

New Space 'Eye' Sends Pictures to U.S.

Earth Satellite Called Tiros No. 1 in Series

Midwest Storm First To Be Snapped; Will Watch World Weather

By EARL UBELL
Herald Tribune News Service

NEW YORK — Weather forecasting by Earth satellite is on its way: The United States, scoring a notable first, launched an electronic eye into orbit at 6:40 a.m. Friday. Already it has snapped a TV-like picture of a Midwest storm.

This is only the beginning. Tiros, a 270-pound, \$12 million oversized "hatbox," presages a family of man-made moons called Nimbus which, starting next year, will keep continuous watch on world-wide weather.

Now in a tight circular orbit at 450 miles altitude, Tiros can take photographs of two-thirds of the Earth's surface, but only when its camera is pointing earthward on a sunlit region. Although Tiros passes over Russia and China, its camera is too fuzzy for military reconnaissance.

Although Tiros will stay in orbit for two decades and its solar-powered electronic equipment may last for years, its weather usefulness may extend only three months. That's because there is no way of pointing the camera at a selected spot on Earth.

As the satellite goes around its orbit, the eyes point in one direction in space. In three months that eye will be pointing out into space most of the time or at a dark Earth. In six months to nine months, the satellite may be "good" again.

Nimbus will be better. A small jet engine aboard will constantly correct the orientation and keep the camera pointed directly at the Earth. Furthermore, launched in a pole-to-pole orbit, Nimbus will "see" the whole planet.

Tiros, launched by a Thor-Able rocket from Cape Canaveral, flies in a 99.15 minute orbit which reaches latitude 50 degrees south. Varying between 435 miles altitude and 468 miles, the orbit is the closest to a circle ever achieved by any man-made moon.

Tiros gets its name from an abbreviation of television and intra-red observation satellite (Nimbus is the name of a cloud). Tiros II, scheduled for later this year, will have an intra-red device not included in Tiros I for measuring temperatures on the Earth's surface.

Together, the cloud pictures and temperatures, should give weathermen the most complete picture ever obtained of world weather. Dr. Harry Wexler, the U.S. Weather Bureau's chief meteorologist, said after seeing the pictures that Tiros had proved that a space weather observatory is feasible.

No scientist would predict the ultimate value of Nimbus, although some believe that it may revolutionize weather prediction and control. For example:

Scientists have never really observed the birth of a hurricane. A weather satellite could watch its development from an innocuous-looking Caribbean storm. With the knowledge, weathermen may learn how to break up a baby hurricane before it grows to adulthood.

The first pictures transmitted to Fort Monmouth, N.J., covered an area of 640,000 square miles and centered on seven islands near the mouth of the St. Lawrence. They also showed the cloud cover over the area with land masses and water providing a black background.

Actually, the wide angle camera can take a strip of 32 still pictures 800 miles wide and 3,500 miles long. That's enough to get the weather picture of half the United States in one orbital pass. A narrow angle camera can concentrate on a small area within the wide angle camera's view.

The image caught by the lens is stored electronically on a vidicon tube screen. Next, the stored picture is converted to electric pulses that can be recorded on a magnetic tape. At a radio command from Fort Monmouth, or Kaena Point, Hawaii, the tape "plays" the picture over the radio.

On the ground the radio signals are converted to television pictures which can then be photographed on film. The scientists also put devices for sensing the sun and the horizon aboard Tiros. This can tell them which way the camera pointed when it took the picture.

More Flood Danger Lingers

Can Stockpile Nuclear Weapons—

France Joins 'Atom Club'

By B. J. CUTLER
Herald Tribune News Service

PARIS — France's second atomic explosion, triggered in the Sahara Desert Friday morning, proves conclusively that it has the ability to build and stockpile militarily-usable nuclear weapons.

This is the conclusion of French and foreign experts here after the announcement that a small plutonium device had been successfully detonated at 6:17 a.m. at the Reggan Test Base, about 750 miles southwest of Algiers.

The bomb, a prototype, was authoritatively described as much smaller, lighter, and less powerful than the bulky device which was exploded at the same base Feb. 13.

Mindful of the bitter reactions of African nations to its nuclear tests, the Government stated that "all precautions were naturally taken so that the fallout would not present any danger to the populations."

Unlike the first device which was exploded at the top of a 336-foot steel tower, Friday's test took place on a stand near ground level. It was explained that technicians wanted to study the crater it produced—a question of obvious military significance.

Defense Ministry officials said the weather conditions were such that the fallout would be concentrated in the Reggan area, which is sparsely inhabited desert territory. The mushroom shaped cloud was reported to have drifted to the southeast over the Tanezouft, the uninhabited "desert of thirst."

The explosion had been planned for Thursday morning, but was postponed for 24 hours for better wind conditions to reduce the chance of radioactive fallout on inhabited localities.

No further French tests are likely to take place before the fall, military authorities said. From mid-April to Oct. 1 wind conditions and the intense desert heat around Reggan are not favorable for nuclear explosions.

With its two tests, France has apparently acquired the know-how to produce atomic bombs, ranging from city busters to tactical weapons for purposes of use. Leaving no doubt about where the country stood, a Defense official said:

"This second device was much less powerful than the first. I can also tell you that it was much smaller. Its dimensions and weight would make it possible for a very small number of adaptations to make it militarily usable."

Apparently a number of technical improvements were used in the test. Officials said they used a new triggering system, in which a smaller quantity of conventional explosive was needed to bring the plutonium together, into the "critical mass," which unleashed the nuclear explosion.

Although France has arrived later than the United States, the Soviet Union, and Britain in the atomic bomb field, it seems to have done so with a high degree of technical proficiency and possibly some advances.

Applications Still Available For DI Editor

The editor of The Daily Iowan for the term of May 16, 1960 through May 15, 1961 will be chosen April 13 by the Board of Trustees of Student Publications, Inc.

Applications for the position must be filed at the School of Journalism Office, 205 Communications Center, before Wednesday, April 6.

Applications should include a letter from the registrar giving current cumulative grade point average. Details regarding application procedure are available at the School of Journalism Office.

The editor of The Daily Iowan supervises the news operation in general and the editorial page and its contents in particular. John Harrison, publisher of The Daily Iowan, said.

The editor establishes and is responsible for the editorial and news policy of the paper. He, in turn, is responsible to Student Publications, Inc. for any and all matters they may wish to consider, Harrison said.

President Eisenhower displays four photographs made by the weather-eye satellite hurled into orbit around the Earth Friday. The White House said the dark area at lower right in the photos is the Gulf of St. Lawrence. The white is cloud cover. After seeing the pictures, Ike exclaimed: "I think it's a marvelous development."

Des Moines River Forces 1,000 To Move

Southern Iowa Hamlet Evacuated; Big Sioux Confined to Lowlands

DES MOINES — The Des Moines River reached record spring levels Friday and forced about 1,000 persons in the Des Moines area to leave their homes.

Southwest sections of Iowa also were being battered by flood waters, and the hamlet of Bartlett was evacuated when the Missouri River threatened to flood the area.

The Big Sioux River in northwest Iowa was far over its banks but most of the flooding there was in the lowlands.

Northern sections of Marshalltown in central Iowa were flooded by the Iowa River. About 250 persons there sought shelter on higher ground.

