**32 SUI Collegians Apply For Fulbright Scholarships**

Thirty-two SUI students have applied for Fulbright scholarships abroad for the 1960-61 school year. W. Wallace Maner, Fulbright program adviser, has announced.

The number is the largest ever to apply from SUI, Maner said. Applications were received for study in eight countries. Four were received from graduating seniors.

The most popular country for SUIIowans was France, for which eight applied. Five persons applied for study in the United Kingdom

and Germany. Other countries were Italy, Japan, the Netherlands, Spain, and Ireland.

The 32 candidates will be reviewed by the National Selection Committee who will notify candidates whose applications have been favorably reviewed. Final awards will be announced later in the spring, Maner said.

Last year 10 SUI students studied on Fulbright scholarships. Twenty-two students applied, Maner said. There are 900 awards

given in the United States.

Basic requirements for the awards are United States citizenship, bachelor's degree, knowledge of the language spoken in the country where study is desired and good health. Basis of selection includes the applicant's personal qualifications, academic record and demonstrated capacity for individual study.

The awards cover transportation, expenses of a language refresher or orientation course, tuition, books and maintenance for one academic year. Study can be done in one of 27 countries.

Competition for study during the 1961-62 will begin about May 1, Maner said.

**VD Reported On Increase Among Youths**

WASHINGTON (AP) — Venereal disease appears to be on the increase again throughout the nation, including "shocking" rises among youths 15 to 19 years old, a Public Health Service official reported Monday.

Dr. William J. Brown, of the service's Communicable Disease Center at Atlanta, said there is evidence suggesting a steady rise since 1954. He blamed, among other things, false confidence by the general public, and even some doctors, that penicillin alone could eradicate gonorrhea and syphilis.

He said that as regards syphilis, for example, Americans in the pre-penicillin era looked upon it as a threat of life, health and sanity. Now, he said, the public attitude toward the disease is "as fickle and transitory as it was toward the jig-saw puzzle and the hula hoop."

Addressing the 66th annual convention of the Association of Military Surgeons of the United States, Dr. Brown warned that if VD is to be eradicated there must be closer attention by the public to getting proper medical attention; more accurate diagnosis of cases, and — above all — more checking into the sexual contacts of known cases.

"Recently," he said, "private physicians, clinics and hospitals have reported increases in both early syphilis and gonorrhea in colored and white, male and female, poor and rich, young and old, urban and rural, and every category in between, all across the country."

Of particular interest to military doctors, are increases in syphilis averaging 200 per cent over a period of three years in such military and recreational areas as Boston, Chicago, Houston, San Francisco, Los Angeles, and the national capital, he said.

"And, unfortunately, we're seeing shocking increases in the 15-19 year age group. In this group alone, reported infectious VD rose from 45,000 cases in 1957 to 49,500 in 1958."

He declared that VD still kills at least 4,000 Americans every year and that the nation is still paying 48 million dollars annually for hospitalizing patients with mental derangement due to syphilis.

**MAY SALVAGE WARSHIPS**  
TOKYO (AP) — A survey team of experts from five Japanese salvage companies has sailed for Indonesian waters to investigate the possibilities of salvaging Japanese warships sunk in the area in World War II.

**Vacant House Seat Filled For By Benda**

HARTWICK (AP) — Kenneth J. Benda, 41-year-old Hartwick banker and former Iowa American Legion commander, announced late Monday his candidacy for the Republican nomination for 4th District congressman.

He is the first to formally announce for the seat held by the late Rep. Steven V. Carter, Leon Democrat. A special election will be held Dec. 15 to select Carter's successor.

Benda was Legion Commander in 1956-57, is executive vice president of the Hartwick State Bank, and has been associated with the bank for 13 years. He also deals in real estate, insurance and farming.

Benda is a World War II veteran a member of the Navy reserve, is married, and has two children. Mrs. Benda is assistant cashier of the bank.

**Four Men Sentenced For Mineola Burglary**

COUNCIL BLUFFS (AP) — Four men who had pleaded guilty in the \$1,442 Mineola State Bank burglary last June 15 were sentenced in U.S. District Court Monday.

Sentenced to 12 years each were Robert Leroy Engler, 20, Omaha; Joseph James Bongiorno Jr., 28, Omaha and Council Bluffs; and Gordon Russell Hopkins, 30, Plattsmouth, Neb.

Sentenced to five years was John Henry Taylor, 29, of Omaha.

