Nation To Get Basic Facts In Steel Fight

Hope Figures Ease Dispute, Says Mitchell

Data To Cover Wages, Profits

WASHINGTON (AP) — President Eisenhower decided Tuesday to push for a steel strike settlement by giving the public basic facts about the dispute.

Secretary of Labor James P. Mitchell announced the decision after a 45-minute discussion with the President.

"We hope as a result of these background statistics that the parties will bargain a little harder and reach a settlement," Mitchell told newsmen.

Mitchell has been working for weeks, with a huge staff, gathering statistics from both government and industry sources. Data he will release today, for Thurs-

Secretary Mitchell

day's newspapers, will cover wages, profits, productivity, prices and some related subjects.

His report will be purely factual Mitchell said, with no recommendations that either the United Steelworkers Union or the companies do anything.

Asked whether the data will favor either side, he said: "I think that is for the public to judge."

Here are some basic facts, already known:

The strike is 35 days old and every week it continues it costs 300 million dollars in production and 70 million in wages. Half a million workers are on strike and 150,000 in related industries have been laid off.

The union is demanding pay raises and fringe benefits which the companies contend would be inflationary.

Eisenhower has favored a hands-off attitude for the government, and it is known the administration has planned to hold off invoking the Taft-Hartley Act at least until Sept. 15. Officials are convinced there will be no damaging steel shortage until then.

The Taft-Hartley law requires a cooling off period for 90 days, but no major strike has been ended by using this provision. The strike usually just resumes at the end of the 90 days.

Mitchell told a questioner he does not regard the publication of his figures as a form of government intervention. And, asked whether he interprets it as bringing pressure on industry and the union, he said he wouldn't interpret it at all.

Polio Takes Life Of Waterloo Girl

Beverly Hinton, 4, of Waterloo, died of paralytic polio at University Hospitals Tuesday night. She was the daughter of Mr. and Mrs. Booker Hinton.

Beverly's illness was diagnosed as bulbar polio Tuesday morning and she was brought here by ambulance. The child was Waterloo's second polio fatality this year.

Housing Measure Passed By Senate

WASHINGTON (AP) — The Senate passed Tuesday a new \$1,050,000,000 housing bill after refusing to make any substantial concessions on the floor to President Eisenhower's objections.

Passage was on a roll call vote of 71-24.

The measure now goes to the House which reportedly will not be in a hurry to act on it. There seemed to be a good chance it would not reach the President's desk until close to adjournment day.

Several senators raised the cry, however, that the bill likely would be vetoed just as its predecessor was.

As it passed the Senate, the compromise measure was cut well below the \$1,375,000,000 total in the measure which Eisenhower killed last month. He rejected that one as inflationary and a Senate attempt to override the veto failed.

The new bill still contained authorizations for all of the government-backed housing programs in the earlier bill, including some which the administration strongly opposed.

It also carried liberalizations of the FHA home insurance program and other provisions designed to aid the private housing industry.

GOP senators, joined by some southern Democrats, made eight unsuccessful efforts to knock out of the bill items to which they said Eisenhower objected most strongly.

Failing in these, they finally offered a motion to send the bill back to committee for rewriting but this was beaten 67-28.

One of the hardest fights centered around a provision to start a new program of federal aid for college classroom construction with a 50-million-dollar loan fund. But Republicans were beaten twice Monday in efforts to scuttle this.

Here are the major provisions of the \$1,050,000,000 housing bill passed by the Senate Tuesday:

Urban renewal or slum clearance: 650 million in grant funds, available at once, with 100 million of the total earmarked for cities under 100,000 and discretionary with the President. This program is out of funds. The administration asked 300 million each for the next two years.

Public housing: 37,000 new units. All allocations available under present law are committed. The administration asked no new starts.

College dormitories: 250 million in loans. The administration asked

200 million. The program is out of funds.

College classrooms: 50 million in loans. Opposed by the administration.

Housing for the elderly: 50 million in direct loans. Opposed by the administration.

Co-operative housing: 25 million for purchases of mortgages by the Federal National Mortgage Assn. Opposed by the administration.

Insurance authority for FHA home mortgages: 8 billion, expiring Oct. 1, 1960, plus authority to use turnover funds from mortgages which expire.

FHA down payments: Lowered so that, as an example, the down payment would be \$855 on an \$18,000 home as against \$1,380 now.

Maximum amount of FHA-insured mortgage on a single family home raised from \$20,000 to \$22,000.

FHA home loan improvement program extended one year to Oct. 1, 1960.

Iowa Demos Urge Approval Of Works Bill

WASHINGTON (AP) — Iowa's four Democratic congressmen Tuesday urged President Eisenhower to sign the billion dollar public works appropriation bill.

In a joint letter, they said that for the first time Iowa would receive significant funds for projects in the interior of the state.

Congress has approved the \$1,206,000,000 measure to finance water projects during the fiscal year that started July 1. It also includes about 90 new planning and construction starts which the president opposed.

Reps. Merwin Coad, Neal Smith, Steven V. Carter and Leonard G. Wolf told Eisenhower that although the bill would provide "for a slightly higher expenditure than you initially recommended, it follows your suggestions to a degree as to meet with your acceptance and provides the funds for a fair and reasonable civil functions program for the American people."

The congressmen said \$1,113,000 for final planning and construction of Red Rock Reservoir near Des Moines would provide a high degree of flood protection on the Des Moines River and that \$800,000 for a government transmission line from Sioux City to Creston and Spencer would for the first time provide Iowa with Missouri River Basin power.

The bill also includes \$200,000 for planning of the Saylorville Reservoir on the upper Des Moines River, plus funds for continuation of channel improvement and flood control devices on both the Mississippi and Missouri Rivers.

The New York governor flew in for a whirlwind round of conferences, including a 45-minute session with President Eisenhower at the White House on civil defense matters.

Although Rockefeller told a news conference that "nothing of a serious character" bearing on the 1960 Republican presidential nomination came up in the talk with the President, he conceded he had discussed the New Hampshire primary outlook with Sen. Styles Bridges (R-NH).

It is in New Hampshire's primary next March that Rockefeller's friends believe he must contest Vice President Richard M. Nixon if he intends to bid for the party nomination.

Throughout the heavily scheduled day Rockefeller appeared to be cautiously feeling out the political situation in anticipation of a decision, probably some time this fall, on whether he will seek the nomination.