The Des Moines River reached 25 feet, breaking the previous spring high of 23.8 feet in a 1951 flood.

The river was confined by levees in the city of Des Moines, but spread out above and below the city. Officials carried many residents of those areas to safety in boats.

"I have three cars, a truck and two combines back there," said James Mason, one of the persons forced to flee. "We got out. The water's five feet deep in the house and is running over the hood of my truck."

One farmer, leading nine horses from his flooded barn, said "don't you use my name. I may want to sell this place."

Sandbags were used to strengthen levees in the city. In one residential area near the river, four women filled sandbags for 30 men carrying them to the levee. About 100 National Guard troops were repairing threatened levees in other sections.

Fremont County Sheriff Al Christopher ordered the 90 or so residents of Bartlett to evacuate when flood waters from the swollen Missouri River began backing up near that little town.

Christopher said it appeared that the towns of Percival and McPaul just south of Bartlett, also would have to be evacuated as the flood continued.

Most of the flooding was caused by the cracking of small levees which were built to protect the areas.

A Shenandoah National Guard unit which had been protecting Bartlett retreated early Friday when water started pouring over a Missouri River dike.

Hamburg was not believed seriously threatened although Gov. Herschel Loveless dispatched a National Guard unit to the area to keep the levees and dikes at full strength, applying sandbags where they were needed.

Planes flew over the area Friday searching for isolated farmers who needed help.

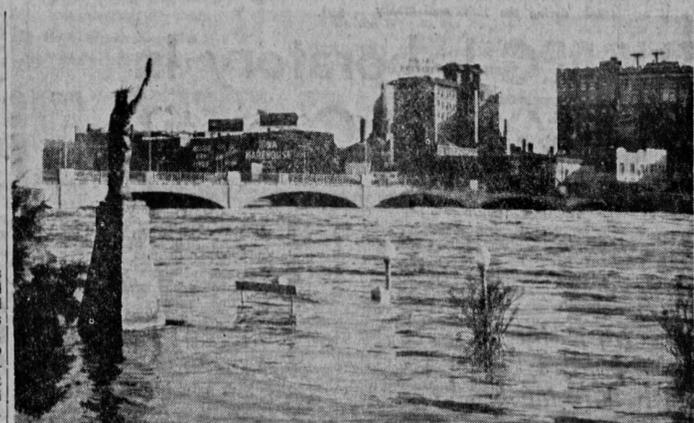

The Big Sioux River crested at 22.2 feet at Hawarden early Friday about 7 feet above the previous record high. The water surged into surrounding lowlands, causing much damage to farmland but not threatening the town of Hawarden.

The river also was over its banks at Akron and was expected to reach a 22-foot crest Friday night.

Officials in Sioux City said they did not believe Sioux City would be flooded when the flood waters reached there because of the low stage of the Missouri River. They said if the Missouri doesn't rise the Big Sioux would pour quickly into the Missouri where they join without causing serious flooding.

The Iowa River went over levees in north Marshalltown and invaded a residential area, forcing residents to evacuate. At Tama, the river caused a few families on the Mesquakie Indian Reservation to leave their homes.

The Skunk River broke through about 200 feet of a levee in north Colfax, forcing some families to flee. Most of the flooding was confined to lowlands.

Waterloo 'Lady' Gets Feet Wet

There was some resemblance between Waterloo and the Cedar River and the New York harbor wet in the flooding stream.—AP Wirephoto

To Arrive Friday—

Set Plans for Mitchell Visit

Final plans are crystallizing for the arrival in Iowa City of James P. Mitchell, U.S. Secretary of Labor, who will be here April 8-9 to participate in a Railway Operating Brotherhoods' Institute at SUL.

Mitchell will speak at a general assembly session of the institute at 7:30 p.m. April 8 in Macbride Auditorium. Sponsored by five national railway brotherhoods, the institute will be conducted by the SUL Bureau of Labor and Management. A limited number of tickets for the talk will be available for SUL students and faculty members Tuesday.

day at Iowa Memorial Union. Any tickets remaining Wednesday will be available to the general public.

The Secretary of Labor is scheduled to arrive in Iowa City by car from Davenport at 11 a.m. April 8. He will speak to a combined Iowa City Service Club luncheon at the Hotel Jefferson at noon. A press conference will follow the luncheon.

Mitchell will tour the SUL campus during the afternoon with University officials including Allan W. Dakin, SUL administrative dean, and Provost Harvey H. Davis. At 4 p.m. the presidents of the five operating brotherhoods will hold a reception in Mitchell's honor at the Hotel Jefferson.

The five brotherhood presidents will also sponsor a dinner for the Secretary of Labor at the University Athletic Club prior to his address in Macbride Auditorium. SUL station WSUI will broadcast Mitchell's talk at 7:30 p.m.

Members of the Johnson County Republican Central Committee and other Republican leaders in eastern Iowa will hold a breakfast for Mitchell at 8:15 a.m. at the Hotel Jefferson on April 9. The Secretary will leave Iowa City by plane at 10:45 a.m. for Wichita, Kan.

Indian Drama Opens Thursday

who symbolizes truth, who has never appeared outside his dark chamber. The queen's desire to see the king leads the plot through a spring festival and a war. At the play's end the queen realizes that truth can only be known intuitively in the dark chamber of the heart.

Indian drama is essentially a theater of the idea, says Shah. Patterned movements, particularly of the hands, convey ideas and emotions. Characters and chorus members portray ideas as well as spirits of nature. Roles of the chorus members are not static but shift from one characterization to another. At one time the chorus symbolizes flowers and at another flames of fire.

Choreographer for the Indian folk dances for the SUL production is Penny Thomas from Bombay, India, who is a graduate of Drake University, Des Moines. Miss Thomas played the leading role in "Shakuntala," another Indian drama directed by Shah in New York last summer.

A man of many talents, Tagore was also recognized as a novelist, literary critic, educator, painter, musician, religious leader and social reformer.

In "The King of the Dark Chamber," written in 1910, Tagore allegorically depicts the struggle between the individual and the soul of the universe. The action of the play is set in India in the tenth century and centers around a king,

S. Africa Police Alert

JOHANNESBURG, South Africa — Armed police in South Africa tour the townships, alert for any sign of fresh trouble, but anxious not to have further bloodshed on their hands.

The strength of the police forces in the union is 25,900, which is about one for every 570 of the country's 15 million people. The forces are fairly evenly divided by the color of their skins: 12,600 white and 13,300 non-white.

Recruits get special instruction in mob control during a training course of six months. Their ordinary training includes instruction

in the use of .38 pistols and .03 Lee-Enfield rifles as well as courses in law and police administration. In their anti-riot training they are taught to use ten guns.

Brig. C. J. Els, the administrative officer for recruitment and training, insists that it is repeatedly impressed on every member of the force that "firearms must be used only as a last resort."

Whites can be recruited from the age of 16 to 35, non-whites between the ages of 20 and 35. Whites under 18 are given sheltered indoor jobs, but at 18 they can take duty anywhere.

Entries in the annual Corn Monument Design Contest will be accepted starting Monday through May 14, according to Robert Johanssen, ES, Gladbrook, chairman of the contest committee.

