Strikes Called Off; Students Can Relax

SUIowans can breathe a sigh of relief about holiday travel today following the aversion of the AFL-CIO Machinists Union and United Air Lines strike, now enabling many students to fly home.

The threat of transportation strikes scheduled for midnight Wednesday by the AFL-CIO Machinists Union and United Air Lines, because of labor disputes, was headed off when the two groups reached agreements

early Wednesday.

United Air Lines, one of the nation's largest air carriers, has an office in Cedar Rapids and is the source of transportation home for many SUIowans.

United announced that it will follow its regular holiday schedule and estimated that it carries approximately 800,000 passengers during the Christmas-New Year's season.

OTHER airlines had indicated they were booked solid and

could not carry any overflow from United, had a strike occurred.

Notice of the strike aversion came only a few hours after Secretary of Labor W. Willard Wirtz announced that the AFL-CIO Brotherhood of Sleeping Car Porters had settled its dispute with the railroads. The porters had set their strike for midnight Thursday.

Union officials believed the nation's rail travel would have

been tied up by the strike.

THE airline contract settlement gave the union much of what it had asked. Included in the agreement was a 39 cent an hour three-stage wage increase.

Machinists claimed this increase was necessary to bring United's wages up to those in an agreement negotiated for with Braniff Airways, Inc., last week.

Mechanics for both airlines will earn \$3.52 an hour when all

three stages of the contracts are complete. The final step in the wage raise for both companies will come on Jan. 1, 1965 and both contracts will run through 1965.

TALKS of settlement apparently started Tuesday night when agreement was reached on the rehiring of 24 union officials who were fired after a wildcat strike last August.

Both sides agreed to arbitrate the dismissals under the terms

of this agreement.

Porters will receive an hourly wage increase from \$2.09 to \$2.53 partially retroactive to Feb. 1, 1962, under the terms of their agreement.

The settlement will also provide a gradual reduction in the work month of the porters from the present 205 hours to 174 hours by July 1965. Porters had asked for a 173 hour month, or a reduction of the present 48-hour week to almost 40 hours.

Ho! Ho! Boo-hoo, Boo-hoo

That's right. Santa came early this year with the SUI finals schedule. It's all on Page 6 in today's Daily Iowan with an explanation of the week's activities. —Photo by Bob Nandell

Charged with Rape—

Youth, 19, Escapes From County Jail

Iowa City's Police Department, the Johnson County Sheriff, and several Iowa Highway Patrolmen searched Iowa City and surrounding areas Wednesday night for a county jail escapee Thomas Gene Johnson, 19.

Johnson, described as five feet, ten inches, approximately 200 pounds, and with dark brown wavy hair, escaped from the county jail at 6:40 p.m. Wednesday where he was being held on a rape charge.

ACCUSED OF raping an 18-year-old Iowa City girl on Dec. 10, Johnson was being held in lieu of \$10,000 bond and was scheduled to go on trial Monday. He reportedly walked out of the jail following a visit from his mother.

Hearings on Rights Bill Due Jan. 9

WASHINGTON (AP) — Chairman Howard S. Smith of the House Rules Committee announced Wednesday he will open hearings on the civil rights bill Jan. 9 — a week earlier than had been expected.

The Virginia Democrat's surprise announcement capped a number of congressional developments including:

- The senate approved by voice vote and sent to President Johnson congressional authorization to place the likeness of the late President John F. Kennedy on new half dollars.
- The House Rules Committee approved for floor debate legislation naming the national cultural center in honor of Kennedy.
- The Senate Finance Committee ordered a new study of the stock option tax privilege after disclosures of possible gains to be reaped by Chrysler Corp. executives.

Smith, who released the civil rights hearing date in a House speech, is believed to have bowed to pressure from Speaker John W. McCormack, (D-Mass).

McCormack met with civil rights leaders Tuesday and was unable to give a firm date then. He and majority leader Carl Albert, (D-Okla.) met with Smith later.

Smith would not estimate when the hearings might be completed, but said, "I shall not encourage dilatory tactics." At the same time he said he hoped a majority of the committee would not try to cut off too soon many members who want to testify.

A MOVE to do so, however, is believed possible after one week.

Johnson Plans To Spend Yule With Family and Go Hunting

WASHINGTON (AP) — Since he took the oath of office almost four weeks ago, President Johnson has been working 18-hour days. Now he would like to take a little rest.

"I hope to spend Christmas Eve with my sisters, my brothers, my uncles, cousins, aunts and my family," he told a news conference Wednesday.

"Immediately after Christmas I am going to relax a little."

"I might even — I don't want to keep my secrets from you people — I might even go hunting. I haven't had a chance to do that this year, and I would like to go and spend a day out in the hills, communing with myself."

Where Johnson will spend his vacation was not disclosed.

For a man who rises at 6:30 a.m. and goes to bed about midnight, rest tends to be a change of activity — rather than a sitting spell on the porch swing.

Normally, the President reads for a couple of hours in the morning — rapidly going over government reports and six or seven newspapers. Friends say he reads quickly and remembers most of it. He goes to the office about 9 a.m., and works until 7 p.m.

His major exercise is swimming — and for some 20 minutes or so he goes at it hard in the White House pool.

Johnson generally dines with his family or friends, mostly from Congress, and then spends another few hours reading before going to bed.

That schedule will change, although his plans are not yet positive.

"I plan to fly to my home either the night of the 22nd, after I light the Christmas tree and appear at the Lincoln Memorial, or sometime the 23rd," the President told newsmen.

He referred to the national Christmas tree in the mall back of the White House and the Lincoln Memorial ceremony honoring the late President John F. Kennedy next Sunday.

Hultman Asks State Remap By June 1st

Atty. General Requests Special Capitol Session

DES MOINES (AP) — Atty. Gen. Evan Hultman has asked U.S. District Court to give the Iowa Legislature until June 1 to reapportion itself satisfactorily.

Hultman filed a supplemental brief Wednesday on behalf of the state in a reapportionment suit pending before a three-judge Federal Court panel.

He asked that the legislature be directed to apportion one house strictly on a population basis and the other house on the basis of other factors including population.

THE SUIT now before the court attacked both the present apportionment of the legislature and the Shaff Plan of reapportionment which was rejected by a vote of the people Dec. 3. The court will hear final arguments in the case Friday.

The labor leaders challenging the present apportionment are Charles L. Davis and Arthur L. Lewis, officers in the Iowa Federation of Labor, AFL-CIO.

They asked in the suit that the court order Iowa to revert to the 1857 Iowa Constitution which provided for election of all senators and representatives on a population basis or to order all legislators

elected at large until the legislature reapportions itself.

IN EFFECT, Hultman asked the Federal Court to order Gov. Harold Hughes to call a special session of the legislature in the first half of 1964. The attorney general said if the legislature failed to come up with a satisfactory reapportionment plan by June 1, the court then could order some other remedy.

In a brief filed Wednesday by their attorney, Harry Smith of Sioux City, Davis and Lewis contended that "it is extremely unlikely" that the legislature, controlled by a minority, could draw up a fair plan.

THE LABOR leaders seek elimination of 1904 and 1928 amendments to the apportionment provisions of the Iowa Constitution.

But, Hultman argued, knocking out the amendments would not re-

vive the 1857 apportionment. Instead, he said, such a move would leave Iowa with no constitutional provision at all for legislative apportionment.

The right of apportioning the legislature belongs essentially to the legislature and the people, and the legislature has demonstrated its good faith in attempting to reapportion itself, Hultman said.

HE SAID the people of Iowa have a remedy available which the Federal Court could and should assist in implementing, but that there is ample time to change the present apportionment without a drastic remedy such as a court-imposed redistricting or an at-large election of legislators.

Earlier Wednesday Gov. Hughes told his news conference he would not call a special session of the legislature to deal with reapportionment without prior conferences with legislative leaders of both parties.

HE SAID whether a special session is called at all depends on what action is taken by the three-judge panel. He said the Federal Court may set some guidelines on the issue.

The governor said he feels issues which could be considered at a special session could be appreciably narrowed in conferences with legislative leaders before the session.

Warmer Temperatures Today; High of 8 Predicted Here

Today's weather is not going to be a heat wave, but it will be warmer than Wednesday.

The prediction calls for highs up to 8 degrees as compared with Wednesday's high of 1 degree.

The weather will continue to be fair and cold Friday. The state forecast calls for high temperatures from zero to 10 above in the east and up to 15 in the west, becoming mostly cloudy tonight and warmer over the state.