Violent Quake Rocks Northwest; 17 Killed

A SURVIVOR of the Montana earthquake, Warren Steel, 37, of Billings, Montana, is interviewed by an Associated Press reporter at West Yellowstone, Montana Tuesday afternoon after Steel and his wife were injured about midnight when an earthquake damaged

Hebgen Dam causing floodwaters in the Madison River below. The two were camping along the Madison River on Montana Highway No. 1 when debris coming down the river trapped them.—AP Wirephoto.

Night Shock Raises Havoc At Campsite

Smokejumper Aids In Rescue Efforts

HELENA, Mont. (AP) — Earthquakes rocked mountain country of southwest Montana just west of Yellowstone National Park Monday night and Tuesday, leaving at least 17 dead.

At least 33 persons were injured seriously enough to require hospital care.

A driving rain and overcast skies added to the rescue difficulties.

A dozen injured persons, all reported in serious condition, were evacuated from the Hebgen Dam area Tuesday afternoon by helicopter.

The dam was cracked and battered by the earth shocks but still held.

A mountainside toppled into the Madison River, famous among Western fishermen, throwing up a 200-foot barrier.

Large sections of a highway rimming the lake formed by the dam were ripped loose and flung into the water.

Engineers said there is a possibility a number of persons might be buried beneath hundreds of tons of debris at the Rock Creek campground below the dam.

The worst shock came shortly before midnight. It was followed by numerous aftershocks. These continued during the day, leaving the ground "shaking like jelly," as a telephone repair crew described it.

Shocks were felt in Yellowstone Park, where 22,000 to 25,000 persons were vacationing. Slides closed a number of roads in the park, including the main highway to the west, but no one was reported killed or injured in the vast summer playground.

Old Faithful Inn was closed after a water main burst but officials expected to have one wing reopened during the night. Old Faithful geyser continued spouting on its hourly schedule.

Five bodies were in a mortuary at Virginia City, historic town in western lore, and two more were reported being taken there. Three bodies were in a mortuary at Ennis, Mont.

The University of California estimated the shock at 7.8, compared to the 8.2 magnitude of the 1906 quake in San Francisco, the most powerful in modern times.

Dr. Charles Richter, an authority on earthquakes at the California Institute of Technology, said he thinks it was somewhat less severe, possibly 7.1.

Death reports were fragmentary and possibly duplicating.

A helicopter pilot told Sheriff Lloyd Brook at historic Virginia City, Mont., he had seen six bodies during a trip over the area.

Idaho State Police, in a broadcast heard by Montana Civil Defense headquarters, said they were told there were eight deaths near Reynolds Pass, on the Idaho-Montana border.

A Missoula, Mont., radio station newsmen, J. D. Coleman, who flew over the area, said he was told at least five persons were buried in the biggest slide which blocked the Madison River.

Coleman said the devastation was unbelievable.

Early reports said 100 to 150 persons were marooned between the slide, which created a barrier 200 feet high, and a leaking dam on the river.

The hospital at Ennis, north of the slide area, was crowded with injured persons and others were taken to Bozeman, Mont.

The quake was felt as far east as the Dakotas.

Hugh Potter, Montana Civil Defense director, said the stranded people were slowly making their way out of the bottled up gorge. He predicted "they'll get out all right."

He said veteran smokejumpers — parachutists skilled in fighting forest fires — had been dropped into the area to help them. He said about 100 people were engaged in rescue operations.

Raps Recent 'Anti-Labor' Legislation

FOREST PARK, Pa. (AP)—George Meany, AFL-CIO president, said Tuesday big business is jamming through Congress legislation that will hamstring labor unions and hurt the nation's economy.

"This is intended to kill organized labor," Meany said. "But we'll survive. We'll operate as best we can for the workers' welfare and we'll continue to fight corruption wherever we find it."

Organized labor's top leader said he hoped bills already passed by the House and Senate could be reconciled to preserve what he termed the less detrimental features of each. But he said he has little confidence that will happen.

"I'm not optimistic; quite obviously the antilabor forces are riding high," he said.

Meany spoke to newsmen after the AFL-CIO Executive Council — the organization's high command — issued a statement blasting the bill recently passed by the House.

The council said it is designed by big business interests to weaken unions rather than deal effectively with labor corruption.

The AFL-CIO leaders are holding their summer session here at a union-owned camp in the Pocono Mountains.

The leaders of organized labor like neither the House-passed bill, which was endorsed by President Eisenhower, nor a Senate version passed last April. Of the two, they regard the House bill as the more objectionable.

The AFL-CIO leaders maintain that, instead of dealing with corruption, the bills go much further and attempt to punish all organized labor for the sins of a few unions.

Des Moines May Be A Stop On Khrushchev's U.S. Tour

WASHINGTON (AP) — Des Moines was listed Tuesday as a probable stopping point for Nikita S. Khrushchev during the Soviet Premier's look at the farm land of America.

Khrushchev is slated to arrive in the United States Sept. 15 for a visit expected to last 12 days. He has expressed interest in seeing a midwest farm.

Sources familiar with the U.S.-Russian discussions on Khrushchev's itinerary said it now appears likely that Khrushchev will pay visits both to the corn farm of Roswell Garst at Coon Rapids, and to Iowa State University at Ames.

The Soviet chief was expected to headquarter at Des Moines during his Iowa visit, making side trips to Coon Rapids and Ames.

Other cities Khrushchev is expected to visit are Washington, New York, Los Angeles, San Francisco and Pittsburgh.

John Adams, secretary of the Des Moines Chamber of Commerce said when informed of Khrushchev's proposed visit, that "as soon as we know how long he will visit and what he wants to see we will line up a program."

The Des Moines Chamber had sent an invitation to Khrushchev. Adams said the Russian embassy in Washington notified Chamber officials that the invitation was "being considered."

"Frankly," Adams said, "we haven't made any kind of plans. But we'll probably show him some good farms around the Des Moines area, show him some nice homes within the city. . . . just to let him have an idea how we live."

He said Khrushchev probably

will be shown through some of the agricultural machinery firms in and near Des Moines, such as the John Deere plant.

In Ames, Iowa State University President James Hilton said "if he wishes to visit our school we would be pleased to have him come here. I imagine he wishes to see our agricultural development."

Dr. Hilton said, however he had not notified the Soviet premier to visit the university, nor had he been contacted about the proposed visit.

