Kennedy Seeks Early Tax Cut

Mariner Successful; Reports on Venus

Earth Radio Command Triggers Radiometers

WASHINGTON — Earth men reached out 36 million miles through space Friday for their first close-up "look" at the mystery-shrouded planet Venus.

What they saw through the electronic eyes of the Mariner 2 space probe must be analyzed and evaluated over the next several weeks but scientists were elated at the outcome of the \$47-million experiment.

"We have definitely received data from both radiometers," they reported as Mariner 2 reached the climax of its long journey.

The radiometers, the principal scanning devices, were turned on by a last-minute radio command from earth after a built-in self-timing mechanism twice failed to operate.

The gold-and-silver-plated spacecraft, launched from Cape Canaveral, Fla., on Aug. 27 — 109 days ago — finally reached its rendezvous point about 21,000 miles from Venus at midafternoon and radioed back its findings.

Dr. William Pickering, head of the California Institute of Technology's Jet Propulsion Laboratory, announced all of the scientific experiments packed in Mariner 2 were recording during the crucial moments.

The coded signals sent back from the celestial argonaut were picked up by the National Aeronautics and Space Administration's

SUI Detectors May Influence Solar Cells

The design of future spacecraft solar cells may be influenced by results of an SUI scientific experiment on the Relay 1 active communications satellite launched this Thursday.

The SUI experiment consists of four radiation detectors which form a space radiation monitor which tells the type and intensity of radiation which causes damage to solar cells and other electronic components as Relay swings back and forth through the inner Van Allen belt.

Such radiation degrades solar cells in a matter of months, depending upon the orbit of the spacecraft involved. The detectors designed and fabricated at Iowa City are coupled with a radiation damage experiment so that measurements of radiation can be correlated with solar cell degradation.

Experts say that in order for communications satellites such as Relay to be economically feasible, they must perform for some 10 years. Solar cells convert the sun's rays to electrical power used by spacecraft equipment, and thus spare the added weight of batteries.

The SUI experiment was originated and guided by Carl E. McIlwain, formerly an assistant professor at SUI, and now a University of California faculty member at La Jolla. Donald Enemark, Princeton, Minn., graduate student, designed the electronic circuits, a task which provided the basis for his master of science degree thesis.

Others who played important roles in the conception and building of SUI's instruments included:

Ronald Gabel, A4, Ankeny, who was the electronics technician; Donald Gurnett, G, Fairfax, who designed the power supplies; George Frohwein, Iowa City, who was project engineer; Gene Crossett, Washington, who fabricated the circuits; Ramon Trachte, Iowa City, and John R. Doyle, Grand Junction, mechanical designers, and R. Walker Filius, Washington, D.C., who designed and built the solid state detectors.

Sam's Strip Slips, Beetle Barges Back

"Beetle Bailey," Mort Walker's beloved comic character has received an overwhelming vote of confidence from Daily Iowan readers and will return to the DI by Jan. 3, Publisher Edward P. Bassett announced Friday.

"Beetle," who was replaced by "Sam's Strip" several weeks ago, drew 156 votes to a paltry two for "Sam." Two write-in participants in the DI vote advocated bringing in "Peanuts" and one reader held out for "Blondie." Another dissatisfied respondent scribbled out "Let's be serious—Down with all comics!"

Twain Works To Be Published

SAN DIEGO, Calif. (UPI) — The widow of Mark Twain's last surviving child said last night he has been assured that the writer's previously unpublished works will be collected and printed.

Jacques A. Samossoud, 68, retired symphony and opera conductor, made the statement following the probating of his wife's will.

Samossoud said the University of California had been granted all of Twain's papers and writings except the manuscript of "Joan of Arc."

Destination: Vacation

Iowa City's railroad platform was covered with luggage Friday afternoon as SUIowans made their mass exodus from the city for Christmas vacation.

Extra cars were added to the trains Friday to handle the student crowds.

Murder, Robbery Indictments Returned Against Schneider

By GARY SPURGEON
Staff Writer

The Johnson County Grand Jury returned two separate indictments Friday against Robert J. Schneider, 18, Oxford, on charges of murder and robbery.

He will be arraigned at 9 a.m. Monday on both charges in Johnson County District Court. He has been held without bond in Johnson County Jail since his arrest Nov. 13.

The Grand Jury, winding up their current session indicted Schneider for the Nov. 10 murder of Edward Kriz, Iowa City tavern owner, and for the Oct. 6 \$700 robbery of Shannon's Supper Club in North Liberty.