The corn monument, a tradition at SUL's Homecoming, is erected each year on the west side of Old Capitol by engineering students. It is supposed to be set on fire if Iowa wins the Homecoming football game. Next year's Homecoming game is with Purdue Oct. 22.

The rules of the contest are: Faculty, students, and all residents of Iowa City are eligible to enter; entries must be sent to the Dean's Office in the Engineering Building; and entries must be in the form of sketches, detailed drawings, or pictorial drawings.

The designer of the monument finally picked for construction will receive a prize of \$20. Johanssen said. Second prize will be \$5.

Entries will be judged on originality, completeness, of design, and ease of construction.

Johanssen said he hopes a large number of people will enter the contest. "In the past," he said, "participation has not been too good," but added that first prize is \$5 more this year, which may be an added incentive.

"The more people that enter the contest," Johanssen said, "the better chance we'll have of getting a good design."

Ike Shows Photos

President Eisenhower displays four photographs made by the weather-eye satellite hurled into orbit around the Earth Friday. The White House said the dark area at lower right in the photos is the Gulf of St. Lawrence. The white is cloud cover. After seeing the pictures, Ike exclaimed: "I think it's a marvelous development."

Old Versus New at Hospital

Dr. John Knott, professor and chairman of the division of electroencephalography (EEG) and neurophysiology at SUI's Psychopathic Hospital, demonstrates the "old and the new" in EEG equipment during the 25th anniversary

observance of the laboratory which he directs. Dr. Knott points out for Mrs. Donna Edgar, EEG technician, the contrast of the old hand-cranked recording apparatus on the left with modern equipment such as that now used at SUI.

March Gifts and Grants For SUI Total \$781,764

Gifts and grants totalling \$781,764 for research, scholarships and student training programs at SUI were accepted during March by the State Board of Regents Finance Committee. The total includes \$407,201 for research projects to be conducted by SUI professors with the assistance of graduate students, and \$373,222 for student scholarships and training programs. The SUI College of Medicine received the largest amount among the departments for research and scholarships, totalling \$494,267. Totals received by other departments include College of Dentistry, \$60,076; College of Engineering \$103,020; College of Nursing \$3,925; College of Pharmacy \$560; Department of Speech Pathology \$43,687; Chemistry Department \$32,593; Psychology Department \$38,795. Among the grants accepted are \$484,876 from the U.S. Public Health Service for 25 different projects at SUI. Other large gifts and grants are Atomic Energy Commission, \$66,963; Lederle Medical Faculty Awards, New York, \$25,015.67; Puerto Rico Department of Education, \$23,151.93; W. K. Kellogg Foundation, \$18,636; Department of Navy, \$50,560; National Science Foundation, \$14,900; U.S.

Air Force, \$9,910; Knights Templar Eye Foundation, \$7,500; Sterling Winthrop Research Institute, Rensselaer, N.Y., \$7,500; United Lockart Corporation, Windsor Locks, Conn., \$7,000; Gulf Research and Development Co., Pittsburgh, Penn., \$5,110.32; American Chicle Co., Long Island, N.Y., \$5,000; Muscular Dystrophy Association, \$4,800; Chicago Pump Co., \$4,490; Columbus Laboratories Inc., Melrose Park, Ill., \$1,300, and Cereal Institute Inc., \$1,000. Iowa organizations and individuals making gifts to SUI accepted during March are: Iowa Bonus Board, \$1,800; Collins Radio Co., Cedar Rapids, \$371; Raytag Co., Newton, \$540; Torbert Drug Co., Dubuque, \$500; Luther Thompson, Rolfe, \$100; Dr. J. E. Salisbury Foundation, Charles City, \$150; Master Builders of Iowa, 400; Women of the Moose No. 509, Iowa City, \$50; Midwest Gnathastical Research Group, Marshalltown, \$75; L. H. Pre-wit, M.D., Ottumwa, \$50; Dunlap Community Chest, 250; Mr. and Mrs. Norman Pellet, Atlantic, \$216.50; Harlan Heart and Cancer Fund, \$119; Mrs. Henry L. Adams, Iowa City, Miss Martha Wheeler, Anamosa, and Gardner Philips, M.D., Waterloo.

3 South Africans Killed Trying To Free Leaders

DURBAN, South Africa (AP) — Carrying clubs, hatchets, and sharpened pieces of wire, several hundred Negroes converged on the city jail Friday demanding the release of their leaders. They argued against an order to disperse and police opened fire. Three marchers were killed and three wounded. Two others were hospitalized with head wounds. They had not been shot. Leading opponents of the government's apartheid (racial segregation) policies had been taken to jail in this week's wave of arrests. Three columns marched out of the native settlement of Cato Manor on the city's outskirts. Armed cars, troop carriers, police riot cars, and soldiers armed with fixed bayonets rushed in and headed off two groups. A third column of men, women and children outflanked the police and headed down the main thoroughfare of this Indian Ocean port, South Africa's third city. Marchers forced members of their own race to join them in the display of defiance to white supremacy laws. Some bystanders were lifted bodily into the line of march and compelled to go on to the jail, where the shooting occurred. After that they fled back to their homes. Cato Manor has a record of violence including three riots within the past year. In January, a mob killed nine policemen on a raiding party. Just 24 hours ago, police blocked a similar march headed for the Durban jail.

The police acted under the government's new emergency powers approaching martial law. Clarence H. Lindahl of Iowa State University, secretary-treasurer of the Academy, announced that 182 papers will be presented by scientists from 14 Iowa cities and 7 states. The reports on Iowa research will be presented at meetings of the Academy's specialized sections: botany, inorganic and physical chemistry, organic and biological chemistry, geology, mathematics, physics, psychology and zoology. Twenty-one reports on botany research will include a discussion of elm diseases in Iowa, a source of blight resistance for soybeans, and algae which may provide "fresh air" for space flights. Other botany research papers include discussion of flora of three eastern Iowa parks, effect of light on seed germination, cereal rusts, and characteristics of oak trees. Twenty-seven papers to be presented in the field of physics include "Geomagnetically Trapped Radiation" by James A. Van Allen, head of the SUI Department of Physics and Astronomy. Other subjects include a gas exchange system to purify air for man in space and the use of waves in the troposphere for communications. The Space Age will be reflected by two zoology reports, including a paper on the growth of mice and hamsters at four times normal gravity. Advances in research techniques are also shown in zoology projects—tracers in the blood using radioactivity, and fine structure of cells using the electron microscope. Some 300 Iowa high school students are expected to attend the Iowa Junior Academy of Science meeting, which will be held at SUI in conjunction with the Iowa Academy of Science sessions. The 1,500 members of the senior Academy include scientists from all Iowa colleges and universities, from industry and high schools.

Auto Crash Case Ends When Court Dismisses 2 Suits

Judge James P. Gaffney Friday dismissed in Johnson County District Court two auto collision damage suits. The two suits resulted from a collision May 2 between a car and an oil truck on State Highway 153 (formerly U.S. Highway 218) about three miles north of Iowa City. Lloyd F. Nagel, Cedar Rapids, had asked for \$115,222 in his suit for damages he alleges resulted from the collision. Leonard Dale Krotz, 1823 N. Dubuque St., and Heuffler Oil Company had filed a counter claim and cross petition asking for \$80,040 for damages to the oil truck that Krotz was driving. The Simmons, Perrine, Albright, Ellwood and Neff law firm represented Nagel. Jack C. White was attorney for Krotz and the oil company.