About a week ago Khrushchev said he probably would visit Garst during his tour of the United States.

Garst said at that time he would welcome the visit so that he could reciprocate some of the hospitality the premier showed him while visiting in the Soviet Union recently.

Garst, whose farm has been a showplace for visiting Russian delegations the past few years, operates one of the largest hybrid seed corn plants in the world at Coon Rapids, located just north west of Des Moines.

House Passes Law Clarifying Equal Time Rule

WASHINGTON (AP) — The House passed legislation Tuesday clarifying existing law requiring equal radio-television program opportunities for political candidates.

A one-sided voice vote sent the measure to the Senate, which already has passed a companion measure. The Senate may accept the House version or send the two bills to a compromise committee to work out their differences.

The legislation would exempt from the equal time requirement any appearance of a legally qualified candidate on a bona fide newscast or on an on-the-spot coverage of news events if the candidate's appearance was incidental to presentation of the news.

A program arranged primarily to promote a candidate would not be exempt.

The necessity for the legislation stems from a Federal Communications Commission ruling of last June. Under this the appearance of a legally qualified candidate in the course of a newscast must be considered as use of a broadcasting station's facilities and requires that equal facilities be provided for other candidates who request it.

Anti-Tension Pact Signed At Santiago

SANTIAGO, Chile (AP) — American foreign ministers wound up their Caribbean peace conference Tuesday by signing a 10,000-word final act aimed at starting tension-easing machinery in motion.

Meanwhile Chile, the host nation, threw out a party of Cuban soldiers and newsmen who landed in a Cuban air force transport, uninvited and without authorization, as the advance guard for a professional good will visit by Cuban Prime Minister Fidel Castro's brother Raul.

Cuba joined, however, with 19 other Latin American nations and the United States in signing the act as the closing session of the seven-day conference.

Among the others was the Dominican Republic, whose Generalissimo Rafael L. Trujillo has been accused by Castro of attempting to overthrow Cuba's revolutionary regime.

U.S. Secretary of State Christian A. Herter told newsmen he believed the conference "will have a long-range effect that will have great significance."

The expulsion of the Cuban party — 13 bearded soldiers equipped with pistols and machine guns, 21 newsmen and 7 plane crewmen — came before dawn.

Two Chilean warplanes escorted them from Santiago, where they had been held in the military area of the airport since their landing Monday, and sent them on their way to Lima, Peru, where Castro's brother had tarried on his way to this city.

Both Castros had denounced the conference here as a farce and there were strong suspicions among some delegates that headline-hunting was the purpose of Raul's trip.

Although the ministers agreed to give special temporary powers to the Inter-American Peace Committee in an effort to curb further invasions by revolutionaries and their sympathizers, they called no names and slapped no wrists.

It was plain they were banking on public opinion to bring moral pressure to bear on those responsible.

Hawaii To Become 50th State Friday

WASHINGTON (AP) — Hawaii will become the nation's 50th state Friday at 4 p.m.

That's when President Eisenhower will sign the official proclamation at the White House.

Eisenhower plans to issue at the same time an order on design of the 50-star flag that will become official next July 4, when the 49-star banner will be one year old.

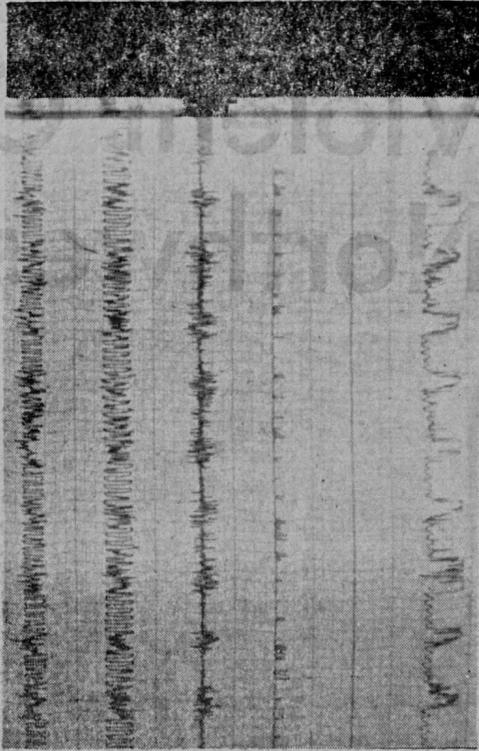

Alaska was the 49th state.

Decodes And Interprets Messages From Outer Space

Tapes Unpacked

(1) The SUI Department of Physics under the direction of Dr. James Van Allen, has one of the top data reproduction centers in the nation. This center is used to decode and interpret the messages sent from the space satellites and moon probes. In this photo, tapes of the satellite signals arrive at SUI and are unpacked by Sid Chellani, G. India.

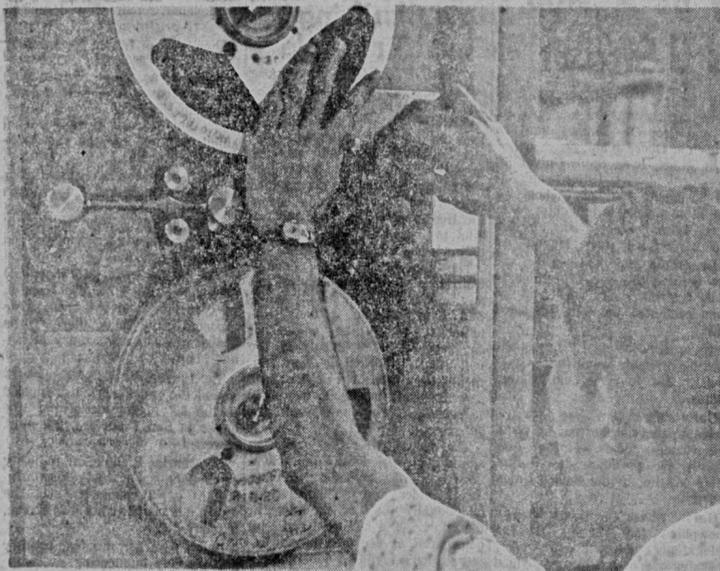

Channels Recorded

(3) The separate channels are recorded on seemingly endless strips of paper here issuing from the machine.

