### Tells of Rocket Sled

Col. John P. Stapp, known as the "fastest man alive," tells a Daily Iowan reporter that the punishment he took on a rocket sled was only incidental to getting information.

## Fractures Incidental To Knowledge—Stapp

By DAROLD POWERS Staff Writer

The rocket sled roared down a desert track, accelerating to 632 m.p.h. in 5 seconds. Then brakes were set, and the sled jolted to a full stop in 1.4 seconds.

Its passenger, Air Force Col. John P. Stapp, suffered severe black eyes and spent five days in the hospital.

Why do researchers like Stapp subject themselves to such punishment?

"It is incidental to getting information," Stapp explained Friday.

Stapp, whose famed rocket runs gave him the "fastest man alive" tag, was in Iowa City to participate in a symposium Friday night on the problems of getting man into orbit, and back. The symposium was held in connection with the Iowa Academy of Science meeting.

He said the experiments with the rocket sled were designed in part to provide definite information which could help prevent deaths from air crashes.

Stapp, who holds both a Ph.D. in biophysics and an M.D. degree, volunteered in 1947 to head the research at Edwards and Holloman air bases which involved the rocket sled.

"It is a tending situation," he reported on his rocket runs, "but you're very busy noting your reaction so you can describe it." He said one does not black out.

Fourteen other men have gone through the same rocket deceleration

## End of Soviet State Termed Years Away

Russian Tells SUI: 'Under Communism, The People Rule'

The second secretary of Russia's Washington, D.C., Embassy Friday told an SUI audience that the withering away of the Russian state — "pure Communism" — won't be achieved within the next five or 10 years but that it will take a much longer period of time.

However, Vladimir Polyakov said socialism has been accomplished in Russia and that Russia "is now moving toward pure communism as Lenin viewed it."

Polyakov, who said his father was a peasant and his grandfather a slave, said there is no ruling class in Russia.

"The people are in power in our country," he said. "The Communist Party represents the interests of the workers and peasants. We have no need for a two-party system because we have no special interests or classes."

Polyakov said that even though certain people have risen to prominent positions in Russia, this does not mean they are a privileged class. He said that these people were once of the peasant and worker class themselves.

"Mr. Khrushchev, for example, was a miner and Mr. Mikoyan (first deputy premier Anastas Mikoyan) was a worker," he explained. "And all members of Parliament represent the workers and peasants. The Communist government represents the interests of the people and the people decide what these interests are."

When asked from the audience whether Josef Stalin had acted in the best interests of the people, Polyakov said he had added: "Stalin was a great leader but certainly, in the last years of his life, he made many mistakes and was severely criticized for them."

Regarding a united Germany, Polyakov said: "The German

## 150 High School Scientists Show Varied Research Here

By ED HUGHES Staff Writer

Embryo scientists offered curious visitors to exhibits at the Iowa Junior Academy of Science meeting at SUI the following subjects Friday:

Cancer research using human tissue (the results agreeing with authorities that filterable viruses may cause cancer);

A three-stage rocket (which can't be fired until someone gives the builder permission);

The effect of tranquilizers on bacteria germination;

An add-on unit for making color television out of black-and-white television (using a rotating color wheel);

A solar furnace that can generate up to 2000 degrees Fahrenheit; Home-made computers (that play infallible chess and compose music a la Bartok)

These are only some of the 150 science exhibits being displayed by Iowa Junior Academy of Science members who are participating in the Iowa Academy of Science meeting at SUI Friday and today.

Three of the members of the Junior Academy who had exhibits on display also won cash scholarships in the Iowa Science Talent Search, sponsored by the Iowa Academy of Science and the Clinton Corn Processing Co. They are Jane Marie Bader, 724 Clark St., second-place, and James Phillip Robbie, 9 Rowland Ct., third-place, seniors at Iowa City High School, and Joan L. Socknat, Sioux City, second-place.

Other state winners were: first place — Philip R. Wolff, Bettendorf; second place — Joseph H. Ball, Des Moines; third place — Albert A. Jagnow, Dubuque; Harry R. Leffler, Johnston; Douglas O. Wallen, Bettendorf; and Robert J. Weber, Stout; fourth place — Robert A. Alex, Bettendorf; Jane L. Gearman, Clinton; Robert H. Green, Bettendorf; Douglas L. Joslin, Amber; and Ronald R. Speedy, Allison. They received scholarships ranging from \$300 to \$25.

Miss Bader's exhibit dealt with research into the possibilities of carbon chloride not being an inert compound as it is commonly supposed to be.

Robbie's exhibit dealt with the X-rays that have possibly less harmful effect on mice that have first been put into a state of suspended animation by quick-freezing. Robbie said he has put in 650 hours on this project, and is keeping tab on the life spans of normal and suspended mice that have been treated with X-rays.

Miss Socknat's exhibit was on the electrical separation of blood serum. The various constituents of blood separate out of the main body of serum at different speeds. By the rate and quantity of separation, it is possible to tell about the patient's health.

In addition to the awards given by Clinton Foods, the entire exhibit was separately judged on the basis of school entries. These were given rankings of superior, excellent and honorable mention in one of two science areas — biological and physical.

Three schools were rated superior in both the biological and physical sciences, the highest rating a school could receive. They were: Iowa City High School, Teacher's College High School (Cedar Falls), and Roosevelt High School (Des Moines).