Today will be the eighth day Iowa City's highest temperature has not been over 20 if the predictions are accurate.

WEDNESDAY'S weather in Iowa was bright and bitter cold, with northwesterly winds adding to the chill. After a night of sub-zero temperatures, the mercury failed to rise above zero at some points in the state Wednesday.

Lows Tuesday night ranged from six below zero at Dubuque down to 17 below at LeMars and Sibley. High temperatures Wednesday got to a few degrees above zero in the west, but stayed below zero in the northeast.

Skies will be generally fair through tonight, but with increas-

ing high cloudiness and slightly warmer temperatures. High readings today will be near zero in the northeast and around 10 above in the southwest.

FRIDAY will have clear to partly cloudy skies and continued cold

temperatures.

The Iowa Highway Commission reported Wednesday that all highways in the state were normal except for scattered patches of packed snow at junctions and in towns.

Students Riot In Red Square

MOSCOW (AP) — About 500 angry African students swept past police barricades into Red Square in a protest Wednesday against the death of a medical student from Ghana.

To the amazement of thousands of onlooking Russians, they scuffled with police and raced along the wall of the Kremlin right under the windows of Premier Khrushchev's office.

A delegation later was received by the education minister, Vyacheslav Yelutin. They told him the dead student, Asare Addo, 29, was stabbed to death by a Russian last Friday. The delegates said they were told by Yelutin that Addo froze to death but they didn't believe this.

It was the first known public demonstration of foreign students directed against the Russians.

The Russians probably were also startled to hear one of the demonstrators shout: "Moscow is a second Alabama!"

Business Frat Meets

Alpha Kappa Psi, business fraternity, will hold an active meeting today at 7:30 p.m. in Conference Room 203 at the Union.

A film, "Medieval Guilds," will be shown after the meeting.

Cozy Gamma Phi Fireside

SUowans and Iowa Citizens escaped the cold Wednesday afternoon and enjoyed a little "Christmas Cheer" in the form of coffee and donuts at Gamma Phi Beta social sorority's annual "fireside." Members of the sorority invited whoever they chanced to meet around 4 p.m. to their house at 328 N. Clinton. Expressing their holiday spirit

are: (from left) Carole Andersen, A4, Clear Lake; Iowa City Mayor Fred Doderer; Sue Corson, A4, Evanston, Ill.; Dean of Student Affairs M. L. Huit; Eldridge Roark, fraternity adviser for the Office of Student Affairs; and Carolyn Rabe, A4, Manchester. —Photo by Bob Nandell

Johnson Opens Door To Any World Heads

Calls \$600 Billion GNP 'Fine Christmas Present'

WASHINGTON (AP) — President Johnson opened the door Wednesday to a meeting with Soviet Premier Khrushchev or any other world leader — "at any time there is any indication a meeting would be fruitful and productive."

"When there are such indications, I will be glad to make a decision and inform you of it," the President told a surprise news conference after a reporter asked his views "toward perhaps an early meeting" with the Soviet leader.

With about 50 reporters crowded in front of his desk, Johnson spent half an hour talking about his budget, his hopes for progress at home, and his plans in international affairs.

Winding up the second of his Johnson-style news conferences, the President declared, "the No. 1 obligation of the President of this country and every citizen of every country is to learn how to live together."

JOHNSON, who talks Dec. 28 and 29 with West German Chancellor Ludwig Erhard, said he expects to meet early next year with the president of Italy, the prime minister of Canada, the president of Mexico "and with any other leaders where it is indicated a conference would be mutually desirable."

And he added that his Tuesday address to the United Nations was "a meeting with world leaders from 113 countries."

Liz, Burton Plan Mexican Marriage 'Sooner the Better'

PUERTO VALLARTA, Mexico (AP) — Richard Burton said Wednesday he and Elizabeth Taylor will be married somewhere in Mexico "just as soon as possible — and the sooner the better."

He said "the date depends on Mr. Fisher," referring to Eddie Fisher, Miss Taylor's estranged husband, with whom divorce proceedings have been on an again, off again matter for months.

Miss Taylor said the question of whether she or Fisher would get the divorce had not been decided.

The pair made the statement in an interview at this tropical west coast resort.

This was the first direct word from either Burton or Miss Taylor that they intended to climax their lengthy international romance with wedding bells.

Burton's wife, Sybil, obtained a Mexican divorce earlier this week, clearing 50 per cent of the path to the altar.

lem and increasing the number of jobs."

"But we do expect to have programs that will deal with new situations and we do expect never to just be content to sit in our rocking chair and enjoy the status quo," the President said.

Johnson said the government will spend about \$99 billion during the current fiscal year, and in drafting his new budget he faces \$3.5 billion in built-in increases due to pay raises, new programs and other outlays that already have been determined.

"NO ONE knows what the budget will be now, because we are trying the case, so to speak," Johnson said.

The President said agencies that want more money still have the right to appeal to him — and the Joint Chiefs of Staff will do just that Dec. 30 at the President's ranch in Johnson City, Tex.

Johnson said at that time "we will try to finalize the budget for the Department of Defense."

The chief executive announced he is appointing Thomas Mann a special assistant as well as assistant secretary of state for inter-American affairs.

THE State Department nomination was announced Saturday. Johnson said he decided upon the extraordinary dual assignment because "we expect to speak with one voice on all matters affecting this hemisphere."

Mann, from Waco, Tex., now is U.S. ambassador to Mexico.

"We know of no more important problems, anywhere, any time, than the problems of our neighbors," Johnson said. "We want to see that our relations with them be the very best."

Today's News Briefly

THE SENATE BEGAN debate on a \$3.3 billion foreign aid money bill Wednesday by defeating an attempt to knock out a \$50-million Latin-American item. Then it put off further action on the measure until today.

DEAN RUSK, U.S. Secretary of State and British Foreign Secretary Richard A. Butler returned to London Wednesday after attending the ministers meeting in Paris of the North Atlantic Treaty Organization. Rusk will remain in London to discuss the West's next move in the disarmament field and outline the Washington talks in February when Douglas-Home is scheduled to visit President Johnson.

PREMIER CHOU EN-LAI of Red China Wednesday received emergency treatment for a brief attack of faintness and nose bleed, but finished the day in evident good spirits. Chou was on a one-day flying trip to Aswan, Egypt, where the Soviet Union is helping build a billion-dollar Aswan dam — a larger aid project than China ever got from Russia.

ILLINOIS SENATE and House Republicans will hold separate caucuses in Springfield today to discuss policy for the coming special session of the Illinois legislature and an at-large election of state representatives.

SUI Spring Festival begins to take shape

MOTHERS WILL BE GIVEN added incentive to attend the SUI Mother's Day weekend this spring, Senate President Mike Carver announced at Tuesday's Senate meeting that the Mother's Day planning committee has given tentative approval for an SUI Spring Festival to be held Wednesday, Thursday and Friday before Mother's Day.

The Senate committee for the festival will present a report to the next Senate meeting. It is encouraging to see that plans for the festival are well underway; so often the difficulties of such an undertaking cause it to bog down in the planning stage. A properly planned festival could become a worthwhile asset to the faculty and students of SUI; it will be interesting to see what the January Senate report has to offer.

-Jon Van

An international thaw and a hesitant House

IT MAY BE SUB-ZERO in Iowa City, but internationally things seem to be under a warming trend.

President Johnson told the United Nations in New York that he would welcome an end to the cold war "once and for all." The speech was greeted with a warm reception, especially from representatives of countries in the Soviet bloc.

Dean Rusk told members of NATO early in the week that the western allies should help the Soviet Union win its power struggle with the Chinese Communists.

Robert McNamara told the NATO countries in Paris that the United States hopes the Soviet Union will meet the Western powers half way in the quest for peace.

And while all these signs of a "thaw" in the cold war are presenting themselves even Congress may cooperate, at least a little. On Monday the House not only made the expected cut in appropriations, but it also refused to support the Export-Import Bank finances necessary to carry on the wheat sale to Russia.

Tuesday the Senate Appropriations Committee rescinded about half a million dollars of the House aid cut and knocked out the House-approved credit ban for the wheat deal.

When the final appropriations bill is passed, hopefully it may allow enough to continue at least a minimum foreign aid program and allow the necessary credit for the Russian wheat sale.

The trouble in Congress over financing foreign aid and credit for the wheat deal is an odd accompaniment to the overtures of peace and co-existence being played by the President and members of his cabinet.