Reds Reject U.S. Proposal to Open Launching Areas

GENEVA (AP) — The United States offered Friday to throw its satellite launching pads open to Soviet inspection provided the Soviet Union returns the favor. The first Soviet reaction was negative. U.S. ambassador Frederick M. Eaton made the proposal in an effort to pull the 10-nation disarmament conference out of its three-week-old stalemate. Eaton called for a permanent ban on nuclear-armed space vehicles and for a simple on-site inspection system to prevent violations. He also suggested an exchange of radar tracking information to supplement control of launching sites. Soviet delegate Valerian Zorin dismissed the proposal as meaningless and told the conference the Kremlin wants all-or-nothing acceptance of the Soviet four-year plan for total disarmament.

Compulsory ROTC To Be Discussed

"Compulsory ROTC" will be discussed at the third panel discussion sponsored by Union Board's Spotlight Series Wednesday at 4 p.m. in the River Room of the Iowa Memorial Union. Dr. Fred L. Fehling, associate professor of German, will be the guest panelist. Fehling is the chairman of the committee appointed by the Liberal Arts College to study the question of compulsory ROTC. Coffee will be served preceding the discussion.

Student Mother Takes Exam with Stork on the Way

A baby and an exam grade were both winners in a race with the stork this week. Mrs. Lavonne E. Hopkins, 44 Iowa City, expecting her second baby, had a test in Educational Psychology and Measurements scheduled for 8:30 a.m. last Monday. Early that morning she began having labor pains at 10-minute intervals, but she decided to take the test anyway. The baby, a 7½-pound boy, was born at 4:30 the next morning in University Hospitals. Mrs. Hopkins' exam score was 34, which her instructor called "a good, solid B."

Court Disposes of 165 Cases During Feb. Term

Johnson County District Court disposed of 165 cases by dismissal or settlement during the February term of the court. Judge James P. Gaffney gave 460 court orders during the term and decided two divorce cases. Judge Gaffney, who presided over the term, will now go to Marengo and preside over the Iowa County District Court, which begins its April term Monday. Judge H. D. Evans will reopen District Court here April 11 and will preside until September 19, when Judge Gaffney will return again.

German Prof to Talk Here on Poet Virgil

Professor Viktor Poeschl, of the University of Heidelberg, Germany, will discuss "The Poetic Achievement of Virgil" Monday at 8 p.m. in the Senate Chamber, Old Capitol, at SUI. Sponsored by the SUI Graduate College and the Department of Classics, the lecture will be open to the public free of charge. Recognized as one of the leading scholars in Roman literature and thought, Poeschl's work has been cited for presenting new insights into the aims and methods of the Latin poets.

Hospital Personnel To Confer at SUI

Sixty hospital administrators, business managers, and accountants have registered to attend the 4th Annual Institute on Hospital Accounting and Financial Management April 4 to 6 at SUI. During the three-day SUI conference they will discuss hospital accounting, hospital budgeting and cost analysis, hospital tax and legal problems, and utilization of financial reports. All sessions will be held in Iowa Memorial Union. The SUI conference is being sponsored by the Iowa Chapter of the American Association of Hospital Accountants, Iowa Hospital Association, Hospital Service Inc. of Iowa, and Associated Hospital Service, Inc., in conjunction with the SUI Extension Division.

Albrizio Sculpture Exhibit Ends Sunday

The exhibition of sculpture by Humbert Albrizio, professor of art, in the Main Gallery of the Art Building ends Sunday. The exhibition is open to the public from 2 to 5 this afternoon and Sunday afternoon. Sponsored by the Student Art Guild, the one-man show contains 36 pieces. On display are sculptural works in wood, stone, welded steel and bronze, beaten lead, and terra cotta.

German Prof to Talk Here on Poet Virgil

Professor Viktor Poeschl, of the University of Heidelberg, Germany, will discuss "The Poetic Achievement of Virgil" Monday at 8 p.m. in the Senate Chamber, Old Capitol, at SUI. Sponsored by the SUI Graduate College and the Department of Classics, the lecture will be open to the public free of charge. Recognized as one of the leading scholars in Roman literature and thought, Poeschl's work has been cited for presenting new insights into the aims and methods of the Latin poets.

Thursday, April 7
8 p.m. — Studio Theatre — "The King of the Dark Chamber"

Iowa Academy Of Science To Meet Here

Research on subjects ranging from the growth of mice under increased gravity to the fatigue of farm tractor drivers will be discussed by Iowans attending the 72nd annual meeting of the Iowa Academy of Science April 22-23 at SUI. Clarence H. Lindahl of Iowa State University, secretary-treasurer of the Academy, announced that 182 papers will be presented by scientists from 14 Iowa cities and 7 states. The reports on Iowa research will be presented at meetings of the Academy's specialized sections: botany, inorganic and physical chemistry, organic and biological chemistry, geology, mathematics, physics, psychology and zoology. Twenty-one reports on botany research will include a discussion of elm diseases in Iowa, a source of blight resistance for soybeans, and algae which may provide "fresh air" for space flights. Other botany research papers include discussion of flora of three eastern Iowa parks, effect of light on seed germination, cereal rusts, and characteristics of oak trees. Twenty-seven papers to be presented in the field of physics include "Geomagnetically Trapped Radiation" by James A. Van Allen, head of the SUI Department of Physics and Astronomy. Other subjects include a gas exchange system to purify air for man in space and the use of waves in the troposphere for communications. The Space Age will be reflected by two zoology reports, including a paper on the growth of mice and hamsters at four times normal gravity. Advances in research techniques are also shown in zoology projects—tracers in the blood using radioactivity, and fine structure of cells using the electron microscope. Some 300 Iowa high school students are expected to attend the Iowa Junior Academy of Science meeting, which will be held at SUI in conjunction with the Iowa Academy of Science sessions. The 1,500 members of the senior Academy include scientists from all Iowa colleges and universities, from industry and high schools.

SUI EEG Laboratory In 25th Year of Operation

The 25th anniversary of SUI's electroencephalographic laboratory will be observed today during the spring scientific program of the Central Association of Electroencephalographers.

Electroencephalograms, commonly referred to as EEG's are recordings of electrical currents developed in the brain. The recordings are used both as diagnostic "tools" in cases of mental or neurological disorders and as a means of studying the brain and its action.

The laboratory was established in the University's Psychopathic Hospital in 1935 as an outgrowth of earlier studies in which Dr. Lee Edward Travis, then chairman of the Department of Psychology at SUI, had recorded electrical impulses from muscle tissue and from the brain.

100 Iowa History, Social Studies Teachers To Meet

The birth of nationalism and the end of "one world" will set the theme for this year's 38th Annual Conference of Teachers of History and Social Studies, which will be held at SUI, April 8 and 9. Some 100 teachers from high schools, colleges and universities throughout Iowa are expected to attend the conference, co-sponsored by the SUI Department of History, College of Education, Extension Division, and Graduate College, and the Iowa Council for Social Studies.

