Kids and Clowns

The SUI clowns attended the annual picnic at the School for Severely Handicapped Children and livened the day for the pre-schoolers there. Above, Dick Monteith, A3, Jewell, paints the face of one little boy to show him how clowns come to look that way. Below, Judy Mauer, hospital aide, and clown Ralph Hillman, A4, Essex, entertain three picnickers — from left: Ricky Smith, Deborah Lindbon, and Steve Larsen. —Photo by Larry Rapoport

Regents Meeting Deals With Faculty Changes

COUNCIL BLUFFS — One new appointment was made to the pharmacy faculty, four resignations were accepted and six changes in appointments and 40 promotions were approved Friday by the State Board of Regents for SUI faculty members.

Joseph G. Cannon, a member of the University of Wisconsin faculty since 1956, was appointed associate professor in the SUI College of Pharmacy. He will begin his work at Iowa in September.

The Regents accepted formally the resignation of Dean Norman B. Nelson of the SUI College of Medicine. Nelson will become director of medical institutions for Santa Clara County, Calif.

Resignations from three other Iowa professors were also accepted:

Carl A. Dallinger, coordinator of the SUI Rhetoric Program, who will accept a new position at Illinois State Normal University; Charles B. Pittinger, acting head of anesthesiology in the SUI College of Medicine, who will take a new position at Vanderbilt University, and Geraldine Clewell, Department of Home Economics, to become professor and chairman of home economics at Mankato (Minn.) State College.

Changes in appointment were approved for:

Associate Prof. Henry C. DeKock, who has been serving as acting dean of the SUI College of Education during the past year, will become associate dean of the College July 1, when the recently appointed dean, Prof. Howard Jones of the University of Michigan, will assume the deanship;

Associate Prof. Richard Braddock, who will become coordinator of the Rhetoric Program in the SUI College of Liberal Arts in September;

Prof. Charles Spiker, acting director of the Iowa Child Welfare Research Station for the past two years, who will become director of the station in September;

Prof. Stanley Wawzonek, who will accept additional responsibility as acting chairman of the Department of Chemistry, succeeding Prof. Ralph L. Shriner, who will relinquish the headship of the department at his own request while continuing his teaching responsibilities;

Prof. Sherwood D. Tuttle, who will similarly accept the chairmanship of the Department of Geology in September when it is relinquished by Prof. W. N. Furnish, who will continue his teaching activities in the department; and

Prof. Henry B. Bull, head of the Department of Biochemistry, who will become research professor and acting head of the department effective July 1.

Twelve associate professors were promoted to professorships and 28 assistant professors were named associate professors in the SUI Colleges of Business Administration, Denistry, Education, Liberal Arts, Medicine and Pharmacy. The promotions will take effect July 1.

Liberal arts faculty members named to professorship were Frederick P. Bargebuhr, religion; Harold P. Bechtoldt, psychology; Ruth Davis, romance languages; Frederick C. Ebbs, music; Fred L. Fehling, German; Robert Vincent Hogg Jr., mathematics; William R. Irwin, English; Camille J. LeVois, romance languages, and Dororthy Sherman, speech pathology and audiology. Seymour Blaug and John Lach, were named professors of pharmacy. Paul Boeder, ophthalmology, was named a professor in medicine.

New associate professors in liberal arts for next year include George E. Brosseau Jr., zoology; John R. Ferrell, music; Brian F. Glenister, geology; Chu-tsing Li, art; Richard Lloyd-Jones, English; Dee W. Norton, psychology; Brian J. O'Brian, physics and astronomy; Ira L. Reiss, sociology and antropology; David G. Schaal, speech and dramatic art; Elmer A. Scholer, men's physical education; J. Richard Simon, psychology; Mildred Snider, social work; Norman E. Williams, zoology; Deil S. Wright, political science; and Robert L. Hopkins and Carl W. Stucki, air science.

Others promoted to associate professorships included Narenda P. Loomba and Clifford M. Baumback, business administration; Harold E. Clough and Arne M. Bjorndal, denistry; Charles E. Cooper, education; David P. Carew, pharmacy; and John Clancy, William E. Connor, Robert D. Gauchat, Albert S. Norris, David M. Sensenig and Harold P. Schedl, medicine.

The Regents also approved applications to two federal agencies for three construction and equipment grants.

For use in the new Physics-Mathematics Building, the University has applied to the National Aeronautics and Space Administration for a grant of $610,000, and to the National Science Foundation for $750,000. To help in constructing a new addition to the Zoology Building, SUI is seeking $352,113 from the National Science Foundation.

POSTHUMOUS DEGREE

An SUI coed killed in an April 16 auto accident will receive a posthumous degree from SUI. The State Board of Regents Friday approved the degree for Eleanor A. Firzlaff, Dubuque.

Miss Firzlaff was a speech pathology major and a senior student in good stand.

She died as a result of injuries received when the car in which she was riding went out of control and crashed into a tree in Iowa City.

SUI Student Helps Develop 'Revolutionary' Radio Devices

By JOE GEHRINGER
Staff Writer

Advanced Research, Inc., a newly formed Iowa City firm in the field of electronic instrumentation, Friday announced the development of devices they predicted could lead to a revolution of the communications industry.

One of the devices will aid in measuring the fallout protection afforded by any building, officers of the firm said.

The first development, a variable frequency super-accurate oscillator, will make it possible to expand the number of radio and television stations almost indefinitely, Chris M. Brueck, an SUI graduate student in electrical enginering and president of the firm, asserted:

Brueck explained that the oscillator can operate on and hold a narrower band than those now in operation.

"I feel this is more important than the invention of the transistor," Brueck stated.

The significance of the invention, he said, is that it will reduce the size of radio and television transmitters by one-half.

It will also permit the expansion of the number of television channels and improve reception, he said.

He added that it could be used in international communication and in the control and communication with rockets and space vehicles.

Brueck said the oscillator is based on a new theory he and Duane W. Pogge, an ex-SUIowan in electrical engineering developed.

The basis of the theory is that it will permit more "lines" to be broadcast on the television screen and will narrow the radio broadcast band, permitting more amplification of the sound to overcome noises produced simultaneously at the same frequency, Brueck stated.

Brueck said the oscillator had an accuracy of 100,000 to 1, while the best commercial machines have accuracy rating of plus or minus ten per cent.

Brueck added he and Pogge are working on a machine which will have an accuracy rating of 500,000 to 1.

Brueck said he developed his fallout calculator after checking with government regulations on fall-out.

He said he found them to be inaccurate and developed a formula permitting the evaluation of the safety factor of a building by graphs and a few simple mathematical functions.

The purpose of the caluculator is to determine the relative safety of any building compared to the safety factor a person would have in the open during an atomic attack.

The calculator also has graphs to determine the materials that can be used in the construction of a shelter to receive maximum protection at the lowest possible cost.

Brueck said he had distributed copies of the calculator to Johnson County Civil Defense officials.

He added that George McCarthy in the Office of Civil Defense, Washington, D.C., had expressed interest and that a representative of that office might be here May 22 to discuss it.

Paul E. Vermillion, vice president and executive director, said the firm was established March 27.

Brueck said he served as a naval aviator during World War II.

He added that he had an offer from the Army missile center at Huntsville, Ala., but declined it to work on the oscillator.

The fourth member of the firm is William H. Barkley, Iowa City attorney, who serves as attorney and executive director.

The News In Brief

(Combined from Leased Wires)

● **BERLIN** — The Soviets initiated new consultations with the United States designed to restore unrestricted travel by Soviet and American military missions between the city's East and West zones, informed sources reported.

* * *

● **WASHINGTON** — Alarmed by Communist advances in Laos, the Kennedy Administration is considering more forceful action there, possibly even the dispatch of U.S. troops if all else fails, it was disclosed Friday.

Chinese Communist Premier Chou En-lai pledged "resolute support" for the Laotian rebels and warned the United States against its activities in Southeastern Asia.

* * *

● **MEXICO CITY** — A strong earthquake rocked Mexico City and a vast southern region of seven states. Unconfirmed reports said a new volcano was forming north of Acapulco.

* * *

● **SAIGON** — U.S. Defense Secretary Robert S. McNamara said Viet Cong guerrillas definitely are getting men and weapons for Communist North Viet Nam. He pledged a "continued flow of support" from the United States to help South Viet Nam defeat them.

* * *

● **ALGIERS** — French authorities announced they are expelling scores of Europeans from Algeria in a move to crush the Secret Army Organization. But the 1962 terrorism death toll jumped over the 5,000 mark during the day.

* * *

● **LISBON,** Portugal — Security police carted 1,000 Lisbon University students off to jails Friday but failed to smash a student strike which has been plaguing Premier Antonio de Oliviera Salazar's Government and the university authorities of Portugal.

* * *

● **WASHINGTON** — The White House Friday handed Walter Dowling, U.S. Ambassador to Bonn, the difficult job of trying to swing West German Chancellor Konrad Adenauer behind the administration's Berlin policy.

The White House said Dowling would confer in Bonn Monday with Adenauer.

Winner by a Trunk—

Elephant Hits Victory Trail

FULLERTON, Calif. (UPI)—The first intercollegiate elephant race anyone was willing to admit to record was staged Friday in appropriate disorder on an oat field surrounded by goggle-eyed spectators, students and a mass of cameramen.

What started as a joke with formation of the "Orange County State Elephant Racing Club" mushroomed into a 15-elephant championship competition divided into three classes.

The Orange County State campus — which handled "2,000 people at an open house a couple of years ago" as its biggest previous crowd — anticipated more than 10,000 spectators for the Dumbo Derby.

It didn't matter that none of the schools entered, including Harvard and Cal Tech, had an elephant. In Southern California, there turned out to be a number available for rental, and Pacific Ocean Park loaned one a pink elephant named "Popsy."

Dean Ernest A. Becker said the latest addiiton to the spring tradition of pantie raids, telephone booth derbies and swallowing gold fish started with a "non-existent elephant in a non-existent race."

The Coast Guard Academy backed down when its entry was accepted, but other schools were quick to get into the act — and resultant publicity.

The elephant race attracted a deluge of newspaper, magazine, radio and television representatives who were on hand several hours before the first event — many to make sure there was indeed to be an elephant race.

Fullerton police were present to guard against any incidents. Sponsors also made it clear they would permit use of the elephants only with complete guidance from trainers.

That meant that only elephants used to having riders were allowed "jockeys." Others were led through the 100-yard dash, and a variety of obstacle events.

Harvard and Cal Tech were joined by elephants representing the Universities of Washington, Southern California and Nevada, Santa Monica City College — which sent along its marching band — Santa Ana College, neighboring two-year Orange Coast College, Northrop Institute of Technology, Long Beach State, Fullerton Junior College, Chapman College, California State Polytechnic of Pomona, California Lutheran College and Orange State.

Report Very Well Received By Industry

$1.3 Billion Savings Could Be Realized By Business: Fowler

HOT SPRINGS, Va. (AP) — Steelmaker Roger M. Blough said Friday the Kennedy Administration's reform of industry's tax writeoffs is a very important step toward restoration of business confidence and betterment of Government-business relations.

Blough, who as chairman of U.S. Steel Corp. was President Kennedy's chief antagonist in the steel price controversy a month ago, spoke as chairman of the Business Council — the top-rung organization of big businessmen.

Blough's conciliatory words came after a Treasury Department spokesman told the council that a significant liberalization of the tax writeoffs will be issued late next month or in July.

Undersecretary of the Treasury Henry H. Fowler told reporters after a closed session with the industrialists that the depreciation change could mean as much as $1.25 billion in tax saving to all businesses for this year. The investment tax credit pending in Congress could, if enacted, bring another $1.4 billion in benefits, Fowler said.

Blough said Fowler's report was very well received by the 100-corporation chiefs holding their spring meeting here.

Further evidence of improved relations between Big Steel and the White House came with an announcement by Blough that Kennedy has asked the council, through Blough, to organize a committee to assist the Government in dealing with the balance-of-payments deficit.

Corporation chiefs from five industries — auto, farm machinery, home appliances, construction and shipping — presented brief reports of the business outlook in their industries at the closed meeting, and Blough said all were favorable.

But G. Keith Funston, president of the New York Stock Exchange, said the stock market is in a desperately tragic situation. The market has been declining for four months and has skidded badly in the past week.