We are glad that the Senate, usually the more "internationally oriented" house in Congress, is not going to allow all the basic factors of President Johnson's international program to be eliminated by the House.

As President Johnson told the United Nations, "Peace is a journey of a thousand miles, and it must be taken one step at a time."

It would certainly be helpful as we begin the journey if everyone could decide ahead of time in which direction the steps should be taken.

-Jon Van

What gifts father would like for Christmas

BY ART BUCHWALD
WASHINGTON — Kids these days have no appreciation of the real value of Christmas. All they talk about is how many presents they're going to get. None of them are aware of the sacrifices their fathers have made to make their Christmas a pleasant one. We fathers don't want much in exchange. All we ask is that our sons let us play

BUCHWALD

with their toys on Christmas morning.

Last Christmas we bought our ten-year-old son an electric racing car set. It looked like a real speedway and came complete with a scaled model of a Ferrari and a Lotus racing car. There were banked curves, bridges, fences and pits. You couldn't ask for a better present.

Christmas morning we said to our son, "How about playing with your racing cars? We could have a race."

"I don't want to," he said, unwrapping an aircraft carrier.

"What do you mean, you don't want to? You know how much

that thing cost?"

HE WAS adamant. "I don't want to play with them now."

"He doesn't want to play with his cars," we said to our wife.

"It's his Christmas," she said. "Let him play with what he wants to."

"You're always taking his side," we complained.

"Play with the cars yourself," she said.

"It's no fun. You have to have two to race."

The boy opened a fort we had especially selected. We started placing soldiers in it.

"I don't want the soldiers

placed like that," he whined.

"That's the way they should be placed," we said. "I wasn't in the Marines for nothing."

"I want them another way."

"I said they should go like that."

HE RAN OFF to complain to his mother. She said, "Why don't you let him put the soldiers in the fort the way he wants to?"

"All the soldiers will get killed if he does," we said.

"Well, that's his business. Why don't you open your own presents?"

We opened up a box and all that was in it was a cashmere pullover sweater.

Find some housing discrimination still exists

By BISWANATH SHAW
Staff Writer

Many SUI students say they are forced to stay off-campus due to limited accommodations in University residence halls and married students quarters. High cost in the SUI dormitories is said to be another factor for students staying off-campus. Choice of food in the case of most foreign students is an important consideration for living in private apartments in the city.

A recent survey conducted by the Iowa City Human Relations Commission indicates that there are approximately 3,550 University students living at 1,200 addresses in off-campus housing. These houses, the report adds, do not include fraternities, sororities or homes of students who are native to Iowa City and staying at home.

SUI has been able to provide accommodations for 4,380 men and women students in the residence halls. Total number of students registered this semester is 12,923.

Fraternity and sorority houses accommodate 1,479 men and

women students. Some 1,200 students, according to the office of Student Affairs, stay in homes in the city with their parents or relatives and about the same number live in the communities outside the city.

Married couples, of whom 746 men and 139 women are students of the University, have been accommodated in 876 University married students quarters at North Park, Quonset Park, Riverside Park, Templin Park, South Park, Finkbine Park, Stadium Park, Parklawn Apartments and Hawkeye villages.

Out of total number of students staying in off-campus housing, the numbers of single men and women students under 21 are 648 and 235 respectively. Most undergraduate students under 21 stay in the University residence halls.

The number of students over 21 staying in private apartments totals 1,467 men and 562 women. These figures do not include late registered students.

ACCORDING TO SUI regulations, all single undergraduate students under 21 are required to reside in quarters approved by

the University. Students who have reached the age of 21 prior to or at the time the student registers for a semester, are not subject to this requirement. SUI approved housing includes University residence halls, fraternity and sorority houses, approved rooming houses and parental residences, including residences of close relatives.

SUI has approved about 375 houses in the city for the residence of single students under 21. There are 325 such houses for men and about 50 for women under the University-approved housing scheme. Approvals for off-campus houses are granted under certain conditions. Householders are approved by the SUI Office of Student Affairs if satisfactory adult supervision is provided and householders agree to enforce regulations of the University concerning rental policy, physical facilities and conduct of residents.

MOST HOUSEHOLDERS rent the entire house and some rent portions of their living residences. Most apartments are furnished and have shared kitchen and bath rooms. Only living rooms without cooking facilities are rented by

some householders, especially those who reside in the same house and rent a portion of it. The rent in private apartments with shared bath and kitchen for single rooms is \$45 to \$75 per month. In double and triple rooms the charge varies from \$25 to \$45 per person a month. The unfurnished apartments cost less than the furnished ones.

The rates of private rooms or apartments depends on the condition of the house, furnishings and distance from the school. Other things being equal the nearer the campus, the higher the rent. In general, the theory of supply and demand operates in case of rent-fixing of private apartments in Iowa City.

Students staying in private apartments complain that apartment rents have been increased by the householders during the last three to four years. The householders say they have increased the rent because they have invested more money for improvements of the building and in providing better furnishings. It seems to be the general feeling that the increase in the number of students in the University, limited accommodation in the Uni-

versity residence halls, and cost in the dormitories are among the factors for private apartment rent increases.

It is the firm policy of the University for householders to rent to all students on the basis of individual merit as persons without discrimination on the basis of race, color or national origin. It is further presumed that all off-campus housing conforms to University standards, city ordinances and state housing laws.

The Rev. L. D. Soens, chairman of the City Human Relations Commission, in an interview said he is not optimistic about the attitude of most householders of the city on the matter of renting private apartments to persons without regard to race, creed or national origin. A survey recently conducted by the commission shows that many landlords are not willing to rent their apartments to members of the minority community.

Some of the landlords, unwilling to rent, freely volunteered information while about 12 per cent refused to answer the survey questionnaire. Some of these

freely volunteering the information said this was due to conviction that such groups are, as such, not desirable tenants. Most landlords felt that a great problem for them in their decision to rent to minority groups is the attitude of neighbors and their present renters.

The Rev. Soens believes that it is possible to work in the community to create a wholesome and favorable atmosphere for minority groups. On being questioned about the possibility of a city house ordinance, the Rev. Soens says that further study of the problem is required before recommending for such legal action.

SUI students in general feel that the University has a responsibility to one-third of its students presently staying in private apartments either due to unavailability of accommodations in University residence halls or due to economic reasons. They feel the people of Iowa City, proud of SUI, should set an example by changing their attitude and removing the feeling of discrimination of race, color and national origin and by showing a more liberal and generous attitude towards the students of minority groups.

"Well, time to close up shop"

University Bulletin Board

University Bulletin Board notices must be received at The Daily Iowan office, Room 201 Communications Center, by noon of the day before publication. They must be typed and signed by an advisor or officer of the organization being published. Purely social functions are not eligible for this section.

MATHEMATICS COLLOQUIUM will meet Thursday at 4 p.m. in 311 Physics Building. Dr. Joseph M. Martin of the School of Mathematics of the Institute for Advanced Study will speak on "When Can Spheres Link?" Coffee will be served at 3:30 p.m.

CHRISTMAS SALE at the Guild Gallery, 1304 S. Clinton, Ceramics, enameled painting, sculpture and prints. Hours are 3:30-5:30 p.m. and 6-8 p.m. Monday through Friday. Open all day Saturdays before Christmas.

ALL PICTURES which appeared in the 1963 Hawkeye are for sale at the Hawkeye Office, Room 210, Communications Center. Pictures may be purchased for \$20-400 each, daily, except Saturday and Sunday. The sale ends Thursday, Dec. 19.

PHYSICAL EDUCATION EXEMPTION TESTS: Male students wishing to take the exemption tests for Physical Education Skills must register to take their tests by Wednesday, Jan. 8 in 122, Field House, where additional information concerning these tests may be obtained. Students who have not registered by Jan. 8 will not be permitted to take the exemption tests during the first semester of the 1963-64 school year.

FOLK DANCE CLUB meets every Monday at 7:30 p.m. in the Women's Gym. Everyone welcome.

VETERANS. Each student under 21 must sign a form to cover his attendance during the month of November. The form will be available in R-5, University Hall, beginning Dec. 2. Hours are 8:30 a.m. to noon and 1 p.m. to 4:30 p.m.

BABYSITTERS may be obtained by calling the YWCA office during the afternoon at 2240.

