

Senate Rejects Increase for Regents

Challe's Surrender Ends Algeria Uprising

De Gaulle's Orders Speed Up Rebels' End

PARIS (AP) — The Algiers generals' rebellion against President Charles de Gaulle collapsed early today with the surrender of the insurgent leader, Gen. Maurice Challe.

The end was hastened by De Gaulle's military orders to wipe out the rebels, as necessary, to restore order.

The fate of Challe's fellow rebels remained in doubt but those chiefly responsible may be executed as traitors.

Gen. Raoul Salan, first reported by the recaptured Algiers Radio to have committed suicide, later was seen alive. He appeared on a balcony of Government House in Algiers then drove off with Challe to an unknown destination.

The office of President de Gaulle announced that Challe had put himself at the disposition of the French Government.

Challe's surrender spelled the end for the dramatic insurrection of paratroops and dissident generals that began Saturday.

Paratroops have pulled out of Algiers, the last big Algerian city held by the insurgents.

The insurrection ended with as much dramatic suddenness as it began.

A quartet of generals seized Algiers last Saturday. Attempting to force De Gaulle to abandon plans for negotiations with the Algerian Nationalists who have been fighting for independence for 6½ years, they wanted to keep the big North African territory under the French flag.

In the announcement from De Gaulle's Elysee Palace there was no mention of the other top generals involved — Andre Zeller and Edmond Jouhaud.

De Gaulle had already opened the legal proceedings that could result in death sentences for all the insurgent leaders.

It was just after midnight in Paris when the collapse of the rebellion became apparent.

Radio Algiers first reported the suicide of Salan and the surrender of Challe.

The voice of the insurgents, radio Algiers, was recaptured Tuesday night by French marines and immediately rejoined the French national network.

It reported Gaullist forces were taking over the French North African capital, the last major holdout remaining in the hands of insurgents.

Oran and Constantine earlier had been reported back in Gaullist hands.

One salient fact stood out in a welter of confusion in Algiers: The insurrection that vowed to keep Algeria under French rule against De Gaulle's course for dealing with Nationalists was dying in high drama.

The generals' coup came without warning early last Saturday morn-

ing, and France had gone on the defense in anticipation of an airborne invasion of Paris from Algeria.

De Gaulle had taken the sternest measures with orders to wipe out the insurgents by war if necessary. The tide seemed to turn quickly after that.

Algiers radio claimed that "republican law and order" was being re-established in the capital of the North African territory.

The report followed a broadcast saying that street fighting had raged briefly in the streets of the capital Tuesday night.

Corps Criteria Discussion Set

The criteria for selecting volunteer members of the Peace Corps will be discussed Thursday at 8 p.m. in the Main Lounge of the Iowa Memorial Union by Maurice L. Albertson, head of the staff which studied the potential of the Corps.

SUI's Forest Eyashevski, new physical fitness consultant to the Peace Corps, will not be present for a question and answer session as was stated in Tuesday's Daily Iowan.

Albertson and two colleagues conducted a 2-month survey in Latin America, Asia, and Africa, which resulted in a recommendation to President Kennedy and Congress that the United States send 5,000 trained young men and women to work in underdeveloped countries during the coming year.

Albertson said he found there is strong support abroad and in the United States for the Youth Corps program.

Albertson holds a B.S. degree in civil engineering from Iowa State University and an M.S. and Ph.D. in hydraulic engineering from SUI. He also holds the degree of Doctor of Physical Sciences from the Universite de Grenoble in France.

Albertson served as Assistant Engineer at the Iowa Institute of Hydraulic Research at SUI from 1941-1942. He is now director of the Colorado State University Research Foundation at Fort Collins, Colo.

VOTE RAISE FOR ERBE
DES MOINES — The Iowa Senate Appropriations Committee voted Tuesday to allow a pay increase of \$2,750 a year to Gov. Norman Erbe.

Kennedy Gets Endorsement Of Cuba Stand

Rockefeller, Truman Support 'United Front' Against Communism

(See picture on Page 8)

WASHINGTON — President Kennedy has won the support of Gov. Nelson A. Rockefeller and former President Harry S. Truman in his effort to present a united front against Communist threats in Cuba and elsewhere.

Rockefeller, Republican governor of New York, met with Kennedy for an hour at the White House Tuesday and said on emerging: "I think it is time for all Americans to stand united behind the President in support of whatever action becomes necessary to defend freedom."

Truman conferred with Vice President Lyndon B. Johnson in Kansas City, Mo., Tuesday and pledged his support for "the course of courage," as Johnson phrased it.

Johnson, declaring that free men unite best when they know the facts, said in a statement: "The Administration is taking steps to be sure that leaders of both our political parties are completely aware of what is going on. There will be no evasion or avoidance of unpleasant facts. This is a partisan matter only in the sense that all of us, Republicans and Democrats alike, are partisans of freedom."

"So long as we can operate in mutual trust and understanding we need have no fears of the future. This country has a job to do and we and all our allies are going to do it."

Just how the job of recovering from last week's setback in Cuba is going to be done apparently was the subject of intense discussion on several levels of Government. No decisions were announced.

Failure Not To Delay Man's Flight

CAPE CANAVERAL, Fla. — An Atlas rocketing an unmanned Mercury capsule toward orbit veered off course and was destroyed Tuesday. But U.S. space agency officials said this would not delay the launching of America's first space man, expected next Tuesday.

Nor will the spectacular failure prevent the United States from placing a man in orbit before the end of the year, said Robert Gilruth, director of Project Mercury for the National Aeronautics and Space Administration.

Next week's scheduled firing is to launch a space pilot on a sub-orbital flight which will take him 115 miles up and 300 miles down range in 16 minutes. A smaller Redstone rocket will be used for this mission.

The 3,000-pound Mercury capsule was blasted away from the Atlas booster seconds before the explosion and was recovered undamaged.

Tryouts Set for 5 Men Cheerleaders

The Pep Club issued a call today for men students to fill the five male vacancies on the 1961-62 cheerleading squad.

Tryouts are set for Thursday at 2:30 in Macbride Auditorium. Members of the Pep Club Council emphasized that no previous experience is necessary. The only requirement is a 2.0 GPA.

Instructions will be given at the beginning of the session, followed by a short practice and individual tryouts. Four cheerleaders and an alternate will be named. Judges will be members of the Pep Council, outgoing senior cheerleaders, and Head Gymnastics Coach Norman Holzaepfel.

Four women cheerleaders, an alternate and a sub-alternate were named after tryouts Monday. Not enough men tried out at that time to fill the five male vacancies.

Personality Profile—

Young GOP Head Believes In 'Individual' Group Action

By JUDY KLEMESRUD
Staff Writer

"It's high time a group representing the majority of students is heard from, and that's why I think it's imperative the Young Republicans make their opinions known on campus," says Lee Theisen, A2, Sioux City, new president of the SUI group.

"My goal is to build the club from its present 600 members to over 1,000 members," Lee said. "And I definitely think the club should take a stand on campus issues, but it should be done as individual action, and not as a coalition with other campus groups," he continued.

Lee defeated Lloyd Humphreys, L1, Chicago, for the Young Republicans presidency just a few weeks after he was defeated by 4 votes in the all-campus elections. He was the only Independent in a field of 12 Liberal Arts candidates running for Union Board.

A few weeks later, he pledged Lambda Chi Alpha social fraternity, and promptly became pledge class president. When asked if the "can't beat 'em, join 'em" notion had anything to do with his pledging a fraternity, he said: "If I had been elected to Union Board, chances are I would have remained an Independent because I would have felt obligated to them. But I didn't run strictly as an Independent, because I secretly thought I

might pledge later on. "So far, I have enjoyed every facet of fraternity life," Lee continued. "There seems to be more group spirit than in Independent living, and this I like."

A political science major with a 2.45 grade average, Lee plans to go into law, "probably at SUI." As for post-graduation plans, he said: "I hope to go as far as I can in politics."

Lee attended George Washington University in Washington, D.C., his freshman year. He majored in foreign affairs there, and trans-

Theatre Play Set To Open On Thursday

Whether Interfraternity and Panhellenic Councils should be represented on Student Council by one or two delegates each may be the paramount topic at the Council's meeting tonight at 7 p.m. in the River Room of the Iowa Memorial Union.

John Niemeyer, A4, Elkader, Council President, said Tuesday he will bring up the matter as a part of his report of the Council committee on apportionment. Niemeyer is head of the committee.

"There seems to be double counting going on," Niemeyer said. "Fraternity and sorority members who live in the dormitories and off-

Profile
(Continued on Page 6)

campus are counted among the IFC-Panhell constituency."

Seats on the Council are allotted according to the population of the various types of student housing: dormitory, off-campus, fraternity, sorority, professional fraternity, and married student housing.

Nedra Morgan, A3, Iowa City, president of Panhell, and Dave Rusk, A3, Urbandale, IFC president, said they had not heard of the question of representation until Tuesday night.

Both indicated they planned to attend the Council meeting. "Our stand probably will be that pledges who live in the dorm are members of the Greek System and should be counted as such," Miss Morgan said.