Schneider has pleaded innocent to both charges. He was on parole for armed robbery of a Corralville service station at the time of his arrest on the murder charge.

Ralph L. Neuzil, Johnson County Attorney, said the robbery and murder charges will be tried separately. He said it is up to the court to decide which will be tried first.

Neuzil said Schneider might be tried during the latter part of the November term of District Court, possibly in early February. The jurors for the term of court will remain.

The Grand Jury heard the testimony of 46 witnesses before making their decision. They began the term Nov. 19 and recessed shortly before Thanksgiving. They reconvened Wednesday.

Several witnesses testified they saw a man running from the scene of the murder — at the rear of Hamburg Inn No. 2. The witnesses said the man as having a dark butch haircut, about 5'6" tall, and weighing about 160 pounds.

Investigating authorities did not find the murder weapon among Schneider's belongings. Kriz was killed with a .45 caliber bullet.

Detective Lieutenant Charles H. Snider quoted Schneider as saying he threw his gun under the bridge south of the farm on the gravel road — that will give you fellows something to do.

G. Strand, special agent for the State Bureau of Criminal Investigation, testified that Schneider told him the same thing, but later

retracted the statement. The gun was not found under the bridge, Strands said.

Kriz's wife, who was with her husband when he was shot, said she caught a glimpse of the murderer after her husband pushed the mask to the top of his head during the scuffle. She said the assailant quickly pulled the mask down.

The man was described by Mrs. Kriz as about 18 or 19 years old with dark hair and dark eyes.

DM Exhibit Shows SUI Grad's Work

The dramatic, contemporary paintings of former SUIowans Raymond Parker will be discussed Sunday during a gallery talk entitled "Three Former Iowans" at the Des Moines Art Center.

As part of the current exhibition at the Center, Parker's work and that of two other former Iowans, William Palmer and Kyle Morris, is being presented. The exhibition will end Jan. 6.

Parker, who received his B.A. from SUI in 1946 and his M.F.A. in 1948, is a native of Sioux City. Morris and Palmer are both from Des Moines. The exhibit features Abstract Expressionism.

The gallery talk begins at 3 p.m. and is open to the public.

ROTC Promotes Five SUI Cadets

Five Army Reserve Officers Training Corps cadets at SUI have been promoted by Cadet Colonel John Calhoun, E3, of Mason City.

Promoted are John Bornhold Jr., A3, Ft. Totten, N.Y., to Battalion Sergeant Major; Orwin Carter, A3, Hillsdale, Ill., to Brigade Sergeant Major; Lawrence Jackson, A1, West Des Moines, to Battalion Sergeant Major; Charles Scherrer, A3, Maquoketa, also to Battalion Sergeant Major; and Steven Studd, A3, Iowa City, to Brigade Operations Sergeant.

Frances Camp Dies; Headed Ed. Placement

Helen Barnes: "Was An Inspiration to All Whom She Trained"

Frances M. Camp, who directed educational placement at SUI from 1924-1958, died early Friday morning at University Hospital, where she had been a patient the last ten days. She had been associated with the Educational Placement Service at SUI for 33 years, serving as coordinator of Placement Services on the campus from 1948-1958, when she retired.

Funeral services will be held at Beckman's at 10 a.m. Monday. Burial will be at West Union at 2 p.m.

Miss Camp joined the SUI faculty in 1924 as director of teacher placement. She was named director emeritus of the Educational Placement Service in 1958 and had continued to work part time until shortly before her death.

Speaking of Miss Camp's association with the University, Provost Harvey H. Davis said: "Miss Camp gave long and effective service to this University and the public schools of Iowa in our Educational Placement Office. She won national recognition as a leader in the field and also won the gratitude of our graduates as well as that of presidents, superintendents and principals, both inside and outside of Iowa."

Dean Emeritus Elmer T. Peterson of the SUI College of Education said of Miss Camp: "She was persuaded by Dean Paul C. Packer in 1924 to interrupt her graduate program in history to become director of teacher placement. Her warm and friendly disposition, her interest in people and her dedication to teaching quickly developed a national reputation for effective service."

Miss Camp visited colleges and universities on a regular cycle, getting acquainted with employing officers and the special personnel needs of institutions. She was a pioneer in developing the concept of personalized service in teacher placement in higher education.

Helen Barnes, coordinator of placement services at SUI, said: "Miss Camp brought exceptional leadership to the field of placement and did it with such zest and humor and warmth that she was an inspiration to all whom she trained."

The man was described by Mrs. Kriz as about 18 or 19 years old with dark hair and dark eyes.

