Boo...Tricks Or Treats!

Once again mysterious goblins and witches are descending on Iowa Citizens with threats of "tricks or treats, money or east." This quartet of "spooks" was discovered Thursday night haunting the homes along North Dubuque Avenue. The Halloweeners are (from left) Janet Trankle, Barbara Blair, Nancy Trankle, and Betty Trankle.

Reuther Rapped By Russians For 'Deserting Soviet Wife'

By THE ASSOCIATED PRESS
The Soviet Union's Government-controlled trade unions leveled a bitter blast at Walter P. Reuther Thursday, accusing him of deserting a Russian wife in the 1930's.

Reuther, AFL-CIO president, responded that this was a propaganda attack "based upon complete fabrication and falsehood."

The attack in Trud, the trade union newspaper in Moscow, is an outgrowth of the September debate Soviet Premier Nikita Khrushchev held with Reuther and other U.S. labor leaders

when Khrushchev was in San Francisco.

The meeting was closed to reporters, but Reuther gave out an account of the discussions. Tass, the Soviet news agency, several days later accused Reuther of spreading a fantastic report. The trade union newspaper got the re-cremations down to a personal level Thursday.

In the early 30's Reuther, according to his Who's Who biography, spent three years in Europe and the Orient "observing auto plants and machine shops." He was for a time in a group of American workers at the Soviets' Gorky auto plant.

Trud's denunciation included letters from persons who said they worked with Reuther at Gorky. A document alleged to be Reuther's

employment card showed he left the Gorky job March 27, 1935, and was not a Communist party member.

A woman, signing only N—the Russian signature for anonymity—wrote that she first met Reuther when she passed the place where he lived and heard a voice call "Hello miss, one moment."

She turned around and saw a red-haired man who asked to walk her home.

"That is how we got acquainted," she wrote, and registered their marriage a week later.

"I was 19 years old. I grew up without a mother and no one to warn me—we went to dances, but we talked of other things—he vowed his love at first sight. He said he had dedicated his life to the workers and needed a true girl friend," she wrote.

"After we had lived together eight months, he told me 'I am leaving for America.' He promised to write but I knew it was a lie."

A letter from John Roshton, who said he came from the United States in the 1930's and worked in the Soviet Union with Reuther, said Reuther at first spoke with hatred of capitalism and "Ford's sweatshop system," but gradually began displaying "unpleasant traits."

"He is a traitor to the working class," Roshton wrote.

Reuther said in Detroit: "I have been one of the main targets of Communist propaganda for many years."

"This latest attack is another such propaganda effort. It is based upon complete fabrication and falsehood."

Student Fees Due Nov. 1

SUI students—or their parents, in some cases—will receive bills Saturday for the first installment payment on student fees for the current semester. Bills will be mailed to students at their Iowa City or commuting addresses unless special provisions to mail bills to their parents were made at the time registration materials were distributed in Macbride Hall.

Bills will cover the first installment of the balance of this semester's fee, plus any other charges incurred, such as dormitory room and board, telephone tolls, library fines and dental clinic charges.

Return envelopes will accompany the bills, and students are encouraged to mail payments to the SUI Cashier's Office in the return envelopes. The current bills will be due on Nov. 1 and must be paid no later than Nov. 12.

A "late payment penalty" of \$5 will be assessed for payments made between Nov. 13 and Nov. 20, with student registration being cancelled on the latter date if payment has not yet been received.

Students whose registration has been cancelled for this reason will be required to pay a re-instatement fee of \$10.

SUI was one of the first major universities in the country to undertake the system of billing fees in installments, for payment by mail. The arrangement, instituted last fall at SUI, has proved to be a satisfactory plan, according to Leonard Breka, University secretary.

He added that more and more students have taken advantage of the opportunity to mail in their checks.

Same Old Story—Steel Negotiators At It Again

Former D.I. Editor Claims Faculty Has Upper Hand

"The final authority of The Daily Iowan lies with the faculty," was the reason given by former editor Stephen Tudor, G. Tacoma, Wash., for resigning his post.

His resignation was submitted unexpectedly Wednesday and was accepted by the Board of Trustees of Student Publications, Inc., (SPI), Thursday.

In a letter to the board, Tudor said he had accepted the post of editor "under the assumption that The Iowan was in fact a student

organ. Yesterday (Wednesday) I was told by the publisher, Mr. John Harrison, who is an entirely likeable individual, that The Iowan could not print certain movie reviews, and that if I were to explain the situation to the students in an editorial, he would not initial it, so it would not be printed."

The policy for editorials set up by the owners of the paper, SPI board, calls for the signing of editorials by the publisher or faculty advisor.

Harrison told The Daily Iowan

Thursday evening that the incident cited was not factually correct. Harrison said he planned to make no further statement, and said, "From here on out, it is up to the Board of Trustees."

Leslie G. Moeller, president of the board and director of the School of Journalism, could not be reached for comment.

Tudor said his reasons for resigning were not personal. He described the evolution of the paper from its former state as an entirely student-owned newspaper to its present connections with the University. The Iowan is largely supported by advertising at this present time. It is dependent on the University for its office space and in small part by sales through student fees.

Speaking of the situation about three years ago, the letter said, "As a part of the University's organization and depending on the University for money, the Iowan lost its vital independence. But it could at least serve as a forum for student opinion through its 'letters to the editor' columns," the letter continued. "It is appropriate that in these columns, the recent anti-censorship letters have been reprinted."

Noting that in recent years, The Daily Iowan has been largely self-supporting, Tudor said, "In gaining independence again, this was a happy change. But financial independence has not returned the Iowan to the hands of the students."

Tudor said after the incident in which Harrison had reportedly refused to initial an editorial, he "understand the role of publisher. I offered my resignation to the board because I didn't want to work as hard as an editor must, and simultaneously lose those liberties which can make the Iowan the voice and protector of the student population."

"Perhaps my sudden move was rash, but I have since thought it through and concluded that it was right. How could I continue to work knowing that the very power whom I sought to hold at a distance could stand at will peering over my shoulder? I could not," he concluded.

Tudor said he and a former Daily Iowan columnist, Ron Levin, G. Iowa City, are planning to begin an independent weekly called The I.D. Publication is to begin Wednesday, Tudor said.

When told of the new publication, Harrison commented, "The more the merrier."

Ike, Allies May Confer In December

WASHINGTON (AP) — President Eisenhower may fly to Paris a week before Christmas for a Western summit conference to weld a solid front for negotiations next spring with Soviet Premier Nikita Khrushchev.

President Charles de Gaulle of France was reported Thursday to have written Eisenhower, British Prime Minister Harold Macmillan and West German Chancellor Konrad Adenauer suggesting that Western consultations begin Dec. 19. The talks would last three or four days.

Eisenhower told a news conference Wednesday the Western leaders had agreed they should meet, but that the timing was still to be worked out.

Foreign ministers of the 15-nation North Atlantic Treaty Council will confer in Paris for three days beginning Dec. 15 and Eisenhower and other government heads want to meet separately from NATO.

Eisenhower apparently would prefer an opening date for the Western summit less close to the Christmas season.

Eisenhower reportedly would prefer not to be under heavy time pressure when he meets with his allies. They face tremendously complicated problems because not only do they have policy differences but they are not even in agreement on what they should discuss with Khrushchev.

Macmillan believes it is possible to make a deal with the Soviet Union for a provisional arrangement on the future of West Berlin.

Unbelievable!

Poll Says Most Gals Prefer Talking

AMES (AP) — Well men, it's out in the open.

Most girls, according to a poll taken at Iowa State University, would rather talk than listen. In fact, 39 per cent of 410 coeds interviewed said they would rather talk than listen, 36 per cent enjoyed both talking and listening and the other 25 per cent would just like to listen.

The questionnaires, distributed by the Women's Residence Association, will be kept on file by the group's social chairman to help arrange dates between students with similar standards.

Weber Named D.I. Editor By Publications Board

Ron Weber, G. Mason City, Thursday was appointed editor of The Daily Iowan for a term ending May 15, 1960.

