Cold War Thaw May Speed East-West Summit Meeting

Say Ike, Mac Reach Accord On Summit

Report Macmillan's Bid For Early Talks Resisted

LONDON (AP) — President Eisenhower and British Prime Minister Harold Macmillan are counting on the President's exchange of visits with Nikita Khrushchev to remove the pistol pointing at West Berlin.

If the Soviet Premier will remove the threat the two Western leaders will offer to hold a series of East-West summit meetings.

This was reported by high diplomatic sources Tuesday night to have been the main strategy decision reached in the Eisenhower-Macmillan talks.

The President, diplomats said, resisted Macmillan's strong bid for an early summit meeting, and insisted any decision on such a meeting must await the outcome of his talks with Khrushchev. Macmillan was said finally to have agreed.

These things settled, the President spent the day working on accumulated White House business. He also engaged in a little putting practice about as close to the heart of London as any golfer can get—on the lawn at Winfield House, the U.S. ambassador's residence in Regent's Park.

Then he gave himself a soldier's treat, talking over old experiences with wartime associates. He was host at a Winfield House dinner party which had such names as Sir Winston Churchill and peppy Field Marshal Viscount Montgomery on the guest list. It was a stag affair.

Mrs. Lakshmi Pandit, India's ambassador to Britain, called on Eisenhower Tuesday evening.

Mrs. Pandit, sister of India's Prime Minister Nehru, asked for the meeting last week after India's border troubles with the Red Chinese began making headlines.

Eisenhower will hop to London airport by helicopter Wednesday morning to avoid snarling London's rush hour traffic. Then he will go to Paris in a jet airliner for talks with President Charles de Gaulle.

In Paris the President will attempt to restore France's enthusiasm for the North Atlantic Alliance. And he anticipated that De Gaulle will seek American backing for a new French plan for bringing peace to rebellious Algeria.

Eisenhower and Secretary of State Christian A. Herter hope this plan will be liberal enough for the United States to support the French in Algeria in the United Nations.

Already Eisenhower's venture in personal diplomacy has produced some hopeful signs.

In the Soviet Union Khrushchev described Eisenhower as a man of peace and anticipated fruitful results from his talks with the President in Washington and Moscow.

In Bonn Eisenhower's first stop—Chancellor Konrad Adenauer has made two attempts to thaw the international climate since Eisenhower's visit to West Germany.

Adenauer apologized to the Poles for the Nazi attack on them 20 years ago and predicted that "the new Germany would one day be a good neighbor of Poland."

He wrote a friendly letter to Khrushchev saying that no one in the West German government wants revenge on the East for taking German territory at the end of World War II.

These moves reflected no basic changes in East-West positions but taken together they tended to lighten the load of suspicion existing on both sides of the Iron Curtain.

Talking Things Over

President Eisenhower and Sir Winston Churchill chat during a dinner party at London's Winfield House Tuesday when Ike was host to World War II associates. Behind them is Field Marshal Viscount Montgomery. —AP Wirephoto via radio from London.

France To Welcome Ike With 131 Yards Of Crimson Carpeting

PARIS (AP) — A red carpet longer than a football field will be rolled out at Le Bourget airfield today in a lavish welcome for President Eisenhower.

From the moment he steps on the 131-yard carpet, Eisenhower will be engulfed with French affection and champagne toasts.

The reception for the American liberator of France is expected to exceed any in postwar Paris with the possible exception of that for Queen Elizabeth II during her visit.

It will far surpass that on Eisenhower's last trip here two years ago when he came to a NATO meeting. That was not an official visit to France and there was little pomp. This will be the first visit of an American president since Woodrow Wilson came after World War I.

But though the Eisenhower visit is likely to be a spectacular feast for the eyes, his talks with President Charles de Gaulle seem destined, so far as the French are concerned, for dungeon-like secrecy.

At Elysee Palace, De Gaulle's office said no briefing has been foreseen for the press.

The spokesman said that James C. Hagerty, Eisenhower's press secretary, might be holding briefings.

The Elysee press office said that it would be available to answer questions about menus and guest lists for official luncheons and dinners.

"But we will know nothing about political matters," a spokesman quickly added.

Facilities have been arranged in Paris for the President to hold a news conference. But there has been no announcement that it will be held.

Underlying the welcome to Eisenhower is De Gaulle's desire to restore French grandeur and bolster his political position in the world. He wants Eisenhower to see at first hand a "new France."

Government workers will be given time off to line Eisenhower's routes through the city. Private firms have been told to do likewise. The newspapers broke out bannerlines and old wartime photographs of Eisenhower to stir up popular enthusiasm.

Vietminh Troops Captured In Laos

VIETIANE, Laos (AP) — Laotian Foreign Minister Khamphan Panaya announced Tuesday the royal army has captured some Vietminh troops who infiltrated into Laos from neighboring Communist North Viet Nam.

He said the prisoners were proof of direct Vietminh interference in Laotian affairs and that he would go to the United Nations next week, presumably to complain of North Vietnamese interference. Vietminh is the political movement led by Ho Chi Minh, the Communist North Viet Nam chief.

Fear Stolen Vaccine May Spoil If Not Recovered Soon

MONTREAL (AP) — Officials feared Tuesday night that 75,000 stolen shots of Salk vaccine would be spoiled before it could be recovered and used in Quebec province's polio epidemic.

Four masked gunmen stole the vaccine from a research laboratory in suburban Laval des Rapides early Monday. The bandits overpowered a night watchman and put him in an empty monkey cage.

The stolen serum was valued at \$50,000.

Lionel Forte, assistant director of the Institute of Microbiology and Hygiene at the University of Montreal, said unless the vaccine was kept at 40 degrees Fahrenheit it would go bad within 48 hours.

The theft came as stocks of Salk vaccine neared the exhaustion point. A run on the vaccine was caused by a polio epidemic in the Montreal area.

Health authorities reported Tuesday the number of cases treated in Montreal hospitals has reached 590. There have been 31 deaths.

The stolen vaccine was to have been shipped to the Quebec Health Department for distribution throughout the province. No new supplies are expected until later this month.

Detective Lt. Albert Bisailon said police have no clues as to whether the vaccine is still in the Montreal area.

"We are afraid it will spoil before we get to it because that is a pretty big quantity for anyone to try to unload," he said.

Five men were questioned but they were unable to shed any light on the theft.

In Quebec City, Health Minister Arthur Leclerc urged druggists and doctors to call provincial police immediately if anyone tries to sell them Salk vaccine.

Ambassador Says Khrushchev Won't Address Congress

WASHINGTON (AP) — Any address to Congress by Soviet Premier Nikita Khrushchev "is not on the itinerary," the Soviet ambassador said Tuesday.

The ambassador, Mikhail Menshikov, added that if an invitation is extended to Khrushchev to speak, the decision on it would be up to the Premier himself.

On Capitol Hill, the idea of Khrushchev being in Washington while Congress is in session spurred efforts of congressional leaders to adjourn the present session next week.

Even if it means returning for a special session in the autumn, the leaders, are driving to get the legislators out of town no later than Sept. 12 and, if possible, a few days sooner.

The Senate has been moving more slowly than the House, as usual, but Sen. Everett M. Dirksen of Illinois, the Republican leader, said obstacles to a Sept. 12 adjournment could be cleared away.