Greeks May Lose 2 Council Members

Whether Interfraternity and Panhellenic Councils should be represented on Student Council by one or two delegates each may be the paramount topic at the Council's meeting tonight at 7 p.m. in the River Room of the Iowa Memorial Union.

John Niemeyer, A4, Elkader, Council President, said Tuesday he will bring up the matter as a part of his report of the Council committee on apportionment. Niemeyer is head of the committee.

"There seems to be double counting going on," Niemeyer said. "Fraternity and sorority members who live in the dormitories and off-

campus are counted among the IFC-Panhell constituency."

Seats on the Council are allotted according to the population of the various types of student housing: dormitory, off-campus, fraternity, sorority, professional fraternity, and married student housing.

Nedra Morgan, A3, Iowa City, president of Panhell, and Dave Rusk, A3, Urbandale, IFC president, said they had not heard of the question of representation until Tuesday night.

Both indicated they planned to attend the Council meeting. "Our stand probably will be that pledges who live in the dorm are members of the Greek System and should be counted as such," Miss Morgan said.

City, County Officials Meet Today—

Water Rescue Issue To Be Rehashed

To the thousands of eastern Iowans who enjoy the recreational facilities at the Coralville Reservoir and Lake Macbride, the problem of water rescue is an important issue.

The latest emergency, involving the delayed rescue of a boater whose craft capsized at the Reservoir last week, has rekindled the problems and controversy surrounding a water search and rescue unit for Johnson county.

The basic issue — who will answer water emergency calls in Johnson County and how will rescue attempts and recovery of victims be undertaken — will be discussed today by city, county, and other officials at 2:30 p.m. in the Courthouse.

City, County Officials Meet Today—

Being a private group, however, without official sanction, the Coast Guard Auxiliary knew that it couldn't form such an organization without co-operation and direction from officials and agencies that normally are involved in water emergencies.

In June, 1960, the Coast Guard Auxiliarymen called officials together in Iowa City to discuss the possible formation of a search and rescue group.

At that meeting, the need for such an organization was agreed upon. Sheriff A. J. Murphy, who is generally regarded as responsible for directing all water searches in the county, both inside and outside city limits, was cited as the man to head the search and rescue group.

The Coast Guard Auxiliarymen also decided they would seek financial assistance from the County Board of Supervisors to obtain more adequate search equipment. Financial assistance was received and a trailer was constructed to house necessary equipment. The trailer was housed in the city fire station.

In December Auxiliarymen heard that city officials planned to notify the Board of Supervisors that the county would have to pay

rent if it wanted to keep the rescue unit in the new fire station.

At the same time, firemen began to wonder where they stood in case they were injured or killed while participating in a water search or rescue outside the city limits.

Finally on Jan. 3, the Auxiliary called officials concerned with the search and rescue group together again to discuss the problem.

At the meeting, City Manager Peter F. Roan confirmed city plans to ask the county for a "rental" fee for storing the trailer at the fire station. He also said the doubt that had arisen on pension coverage for firemen on water emergency calls might prevent the city from allowing them to answer such calls thereafter.

Roan's position was this: Since city taxpayers and the University paid for the new fire station, the county should pay its proportionate share for building construction if it wanted to store the search rescue trailer, since water searches are a county function.

To settle the position raised by the city manager, a meeting of attorneys was not held until March due to confusion over who was supposed to call the meeting. Representatives of the City Administration,

the Fire Department, the County Attorney's Office, the Board of Supervisors, the University and the Auxiliary attended the meeting.

City Atty. William F. Suplee announced at the meeting the city's intention to discontinue sending firemen outside the city limits on water emergencies once the rescue unit problems were solved. However, he said, firemen would continue to answer water emergency calls inside the city limits.

He added that until the rescue problems were solved, the firemen would continue to go outside the city on such calls.

The city at this time said that firemen could participate in water search and rescue operations outside the city in a volunteer status when they were off-duty, in which case five-year firemen would be eligible for 50 per cent pension benefits.

Thus, if the city follows through with its decision not to send firemen outside the city on water emergencies hereafter, areas outside the city — mainly the Coralville Reservoir and Lake Macbride — would be left without emergency water search and rescue service, since neither the Sheriff's Office nor the Coast Guard Auxiliary are set up now to handle such service.

Trims \$9.4 Million From Board Request

DES MOINES — The State Board of Regents and SUI lost the first round Tuesday in a battle to increase appropriations for Regents' institutions for the coming biennium.

The Senate, rejecting an amendment to add \$3.5 million yearly to the \$40.3 million recommended by Gov. Norman A. Erbe in his budget message, passed a bill to give the Regents \$40,373,000 a year. The vote was 37-12.

The bill now goes to the House, where another battle is expected as Representatives attempt to hammer out a compromise appropriation for the Regents.

The \$40.3 million figure approved by the Senate Tuesday is on par with the recommendations made by both Erbe and the Senate Appropriations Committee.

But the figure is well below the \$49,765,480 which the Regents had requested. Regents' institutions now have an annual operating budget of \$36,580,722.

The battle for more funds began when a joint Senate-House Subcommittee voted for a \$43.8 million Regents appropriation. The Senate Appropriations group, though, pared that to the Governor's recommendation.

The House Appropriations Committee, meanwhile, had approved a bill to grant the Regents \$43.8 million yearly. That measure is expected to come up soon in the house, possibly today.

Senate action for additional funds began when a bipartisan amendment was introduced by Melvin Wolf (D-Waterloo) to make the annual appropriation \$43.8 million.

After much debate, which crossed party lines, that amendment was defeated 26-23.

Much of the backing for additional funds came from Senators pleading "for the sake of Iowa's youth."

"Erbe's budget reflects a ridiculously short-sighted attitude," said Wolf.

"It's too bad we can't get excited for the SUI law school like we can for its football team," said Senator Richard Turner (R-Council Bluffs). "This is far more important than fumbling a football at the goal line. We can't afford to fumble here."

Senator Peter Hansen (D-Manning) suggested increased revenue could be gathered from liquor by the drink.

But Senator X. T. Prentiss (R-Mount Ayr) said "We haven't got the money and we haven't got the revenue."

In addition to the \$40.3 million, SUI would be allowed to keep up to \$200,000 in funds that would normally revert to the State General Fund at the end of the biennium.

Before the vote on the bill, the Senate defeated an amendment to permit the Regents to reduce non-academic services and duplication of services to increase salaries to retain teaching personnel.

House May Raise Funds, Leaders Say

By HAROLD HATFIELD and BOB INGLE
Staff Writers

DES MOINES — Hope for increased funds for SUI and the other Board of Regents institutions now lies with the Iowa House, Legislative observers and politicians here believe.

Tuesday, the Senate passed a bill to allocate \$40,373,000 yearly to the Regents' institutions. This was the same figure recommended by Gov. Norman A. Erbe and the Senate Appropriations Committee.

It was well below the \$49 million asked by the Regents.

A Senate amendment to add \$3.5 million to the Governor's figure was defeated, 26-23, after much debate.

Ray Cunningham (R-Ames) chairman of the House Appropriations Committee, said "We are going to vote to amend the Governor's budget. But I can't say just how or when." Cunningham told The Daily Iowan that his committee would have an important meeting today to discuss the Regents' budget.

House Majority Leader Robert Naden (R-Webster City) said he assumes there "is a good possibility that the House will pass a larger bill than that passed by the Senate Tuesday." Naden indicated that the matter probably would not come up for debate today, but would be put off until Thursday.

He said the House would most likely pass a bill as recommended by its Appropriations Committee. This group has voted already on a \$43.8 million bill. But the committee will meet again today.

Senate Minority Leader Andrew Frommelt (D-Dubuque) said action in the upper chamber Tuesday indicated that if the bill comes back to the Senate for concurrence in a higher House figure, there is some chance the Senate will pass the larger budget.

Frommelt said the big problem for additional Regents' aid is that the higher figure implies additional revenue. "If the Regents don't get the extra money," he said, "certain things may have to be curtailed."

"In any event," he said, "somebody's going to suffer."

Laos Cease-Fire

Above map focuses attention on Laos, where a cease-fire was accepted Tuesday by the U.S.-backed Government and pro-Communist Pathet Lao rebels. Blackened areas, where most of fighting is taking place, are heavily infiltrated by Communist forces, but where Government troops are also present. Rebels are in firm control of areas shaded by diagonal lines.

'You Can't Say We're Denying Your Right To Vote'

He Says Americans Want Follow-up in Cuba

By ROSCOE DRUMMOND

WASHINGTON — The question now is not who's to blame for the fiasco in Cuba — but what next?

The temptation is to look for a scapegoat. Some within the Administration are already trying to blame the Eisenhower Administration for the amateurish and inadequate invasion.

Fortunately President Kennedy himself is having no part of this "operation politics." He knows he could have vetoed the invasion which was being prepared under Eisenhower during the past year...

If I am correctly informed, former President Eisenhower and former Vice President Richard Nixon have assured Kennedy that they will have their backing in any measures to carry out the commitment he made to the American Society of Newspaper Editors last week.

Referring to the tragic end of the Hungarian Freedom Fighters, he flatly stated that the U.S. will "not accept the same outcome which this small band of gallant Cuban refugees must have known they were chanceing."