TO CANDIDATES FOR DEGREES in February: Orders for official graduation announcements of the February, 1964 commencement are now being taken. Place your order before noon Wednesday, Dec. 27, at the Alumni House, 130 N. Madison St., across from the Union. Price per announcement is 12 cents, payable when ordered.

SUNDAY RECREATION HOURS: Fieldhouse will be open for mixed recreational activities from 1 p.m. to 5 p.m. each Sunday afternoon. Admission to the building will

New report informs on mental illness

By RALPH MCGILL

This finally gets down to the new Menninger (psychiatric) Foundation report for 1962-63. But a preamble is necessary. Only a brief span of time lies between us and the President's pitiless assassination.

Yet, already gunfire in the dark cover of night has echoed in a rural Georgia county north of the Florida border. (A worker for Negro voter registration was wounded.) Slowly, the voices of anti-Semitic hate and lies attain their former loudness. From the more virulent of the semi-secret White Citizens Councils, counterparts of the Black Muslims, there come the same old denunciations of federal courts and law and promises of defiance. The Communist mentalities and the right wing Birch-types that called President Eisenhower a Communist stooge and Secretary of State Dulles a Marxist traitor, are again in full voice. Once more we see they all have alienated themselves from their country.

We know that one of every eight Americans has had some degree of mental therapy and that the percentage increases. President Kennedy's foreign and domestic programs were enlightening. The domestic one contained legislation designed to improve mental health services. This bill was long overdue. His assassination by a

young man, as early as 13 years of age, was declared psychiatrically sick by a reputable practitioner, and that man's murder by a middle-aged adult for whom a plea of temporary insanity is probable, make the Kennedy bill heartrendingly relevant.

IT IS NECESSARY to give top priority to this legislation and to use it as a foundation on which to erect a mental health program which, with state and federal cooperation, will be able to cope with the already shocking problem of disturbed persons, many of them dangerously deep in schizoid paranoia.

How late are we? In 1961 came the final report of the joint Commission on Mental Illness and Health, commissioned by the Congress of the United States. This was a comprehensive blueprint for changes in federal, state and local programs of care of the mentally ill and directed the national attention to it.

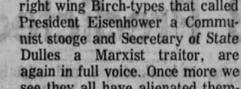

A year later the American Medical Association held its FIRST (capitals my own) National Congress on Mental Illness and Health and dedicated its membership to the fight against mental illness. The AMA said, "Mental illness is America's most pressing and complex health problem."

On February 5, 1963, President Kennedy gave the Congress what was then recognized as a historic message on mental illness and mental retardation. "We as a nation have long neglected the mentally ill. . . ." The President called for a "bold new approach, based on new information. . . ."

It should grieve humanity that it cannot recognize greatness until it is taken away. We had never understood him: to his words, his pleas we paid scant attention for we thought, "the empty phrases of a politician" — base mind, base heart that would alloy such nobility to the gutter.

He was our conscience being more sensitive to the ills of our society and not unwilling to change it but he found us unyielding and cold as all those who would be a conscience to their society must. However, he would not allow us to remain indifferent and to have peace while evil prevailed and so we took up the dagger and gave it to Brutus and Brutus plunged it into Caesar's heart.

We are all guilty as it has been said of that dastardly crime

Irwin L. Gagne

Letters to the editor

Let us continue in the spirit of JFK

To the Editor: Yesterday I saw a film message dealing with Bill of Rights Day by our late president, John Kennedy. The effect on the audience was paralyzing. Not a head moved from one side or the other while he talked and the silence was but for the words of the fallen president as though there had been an absence of air to carry sound and it seemed to me that I could hear the dull ringing in my ear in the quiet between his words. For the first time I watched him and listened to his words knowing that this had been a man — where such another!

He was a man who could not in conscience say, "Lord I think thee that I am not as that colored man who must grovel in the earth before us and that I am a white American enjoying the privileges of opportunity." He would have righted that wrong, he would have us right it now. It is a petty race of beings that must spend its life giving chase to an illusion, an illusion that it is greater if it can look down. Small is the man who needs as a crutch to his self-esteem to use another as something less than he is. John Kennedy would have made the Bill of Rights a reality for all Americans without regard for race or creed. Let us continue in his spirit.

Irwin L. Gagne

Selection of New SUI Head Shrouded in Secrecy

Amidst great speculation, Iowans are eagerly awaiting appointment of the man who will succeed Virgil M. Hancher as president of SUI when he retires July 1.

The selection will be made from a list of 90 candidates by the 12-member state Board of Regents.

According to Maurice B. Crabbe of Eagle Grove, chairman of the Regents' educational policy committee which is leading the search for a suitable president, the choice may not be possible before late January.

The Board of Regents will meet Jan. 9-10 in Des Moines for a regular monthly meeting. Discussion concerning the selection of a new president is planned, but an appointment is not expected at that time.

BEHIND THE SCENES, the educational policy committee, with the aid of faculty and alumni representatives is screening the 90 candidates. It reports all names to the Regents.

President Hancher will leave office under mandatory retirement provisions, shortly before he is 68.

The selection committee's task, Crabbe pointed out, is to cut a list of 90 possibilities down to one. The committee wants to get the job done so the new president can assume direction of the University as soon as Hancher retires.

Also, the selection should be made early so that if the new president is now at another institution, he can give a semester's notice to that university.

PRESIDENT HANCHER
Retires July 1, 1964

PERSONS not connected with

educational institutions are being considered as well as faculty members and administrators at SUI and other institutions.

No applications for the position have been received, according to Crabbe. All prospects came to the attention of the selection committee through suggestions from other persons, educational organizations and similar sources. Many suggestions have come from members of the SUI faculty and alumni, Crabbe said.

The selection of a new president of the University is no easy task. "I haven't been in the Eagle office for two months," said Crabbe, publisher of that newspaper, when asked how much time the job was taking him and other members of the committee.

The committee chairman said a list of criteria the new president should meet was prepared early in the task. He declined to describe exactly what these were, but said they included personal characteristics, background and experience.

SUI FACULTY members working with the committee were principally responsible for the specifications the new president should meet. Crabbe had high praise for the faculty members working with the Regents, commenting, "I don't know where we'd be without them."

Elected by faculty members to represent the academic staff on the University in the selection process were Charles W. Davidson, professor of law,

Jerry Kolros, professor of zoology, and J. R. Porter, professor of microbiology.

Dean Mason Ladd, dean of the College of Law, represents the administrative council composed of deans and directors. John C. Greer of Spencer, alumni association president, represents the alumni.

Members of the Regents' educational policy committee, in addition to Crabbe, are Mrs. Joseph F. Rosenfield of Des Moines, Melvin Wolf of Waterloo, and Wilbur C. Mollison of Grinnell. Alfred W. Noehren of Spencer, Board of Regents president, is also taking part in the screening work.

THE REGENTS decided last March on the general procedure

it would follow in selecting a new president. Faculty members chose their representatives during the summer.

The Board will not disclose the names of any persons under consideration. Only the final choice will be announced.

A committee member said Tuesday that the committee is "working well in an earnest effort to make the best selection possible for this important position."

"Any publicity at this time would hurt the process rather than help, because many candidates are being considered and until the selection process is further along, it would be harmful to them and to those making the selection, should any names be known."

Medical College Shares Donation

The SUI College of Medicine and 24 other midwestern division medical schools will share a \$16,000 gift from the Carling Brewing Co.

The donation was made to the National Fund for Medical Education as a Christmas memorial for the sixth consecutive year, according to Otway W. Rash, regional vice president of the company.

The money is used to improve the education and facilities for medical students.

\$380 Billion Budget—

City To Benefit From Road Plan

Iowa's new five-year program (1964 through 1968) scheduling primary and Interstate highway construction which will cost an estimated \$380,331,000 was released Wednesday by the Iowa State Highway Commission.

Work scheduled in Johnson County during the next five years includes completion of Interstate 80 paving west of Highway 218, improvement of the U.S. 218 and Iowa 153 intersection, and construction of three new bridges. One of the new bridges planned is a span over the Iowa River on Burlington Street.

THE PROPOSED southwest Iowa City bypass is not included in the new five-year program. However, the bypass has been recommended to the Highway Commission and it may be included in the next five-year program with first purchases of right-of-way to begin in 1966.

The program is the fifth such program since 1959, when the Commission began the policy of announcing its construction plans five years in advance. Each year the program is reviewed and extended one year to work five years into the future.

THE LAST four years of the new program reflect the increasing maintenance costs which will be made necessary as more Interstate and primary highway mileage is opened to traffic.