Defense Minister Of India Resigns As Reds Advance

New York City Police Hunt Teen-Age 'Dracula'

Anti-Teen Gang Drive Begun

NEW YORK (AP) — A teen-age "Dracula" was hunted by a vast array of police Tuesday as frantic city and state officials moved to muster every resource in a crackdown on juvenile gangs roaming the sidewalks of New York with jungle savagery.

Gov. Nelson A. Rockefeller voiced alarm over a bloody explosion of viciousness which took the lives of four youths in a week and left a number badly hurt. Adding to the situation was the fact that, in some ways, the wanton cruelty was worse than that of the machine-gun-wielding underworld mobs of yesteryear. The latest victims were youngsters who had no part in gang feuds.

These were Robert Young and Anthony Krzesinski, each 16. They were attacked in a playground on Manhattan's West Side early Sunday by a group of Puerto Ricans who had gone out looking for enemies in a neighborhood tiff.

The two victims, who had been chatting with friends after attending a movie, staggered away to fall dead of stab wounds on nearby doorsteps.

Four youngsters were quickly arrested on homicide charges but the one tabbed the actual killer was described as a cape-clad boy who called himself "Dracula" and led what some called the "Vampire Gang."

The boy was said to have been fascinated by the blood-hungry fictional character Count Dracula.

The nickname of the youthful counterpart was not disclosed by police. But they said he is 18, of Puerto Rican extraction, and may be a sexual deviate, as was believed the case with members of his gang.

Police acknowledged that he had been in their hands as recently as last Friday, having been arrested on a disorderly conduct charge.

But when they started looking for him again they found he had given a false name and address before being turned loose. The address proved to be that of a school.

With the city aroused to high wrath by growing juvenile lawlessness, there were these rapid developments:

1. Police Commissioner Stephen Kennedy shifted 1,400 officers from other duties to patrol areas frequented by young gangs. One source estimated that there were as many as 150 of these, with a membership of 6,500 to 7,500.

2. Gov. Nelson A. Rockefeller, after conferring with his executive staff for two hours on the problem, announced a special meeting would be held at his office Thursday morning. More than 20 state and city officials, including heads of state commissions of social welfare, correction, mental hygiene and others, will be asked to attend, to decide what additional state services should be brought into play to deal with juvenile delinquency.

3. Mayor Robert F. Wagner called a special session of the city's top officials for a similar purpose. He said the handling of juvenile delinquency matters now has passed from the social agencies into the hands of the police.

Cancer Victim's 'Inheritance' Of \$2 Million A Possible Hoax

PITTSBURGH (AP) — A story about a woman cancer victim being the sole heir to a two-million-dollar fortune began to look like a hoax Tuesday.

Mrs. Felice Naccarelli, 46-year-old Pittsburgh cancer victim who claims doctors give her only one year to live, Tuesday was hazy on just what it is all about.

Mrs. Naccarelli said Monday she had received telegrams from Aberdeen, Scotland, saying a rich uncle had passed away and left her two million dollars.

Tuesday, from reflections of extreme wealth in her remaining year, Mrs. Naccarelli was jerked to reality by her newly hired attorney, Howard R. Eulenstein.

"The whole affair may be a monstrous joke," he said. "We feel that these telegrams originated in Pittsburgh."

Eulenstein began letting air out of the bubble after a thorough check of Aberdeen disclosed no recent death to anyone named

John Lennon. That was her rich uncle's name, Mrs. Naccarelli said.

Mrs. Naccarelli's claim that her uncle helped design the ocean liners Queen Mary and Queen Elizabeth was disclaimed in Scotland by John Brown, Ltd., the ship builders.

Western Union began a search of messages, relays and cables trying to determine if the telegrams to Mrs. Naccarelli did indeed come from Aberdeen on the North Sea coast or from some substation in the Pittsburgh area.

As indications began accumulating that the messages were born in Pittsburgh, Mrs. Naccarelli and her husband canceled plans to fly to New York and then on to Britain.

Naccarelli and his wife both were vague. "It may be two million, it may be two hundred, I don't know," the Pittsburgh cement contractor said before hanging his telephone disconnected.

Reshuffling Of Nehru Cabinet Is Imminent

Wrangle Over Rank Causes Dissension

NEW DELHI, India (AP) — Defense Minister V. K. Krishna Menon was reported Tuesday to have submitted his resignation as the result of a feud with his military chiefs that flared while Red China threatens Indian territory.

Border trouble with the Chinese Communists gave blockbuster impact to reports the army, navy and air force staff chiefs are resigning and that Menon, controversial former envoy to the U.N., has offered to quit in a squabble over promotions.

High sources in Prime Minister Nehru's ruling Congress party said Menon has placed his letter of resignation in Nehru's hands.

Nehru has stood for years beside this gaunt, gray-haired apostle of nonalignment, often accused of taking a soft approach toward Communist aggression.

Sources close to the residence of President Rajendra Prasad said Nehru possibly will announce a Cabinet shakeup that will leave out Menon or give him another ministerial post. Official confirmation was lacking.

Amid the capital's turmoil, fresh advice on frontier operations were published by New Delhi newspapers on the basis of information they said was supplied by informed sources.

The Times of India said Indian forces have attacked Chinese troops near Longju, where Chinese routed Indian border patrols last week.

The Indian Express said Chinese troops equipped with heavy arms borne by pack mules were marching in Tibet near the border.

A dispatch from Shillong, capital of Assam, published by the Hindustan Times said the Communists have been concentrating troops near the Siang and Lohit sectors since early August.

The Hindustan Times also quoted reports from Katmandu that Chinese troops have been intruding into Nepal.

There was no official confirmation.

"The honorable member Menon is here and presumed to have full control over the Defense Ministry," said the Socialist leader, Asik Mehta. "Why doesn't he speak?"

Menon told Parliament he had discussed the situation with Nehru in the morning, but declined to elaborate.

A storm of objections and complaints lasted nearly half an hour, often drowning out the speaker's demands for order. The speaker said Nehru wanted to deal with the reports himself. And Nehru — at the New Delhi airport then for a talk with Pakistani President Mohammed Ayub Khan — put off the matter overnight.

A reporter checked Menon later on the report of his resignation and asked him if it was true. "Is that so," Menon responded. "Who said it?"

Successful Test For X15 Engine

EDWARDS AIR FORCE BASE, Calif. (AP) — The rocket engine designed to blast a man to the edge of space has successfully undergone its first test here.

It is the CLR-99-RM-1, which later this year is expected to power the X15 rocket plane 100 miles high at 4,000 m. p. h.

The test was last week. The Air Force announced it Tuesday.

Eleven of the engines have been made for use in the three X15s. They develop more than 50,000 pounds thrust, burning a liquid oxygen-liquid ammonia propellant at more than 10,000 pounds a minute.

School Daze

Wonder what the kids not in school are doing? Oblivious of the confusion of the first day of school, George William Brown pensively ponders the new turn of events in his life. Little George reported for first grade classes in Wheeling, W.Va., Tuesday. He seems to be pondering over the fact that there will be 175 more school days like this before the summer vacation comes along again. —AP Wirephoto.

3 Ex-Radio Officials Accused Of Taking Propaganda Money

WASHINGTON (AP) — A federal grand jury Tuesday accused three former top officials of the Mutual Broadcasting System of accepting \$750,000 to feed into the network propaganda favorable to the Dominican Republic.

The three were MBS officials on the date they are alleged to have accepted the money, around Feb. 6, but all resigned shortly afterward — two within a week. Mutual has since undergone two changes in ownership, and bankruptcy reorganization.