## No Statement On Meeting Of Committee

Minutes of Discussion On Discrimination Said 'Not Available'

By BILL JACOBSEN Staff Writer

No statement had been released as of Friday afternoon concerning the proceedings of a meeting of the Committee on Student Life last Wednesday.

The committee decided then not to allow the press to sit in during their meeting at which the Student Council's resolution on discrimination was scheduled for discussion.

Miss Helen Reich, assistant director in the Office of Student Affairs and secretary of the committee, said that the minutes of the committee meeting last Wednesday were not available for release.

She said the minutes of the meeting were given to Ralph H. Ojemann, chairman of the committee, who is to read, approve and return them to her to be typed and distribute among the committee members.

Ojemann told Daily Iowan and Iowa Defender reporters Wednesday afternoon that a statement of the proceedings of the committee meeting would be released through the president's office. At this time Ojemann is out of town and is not expected back until Monday.

As stated in the SUI Code of Student Life, the Committee on Student Life acts in an advisory and administrative capacity to the president of SUI. They establish policies and procedures in all phases of student life and activity with the exception of those areas under the jurisdiction of the Board of Trustees in Charge of Student Publications.

According to Phil E. Connell, assistant to the president, policy recommendations from the committee on Student Life are submitted along with minutes of the committee meeting.

If the president disagrees with the policy recommendation, Connell said, he confers with the committee about the matter. But the president has the right to accept or reject policy recommendations, he said.

## Space Experts Agree 'Safety Area' for Man

By ED HUGHES Staff Writer

The only dissenting voice at the symposium on getting a man into space Friday night here was actually only a demurrer. It was that of James A. Van Allen, head of the Physics Dept. at SUI, speaking at the symposium: "Problems of Getting Man Into Orbit and Back to Earth."

His demur was based on the physicist's knowledge of radiation in space. He said before the large audience that there were three types of radiation that science believes is out there, and one of these was a major deterrent to manned space flight.

But he conceded that there was a "safe corridor" in which a vehicle could be orbited safely.

Due to the trapped radiation zones which have been named the Van Allen belts after him, Van Allen said that the ceiling on orbits for a man in space would have to be about 600 miles maximum, and due to the lowering of the "horns" of the outer radiation zone near the extreme northern and southern regions of the earth, the path of the orbit should stay within the confines of the 40th parallels, north and south.

This is approximately the area that stretches between Iowa in the United States and the middle of Chile in South America.

The other two men, one a medical doctor, Colonel John P. Stapp (once called the fastest man alive for his rocket sled experiments), and the other, Edward R. Jones, psychologist at the aircraft manufacturer who is building the first capsule for manned flight in Project Mercury, were concerned with the minutiae of getting a man up in orbit and bringing him back.

Together they emphasized the biological and psychological events that might occur in space, and told of the experiments they are conducting to meet them.

Stapp, who is head of the experimental aerospace medical laboratories at Wright-Patterson Air Base, Ohio, mentioned that noise, vibration, and different gravities were some of the specific problems he has been working on.

Showing slides of the apparatus he used in experiments at Wright-Patterson, Stapp pointed out how they had met most of the problem of getting a man off the ground in the areas of acceleration, deceleration, and zero-gravity (where man feels weightless).

One problem they are still working on is the one of noise. A rocket will develop high noise

on take-off and in some cases has been known to kill mice, he said.

They created, said Stapp, short intervals of zero-gravity to note reactions of man under this weightless condition, and found that if man is tied down, he is capable of performing highly intellectual manipulative acts with ease.

One of the peculiar products of man in space will be the process of waste elimination. Stapp said that water waste will be distilled and re-used for drinking and solid waste will be frozen in plastic bags.

Concerning the heat that will naturally occur from friction, Stapp said that experiments showed that man could stand 440 degrees of temperature if he was insulated and fed cooled air through a tube, for more than forty minutes. Heat, said Stapp, would only be a problem on getting man back through the thick atmosphere, not while in orbit.

Stressing the same factors from the psychologist's viewpoint, Jones said that every device and piece of equipment in Project Mercury's capsules were duplicated to the point of redundancy to eliminate failure probability, and man in space, the astronaut, himself was going to be trained to the point of being able to make automatic responses to almost any situation that might occur, no matter how complicated the situation might be.

Jones went over the entire cycle of the project involving launching the separation of the capsule from its rocket, the orbiting, the stabilizing, and the recovery. Jones said that the capsule has been designed to float on water, which is where the capsule is expected to land.

At any stage of the cycle, said Jones, methods have been planned to be able to recover the astronaut safely.

Jones, in outlining the manned capsule's orbit, mentioned that it would not go above 120 miles nor would it be in orbit more than four and half hours. Both of these factors are well within the limits of Van Allen's restrictions, though Jones did not mention the effects of radiation on the capsule, or the man in it.

Noting the far-seeing aspects of this program, Jones said that McDonnell Aircraft had delivered its first of 20 capsules early this month. Asked when the flight would take place, Jones again stressed the care of reducing failure and said the capsules will start going up only when they have gotten high rate of consistent success in ground-testing with simulated conditions.

## Feel Korea, U.S. To Stay Friends—

# SUI Koreans Discuss Rhee

By JANET STAIHAR Staff Writer

The South Korean Liberal Party has always threatened that if Syngman Rhee is not elected president of South Korea, the United States will withdraw its support. Kwi Hyun Kim, G. Seoul, Korea, said while she and another South Korean, Hong Sup Kim, A2, Seoul, were expressing their views on this week's upheavals in South Korea.