Dr. John R. Knott is now chairman of the Department of Psychiatry's EEG division and took over when Travis left SUI in 1938. Most of the work performed in the early laboratory was of an experimental nature. Today, the EEG division conducts a broad program of service, research and training. Most of the division's efforts are of an interdepartmental nature. Visitors at today's meeting will see an exhibit of equipment which Dr. Knott and his colleagues designed and built for use in the early days of the lab. The old equipment, some of it hand-operated, contrasts strongly with the modern electronic apparatus now being used.

The laboratory was moved to the Department of Psychology in East Hall in 1936 and remained there until 1946, although during most of those years Dr. Knott spent a considerable portion of his time "running" EEG's for the Department of Neurology. He often spent half days conducting his experimental work at East Hall, with the remainder of his time devoted to clinical application of the technique for physicians at University Hospitals.

Bomb Doesn't Affect Talks

PARIS (AP) — Soviet Premier Nikita Khrushchev pursued his prearranged talks with President Charles de Gaulle in an apparently amiable vein Friday while the cloud of France's second atomic explosion dissipated over the Sahara. Though France ignored warnings from the Soviet leader in touching off a small plutonium bomb Friday morning, she let it be known no further tests are likely until after this summer's big diplomatic meetings. Weather conditions at the Regaine proving ground, deep in Algeria, probably will be unfavorable for the next five months. France is determined, however, to go ahead with nuclear tests until an international agreement can be reached on nuclear disarmament. In the meantime the newest member of the atomic club, not participating in the Geneva talks for a test ban, wants to swell its power closer to that of the United States, Britain and the Soviet Union. Protests came in as expected from around the world at the second shot, but there was no public eruption at the tursted Rambouillet chateau where de Gaulle and his Soviet guest were deep in such questions as disarmament, the German problem and coexistence. The fact Khrushchev did not pack up and head for Moscow appeared significant. Perhaps it shows he intends to let nothing get in the way of the most amiable opening possible for the May 16 summit conference.

Court Disposes of 165 Cases During Feb. Term

Johnson County District Court disposed of 165 cases by dismissal or settlement during the February term of the court. Judge James P. Gaffney gave 460 court orders during the term and decided two divorce cases. Judge Gaffney, who presided over the term, will now go to Marengo and preside over the Iowa County District Court, which begins its April term Monday. Judge H. D. Evans will reopen District Court here April 11 and will preside until September 19, when Judge Gaffney will return again.

German Prof to Talk Here on Poet Virgil

Professor Viktor Poeschl, of the University of Heidelberg, Germany, will discuss "The Poetic Achievement of Virgil" Monday at 8 p.m. in the Senate Chamber, Old Capitol, at SUI. Sponsored by the SUI Graduate College and the Department of Classics, the lecture will be open to the public free of charge. Recognized as one of the leading scholars in Roman literature and thought, Poeschl's work has been cited for presenting new insights into the aims and methods of the Latin poets.

Hospital Personnel To Confer at SUI

Sixty hospital administrators, business managers, and accountants have registered to attend the 4th Annual Institute on Hospital Accounting and Financial Management April 4 to 6 at SUI. During the three-day SUI conference they will discuss hospital accounting, hospital budgeting and cost analysis, hospital tax and legal problems, and utilization of financial reports. All sessions will be held in Iowa Memorial Union. The SUI conference is being sponsored by the Iowa Chapter of the American Association of Hospital Accountants, Iowa Hospital Association, Hospital Service Inc. of Iowa, and Associated Hospital Service, Inc., in conjunction with the SUI Extension Division.

Albrizio Sculpture Exhibit Ends Sunday

The exhibition of sculpture by Humbert Albrizio, professor of art, in the Main Gallery of the Art Building ends Sunday. The exhibition is open to the public from 2 to 5 this afternoon and Sunday afternoon. Sponsored by the Student Art Guild, the one-man show contains 36 pieces. On display are sculptural works in wood, stone, welded steel and bronze, beaten lead, and terra cotta.

German Prof to Talk Here on Poet Virgil

Professor Viktor Poeschl, of the University of Heidelberg, Germany, will discuss "The Poetic Achievement of Virgil" Monday at 8 p.m. in the Senate Chamber, Old Capitol, at SUI. Sponsored by the SUI Graduate College and the Department of Classics, the lecture will be open to the public free of charge. Recognized as one of the leading scholars in Roman literature and thought, Poeschl's work has been cited for presenting new insights into the aims and methods of the Latin poets.

Myrtle Martin, Longtime University Employee, Dies

Mrs. Myrtle Martin, 48, supervisor and bookkeeper at the SUI mailing service died at Mercy Hospital at 10:15 Thursday night. She lived at 720 Second Ave. Her health had been failing.

Born in Johnson County Feb. 10, 1912, Mrs. Martin was the daughter of William and Alice Schell West.

She was married Nov. 6, 1937 to Thomas D. Martin, and they established their home in Iowa City. Mrs. Martin was a graduate of SUI. She worked for the University for 30 years, first for the Extension Division, then for the Mailing Service, becoming supervisor two years ago.

She was a member of the First Methodist Church, and of Alpha Chi Omega social sorority.

Mrs. Martin is survived by her husband; one daughter Sandra Jane, at home; one son, Thomas D. Martin, with the Air Force in England; two granddaughters; her mother, of West Branch; and three sisters, Mrs. Harlie Dolan, St. Louis, Mo.; Mrs. Glenn Seydel, Bettendorf; and Mrs. Ellis Taylor, West Branch.

Mrs. Martin was preceded in death by her father and a brother. Funeral services will be at 2 p.m. Monday at the Oathout chapel with the Rev. L. L. Dunnington, of the First Methodist Church, officiating. Burial will be in the Brick Chapel Cemetery. The family requests no flowers; a memorial is being established, proceeds of which will go to the Cancer Fund.

Hawkinson To Attend Conference in Ohio

William Hawkinson, assistant professor of child welfare, left Iowa City Friday to attend the Groves Conference on Family and Marriage which will be held in Columbus, Ohio, April 4 to 7.

County Medical Society To Meet At Mayflower

The Johnson County Medical Society will meet at 6 p.m., April 6, at the Mayflower Hotel.

The program for the meeting includes a dinner, a business meeting, and instructions of the delegates to the Iowa State Medical Society convention.

MARTEL IN WASHINGTON
Martin U. Martel, assistant professor of sociology, is attending a meeting of the National Academy of Sciences in Washington, D.C.

The conference, on the effects of disasters upon older people, began Friday and continues through today.

3 Speakers Scheduled for Summer Talks

A senior nuclear physicist, a well-known CBS newscaster and a journalist known as an authority on Indian affairs will speak this summer at SUI as part of the Summer Lecture Series.

Donald J. Hughes, senior physicist at Brookhaven National Laboratory, specializing in developing the atoms-for-peace program, will discuss "The U.S. vs. USSR — Who's Really Winning the Science Race?" June 23 at 8 p.m. in Macbride Auditorium. The author of "On Nuclear Energy," he has encouragingly appraised our scientific progress by contending that we are ahead of the Soviet Union in basic research.

