

## May Refuse NATO Commitments

### Wants U.S., British Support On Algeria

PARIS (UPI) — President Charles De Gaulle's Government Monday served notice it will refuse "new commitments" to the NATO alliance unless the United States and Britain share atomic secrets with France, support it on Algeria and make it an equal with them on global strategy.

The warning was emphasized by Gen. Pierre Billotte, De Gaulle's wartime chief of staff, who told newsmen at the 14-nation Atlantic Congress meeting in London that he feared a "new major crisis" in NATO. Billotte said there was a possibility France might withdraw from the defense organization unless it is given equality with the United States and Britain.

The French delegation to the Atlantic Congress proposed that NATO strategy be planned on a global basis rather than regionally and that all NATO members be party to "all" defense data in technical and political fields.

A key issue involved was the question of control of nuclear weapons stockpiles. U.S. officials in Washington said De Gaulle's demand for sharing custody of nuclear weapons poses "a touchy difficult problem."

The new dispute between France and the other NATO leaders, second this year, came as the headquarters of U.S. Gen. Lauris Norstad, supreme Allied commander in Europe, said it was considering moving all U.S. supersonic fighter bombers out of France. Some 200 super sabres are stationed in French bases.

Reasoning behind the threatened NATO move was that since France has refused to allow stockpiling of nuclear weapons on its soil unless it is party to American nuclear secrets, there is no use having the planes in one country and the weapons in another.

The French stand came up again in the midst of the delicate East-West foreign ministers conference in Geneva and the Atlantic Congress of Western states in London.

An "authorized" French Government statement said talks on the control of nuclear weapon stockpiles were underway in Washington.

"The French Government considers them essential, but it is not a question of taking on any new commitments with NATO," the statement said.

The announcement jolted the NATO alliance as a similar proclamation did last March when France withdrew the obligation of the French Mediterranean fleet to serve under NATO command in wartime.

Informed sources said the reasoning behind Monday's announcement was the same as when De Gaulle withdrew the fleet commitment:

1. De Gaulle wants to share atomic secrets now withheld by the United States and Britain.
2. He wants a co-equal role with the United States and Britain on global strategy.
3. He wants more active Allied understanding and support for France's struggle to keep Algeria.

The influential newspaper *Le Monde* in Paris said De Gaulle is after "information" that would enable France to "produce nuclear arms and to use them if need be."

*Le Monde* also said France was demanding a veto over the use of any American nuclear weapons stockpiled in the country.

The announcement of France's intentions followed separate meetings earlier Monday between De Gaulle and U.S. Adm. Jerauld Wright, and NATO Atlantic commander, and French foreign minister Maurice Couve de Murville who flew in from the Geneva ministers conference.

France is known to want to become a nuclear power and has been working on its own bomb. Secrets now held by the United States and Britain would enable it to speed up the program.

## DeGaulle Deals Setback To NATO

PARIS (UPI) — About 200 American fighter-bombers may be moved from bases in France to Germany because President Charles de Gaulle's government balks at having atomic stockpiles in France, qualified sources said Monday.

Gen. Lauris Norstad's supreme Allied headquarters in Europe confirmed in a statement that consideration is "being given to measures which will insure the effectiveness of Allied air units now based in France," pending an agreement on all aspects of NATO air operations in France. Headquarters on a French newspaper report that removal of the planes already had been decided. A Defense Department spokesman in Washington Sunday denied a decision had been made.

## Navy To Launch Ballistic Missile

GROTON (AP) — The Navy is scheduled to launch its first ballistic missile submarine today. This will move the Navy into a major role in atomic strategic warfare.

The 6,700-ton submarine *George Washington*, has 16 tubes for firing 1,200-mile range Polaris nuclear missiles from below the surface.

The *George Washington*, like all American submarines now being built, is atomic-powered, thus enabling it almost limitless cruising distance plus the ability to operate submerged at high speeds and stay down for weeks.

The launching marks a point in a race to keep ahead of the Soviet Union in nuclear submarines and ballistic missile firing subs. The Soviet Union is believed to have built or have under construction a dozen atomic-powered submarines.

The effort to hasten the time when Polaris missile submarines can join the fleet is intense, and the goal for the *George Washington's* completion is sometime next year. This is when the Navy hopes

to have ready the missile to become nuclear explosive on military or industrial areas well within an enemy nation. This is strategic warfare, as distinguished from the tactical warfare in which all submarines have been engaged in all previous wars. Until now, the mission of a submarine was to attack enemy naval or merchant shipping, with a small secondary mission of reconnaissance of enemy coastlines.

Construction of nine Polaris submarines has been authorized so far, with some congressional quarters urging the Defense Department to get going on still others.

The urgency in getting ballistic missile submarines into operation is one of the reasons why the *George Washington's* hull and power plant are those of an ordinary nuclear powered attack submarine — adapted to the missile firing mission. The first five Fleet Ballistic Missile submarines will be of substantially the same hull and atomic reactor design used by the pioneer *Nautilus*, although scaled up to almost double the hull size.

The *George Washington*, which will cost about \$100 million is being built by the Electric Boat Division of General Dynamics Corp., the major submarine contractor for the Navy. It will displace about 5,400 tons when surfaced, compared with 3,000 for the *Nautilus* and 6,700 tons when submerged.

The Polaris submarine has only

## City Council Defers Action On Franchise

Iowa-Illinois Gas and Electric Company asked the City Council Monday night to set a date for an election concerning the proposed rate hike and franchise.

The council was also asked for a class B beer permit for a new establishment to be called Kessler's Lounge. The establishment would be operated by Donald Kessler, who operates Kessler's tavern on Dubuque Street.

The council deferred action of both requests. The first would require ordinance which would have to be read to the council three times before a vote is taken.

Action for the request of the beer permit was deferred until more specific information about the proposed lounge could be obtained.

The council confirmed City Manager Peter Roan's appointment of James Sangster as city treasurer. Sangster will succeed Milo Novy and will serve from July 1959, to June 30, 1961.

A petition was presented to the council from about five residents of the Porter Avenue area protesting the name change to William White Boulevard. The ordinance proposing to make Porter Avenue and part of Clapp Street to William White Boulevard was given a second reading.

The city council authorized Roan to enter into a contract with Joe Conway Wrecking Service to demolish for \$700 the proposed parking lot site at 116 E. Burlington St. A brick warehouse and a frame house now occupy the site.

The City Council will meet Monday at 7:30 p.m. and again the following Tuesday at 4 p.m.

## Russia Establishing New Rocket Launching Bases

VIENNA (UPI) — Russia has established rocket launching sites in the satellites stretching from the Baltic to the Black Sea, information available to Western Governments showed Monday.

Many of these bases have been in operation for more than a year. Well-informed sources said the bases had been set up in Poland, Czechoslovakia, Hungary, Romania, Bulgaria and East Germany.

Last Saturday, in a Moscow speech, Soviet Premier Nikita S. Khrushchev warned Russia might set up bases in Bulgaria, as well as Albania, if the West carried out plans to build rocket bases in Italy and Greece. But the Vienna source said such bases already had been established in Bulgaria.

According to the reports, rocket bases have been installed in Poland near the Baltic Sea coast of Kolberg, in territory formerly held by Germany.

In Czechoslovakia, the bases are said to be operating east of Karlovy Vary (Karlsbad), southwest of Liberec (Reichenberg), northeast of Olomouc (Olmutz), southwest of Ceske Budejovice (Bohemsch-Budweis) and at Javorina near the Czech-Polish border.

A Russian officer identified as Col. Lishkin is in charge of all Soviet rocket bases in East Europe, with headquarters in Lieber-ec, reports received here last year said.

In Hungary an atomic weapon and launching site has been reported

in the triangle formed by Hajmasker, Papa and Taopolcavv. Guided missile sites in Romania and Bulgaria are located along the Black Sea coast and in the Carpathian Mountains.

Soviet submarines, capable of launching missiles, have been sighted at the Black Sea port of Constanca.

In East Germany, rocket bases are reported at Erfurt, Thuringia and on the island of Ruegen.

The Peenemuende rocket base in East Germany has been expanded, reports said.

Other reports said two armament plants at Bohumin, Czechoslovakia, had been turning out rockets and tanks under Soviet supervision.

Hungarian soldiers were reported being trained in atomic warfare by Soviet officers at three camps in Hungary.

## Newsman Leads Protest Of Secret Testimony

WASHINGTON (UPI) — The chairman of the Sigma Delta Chi Freedom of Information Subcommittee Monday protested "secret actions" of a House Subcommittee on an Anti-Secrecy Bill.

The bill would require a public accounting of the use of federal funds by members of Congress on overseas tours.

V. M. Newton Jr., managing editor of the Tampa Tribune and head of the journalism fraternity's Anti-Secrecy Committee, requested that the House group be directed to hold public hearings on the bill.

He also asked that the group be told to "summon proper witnesses, including American taxpayers, who, through heavy taxation, pay these funds."

Newton filed his protest in a letter to Rep. Omar Burleson (D-Tex.), chairman of the Full Committee on House Administration. The group considering the bill is the Subcommittee on Accounts, headed by Rep. Samuel N. Friedel (D-Md.).

Newton said he had been informed that Friedel held one brief secret hearing on the bill; declined

to release the transcript of the hearing for publication and "has told those interested in the bill that he wants to drop the whole thing right now."

Newton said American taxpayers are "certainly entitled to a prompt and public accounting" of the use of Government funds and counterpart funds.

Newton asked how congressmen can question Government officials about unwarranted secrecy, "if Congress, itself through the secret spending of taxpayer funds on these junkets overseas also withholds legitimate information of Government from the people?"

He also asked Burleson whether the original hearing by Friedel's subcommittee shouldn't have been open "for all to see and hear" and if members of Congress, the public and government agencies should not be allowed to "publicize their views" before the Subcommittee.

He asked Burleson for a "thorough discussion" of the four questions "solely in the interests of the public."