Weber was chosen by the Board of Trustees of Student Publications, Inc. (SPI) to replace Stephen Tudor, G. Tacoma, Wash., who resigned his post Wednesday.

The board declined to reveal the contents of Tudor's resignation letter or a second letter which he directed to the board members Thursday. Both letters were discussed by the board in Thursday's closed session meeting.

Leslie G. Moeller, Director of the School of Journalism and chairman of the SPI board, said following the meeting that the board hoped Tudor would make a public statement

to clarify the situation as he feels it exists.

"If he wishes to come before the board to discuss the situation, he would be most welcome," Moeller said. He indicated that the board was unsuccessful in efforts to contact Tudor before the meeting Thursday.

Weber assumed the post of editor Thursday night immediately following the board meeting. He had been serving as news editor of The Daily Iowan.

Weber is a graduate student in the SUI Writers' Workshop. He studied journalism at the University of Notre Dame and has worked two years for commercial papers.

In 1958 he was a reporter for the Mason City Globe Gazette. Prior to that time he served as sports editor and reporter for the Morris, Ill., Daily Herald.

Weber is married and has a two-year-old daughter.

Regents May Discuss Car Ban Soon

The question of banning student cars at the three state-supported schools may be discussed at the next meeting of the Iowa State Board of Regents, Harry Hagemann, Waverly, president of the board said Thursday.

At its meeting Wednesday night the SUI Student Council heard a letter from Ron Bern, executive affairs commissioner of the Iowa State University student council, in which he said the question may be discussed by the Regents.

The Regents will meet on Thursday and Friday, Nov. 19 and 20, at the Sheraton-Montrose Hotel in Cedar Rapids.

"If the question comes up at the meeting," Hagemann said, "there will probably be no final action taken at that meeting. It's a very important matter and will be given careful consideration when it comes up."

Judy Clark, A4, Cedar Falls, SUI student body president, said the question of banning student cars will probably be discussed informally by student government representatives from the three state schools attending a regional meeting of the National Student Association Saturday at Ames.

Miss Clark and Robert Downer, A3, Newton, external affairs commissioner of the SUI council will be attending the fall regional assembly of the Iowa-Nebraska region of N.S.A. this weekend. The N.S.A. is a federation of student governments at colleges and universities.

The SUI Student Council, at its meeting May 6, passed a resolution objecting to the Board of Regents for its planned study that would correlate student car ownership and scholastic achievement. The proposal objected to the use of such a study to reach a decision on car ownership at SUI.

At a meeting on June 19, the Board of Regents passed a resolution to study the question of undergraduate car ownership at the three state schools.

The resolution was proposed by Regent Arthur Barlow as a result of a survey he made among 23 colleges and universities which ban the operation of cars by undergraduates.

Barlow reported that officials of most of the responding institutions felt that automobiles have had adverse effect upon academic work.

'Strike End Could Bring Big Upsurge'

PEBBLE BEACH, Calif. (AP) — Government economists were prepared Thursday to tell industry leaders that the steel strike — if ended quickly — will prolong the nation's business advance at least through 1960.

The shutdown already has stalled the boom in its tracks, officials said, that the Administration may be faced with a decision whether to call Congress into special session.

Officials interviewed are here for Friday's opening of the fall meeting of the Commerce Department's Business Advisory Council at Del Monte Lodge.

About 100 of BAC's 165 members, including the heads of scores of the country's biggest corporations, were due to confer at this Monterey peninsula resort with Secretary of Commerce Frederick H. Mueller, Secretary of Defense Neil McElroy, and other Washington leaders.

In the main, they shared the Government's view of the grave threat to the economy if the strike goes long unsettled, and also their optimism that, if settled comes soon, there will be a strong, gradually-accelerating upsurge of business activity this winter and next spring.

Rally, Caravan At 7 Tonight

A pep rally for Saturday's Kansas State game will be held at 7 tonight on the west approach to Old Capitol.

A car caravan will leave Main Library at 6:30 p.m. and will pick up residents of the women's housing units prior to the rally.

Men's housing units which participate in the car caravan will be eligible for a trophy to be presented at the Notre Dame game.

The trophy will go to the housing unit with the largest number of cars participating in the caravans this season.

Pep Club card section members are to have their numbers checked off and be in their seats by 12:20 p.m. Saturday.

Plan Offered To Revamp Legislature

By NANCY GROENDYKE
Staff Writer

A Constitutional Convention to gain reapportionment is the best hope of making the government of Iowa adequate for the 20th Century, Muscatine County Rep. David M. Stanley said Thursday night.

Stanley told SUI Young Republicans that a Constitutional Convention was the best method of obtaining reapportionment of the Iowa legislature. "A convention would not have the two-house deadlock problem with each house wanting to reapportion the other," he said.

Stanley was co-author of a reapportionment bill in the Iowa legislature the past session. Stressing the need for reapportionment, he suggested the revival of the slogan, "Taxation Without Representation Is Tyranny."

"The right of the people to fair representation is being denied in Iowa today and this is contrary to all principles of the Declaration of Independence and of our Federal and state constitutions," he said.

Under one-third of the people of Iowa control both houses in the legislature, Stanley said. "This completely violates the concept of representative government."

For several sessions the legislature has failed to get action on reapportionment, Stanley said. "Members of both parties are at fault," he added.

"Fair representation is a moral issue," Stanley said. "We should stand up and demand it instead of begging for it — we should campaign for our rights as free citizens," he urged.

Unfair representation is holding back progress in our state, Stanley said. "We are dividing the people and promoting bitterness and discord."

Stanley said there is much hatred between city people and farmers. "If we are going to go forward, we have to go forward together," he said.

"The longer this goes on, the harder it's going to be to get a united effort by the people of Iowa to move our state forward in this period of progress in the 20th Century," Stanley concluded.

Won't Verify Quiz Reports

NEW YORK (AP) — Dist. Atty. Frank S. Hogan refused Thursday to confirm reports that two big-money television quiz winners have admitted taking part in rigged shows. Neither would he deny them.

Published reports said the two — Charles Van Doren and Hank Bloomgarden — switched their stories and admitted in talks with Hogan last week that they received help in answering questions on NBC's defunct "Twenty-One" show in 1957.

Van Doren won \$129,000 and Bloomgarden \$98,500.

Neither Van Doren nor Bloomgarden would comment on the reports.

Van Doren has a date next Monday with a congressional subcommittee in Washington, when it renews its inquiry into TV fixing of shows.

Space Program Money Requests To Be Doubled

WASHINGTON (AP) — Spending requests will be doubled next year in the Saturn program for big space vehicles, the Pentagon and the National Aeronautics and Space Administration said Thursday.

The mammoth power plant to loft satellites or manned vehicles to the moon or farther will eventually cost at least \$800 million.

Dr. Werner von Braun, who has headed the Army's missile work, brought out the agreement on these big spending figures in an informal public conversation with Roy Johnson, outgoing director of the Pentagon's advanced Research Projects Agency.

Von Braun also said flight testing of Saturn's first stage now is scheduled for mid-1961.

Johnson disclosed the Defense Department, with NASA consent, will submit a request for \$140 million for the Saturn work in the fiscal year starting next July 1. This is double the amount appropriated for the current year. Last year 32 million dollars was allocated for the purpose.

MOTHER NOT SO GOOD
BERLIN (AP) — Police have arrested a 26-year-old mother and charged her with teaching her 8-year-old daughter to pick purses out of women's shopping bags.

U.S. Repeats Its Warning Of Mediation

Record Walkout Now Totals 107 Days

PITTSBURGH (AP) — Top negotiators renewed peace talks Thursday in the 107-day steel strike. They made no headway.

The session lasted just less than 2½ hours. Both sides reported no progress. Another meeting will be held today.

Government mediators are prepared to step in immediately if the negotiations collapse.

Four-man teams representing the country's top 11 basic steel producers started the negotiations shortly at a mid-town hotel.

David J. McDonald, president of the United Steelworkers Union, led the union team. The industry group was quarterbacked as usual by R. Conrad Cooper, a vice president of U.S. Steel Corporation.