Atty. Gen. William P. Rogers announced that the grand jury, here, indicted the trio on charges of failing to register as foreign agents and conspiring to willfully fail to register Mutual as a foreign agent.

The indictments do not indicate whether any Dominican Republic propaganda was ever broadcast.

One of the three is Alexander L. Guterman, an international financier who was Mutual's president. The Government has questions for him dealing with his widespread financial interests.

The others are Hal Roach Jr., who was MBS board chairman, and Garland L. Culpepper Jr., who was director of the MBS radio system.

Guterman and Culpepper resigned from Mutual on Feb. 12 and Roach on March 22.

Government sources say Guterman now is in Miami, Fla., Roach in Hollywood, Calif., and Culpepper in New York City.

Guterman and Roach were indicted on three counts each and Culpepper on two counts. Each count carries a maximum possible penalty of \$10,000 fine or five years imprisonment.

There was no immediate comment from Guterman.

In Los Angeles, Roach denied the charge, saying, "I am not now, nor have not been in the past and never will be an agent for a foreign government."

In New York, Culpepper's attorney, Jacob L. Rosenblum, said "From the facts available to me I am confident that Mr. Culpepper has not violated any law and will be exonerated."

The Justice Department said attorneys for all three men agreed to have their clients here Friday for arraignment on the charges.

In New York, Robert F. Hurleigh, now president of Mutual, said the current management of the network, its owners and employees have no knowledge of or connection with the matters involving Guterman, Roach or Culpepper.

Named as coconspirators, but not as defendants, in the indictment are MBS, Inc., and Radio News Service Corp. The indictment said the three created Radio News Service Corp., a New York corporation, to supply the network with Dominican propaganda "under the guise of bonafide and genuine news items."

The grand jury said this arrangement was to have been carried out under the agreement with the Dominican Republic on a confidential basis.

The indictment also lists as a coconspirator Otto Vega. He is one of the chief aides of the long-time Dominican dictator, Generalissimo Rafael Trujillo, and formerly was attached to the Dominican Republic Embassy here.

Must Plan Carefully For Nikita's Visit

By ARTHUR EDSON

WASHINGTON (AP) — Of all the tough jobs in the world, the ones that seem least enviable today belong to those who will guard Nikita S. Khrushchev on his visit to this country.

It usually isn't realized how much careful preparation is necessary when any big wheel starts rolling around the country.

Dwight D. Eisenhower, the opinion polls show, is as popular a president as we've had in years, but before he goes on tour Secret Service men study his route, looking for possible danger spots.

When he finally sets out, they and local police make up a small army at each stopover, protecting the President from the overly friendly, the curious, the crack pots.

With Khrushchev, who hasn't won any popularity polls hereabouts recently, the problem becomes gigantic. The State Department said Tuesday a Russian entourage of around 100 will accompany Khrushchev.

At last count, there were 38,248 Hungarians who had fled their homeland after the 1956 revolt was crushed by the Russians.

Among them, and among other minority groups in this country, there must be many who aren't eager to race out and greet Mr. K. with their arms loaded with olive branches.

Furthermore, nearly every newspaper has received letters in which Khrushchev has been denounced as a mass murderer. Every security officer must quake at the thought that a warped mentality could set off an international incident.

Washington police have shown what the problem will be from coast to coast.

Deputy Chief Howard V. Covell said 750 men will be used to protect Khrushchev along the 19 blocks he presumably will travel from the time he crosses the Potomac until he reaches Blair House, where distinguished visitors are lodged.

The word "presumably" has to be included because of this: Exact plans still haven't been made, making the security problem that much harder.

In the past, Washington officials have tried to take their distinguished guests the long way around, so they could see as much of the city as possible.

Covell hopes Mr. K. will beat it direct to Blair House, giving him as few worries as possible.

Yet security officials aren't as dismayed as you might think.

Protecting people from danger is what they hire out for.

The State Department's security chief, John W. Janes, Jr., points out that traditionally we have always treated our visitors courteously. Hundreds of dignitaries have come and gone, without anything happening that could be officially considered an unpleasant incident.

REDS EXECUTE 'SPY'

HONG KONG (AP) — Hong Kong's Communist press broke out in a state of spy stories Tuesday. One reported the conviction and immediate execution of a Nationalist Chinese agent in Canton Saturday. It was the first execution reported in Red China in some months.

Space Mouse And WAF Beauty

WAF Flight Attendant Theodora Smith inspects one of the space mice from the USAF School of Aviation Medicine on display at the Air Force Association Convention in Miami Beach, Fla., Tuesday. The mouse is equipped with a transistorized radio developed at the school to permit scientists to monitor the physical status of the tiny animal aboard a biosatellite far out in space.—AP Wirephoto.

House Group Okays Boost To Federal Gasoline Tax

WASHINGTON (AP) — The House Public Works Committee Tuesday sanctioned a penny-a-gallon boost in the federal gasoline tax to get the interstate highway program back on a pay-as-you-build basis.

The bill to increase the present three-cents levy for 22 months was approved by a reported vote of 25-6. Five Democrats and one Republican were understood to have voted against it.

Army Abandons U.S. To Europe Troop Rotation

WASHINGTON (AP) — The Army abandoned Tuesday the rotation of troops by units between the United States and Europe.

Simultaneously, it ordered a somewhat similar system applied to the forces in Korea.

The Army gave no reason for giving up on "Operation Gyroscope," as the unit rotation to Europe was designated when launched with great fanfare in January 1955. At that time, the first Infantry Division in Germany traded posts with the 10th Infantry Division at Ft. Riley, Kan.

After a few divisions were rotated, the Army cooled off a bit and halted the rotation of entire divisions. However, battle groups, battalions and certain lesser units have continued to go to Europe and come home as units.

When the forces in Korea needed replacements, they were sent over in such numbers and at such times as were required.

For future replacements in Europe, the Army announced a "carrier company replacement system."

Under this system, four-man teams are formed for training. During advanced training, these teams will be grouped into companies ranging from 70 to 250 soldiers.

These carrier companies will be shipped to Europe as a group, but once landed in Europe, the companies may be broken up and the four-man teams scattered among units needing replacements.

Bootleggers Exit—Enter Legal Booze

OKLAHOMA CITY (AP) — Drys prayed, but wets bought in a rush as Oklahoma made liquor sales legal Tuesday.

For more than half a century Oklahomans have bought whiskey on the sly from bootleggers. In the crowds at an estimated 500 liquor outlets around the state were some former bootleggers.

An old timer at Ada recalled it was his first legal liquor purchase swept him through a drain pipe varying in width from four to six feet. The pipe was about 80 per cent full of water and Bobby had scant air space.

He shot along like a cork through the roaring tube. Companions who had been playing ball with him tried in vain to follow his underground course.

A half-mile away from the spot where Bobby entered the drain, Alan Burke, 12, heard a weak cry for help issuing from a patch of weeds. He found an iron grating in the ground and could see Bobby clinging to it.

Alan summoned a passerby. The grating was lifted and a bedraggled Bobby was extracted.

The boy was taken to a hospital at Ft. Jackson. Officials there said he received only a few scratches and cuts.

Russians Indicate They Might Try Moon Shot Soon

LONDON (AP) — The Soviets told the West Tuesday night to look out for a new Soviet stride into space at any time. They didn't specify what it would be.

But Prof. Leonid Sedov said there were no principal obstacles left to putting an unmanned satellite into orbit around the moon.

This is a feat yet to be achieved by either the Soviet Union or the United States.