July 7 at 8 p.m. Richard C. Hotelle, star of "The CBS Morning News" program, will speak in the Main Lounge of Iowa Memorial Union. Hotelle's talk will be titled "Germany — Proving Ground of Western Policy."

Concluding the Summer Lecture Series August 2 at 8 p.m. in Macbride Auditorium will be Vincent Sheean, noted writer on Asian affairs and author of "Nehru in Power," published in 1959. The subject of Sheean's talk will be "The Struggle for Supremacy in Asia."

SUI students and faculty are admitted to the lectures free of charge.

Notable Books To Be Displayed In Library Lobby

An exhibit of notable books of 1959 will be on display April 4-21, in the Main Library Lobby as part of National Library Week.

Chosen by the Notable Books Council of the Adult Services Division of the American Library Association with the assistance of 35 participating libraries, the books on display deal with everything from an examination of modern man and the causes of his discontent to "50 years of study and enjoyment of urban wild life."

The books are a permanent exhibit.

U-Hospitals Employee Honored at Retirement

Alfred N. Seales, 302 Melrose Avenue, an ambulance driver for University hospital for the last 25 years, Friday was presented with a watch and transistor radio in honor of his retirement.

Seales, who retired last month, started driving for the ambulance service on May 17, 1934.

through which they are 'spersed: Minneapolis Symphony Orchestra conductor Antal Dorati (10:15 a.m.); President Eisenhower opening the White House Conference on Children and Youth last week (11:20); THAT program (11:45); Hancher Award winner Jerry Kinnaman, WSUI's second successive speech champion (12:10 p.m.); and the Wayland School variety show producer, Roger Maxwell (12:30). A SNEAK PREVIEW of the High School Drama Conference may occur at 10:45 a.m. if Broadway and motion picture actor Walter Abel can be corralled upon his arrival in town. He is to be principal speaker at the H.S.D.C. When you add up all those features and throw in an occasional hit by Bob and Ray, it ought to be a dandy three hours.

SATURDAY SUPPLEMENT, this being Saturday, will be heard from 1 p.m. to 4. The Indian theatre and a classical play from its repertoire being produced this week in the Studio Theatre will be the subject. The play's director and costumer will be guests and there should be an ample quantity of appropriate music. (WSUI's Greg Morris plays a leading role.)

THE BLUES, THE BLUES, THE BLUES: Ninety minutes of 'em might be a lot; but there are so many varieties to be tackled that Tea Time Special may be expected to have a highly depressant effect. Obtain tranquilizers and tune in at 4 p.m.

THE BLUES (LIVE) will undoubtedly form a partial basis for the appearance of the Behm-Martin jazz group when they take over a portion of tonight's air at 8 p.m.

Western Illinois Games Cancelled—

Hawk 9 May Open Monday

Iowa's hopes of opening its 1960 baseball campaign today were washed out by a two-inch rainfall at Macomb, Ill., Friday night.

The doubleheader scheduled with Western Illinois had been shifted earlier in the day from Iowa City to Macomb because of the soggy field here.

Hawkeye Coach Otto Vogel is still hopeful that Monday and Tuesday games with Western Michigan can be played. He indicated that if rainfall in Iowa City was light today and if the field dried up sufficiently the Western Michigan series would be played.

The game Monday, if played, will be the first outdoor work of the season for the Hawkeyes. Vogel has been drilling his squad in the Army in preparation for the 1960 season.

Vogel points out that the early games will be largely experimental because of the lack of outdoor work. "I'll try to play as many as I can to get a line on some of our trouble spots," he said.

Vogel has 11 lettermen back from last year, but has a few holes to patch before the Hawkeyes can be labeled serious contenders for the Big Ten crown.

The biggest problem confronting Vogel, starting his 32nd year at the Hawkeye helm, is finding a catcher to replace Dick Weatherly, who did nearly all of the receiving the past two seasons.

RUDEEN CLAUSON KLINGER PEDEEN BOUGDANOS BACHMAN

Three juniors, Jack Leabo, Chuck Conway and Tom Arnold, and a sophomore, Richard Mowen are working behind the plate. If Vogel could combine their talents he would have a top-flight catcher.

Leabo, a good hitter, handles himself well, but has had arm trouble and is not as good a thrower as the other candidates. Conway throws well but isn't the hitter that Leabo is. Arnold and Mowen show promise but are lacking in experience.

Another problem cropped up when Paul Bonstead, hard-hitting outfielder-first baseman was declared ineligible.

Howard Kennedy, a sophomore from Omaha, Mike Lewis and Les Kewney are working at the initial

sack. Kewney played shortstop last year and will probably see action there again this season. Lewis saw some action as an outfielder last year and might move into the outer garden to solve another of Vogel's problems.

The Hawkeyes have two veteran outfielders in Jerry Mauren and Al Klinger, but the third outfield post is up for grabs.

The infield is well set with a pair of 2-year vets, Don Peden and Mike Bougdanos, at third and second.

Lettermen Bob Hawk, sophomore Bill Iliff and transfer Dale Langbehn can handle any of the infield spots.

The pitching staff could blossom into one of the strongest Iowa mound crews in recent years.

Roger Rudeen, senior righthander, heads the pitching corps. Rudeen is backed by three other

vets, southpaw Al Bachman and righthanders Klinger and Dick Clauson.

Muscatine sophomore Ron Reifert is expected to provide a big boost for the mound staff. The righthander pitched Muscatine to three successive summer baseball titles.

Jim Barton and Sam Klinger and junior returns in the pitching department. Neither lettered as sophomores.

Dennis Eder, Howie Friend and Bob Bleakley are other sophomores who could see mound duty this season.

Should the Hawkeyes' games be cancelled Monday and Tuesday they will open April 11 at Arizona.

Six games, the annual Eastern series with the always stronger Arizona nine, are scheduled at Tucson.

Robertson, West Lead Stars To Olympic Trial Finals

DENVER (AP) — All-America Oscar Robertson and Jerry West gunned the NCAA University All-Stars to a 103-88 victory over Akron's AAU team in the U.S. Olympic basketball trials Friday night. Robertson, hitting for 29 points,

and West with 22 kept California Coach Pete Newell's team in front all the way.

West, Robertson and Darrall Imhoff of California pushed the collegians to a 10-point lead in the first seven minutes and with help

from Jim Darrow of Bowling Green were in front 37-21 with six minutes to go in the first half.

Dick Boushka, Akron's top scorer with 19, and George Swyers rallied the AAU crew within six points at 46-40 but Darrow and Terry Dischinger of Purdue pushed the All-Stars ahead 50-41 at half-time.

Boushka, 6-5 former St. Louis University star, teamed with Johnny Cox to pull Akron within seven points early in the second half.

Robertson and West poured it on midway of the session to run the collegian margin to 17 points, and the Ohioans, runner-up to AAU champion Peoria, never came closer than 11 points the rest of the way.

Ohio State's collegiate champions turned on the heat in the closing moments and finally got the best of the NCAA All-Stars 89-79 in the consolation semifinals.

The Buckeyes' triumph advanced them into Saturday's consolation finals against Bartlesville, Okla., an 88-74 victor over the Armed Forces All-Stars.

Ohio State's John Havlicek and All-America Jerry Lucas proved the difference. Havlicek sank 26 points, high for the game, and Lucas grabbed 22 rebounds and made 15 points although he sat out 10 minutes the second half.