At the same time, he did not raise the spectre of recession.

"I am not talking about a 'quickie' or temporary tax cut which would be more appropriate if a recession were imminent," he said. "Nor am I talking about giving the economy a mere shot in the arm, to ease some temporary complaints."

He said the problem to be dealt with stems from the fact "that our present tax system exerts too heavy a drag on growth — that it siphons out the private economy too large a share of personal and business purchasing power — that it reduces the financial incentive for personal effort, investment and risk-taking."

In summation, Kennedy declared "this nation can afford to reduce taxes — we can afford a temporary deficit — but we cannot afford to do nothing."

The President said he would send Congress his tax proposals next month along with the Federal budget for the 1964 fiscal year beginning next July.

Discussing that budget, Kennedy said defense and space spending will necessarily rise. But he promised that the forthcoming budget will hold expenditures for domestic programs at their current level.

In discussing the three tests which he said the Administration's tax bill must meet, the President indicated that deciding on the amount of the tax reduction would be a delicate operation.

While calling for a "sufficiently large" cut, he warned that too much tax reduction could lead to inflation and a pinch on future revenues.

He noted that consumers spend between 92 and 94 per cent of their after-tax income but said that income after taxes "could and should be greater, providing a stronger market for the products of American industry."

Three Tests Set For '63 Tax Bill

The News In Brief

(Combined from Leased Wires)

MIAMI — Gov. Farris Bryant flew over the state's rich citrus and vegetable producing regions Friday to get a first-hand look at the damage caused by Florida's worst freeze of the century.

He met later with citrus commission officials and industry leaders at Lakeland for the purpose of making an official assessment of the damage.

Bryant, whose first move was to create a freeze evaluation committee, has promised farmers and citrus growers the state will bend its "full efforts" to insure the agricultural industry — second only to tourism in Florida — a speedy recovery from the freeze of the past two days.

WASHINGTON — Postmaster General J. Edward Day said Friday he had ordered a halt to the Christmas stamp printing because it was so popular he feared the public would delay its mail too late for pre-holiday delivery.

Day said he boosted the order for the red, green and white stamps to one billion but told printers to take it off the presses tomorrow midnight so that the last of the issue could be delivered to post offices by Tuesday.

WASHINGTON — The Defense Department Friday laid down strict regulations calling for high moral standards and super-security measures to guard against "unauthorized detonation" of nuclear weapons.

In two separate directives, signed by Deputy Defense Secretary Roswell Gilpatrick, the Department warned that ordinary standards and security procedures are inadequate protection against the possibility of sabotage or "human failure" in the storage and handling of A-weapons.

WASHINGTON — Former Secretary of State Christian Herter said Friday a true Atlantic Community with political institutions binding the United States, Canada and Europe could be created within the next decade.

He proposed a four-stage program for achieving a community of "Atlantica."

Herter, as special representative for trade negotiations under President Kennedy's new Trade Expansion Act, will have a strong hand in laying the economic foundations.

UNITED NATIONS, N.Y. — Russia submitted a proposal Friday calling for higher U.S. contributions and lower Soviet payments to the United Nations.

The United States already is by far the biggest contributor to all U.N. programs, including the regular administrative budget. The regular U.S. assessment is set at about 32 per cent compared to 11 per cent for Russia.

The Soviet Union proposed to the General Assembly's Budgetary Committee that the top ceiling on assessments be raised, and that a revised scale of contributions be submitted for 1964 and subsequent years.

GENEVA — The United States warned the Soviet Union Friday it never will agree to a disarmament accord that undermines NATO and jeopardizes Free World security while the Soviet war machine remains essentially intact in Eastern Europe.

U.S. Ambassador Arthur H. Dean told the 17-nation disarmament conference the United States will not abandon its NATO allies as the price for a disarmament agreement.

NEW DELHI — India announced the Chinese Communists had begun a massive withdrawal in the Northeast Frontier Agency from the points they captured as far as 85 road miles below the disputed border. But there was no word of withdrawal in the Ladakh area of Kashmir 1,500 miles to the west.

WSUI Christmas Broadcast Schedule

Times are approximate. No selection will begin earlier than indicated.