During the five years of the program, construction and right-of-way for the Interstate system will cost an estimated \$217,968,000. Construction and right-of-way on the regular primary highways will cost an estimated \$162,363,100.

COMPLETION of the Interstate paving scheduled under the new program will mean that by the end of the 1968 construction season, Iowa will have completed approximately 553 miles of its 710-mile allotment.

The program indicates that pav-

ing of the 57 miles of I-80 in Iowa, Johnson and Poweshiek counties is scheduled for completion next year. Bids for this work, which will close the gap between Des Moines and Davenport, have already been received.

THIS WILL include paving 20 miles of I-80 between Iowa 149 and U.S. 218 in Iowa and Johnson counties, which was scheduled as part of the 1963 program.

The program indicates that extensive work on primary extensions is scheduled in Iowa City, Cedar Rapids and 25 other cities.

Improvement of the intersection of U.S. 218 and Iowa 153 in Johnson county, costing approximately \$34,400, is scheduled for 1964. Other work planned in Johnson county, to be accomplished in 1967, includes — construction of a new bridge spanning the Iowa River in Iowa City and two new bridges on U.S. 218 in the Hills area.

THE NEW bridge planned in Iowa City on Burlington Street will cost an estimated \$306,900. Combined estimated cost of the bridges planned on U.S. 218, over Old Man's Creek and a branch of the creek, is \$182,900.

Other milestones scheduled during the new program include new bridges over the Mississippi and Missouri Rivers, and completion of the Des Moines Freeway.

Close Call For McNamara On Plane Trip

PARIS (AP) — "What a close call!" one U.S. defense Secretary Robert S. McNamara's aides said Wednesday. "We almost had it."

The close call was a near collision of two big American planes on fog-shrouded Orly Airport. No one was hurt.

One was a Boeing K135 four-jet transport taking off with McNamara and his staff for Saigon, South Vietnam, to review progress of the American-backed war against Communist guerrillas there.

The other was a Trans World Airlines Boeing 707, civilian counterpart of the K135, inbound with American servicemen's dependents from McGuire Air Force Base, N.J.

Arthur G. Sylvester, assistant secretary of defense, said only the cat-quick reflexes of the K135 averted disaster.

With a loaded weight of 24 tons, the K135 rolled to within 1,000 feet of the slowly moving TWA plane, then was steered off the runway. McNamara and the others in the plane scrambled out an emergency escape hatch and down a ladder to the runway.

"When a big plane is put under this type of stress it heats up and you never know about fire," Sylvester said. "We got out plenty fast."

Sylvester said McNamara had no comment on the incident, adding with a chuckle: "None you can print, anyway."

McNamara diverted a K137 arriving from the United States on another mission to take him and his party to Saigon.

Since the last visit in September, President Ngo Dinh Diem has been overthrown in a military coup that led to his death. The presidency of the United States also has changed hands.

U.S. military sources said these factors, plus an increase in Communist Viet Cong activity after the coup, prompted McNamara's return for an on-the-spot study.

Raps Engineers—

Peaceful Resistance Urged by Pacifist

Non-violent resistance should be used as a means of settling disputes between nations instead of all-out war, Mount Vernon pacifist Walter Gormly said Wednesday noon at the Engineering faculty luncheon in the Union.

Gormly, who spoke on "Moral Responsibility of Engineers," told engineering faculty members if the United States cut all its military bases, he is certain that Russia would not invade our country.

He said the communists have never taken over a country without strong support in that area.

"DON'T HELP your enemy govern your country when they try to take it over," he said. According to Gormly, this would be an example of a non-violent resistance technique which could be used in place of war.

Gormly said the real purpose of military strength in the United States today is not for defense, but should be used to "strong arm" for the State Department or the U.S. Foreign Office.

Gormly compared the international situation during the past decade to the teenage game of chicken in which automobiles are driven head-on at high speeds.

The object of the international game is to make the other nation deviate from its policy lines in a certain situation. We did it to Russia in the Cuba affair and the Russians did it when Khrushchev asked Eisenhower to calm down diplomatic heads of France, England and Israel after their countries had invaded Egypt, he said.

GORMLY blamed the engineers in this country for building the nuclear weapons and equipment for supporting the international game of chicken.

He called for more responsibility on everybody's part as far as be-

ing aware of international policies and the purpose for which machines are being built.

He asked that all engineers in the United States try to find work which will produce products of a constructive instead of a destructive nature.

Gormly said more social science research is needed to find new methods to insure peace.

He suggested inviting any citizen of the United States to write a letter to the United Nations about any violation of a disarmament pledge. Possibly a Gallup Poll should be taken first to see how many people would report such a violation, he said.

IN ORDER to be effective, this system would have to be carried out in every country that has developed nuclear weapons, he said.

Gormly is the editor and publisher of the Newsmen's Gaffly, a newsletter distributed to 1100 newsmen in Washington.

Purpose of this newsletter is to "criticize newsmen for making up facts, leaving out information and distorting accounts of events in order to manage the news," he said.

Gormly has refused to pay federal income taxes for a number of years because he does not want to contribute to military expenditures.

Last June his bank account was seized by federal authorities when he refused to file an income tax return.

Iowa's Corn Crop To Be Even Higher

DES MOINES (AP) — The official estimate of Iowa's record 1963 corn crop was boosted Wednesday to 860,320,000 bushels — some 26 million bushels more than the Nov. 1 estimate.

In its final report of the season, the Iowa Crop and Livestock Reporting Service said Iowa farmers harvested an average of 80 bushels of corn per acre — an all-time high yield.

IT ALSO boosted its estimate of the Iowa soybean crop by more than a million bushels to 109,290,000 bushels, also a record, on a highest-ever yield of 30 bushels to the acre.

The corn crop, Iowa's first billion dollar harvest, was 9 per cent greater than the previous high of 789,035,000 bushels, and 14 per cent above the 1962 production. It also tops the 1957-61 average by 20 per cent.

The huge corn crop was achieved on an estimated 10,754,000 acres, 10 per cent more than last year but a fraction under the five-year average.

THE reporting service said farmers also used 36,000 acres of corn for forage, and put up an estimated 4,256,000 tons of corn silage.

Iowa soybean output was 17 per cent more than last year, 43 per cent above the five-year average.

The reporting service said corn and soybean crops had generally

favorable weather through the year. Planting of both was completed earlier than usual, early growth was rapid and frequent rains in July and August insured bumper yields.

IT SAID fall weather was ideal for maturing and drying the crop, and mild October weather allowed completion of the harvest much earlier than usual.

Faculty, Staff To Attend Convention

SUI faculty and staff members will attend the annual convention on December 28 to 30 of the American Historical Association. The group is to meet in Philadelphia.

Professor Charles Gibson, Department of History chairman, will preside over a session sponsored by the Conference of Latin American History. The subject of the meeting will be "The Hispanic in the American Historical Association."

Professor William O. Aydelotte, also of the History Department, will serve as chairman of a session on "Organizations and Agitation in England, 1780-1850."

Johnson Promises Free News Flow

WASHINGTON (AP) — President Johnson promised a free flow of information from the White House, and said "We'll do what comes naturally" about news conferences.

The President, standing behind his desk in his oval office, made that statement Wednesday at his second news conference — a surprise affair like the first.

But he said he may also hold televised news conferences, after the style of the late President Kennedy. Dwight D. Eisenhower also had televised news conferences taped for later transmission.

Swisher Club Fined On Liquor Charge

The American Legion Club at Swisher was fined \$300 Wednesday in Johnson County District Court for having liquor for sale without a permit following a raid there Sunday.

The club pleaded guilty to the charge before Judge Clair E. Hamilton.

State agents confiscated 7 bottles of liquor and 15 open bottles of beer.

Local Man Charged After Car Accident

Vincent J. Gilroy, 24, 1314 Ash St., was charged Tuesday with failure to have his car under control following a one-car accident at Van Buren and College Streets.

Gilroy's car struck a tree but he was not injured.

\$100 Theft Reported By Iowa City Man

Tools and a set of seat belts were reported taken from the auto of Bob Westcott, 1428 E. College Street.

Police were notified of the theft Tuesday. Westcott valued the loss at about \$100 and said the theft had occurred within the past few days.