Secretary of the Treasury Douglas Dillion sent word to the spring meeting of the Business Council, an organization of major industrialists, that the new rules will be ordered into effect within the next two months, and will apply to the current tax year.

Fowler took Dillion's place when the secretary was detained in Washington by congressional hearings on the Administration's new tax bill. The undersecretary left no doubt that the new depreciation writeoffs will go into effect regardless of what happens to the tax bill, which includes a tax credit for modernization investments.

The assurances were laid before the 100 industrialists in an obvious Administration effort to improve relations with business in the wake of the steel price row, and to dispel talk that the Kennedy Administration is anti-business.

Under the revised rules, companies will be able to take bigger annual deductions for the cost of new machinery and equipment.

High Official Resigns Post After Taking 'Gift' from Estes

WASHINGTON (AP) — Asst. Secretary of Labor Jerry R. Holleman resigned his $20,000-a-year post Friday night, saying he accepted a $1,000 gift from indicted Texas financier Billie Sol Estes to help make ends meet.

Holleman said in a letter to President Kennedy that Estes has been a close personal friend for 10 years.

"Last January in the course of a personal conversation with Mr. Estes, I referred to the difficulties I have been having in meeting my personal expenses on my government salary," Holleman said.

"He offered to help me out by a personal gifts. I accepted this gifts."

A federal grand jury has indicted Estes, 37, for fraud in connection with chattel mortgages he was charged with selling on nonexistent fertilizer tanks.

Senate investigators hope to launch within a month public hearings on Estes and his dealings with Government officials. The Senate Investigations sub-committee, headed by Sen. John L. McClellan, (D-Ark.), seeks to learn whether influence in Washington helped Estes run up a fortune under the Governments farm program.

Secretary of Labor Arthur J. Goldberg accepted the resignation and said Holleman had done the right thing in quitting.

"It is regrettable that this has happened," Goldberg said. "Under the circumstances, Mr. Holleman has taken the proper course of action."

2 Nuclear Shots Exploded by U.S.

WASHINGTON (UPI) — The United States Friday exploded two nuclear shots in the Pacific — one dropped from an airplane and one underwater.

The detonations were the eighth and ninth of the Pacific series that started April 25. They were announced in joint statements by the Atomic Energy Commission and the Defense Department.

The underwater explosion was set off about 2 p.m. CST "in the eastern Pacific Ocean several hun- area," the statement said. A spokesman would not elaborate further on the location.

The earlier plane-dropped device meaning it had the force of about 100,000 tons of TNT.

Like the first seven shots in the series, it was touched off near British-owned Christmas Island.

Horse Show Scheduled

The Rapid Creek Pony Club Horse Show will be held this Saturday and Sunday at the Wind Reach Farm located four miles north of Iowa City on Prairie Du Chien Road.

The events scheduled for each day will begin at 10 a.m. and continue throughout the day.

S. W. McAllister Plans To Leave

S. W. McAllister, administrative assistant to the city manager here for five years, leaves Iowa City in 30 days to become city manager of Moberly, Mo. He was named to the post Thursday.

Iowa City's City Manager, Peter F. Roan, has resigned effective May 15, to become city manager of Schenectady, N.Y.

McAllister, 29, became administrative assistant to Roan in June, 1957. He received a M.A. in public administration from SUI in 1958.

Moberly, located in north central Missouri, has a population of 13,000. McAllister will be the city's fourth city manager since 1944, when it adopted the manager plan.

His salary will be $9,600 a year, which is $2,100 more than he now receives.

Choregi Presents Picasso, Sitwell Readings Sunday

The poetry of Edith Sitwell and Pablo Picasso's only play will be presented as part of Choregi's sixth cultural event of the semester in the mezzinine of the Main Art Gallery Sunday afternoon at 5.

The program, divided into two sections, will be devoted to the reading and choreography of Edith Sitwell's "Facade" and a reading of Pablo Picasso's "Desire Caught by the Tail."

Admission to the event is free, though the presentations are sponsored by individual contributions at the door.

The first portion of the program will be read by Robert Bonnard, G, New York City, and danced by Marcia Thayer, G, Coralville. The reading, which includes no musical accompaniment but the reading voice, is choreographed by Miss Thayer.

The second half of the Choregi presentation will feature a reading of Pablo Picasso's six-act play, "Desire Caught by the Tail." The drama is directed by Peter Arnott, associate professor of classics.

According to Arnott, it is "simply a nonsense play, but has been performed as a serious work in Paris."

UNION BOARD MOVIE

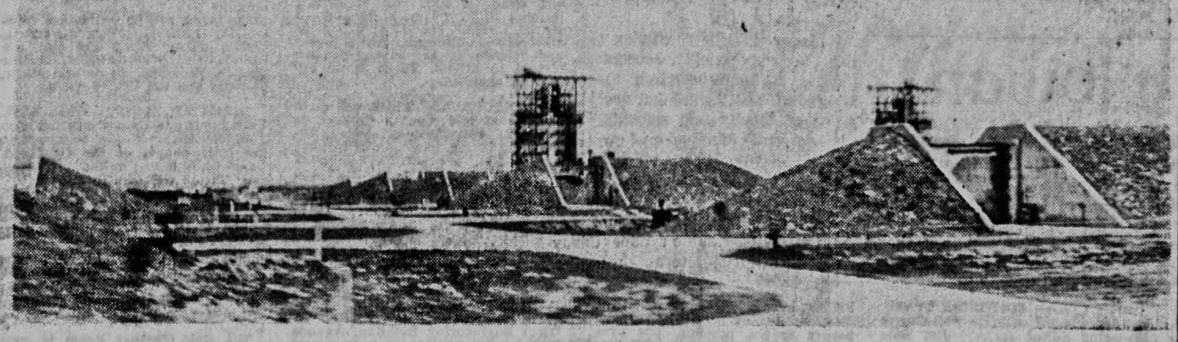
"Kismet," starring Howard Keel and Ann Blyth, will be shown Sunday at 7:30 in Macbride Auditorium.

The Union Board-sponsored movie is free to the public.

Cape Canaveral - No Glamour Spot

By PHIL CURRIE
Daily Iowan Editor

(EDITOR'S NOTE: The facts and information for this story were obtained during Currie's recent two-day tour of Patrick Air Force Base and the Cape Canaveral testing center. The Daily Iowan wishes to thank the Air Force and United Press International for making his trip possible.)



You Can Bet It Isn't Fort Lauderdale!

This much publicized Florida activity spot resembles a barren Texas oil field much more than any Midwesterner's concept of Florida, according to Daily Iowan Editor Phil Currie who recently visited Patrick Air Force Base and the Cape Canaveral testing center. Shown is the vast emptiness of the landscape at Cape Canaveral.

CURRIE

The glamour spot of America, the scientist's dreamland, the reporter's most hoped-for assignment — that's the usual view of Cape Canaveral, the most famous location in the nation since the house where George Washington slept.

"Cape Canaveral" brings to mind a sleek missile poised on a launch pad some few feet in area. It brings to mind a small, orderly location, neatly arranged for history-making shots around the earth — with either man or instruments piloting. It is thought of as the ideal military base, dotted with palm trees, circled by white, sandy beaches and caressed by sweet moonlit nights.

Just for a minute, however, picture an area of Texas scrubland with tangled bunches of something-or-other sprouting from the brown, barren land. Add to that view some oil-derrick structures looming up along the skyline. Finally, drop into that scene a few buildings resembling overgrown, overstuffed concrete igloos.

Change the name from "oil derrick" to "gantry." Call the concrete igloos "blockhouses." Now you've got a fair idea of what the "glamour spot" of the Aif Force looks like.

Disappointing as it may seem, Cape Canaveral isn't even an "independent" spot. It's simply an annex — the Air Force Missile Test Center annex to be exact. Patrick Air Force Base, some 15 miles south of the Cape, is the management headquarters for a 9,000-mile Atlantic Missile Range; Canaveral is only the starting point for that range.

But annex or no, Canaveral is no small potatoes. It has outstanding statistics of its own.

Thought by many to be an area about an acre in size and fitted with two or three launching pads (none as big as the base of Old Capitol), instead, Canaveral is composed of some 17,000 acres, or approximately 25 square miles. The Government plans to expand the testing ground to 90,000 acres within the next few years.

The territory is dotten with launching complexes, two press sites, and a multitude of hangers and other equipment buildings.

Cape Canaveral—
(Continued on Page 3)

Erbe Proposes Plan To Double Pensions

DES MOINES (UPI) — Gov. Norman A. Erbe Friday proposed a plan which would double the pensions of persons receiving benefits from the Iowa Public Employes Retirement System.

The Governor, in a statement released by his office, also suggested that $17 million now drawing interest for the fund be transferred to a current account to shore up the retirement system.

In a memorandum to the Legislature, Erbe proposed wider use of "quit" funds, money which is paid in by an employer for an employe who has left the job. An employe can get a refund, plus 2 per cent interest, of the money he has paid in, but the employer's contribution remains in the "quit" fund.

Editorial Page —

A Change Needed in Library Magazine Rule

The University Library, as libraries go, has relatively few exasperating rules, but among the rules it does have, one definitely needs to be changed.

The rule is that when a person is through using periodicals, he is to leave them on a table and not return them to the shelves.

The reasoning behind the rule is that if students are required to return the periodicals, they will put them in the wrong place and other students will be unable to find them for weeks (not just days).

This fear might be applicable to junior high students, but shouldn't be applied to college students. Certainly they are capable of replacing the periodicals where they find them.

One advantage to having students replace the books is that the library staff would have a lot less work. Currently, every morning and periodically during the day, library employes must go around to the tables in the magazine area, pile the magazines on their carts, and haul them back to the proper shelves. No doubt there would be a need for some picking up of books, even if students were asked to replace them, but the library employes work would be much less.

The basic reason for the change, however, would not be to ease the library staff's load. That would only be a secondary effect.

The most obvious and important need for the change is that availability of periodicals is almost NIL at the library now. Students must spend much of their time wandering from table to table in search of the periodicals they need. Generally it is a losing effort. The problem is further complicated because students needing three or four periodicals grab them all at once, knowing otherwise that while they get information from one magazine, another they need might be removed from the shelf, never to be found the remainder of the day.

To solve these problems, the rules covering the replacement of periodicals should be changed. When students are through with the periodicals, instead of placing them on the tables, they should be required to put them back on the shelves.

Library employes, formerly busy picking up the books, could run an occasional spot check of the shelves to find any periodicals that might have been misfiled. It would be a simple matter to put them back in their proper place.

This simple alteration in the present policy would make things easier for library employes and definitely easier for the students.

Library officials may fear that students wouldn't cooperate in the re-shelving of periodicals. We think they would, and we think any student who has ever spent half a night searching for periodicals would agree.

—Phil Currie

Sociability at Its Best

A good neighbor is the fellow who when asked by a neighbor's boy if daddy can borrow a corkscrew says:

"Run along home and tell your dad I'll be right over with it."

—Fairfield Ledger

'We've Flunked Out in Math Already'

Letters to the Editor—

Another View on Bias Action

To the Editor:

Before attending the forum on housing discrimination, I had an intuitive belief that the University Administration contained members who were racial bigots.

After listening to the remarks of Dean Huit, Dean McCarrel and James Rhatigan, off-campus housing advisor, I am convinced that my previous belief betrayed an inclination toward romantic intrigue. These men are not part of a conspiracy; they are men secure in academic sinecures who wish to avoid trouble.

Rather than ogres, they are cowards; perhaps no more cowardly than the rest of us, but unfortunately in a position where their cowardice can do much harm.

The fact that the subject was discrimination, I believe, was irrelevant to their behavior at the forum. If the issue had been corruption in athletics or exploitation of students by local businessmen, these men would have been just as evasive and wishy-washy.

Dean McCarrel best summed up this attitude when he said that this was a "conservative state" and that the University had to please many interests.

Dean Huit seems to like to see the problem complicated, perhaps because it is an excuse for not acting.

The method is to subtly pass the buck, or, preferred if possible, ignore it. If a decision must be made, it is easier to back the vested interest than the transitory student. It is easier to side with Delta Chi (with national offices directly across from Old Capitol) than a man who will graduate in two years.

In their expediency these men are not unique. They possess common intelligence and common fears. Well enough must be left alone.

To obtain their goals, students must create a pressure group more severe than the forces of status quo. They must make it uncomfortable and embarrassing for the Administration to side against their interests. They must block the escape of least resistance.