Profile Drawn

The figures are recorded on a profile of the earth's atmosphere at the exact point at which they were recorded. The curve in this photo, for instance, is the part of South America over which the satellite passed. Edward Yen, A3, is shown plotting the satellite's height and radiation intensity recorded at that particular point.

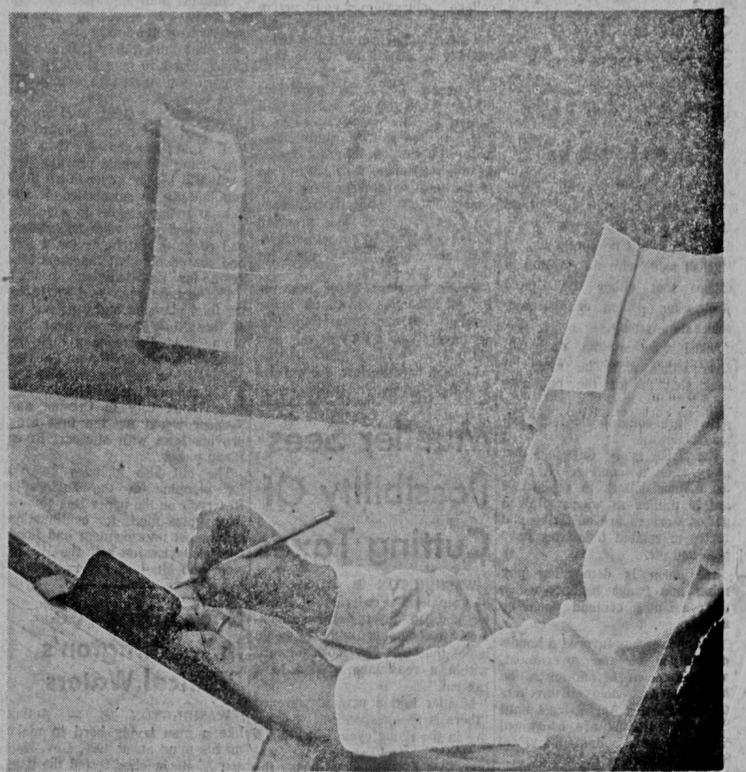

Tapes Decoded

(2) Tapes are loaded into a machine which plays them back and decodes each separate channel of information.

Tapes Identified

(4) The tapes are then marked with the place and time. That is, the position of the satellite at a particular time. Shown recording the data is Mrs. Sheila Clendinning, a student wife from Los Angeles.

Radiation Readings Taken

When the figures have been plotted and a fairly complete data outline has been reached, one of the radiation experts such as Carl McIlwain, shown above, takes readings from the graph. He attempts to formulate the patterns of radiation and to determine the earth's gravitational pull at a particular point in space.

Labor Bill Talks Report Progress

WASHINGTON (AP) — Senate-House conferees reported progress after their first meeting Tuesday to iron out differences between labor control bills passed by the Senate and House.
 Rep. Graham A. Barden, (D-N.C.), chairman of the House conferees, told newsmen he saw no reason to deadlock and expressed hope agreement could be reached by the end of the week.
 Sen. John F. Kennedy, (D-

Mass.), chief sponsor of the Senate measure, said "we are making progress." But he didn't attempt to forecast when a compromise would be worked out.

RECOVERY PROGRAM

TAIPEI, Formosa (AP) — The Nationalist Chinese government today launched a \$22½ flood recovery program.
 The Aug. 7-9 floods destroyed 49,000 homes, devastated large areas of farmland and wrecked numerous roads and bridges.

1 Fireman Dead, 7 Critical After K.C. Gas Tank Blast

KANSAS CITY, Kan. (AP) — A gasoline storage tank, ignited by flames from a burning filling station, exploded Tuesday and spewed a huge jet of flame 200 feet into a group of firemen.

One fireman died in a hospital and 100 persons, mostly firefighters, were injured. Seven of them remained in critical condition.

Power Loss Corrected In New York

NEW YORK (AP) — Power was restored to half a million New Yorkers Tuesday, after the worst breakdown in the city's history. More than 500 square blocks were blacked out for 13 hours.

Little actual damage resulted from the breakdown. But coming as it did on the most miserably hot and humid day of summer, it compounded the stifling discomfort of millions.

Darkened streets in West Side slums and East Side luxury areas on either side of Central Park offered an inviting lure to mischief-makers and criminals. Police Commissioner Stephen P. Kennedy rushed 3,000 extra policemen to the areas and was able to report afterwards that crime actually decreased during the blackout.

The power failure apparently was a cumulative thing. For five days, New York had been sweltering. As air conditioners and other electrical equipment were utilized against the heat, demands on Consolidated Edison Co. power facilities mounted.

Underground feeder cables carrying this power grew hot, because of the intense heat on the streets above, the underground heat could not be dissipated.

Monday, the city used more electricity at one time than it had ever used before. In mid-afternoon seven cables from the Hell Gate generating plant burned out.

That left without power an area from 59th to 110th streets and from Central Park to the Hudson River; and from 74th to 110th streets and the park to the East River.

Subway third rails were not affected, but the signal system of the Independent line was knocked out. Trains were halted for about two hours until men with lanterns could be placed along the tunnels to signal them on.

Air conditioners, New York's major defense against its well-nigh intolerable summer climate, went dead. The official Weather Bureau temperature reading at the time was 89 degrees.

SUI Will Offer 33 Saturday Classes This Fall

Thirty-three Saturday classes will be offered during the 1959-60 academic year at SUI, according to Dean Bruce E. Mahan of the SUI Extension Division.

The Saturday class program at SUI is organized primarily to meet the needs of teachers, though many others have also attended in past years. Classes are scheduled this year on 12 Saturdays from Oct. 3 to Mar. 12. Each course carries two semester-hours of credit, which can be counted toward an undergraduate degree. Candidates for a graduate degree may count a maximum of eight semester-hours of work completed in Saturday classes. The fee is \$8 per semester-hour.

Areas of courses offered include education, art, botany, English, geography, geology, history, home economics, library education, physical education, political science, social work, and speech.

A bulletin giving detailed information on the courses and registration instructions may be obtained by writing to the Extension Division, The State University of Iowa, Iowa City, Iowa.

TYPHOON REPAIR

TOKYO (AP) — The government today appropriated nearly \$20 million to repair damages left by Typhoon Georgia. The storm last Thursday night left 10,028 persons homeless.

