and an average of two points for moving violations. He said no points are lost by persons issued memorandums for faulty equipment if the fault is corrected and reported to the patrol within 72 hours.

There were considerably fewer violations toward the latter part of the weekend than there were at the beginning, Simms said. He attributed this to the new procedure and publicity given the state-wide crackdown on traffic violators.

Speaking for himself and other district patrolmen, Simms said the new program was "extremely effective" and that in one district no tickets were issued for speeding Sunday night.

Improper passing and speeding were the particular violations concentrated upon during the two single shifts, said Simms.

Under the new concentrated effort program, districts receive their instructions from Highway Patrol headquarters in Des Moines.

Simms said the instructions are based on records of highway accidents and traffic violations and indicate concentration on specific violations, in designated areas at designated times.

## Football Star May Play Canadian Ball

Mitch Ogiego, the quarterback who was expected to replace All-American Randy Duncan on next year's football team, has been negotiating with the Vancouver, British Columbia, Lions of the Canadian Interprovincial Football Union, and will probably sign a contract with that team soon it was learned Monday.

According to Vancouver Coach Wayne Robinson, the Lions have not received a signed contract from Ogiego yet, but it is expected that he will agree and will join the Canadian club soon, perhaps this week. Robinson said that he had talked to Ogiego in Iowa City last week.

**Ogiego was drafted by the Washington Redskins of the National Football League at the mid-winter although he had two years of college eligibility remaining.**

He was eligible for pro football draft because his original college

Ogiego

class had already graduated, but he had missed two years of school while in the service.

Ogiego was having scholastic difficulty at SUI and missed most of the spring practice sessions. He had cancelled his registration shortly after returning from the Rose Bowl in order to avoid class failures and preserve his eligibility for next fall.

**Ogiego will join two other 1958 Hawkeyes if he signs with the Vancouver club. Duncan and former guard Hugh Drake have already signed.**

Robinson, the Vancouver coach, is a close friend of members of the Iowa coaching staff. He was an assistant coach at Winnepeg in the Canadian league where he helped coach former Iowa stars Kenny Ploen, Frank Gilliam and Frank Rigney.

## 5 Miners Die, 25 Escape Fire, Cave-In

IRON RIVER, Mich. (UPI) — Five iron miners were killed Monday when a cave-in broke open a sealed-off section and allowed sulphur fumes to pour through the tunnel where they were working.

Twenty-five other miners, working in the same tunnel, fled to safety or were rescued, seven of them requiring hospitalization. One victim was reported still in critical condition.

**The miners were working at the bottom level of the Sherwood Mine of the Inland Steel Company, 1,400 feet below the surface, in a stope leading off the main tunnel.**

Fire, apparently started spontaneously in sulphur desposits in the slate rock of a sealed-off section of the mine above them, collapsed a pillar supporting the ceiling of the stope below. The ceiling collapsed and debris fell into the stope where the men were at work, followed by sulpher fumes and other hot gasses which flooded the stope.

The men fled from the stope toward the main tunnel. All but four made it and electric engines used to pull ore cars took them to the mine elevator or "skip," and safety. Apparently the four who died were overcome before they could flee from the area where the poisonous fumes were most dense. Their bodies were recovered by a nine-man rescue team which went down into the mine wearing gas masks. All the victims were found in front of the cave-in.

**Inland Steel Company Monday afternoon issued a statement which read:**

"At approximately 8 a.m. (CST) Monday, June 1, 1959, at Sherwood Mine of Inland Steel Co., at Iron River, Mich., a supporting pillar collapsed, permitting material to pour into an open mining area causing a rush of air containing hot gasses and dust from old workings above to pass through an area of the mine where 30 men were underground at the time. Nineteen were removed safely, four were found dead. Seven were hospitalized, two in critical condition.

"All men are out of the mine at present with the exception of the mine rescue crew who are inspecting the workings. There are no fires or gases in the mine at present."

**One of the men who escaped from the mine reported that after the cave-in, the mine became "almost twice as hot as a steam bath." He escaped by pulling his shirt over his face to protect himself from the hot sulphur fumes, and made his way to the main tunnel where he and others jumped aboard an electric engine that took them to the elevator.**

It was the first fatal accident at the Sherwood Mine since 1948. The mine had gone 305 days without a single lost-time accident, the company said.

### QUAD GIRLS BORN

KOSCIAN, Poland (UPI) — A mother of six children gave birth to quadruplets last Thursday and all are doing well, hospital authorities said Monday.

Mrs. Joan Adamczak, 33, wife of an $80 a month laborer, was out of bed and caring for two of the four quads, all girls. The other two remained in incubators.

## Bridge Champs

**WINNERS of the All-University Bridge Tournament, sponsored by the Union Board bridge committee, are (from left) Gary Haddy, A2, Cedar Rapids, Connell Boyle, G, Brooklyn, N.Y., Rodney Campbell, A4, Washington, and Ronald Sorenson, C4, Sabula. Boyle and Haddy were on the east-west team and Campbell and Sorenson on the north-south team.**

**The four received personal trophies and will also have their names engraved on the permanent trophy in the recreation area of the Union.**

**The Campus winners in the National Intercollegiate Bridge Tournament were also announced this week by the bridge committee. Terry Campbell, C4, Des Moines; Peter Kemble, C4, Iowa City; Jerry Kinnamon, A3, Ottumwa; and Richard Newell, A2, Ottumwa, received certificates which named them as the top two SUI teams entered in the national tournament.**

**Duplicate bridge hands were mailed to the participating schools by the national bridge committee. The hands were played on each campus and the results sent to the committee for judging by a bridge expert.**

## Christian Church Will Begin Addition Within 2 Weeks

The Rev. Albert C. Hofrichter, Jr., minister of the First Christian Church here, said Monday that construction of the church's $115,000 Student Center and Education Building at 217 Iowa Avenue would begin within the next two weeks. The Rev. Mr. Hofrichter also announced that groundbreaking ceremonies for the new building would be held following Sunday's 10:30 worship services.

Approval of low-bid contracts for the Student Center was voiced unanimously by the congregation after Sunday's service. Previously, the awarding of low-bid contracts had been approved by the Church Board, but final approval by the entire congregation was necessary.

Finances for the building project will be supplied by members of the Iowa City First Christian Church and also by a $30,000 donation from the Iowa Society of Christian Churches. The Rev. Mr. Hofrichter said that the building fund supplied by local members now has assets of $50,000.

The building contract was awarded to the Paulson Construction Company of West Branch. The West Branch firm submitted a bid of $82,880.

Other contracts awarded and their bids were: Plumbing — to the Larew Company of Iowa City for a bid of $4,987. Heating—to the Schuppert and Koudelka firm of Iowa City for a bid of $5,047. Electricity — W.J. Miller Electric Service of Iowa City for a bid of $4,301.

The Church's Building Construction Committee was authorized by the Church Board to handle other agreements for lighting fixtures, painting, floor covering, treads and counter tops, architectural fees, and a contingent fund of $5,000. Total building costs are estimated at $115,243.

The Rev. Mr. Hofrichter said the building construction project, including some remodeling on the present structure, would take in 9,685 square feet.

Some features of the new building will be a student director's office, student study and committee room, and a student lounge with fireplace. The lounge will open onto a walled and planted courtyard.

Kitchen and dining facilities have also been planned for the new building as well as a church library, minister's study, administrative offices, craft and choir room and ten church school department class rooms.

## Demos Move To Cut Aid

WASHINGTON (AP) — Democrats assailed President Eisenhower's $3,930,000,000-mutual security bill in the Senate Monday. They said it continued the formula for what they called "never-ending grants of foreign aid."

Sen. Mike Mansfield of Montana, the assistant Democratic leader, offered five amendments under which he proposed sharply trimmed military aid abroad and a cut-off date of June 30, 1963 for virtually all economic assistance except loans.

