

FIRST U.S. SPACE FLIGHT 'PERFECT'

Shepard Rockets 115 Miles; To Get Hero's Welcome

CAPE CANAVERAL, Fla. — Pioneer U.S. astronaut Alan B. Shepard Jr. will face a hero's welcome in Washington Monday after putting this nation back into the space race with a perfect rocket flight 115 miles up.

But today and tomorrow, he will face exhaustive tests by doctors and psychologists who want to drain this initial space experience for all the knowledge it's worth.

Then Monday, he will be welcomed at the White House by President Kennedy — and he already has an offer of a ticker-tape parade in New York City — at his convenience.

Shepard relaxed Friday night at the Project Mercury medical holding facility on Grand Bahama Island, 155 miles from where he was plucked from the sea by helicopters.

His rocket ride, marked by brutal pressures and a mystic five minutes of weightlessness, was the first for an American and a perfect flight that gave the United States a mighty stride forward in its space race with the Soviet Union.

"Boy, what a ride," he said on landing. And, "What a beautiful sight," he said at the peak of his 15-minute flight.

Shepard, a veteran Navy test pilot, took manual control of his craft during the brief ride through space, operating the steam jets which turn it around for proper re-entry attitude.

But he was not really "flying" the vehicle as a pilot flies a plane. His speed and direction were determined by the speed and direction of the Redstone booster. There was nothing he could do to change his bullet-like trajectory.

And if he made a mistake, bust in controls probably could have overridden his actions if caught in time.

His 6-by-9-foot space capsule reached speeds of 5,100 miles an hour before plunging into the Atlantic 302 miles southeast of here.

Shepard was flown immediately to the aircraft carrier Lake Champlain, where physicians began checking him over for any ill effects.

"I don't think there's much you'll have to do to me, Doc," he told one of the physicians.

The physician who monitored his condition by radio during the flight, reported the lean, muscular astronaut was probably the calmest man in the whole operation.

Shepard was subjected to stresses up to 11 times that of normal gravity.

President Kennedy telephoned congratulations to Shepard within minutes after the astronaut's arrival on the carrier and told him of the hero's welcome awaiting him in Washington.

"This is an historic milestone in our own exploration into space," the President said.

A U.S. space agency official said Shepard's feat is only the beginning of America's exploration of space. Deputy Administrator Hugh Dryden said the National Aeronautics and Space Administration is planning to send an astronaut into orbit around the earth soon. Later, he said, one of them will travel to the moon and back.

The Redstone rocket used as a booster for the flight blasted away from its pad here at 9:34 a.m. Eastern Standard Time. Nineteen minutes later Shepard climbed out of the capsule's escape hatch safe.

"It's a beautiful day," he told the helicopter crew. "Boy, what a ride!"

Exciting as it was, the flight was still secondary to the feat of the Soviet Union's Yuri A. Gagarin, who April 12 was hurried into

a 100-mile-high orbit around the globe. He returned to earth safely 108 minutes after being launched.

A test of the only American rocket believed capable of duplicating the Soviet success ended disastrously last week when an Atlas veered off course and had to be destroyed 40 seconds after launch.

Nevertheless, the nation recouped some of its engineering prestige by allowing the whole world to look over its shoulder — for unlike Russia, this was no secret flight, launched in secret from a secret base with a secret rocket and secret space ship.

Shepard remained calm all through the four hours he was in his contour couch in the capsule atop the rocket before liftoff. He climbed a service tower and entered his space cabin at 5:18 a.m. The preliminary countdown was then virtually on schedule.

A long series of delays due to minor technical problems and bad weather followed.

Then the 83-foot-tall projectile shot into the sky, trailing a long streak of vapor.

Two F106 jet planes roared across the Cape. Piloting them were Walter Schirra and Scott Carpenter, members of the seven-man Mercury astronaut team, who watched the launching from the air and sped south to observe the recovery.

The rocket shot into a large cloud overhanging the Cape, then emerged on course.

During the 140 seconds of extreme acceleration, Shepard withstood a pressure of 6 G's without comment.

A sudden puff of smoke high in the sky told ground watchers that the booster's big engine had run out of fuel — on schedule — and the rocket case dropped away. So did the escape tower which had protected him on launch.

As the capsule sped on through space, a periscope extended automatically, giving Shepard his first look at the earth below.

"What a beautiful view," he radioed.

Then he reported that he could see the whole Eastern coast of the United States.

Taking manual control of jets which control the capsule, Shepard turned his craft around a full 180 degrees.

This placed the capsule's broad base in position as a shield against the 3,000-degree heat that air friction would build up when he re-entered the atmosphere on his way down.

Then the capsule went through a test of the braking rockets that will be needed in later orbital flights. The rockets are designed to slow the space craft down so it can drop back into the atmosphere.

Shepard fired the braking rockets on schedule and reported: "Everything very smooth."