MONDAY Dec. 17	TUESDAY Dec. 18	WEDNESDAY Dec. 19	THURSDAY Dec. 20	FRIDAY Dec. 21	SATURDAY Dec. 22
8:30 A.M.: A potpourri of Christmas music.	9:00 A.M.: Christmas Carols of Old England.	8:30 A.M.: A potpourri of "Toys" music.	9:00 A.M.: Carols at Christmastide (Alfred Deller).	8:30 A.M.: A potpourri of Christmas music.	8:00 A.M.: WSUI's annual Christmas program.
10:00 A.M.: 1961 Three Choirs Festival: Hereford Cathedral, Part I.	10:00 A.M.: Brass music of the 16th and 17th centuries.	10:00 A.M.: 1961 Three Choirs Festival: Hereford Cathedral, Part II.	10:00 A.M.: DuMont's "Motet: Christus Natus Est Magnificat."	10:00 A.M.: 37th Haslemere Festi- val: Chamber music of the 16th and 18th centuries.	9:00 A.M.: Children's Party.
10:30 A.M.: Little Orchestra Young People's Con- cert: Descriptive music.	11:30 A.M.: Respighi's "Church Windows."	10:00 A.M.: Little Orchestra Young People's Con- cert: "What is Jazz."	11:30 A.M.: Humperdinck's "Hansel and Gretel."	10:30 A.M.: Little Orchestra Young People's Con- cert: All Prokofiev program.	9:45 A.M.: Resumption of WSUI's Christmas program.
1:25 P.M.: Handel's "L'Allegro ed il Penseroso."	1:55 P.M.: Britten's "Prince of the Pagodas."	2:35 P.M.: Instrumental music from the courts of Queen Elizabeth and King James.	1:20 P.M.: Haydn's "St. Cecilia Mass."	1:20 P.M.: Bach's "B-minor Mass."	2:50 P.M.: Christmas message from SUI President Virgil M. Hancher.
3:25 P.M.: A program of chamber music from the Laurentian Bach Festi- val, Canada.	3:40 P.M.: The Play of Daniel.	3:15 P.M.: Tchaikovsky's "Swan Lake."	6:00 P.M.: 1962 Vienna Festival.	2:35 P.M.: Christ Is Born.	3:00 P.M.: A Nativity for 'N' Town.
4:00 P.M.: Traditional Christ- mas music by Pachel- bel, Mozart and others.	4:00 P.M.: Music by Haydn and Holst from the 1962 Aldeburgh Festival.	4:05 P.M.: Carols from the Phil- adelphia Orchestra.	7:10 P.M.: Distler's "The Christmas Story."	6:00 P.M.: Christmas music by Anderson, Bach, and Prokofiev.	4:30 P.M.: Tchaikovsky's "Nut- cracker Suite" in jazz, Shorty Rogers.
4:50 P.M.: The Bach Christmas cantata "Christians, Engrave ye this Day."	4:50 P.M.: Menotti's "Amahl and the Night Visitors."	6:00 P.M.: Opera excerpts from An Evening At East- man.	7:40 P.M.: Vaughan-Williams' "Christmas Cantata."	7:00 P.M.: Bellini's opera "Norma" will be broadcast stereophonically by WSUI-AM and KSUI-FM.	6:00 P.M.: Christmas music by Rimsky-Korsakov, Britten and Liszt.
8:50 P.M.: "The Musical Offer- ing" by Bach.	MERRY CHRISTMAS	7:00 P.M.: Stereo Concert on WSUI and KSUI.	8:50 P.M.: Vaughan-Williams' "Christmas Cantata."	HAPPY NEW YEAR	7:30 P.M.: Handel's "Messiah."

Britain May Reject Skybolt Due to Cost

PARIS (UPI) — Authoritative sources said Friday chances are slim that Britain will take over the U.S. Skybolt missile program because of the cost.

Fresh alternatives were said to be under consideration but a final decision probably will not be made until President Kennedy and Prime Minister Harold Macmillan discuss the issue at their Bahamas conference next week.

U.S. and British defense chiefs attending the NATO council meeting here have failed to resolve the deadlock. Britain has relied on the Skybolt as its own nuclear deterrent.

British diplomats implied strongly that the U.S. move was a deliberate one designed to undercut Britain's plan to have an independent deterrent made to order for its force of valiant bombers.

American sources denied this attitude. They denied also there was any direct link between the Skybolt commitment and the granting by Britain of a basis for U.S. Polaris submarines at Holy Loch, Scotland. Some British hints have threatened cancellation of the base arrangement as retaliation.

Conference sources said Britain will be given an option to take over the Skybolt project. But the cost of such a move was seen as too high for Britain to bear, and there was no guarantee the air-to-ground missile would prove to be successful.

Authoritative American sources said the Skybolt program has cost the United States about \$400 million. They estimate it would cost at least \$500 million more to complete the project. The high cost of production would be additional.