One amendment, which drew strong support from Sens. Stephen M. Young, (D-Ohio), and Ernest Gruening, (D-Alaska), would remove secrecy classification from all facets of aid to every country — military and economic.

Senators now have access to details of military aid to all countries but they are forbidden to disclose them to the public.

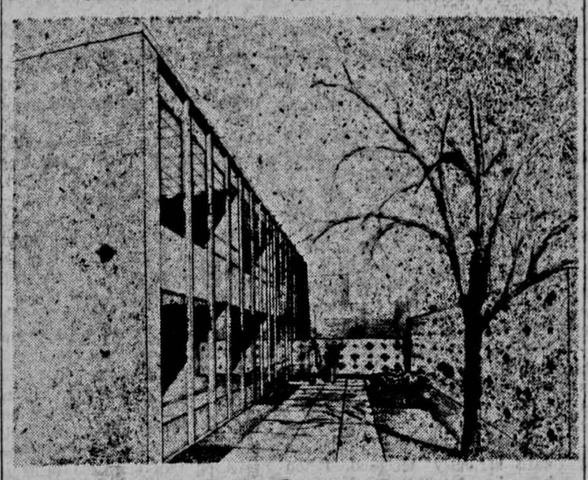
Mansfield took exception to recent testimony by Leonard J. Saccio, deputy administrator for the International Cooperation Administration, opposing his amendments. He called the testimony "an impassioned insistence that nothing must change in the way the executive branch proposes to dispense almost four billion dollars in public funds."

## SUI Production Has Male Cast

The cast has been announced for the first play of the summer, "The Trial of Captain John Brown," and rehearsals have started. It will be given July 9, 10, and 11 in the University Theatre. The play, written by an SUI graduate student, Richard F. Stockton, will have its premiere performance on the centennial year of the historic raid on Harpers Ferry, which took place in October, 1859.

Performed by an entirely male cast, the play is based on the historical events surrounding the arrest and trial of the pre-Civil War abolitionist, John Brown.

The cast, as announced by Director William R. Reardon, includes: Marvin Sprague, A3, Iowa City; Mel Davidson, G, Lincoln, Nebraska; Harry Langdon, G, Council Bluffs; Merle Lentz, G, Iowa City; Victor Burnett, A3, Iowa City; Dave Thompson, A4, Bedford; Ken Harris, G, Kinnelon, N.J.; Tom Carson, A2, Iowa City; Cliff Davenport; Tom Koehler, G, Iowa City; David Addington, G, Riverside, Calif. and Cam Cummings, G, Iowa City.



## New Student Center

## Lake Macbride Provides Best Eastern Iowa Bass Fishing

"The greatest bass fishing we have ever had in eastern Iowa" was the way Herb Eels, conservation officer, described the reopening of fishing in Lake Macbride on Memorial Day.

Conservation officers and biologists said more than 5000 bass were caught during the day. Eels said he did not know how long the excellent fishing would continue, but that the fish may "smarten up" soon.

Although early morning rains kept the crowd down at first, over 500 fishermen were counted on the lake by mid-morning A conservation officer in an airplane also saw more than 130 boats on the water.

Eels said a rapid turnover occurred as most fishermen caught their limit of bass and left for home. One fisherman is reported to have caught his limit, five bass, in 19 minutes.

Few fish other than bass and bluegills were caught, Eels said, as fishermen concentrated on those species. After catching their limit of bass, some fishermen remained to catch bluegills. Another fisherman said he and his family took 120 bluegills during the day.

Although the largest bass weighed two pounds, two ounces, most were in the one pound range. Many 10 ounce bluegills were taken and Eels said conservation officers were surprised at the abundance of such large bluegills.

## Macmillan—Will Not Fire Foreign Secretary Lloyd

GENEVA (AP) — Prime Minister Harold Macmillan cabled Selwyn Lloyd Monday that he does not contemplate Lloyd's removal from his post as Britain's foreign secretary.

Macmillan sent his message in the wake of a newspaper report suggesting that Lloyd's days as foreign secretary are numbered.

The report in the usually authoritative London Times indicated that Macmillan had told Lloyd the time is near for him to step out of the burdensome office.

**Qualified officials reported that Macmillan's message reached Lloyd late Monday afternoon.**

In London Macmillan said he was astounded that the reports should ever have appeared.

A spokesman at 10 Downing St., the Prime Minister's official residence, said:

**"The Prime Minister learned immediately of the furor these reports had created in Geneva. It was thought necessary to show that they do not stand examination."**

While the full text of Macmillan's message was not made known it was no secret that its general tone was one of astonishment mingled with resignation at a recurrence of sniping at Lloyd.

Lloyd, 54, has been a frequent target for the press and for all parties — including his own — since Britain's Suez adventure with the French in 1956.

**However, it was understood Macmillan assured Lloyd he was not behind the report that appeared in the London Times.**

The message was said to emphasize that Macmillan has full confidence in Lloyd as foreign secretary.

The London Times report earlier had started a buzz of speculation among diplomats and newsmen alike about the political fate of the man who is conducting Britain's role as conciliator between East and West at the Geneva Big Four conference.

**The Times report had called into question the British delegation's entire position.**

It led authorized members of the British delegation swiftly to insist that no change of British policy is contemplated, and that no chance exists of Lloyd leaving control of the Foreign Office before the next general election, that no word has reached here officially of Lloyd's impending transfer to another Cabinet post.

Lloyd himself was understood to have read the Times report with as much astonishment and resentment as the 90-odd members of the British delegation.

**If Lloyd and his fellow-Britons were astonished, American, French, Soviet and German officials seemed stunned by what the Times had to say at this crucial point in the East-West negotiations.**

The dispatch, by the paper's political correspondent, was couched in the sort of phrases that Macmillan could be expected to use in gently, yet firmly, firing a favorite subordinate.

"A prime minister must not ask too much from his ministerial galley slaves," the report said. "In the foreign secretary's own interests, and for the sake of the service he still can give to the country and his party, a reasonable term must be set to the carrying of the budren."

**The Times made it clear any switch of Lloyd to another job lies several month ahead but it added immediately:**

"On the whole it seems certain Mr. Lloyd could scarcely be dispensed with in his present post until the dissolution of Parliament for elections. But the summit itself might produce an argument for a fresh mind."

One of the things that has stood out at this conference is that Lloyd personally has rarely before shown to better advantage in his diplomatic negotiating performance. He has thrown himself into the center of the conference stage, displaying initiative, mollifying disgruntled allies, extinguishing sparks from the ashes of cold war hatreds that threatened to burst into flame.

## Deadlocked Steel Talks Resume Today

NEW YORK (UPI) — The deadlocked steel wage negotiations will be resumed today after a six-day recess amid rumors that the United Steelworkers Union may call its key wage policy committee to New York for a strategy meeting.

David J. McDonald, president of the union, is reported ready to call the 171-man committee into session to report on the serious impasse which threatens to trigger the sixth postwar steel strike this summer.

Such a meeting with the committee, which has the power to accept or reject any contract, would give the union chief an opportunity to bolster any move to file formal charges accusing the steel companies of failure to bargain in good faith.

McDonald said last week he was considering filing such charges with the National Labor Relations Board.

The joint talks between four man teams representing the union and 12 steel companies have come dangerously close to collapsing a full month before the July 1 strike deadline.

The steel companies have demanded a one-year contract freeze and elimination of the cost-of-living escalator clause from the present agreement, which expires at midnight June 30.

The union has rejected this "offer" as economic nonsense and has demanded "a substantial" wage increase, an average 38-hour work week, complete company financing of insurance, hospitalization and medical plans and other fringe improvements.