Walter M. Cummins, G
334 South Park

Asks Who Are The Besmirchers?

To the Editor:

Who are the besmirchers?

The issue in the Delta Chi case is not whether in fact "internal factors rather than external pressures" accounted for the depledging of Negro Hankins.

Two facts are clear.

First. National fraternity officers and persons outside the SUI chapter of Delta Chi did actively and blatantly attempt to bring about the depledging of Negro Hankins.

Second. No quick clear, public action was taken, or, indeed, has yet been taken, by SUI President Hancher or by any who administer SUI policy, to castigate the reprehensible off-campus attempts to control the membership of the SUI chapter of Delta Chi.

However fine the reputation of this University on other accounts, these two facts besmirch that reputation. That "small but vocal group of faculty and students," who demonstratively deplore these two facts, serve to retrieve, protect and glorify the reputation of this University.

Anthony Costantino
Associate Professor
Money and Banking

Or So They Say

And as one man said: Business is always interfering with pleasure, but it makes other pleasure possible.

—Hillsboro (Kan.) Star

Tells of Riot Experiences In Japan

To the Editor:

I would like to add my endorsement to Tokiko Fukao's May 4 editorial concerning the recent anti-U.S. testing riots staged by students in Japan.

While serving with the U.S. Navy, I was in and out of Japan fairly regularly between Jan., 1959, and Feb., 1961. During this period I came into contact with the socialist Zengakuren Federation and with many Japanese people. I witnessed several student demonstrations in Yokohama prior to June, 1960, when I was caught up in the middle of a large and rather violent riot in Tokyo. This incident occurred only a few days before President Eisenhower's projected visit to Japan, which was called off because of the rioting.

Letters Policy

Readers are invited to express opinions in letters to the Editor. All letters must include handwritten signatures and addresses, should be typewritten and double-spaced and should not exceed a maximum of 375 words. We reserve the right to shorten letters.

Zengakuren demonstrations are usually publicized in advance and American servicemen and their dependents are restricted to their homes or bases. Most prudent American and European civilians also stay out of public. On this particular occasion, our ship had docked in Yokohama and three buddies and myself had hurriedly disembarked, changed to civilian clothes, and boarded a train to Tokyo before word was relayed to the ship that Tokyo was off-limits for the day.

Our first stop in Tokyo was the Chase-Manhattan Bank. A friend, who is a vice president of the bank, informed us of the demonstration scheduled for the day. The protests were aimed at the U.S.-Japan Security Treaty, President Eisenhower's planned visit, and the general policies of the incumbent Prime Minister Kishi. Among other things, the demonstrators intended to storm Kishi's home.

We shrugged off the warnings and proceeded with our plans. However, we grew somewhat apprehensive after noticing that there were virtually no Americans or Europeans on the streets. During the afternoon we experienced repeated difficulty in securing taxi cabs. A friendly driver explained that other drivers feared the Zengakuren spotting us in their cabs.

Before this driver had reached our destination, we were spotted by a truck-load of young demonstrators. They pursued and overtook our cab. Before we could get out, they had tipped the car over. We were dragged from the cab, but managed to fight loose and escape amid a shower of shouts and stones.

Let me stress that this sort of action is not condoned by the majority of the Japanese people. They respect and admire the United States and realize that two nations must remain banded together for mutual protection.

Unfortunately, the mud-slinging Zengakuren Federation is able to arouse a few young students and workers through their skillfully employed rabble-rousing type of propaganda. Young people the world-over are eager to crusade for causes and to change the world over night. Witness student activities on our own campus.

The Zengakuren capitalize on this inherent trait of youth and sows its seeds of hate and violence among the more impetuous of the university students. It is sad that this small mis-guided minority should give Americans and the rest of the world such a poor representation of the ideas and practices of the Japanese people.

Incorrect Identification

To the Editor:

Corrections please!

A recent article in The Daily Iowan incorrectly identifies me as a "Southern white." I am a Negro. The article gives my name as "Wendy." It is Wendolyn Further, it is reported that I could see no moral issue involved in the "Free Rides." In answer to the question posed by the reporter on this point I emphatically answered, "I most certainly do!"

I sincerely hope that this example of inexact reporting in The Daily Iowan is an exception.

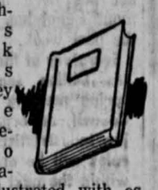
Wendolyn Y. Bell, G
510 Iowa Ave.

(Editor's Note: The interview referred to, as noted in the original story, was obtained through a telephone conversation. This was the reason for the faulty identification.)

Books — In the Browsing Room

New books in the Browsing Room include:

"The Epic of Man" by editors of Life in consultation with more than 125 authorities in anthropology and archaeology. This large book chronicles man's journey through the darkness of prehistoric past to the first civilizations. It is illustrated with especially commissioned paintings, color photographs and maps.



* * *

"Swiss Schools and Ours: Why Theirs Are Better" by Admiral H. G. Rickover. A no-holds-barred study of education in Switzerland and how lessons learned there can be applied in the American system.

* * *

"The Dawn of Civilization" edited by Stuart Piggott. Written by 14 leading archaeologists, this book is the first world survey of human cultures in early times. It describes the birth of civilization in each region of the world using illustrations and maps with the text.

* * *

"The Devil's Advocate" by Dore Schary. A dramatization of Morris L. West's novel, the play tells of a quiet British monsignor dying of cancer, chosen by the Vatican to conduct an official investigation of a sainthood claim. The monsignor's claim of ecclesiastical existence is shattered by the lives of those he encounters in a small Italian town.

* * *

"Foreign Soil" by Robin White. Fourteen tales of South India that set attitudes and concepts of Western man against a foreignness that casts them into sharp relief.

University Bulletin Board

University Bulletin Board notices must be received at The Daily Iowan office, Room 201, Communications Center, by noon of the day before publication. They must be typed and signed by an adviser or officer of the organization being publicized. Purely social functions are not eligible for this section.

PHYSICS COLLOQUIUM will be held at 4 p.m., May 15, in 311 Physics Building. Prof. J. W. Nelson of Florida State University will speak on "Neutron Threshold Measurements with a Tandem Van de Graaff."

ALL LOCKERS in the Field House must be checked in before June 6. Lockers not checked in after this date will have locks removed and contents destroyed.

HERKY APPLICATIONS must be filed at the New Information Desk in the Union by 5 p.m., May 12. Applications for playing the part of the SUI mascot may be obtained at the same desk. Applicants must be between 6'1" and 6'3" tall.

SENIOR HAWKEYE PICTURES will not be taken for the remainder of the semester. They will again be taken beginning in October by Photographic Service. Notices of actual dates will be published in the future.

THE DEPARTMENT OF SPEECH and Dramatic Arts will present a Russian film, "The Childhood of Maxim Gorky," May 15 at 8 p.m. in Macbride Auditorium. All students and friends of the University are invited to attend. There is no admission charge.

ANTHROPOLOGY CLUB will meet May 15 at 7:30 p.m. in Conference Room 2, Iowa Memorial Union. Dr. Hsin-Pao Chang, professor of history, will be guest speaker. He will speak on "The Archaeology of China." The public is invited.

PARENTS' COOPERATIVE Babysitting League is in the charge of Mrs. Ray Larson through May 14. Call 8-8922 for a sitter. For information about league membership, call Mrs. John Uzodinma at 8-7331.

SUI AMATEUR RADIO CLUB will meet May 15 at 7 p.m. in 108 Electrical Engineering Building. Agenda includes transmitter discussion and summer operation. It is important that all members attend.

INTERNATIONAL CENTER presents a Sunday Supper featuring the food of Pakistan May 13 at 6 p.m. Tickets are $1 and are available at the Office of Student Affairs Wednesday through Friday at 4 p.m.

BETA GAMMA SIGMA, national scholastic honor society in business administration will hold its initiation ceremony May 16 at 5 p.m. in the Senate Chamber of Old Capitol. The banquet will follow at 6:30 p.m. at Bill Zuber's Dugout in Homestead.

FIELD HOUSE PLAYNIGHTS for students, faculty and staff are held each Tuesday and Friday night from 7:30 to 9:30 p.m. Admission is by I.D. or staff card.

INTER VARSITY CHRISTIAN FELLOWSHIP will meet every Tuesday evening through May 22 in the East Lobby Conference Room of the Iowa Memorial Union. Various topics of discussion will be offered. Everyone is welcome.

CHOREGI will present the Reading Dance of Edith Sitwell Facade by Marcia Thayer, instructor in physical education, May 13 at 5 p.m. in the main gallery of the Art Building. Picasso's "Desire Caught By the Tail," directed by Peter Arnott will also be presented.

RECREATIONAL SWIMMING for all women students is held Monday, Wednesday, Thursday and Friday from 4:15 to 5:15 p.m. at the Women's Gymnasium.

PH.D. FRENCH EXAM will be given May 18 from 3:30 to 5:30 p.m. in 309 Schaeffer Hall. Persons planning to take the exam should sign up on the bulletin board outside 307 Schaeffer Hall.

SUI OBSERVATORY atop the Physics Building is open to the public every Monday from 8 to 10 p.m. when skies are clear. It is also open to private groups Friday evening by making reservations with Prof. Satoshi Matsushima, x4485, 318 Physics Building.

The moon will be visible for viewing May 11 and 14, and June 8 and 11. Visible during April and May are Uranus, the Orion Nebula, Double Cluster, Proesepe, Alcor and Misar, Pleiades and the Crab Nebula.

CHRISTIAN SCIENCE ORGANIZATION holds a testimony meeting each Thursday afternoon at 5:15 p.m. in the little chapel of the Congregational Church, at Clinton and Jefferson. All are welcome to attend.

ALL MUSIC MAJORS planning to enroll for student teaching for the 1962-63 school year are to attend the meeting in the Music Education Building, 323 N. Capitol St., at 7 p.m., May 16.

IOWA MEMORIAL UNION HOURS: Friday and Saturday — 7 a.m. to midnight.

The Gold Feather Room is open from 7 a.m. to 11:15 p.m. on Sunday through Thursday, and from 7 a.m. to 11:45 p.m. on Friday and Saturday.

The Cafeteria is open from 11:30 a.m. to 1 p.m. for lunch and from 5 p.m. to 6:45 p.m. for dinner. No breakfasts are served and dinner is not served on Saturday and Sunday.

UNIVERSITY LIBRARY HOURS: Monday through Friday — 7:30 a.m. to 2 a.m.; Saturday — 7:30 a.m. to 10 p.m.; Sunday — 1:30 p.m. to 2 a.m. Desk Service: Monday through Thursday — 8 a.m. to 10 p.m.; Friday — 8 a.m. to 5 p.m. and 7 to 10 p.m.; Saturday — 8 a.m. to 5 p.m.; Sunday — 2 p.m. to 5 p.m.

Reserve Desk: Same as regular desk service except for Friday, Saturday and Sunday, it is also open from 7 to 10 p.m.

PERSONS DESIRING BABYSITTING service may call the YWCA office, x2240 between 1 and 5 p.m. The YWCA can provide babysitters for afternoons and evenings and in some cases all day Saturday and Sunday.

Where Will You Worship?

AGUDAS ACHIM CONGREGATION
Aguda Achim Synagogue
603 E. Washington St.
Rabbi Sheldon Edwards
Friday Service, 8 p.m.
Sabbath Worship, Saturday, 9 a.m.

ASSEMBLY OF GOD
1330 Keokuk Street
The Rev. George W. Mullen, Pastor
10 a.m. Sunday School
Morning Worship, 11 a.m.
7 p.m. Youth Meeting
Evangelistic Service, 7:45 p.m.