## Syracuse Noncommittal On Plans For Bowl Game

NEW YORK (AP) — The Syracuse football coach, Ben Schwartzwalder, had a ready answer Monday when New York football writers asked him about a bowl game. "We've already had our bowl," he said, pausing briefly — "The Oyster Bowl. Syracuse played Navy at Norfolk, Va., last month in a regularly scheduled game called the Oyster Bowl. "Seriously, we've had enough hexes already," he added. "That is the department of Mr. Lew Andreas, our athletic director. I think Lew will talk to anybody

about anything. I am just the football coach. Anybody Lew schedules we will play. I think Lew is ready to do business with the right folks." Val Pinchbeck, Syracuse sports publicity director, said Andreas told him in Syracuse he had received no formal offers. However, the university's athletic advisory board meets Tuesday. An invitation might be received in time to be considered at that meeting.

The final decision, of course, will be made by Chancellor William Tolley. It is understood the players had an informal discussion of the bowl situation after Saturday's 20-18 victory over Penn State. In the absence of any official word, it appeared Syracuse, fourth-ranked a week ago and headed for a promotion, probably was destined for either the Orange Bowl in Miami or the Cotton Bowl in Dallas.

Schwartzwalder outlined the basic offense of his team that has won seven straight. "The ride series is the heart of our offense," he said. "The quarterback has three options. He sticks the ball in the fullback's stomach and looks to the defensive end. Depending on what he sees, he leaves it there or takes it back. If he keeps, he might pitch out."

"We are the only ones dumb enough to try something like this. We stuck with it although we had our doubts. It began to pay off against Pittsburgh. The last two games our ride series was back where we hoped it would be last spring."

## Wilkinson Plays Role Of Pessimist

NORMAN, Okla. (AP) — Coach Bud Wilkinson told a news conference Monday he thought it was a fine thing for his Oklahoma football team to be playing Army but added quickly, "we probably won't feel that way Saturday night." The Sooners and the Cadets meet at Owen Field Saturday and already the game is sold out for a crowd of 61,700.

"The purpose of competition is to play teams who know what they're doing," Wilkinson said, "and Army is one of those teams."

Asked if he thought it would be a pretty even game, Wilkinson replied: "I don't really know but if a team gets going it can beat anybody badly. We haven't been an explosive club and Army plays real well."

Wilkinson said Oklahoma possibly will have an advantage in playing its three remaining games at home. "Actually, the team has a chance to concentrate on a game when it is traveling away from home," he said, "but I think the warmth of home helps."

## Western Schools' New Conference Plans Formulated

ST. LOUIS (AP) — Plans for the eventual formation of a major new athletic conference of state colleges and universities in Idaho, Montana, and North and South Dakota moved a step nearer realization Monday.

Officials of seven of the eight schools involved continued their informal discussion here at the convention of the American Association of Land Grant Colleges and State Universities. The University of South Dakota was not represented, but submitted a statement saying it was definitely interested.

Dr. Roland R. Renne, president of Montana State College, said the group has agreed to continue exploratory discussions on the conference. No specific plans for those discussions have been made, he said, but "the interest among the university and college officials indicates that consideration of the conference be continued."

## Harriers Dump Gophers For 3rd Win Of Season

Iowa's cross country squad warmed up for the Big Ten championships in sub-freezing temperatures Saturday morning as they downed Minnesota 21-37.

The Hawkeyes took three of the top four places and five of the top seven as they swamped the highly rated Minnesota squad. Jim Tucker became Iowa's first double winner as he raced home in front in the time of 21 minutes 15.4 seconds. A distant second was Minnesota's Bart Bentems. Don

Greenlee and Jack Hill grabbed third and fourth for the Hawkeyes.

The win was the third in four dual meets this season for the Hawkeyes. The sole setback came at the hands of the Chicago Track Club, one of the strongest teams in the Midwest.

The Hawkeyes depart Thursday for Chicago and the Big Ten meet. The four-mile race will be held Friday morning in Chicago's Washington Park. Last year the Hawkeyes took second place behind Michigan State.

## COMPACT CARS RACE

SEBRING, Fla. (AP) — A two-hour competitive race will test the new American compact cars against European imports of the same size at the Sebring road racing courses on Saturday morning, Dec. 12. The first Grand Prix of the United States will be held in the afternoon.

When it comes to career planning, do you find yourself in a predicament?

Perhaps you should look into the possibilities offered by a career in the life insurance business. Provident Mutual offers college men excellent opportunities in sales and sales management.

Take the time now to talk with us about our training program. We'll be glad to fill you in on the details.