If Kennedy refuses "to accept the same outcome" for the Cuban Freedom-Fighters as befell the Hungarian Freedom-Fighters, then he is saying that the United States is determined to insure the success of the anti-Castro Revolution.

This is what the American people want to hear. This is what the American people want to see.

It is well that Gen. Maxwell D. Taylor, former Chief of Staff for the Army, is taking a new look at our capabilities — and shortcomings — in unconventional warfare and intelligence...

because he has long been dissatisfied with our limited war operations. But what will count will be the follow-up. Inadequate intelligence may well have contributed somewhat to the failure of the invasion...

What's the matter with the ordinary sounds that are being drowned out — the chatter of people, the laughter of children, the songs of birds, the wind in the treetops...

I prefer those three sad-faced, proud old men, playing beside the cracked fountain, behind the potted palm in hotels and restaurants all over Europe...

Non-music, even when they're playing pretty good tunes, is background music. The volume is kept low so that you can't quite hear it and yet you can't quite not hear it, either...

'Non-Music' Empty, Bugs Crosby

By JOHN CROSBY

There's been talk about non-books. What about non-music? Non-books, (an expression invented by "Time" magazine), have been described as anything tape-recorded, pasted together, or told to Gerald Frank...

Non-music, even when they're playing pretty good tunes, is background music. The volume is kept low so that you can't quite hear it and yet you can't quite not hear it, either...

That's what it's for, really, the nerves. It's a sedative, gradually taking over the drugstores, department stores, buses, restaurants, massage parlors, and even the chapel at Forest Lawn...

But is this what our ears are for? The ears were put there originally to warn us that danger lurked in the snapping of a twig, the snarl of beasts, the rattle of rattlesnakes...

67 To Attend Science, Math Institute at SUI

Exceptional high school students from 13 states and the District of Columbia — including 45 Iowans — have been selected to attend the second science and mathematics institute for high school students to be held at SUI this summer.

Students attending the institute will receive college-level training in biology, chemistry, mathematics and physics, according to Robert E. Yager, assistant professor of science education at University High School and director of the project at SUI.

Sixty-seven students were selected from more than 500 applicants for the program, to be held from June 14 to Aug. 9, the regular University Summer Session. Nearly all of the applicants rank in the upper five per cent of their classes academically, Yager said.

Besides the 45 Iowans, the group includes students from Illinois, Nebraska, Kansas, Wisconsin, North Dakota, Pennsylvania, Michigan, Ohio, Arizona, California, Minnesota and Colorado.

The science and mathematics institute is supported by a \$23,960 grant from the National Science Foundation (NSF). NSF has awarded 180 grants amounting to \$2 million for the programs, which will be conducted in 158 colleges, universities, and non-profit re-

search organizations, located in 43 states, the District of Columbia and Puerto Rico.

In addition to courses offered by the departments of botany, chemistry, mathematics, physics and zoology, the students will explore research facilities and activities within the University, and participate in field trips.

The program also includes frequent contact with SUI faculty members and graduate students in all areas of pure and applied science.

The students will live in college dormitories and will be supervised by trained science teachers and counselors. Various recreational activities, educational trips and social functions will be a part of the program.

Indiana Prof To Give 4 May Talks

Charles S. Hyneman, professor of government at Indiana University, will present a series of four lectures at SUI May 1-4. Hyneman's general topic for the quarter is "Judicial Power and Democratic Government."

Sponsored jointly by the Graduate College, the Shambaugh Lecture Committee and the Department of Political Science, the series will be given on consecutive evenings at 8 p.m. in Shambaugh Lecture Room.

The individual lectures in the series are: "A Court on Trial," Monday; "Judicial Review: How Firm a Foundation," Tuesday; "A Continuous Constitutional Convention," Wednesday; and "Equal Protection: New Road to Power," Thursday.

Hyneman is president-elect of the American Political Science Association, and author of several books on aspects of government.

He has contributed numerous articles to professional journals of political science and diplomacy.

Prior to joining the faculty at Indiana University, Hyneman served successively at Syracuse, Illinois, Louisiana State and Northwestern universities. He has held positions with the Bureau of the Budget, the War Department, and the Federal Communications Commission.

Hyneman's May series will be updated next October, when he returns to the SUI campus for three additional lectures.

Prof To Discuss 'Elements' Monday

"The Origin of the Elements" will be the subject of a general lecture by William A. Fowler Monday at 8 p.m. in the House Chamber of Old Capitol.

Fowler is an associate of the W. K. Kellogg Radiation Laboratory at California Institute of Technology. His visit to the SUI campus is sponsored by the Department of Physics and Astronomy.

Previous to his talk Monday evening, Fowler will present a specialized lecture at 3:30 p.m. in Room 311 of the Physics Building. His topic at that time will be "Deuteronomy: The Synthesis of Deuterons and the Light Nuclei during the Early History of the Solar System."

P.S. From Paris

Frenchmen Get Smoke in Eyes

The French Government has a special interest in its citizens' smoking tobacco, because in France the tobacco industry is a government monopoly and represents one of the major incomes to the country.

Therefore, to celebrate the 400th anniversary of the introduction of tobacco into France, the tobacco monopoly put on a show at UNESCO recently, and a festive affair it was.

As part of the celebration a 16th-century type orchestra was in attendance and praises of tobacco were sung by actors of the Comedie-Francaise, government officials and members of the Academie Francaise.

The orchestra played "La Servante au Bon Tabac" and Victor Hugo's poem "My Pipe" was read. Other quotations were read, including a poem about military people and tobacco, which said: "The best companion of the soldier is tobacco. Generals ought to smoke big, serious-looking cigars, colonels p i p e s, lieutenants cigarettes, sergeants small, bitter cigars to remind them of the rough life they lead, and the enlisted privates should take snuff."

One poem warned: "Don't break anyone else's pipe, or your own. Therefore only lend your pipe to your best friends; consequently you will enjoy your pipe above everything else, except your wife, and that only very rarely."

The audience was treated to two films and then M. Grimanelli, head of the French tobacco industry, made a speech, naturally in favor of tobacco.

It was a beautiful speech and everyone lit a cigarette after he was finished.

At this point M. Grimanelli should have quit while he was ahead, but instead he announced that the French Government was not only interested in selling tobacco, but was also spending money on research to find out if tobacco really harmed people, and to reassure all those who were afraid, he would introduce Professor Truhaut, of the pharmaceutical staff of the University of Paris.

Everyone applauded politely and M. Grimanelli beamed.

Truhaut started off by saying he smoked, but only moderately and he knew why. He said: "Tobacco is a drug; it isn't as bad as opium, but it's still a drug. This is proved by the fact that once you start smoking you can't give it up and also you get accustomed to bigger and bigger doses."

The professor then went on to say that nicotine was a poison that could easily find its way into someone's blood.

As M. Grimanelli and other members of the tobacco industry sat in stunned silence, the professor told about his cancer research experiments, all pointing to the fact that the tar from cigarettes did cause cancer in rats, and those who smoked lived shorter lives than those who didn't.

Almost everyone put out their cigarettes as Truhaut continued.

He went on to say that filters (which the French tobacco people have been pushing) did absolutely no good and the best filter was the cigarette itself, which should be thrown away after being two-thirds smoked. "The last bit of the cigarette is the most harmful."

He said that they were able to impregnate cigarette paper and the tobacco to remove the danger of tar, "but no one would be able to smoke the cigarettes, they taste so awful."

M. Grimanelli seemed anxious for the professor to finish his speech, but the professor wasn't finished yet. He turned to the head of the tobacco monopoly and said: "I am now appealing to you, dear Monsieur Grimanelli. We need money for research. I know you give some, but we need very much more. So please keep giving so we can advance our research work a little more quickly."

To paraphrase an old Madison Avenue saying: "Where there's smoke, someone's bound to get fired."

Porter and Ware: Challenged from Coast to Coast—

Profs Play Long Distance Chess

By JERRY ELSEA Staff Writer

Chess, one of the world's oldest and most challenging games, was a favorite hobby as far back as the pharaohs of Egypt. But old King Tut probably never foresaw the long distance version — playing by post card.

SUI boasts two players of correspondence chess, which began in the United States after World War I. Kirk H. Porter, professor emeritus of political science, and Lawrence Ware, professor of electrical engineering, play — and usually win — against opponents all over the country.

Porter, who has won about 13 of 18 games since beginning two years ago, got the idea from Ware, who has been playing for 12 years. Ware has won about 81 (54 per cent) of 150 contests.

Both are members of the Chess League of America, which has its office and headquarters in Sioux City. For \$2.50 annual dues the chess league compiles players' records, classifies contestants according to skill, and arranges games.

Porter, Ware, and thousands of others from checkmate champs to the most stumbling amateurs

PROFESSOR WARE

send their moves to an opponent they have never seen, receive the

countermove, and fire another back.

Rules are simple. Each contestant must reply within 72 hours. This gives a player the opportunity to check books by experts. However, consulting a better player is forbidden.

The chess league puts no limit on the number of games a member can play at one time. Some avid chess players have as many as 150 games going at once. Porter has nine and Ware two, although five years ago Ware maintained 18.