BETHANY BAPTIST CHURCH
B St. & Fifth Ave., Iowa City
Rev. Frank Doten, Pastor
1024 E. Burlington
Sunday, 9:45 a.m., Sunday School
10:45 a.m., Morning Worship
7 p.m. Evening Worship
8:15 p.m. University Youth Fellowship

BETHEL AFRICAN METHODIST CHURCH
411 S. Governor St.
The Rev. Fred L. Penny, Pastor
10 a.m., Sunday School

CHRISTIAN REFORMED CHURCH
Conference Room No. 1
Iowa Memorial Union
Rev. Robert J. Palma
10 a.m., Morning Worship
Sermon: Honor Father and Mother
7 p.m. Worship,
Sermon: Stephen: Marytyr in Prayer

THE CHURCH OF CHRIST
1318 Kirkwood
Bill Mackey and Bill Humble
Joint Ministers
9 a.m., Bible Study
10 a.m., Worship
7 p.m., Evening Worship

CHURCH OF JESUS CHRIST OF LATTER-DAY SAINTS
910 E. Fairchild St.
9 a.m., Priesthood
10:30 a.m., Sunday School
6 p.m., Sacrament Meeting

CHURCH OF THE NAZARENE
1035 Wade St.
The Rev. Harold L. Keeney, Pastor
9:45 a.m., Sunday School
10:45 a.m., Worship

THE CONGREGATIONAL CHURCH
Clinton & Jefferson Streets
10:45 a.m., Church School
10:45 a.m., Morning Worship
5:00 p.m., Student Fellowship
6:30 p.m., Pilgrim Fellowship

EVANGELICAL FREE CHURCH OF CORALVILLE
The Rev. W. Robert Culbertson, Pastor
9:45 a.m., Sunday School
11 a.m., Morning Worship
Sermon: "One Foundation"
7 p.m., Evening Service.
Sermon: "He Hath Chosen"
8:15 p.m., Youth Fellowship

FAITH UNITED CHURCH
(Evangelical and Reformed)
1807 Kirkwood Avenue
E. Eugene Wetzell, Minister
9:15 a.m., Sunday School
10:30 a.m., Morning Worship

FIRST BAPTIST CHURCH
North Clinton & Fairchild Streets
Rev. George A. Graham
8:30, 11 a.m. Worship Service.
Sermon: "The Tie That Binds"
9:45 a.m., Church School

FIRST CHRISTIAN CHURCH
217 E. Iowa Ave.
Spencer M. Adamson, Minister
Sally A. Smith,
Minister of Education
9:15 a.m., Church School
10:30 a.m., Worship

FIRST CHURCH OF CHRIST, SCIENTIST
722 E. College St.
11 a.m., Sunday School
11 a.m., Lesson Sermon:
"Adam and Fallen Man."

FIRST ENGLISH LUTHERAN CHURCH
(Meeting at the Englert Theatre)
Rev. Roy Wingate, Pastor
Rev. Carl Berhenke,
Associate Pastor
9 and 11 a.m., Services
10 a.m., Sunday School

FIRST PRESBYTERIAN CHURCH
26 E. Market St.
Dr. P. Hewison Pollock, Minister
The Rev. Jerome J. Leska,
University Pastor
9:30, 11 a.m., Church School and Worship

FIRST METHODIST CHURCH
Jefferson & Dubuque Streets
Dr. L. L. Dunnington, Minister
9:30, 11 a.m., Church School Sessions
9:30, 11 a.m., Identical Worship Services
Sermon: "A Union for Mothers"

OUR REDEEMER LUTHERAN CHURCH
(Missouri Synod)
2301 E. Court St.
Rev. W. H. Nierman, Pastor
8:30, 10:45 a.m., Services
9:45 a.m., Sunday School and Bible Classes

FREE METHODIST CHAPEL
Muscatine & Third Ave.
The Rev. Gene Carroll, Pastor
10 a.m., Sunday School
11 a.m., Morning Worship
7:30 p.m., Evening Service

CHURCH OF CHRIST
Donald Barber, Pastor
Meeting in the 4-H Building
One Mile South on Highway 218
9 a.m., Morning Worship
10 a.m., Church School
6:30 p.m., Evening Service

FIRST UNITARIAN SOCIETY
Iowa Ave. & Gilbert St.
Khoren Arisian, Jr., Minister
10:30 a.m., Church Service
"The Peace Corps: More than War's Equivalent"

ST PATRICK'S CHURCH
224 E. Court St.
Rev. Richard Egan, Pastor
Rev. Harry Linnenbrink, Assistant
6:30, 8:15, 9:45, 11 and 12 a.m., Sunday Masses
6:45 and 8:15 a.m., Daily Masses

HILLEL FOUNDATION
122 East Market St.
7:30 p.m., Friday, Sabbath Services

GRACE UNITED MISSIONARY CHURCH
1854 Muscatine Ave.
Rev. Raymond G. Sahmel, Pastor
9:45 a.m., Sunday School
10:45 a.m., Worship Service
6:45 p.m., Youth Service
7:30 p.m., Evening Service

IOWA CITY BAPTIST CHAPEL
432 South Clinton
Cooperating with the Southern Baptist Convention
The Rev. Orlynn Evans, Pastor
9:30 a.m., Sunday School
10:30 a.m., Morning Worship
6 p.m., Training Union
7 p.m. Evening Worship

JEHOVAH'S WITNESSES
2120 H. St.
3 p.m. Public Address
"How Firm is your Faith"
4:15 p.m. Watchtower Study.
"Christian Conduct in a Divided Household"

MENNONITE CHURCH
614 Clark St.
The Rev. Wilbur Nachtigall, Pastor
9:45 a.m., Sunday School
10:45 a.m., Morning Worship
Sermon: "Peace Be Unto You"
7:30 p.m., Evening Service

REORGANIZED CHURCH OF JESUS CHRIST OF LATTER DAY SAINTS
221 Melrose Ave.
J. D. Anderson, Pastor
9:30 a.m., Church School
10:30 a.m. Morning Worship

SHARON EVANGELICAL UNITED BRETHREN CHURCH
Kalona
Rev. Howard H. Marty, Pastor
9:30 a.m., Sunday School
10:30 a.m., Divine Worship
7:30 p.m., Evening Service

ST. ANDREW PRESBYTERIAN CHURCH
Sunset & Melrose Ave.
University Heights
Rev. Hubert B. Brom, Pastor
9:30 a.m., Worship, Nursery, Church School — Adult Class, Jr. High Dept. and Grade 3 and under.
11 a.m. Worship, Nursery, Church School, 6th Grade and under.

ST. PAUL'S LUTHERAN CHAPEL
(Missouri Synod)
404 E. Jefferson
Rev. Walter Wenck
9 and 11 a.m., Divine Services
Holy Communion every second Sunday
10 a.m., Adult Bible Study and Sunday School

LUTHERAN CHURCH OF CHRIST THE KING
Christus House
North Dubuque & Church Streets
The Rev. Eugene K. Hanson, Pastor
9:15 a.m., Church School
10:30 a.m., Service with Sermon: "The Makings of a Mother"
Nursery

ST. MARK'S METHODIST CHURCH
124½ E. College
Meets at Odd Fellow's Hall
Robert E. Engel, Pastor
9:30 a.m. Worship Service—Nursery
10:45 a.m., Church School all ages.
6 p.m., Youth Fellowship

ST. THOMAS MORE CHAPEL
405 N. Riverside
Monsignor J. D. Conway, Pastor
8:30, 10, 11:30 a.m. and 5 p.m., Sunday Masses. The 10 a.m. Mass is a High Mass sung by the congregation.
6:30 and 7 a.m., 5 p.m., Daily Masses
Confessions on Saturday from 4-5:30 p.m.; 7-8:30 p.m.

ST. WENCESLAUS CHURCH
618 E. Davenport St.
The Rev. Edward W. Neuzil, Pastor
6:30, 8, 10 and 11:45 a.m. Sunday Masses
7 and 7:30 a.m., Daily Masses

THE UNITED CHURCH
1807 Lower Muscatine Rd.
E. Eugene Wetzel, Pastor
9:45 a.m., Sunday School
8:45 and 11 a.m., Morning Worship
7 p.m., Evening Worship

TRINITY EPISCOPAL CHURCH
320 E. College St.
The Reverend J. B. Jardine, Rector
The Rev. W. B. Klatt, Chaplain
8 a.m., Holy Communion
9:15 a.m., Family Service, Nursery, Church School, Adult Class
11 a.m., Morning Prayer, Nursery

ST. MARYS CHURCH
Jefferson & Linn Streets
Monsignor C. H. Meinberg, Pastor
6, 7:30, 9, 10:15 and 11:30 a.m., Sunday Masses
6:45 and 7:30 a.m., Daily Masses

ZION LUTHERAN CHURCH
Johnson & Bloomington Streets
8 and 10:30 a.m., Services
9:15 a.m., Sunday School
9:30 a.m., Adult Bible Class

OFFICIAL DAILY BULLETIN

University Calendar

Saturday, May 12

10 a.m. — Dr. Phillip F. D. Seitz, Institute of Psychoanalysis, Chicago, "Parental Behavior and Pathogenesis" — Psychopathic Hospital.

Noon — Track, Northwestern.

1:30 p.m. — Baseball, Wisconsin (doubleheader).

2 p.m. — Alumni-Varsity football game — Iowa Stadium.

Sunday, May 13

4:30 p.m. — Art Department Lecture: Professor H. W. Janson, New York University, "The Image of Man in Renaissance Art" — Art Building Auditorium

7 p.m. — Union Board Movie, "Kismet" — Macbride Auditorium.

Monday, May 14

Midwestern Society of Ora Surgeons Conference — Iowa Memorial Union.

8 p.m. — School of Religion lecture: Dr. John Bennett, Union Theological Seminary, New York City, "Christianity and Communism" — Shambaugh Auditorium.

8 p.m. — Art Department Open Forum: "Aesthetics of Photography" — Art Building Auditorium.

Wednesday, May 16

8 p.m. — Studio Theatre Production, "Passion for Apollo," original play by Robert Bonnard — Studio Theatre.

8 p.m. — SUI Symphony Band Concert, with Richard Franko Goldman, New York City, guest conductor — Union.

Thursday, May 17

78th Annual Governor's Day, ROTC Review.

8 p.m. — Studio Theatre Production, "Passion for Apollo," original play by Robert Bonnard — Studio Theatre.

Friday, May 18

8 p.m. — Studio Theatre Production, "Passion for Apollo," original play by Robert Bonnard — Studio Theatre.

Saturday, May 19

10:30 a.m. — Honors Convocation — Macbride Auditorium.

3 p.m. — Phi Beta Kappa Initiation — Senate and House Chambers, Old Capitol.

The Daily Iowan

The Daily Iowan is written and edited by students and is governed by a board of five student trustees elected by the student body and four trustees appointed by the president of the University. The Daily Iowan's editorial policy is not an expression of SUI administration policy or opinion, in any particular.

Missile Test Center ... Snakes, Sun, and Scientists

Cape Canaveral—
(Continued from Page 1)

Even with these, however, one can drive long distances on the Cape without seeing much but those tangled bunches of something-or-other mentioned earlier.

The Cape boasts the second largest structure in the state of Florida — the gantry for the gigantic Saturn rocket. It stands 350-plus feet high and is thought to be the tallest structure on wheels in the world. (Before a blast-off the gantry is moved away from the rocket. It is on tracks somewhat like a giant railroad car.) A trough-like concrete ditch that guides the rocket's fire away from the launching pad at blast-off is equipped with a diluge system capable of pumping 35,000 gallons of water per minute on that fire. It is the water which produces the clouds viewed at blast-off — actually steam created by the fire and water combination.

Canaveral's employment statistics are also massive. Some 22,000 persons work at Canaveral and Patrick Air Force Base. Of that total, only 3,500 or 17 per cent are military employes. The remainder are civil service personnel and employes of the various civilian firms engaged in building, supplying and working on the missiles and equipment.

To do its job, the missile test center operates a capital plant worth $1 billion, including the Air Force Base and the Atlantic Missile Range which begins at the Cape and extends into the Indian Ocean beyond the Cape of Good Hope.

Over 40 special instrumentation and cargo aircraft, and a flect of ocean range vessels, are used to support the Center's mission. Its operating costs exceed $230 million annually.

AS FAMOUS AS the Canaveral base is, few persons really realize its main purpose—that of acquiring flight information data on each test flight. The instrumentation at Canaveral and throughout the Atlantic Missile Range is designed so that at any given instant during a missile's flight, the performance of the missile can be determined.

Through the use of high-speed cameras, telemetry (a process in which small radio transmitters placed inside the missile send information to the ground receivers which record the data on magnetic tape), radar and other, more refined means of tracking the missiles, a mass of raw data is recorded during the flight. It is rushed to the Patrick center where raw data is fed through an automatic reduction process. In a matter of days, the end product of thousands of man-hours expended on a specific test is available.

FOR THE MEN WHO work at Cape Canaveral — either building missiles or reporting their flights — the most valuable personality ingredient is patience, patience, patience.