Joseph F. Finnegan, chief of the Federal Mediation and Conciliation Service, said bargaining will switch to Washington next Monday if nothing is accomplished in Pittsburgh. A call to Washington could come earlier should the contract talks break down, Finnegan emphasized.

The USW announced indefinite extension of contracts with Aluminum Company of America, Kaiser Aluminum & Chemical Corporation, and Reynolds Metals Company.

The contracts were due to expire July 31, but an agreement was reached extending the pacts to Nov. 1, or 30 days after the end of the steel strike.

After Nov. 1 the latest extensions may be canceled on 10-day notice by either side, a union spokesman said. He added that when new contracts finally are signed, they will be retroactive to Aug. 1.

The union represents 20,000 Alcoa workers, 9,000 at Kaiser, and 9,000 at Reynolds.

There was a note of urgency as the steel talks got rolling again. It was the first time the McDonald-Cooper teams had met since last Sunday.

On the legal front, the union plans to file a formal appeal Friday in the U.S. Supreme Court asking overthrown of a Taft-Hartley law injunction against the strike.

The injunction ordered workers back on the job for 80 days. But enforcement of the ban has been delayed at least until Monday by the U.S. 3rd Circuit Court of Appeals.

Steel Strike At A Glance

By The Associated Press

NEGOTIATIONS — Industry-wide peace talks resume in Pittsburgh; no headway made.

COURT ACTION — United Steelworkers plans to file formal appeal with U.S. Supreme Court Friday against Taft-Hartley injunction banning strike for 80 days.

IDLE — Half a million striking Steelworkers plus 325,000 in allied industries. Auto industry hard hit.

LOSSES — Steelworkers, 70 million dollars a week in wages; steel industry, 300 million weekly in production; other industries unestimated millions.

ISSUES — Industry seeks local plant work rule changes which union opposes. Union wants wage-fringe benefits industry calls too costly, says would force steel price rises and inflate economy.

LENGTH — 108 days Friday, longest shutdown in steel history.

Forecast

Mostly
Cloudy,
Light Rain

Sign Up Now!

A last chance campaign for Hawkeye yearbook sales is being launched today by the 1959-60 staff. Jim Clayton, A4, Marshalltown, business manager, said no Hawkeyes will be reserved after Nov. 25. Reservation cards may be obtained and placed in boxes located in SUI dormitories, Iowa Memorial Union, General Library, and departmental libraries. Seniors wishing Hawkeyes must sign up by Saturday in the Registrar's Office. Staff photographers will take pictures of groups and organizations Tuesday, Wednesday, and Thursday. The Graduate College will also be represented in this year's Hawkeye for the first time in recent years. — Daily Iowan Photo by Larry Day.

The Daily Iowan is written and edited by students and is governed by a board of five student trustees elected by the student body and four faculty trustees appointed by the president of the University.

Herblock is away due to illness

Copyright, 1959, The Pulitzer Publishing Co., St. Louis Post-Dispatch

"10, 9, 8, 7, . . ."

Space Program

DR. WERNHER VON BRAUN and Gen. John B. Medaris have approved the President's plan to place the Army rocket team under the control of the National Aeronautics and Space Administration.

man crew of experts, out in the icy reaches of bureaucratic space. DR. VON BRAUN was understandably indignant.

The gigantic rocket complex is to be taller than the Statue of Liberty and capable of hurling a 15 to 20 ton satellite into the sky or landing a truck on the moon.

Most of us appreciate the advanced state of U.S. science. Therefore, we don't think the service efforts were greater because of the rivalry.

NOW THAT THE Air Force is the sole service concerned with space exploration and valuable Project Saturn is controlled by NASA, we may see some progress, real progress, in our space program.

Movie Review On 'FBI Story'

ROBERT B. KREIS Staff Reviewer

The 'FBI Story' (Thu-Tues) is a deceptive title for this film, though one suspects it has been retained to capitalize on the name value of the recent best-seller from which it was adapted.

Actually the film is two films; one, an impersonal, documentary, episodic, touch-of-the-highlights treatment of famous cases from the files of your F.B.I., and the other, a flowing, sentimental (occasionally over so) story of the life and loves of FBI agent Jimmy Stewart.

stances when sufficient time and detail is put into the FBI episodes make them quite fascinating, so the majority of criminal-brought-to-justice vignettes, in spite of their explosive action, seem all the more insufficient.

We see, in 30-second-scenes, the violent apprehension of such past American notables as Pretty Boy Floyd, Baby Face Nelson, Machine Gun Kelley, Ma Barker and John Dillinger.

In between, Jimmy Stewart is shown as a family man going

through the trials and tribulations of domestic life with wife Vera Miles and three children. Their scenes together are somewhat mawkish, though generally sincere, but one longs for more extensive information about the FBI case histories, and would gladly give up these husband and home "Americana" sections.

The film moves swiftly and is entertaining, but the aforementioned duality in presentation is irremediable, and the total oil and water effect is of a combination newsreel-soap opera.

Like: I'll Make The Scene Too

To the Editor: Like, man, I've been reading THE DAILY IOWAN, and I see where mr gianetti's been puttin' down mr levin, and I see where mr levin's been puttin' down mr gianetti, and now I see where mr kaplan's been puttin' down everyBODY, and I say to myself, like—

But then I say: —No. Like, what's the point? I'll save my energy to get through the winter. I won't read the editorial page any more. I'll be, like, content: I'll watch Beetle putting down the Sarge. I'll dig that, like. I mean, you can't make every scene, man. (But see: I keep trying. And I just had to write this letter, like.)

Like, John Gilgun 613 N. Van Buren

An Ex-Iowan Staffer Speaks

To the Editor: It was refreshing to see the long letter by Mr. Barrett and Mr. Cummins in the October 27th DI. They raise some important questions, and some not so important. I think I can answer one or two of the latter, in the hope that a knowledge of the facts will help us to answer the former.

My brief career on the DI was, as many will recall, a turbulent one. It was my job to review plays and lectures and to write a more or less regular column. My columns did not always appear as scheduled, and there were two reasons for this.

I was lectured by the faculty supervisor and the publisher on my "abuse" of "freedom of speech." After a column of mine had been suppressed, I was told that what I had written was "in bad taste," and that it would "corrupt the youth."

In two of the controversies which my reviews aroused, I was alleged to have insulted the Dramatic Arts Dept. by publicly refusing to review one of their productions, and to have been disrespectful to a Catholic priest who was masquerading on campus as a literary critic.

It would be rash to pass judgment on the Administration's conduct in any of the recent controversies. But it seems to have done all it could to convince everyone that it is afraid to have its policies scrutinized or questioned.

Treasury Will Offer New Notes

WASHINGTON — The Treasury said Thursday it will offer up to \$10,900,000,000 in 4 7/8 per cent notes in exchange for certain outstanding securities.

The department said holders of \$8,900,000,000 maturing securities will be able to exchange them for either the 4 7/8 per cent notes or for new one-year certificates paying 4 1/2 per cent.

These holders also may demand payment in cash when their securities mature Nov. 15.

MEETINGS

"IMPRESSIONS FOR A VISIT TO FRANCE" will be the topic of a speech by Emil Witschi, professor emeritus of zoology, at the Zoology Seminar today at 4:20 p.m. in 201 Zoology Building.

TOWN MEN will have a business meeting Monday, Nov. 9, at 7:30 in the ELCR of the Union.

ALPHA PHI OMEGA, national scouting service fraternity, will meet Nov. 11 at 7 p.m. in 111 Athletic Administration Building.

Council Comments

By PHIL BURKS Council Member

This week's Council meeting let two of the major items on its agenda lie over for two weeks. In both cases, the reason was the same—more preparation for final submission of the matters concerned to the Council.

The proposal to give Burge Hall a fourth vote on the Council — that is, to give each of the houses in Burge one vote — was not acted on because its proponents want time to revise their proposal. Since the Council did not take up formal discussion of the matter, these were not outlined in any detail.