## Engineering and Science Majors:

# Step right into the SPACE AGE with one of the Great Names in Industry

Space age division of Ford Motor Company has unique opportunities for exceptional engineering and science graduates at new research and engineering center in Newport Beach, Southern California.

### CAMPUS INTERVIEWS

November 17  
Talk to the Aeronutronic Staff Representative about your interests and specialties when he's here on campus. Register now with your school engineering placement bureau for an interview.

for the space age. Rapid and accelerating growth of Aeronutronic, the dynamic new division of Ford Motor Company, is creating unequalled opportunities for young men who have chosen to specialize in one of the vital and challenging areas of space sciences, tactical weapon systems, missile range systems, advanced electronics and communications, data processing and computer technology.

Here are some straight answers to questions you may have about Aeronutronic:

<b>Who is Aeronutronic?</b>	AERONUTRONIC was established in 1956 by Ford Motor Company to engage in research, development and manufacture of advanced systems and products for military and commercial purposes.	<b>What kind of assignments can I expect?</b>	Research, design, engineering and development positions are open to exceptional graduates in fields of space sciences, tactical weapon systems, advanced electronics and communications, and computer and data processing technology. (Specific openings are described in new career opportunities booklet offered below.)
<b>What are its major areas of research?</b>	Aeronutronic consists of five main technical groups: Advanced Research Operations; Space Technology Operations; Tactical Weapon Systems Operations; Computer Operations; and Range Systems Operations.	<b>Do they have competent leadership?</b>	Aeronutronic is a business-oriented organization, headed up by Ford Motor Company Vice-President, Gerald J. Lynch, and other business, scientific and production managers experienced in the application of sound management principles.
<b>What business does Aeronutronic have?</b>	More than 40 government and commercial programs are currently in work — programs like SHILLELAGH, the Army's new surface-to-surface missile; FLIDEN, for the Federal Aviation Agency; and Range Planning Study for NASA's Project "Mercury."	<b>Where does Aeronutronic stand in R &amp; D work?</b>	By the end of June, 1958, as an example, Aeronutronic moved from 132nd to 48th place among prime sources for government R & D contracts.
<b>What kind of backing does Aeronutronic have?</b>	Ford Motor Company resources provide the finest facilities and financial support for carrying out complete research, development and manufacturing operations — plus additional unlimited production support when needed.	<b>Where is Aeronutronic located?</b>	Aeronutronic's new facility is located on a 200-acre site overlooking the harbor and Pacific Ocean at Newport Beach in Southern California, the West's most ideal area for living, working and raising a family.
<b>What kind of facilities do they have?</b>	Ultra-modern \$22 million Engineering and Research Center is now under construction and already partially occupied. When completed in 1962, the new complex will have over eight major structures totalling over one million square feet.	<b>What other benefits can I expect?</b>	Ford Motor Company employee benefits are considered the finest in the industry — Ford savings programs, exceptional insurance and hospitalization plans, paid vacations and sick leave, regular salary increases, and many other benefits equal to or better than the industry standard.

If you are one of these forward-looking engineers or scientists who is serious about the future and a good start toward it, you already have some ideas of your own as to what you require in a career position. Jot down your needs and compare them with this unusual combination of advantages considered the most outstanding in the industry. Then, take a few minutes to

talk with the Aeronutronic representative about your interests and specialties when he's at your campus. Or, for more information, send for free booklet "Career Opportunities for Engineers and Scientists." Write to: Aeronutronic, a division of Ford Motor Company, Ford Road, Newport Beach, California, Attention: Graduate Placement Dept. B20

**Bob Crosbys Admit Fight, But Have Different Stories**

HOLLYWOOD — The Bob Crosbys agreed Monday they had a fight Saturday night in which bandleader Bob was stabbed in the shoulder with a letter opener. But each told a different version.

June Crosby, 39, said her husband, without provocation, punched her with his fist and broke one of her ribs while their 8-year-old daughter watched.

Crosby, 46, brother of crooner Bing, denied striking her and said: "My wife just blew up. If she was injured it was during the tussle for possession of the letter opener."

Mrs. Crosby told a reporter: "It's happened many times before. If you live with Bob on the inside, he's not the easy-going Crosby that the public imagines him to be."

Bob, reached at the home of his brother Larry, said: "It's regrettable. But my wife just blew up. It was the result of a series of family crises. She just built up to it and I don't think she really wanted to injure me with that letter opener. She was in a fit of rage."

Crosby said it took five stitches to close the shoulder wound. He was also scraped on the arm and stomach. His injuries were not serious.