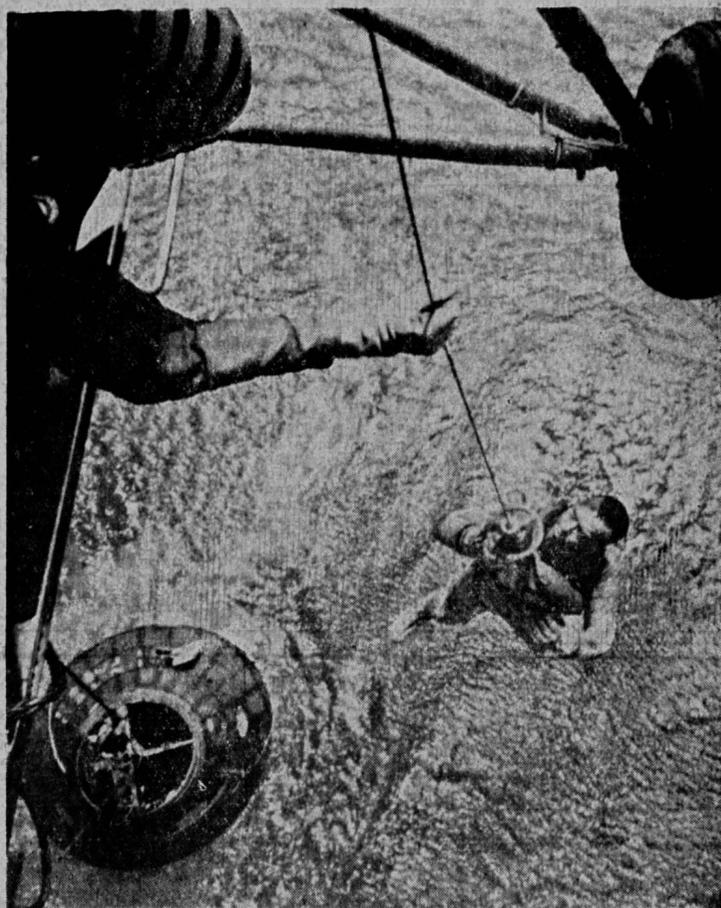

As he approached re-entry into the atmosphere, Shepard radioed: "Automatic controls performing properly." That indicated he had shut off his manual controls.

A few seconds later: "Nine G. Coming down ok. Peak G 11. Ok." Moments later Shepard reported he was at 30,000 feet on the way down.

"First chute has deployed," he said. "Another. All systems A — OK."

By "A-OK," Shepard meant that everything was "double OK" — or perfect.

"We may look back on this as the Model T of the space age," Shepard commented, "but at this moment it seems a tremendous event."

Still in Space

Shepard — America's first space man — dangles in harness from end of cable as he is lifted from his space capsule. He left capsule after it landed in the Atlantic Ocean.

Kennedy: U.S. Will Step Up Space Effort

WASHINGTON (AP) — President Kennedy publicly and proudly rejoiced Friday at America's launching of a man into space. But he tempered elation with the word that more money must be poured into redoubled efforts to explore space.

Minutes after Navy Cmdr. Alan B. Shepard Jr., returned from flashing 115 miles into the skies, Kennedy issued a statement saying "all America rejoices in this successful flight" — but it also should provide an incentive for redoubled efforts "in this vital field."

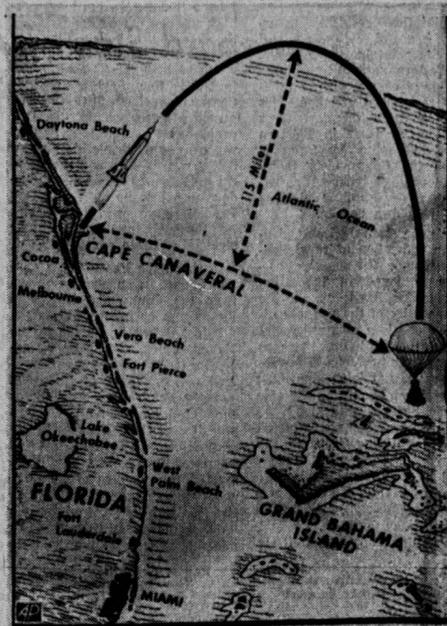

Then at a later news conference the President spoke with pride of Shepard's accomplishment and again of the challenge that lies ahead.

He said he is going to ask Congress for additional appropriations — "we are going to make a substantially larger effort in space."

After a bow to the human accomplishment and courage demonstrated in Russia's successful effort to put a man into orbit around the earth and bring him back, Kennedy added:

"We have a long way to go in the field of space. We are behind. But we are working hard and we are going to increase our efforts."