## Ike Addresses GOP— Budget: 1960 Issue—

WASHINGTON (UPI) — President Eisenhower said Monday night that GOP victory chances in 1960 will depend in large measure on the vigor with which Congressional Republicans fight for his fiscal and economic policies.

He said his economy drive was not a mere matter of penny pinching but an overall struggle to keep America strong and to "make sure that a dollar earned today will tomorrow buy for the housewife an equal amount of groceries."

The President addressed more than 3,200 Republicans who paid \$100 a plate to hear him, Vice-President Richard M. Nixon and other GOP leaders speak. The dinner was expected to net about \$300,000 for the party's campaign war chest.

Before the speech-making, gold pins were presented to 23 Republican members of Congress who have served more than 20 years and to four members with more than 30 years of service. The latter were Reps. Joseph W. Martin Jr. (Mass.), B. Carroll Reece (Tenn.), Edith Nourse Rogers (Mass.), and John Taber (N.Y.).

In his prepared speech, Eisenhower praised GOP solidarity behind administration proposals in the current Democratic-controlled Congress. He said party loyalty so

far was a "good omen" for the "great test coming in the fall of 1960."

"I am grateful to you," Eisenhower said, "and I have come here to tell you so."

He added, however, that Republicans must not let down in their support of his programs because as they "wage this fight without ceasing, you will demonstrate your worthiness of victory at the polls. As the nation comes to recognize this, you will win."

Because of the size of the turnout, which also included cabinet members and GOP leaders from across the nation, the dinner was held in two hotel rooms, a floor apart.

During the dinner and preliminary speeches, the President was assigned to the head table in the lower dining room while Nixon presided at the head table in the main ballroom. Eisenhower and Nixon traded places for the President's speech.

The President recommended that the Republican organization concentrate on four basic things in the 1960 drive to regain control of the White House and recapture Congress — "Morale, men, means, and management."

He called on the GOP to meet

the "joyful duty" of selecting "highest caliber candidates" for 1960 and of giving them enough money to wage successful campaigns.

"This is not a fight to balance the budget as an end to itself," Eisenhower said. "This is not a fight to pinch pennies. This is a fight to keep our nation fiscally strong so that we may maintain the forces we must have for the security of ourselves and the free world."

"This is a fight to promote an expanding economy and domestic prosperity. This is a fight to make sure that a dollar earned today will tomorrow buy for the housewife an equal amount of groceries."

"You and the Congress — all of us — are battling to protect the worker as he earns his pension and the retired man who must live on it. This is a fight to prevent prices from impoverishing every man, woman and child in the nation."

Eisenhower rejected any idea that there was little basic difference between the Republicans and the Democrats.

## Exam Schedule

Final exams scheduled for today are:

- 8 a.m.: Classes which meet first on Monday at 1:30; all sections of Speech 36:154.
- 10 a.m.: All sections of Comm. 6M:33; Journ. 19:119; PEM 27:22; PEW 28:149; Philos. 26:1.
- 1 p.m.: All sections of Comm. 6L:51; Physics 29:2; Span. 35:3; 27, 28, 108, 112, 116; and M&H 59:41.
- 3 p.m.: Classes which meet first on Monday at 7:30.
- 7 p.m.: All Sections of Comm. 6M:136; Ger. 13:1, 2.

Students who will attend the summer session at SUI may pick up permits to register and registration materials in Room 105, Macbride Hall, on Wednesday, Thursday, Friday, and Saturday of this week and on Tuesday, June 16.

The schedule for distribution of materials is as follows:

June 10, 11, and 12—8:30 to 12:00 and 1:00 to 4:30; June 13—8:00 to 12:00 and 1:00 to 4:30; June 16—7:30 to 3:30.

Students will need to present their permanent Identification Cards for admission to Room 105. Those who have not received I.D. cards or have lost them must report to Room 1, University Hall. A fee of \$4 is charged for replacement of lost I.D. cards.

A \$35 deposit on fees is required of students before they can receive registration materials. Exception are junior and senior nursing students, who pay \$8 in fees. The fees must be paid in Room 105 in Macbride.

Registration in the Colleges of Liberal Arts, Commerce, Engineering, and Nursing and the Graduate College will take place at the Fieldhouse June 16 from 9:00 to 4:30.

Both the Western and Eastern sides had shown willingness to discuss information on high-altitude explosions even before the nuclear test ban conference recessed May 12 — just a day after the start of the Geneva Big Four foreign ministers talks.

Since then, the U.S., British and Soviet foreign ministers have dealt with the problem in sessions outside the Big Four conference. Their findings presumably served as the basis of Monday's proposals.

A report by a group of East-West experts last summer — which served as the basis for the present conference — purposely avoided making recommendations in the high altitude field since no solid information was available at the time.

However, progress in artificial satellites and especially the success of last fall's U.S. Argus shots, now make such study possible.

The Russian plan, according to Western sources, would limit the exports to a study of what instruments would be needed to detect such high explosions and contained no provision for making recommendations.

The American plan, presented by Ambassador James J. Wadsworth, calls for experts from East and West to meet here June 22 to frame recommendations on the detection of high altitude explosions above 30 kilometers (about 19 miles). The experts would report back to the conference within a week.

## East, West Hopeful On Nuclear Ban

GENEVA (UPI) — East and West breathed new life into the eight-month-old nuclear test conference here Monday by introducing separate proposals for studies of high-altitude explosions. U.S. and Russian officials presented the proposals when the three-power nuclear talks re-convened at the Palais Des Nations after a four-week recess.

The two-and-one-half hour session was preceded by a secret meeting on nuclear matters between British foreign secretary Selwyn Lloyd and Soviet foreign minister Andrei Gromyko. No concrete details of the 45-minute side-meeting were available.

The plan presented by the United States and Russia differed on what terms of reference should be considered in the new technical studies of high-altitude nuclear blasts. It was believed however, that the language problem would be ironed out later this week.

The American plan, presented by Ambassador James J. Wadsworth, calls for experts from East and West to meet here June 22 to frame recommendations on the detection of high altitude explosions above 30 kilometers (about 19 miles). The experts would report back to the conference within a week.

## Herter Asks Soviets Again To Lift Threat

Soviet Spokesman Hints End Of Geneva Talks

GENEVA (AP) — The West Monday laid down what were termed its absolute minimum terms for a temporary Berlin solution.

U.S. Secretary of State Christian A. Herter also told Soviet Foreign Minister Andrei Gromyko in a closed session of the Big Four foreign ministers' conference that the Soviet must lift their threat to West Berlin if they want a summit conference.

These developments, in a two and one-half hour secret session, were reported by Western officials after a Soviet spokesman told newsmen the Big Four negotiators are nearing the end of their work. The talks are in their fifth week.

But the spokesman for Gromyko, Mikhail Kharlamov, declined to predict whether the conference would end with an East-West agreement on the Berlin crisis.

In Moscow, a diplomatic source with first-hand information said the Geneva conference is nearly certain to end this week and the foreign ministers already are working in a communique.

The ministers seem to have reached a decision to hold a summit meeting, probably in Geneva, and probably in July, this Moscow informant said.

Informants said the Western terms for an interim Berlin deal were set forth in a document that, if accepted, would become part of the ministers' wind-up communique.

In effect it would be an East-West agreement regulating the status of the divided city until Germany is reunited.

In its highlights the West's document reaffirms:

1. Rights of the United States, Britain and France to maintain troops in Berlin.
2. Rights of the Allies and of West Berliners to maintain unrestricted air, land and water access to Berlin.
3. The rights of the Allies to protect the economic life of West Berliners if any squeeze is imposed by the East German Reds.

The document also spells out the improvements they would be prepared to introduce to meet Soviet and East German complaints. These envisage a possible cutback of the Allied token garrison, a curtailment of spying, sabotage and other activities throughout Berlin, and other technical arrangements.

Soviet recognition of Allied rights would, as President Eisenhower indicated publicly last week, open the way to an East-West summit meeting. It presumably was in this context that Herter demanded that the Soviet Union cancel her insistence on the ending of the Allied occupation status in West Berlin.

Western officials said, however, Gromyko refused to budge an inch on this key point. He reportedly maintained the Soviet demand for the negotiation of a new, updated agreement under which the Allied presence in West Berlin could be continued.

Informants said any progress made the latest session was procedural.

They explained that Gromyko continued an attitude of helpfulness but without yielding on essentials. His line was: The Soviet Union of course will help the Allies to preserve their rights — but first the occupation status must go.

Kharlamov appeared before reporters after the ministers' session. The talks were held at Gromyko's villa and today will be continued — again on Berlin — at Herter's headquarters.

Kharlamov told 300 newsmen that "we are nearing the accomplishment of the work of the conference."

Elaborating on this, a Soviet source said Kharlamov meant the work of the conference is drawing to a close but not that it will necessarily end successfully.

# First Glide Flight Of X-15 Successful

EDWARDS AIR FORCE BASE, Calif. (UPI) — The experimental rocket ship X-15 today completed its first powerless glide flight over the Mojave Desert.

The sleek aircraft, America's first manned space vehicle, glided back to earth on its own stubby wings without fuel. The test flight was considered a complete success.

Test pilot Scott Crossfield, 37, set the dart-shaped craft down on the Rogers Dry Lake runway of this base four minutes after it was dropped from the right wing of the B-52 "mother ship" at an altitude of 38,000 feet.

"I felt so good coming down I felt like asking for a raise in pay," said Crossfield after a de-briefing on the runway as he stepped from the multi-million dollar ship.

"It's a pretty good airplane to fly," the North American Aviation test pilot commented. "Everything was working properly. We

made a routine procedure pattern and the launch was very clean. From then on it was just a matter of getting down. It worked exactly as we planned."

Crossfield said the next flight would be a "wet run," a glide flight such as today's but the plane would have all its fuel aboard.

The space craft's first "drop" without its own rocket power being ignited was accomplished at 5:45 (CST) It was considered a major step in the National Advisory and Space Administration's program to get man to the fringe of space.

Four times previously the X-15 was successfully carry-tested by its mother ship, a giant, eight-jet B-52 bomber, over the desert some 65 miles northeast of Los Angeles.