Porter is classified in the "C" category, which is toward the top in six ability divisions. The highest group is AA which boasts some of the country's best players.

Porter said he may soon enter the "B" level because he has done pretty well in the "C" bracket. He added that in a higher category he might have a "bad time."

Discussing his opponents, Porter said, "I've had nothing but the friendliest contacts. When arguments do arise they are settled by judges at the chess league headquarters."

He spoke of one opponent who irritated him at first. "I was playing two games with a man in San Diego whose cards were almost illegible. He was making mistakes and was ready to concede one game if I would agree to call the other a draw.

"Well, I found out he was 86 years old and half blind. I wasn't going to take a win from him," said Porter.

He added that if the man had lost those two games he would have lost the chance to enter the "B" division.

PROFESSOR PORTER

"Getting into a higher classification seemed to be his greatest desire, so I'm glad I called both

game a draw," said Porter. "If he got into the "B" bracket at 86 years of age, I would like to shake his hand."

Both Porter and Ware agreed that postal chess is especially beneficial to people restricted from other activities, but added that some young people are quite active.

Ware said that younger players are usually very respectful. He told of a high school boy in Minnesota who beat him in rapid order but followed with an apologetic note complimenting Ware's play.

Comparing correspondence chess to face to face competition, Porter said that a person should do better at postal chess because he has so much time to consider his move.

"It's almost laughable to think of making a move and waiting ten days for an answer. In fact, I just finished a game which lasted a little over a year," Porter said. "Games usually last several months although some are over in a few moves."

He added that there have been suggestions to play by telegraph, but that would run into a great deal of money.

Modern Farming To Be Discussed

Agents and home office representatives of the Northwestern Mutual Life Insurance Co., Milwaukee, Wis., will meet on the SUI campus today and Thursday to discuss life insurance as related to modern farms and farming.

Included on the conference program will be a discussion this afternoon of the broad agricultural economy and the concentration of farm ownership into fewer hands by James Rosenthal, manager of the Farm Quarterly, Cincinnati.

Wilkie Collins, a farmer from Hastings, Neb., will give his observations on the new American farm and farmer Thursday evening in Iowa Memorial Union. Collins owns and manages 8,500 acres of farm land in five states.

Richard Haggman of Milwaukee is in charge of the conference activities. SUI's William Coder is the conference coordinator. Most of the sessions will be held in the Iowa Center for Continuation Study.

Contribution Drive Starts For Negro College Fund

Students, faculty, and townspeople are being asked to contribute to the United Negro College Fund (UNCF) during the next two weeks, according to Mrs. Helen Lemme, SUI research technician in internal medicine, Iowa City chairman.

Besides awarding scholarships to Negro students throughout the country to be used at any college or university, UNCF provides financial aid to 32 Southern colleges with primarily Negro enrollment. The colleges receiving UNCF help can keep their tuition costs low and aid students with scholarships.

Founded by the colleges themselves, UNCF was chartered as a permanent organization in 1944. Thirty-four liberal arts colleges, one graduate institution, and one professional school are listed on the UNCF roster.

The Iowa City drive began Monday, and will end Saturday, May 6. No house-to-house canvass will be conducted, but letters have been sent to many residents and notices will be included on church bulletins April 30.

UNCF has been part of Campus Chest in past years, but a separate appeal is being made this year as the Fund wanted to reach Iowa

Highlanders To Perform In Newton Festivities

"Canadian Friendship Week" in Newton will include an evening parade and performance by the Scottish Highlanders on May 1.

Mayor C. C. Harp of Newton has proclaimed the week of April 27-May 3 as Canadian Friendship Week in honor of Maytag dealers from Canada who will be special guests in Newton during the week.

Some 75 members of the famed Highlanders and their director, William L. Adamson, will parade on Newton streets at 7 p.m. May 1 and then perform in a concert which will be open to the public.

M. Grimanelli jumped up and didn't smile as he shook the professor's hand, thus indicating that as far as he was concerned the speech was over.

After the rest of the ceremonies, which seemed to be carried on listlessly, champagne and petits fours were served. All the reporters were trying to find Truhaut to ask him some more questions, but unfortunately he had disappeared.

I MEET A GIRL AND I BUY HER THINGS AND SHE REJECTS ME AND WHAT DO I SAY?

I SAY— THIS WAS AN UNHEALTHY RELATIONSHIP BUT I HAVE LEARNED FROM IT.

SO I MEET ANOTHER GIRL AND SHE'S DIFFERENT AND I BUY HER THINGS AND SHE REJECTS ME AND WHAT DO I SAY?

I SAY— THIS WAS AN UNHEALTHY RELATIONSHIP BUT IT HAS MATURED ME.

THEN I MEET A DEAD GIRL WHO'S THE BEST YET AND I BUY HER THINGS AND SHE REJECTS ME AND WHAT DO I SAY?

I SAY— THIS WAS AN UNHEALTHY RELATIONSHIP BUT IT HAS GIVEN ME WISDOM.

TWO YEARS AFTER THE FOLLOWING EACH REJECTION I TELL MYSELF I'M WISER IN KNOWLEDGE THAN I WAS IN EXPERIENCE. I'M WISER IN DEPTH.

I'VE COME TO LOOK ON MYSELF AS THE RENAISSANCE MAN OF THE REJECTEES.

Evy To Build Hawks' Minor Sports Teams

DES MOINES (AP) — Forest Evashevski, SUI athletic director, says his biggest challenge is the improvement of Hawkeye teams in gymnastics, wrestling, tennis and swimming.

"We are down in those sports," the former Hawkeye football coach said at a convention here. "Their coaches need help, and it is my job to see that they get such assistance."

"My task is to give Iowa a well-rounded program," he added. "I'm starting immediately to lift our program to a respectable Big Ten conference level."

Although the football team finished in a tie for the Big Ten title last fall in Evashevski's last season, and has eight of the starters back, he warned fans not to expect too much from Coach Jerry Burns' team next fall.

"We could have lost four games last fall instead of one," Evashevski said. "The breaks went our way. They may go against us next fall."

Evashevski, newly named physical fitness consultant for the Peace Corps, said his duties with that program "will occupy only my vacation time and will not detract from my University duties."

"Many citizens have the impression that my job is to train athletes to play basketball or some other sport on foreign soil," he said. "The fitness program will be tailored to the needs of the individual volunteer."

"If someone is going to the Philippines as a teacher, our program would be considerably different from what we would give a volunteer whose assignment is to build roads in Africa."

Cutler Named All-American

Les Cutler, SUI backstroke swimmer, has been named to the collegiate All-America swimming team, Iowa Coach Bob Allen announced Tuesday.

Cutler was named No. 2 in the 200-yard backstroke by the selection committee of the College Swimming Coaches' Association of America. The team was announced by G. Robert Mowerson of Michigan State, chairman of the committee. The Hawkeye star was timed in 2:03.2 in winning the second place in the National Collegiate championship race. It was the fastest time of his career. His previous best was 2:06.8, made both in 1960 and 1961.

The only man ranked ahead of Cutler is Charles Bittick of Southern California, who won the National Collegiate title in 1:57.1, a new American and National Collegiate record. Bittick is the first man to break the two minute mark in this event.

Cutler, from Grosse Pointe, Mich., will be a senior in 1962. Illustrating the vast improvement in the backstroke swimming is the fact that Iowa's Lincoln Hurring, just five years ago, won the event in the national meet in 2:07.5, more than four seconds slower than the 1961 mark of Cutler.

FORMER IOWAN WINS
PINEHURTS, N.C. (AP) — Dr. Ed Updegraff, Tucson, Ariz., and formerly of Boone, Iowa, defeated Tracy Allen, Madison, Wis., 2-up in the first round of the North and South Amateur golf tournament Tuesday.

Extended Hand Shake

Jim Pagliaroni, right, Boston catcher, holds relief pitcher Mike Fornieles up to congratulate fall Gene Conley who pitched his first game for the Red Sox today and won 6-1. Fornieles had to come in to relieve Conley in the ninth inning of the game with Washington. Two weeks ago, 6-8 Conley helped the Boston Celtics win the world championship in basketball.

Detroit Businessmen Organize Boxing Club
DETROIT (AP) — Formation of the Detroit Boxing Club to stage fights in Detroit's new Civil Center was announced Tuesday.
Max C. Handler and Sol Eisenberg, Detroit businessmen, said they hope to hold their first bout about June 15. Handler is chairman of the new club and Eisenberg president.

Indians Fall, 5-2, To Orioles' Barber

BALTIMORE (AP) — The Baltimore Orioles did all their scoring in the first five innings while the Cleveland Indians were going hitless against southpaw Steve Barber and then hung on to win 5-2 Tuesday night.

K.C. Pounds Twins 20-2 On 16 Hits

KANSAS CITY (AP) — The Kansas City Athletics pummeled the Minnesota Twins 20-2 Tuesday night and presented young Norm Bass with his first major league pitching victory.

The crushing defeat ruined the Minnesotans' chance to climb into a first place American League tie with the Detroit Tigers, whose game with New York was rained out.

The A's exploded 16 hits against starter Ed Sadowski and six other pitchers, and also benefited from 10 bases on balls, two wild pitches and two Minnesota errors. Sadowski retired after giving up six runs in the third inning.