But she said she feels that the Liberal party's threat is empty. The United States, she said, is backing the whole nation, not just Rhee.

Miss Kim believes that the alleged fraudulent elections in South Korea, which saw Rhee re-elected as president and Lee Ki-poong elected as vice president, will have no bearing on American and South Korean relations.

It is possible, Hong Kim said, that the Communists are helping perpetrate the riots in South Korea. Miss Kim, a journalist, elaborated on this viewpoint: "Often," she said, "the Communists try to make the people lose confidence in the Korean government and in democracy." But she said this is useless since the people are all individually anti-Communists and are rioting not against Rhee himself, but to gain freer elections.

Hong Kim, who has been in this country two years, believes that the students who acted in this week's riots acted on "pure emotion" and not from knowledge. He said that the Communists might use the emotions of high school students to push Communistic propaganda. This week's riot saw

many students participating against the government.

A resident of the United States since September, Miss Kim said that to gain a better democracy in South Korea a stronger, more competitive two-party system is needed. The Liberal party and the Democratic party are South Korea's political parties. Rhee and his vice president, Ki-poong, are Liberals.

Miss Kim said of South Korea, "We are in a transition period and are not used to a democratic society, so the democratic system is not very secure at the present time." Consequently, a struggle cannot be escaped, she said. But even though South Korea is in a transition period, this does not mean there are fraudulent elections being conducted. Miss Kim commented. However, Miss Kim said that she did not have any basis on which to judge the recent elections.

Miss Kim stressed the idea that Rhee himself has done many good things for South Korea. "He is a powerful statesman, she said, "but many people think that he is stubborn." He is sometimes considered stubborn in his dealings both internationally and nationally, Miss Kim continued. "But for a growing democratic country like South Korea, we need such a man," Miss Kim said.

## Rhee May Yield Top Powers

He told reporters both he and Rhee were agreed on "reforming governmental and political institutions based on a responsible cabinet system."

"I am considering relinquishing the vice presidency elect," said Lee.

His statement came shortly after Chang, leader of the opposition Democratic party, quit his post with a bitter blast at the Rhee government.

Lee's resignation had been demanded by the opposition since the March elections. It had been expected he might be dropped as a step by Rhee to meet the strong pressure on his government.

That pressure boiled up into near revolt last Tuesday with demonstrations that were climaxed in bloodshed in Seoul.

The resignation of Chang came as a surprise.

Chang said the purpose of his move was to "ring warning bells to the Syngman Rhee government, which is drunk with power and continuing tyrannical, oppressive rule."

Chang, 60, head of the opposi-

tion Democratic party, has been virtually ignored by Rhee during his term of office.

Chang announced his resignation as the man who defeated him in the disputed March 15 elections — Lee Ki-poong — also was reported planning to step down. In South Korea, the president and vice president can be of different parties.

Chang defeated Lee, Rhee's protégé, in 1956, but lost the same race last month. Charges that the election was rigged with stuffed ballot boxes and police coercion led to the bloody uprising in Seoul Tuesday in which at least 125 and perhaps up to 200 were killed.

A former premier indicated Friday night he expects Rhee to drop Lee as a step toward easing South Korea's grave internal crisis. That would necessitate a new election.

While 10,000 students staged new demonstrations in the port city of Inchon Friday, the 85-year-old Rhee was reported about ready to make an announcement.

## Hot Business Venture

Take a spur of the moment idea, add two coeds for "interest" and you come up with a lemonade stand doing good business in sunny, 88-degree weather. At least that's what five SUI students did Friday across from Shaeffer Hall on Clinton Street. They sold the lemonade for 10 cents while Dick Hafner, A3, Burlington, elicited choruses of "Tom Dooley" with his guitar. The other four from left to right are Marlene Yount, A2, Aurora, Ill.; Dan Jones, A4, Boone; Sandy Wilderson, A2, Sioux City, and John Welch, E3, Milwaukee.

# Chinese Businessman Turned To Art After WWII Jailing

By JOHN SPEVACEK  
Staff Writer

In Peiping, China, during World War II, the Japanese threw a Chinese businessman into jail for failing to cooperate. They released him a short time later, but on the condition that he not leave the city without permission, and that he not do any work. To support himself, he became an art teacher. He never returned to business.

The man was Gin Poh King, Professor of Fine Arts at Taiwan Normal University, Taipei, Formosa. He is visiting the University of Iowa as guest lecturer at the Rhode Island School of Design. This weekend he is at SUJ to lecture on Chinese bamboo painting and calligraphy.

King may have been a businessman, but his first concern is art. His family, one of the oldest in China, has a long artistic tradition. An uncle, Kungpo King, is termed the painter who sparked the Renaissance of 20th Century Chinese painting. This uncle was also the first Chinese judge to be appointed to the World Court at The Hague.

An aunt, Madame Ouang, was also a successful artist. One of King's saddest memories is the loss of the family's vast art collection, left behind when the Communists won the mainland.

King himself is a painter of the tradition that dates back 2200 years — the tradition of waterfalls, misty mountains, and delicate birds.

"I do not object to modern things, but I believe an artist must have a background in drawing," King said.

"In teaching my students, I give them a background in drawing with a pen, as you do in the West, and drawing with the brush, as in the East. My students learn the traditional way first."

"But then I encourage them to develop their own way," he continued.