Today's long-scheduled powerless drop of the seven-ton craft went off as planned, the X-15 slung to a pylon beneath the bomber's right wing, as high as possible to give pilot Crossfield a brief but maximum chance to test the 50-foot long bird's controls.

At first, the craft fell vertically away from the mother ship and then began moving into its sweeping s-turn glide pattern at something over 270 miles an hour indicated speed — about 400 miles an hour actual ground speed.

Crossfield brought the ship to a pre-determined spot over the base's sprawling drylake bed at about 20,000 feet, then, after making one complete circle, guided the craft into its landing sweep.

"The plane didn't hit nearly as hard as I expected," commented Crossfield. "So far as I'm concerned, I hope all my landings are as nice."

The X-15 has been designed to return to earth from an altitude of 100 miles after going into a ballistic arc with its 60,000-pound thrust rocket power at hypersonic speeds between 3,600 and 4,500 miles an hour.

When Crossfield has satisfactorily demonstrated the airworthiness of the experimental craft, it will be turned over to NASA and Air Force flight crews for all-out attempts to probe the ionosphere, high above a major part of the Earth's atmosphere.

Committee investigator Richard Sinclair told the committee of Holovachka's cash transactions.

The witness, now assistant county prosecutor, engaged earlier in a stormy exchange with chairman John L. McClellan (D-Ark.) over whether he should account for his personal finances.

Small and dapper, Holovachka kept before him a sheet of paper on which was printed in large, red letters: "Keep cool." But he appeared at times to ignore his own advice.

Asserting that the committee had no right to inquire into his affairs, Holovachka charged that he was being made a "whipping boy" by committee counsel Robert F. Kennedy and city editor Arnold Coons of the Gary, Ind., Post-Tribune.

He said Coons, who was seated at the press table in the hearing room, has "persecuted me for seven years."

Holovachka told McClellan that none of the money came from permitting pinball machines to operate or from letting certain operators establish a monopoly.

But he persistently stated his "legal objection" to saying where the money came from — even when McClellan reminded Holovachka that he had remarked on his "obligation" to the people of his community.

The witness replied that his obligation was to answer proper and pertinent questions within the committee's jurisdiction.

Sinclair testified that Holovachka was earning less than \$5,000 a year as an attorney in 1951 when he became special deputy prosecutor.

In that year, he said, Holovachka spent \$7,230 in cash.

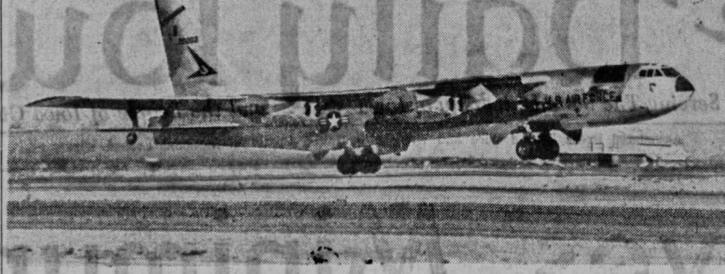

In 1952, as city comptroller of Gary, Holovachka declared \$8,591 as income for tax purposes but handled \$57,373 in cash, Sinclair said. After he became prosecutor in 1953, he said, his cash outlays ranged from \$18,315 to \$57,000 a year.

Sinclair said many of the transactions, including the \$43,000 that Holovachka paid for a home in 1955, were handled with \$10 and \$20 bills.

"Where did all this cash come from?" Kennedy asked.

Holovachka replied that he was no more obliged to reveal the sources of his income than a Senator would be.

Lake County's two largest pinball operators, George Welbourn

THE ROCKET SHIP X15 is snuggled under the right wing of a huge B52 bomber as it was taken aloft for its first flight alone at Edwards Air Force Base, Calif. Monday. The rocket ship is black and partially outlined against the center fuselage of the B52. Test pilot Scott Crossfield brought it safely down in a glide after its release at 38,000 feet.

## Committee Has Evidence Against Prosecutor

WASHINGTON (UPI) — The Senate Rackets Committee produced evidence Monday designed to show that Metro Holovachka obtained more than \$263,000 in cash during the six years he served as the \$12,000-a-year prosecutor of Lake County, Ind.

The prosecutor, who has been accused by previous witnesses of helping to promote a pinball gambling monopoly in the county, declined to give any explanation and challenged the committee's inquiry.

He did not invoke the Fifth Amendment against self-incrimination but protested that the committee was exceeding its authority and unconstitutionally invading his privacy.

Committee investigator Richard Sinclair told the committee of Holovachka's cash transactions.

The witness, now assistant county prosecutor, engaged earlier in a stormy exchange with chairman John L. McClellan (D-Ark.) over whether he should account for his personal finances.

Small and dapper, Holovachka kept before him a sheet of paper on which was printed in large, red letters: "Keep cool." But he appeared at times to ignore his own advice.

Asserting that the committee had no right to inquire into his affairs, Holovachka charged that he was being made a "whipping boy" by committee counsel Robert F. Kennedy and city editor Arnold Coons of the Gary, Ind., Post-Tribune.

He said Coons, who was seated at the press table in the hearing room, has "persecuted me for seven years."

Holovachka told McClellan that none of the money came from permitting pinball machines to operate or from letting certain operators establish a monopoly.

But he persistently stated his "legal objection" to saying where the money came from — even when McClellan reminded Holovachka that he had remarked on his "obligation" to the people of his community.

The witness replied that his obligation was to answer proper and pertinent questions within the committee's jurisdiction.

Sinclair testified that Holovachka was earning less than \$5,000 a year as an attorney in 1951 when he became special deputy prosecutor.

In that year, he said, Holovachka spent \$7,230 in cash.

In 1952, as city comptroller of Gary, Holovachka declared \$8,591 as income for tax purposes but handled \$57,373 in cash, Sinclair said. After he became prosecutor in 1953, he said, his cash outlays ranged from \$18,315 to \$57,000 a year.

## Committee Has Evidence Against Prosecutor

WASHINGTON (UPI) — The Senate Rackets Committee produced evidence Monday designed to show that Metro Holovachka obtained more than \$263,000 in cash during the six years he served as the \$12,000-a-year prosecutor of Lake County, Ind.

The prosecutor, who has been accused by previous witnesses of helping to promote a pinball gambling monopoly in the county, declined to give any explanation and challenged the committee's inquiry.

He did not invoke the Fifth Amendment against self-incrimination but protested that the committee was exceeding its authority and unconstitutionally invading his privacy.

Committee investigator Richard Sinclair told the committee of Holovachka's cash transactions.

The witness, now assistant county prosecutor, engaged earlier in a stormy exchange with chairman John L. McClellan (D-Ark.) over whether he should account for his personal finances.

Small and dapper, Holovachka kept before him a sheet of paper on which was printed in large, red letters: "Keep cool." But he appeared at times to ignore his own advice.

Asserting that the committee had no right to inquire into his affairs, Holovachka charged that he was being made a "whipping boy" by committee counsel Robert F. Kennedy and city editor Arnold Coons of the Gary, Ind., Post-Tribune.

He said Coons, who was seated at the press table in the hearing room, has "persecuted me for seven years."

Holovachka told McClellan that none of the money came from permitting pinball machines to operate or from letting certain operators establish a monopoly.

But he persistently stated his "legal objection" to saying where the money came from — even when McClellan reminded Holovachka that he had remarked on his "obligation" to the people of his community.

The witness replied that his obligation was to answer proper and pertinent questions within the committee's jurisdiction.

Sinclair testified that Holovachka was earning less than \$5,000 a year as an attorney in 1951 when he became special deputy prosecutor.

In that year, he said, Holovachka spent \$7,230 in cash.

In 1952, as city comptroller of Gary, Holovachka declared \$8,591 as income for tax purposes but handled \$57,373 in cash, Sinclair said. After he became prosecutor in 1953, he said, his cash outlays ranged from \$18,315 to \$57,000 a year.

Sinclair said many of the transactions, including the \$43,000 that Holovachka paid for a home in 1955, were handled with \$10 and \$20 bills.

"Where did all this cash come from?" Kennedy asked.

Holovachka replied that he was no more obliged to reveal the sources of his income than a Senator would be.

## X-15 Down Pilot Says He Flew By Seat Of His Pants

EDWARDS AIR FORCE BASE, Calif. (UPI) — "You still fly your aircraft by the seat of your pants."

Veteran test pilot Scott Crossfield admitted this Monday after putting the experimental rocket ship X-15 down on the dry lake bed of Edwards Air Force Base in four minutes from 38,000 feet.

"This still is an airplane," said Crossfield as he looked at the X-15 in the dust of the lake bed.

"Amazingly there is no substitute in this age of sophistication for watching the horizon."

He meant he came down from the X-15 — without power — from the mother ship on sheer judgment, "by the seat of my pants."

"I had no sense of pressure or feeling. I simply had something to do. We tested a 'tool' of the space age. It was a dress rehearsal for what we have yet to do."

Crossfield, 37, plummeted in a free glide out of the sky where he has yet to test the 50-foot long X-15 in a power test.

"It was a trim run at minimum speed, maneuvering to get down on the ground."

With the X-15's nose high in the long glide to earth, he conceded it didn't hit "nearly so hard" as he expected.

The X-15, a possible bridge to getting man into space, worked perfectly," he said.

The quick-thinking Crossfield parried queries about his historic experiment.

"It's a nice airplane," he said.

## Station Cancels Stokowski Concert

BERLIN (UPI) — The American-run radio station Rias said today it had canceled a broadcast of a concert conducted by Leopold Stokowski for political reasons.

A Rias statement claimed Stokowski had made a political matter of his recent trip to Communist East Germany.

"We therefore did not consider it a good thing at the present time to broadcast a concert of Mr. Stokowski," the statement said.

Stokowski conducted the Berlin Symphony Orchestra yesterday and today before flying back to the United States for a court hearing on the custody of his two small children. While in East Germany, he conducted the Leipzig Gewandhaus Orchestra.