Also coming up again at our next meeting is the request for a charter for a socialist discussion club on the SUI Campus. Council Member Dick Runke, of the student organizations committee, told the Council that the group's proposed constitution contained some technical flaws which would be corrected. The action, or lack of it, had nothing to do with the organization's purposes.

Council President Judy Clark reported briefly on a meeting with two insurance underwriters, last week, to look into possibilities of a university student health insurance program. This is a subject we will want a lot more information on. We are also anxious to know how you, the students, feel about such a program.

Briefly, here are some of the salient factors involved. Health insurance (medical payments, surgical costs, etc.) is a pretty expensive proposition for the average college student. However, since he is in the optimum bracket, risk-wise, for such insurance, a group plan limited to college students can offer such protection at a greatly reduced cost. The plans we are now studying would be voluntary on the student's part.

Wednesday night, the Council looked over outlines of such plans now in operation at Iowa State University at Ames, and at Baylor University, of Waco, Texas.

Incidentally, one somewhat less-pleasing aspect of these plans, at least, is that inclusion of an optional maternity coverage clause for married students literally "skyrockets" the cost. Married students, say the insurers, have too many babies!

Oil Minerals Tax In Cuba

HAVANA — Confusion gripped Cuban mining and oil industries Thursday night over their future.

While petroleum men fretted about implications of a minerals tax measure announced Tuesday night, Director Cesar Rodriguez of the Cuban Department of Mines, told inquiring newsmen a separate law is being drafted to cover petroleum concessions.

American investors have a heavy stake in both minerals and oil.

OFFICIAL DAILY BULLETIN University Calendar

Friday, October 30 8 p.m. — "A Scrap of Paper" — University Theatre. Saturday, October 31 1:30 p.m. — Football—Iowa-Kansas State. 4:30-6:30 p.m. — Triangle Club after-game dance, IMU. 8 p.m. — "A Scrap of Paper" — University Theatre. Thursday, November 5 8 p.m. — "They Saw the Whole Zoo" — Experimental Theatre—Old Armory.

University Bulletin Board

University Bulletin Board notices must be received at The Daily Iowan office, Room 301 Communications Center, by noon of the day before publication. They must be typed and signed by an advisor or officer of the organization being published. Purely social functions are not eligible for this section.

THE FINAL DATES for taking pictures of Seniors for the 1960 Hawkeye will be Nov. 4, 5, and 6. Seniors who have not yet had their pictures taken should report at University Photographic Service, 7 E. Market on the following schedule: Nov. 4, 8 a.m. to 10 a.m.; Nov. 5, 8 a.m. to 10 a.m.; Nov. 6, 8 a.m. to 10 a.m. No senior pictures will be taken after Nov. 6.

VETERANS: Each P.L. 550 veteran and each P.L. 634 beneficiary must sign a VA form 22-1996a (5496a) to cover his attendance from September 24 through Oct. 31. A form will be available in the basement hallway of University Hall beginning Monday, Nov. 2 and continuing through Thursday, Nov. 5. Hours are 8:30 a.m. to noon and 1 p.m. to 4:30 p.m.

SENIOR HAWKEYE APPLICATIONS must be filed with the Office of the Registrar not later than Oct. 31. Students in the undergraduate colleges of the University are eligible for a free copy of the 1959 Hawkeye provided: (1) They expect to receive a degree in February, June or August, 1960 and (2) They have not received a Hawkeye for a previous year as a senior in the same college.

STUDENT COUNCIL BOOK EXCHANGE will return money and unsold books through Oct. 30. Unsold books can be picked up in the Student Council office in the southeast corner of the Iowa Memorial Union from 1 to 5 p.m. Monday through Thursday, 1:30 p.m. to 5 p.m. on all Saturdays.

Flotsam and Jetsam By JUDY KLEMESRUD Assistant City Editor

"Shall Athletics Flourish at SUI?" was the big campus controversy in 1899, according to the 1899 Hawkeye on display in the lobby of the Communications Center. The most popular cheer of the year was:

"Hi! Hi! Hi! SUI! Giddy, giddy Uni, SUI!"

Perhaps the cheerleaders should try this one Saturday. It would probably bring as loud a response as most Iowa cheers do.

After reading about the Van Doren-Bloomgarden television ruckus, an SUI coed remarked, "Mickey Mouse Club" must be rigged, too. Mickey Mouse always wins.

CAMPUS LANDMARK No. 5: Gold Feather Room. Location — That section of the Union where students gather according to majors to sip controversial coffee; a Female oozing ground; the home of class-cutting bridge players.

CBS Plan of the Future? — Revision of the family television program, "That's My Boy," starring Forest and Frosty Evashevski.

PURDUE SHORTS: The Scottish Highlanders experienced a 7 to 1 ratio at Lafayette last weekend, and no one seemed to mind a bit.

A flat campus with not a dilapidated building nor tin barbed in sight was a treat for SUIowans who made the game trek. As one Purdudian theorized, "Our new buildings were built by state money which is the result of liquor-by-the-drink taxes." Legislature and Regents, please note!

In talking with Purdue students, pride in their University was evident, as they could name everything Purdue has that is "biggest and best" as compared to other Universities. Their pride was reiterated at the game, when their cheering drowned out spectators' means at each new blast of wind or torrent of rain.

All freshman wear green beanies, and every senior male wears yellow hand-decorated cords. Silly? Deteriorating? The students say it teaches pride and respect for the University.

The spirited P.U. card section, located in the END ZONE, is composed of freshmen "due to their energy and enthusiasm." Tricks are performed even during the game, to complement the actions on the field.

If the Daily Iowan's "fierce" critics were to visit the Communications Center and compare the D.I. with other campus newspapers, I think they might be surprised. The D.I. is almost lacking in "Coca Cola and Lux soap nausium" as compared with the four page tabloids published by most other colleges and universities.

Domestic Defects in Poland: Food, Racketing And Vodka

By ROWLAND EVANS JR. Herald Tribune News Service

WARSAW (HTNS) — Horses still eat more than all the people in all the cities of Poland. This is one of the key indicators in a country that is experimenting with a new kind of Western-style communism and is trying desperately to make itself industrially self-sufficient, within the non-dogmatic limits of that system.

The Polish system, with all its new bourgeois trappings, seems to be making progress, but defects of the most serious kind stand out like so many sore thumbs.

For the first time in decades, including the entire and brutal period of the war, Poland has a serious food shortage today. The most Catholic country in central Europe already has no meatless day on Friday, a normal fast day of the Church. Recently another was ordered — this one by the State. There is now talk of a third.

The fact seems to be, however, that the farmers and peasants are simply not producing. The land has suffered fearfully this past summer by a long drought, but that explains only a part of the shortage. In 1956, after the bloodless revolution that installed Wladyslaw Gomulka, farmers were permitted to reclaim their land and take it out of the collectives. About 90 per cent of all collectivized land was promptly withdrawn. A new and voluntary system of cooperative farming is now encouraged by the regime, but with only fair results so far.

A second potential crisis is the ugly business of "racketing," or racketeering. In the newly-decentralized economic system of raw materials, production, marketing, sale and purchase, "racketing" has become a built-in mechanism in which nearly everyone gets his cut. Without "racketing," many families could not make ends meet.

But the regime is worried, fearful that the cancer of financial amorality may infect the entire system. Crackdowns have started. Jail sentences, however, are not enough. The financial gain of "racketing" is too easily preserved for enjoyment after the sentence has been served.

A "black card" boycott system is under consideration by the government to stamp out this evil. Any one caught "racketing" would in effect be cast out of society with no right to a job or other perquisites under State control. But until drastic action is taken, the painter will continue to take home government paint and work on the side; the mechanic will steal tools off his job and go into a sideline of his own; the draftsman will fake "new" designs and get paid by the State at double or triple his actual output. Even the bosses are playing this game. It has become, in the words of the Polish proverb, "You wash my hand, I'll wash yours."

A third basic difficulty in the new Poland is the extraordinarily high birth rate. Abortions are now legal, and the State pays most of the cost. Since this drastic step was taken, legal abortions have been running at 200,000 a year. The full significance of Poland's high birth rate is this: a normal population increase would almost exactly wipe out the nation's planned increase in production over the next seven years.