Canaveral scientists insist that no shot be made until they are certain every item on the missile is in top working order. As anxious as they are to get the bird off the ground, they are more concerned that it work right when it goes.

The ordinary TV viewer-scientist believes that it would be a relatively easy matter for experts to get that big hunk of machinery off the ground (particularly when the viewer has to get up at 5:30 a.m. to watch the shot), but considering the complexity of the missiles, the delays are understandable. A Thor missile, for example, has more than 300,000 separate parts making up its intestines and external structure. If any one of those parts malfunctions, the missile might never get off the ground.

Calculate, too, that the extra parts in the ground equipment — one piece of machinery, a washer, a fuel line or anything else — could malfunction, delaying the flight.

DELAYS ARE ROUTINE for the Canaveral scientists, yet disappointment comes as high for them as for the novice viewer hoping to see his first shot.

At the press site, two miles from ground zero, a group of men waited in the hot Florida sun for the blast-off of the mighty Centaur rocket — America's first rocket fueled with high-energy liquid hydrogen and eventually designed to provide the soft-lunar landing mission with enough thrust to reach the moon.

The blast-off had been delayed four hours already, but now the countdown was on.

At T-minus-60, another hold. From the blockhouse, Bart Slattery, National Aeronautics and Space Administration man relates the reason for the delay.

Fifteen minutes later — counting again.

Two more holds before the countdown narrows to the last 10 minutes. Tension mounts for the rookies and the veteran reporters.

T-minus-five . . . four . . . three . . . and then . . .

T-minus-2:35 and holding.

"This is Slattery in the blockhouse. The hold was called because of a ruptured disc in a line which prevented 100 per cent loading of the fuel into the missile. When the countdown resumes again, we will be at T-minus-60.

At the press site — groans. "They got to T-minus-30 seconds last week and then scrubbed the test for that day," a veteran observer reports. Another reporter, sitting on the wooden bleachers, pulls out a paperback version of "The Longest Day," an appropriate title for the occasion.

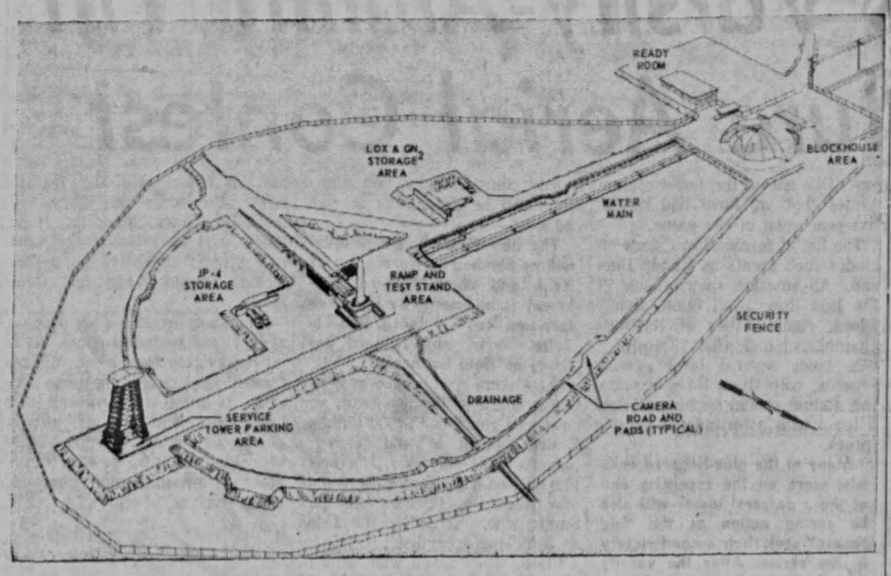
Another 45 minutes passes before the announcement — brisk and sudden. "This test is scrubbed." (Translation: it is canceled for the day.)

The reporters, who had remained on the bleachers for seven hours, called back a four-paragraph story to their papers or wire services, "The flight was postponed."

"The funny part," commented one reporter for a national magazine, "is my boss thinks this place is a country club. The other day one of the guards killed a six-foot long rattlesnake at one of the launching pads. I took a picture of it and sent it back to my boss—with the caption "Here at the country club."

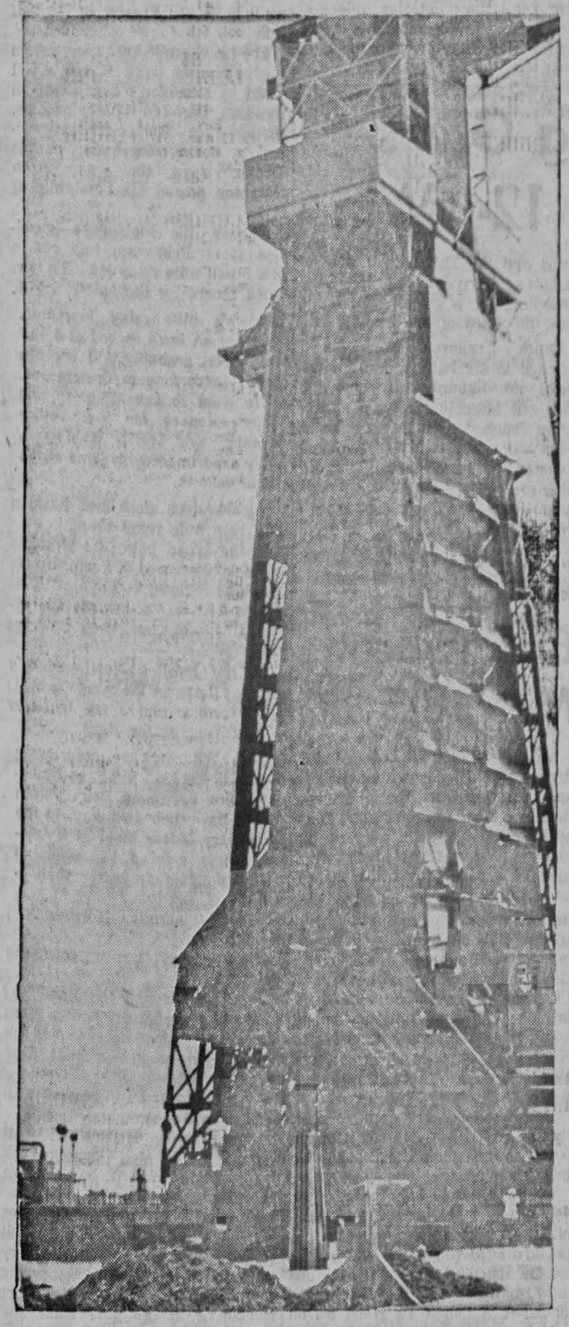
Canaveral is no country club — but it's a vast operation, larger in area than one expects and larger in aim than is often considered. At Canaveral a calmness prevails as each person works quickly but carefully, long and hard, and with utmost confidence. It's the same confidence that helped America regain the edge in circulating satellites sending vital space information back to earth; the same confidence that helped launch U.S. Astronaut Alan Shepard into suborbital flight; the same confidence that helped boost Astronaut John Glenn into his flight around the world; and the same confidence that now guides America's space program aimed at the moon and beyond.

Cape Canaveral is no country club. But as the headquarters for exploring the vast outer-reaches of space, Canaveral stands as the sight of the Free World's space hopes.



Canaveral Layout

An artist's drawing shows the layout of Cape Canaveral's "country club." This is the place where missiles and their space capsules containing instruments, monkeys and more recently humans, have been launched into the atmosphere.



Stairway to the Stars

Cape Canaveral construction workers ready a gantry tower for Astronaut Scott Carpenter's take off re-scheduled Friday for May 19. The gantrys, rolling away from the rocket before blast-off, resemble a giant railroad car on its tracks. The rolling towers, some of which stand 350-feet high, are believed to be the tallest structures on wheels in the world.

Waiting . . .

Reporters bided their time as they waited in the hot Florida sun for a rocket blast-off which was finally postponed. After seven hours the journalists smile knowingly at people who think of Cape Canaveral as a country club.

Space Flight Delayed Two More Days

CAPE CANAVERAL (UPI) — America's timetable for the orbital space flight of Astronaut Scott Carpenter was set back two days Friday until May 19 by the same problem that plagued the first flight — difficulty with the space capsule's control system.

The new delay put increasing pressure on the project since it threatened a scheduling conflict between the space shot and the high altitude nuclear tests America plans over the Pacific during June and July.

Shortly before the delay was announced the Air Force struck an encouraging note by sending its new push-button Minuteman ICBM missile on a flight to test a new telemetry system capable of sensing and producing at least twice as much information about the performance of rocket flights.

The shot was the first successful flight in five launchings with as many different missiles here this week.

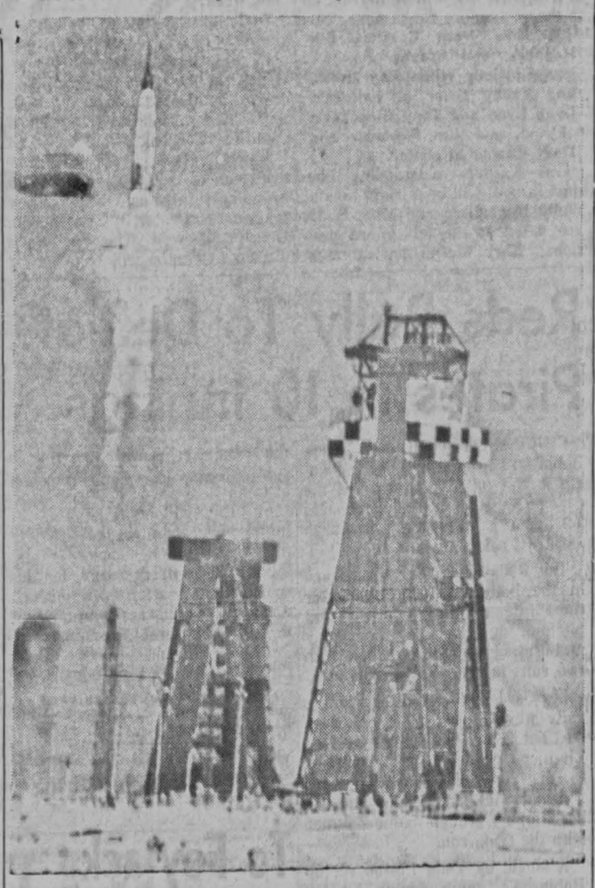
The orbital shot that is causing concern at this missile center originally was scheduled for May 15, but trouble with the Atlas booster rocket previously had pushed that schedule back two days. Sources said the control system problems would cause a delay of about two additional days — leaving the earliest possible launch date as May 19.

The first of the high altitude tests aren't expected to start until late June, however, so this still leaves scientists with a sizeable leeway.

It has been made clear that the space flight will have to take a back seat to the test in the Pacific after July 1.

Once the high altitude nuclear-tests started they will keep Carpenter grounded because the explosions will play havoc with radio and radar communications for hours, and perhaps days, after they occur.

John Glenn's first orbital flight demonstrated that good radio contact between ground control stations and orbiting space capsules can be a vital necessity. It was by radio that Glenn received his instructions on how to handle his re-entry into the earth's atmosphere after the altitude control system on his capsule went out.



Success!

An Atlas rocket with a Mercury capsule carrying Astronaut John Glenn moves skyward from a launch pad at Cape Canaveral. In the foreground are the gantry towers being readied for other rockets. The gantry stabalizes the rocket during pre-flight time. Those that dot the base at the Cape are actually semi-permanent homes for the rockets; and they facilitate working for the engineers.

—AP Wirephoto

ELECTIONS

TOKYO (AP) — The Government announced Friday an election for new members of the upper house of the Diet will be held July 1. Half of the 250 seats will be at stake. The members, called councillors, are elected for six-year terms.

Campus Notes

Art Talk, Discussion

Professor H. W. Janson of New York University will speak Sunday at 4:30 p.m. on "The Image of Man in Renaissance Art" in the Art Building Auditorium.

Monday, the Art Department will hold an open forum discussion of the "Aesthetics of Photography" at 8 p.m. in the Art Building Auditorium. Minor White, instructor in photography at the Rochester Institute of Technology, Rochester, N.Y.; John Kuiper, SUI assistant professor of television; and Roy Sieber, SUI research associate professor of art will be panelists.