Christmas Lights

The lovely lights of Christmastime— They make the world a gladsome place! Starlight softly drifting down, The same that shone on Mary's face; Tall altar-candles' golden gleam, And firelight flickering cozily; Dancing lights in children's eyes When first they see the glistening tree; Bright lamplight streaming cheerily From doors flung wide and welcoming; Lantern beams that bob and glow As neighbors come a-crawling.

The lovely lights of Christmastime— They make the world a wondrous place, And light our way until at last We see the glory of His face.

Andy Hankins

Hawks' Hankins: Proof That Hard Work Pays Off

By MIKE BOOS
Staff Writer

When "Andy" brings the ball down court, the crowd tenses, a noticeable rumbling gains in pitch and volume, and all eyes are glued apprehensively to the play below.

Weaving, changing pace, and using other deceptive antics, Andy Hankins, Iowa's 6-0, 165-pound guard, brings life to the crowd and the game of basketball.

During his three years of varsity service, Hankins has been a crowd-pleaser although at times his unpredictable moves bring results other than what had been intended. With big hands and springy legs, one often finds him in the midst of taller opponents competing for control of the ball. And, as likely as not, Andy comes up with possession.

ALTHOUGH THE Hawkeyes are off to the best start in several years, four straight wins before their loss to Creighton, Hankins feels the team must improve before conference games begin. "We've committed too many mistakes, our ball handling must improve, and we're not getting enough rebounds."

Hankins is still bothered by the bad ankle which he sprained before the regular season began, and said he hasn't given it a chance to heal.

"BUT MY BIGGEST problem right now," Hankins commented, "is that I'm not aggressive enough on the court."

Averaging 10.8 points a game in his sophomore year, Hankins scoring fell off to a 8.5 average last year. Currently he is carrying a 9.8 average. "I've been told to shoot more," Hankins said, "but I don't think that is my main problem."

With defense as his biggest weakness in his sophomore year, Hankins has tried to improve in this department. "I have made progress on my defensive game over the last two years; however, I feel I could improve even more."

Comparing this years team with those of the past two years, Hankins feels the Hawks have more potential now. "The sophomores have helped us greatly. We can depend on the bench without making any changes in our offense," he pointed out.

THE TEAM WILL leave from Cedar Rapids Dec. 25 for a game with Colorado State in Portland on the following day. Commenting on the games already played, Hankins picked Creighton as their toughest opponent and referred to Paul Silas, their center, as an "all-American in my book."

"We haven't been at full strength yet," he said. "Peeples has been bothered with the flu and Rodgers couldn't play in the second half against Creighton."

AS A PRE-MED student, Hankins is presently carrying a 3.29 grade point average. "I would like to specialize, but I'll have time to think about that," he said. He plans to graduate in June since he only needs eight more hours to fulfill his requirements.

AS ALL-STATE for the Waukegan, Ill., high school, he was influenced to attend Iowa by Deacon Davis, former Hawkeye on the conference champion team of 1955, and by Andy's brother Grover, a graduate student in zoology at SUU.

Vote Denver's Billy Joe Top AFL Rookie

NEW YORK (AP) — Billy Joe, a powerfully built young man who was a shot putter at Villanova before he joined the Denver Broncos as a fullback, has been voted Rookie of the Year in the American Football League by a panel of 24 sports writers and sportscasters for The Associated Press.

Billy Joe, a 6-foot-2, 245-pounder from Coatsville, Pa., has been the big man in Denver's running game all season. He started strong and has ranked among the top 10 rushers during most of the season.

The Broncos drafted Joe No. 11 last year and Washington of the National Football League made him their No. 9 choice.

Joe surpassed the record of City Chiefs then Dallas Texans as the top ground gaining rookie fullback in the brief history of the league. The Denver fullback carried 151 times for 648 yards in the first 13 games. McClinton made 604 yards in 1962. McClinton, incidentally, was the 1962 rookie of the year.

Joe's success story climaxed a long uphill battle from his school days in Pennsylvania. He had rheumatic fever as a senior in high school and lost several offers of football scholarships.

Jumbo Jim Elliott at Villanova offered Joe a scholarship as a shot putter although he weighed only 190 pounds. He skipped freshman football but took another physical examination and got an okay to play as a sophomore. A weight-lifting program had boosted his weight to about 230 pounds at that time. At Villanova he played in the Sun Bowl game and the Liberty Bowl game.

LSU, Baylor Start Bowl Drills Today

HOUSTON (AP) — Baylor and Louisiana State fly into Houston today to begin final preparations for Saturday's fifth Bluebonnet Bowl football game.

Both teams have 7-3 records but Baylor, runner-up in the Southwest to national champion Texas, has been established a two-point favorite over the Southeastern Conference Tigers.

The first workouts at 70,000-seat Rice University Stadium will be delayed by five hours of welcoming activities.

The three-day Bluebonnet Sports Festival begins officially Thursday night with a Sam Houston Coliseum basketball doubleheader matching Mississippi State against the University of Houston and Texas A&M against Oklahoma University. Friday night's pairings send A&M against Mississippi State and Houston against Oklahoma City.

Both Baylor and LSU will be making their second appearance of the season at the Rice Stadium where the four previous Bluebonnet games have attracted crowds ranging from 52,000 to 65,000.

LSU lost to Rice, 21-12, while Baylor, taking advantage of five second half Rice fumbles, defeated the Owls by the same score.

Oakland's Al Davis Voted AFL Coach of the Year

OAKLAND, Calif. (AP) — Al Davis passed the credit to his Oakland Raider players Wednesday when he learned he had been voted Coach of the Year in the American Football League.

"I think the most important thing was the receptiveness of the players to our approach to football," said the 34-year-old coach.

13 Hawkeyes To East-West Swim Meet

Thirteen Hawkeye swimmers will represent Iowa at the annual East-West swimming meet in Ft. Lauderdale, Fla., Dec. 29. The Iowa tankers will leave Friday and attend a week of lectures and swimming demonstrations at the National Collegiate Swimming Coaches Association Clinic before participating in the meet Dec. 29.

Iowa swimmers, who will compete on the West team coached by Iowa Swimming Coach Bob Allen, are: Ralph Laughlin, Ron Berry, Gary Grey, Jim Cook, Jerry McGill, Hap Haskins, Michel LeVois, John Jones and Hal Bigger. Outstanding freshmen who will make the trip along with Freshman Coach Dennis Vokolek are: Tom Throckmorton, Paul Monohon, Bill Holt and Bill Bach.

Over 400 swimmers representing 35 different teams will attend the week-long session.

The Hawkeyes will return from the East-West meet to prepare for their meet with Michigan State at East Lansing Jan. 11.

Name Iowa Assistant to New Position

Bob Flora, football line coach at Iowa for the last 11 years, has been appointed administrative assistant of athletics by the Board in Control of Athletics. It was announced Wednesday.

No date for Flora's taking over the new position has been announced. Flora said Wednesday night he has not yet had a chance to discuss the appointment with Athletic Director Forest Evashevski, and does not know if he will continue as a member of the coaching staff. Evashevski could not be reached for comment.

Dean George Easton, chairman of the board, said that when Flora assumes his new duties, he will be responsible to Evashevski and Assistant Director Rollie Williams. Flora came to Iowa in 1952 as line coach under Evashevski. He had been an assistant at Washington State when Evashevski was head coach there.

and general manager of the Raiders. "Our approach was a dedication to the desire to build an image as we all would be proud of on and off the field. We had a lot of players who decided they had the same goal in mind."

Davis was honored by an Associated Press panel of 24 football writers from the league's eight cities because he took a team that lost 13 straight in 1962 and converted it into a contender in one short year.

Davis, a quick-smiling, curly-haired executive who looks like a football player, was hired in January and given a free rein after the Raiders had spent three years as the doormat of the league.

"I came here knowing a ball club had to be built," he said. "We

were quite fortunate in acquiring people to help us do it."

Among the most important additions were end Art Powell and middle linebacker Arch Matsos, two of Oakland's six representatives on the AP's All-AFL first team. Davis secured Powell when the speedy pass-catcher was all set to go to Canada after playing out his option with the old New York Titans. Matsos was dissatisfied with the Buffalo coaching situation.

Davis switched Bo Roberson, the Olympic broad jump silver medalist, from running back to flanker. He lured defensive back Joe Krakoski out of retirement and helped quarterback Tom Flores find his way back after missing a season due to a lung infection.

Bears, Giants Pace Final NFL Statistics

NEW YORK (AP) — It will be New York's high-powered offense against the Chicago Bears top-ranked defense in the National Football League title game Dec. 29 at Chicago's Wrigley Field.