The conductor is having a custody dispute with his former wife, Gloria Vanderbilt, who now is married to television director Sidney Lumet. Stokowski seeks more time with the children, while their mother wants to cut down his visits.

Rias said that Stokowski had publicly approved the general views of East German Communist Party boss Walter Ulbricht, and particularly welcomed Ulbricht's idea of inviting the U.S., British and French foreign ministers to visit East Germany.

## University Bulletin Board

University Bulletin Board notices must be received at The Daily Iowan office, Room 201 Communications Center, by noon of the day before publication. They must be typed and signed by an advisor or officer of the organization being publicized. Partially formal notices are not eligible for this section.

UNIVERSITY COOPERATIVE BABYSITTING LEAGUE BOOK will be in the charge of Peg Leaders from June 9th to June 18th. Telephone her at 201 Communications Center, 8 a.m. to 5 p.m. daily except Saturday. Seniors may also get their book at the same place.

STUDENTS WHO WISH to have a copy of their Spring Semester grade reports mailed to them should leave a stamped addressed envelope at the Registrar's Office.

IF YOU SUBSCRIBED for a 1958 Hawkeye and have not yet picked it up, please do so as soon as possible at 201 Communications Center, 8 a.m. to 5 p.m. daily except Saturday. Seniors may also get their book at the same place.

THOSE REGISTERED in the Educational Placement Office who are still seeking positions, send change of address to the office before leaving the campus. This may be done by postcard or by leaving a memorandum at the Placement Office.

VETERANS: Each Public Law 550 version must sign a VA Form 1960a to cover his attendance from May 1 through June 10. This form should be signed on or after the day of the veteran's last final examination. Forms will be available in the basement of University Hall on Friday, June 5, and from Monday, June 8,

through Wednesday, June 10. Forms will be available on other days including Saturday (a.m. only) June 6 in the Veterans Service Office. Week-day open hours are 8:30 a.m. to 12 noon and 1 p.m. to 4:30 p.m.

CANDIDATES FOR DEGREES in June: Commencement announcements have arrived. Orders may be picked up at the Alumni House, across from the Union.

PROGRAM OF FOREIGN STUDIES certificates will be issued to students who have completed the requirements of the program. Students expecting the certificates should report immediately to Professor Erich Funke, 106 Schaeffer Hall. Professor Funke will also inform students about careers in the United States Foreign Service and about the Foreign Service Examination for 1959.

STUDENTS that do not plan to be in Iowa City this summer may have The Daily Iowan mailed to any address in the U.S. during the vacation period, June 12 through September 18. The special reduced subscription rate for students is \$3.00 for the 14 week period.

ALL LOCKERS in the Fieldhouse must be checked in before June 14th. Following this date all locks will be removed and contents destroyed.

## Crash Kills Six Members Of Family; 1 Son Lives

ALTOONA, Pa. (UPI) — Six members of a Williamsburg, Pa., family were killed Monday and a seventh, a four-year-old boy, was injured in a three-vehicle collision that State Police said was caused by a drunken driver.

Troopers at the Hollidaysburg barracks said they filed an intoxicated driving charge against Theodore McMasters, 35, of Duncansville RD 1, Pa. He was committed to the Blair County Jail pending the filing of additional charges including manslaughter.

Blair County Coroner D. Harold Troxell said four of those killed died instantly when their car was rammed from the rear by a panel truck and pushed into the path of an oncoming flat-bed truck loaded with bags of cement. The mother and one daughter died shortly after being admitted to Mercy Hospital here.

The dead were listed as Wilmer E. Hinrich, 34; his wife, Dorothy, also 34; and four of their five children—Robert Zane, 9; Randall Clark, 6; Sonja Joan, 12; and William Dale, 10 months.

Only surviving member of the immediate family was four-year-old Rodrick Kent, Coroner Troxell said.

## Marriage To Russian OK, Student Says

LENINGRAD, U.S.S.R. (UPI) — A tall, bespectacled American student said Monday that "everybody had accepted" his marriage to a green-eyed blonde Russian girl after some initial tongue-wagging.

"We hope this proves that Russians and Americans can get along," said Thomas Hegarty, of West Roxbury, Mass.

The 23-year-old exchange student said his romance with Luisa Tarasovna Ivanovna, also 23, had more than "its share of international flavor. He could not speak Russian well. Her English was poor. They decided in Spanish that they were in love and wanted to get married."

Hegarty said the May 25 civil Soviet ceremony "caused more than its share of gossip and tongue-wagging," but there were no objections.

"By now everyone more or less has accepted it," he said.

The couple met at a private party last fall, after Hegarty had arrived from Harvard University to study at Leningrad University. Luisa was a student there, too.

They began dating—the ballet, movies, opera, dinners, and walks along the city's picturesque canals.

Hegarty said he thought very hard and waited a long time before he proposed.

Luisa's family — her father is a winemaker in Moldavia — "were stunned, but they approved," he said.

He indicated that his mother, home at West Roxbury had not been heard from yet, but he hoped she, too, would approve.

(Irish-born Mrs. Hegarty said Friday she knew Luisa was "a lovely girl" and was anxious to meet her.)

Student opinion at Leningrad University was divided, but generally they approved, Hegarty said.

He plans two more years of study in his field of Russian history at Harvard.

But there are problems before that. Luisa must get a Soviet exit visa and a U.S. entry visa. Chances were good for both. She has a point in her favor in that she was born in Uruguay of Russian parents and there is no U.S. quota for Uruguayans.

## Ambush Shot Kills Miner In Lake City

LAKE CITY, Tenn. (UPI) — The operator of an independent strip coal mine in violence-plagued Anderson County was killed by a rifle shot fired from ambush Monday.

The victim was identified as Jess Fesler, about 52.

Fesler had left his strip mine operation because of violence to do a subcontracting job on a flood control

# Tigers Whip Boston 6-3; Move Into First Division

BOSTON (AP) — Jim Bunning, who does it rather frequently, pitched Detroit to victory over Boston Monday night, tossing a strong six-hitter for a 6-3 decision.

The slender righthander twice disposed of seven consecutive Red Sox batters and had only one bad inning.

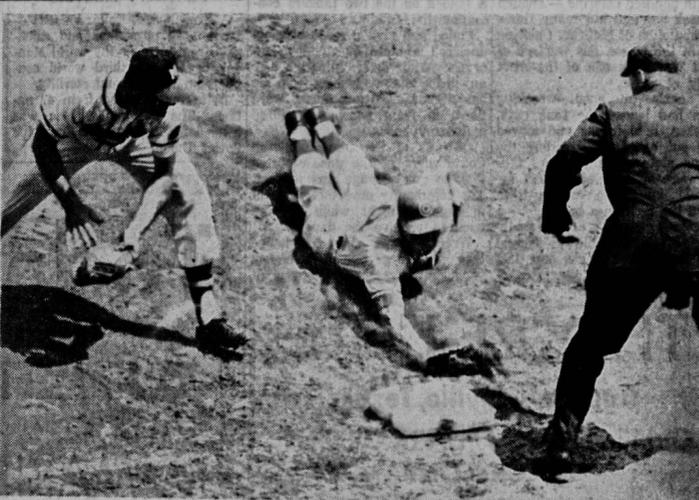

That was the fifth in which the Bostonians punched three of their hits with the only walk Bunning yielded for their three tallies.

Bunning's teammates, meanwhile, rapped a trio of Boston pitchers for 15 hits. In seven of the nine innings the Tigers succeeded in getting their leadoff batter on base.

The score might have been higher except for four double plays whipped off by the Boston infield. Al Kaline with three runs batted in, one his 11th home run of the season, was the Tigers' most timely stickler.

Eddie Yost and Rocky Bridges each drove in a Detroit run and another scored on a double play.

Bunning now has an 11-5 lifetime edge over the Sox and is 3-0 against them this year.

**Belly-Flop Saves Bobby**

**BOBBY THOMSON** of the Chicago Cubs slides safely back into first base in the second inning of the Braves-Cubs game Monday as Joe Adcock (left) takes a throw from catcher Del Crandall. Umpire Tony Venzon calls the play. The Braves won the game 9-5, snapping a 5-game Cub winning streak. —AP Wirephoto.

## Braves 9, Cubs 5

MILWAUKEE (AP) — The Milwaukee Braves erupted for seven runs in an explosive fifth inning Monday, then withstood a desperate five-run Chicago rally in the eighth, to beat the Cubs 9-5.

Right-hander Lew Burdette, needing help from Carl Willey and Don McMahon, notched his ninth victory.

Burdette, a 32-year-old veteran, took hitting honors for the National League leaders, with a pair of doubles, two singles and four runs batted in.

Lew drove in the first run with a double to left in the second, had a single wasted in the fourth and then highlighted the fifth inning uprising with a three-run two-bagger down the left field line. He capped his greatest day at bat in the majors with a single in the seventh.

Braves slugger Eddie Mathews took over the major league leadership in home runs by clouting his 20th circuit blast into the right field stands in the third frame.

## Aaron, Kuenn Averages Drop But They Hold Hitting Leads

NEW YORK (AP) — Orlando Cepeda, defying the so-called sophomore jinx, has replaced Willie Mays as the better in San Francisco's drive for the National League lead.

While Mays slumped 18 points to .321 in last week's games, Cepeda climbed 15 points to move into third place in the circuit's batting race with a .333 average. Cepeda hit four homers and drove in 12 runs. Mays has not homered in 12 games. For the year, Cepeda has 13 home runs and 45 RBI while Willie has nine circuit blows and 43 runs batted in.

Cepeda won the league's Rookie of the Year Award in 1958 when he batted .312.

Meanwhile, Hank Aaron of the Milwaukee Braves collected nine hits in 23 trips last week. This reduced his pace-setting average one point and he showed a .418 mark after Sunday's action.

Smoky Burgess of Pittsburgh dropped 22 points to .348 with only four hits in 20 times at bat. However, the slugging Pirates' catcher remained in the runner-up position.

Ed Bouchee of Philadelphia moved up two places to fourth with a 7-for-18 performance and a seven-point increase to .328. He is deadlocked with Joe Cunningham of St. Louis.