If Britain should take over the program, the United States would not charge for the cost of the project up to now. But it might be necessary for Britain to continue the Skybolt's development in the United States — a factor which would add considerably to Britain's foreign exchange bill.

New Try To Halt Newspaper Strike

NEW YORK (UPI) — Federal mediators announced Friday they will resume negotiations Tuesday in another effort to settle the seven-day old strike that has idled nine metropolitan newspapers and made it difficult for millions of New Yorkers to find out what is going on in the world.

William E. Simkin, director of the Federal Mediation and Conciliation Service, said in Washington that Stephen I. Schlossberg, his special assistant, will head the team of federal mediators.

The announcement followed an appeal by one of the publishers for a 60-day truce during which negotiations for a new contract could be carried out.

Iowa String Quartet To Play at Inauguration

ing to the University.

Professor Preul was principal violinist in the Detroit Symphony Orchestra for two years before joining the SUI faculty in 1958. He was a member of the orchestra at the Casals Festival in San Juan, Puerto Rico, in 1958 and has been principal violinist and soloist at the Peninsula Music Festival, Door County, Wis.

In 1959, the Iowa String Quartet consists of members of the SUI music faculty. Present members are Charles Treger and John Ferrell, associate professors of music; violins; William Preul, assistant professor of music, viola, and Camilla Doppmann, visiting lecturer, cello.

Professor Treger, who joined the SUI faculty in 1961, has appeared in more than 700 concerts as violin soloist with leading orchestras and on radio and television programs. He won first place in the Henryk Wieniawski violin competition in Poznan, Poland, in November, becoming the first non-European to win this contest.

Before coming to SUI, Professor Treger was the founder and first violinist of the Washington String Quartet and was solo violinist with the Rocco Ensemble.

A member of the SUI faculty since 1954, Professor Ferrell has been a soloist with the Eastern Rochester Symphony and had given numerous concerts in the Southwest and the Midwest before coming.

Sixty junior and senior high school biology teachers will attend an eight-week summer institute at SUI in 1963.

The institute, to be held from June 11 to Aug. 7, will be supported by a \$77,600 grant from the National Science Foundation. Participants will be selected from among teachers with at least three years experience who are currently teaching biology at the secondary level. They will enroll for two or three courses, taught by SUI professors, which will include fundamental genetics, organic chemistry, protozoology, paleontology, philosophy of science, and an orientation course for a new biological sciences curriculum study. Eight hours of college credit may be earned by institute participants.

Objectives of the institute are the improvement of the subject matter competence of participants, the bringing together of secondary teachers with prominent scientists who are instructors or guest lecturers, and the development of a unified plan for solving the problems of the biology teacher in the secondary school.

Director of the institute is Robert E. Yager, assistant professor of science education at University High School, from whom detailed information about the institute may be obtained.

The aim of the non-profit organization is to further the work of scientists, to facilitate cooperation among scientists, to make science more effective in promoting human welfare and to increase public understanding of science.

The scientists who will be attending the conference from SUI are: Ann M. Bovbjerg, resident associate in Zoology; Christopher H. Dodge, former SUI student; Charles G. Duttweiler resident associate in Physiology; G. Edgar Folk, associate professor in Physiology; Donald C. Johnson, resident associate in Urology; Lorenz O. Lutherer, resident associate in Physiology; K. Mikamo, resident associate in Zoology; Brian J. O'Brien, assistant professor of Physics; Lyle W. Shannon, professor and chairman of the Department of Sociology and Anthropology; James Van Allen, head of the Department of Physics and Astronomy; Emil Witschi, professor emeritus in Zoology; Charles C. Wunder, assistant professor of physiology and Jerry J. Kollros, professor and chairman of the Department of Zoology.

Judicial Meeting Will End Today

Some 70 Iowa trial judges attended the three-day Iowa Judicial Conference, which will close today on the campus.

The conference deals with four important aspects of trial judging: demonstrative evidence, sentencing and probation, the trial judge's responsibility in divorce cases, and pre-trial conferences.

The SUI College of Law and the Joint Committee for the Effective Administration of Justice, Chicago, Ill., sponsored the conference.

The announcement followed an appeal by one of the publishers for a 60-day truce during which negotiations for a new contract could be carried out.