A fourth defect in the economic and social structure of Poland is an astonishing aptitude for inebriation: At all hours of the day and night, in the cities, the towns and along the highways, the signs of drunkenness are painfully visible. It is something of a national phenomenon, stemming from a love of vodka that might seem quite natural in this land of potatoes, and from a massive under-employment throughout the economy. There is simply too much spare time for too many people.

Hooliganism is probably connected with the problem of vodka, but it does not seem to have reached the proportions of the United States. Riots sparked by the new sensation of rock-and-roll music, particularly in the big cities, have resulted in legal bans on at least one "cool" sextet. But in the hooliganism and the Western-style music, all of its delivered in English that is a carbon copy of the original recording, there seems to be a strong element of nose-thumbing at the regime.

These are among the chief concerns today of Gomulka and Co. Gomulka himself remains popular. The Communist regime, and particularly the Russian model, are quite universally scorned and in many cases, hated.

and social structure of Poland is an astonishing aptitude for inebriation: At all hours of the day and night, in the cities, the towns and along the highways, the signs of drunkenness are painfully visible. It is something of a national phenomenon, stemming from a love of vodka that might seem quite natural in this land of potatoes, and from a massive under-employment throughout the economy. There is simply too much spare time for too many people.

Auto Stocks Continue To Pace Market

NEW YORK — The independent auto producers backed away from huge recent gains and the stock market closed mixed Thursday after rallying from a slight decline. Trading was heavy.

Studebaker-Packard and American Motors continued the most active issues but were clipped back on profit taking. Electronics posted gains ranging from 2 to about 5 points as a Pentagon official said he would seek double spending on the Saturn space rocket.

The steels and rails sliced losses and in some cases made small gains as hope revived late in the day that a negotiated settlement of the steel strike may be forthcoming.

It was the 30th anniversary of the market crash, "Black Tuesday," Oct. 29, 1929. Thursday's session, however, had little in common with that fatal day.

The Dow Jones industrial average rose 1.51 to 645.11. Over-all, however, losers outnumbered gainers by 510 to 477. There were 25 new highs for the year and 28 new lows.

The Associated Press average of 60 stocks advanced 30 cents to \$24.40, with the industrials up 60 cents, the rails down 30 cents and the utilities up 10 cents.

Volume was 3,890,000 shares compared with 3,920,000 Wednesday.

Studebaker-Packard was off 2 1/2 at 25 1/2 on 389,600 shares. American Motors was off 1 at 77 1/2 on 101,300 shares.

American Stock Exchange prices were irregular on volume of 1,220,000 shares compared with 1,320,000 Wednesday.

Government bonds drifted lower.

Good Listening— Today On WSUI

A YOUNG LADY from Australia, Mrs. Avril O'Brien, has taken over the responsibility for preparing and rendering WSUI's Evening at the Opera series. From a family history of association with opera and her own keen interest in music, Mrs. O'Brien is able to make an effective and authoritative presentation of even the most unusual broadcast fare.

Tonight at 7:30 p.m. Mrs. O'Brien will lead listeners through "An Evening With Strauss the Younger." Next week's opera will be "Das Rheingold" by Wagner — the widely heralded new recording which features the singing of Kirsten Flagstad and Metropolitan Opera star George London, who will be appearing in recital on the SUI campus Nov. 10. (Suggestions, comments and criticisms relative to Evening at the Opera presentations are always welcomed.)

MUSIC BEFORE entering the "diamond horseshoe" at WSUI may be heard on Evening Concert tonight from 6 to 7:30 p.m. Selections include Printemps by Debussy; Piano Sonata No. 28 in A Major, Op. 101; Prelude and Liebestod from "Tristan and Isolde" by Wagner; and the Bartok Violin Concerto.

A SWINGING WEEKEND ought to begin with a relaxed but careful auditing of today's Tea Time at 4 p.m. Much concern and infinite pains go into the procurement and care and feeding of re-

cordings for this hour of jazz, popular music and commentary. And Saturday, Tea Time Special will feature a remarkable 15-minute history and eulogy of Billie Holiday — material sent to WSUI from California by former staff member Jim Wilke.

EDITORIAL OPINION in the nation's newspapers has not been as narrowly focused on a single matter this week as in previous weeks, despite continuing concern with the stoppage of steel production. It seems likely, therefore, that at 12:45 p.m. Editorial Page will have a broad variety of local and regional problems under discussion.

A BRAHMS TRIO, the one in E Flat, Op. 40, will be the principal work on KSUI-FM, from 7 p.m. to 10, tonight.

Industries Benefit Cities Many Ways

The importance of a new industry to a community is far greater than new jobs created in the industry itself, Charles Dore, president of the local Owens Brush Company told the Iowa City Rotary Club Thursday.

Quoting a national survey, he said one or two jobs in other lines are created for every job in the industry.

Dore added that there are other ways by which an industry benefits the community.

Payrolls are spent in the community, government units receive added taxes, and general expansion takes place that not only benefits the entire city, but also surrounding farm and trade areas.

Owens Brush Company has an annual payroll of more than \$1 million, Dore said.

He also explained some of the achievements of Owens Brush in the dental hygiene field.

His firm was the first to introduce waterproof and nylon bristles, was first to enclose brushes in glass for sterile delivery, and has introduced recently a "germ-fighter" brush that is impregnated with an anti-bacterial solution for cleanliness.

Owens manufactures Dr. West products and brushes for other brand names, and also manufactures, sells, and distributes brushes under its own brand name.

Dr. West toothbrushes are sold in 98 per cent of all drugstores in the United States, Dore said.

From 20 million brushes in 1920, sales have increased to 125 million in 1958, he said.

However, he commented, less than one brush per person is sold each year, and two-thirds of all toothbrushes in use today need replacement.

Marching Band 5 Physicists In Halloween Spirit Saturday To Report

A Halloween party, complete with witches, hobgoblins and "trick-or-treaters," will set the mood for the SUI Marching Band's half-time presentation at the SUI-Kansas State football game here Saturday.

Under the direction of Frederick C. Ebbs and Thomas L. Davis, director and assistant director, respectively, the 120-piece all-male band will run through five formations while playing nine songs.

The formations will include a jack-o'-lantern, a skeleton, a cat, a dance-routine formation, and the script letters KS, standing for Kansas State. The music will include "Birth of the Blues," "Misterioso," "Old Black Magic," "Dry Bones," "Siamese Cat Song," "Waltzing Cat," "Boo Hoo," "Blues in the Night" and "Wildcat Victory."

Robert Glover, B3, Steubenville, Ohio, is drum major for the SUI band. Twirlers are Ann-Nita Ekstrom, A3, New Carlisle, Ind., and Margaret Rossie, A2, Iowa City.

Physicists from SUI will make seven reports on SUI's cosmic ray and auroral zone research during the Midwest Cosmic Ray Conference to be held at SUI today and Saturday.

The SUI speakers include Kinsey Anderson, Donald Enemark, Carl Mellwain and Pamela Rothwell. Anderson is an assistant professor of physics at SUI; Enemark, a senior engineering student from Princeton, Minn.; Mellwain, a research assistant in physics, and Rothwell, an assistant professor of physics.

Frank McDonald, formerly of the SUI physics faculty, is also on the program. He is now on the staff of the Goddard Space Center, Washington, D.C.

The research of the SUI physicists has been done by rocket balloon. The rockets allow for higher penetration of the auroral zone but are limited in their reporting time, while the balloons allow much longer observations, though they do not reach the altitude the rockets do.

Veterans Hospital Has Open House, Tours On Nov. 10

In observance of Veterans Day, the Iowa City Veterans Administration Hospital will hold open house Nov. 10, from 2 to 4 p.m.

The public is invited to attend, and a special invitation has been extended to all junior and senior high school students. Tours of the hospital will be conducted starting at 2 p.m. from the main lobby on the first floor.