In the American League, Detroit's Harvey Kuenn opened a 19-point lead over his closest competitor. A week ago Kuenn led Nellie Fox of the Chicago White Sox, in second place, by 10 points. Kuenn tallied off seven points to .347 last week while Fox slumped 16 points and dropped into third place at .327. Roger Maris of Kansas City, recovering from an appendectomy, climbed to second with a .328 average.

Harmon Killebrew of Washington slammed one homer to maintain his American League lead in this department with 19. Ed Mathews of Milwaukee hit three to boost his leading National League total to 19.

Killebrew also paces the American League in runs batted in with 41, two more than Bill Skowron of New York. Ernie Banks of the Chicago Cubs drove in six runs last week to deadlock Cincinnati's Frank Robinson for the top spot in

## Rathmann Suffers Broken Back In Race Accident

MILWAUKEE (AP) — Auto race driver Jim Rathmann of Miami, Fla., suffered a broken back in a crash here Sunday, X-rays disclosed Sunday.

Dr. Carl Dunst, track physician at the Wisconsin State Fair grounds in suburban West Allis, said the injury would not be classified as "a serious broken back" as such injuries go.

Dr. Dunst said the two small wings on the second and third vertebrae were broken off. He said Rathmann, 30, would be in a cast about a month.

Rathmann, second place finisher in the Indianapolis Memorial Day 500-mile race, was injured in a spectacular pileup in practice Sunday.

## Pirates 12, Giants 9

PITTSBURGH (AP) — Pinch-hitter Harry Bright belted a tie-breaking three-run homer for the Pittsburgh Pirates in the 11th inning Monday night to give the Bucs a 12-9 victory over the San Francisco Giants.

Bill Mazeorski led off the 11th for the Pirates with a single and moved to second on a sacrifice by Don Hoak. Dick Groat was purposefully passed, and Mazeorski took third after Roman Mejias flied

## Miller, G. Jones (4), Worthington (8), McCormick (6) and Landrith (8) pitched for the Braves.

## Older Pros Favorites In U.S. Open

MAMARONECK, N.Y. (AP) — The youth movement that has engulfed American pro golf never was more evident than in the entry list for the 59th U.S. Open Championship. But the warning around Winged Foot Monday is don't discount the older players.

Of the 150 players scheduled to start Thursday in the championship over the trying 6,873-yard, par 35-35-70 Winged Foot west course, nearly a dozen pros and at least three of the top amateurs are 25 or under. There are more than 30 in the under-30 class.

But they're almost forgotten when you mention such names as Ben Hogan, Sammy Snead, Cary Middlecoff, and the defending champion, Tommy Bolt. They're the ones who really are feared in a major test.

Bolt, in an expansive mood before his first practice round, commented: "Look at it this way. Any one of about 25 players is capable of winning. But I think I'm going to like this course. I never saw it before, but they tell me it's the kind where if you shoot a 72 you don't have to be ashamed. I like that kind."

Winged Foot, where Bobby Jones won his second open title 30 years ago, has a normal par of 72. By making a couple of changes that reduced short par 5s to long 4s, the USGA made it par 70 for the tournament. And so far there hasn't been a single complaint.

Big Bill Casper said: "You'll see some low scores, all right. Jack Nicklaus, who was playing with me, had a 31 on the front nine and it could have been two or three shots lower."

Nicklaus is the 19-year-old Columbus, Ohio, redhead who typifies golf's youth movement. He was winning tournaments at 16 and was a member of the victorious U.S. Walker Cup team this spring. He could give the pros a scare but no one really expects him to do it.

## Majors Set 2nd Star Tilt-- Los Angeles Will Be Host

NEW YORK (AP) — The major leagues will play a second All-Star game Aug. 3 this year in the Los Angeles Coliseum.

The final stamp of approval came Monday as members of the

pension committee and major league player representatives met with Commissioner Ford C. Frick and unanimously approved the contest.

Previously the club owners gave their approval at their meeting in Columbus, Ohio, and the players voted unanimously for the game.

The two league presidents — Warren Giles of the National and Joe Cronin of the American — will meet with Frick Tuesday to work out details.

This will mark the first time since the inception of the All-Star game in 1933 that two will be played in a single season. The first game this year will be played in Pittsburgh July 7.

The innovation presently is ap-

proved for this year only. "If it proves successful, consideration then will be given to continuing it through 1960 and 1961," Frick said.

Frick said he already has negotiated the television and radio rights for \$250,000, the same as for the Pittsburgh game.

Receipts for the second game will be divided on the same basis now prevailing for the first game. Sixty per cent will go to the central fund of the major leagues.

Frick said he was not aware of the criticism that greeted the idea of a second All-Star game, such as the suggestion it would lower the prestige of one annual game. He said he did not believe that was true.

## Ring Officials Hope To Boot Racketeers

SACRAMENTO, Calif. (AP) — If racketeers can be prevented from muscling in on Don Jordan's welterweight title, one of boxing's biggest problems will be solved.

That declaration Monday came from Jack Urch, executive officer of the California Athletic Commission, who was named last Nov. 10 by the National Boxing Assn. to head an investigating committee.

"The title is the thing they're interested in," Urch asserted. "No one ever had had the audacity to talk back to them."

Asked if he felt underworld figures were trying to muscle in on other California boxers, Urch replied: "No, just this one title. If we can eliminate this one thing, I believe we can eliminate the whole problem. This all stems from Jordan's title fight. We've been trying to keep these people out of boxing."

Jordan, of Los Angeles, beat Virgil Akins for the crown and successfully defended it against Akins on April 24 in St. Louis.

Officials are investigating last Wednesday's slugging in Los Angeles of Hollywood Legion Stadium promoter Jackie Leonard, one of the men who talked back.

Leonard told a hospital press conference Saturday that Frankie Carbo, Eastern underworld character, was responsible.

# House Group Probe Upheld By Court

WASHINGTON (AP) — The Supreme Court held Monday a congressional committee has far-reaching authority to investigate Communist activity, including the field of education.

Dividing 5-4, the court said the House Committee on Un-American Activities was acting within the scope of its authority when it questioned a former educator concerning past or present membership in the Communist party.

The majority rejected a wide variety of contentions raised by Lloyd Barenblatt, a former teacher at Vassar College and the University of Michigan. He claimed, among other things, that the resolution setting up the committee was too vague and that under the First Amendment it had no right to investigate his activities or associations.

Speaking for the majority, Justice John M. Harlan brushed aside all Barenblatt's contentions.

In another major decision Monday, the court ruled 5-4 that its 1956 Smith Act decision in the Steve Nelson case did not bar prosecution under state sedition laws.

The majority said the Nelson decision, widely criticized in Congress and by state attorneys general, merely barred prosecutions in state courts on charges of conspiring to overthrow the government of the United States.

This ruling upheld the contempt conviction of Dr. Willard Uphaus of Hartford, Conn., for refusing to give New Hampshire's attorney general information about the New Hampshire World Federation Center.

In this case Justice Tom C. Clark spoke for the majority. Justice William J. Brennan wrote a dissenting opinion in which Justice Earl Warren, Hugo L. Black and William O. Douglas joined.

Justice Clark said the Nelson decision didn't strip the state of the right to protect themselves.

"All the opinion proscribed was

a race between federal and state prosecutors at the courthouse door," Clark wrote. "The opinion made clear that a state could proceed with prosecutions for sedition against the state itself."

In his dissenting opinion Justice Brennan said the Uphaus case involved inquiries into the areas of free speech and assemblage for the purpose of compulsory disclosure.

Postmaster General Arthur E. Summerfield told reporters at Jacksonville the missile flight took about 22 minutes. The letters were postmarked aboard the submarine at 9:30 a.m. (EST) and cancelled at the West Bay post office in Jacksonville at 10:30 a.m. (EST), according to Postmaster Huber C. Hurst.

Thus the missile flight took 16 minutes less than the transfer from the landing area to the post office.

The letters, the first official mail known to have been carried by missile, will go to government officials, including President Eisenhower, members of Congress, foreign postal officials and others.

Postmaster General Arthur E. Summerfield called the successful experiment "a major new technique of communication that is of historic significance to the peoples of the entire world." He predicted further important developments in the new technique would be made soon.

The letters were carried in two red, white and blue compartments built into the Regulus, one of this country's older missiles with a speed of about 600 miles an hour.

The Post Office said the test showed that carrying mail by missile "appears highly practical."

It looked forward eventually to a system that would speed up international postal service, particularly to isolated areas, and for "high-priority" dispatches to other areas.

"Today's shipment of mail by missile has given us extremely valuable information of far-reaching importance to the future of the United States mail service," Summerfield said in a statement.

He noted that an unofficial test flight of a similar missile was conducted on the Pacific coast several months ago.

# Congress Resists— Ike: Raise Debt Ceiling

WASHINGTON (AP) — Threats of resistance and delay in Congress greeted a proposal by President Eisenhower Monday for a higher limit on the national debt and for scrapping the interest rate ceiling on U.S. savings and other bonds.

If Congress is willing, Eisenhower announced in a special message, the interest rate on series "H" and "E" savings bonds will be raised from three and one-fourth to three and three-fourths per cent effective June 1 — a week ago.

Eisenhower asked Congress to eliminate the four and one-fourth limit on interest which has prevailed since 1918 on all government bonds — securities which mature in five years or longer — and to boost the federal debt ceiling to these new figures: a permanent top of \$288 billion, in place of the present \$283 billion, and a temporary ceiling of \$295 billion for the fiscal year starting July 1. The debt now is \$286 billion and the present temporary ceiling is \$288 billion.

The debt proposal is expected to be approved substantially as Eisenhower asked, although perhaps not until after Democrats use it as the takeoff for a critical, full-dress public scrutiny of the spending, borrowing and taxing policies of his Administration.

But several influential Democrats assailed the interest proposals in

talks with newsmen and in statements. Senate Majority Leader Lyndon B. Johnson (D-Tex.), contended that removal of the interest ceiling would push up borrowing costs throughout the economy. Congress will "explore every alternative to changing the law," he said.