Yesterday, John L. Lewis, head of the United Mine Workers, accused President Eisenhower of interfering in the steel talks and throwing his weight behind the industry's wage freeze.

Presidential Press Secretary James C. Hagerty denied that the President had backed the industry's stand and noted that the President has called for a steel settlement that will not trigger any price increases.

The industry has argued that any increase in employment costs must be passed along to consumers to avoid "a ruinous profit squeeze" that may force smaller steel firms out of business.

The union has argued that rising profits and productivity are evidence of the industry's ability to grant wage hikes without resorting to price increases.

A steel strike this summer could be one of the longest and bitterest in history. The five previous postwar strikes have resulted in a loss of more than 48 million tons of steel. These strikes have meant a loss to the companies of around $1.5 billion in business and to employees of around $900 million in wages and benefits.

## West Uses Counterattack At Geneva

### Also Refuses To Abandon RIAS

GENEVA (AP) — The Western powers accused the Soviet Union Monday of using East Berlin as a center for subversion.

The counterattack followed a charge by Soviet Foreign Minister Andrei Gromyko that West Berlin sheltered Western spies and saboteurs — a charge the Russians originally had used as one justification for their drive to get the Americans, British and French out of the city.

The U.S. spokesman stressed, however, that in spite of the lack of progress Secretary of State Christian A. Herter was prepared to stay in Geneva as long as there was a reasonable chance to negotiate.

**Herter suspects the Soviets may wait until the eleventh hour before making any concessions.**

The Big Four foreign ministers wrestled with the Berlin problem for 2½ hours behind closed doors. They failed to find the sort of common understanding that the United States regards as a vital condition for a summit conference.

U.S. Asst. Secretary of State Andrew H. Berding told newsmen later that Herter has no deadline for ending the Geneva talks, but if the Soviets want a summit meeting "then a certain minimum of agreement will have to be reached."

Sources close to the French delegation said Gromyko pressed the Kremlin's demands for the evacuation of Western garrisons in West Berlin and the transformation of that divided city, 110 miles inside Communist East Germany, into a demilitarized free city.

The Western nations rejected this approach. The United States also refused to curtail or abandon RIAS, the powerful U.S. radio transmitter in West Berlin now the target of a concerted Communist attack.

**Gromyko has maintained that RIAS is used to foment sabotage and disorders in Communist — run Eastern Europe.**

RIAS runs a German-language program of news and music with some political comments that are clearly so labeled. U.S. authorities deny RIAS attempts to incite sabotage or revolt.

The Western powers indicated they were willing to discuss Soviet complaints that West Berlin was a spy center, but they have made it plain this cuts both ways — the Americans, British and French have complaints about activities in East Berlin they want aired.

The Western powers struck back at Soviet charges with their own accusations about "subversive activities" in East Berlin and East Germany directed against West Germany and West Berlin, Western sources said.

**By doing this, informants reported, the Western powers sought to make one key point clear. Any deal the West would enter into on Berlin would have to be an eye-for-an-eye basis — any Western concessions would have to be matched by Soviet concessions.**

## Little Progress In Secret Talks

**GENEVA (AP) — A U.S. spokesman said Monday very little progress has been made in secret Big Four talks here toward settling the Berlin problem. If Russia wants a summit conference, he added, "a certain measure of agreement will have to be reached."**

**Assistant Secretary of State Andrew H. Berding said Secretary Christian A. Herter intends to stay in Geneva as long as there is a "reasonable chance to negotiate." He declared Herter has no deadline for ending the conference.**

**U.S. Defense Secretary Neil H. McElroy plans to leave here Friday or Saturday, Berding said, for presentation to Congress of a master plan on location of ground-to-air missiles defense bases in the United States.**

**Berding told reporters the United States has no intention of abandoning or curtailing the work of RIAS, the U.S. radio station in Berlin.**

## Revolutionaries Die In Crash Over Nicaragua

SAN JOSE, Costa Rica, (UPI) — A Costa Rican commerical airliner carrying Nicaraguan revolutionaries was reported to have crashed with heavy loss of life Monday after being forced down in Nicaraguan territory by the Nicaraguan Air Force.

A report from Nicaragua said rebels were fighting Government troops at two points.

Officials here said the crashed plane was believed to be carrying between 50 and 60 persons and all were reported killed. The plane, owned by the Costa Rican National Airlines, was said to have burned after it crashed.

The Government seized the airline's San Jose office and three other planes which had flown several loads of Nicaraguan rebels into Nicaraguan territory, presumably for anti-government activities against the Nicaraguan regime of President Luis Somoza. The office and planes were placed under heavy police guard.

From Managua, capital of Nicaragua, Somoza told San Jose newsmen by telephone that the situation in his country was under control. Somoza's secretary reported, however, that there was fighting against invaders at two isolated spots. He gave no details.

# The Daily Iowan

Page 2 — TUESDAY, JUNE 2, 1959 — Iowa City, Iowa

*The Daily Iowan is written and edited by students and is governed by a board of five student trustees elected by the student body and four faculty trustees appointed by the president of the University. The Daily Iowan's editorial policy, therefore, is not an expression of SUI administration policy or opinion, in any particular.*

## Voters Defy Faubus

Little Rock voters dealt Arkansas Gov. Orval Faubus a sharp blow last week when they went to the polls to recall three pro-segregation members of the city school board.

They also voted to retain three other school board members who are considered moderates in the Little Rock school integration struggle which has led to closed schools, following outbreaks of violence which had to be suppressed by federal troops.

The citizens of Little Rock have shown that given the opportunity to express themselves in a free and secret ballot the forces of extreme racism and bigotry cannot stand up.

The recall, however, is not necessarily a victory for integration. The moderates are segregationists, but are opposed to the sort of violence and rabble-rousing which made it necessary for federal intervention in Little Rock.

The moderates are willing to rely on peaceful means of resolving the racial issue in Little Rock, and prefer order to violence and chaos.

The majority of people in Little Rock seem to have been appalled by the situation which developed there, necessitating intervention and resulting in closure of the schools. They want their children to go to school; even with Negroes as classmates, if necessary.

This is the only sensible position they can take in the Arkansas crisis. It is their children who will suffer from the lack of education. It seems obvious that an integrated school is certainly better than no school at all.

It is too easy to become optimistic about the action of the Little Rock voters, however. While the recall of the three militant segregationists displays a victory for the moderates who oppose violence and destruction of the school system to maintain segregation, it is doubtful that the schools will reopen this fall.

Gov. Faubus may be able to find new means of maintaining segregation by September. He still warns of mob violence in the event the schools are opened on an integrated basis.

The recall certainly has restored something of a sense of balance and should serve to create a new climate in which the schools can be reopened. *Michigan State News.*

*'Ready, Aim–'*

## University Bulletin Board

**University Bulletin Board notices must be received at The Daily Iowan office, Room 201 Communications Center, by noon of the day before publication. They must be typed and signed by an advisor or officer of the organization being publicized. Purely social functions are not eligible for this section.**

**INTER-VARSITY CHRISTIAN FELLOWSHIP** will meet at 7:30 p.m. today in the East Lobby Conference Room of the Union. Reverend Dahl will speak and show slides.

**VETERANS:** Each Public Law 550 veteran must sign a VA Form 1996a to cover his attendance from May 1 through June 10. This form should be signed on or after the day of the veteran's last final examination. Forms will be available in the basement of University Hall on Friday, June 5, and from Monday, June 8, through Wednesday, June 10. Forms will be available on other days including Saturday (a.m. only) June 6 in the Veterans Service Office. Weekday open hours are 8:30 a.m. to 12 noon and 1 p.m. to 4:30 p.m.

**CANDIDATES FOR DEGREES** in June: Commencement announcements have arrived. Orders may be picked up at the Alumni House, across from the Union.