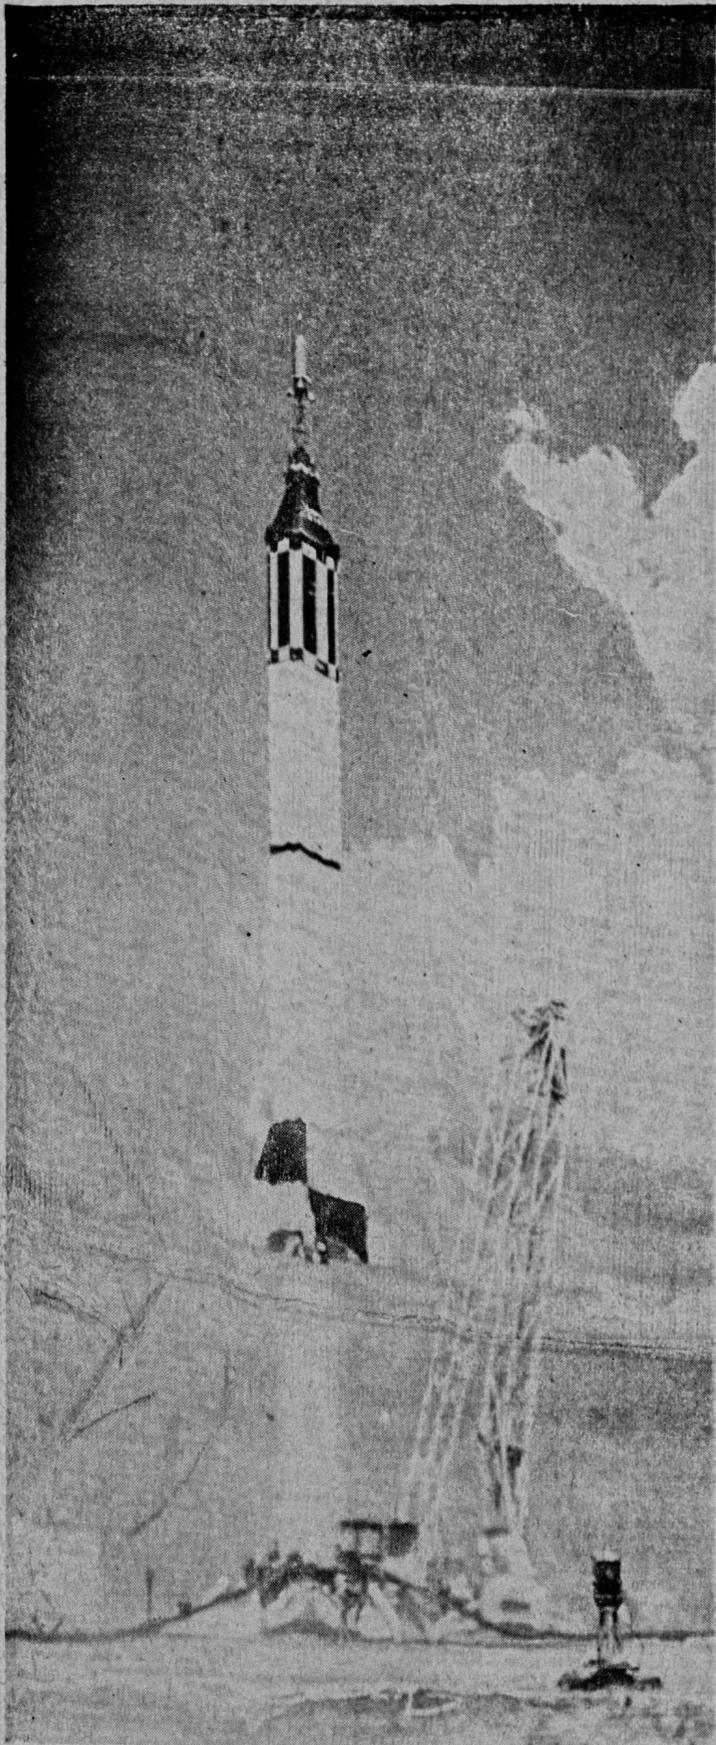

He repeated what he had said earlier, that the United States intends to share with the world the scientific information obtained in Friday's effort.

Union Luncheon Today Begins Mother's Weekend

By BARB BUTLER

A luncheon at 11:45 a.m. today in the Main Lounge of the Iowa Memorial Union begins the two-day campus celebration of Mother's Day Weekend.

Following introduction at the luncheon, the SUI Representative Mother, Mrs. Louis J. Gordon Evanston, Ill., will begin her reign over the weekend's activities. Mrs. Gordon was nominated for the honor by her daughter, Judy, A3. She was named last week by a committee from Associated Women Students, sponsors of Mother's Day Weekend.

SUI President Virgil Hancher will extend the University welcome to all parents at the luncheon, followed by a program by the Old Gold Singers. The Adelaide L. Burge Award will be presented to a junior woman who has excelled in scholarship and citizenship and has contributed to her own education.

At 1:45 five walking tours will leave the Sun Porch of the Union. Parents can join any of the tours to the Theater and Art Buildings; Library and Women's Physical Education Building; the TV Center, Daily Iowan and Hawkeye Physical Plant; Physics Building satellite area and the Engineering Building including WSUI, the Chemistry Building and Macbride Hall. All guests are invited to the Women's Physical Education Building for refreshments following the tours.

The annual alumni-varsity foot-

House, Senate Give Regents \$41.3 Million

DES MOINES (AP) — The Iowa Senate and House agreed Friday on a \$41.3 million yearly appropriation for operating State Board of Regents institutions.

The amount, recommended by a Conference Committee, was approved despite warnings that it would put the salary scale at SUI at the bottom of the Big Ten.

The appropriation is a million dollars more than the Senate called for in its bill but \$2.5 million below that suggested by Gov. Norman Erbe and accepted by the House.

Acceptance of the committee bill came on a 35-6 vote in the Senate and on a 91-7 vote in the House Friday afternoon. The measure goes to the governor for his signature.

Chairman George L. Paul (R-Brooklyn) of the House Board of Regents Appropriation Subcommittee said the appropriation was not enough, but it was the best the committee could do.

Other legislators criticized the amount voted as penny-pinching, and warned that the state would

America's First Astronaut — Up and Back

U.S. Flight Is 'First Step,' But We Lag

By HOWARD BENEDICT

CAPE CANAVERAL, Fla. (AP) — Alan B. Shepard Jr.'s daring and successful leap into space Friday was a giant step for the United States in its bid to overhaul the Soviet Union's lead in manned space flight. But any further gain appears months away.

The trouble is this nation's lack of a powerful and reliable enough rocket to match the Soviet payload capability.

The Redstone which lofted Shepard's 1½-ton capsule on the brief up-and-down flight is a relatively puny vehicle with a thrust of 78,000 pounds. The Soviet monster which launched Yuri Gagarin and his five-ton spaceship into orbit April 12 is rated about 800,000 pounds.

Dr. Hugh Dryden, deputy administrator of the National Aeronautics and Space Administration, termed Friday's test the "beginning of the exploration of space by astronauts of the United States."

"We have manned orbit flight planned and we plan to go on to a three-man orbit flight and later to the moon and back."

Shepard survived the flight apparently unharmed physically or psychologically, indicating man can withstand the rigors of space flight and that America's astronauts are ready for more ambitious projects.

Many U.S. Project Mercury officials believe they can put a man in orbit late this year. Others less optimistic are concerned that the Atlas, the only rocket available for the job, is not reliable enough to risk a man's life.

The Atlas, a 360,000-pound thrust vehicle, has been used in four preliminary launches of the Project Mercury capsule. Only once did it perform as planned. Twice it blew up spectacularly.

Some officials confided the failures just about doomed any thought of sending a man around the globe before 1962.

Technicians believe they eventually will lick the Atlas problems.

"It's too late to switch to the Titan, the only other missile powerful enough for the job," Gilruth commented earlier.

The only other missile with the payload capability of Atlas is the Titan. But this is not yet operational and has the added hazard of igniting a second stage at altitude. All three Atlas engines ignite on the ground.

Once Atlas has been perfected, it will launch first a chimpanzee and then a man into three-times-around-the-world orbits at 17,400 m.p.h. At least eight manned orbital shots are planned — the later flights 18 circles of the globe — to determine how man operates in space.

Two manned space programs have definitely been set as follow-ups to Mercury. They are Dyna-Soar and Apollo.

Dyna-Soar essentially is a military program aimed at putting airplane-like vehicles in the sky for reconnaissance, bombing or other missions.