The A's got three more in the fourth off Fred Bruckbauer and clobbered Paul Giel and Ray Moore for eight more in a farcical sixth inning when 14 batters went to the plate. Marv Throneberry finally ended the inning by striking out with the bases loaded.

Altogether there were 19 bases on balls in the game.

Haywood Sullivan swung the heaviest of the Kansas City bats, hitting two triples, a double and a single as well as drawing a base on balls.

Minnesota 000 200 000— 2 7 2
Kansas City 016 308 200—20 16 0
Sadowski (4), Giel (6), Moore (6), Fieis (8) and Bailey; Bass and Sullivan; W — Bass (1-0), L — Sadowski (0-1).

Burdette Wins As Cardinals Fall To Milwaukee, 4-3

ST. LOUIS (AP) — The Milwaukee Braves, trailing 2-1, scored three runs, one unearned, on three hits and an error in the eighth inning Tuesday night and defeated the St. Louis Cardinals 4-3.

The unearned run came on an error by the Braves' former teammate, Red Schoendienst.

The winner, Lew Burdette (1-0) yielded six hits. He walked two and struck out four.

Stan Musial hit his second home run of the year in the ninth for the Cardinals, but it was to no avail.

Until the eighth, Cardinal starter and loser Curt Simmons (1-1) had held the Braves to one run on six hits.

But he weakened and was replaced by Lindy McDaniel.

Milwaukee 000 000 001— 4 9 0
St. Louis 010 020 005— 3 6 3
Burdette and Lau; Simmons, McDaniel (8) and Smith; W — Burdette (1-0), L — Simmons (1-1), 2
Home run — St. Louis, Musial (2).

Wilma To Oppose 5 Preps at Drake

DES MOINES (AP) — Five Iowa high school girls were selected Tuesday to oppose Olympic champion Wilma Rudolph in an exhibition 100-yard dash at the Drake Relays Saturday.

Miss Rudolph of Tennessee State won the 100 and 200-meter races in the Olympics at Rome last summer.

Heading the Iowans will be Mary Strand of Prairie View of Gowrie, who has run the 100 in 11.8 seconds.

Others are June Kettering, Lakeview-Auburn, North of Wota, and Peggy Riemenschneider, State Center.

Miss Kettering's brother, Steve, will compete in the high school 100-yard dash at the relays.

Kinnick Scholarship Finalists

Nile Kinnick Scholarship finalists meet with Charles Mason, coordinator of student aid, during their visit to SUI Tuesday. The eight finalists were selected from among 22 nominees for the \$1,000 scholarships, given annually to students outstanding in scholarship and athletics. Talking with Mason, are (from left, seated in back row)

Gary Macek, Cedar Rapids Washington; Dann Kroeger, Bettendorf; Dick Sloan, Hudson; and Steven Drish, Davenport West. (Seated, front row) Bruce Beckord, Rolfe, and Bob Sheerer, Cedar Falls. (Standing) Jim AOfeldt, Cedar Rapids Regis, and Mike Stitt, Fort Dodge.

Wisconsin Netmen Defeat Young Hawk Team, 5-2

MADISON, Wis. — Iowa's winless tennis team lost its Big Ten opener Tuesday, falling to Wisconsin 5-2 in abbreviated matches played indoors because of adverse weather.

However, Iowa ace Steve Wilkinson won his singles match to give him a 4-1 record to date. Wilkinson, a sophomore, dealt Wisconsin's Marv Cohen a 8-6 setback.

Iowa's other winner was No. 2 man Mike Schrier, the only Hawk letterman this season. Schrier's victim, by an 8-5 score, was Nick Zawacki.

The loss to the Badgers made Iowa's record 0-5 this season. Coach Don Klotz is in a rebuilding year and has a young squad, composed mostly of underclassmen.

The meet Tuesday was played indoors because Wisconsin was unable to get the outside courts into shape after rainy weather. Only two courts were available, hence the need for the eight-game sets, rather than best two of three six-game sets.

Klotz had shifted his lineup for this encounter with the Badgers, who topped the Hawks 5-4 last season.

The coach had moved soph Herb Hoffman to the No. 3 singles spot and had scheduled R. G. Walker No. 4 and Les Pearl No. 5.

Hoffman, however, fell to letterman Herb Ruedisill 8-1. Dick Pease beat Pearl in straight games 8-0. Walker, who was to play No. 4, did not compete. Instead, Bernie Cahn lost an 8-0 decision to Leo Rideout.

In doubles, Iowa's Wilkinson-Schrier team lost its second test of the season, falling to Cohen-Zawacki 9-7 in a match that went into extra games. In eight-game sets, the victory margin must be two games.

In the other doubles contest, Ruedisill-Rideout battered Hoffman-Pearl 8-1.

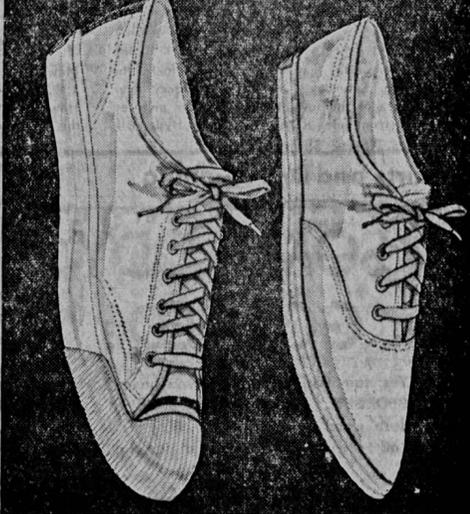

Iowa Sports Scores

The Lineup

Some inkling as to the amount of manpower out for the Iowa football team this spring can be gathered by noting the players lined up early in Tuesday's practice during a

warmup drill. The Hawkeye team Tuesday went into its 12th spring practice of the scheduled 20. The spring season will be climaxed by the annual Varsity-Alumni game May 6.

4 Others Also 'Sign Up'—

Willie Fleming Joins Alumni For Annual Spring Encounter

Willie Fleming, the game-breaker of Iowa's 1958 Big Ten title team, is among five more former Hawkeyes who will join the alumni squad for the spring game with the varsity May 6.

The other four players are Hugh Drake and Gary Grouwink, guards on the 1958 title team; Charlie Lee, regular left tackle on last fall's squad; and Bill Gravel, veteran halfback of the 1958 team.

Jerry Hilgenberg and Bill Hapel, varsity aides who will coach the alumni squad, Tuesday said they were happy Fleming will be present. His open field running will complement the potent passing attack of Randy Duncan to Curt Merz and Don Norton, three all-Americans.

Fleming played only one year for Iowa but made a tremendous impression on the Big Ten. He was Iowa's leading scorer with 54

points and averaged 6.7 yards per play. He out-ran and out-faked opposing tacklers with such TD masterpieces as 63 yards against Minnesota, 61 against Michigan, a 72-yard punt return against Michigan, and a Duncan pass in the Notre Dame game and 37 yards against California in the Rose Bowl.

In 1959 and 1960, Fleming was star for Vancouver in Canadian football. He has set several records and has become one of the most feared — as well as the most popular — players north of the border.

Tickets for the 1:30 game now may be purchased for \$2, either by mail or at the Field House. A \$5 ticket entitles the holder to game admission and to attend the Varsity "T"-Club dinner that evening.

WILLIE FLEMING Adds Breakaway Threat

'Things Different Now' For Harold Johnson

PHILADELPHIA (AP) — What a difference a day — or two fights — can make in the lives of a fighter and his manager.

Manager Pat Olivieri spoke thus Tuesday as acclaim and acknowledgment was heaped on him and Harold Johnson following Johnson's successful defense of his light-heavyweight title.

Olivieri has been Johnson's manager since the Philadelphia was reinstated from a suspension that followed the "doped orange" fight with Julio Mederos six years ago.

In that time, said Olivieri, fights were few (14) and far between against insignificant opponents and for small purses. "And not many people stopped you on the street to find out how things were going," said Olivieri.

Two fights — when Johnson won the National Boxing Association version of the title in January and his two-round TKO of Von Clay Monday at the Arena — have changed all that.

"Things are different now," said Olivieri. "Harold was impressive and now promoters like Teddy Brenner (New York matchmaker) are interested in us. And everyone is our friend."

Olivieri said that he still wasn't too interested in a tentative match offered by Brenner against Guillo Rinaldi June 10 in Madison Square Garden. Archie Moore, who is recognized as division champion in Europe, New York and Massachusetts, is slated for the Rinaldi fight but Brenner feels he may not be able to pare down to 175 pounds, the division limit.

Olivieri reiterated that he prob-

ably would take the fight only if Johnson is recognized as champion "because he's unquestionably the best."

In the "doped orange fight," Johnson was unable to answer the bell for round four. He claimed he had been made ill by an orange he ate before entering the ring. When Johnson returned from his suspension, no one was particularly interested in him.

Olivieri, who runs a restaurant, put a lot of money into Johnson, waiting for the big break that came only this year when Johnson got the NBA title bout with Jesse Bowdry.

Gridders Battle for First Team Positions

Two weeks of spring practice for the SUI football squad have pared down the contenders for the unfilled starting assignments to a handful of talented athletes. Coach Jerry Burns has the happy task of deciding between two good men for each of three positions.

