

# Today's News Briefly

## CAMPUS

UNION BOARD Hootenanny will be held on the patio of the Union at 7:30 tonight. In case of rain, the hootenanny will be held in the River Room.

Those interested in participating may leave their names with the Union hostess.

## DAILY IOWAN

John Roberts, G. Wilmington, Del., left Iowa City Thursday night en route to San Francisco for the Republican National Convention. Roberts will report news of the Iowa delegation to The Daily Iowan.

## CITY

THE IOWA CITY swimming pool in City Park will be closed to the public Saturday until 8 p.m. The second annual Armbruster swimming meet will be held there during the day.

The meet is sponsored by the Iowa City Swim Club. Recreation Supt. Robert A. Lee said there will be no charge to the public when the pool reopens. It will close at 9:30 p.m.

IN THE SUMMERTIME, all paths lead to fun in and around Iowa City. The beautiful list of area recreational facilities includes everything from shady, lower-level woodland paths for quiet contemplation to a transparent underwater tunnel for observing the antics of swimmers in the municipal pool. See story and pictures on pages 6 and 7.

## STATE

WILLIAM GEBHART, 39, charged with murder in the slaying of his wife and her sister at the Gebhart home in Moscow, March 26, was found guilty of manslaughter Thursday night by a District Court in Muscatine.

## NATION

FORMER PRESIDENT Dwight D. Eisenhower insisted Thursday night he was remaining neutral in the fight for the Republican presidential nomination.

At a terse transiend news conference in Harrisburg, Pa., before leaving for the GOP National Convention in San Francisco, Eisenhower said only: "I am showing no partiality to anyone. I've been completely consistent in this and I have double-crossed on one."

FBI DIRECTOR J. Edgar Hoover is seriously considering a trip to Mississippi, where more than 100 agents are searching for three young civil rights workers missing nearly three weeks, it was learned Thursday night.

Hoover has made no final decision on whether to travel from Washington to Philadelphia, Miss., center of the search which also involves some 400 sailors.

SEN. EDWARD M. KENNEDY moved into new surroundings closer to his family Thursday to continue treatment of the broken back he suffered in a plane crash June 19.

The 32-year-old Democrat, youngest brother of the late President John F. Kennedy, was placed in a fifth-floor suite of the Lahey building of New England Baptist Hospital in Boston after a 3 1/2-hour ambulance drive from Cooley Dickinson Hospital in Northampton.

SCRANTON BACKERS in San Francisco failed by a wide margin Thursday in a move to ease the rules governing the writing of the 1964 Republican platform.

Sen. Hugh Scott of Pennsylvania, field manager for Scranton, said there is now "no question" but that there will be dissent from the platform as drafted by a 13-man executive committee.

SEN. BARRY GOLDWATER proclaimed in San Francisco himself Thursday, "more confident than I have ever been in this race" that he will capture the Republican presidential nomination on the first ballot next Wednesday.

The Arizona Senator, who takes his case to the GOP Platform Committee on Friday, said he believes the convention will adopt a document that all Republicans can "run on and work for."

## WORLD

TWO LONG-FEUDING neighbors, Pakistan and India, clashed at the British Commonwealth summit talks Thursday over whether Red China can and wants to invade the Indian subcontinent.

President Ayub Khan, a field marshal who has kept Pakistan linked militarily with the West, told fellow leaders this idea is a bogey that must be destroyed.

"No major invasion of India is possible," he said.

THE UNITED STATES turned a cold shoulder Thursday to U.N. Secretary-General U. Thant's suggestion that a 14-nation Geneva conference be reconvened to seek a peaceful settlement of the Communist guerrilla warfare in South Viet Nam.

Behind U.S. opposition is the conviction of administration leaders that such a conference would only open the door to a renewed effort to neutralize South Viet Nam while leaving North Viet Nam firmly in Communist hands.

## Weather

Partly cloudy today and tonight with a few scattered thunderstorms. Little change in temperature, highs today 85 to 90. Little change Saturday.

## Scholars Meet To Discuss New Edition of Twain Works

Eighteen literary scholars working on a new edition of the works of Mark Twain are at SU today and Saturday to discuss editorial principles and procedures.

John C. Gerber, head of the SU English Department and chairman of the national editorial board which is preparing the Twain edition, said that this edition would be the first authoritative edition of Mark Twain's works and the first complete edition since the 1920's.