MEN ...who are Engineers, look twice at the many advantages CONVAIR-POMONA offers

NEW PROGRAMS at Convair-Pomona, offer excellent opportunities today for Engineers. Convair-Pomona, created the Army's newest weapon, REDEYE, Shoulder Fired MISSILE and developed the Navy's ADVANCED TERRIER and TARTAR MISSILES. Many other, still highly classified programs, stimulating the imagination of the most progressive thinking scientist and engineer are presently at various stages of development.

Positions are open for Bachelors, Masters and Doctorate candidates in the fields of Electronics, Aeronautics, Mechanics and Physics.

ADVANCEMENT opportunities are provided for the competent engineer as rapidly as his capabilities will permit in currently expanding programs.

PROFESSIONAL ENVIRONMENT—CONVAIR-POMONA'S facility is of modern design and completely air-conditioned. You will work with men who have pioneered the missile industry and are now engaged in some of the most advanced programs in existence.

ADVANCED EDUCATION — Tuition refund is provided for graduate work in the field of your speciality. Company sponsored in-plant training courses offer the Engineer the finest of educational opportunities.

CALIFORNIA LIVING — Suburban Pomona offers lower living costs and moderate priced property, unexcelled recreational facilities, freedom from rush hour traffic and the ultimate in comfort and gracious living.

Contact your placement office immediately to assure yourself of a campus interview with Convair-Pomona. November 4th. If personal interview is not possible send resume and grade transcript to B. L. Dixon, Engineering Personnel Administrator, Dept. CN-414, Pomona, California.

Hawks Hit Offense Again; Jauch Returns To Lineup

The Iowa Hawkeyes Thursday went through their next to last drill in preparations for the Kansas State game Saturday. Again most of the emphasis was on offense. The Hawkeyes are seeking to get back into high gear after last week's minute of-

Rice Won't Rent Football Stadium To Houston Pros

HOUSTON, Tex. (AP)—Rice Institute Thursday refused to rent its football stadium to a possible Houston entry in the National Football League.

Houston had been offered a franchise in the NFL under an expansion program due to begin in 1960. The franchise was granted on the condition that an adequate stadium would be available.

A memorandum from the board of the university restated the school's policy against use of the stadium for professional football.

Craig F. Cullinan said he and his group "will immediately re-examine our position and see what, if anything, can be done to keep from losing our National Football League franchise."

WRONG WAY ACE

MURPHYSBORO, Ill. (AP)—Herman Entsminger scored a hole-in-one on the No. 3 green at the Jackson County Country Club but wasn't happy about it. He had been aiming for the No. 9 green, 50 yards to the west.

fensive production at Purdue. Ray Jauch is now back at the right halfback position running with his customary determination.

MANHATTAN, Kan. (AP)—The Kansas State Wildcats worked on defense against Iowa plays for 45 minutes Thursday, then went inside for movies and a chalk talk.

The Wildcats will fly to Iowa City Friday morning for Saturday's game with Iowa.

At the left halfback spot Virgil Williams has moved up behind Bob Jeter.

Curt Merz, still bothered by bad knees, is the only Hawkeye not expected to be ready for action Saturday.

The Hawkeyes will be out to even up their season's record at 3-3 Saturday. Kansas State has a 1-5 record for the season and lost last week to Iowa State 27-0.

Both teams operate out of the winged-T and both boast good passers. The Hawkeyes have Olen Treadway and the Wildcats have John Solmos.

Tickets for the game are still on sale, with the crowd expected to be some 10,000 under stadium capacity.

Wider Goalposts Bring New Mark For Field Goals

NEW YORK (AP)—The football rules-makers who sought to encourage field goal kicking by widening the distance between the goal posts have been rewarded with a new record with the season little more than half over.

The NCAA Statistical Bureau reported Thursday that 118 field goals, an all-time major college record, have been kicked in 332 games so far—57 per cent of the major games scheduled. The previous record for a full season for major colleges was 105, made last year.

The distance between the goal posts was widened to 23 feet 4 inches from 18 feet 6 inches.

Des Moines Signs New Contract With Phillies

DES MOINES (AP)—Directors of the Des Moines baseball club in the Three-I League Thursday ratified a new working agreement with National League Philadelphia and re-hired Clay Dennis as general manager.

Herb Drey, president of Des Moines Baseball, Inc., said Dennis could have had a Phillies promotion to a club of higher classification but preferred to remain here at least another year.

The club reported its 1959 season netted a profit of \$8,000 with total assets of \$28,484.

YOUNG AWARD TO WYNN

BOSTON (AP)—Early Wynn of the Chicago White Sox Thursday was named the winner of the Cy Young Memorial Award as the outstanding pitcher in the major leagues during the 1959 baseball season. He had a 22-10 record for the year.

Hawk Harriers Meet Chicago Track Club Here Saturday

By GEORGE KAMPLING
Staff Writer

The Iowa cross country team goes after its third straight win tomorrow morning at 10:30, meeting the Chicago Track Club. The race will be run on the new Finkbine Golf Course, starting and ending in the Southwest corner at the sixth green.

The Hawkeyes, led by Jack Hill and Jim Tucker, have beaten Wisconsin, 18-42, and Marquette, 21-36. Last year Iowa edged the Track Club 28-29.

Iowa coach Francis Cretzmeyer said the Track Club team is "a terrific outfit." Not much is known about them this year except that they beat a strong Kansas team 21-26.

Top runner for the Track Club is Phil Coleman, a member of the United States Olympic team. He is also the present National AAU steeplechase champion.

Following Coleman is Gar Williams, former University of Chicago star. Against Kansas these two finished one-two, with Coleman going over the 4-mile route in 19:42.3, and Williams right behind him in 19:43.

Other members of the Chicago team include Dick Pond, who ran for Indiana, Hal Higdon, who started running at Carleton, and who has been with the Track Club for 6 or 7 years, and Ryan, formerly of Western Illinois.

For Iowa, Hill and Tucker have

TUCKER HILL

finished one-two in both meets, with Hill first against Wisconsin, and Tucker winning at Marquette. Don Greenlee finished fourth in both meets.

Other scorers for the Hawkeyes in their first two meets were Bruce Trimble and Ray Hermeier. Trimble finished in sixth place in both meets, and Hermeier finished fifth against Wisconsin and 8th last week against Marquette.

Hill won the Wisconsin race with a time of 20:26, and last week in the wind and rain Tucker covered the four mile route in 20:28.3.

Running for Iowa Saturday will be Tucker, Hill Greenlee, Trimble, Ray and Rich Hermeier, Leighton Betz, Bill Ashton, Harry Olson, Bill Mawe, Denny Rehder, and Ken Fearing.

The next meet for the Iowa Harriers will be a dual meet against Minnesota here Saturday, Nov. 7.

Cyclones Finish Drills For Kansas Contest

AMES (AP)—Iowa State's football team drilled for about two hours Thursday to polish off preparations for their Big Eight Conference game at Kansas Saturday.

Half of the time was spent reviewing the Jayhawk's offense and means to cope with it. The remainder was devoted to running, passing and kicking drills.

The Cyclones will fly to Kansas City Friday afternoon and take a bus from there to Lawrence.

17 GAME STREAK

LOS ANGELES (AP)—One of the best hitting comebacks in the National League was achieved by Wally Moon of the Los Angeles Dodgers.

After hitting .228 for St. Louis in 1958 he batted .302 for the Dodgers this year. A 17-game hitting streak from June 9 to June 24 boosted Moon's average from .290 to .328. He hit 19 homers, seven of them coming in September.

Alston Signs 1-Year Contract With Dodgers
 LOS ANGELES — Manager Walter Alston has signed a new one-year contract to pilot the world champion Los Angeles Dodgers and he gets a raise in pay.
 General Manager E. J. (Buzzie) Bavasi announced the signing Thursday after a talk with Alston at his home in Dartmouth, Ohio.