**PROGRAM OF FOREIGN STUDIES** certificates will be issued to students who have completed the requirements of the program. Students expecting the certificates should report immediately to Professor Erich Funke, 106 Schaeffer Hall. Professor Funke will also inform students about careers in the United States Foreign Service and about the Foreign Service Examination for 1959.

**ALL FRATERNITIES AND SORORITIES** are requested to return rental reproduction to the Hostess Desk of the Iowa Memorial Union from June 1 through June 3.

**UNIVERSITY CO-OPERATIVE BABY-SITTING LEAGUE BOOK** will be in the charge of Mrs. Buffington from May 19 through June 2. Telephone her at 4751 if a sitter or information about joining the group is desired.

**STUDENTS** that do not plan to be in Iowa City this summer may have The Daily Iowan mailed to any address in the U.S. during the vacation period, June 12 through September 18. The special reduced subscription rate for students is $3.00 for the 14 week period.

**ALL LOCKERS** in the Fieldhouse must be checked in before June 11th. Following this date all locks will be removed and contents destroyed.

**THE NORTH GYMNASIUM** of the Fieldhouse will be opened for the recreational use of SUI students each Friday from 1:30 to 4 p.m. and each Saturday from 1:30 to 5 p.m. In order to gain admittance into the North Gymnasium on Saturdays, students must present their I.D. cards to the person-in-charge who will be located near the North cage door.

**PLAY NITES at the Fieldhouse will** be each Tuesday and Friday from 7:30 to 9:30 p.m., provided that no home varsity contest is scheduled. Available for members of the faculty, staff, and student body and their spouses are the following: Tuesday nights—badminton, handball, paddleball, swimming, table tennis and tennis. Friday nights—all Tuesday activities, basketball and volleyball.

**SCHOLARSHIP APPLICATIONS.** Undergraduate students interested in obtaining information about scholarships for the 1959-60 school year are advised to check with the Office of Student Affairs. Requests for scholarships from students now in school must be made before June 5, 1959.

**LIBRARY HOURS:** Monday - Friday: 7:30 - 2 a.m.; Saturday 7:30 - 5 p.m.; Sunday 1:30 p.m. - 2 a.m. Reserve Desk: Monday - Thursday, 8 a.m. - 9:50 p.m.; Friday - Saturday: 8 a.m. - 4:50 p.m.; 7 - 9:50 p.m.; Sunday: 2 - 4:50 p.m.; 7 - 9:50 p.m.

## Erhard Schedules Conferences For U.S. Visit

DUESSELDORF, Germany, — (UPI) — Economics Minister Ludwig Erhard, the man most likely to succeed Konrad Adenauer as West German Chancellor, flew to the United States Monday night for a 9-day visit.

He was scheduled to arrive in New York this morning (on Lufthansa Flight 402).

Erhard made no comment at the airport before departing.

He scheduled a round of conferences with officials in Washington and was expected to meet President Eisenhower and Vice President Richard M. Nixon.

He will receive honorary degrees from Wabash College, Crawfordsville, Ind., and Georgetown University in Washington, D.C.

Erhard, who has done much to rebuild the West German economy, is the front-runner in the race to succeed Adenauer when the 83-year-old West German leader steps upstairs to the Presidency of the Federal Republic in September.

## Leftist May Be Prime Minister

SINGAPORE (UPI) — Gov. Sir William Goode Monday invited Lee Kuan Yew, head of the left-wing People's Action Party that won a landslide electoral victory Saturday, to form Singapore's first autonomous government.

Lee told a news conference after a meeting with the British governor this morning that he would agree to become Prime Minister providing Goode accepted the conditions he outlined.

A key demand, Lee said, was that authorities free nine officials of the People's Action Party (PAP) jailed for political reasons. He said he also outlined "certain preliminaries" to the governor and that these would have to be accepted before his party would take office.

The PAP Secretary General declined to disclose the other conditions he posed but he said he did not think they would result in any constitutional crisis.

Lee said that he had his party's cabinet list all drawn up and that if the governor accepted his preliminary conditions he expected his government to take office later.

Good Listening–

## Today On WSUI

"THE HEIRS TO THE ROBBER BARONS" is the second of the Franklin Lectures in the series which takes as its over-all subject: "Twentieth Century Pessimism and the American Dream (A consideration of 19th Century hopes and worries and their relationship to our day)." To be broadcast at 8, tonight's talk will be delivered by Edward Littlejohn, a native of Australia, who took his undergraduate work at Sydney, and at the London School of Economics. His graduate work was done at Harvard. He has worked for the Australian government in various capacities, and for the Burroughs Corporation.

"SONG FOR MY TRUE LOVE", a delightful album of delicate airs sung by Salli Terri with guitar and flute accompaniment, is offered on this morning's music segment from 10:05 a.m. to noon. Other items to be included are Memorable Year, 1919 by Shostakovich, the Paganini First Violin Concerto, Symphonic Variations by Cesar Franck and Symphonic Dances by Rachmaninoff.

A REVIEW OF BRITISH NEWSPAPERS, dealing with matters of international concern, will be heard at 12:45 p.m. following the news.

NEWS A WEEK LATE: On Sunday, May 24, the staff and students of WSUI defeated their equivalents from the TV Center in a game of baseball (?). A pitcher's battle all the way, the final score was 19 to 16 with the WSUI squad coming from behind to tie and win. A trophy was awarded to "Casey" Koehler of the Radio Rascals; and that was an especially touching development as Koehler himself had constructed the trophy in the first place. A gold microphone on a field of used TV Guides was the theme of the trophy.

REAL SPORTS NEWS occurs every day, and WSUI devotes two programs a day, 6 days a week, to appropriate coverage: at 5:15 p.m., Monday through Friday (5:45 on Saturday), and at 9:55 p.m. every night but Sunday.

EVENING CONCERT: From 6 to 8 p.m. Wagner's Polonia Overture, Schubert's Quintet in C Major, Eight Russian Folk Songs by Liadov, and the Shostakovich Violin Concerto. On FM, Diabelli Variations by Beethoven.

Letters To The Editor—

## A Question: Has Justice Been Done?

To the Editor—

Staff members of the Daily Iowan might try proving their courage rather than telling us about it. The editorial on May 28 justifying the Iowan's role in recent events would be more plausable, were it not for the fact that Mr. Verges' letter, published on the same page, was significantly altered. But rather than justifying its deletion of the name of the football player whose public letter of thanks to the "I" Club Mr. Verges quoted in full, Daily Iowan staff writers might explore the justice of the University's decision to dismiss five students on the charge of "indecent and improper conduct."

I should like to emphasize the fact that the Johnson County Attorney, aided by a State Investigator, found no reason to pursue a criminal investigation once the coed had withdrawn her complaint against the four male students. He apparently found no evidence of any other crime punishable by the law he is under oath to uphold. He apparently found no reason to think that any one of a number of other crimes might have been committed; e.g. adultery, liquor violations, lewdness, indecent exposure, seduction, etc. The impression the County Attorney has given us is that an SUI coed dreamed up a fantastic and malicious tale which impugned the reputations of four football players.

Accordingly, one wonders whether the Dean of Students has acted justly. We certainly hope that he has, for he surely would not take the serious step of dismissing five students unless he had reason to think that something most untoward had occurred. But the County Attorney seem to have removed from consideration of all crimes. Thus with all the more serious offenses against the Code of Student Life having been ruled out by the County Attorney's action, the only grounds upon which the Dean of Students could act would seem to be of so trival a nature as not to warrant the penalty he has imposed.

The question of whether justice has been done in this case will not be resolved by a statement from the Dean of Students or the County Attorney saying that justice has been done. The County Attorney's statement that the coed withdrew her complaint without "undue" pressure subtly raises more problems than it solves, and the Dean of Students' administrative procedures appear to leave little room for those safeguards for the rights of individuals it is presumably the solemn duty of a university both to inculcate and to espouse. The citizens of Iowa, as well as the students and faculty of this University, are entitled to know that there has been no miscarriage of justice in this case.