"THERE HAS NEVER been a careful edition of Mark Twain," Prof. Gerber said. "Errors have crept into various printings and editions. We are trying to get back to what Twain intended when he wrote."

According to Prof. Gerber, successive printing and typesetting errors caused many discrepancies in various versions of Twain's work.

Other members of the national editorial board are Walter Blair, University of Chicago, and William M. Gibson, New York University. Paul Baender, SU assistant professor of English, is board secretary.

WHEN THE 25-VOLUME edition is completed in five to seven years and added to a 12-volume edition of Twain's papers now be-

ing published by the University of California at Berkeley, Prof. Gerber says that almost everything Twain wrote will be in print.

The new edition will include: Twain's personal writings, longer fiction, shorter fiction, biography, literary criticism, political writings, ethical, religious and philosophical works, and speeches.

While at SU, the Twain scholars, from universities all over the nation, will receive a demonstration of the use of the Hinman Collator, a recent SU library acquisition capable of high-speed comparison of texts. SU's collator is one of two such machines west of the Mississippi River.

THE HINMAN COLLATOR works on a principle of blinking lights. Two copies of the same text are placed on each side of the collator and light is directed onto both copies. One copy is super-imposed on the other. Thus, any discrepancies may be detected.

Prof. Warner Barnes, director of textual studies at SU, and four graduate students will receive material sent by each of the Twain editors. Prof. Barnes said 12 copies of each book would be studied with the Hinman Collator. "Every book we have studied

in this manner has shown bibliographical variants hitherto unreported," Barnes said.

He went on to say that the purpose of using the collator is to insure that the text of the book "be as faithfully executed as the author intended it to be."

THE EDITION will be published by Harper and Row in New York.

Others attending the meeting include: William B. Todd of the University of Texas, project bibliographer; Frederick Anderson, University of California; Howard Baetzhold, Butler University, Indianapolis; Allan Bates, Lake Forest College, Lake Forest, Ill.; Gladys C. Bellamy, Southwest State College, Weatherford, Okla.; Edgar M. Branch, Miami University, Oxford, Ohio; Louis J. Budd, Duke University, Durham, N.C.; Henning Cohen, University of Pennsylvania, Philadelphia; and Hamlin Hill, University of New Mexico, Albuquerque.

Also attending are Franklin R. Rogers, University of California; Davis; Roger B. Salomon, Yale University, New Haven, Conn.; Albert E. Stone, Jr., Emory University; and James D. Williams, Fairleigh Dickinson University, Rutherford, N.J.

## 39 on Airliner Killed In Tennessee Crash

### Chapman Arraignment Set for 1 p.m. Today

The arraignment of Evelyn Chapman, accused of killing her husband, Carl, last June 19th, will be continued at 1 p.m. today in Iowa City Police Court.

Mrs. Chapman is being held in the Johnson County Jail where she was taken Monday night.

She was brought into Police Court Tuesday morning for arraignment.

However, Judge Robert W. Jansen continued proceedings until today at the request of her attorney, Jerry Lovelace. Chapman is charged with first degree murder. The body of Carl Chapman, 27, was found Monday afternoon at the couple's home at 2025 G St. He died of several bullet wounds in the head. Authorities have declined to reveal how many bullets were found, but it is believed four have been discovered so far.

Investigation is continuing in the case. Police conducted interviews with friends of Mrs. Chapman Thursday; however nothing new has thrown light on the case, according to police.

Robert K. Sorensen, principal of Iowa City High School, said Thursday that Mrs. Chapman was an average high school student. He said he was a member of the faculty at the school when she graduated in 1957.

He called her a "quiet and unobtrusive little gal" and said her grades were average. She never failed a course.

Her course selection followed no specific pattern, but he said that she did take some secretarial courses.

Her attendance was excellent, he said, and she was tardy only once in her four years at City High.

Sorensen concluded, "Nothing at all in her background would indicate that she was anything but a middle-of-the-road little girl."

Her attendance was excellent, he said, and she was tardy only once in her four years at City High.

Sorensen concluded, "Nothing at all in her background would indicate that she was anything but a middle-of-the-road little girl."

### Plane Bound For Huntsville Down in Hills

Witness Sees Explosion Of United Flight 823; Only Fragments Left

NEWPORT, Tenn. (AP) — A United Air Lines Viscount turboprop crashed and burned in the foothills of the Great Smoky Mountains Thursday, killing 39 persons.