Breaking two days of silence, the Soviets outlined the state of the Sputnik industry at the 10th International Astronautical Congress. More than 600 delegates from 24 countries are attending.

Sedov disclosed at a news conference:

The Soviets still have problems to overcome before they can put a man into space.

The Soviets, unlike the United States, have not yet set up an elite corps of potential astronauts.

More animals — not only dogs and rabbits — may be sent into space before human life is risked.

NEWSPAPER BANNED

JAKARTA, Indonesia (AP) — The leftist afternoon newspaper Sin Po was banned for an indefinite time for publishing allegedly critical and alarming news about President Sukarno's monetary measures. The order to stop publication was given Tuesday.

Calcutta Police Counterattack Against Red-Led Arson Mobs

CALCUTTA, India (AP) — Police fired Tuesday night into Communist-led bomb and arson mobs who seized parts of India's biggest city and put the torch to police vans, Government cars and other property. At one time rioters held the main parts of the city against police counterattacks.

Senate Group OKs 2 New Amendments

WASHINGTON (AP) — Constitutional amendments to repeal the two-term limit on presidential tenure and to abolish the poll tax as a requirement for voting for federal offices were approved Tuesday by a Senate Judiciary subcommittee.

The group voted 5-1 for the changes and sent them along to a full committee's uncertain action.

Action on a third proposed amendment, to give District of Columbia residents the right to vote for president and vice president and to elect a delegate to the House, was deferred pending further hearings.

Sen. James O. Eastland (D-Miss.), chairman of the full committee, was the only member of the subcommittee to vote against the first two amendments.

The two-term limit was written into the Constitution in 1951 as the 22nd Amendment. It had been approved in 1947 by the Republican-controlled 80th Congress during the Truman administration when the memory of the four terms won by Franklin D. Roosevelt was still fresh.

Its repeal has been advocated by former President Truman, but the Eisenhower administration has taken the position that it has not yet been tested enough. Eisenhower said last January he did not believe adoption of the amendment was a particularly wise decision. But he suggested in May that it be laid on the shelf for a while to see how it works.

The antipoll tax amendment was introduced Aug. 6 by Sen. Spessard L. Holland (D-Fla.) with 65 other senators as cosponsors.

Youth Takes Wild Half-Mile Journey In Storm Drain

COLUMBIA, S.C. (AP) — Bobby Leichte, 12, chased a ball into a storm drain here Tuesday and thus embarked on a wild, half-mile journey.

Water from days of heavy rains swept him through a drain pipe varying in width from four to six feet. The pipe was about 80 per cent full of water and Bobby had scant air space.

He shot along like a cork through the roaring tube. Companions who had been playing ball with him tried in vain to follow his underground course.

A half-mile away from the spot where Bobby entered the drain, Alan Burke, 12, heard a weak cry for help issuing from a patch of weeds. He found an iron grating in the ground and could see Bobby clinging to it.

Alan summoned a passerby. The grating was lifted and a bedraggled Bobby was extracted.

The boy was taken to a hospital at Ft. Jackson. Officials there said he received only a few scratches and cuts.

Says Americans Can Anticipate Higher Taxation

KANSAS CITY (AP) — Americans may expect higher state and local taxes, Joseph M. Robertson, commissioner of taxation for Minnesota, said Tuesday.

Increasing demands for public services and growth of the nation will make tax increases necessary, Robertson told the Midwestern Conference of the Council of State Governments.

On the average, he said, state taxes have risen 86 per cent in the last 10 years. He said the federal government's share of the cost of local public services has been declining since 1948.

Robertson proposed that the federal government consider an income tax credit to the states based on the totals collected in them. He said this would raise money for the states, put a floor under state income taxes and tend to equalize taxation among the states.

D. R. Cawthorne, financial economist for the Federal Reserve Bank of Kansas City, predicted credit would remain expensive and that interest rates for state borrowing would remain high.

MAIL BY ROCKET?

LONDON (AP) — The first step toward European mail deliveries by rocket may be taken in six months, an Italian scientist said Tuesday. Glauco Partel said he hopes to have a test rocket flying by then — "out over the Mediterranean where it can't do any harm."

Communists Hide Knees In Fashions

LEIPZIG, East Germany (AP) — There will be no knobby knees showing on the Communist side of the Iron Curtain if the fashion authorities at the Leipzig Fair have anything to say about it — and they probably do.

The fair's international fashion show, one of the biggest in the Communist bloc, opened Monday. There was not a knee in sight. And no uneven hem-lines, seven-eighths length tunics or other frills from Paris.

No socks, either, though East German Communist leader Walter Ulbricht recently said the sock was all right — if the wearer could afford it.

About 1,500 spectators paid up to six marks — \$1.40 — to see the show. Most of them were ordinary Leipzigers, to judge by the drab East European look of their own clothes. A good half were men.

They sat for over two hours in Leipzig's main Concert Hall to see over 200 numbers from East and West Germany, Poland, Holland, France and the Soviet Union. Most came from East Germany.

Each skirt was almost exactly the same length, about an inch and a half below the knee. The wide spreading skirt was in high favor and necklines were prim.

Moscow's House of Models showed 20 items, some surprisingly graceful and elegant to Western observers who expected only nonsense styles from the Soviets. One tight-fitting afternoon ensemble called "anthracite" would not have been out of place at a good Paris show.

Cambodian Royalty Escape Explosion Of 'Gift' Bomb

PHNOM PENH, Cambodia (AP) — The King and Queen of Cambodia missed by minutes Monday night the explosion of a bomb disguised as a gift. It killed three persons in other areas.

Police searched for the "Asian package" containing the bomb to Prince Norodom Vagravin, one of those killed. The package was addressed to the Queen and was marked "From a Hong Kong friend."

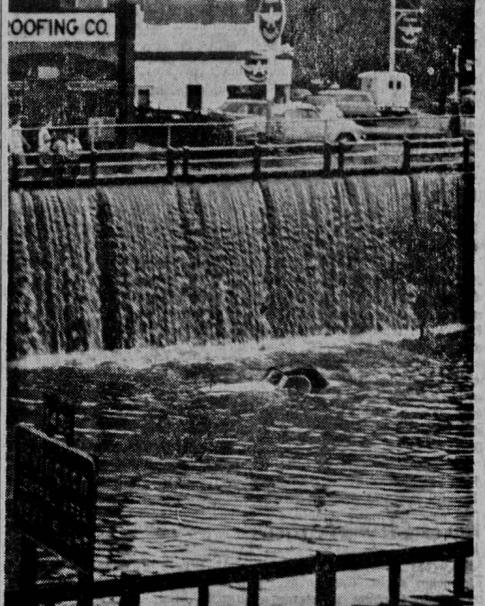

This Southeast Asian country is a neighbor of rebellion-torn Laos where Communist guerrillas are attempting to overthrow the royal government. Both Cambodia and Laos were declared independent by the 1954 Geneva conference ending the French-Vietminh fighting in Indochina.

King Norodom Suramarit and Queen Sisowath Kossanak were present when Prince Vagravin, acting protocol chief, began opening the package.

The King suddenly said he had to receive his deputy prime minister who left Tuesday to represent Cambodia at the United Nations. He told the Queen to follow.

Shortly after the couple left the room, the bomb exploded, killed Prince Vagravin and a servant instantly, an injured three persons on a floor below. The royal valet died during the night.