Harry M. Bracken
(Assistant Professor, Department of Philosophy)

## Cites Letter's 'Poor Taste'

To the editor:

Several times during the course of my four years at Iowa I have been tempted to write the Iowan, but was always put off when I found someone else had expressed my sentiments on the matter under consideration. However, I was so incensed with Mr. Wells' letter appearing in your issue of May 28 that I am unable to wait to see if it is properly answered.

I personally do not feel that the comments Mr. Wells has quoted were ever meant to be taken seriously, or at least, if so intended, certainly should not have been seriously accepted. I too have heard rather crude statements, along with some clever ones, concerning our "illustrious" football squad, but would hesitate to make them printed indictments of the entire team. Dean Huit's office has stated that no evidence implicating other persons on the outing was obtained, and I am willing to accept it. The same issue of the Daily Iowan carried a story of a former student who was convicted of larceny in a Johnson County Court. Does this imply the other 10,000 students on campus are thieves?

I certainly do not condone the behavior of the persons involved in this well-publicized "indictment," but I am inclined to believe that it had grown considerably out of proportion, and will be thankful when the lurid tales are finished. Recall that the Johnson County Attorney did not file charges, in spite of early indications that he might do so, and that the University took the quite effective disciplinary action, in spite of the fact that this is a so called "football school."

It sems to me if the Daily Iowan is concerned with responsible journalism, and I hope that it is; it should not print letters in such obviously poor taste as the one offered by Mr. Wells. Animals, indeed, but I was under the impression that sex also belonged with the higher members of the species!

Letter To The Editor—

## Lack Of Respect For DI In Administration Action?

To the editor:

The failure of the Daily Iowan to provide adequate coverage of last week's incident involving five SUI students has resulted in much criticism of the Iowan and its editor. It is evident that the Daily Iowan has failed in many respects in an attempt to report this incident to the student body, but is The Daily Iowan the only campus agency that has failed? The failure of the University's administration to make a formal press release to the University's own newspaper should make it evident that the administration fails to recognize The Daily Iowan as a capable news-reporting instrument.

The Daily Iowan's action in this campus incident has been a disappointment to the student body, but the greatest disappointment was the administration's failure to use The Daily Iowan as a competent agency for news release. Instead, a Des Moines newspaper pieced together a story and the result has given this University a great deal of bad publicity. This lack of respect for The Daily Iowan, by the administration, would make one believe that the University does not have enough faith in its own journalism students to provide them with a significant local news item. If this is the case, then The Daily Iowan cannot be held responsible in its failure to properly report last week's campus incident to the student body.

## Analyst Predicts Victory For West In Iran

EDITOR'S NOTE: Iran is a keystone of American foreign aid and a frequent target of Moscow jibes or threats. Six years ago William L. Ryan reported the news from that area at the time of Premier Mossacegh. Now he has returned for a survey and talked with many Iranians, high and low, lettered and unlettered.

By WILLIAM L. RYAN
AP Foreign News Analyst

TEHRAN, Iran (AP) — In this fabled land of the Persians the United States and the West are within reaching distance of a cold war victory.

There is an opportunity here to prove the value of a massive program of U.S. economic and military assistance. But there are big "ifs." The battle is not over.

The answers depend largely upon the Iranian government and Shah Mohammed Reza Pahlevi himself. The next few months may prove crucial for Iran, a test of nerves and of the Shah's willingness and ability to initiate and enforce significant reforms.

**Nobody appreciates better than the Iranians themselves the key role their country plays in the world political conflict.**

This land has seen tides of invasion through 2,500 years of history.

If Iran stands firm, Moscow is barred from direct access to the Middle East and south Asia. The Soviet Communists could gain a foothold only through force and direct aggression. To do that they would have to be prepared to risk world war.

**If this country is shaken loose from the northern tier, however, little will stand in the way of communism's march of the Middle East.**

There is an enormous difference between Iran today and the Iran of a half dozen years ago at the height of its violent nationalist troubles. With determined American help, this capital and country both have come a long way. The Communists, once the only cohesive, organized party in the country, seem dispersed if not beaten. Impressive economic changes have taken place.

This country of 20 million, a fifth the size of the United States, has a program which can make it rich and powerful in a decade. More important, the effects of far-flung programs are being observed and felt by the population.

**Lack of this direct effect upon the people as a whole was one of the weaknesses of the Iraqi development scheme whose sponsoring regime fell before violent revolution last July.**

There is no political liberty in Iran as it is known in the West.

### RAINIER BIRTHDAY

MONTE CARLO (UPI) — Prince Rainier celebrated his 36th birthday until well past dawn Monday by banging the drums in a jazz band the way he did in his bachelor days. Princess Grace looked on approvingly.

Greek shipping tycoon Aristotle Onassis helped out by strumming a guitar at the private party for 14 in the Monte Carlo Casino Cabaret.

THANKS - STUDENTS!

## Tropical Storm Arlene Brings Floods To Louisiana, Mississippi, Alabama

NEW ORLEANS (UPI) — The remnants of tropical storm Arlene, blowing torrential rains out of the Gulf of Mexico, brought flooding to parts of Louisiana, Mississippi and Alabama Monday.

More than 11 inches of rain flooded a New Orleans suburb Sunday night and early Monday, forcing more than 1,000 persons from their homes. Army amphibious trucks helped most of the evacuees from the flooded areas of Kenner, La., where as much as four feet of water stood in the streets.

There were other evacuations because of high water at Baton Rouge, La., and the Jackson, Miss., weather bureau warned of flash flooding on smaller streams in south Mississippi.

Floodstages were forecast for major streams in Mississippi and Alabama later in the week.

## School Children To New High In 1963; Senator Says Needs Not Being Met

**WASHINGTON (UPI) — The number of school age youngsters in the United States will climb to a high or approximately 48 million in 1963, the Census Bureau estimated Monday.**

**The number of children aged 5 through 17 is about 43 million, a current record. The total has grown steadily from a 1945 post-depression low of 38.5 million.**

**The bureau anticipated increases of about 1.5 million a year until 1963, about equal to the gains since 1953.**

**Sen. Richard L. Newberger, (D-Ore.), said Monday that the Eisenhower Administration was suffering from "political schizophenia" on education policy.**

## New Satellite Will Provide Radio Link Between U.S. Coasts

WASHINGTON (UPI) — The Federal Space Agency hopes to launch a communications satellite in December that would provide a new radio link between the east and west coasts, officials said Monday.

The sphere would be the first of a series of satellites designed to serve as permanent relay points in space for carrying radio messages, telephone calls and television programs around the world.

A spokesman for the National Aeronautics and Space Administration (NASA) said the first such satellite would be an inflated sphere 100 feet in diameter which could be used to bounce radio messages between the U.S. coasts.

## Governor Long 'Stubbornly Resists' Psychiatric Treatment For Upset Mind

**GALVESTON, Tex. (UPI) — Gov. Earl K. Long of Louisiana "stubbornly resisted" Monday the attempts of psychiatrists at John Sealy Hospital to treat him for an "upset mind."**

**"Governor Long is upset in his mind," Dr. John Truslow, administrator of John Sealy Hospital, said. "He is stubbornly resisting attempts to give him psychiatric treatment.**

**"Members of his family are attempting to persuade him to accept psychiatric treatment, but he is resisting. We don't know why he is resisting."**

## Last-Ditch Hearing For Starkweather Goes To Circuit Court Thursday

HURON, S.D. (UPI) — Mass killer Charles Starkweather Monday was granted a last-ditch hearing on his appeal to avoid execution in the electric chair.