Rep. Wright Patman (D-Tex.), a leading Democratic spokesman on money matters, said rising interest rates are "the main cause of inflation." Patman, vice chairman of the Senate-Economic Committee, said there is no excuse for an interest increase "except to give the bankers and big money-lenders a larger share of the national income."

# Post Office Initiates New 'Missile Mail'

WASHINGTON (UPI) — The Post Office launched itself into the missile era today. It safely transported 3,000 letters in a guided missile from a submarine at sea to a Florida naval air base.

The unprecedented postal delivery was an experiment, but the letters were official mail.

They were unloaded from Regulus I missile which carried them more than 100 miles from the submarine Barbedo, to the Mayport Naval Auxiliary Air Station. From there, they were rushed to nearby Jacksonville, Fla., for regular postal processing.

Postmaster General Arthur E. Summerfield told reporters at Jacksonville the missile flight took about 22 minutes. The letters were postmarked aboard the submarine at 9:30 a.m. (EST) and cancelled at the West Bay post office in Jacksonville at 10:30 a.m. (EST), according to Postmaster Huber C. Hurst.

Thus the missile flight took 16 minutes less than the transfer from the landing area to the post office.

The letters, the first official mail known to have been carried by missile, will go to government officials, including President Eisenhower, members of Congress, foreign postal officials and others.

Postmaster General Arthur E. Summerfield called the successful experiment "a major new technique of communication that is of historic significance to the peoples of the entire world." He predicted further important developments in the new technique would be made soon.

The letters were carried in two red, white and blue compartments built into the Regulus, one of this country's older missiles with a speed of about 600 miles an hour.

The Post Office said the test showed that carrying mail by missile "appears highly practical."

It looked forward eventually to a system that would speed up international postal service, particularly to isolated areas, and for "high-priority" dispatches to other areas.

"Today's shipment of mail by missile has given us extremely valuable information of far-reaching importance to the future of the United States mail service," Summerfield said in a statement.

He noted that an unofficial test flight of a similar missile was conducted on the Pacific coast several months ago.

The 3,000 letters were put aboard the Barbedo before it left Norfolk, Va., on a regular training cruise. Summerfield designated the ship as a branch post office for the experiment.

All of the letters were from Summerfield. Besides the President and Congressmen, they will go to Vice President Richard M. Nixon, members of the Supreme Court, state governors, Smithsonian Institution officials, the leading postal officials of 99 members of the Universal Postal Union, officers and crew of the Barbedo and officials of organizations associated with the Post Office.

In the letters, Summerfield said "the greatest progress being made in guided missilery will be utilized in every practical way in the delivery of the United States mail."

The letters, stamped with a four cent commemorative issue picturing the U.S. flag, bore the postmark "USS Barbedo" and carried a special cachet reading "first official missile mail—U.S. Post Office Department."

Man Denies Paying \$1,000 To Kill Wife

RAHWAY, N.J. (UPI) — Frederick Rhein, 53, surrendered to police Monday on a Vermont warrant charging he conspired to have his wife slain for \$1,000.

Rhein, a delivery truck driver who lives here and maintains a summer home near Montpelier, Vt., was charged with offering Burt French, of Montpelier, \$1,000 to kill Mrs. Rhein.

Rhein was arraigned before Union County Judge Carroll Hughes. He denied the charge.

# To Honor Graduates

Medical, dental and pharmacy students will be awarded honors Thursday evening during traditional ceremonies. Seniors in the three colleges will receive degrees at commencement exercises the following morning.

One hundred seniors in medicine will be honored at the Medical Convocation in Iowa Memorial Union at 8 p.m. Thursday. Robert Michaelson, professor of religion, will deliver an address on the topic "Wrestling with a God." Graduating medical students will take the "Oath of Hippocrates."

Nine scholarships will be awarded medical students during the convocation, and eleven students will be presented special awards.

Fifty-two seniors who will receive D.D.S. degrees Friday will be honored at the convocation of the College of Dentistry Thursday at 8 p.m. in Macbride Auditorium, and 27 women will receive certificates for dental hygiene.

An address will be given by Eugene Houk, D. Sharpburg, on the topic "Dentistry's Potential Contribution to Society." Special awards will be presented to 23 dental seniors at the convocation.

The annual Pharmacy Senior Banquet will honor 41 graduating seniors of the SUI College of Pharmacy. Bernie DeMarco of E.R. Squibb and Sons Pharmaceutical Company, New York, will address the group, and eight outstanding pharmacy seniors will be presented special awards. The Pharmacy Banquet will be held in Iowa Memorial Union at 6:30 p.m.

Bomber Crew Bailed Out, AF Team Says

WIESBADEN, Germany (UPI) — An Air Force investigation team reported Monday that the nine crew members of a U.S. "ghost" bomber found in the Libyan Desert apparently bailed out before the crash and perished in the "merciless heat" of the sandy wastes 16 years ago.

The report was sent to Air Force European Headquarters from a team that had made a three-day trek across the desert to reach the derelict B-24 bomber that crashed during a World War II mission.

"The merciless heat and privations of a sandy waste devoid of life and water probably claimed the lives of the nine crew members," the official report said.

A search for traces of the airmen was undertaken with desert vehicles. The crash scene was some 380 miles south of Benghazi.

The Air Force party reported that its search for traces of crew members was expected to take a minimum of 10 days.

# Town Frightened By Chlorine Gas Threat

MCCRAE, Ga. (UPI) — This Georgia town of 3,500 went about its business cautiously Monday — its citizens ready to graze gas masks at the first whiff of pungent, pale green gas.

In the middle of town lay two overturned railroad tank cars filled with liquefied chlorine — enough to knock out and kill many times the population of McCrae. Chlorine used in the poison gas warfare of World War I, is one of the most deadly of gases.

By early afternoon, wrecking crews had loaded the tank cars, unbroken, onto trucks and moved them out of town — ending the 18-hour state of emergency. Citizens were on a standby alert for possible evacuation of the town should the tank cars break.

Nineteen cars of a 67-car south-bound Southern Railway freight train jumped the tracks here last

night. The accident, believed caused by a thrown switch, occurred one block off the main street.

The cars rrammed into the side of a warehouse. Pulpwood loaded on some of the overturned cars scattered in all directions. Some of it landed on the two tankers containing the deadly, liquefied gas.

Police and civil defense officials declared a state of standby emergency while determining whether any of the gas was leaking from the cars. Some 1,200 gas masks were flown in from nearby air force and army bases.

Officials of the Olin Mathieson Co., owners of the gas, reported that no gas seepage was present. The community nevertheless spent a sleepless night while workers tried to remove the danger.

Wreck crews first tunneled through a large pile of seven-foot

Write for bulletin to: REGISTRAR Illinois College of Optometry 2445 S. Michigan Avenue, Chicago 16, Illinois

# Nikita Bids Red Welcome

MOSCOW (UPI) — Soviet Premier Nikita S. Khrushchev Monday welcomed the leaders of Communist East Germany to Moscow and promised to guard the solidarity and unity between the two nations "as the apple of our eye."

East German Premier Otto Grotewohl and Communist Party Leader Walter Ulbricht were guests at a dinner tendered by Khrushchev after their arrival from East Berlin to hold secret "summit" talks on the future of Berlin and the status of the Geneva Foreign Ministers Conference.

Formal talks were to begin today in the Kremlin.

The Tass News Agency, reporting on the dinner, quoted Khrushchev as saying "Our friendship has stood the test of time."

He warned that opponents of Communists "put their highest stake on a split" in the solid Red front.

"The monolithic solidarity and unity of the countries of the socialist camp is one of our greatest achievements and we must guard it as the apple of our eye," the Soviet leader said.

"Your presence," he told the Germans, "will serve the Soviet Union and the (East) German Democratic Republic."

Khrushchev said East Germany was going "ever-growing authority in the international arena thanks to the peace-loving policy of its government."

High School Musicians To Attend Camp At SUI

More than 300 high school musicians from Iowa and neighboring states will soon invade the SUI campus to attend band, orchestra, vocal and twirling divisions of the tenth All-State Music Camp, scheduled for June 21 through July 3, according to Frederick C. Ebbs, director of SUI Bands and the annual music camp.

The camp, open to school musicians who have completed the seventh grade and have the approval of their school music teacher and parents, is designed to give students an opportunity for musical training and experience beyond that offered in their home schools.

Students attending the two-week session will not only be kept busy in rehearsals, and in conducting, twirling and music theory classes, but will get a taste of college atmosphere as well, for they will be housed in SUI dormitories.

REDDICK'S

# Picture Of SUI Grad Featured On Magazine

S. W. Morrison, an SUI pharmacy graduate presently director of the pharmacy at Wesley Memorial Hospital, Chicago, is featured in the cover picture of the June issue of the magazine "Hospitals," a journal of the American Hospital Association.

A former resident of Iowa City, Morrison is a brother of Thomas Morrison, 414 Magowan Ave., an Iowa City pharmacist who is also an SUI graduate.

The cover picture is used in conjunction with an article entitled "Evolution of the Hospital Pharmacy," first in a series on the hospital pharmacy service. In the picture, Morrison is shown in the Wesley Hospital pharmacy, which is presented as a demonstration of the leading role played by the pharmacy in the operation of today's hospital.

A description of the hospital pharmacy in the magazine notes that it fills some 14,000 prescriptions per month.

S. W. Morrison received a Ph.D. from SUI in 1918, a Ph.C. in 1922, and a master of science degree in 1927.

More car than this Impala Sport Coupe is hard to find at any price.

clings to curves like a cat on a carpet! the travel-lovin' Chevrolet Nothing else but a dyed-in-the-wool sports car like the Corvette can take a turn with such solid assurance! The only thing that may be hard to understand is how it can offer the ride it does, along with so many other luxury-car virtues, and still compete in the low-price field. It's easy to see where Chevrolet gets its road sense. With big coil springs at every wheel, a firm, wider stance and all of its pounds distributed with painstaking care, Chevy's born with it. We use the word compete only in the sense of price. For with a ride as special as Chevy's, real competitors are hard to come by. There's a world of difference between Chevrolet's coil springs at all four wheels and the leaf springs that most other cars still use. Take a Chevy down a snaky back road and you'll feel the difference in the sure way it holds through curves and shoots over rough spots with hardly a ripple. This one's really made to travel and loves every minute of it.