King is not only an artist and teacher but also, in the traditional way, writes poems that appear on the edge of the painting. "In China one is not considered an artist unless he is a poet, writer and calligrapher as well as painter," King said.

He was educated at Yenching University in Peking, where his registrar was Y. P. Mei, head of Oriental Studies at SUJ.

He took up painting in college

# International Meet On College Unions Draws SUJowans

Representing SUJ April 24 to 27 at the 37th annual Association of College Unions international conference at Indiana University, Bloomington, will be four members of the Iowa Memorial Union staff.

They are George F. Stevens, associate director; Mrs. Mildred LeVois, executive hostess; Violet E. Pamme, manager, dining service; and William Adamson, public events arrangements.

This year's conference theme, "The Union's Part in the University's Education Program," reflects the avowed purpose of college unions — "to train students in citizenship, social responsibility, and democratic leadership."

The Association of College Unions is comprised of 375 member-institutions in the United States, Canada, Mexico, Cuba, Puerto Rico, Australia and the Philippines. Approximately 325 delegates are expected to attend the Bloomington conference.

# Sigma Alpha Epsilon Hosts National Officers

Iowa Beta Chapter of Sigma Alpha Epsilon social fraternity is playing host this weekend to the visiting dignitaries of the national headquarters as well as the various presidents and delegates at the fraternity's annual Province convention.

The national chapter is being represented by Dr. Chester D. Lee, past national president, and Roy Miller, Eminent Supreme Chancellor.

Each class will meet twice a week for a one-hour session, and a fee of \$2.50 will be charged for the 12 lessons. Each person must have his own tennis equipment.

Robert Lee, superintendent of recreation, said that Art Andrews, "one of Iowa's most highly rated tennis players," will be the instructor.

Anyone interested in taking lessons must pre-register at the Recreation Office at 130 Lafayette St.

because, "I found pleasure in art."

King was one of the founders of Taipei Teachers College in 1948. "We had only 26 students then," he recalls. "Today we have grown to 365."

His special interest is tracing the history of abstract art. "Bamboo painting is already very abstract," he said. "Chinese painters try to get away from form. They will paint a rock, leaves without stems, and birds, that are only a few strokes of the brush."

"Under the Manchus (17th Century) Mongols who cruelly oppressed everyone believed to be loyal to the conquered Ming dynasty, the artists had to seek refuge in the hills. Their escape from the world was expressed by the abstraction in their painting and calligraphy," he explained.

On the subject of art in Free China today, King commented that there are two schools — "There is the traditionalist, decorative school, and a movement started by some professors, who are influenced by the French moderns, like Cezanne and Van Gogh. These are not very popular with the people who do not understand them."

As for Oriental influence on Occidental art, King believes the effects can be seen in the work of early moderns, like Monet, and the more recent New York school, as epitomized by Rothko.

But on the speculation that Oriental and Occidental art will combine to influence each other, but will stay separate. This can be seen in China today, where only one of ten paintings sold is Western."

King will lecture today on Bamboo painting at the Art Building at 1 p.m.

# 12 SUJ Faculty To Give Papers In Eye Research

Nine scientific papers authorized by 12 members of the SUJ College of Medicine will be presented today at Indianapolis, Ind., at the 12th annual scientific session of the Midwestern Section of the Association for Research in Ophthalmology.

The papers by SUJ scientists will be among 32 presented at the meeting, which will be held at the Indiana University Medical Center.

Members of the faculty and resident staff of the Department of Ophthalmology at SUJ will attend the meeting.

Authors of papers from SUJ are Dr. Herman M. Burian, professor; Dr. Richard D. Richards, assistant professor, and Dr. Robert C. Watzke, assistant professor, all in the Department of Ophthalmology; Dr. Ralph C. James, professor of anatomy; Dr. Edgar F. Riley, research assistant professor in the Radiation Research Laboratory; Dr. T. Tokunaga, research fellow in ophthalmology, and Drs. James A. Stuart, John Dickerson, Roger S. Kirkegaard, G. K. von Noorden, R. R. Sexton, and Melvin L. Rubin, all resident physicians in ophthalmology.

# 12 Net Lessons Offered for \$2.50

The Iowa City Playground and Recreation Commission will conduct spring tennis lessons beginning May 2 at the newly-surfaced SUJ tennis court south of the Field House.

The lessons, for adults only, will be at 5:30 and 6:30 p.m. Monday through Thursday, and will be held for a six-week period.

Each class will meet twice a week for a one-hour session, and a fee of \$2.50 will be charged for the 12 lessons. Each person must have his own tennis equipment.

Robert Lee, superintendent of recreation, said that Art Andrews, "one of Iowa's most highly rated tennis players," will be the instructor.

Anyone interested in taking lessons must pre-register at the Recreation Office at 130 Lafayette St.

# High School Artists Show Work Here

Fifty-five works by high school artists will be selected today for the Traveling Exhibit of High School Art. The winners will be selected from a display of nearly 700 works now on exhibit at the SUJ Art Building.

Occasion for the Exhibit is the 30th Annual Art Education Conference, being held for high school art teachers and students. The conference ends today.

Included among the works on display are sculptures, oils, watercolors and papier-mache. Of special interest is the large number of mosaics made of colored paper.

The winners will be selected by guest critic Howard Conant, who will give a critique at 3:30 p.m. today. Conant, instructor in art at New York University, is a well-known art critic.

