No Concessions For Student Senate

The tactics of Student Senate in the past two weeks may have almost lulled students into the belief that Student Government at SU didn't mean any more power than it has.

It is beginning to look like the only function the Senate has -- at least for a Wednesday mid-nighthour debate whose only topic is where to put voting booths for the all-campus elections in the spring -- is deciding which commuter vote to take.

This is the group which took off last April, pledging to bring Student Government out of the dark ages. This is the group which can point to very few important accomplishments.

To give the Senate its due, it did conceive and get the Project ASD scholarship fund rolling. This is one of the most enlightened and worthy projects on campus.

And, it is true that several much-needed events have been brought about by the Senate since the present Senate took office. The change is BLOC requirement, initiation of a day of service before finals, and continued sponsorship on the Committee on Student Life, are examples.

However, these were due to the previous Council, and probably by several before that.

There are many things with which the Senate might well be better off than the location of voting booths.

In 1969 the legislative body passed a resolution calling for an explicit policy concerning discrimination is approved by campus housing. The University later put forth such a policy.

There have been reports that discrimination still exists, but Student Senate has taken no further action.

For the most part, therefore, Student Senate's main activities have been to overlook discrimination in University organizations and to classify them accordingly in their discrimination policies, if any. The resolution is still to be considered by the Senate on Student Life.

All Senate action so far has focused on discrimination, and the buttons of applying to or to their discrimination policies, if any. The resolution is still to be considered by the Senate on Student Life.

All Senate action so far has focused on discrimination, and the buttons of applying to or to their discrimination policies, if any. The resolution is still to be considered by the Senate on Student Life.

The most obvious support increased student impersonal- ability and Government power. But we are also concerned that the Senate has made a decision that has given it power, it doesn't deserve such conditions.

-Howard Firefield

NEW YORK (AP) — a New York attorney pleaded guilty Thursday to an indictment charging attempts in the college basketball games and a new name was injected mysteriously to the landscape of scandal.

At the time is Charles Tucker, 25, previously indicted on charges of Indiana Attorney's conspiracy involving players from the continuing Tucker in on the continuing investigation which was presented with evidence of taped conversations, court documents filed in federal court in New York.

The attorney declined to give further comment to the press after his plea.

The charges against Tucker include conspiring to fix the outcome of games and accepting bribes in exchange for arranging for players to take payments from gamblers.

Tucker is scheduled to be sentenced in October and faces up to 5 years in prison and a maximum fine of $250,000.

In the Fold

Warren Spahn (left), outstanding Milwaukee Braves infielder, won six games, pitched 237 innings and set the National League record for innings pitched in a season.

In other transactions, the Cleveland Indians traded outfielder Bob Feller to the Washington Senators for $30,000.

Spahn Signs; Becomes Highest Paid Pitcher

MILWAUKEE (AP) — Baseball's greatest left-hander also became the highest paid pitcher in the game's history Thursday — if he wasn't beforehand.

Specifically, Warren Spahn, the 31-year-old star of the National League's most successful team, signed a six-year contract which will pay him $100,000 per year.

Tucker was involved in the continuing investigation which was presented with evidence of taped conversations, court documents filed in federal court in New York.

The attorney declined to give further comment to the press after his plea.

This group at Hillman, informally TOSFing (as the Friday afternoon dance sessions are called), seems to have mixed emotions about the Twist. Some have even re-adopted the old-fashioned jitterbug—although maybe just for a little while.

Hey! Let's Do The Twist

By ERIC ZOECKLER
Staff Writer

Many swing-in' Hillmen will roll that live, lanky, and possibly births this weekend as they attempt to get in to see the last bit of Twist before final examinations begin to take their toll next week.

Oh, as one coed put it: "It's now or never. If the Twist doesn't get us, we'll die!"

A trip to a Twist emporium in Coralville found TOSF in full swing. The area-danced version only set dancing the other. And Jim Wilshington, a Hillman '61, thought it was a much better version than the one at which he had been dancing. The Twist is not even in the Hill campus, but some of the more daring Hillmers are trying it.

The Twister from a knee injury suffered New Year's Eve doing the Twist. It can be arguments. I know, but I'll be back for more.

Darla Cohoon, A1, Chicago, Ill., said she had heard of cases where people have died of heart attacks after doing the Twist.

"I'm not sure if all this is true," she said. "But all I get is a small ache in my eyes.

She very much more serious hollers. She raises her hand above her head and yelled, "Hurray..." and headed still to join her partner, who had been Twistin' without even realizing she was gone.

Tom seems pretty sure that the Twist is here to stay, but

The Twist is not even in the Hill campus, some of the more daring Hillmers are trying it.

Perhaps it's because the Twist is so easy to do. It makes a great bond as a group," said Larry Lanes, A1, Washington.

At least, one of the Hillmers who was doing the Twist when the kids got it's rather fatiguing to sides, too.

Although the dance kicks a little bit of high spirited among students, some of them thought it will probably die out soon. The partner said: "I'm afraid it'll die out soon, because it's hard to do.

But probably wasn't any worse as the old "I hated it dies out.

Side!

Gunations Unlimited

More stories of first Swingin' weekends they didn't know they had.

Nearly every person knows the origin of the Twist, as demonstrated here by Carolyn Cohoon, A2, Denver.

Happy? You Bet!

Two more Hillmen who didn't know their care Friday afternoon went Jim Lanes, A2, Denver, and Dan Hill, A1, Chicago, Ill. Same Hilllers interviewed thought the Twist is here to stay, but others thought it is too shorted.

Fancy Twist

On his way down, Tom Bergston, A2, Arlington Heights, Ill., demonstrates one of the fancier "Twists" of the Twisters. Tom is sure there is something that's on the floor.

"No, I see a twist," says Tom Burgson, A2. Arlington Heights, Ill., demonstrating the Twist.

How Was That Again?

"Hey, I saw you were doing it right," Lyn Bumford, A2, Des Moines, seems to ask her partner, Darla Cohoon, A1, Chicago, Ill., gone just one extra twist.

The Twist