The Giants led the league in total offense with 5,024 yards while winning their third straight Eastern Conference title. They were second in passing with 3,247 yards to Baltimore's 3,296 and seventh in rushing with 1,777 yards. The Cleveland Browns were first in rushing with 2,639 yards.

The Bears, winning their first Western crown since 1956, gave up only 3,176 yards, lowest in the league. They also had the best rushing defense with 1,442 yards and the best pass defense with only 1,734 yards.

The title game opponents are at opposite ends of the scoring figures. The Giants led the league with 448 points and the Bears' defense allowed the fewest points, 144 in 14 games.

New York also led in first downs, 278; first downs passing, 164; pass completion percentage, 57.0; total touchdowns, 57; touchdowns passing, 39; and extra points, 52.

Chicago permitted the least av-

erage yards a rush, 3.5, fewest pass completions, 164; lowest pass completion percentage by opponents, 46.5; total touchdowns allowed, 18 and fewest TDs running, eight. They also showed the way in interceptions with 36.

Aparicio Paces AL Fielding; Orioles Top Defensive Team

BOSTON (AP) — The Baltimore Orioles, led by record-breaker Luis Aparicio and third baseman Brooks Robinson, took team and individual American League fielding honors last season.

This was reported Wednesday in the final official averages.

They showed that Aparicio broke a league record for short-stops by finishing with a .9826 average. He edged Chicago's Ron Hansen, who wound up with .9825 and also eclipsed the standard of .9823 set by Cleveland's Lou Boudreau in 1947.

It was the fifth straight season that Aparicio topped the AL short-stops in fielding. The Orioles acquired him from the White Sox last winter.

Robinson and first baseman Jim Gentile were the other Orioles' fielding leaders. Robinson had a .976 average in heading the third baseman for the fourth consecutive season.

Gentile, recently traded to Kansas City, had a .953 average while Joe Pepitone of the New York Yankees was second with .951.

The Orioles fielded a collective .984. They were followed by the Yankees and Tigers .982 each, Kansas City .980 and Chicago .979.

College Grid Crowds Top 22 Million

NEW YORK (AP) — College football attendance rose for the 10th consecutive year in 1963 to a record of over 22 million, despite the voluntary loss of a quarter of a million admissions when 34 games were canceled because of the assassination of President Kennedy.

Statistics released Wednesday by the NCAA Service Bureau show a record jump of 1,009,932 over the 1962 season, with total attendance running to 22,237,094. The NCAA estimates that the canceled games would have added 288,900 to the total.

On an average basis, attendance rose 4.76 per cent this season, continuing the steady increase that has been recorded in every year since 1953. During that period, attendance at college football games has risen one-third over the 16,681,731 fans on hand a decade ago.

Name 4 Hawks To Participate In Gym Meet

Four Hawkeye gymnasts have been named to the East team for competition in the annual gymnastics clinic at the University of Arizona during Christmas vacation.

Senior letterman George Hery and junior Glenn Gailis will compete along with freshmen Ken Gordon and Jeff Stein.

Hery will participate in floor exercise, trampoline and long horse. Gailis will be in the high bar, parallel bars and the side horse. Gordon will compete in the side horse and Stein in tumbling.

The East-West meet will be held Dec. 27 and the clinic runs from Dec. 26 through Dec. 31.

The Hawkeye representatives will leave for Arizona Friday and return following the clinic.

Villanova Topples Unbeaten Toledo

PHILADELPHIA (AP) — Villanova University, using alert ballhawking and an aggressive defense, knocked Toledo University from the unbeaten ranks Wednesday night 63-59 in the first game of a Penn. Palestra college basketball doubleheader.

Temple met Manhattan in the nightcap.

Toledo, which had won its previous six games, could score only one point in the first five minutes and did not get a field goal until Larry Jones connected at 14:20.

Villanova's flashy Jones boy — Wally, repeatedly exhibited outstanding ball handling and passing. He led the Wildcats scorers with 18 points.

Select Two Hawks For Senior Bowl

Paul Krause, Iowa flanker, was among 23 pro football draftees named Wednesday to the 25-member North team for the Jan. 4 Senior Bowl all-star game.

Krause also is one of two Hawkeyes who will play in the nationally televised East-West football game at San Francisco Dec. 28. He and Iowa guard Mike Reilly have been named to the East team.

'Lady Esther' Set For March Play By Studio Theatre

"Lady Esther," a new play by Ralph Arzooonian, G. Cranston, R. I., has been chosen for the March SUI Studio Theatre production.

The first of two plays necessary for a Ph.D. in playwriting, "Lady Esther" is the third play by Arzooonian to be seen at the Studio Theatre.

"The Trespassers," written as a partial requirement for a M.A., was seen two years ago. "The Roadbird" was part of a three play bill last year and was made into a film this fall.

Another of Arzooonian's plays, "The Game," was performed at last Friday's Studio Matinee. Other plays by Arzooonian have been read publicly at SUI.

"Lady Esther" was read publicly here this fall. It is a three act play with three scenes and four actors.

Tryout dates will be announced after Christmas.

Boynnton Lectures On Free Speech

Can the extreme elements of the right and left fit into a democracy with the same privileges of free speech and free assembly?

The question, emphasized by President Kennedy's assassination, will be the theme of the Spotlight Series discussion today at 3:45 p.m. in the Pentacrest Room of the Union.

Robert Boynnton, associate professor of political science, will lead the discussion with a speech entitled "Extremism and Democracy."

Flag at Half Staff Through Sunday

In respect to the late President John F. Kennedy, the flag atop Old Capitol will fly at half staff until Sunday. Sunday ends the month-long mourning period over Kennedy's death on Friday, Nov. 22.

Although the flag will not be flown during the Christmas vacation, students will see it again at full mast on Monday, Jan. 6, when they return to classes.

Explain Holiday Traditions— First Christmas Tree Traced Back to Monk

As you take your Christmas decorations out of storage each year, have you ever wondered who decked the first tree? Who sang the first carol?

Who offered the first Christmas toast — and how on earth did the custom of honoring the season with a glass of Spanish sherry come to be called a "toast?"

Some Christmas customs are very old — dating back even beyond Christianity itself. Others are surprisingly recent. Christmas cards, for instance, got started in the middle of the 19th century.

THE FIRST Christmas tree has been ascribed to an Eighth-Century German monk named Boniface, who wished to replace sacrifices to Odin's sacred oak with the custom of adorning a fir tree in tribute to the Christ Child.

Another source says that Martin Luther, in the 16th century, was the first to cut a small fir tree, bring it home, and decorate it for his children. Whatever its origin in time, the Christmas tree custom seems to have started in Germany.

Prince Albert, Victoria's German consort, is credited with introducing it to England.

The original Santa Claus seems to have been St. Nicholas of Myra, who was famous in his lifetime for his generosity. To three dowry-less daughters of a poor nobleman, St. Nicholas flipped three pieces of gold down the chimney. By accident one of the coins landed in a shoe by the mantelpiece.

MARTYRED in 432 A.D., "St. Nick" became the patron saint of children of three nations — Greece, Holland and Belgium. As his fame spread to Scandinavia, "St. Nick" picked up his reindeer and sleigh, and his red suit (a hand-me-down from the Norse God, Thor).

Santa's rosy cheeks, white beard, and portly frame came from Dr. Clement Moore, an American who immortalized him in the poem, "The Night Before Christmas."

THE WASSAIL BOWL and the Christmas toast were both started in the same gesture by the daughter of an early Germanic chieftain, then on a campaign in Britain. Offering a garlanded bowl of wine to her father's princely host, she said "Wass-hell," or "Here's to you." The prince responded gallantly and they were soon married.

For the common people of the Middle Ages, wassail was a mixture of hot ale, sugar, nutmeg and ginger. The nobility, however, used the finest wines in the cellar. In later times, a popular base for the wassail bowl was Spanish sherry grown from the grapes of Andalusia and fortified with brandy after maturity.

The word "toast" however, didn't emerge from the fact that "dry" Spanish sherry was necessarily used — but because early wassail bowls sometimes had pieces of toast (as well as fruit) floating around in the top.

IN MEDIEVAL days the wassail was often accompanied along with many other courses — by roasted peacock, re-stuffed in its feathered finery, and with a small fire nostril. Her ladyship always served this dish herself.