The winning works will be photographed for slides. The slides will be available to high schools for exhibition.

# Polyakov— (continued from page 1)

people themselves should settle it. Why should Russia or the United States interfere in Germany's problem? When a husband and wife fight, it is better for them to settle it themselves rather than an outside party. The same goes for Germany."

On Soviet-U.S. relations, Polyakov said: "It's not a very clever idea to start a war. It's easy enough to start one, but not so easy to finish. We (the United States and Russia) have two choices — to live in peace or fight a war. I'm sure both countries would prefer to live in peace."

He concluded by saying: "We (the people of the U.S. and Russia) must get to know each other better. You probably won't agree with me, and I probably won't agree with you on most things, but the only way to understanding (the U.S. and Russia) is through knowing them."

King will lecture today on Bamboo painting at the Art Building at 1 p.m.

# Workshop To Discuss Teaching Youth To Read

Problems of elementary-school reading teachers will be pursued at SUJ's Reading Workshop scheduled for June 6 to 9 in the University Elementary School. The workshop is open to all elementary school teachers, supervisors and administrators concerned with teaching the fundamentals of reading more effectively.

According to William Eller, associate professor in the SUJ College of Education and director of the reading laboratory at the University, the conference will be organized around a series of problems common to reading teachers at all grade levels.

The over-all view of a particular problem will be presented by a reading specialist in a general talk to the teachers. Later, separate grade-level meetings will attempt to relate the general problems to specific difficulties found in each grade from kindergarten to the sixth grade.

The problems to be discussed, according to Eller, will be those encountered by himself and other SUJ reading specialists during observations of elementary grade school classes throughout Iowa last year.

"Many teachers present their basic reading material in an unimaginative way," Eller points out. "We want to work towards increasing meaning and enjoyment of this material. There is usually not much content in the beginning reader, but if the teacher knows how to use it in an interesting manner, she can help the child want to read."

"It is the purpose of this conference to help teachers teach the child to read effectively using the materials they have on hand," he emphasized.

Topics to be discussed during the workshop include measurement of reading ability, individualized instruction, flexibility in reading groupings, the seriously retarded reader and oral and work study skills.

# Optimists Set IC Bicycle Tests

A bicycle driving test will be sponsored by the Iowa City Optimist Club with juniors in advanced Air ROTC assisting the club members.

The testing will take place Saturday, April 23, from 8 to 11 a.m. The driving tests will be conducted at City High parking lot, South Tennis Court at the Iowa Field House, on Johnson Street in front of the C.S.A. Hall near Horace Mann School, DeForest Avenue in front of Mark Twain School, and Longfellow School. Bicyclers are requested to go to the testing area closest to their homes.

The driving test will consist of a bicycle inspection, lane test, figure eight test, balance test, change-direction test and signal test.

At successful completion of the test, the bicyclist will receive a scotchlike sticker and a free ticket to a movie at the Iowa Theater Saturday, May 7 at 9 a.m.

# Alpha Delta Sigma Ad Fraternity Pledges 4

Alpha Delta Sigma, national men's advertising fraternity, pledged the following students Thursday night: Frank Brownell, A3, Montezuma, Bill Bowen, A3, Shenandoah, Glenn Mayo, A3, Iowa City, and Dan Switzer, B4, Waterloo.

# SUJowan To Teach Judaism At Berlin Free University

Frederick P. Bargebuhr, associate professor of religion, has been awarded a Fulbright scholarship for a 10-month period of instruction at the Free University of Berlin, Germany.

Bargebuhr's acceptance of the award will make him the first instructor of the Jewish faith at the Free University. His appointment is subject to the approval of the Board of Trustees of the School of Religion and the State Board of Regents.

"The Free University of Berlin has been interested for some time in having a teacher to represent the Jewish religion, in addition to a Protestant and a Catholic," Bargebuhr said.

"Jewish guest speakers have been invited regularly to the University, but these people were not teachers of religion and there has never been a chair of Jewish studies established at the Free University," he added. With Bargebuhr's appointment, the establishment of a Jewish chair reaches a tentative stage.

Bargebuhr's work at the Free University would be concerned with Judaism and Islam. His students would be the equivalent of SUJ junior, senior and graduate students.

Bargebuhr would like to build a lasting relationship between the universities involved. "I particularly hope to export the idea of the SUJ School of Religion to Europe," he said.

In describing the Free University, Bargebuhr reported that the intellectual climate there is very lively.

"The precarious insular situation of Berlin, split into halves, adds to a specific alertness to world problems," he explained. "This is in contrast to a certain smugness to be observed in the other part of free Germany, with its unheeded of new prosperity, extension of trade empire and re-armament."

Bargebuhr added: "The young German generation needs help and advice for re-orientation on a European or international basis."

Although he was born in Hamburg, Germany, Bargebuhr said he does not look at his appointment as a "return to his old home." He is well acquainted with German university life, German literature and history; yet, he said he dissociates himself from German attitudes and methods. He explained he sees his temporary return to Europe as an opportunity to develop a stance of "creative distance."

Bargebuhr received his Ph.D. in Semitics and history from the University of Munich. In 1949 and 1950 he studied Indo-European linguistics at Harvard. He joined the SUJ religion faculty in 1951.

# Library To Show Books of the Year

"Fifty Books of the Year," a library exhibit to run from Monday until the end of May, will contain a book printed by Harry Duncan, assistant professor of journalism.