Dyna-Soar, carrying one pilot, will be fired into orbit and glide back to earth when desired. First test flights are set for 1963, with operational craft expected to be on patrol in 1965.

Apollo is a three-man spacecraft designed to orbit the moon, hopefully by 1966.

Both Dyna-Soar and Apollo will depend on Saturn, the 1.5 million-pound-thrust rocket expected to have its first test-firing at Cape Canaveral next fall.

The Saturn also is this nation's only hope of landing a man on the moon in this decade.

Legislature Lauds Shepard, Kennedy

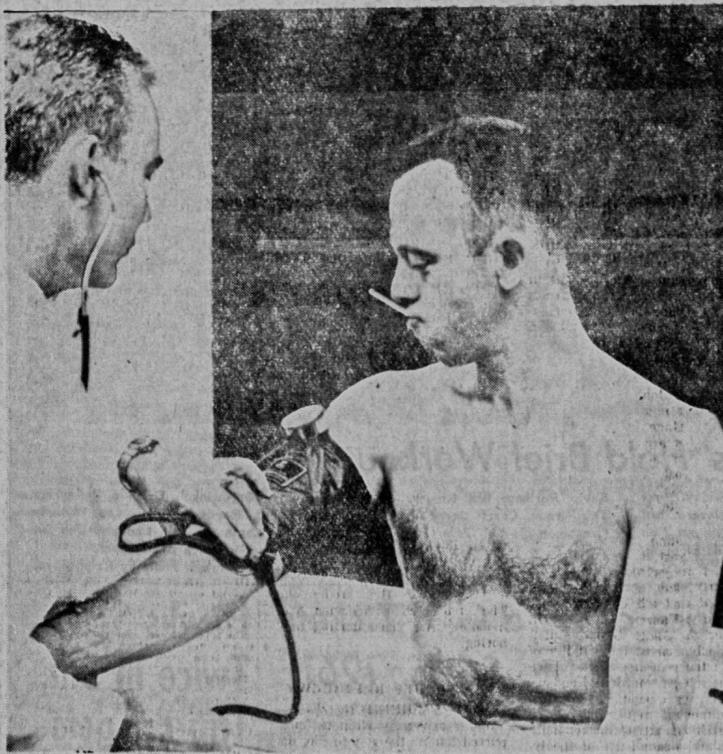

DES MOINES (AP) — A resolution commending Navy Cmdr. Alan Shepard, America's first spaceman, for his courage and the President of the United States for avoiding secrecy on the successful launching of a man in space, was adopted by the Iowa Legislature Friday.

The resolution said May 5, 1961, "is a day which will live in history."

It commended the United States Government for having "openly, courageously, and in full view of all the world launched a spaceman without secrecy."

It put the House on record as commending Shepard and his family for his courage and also commended President Kennedy "for avoiding secrecy on this great occasion and for following the principles of our democracy by letting all the world know of this achievement at the time it was happening."

Copies of the resolution are to be sent to President Kennedy and Shepard.

Pre-Flight Physical Check

Varsity, Alums To Battle on Gridiron Today

Game Will Be 1st For Jerry Burns

By PHIL CURRIE
Sports Editor

Iowa fans will get their first look at the football products of new head coach Jerry Burns as well as some of the familiar players from Forest Evashevski's reign today in the Alumni-Varsity game at 1:30 p.m. at the Iowa Stadium.

Climaxing the varsity's 20 practice sessions in 24 days, the game also comes as a career opener for Burns who took over the helm from Evashevski at the end of the fall season.

Upwards of 10,000 fans are expected for the fourth of the annual spring affairs. Last year approximately the same number watched the two teams battle to a 20-20 tie.

Although it is Burns' instruction during the practice sessions that

Student Tickets

University students and staff will be admitted to today's Varsity-Alumni game for \$1, but they must purchase their tickets at the Field House ticket office prior to the game. Tickets for the general public, at \$2, will be on sale at the gate.

has molded the varsity units, he will not be on the field today to give on-the-spot game advice. Instead, the new coach will watch from the lofty press box while assistant coaches Bob Flora, Whitey Piro and Archie Kodros operate his team on the field.

Across the way, assistants Bill Hoppel and Jerry Hilgenberg will direct the star-studded alumni squad which boasts five All-Americans and a host of all-conference and outstanding professional players.

All-Americans back in action for the alumni are quarterback Randy Duncan, ends Curt Merz and Don Norton, tackle Alex Karra, and guard Mark Manders, senior on last fall's varsity.

Perhaps the most noted of all alumni is the ageless Ern Tunnel, still playing professional ball 14 years after his last season as an Iowa halfback. Tunnel goes beyond the Evashevski era; the 37-year-old Green Bay Packer defensive star played under Dr. Eddie Anderson in 1947.

Since the alumni had only two light practices and since Duncan and outstanding thrower Olen Treadway will work at quarterback, the alumni is expected to rely heavily on a passing game.

However, it will not be without running ability as Willie (the Wisp) Fleming, Ray Jauch, Kevin Furlong and Bill Gravel will provide expert ability in that category. John Nocera and Don Horn will fill the fullback post.

On defense, the alums have such standout performers as

Karras, an all-pro middle line-man for the Detroit Lions, Tunnel, all-pro defensive halfback; linebackers such as Bill Lapham, Manders and Nocera; ends Frank Gilliam and Jim Freeman, and tackles Frank Rigney, John Sawin and Don Chelf.

Burns said Friday that despite several injuries suffered during the spring sessions, all Hawkeyes would be ready today except highly regarded halfback Bob LaZotte. The sophomore from Royal Oak, Mich., injured his leg in an early session and will be the only player to be kept out of action for the varsity.

Others on the injury list during the sessions but expected to play today are halfback Bernie Wyatt, center Bill Van Buren and sophomore fullback Bobby Grier. All-American halfback Larry Ferguson will probably not start and may see only a limited amount of action. Ferguson has been nursing an injured foot all week.