* * *

Seitz To Speak

Dr. Philip Seitz, of the Institute of Psychoanalysis in Chicago, will speak on "Parental Behavior and Pathogenesis," today at 10 a.m. at the Psychopathic Hospital.

* * *

Phi Alpha Delta Elects

New justice of Phi Alpha Delta law fraternity is Lester Johnson, L2, Albert City. Other officers elected Thursday are James Thorn, L3, Corwith, vice justice and Charles Vanderbur, L2, Mapleton, clerk.

Elected treasurer was Tom Horan, L2, Waterloo. Stanley Crowl, L1, Sioux City is the new marshal and Wallace Reed, L1, Waterloo, is the representative to the Iowa Law Student's Association.

* * *

Wins Scholarship

Donald Sherk, G, Ida Grove has been awarded an Earhart Foundation Fellowship. The fellowship pays $2,500 plus tuition for the 1962-63 school year.

Sherk is working toward a doctoral degree in economics at SUI.

* * *

Van Allen To Speak

James A. Van Allen, professor and head of the SUI Department of Physics and Astronomy, will address a group of Nebraska college science teachers today at the University of Nebraska, Lincoln, Neb.

He will speak on "Physics in Space" at a meeting arranged by the Nebraska Cooperative College Teacher Development program.

* * *

Winners Named

Claudia Griesbach, A1, Arlington Heights, Ill., has been chosen winner of the Samuel L. LeFevre Memorial Public Speaking Contest.

Her first prize of $10 was won in competition with other freshmen students. Judy Kinnamon, A1, Iowa City won the second prize of $5.

* * *

Sigma Xi Initiates

The SUI chapter of Sigma Xi, national organization for scientists, will name 132 students, faculty members and alumni of SUI to full or associate membership Wednesday night at 7 p.m. in Chemistry Auditorium.

Senate Will Consider Cut In India Aid

WASHINGTON (UPI) — The Senate Foreign Relations Committee voted 8 to 7 Friday to cut U.S. foreign aid to India by 25 per cent, reflecting in part the Nehru Government's "failure to line up with the free world."

It also adopted 10- to 5 an amendment to the $4.9 billion foreign aid authorization bill which would suspend aid to any country that failed to correct within six months the nationalization or expropriation of American property.

The Indian aid cut, if upheld on the Senate floor, would cost the Government of Prime Minister Jawaharlal Nehru more than $180 million. It was sponsored by Sen. Stuart Symington (D-Mo.), who failed on an 8 to 5 vote to strike out all aid to India.

Sen. John J. Sparkman (D-Ala.), who opposed the cut as untimely, said an effort would be made on the Senate floor to restore the funds.

Sparkman said arguments offered in behalf of the cut during the closed-door session reflected displeasure with India's military spending in connection with the Pakistan dispute and with Nehru's professed neutral position in the East-West struggle. India also came under sharp congressional criticism this year for the seizure of Goa from the Portuguese.

The committee postponed final action on the aid bill until after next week.

Oral Surgeons To Meet

More than 100 oral surgeons from eight states will attend the 12th annual meeting of the Midwestern Society of Oral Surgeons here Monday and Tuesday.

Sessions will be held in the Iowa Memorial Union.

Religion and Life Week Brings 4 Speakers Here

John C. Bennett, Rienhold Niebuhr professor of social ethics and dean of the faculty at Union Theological Seminary in New York City, will be one of four speakers featured on successive nights during the Religion and Life Week sponsored by the Inter-Religious Council, Monday through Thursday.

Dr. Bennett will speak Monday at 8 p.m. in Shambaugh Auditorium on "Christianity and Communism." His talk will be followed the next three nights by lectures at the same time and place.

Russell Weintraub, associate professor of law, will speak Tuesday night on "Religious Teachings and the Law of the Land."

The series continues Wednesday with a lecture by William F. Albright, professor emeritus of John Hopkins University speaking on "Christianity and the Western Civilization."

Msgr. Alexander O. Sigur, J.D.C., University of Southwestern Louisiana in Lafayette, will speak Thursday. His topic will be "Religion Speaks to the 20th Century Man."

Bennett, a specialist in the field of Christian ethics, published a book on this topic in 1948, and in 1960 published a new edition entitled "Christianity and Communism Today".

In January he attended the East-West Church Men's Colloquy in Prague, Czechoslovakia, a meeting of church leaders from both sides of the Iron Curtain. In December and January of 1950-1951, he was in Asia as a member of the International Missionary Council, discussing problems created by Communism.

He serves as co-chairman of the editorial board of Christianity and Crisis, a Christian journal of opinion. Some of his other books are "Christian Ethics and Social Policy," "The Christian as a Citizen," and "Christians and the State."

Weintraub is an outstanding Jewish leader in the community. He has written several books concerning his field of law. Weintraub received his LL.B degree from Harvard, where he taught from 1955 to 1957.

Dr. Albright has been a visiting professor in the School of Religion this semester. Throughout the semester, he presented five lectures on outstanding biblical presonalities.

Msgr. Sigur, National Chaplain of Newman Clubs, recently appeared before the Newman Club in Iowa City.

Msgr. Sigur is editor of the Southwest Louisiana Register, a weekly Catholic paper.

The Inter-Religious Council, is composed of representatives of the major religions on campus. The council sponsors the week each year to bring the students on campus closer to religious aspects of life.

Policemen Rescue Fisherman Drifting Down Iowa River

An Iowa River fisherman floated about one mile from Coralville to the north end of Rocky Shore Drive, Thursday afternoon hanging on to his capsized motor boat, before being rescued by Iowa City police.

The man, Dennis E. Mulcahy, 51, of Cunningham trailer court, was unharmed except for a good soaking. He was in the water for about 30 minutes. Reportedly, he was pulling in his anchor when a strong wind tipped his boat.

Police and firemen were notified by a motorist on Highway 6. The police, arriving first, borrowed a canoe belonging to Ned Ashton, 820 W. Park Rd., and went after the drifting man.

A strong wind coupled with the heavy boat and motor caused a delay in the rescue. Firemen, seeing that the current was taking rescuers and Mulcahy downstream rapidly, hurriedly went down river and launched their boat.

The two policemen, however, made the rescue.

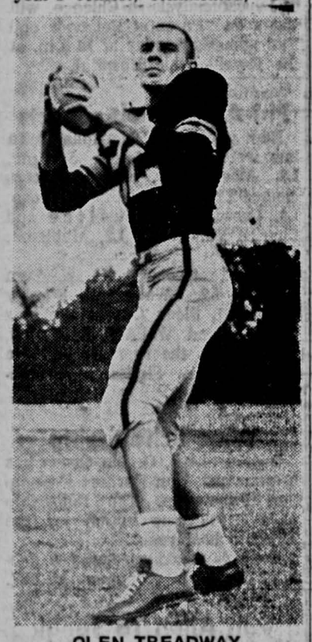
Today's Varsity-Alumni Tilt To Feature Aerial Contest

By HARRIETT HINDMAN
Staff Writer

Hawkeye grid fans have a chance to see the spring version of the 1962 Iowa team when the Hawks take the field against a high-powered alumni squad at 2 p.m. today in the stadium. The fifth annual Varsity-Alumni game marks the end of spring drills for Coach Jerry Burns' outfit.

Iowa assistant coach Jerry Hilgenberg, who is in charge of this year's contest, commented, "This looks like one of the finest alumni games that we have had in the five-year span of the game."



OLEN TREADWAY
Many Passing Records

The list of former Iowa stars includes such greats as Randy Duncan, All-America quarterback of the 1958 Rose Bowl team, Kenny Ploen, signal caller of the 1956 champions, and Olen Treadway, who holds several Iowa passing records, with these three experts, the alumni should be able to field a team with a formidable passing attack.

Many of the glue-fingered ends who were on the receiving end of these passers' tosses will also be seeing action as the "old timers" seek their second victory in the series. After the varsity won the first two tilts, the alums fought to a 20-20 tie in 1960, and won, 21-20 last year.

Curt Merz, All-America end in 1958 and Don Norton, who claimed national honors in 1959 will be two receivers who pose a threat to the Hawks.

The Varsity will be led by Quarterback Matt Szykowny, another passing specialist. Bill Perkins and Joe Williams will be handling the fullback spot, while veterans Sammie Harris and Captain Larry Ferguson will see action at halfback.

Besides the veterans of last season who are still with the Hawks, fans will get a chance to see several freshmen who will be moving up to the sophomore ranks next year.

Recruits from Coaches Bill Happel's and Wayne Phillips' squad include Willie Ray Smith, and Bobby Grier at halfback, Lynn Lyon and Tony Giacobazzi at end, and Jim Robshaw and Dave Recher at center.

Gus Kasapis, outstanding lineman in 1961, will be at right tackle; Wally Hilgenberg and Mike Reilly are listed at the left guard positions, Earl McQuiston at right guard; Jim Helgens and Cloyd Webb will be alternating at right end.

The new floater back position will be handled by Harris, Justus Reid, and Loren Hilliard. Szykowny is backed-up by Bob Wallace and Ron Brocavich. Bob LeZotte, Grier, and Hilliard are listed as right halfbacks.

The alumni are coached by Jerry Clark, guard on the 1953 team and now head coach of Cornell College, Emlen Tunnell, a great defensive player with the pros, formerly playing for The New York Giants and Green Bay Packers, and Bob Smith, who starred for the Lions as a kicking specialist.

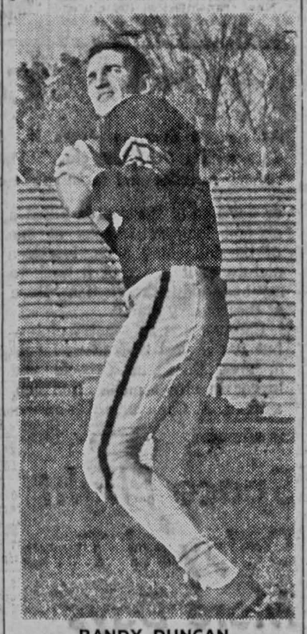
Clark, when asked what kind of game he expected, commented, "I would say that on our part, it will be a passing game. As far as we're concerned, that's the kind of personnel we have."

The coach continued, "We have a fine array of talent on the alumni squad this year. We should be able to give the varsity a fairly good game. Our main disadvantage is lack of organization because we have had only three days of practice. Most of our players are in good condition as a good share of them are now playing professional ball." Clark added that he has not had a chance to see the varsity practice this week.

While the passing attack of the alumni is recognized as their strong point, they could also field a run-attack. Willie Fleming and Bob Jeter, the fleet halfbacks of 1958, and Kevin Furlong and Don Horn could easily break away.

Several regulars from the Hawkeye team of last fall are expected to compete against their former teammates. Center Bill Van Buren, Guard Sherwyn Thorson, and Tackle Al Hinton will help bolster the line, which will also feature former Hawks Frank Rigney, Bill DeCindio, Mark Manders, Hugh Drake, and Gary Grouwinkel, and Bob Yauck. Defensive specialists include Bernie Wyatt and Gene Mosley.

Hilgenberg explained the purpose of the Varsity-Alumni game, "It is an opportunity to put our younger football players in a pre-game situation. It offers an opportunity for us to show them what our plan is during the day of the game, and to show them what we do at halftime, how we organize our positions, press box and bench."



RANDY DUNCAN
1958 All-America

Netmen Take Road for 2 Dual Tilts

The Iowa tennis team takes the road this weekend for two dual meets. The Hawks will meet Western Michigan this morning and Notre Dame this afternoon in action at West Bend, Indiana.

The six members of the Iowa squad making the trip are Steve Wilkinson, Dave Strauss, Dennis Ellertson, Mike Schrier, Dick Riley, and Larry Halpin.

Iowa coach Don Klotz said, "We don't expect too much trouble from Western Michigan but Notre Dame is always rough. This time will probably be no exception."

The next action for the Iowa squad will be May 17th and 19th when it travels to Minneapolis for the Big Ten championships hosted by the University of Minnesota.

Reds Rally To Defeat Pirates in 10 Innings

CINCINNATI (UPI) — Frank Robinson's two-out, run-scoring single in the 10th inning carried the Cincinnati Reds to a comeback, 3-2, victory over the Pittsburgh Pirates Friday night.

The Reds rallied for three runs in the bottom of the 10th after the Pirates had broken a scoreless pitching duel between Joey Jay and Pittsburgh's Al McBean with two runs in their half of the 10th.