The bandy-legged killer's appeal to the Eighth Circuit Court of Appeals will be heard Thursday in Omaha. Starkweather, who killed 11 persons in a two-state murder spree, has exhausted all legal processes in the state of Nebraska.

Starkweather won a two-week stay of execution May 22, just 90 minutes before he was scheduled to die in the electric chair at Nebraska State Prison in Lincoln. The stay expires on the day of the appeal hearing.

# SUI Assistantships Offered Through Science Foundation

SUI is one of the 150 institutions through which the National Science Foundation will offer approximately 550 Summer (1960) Fellowships for Graduate Teaching Assistants, according to information received by Walter F. Loehwing, dean of the SUI Graduate College.

This will be the second summer for the program.

Designed to enable graduate teaching assistants to devote their full summer to study and research, the fellowships will be offered in the mathematical physical, medical, biological, and engineering sciences, as well as in anthropology, psychology, and certain social sciences including geography, mathematical economics, experimental and quantitative sociology, and the history and philosophy of science.

**SUI students may obtain application materials from the University graduate college, or from the Fellowships Section, Division of Scientific Personnel and Education, National Science Foundation, Washington 25, D.C. All applications must be in the office of the Graduate College where the work will be done by Dec. 11, 1959.**

Teaching assistants will be judged solely on the basis of ability, as indicated by academic records, reference reports and other evidences of attainment. After an initial screening and evaluation by University faculty members, the applications will be forwarded — together with faculty recommendations — to the National Science Foundation, which will make the final selection of Fellows.

**Summer tenures from eight to twelve weeks may be selected by the Fellows. Weekly stipends range from $50 to $75 per week, the amount determined by the Fellow's institution according to local conditions.**

All appicants will be notified of the Fellowship winners shortly after March 15, 1960.

# Arab Prince Grabs Power

CAIRO, (UPI) — The Crown Prince of Yemen has taken advantage of his father's absence to stage a major power-grabbing purge in the tiny Arab kingdom, informed sources said Monday.

The arthritic Imam Ahmad, 67, absolute monarch of the Nebraska-size, oil-rich nation on the Arabian Sea, has been under medical treatment in Rome for the past several weeks.

His son and successor, Crown Prince Mohamed Seif Al-Islam (Sword of Islam) AL-Badr, wasted no time after the Imam's departure. He jumped on the political opposition and tossed top officials out of the Army and the Government.

The Crown Prince's purge drew the applause of the United Arab Republic, with which Yemen became loosely-federated nearly a year ago.

The Crown Prince gave as a reason for his purge that those ousted had stood in the way of his drive to reform Yemen by bringing the primitive nation up-to-date technically and economically with the outside world.

Die-hard isolationists in the Government and Army particularly disliked the parts of the reform program that called for bringing in Russian technicians and exposing the ancient land to more and more of the modern world.

The trouble began to boil about 10 nights ago when rebellious tribesmen stole army weapons from the walled capital city of Sanaa.

Security forces under Salkadi Yahya AL Emari caught a few persons suspected as being rebels. Army troops were not appeased, however, and took out their resentment by setting Emari's house on fire, Yemeni sources in Cairo said.

The house burned but Emari escaped to refuge with mountain tribesmen, the sources said.

# 5 To Receive ROTC Honor

Commissions in the regular component of the U.S. Air Force will be awarded to five seniors June 12—the same day they receive degrees from SUI.

Named distinguished graduates of the Air Force ROTC program, the five are William Dytrt, A4, Cedar Rapids; Dick Petersen, A4, LeMars; and Erik McWilliams, A4, Wapello; Richard Maurer, E4, Iowa City, and Paul Rausch, E4, Rock Island, Ill.

To be designated a distinguished graduate, a cadet must rank in the top 25 per cent of his graduating class, the top 10 per cent of his ROTC class, be recommended by his college dean and the professor of air science, and have an outstanding rating from ROTC summer camp.

The cadet must also qualify for a regular commission in the Air Force by passing a three-hour examination. His appointment must also be confirmed by the U.S. Congress.

Other graduates of the Air Force ROTC program at SUI will be commissioned in the Air Force Reserve.

All five of the cadets who will receive regular commissions rank in the top 20 per cent of their graduating classes.

**COURTED 53 YEARS**

STOCKHOLM (UPI) — Alma Lund said Monday that inasmuch as she had been in love with Composer Hugo Alfven for 53 years, it came as no suprise when he proposed.

Alfven, now 87, met Miss Lund, 70, when she was 17. They will be married June 14.

# King's Return Adds To Rift Between Sides

BRUSSELS (UPI) — Young King Baudouin returned from his goodwill tour of the United States Monday and stepped into the middle of a controversy between angry government officials and his father, ex-King Leopold.

An estimated 1,000,000 cheering Belgians lined a 15-mile parade route to hail the 29-year-old bachelor king to offset a prickly official airport reception.

Enthusiastic Belgians shouting "Vive le Roi" (long live the king) and weeping for joy turned the homecoming from a routine royal ceremony into what was perhaps the greatest such display of flag-waving rejoicing since the end of the World War II German occupation.

The king had emerged from his airliner at Brussels Airport before two separate knots of Royal and Government greeters standing 50 yards apart.

Leopold, whose decision to go to the airport to welcome his son clearly angered and embarrassed Premier Gaston Eyskens, strode toward Baudouin with a smile.

Baudouin and Leopold embraced. Eyskens kept his distance, standing in military stiffness with other Government leaders.

# Collegian Held In Parents' Death

HOBART, Okla. (UPI) — A widespread manhunt for the slayer of a successful southwest Oklahoma dairyman and his wife, a prominent religious writer, ended Monday with the capture of their mentally-ill son.

Accused in the Sunday budgeon-slaying of his parents, Elmer and Florence Brillhart, was Clark D. Brillhart, 23, a college student who had been under treatment at a mental institution. He had told an uncle of killing the couple, then fled Sunday night.

Brillhart was arrested by highway patrolman, Lt. Gene Frusher at 3 p.m. near Union City, about 100 miles northeast of Hobart, after a truck driver spotted the youth driving in southwest Oklahoma City. Frusher followed the car until it got outside of town, then made the arrest.

The suspect was taken to the Canadian County jail at El Reno and held for Kiowa County authorities.

A few hours before the capture, Kiowa County Attorney W. W. Bolding had filed a murder charge naming the youth as the killer of his mother. He said a second charge probably would be filed in the father's death.

Young Brillhart, who had been released from a mental hospital on convalescent leave only a week ago, disappeared Sunday night after telling an uncle he had killed his parents in their farm home eight miles northwest of here.

The couple, long-time leaders in the state mental health program, was beaten to death with a wrecking bar, a heavy iron tool about 22 inches long, officers said.

# Dental Exams Being Given

Sixty-seven dentistry students and 28 dental hygienists are taking state dental board examinations at SUI this week.

Members of the Iowa State Board of Dental Examiners conducting the tests are Drs. Gerrit Hospers, Waterloo, chairman of the board; Philip Hahn, Burlington, secretary of the board; Arthur Meswarb, Cedar Falls; P. T. Williams, Atlantic, and Richard Rabe, Des Moines.

Intensive written tests in five areas of dentistry were given Monday. Tuesday through Friday will be devoted to examinations of the students' clinical abilities. Licenses to practice in Iowa will be issued to students who successfully complete the week-long tests.

Dentistry students taking the tests come from SUI, Marquette University, Milwaukee, Wis.; St. Louis (Mo.) University; Northwestern University, Evanston, Ill., and Creighton University, Omaha, Neb. All of the dental hygienists taking examinations are from SUI except one who trained at Northwestern University.

**ELVIS PROMOTED**

FRANKFURT, Germany (UPI)— Elvis Presley wore another stripe Monday. The Army promoted him to specialist fourth class, a rank equivalent to corporal.