Doctor's 22-Year-Old Lover—

A Codefendant In Murder

WEST COVINA, Calif. (AP) — Carole Tregoff shook with violent sobs Tuesday when a judge ruled her a codefendant with her lover, Dr. R. Bernard Finch, on charges of murdering the doctor's wife.

Testimony she gave at Dr. Finch's preliminary hearing worked against her at her own hearing and resulted in her being held to answer in Superior Court Aug. 31.

That's when Dr. Finch, 41-year-old wealthy physician-surgeon, also will enter a plea.

Extensive arguments over admissibility of Miss Tregoff's testimony in the earlier hearing preceded ruling by Municipal Judge William M. Martin.

Miss Tregoff, 22, a shapely ex-model and onetime private secre-

Virgil L. Sams, Kansas City, Mo., fireman, died in a hospital about six hours after the explosion.

Most of the injured firemen were standing in a four-lane boulevard, playing streams of water on a Conoco Oil Co. station and nine storage tanks — four 25,000-gallon capacity tanks in the rear and five smaller ones at one side.

One of them exploded, blowing the top of the tank about 50 feet to the rear of the station. Then another exploded with a soft pop. Both shot flames harmlessly into a railroad switching yard.

Suddenly another tank broke from its concrete foundation, overturned and sprayed a long sheet of flame across the boulevard and down a side street.

For a few seconds the fireball obscured the fireman and it seemed incredible any one in that 20-foot-wide path of flame could have survived.

Fire chief Francis Doherty of Kansas City, Kan., reported four men killed, but this could not be confirmed. Fire Chief Edgar M. Grass of Kansas City, Mo., said two of his men were so badly burned they were reported dead on arrival at a hospital, but later were found to be alive.

The fire was put out about three hours after it started.

Officials estimated the loss at \$150,000. The filling station and four big tanks belonged to the Continental Oil Co. Six smaller tanks belonged to the Pyramid Oil Co., a Conoco jobber.

Iowa's 3 Adult Prisons Filled To Near-Capacity

AMES (AP) — Iowa's three adult penal institutions are filled to near-capacity, an Iowa State University sociologist reported in the August Issue of the *Presidio*, the Fort Madison State Penitentiary publication.

Walter Lunden said that as of April of this year the institutions had a population of 2,220, only 124 less than capacity.

However, Lunden said Iowa's 8 per cent increase in prisoners from 1948 to 1957 is far below the national increase of 25 per cent for the same period.

The State penitentiary at Fort Madison has more than 130 inmates above capacity, which is 1,166, Lunden reported.

However, there were only 886 prisoners at the State Reformatory at Anamosa, which was built for 1,100 inmates.

The Women's Reformatory in Rockwell City has the least problem of overcrowding. The reformatory has room for 108 women, and there were only 166 inmates in April, Lunden noted.

Lunden said the number of prisoners in Iowa is below the 1940 mark, in contrast with the national rate, which in 1954 rose above the 1940 level.

A growing total population and longer prison terms have caused the marked increase in prisoners in most states, Lunden said.

In Texas, the prison population increased 57 per cent from 1950 to 1957, and in California the increase for the same year was 35 per cent, Lunden reported.

Both states had large population increases in that period.

3 CLIMBERS DIE

SALZBURG, Austria (AP) — Three young European mountain climbers were found dead and three were rescued on the icy slopes of the 10,600-foot Wiesbachhorn near Salzburg Tuesday.

The survivors were frost-bitten and completely exhausted. Two of the dead were 19-year-old Austrian girls. Still missing were three climbers trapped by blizzards on the Tauern Mountains Sunday.

Doctor's 22-Year-Old Lover—

A Codefendant In Murder

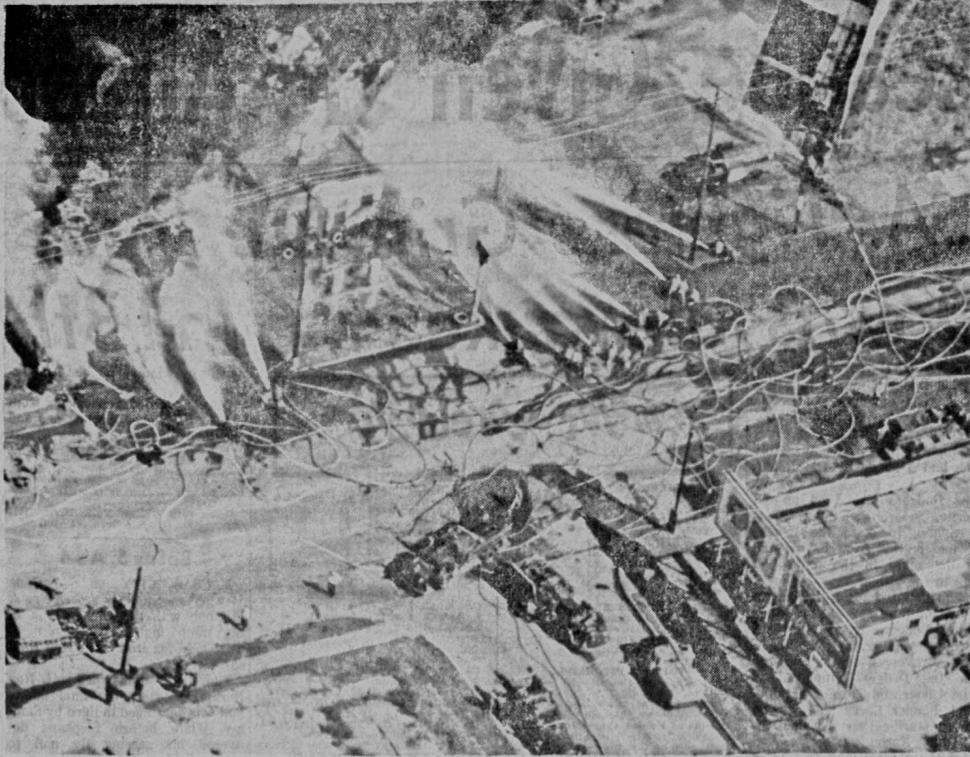

WEST COVINA, Calif. (AP) — Carole Tregoff shook with violent sobs Tuesday when a judge ruled her a codefendant with her lover, Dr. R. Bernard Finch, on charges of murdering the doctor's wife.

Testimony she gave at Dr. Finch's preliminary hearing worked against her at her own hearing and resulted in her being held to answer in Superior Court Aug. 31.