RED BLAIK... on football

Sees Ole Miss Knocking LSU From Unbeaten Ranks

Among the undefeated, Syracuse, Louisiana State, Mississippi, Northwestern and Southern California, are involved this week in "Homecoming" games. "Homecoming" is the return of old and young grads to alma mater for a social week end built around the football game. Although it is supposed to be a happy time, it is anything but to the coaches. In fact, the mere prospect of it makes them quail.
 The imminent hordes of quietly ominous, if not loudly threatening,

grads are not a picture to quiet the nerves of a losing coach. But the winning coach is no better off. Suppose his victorious streak should be terminated at this inauspicious time? "Homecoming" can scarcely be regarded without stirring ulcers, not even by those hardened characters who have survived several hangings-in-effigy and a rash of blistering editorials by the undergraduate editor.
 This forecaster, who was both hung in effigy and blistered after last week's games, looks to this week's with a slightly scarlet face and a psychological creak in the neck.

Mississippi Over Louisiana State. Ole Miss to end LSU's streak, finish undefeated, win the Southeastern Conference championship and play in the Sugar Bowl. This is not merely going out on the limb, it is also handing you the saw.

Michigan State over Ohio State. Coach Duffy Daugherty, of Michigan State, says he appreciates having the alumni behind him, win or tie.

Wisconsin over Michigan. With two out of three against Purdue, Iowa and Ohio State, the Badgers are in a good spot to make the big move toward "the big apple."

Purdue over Illinois. So are the Boiler-makers, with two out of three against Wisconsin, Ohio State and Iowa.

Northwestern over Indiana. The Wildcats, three for three in the Big Ten, can stay in the fight and lose one. I doubt they'll lose here.

Army over Air Force. The battle of the Pentagon-Yankee Stadium version. Coach, put me in, I'm ready to play now.

Notre Dame over Navy. The Irish are about due to replace crutches with shillelaghs.

Georgia Tech over Duke. The Blue Devils sound like a good Halloween pick, except Tech isn't scared of goblins.

Texas over Southern Methodist. Speed and balance to edge passing.
Southern California over California. The Trojans don't look as invincible as they did a month ago, but this is no year to pick Cal.

Hawklets Host Moline, Blues Close At Mt. Vernon Tonight

The Little Hawks of Iowa City High entertain Moline in a Mississippi Valley conference at 8 o'clock tonight, while the Blues of University High close their 1959 campaign at Mt. Vernon. The Regina Regals will close their season Monday at Davenport against the Assumption Reserves.

Hawklet coach Frank Bates said "We looked real good against Clinton. We passed and ran well." The City High team beat Clinton 40-13, with quarterback Frosty Evashevski throwing four touchdown passes.

"Moline has a good ball club," said Bates. "They have made some personnel changes since the beginning of the year, and have come along real well their last three games." Moline was beaten by East Moline by only one touchdown, and led until the last five

minutes of the game.
 The game tonight, and the last two games of the season, at Washington of Cedar Rapids, and Rock Island here, are counted as the toughest games of the season by the City High coach.

The U. High Blues take the field at Mt. Vernon tonight at 7:30 in their last game of the season. A win by coach Bob Hoff's outfit will give them a fourth place finish in the Eastern Iowa Hawkeye Conference. A loss, coupled with a win by Wilton Junction will give them a fourth place tie.

"We're not up mentally the way we should be for this game," said Hoff, speaking about the Mt. Vernon game. "Physically we're in the best shape we've been in all year."

Regina's closing contest with the Assumption reserves was originally scheduled for Saturday morning at 10 o'clock, but has been set back until Monday afternoon at 3:30.

The Regals had a successful homecoming last week, beating Durant 20-0.

Tackle Gary Droll is out of the Regal line-up this week, because of a sprained ankle.

Co-captains for Regina Monday will be Phil Carmody and Bill Dostal. The game will be played at Davenport's Municipal Stadium.

Tacoma Replaces Phoenix In PCL
 SALT LAKE CITY — Tacoma, Wash., replaced Phoenix, Ariz., as a member of the Pacific Coast League Thursday.
 PCL directors, meeting here, approved the change by unanimous vote.

League President Leslie O'Connor said the PCL is hopeful a Tacoma club will produce an intense baseball rivalry among Tacoma, Seattle and Portland that will greatly boost attendance.

Social Notes

ANYONE WEARING a costume will be welcome at Inter-Varsity Christian Fellowship's Halloween masquerade party this evening at 7:30 at the Coralville Free Church. Those desiring transportation should meet at the south entrance of Iowa Memorial Union by 7:15 p.m.

A MASS PLEDGE meeting will be held in Shambaugh Lecture Hall at 4:30 Monday afternoon for sorority pledges on campus.

LAW WIVES will honor law faculty wives at a tea from 2-4 Sunday afternoon in the University Clubrooms of Iowa Memorial Union. Those law wives not contacted are asked to call Anne Wright at 3845.

NEWMAN CLUB will sponsor a Halloween dance this evening from 8:45 to 11:45 in the River Room of Iowa Memorial Union. The Behm-Martin Sextet will provide the music.

Hey! Where's The Fire?

Look out! Here comes the Acacia social fraternity's "Volunteer Fire Department." Jim Rollins, E3, Iowa Falls; Ron Gibson, A4, Keokuk; Jim Young, A3, LeMars; Charlie Brothers, A1, Des Moines; Dick Broer, A4, New Providence; Ray Rash, B4, Eldora; Ed Bleakly, A4, Storm Lake, and Jerry Vlotho, A1, Ireton. Don't worry, though — your fire safety isn't in their hands. The truck was purchased "just for fun" in September. — Daily Iowan Photo by Tom Hoffer.

By RAY BURDICK
Assistant City Editor

Ever see a fire truck go speeding through the streets?

Ever wish you could be on it, with the sirens screaming in your ears and the wind blowing in your face?

Well, the men at Acacia fraternity, 202 Ellis Ave., don't have to look on in envy any more. They bought their own fire truck.

Don't run and check over your fire insurance policies, though. The "Acacia Volunteer Fire Department" does not intend to put out any fires. The truck was bought "just for fun" said Jim Gines, E4, Iowa Falls, Acacia man who first discovered the vehicle.

"Although," he added, "the pumps still work."

Gines said the truck has been a source of many good times since its purchase in September. He cited such instances as Homecoming, when the little red 1933 Nott Universal truck carried about 45 Acacia men, alums, and friends to the football game, and actually succeeded in entering the stadium area.

The preceding week it had made its debut on Iowa City streets as the campaign wagon for Miss SUI candidate Carol Johnson, N2, Clinton. "And," Gines said, "we drive it to intramural games and things like that. We have a ball with it."

A recent issue of an all-fraternity magazine suggested fraternities have something unique like a fire truck to appeal to younger generations who might become prospective fraternity members some day. Gines said they didn't have anything like that in mind when they bought the wagon, that they just got it for the fun of it.

Gines discovered the truck in Rock Island, Ill., as he was driving to Iowa City from Chicago right before rush week in September. He said he thought it would be a good idea for the house to have a fire truck. A few weeks later he and some fraternity brothers drove back to investigate the matter.

Gines said they had planned to ask the owner where he bought

the vehicle so they might try to get one from the same place, but the man who owned it, Carl Haas, of Rock Island, was willing to sell his truck.

Haas had been using the fire truck to advertise his Hawaiian Lounge tavern in Rock Island. He bought it from the Vinton fire department six months ago, and prior to that time it had served the town faithfully since it was new.

Next came the problem of raising the \$600 necessary for its purchase.

Gines and two associates, Dick Broer, A4, New Providence, and Ed Bleakly, A4, Storm Lake, solved the problem quite handily by selling stock to fraternity members at \$20 a share. Gines said there are about 11 stockholders right now. He said they have no actual stock certificates, but plan to have some printed soon.

According to Gines two projects are going on in regard to the truck. One is to find authentic fire fighting equipment to place on it, because the vehicle was stripped before the Vinton Fire Department sold it.

Pete Knapp, assistant professor of agricultural medicine at SUI and National Scholarship Chairman for the Acacia fraternity is presently checking around for equipment. Knapp said he has found a similar fire truck at the Amana colonies and hopes to buy some equipment off it.