Leo Cardenas started the winning rally with a walk after one man was out. Pinch hit singles by Don Zimmer and Joe Gains accounted for one run and ElRoy Face then relieved McBean. Eddie Kasko's sacrifice fly brought home Zimmer with the tying run.

A single by Vada Pinson set up Robinson's game-winning hit.

Jay and McBean matched each other pitch for pitch for nine innings. Both yielded five hits while striking out five.

Bill Mazeroski singled to open the Pirate rally with one out in the 10th and, after Jay struck out McBean, Dick Schofield, Dick Groat and Bob Skinner hit consecutive singles for the two runs.

Jay went all the way for his fourth victory after three defeats. McBean was charged with his first defeat after three triumphs.

(10 innings)

Pittsburgh	000 000 000 2—	2	9	0
Cincinnati	000 000 000 3—	3	9	0

McBean, Face (10) and Burgess; Jay and Edwards. W — Jay (4-3). L — McBean (3-1).

Colts Shut Out Giants

HOUSTON, Tex. (AP) — Dick Farrell, a big, fast Houston righthander, got tough when he had to, shut out San Francisco 7-0 Friday night and knocked a full game off the Giants' National League lead.

The San Francisco defeat, coupled with Los Angeles' 8-5 conquest of St. Louis, cut the Giants' leading margin to three games over the Dodgers.

Farrell was touched for six hits, but had the free-swinging Giants in his pocket with men on base. He struck out nine, many of them in key situations in completing his second straight game.

The Giants' biggest threat came in the first when walks to Willie Mays and Felipe Alou, sandwiched around Willie McCovey's single, loaded the bases with two out. Farrell got Tom Haller to pop up.

Farrell 3-2, got all the room he needed when Carl Warwick doubled in two runs off loser Gaylord Perry 2-1 in the second, and Ken Aspromonte singled in Warwick.

San Francisco	000 000 000—	0	6	2
Houston	030 020 20x—	7	6	0

Perry, Larsen (2), McCormick (7) and Haller; Farrell and Ranew. W — Farrell (3-2). L — Perry (2-1).
Home runs — Houston, Ranew (2), Farrell (1).

Angels Win

LOS ANGELES (UPI) — Rookie southpaw Bo Belinsky, making his first start since pitching a no-hitter last Saturday, hurled the Los Angeles Angels to a 4-2 victory over the Chicago White Sox Friday night — with the help of reliefer Art Fowler.

OHIO STATE RISES

EAST LANSING, Mich. (UPI) — Ohio State erupted for three runs in the 11th inning Friday to defeat Michigan State, 6-3, in a Big Ten baseball game.

The Buckeyes, who entered the game tied for second place with Illinois, raised their conference mark to 8-2. Th Spartans are now 2-7.

Red Sox Fall To Foytack, Detroit, 5-1

DETROIT (UPI) — Homers by Chico Fernandez and Norm Cash, the one by Cash a tape-measure blast, backed up Paul Foytack's five-hit pitching Friday night and gave the Detroit Tigers a 5-1 victory over the Boston Red Sox.

Fernandez socked his second homer of the season in the second-inning with one man aboard off loser Don Schwall to push Detroit ahead 2-0.

Cash smashed his eighth home run of the year in the sixth over the rightfield roof, a feat performed previously only four times. Cash did it once last season, Mickey Mantle has done it twice and Ted Williams once.

The Tigers added two runs in the seventh, bunching two walks and singles by Rocky Colavito and Dick McAuliffe to drive out Schwall, loser of four games against only one victory.

Foytack, making his second start of the season, survived a bases-loaded first-inning jam and appeared headed for a shutout until the eighth when an error by Colavito set up a run.

Pinchhitter Dave Philley singled to lead off the eighth. Pete Runnels lined to Colavito who let the ball get away from him. Philley came around to score on two infield outs.

Foytack, striking out six and walking one to win his first game against no losses, picked up an injured Tiger pitching staff, with Frank Lary, Jim Bunning and Don Mossi all troubled with minor hurts.

But the Tigers had another worry when Al Kaline left the game in the seventh when he pulled a tendon in his right elbow after swinging at a pitch. Kaline was hitting .360.

Boston	000 000 010—	1	5	1
Detroit	020 001 20x—	5	11	3

Schwall, Fornieles (7) Kolstad (8) and Pagliaroni; Foytack (1-0). L — Schwall (1-4).
Home runs — Detroit, Fernandez (2), Cash (8).

Phillies Rout Last Place Chicago, 12-2

CHICAGO (UPI) — Don Demeter batted in six runs with a grand slam homer, a single and a sacrifice fly Friday to lead the Philadelphia Phillies to a 12-2 victory over the last place Chicago Cubs.

The Phils bombed the first two Chicago pitchers, Dick Ellsworth and Glen Hobbie, for 11 runs and 13 hits in less than four innings and wound up with 16 hits to set a season high and match a season high in runs.

Johnny Callison and rookie Ted Savage each collected three singles and a double in the assault and rookie Jack Davis got three singles.

Demeter's sacrifice fly in the first inning scored Callison. His grand slammer came in the third with Callison, Savage and Roy Sievers on base to finish Ellsworth. His fourth inning single off Hobbie scored Savage.

It was the second grand-slam home run for Demter with the Phillies. The first came in the same park, off the Cubs' Don Cardwell, last Sept. 10.

Rookie righthander Jack Hamilton worked his second complete game, scattering eight hits, four by Billy Williams, for his third win. Hamilton, 23, from Morning Sun, Iowa, struck out 10 and walked 4.

Ellsworth took the loss, his fourth. The Cubs also used Tony Balsamo, Bob Anderson and Barney Schultz on the mound.

It was the seventh win in the last nine games for the Phillies and the 10th loss in the last 12 for the Cubs.

Philadelphia	204 500 100—12	16	2
Chicago	100 010 000— 2	8	0

Hamilton and White; Ellsworth, Hobbie (3), Balsamo (4), Anderson (8), Schultz (9) and Barragan. W — Hamilton (3-2). L — Ellsworth (2-4).
Home run — Philadelphia, Demeter (5).

Hawks Rained Out

The Hawkeye baseball game with Northwestern Friday was cancelled because of rain. Weather permitting, the Hawkeyes will meet Wisconsin in a doubleheader at the Iowa diamond at 1:30 p.m. today.

I-Club Picnic

The I-Club picnic will be held Sunday beginning at 1:30 p.m. at City Park.

Grant Hurls Indians to 7-1 Win over N.Y.

CLEVELAND (UPI) — Jim Grant's five-hit pitching and home runs by Don Dillard and Woodie Held gave the Cleveland Indians a 7-1 victory over the New York Yankees Friday night.

Grant, who began 30-day leave from the Army Thursday, hurled his second victory against no defeats. He lost a shutout in the eighth inning when Bill Skowron hit his fifth home run of the season.

Dillard's leadoff homer in the third triggered a three-run outburst against New York starter Ralph Terry, who suffered his third loss against four victories.

Held's two-run blast came in the seventh inning as the Indians scored four runs off Yankee relief pitcher Bud Daley. Held connected after John Romano singled. The Tribe added two more runs on four successive singles.

After Dillard's homer in the third, Tito Francona singled and, with one out, scored on Romano's triple. The ball hit on top of the left field fence and bounced back onto the playing field. Romano scored when shortstop Mike Tresh fumbled Held's grounder.

Grant, who struck out seven and didn't allow a walk, gave up a single in each of the first two innings and then retired 13 men in order until Roger Maris' bunt single in the seventh. Skowron then homered in the eighth.

New York	000 000 010—	1	5	1
Cleveland	003 000 40x—	7	14	0

Terry, Daley (6), Turley (8) and Howard; Grant and Romano. W — Grant (2-0). L — Terry (4-3).
Home runs — New York, Skowron (5). Cleveland, Dillard (1), Held (3).

L.A. Downs Cards, 8-5 On 16 Hits

ST. LOUIS (UPI) — The Los Angeles Dodgers collected 16 hits off three St. Louis pitchers Friday night and handed the Cardinals their sixth loss in eight games to move into second place with an 8-5 victory over the stumbling Redbirds.

The Dodgers broke up a 2-2 tie with a four-run outburst. Pinchhitter Duke Snider stepped to the plate and blasted a bases-loaded triple off the left centerfield wall. Cardinals left-fielder Minnie Minoso crashed into the wall trying to make the catch and was carried from the field in a semi-conscious state. His condition was not immediately known.

Snider's hit greeted reliever Ed Bauta, who took over for starter and loser Ray Sadecki. Snider scored on a single by Maury Wills.

The Redbirds came back with three runs in their half of the inning on a two-run double by Carl Sawatski and a single by Doug Clemens. The Dodgers added two insurance tallies in the seventh on a bases-loaded single by rookie Larry Burright.

Stan Williams started for the Dodgers and got credit for the win. He was lifted for a pinch-hitter in the sixth. Ed Roebuck was charged with the three runs the Redbirds scored in that inning. He faced three batters, all reaching base safely.

Los Angeles center-fielder Willie Davis was another casualty in Friday night's contest. He was hit on the wrist with a pitch from Sadecki and had to leave the game in the third inning. X-rays showed no fracture.

Stan Musial again was foiled in his attempt to match Honus Wagner's National League hit record of 3,430 when he went hitless in three trips to the plate. He walked once.

Los Angeles	010 104 200—	8	16	0
St. Louis	000 113 000—	5	9	1

Williams, Roebuck (6), Perranoski (6) and Roseboro; Sadecki, Bauta (6), Ferrarese (7) and Sawatski. W — Williams (2-1). L — Sadecki (1-2).

PARSONS TOPS

PELLA (AP) — Parsons won the Central Invitational track meet Friday, scoring 78 points.

Central was second with 63 points, followed by Simpson with 47, Penn with 30 and Wesleyan with 21.

Hawkeye Trackmen Host Wildcats in Last Home Meet

By JERRY ELSEA
Sports Editor

When Iowa's trackmen close out their home season today, it will probably be on a decidedly soggy track, but the opponent, not-too-strong Northwestern, doesn't threaten an upset.

The Wildcats, 70½-40½ victims of the Hawkeyes indoors at Evanston Feb. 10, are bringing a small 13-man team boasting strength only in the broad jump, hurdles and dashes.

All competition, both field and track events, will start at 12 noon so that spectators wishing to attend the Alumni-Varsity game in the stadium at 2, may see both events.

The visiting Wildcats, who suffered an 88-44 drubbing by Minnesota last Saturday, boast one of the Big Ten's finest quarter milers in Jerry Golem, third in both indoor and outdoor championship meets in 1961.

Golem's main competition today will come from Hawkeye junior Roger Kerr, who has done in the low 48's.

Discussing possible record performances, Iowa Coach Francis Cretzmeyer said Friday, "If the weather is good we'll be going for track records in the mile and half mile. Tucker (Jim) and Fischer (Gary) will run in the mile and we'll have Bill Frazier in the half mile.

The fastest mile ever recorded on the new Iowa track was a 4:11.1 effort by Michigan's Ergas Leps in the 1961 Big Ten Championships. In that race, Tucker finished second at 4:11.6. This year at the Drake relays, the senior from Hampton posted his best time of 4.11.2.

Frazier, the sophomore speedster from Princeton, has run a 1:52.5 half mile relay leg. The new track record for the half is 1:54.4.

Iowa's mile relay foursome, who set an Iowa record of 3:12.7 at Drake, probably will not run today, according to Cretzmeyer. "We want to save Frazier and Kerr (Roger) for their other events," said Cretz, "We'll probably experiment with some of the other fellows."

Northwestern does not have a first rate mile relay squad.

In the broad jump the Wildcats are nearly assured of a win. Elliott Williams reached 24-2 against Minnesota last week. Iowa's best effort this year has been 23-4 by Dick Leazer.

In the hurdles Northwestern's Preston Love is the man to beat. Don Gardner and Jerry Williams will be running for Iowa.

The Wildcats are notoriously weak in the high jump, so Hawkeye Jim Brye and Bob Nielson could have their own way. In the February indoor meet at Evanston, Brye cleared 6-0, while no Wildcat could do better than 5-10.

In the sprints Northwestern should score well with Charles Carpenter and Barrett Townsend leading the way.

In the pole vault the Hawkeyes are a definite favorite with Tom Hertzberg whose best effort has been 13-8 in an indoor meet. Last week Hertzberg tied for second with 13-6 in a triangular meet with Wisconsin and Army.