The books were selected by the American Institute of Graphic Arts as the best 50 books in 1959 from the standpoint of typography. The criteria for the selection of each book were design, printing and layout.

"Valentines to the Wide World," the book printed by Duncan, contains poems written by Mona Van Duyn. Two former SUJ students Raeburn Miller and K. Kimber Merker, helped to print the book.

# Painting by SUJ Prof Bought by Kansas State

"Abandoned Tin Mine," an oil painting by Byron Burford, associate professor of art at SUJ, has been purchased for the Kansas State University.

The painting was part of the Sixth Biennial Exhibition of Regional Painting and Sculpture sponsored by Friends of Art, Kansas State University, Manhattan, Kan. The exhibition was hung in the Art Lounge of Kansas State University from March 13 to 27.

# 90 PER CENT COUNTED WASHINGTON (AP) — About 9 in every 10 Americans have now been counted in the 1960 census.

The Census Bureau said Friday that as of Wednesday night, the total number counted was 159,962,181. This represented 89 1/2 per cent of the estimated population of 180 million.

# OFFICIAL DAILY BULLETIN University Calendar

Saturday, April 23  
9:30 a.m. — Psychiatric Lecture, John Nurnberger — Psychopathic Hospital, Classroom.  
7:00 p.m. — Aesculapian Fratics, Main Lounge, Union.

Sunday, April 24  
7:45 p.m. — Mountaineers Film-Lecture, Macbride Auditorium.  
1:00 p.m. — Boy Scout Recognition Meeting, River Room, Union.

The 1960-1961 academic year must apply for assignment before May 15, 1960. Application blanks may be obtained in 308, University High or W-114, EHL.

ORDERS for official graduation announcements for the June 1960 commencement are now being taken. Place your order before 5 p.m., Monday, April 25, at the Alumni House, 200 N. Madison. Price per announcement is twelve cents.

WEIGHT TRAINING ROOM will be open for use by students on Mondays, Wednesdays and Fridays between 1:30 and 4:30 p.m.

RECREATIONAL SWIMMING for all women students will be on Monday, Wednesday, Thursday, and Friday, from 4:15 to 6:15 at the Women's Gym.

NORTH GYMNASIUM of the Field House will be open for student use from 1:30 p.m. to 5 p.m. on all Saturdays on which there are no home games. Students must present their I.D. cards at the gate door in order to gain admittance. The North Gym will be opened for student use each Friday from 1:30-3:30 p.m.

UNIVERSITY COOPERATIVE BABYSITTING LEAGUE will be in the charge of Miss Wanda from April 19-May 5. Phone 8-4898 for a sitter or information.

# 90 Entolling Students Get Honors Plan

Ninety SUJ-bound high school seniors have been notified by Rhodes Dunlap, professor of English and director of the SUJ Honors Program, that they are to be granted Honors status when they enroll at SUJ.

Dunlap said that 150 freshmen are expected to be admitted into the program by next fall. The group will include the top 10 per cent of the entering freshmen as determined by their scores on the American College Testing program tests.

Honors students study regular subjects intensively in small classes planned to inspire them to do their own thinking and research. Such an approach to learning is not often used in colleges and universities until specialized department work in the junior and senior years.

A faculty sponsor is assigned to each Honors student. The sponsor helps guide the student in both curricular and extra-curricular activities. No more than 10 students are assigned to each sponsor.

# Visit to St. Louis Advertising Media Set for 2 Seniors

Two University of Iowa seniors majoring in advertising journalism will be among 22 advertising students from 11 Mid-Western universities given an "inside view" of their chosen field on Sunday, Monday and Tuesday during "College Award Days" sponsored by the Advertising Club of St. Louis.

The Iowa students are Carol Ann Wetzel, Sterling, Ill., and Jay I. Wilson, Creston. They will be accompanied to St. Louis by Ellis H. Newsome, associate professor of journalism.

The 22 students were selected by their own schools on the basis of interest and ability.

The students will see, hear and discuss the operations of advertising agencies and company advertising departments, national manufacturers and retail department stores. They also will visit radio and television stations and learn about advertising programs of magazines, car cards and billboards.

This is the 15th annual College Award program held by the St. Louis Ad Club. Participating in this year's activity are the Universities of Iowa, Illinois, Nebraska, Oklahoma, Southern Illinois, Kansas, Kentucky, Missouri, Tennessee, St. Louis and Washington (at St. Louis).

As special recognition, the students will be guests of honor at the St. Louis club's luncheon meeting Tuesday at which time they will be presented certificates of achievement.

# Settlement Made In Oil Firms' Suit

A suit between the Texaco Oil Co. and a group of local distributors of D-X Sunray products has been settled out of court, an attorney for the Texaco firm said Friday.

The settlement calls for the Cannon service station at 510 S. Riverside Dr., to be owned and operated by Texaco instead of being an outlet for D-X products.

The case was set for a non-jury trial this week in Johnson County District Court. Judge H. D. Evans earlier had granted a temporary injunction ordering the station to remain a Texaco outlet, rather than switching to D-X Sunray.

Texaco was reported to have purchased the station under an option made in original leasing agreements. The purchase price listed in the option was \$75,000.

# HOOGY BULL LONDON (AP) — Red China claimed Friday exporters have crossed a Yorkshire sow and a Holstein bull to produce sturdier, faster growing pigs.