That's when Dr. Finch, 41-year-old wealthy physician-surgeon, also will enter a plea.

Extensive arguments over admissibility of Miss Tregoff's testimony in the earlier hearing preceded ruling by Municipal Judge William M. Martin.

Would Alter County CD Organization Find Remains Of California Widow After Year's Search

DOWNIEVILLE, Calif. (AP) — The whitened bones of Pearl Ada Putney, once the object of a nationwide search, were found scattered in deep California woods a year after the wealthy widow was last seen in company of an ex-convict.

Remains of the 72-year-old Washington, D.C., woman were found Sunday in the Sierra foothills, scattered and lightly covered with bark. They were identified Tuesday.

Sheriff W. D. Johnson said it was too early to say whether the discovery would cause another nationwide search for Larry Lord Motherwell, 42, an ex-convict whose recent years have been marked by deaths of those close to him. His whereabouts is unknown here.

The bones were found by Alma Freeman of Rio Oso, Calif., while hunting pine cones Sunday. Only the skull and parts of the skeleton were found. Identification was made through dental records by the California Criminal Identification and Investigation Bureau in Sacramento.

The discovery was made a year and a day after Mrs. Putney was last seen at a motel in Marysville, 60 miles southeast of this mountain community.

She was reported carrying about \$50,000 in cash and negotiable securities on a "last fling."

The "last fling" was an unannounced trip with Motherwell that precipitated a nationwide search for the pair.

Investigations led to discovery that Motherwell had buried the body of his 14-month-old mongoloid daughter in a dog cemetery June 19, 1954, in Maryland.

Motherwell was arrested last Jan. 18 in Las Vegas, Nev. He said he had left Mrs. Putney in good health in California, and no charges were filed against him in her disappearance.

He was released Feb. 6 in Frederick, Md., after a grand jury failed to indict him in his daughter's death.

The child's mother, Sarah McKirkin, had drowned in a bathtub in Washington Nov. 7, 1953. She was Motherwell's second wife.

At the time of Motherwell's arrest in Las Vegas he said Mrs. Putney had hired him as her chauffeur on the cross-country trip. He had \$1,600 in his pockets. He said that was part of the several thousand dollars the widow paid him for chauffeuring her.

2 Youths Admit Auto Theft Here

Two 15-year-old boys have been turned over to juvenile authorities here in connection with the theft of a car from the Kennedy Auto Market lot at Benton Street and Riverside Drive Thursday night.

The two were picked up in Grinnell Friday after the car was found abandoned northwest of Des Moines.

In a statement to police, the youths admitted taking the car and evading arrest in a chase by University Heights Marshal Michael Angell, officers said. The chase ended when Marshal Angell's car ran out of gas.

IKK CHANGES ITINERARY

WASHINGTON (AP) — President Eisenhower has changed his European trip itinerary to arrive in Bonn, West Germany, Aug. 26, instead of Aug. 27, to get a full night's rest before setting out later for London and Paris. He will take off from Andrews Air Force Base.

Bellevue Builder's Bid Bests Field

A low bid of \$11,427 was submitted Tuesday by James Schroder, Bellevue general contractor, for the construction of a sewer extension for the Hawkeye Apartments at SUI, according to George L. Horner, superintendent of planning and construction.

Other bids included Red Ball Engineering and Development, Inc., Iowa City, \$15,780; Winger Construction Co., Ottumwa, \$19,400; and Ryan Plumbing and Heating Co., Davenport, \$22,635.

The apartments, which will house SUI married students, will be paid for on a self-liquidating basis, with no tax funds used in the construction.

Awarding of contracts will await approval of the State Board of Regents. The apartments are being built west of the old Finkbine Golf Course.

Box Car Betty Retains Hobo Title

BRITT (AP) — Box Car Betty Link retained her title as Queen of the Hoboes Tuesday as 15,000 persons jammed into Britt for the community's 59th annual Hobo Convention.

It was the fourth straight title for Box Car Betty. She was unopposed in the campaign, although several men ran in the race for King of the Hoboes.

Scoop Shovel Scotty, who describes himself as an 86-year-old veteran of the road, won the king's crown.

The noon feed included 500 gallons of Mulligan stew, which had been cooking since 4 a.m.

Two Iowa Citizens Injured In Highway 218 Auto Crash

An Iowa City youth was still listed in serious condition in University Hospital Tuesday afternoon following an accident early Tuesday morning.

Robert F. Van Epps, 20, of 320 West Park Road, received a fractured pelvis, internal injuries

Pigeonhole Ike's Urgent Bond Request

WASHINGTON (AP) — The House Ways and Means Committee, in a surprise reversal of an earlier vote, Tuesday pigeonholed President Eisenhower's urgent request for authority to raise interest rates on long-term government bonds.

By voting 14-11 to table the legislation, the committee virtually killed all chances of its passage during this session.

All votes for the motion were cast by Democrats. It was opposed by all 10 Republicans on the 25-member committee and by one Democrat, Rep. Burr P. Harrison of Virginia.

The committee's action was denounced by Rep. Richard M. Simpson of Pennsylvania, senior Republican of the group, as "incredible folly." Failure to approve the legislation this year, he said, would be an invitation to unrestrained inflation.

Eisenhower has made repeated public pleas that Congress remove the 4½ per cent interest ceiling on long-term bonds, those that mature in five years or later. The Treasury said this must be done if the government is to compete in a money market where other borrowers are willing to pay more.

The legislation sidetracked Tuesday was only a compromise with what Eisenhower wanted. He asked for a permanent lifting of the 4½ per cent ceiling — in effect since World War I. The bill would have permitted him to raise the rates during the next three years if the national interest required it.

By voting 14-11 to table the legislation, the committee virtually killed all chances of its passage during this session.

All votes for the motion were cast by Democrats. It was opposed by all 10 Republicans on the 25-member committee and by one Democrat, Rep. Burr P. Harrison of Virginia.

TAKE YOUR PICK GIRLS!

CANBERRA, Australia (AP) — The Census Bureau reports Australia—a country about the size of the United States — has 10,068,665 people. The girls have the better of it, being fewer than the men — 5,057,815 males to 4,950,850 females.

BUSINESS BUSTS DOWN

NEW YORK (AP) — Business failures declined last week for the first time in five weeks. Dun & Bradstreet Inc. reported 269 failures or 5 less than the previous week.