Sophomores Constantinos "Gus" Kasapis and John Sunseri are still battling it out for the left tackle slot. "They are both tough competitors," said Burns, "and it looks as if we'll go right down to next fall before I can pick a starter."

Dueling for the right guard spot is junior Earl McQuiston and senior

Bill DiCindio. Another battle is shaping up in the first eleven between junior Bill Perkins and senior Bill Whisler for the right end position.

The sessions have also sprung some happy surprises on the Iowa coaches from the sophomore contingent. The play of lanky end Cloyd Webb, halfback Lonnie Rogers, and guard Charles "Mike" Reilly has been especially encouraging.

The weather hasn't been too hard on the spring schedule, allowing the team to get in all but two sessions so far. But a disappointing note is the injury list. Veterans Bernie Wyatt and Co-

Captain Bill Van Buren have been sidelined with minor ailments so far, and injuries have kept sophomores Bob LeZotte and Bobby Grier from showing their stuff.

LeZotte displayed good running ability in the few days he practiced, and the coaches want to get a better look at him. Grier has been tabbed for the No. 2 fullback spot but has seen very little action.

Coach Burns also was pleased with the work of his quarterbacks. Co-Captain Wilburn Hollis' passing attack has been sharpened, and the over-all improvement of No. 2 quarterback John Calhoun has been impressive.

Sunseri Injures Knee in Spring Practice Drills

Iowa's highly regarded left tackle prospect John Sunseri suffered what head trainer Arno Buntrock believed to be a slightly twisted knee during the Hawkeye's football workout Tuesday.

Sunseri, a 255-pound sophomore-to-be from Dubuque, was injured early in the practice while participating in a routine line drill.

Both Jerry Burns, head coach, and Buntrock doubted that the injury was serious and said they thought Sunseri would be back in action within a few days.

Player Stays Golf's Top Money Man—He's Won \$45,000

DUNEDIN, Fla. (AP) — Masters winner Gary Player, a South African transplanted in Pennsylvania, is still on top of the money heap in professional golf.

Player has won \$45,385.33 officially in 14 tournaments in which he won three and placed in the upper five brackets five other times.

THE COMPLETE YOUNG MAN

our complete shop for the young business man, the college man is at your service

Suiting the well-dressed man of today takes a specialist... our Young Men's Shop is that specialist. One shop, one stop, specializing in these basics of the new look: the natural shoulder, the pleated trouser, the correct accessories. Our experience and special attention to details puts them all together. Suits, sportcoats, topcoats... the shirts, ties, accessories that complete the look. It's really something to see... the news, the classics in an impressive selection. Drop in for a good look at the new look!

Travel Abroad—

To Explain Tours Today

By JERRY PARKER
Staff Writer

Iowans who wish to take advantage of the United States National Student Association's (USNSA) opportunities for student tours of Europe this summer have several itineraries to choose from.

Tours sponsored by the USNSA, of which the SUI Student Council is a member, are under the auspices of the association's subsidiary Educational Travel, Inc.

Details about these tours will be explained at a meeting in Conference Room 1 of the Iowa Memorial Union at 7:30 p.m. today.

In the past 12 years thousands of American college and university students have participated in the summer travel programs.

For the eager but poor traveler the USNSA offers its Hobo Tour which for \$920 includes a 70-day tour through Holland, Germany, Italy, Austria, and Switzerland.

According to Dennis Edwards, ES, Davenport, SUI coordinator for the travel program, the Hobo Tour is among the more popular of the tours offered. Last year two additional Hobo Tours were added to the program because of the demand.

For the more affluent students USNSA offers the Around-the-World Tour, and in 80 days too. The price for this expedition is \$220. The itinerary includes Hawaii, Japan, Hong Kong, Southeast Asia, India, Israel, Turkey, Greece, Italy, France and England.

Other choices on the travel schedule include Drive-It-Yourself Tours, in which student groups of four are furnished with a car when they arrive on the continent and tour for 80 days on their own. Another of the USNSA tours schedules a travel plan to take in the major music and art festivals in Europe during the summer months.

Edward and William L. Adamson, director of the SUI Scottish Highlanders, will conduct the meeting during which a movie of past tour adventures will be shown and literature will be distributed.

The program is open to all students between the ages of 18 and 28, including those who have been out of school for two years or less. High school seniors entering college in the fall are also eligible.

Tour prices include round-trip, trans-Atlantic passage, land transportation while on tour, three meals daily, excursions, city sightseeing, luggage transfers, guides and couriers, entrance fees to museums and galleries, tips in hotels and restaurants abroad, and some concert, opera, and theater tickets as listed in the itinerary.

Also included in the price are orientation programs and parties with students in the various countries visited, and a 90-day accident and sickness insurance policy.

Arrangements may be made through USNSA to travel either by air or by water. Edwards said that approximately one week is allowed at the end of all tours during which students are free to visit or revisit countries they wish.

Free Coffee; Money Given To Retarded

For the benefit of Iowa's retarded children the Iowa Restaurant Association is sponsoring their annual Coffee Day.

Today restaurant operators taking part in the project will not accept pay for coffee. Instead coffee drinking customers are asked to place payment in special containers provided in restaurants and cafes. Most Iowa City establishments selling coffee are participating.

Viewing the John Birch Society, Lee said: "I think they are hurting the Republican Party. If the masses ever get the idea that the Birch Society is the spokesman for the GOP, we're finished. They have the right to hold the views they do, and I'm glad their views were publicized, as long as they don't identify with us."

Lee is personally acquainted with the Goldwater family, and visits them when he's in Phoenix. "I agree with some of Barry's views, but on others, such as international politics, I believe he is too far to the right. I believe in active intervention, and I don't think we should withdraw from the U.N."

Lee said he considers himself "an interested person who wants to take part in molding the views of society. I'm always going to take a stand," he said, "and as Truman said, 'the buck stops here.' That's the way I feel, as far as Young Republican work is concerned."

The force of the blast was said to have been "very weak," and did not go beyond a radius of about two miles. Precautions were taken so that fall-out would not endanger the nomadic populations.

The test was successful, the French communique said, and

gave scientists valuable information on these three points:

1) It brought France closer to an operational "miniature" bomb. France's earlier tests involved large and unwieldy plutonium bombs.

2) It helped perfect a nuclear detonator, one of the bugs the French have not yet ironed out in their quest for an operational bomb.

3) A sounding device inside the bomb gave valuable details on the principle of chain reaction. Biological experiments on rats, goats and rabbits may also have been held. France's first nuclear bomb test took place Feb. 13, 1960. A year later, a \$1.2 billion bill was voted for a French nuclear striking force independent of the North Atlantic Treaty Organization.

Directors of the worldwide cooperative news gathering agency wound up their annual meeting by also electing Bernard H. Ridder Jr., of the St. Paul, Minn., Dispatch and Pioneer Press, as first Fitzgerald of the Pontiac, Mich., vice president, and Harold A. Press as second vice president.

Harry T. Montgomery was chosen secretary to replace Lloyd Stratton, who is retiring. Robert R. Booth was re-elected treasurer.

Oliver S. Gramling and Louis J. Kramp are assistant secretaries, and Alan J. Gould and Wes Gallagher assistant treasurers.

Frank J. Starzel continues as AP general manager and chief executive.

He also said, "I hope there is no misunderstanding by the public. We are not concerned about people who make an honest mistake by temporarily overdrawing on their checking accounts. We are concerned with someone who cashes a check with fraudulent intent to receive something of value and knows he doesn't have money in an account to cover the purchase."

He said the system is at work in Waterloo, Cedar Rapids, Fort Dodge and other Iowa cities. In Waterloo, he said, it takes only 30 minutes to alert everybody in the

system. If that is possible, he said, we should be able to alert every one in Johnson County in 10 minutes.

"I think the system can work here, but we all have to work together," Neuzil said.

Iowa Attorney General Evan L. Hultman, he said, reported a 75 per cent drop in passing of bad checks in counties where the system is in operation.

"Even if we only catch a couple persons, it will be worth-while to help reduce the \$2,500-worth of bad checks passed in Johnson County last year," he said.

The plan works like this. A pyramid organization is set up with the County Attorney, County Sheriff, and the Iowa City Police Chief at the top. The plan begins to work when a businessman or merchant becomes suspicious of someone trying to cash a check.

He then telephones the County Attorney, Sheriff, or police who send a policeman to the scene. He also telephones one key businessman. The key man starts the chain of telephone calls to alert all the businessmen and to give them a description of the person.

Neuzil emphasized that the plan will need the full cooperation of every one in the alert system or it will fail.

He also said, "I hope there is no misunderstanding by the public. We are not concerned about people who make an honest mistake by temporarily overdrawing on their checking accounts. Profile

(Continued from Page 1)

ferred to SUI when he decided to concentrate in "domestic politics." "I thought it was a pretty good idea, since I planned to start my political career in my home state."

At SUI Lee has been active on Hillcrest Council, Union Board and Student Council sub-committees, will be a football club next year, and was State Chairman of College Youth for Nixon club, one of the largest in the country.