Listed as probable starters for the varsity are ends Felton Rogers and Bill Whistler, guards Sherwyn Thorson and Bill DiCindio, tackles Al Hinton and Gus Kaspakis and center Van Buren. In the backfield will be left half Sammie Harris, replacing Ferguson, right half Lonnie Rogers, quarterback Wilburn Hollis and fullback Joe Williams.

Golfers Hold 2 Dual Meets Here Today

By GARY HICKOK
Staff Writer

Iowa's golf team hosts Big Ten opponents Wisconsin and Minnesota in its only home competition of the season today at Upper Finkbine Golf Course. The two dual meets were slated to begin at 8 a.m.

Coach Chuck Zwienen sends six men—Jack Rule, Bill Hird, Frank James, Bob Davis, Chuck Mullen and J.D. Turner—into the meets sporting a 3-1 season's record. These six beat Western Illinois last weekend while tying strong Notre Dame after Turner missed a four-foot putt on the last hole.

Wisconsin, according to Zwienen, will bring a 1-4 record to the meets. Minnesota has a 1-2 record and virtually the same team which featured a group of fine sophomores last year.

The Gophers, labeled as a fine team by Zwienen, are led by Gene Hansen and Ralph Deming. Iowa's No. 1 linksman, Rule, has defeated Hansen in two previous contests.

Rule thus far has tied the course record at Missouri in a meet won by the Hawkeyes. Last week he copped medalist honors in the contests against Western Illinois and Notre Dame.

Senators' Rookie Halts Indians 5-2

CLEVELAND (AP) — Rookie Ed Hobaugh held the Cleveland Indians to five scattered hits in pitching the Washington Senators to a 5-2 victory Friday night.

The 26-year-old right-hander went all the way in winning his first major league game. He has lost one. He struck out two batters and walked four.

The loser was starter Johnny Antonelli, who was making his fourth attempt to win his first American League game. The 31-year-old southpaw worked three innings and gave up four runs on five hits, including a two-run homer by Harry Bright. Antonelli's record is now 0-3.

Washington	022 000 010—5 9 0
Cleveland	000 100 010—2 5 0
Hobaugh and Green, Antonelli, Laman (4), Locke (9) and Romano, W-Hobaugh (1-1), L-Antonelli (0-3).	
Home run—Washington, Bright (1).	

Dodgers Blast Pirates 10-0; Friend Victim

PITTSBURGH (AP) — The Los Angeles Dodgers exploded for 15 hits and took advantage of five Pittsburgh Pirate errors Friday night to overpower the defending world champions 10-0. Bob Friend lost his first game of the season.

Tommy Davis, Norm Larker and Willie Davis sparked the Dodger attack, accounting for seven of the safeties and driving in two runs apiece.

Dodger starter and winner Johnny Podres had allowed only six hits before he had to leave the game at the start of the seventh inning because of a pain in his left forearm.

A Dodger spokesman said the southpaw hurt the arm while batting in the fifth.

Dick Farrell, acquired Thursday in a trade with the Phillies, finished the contest, yielding only one hit.

Friend, who went into the contest with a 4-0 record, hurled 3 1/2 innings before being knocked out of the box. He gave up seven runs and eight hits.

Los Angeles	003 401 101—10 15 0
Pittsburgh	000 000 000—0 7 5
Podres, Farrell (7) and Roseboro; Friend, Umbrecht (4), Green (8) and Smith, W-Podres (4-0), L-Friend (4-1).	

Twins Trim Red Sox 5-1

ST. PAUL-MINNEAPOLIS (AP) — Minnesota's Jack Kralick turned in another sterling pitching performance Friday, stopping Boston 5-1 on a six-hitter.

The crafty southpaw fanned six in winning his second against a lone defeat. The victory snapped Minnesota's three-game losing streak.

The Twins jumped off to a 1-0 lead in the second and were never headed. Boston starter and loser Tom Brewer walked the first three batters and Harmon Killebrew scored when Billy Gardner hit into a double play.

Boston	001 000 000—1 6 1
Minnesota	011 011 102—5 9 1
Brewer, Bittman (6) and Pagliaroni; Kralick and Batey, W-Kralick (2-1), L-Brewer (2-2).	

Post's 3-Run Blast Boosts Cincinnati Past Braves 6-5

MILWAUKEE (AP) — Chico Cardenas' sacrifice fly in the 12th and a three-run homer by Wally Post in the ninth propelled the Cincinnati Reds to a 6-5 come-from-behind victory over the Milwaukee Braves Friday night.

A triple by Gene Freese put the winning run in scoring position in the 12th at the expense of Milwaukee reliever Ron Piche.

The Reds went into the ninth trailing 4-1. They scored one run on the strength of Don Blasingame's double that sent Elio Chacon home.

Cincy	000 100 001 001—6 16 3
Milwaukee	000 002 001 000—5 9 1
Purkey, Brosnan (9), Henry (13) and Zimmerman, Schmidt (9); Burdette, Morehead (9), Piche (10) and Lau, W-Brosnan (1-0), L-Piche (1-1).	
Home run—Cincinnati, Poe (3).	

Price of Iowa Grid Tickets Boosted to \$5 for 1961

Cost of Iowa home game football tickets for the 1961 season will be \$5, it was announced Friday by Forest Evashevski, director of athletics.

The single game admission has been \$4. The increase was approved by the board in control of athletics.

Director Evashevski said that the raise was due to the increasing costs of operating the intercollegiate athletics program at Iowa. The program is entirely self-liquidating, with no tax funds used in its support.

"We want to maintain a quality program in every way," Evashevski explained. "Maintenance costs are up, salary increases must be anticipated and equipment replacement and additions cost more. We have to look ahead to the development of the plant, not only to keep it up-to-date, but to provide facilities to meet the athletic and recreation needs of a much larger student body and a larger faculty and staff," the athletic director declared.

Several other Big Ten universities have raised the price of football tickets recently. Admission to Iowa's home games has been \$4 since 1957.

Detroit Still in 1st—

Tigers Rip ChiSox 8-4

CHICAGO (AP) — The hard-hitting Detroit Tigers handed the slumping Chicago White Sox their fourth straight setback 8-4 Friday night to remain in first place in the American League.