Witnesses said the low-flying plane was smoking and exploded in the air before it crashed.

THE PLANE, Flight 823 bound from Philadelphia to Huntsville, Ala., crashed eight miles northeast of this eastern Tennessee town near the North Carolina border.

Mrs. Charles Hawk told Deputy Sheriff Ross Haney she saw the plane explode and fall into a wooded hollow near her home.

The plane had stopped in Washington and was about 40 miles from its next stop, Knoxville, when it crashed in clear weather.

IT WAS DISCLOSED in Washington that United Air Lines had asked the Federal Bureau of Investigation to make an inquiry into the crash. FBI disaster specialists also were sent to the scene to help with the identification of victims.

United Air Lines said the pilot radioed at 6:02 p.m. Eastern Standard Time that he was changing from an instrument to a visual flight plan. The plane crashed 13 minutes later, six minutes before its scheduled arrival time.

THE WRECKAGE still was burning when rescue workers reached the scene.

"It was terribly disintegrated," said Denver Trencham, who lives nearby. "A part of one engine was about 1,000 feet from the rest of the wreckage. There were no seats — just small pieces of metal."

John M. Jones Jr., a reporter for the Greenville Sun, said the mangled bodies were widely separated over an area of about one-half square mile.

AUTHORITIES called for large searchlights to search through the night. Bodies were brought to an improvised morgue at Newport.

"The plane was flying very low and smoking before it hit the ground," said Frank Turner, a constable at nearby Parrottsville. "It exploded before it hit the side of the hill and then exploded again."

Other eyewitnesses said they saw objects falling from the plane before it crashed, according to Jones. They were unable to say what the objects were.

THE CIVIL Aeronautics Board, which sent a team of investigators to the scene, said there was a 4,000-foot ceiling, 30 miles visibility and scattered clouds at the time of the crash.

The crash scene was a steep, thickly wooded slope known locally as Trencham Hollow and about 2 1/2 miles by gravel road from U.S. Highway 411.

The plane struck about 150 feet up a steep bank, heavily grown over with trees.

Bodies, personal effects and parts of the plane were strewn over the slope, and one of the four engines rolled to the bottom of the hill. A wing section was the largest piece of wreckage.

IN WASHINGTON, United identified the captain of the plane as Oliver E. Sabatke of Washington. The first officer was identified as Charles L. Young of Baltimore.

The two stewardesses were reported to be Virginia K. Vollmer, Pittsburgh, Pa., and Carol Lynn Brendt, Youngstown, Ohio.

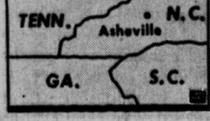

The airline said the plane was behind schedule, but no reason could be given.

ANOTHER RUSSIAN CHARGE— MOSCOW (AP) — The Russians charged Thursday night the Soviet freighter Taraclia was buzzed several times by a U.S. naval plane while passing through the Mediterranean en route to Tripoli.

Tass said the two-engine plane made six low-level approaches over the freighter during hours of darkness — lighting up the vessel with searchlights and "endangering the crew."

## Mother, Daughter Killed in Collision

An Iowa City woman and her 13-year-old daughter died late Thursday night after a crash between a car and a pick-up truck on a rural road near Oasis, about 9 miles from Iowa City. Six other persons were injured — two of them critically.

Dead are Mrs. Cora Aicher, 30, RR 2, and her daughter, Jane. Mrs. Aicher died at Mercy Hospital, Iowa City, about an hour after the crash. Her daughter was killed instantly, police said.

IN CRITICAL CONDITION are Mrs. Aicher's daughter, Linda, 6, who was taken to University Hospitals after initial treatment at Mercy, and Fred H. Sutton, 27, 730 Whiting Ave., Iowa City, who was riding in the pick-up truck.

Also injured were Mrs. Aicher's husband, Richard, 31, driver of the Aicher car, the couple's son, Steven, 12, their daughter, Michele, 5, and Robert Wright, 17, West Branch, identified as driver of the truck.

Highway patrolmen said the crash occurred "sometime after 9 p.m.," when the two vehicles collided at the intersection of a dirt road and a paved road about two miles north of Oasis.

THEY SAID the Aicher vehicle was traveling north on the paved road and the truck going west on the dirt road.