**Publisher Of Quarterly To Attend Conference**  
Dr. James I. Robertson, editor and business manager of Civil War History, quarterly published at SUI, will participate in the third annual Civil War Conference to be held at Gettysburg, Penn., Nov. 19-21.

The three-day conference, to be held on the campus of Gettysburg College, will consider the wartime leadership of Abraham Lincoln.

**COPTER CRASH LANDING**  
ROME — A helicopter crashed in Rome's busy Piazza Esedra Monday, damaging electric lines and causing an hour-long traffic jam. The pilot, Oscar Cavazzina, 37, suffered a sprained foot. The other occupant escaped injury. The driver of a passing bus was injured by glass splinters.

**Paul Parker Named Head Of SUI Dads**

Paul Parker, Moline, Ill., was elected president of the SUI Dads Association at the group's annual meeting during Dad's Day Saturday.

Parker, who is associated with the John Deere Plow Co., served as a member of the association's executive committee last year. His son, William, is a junior in SUI College of Dentistry.

Clark Caldwell, Iowa City, one of the founding fathers of the SUI Dads Association and a 1929 graduate of the College of Commerce, was elected first vice-president. Caldwell's wife, Margaret, and daughters, Virginia, and Patricia, are SUI graduates and another daughter, Mary, is now a sophomore at SUI.

Elected second vice-president was Rex Bateson, Eldora, a member of the law firm of Bateson, Ryan and Dunn and a 1925 graduate of the College of Law. His son, Bob, is now a senior in the College of Law and his daughter, Bette Jean, is a senior in liberal arts at SUI.

Ed Hoffman, Moline, Ill., a vice-president of the Bituminous Casualty Corp., was elected third vice-president. His son, Charles, is a sophomore in liberal arts.

A 1935 graduate of the College of Law, Burton Dull of LeMars, was elected treasurer of the association. Burton's son, John, is a senior in liberal arts and his daughter, Jean, is a freshman at SUI.

Elected members-at-large of the executive committee were Francis T. Shadle, Esterville, the outgoing president; Walter Voecks, Waverly, who served as first vice-president the past year, and Howard Hills, Mount Pleasant.

The SUI Dads Association was organized by a group of fathers of SUI students to create closer ties between parents and the University through a better understanding of the University, its problems and goals.

**JET INTERCEPTERS COLLIDE**  
DURANT, Okla. — Two F86L Advance jet interceptors collided Monday and crashed near Albany, Okla., southwest of Durant, near the Texas line. Both pilots parachuted to safety.

**U.S. Hits Cuban Action**

WASHINGTON — For the second time in less than two weeks the United States bluntly told Cuba's Castro regime Monday it was spreading inaccurate and misleading charges against the U.S. government.

The State Department added that a brochure published by the Cuban ministry of state had become an offensive addition to a campaign of hostility in Cuba.

The Cuban ministry Monday distributed copies of a pamphlet indicating the United States was responsible for the death of two persons and injury of 45 in an outbreak of violence in Havana last Oct. 21.

The State Department said eyewitness reports indicate that many, if not all, of the casualties were victims of the Cuban armed forces' own gunfire, or of bombs thrown from automobiles by terrorists.

Prime Minister Fidel Castro has charged the United States did nothing to stop bombing of a defenseless nation.

The department has contended there is no evidence that a plane which left Florida to drop leaflets on Havana also dropped bombs or strafed the Cuban capital.

**Social Notes**

**SUI DAMES** "Slim and Trim" group will meet tonight at 7:45 in Conference Room 2 of the Iowa Memorial Union. Members should bring 50 cents for bowling.

**SUI DAMES** will hold their regular meeting Thursday at 7:45 in the River Room. Bridge and other games will be played following the business meeting.

**Two Profs Finish Revision Of Book**

Anna Overland, associate professor in the College of Nursing at SUI, and Dr. Richard D. Bryant, professor in the College of Medicine at the University of Cincinnati, recently completed revision for the sixth edition of "Obstetric Management and Nursing" by Henry L. Woodward, M.D., and Bernice Gardner, R.N. The book is published by F. A. Davis Company, Philadelphia.

The obstetrical nursing textbook is used by junior students at SUI for the course "Nursing of Mothers and Infants."

**LANDSLIDE KILLS 5**  
BOMBAY, India — Five construction workers perished and five were injured in a landslide Monday. Two men are missing. The accident took place at a hill which is being leveled for a highway connecting Bombay with Agra.