Continental League Given Go-Ahead By Majors

Farm Innovator Rickey Named 1st President Of 3rd Loop

NEW YORK (AP)—The Continental League's plea for major league status received the full support Tuesday of Baseball Commissioner Ford Frick and his committee.

The announcement followed a day-long session preceded by the naming of Branch Rickey, 77-year-old father of baseball's farm system, as the Continental League's first president.

Representatives of the embryo major league said they will move full steam ahead to found the circuit with eight teams. The founding cities are New York, Toronto, Houston, Denver and Minneapolis-St. Paul. Among the other cities under consideration are Montreal, Buffalo, Seattle, San Diego, Miami, Atlanta, San Juan and Dallas-Fort Worth.

A three-man committee consisting of Rickey, and league presidents Warren Giles and Joe Cronin immediately was appointed to work out a system whereby the new league can acquire the necessary players.

No definite date was set for another meeting but Frick made it clear he would call the parties together at the request of the Continental League.

The support of Frick and his committee is subject to the 10 prerequisites the American and National leagues put the new loop in Columbus, Ohio last May.

The 10 points are:
1. It is understood that the eight clubs making such application themselves will be responsible for all territorial provisions and for all financial obligations.

2. The clubs shall present with their application full and complete details establishing their abilities to meet the requirements for

status including a full statement as to stock ownership, financial ability and character.

3. The population of each city of the proposed league shall not be less than the population of the smallest city in the present major leagues.

4. Each club shall have available, or a commitment for, a park with a minimum of 25,000 capacity.

5. They shall provide a balanced schedule of at least 154 games.

6. They shall adopt the major league minimum salary agreement with no maximum salary limitations.

7. They will become parties to the major league agreement and the professional baseball agreement.

8. They will accept the uniform major league players' contract and agreement with all provisions therein.

9. They will join in the players pension plan or adopt a comparable plan whichever will be acceptable at the time to the major league executive council.

10. They shall file application for major league status at least six months prior to the meeting at which the application must be considered and at least 10 months before the opening of the season in which they hope to participate under major league status.

Rickey, who relinquished the chairmanship of the Pittsburgh club's board of directors to accept his new post, told Frick and his committee that a third major league was imperative.

Rickey's selection was announced at a press conference by William A. Shea, chairman of the founders' group, only an hour before the meeting with the major league delegates.

L.A. Tightens Grip On 2nd; Downs Milwaukee 7-6 In 13th

MILWAUKEE (AP)—The Los Angeles Dodgers moved to within two games of first place San Francisco by edging the Milwaukee Braves 7-6 in 13 innings Tuesday night on a triple by Wally Moon and a single by Rip Repulski.

The Dodgers picked on an old favorite, veteran southpaw Warren Spahn, to down the Braves who had battled from behind and tied the score in the ninth and again in the 11th.

Spahn suffered his fifth straight setback of the year at the hands of the Dodgers as the seventh Milwaukee pitcher.

The Braves used 22 players while the Dodgers employed 15 in the four and 33 minute game.

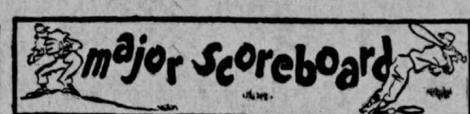

Right-hander Larry Sherry, who relieved starter Don Drysdale after Hank Aaron hit his second homer of the night with one out in the 11th to tie the score at 6-6, picked up his fourth victory in six decisions. He hurled 2 2/3 innings of hitless ball.

Spahn who now has a lifetime record 14-30 against the Dodgers, came on in the 11th and immediately was tagged for a tie breaking run, with a walk, a pinch single by Repulski and Gil Hodges' sacrifice fly.

With one out in the 13th Moon blasted a 400-foot triple to dead center and came around when Repulski lined a sharp single to left.

Los Angeles, 200 120 000 010—7 11 1 Milwaukee, 010 002 011 010—6 7 2 Drysdale, Sherry (11) and Rosenboro; Jay, Pizarro (3), Trowbridge (4), Gigie (6), McMahon (8), Rush (10), Spahn (11) and Crandall, Lopata (9). W—Sherry (4-2). L—Spahn (16-12).

Home runs — Los Angeles, Snider (20), Milwaukee, Aaron (2), Covington (8).

ChiSox 6, Orioles 4
CHICAGO (AP)—Nellie Fox's two-run double with two out in the eighth inning Tuesday night edged the Chicago White Sox an uphill 6-4 victory over Baltimore and stretched their American League lead to 4 1/2 games.

While the Sox were battling their way back from a 4-2 deficit, the second place Cleveland Indians dropped an 11-4 decision to Washington.

The Sox went into the last of the eighth with the score tied at 4-4. With two out, reliever Gerry Stanley drew a walk from Jack Fisher, Baltimore's third pitcher.

Louis Aparicio then produced his third hit of the game and both runners came romping home on Fox's line shot to the right field corner.

Staley, working behind starter Early Wynn and rookie Kent McBride, gained his sixth victory against three losses and limited the Orioles to one hit in the last three innings. Fisher was tagged with his fourth loss in as many decisions.

Staley faced only 10 men in the final three innings.
Baltimore, 002 110 000—4 8 2
Chicago, 200 010 12x—6 9 0
Portocarrero, Hoelt (5), Fisher (5) and Triandos, Wynn, McBride (3), Staley (7) and Loliar, W—Staley (6-3), L—Fisher (0-4).

Senators 11, Indians 4
CLEVELAND (AP)—Washington batted around in the sixth inning and again in the eighth Tuesday night and hammered the Cleveland Indians to their fourth straight defeat, 11-4. The Senators' 17-hit barrage included home runs by Roy Sievers and Lenny Green.

Russ Kemmerer posted his seventh victory against 12 losses. The Indians scored in the fourth inning when Jim Baxes clubbed his 13th homer after Kemmerer hit a batter and walked another. And an unearned Cleveland run came home in the last inning.

The Senators trailed 3-1 when Harmon Killebrew led off the sixth with a single and Jim Lemon beat out a high bouncer to the mound. Both runners advanced on Jim Perry's wild pitch, and Kille-

James Leads Iowans In Trans-Miss Golf
MINNEAPOLIS (AP)—Three Iowans were among the 63 low men who qualified Tuesday for the match play finals of the Trans-Mississippi Golf tournament.