Stop by your local authorized Chevrolet dealer's and sample Chevy's road sense!

### Pa. Youth Arrested Here After 30 Minute Chase

A Pittsburgh, Pa., youth, wanted for being absent without leave from the army, is in Johnson County Jail today, after breaking away from local police officers and leading them on a 30-minute chase through parts of Iowa City.

### Journalism Workshop In Progress

Two hundred promising Iowa high school journalists are meeting for a six-day publications workshop at the SUI School of Journalism.

The workshop began Sunday with registration and will end Friday night with a graduation banquet, at which the students will be given diplomas for the successful completion of the course.

Designed for the staff members of next year's high school newspapers and yearbooks, the workshop sessions will give the students training by well-known experts in newspaper and yearbook writing, business practices, photography, advertising and various other aspects of journalism.

Included in the full schedule of activities planned is a tour of the SUI television studios, a close-up look at the stars from the SUI observatory, tours of the Davenport Newspapers, Inc., plant and the Rock Island Arsenal and a boat trip on the Mississippi River.

Director of the workshop is Jeff Clark, instructor in journalism. Other faculty members on the staff are: Leslie G. Moeller, director of the school of journalism; Wilbur Peterson, assistant professor of journalism; Edward Mason, associate professor emeritus of journalism; Murvin H. Perry and Arthur M. Sanderson, instructors in journalism.

While attending the workshop, the students will be housed in the South Quadrangle and Currier Hall. High school publication advisers also will attend the workshop and special sessions dealing with problems in teaching journalism and advising student publications.

### Miss Lyon Receives Baptist Scholarship

Camilla May Lyon, Jefferson, has received a \$200 scholarship to SUI. Miss Lyon is one of the winners of 82 scholarships awarded this year by the American Baptist Convention. Winners were selected on the basis of scholastic ability and achievement; personality and Christian commitment; leadership and service potential; and financial need.

### Utah Professor To Teach PR This Summer

Perry D. Sorenson, director of public relations and associate professor of journalism at the University of Utah in Salt Lake City, will teach public relations at SUI this summer.

Sorenson is temporarily replacing Ernest F. Andrews, head of the public relations and radio-news sequences in SUI's School of Journalism. Andrews will spend the summer on the public relations staff of the United States Steel Corp. in New York under a grant from the Foundation for Public Relations Research in Education.

Sorenson received an M.S. degree in journalism at Northwestern University and plans to work toward a Ph.D. in mass communications here. He received his B.S. in political science and history at the University of Utah and attended the University of London for one year.

### Ford Fellowship To SUI Student

George Taylor, G. Anamosa, is the recipient of a \$2,500 Ford Foundation Predoctoral Fellowship in business administration at Carnegie Institute of Technology.

The predoctoral fellowships are intended to encourage outstanding holders of masters degrees in business administration or its equivalent to extend their training to doctoral work in preparation for teaching and research careers.

The Ford Foundation announced Monday 131 fellowship awards in business administration and economics to graduate students and professors at 38 universities for the 1959-60 academic year.

### Professor Bach To Talk Saturday

"Can Russia Challenge America's Faith?" will be discussed by Professor Marcus Bach, professor in the School of Religion at the Alumni Convocation, Saturday at 3:30 p.m. in Macbride Auditorium.

Although planned as a special event of Alumni Weekend at SUI, Bach's talk will be open to the public. Known for his study of the world's religions, Bach is the author of the recently-published "God and the Soviets," which he wrote following a visit to Russia in the summer of 1957.

Other events planned for returning SUI alumni include special dinners Friday and Saturday, an all-alumni supper Friday evening, a coffee hour Saturday afternoon, and special tours of the campus and city Friday and Saturday.

### ROBBED BRANDED

LONDON (UPI) — Police searched Monday for a man with a scarred face who tried to hold up the Gipsy Hill Railroad Station. Signalman Martin Hale was at his post at the suburban station when a tall gunman, brandishing a pistol, walked in and demanded the keys to the station booking office and safe.

Hale grabbed a red hot poker from his fire and jabbed it in the gunman's face. The gunman fled.

### Karl King To Conduct Band

The former bandmaster of the Barnum and Bailey Circus Band, Karl King, will be guest conductor at the SUI Symphony Band Commencement Concert Wednesday at 7:30 p.m. on the east lawn of Old Capitol.

He will conduct the band in five numbers, four of which are his own march compositions. King has written nearly 100 marches and several overtures, intermezzos, waltzes and novelties. He is conductor of the Fort Dodge Municipal Band.

His marches which the band will play are "King Henry," "A Night in June," "Hawkeye Glory" and "Barnum and Bailey's Favorite." King will also direct the band in "Light Cavalry Overture" by Suppe-Fillmore.

### Owens Brush To Hold Open House Monday

The Owens Brush Company announced Monday an open house will be held Monday from 10 a.m. to 2:30 p.m., in its new plant on Lower Muscatine Road in Iowa City.

Visitors will be able to see how toothbrushes and hairbrushes are made, according to C. G. Dore, president of the company.

Light refreshments and a complimentary gift package will be handed out to all visitors at the plant.

### AM-PRO Miniature Golf

New felt on all 18 holes. So come out, join the fun.

Open: 6 p.m. 2 Blocks West Nights, North of Airport and Sun. Hiway 218.

Starts TODAY! ILL NEVER KNOW WHY I EVER WENT NEAR HIM! MOBSTER THE LIFE OF A GANGSTER! STEVE COCHRAN - LITA MILAN

ENDS TODAY "CAT ON A HOT TIN ROOF" "TUNNEL OF LOVE"

CAPITOL STARTS WEDNESDAY Frank Sinatra DEAN MARTIN in "Some Came Running" and Alan Ladd in "The Badlanders"

### Utah Professor To Teach PR This Summer

Perry D. Sorenson, director of public relations and associate professor of journalism at the University of Utah in Salt Lake City, will teach public relations at SUI this summer.

Sorenson is temporarily replacing Ernest F. Andrews, head of the public relations and radio-news sequences in SUI's School of Journalism. Andrews will spend the summer on the public relations staff of the United States Steel Corp. in New York under a grant from the Foundation for Public Relations Research in Education.

Sorenson received an M.S. degree in journalism at Northwestern University and plans to work toward a Ph.D. in mass communications here. He received his B.S. in political science and history at the University of Utah and attended the University of London for one year.

### Ford Fellowship To SUI Student

George Taylor, G. Anamosa, is the recipient of a \$2,500 Ford Foundation Predoctoral Fellowship in business administration at Carnegie Institute of Technology.

The predoctoral fellowships are intended to encourage outstanding holders of masters degrees in business administration or its equivalent to extend their training to doctoral work in preparation for teaching and research careers.

The Ford Foundation announced Monday 131 fellowship awards in business administration and economics to graduate students and professors at 38 universities for the 1959-60 academic year.

### Professor Bach To Talk Saturday

"Can Russia Challenge America's Faith?" will be discussed by Professor Marcus Bach, professor in the School of Religion at the Alumni Convocation, Saturday at 3:30 p.m. in Macbride Auditorium.

Although planned as a special event of Alumni Weekend at SUI, Bach's talk will be open to the public. Known for his study of the world's religions, Bach is the author of the recently-published "God and the Soviets," which he wrote following a visit to Russia in the summer of 1957.

Other events planned for returning SUI alumni include special dinners Friday and Saturday, an all-alumni supper Friday evening, a coffee hour Saturday afternoon, and special tours of the campus and city Friday and Saturday.

### ROBBED BRANDED

LONDON (UPI) — Police searched Monday for a man with a scarred face who tried to hold up the Gipsy Hill Railroad Station. Signalman Martin Hale was at his post at the suburban station when a tall gunman, brandishing a pistol, walked in and demanded the keys to the station booking office and safe.

Hale grabbed a red hot poker from his fire and jabbed it in the gunman's face. The gunman fled.

## 16 Mexican Laborers Killed; Bus Hits Tree And Explodes

PHOENIX, Ariz. (AP) — Sixteen Mexican farm laborers burned to death Monday when a heavily loaded makeshift bus smashed into a tree and exploded in flames.

Thirty-two others were injured, three critically. Those killed had been asleep on the floor or were trapped near the front of the bus — a converted truck with canvas sides and top, and no windows.

Witnesses said the bus exploded "like a clap of thunder." Flames engulfed the vehicle as the laborers fought to reach safety through a single rear door partly blocked by suitcases and a water barrel.

The driver, Nato Manuel Gloria Jr., told the Arizona Highway Patrol he dozed at the wheel.

## New York Steel Talks Deadlocked; July 1 Is Strike Deadline

NEW YORK (UPI) — Steel wage negotiators refused to budge Monday in another fruitless contract session.

The negotiations are snagged with only three weeks left before the July 1 strike deadline.

Both sides have described their positions as flexible but have accused each other of being inflexible in the bargaining on a new agreement covering 500,000 basic steelworkers.

R. Conrad Cooper, chief industry negotiator, told a news conference, "We are still waiting for signs of a flexible and reasonable attitude on the part of the union."

David J. McDonald, president of the United Steelworkers Union, said in a separate press conference, "We have seen no evidence of flexibility on the part of the industry's negotiators."

## High Korean War Taxes Approved For One More Year By House

WASHINGTON (UPI) — The House Monday approved a one-year extension of high Korean war tax rates on cigarettes, beer and liquor, new automobiles and corporate profits.

The Eisenhower Administration sought the bill to prevent a \$2 billion drop in federal revenues on June 30 when the present law is scheduled to expire.