Harold W. Hanson, Washington, is the supervising engineer for the foundation. The Iowa Highway Commission has assigned three of its engineers to work with the foundation. They are Robert J. Anderson, Gerhard W. Anderson, and H. W. Worstell.

Shower Makes Waterfall

It looks like a budding Niagara Falls as water pours from East 19th Avenue in Irvington, N.J., down to the Garden State parkway Tuesday. The unlucky motorist fled the stranded auto. Police managed to direct most motorists off the toll road onto another avenue.—AP Wirephoto.

University Bulletin Board

University Bulletin Board notices must be received at The Daily Iowan Office, Room 201, Communications Center, by noon of the day before publication. They must be typed and signed by an advisor or officer of the organization being publicized. Purely social functions are not eligible for this section.

Friday, 8 a.m. to 5 p.m. Saturday, 1 a.m. to noon. Reserve desks: Monday-Friday, 8 a.m. to 5 p.m.

IOWA MEMORIAL UNION HOURS: Monday-Friday, 8 a.m. to noon, 1 p.m. to 5 p.m. No food service.

THE UNIVERSITY COOPERATIVE BABY-SITTING LEAGUE book will be in the charge of Mrs. Ingham from Sept. 1 to Sept. 7. Phone her at 608 if a sitter or information about joining the group is desired.

LIBRARY HOURS: Monday-Friday, 7:30 a.m. to 5 p.m.; Saturday, 7:30 a.m. to noon. Service desks: Monday-

Erbe Orders Crusade Against Obscene Literature In Iowa

DES MOINES (AP) — Atty. Gen. Norman Erbe Tuesday unveiled scores of "girlie" magazines he said authorities picked up at newsstands in Iowa. He then ordered a statewide crackdown on what he called obscene literature.

Erbe immediately ordered 42 publications off the newsstands and said distributors either obey the order or face court action.

The attorney general had the Iowa Highway Patrol rush copies of his order to every county attorney in the state.

"In my opinion," Erbe told 23 distributors he requested to come to the Statehouse, "these publications which are printed solely for the purpose of distributing filth and smut are a contributing factor to juvenile delinquency."

Erbe said he was prepared to fight on the matter. He said that certain types of magazines have but one purpose—that of distributing smut, filth, pornography and dirt through photographs, stories and advertisements with a purpose of making a fast buck.

Erbe's order followed a statement from state Safety Commissioner D. M. Statton, who said Monday that something should be done to get pornography off the newsstands.

Erbe said, however, that he had started active preparations and research for the crackdown last July 20, working with the State Bureau of Criminal Investigation.

By late Tuesday afternoon, at least one large retail magazine dealer in the Des Moines area was cleaning out its stands of objectionable literature in compliance with the order.

A spokesman for a Des Moines book store said "we will fully cooperate with Erbe although it will cost us thousands of dollars in sales."

The spokesman said he had talked with several of the magazine publishers by telephone and was told they did not consider their publications immoral or obscene.

"Some of them indicated," the spokesman added, "they would send a representative to Iowa to test the ban in the courts."

"Erbe's order is haphazard censorship," the spokesman said, "and could easily lead to censoring books, movies and other media."

One magazine distributor, Frank Krueger, C4, Iowa City, is representing the SUI Theta Xi social fraternity at the fraternity's 95th Anniversary Convention in Estes Park, Colo., this week.

Delegates from Theta Xi's 51 chapters and 50 alumni clubs in the United States are in Estes Park for the convention.

Krueger is president of the fraternity's SUI chapter.

He told the annual meeting of the American Institute of Biological Science that the chemical is a "fraudulent compound" in that it fools a growing cell into believing it is a material the cell normally requires in multiplying.

This is no reflection on the savvy of human cells, he indicated, because the impersonator chemical—called "BUDD" for short—is actually very closely similar chemically to the material the cell normally uses. The latter substance is thy midine, a normal building block of the heredity-bearing chemical known as DNA.

DNA is one of the most essential and highly complex components of all living cells.

Dr. Szybalski said the findings suggest the possibility of making cancerous cells more susceptible to radiation—that is, so a smaller dose would kill them. He added this would be in contrast to present approaches to increasing the effectiveness of radiation therapy. Most of the latter, he said, involve delivering higher and higher doses of radiation to the cancerous cells—with potential increased hazard to normal tissue.

Erbe immediately ordered 42 publications off the newsstands and said distributors either obey the order or face court action.

The attorney general had the Iowa Highway Patrol rush copies of his order to every county attorney in the state.

"In my opinion," Erbe told 23 distributors he requested to come to the Statehouse, "these publications which are printed solely for the purpose of distributing filth and smut are a contributing factor to juvenile delinquency."

Erbe said he was prepared to fight on the matter. He said that certain types of magazines have but one purpose—that of distributing smut, filth, pornography and dirt through photographs, stories and advertisements with a purpose of making a fast buck.

Erbe's order followed a statement from state Safety Commissioner D. M. Statton, who said Monday that something should be done to get pornography off the newsstands.

Erbe said, however, that he had started active preparations and research for the crackdown last July 20, working with the State Bureau of Criminal Investigation.

By late Tuesday afternoon, at least one large retail magazine dealer in the Des Moines area was cleaning out its stands of objectionable literature in compliance with the order.

A spokesman for a Des Moines book store said "we will fully cooperate with Erbe although it will cost us thousands of dollars in sales."

The spokesman said he had talked with several of the magazine publishers by telephone and was told they did not consider their publications immoral or obscene.

"Some of them indicated," the spokesman added, "they would send a representative to Iowa to test the ban in the courts."

Hecht, of Mankato, Minn., told Erbe Tuesday:

"There is still freedom of the press in the United States. No man has a right to tell anyone what to read."

Hecht's firm distributes magazines in western Iowa.

Request Study Of Air Force-Army Merger

WASHINGTON (AP) — A congressional committee said Tuesday it is time to consider merging the Army and Air Force into a single, missiled — armed fighting service.

A report of the House Government Operations Committee on the nation's missile programs asked President Eisenhower to order studies to determine whether the merger would be the best course of action.

The report, based on several weeks of hearings and studies by a subcommittee early this year, did not suggest immediate incorporation of the Navy into one big service, but it said this might be done ultimately, if weapon logic dictates.

Interservice rivalry and duplication, especially in the new fields of missiles and space vehicles, have survived all efforts by the Pentagon and even Congress to divide the field among the services, it said.

The committee, endorsing the subcommittee report, said the Army and Air Force particularly compete to develop and use similar weapons, such as the Jupiter and Thor intermediate-range ballistic missiles and the Nike and Bomarc anti-aircraft missiles.

"No amount of effort spent in 'clarifying' roles and missions can overcome the ruthless logic of weapon technology," the report commented. "Whereas in the past, weapons could be adapted reasonably well to service missions, now missions must be adapted to weapon systems."

The missile with a nuclear warhead, the committee said, is the coming decisive weapon and it calls for a single military organization to develop, produce and deploy at least the land-based missiles.

Larry Krueger, C4, Iowa City, is representing the SUI Theta Xi social fraternity at the fraternity's 95th Anniversary Convention in Estes Park, Colo., this week.

Historical Society Building Nearly Ready

LAYING TILE is one of many last-minute jobs which must be done before the State Historical Society moves into its new building on the intersection of Iowa Avenue and Gilbert Street. William Petersen, SUI associate professor of history and superintendent of the society, said Tuesday the society "may" be able to move in a week or ten days. The main floor of the building will consist of a library,

reading rooms and special purpose rooms. One-third of the top floor will be occupied by society offices, and the remainder by library stacks. Reserve stacks eight feet in height of the society's extensive file of newspapers and publications will be stored in the two basement levels of the building. —Daily Iowan Photo by Jerry Smith.