9:30 and 11 a.m. Morning Worship  
"Service of Man"

GOOD LISTENING— Today On WSUI

SATURDAY SUPPLEMENT, 1 p.m. to 4 today, will devote itself entirely to an exploration of the Faust and Mephistophelean legends — a program in recognition of the ambitious project of the Cedar Rapids Symphony and Civic Music associations: three performances, April 25, 26, and 27, of "Faust" in English. Express items: Christopher Marlowe's drama, "Faustus," with Howard Silver in the title role; Douglas Moore's opera, "The Devil and Daniel Webster," with libretto by

Stephen Vincent Benet; and music from Boito's finest opera, "Mephistofele." Some 1910 vintage recordings of Enrico Caruso and Geraldine Farrar have been included for the benefit of those oldsters who think of a turntable as something which, like the Motel T Ford, has to be cranked. Latest recordings, however, will be taped interviews with imported, professional singers who are playing the principal roles in the C.R. "Faust." SS this week may well be said to have gone to the Devil. (Hell, you say.)

EARLIER, ON CUE, from 10 a.m. to 1 p.m., one or two of those same fast kiddies from Cedar Rapids will be heard rehearsing to beat the Devil; there will be interviews with the Iowa baseball coach, the president of the I.C. Community Theatre (readers of this paper's advertising columns will recall the current production, "The Diary of Ann Frank" or "A Case of Split Milk"); the leader of the Ralph Marterie Dance Orchestra (Ralph Marterie); and a man digging a hole (Cue averages about one of these every week, apparently in the mistaken belief that it lacks the common touch.)

"CALL ME MADAM," an impression worth examining whenever it arises, is really nothing more than this morning's musical comedy program at 9 a.m. Ethel Merman is its object and Loren Coking acts as "caller."

THE OTHER END of the musical spectrum is represented by an Evening Concert, from 6 p.m. to 8, which includes the Beethoven Violin Concerto in D, Opus 61 (Meninghin), Symphony No. 5 by Rubbra, Piano Concerto in G by Ravel (Bernstein) and an out-of-season Nutcracker Suite.

## Banker Sets 'Sound Dollar' Talk Tuesday

George W. Mitchell, vice-president of the Federal Reserve Bank of Chicago, will speak on "The Sound Dollar" Tuesday at SUI.

The lecture, sponsored by Beta Gamma Sigma, scholastic honorary society of the SUI College of Business Administration, will be presented at 3:30 p.m. in the House Chamber of Old Capitol and will be open to the public.

The financial expert will present a dinner address on "Current Issues of Monetary Policy" to a meeting of Beta Gamma Sigma and invited guests on Tuesday evening.

Mitchell received an A.B. degree from the University of Wisconsin in 1925 and was on the staff of the SUI Bureau of Business and Economic research from 1927 to 1930.

In addition to his position of vice-president of the Chicago Federal Reserve Bank, Mitchell is also associate economist of the Federal Open Market Committee of the Federal Reserve System.

He held the position of director of finance for Illinois under Adlai Stevenson from 1949 to 1951 and was also president of the National Tax Association in 1948.

In a 1952 issue of U.S. News and World Report, Mitchell was tabbed as the most likely candidate for U.S. Secretary of Treasury if Adlai Stevenson won the Presidency.

## 20 SUI Students Attending Parley On Dorm Morale

Twenty SUI dormitory residents and two advisers left by chartered bus Friday to attend the annual Big Ten Residence Halls Conference at Purdue University in Lafayette, Ind.

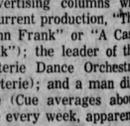

The conference runs today through Sunday. "Student Morale in Residence Halls" will be the theme of the conference, which will feature a number of small discussion groups on various aspects of residence hall morale.

Guest speakers and discussion leaders will include faculty and staff members from Purdue and student leaders from the Purdue University residence halls.

Each Big Ten school will have a display at the conference which will include handout literature and photographs showing dorm activities and facilities.

There will be 20 student delegates plus advisers and counselors from each of the Big Ten schools.

## Expert Slates Talk Here On Viruses and Cancer

Dr. John R. Heller, director of the National Cancer Institute at Bethesda, Md., will be guest speaker Monday at the SUI College of Medicine.

Dr. Heller also serves as professional lecturer at the George Washington University school of medicine. He belongs to several professional organizations, including the American Public Health Association, the American Venereal Disease Association, the American Cancer Society, and the Cancer Public Health Association.

Dr. Heller will speak on "Viruses and the Cancer Problem." His talk will begin at 4:10 p.m. in the medical amphitheater of the University's General Hospital.

The scientist's visit to SUI will be sponsored by the Iowa Division of the American Cancer Society and by the St. George Society, an organization which promotes interest among medical students in the study of cancer.

From 1931 until 1934, Dr. Heller was acting assistant Surgeon General of the United States Public Health Service (USPHS). He was medical director of the Venereal Disease Division of USPHS in 1943, and was appointed assistant Surgeon General and director of

the National Cancer Institute in 1948. He still holds these two positions.

Take 3rd Straight Game

Tigers Edge White Sox 6-5

DETROIT (AP)—A record opening-day crowd of 53,563 jammed Briggs Stadium Friday as the Detroit Tigers edged the Chicago White Sox 6-5 on a two-out, ninth inning single by Lou Berberet.

The chunky catcher lined one of Bob Shaw's pitches into center field with the bases loaded. The hit scored Al Kaline from third base and provided Detroit with its first opening day triumph at home since 1954.