Norm Cash and Dick Brown, a pair of former White Sox players, added to the woes of the Chicagoans by driving home five of Detroit's runs.

Cash and Brown each drove in two runs in a big first inning when the Tigers scored four times. Cash knocked in another with his second single in the second inning.

For the third straight game, Sox losses resulted from the hitting of players they have traded off since winning the American League pennant. Their two previous losses at Cleveland resulted from the clutch hitting of former teammate Johnny Romano.

Detroit	020 001 100—8 15 0
Chicago	000 200 020—4 8 1
Foytack, Donohue (8), Aguirre (9) and Brown; Shaw, Kemmerer (2), Lown (1), Staley (6), Pizarro (8) and Lollar, W-Foytack (1-1), L-Shaw (2-1).	
Home run—Chicago, Sievers (4).	

Wilkinson Is Only Winner as Netmen Lose 2 Duals 8-1

Iowa's tennis squad lost two matches to Northwestern and Michigan State by identical scores of 8-1 at Evanston, Ill. Friday. The Hawks' one bright spot was a pair of victories by sophomore Steve Wilkinson.

Wilkinson beat the Wildcats' Skip Gage 8-6 and 7-5 in the first match and later defeated Michigan State's Brian Eisner 12-9. Wilkinson's season record for singles matches is 8-2.

Iowa's record is 0-10 for the season.

Hawks Face Badgers Today In Track Duel

By JERRY ELSEA
Staff Writer

Iowa's track men will be going for their second outdoor Big Ten win today when they tackle Wisconsin on the Badgers' cinders at Madison. The Hawks beat Minnesota at Iowa City two weeks ago after losing to Indiana. Last week they led all Big Ten entries at the Drake Relays by placing in seven events.

The Badgers boast a strong field event crew in everything but the high jump, Iowa's Coach Francis Cretzmeier said. "We should do all right with Sidney in the high jump and hope our runners can even things out," said Cretzmeier Friday. "It looks like it's going to be real close.

"Tom Hyde should win the 100 and 220 and Jerry Williams will run both high and low hurdles for the first time since the Big Ten Indoor Championship March 4," Cretzmeier added.

Williams was hindered by a pulled muscle but recovered and turned in a strong performance at Drake anchoring the shuttle high hurdle relay team to a third place finish.

Personnel for the relay teams has not been determined, said "Cretz" but Jim Tucker, Ken Fearing, and Gary Fischer are slated for action in the two mile.

Making the road trip again is high jumper Don Nelson, Iowa's high scoring pivot man during the basketball season. Nelson, who took third against Indiana three weeks ago, will back jumpers Sidney and George Frohwein.

The Hawks will miss the muscular discus man Cloyd Webb who will be in Iowa City to play in the Varsity-Alumni game. Webb will compete against Ohio State here next Saturday.

Hawks Score Twice in 8th, Trip Badgers

MADISON, Wis. (AP) — Iowa scored two runs in the eighth inning Friday to edge the University of Wisconsin 5-4 in a Big Ten baseball game.

Erratic Hawkeye fielding made it a tough afternoon for right-hander Ron Reifert, who has hurled all five Iowa victories this season.

A two-run third inning homer by first baseman Paul Bonstead provided the big punch in Iowa's attack.

Loser Ron Krohn of the Badgers set Iowa down in order after Bonstead's homer. But Jerry Mauren opened the eighth with a single. Jack Leabo's double scored Mauren with the tying run, and Chuck Conway's sacrifice fly brought home Leabo, who had advanced on a wild pitch.

The Badgers tallied twice in the third on two infield hits and Joe Reddington's throwing error and twice in the sixth on a walk, a stolen base, a single and another Reddington error.

Iowa	102 000 020—5 6 4
Wisconsin	002 002 000—4 4 4
Reifert and Mauren; Krohn and Handford.	

San Jose State Runner Ties World Mark in 100

SUNNYVALE, Calif. (AP) — Dennis Johnson, San Jose State College flash from Jamaica, West Indies, Friday night officially tied the world record for the 100-yard dash, the fourth time this season he has zipped off a 9.3 second clocking.

Johnson's effort came in the all comers meet being held here at Fremont High School.

Johnson was aided by a 2.9 mile-per-hour wind.

Two of the official clocks had him in 9.4.

New Galleries Ready As Part of Arts Week

New art galleries will open Tuesday at 8:30 p.m. at the SUI Art Center building — just in time for Creative Arts Week. Gibson Danes, dean of the school of architecture and art at Yale University, will be guest speaker.

The new galleries will contain about 100 paintings, water colors, prints, drawings, and sculptures owned by Iowa collectors and museums. The more famous works include "The Red Cap," by Hans Hofmann; "Bourgeois-Reine," Maurice Utrillo; "Blue Interior with Girls," Henri Matisse; and "Passage Preton, Toile," Paul Gauguin.

Also during the week, "Midland" will be presented. This is a 600-page anthology of fiction and poetry collected in the SUI Writers Workshop over the past 25 years. Random House is the publisher.

Lectures by James A. Van Allen, head of the Physics Department, and W. D. Snodgrass, former SUI student and winner of the 1960 Pulitzer Prize in poetry, will also be featured. Van Allen will speak on "The Creative Mind in Science" and Snodgrass, "Tact and the Poet's Force."

SUI President Virgil Hancher points out events of Creative Arts Week are not "special events" in a once-a-year show, but are exhibits, publications, music and plays scheduled for this spring as typical examples of the University's creative mind at work.

"It seemed convenient and congenial to assemble them all in a single week rather than to have them spread out over a month. This will also allow them to be shared with a much wider audience," he explained.

Van Alstine To Speak At Banquet

Outstanding SUI coeds and outstanding women in Iowa City will receive invitations next week to the Seventh Annual Matrix Table Banquet, sponsored by Theta Sigma Phi, professional journalism fraternity for women.

Percie E. Van Alstine, Republican representative to the Iowa Legislature from Humboldt County, will be the guest speaker at the banquet, May 15, at 6 p.m. in the River Room at the Iowa Memorial Union.