Economist Gives Views On Recession—

Women's Spending Is Good?

The American woman's capacity to spend money is one of the reasons the United States did not suffer a sharp and prolonged recession after the close of the Second World War, said Arthur R. Upgren in the new issue of the Iowa Business Digest, published monthly by the SUI Bureau of Business and Economic Research.

"Because the women of America had a capability for spending fully comparable to that of the Secretary of Defense, we had a boom rather than a bust," Upgren pointed out in an article titled "Mush Booms—No Bust."

Several "forces" gave "boom" to the postwar economy, the professor of economics at Macalester College, St. Paul, explained. Family incomes had doubled during the war, generally permitting a 100 per cent increase in family expenditures for consumption. Liquid assets had increased \$225 billion and, also, the American buyer was starved for products he had not been able to obtain during the war.

When U.S. government war-spending dropped \$68 billion, American consumers increased their spending by \$66 billion — offsetting all but \$2 billion of the decline.

To emphasize the resiliency the American economy has shown in postwar years, Upgren reviewed the three recessions since the end of World War II, pointing out that in each instance, the American economy has bounced back dramatically.

In 1949 the Gross National Product (GNP), the value of all goods and services produced during a

particular period) declined \$9 billion, but by the middle of 1950 the economy had made a \$21 billion recovery, two and one-third times the amount of the decline.

During 1953-54 the GNP index again took a \$9 billion dip but by the fourth quarter of 1955, there was a \$44 billion rise — a recovery in 21 months that was five times the decline, which had taken place in the previous nine months.

Upgren described the 1957-58 recession as of the "shortest duration of all," for the "low," a decline of \$18 billion, was reached in six months. By the first quarter of 1959, there was a recovery of \$40 billion — more than twice the amount of the decline.

"Because we have built automatic economic snubbers and stabilizers into the economy which operate during recessions, we have had no 'bust,'" said Upgren. To illustrate what the "bust" preventers are and how they operate, the economist reviewed the 1957-58 recession.

Total output, GNP, declined \$18.5 billion. "Without getting much credit for its heroic performance, American business absorbed \$12.5 of this decline," said Upgren. Wages were maintained above sales receipts by corporations, and total compensation of employees declined by only \$6.5 billion during the recession. The corporate profits decline was shared one-half by the United States Treasury through loss in taxes and one-half by the corporations through decline in their retained profits.

Another stabilizer important in the 1957-58 recession, said Upgren, was the \$3 billion paid to unemployed workers in the form of increased unemployment compensation. Personal income in the U.S. during the worst part of the recession declined by only \$3.5 billion and consumption declined by only \$2.1 billion — only six-tenths of 1 per cent of total consumption, Upgren pointed out.

Consumption was maintained, de-

spite marked reduction in production, by use of inventories. During the final half of last year we began again to produce all the goods we were consuming. Production rates rose sharply, causing re-employment, which increased personal income by \$17.5 billion above the low point in the first quarter of 1958.

Consumption rose by more than \$14 billion and business investment in inventories by \$12 billion. Providing yet another boost, government expenditures increased by \$9 billion and by the end of last March, total production had increased \$40 billion during a one-year period.

New Bridge Plans May Be Available By September 14

Plans for the new Park Bridge should be ready for City Council consideration at their next meeting Sept. 14, it was reported Tuesday.

The new span will be constructed north of the present one, Peter F. Roan, city manager, said. The present bridge will be used during most if not all of the construction of the new bridge.

A four-lane structure is planned similar to the new Highway 6 bypass bridge. Construction will probably begin later this fall.

The present bridge was built in 1908 and has been repaired many times over the years. A new deck was laid in 1953 and supports were welded in 1955.

Chemical May Aid In Cancer Cure

UNIVERSITY PARK, Pa. (AP) — A chemical substance which fools human cells may blaze a new trail in the radiation treatment of cancer.

This was reported today by Dr. Waslaw T. Szybalski of the Rutgers Institute of Microbiology. He said the substance, in the tube tests on human cells, has shown dramatic powers of increasing a cell's sensitivity to X-ray and other forms of radiation.

He told the annual meeting of the American Institute of Biological Science that the chemical is a "fraudulent compound" in that it fools a growing cell into believing it is a material the cell normally requires in multiplying.

This is no reflection on the savvy of human cells, he indicated, because the impersonator chemical—called "BUDD" for short—is actually very closely similar chemically to the material the cell normally uses. The latter substance is thy midine, a normal building block of the heredity-bearing chemical known as DNA.

DNA is one of the most essential and highly complex components of all living cells.

Dr. Szybalski said the findings suggest the possibility of making cancerous cells more susceptible to radiation—that is, so a smaller dose would kill them. He added this would be in contrast to present approaches to increasing the effectiveness of radiation therapy. Most of the latter, he said, involve delivering higher and higher doses of radiation to the cancerous cells—with potential increased hazard to normal tissue.

Erbe immediately ordered 42 publications off the newsstands and said distributors either obey the order or face court action.

The attorney general had the Iowa Highway Patrol rush copies of his order to every county attorney in the state.

"In my opinion," Erbe told 23 distributors he requested to come to the Statehouse, "these publications which are printed solely for the purpose of distributing filth and smut are a contributing factor to juvenile delinquency."

Erbe said he was prepared to fight on the matter. He said that certain types of magazines have but one purpose—that of distributing smut, filth, pornography and dirt through photographs, stories and advertisements with a purpose of making a fast buck.

Erbe's order followed a statement from state Safety Commissioner D. M. Statton, who said Monday that something should be done to get pornography off the newsstands.

Erbe said, however, that he had started active preparations and research for the crackdown last July 20, working with the State Bureau of Criminal Investigation.

By late Tuesday afternoon, at least one large retail magazine dealer in the Des Moines area was cleaning out its stands of objectionable literature in compliance with the order.

A spokesman for a Des Moines book store said "we will fully cooperate with Erbe although it will cost us thousands of dollars in sales."

The spokesman said he had talked with several of the magazine publishers by telephone and was told they did not consider their publications immoral or obscene.

"Some of them indicated," the spokesman added, "they would send a representative to Iowa to test the ban in the courts."

Krueger Attending Fraternity Meet

Larry Krueger, C4, Iowa City, is representing the SUI Theta Xi social fraternity at the fraternity's 95th Anniversary Convention in Estes Park, Colo., this week.

Delegates from Theta Xi's 51 chapters and 50 alumni clubs in the United States are in Estes Park for the convention.

Krueger is president of the fraternity's SUI chapter.

He told the annual meeting of the American Institute of Biological Science that the chemical is a "fraudulent compound" in that it fools a growing cell into believing it is a material the cell normally requires in multiplying.

This is no reflection on the savvy of human cells, he indicated, because the impersonator chemical—called "BUDD" for short—is actually very closely similar chemically to the material the cell normally uses. Economist Gives Views On Recession—

Women's Spending Is Good?

The American woman's capacity to spend money is one of the reasons the United States did not suffer a sharp and prolonged recession after the close of the Second World War, said Arthur R. Upgren in the new issue of the Iowa Business Digest, published monthly by the SUI Bureau of Business and Economic Research.

"Because the women of America had a capability for spending fully comparable to that of the Secretary of Defense, we had a boom rather than a bust," Upgren pointed out in an article titled "Mush Booms—No Bust."