Like the garlands of evergreens around the wassail bowl, mistletoe also has an ancient background. The primitive Britons thought mistletoe had the power to heal disease, make poison impotent, protect against witchcraft, and bestow fertility. If a young couple sealed their troth with a mistletoe kiss, they could expect good luck for the rest of their lives.

THE WORD "carol" means "to dance in a ring." The person who popularized caroling was St. Francis of Assisi — the same saint who originated the creche as a sacred part of Christmas. In the 13th Century, St. Francis' creche was made of real people, real animals. When peasants traveled from far and wide to see it, St. Francis led them in "carols" — joyous music written in the vernacular of the people.

One of the most widespread and recent customs is that of sending Christmas cards. The first one designed and etched for general circulation was made in England by 16-year-old William Maw Egley Jr., whose name has since disappeared from history. It was not until a few years later, however, in 1846, that a Christmas card decoration caused such a stir that people who had never heard of them began to adopt the custom.

Within a design of grape vines the artist, John Calcott Horsley, drew a scene of a family dinner party, showing the head of the family and his wife toasting the recipient of the card with a cup of wine.

Temperance advocates were ruffled and started sending cards of their own. And the Christmas card custom caught on — and on — and on.

SUI Senate Trip Has 40 Openings

Student Senate Trip Committee has announced that there is still room for about 40 students, faculty or alumni who wish to fly to Europe this summer at reduced rates.

The down payment is \$35 and can be mailed to the Student Senate Trip Committee, Student Senate Office, Union. The cost of a round-trip plane ticket will total \$280.

Travelers are signed up on a first come, first served basis. Reservations can be made for 113.

The Committee also announced that anyone signing up may also elect to take a guided tour while in Europe. There are places for only 20 on the tour, and its members will also be signed up on a first come, first served basis. For more information interested persons may contact Tom Yerkey, A3, Aledo, Ill., chairman of the committee, or Dick Montgomery, A2, Larrabee.

A meeting for those who have made their down payment and other persons interested in the trip will be scheduled for the last week in January. Time and place will be announced later.

Those who decide to travel will leave Cedar Rapids by plane June 15 and begin the return flight to Cedar Rapids from Paris Aug. 21.

University Offices Explain Procedure for Final Week

The University Examinations Service, in cooperation with the Office of Student Affairs, has released the final examination schedule. The exam schedule is substituted for the regular program of classes from 8 a.m. Friday, Jan. 24, to 5 p.m. Friday, Jan. 31.

The schedule provides specific time listings for courses whose multi-sections are to be combined for the final examination. Most single section courses with large enrollments are specifically listed for the purpose of assigning examination rooms to them.

Specifically listed courses are identified by department and course number. Most other courses have their exam times determined by the listings in the schedule according to the time of the first weekly class meeting.

SINGLE section courses which meet for the first time on Monday and Tuesday at 12:30 p.m. or at 10:55 a.m. have been included in the exam schedule. Examinations for single section courses (except for some with large enrollments which are listed) which meet at 4:30 p.m. or later or which do not meet on Monday or Tuesday may be scheduled at any time period during the exam week but the instructor must arrange make-up exams for all students who have conflicts.

The basic schedule for this semester was developed by applying the usual rotation procedure to last January's schedule.

In case of conflict, courses having lower department numbers (or lower course numbers when the conflict is within a department) will take precedence. Courses listed according to the time of the first class meeting will take precedence over courses specifically listed for the same examination time.

NO STUDENT is required to take more than three exams in one day. An undergraduate student who has either two examinations scheduled for the same period or

more than three exams scheduled for the same day, may file a request for a change of schedule at the Registrar's Office. All requests for such changes must be filed by 4 p.m. Jan. 16. Graduate students should arrange for necessary adjustments with their instructors.

On Jan. 20 names of students for whom changes have been approved and copies of their final exam schedule will be forwarded to instructors who must arrange for make-up tests. By analyzing these schedules, the instructor can plan the make-up period so it falls at a time which is free on the schedule of each student involved.

Make-up examinations never have precedence over regularly scheduled exams. The period for the make-up exam is to be announced by the instructor in class and posted on departmental bulletin boards.

THE ROOMS listed in the body of the exam schedule have been reserved for the course listed and are not available at that time for use by another course even though another course may meet regularly in that room. Except for the rooms listed below, which must always be specifically reserved, priority for exam purposes will be given to the class which regularly meets in a given room, and reservations need not be made.

Rooms listed below must be reserved through Mrs. Thomas Miller in the Office of Student Services, ext. 2786, whether or not they are rooms in which classes regularly meet during the semester.

Instructors teaching in these rooms will be given priority in scheduling exams for classes meeting in these rooms through 5 p.m. Jan. 7. Requests for any of these rooms from instructors not currently teaching in them will be accepted beginning 8 a.m. Jan. 8 and will be honored in the order in which the requests are received. Room reservation requests received by mail will not be honored.

THESE rooms include 221, 300, 314, 321 Chemistry-Botany Build-

ing; 305 Communications Center; 8, 109, 109 Dental Building; E-104, E-105, E-204A, and E-308 East Hall; 103, 107, 201 Electrical Engineering Building; the Geology Building Auditorium; 107, 112, 203, 204, and the auditorium of Macbride; The Old Armory Studio Theater; 301 and 311 Physics Building; 2 and 106 North Hall; 121A, 203, 204, 213, 221A, 224, 225, 309, 314 and 321A Schaeffer Hall; 208, 211, 214, 217, 302, 308, and 318 University Hall; and 201 and 205 Zoology Building.

The Examinations Service will duplicate finals only in January. Copy for the exams must be submitted to the Examinations Service at least two weeks prior to the exam date. Copy may be submitted during Christmas recess.

THE Examinations Service will continue a 24-hour scoring service during final week. This includes the preparation of score distributions and raw score percentile equivalents. Answer sheets will be arranged either in alphabetical order or in order of test score, but typed listings of scores will not be prepared.

First semester grades are due in the Registrar's Office not later than 5 p.m. Feb. 7.

A key to room abbreviations follows the schedule. Rooms for the classes which do not have an exam room listed will be announced in the classes by instructors.

Peter Nero Here Jan. 15 For Concert

Pianist Peter Nero will appear for a concert at 8 p.m. Jan. 15 in the Main Lounge of the Union.

The 28-year-old entertainer, who uses a unique blending of classical music and jazz in his arrangements, has appeared at places such as Jilly's, The Blue Angel and the Village Vanguard in New York City, and the Sand's Motel in Las Vegas.

Nero, who has also appeared on the Arthur Godfrey Show, The Tonight Show, and The Steve Allen Show, is now in his first nationwide personal appearance tour. He has recorded six albums for RCA Victor and recently arranged and recorded the title song for the new Debbie Reynolds film, "My Six Loves."

All net proceeds from the concert, sponsored by the Hillcrest Association, will be used for student-sponsored Project AID scholarships at SU.

Tickets for the concert will go on sale Jan. 9 at the East Lobby Desk of the Union, Whetstone's Drug Store and Campus Record Store. Reserved seats are \$3 and \$2.50; general admission, \$2.

Goldwater's Bid 'Pretty Certain'

NEW YORK (AP) — Sen. Barry Goldwater (R-Ariz.) says "I'm pretty certain that I'll make a bid for the Republican presidential nomination, but I want to make up my mind by myself, in my own time."

Goldwater indicated his position in an article in the current edition of McCall's magazine. It was written by Thomas Meehan before the Nov. 22 assassination of President John F. Kennedy.

Johnson Signs School Bill

WASHINGTON (AP) — Expressing "great personal satisfaction," President Johnson signed a \$156-billion three-pronged federal aid to education bill Wednesday. It is the third measure in this field passed by Congress this year.

The legislation sets spending authorizations — with actual funds to be provided in separate bills — for these programs:

- Expansion on a broader basis of federal support for vocational education to train youths for modern day jobs. It is to be expanded to such new fields as business office work, appliance repair, electronics and others.
- Extension for another two years of the impacted areas program to aid school districts crowded because of federal installations.
- Replenish exhausted college student loan funds as part of a one-year extension of the National Defense Education Act.

Two Students Win Union Bridge Meet

John Conwell, A3, Iowa City, and Jim Robbie, A4, Iowa City, have been named winners of the Union Board bridge tournament which was held on the past two Sundays.

The two winners, along with the second place pair, Marshall Porter, A3, Iowa City, and Jim Ruby, B3, Iowa City, will represent SU in the regional tournament to be held in the Union in February.