The scientists who will be attending the conference from SUI are: Ann M. Bovbjerg, resident associate in Zoology; Christopher H. Dodge, former SUI student; Charles G. Duttweiler resident associate in Physiology; G. Edgar Folk, associate professor in Physiology; Donald C. Johnson, resident associate in Urology; Lorenz O. Lutherer, resident associate in Physiology; K. Mikamo, resident associate in Zoology; Brian J. O'Brien, assistant professor of Physics; Lyle W. Shannon, professor and chairman of the Department of Sociology and Anthropology; James Van Allen, head of the Department of Physics and Astronomy; Emil Witschi, professor emeritus in Zoology; Charles C. Wunder, assistant professor of physiology and Jerry J. Kollros, professor and chairman of the Department of Zoology.

Plans Set for Schwengel's Visit to City

Arrangements have been completed for Congressman Fred Schwengel's day-long visit in Johnson County Wednesday.

Chan Coulter, Johnson County GOP Chairman, has reserved the conference room in the Iowa City Chamber of Commerce quarters, 410 E. Washington St., for Schwengel to see constituents from 10 a.m. until noon and from 1:30-5 p.m.

Coulter will handle Schwengel's appointment schedule for the day. Appointments to see the Congressman can be made by calling Coulter in Iowa City, 8-8110.

Schwengel and his legislative assistant, David Ibsen, will meet with representatives of the Johnson County Soil Conservation Service and ASC Committee members from 9-10 Wednesday morning.

A luncheon with Republican party leaders in the county has been scheduled for the noon-hour.

Schwengel's tour of the 12-county District started December 5. Through this week, he has completed visits to all but four. In addition to Johnson County next week, Schwengel will be in Scott County, Monday; Iowa County, Tuesday; and Cedar County on Thursday.

This is the ninth year in which Schwengel has made a visit to all of the counties in his District prior to the start of the new session of Congress. He will return to Washington after the first of the year. The new session of Congress convenes Jan. 9.

U.S. Balloon Flight To Brink of Space Termed a Success

HOLLOMAN AIR FORCE BASE, N.M. (AP) — A balloon flight to the brink of outer space to study the stars was termed a success Friday by the two men who made the historic ride.

Air Force Capt. Joseph W. Kittinger Jr., 34, pilot, and William C. White, 40, civilian astronomer, reported, however there were no surprises.

The men were launched from a Holloman Air Force Base runway Thursday morning to study the stars from above the earth's distorting atmosphere. They rode in a 4,800-pound gondola attached to the 200-foot-diameter plastic balloon.

White, stationed at China Lake, Calif., said they attained an altitude of 81,500 feet.

The scientists landed safely on the southwestern New Mexico desert at 5:32 a.m., about 150 miles west of the launch site. The balloon and gondola landed near New Mexico Highway 81, about 40 miles southwest of Deming.

Data collected from the test will not be processed or analyzed for at least two weeks.

U-High Romps To First Win Friday, 57-25

A balanced scoring attack, supplemented by an effective full court press and good defense, enabled U-High to score its first victory of the season Friday night, a 57-25 defeat of West Branch.

The Blues scored nine points before West Branch broke into the scoring column after six minutes had elapsed. West Branch did not score a field goal until the halfway mark in the second quarter, and had only three field goals the first half and four the second.

Mike Saresky, U-High's center, scored the first seven points of the ballgame. Saresky left the game early in the second quarter with four fouls and didn't return until the second half. The Blues did not need his services, however, as Coach Jon Renner let his reserves see plenty of action.

John Haefner led the Blues with 12 points, followed by Saresky, Phil Geringer, and Skip Johnson, each with 11. High scorer for West Branch was Keith Brown with eight points.

Score by quarters:
U-High 15 16 13 13-57
West Branch 1 11 5 8-25

Wrestlers Nip Illini

(Special to The Daily Iowan)

CHAMPAIGN, Ill. — A pin by Norman Parker, Iowa's 130-pound wrestler, proved to be the decisive margin in the Hawkeye's 14-12 defeat over Illinois here Friday night.

Parker's pin added five points to the scoreboard. The Illini gained 12 points through four decisions. Iowa collected nine points on their three decisions.

The Hawkeyes captured the first three matches and then lost two in a row before Steve Combs won the 167-pound division.

Hawkeye All-American Tom Huff won the 137-pound match by the largest margin of the meet. He defeated Howard Ciancarullo, 14-2.

The Hawkeyes' next outing will be in a triangular meet with Ohio State and Wisconsin at Madison.