Presley, a jeep driver, also received a pay increase of $22.92 a month, for a total monthly pay of $122.30.

# 150 Hospital Staff Members To Attend SUI Symposium

A symposium on professional hospital techniques and procedures will be held at SUI Wednesday through Friday for more than 150 members of hospital staffs throughout Iowa.

One of the primary aims of the symposium is to acquaint participants with the newer techniques and procedures in the control of hospital infections and in the maintenance of high standards of technical service.

The symposium will be sponsored by University Hospitals, the University's graduate program in hospital administration and the SUI College of Medicine in cooperation with the research and technical projects divisions of the American Sterilizer Company of Erie, Pa. Sessions will be held in Shambaugh Auditorium.

Speakers will include professional consultants who are specialists in the field of sterilization and disinfection, scientific planning of technical hospital departments, and the techniques and procedures involved in these departments, according to Gerhard Hartman, superintendent of University Hospitals.

Attending the symposium will be hospital administrators, members of hospital boards, nursing service directors and their assistants, operating room supervisors, central supply service supervisors and personnel from various other departments and divisions of Iowa hospitals.

Dr. Norman B. Nelson, dean of the College of Medicine at SUI, will welcome participants. Other SUI speakers will be Marie E. Tener and Madge M. Ellis, director and assistant director, respectively, of nursing service at University Hospitals, and Dr. Hartman.

WHAT'S THIS FELLOW THINKING?

Pretty hard to tell, isn't it? His thoughts are known only to him; they are **INVISIBLE** to you.

It's the same way with the maintenance functions of dry cleaning. They are **INVISIBLE** to you. You can't tell by looking at the cleaned garment if these functions have been done or not. Therefore you must depend on the cleaners for getting done the **INVISIBLE** maintenance functions. For example:

**Did proper neutralization and complete flushing of chemicals applied to extra-soiled spots on your clothes take place, so that fiber deterioration was eliminated?**

You can't tell by looking if this INVISIBLE maintenance function was done or not. That's why you must rely on a **dependable** cleaners that performs these functions.

# Tigers Trip Tribe 3-1 On Foytack's 5-Hitter

DETROIT (AP) — Paul Foytack, with a string of 10 straight incomplete games behind him, pitched a nifty five hitter at the Cleveland Indians Monday and the Detroit Tigers captured a 3-1 victory at Briggs Stadium.

The fireballing righthander, usually plagued by wildness, did not issue a walk and scattered five singles in posting his third triumph against six losses.

He bested young Gary Bell in a pitcher's duel decided on a fifth inning homer by Eddie Yost. The veteran third baseman, who has raised his average 20 points with a six game hitting streak, broke a 1-1 tie with his 10th home run off the facing of the upper deck in left field.

The Tigers got an insurance run in the seventh when with one out, Frank Bolling sliced a triple to the rightfield corner and scored on a passed ball.

The Indians, slipping badly and in danger of losing their grip on first place, scored their only run in the second inning. Vic Power and Woody Held singled and Russ Nixon scored Power with a fly to center.

Detroit tried it in the fourth when Charlie Maxwell got an infield single and came around on a walk, a sacrifice bunt and a sacrifice fly by Lou Berberet.

| | | | |

Home run — Detroit, Yost (10).

## Giants 11, Braves 2

MILWAUKEE (AP) — San Francisco's Giants whirled to an 11-2 victory over the Milwaukee Braves Monday night on the strength of a six-run third inning and four more in the eighth.

Brave hurler Joey Jay collapsed in the third inning as the Giants pushed across six runs on six hits.

In the eighth, a double by Orlando Cepeda scored Willie Mays. Then a bases loaded double from Andre Rodgers — who had struck out three times — knocked in three more San Francisco runs.

The Giants got their other run in the seventh inning.

Milwaukee managed to push across its two runs in the sixth inning, one of them unearned.

| | | | |

## A's 3, ChiSox 1

CHICAGO (AP) — Bud Daley's pitching and the slugging of Joe DeMaestri paced the Kansas City A's to a 3-1 victory over the White Sox Monday night. It gave the A's a sweep of the two-game series.

DeMaestri figured in all three runs off Ray Moore, driving in a pair with his third homer and a triple, and scoring the other one himself on a wild pitch.

Daley hurled a seven-hitter for his fourth victory of the season and his second over the White Sox. The only run off him came in the fourth when Luis Aparicio doubled and Nellie Fox singled.

| | | | |
|---|---|---|---|
| Kansas City | 000 | 020 | 100— 3 9 0 |

St. Louis at Pittsburgh (N) — (Preceded by completion of suspended game of May 31) — (N) — McDaniel (3-7) vs. Daniels (3-2) in suspended game; Mizell (6-1) or Jackson (3-5) vs. Haddix (3-3).

# L.A. Screen No Longer A Controversy

LOS ANGELES (AP) — Only a year ago, the Coliseum's left-field screen was the most controversial curiosity in the majors.

Now it's stirring up about as much furor in baseball circles as the current newsletter of the Mozart Society.

Apparently, like the village freak, the screen has achieved a measure of tolerant acceptance among the people who have to live with it.

At any rate, there has been a decline in the fear that National League hitters shopping for cheap home runs might find enough bargains here to break Babe Ruth's record of 60 in one season. Last year, a national sports magazine ran an editorial exorting baseball to ignore the home run record which seemed certain to be set at the Coliseum. As it turned out, Ruth's record survived handily without such chivalrous protection.

Nevertheless, as expected, the screen was something less than a perfect interceptor of fly balls struck with authority. There were 193 homers hit here in 1958, more than in any other park in the league. Most of them flew over the screen — some easily, some barely.

This year, the broad wire barrier which runs along the outfield wall from the 25-foot left-field foul line is doing slightly better. Or the hitters are doing slightly worse. Or the pitchers are growing slightly wiser.

In 1958, after 27 games, 77 home runs had been hit at the Coliseum, 32 by the Dodgers and 45 by their opponents. This year, at the same point, the total is 62—27 by Los Angeles 35 by the opposition.

And the Coliseum, despite the proximate screen and reduced dimensions of center and right fields, is not the league's No. 1 home run park right now. While 62 have been hit here in 27 games, 71 have been hit at Cincinnati in only 23 games. Seals Stadium in San Francisco is not far behind the Coliseum with 54 in 27 games. Milwaukee has 45 in 23 games, St. Louis 43 in 20, Chicago 42 in 22 and Philadelphia 33 in 20. As usual, Forbes Field in Pittsburgh trails with 24 in 19.

A start on your financial planning may be just the tonic you need right now; it's never too early to begin.

Life Insurance is the only investment which gives you a combination of protection *and* savings; it's the ideal way to start a *complete* financial program.

Your campus representative will be glad to discuss with you a variety of plans which may be tailored to your individual present and future needs. See him now, when you can profit by lower premiums!

# Wilhelm Seeking Earned Run Title In Second League

NEW YORK (AP) — Hoyt Wilhelm, the veteran knuckleballer who got off the relief rolls to enrich Baltimore's starting pitching staff, is in an excellent position to produce an unprecedented feat if he keeps up his present pace.

Wilhelm can become the first pitcher in history to win earned run championships in both major leagues.

Figures compiled by the Association Press disclosed Monday that Wilhelm leads the American League with a 1.13 ERA. He captured the National League title in 1952 with a 2.43 average while relieving for the New York Giants. The 35-year-old right-hander has hurled scoreless ball in his last 22 innings. His record is 7-0.

Gene Conley of Philadelphia heads the National League with a 1.94 average.

Harvey Haddix of Pittsburgh reduced his earned run mark to 2.15 and moved into second place as a result of his perfect game for 12 innings one hit in 13 effort against Milwaukee last Tuesday. Stu Miller of San Francisco, last season's National League earned run champion, is third with 2.35.