Bartlesville rebounded from a severe beating Thursday night to whip the Armed Forces. It was strictly no contest from the beginning. Phil Murrell, former Drake University star, dumped in two field goals that gave the Oklahomans a 4-1 advantage they never relinquished.

Burdy Halderson, 6-foot-8-inch onetime Colorado star, poured in 17 points for Bartlesville.

Haney Ignores Dressen's Mismangement Charges

LOS ANGELES (AP) — Fred Haney, just back from a trip to Europe, simply can't be bothered about anything said by Charley Dressen, his successor as manager of the Milwaukee Braves.

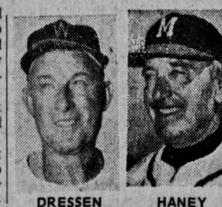

"What the hell," the amiable but often sharp-tongued Haney said Friday, "let Dressen pop off."

Haney much preferred to talk about his new and lucrative job as a television commentator for the National Broadcasting Company's weekly major league baseball telecasts.

He was also enthused about the clinics he and his new TV sidekick, Lindsey Nelson, conducted the past month for our soldiers in Germany, and the morale job the Army is doing for the troops.

A resident of Los Angeles since boyhood, Haney indicated he was more amused, in a dry sort of way, with some of the cracks attributed to his fellow townsman, the outspoken Mr. Dressen.

Dressen has been quoted as saying the Braves lacked spirit, coaching and the pitchers were used improperly, among other items.

DRESSEN HANEY

He did bristle a bit at a report that Bob Buhl, a Milwaukee pitcher, had complained he received no coaching on how to bunt during the Haney regime.

"Personally," said Fred, acidly, "if I'd been playing baseball 14 years I'd be ashamed to admit I never learned how to bunt."

Exhibition Baseball

Orioles 3, Senators 2

MIAMI, Fla. (AP) — Al Pihlarcik slammed three doubles and drove in two runs, including the decisive tally in the fourth inning off Tex Clevenger, to lead the Baltimore Orioles to a 3-2 victory over Washington Friday night.

Jackie Brandt also connected safely twice in a 10-hit Oriole attack against Clevenger and Dagoberto Ceteo, rookie Senators' righthander.

Washington . . . 000 100 100 — 2 7 2 Baltimore . . . 200 100 008 — 3 10 0 Clevenger, Ceteo (7), Korchick, Wilhelm, Hoeff (7), Stock (9) and Patton, W — Wilhelm, L — Clevenger.

Phillies 12, ChiSox 11

SAN JUAN, Puerto Rico (AP) — The Philadelphia Phillies built up a 12-4 lead then had to stand off a late rally before downing the Chicago White Sox 12-11 in the first of a three-game exhibition series here Friday night.

Al Smith hit three homers for the Sox, who came up with three runs in the eighth and four in the ninth.

Philadelphia . . . 100 200 308 — 12 11 1 Chicago . . . 002 002 034 — 11 14 1 Pierce, Laitan (5), McBride (5), Arida (7) and Brown, Curdwell, Owens (7) and Coker, W — Cardwell, L — Pierce.

A's 4, Pirates 3

FORT MYERS, Fla. (AP) — Bob Cerv hit a solo home run in the ninth inning Friday, clinching a 4-3 victory for the Kansas City Athletics over the Pittsburgh Pirates in an exhibition baseball game.

Cerv also accounted for a Kansas City run in the sixth that knotted the score at 3-3, sending Jerry Lumpe home from third base with a sacrifice fly.

Kansas City . . . 000 021 001 — 4 5 1 Pittsburgh . . . 101 010 000 — 3 10 1 Trowbridge, Grunwald (4), Acker (7) and Chiti; Daniels, Bauta (8) and Kravitz, W — Acker, L — Bauta.

Reds 3, Yankees 0

ST. PETERSBURG, Fla. (AP) — The Cincinnati Reds, behind the shutout pitching of Jim Brosnan, Bill Henry and Raul Sanchez, breezed to their third straight victory Friday by blanking the New York Yankees 3-0.

Brosnan pitched the first seven innings for Cincinnati and allowed four hits.

Cincinnati . . . 001 000 011 — 3 0 0 New York . . . 000 000 000 — 0 5 3 Brosnan, Henry (8), Sanchez (9) and Bailey; Ford, Duren (4), James (7), Stowe (9) and Howard, W — Brosnan, L — Ford.

Red Sox 8, Giants 6

PHOENIX, Ariz. (AP) — Haywood Sullivan drilled a two-run double in the 10th inning Friday to give the Boston Red Sox an 8-6 victory over the San Francisco Giants.

Four homers, two of them by Willie Kirkland who now leads the Cactus League with eight, did not save off the Giants' fourth straight defeat. Jimmy Davenport and Orlando Cepeda also belted homers.

Boston . . . 000 120 021 2 — 8 17 1 San Francisco . . . 014 000 100 0 — 6 12 1 Casale, Muffett (5), Fornieles (7), Worthington (9) and H. Sullivan; O'Dell, Monzant (8), Eyerly (8), Shipley (10) and Schmidt, W — Worthington, L — Shipley.

Home runs — San Francisco, Kirkland 2, Davenport, Cepeda.

Cubs 13, Indians 12

TUCSON, Ariz. (AP) — Dick Gerrert and Frank Thomas hit grand slam homers and Tony Taylor connected for another homer with two on and two out in the ninth as the Chicago Cubs beat the Cleveland Indians 13-12.

Rookie Mike De La Hoz delivered a pair of homers for the Indians and Tito Francona, John Romano and Bob Hale hit one apiece.

Chicago . . . 040 200 043 — 13 10 1 Cleveland . . . 323 000 031 — 12 13 2 Morehead, Hobbie (2), Goetz (8), Ceccarelli (9) and Thacker, Averill (1); Hawkins, Thomas (4), Briggs (9) and Romano, W — Goetz, L — Briggs.

Home runs — Chicago, Gerrert, Thomas, T. Taylor, Cleveland, De La Hoz (2), Francona, Romano, Hale.

Tigers 10, Cardinals 5

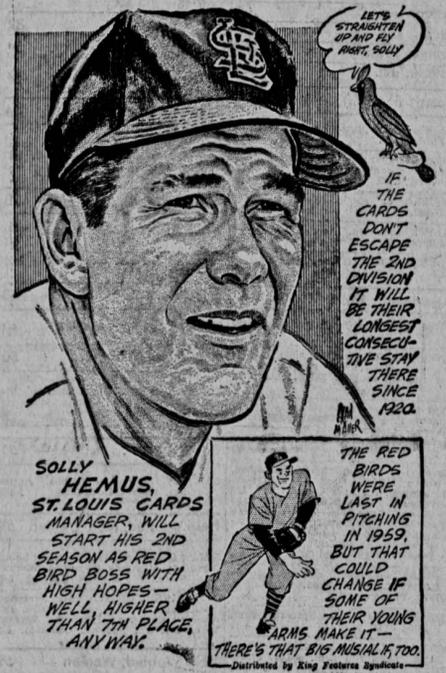

LAKELAND, Fla. (AP) — The Detroit Tigers scored 10 runs in the third inning and coasted to a 10-5 victory over the St. Louis Cardinals Friday.