The meet results:

123 lb.—Tom Fuler (I.) decisioned John DeAño (III.), 3-1
130 lb.—Norman Parker (I.) pinned Tom Konig (III.)
137 lb.—Tom Huff (I.) decisioned Howard Ciancarullo (III.), 14-2
147 lb.—George Voth (III.) decisioned Mike Greenlee (I.), 5-3
157 lb.—Clayton Beatty (III.) decisioned Dennis Kohl (I.), 5-1
161 lb.—Willie Roy (III.) decisioned Willie Roy (III.), 8-2
177 lb.—Rich Callaghan (III.) decisioned Roger Murray (I.), 6-0
Hwt.—Dave Russell (III.) decisioned Roger Schilling (I.), 6-1

Tips for Safe Christmas

Fire has a better chance of striking during the Yule season than at any other time of year. To guard against tragedy in your home, the Sentry Safety Council of Hardware Mutuals-Sentry Life insurance group has compiled this list of fire tips:

- Select a fresh evergreen tree; stand tree in oil of water; and keep out of doors.

- When setting tree up just before Christmas, make a fresh diagonal cut at base.

- Always use stand which has a container for water and keep water level above top of cut.

- Use only Underwriters' Laboratories approved lights to decorate tree. NEVER use wax candles.

- Do not smoke while trimming tree or taking it down.

- Use only decorations made of fire-resistant materials.

- If needles near lights turn brown, move lights.

- Always turn off lights before you leave the house or when no one is going to be within sight of tree.

- When needles start falling, take tree down and discard outdoors. NEVER attempt to burn a tree in a fireplace warns the Sentry Safety Council.

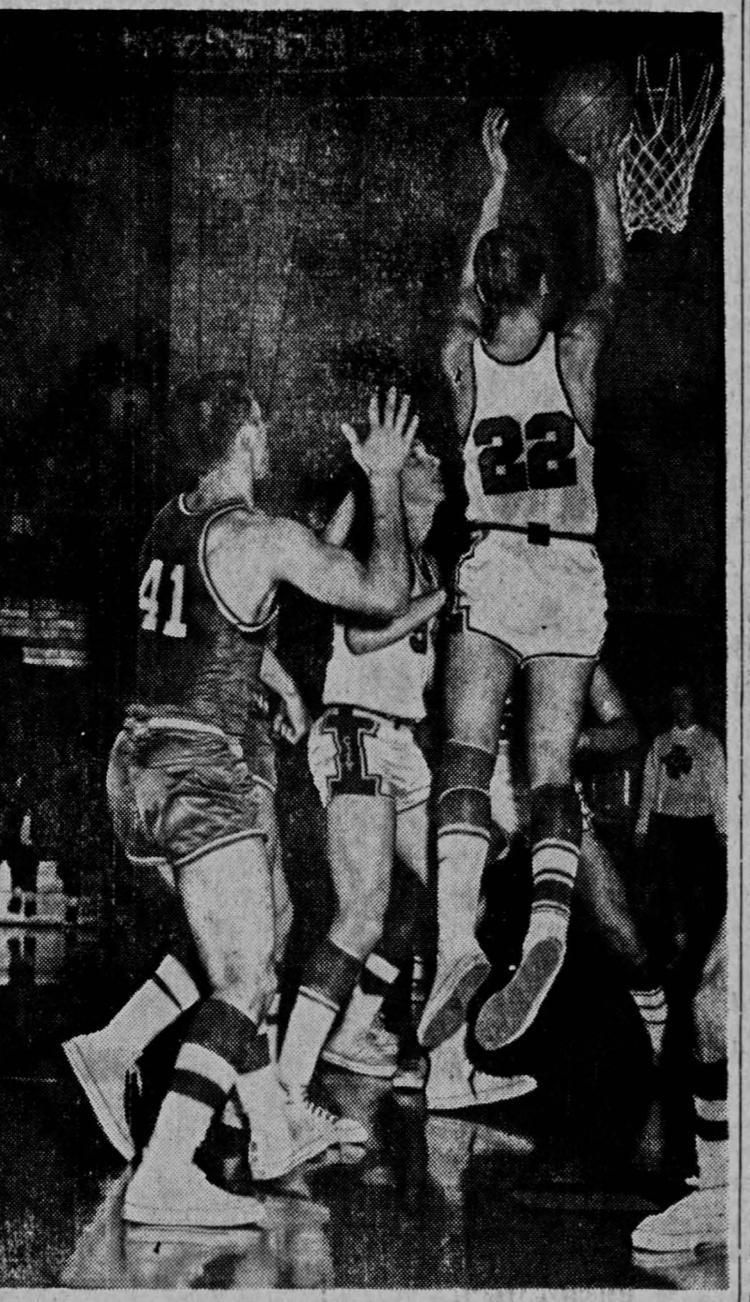

- If you have a metal artificial tree, use only off-the-tree lighting; short circuits in traditional tree lights will electrically a metal tree, shocking anyone who touches it.