While at George Washington, Lee did volunteer work in former Vice President Nixon's office. "I still think Dick is the best man," he said.

"I like Kennedy's stand on Cuba, and I wrote a letter of commendation to him," Lee said. "I think it (the invasion) should have happened long ago. I'm in favor of strong executive leadership, and I want to be that way myself. However, one can't be a pusher, but one must be a dynamic leader."

"I think Nixon would have taken action sooner," he continued. "That's what I like — the quick, firm action. This is why I think I won the Young Republican presidency."

"Anyone who thinks politics is a game in which there is no backstabbing and dealing is being politically naive," Lee said emphatically. "I believe in 'to the victors belong the spoils,' but I also believe my staff must have loyalty above everything else. If they don't, I don't want them."

Lee's answers came easily and briskly, and it was plain to see he was well versed on world affairs and party policy.

Viewing the John Birch Society, Lee said: "I think they are hurting the Republican Party. If the masses ever get the idea that the Birch Society is the spokesman for the GOP, we're finished. They have the right to hold the views they do, and I'm glad their views were publicized, as long as they don't identify with us."

French Explode Atom Bomb in Sahara Again

PARIS (HTNS) — A low-power atom bomb exploded Tuesday in the Southern Sahara as part of the French nuclear testing program, and Algeria insurgents claimed they were in control of the test area.

The above-ground blast occurred at 6 a.m. from a tower in the testing ground of Reggane, a small oasis 300 miles south of the nearest town, Colomb-Bechar. It was France's fourth atomic explosion.

The test was announced in Paris by the Ministry for Atomic Energy and the Defense Ministry, which gave the impression that troops in the area had not joined the insurrection.

However, a monitored broadcast from the radio Algiers said that troops under a Gen. Jacquier had joined the Junta headed by Gen. Maurice Challe.

The danger of the Sahara falling to the rightist rebels was viewed as a serious threat to Gen. Charles de Gaulle. Although not many troops are stationed south of Colomb-Bechar, France does all its atomic testing there and the region contains most of Algeria's oil and natural gas reserves.

There are also a large number of drilling teams in the area that employ American civilians as engineers and drillers. It is feared that they could be held as hostages by insurgent elements.

The Government announcement said the blast marked the end of France's above-ground nuclear testing and that future tests would be held underground.

The Reggane bomb was equal in power to 3,000 or 4,000 tons of TNT, or about as powerful as the bomb that fell on Hiroshima.

The force of the blast was said to have been "very weak," and did not go beyond a radius of about two miles. Precautions were taken so that fall-out would not endanger the nomadic populations.

The test was successful, the French communique said, and

gave scientists valuable information on these three points:

1) It brought France closer to an operational "miniature" bomb. France's earlier tests involved large and unwieldy plutonium bombs.

2) It helped perfect a nuclear detonator, one of the bugs the French have not yet ironed out in their quest for an operational bomb.

Iowa Attorney General Evan L. Hultman, he said, reported a 75 per cent drop in passing of bad checks in counties where the system is in operation.

"Even if we only catch a couple persons, it will be worth-while to help reduce the \$2,500-worth of bad checks passed in Johnson County last year," he said.

The plan works like this. A pyramid organization is set up with the County Attorney, County Sheriff, and the Iowa City Police Chief at the top. The plan begins to work when a businessman or merchant becomes suspicious of someone trying to cash a check.

He then telephones the County Attorney, Sheriff, or police who send a policeman to the scene. He also telephones one key businessman. The key man starts the chain of telephone calls to alert all the businessmen and to give them a description of the person.

Neuzil emphasized that the plan will need the full cooperation of every one in the alert system or it will fail.

He also said, "I hope there is no misunderstanding by the public. We are not concerned about people who make an honest mistake by temporarily overdrawing on their checking accounts. We are concerned with someone who cashes a check with fraudulent intent to receive something of value and knows he doesn't have money in an account to cover the purchase."

He said the system is at work in Waterloo, Cedar Rapids, Fort Dodge and other Iowa cities. In Waterloo, he said, it takes only 30 minutes to alert everybody in the

system. If that is possible, he said, we should be able to alert every one in Johnson County in 10 minutes.

"I think the system can work here, but we all have to work together," Neuzil said.

Phone Alert Plan Formed For Bad Check Suspects

By BRUNO TORRES
Staff Writer

Iowa City businessmen will soon be using a telephone alert plan to catch bad check artists. Ralph Neuzil, Johnson County Attorney, told the Kiwanis Club Tuesday about the plan which is being formed in conjunction with himself, the Iowa City police and the Chamber of Commerce.

The plan works like this. A pyramid organization is set up with the County Attorney, County Sheriff, and the Iowa City Police Chief at the top. The plan begins to work when a businessman or merchant becomes suspicious of someone trying to cash a check.

He then telephones the County Attorney, Sheriff, or police who send a policeman to the scene. He also telephones one key businessman. The key man starts the chain of telephone calls to alert all the businessmen and to give them a description of the person.

Neuzil emphasized that the plan will need the full cooperation of every one in the alert system or it will fail.

He also said, "I hope there is no misunderstanding by the public. We are not concerned about people who make an honest mistake by temporarily overdrawing on their checking accounts. We are concerned with someone who cashes a check with fraudulent intent to receive something of value and knows he doesn't have money in an account to cover the purchase."

He said the system is at work in Waterloo, Cedar Rapids, Fort Dodge and other Iowa cities. In Waterloo, he said, it takes only 30 minutes to alert everybody in the

system. If that is possible, he said, we should be able to alert every one in Johnson County in 10 minutes.

"I think the system can work here, but we all have to work together," Neuzil said.

Camp Show Will Feature New Wares

The latest in camping equipment will be on display at SUI May 20 and 21 during SUI's second annual Family Camp Show.

The exhibition, to be held on fairway No. 2 of the old Pinkbine Golf Course, will be open to the public free of charge. Show hours will be 10 a.m. to 7 p.m. Saturday, May 20, and from noon to 6 p.m. Sunday, May 21.

Some 25 exhibitors will display trailers, tents, food, stoves and other equipment particularly suited to camping. However, there will be no selling of equipment during the show.

Ten families from the Iowa City Recreational Camping Club will actually camp at the site, demonstrating how some of the equipment may be used. They will be on hand to answer questions about their own equipment and about camping in general.

The show will also feature an educational section on outdoor recreation spots in all 50 states and Canada. A special, three-dimensional display will be sent by Alaska to show that state's camp sites and outdoor recreation areas.

The Iowa Mountaineers will also have a display at the show. Free materials on camping, as well as a "browsing" table with the latest camping books and publications, will be available.

E. A. Scholer, assistant professor of recreation at SUI, is general director of the show.

Medical Society Honors 2 Iowans

DES MOINES (AP) — A physician and a layman were honored by the Iowa State Medical Society Tuesday night for their contributions to organized medicine in Iowa.

The two are Dr. Robert N. Larimer, 64, of Sioux City and J. W. Fisher of Marshalltown.

Dr. Larimer has participated in activities of the society for more than 20 years. He was president of the society in 1954, and the next year represented the society in the American Medical Association. He was president of the six-state North Central Medical Conference in 1959.

Fisher is president and chairman of the board of the Fisher Governor Co. of Marshalltown. He received his award in recognition of his interest and participation in community health projects and medical education.

For several years he has provided scholarships earmarked for the SUI College of Medicine and also has granted many nurse training scholarships.

SUI DAMES MEET
SUI Dames will meet today at 7:45 p.m. in Conference Room 1 of the Iowa Memorial Union. Ted Kienlenn of the Aldous Flower Shop will speak on care and feeding of plants.

Baity's 100-Year Prediction—

Animals, Metals To Vanish

LONDON (HTNS) — Dr. Herman G. Baity, of the World Health Organization, said Tuesday that the earth's farm animals will probably all have been eaten up in the foreseeable future.

Furthermore, he said, the earth's usable metal resources will have reached a "vanishing point" within 100 years.

By the end of the next century the usable resources of coal, petroleum, natural gas and similar materials will be of insignificant proportions and, "within 250 years the earth's citizens will have used what it took nature 250,000,000 years to make."

Addressing some 3,750 delegates to the Royal Society of Health Congress in Blackpool on "Our Bewildering Environment," Dr. Baity held out little hope on any score.

Water, he said, is running out all over the world.

"The 25,000,000 tons estimated to be the world reserves of uranium and thorium might furnish the energy (through nuclear fission) to carry our civilization along for quite a while longer," he said, "if we can manage to live with the lethal products of their use. But even this foundation of energy will run dry while the earth and its people are still in relative childhood."

Atomic fusion is a process that still baffles science, he pointed out.

Energy from the sun might be a good idea but, "it is disheartening to learn that by the most efficient devices that yet been developed it would take 50,000 square miles of mirrors and solar engines, built at fantastic costs, to supply 2 to 5 per cent of our energy requirements in the middle of the next century."

The disappearance of animals used for food will probably be a good thing because they consume three times the amount of food calories used by man, he said.

Population is increasing by about 150,000 persons daily, he added, and in less than 500 years there is likely to be about one square yard of land left for each inhabitant of this planet.