Several "forces" gave "boom" to the postwar economy, the professor of economics at Macalester College, St. Paul, explained. Family incomes had doubled during the war, generally permitting a 100 per cent increase in family expenditures for consumption. Liquid assets had increased \$225 billion and, also, the American buyer was starved for products he had not been able to obtain during the war.

When U.S. government war-spending dropped \$68 billion, American consumers increased their spending by \$66 billion — offsetting all but \$2 billion of the decline.

To emphasize the resiliency the American economy has shown in postwar years, Upgren reviewed the three recessions since the end of World War II, pointing out that in each instance, the American economy has bounced back dramatically.

In 1949 the Gross National Product (GNP), the value of all goods and services produced during a

particular period) declined \$9 billion, but by the middle of 1950 the economy had made a \$21 billion recovery, two and one-third times the amount of the decline.

During 1953-54 the GNP index again took a \$9 billion dip but by the fourth quarter of 1955, there was a \$44 billion rise — a recovery in 21 months that was five times the decline, which had taken place in the previous nine months.

Upgren described the 1957-58 recession as of the "shortest duration of all," for the "low," a decline of \$18 billion, was reached in six months. By the first quarter of 1959, there was a recovery of \$40 billion — more than twice the amount of the decline.

"Because we have built automatic economic snubbers and stabilizers into the economy which operate during recessions, we have had no 'bust,'" said Upgren. To illustrate what the "bust" preventers are and how they operate, the economist reviewed the 1957-58 recession.

Total output, GNP, declined \$18.5 billion. "Without getting much credit for its heroic performance, American business absorbed \$12.5 of this decline," said Upgren. Wages were maintained above sales receipts by corporations, and total compensation of employees declined by only \$6.5 billion during the recession. The corporate profits decline was shared one-half by the United States Treasury through loss in taxes and one-half by the corporations through decline in their retained profits.

Another stabilizer important in the 1957-58 recession, said Upgren, was the \$3 billion paid to unemployed workers in the form of increased unemployment compensation. Personal income in the U.S. during the worst part of the recession declined by only \$3.5 billion and consumption declined by only \$2.1 billion — only six-tenths of 1 per cent of total consumption, Upgren pointed out.

Consumption was maintained, de-

spite marked reduction in production, by use of inventories. During the final half of last year we began again to produce all the goods we were consuming. Production rates rose sharply, causing re-employment, which increased personal income by \$17.5 billion above the low point in the first quarter of 1958.

Consumption rose by more than \$14 billion and business investment in inventories by \$12 billion. Providing yet another boost, government expenditures increased by \$9 billion and by the end of last March, total production had increased \$40 billion during a one-year period.

This lineup, composed of 11 senior lettermen, opened fall practice Tuesday as Iowa's No. 1 unit. The line from left: co-captain Don Norton, John Sawin, Don Shipanik, Bill Lapham, Gerry Novack, Charles Lee and Curt Merz. The backfield from left: co-captain Ray

Jauch, Don Horn, Olen Treadway and Bob Jeter. The 65-man squad which includes 17 lettermen will continue two-a-day drills for at least two weeks as they prepare for the season's opener Sept. 26 at California. —Daily Iowan Photo by Jerry Smith.

65 Hawks Begin Fall Football Drills

Intermittent morning showers and a wet turf failed to dampen the spirits of the 65-man Iowa football team as it opened fall drills Tuesday. In fact, the players were pleased that the weather turned cool for the first drill.

The morning session wound up with a brief, light-contact defensive drill. A group of reserves ran plays against the first string.

In the afternoon the Hawkeys

worked on offense, polishing running plays against the dummies. All hands saw action both on offense and behind the dummies.

For the better part of the day the squad was divided into groups by position for instruction under the assistant coaches.

Senior Olen Treadway and rookie Wilburn Hollis directed the first two units in the afternoon session. Treadway quarterbacked the all-

veteran backfield of halfbacks Ray Jauch and Bob Jeter and fullback Don Horn.

Ends Don Norton and Curt Merz; tackles John Sawin and Charles Lee; guards Don Shipanik and Gerry Novack and center Bill Lapham comprised the first unit line.

Several sophomores saw action on the second unit. Bill Whisler was at right end; Al Hinton, Chester Williams and Emery Pudder

worked at tackle; Sherwyn Thorson and Bill DiCindio were at guard and Hollis and fullback Larry Ferguson were in the backfield.

Vets on the second unit included end Jeff Langston, tackle Bob Hain, guard Mark Manders, center Lloyd Humphreys and halfbacks Jerry Mauren and John Brown.

Another double session is scheduled for today.

McCuskey Elected To Helms Wrestling Hall Of Fame

Dave McCuskey, Iowa wrestling coach, has been elected to the Helms Amateur Wrestling Hall of Fame. The Iowa mentor, one of the nation's outstanding wrestling coaches, was one of four coaches and three wrestlers so honored Monday.

The addition of McCuskey brings to 20 the number of coaches who have been elected to the mat hall of fame.

McCuskey came to Iowa in 1952 after a very successful career at Iowa State Teachers College. His 1950 ISTC squad won the NCAA championship.

In 22 years of coaching he has had 31 national individual champions, the latest being Jim Craig, a member of last year's Iowa squad. His all time coaching record is 154 wins, 50 losses and 9 ties.

McCuskey's 1958 team was Big Ten champion and last year's squad narrowly missed winning the title for the second year in a row. His 1959 team was fourth in the NCAA championships.

Terry McCann, probably the outstanding amateur wrestler in the

Dave McCuskey

U. S. today, developed under McCuskey at Iowa.

Chairman of the U. S. Olympic Association wrestling committee for the 1956 Olympics, McCuskey coached the freestyle team in the '56 games.

Thanks To Bad Bunt Koufax Ties Feller's Strikeout Mark

LOS ANGELES (AP) — Dodger lefthander Sandy Koufax is co-holder Tuesday of the major league strikeout record. Yet but for a bad bunt, he might be just another pitcher.

Koufax fanned 18 Giants Monday night to equal the record set by Bob Feller in 1938. After the game — Los Angeles won 5-2 — Dodger Manager Walt Alston said:

"I would have taken him out if Maury Wills had bunted John Roseboro to second in the seventh inning. I was going to bring in Carl Furillo to pinch hit."

But Wills dribbled the ball in front of the plate, Roseboro was forced, and Koufax stayed in to complete a performance that had a crowd of 82,794 roaring.

Sandy, 23, was suffering from a cold. Each time he went to the dugout he blew his nose. But there was nothing wrong with his arm.

"He had great stuff," said catcher Roseboro. "He kept them looking for that high, hard hummer and then he slipped his curve over. This was something I'll remember all my life."

Koufax said: "I had a real good fast ball. That's what made my curve so effective. They chased a lot of bad curves."

Dodger pitching coach Joe Becker gave this appraisal: "for sheer velocity, I think this fellow throws faster than Feller did. But Feller's fast ball moved around a little more."

Sandy's performance, which also obliterated the National League strikeout mark of 17 set by Dizzy Dean in 1933, was no fluke.

He came within one strikeout of tying Dean's record last June 16 when he fanned 16 against Philadelphia. Last time out, also against the Phillies, he struck out 13.

His total of 31 for two consecutive games breaks another Feller record of 28 set in 1938. Sandy is now 8-4 and has 150 strikeouts in 127 innings.