The measure was passed and sent to the Senate by voice vote with only a few "no" votes. The legislation was called up under a "take it or leave it" procedure barring amendments.

It may be a different story in the Senate where there is no way to "gag" groups favoring tax law revisions.

## Cowboy Faces Rustling Charge; Said He Stole 300 Head Of Cattle

NEW YORK (UPI) — A cowboy waived extradition to Oklahoma to face charges of rustling 28 head of cattle and fleeing to South American with the proceeds.

head of cattle and selling them for \$50,000.

He was charged formally with taking only 28 head when he appeared before U.S. Commissioner Earle Bishop.

Authorities in Haskell County, Okla., also want Douglas, on a charge of larceny of livestock.

## Coast Guard Planes Continue Search For Two Boats In Gulf

NEW ORLEANS (UPI) — Coast Guard planes criss-crossed the Gulf of Mexico Monday searching for two boats overdue or missing with at least six persons aboard them.

A 50-foot cabin cruiser, the Advance, was missing with five persons aboard. The Advance was bound for Fairhope, Ala., from Gulfport, Miss.

The Coast Guard identified the other missing boat as a 14-foot outboard from Rollove Bayo, La.

Three other boats were reported missing earlier Monday in the Gulf but since have been accounted for.

## 2 Men Go Over Dam; Rescued By 'Copter

CEDAR RAPIDS (AP) — "If we go out in a boat there again, I'll bet we go below the dam."

That was the remark of one of two men snatched by helicopter from the turbulent, rock studded waters of the Cedar River in Palisades-Kepler State Park Sunday about six hours after their small boat had been swept over a dam.

William Gamber, 24, of Cedar Rapids, and Lester Carkhuff, 20, of Keystone, suffered only bad cases of sunburn as a result of their long ordeal.

The two men, clad only in bathing trunks, were trying out Clarkhuff's new fiber glass boat in the relatively calm water above the dam.

The boat drifted over the dam about 1:45 p.m. after the motor had conked out.

A crowd estimated at between 500 and 1,000 persons gathered on the banks as the plight of the two men became known.

Efforts to reach the men with ropes failed. Their plight became all the more precarious when the boat in late afternoon finally pulled loose from the pilings and disappeared under the foaming water, leaving the two men clinging there.

Authorities finally located a National Guard helicopter at Boone.

Then the helicopter, piloted by Maj. M. L. Juhl of Boone, Army National Guard aviation officer, moved in, directed from the air by Moore and from the ground by Linn County Deputy Sheriff Harry Ackerman. The three communicated by means of walkie talkie radios picked up at the Cedar Rapids Airport.

Juhl hovered so low over the water that the overhead blades raised a spray that showered the banks. First Gamber, then Carkhuff, struggled into the harness that had been suspended below the 'copter and one by one, the men were lifted to safety.

## Assault, Theft Suspect Kills Deputy, Is Captured

SANFORD, N.C. (UPI) — A slightly-built Negro man, a suspect in a rape case, a shooting and a theft, ambushed two officers in a wheat field Monday and killed a deputy sheriff.

A posse of more than 200 heavily-armed men tracked him down, cornered him in a swamp and arrested him after an exchange of gunfire.

Bleeding from chest and shoulder wounds, the Negro wailed, "kill me, kill me, please kill me. I don't want to go to the gas chamber."

He was rushed to a hospital for treatment of the wounds which were not serious. He was identified

tentatively as James Jones, about 35. Officers identified him as a fugitive roaming the rural central Carolina countryside for more than a week. Jones was believed to be the man wanted for raping a 56-year-old white woman at her home near Burlington, N.C., 45 miles north of here, last week. He was reported hiding in the rural Swann Station community near here, and deputies J. L. Powers and Ralph Matthews were searching for him Monday morning.

Suddenly and without warning, the Negro jumped up in the wheat field and fired point-blank at Powers.

King said that he crawled to Powers but that the deputy was already dead.

The Negro, who earlier had fired at farmer John D. Wicker and missed, fled into a heavily-thicketed swamp; a quickly-organized posse, using bloodhounds, encircled the area and began closing in. The cornered man fired several shots and the posse began shooting at him. He was wounded in the chest and shoulder. Officers handcuffed him and attempted to question him about the rape.

Officers said he kept repeating "please kill me, kill me, I don't want to die in the gas chamber."

The Negro was believed to be the same man who broke into a farm house last week and stole a shotgun. Later, the same Negro shot Vernon Elkins, 32, in the back at a rural sawmill near here.

## 9-Year-Old Released After Killing

PITTSBURGH (UPI) — A nine-year-old boy, who shot and killed a woman wild west show performer when he mistook her gaudy sharpshooting rifle for a toy, was released Monday in the custody of his parents pending a coroner's inquest.

The boy, Frank Monaco, spent the night in juvenile court quarters after the shooting at a "Frontier Village" in Pittsburg's Point Parkway part of the city's bicentennial celebration. He was turned over to his parents, John and Billie Monaco, New Kensington, Pa., by Allegheny County Coroner William D. McClelland Monday morning.

"I'm sorry, I'm awfully sorry," Frank told Chief Deputy Coroner Joseph Dobbs. "I didn't know it was a real gun. I was holding it when all of a sudden it went bang and I heard a woman scream."

The youngster was touring the exhibition with his parents, when the mother and son wandered into the cell of the make-believe frontier sheriff's office. The boy saw two golden rifles lying on a bank and asked his mother, "can I play with the guns?"

Believing them only dummies, she assented and the youngster pulled the trigger on one.

The rifle fired and the bullet struck Mrs. Mamie Alice Peniman, who only minutes before had loaded the rifles with 29 rounds of live ammunition in anticipation of her performance, and then stepped outside the building to await her cue.

Mrs. Peniman, 38, Sun Valley, Calif., who performed in touring western shows with her husband, Fred, 40, and daughter, Mary Alice, 8, died enroute to Allegheny General Hospital.

Most of the persons who saw Mrs. Peniman collapse believed it part of the show until she gasped, "get me an ambulance, I've been shot."

In the coroner's office this morning, the widower met with the father of Frank Monaco extended his hand to Peniman and tears streamed from the eyes of both. "I pray to God that all will be forgiven," Monaco said.

## German Heads In Hot Dispute

BONN, Germany (UPI) — West German parliament president Eugen Gerstenmaier stormed out of a meeting of Christian Democratic party leaders Monday in a sharp dispute with Chancellor Konrad Adenauer over the latter's decision to remain as head of government.

Gerstenmaier was red-faced and obviously upset when he left the meeting room, slamming the door behind him. He went back into the room some 15 minutes later after he was asked to return by another executive member, Will Rasner.

Rasner told newsmen later that Adenauer and Gerstenmaier shook hands and composed their differences in the presence of other members of the party executive committee.

Gerstenmaier, a deputy chairman of the Chancellor's party, has been one of the most outspoken critics within the party of Adenauer's surprise reversal of his earlier decision to seek the presidency. He has described the chancellor's about-face as "absolutely incorrect."

The parliamentary president staged his walkout a few hours after Adenauer flatly denied reports that President Eisenhower had influenced his decision to remain as West German Chancellor.

The denial, issued in statement form by the Federal Press Office, said that Adenauer "discussed no internal questions of the Federal Republic with President Eisenhower" during his last visit to Washington.

## Red Party Wins Election On Sicily

PALERMO, SICILY (UPI) — Communist-supported Regional President Silvio Milazzo and his "Sicily First" alliance swept to victory over anti-Communist forces Monday in final returns from Sunday's Sicilian elections.

Milazzo, who bolted the Christian Democratic Party last year and won regional control in Sicily through leftwing support, appeared headed for another four years in power unless the Monarchists and Fascists desert his camp.

The anti-Communist Christian Democrats of Italian Premier Antonio Segni increased their popular vote in Sunday's regional council election despite the competition from Milazzo's new "Christian Social" party.

But the Communists also gained and Milazzo's coalition of leftists and rightists was victorious in complete official results by a margin of 1,324,144 votes to 1,089,191 for the anti-Communists.

This left the proportion of the popular vote almost unchanged since the last elections in 1955, when the parties now backing Milazzo won 1,227,047 votes to 1,061,728 for the anti-Communists.

But the Milazzo coalition boosted its majority on Sicily's 90-member Regional Council from 48 to 53 seats under a new electoral system that favored the smaller groups.

This gave the Neo-Fascists and Monarchists, who hold 12 of the Milazzo coalition seats, the balance of power in the new council despite a sharp decline in their popular vote.

If these two far rightwing groups agree to withdraw support from Milazzo and join the Christian Democrats, Milazzo would be out. The two parties have hinted that they might be willing to do so — but only for a high political price.

Their price for such a switch would be likely to include key posts in the Regional Government for Monarchists and Fascists and a powerful say in local police affairs.

This may be more than Premier Segni is willing to concede. He already has been criticized by his own Christian Democrats for accepting support from the rightists in the Rome Parliament.

Approximately 85.7 per cent of the 2,902,354 eligible voters cast ballots in Sunday's election despite wind and rainstorms throughout the island.

## Diver Dies During Lifesaving Show

VIBORG, Denmark (UPI) — Danish Skin Diver Erik Thuesen drowned before thousands of spectators Sunday while he was demonstrating how to rescue a drowning person.

Thuesen and a colleague jumped into Noerresoe Lake to "rescue" a doll, representing a drowning swimmer.

A few minutes later the skin diver shot up to the surface, ripped off his mask, then sank. Police said a defective diving outfit might have caused the accident.

# LIFE

... of your garments depends on many things, among them, and foremost, is frequent Quality Dry Cleaning.

Quality means many things to many people. The word is over used, and in some cases has lost its meaning. BUT to us this is what it means . . . Having the best possible equipment, which in turn necessitates a large enough volume to make such equipment practical. We are equipped to handle this large volume.

It means using the best dry cleaning detergents and spotting agents obtainable . . . REGARDLESS of cost!

It means having well trained personnel to handle your garments. We have them.

These are but a few of the many things we offer you in what we call Quality Dry Cleaning.

Next Time See or Call . . .