With 15 men going to the plate in the big inning, the Tigers produced their runs on 7 hits, 3 walks and an error.

St. Louis . . . 002 001 002 — 5 9 1 Detroit . . . 001 000 000 — 10 13 0 Jackson, McDaniel (7) and Sawatski, Johnson (7), Lary, Mast (7) and Roark, W — Lary, L — Jackson.

Home runs — St. Louis, Shannon.

LOOKING UP By Alan Maver

Los Angeles Lineup Shift Not Likely in '60 Season

VERO BEACH, Fla. (AP) — Pay no attention to all the talk about Dodger rookie Frank Howard moving Gil Hodges off first base to third, with Junior Gilliam shifting to second and Charley Neal switching to shortstop. It won't happen. Not this year and probably not next year.

There will be no changes made on the Los Angeles Dodgers this season.

Howard, the big Ohio State bonus boy is not ready. He needs more minor league schooling, Hodges, Gilliam and Neal are set.

His big singles total enabled Bertolini to tie for ninth in all-events with 1916.

The other trio to make the top ten in singles Friday included Earl Johnson of the Chicago Hamm's team and Richard Skufca of Cleveland, who each had 693 and moved into a three-way tie for fourth with Vernon Plichta of Muskegon, Mich., who hit 693 last Saturday.

Tom Dern of Columbus earned a tie for eighth place with 289-205-191-685.

BEISE KILLED

MINNEAPOLIS (AP) — Sheldon Beise, fullback on Minnesota's great championship football team of the middle 1930s, was killed in a highway crash Friday.

the best first baseman in the National League, is too old to start playing a position with which he has only a nodding acquaintance. Gilliam can't play second. Neal is the best second baseman in the league and just a mediocre shortstop. Maury Wills is the best shortstop on the club.

So it's safe to say the Dodgers will open the 1960 season with the same lineup that won the pennant and the World Series. Hodges, Neal, Wills and Gilliam in the infield; Wally Moon, Don Demeter and Duke Snider in the outfield and Johnny Roseboro behind the plate.

The team, according to Manager Walter Alston, has a chance to be better.

"Several reasons," he said. "We will have pitchers Larry Sherry and Roger Craig from the start of the season. The staff as a whole will be more experienced. We went through a tight pennant race with kids like Don Demeter, Maury Wills, Johnny Roseboro and Ron Fairly. A race like that makes men out of boys."

The club is the same with the addition of pitcher Ed Roebuck, outfielder Tommy Davis and possibly Howard. Shortstop Bob Lillis has an outside chance.

Nieporte Ups Azalea Margin

WILMINGTON, N.C. (AP) — Tom Nieporte shot a four-under-par 68 Friday to boost his lead to five strokes after 36 holes of the \$15,000 Azalea Open Golf Tournament.

The Bronxville, N.Y., professional's total was 132 against 137 for runner-up Dow Finsterwald of Tequesta, Fla., whose 66 was the best round of a day that produced 25 sub-par rounds and 12 even par.

Most of the other first round challengers fell off their first day pace with the result that Nieporte picked up two more strokes on the field although losing a couple to Finsterwald.

A score of 149 was the cut off point for the 63 pros heading into the last 36 holes Saturday and Sunday.

Gay Brewer Jr., of Crystal River, Fla., held third place at 138 after a 71 Friday.

Tied at 139 were Dave Ragan, Orlando, Fla.; Ed Oliver, Denver; Jerry Barber, Los Angeles, and Jerry Pittman, Tulsa, Okla., all pros.

High School Track Event Here Today

High school athletes will invade the Iowa Field House again today as the state indoor Class A and B track meets will be held here. Field events will start at 12 noon and track events at 1 p.m.

The Iowa High School Athletic Association reports that 2,393 contestants have been entered in the two meets. In last week's AA and C meets only 1,757 were entered.

College Springs South Page has been picked as the Class B favorite and Clarion is tabbed to take the A title. However, the experts again figure that close meets such as last weeks closely contested affairs, are in prospect.

BALLY ACHE AT GULFSTREAM

MIAMI, Fla. (AP) — Bally Ache and seven other 3-year-olds were entered in the \$100,000 added Florida Derby and the Edgehill Farm star was favored to win his fourth stakes victory of the season at Gulfstream Park today.

Chief opposition to the winner of the recent Flamingo is expected to come from E. P. Taylor's Canadian-born Victorio Park, Llangollen Farm's California-bred Eagle Admiral, and Sunny Blue Farm's Venetian Way.

Tiger Scores Win On Split Decision

BOSTON (AP) — Muscular Dick Tiger of Nigeria ripped Argentina's Victor Zalazar with short, damaging punches for a split 10-round decision Friday night at the Boston Arena.

Tiger, the British Empire middleweight champion and eighth ranking challenger by National Boxing Association standards, finished strong with a relentless pursuit of his opponent in the 10th round.

Can Iowa State University and Iowa State Teachers College offer liberal arts majors which would duplicate those offered by SUI?

The Board of Regents, which was asked a few weeks ago to prove such curriculum changes for ISU and ISTC, has instructed its finance committee to ask Attorney General, Norman Erbe, for a legal opinion.

A committee of the three state school's provosts will report the proposed changes to the Board when it meets in Des Moines April 14 and 15.

SUI Provost Harvey H. Darr said he could not reveal the nature of the report until then, said it would be "very interesting" to see what decision is made.

ISTC wants to change its name and offer bachelor's degrees in fields other than teaching. It wants to offer B.S. degrees in English, speech, modern foreign languages and physical education for women.

SUI President Virgil M. Hancher in a memo to the Board

Clubs, Whips, G

Idle Cap Raided

CAPE TOWN, South Africa (AP) — Squads of police used clubs, whips and gunfire Monday in an effort to drive rebelliously idling Negroes back to work and clear the streets of alleged troublemakers.

Witnesses said hundreds of Negroes apparently were beaten. One witness told of police sjamboks — whips made of raw rubber — on Negroes near a square in the center of the city.

Unofficial reports said 35 persons were wounded by gunfire when police cordoned off Ny east and west townships and a methodical house to house search in some areas for cans who had not gone back to work.

Police denied many were wounded by gunfire. Hospitals reported four were wounded by the gunfire.

The townships are strongholds of the Pan Africanist Congress. It organized a work boycott week in protest against shootings of demonstrators.

Mitchell's T. Here Friday Open to Pub

By Staff Writer

United States Secretary of James P. Mitchell will speak at a general assembly session of the Railway Operating Brotherhood Institute here at 7:30 p.m. in Macbride Auditorium.

Mitchell's speech will be a meeting of some 300 local regional officers of five railway brotherhoods at St. Thursday through Saturday institute will be conducted by SUI Bureau of Labor and Management.

Mitchell's talk, which is an event on the three-day program that is open to the public, will with current labor-management negotiations in the railway industry.

Friday noon, Mitchell will dress a meeting of four to service clubs. Prior to this, a.m., he will hold a press

enue at the Hotel Jefferson. A limited number of tickets for the evening talk will be for SUI students and faculty members today at the information of the Iowa Memorial Union. Remaining tickets will be for the general public Wednesday.