Two Matrix awards will be presented to an Iowa City woman and an SUI student on the basis of applications submitted by civic and campus organizations.

Miss Van Alstine was graduated from SUI with a B.A. in home economics in 1928. Tickets for the banquet are \$2.85.

SUI Grad Student Wins Fulbright Grant to Paris

Virginia Anne Myers, G. Bowling Green, Ohio, has been awarded an Educational Exchange Award provided by the Fulbright Act.

Miss Myers will study Graphic Arts (non-commercial) at the University of Paris.

Approximately 900 grants for graduate study abroad in the academic year 1961-62 are being awarded under the international educational exchange program of the U.S. State Department.

Students are selected by the Board of Foreign Scholarships, the members of which are appointed by the President. Students are recommended by the campus Fulbright committees and by the Institute of International Education.

Funds used to finance these exchanges are part of the foreign currencies or credits owed to or owned by the U.S. Treasury. Under executive agreements with the foreign governments, exchange programs offering opportunities for American students are being carried out for the academic year 1961-62 with the following 34 countries:

Australia, Austria, Belgium-Luxembourg, Brazil, Burma, Chile, Nationalist China, Colombia, Denmark, Ecuador, Finland, France, W. Germany, Greece, Iceland, India, Iran, Israel, Italy, Japan, Korea, the Netherlands, New Zealand, Norway, Pakistan, Peru, the Philippines, Portugal, Sweden, Spain, Thailand, Turkey, United Arab Republic, and the United Kingdom.

The internal educational exchange program is designed to promote a better understanding of the United States in other countries.

Court Day Awards Given

Edgar F. Hansell, L3, Leon, and Robert L. Heggen, L3, Iowa City, were named winners of the senior arguments at a banquet climaxing Supreme Court Day Friday night at the Iowa Memorial Union.

The two men represented the prosecution in a fictitious night walking and vagrancy case which was appealed from the state district court and heard before a full bench of the Iowa Supreme Court Friday afternoon in Shambaugh Auditorium.

Counselors for the defense were Craig A. Beck, L3, Aberdeen, S. D., and William H. Carmichael, L3, Pocahontas. All four seniors were presented with inscribed plaques by Chief Justice of the Supreme Court, Theodore G. Garfield.

The banquet program was highlighted by speeches presented by H. R. Duncan, president of the Iowa Bar Association, Virgil M. Hancher, president of SUI, and Evan Hultman, Attorney General

of Iowa. Hancher and Hultman are graduates of the SUI College of Law.

Duncan paid tribute to the fine relationship between the SUI law school and the Iowa Bar Association. Hultman noted two important facets of the SUI law graduate.

The first is "the tremendous opportunities made available to the students by the law faculty. They are second to none," he said. "The second facet," according to Hultman, "is that with this opportunity comes the responsibility for providing leadership for the people of Iowa."

SUI President Virgil Hancher predicted that the 1962 supreme court observance will be conducted in the new law building now under construction.

Gifts were presented to Prof. Clarence M. Updegraff and Miss Ede Zwinggi, law librarian. Both will retire in June.

The student initiates into the Order of Coif are Richard Albrecht, Hartley; Craig Beck, Aberdeen, S. D.; John Brady, Tipton; William Carmichael, Pocahontas; Neil Harl, Numa; Donald Harris, Iowa Falls; James Kelly, Algona, and Gerald Thain, Rock Falls, Ill.

The faculty initiate is M. Carr Ferguson, assistant professor of law. The honorary initiate is Harry F. Garrett, Corydon, a former member of the Supreme Court of Iowa.

PRAVDA'S ANNIVERSARY

MOSCOW (AP) — The 39th anniversary of the founding of the Communist party organ Pravda was marked Friday by cartoons in the organ and other Soviet papers portraying the Western press as permeated with rumors and under the control of monopolists.

Physics Building Displays 'Stars'

Some 250 stars usually relegated to outer space can be "found" (in miniature) in the SUI Physics Building. The star models, as well as 25 photographs of various heavenly bodies, are part of SUI's astronomy museum, which is now open to the public. Satoshi Matsushima, associate professor of astronomy, has announced.

Located in what is essentially the Physics Building attic, the museum will also double as a waiting room for visitors to the observatory, now open to the general public from 8 p.m. to 10 p.m. Mondays. The observatory is open to groups by reservation on Friday evenings.

Made of wooden beads, SUI's "stars" are models of those located in the vicinity of the sun. The models are painted with a fluorescent paint, causing them to glow when a purple fluorescent light is turned on them.

Shepard Desired To Be First

CAPE CANAVERAL, Fla. (AP)—Navy Cmdr. Alan Bartlett Shepard Jr., 37, drew on a background as an athlete and an intellectual to become America's first spaceman.

He combines a genius-level intelligence quotient of between 135 and 147 with a fondness for keeping trim by water skiing and road running.

His life has been marked by a determination to do more than enough.

Unsatisfied with the speed of a Navy flight-training course he was taking, he spent his spare time taking lessons at a civilian flight school.

When fellow astronaut, Marine Lt. Col. John H. Glenn Jr., began running two miles every morning to keep his weight down, the slim Shepard, 5 feet 11, weighing 160 pounds, took up road work, too.

Shepard excelled in "school work" among astronauts. He was named to the first man into space.

Pep Club Names 6 New Members

Six new members have been named to the 1961-62 Pep Club Council sponsored by the Hawk-I Pep Club.

The new members and their committees' assignments are: Card Section: Melony Helm, A2, Marshalltown; Ned Strain, E1, Cedar Rapids; Jim Lofgren, A2, Bloomfield; Pep Rallies: Janice Glassman, A1, Iowa City; George Mayer, A1, Fairfield; Special Activities: Jeff Pill, A1, Sioux City.

The eight carry-over members of this year's Council selected the new members from applications and interviews.

Recital Sunday

Linda Irwin, A4, Iowa City, will present a piano recital Sunday at 7:30 p.m. in North Music Hall.

Mrs. Irwin will play selections from Beethoven, Rousset, and Bloch to partially fulfill requirements for a bachelor of music degree.