The Tigers, only undefeated team in the American League, now have won all three of their starts.

A's 4, Indians 1

KANSAS CITY (AP)—Norm Siebern and Bob Wertz hit consecutive home runs Friday and started the Kansas City Athletics toward a 4-1 victory over the Cleveland Indians in this city's American League opening.

Cleveland ..... 010 000 000—1 9 0  
Kansas City ..... 022 000 000—4 7 0  
Hawkins (3), Tiefenauer (6), Briggs (8) and Nixon (9), and Chittum (10) and Sadowski (11) and Stobbs (12) and Hyde (13) and Battey (14) and Kline (15) and Kline (16) and Kline (17) and Kline (18) and Kline (19) and Kline (20).

Giants 10, Cubs 8

CHICAGO (AP)—An ill wind blew plenty good Friday for the San Francisco Giants, who slammed five homers in spoiling the home debut of the Chicago Cubs, 10-8.

San Francisco ..... 001 051 021—10 13 2  
Chicago ..... 003 110 300—8 12 3  
Jones (1), Miller (2), O'Dell (3), Loe (4), Antonelli (5) and Wilson (6), Landrieth (7), Hobbie (8), Johnson (9), Elston (10), Anderson (11) and Rice (12), Ford (13), Terry (14) and Howard (15), Bressoud (16), Chicago, Thomas (17), Altman (18).

Yankees 5, Orioles 0

NEW YORK (AP)—Whitey Ford maintained his opening day mastery as the New York Yankees blanked the Baltimore Orioles 5-0 Friday before 35,645 spectators, largest inaugural crowd at Yankee Stadium since 1952.

Baltimore ..... 000 000 000—0 8 0  
New York ..... 001 102 010—5 9 0  
Wilhelm, Anderson (7), Portocarrero (8) and Triandou, Courtney (9), Ford (10), Terry (11) and Howard (12), Ford (13), Terry (14) and Howard (15), Ford (16), L. — Wilhelm (17), Home runs — New York, Mantle (1), Lopez (2).

major scoreboard

Table with columns for National League and American League, listing teams, wins, losses, and percentages.

Red Sox 5, Senators 4

WASHINGTON (AP)—Vic Wertz slammed a home run into the left field stands Friday night to give Boston an 11-inning, 5-4 victory over Washington.

Boston ..... 009 000 031 01—5 9 2  
Washington ..... 102 000 010 00—4 10 0  
F. Sullivan, Worthington (8), Bowersfield (9), Fornieles (10), Chittum (11), Moulouquette (12) and Sadowski (13), Giles (14), Kant, Clevenger (15), Stobbs (16), Hyde (17) and Battey (18) and Moulouquette (19), L. — Hyde (20).

Phillies 10, Reds 7

PHILADELPHIA (AP)—Ace right-hander Robin Roberts threw two home-run balls Friday night, but still won his first game in three starts as Philadelphia defeated Cincinnati 10-7.

Cincinnati ..... 201 011 011—7 16 0  
Philadelphia ..... 402 002 109 10 0  
Hook, Nuxhall (1), Bronson (2), Osteen (3), Lawrence (4), Wiand (5) and Baker, Roberts (6) and Coker (7) — Roberts (1-2), L. — Hook (1-1).

Cards 11, Dodgers 7

ST. LOUIS (AP)—The St. Louis Cardinals clubbed six Los Angeles pitchers for 15 hits Friday night and an 11-7 victory, their second straight after losing the first five.

Los Angeles ..... 010 220 200—7 14 0  
St. Louis ..... 500 320 010—11 15 0  
Koufax, Rebeck (1), Craig (2), Williams (3), Bakow (4) and Roseboro, Jackson, Bridges (5), McDaniel (6) and Smith, Canizaro (7), W. — Bridges (1-4), L. — Koufax (6-1).

Bradley Stops Hawkeyes 3-1

PEORIA, Ill. (AP)—Southpaw Bernie Dwyer hurled Bradley to a 3-1 baseball victory over Iowa Friday on a field of four hits.

Dwyer struck out 6 and set down the last 18 batters in order. Scott Sullivan and Larry Pehelman led Bradley with two hits each.

It was the seventh loss in 10 starts for the Hawkeyes. The two teams meet in a doubleheader today.

TO RENAME STADIUM  
DETROIT (AP)—Briggs Stadium will be renamed Tiger Stadium at the close of the 1960 baseball season, the Tigers board of directors said Friday.

Edward S. Rose says

We are centrally located just south of Hotel Jefferson — let us fill your PRESCRIPTION and file it away for future reference—we invite you to use our Multiple Vitamins — high potency and priced low.

Relays Slow at Kansas

LAWRENCE, Kan. (AP)—Jim Baird of East Texas State set a meet record of 25 feet 5/4 inches in the broad jump at the Kansas Relays Friday, but the highly rated relay teams failed to come up to their billing.

Noel Certain of Emporia, Kan., State also bettered the 29-year-old broad jump record of 25-4 1/2 set by Edward Gordon of Iowa in 1931. Certain's best jump was 25-5.

Don Meyers of Colorado, Big Eight Conference indoor champion, jumped 25-4 and another Coloradoan, Bill Toomey, went 24-7 1/2.

Today will feature attempts by Bill Neider, shot put star, and J. D. Martin, Oklahoma's great pole vaulter, for possible world records.