- An electric train running around the tree looks safe but is a fire hazard—a spark from the engine could start a blaze.

- Never leave children home alone anytime, especially when Christmas decorations are up.

Finally, the Sentry Safety Council says a little extra care and common sense will make the nights after Christmas happy, too.

Davenport Trips City High, 43-42

By GEORGE KAMPLING
Staff Writer

The Iowa City Little Hawks lost a 43-42 decision to Davenport Central in Mississippi Valley Conference action here Friday night when Jack Hornbuckle sank a set shot from the corner with eight seconds left to play.

Big Jim Hester, Davenport center, was leading scorer for both teams with 22 points, and it was definitely through his efforts that Central gained the victory.

Hester made 10 of 16 field goal attempts, five in each half, but it was his nine points in the third quarter that kept Central in the running.

It was a rough and tumble game, with both teams losing the ball because of loose play and exceptional ball stealing on the part of both teams.

Central took an 11-6 lead at the end of the first period then opened the gap at 15-6 early in the second quarter.

City High, behind the ball-stealing antics of captain Don Rhoades, tied the game at 20-20 with 28 seconds left in the second half.

Harry Errett made a free throw with 10 seconds left giving Central a 22-20 halftime lead.

The third quarter found the score tied five times, with City High once gaining the lead on a basket by Richard with 2:30 left in the period.

Hester gave the Blue Devils a two-point third period lead to a basket with 25 seconds left.

A basket by Flora with 1:41 left tied it in the fourth quarter at 41-

Whites, Negroes Give Hometown Honor to Bell

SHELBY, N.C. — Whites and Negroes united Friday to honor Shelby's football great, Bobby Bell, the son of a Negro textile mill worker.

The All-America tackle at Minnesota was guest of honor at a luncheon, and was given the key to the city at the conclusion of a downtown parade.

The 6-foot-4, 217-pounder will be converted to an end or linebacker by the Dallas Texans of the American Football League, who signed him Thursday to a contract of about \$15,000 a year.

Civic and governmental dignitaries of the area, and his beaming parents, Mr. and Mrs. Pink Bell, attended the luncheon in the Presbyterian church.

Dean of Students Leroy Luberg said those who misrepresented themselves as 21 would not be issued official identification cards but would receive tickets.

If needles near lights turn brown, move lights.

Always turn off lights before you leave the house or when no one is going to be within sight of tree.

When needles start falling, take tree down and discard outdoors. NEVER attempt to burn a tree in a fireplace warns the Sentry Safety Council.

Iowa Meets Ohio Tonight

ECAC Asks AAU, NCAA Talks—Or Else!

Big 10 Backs NCAA Group

CHICAGO (AP) — The Big Ten reaffirmed its support of the national sports federation movement Friday at the second session of the conference's winter meeting.

Last March, the Big Ten formally threw its weight behind the NCAA-sponsored federations in track, basketball and gymnastics which are feuding with the National Amateur Athletic Union for control of amateur athletics.

Commissioner Bill Reed said the Big Ten's action Friday was aimed at emphasizing that the federations "represent the educational interests of the nation in the administration of sports policy."

Reed said the conference did not contemplate any boycott of AAU meets or withholding member facilities from AAU events at the conference level.

"Actually, the institutions themselves are not withholding their facilities from AAU meets," Reed said. "You won't find a single AAU meet being held at a conference school."

Reed said, however, that an AAU card-carrying track star would be denied the use of a Big Ten school's facility for practice.

The commissioners said the faculty representatives and athletic directors, in their joint meeting Friday morning, agreed to hold a caucus Jan. 7 in Los Angeles to discuss their plans for the annual NCAA convention being held there.

Test Seen for President's Plea

CHICAGO (AP) — Both Nebraska and Miami were on the scene Friday and the word definitely was go for today's Gotham Bowl game at Yankee Stadium despite freezing weather, a week-long newspaper strike and financial problems.

Although some 20,000 tickets reportedly have been sold, it will be surprising if more than 10,000 turn out at the ball park for the morning game at 11 o'clock, Iowa time.

The temperature is expected to be about 20 degrees at the kickoff.

Nebraska did not take off from Lincoln until James Pittenger, the Cornhuskers' ticket manager, called from New York to assure the chancellor of the university that a \$35,000 check for expenses had been certified.