STUDENTS STRIKE

SAN JOSE, Costa Rica (AP)—Thousands of university students went on strike Friday demanding Costa Rica break diplomatic relations with Cuba.

University Sing Sunday

Eight groups will compete for University Sing trophies Sunday at 3 p.m. in the Main Lounge of the Iowa Memorial Union.

The sing, "Memories for Mom," will climax the Mothers' Day Weekend activities sponsored by Associated Women Students.

The SUI Representative Mother, Mrs. Louis J. Gordon, and her family will be introduced by Master of Ceremonies Neil Sodemann.

Finalists and the songs they will present are: Alpha Phi: "The Song is You," "Yesterday," "Make Believe and You," and "Dilemmas Change"; Chi Omega: "The Fashions Change" and "Begin the Beguine"; Delta Chi-Pi Beta Phi: "Salutation," "Way Back Home," and "Onward"; Delta Tau Delta-Kappa Gamma: "A Mighty Fortress is Our God," "Mother," and "Aren't You Glad"; Delta

Zeta: "The Twenty-Third Psalm" and "Shorten' Bread"; Gamma Phi Beta-Sigma Nu: "Ah's Walk on On," "Ash Grove," and "Madam Jeanette"; Hillcrest: "There is Nothing Like a Dame" and "The Halls of Ivy"; Phi Beta Pi: "Too-ra-loo-ra-loo-ra, That's an Irish Lullaby," "The Lord is My Shepherd," and "Old Ark's Amoven." General Chairman for the sing is Sue Brown, A3, Eldora.

Describes Nazi Death Squads

JERUSALEM (AP)—A report from a Nazi comrade of Adolf Eichmann described the slaughter of 100,000 Jews in the Baltic countries as if "speaking of the canning of sardines or herring," prosecutor Gideon Hausner said Friday.

The Israeli attorney general introduced a report by Frant Walter

Stahlbecker, described as an "old friend" of Eichmann. It described activities of the Nazi death squads who shot a million Jews in Europe before the Nazis switched to mass executions in gas chambers.

Then the court trying Eichmann for crimes against the Jews and crimes against humanity heard of the terrorist tactics

of the squads from the lips of witnesses who survived.

Eleazar Kashat said that of 100,000 Jews in Latvia — where Stahlbecker was in charge — only 800 survived. This brought a gasp in the courtroom.

Abraham Aviel, 34, survivor of a mass execution near his native village in Radom, Poland, told the court he was forced from his home with his mother and brother and marched to a market square. There they were ordered to kneel and listen to a Nazi harangue for one hour. Then they were led down a road toward a cemetery.

"I was small then and shorter. I could raise my head without being seen and I saw in front of us a long trench, maybe 30 yards long. They began leading us to that trench, row after row of people."

Regents

(Continued from Page 1)

be sorry.

Supporters of the original House bill contended that under the \$40.3 million appropriation proposed by the Senate, all three state institutions of higher learning would have to curtail enrollments and some programs.

Chairman Lawrence Putney (R-Gladbrook) of the Senate Appropriations Committee said the additional \$1 million in the Conference Committee bill represents a six per cent salary adjustment for the first year of the next biennium, beginning July 1, and a four per cent raise the second year.

Before the Conference Committee report was passed Sen. X. T. Prentis (R-Mount Ayr) said the increased amount would jump the governor's \$189 million a year budget by about \$1 million.

Here are the annual allocations

for the various regents institutions recommended by the Conference Committee:

SUI, \$13,604,800; University Hospital, \$3,900,600; Psychopathic Hospital, \$1,000,000; Bacteriological Laboratory, \$302,800; Hospital School, \$234,300; ISU, \$9,485,400; Agricultural Experimental Station, \$7,340,480; Extension Service, \$1,502,240; ISVC, \$3,934,600; Iowa Braille and Sight-Saving School at Vinton, \$464,700; Iowa School for the Deaf at Council Bluffs, \$288,000; and the State Sanatorium at Oakdale, \$1,191,600.

Another good reason for Confidence in a growing America

SEED MONEY—\$12 BILLION A YEAR!

Spent in research, it's sure to produce the biggest crop ever of new products and new jobs

If you want to know what's ahead for America, look at the growth of research and development. Today research is our fastest-growing industry—which is important because it feeds and stimulates all the others. In the Twenties, American business spent less than \$100 million a year on research and development. Early in the Fifties, it had multiplied 50 times to more than \$5 billion. Today it's running at \$12 billion annually—as much as the whole national output in 1890!

Research grows so fast for one good reason. It pays off. Every dollar invested in it produces several more in improved products and consumer preference. Some developments, such as the release of nuclear energy, herald a whole new age. All are forerunners of change and growth.

New metal alloys and stronger plastics

—jet travel, the wonder drugs and television—these have provided thousands of new opportunities. But they represent only the beginning. Rockets, space exploration and electronic brains add exciting new possibilities.

Already another upswing is in the making. It can be the prelude to further growth—if we are all determined that it shall be. We can help to bring this about if we recognize that our own future is bound up in the welfare of all. By working together we can so advance our nation's strength and well-being that our way of life will stand as a beacon for the entire world.

FREE—Write for illustrated booklet, "The Promise of America." Box 350, New York 18, N. Y.

GET READY FOR AN UPSWING!

MORE PRODUCTION—U. S. production doubles every 20 years. Our annual output is due to rise \$300 billion in 1971!

MORE INCOME—Today's \$6500 per family represents an all-time high!

MORE SAVINGS—Now at the highest level ever—\$375 billion!

MORE JOBS—There are 15 million more jobs than in 1939—will be 22 million more by 1975!

MORE EDUCATION—By 1970 we'll have 20 million more high school graduates and 3 million more college graduates. They'll earn more, live better!

MORE LEISURE—40 million Americans get paid vacations, and there are 16 million people over 65, many of them with retirement income to spend!

MORE MARKETS—U. S. exports, plus output of U. S.-owned plants overseas, already account for over \$50 billion in sales!

MORE NEEDS—Schools, hospitals, highways, homes—we need billions in improvements right now!