In the meantime, "The Age of Push Button Living" is producing all sorts of "conditions and substances that may impair our health while contributing to our opulence and pleasure."

"The prospects are not too bright for settling any substantial part of our population on the other planets," Dr. Baity noted.

"In some respects," he said, "it is a thrilling time to be alive."

Health Service Fellowship Awarded to Prof. Wunder

A five-year Public Health Service Senior Research Fellowship has been awarded to Charles C. Wunder, assistant professor of physiology in the SUI College of Medicine.

Awarded by the division of general medical sciences of the National Institute of Health, the fellowship will pay Dr. Wunder's full salary during the five-year period and also provide \$5,000 a year for research expenses. Acceptance of the fellowship grant is subject to the approval of the finance committee of the State Board of Regents.

Funds released by Dr. Wunder's appointment to fellowship status will be used by the department of physiology to hire an additional full-time faculty member, according to Prof. H. M. Hines, head of the department.

Dual purposes of the fellowships are to aid scientists in developing their own potential as leaders in academic medicine and to help meet the needs for additional faculty members in the pre-clinical sciences.

Dr. Wunder, who will continue his regular teaching schedule, has directed his major research efforts to studies concerning the role which various physical forces play in the control of growth.

During the past seven years, he has studied the effects on growth of laboratory animals, exposed to

artificially increased gravity. Such studies provide new information on such diverse problems as cancer, which is an abnormal growth, and the possible effects increased gravitational fields will have on man in space travel.

A native of Pittsburgh, Penn., Dr. Wunder received his Ph.D. degree in biophysics from the University of Pittsburgh in 1954 and joined the SUI faculty the same year. He is a member of several scientific organizations, including the American Physiological Society, the Biophysical Society, the Aerospace Medical Association and the Biometric Society.

College Plan, TV Bills Pass House

DES MOINES (AP) — Several resolutions were adopted by the House Tuesday.

One calls on the State Public Instruction Department to develop a plan for establishment of community colleges. Another supports research to develop a six-state educational television network.

SOVIET TO VISIT MOROCCO
LONDON (AP) — Soviet Premier Khrushchev has accepted an invitation to visit Morocco.

Iowa House Repeals Law Perpetuating Legislature

DES MOINES (AP) — The Iowa House Tuesday voted to repeal a law providing for continuity of the State Legislature in event of emergency attack.

Approved by the 1959 legislature it directs each lawmaker to designate from three to seven persons to succeed him in case the seat is vacated by war.

Many legislators have been reluctant to make up a list.

Legislature May End Iowa 'Marriage Mills'

DES MOINES (AP) — Bills calling for a three-day waiting period before marriage and a two-year increase in the legal marrying age were approved by the Senate Sifting Committee Tuesday.

The House already has passed such measures.

The three-day waiting period is aimed at ending marriage mills in Iowa. The state now requires no wait between the time a couple successfully completes blood tests, obtains a marriage license and the ceremony is performed.

Pledge of Support

Former President Harry Truman and Vice President Lyndon Johnson talk to newsmen Tuesday after they conferred on the world situation. Johnson, who flew to Kansas City from Washington,

said he would "take back to President Kennedy both a strong pledge of support and the personal good wishes Mr. Truman has asked me to convey."

Round Table Topic To Be Peace Corps

Other countries' views on President Kennedy's proposed Peace Corps will be presented in a round table discussion at the International Center Friday at 8 p.m.

Four graduate students from the Far East, Middle East, and South America will present their ideas and suggestions on the feasibility of youth services in their respective countries. A question and informal discussion period will follow.

Students forming the discussion panel are Gorge Guzman, Chile; Bienvenido Santos, Philippines; Abdul Al-Makhzoumi, Iraq; and Subramaniam Shastri, India.

Tickets for 50 cents are on sale at the Office of Student Affairs. Only 50 students can be accommodated at the Center. All proceeds from the program will go to the scholarship fund established in 1956 by foreign students to send an American student abroad.

Co-chairmen for the sponsoring International Center Association are Jawahar Sawardeker, G. Iowa City, and Gary Hess, A3, Exira, Iowa.

German Jews Tell of Rude Threats, Abuse by Eichmann

JERUSALEM (AP) — Witnesses who knew Adolf Eichmann stood before him Tuesday and described him as a master of Gestapo terror who heaped threats and scathing abuse upon them.

Eichmann's face at times reflected a twisted grin as he confronted two German Jews who once faced him across an interrogation table. Eichmann is on trial charged with directing the killing of millions of Jews in World War II.

Dr. Benno Cohn, former leader of the Jewish community in Berlin during the rise of the Nazis, was the first to tell the court how it felt to submit to an Eichmann summons. Cohn, now a Tel Aviv lawyer, said he was ordered to appear at Gestapo headquarters in Berlin in 1939. There, he was

taken before Eichmann. "He was terribly excited, very angry," Cohn recalled. "He said we had given information for an article published in a Paris emigre newspaper which called him 'Bloodhound Eichmann.'"

"He shouted at us, he threatened us. He submerged us with accusations and wounds up to the meeting with the words: 'You will go to konzentlager' (German slang for concentration camp)."

Cohn said he and other Jewish community leaders finally were ordered out by the enraged Eichmann. Cohn left Germany for Palestine shortly after the meeting.

The next witness was Aaron Walter Lindenstrauss, former head of the Emigration Department of the Jewish-run German Palestine

office. He is now a banker in Haifa. Lindenstrauss was summoned by Eichmann early in 1939 to come from Berlin to Vienna, where the defendant then was head of the Nazi office for Jewish emigration in Austria.

Lindenstrauss said the Nazis adamantly insisted that Jews emigrate from Germany and from Austria in this period. The situation was desperate, he said. Visas and immigration certificates were almost impossible to obtain for the thousands of Jews ordered to leave.

When Lindenstrauss, accompanied by other leaders, reached Vienna he went direct to the Gestapo headquarters and was ushered to Eichmann's office. "In very rude language, Eichmann said he was not satisfied with the Jewish emigration situation. He said things must be accelerated by all costs and by all means."

"He said: 'You must accelerate. I demand that I receive 1,000 Jewish passports every day. This must be a minimum quota.'"

When it comes to career planning, do you find yourself in a predicament?

Perhaps you should look into the possibilities offered by a career in the life insurance business. Provident Mutual offers college men excellent opportunities in sales and sales management.

Take the time now to talk with us about our training program. We'll be glad to fill you in on the details.

Honor Society Dinner To Recognize Initiates

Freshman men and women with outstanding scholastic records will be inducted into Alpha Lambda Delta and Phi Eta Sigma, freshman honor societies, today at 5 p.m. in Old Capitol.

The coeds became eligible for Alpha Lambda Delta by earning a 3.5 grade average or better for their first semester in college. Men invited to join Phi Eta Sigma became eligible by earning a 3.5 or better for their first semester or first two semesters at SU1.

Becky Barels, A2, Carroll, president of Alpha Lambda Delta, will preside at that group's initiation, while Richard Shaw, A2, Des Moines, Phi Eta Sigma president, will be in charge of the men's initiation.

Following separate initiations, the two groups will meet in the River Room of the Iowa Memorial Union for a 6 p.m. dinner.

Robert Blakely, dean of the Extension Division, will speak on "The Reflexive 'I Am'" and the Alpha Lambda Delta Book Award and the John Briggs Award will be presented to outstanding senior members at the dinner.

Myra Uhlfelder, assistant professor of classics, and Rhodes Dunlap, professor of English and director of the Honors Program, will present certificates to senior members of the two groups who have achieved a 3.5 average every semester of their college careers.

Those who will receive certificates are: Dorothy Kuchel, A4, Glenview, Ill.; Katherine Beck, M1, Hartley; Barbara Blomstad, A4, Spencer; Becky Carnes, A4, Clinton; Marcia Fennema, A4, Mt. Airy; Fannie LeMoine, A4, Columbus, Ga.; Janet Mase, A4, Waterloo; Janet Moeller, Durant; Sandra Nelson, A4, Davenport; Jo Roberts, Nevada; Gisela Siefert, A4, Cedar Rapids; Sharon Van Oteghen, A4, Moline, Ill.; Rose Marie Walk, N4, Gratiot; John Burke, M1, Marshalltown; Margaret Crawford, G, Onawa; Michael Dailey, O, Coralville; John Denkmann, E4, Davenport; Paul Rager, G, Waukon; Howard Hills, A4, Iowa City; Robert Howar, M1, Webster City; John Kammermeyer, M1, Iowa City; Peter Landweber, Iowa City; Jerry Lutz, A4, Conesville; George McCall, A4, Iowa City; John Nadig, A4, Des Moines; Jon Piersol, A4, Ames; Richard Ran-

ney, D2, Rolfe; Robert Roelofs, M1, Rock Valley; Louis Schuur, Iowa City; John Stitzel, E4, Coralville; Lester Taylor, Iowa City.
Coeds invited to join Alpha Lambda Delta are: Ellen Danielson, Ames; Pauline Orr, Arnold's Park; Barbara Lampe, Bellevue; Karen Amatutz, Bloomfield; Barbara Derr, Karen Egger; Ann Gerke, Karen Hendryx; Jo McConnell, V. L.