# Hawks Dominate AAU Track

Several members of the Iowa varsity and freshman track squads competed in the State AAU meet Monday afternoon at Mt. Vernon.

Freshman Don Greenlee tied the mile run record going the distance in 4:16.6. The record was set in 1955 by former Iowa ace Rich Ferguson. Ralph Trimble, Jefferson High of Cedar Rapids, who last week set a new class AA high school mark, finished second in a time of 4:16.7. Trimble was recently announced as winner of a 1959 Kinnick scholarship. Jack Hill finished third.

John Brown, Big Ten 440-yd. champ, won the quarter with a time of :51.5. Brown also won the 220-yard dash in :21.8. Other winners were Tom Herzberg in the pole vault, "Deacon" Jones, in the 3-mile run and the 440-yard hurdles; Jim Young set a new discus mark with a toss of 153ft. 6in. and Carl Anderson finished first in the high jump with a leap of 6ft. 2in.

Other top Iowa finishers were Jerry Williams, second in the high hurdles, third in the javelin, second in broad jump, second in hop, step and jump, and third in the low hurdles; Bob Warren, second in javelin, and first in broad jump; and Jim Young, third in the shot put.

Bob Hanson finished second in the pole vault; Bill Boyd, who a week ago cut 20 seconds off his best time in the two mile run, finished second in the 3-mile run, and Bruce Trimble finished the 3 mile in fourth place. Jim Rauker finished second in the discus; Denny Rehder was second in the 880-yd. run, and Leighton Betz was third in the same event.

# Dirksen Says Ike Support For Strauss Still Strong

WASHINGTON (UPI) — Senate Republican Leader Everett M. Dirksen said Monday after checking the White House that there is no sign President Eisenhower is wavering in his strong support of Lewis L. Strauss to be Commerce Secretary.

Dirksen said he also had seen Strauss himself recently and heard nothing to suggest that Strauss wanted to give up the battle for Senate confirmation to the cabinet post.

**"It is my considered opinion that the nomination won't be withdrawn . . . I have no reason to believe that Strauss won't be confirmed," Dirksen told newsmen.**

The GOP leader also warned that any filibuster against Strauss' confirmation could create a legislative logjam in the Senate. Debate on the nomination will begin Thursday.

In another development, Financier Armand G. Erpf asked Strauss to drop him from consideration as a member and possible director of a government transportation study. Erpf said he made the request because "my usefulness . . . is being impaired."

**Reports that Erpf, a partner in a big Wall Street brokerage house, would head the Commerce Department study, touched off a flurry of opposition in the Senate on grounds that he has heavy railroad interests.**

He is a partner in Carl M. Leob, Rhoades & Co., specializing in railroad stocks.

The government study will cover all transportation fields—rail, air, motor and ship. One of its major objectives will be to recommend solutions in conflicting Government policies toward various kinds of transportation.

A Commerce Department spokesman said Erpf's withdrawal was spontaneous and not requested by Strauss. The department had denied Thursday that Erpf had been selected to direct the study but acknowledged he was one of a number of transportation experts sounded out for the post.

**Sen. A. S. Mike Monroney, (D-Okla.), who criticized Erpf's reported selection, said the financiers action "does not remove the lack of perception demonstrated by Secretary Strauss in offering him a job in the first place despite the gross conflict of interest."**

"This blindness of (Strauss) has been disturbing to many members of the committee," Monroney said.

In warning against a filibuster on Strauss' nomination, Dirksen said the target date at which such a talkathon would be aimed would be June 30, the end of the fiscal year. He said this might hold up paychecks for government employees by delaying action on new money bills.

A newsman commented that Senate Democratic Leader Lyndon B. Johnson has said the nomination might be laid aside for priority items like appropriations measures.

But Dirksen said there might be "some resistance" to such a move.

## Dentists Meet For Workshop

"Citizenship is a two-way street and the professional man has a special responsibility to his community, as people look to him for leadership," advised Robert F. Ray, professor and director of SUI's Institute of Public Affairs, in a lecture Monday at a Postgraduate Workshop in Dentistry, being held on campus this week.

Some 30 dentists from all parts of the Midwest are attending the five-day session. The workshop is designed to increase capabilities for community as well as promote individual professional development.

Dr. Ray outlined three possible ways for professional men to help their communities.

"First of all, help develop or keep alive the community's cultural arts and recreation centers," he advised.

Second, the professional man should take part in political activities of the party of his choice, and third, professional men should take an active interest in their local school systems, Ray said.

## Law Annex Bids Open

Bids for a new law annex at SUI will be accepted until July 2, George L. Horner, superintendent of planning and construction, said.

The 75 by 120-foot annex is estimated to cost $650,000 without equipment, Horner said. The three-story brick building will join the west wing of the Law Commons dormitory, which will be remodeled for classroom use.

There will be three windowless classrooms on the second floor of the annex, and the library will be on the first floor, along with a librarian's office, students' typing room, and a microfilm reading room. A two-level stack room will be located on the ground floor.

The bids on the structure will be opened July 2 at 2 p.m., following a public hearing at 1 p.m., Horner said.

**RUNNING FROM BARDOT?**

NICE, France (UPI) — Ferdinand Vidalin, arrested when he was caught trying to steal a yacht at nearby Ville-Franche, explained to police he needed it because he was so in love with Brigitte Bardot he had to leave France to forget her.

## Iraq Terminates Aid From U.S.

BAGHDAD, Iraq (AP) — The American Embassy said Monday that Iraq has renounced American military aid on the ground it conflicts with the country's positive neutrality policy.

The Iraqi Foreign Ministry sent a note to the ambassy Saturday terminating the military assistance agreement of 1954, the supplement to the military agreement signed a year later, and the minor 1957 economic assistance agreement.

The politely phrased note emphasized the abrogation was not meant as an unfriendly act.

**THE IOWA BOOK AND SUPPLY CO.**

*serving Iowa City and the State University of Iowa*

8 SOUTH CLINTON • BOX 632 • IOWA CITY, IOWA • PHONE 4166 • R. W. VANDERHOEF, MANAGER

**June 2, 1959**

Dear S.U.I. Students:

In just a few days the current academic year will come to a close and with it the rush and confusion of last minute packing and goodbys. We at the Iowa Book and Supply Company have enjoyed the privilege of serving you in both your academic and recreational requirements, and we hope that in most cases our service has been satisfactory.

As you start packing for the trip home or for some special vacation trip, many of you will look at your year's accumulation of textbooks and decide to rush down to your favorite book store and convert them to cash. Before doing so, it is only fair to point out that the book you plan to dispose of has served you well as a tool used to further your education. It has probably cost you less than the price of a Coke or cup of coffee per hour spent in the classroom and it still has substantial salvage value.

For your information there were approximately 1600 required textbooks used at S.U.I. during the past year. Of that total 83 will be replaced by new editions, 148 will probably be discontinued and the balance to the best of our knowledge may be used next year. Those books that we hope will be used again will bring up to 50% of the new price, depending of course on the stocks already on hand and future needs. Those being discontinued will bring the best available prices offered from outside sources, again depending on the national demand. The old editions will bring very little if anything, but if there is a market the stores will find it. To offer this complete book service is not always easy, because it requires just as much advance preparation as an opening semester rush. There is one major difference. The stores now must be ready and willing to pay out thousands of dollars in cash, with no chance of selling these books for several months.

So check over your books carefully, keeping any that might have future use, and the balance take to the store of your choice. We in turn will make the best offer possible, and if it meets with your approval, we are both satisfied.

A pleasant summer to you all, and we hope we'll have the pleasure of serving you next September.

Sincerely,

Ray. W Vanderhoef