In that meet, "Hertz" had to sit around and watch Army's Dick Playmale reach 15-5¾, but today he should score a win.

Running their last home races for Iowa today are Tucker, Bill Mawe, Ken Fearing and Jerry Williams. Other Hawkeyes seeing their last competition here are Hertzberg in the pole vault and Bill Reif in the shot put.

Iowa's next competition will be in the Big Ten Championship meet at Purdue University in Lafayette, Ind., May 18 and 19. The Hawks will run their last dual meet May 26 at Minnesota.

11-Run Inning Gives Washington 12-1 Win

BALTIMORE (UPI) — The Washington Senators exploded for 11 runs in the sixth inning Friday night while their rookie pitcher, Dave Stenhouse, pitched a six-hitter for a 12-1 victory over the Baltimore Orioles.

Stenhouse gave up singles to the first two hitters he faced and then didn't permit a hit until Jim Gentile led off the seventh inning with an infield single. Stenhouse lost his shutout with two out in the ninth inning when Charlie Lau hit a single to score Jackie Brandt from second base.

Stenhouse was ahead in a 1-0 duel with fellow Rhode Islander Art Quirk, the Orioles' starter, when the Senators broke the contest open. They sent 15 men to the plate in the fifth and scored all of their runs after two were out.

Normally light-hitting Chuck Cottier knocked in the first two runs and the 11th with a pair of doubles. Thirty-nine-year-old Gene Woodling hit a grand slam home run, the third of his career.

Quirk's reliever, Wes Stock, pitched to six batters and got nobody out. Skinny Brown got the side out after 10 consecutive Senators reached base safely. The 11 runs were a record for the new Senators and one short of the old club record set in 1926.

Washington	000 10 11 000—12	12	1
Baltimore	000 0 0 001— 1	6	3

Stenhouse and Schmidt; Quirk, Stock (6), Brown (6), Hoeft (8) and Lau. W — Stenhouse (2-0). L — Quirk (1-2).
Home run — Washington, Woodling (5).

A's Nip Minnesota

ST. PAUL-MINNEAPOLIS (UPI) — Gino Cimoli's line single off Zoilo Versalles' glove broke up a 3-3 game in the sixth inning and opened the way for the Kansas City Athletics to down the Minnesota Twins, 5-3, Friday night in a contest halted by rain in the bottom of the eighth inning.

Cimoli's hit scored Jerry Lumpe from second and moved Norm Siebern to third. Siebern scored moments later when Twins' third baseman Rich Rollins threw past catcher Earl Battey when Siebern was caught in a rundown.

Rookie Dave Wickersham won his second game of the season in relief. He has lost once.

Kansas City	111 002 00—	5	9	0
Minnesota	003 000 00—	3	7	2

(Called with 2 out in last of eighth, rain.)
Pfister, Wickersham (3), Segui (8) and Sullivan; Pascual, Moore (8) and Battey. W — Wickersham (2-1). L — Pascual (4-2).

MICHIGAN WINS

ANN ARBOR, Mich. (UPI) — Joe Jones slammed a triple in the ninth inning Friday to score Fritz Fisher and give league-leading Michigan a 5-4 Big Ten baseball victory over Indiana.

The triumph pushed the Wolverines' conference mark to 9-1 and dropped the Hoosiers to 5-5.

Braves Beat Mets, 8-5

NEW YORK (AP) — Del Crandall drove in four runs with a double and two singles and the Milwaukee Braves cut off a ninth inning rally by the New York Mets for an 8-5 victory Friday night in the first meeting between the two clubs.

The Braves went into the bottom of the ninth leading 8-2 with starter Bob Shaw (3-1) seemingly in control. Consecutive singles by Gus Bell, Marv Throneberry and Cliff Cook scored one run. That brought in Hank Fischer who got another out but gave up singles to Sammy Taylor, Jim Hackman and Felix Mantilla that scored two more.

Don Nottebart then came on with the bases loaded and got Charlie Neal on a called third strike to end it.

Crandall singled home another run in the third following his second inning rbi and wound up his performance with a two-run single as the Braves tacked on four runs in a ninth inning surge that proved decisive. A double by Hank Aaron and Denis Menke's single knocked in the other scores.

Milwaukee	031 000 004—	8	12	0
New York	011 000 003—	5	11	3

Shaw, Fischer (9), Nottebart (9) and Crandall; Jackson and Taylor. W — Shaw (3-1). L — Jackson (1-4).
Home run — New York, Hickman (4).

Good Listening— Today on WSUI

By LARRY BARRETT
Written for the Daily Iowan

TODAY'S MUSICAL at 9 a.m. responds to the title "Once Upon a Mattress". (I have tried to comment on this item, but it never comes out nice.) You may recognize some similarity between this and the musical comedy being produced on campus next week.

SHADES OF FALL, when CUE usually goes way overboard for Saturday afternoon sports doings, are inherent in today's "service" program (WSUI may just be a service station) from 10 a.m. to 1:45 p.m. Needless to say, there will be interviews with several football-oriented young men; but there will be a nod, at least, in the direction of affairs more cultural. Dramatic in impact — not to mention content — these deal principally with Sunday's Choregi program in the Art Building and the play, "A Passion for Apollo", which opens in the Studio Theatre next week.

SPORTSVILLE, U.S.A. — that's Iowa City today. Some, but by no means all, of the events will be broadcast. Weather permitting (it didn't Friday), there will be baseball to broadcast after the alumni-varsity football game which begins at 2 p.m. That way, Saturday afternoon on radio can be just like it is on TV.

IF THEY DON'T PLAY all night, you may find the remains of an Evening Concert somewhere between 6 and 8 p.m. Music for a Saturday Night, however, should make it on time: 8 p.m.

Soper Named to Society

Robert T. Soper, assistant professor in surgery at University Hospitals, has been elected a Fellow of the American Academy of Pediatrics, the professional society of specialists for infants, children and adolescents in the Western Hemisphere.

ITALIAN HEAD

ROME (AP) — Antonio Segni took the oath of office Friday as Republican Italy's third president. A battery on Rome's Janiculum Hill fired a 101-round salute.

Italy's new president took the oath in Montecitorio Palace — meeting place of the Chamber of Deputies — where he won a bitter nine-ballot battle for election last week.

Correspondent, Pianist Slated For Lectures

A top-rank news correspondent and a popular pianist-lecturer will be featured at SUI in the 1962 Summer Session Lecture Series. They are Richard C. Hottelet and Boris Goldovsky.

Hottelet, CBS television news commentator and political observer, will discuss "Latin America, Next Cold War Battleground?" June 19. As a reporter for the Berlin bureau of the United Press, he covered most of the events which led to World War II

He was at the Geneva Summit Conference, traveled with Khrushchev and Bulganin on their visit to Yugoslavia, and covered the move toward independent Government in Poland after the Hungarian rebellion.

Boris Goldovsky, often called "music's most articulate spokesman," will present a lecture-recital, "Romance of the Piano," — July 25. Goldovsky won the Peabody Award for outstanding contribution to radio music as the master of ceremonies of the Metropolitan Opera News of the Air.

In his program, Goldovsky unites his love of playing great music and his fondness for talking about it and exploring the curious byways through which it came into being.

NEW REFINERY

TORONTO (UPI) — Honeywell Controls Ltd. has been awarded a $2 million contract to engineer and install an automatic control system for a new Canadian refinery.

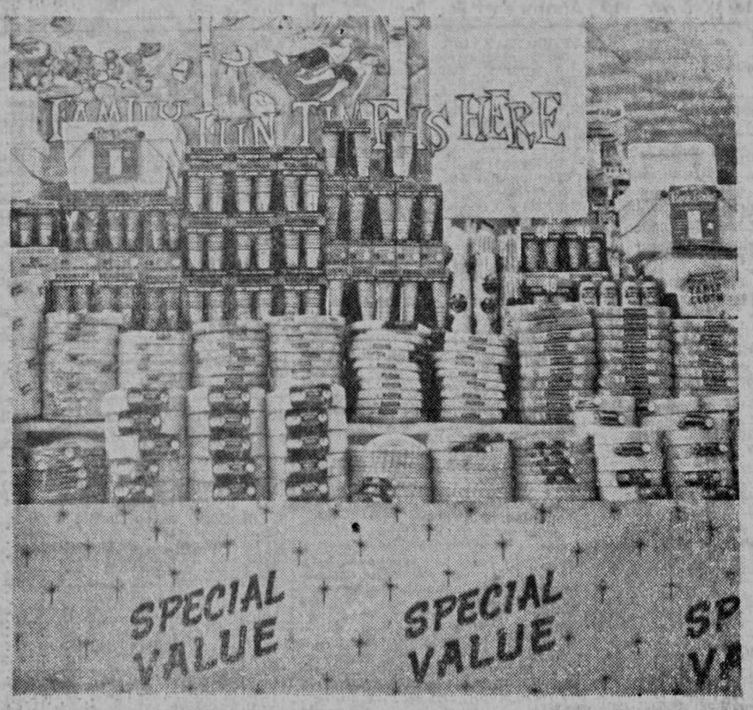
ADVERTISEMENT



Special values are the rule not the exception at Randall's Super Valu. The finest groceries in town at the lowest prices are yours for the shopping at Randall's, located on Highways 6 & 218 west at Coralville. Plenty of free parking, a spacious and attractively decorated interior, and the friendliest service are only a few extras you receive when you "Shop Randall's."

Norma Kaipo combs out classmate Dianne Long's new easy to care for hairstyle at the University College of Cosmetology. Both senior students are completing their professionally supervised training at the UCC. Stop in soon and the UCC students will give you the extra time and attention to assure your complete satisfaction before you leave. The UCC offers a full range of beauty services, including recombing, all at low prices.

This is the entrance to Iowa Book & Supply's wide and varied world of paperbacks. In the line of textbooks, we supply the tools for the student with new and used texts. With years of experience, we recommend technical, auxiliary and reference books to supplement your regular texts. Iowa Book & Supply also carries Iowa's largest stock of non-text books in paper and cloth for your pleasure reading enjoyment. We will also be happy to order any book for you.

This week at MOE WHITEBOOK'S Bryan is shown modeling the ever popular Imported Italian knit shirt with tailored coat style front (light weight, all wool – from $16.95), and dacron-wool slacks (in grey, brown, blue-black or olive – from $12.95). Why don't you stop in today at 7 south dubuque – meet Bryan and let him show you some of the latest in men's fashions – fashions of distinction from MOE WHITEBOOK.

Watch stop? Don't be late to class and other appointments. Be on time. Have your watch skillfully repaired at Malcolm Jewelry. Malcolm's have the latest in fine watch repair service. Your watch will be cleaned on our new Varimatic Ultrasonic Cleaner and accurately timed on our timing machine. Machines can't do all of the work. The skillful repairs are all done under the watchful eye of our skilled watchmaker, Daryl Kempf. Bring your ailing watch to Malcolm's.

LIND'S PHOTO and ART SUPPLY, 9 South Dubuque, offers one of the most complete and expert framing services in this part of the country. Over 300 patterns of frames from which to choose – plus a complete stock of mat board and custom made fabric mats. Or you may furnish your own mat material. LIND'S, where you always find friendly, personal, service, can help you select the frame that will best display your print.

Minit Car Wash, 1025 South Riverside Drive, offers the best car wash in town at the most reasonable prices. You can have you car spotlessly cleaned in minutes for as low as 99c if you take advantage of the special Shell gasoline offer at Minit Car Wash. Why waste a whole sunny afternoon when you can have your car cleaned completely, inside and out, in less time than it takes to tell about it? Try Minit today.

Modern Bankers realize the ease of banking from their car. **Iowa State Bank and Trust Company** has four drive-up and walk-up windows on the corner of Capitol and College streets just for your banking convenience. By making transactions this easy, modern way, you can come as you are; forget about the problem of parking. And you'll find the same friendly service as you do from their down town bank.

Which one to choose? Even the youngest girl has trouble deciding which dress is right for her. Sara and Michelle Rapoport are helping select their new summer clothes from Maternity Fashions new addition – Baby Fashions. With summer just around the corner they know it's time to get ready for vacations, swimming, playtime, and lots of fun. And now at Baby Fashions you can take advantage of special reductions on some dresses – just in time for the summer season.