Monday night he whiffed every Giant regular at least once, with 147 pitches.

Liechty, Rule Pace Golf Qualifiers

DES MOINES (AP) — John Liechty of Iowa City and Jack Rule of Waterloo, two University of Iowa Golfers, will lead a contingent of 14 regional qualifiers to the National Amateur tournament at Colorado Springs, Colo. Sept. 18.

Liechty, with a 36-hole of 69-72-141, finished first in the qualifying trials over two Des Moines courses Tuesday, placing him two strokes to the good over Rule, the two-time Iowa Amateur champ, who had 71-72-143.

Two other SUI golfers, Mike Dull of LeMars and Frank James also qualified. Dull had a 146, James a 147.

Others who made the grade to the national meet included:

Jim Hoak, Des Moines, 144; Milt Beal, Omaha, 145; Bob Astleford, Omaha, 145; Jim Rasley, Des Moines, 146; Orrie Goens, Des Moines, 146; Dick Spangler, Lincoln, Neb., 147; Bill Ferguson, Des Moines, 148; Bob Loufek, Davenport, 148; Sarg Fontanani, Des Moines, 149; Phil Donohue, Sioux Falls, S.D., 149.

However, Rasley said he will not go to the national tourney so the 14th place will be determined today in a playoff between Steve Spray of Indianola, recently crowned Western Union champion, and Jack Donahue, Des Moines, who won the Herman Sani Open here this year. Spray and Donahue each had 150.

Bunning 3-Hitter Slows Sox

CHICAGO (AP) — The Detroit Tigers slowed down the Chicago White Sox pennant express Tuesday night with a 4-0 shutout by Jim Bunning.

Detroit's victory snapped a five-game Chicago winning streak and sliced a half game from the Sox' American League lead. The Sox now lead by five games over second place Cleveland.

Bunning, a 27-year-old right-hander, allowed only three hits, all singles, in slowing down the speeding Chicagoans who returned to Comiskey Park after sweeping a four-game series from the Indians in Cleveland.

Bunning boosted his lifetime record against the White Sox to 10-2 as he won his fifth straight game and 14th in 24 decisions this year.

It was Bunning's first shutout since he pitched a no-hitter against Boston on July 20, 1958.

Tiger batters, led by Harvey Kuenn's four hits in five trips to the plate, worked their damage against the league's top percentage pitcher, Bob Shaw, who brought a 14-4 record into the game.

Shaw suffered his fifth loss and never has beaten the Tigers.

Detroit is the only team with an edge (4-2) over the Sox in Comiskey Park this year.

Detroit 101 020 000-4 12 1
Chicago 000 000 000-0 3 0
Bunning and Wilson; Shaw, Moore (6), Lown (8) and Lollar. W—Bunning (14-10). L—Shaw (14-5).

Chicago at San Francisco — Anderson (11-9) vs. S. Jones (17-12).

relieved by Ryne Duren in the threatened Oriole uprising, received credit for his 14th victory in 21 decisions.

After giving up seven hits to the Yankees in the first two innings, Jerry Walker set them down in order in the next four and left after the seventh with his eighth setback, one fewer than his victories.

Five singles in the first inning gave the Yanks three runs and they added two more runs in the ninth, including a triple by Bobby Richardson, off Arnold Portocarrero.

Richardson, Tony Kubek, Mickey Mantle, Hector Lopez and Gil McDougald delivered the first inning singles.

Boston at Baltimore (N)—Brewer (8-9) vs. O'Dell (7-10).

field wall Tuesday as Washington outlasted the Boston Red Sox 7-4 in a three-hour duel.

Killebrew's clout with the bases empty in the seventh tied him with Cleveland's Rocky Colavito for the home run leadership in the American League and helped snap Boston's winning string at four.

The Red Sox, who out-hit the visitors 13-8, were plagued by bases on balls. Three Boston pitchers allowed 11, with starter and loser Earl Wilson giving up eight in 3 1/3 innings.

Two of them scored on a single by Jim Lemon in the third, giving Washington its initial lead. A two-run double by Roy Sievers, which highlighted a three-run Washington eighth inning, was the other big hit.

That gave the Senators a 6-3 lead and enabled them to last through Red Sox rallies in the eighth and ninth. A double by Gene Stephens, who also had a triple and a single, and a single by Jackie Jensen got one for Boston in the eighth.

Washington 002 100 130-7 8 1
Boston 000 200 110-4 13 1
Pascual, Clevenger (9) and Naragon; Wilson, Schroll (4), Chittum (8) and White. W—Pascual (13-10). L—Wilson (1-1).
Home run — Washington, Killebrew (39).

Phils 5, Braves 3

MILWAUKEE (AP) — Don Cardwell, a big right-handed pitcher with only one other hit all season, walloped a tie-breaking, two-run homer in the ninth inning Tuesday night that gave cellar-mired Philadelphia a 5-3 victory over Milwaukee. It also dropped the third place Braves three games behind in the National League race.

Cardwell, now 2-for-44 as a hitter this year, limited the Braves to six hits while beating Bob Buhl and taking his fourth straight victory. His only other home run in the majors also was a two-run shot — against Pittsburgh, Aug. 31, 1957, when he was a rookie.

Cardwell surrendered single runs to the Braves in the first, third and sixth innings. He hurled hitless ball after Joe Adcock led off

the Milwaukee sixth with his 22nd homer.

The Braves picked up a run in the first on singles by Bobby Avila and Eddie Mathews and a sacrifice fly. They got their second run on Mathews' 36th homer into the bullpen in dead center in the third.

Buhl struck out eight and walked only two while Cardwell struck out two and gave up six bases on balls.

Philadelphia 000 003 002-5 9 0
Milwaukee 101 001 000-3 6 1
Larocwell and Sawatski; Buhl and Crandall. W—Cardwell (9-7). L—Buhl (11-9).
Home runs — Milwaukee, Mathews (39), Adcock (22). Philadelphia, Cardwell (1).

Cards 3, Dodgers 0

LOS ANGELES (AP) — Right-hander Larry Jackson continued his dominance over the Los Angeles Dodgers Tuesday night, cooling them off with a two-hitter as the St. Louis Cardinals scored a 3-0 victory.

The loss dropped the Dodgers 1½ games behind the San Francisco Giants, who were idle.

Jackson, who has a 12-5 lifetime record against the Dodgers, had home run support from Ken Boyer and Alex Grammas. Boyer's home run, his 26th this year, extended his hitting streak to 20 games.

Grammas got his third homer and drove in another run with a squeeze bunt. Don Blasingame had double dand stolen third base before Grammas laid down the sacrifice.

Jackson, who struck out four and walked two, evened his record at 12-12. Johnny Podres, who started for Los Angeles, and gave up all three St. Louis runs in the six innings he worked, was the loser.

The only Dodger hits were a third inning single by Maury Wills and a seventh inning double by Duke Snider.

St. Louis 010 101 000-3 4 1
Los Angeles 000 000 000-0 2 0
Jackson and Smith; Podres, Williams (7), Drysdale (9) and Roseboro. W—Jackson (12-12). L—Podres (12-8).
Home runs — St. Louis, Boyer (26), Grammas (3).

Yanks 5, Orioles 0

BALTIMORE (AP) — The New York Yankees concentrated their fire power in the first and last innings Tuesday to down the inopportunist Baltimore Orioles 5-0.

The Orioles achieved a peak of frustration in the seventh inning by loading the bases twice without scoring. They also had the bases filled in the ninth and couldn't score.