The second project is to find an appropriate name for the fire truck. Gines said a contest held among members failed to produce any appropriate names and another contest would be held.

Now what would be a good name for a little red fire engine which served its town faithfully for many years, became an advertisement for a tavern, and now is in the possession of an SUI social fraternity?

Any suggestions?
NUTRIENTS IN POTATOES
Potatoes offer a lot of food value inexpensively; they provide calories, iron and thiamine every month of the year; at some seasons they also provide vitamin C.

Sororities, Fraternity Initiate

Gamma Phi Beta social sorority recently initiated nine women into active membership. The new initiates include:

A column of incidental intelligence by **Jockey brand**

"APPLE OF THE EYE"
For this overworked phrase, we must turn to the world's richest source of quotations—the Bible. Specifically, the Old Testament, Deuteronomy, XXXII, 10: "He kept him as the apple of his eye."

"ALL IS NOT GOLD"
Seems like everybody had a crack at this piece of homely philosophy, but the originator seems to be Geoffrey Chaucer, in "The House of Fame", Book I: "Hyl is not all gold that glareth"

"COUNT 10..."
Was there any limit to the talents of Thomas Jefferson? Statesman, scientist, architect—he also authored this admonition: "When angry, count ten before you speak; if very angry, a hundred."

Jockey T-Shirts
The most respected, creative name in underwear is Jockey brand. It stands for reason, then, that Jockey brand T-shirts are unmatched for quality as well as styling. You can choose from standard crew neck T-shirt, "taper-tee" shirt, sleeveless I-shirt, and V-neck T-shirt models. Every man needs a drawer full of T-shirts—and the label to look for is Jockey brand. Let it guide you to the world's finest underwear.

Speaker To Discuss Cancer At Radiologists Conference

How cancer spreads in the body will be discussed by Dr. G. O. McDonald, associate professor of surgery, University of Illinois, before some 60 Iowa radiologists this afternoon at the postgraduate course in radiology being held at University Hospitals.

Dr. McDonald is a guest faculty member for the course and is sponsored by the Iowa Division of the American Cancer Society.

Dr. George R. Barnes, assistant professor of radiology at SUI, said Dr. McDonald's talk will deal mainly with abdominal cancer.

What is known about the spread of cancer and various theories about its spread will be included in the discussion.

The Iowa Radiological Society and the Department of Radiology, SUI College of Medicine, are sponsors of the course being held here this afternoon and Saturday morning. Annual meeting of the Iowa Society will be today.

Review of problems of mutual

interest to Iowa radiologists is the purpose of the course, Dr. Barnes said.

Another guest faculty member will be Dr. Paul T. Meyers, Gillfillan Clinic, Bloomfield.

Four SUI radiology faculty members will take part. They are Dr. Frank M. Behlke, Dr. John T. Keller, Dr. Howard B. Latourette and Dr. E. F. Van Epps. Dr. John Leabhart, orthopedics, also will serve.

Dr. Van Epps, head of the Department of Radiology here, will be moderator for the program.

This evening there will be a social hour and dinner at the Mayflower. Wives of visiting radiologists will be guests.

MANY OTHERS to Choose From!

Loveless Names Committees To Aid Middle-Aged, Elderly

DES MOINES (AP)—Gov. Herschel Loveless set in motion Thursday state plans for a long range program to assure a useful place in society for Iowa elderly citizens and those approaching middle age.

In one action he named a committee known as the State Government Interdepartmental Committee on Aging and also launched "Project 45 on the Iowa Program for Senior Citizens."

The program, he said, was to prepare for Iowa's participation in the White House Conference on Aging in Washington in 1961.

Loveless said that people 45 and over throughout the country are not realizing their full potential as productive citizens.

"In one sense they are not being used to the full extent of their value as a human resource," he said. "In another sense they are simply not getting a fair shake."

"In many areas they are discriminated against in employment

for reasons that don't bear up under examination. They have more difficult problems than those younger in adjusting to the changes brought about by the agricultural revolution and the migration from rural regions to our cities.

"They have problems of housing, health, education, recreation and many other descriptions."

"The purpose of our program is to define these programs and to do something about them."

Wind, Floods Cost Mexico 1,000 Lives

MEXICO CITY (AP)—Hurricane winds and floods may have taken more than 1,000 lives in the Pacific Coast states of Colima and Jalisco, the Mexican Government said Thursday.

Reports to President Adolfo Lopez Mateos' office said that as many as 800 are believed dead in Minatitlan, a farm community of about 10,000 population 24 miles northwest of Colima, the Colima State capital.

Many other places were still to be heard from.

The tragedy in Minatitlan boosted the death toll of the weekend disaster. Scores are still missing, hundreds injured, and thousands homeless.

A radio message to the president from Dr. Rafael Chavez Carillo, brother of Colima's governor, pleaded for the rapid dispatch of food and medicine. Food shortages were described as acute in all Jalisco towns which managed to get reports to Mexico City.

The Government assigned planes and helicopters to drop food, blankets and medicines to isolated persons in outlying villages. Some refugees were on rooftops and in trees.

President Enters Med Center For Annual Checkup

WASHINGTON (AP)—President Eisenhower entered Walter Reed Army Medical Center Thursday for his annual head-to-toe physical checkup.

He drove directly to the huge hospital from Burning Tree Country Club in suburban Maryland where he played golf during the afternoon in crisp fall weather.

Press Secretary James C. Hagerty announced Wednesday that the President planned to have his annual health check soon.

Hagerty said the examination has nothing to do with the cold Eisenhower has been trying to shake since last month.

Eisenhower's last complete physical examination was Oct. 3-4 of last year at Walter Reed.

On Campus with Max Shulman
(Author of "I Was a Teen-age Dwarf", "The Many Loves of Dobie Gillis", etc.)

LANGUAGE MADE SIMPLE: NO. 1

In this day of swift international communications, like radio, television, and the raft, it becomes more and more important to be solidly grounded in foreign languages. Accordingly, I have asked the makers of Philip Morris whether I might not occasionally forego levity in this column and instead use it for a lesson in language.

"Of course, silly!" chuckled the makers of Philip Morris, tousling my yellow locks. Oh, grand men they are, just as full of natural goodness as the cigarettes they make, just as clean and fresh, just as friendly, just as agreeable to have along in all times and climes and places. "Of course, fond boy," laughed the makers and tossed me up and down in a blanket until, giddy with giggling, I bade them desist, and then we all had basins of farina and smoked Philip Morris and sang songs until the campfire had turned to embers.

For our first lesson in language we will take up French. We will approach French in the modern manner—ignoring the tedious rules of grammar and concentrating instead on idiom. After all, when we go to France, what does it matter if we can parse and conjugate? What matters is that we should be able to speak idiomatic conversational French.

So, for the first exercise, translate the following real, true-to-life dialogue between two real, true-to-life Frenchmen named Claude (pronounced *Clahd*) and Pierre (also pronounced *Clahd*).

CLAUDE: Good morning, sir. Can you direct me to the nearest monk?

PIERRE: I have regret, but I am a stranger here myself.

CLAUDE: Is it that you come from the France?

PIERRE: You have right.

CLAUDE: I also. Come, let us mount the airplane and return ourselves to the France.

PIERRE: We must defend from smoking until the airplane elevates itself.

CLAUDE: Ah, how it has elevated itself. Will you have a Philippe Maurice?

PIERRE: Mercy.

CLAUDE: How many years has the small gray cat of the sick admiral?

PIERRE: She has four years, but the tall brown dog of the short blacksmith has only three.

CLAUDE: In the garden of my aunt it makes warm in the summer and cold in the winter.

PIERRE: What a coincidence! In the garden of my aunt too!

CLAUDE: Ah, we are landing. Regard how the airplane depresses itself.

PIERRE: What shall you do in the France?

CLAUDE: I shall make a promenade and see various sights of cultural significance, like the Louvre, the Tomb of Napoleon, and the Eiffel Tower . . . What shall you do?

PIERRE: I shall try to pick up the stewardess.

CLAUDE: Long live the France!