Frank James of Grinnell, topped the three with 76-78-154, which was 9 strokes off the pace set by leaders Glen Fowler of Oklahoma City and Charles Goody of Stamford, Tex., with 154.

The other two Iowans were tied four strokes behind James. John Liechty of Iowa City had 77-81-158 and Ralph Compiano of Des Moines had 79-79-158.

Phils 2, Cards 1
PHILADELPHIA (AP)—Richie Ashburn's seventh-inning single gave the Philadelphia Phillies a 2-1 victory over the St. Louis Cardinals Tuesday night, evening the two-game series.

Ashburn's hit scored Joe Koppe from third base to break a 1-1 tie and give Jim Owens his ninth win against 10 losses. Koppe had singled, was sacrificed to second and went to third on a ground ball.

Owens' double in the second inning scored Harry Anderson with the game's first run.

In going the route, the Philadelphia pitcher struck out seven and gave up 10 hits. He put down a succession of St. Louis threats early in the game, retiring the side four times with a man on third base.

The Cards scored their lone marker when Joe Cunningham singled, went to third on a double by Gene Oliver, and scored on a grounder by Curt Flood.

St. Louis, 000 001 000—1 10 2
Philadelphia, 010 000 10x—2 6 1
Miller and Porter, H. Smith (8); Owens and Thomas, W—Owens (8-10), L—Miller (1-2).

Underdog Bassey Tries To Regain Crown Tonight
LOS ANGELES (AP)—International boxing interest centers on Los Angeles again tonight when Hogan (Kid) Bassey of Nigeria attempts to regain the world featherweight title from Davey Moore of Springfield, Ohio.

The so-called smart money says the 27-year-old Kid, who now lives in Liverpool, can't do it.

Moore, 25, who stopped the bandy-legged Bassey in 13 rounds here last March 18, is a 3-1 favorite to continue to rule the world's 126-pounders.

The fight, at 15 rounds, is at the downtown Olympic Auditorium before a crowd approaching 10,000. It will be nationally televised via ABC starting at 7 p.m. (Iowa time).

The boxers weigh in at 10 a.m. Both are expected to make the 126-pound limit. Last time out Hogan weighed 125, Moore 125 1/2.

Dempsey Joins Ingemar-Floyd Rematch Promotion

NEW YORK (AP)—Jack Dempsey was named promotional director of Rosensohn Enterprises Tuesday and Irving Kahn, president of TelePrompTer, Inc., whose firm handled the ancillary rights to the June 26 heavyweight bout, said a site for the Sept. 22 rematch would be named this week.

Kahn added that Floyd Patterson, who was knocked out by Ingemar Johansson in the third round, already was in camp preparing for the return bout and that Johansson had expressed his delight in the reorganization and would start training shortly.

"This is one bout that can be promoted in a short space of time," said Kahn.

The Rosensohn Enterprises, now headed by Vincent J. Velella, two-thirds owner, lost its license to promote bouts in New York State Monday when it was suspended by the State Athletic Commission.

"The State Athletic Commission will have to revoke its suspension if the bout is to be held in New York," Kahn said. "And it will have to act quickly. I have checked the owners of the New York Yankees and the stadium is available for Sept. 22."

Kahn said he talked with Johansson's adviser, Edwin Ahlquist, late Saturday and that the Swede was eager for the rematch.

Earlier Tuesday Life magazine released a bylined story by the new heavyweight champion in which he cast doubt upon the Sept. 22 date although professing eagerness to meet Patterson again. "I can't fight Patterson and the fight mob," too, he said in the story.

Dempsey said he accepted the bid to lend his name to the Rosensohn Enterprises because "naturally I'm deeply interested in boxing."

Top-Seeded Duos Gain In Doubles
BROOKLINE, Mass. (AP)—The top U.S. and Australian doubles teams advanced without serious difficulty Tuesday in second round play of the U.S. Lawn Tennis Association's national doubles tourney.

The top-seeded American team of Alex Olmedo and Earl Buchholz Jr., stumbled only once in whipping 17-year-old Ramsey Earnhart, Ventura, Calif., and Paul Palmer, Phoenix Ariz., 6-2, 6-2, 9-11, 6-2.

Australia's top duo, and the Wimbledon champions, Neale Fraser and Roy Emerson, handled a couple of young Californians easily. They beat Al Driscoll, Hollywood, and Roger Werksman, Los Angeles, 6-3, 6-3, 6-2.

The only major upsets were turned in by a couple of Mexican teams. A pair of cousins, Gustavo and Antonio Palafox, tripped up the Indian team of Ramanathan Kirshnan and Premjit Lall, fourth-seeded among the foreign entrants, 9-7, 4-6, 2-6, 6-2, 6-3.

Al Ochoa and Juan Hermosilla turned back Australia's Marty Mulligan and Ken Fletcher, fifth-seeded foreign team, 5-7, 6-2, 6-4, 6-2.

Olmedo and Buchholz had trouble only in their third set. Palmer and Earnhart got some good returns in the ninth game to break Buchholz' service, then went on to take the set. But Buchholz and Olmedo came back to win the match without further trouble.

Robert Mark and Rodney Laver, an Australian team ranked second among the foreign entries, took Michael Crane, Berkeley, Calif., and Steve Chandler, San Francisco, 7-5, 6-4, 6-3.

Reds 7, Giants 0
CINCINNATI (AP)—The Cincinnati Redlegs stalled the front running San Francisco Giants 7-0 Tuesday night behind the eight-hit pitching of Don Newcombe. Young Eddie Fisher fell victim of the loss.

The Redlegs riddled Fisher for five runs and eight hits in the two innings plus that he pitched. Gus Bell got a one-run double and a two-run homer off his offerings.

Newk scattered his hits, struck out four Giants and didn't walk a man.

They picked on Fisher and Al Worthington, his successor, for four runs in the third inning after taking a 2-0 lead in the first.

The Reds added one last marker in the fourth on singles to Whitey Lockman and Bell and Frank Robinson's sacrifice fly. It was Robinson's 10th RBI.

San Francisco, 000 000 000—0 8 2
Cincinnati, 204 100 00x—7 15 1
Fisher, Worthington (3), Byrley (7) and Landrum, Newcombe and Bailey, W—Newcombe (11-9), L—Fisher (2-4).
Home run — Cincinnati, Bell (19).