The impact of collision forced both vehicles off the road into a ditch. Patrolmen did not estimate the speed at which either vehicle was traveling.

Highway Patrolman Blaine Goff, who is investigating the crash, said Wright, who was driving the truck, apparently walked to a nearby farmhouse and notified authorities of the accident.

Patrolmen said charges had not been filed in connection with the accident.

Both vehicles were demolished.

Family night at the Iowa Memorial Union will feature food and entertainment for adults and children today, beginning at 7 p.m.

Cartoon Parade will be the free movie for children. For adults there will be bridge, a social hour and the art show.

The art show is "The President and the Portrait," which consists of portraits of 11 SU ex-presidents. It is part of the twenty-sixth annual Fine Arts Festival.

The adult menu is French fried shrimp, a vegetable, salad, roiled butter and a choice of beverage.

A special menu for children will be a choice of a chicken croquet or a tuna cheeseburger, cream style corn, lemonade and ice cream.

Bowling, billiards, tournament and free instruction are offered for recreation.

TIME CAPSULE — A time capsule, marked by a granite monument, was buried at the New York World's Fair in 1939. A second will be buried at the same site at the close of the current World's Fair in October, 1965.

## Senators Set Capital Agog With Wrestle

WASHINGTON (AP) — Sens. Strom Thurmond (D-S.C.) and Ralph W. Yarborough (D-Tex.) set Capitol Hill agog Thursday by engaging in a 10-minute wrestling match on the floor of a Senate Office Building corridor.

The affair between two normally dignified senators, each 61 years old, was remarkable in that it was good-natured and decided upon calmly and coolly. No sharp words were exchanged before or after the tussle.

NEITHER MAN looks his age. Thurmond, especially, prides himself on his physical fitness.

The two men serve on the Senate Commerce Committee which was trying to get a quorum — nine of its 17 members — to act on President Johnson's nomination of former Florida Gov. LeRoy Collins to be director of the new Community Relations Service.

Thurmond strongly opposes the nomination and Wednesday blocked a quorum by standing in the corridor outside the committee room while only eight senators showed up inside.

THURSDAY MORNING the South Carolinian again took up his post in the hall.

Yarborough, on his way into the committee room, made a grab for Thurmond's arm and said, "Come on, Strom, help us make a quorum."

Thurmond good-naturedly took hold of the Texan's arm and replied, "No, I'll help you out."

The senators then agreed to wrestle for it. The understanding was that if Yarborough lost, he would stay outside, and that if Thurmond lost, he would attend the meeting.

WHEN THE MATCH was broken up by Sen. Warren G. Magnuson (D-Wash.), the Commerce Committee chairman, Thurmond had Yarborough on his back on the floor, but the Texan still was struggling for a good hold.

Yarborough went into the room, making a quorum. Thurmond entered, too.

The group quickly confirmed Collins, 16-1, with only Thurmond registering opposition.

Greece, Bulgaria Agree To Better Relations

# Supreme Court extends protection of accused

IN A 5-4 DECISION, the supreme court recently ruled that when police had centered attention on a particular subject and began interrogation to obtain incriminating statements, the accused must be informed of his right to remain silent or his request for counsel must be granted.

This ruling is an extension of the Court's previous position, established six years ago, that the Sixth Amendment's provision for "assistance of counsel" meant having counsel at a trial. The Court at that time had refused to state absolutely that a subject being questioned by police was entitled to counsel.

This latest ruling overturned the murder conviction of a Chicago man, obtained after incriminating statements made by him to the police were presented at his trial. The police had failed to inform him of his Constitutional right to silence during the interrogation and had denied him the right to see his counsel.

In delivering the minority's opinion, Supreme Court Justice Byron White stated, "... The Court seems driven by the notion that it is uncivilized law enforcement to use an accused's own admissions against him at his trial. ... The right to counsel now not only entitles the accused to counsel's advice and aid in preparing for trial but stands as an impenetrable barrier to any interrogation once the accused has become a subject."

Admitting that the ruling will make it more difficult to obtain confessions, the majority opinion of the Court, written by Justice Arthur Goldberg points out:

"There is necessarily a direct relationship between the importance of a stage to the police in their quest for a confession and the criticalness of that stage to the accused in his need for legal advice. Our Constitution, unlike some others, strikes the balance in favor of the right of the accused to be advised by his lawyer of his privilege against self-incrimination."

"We have learned the lesson of history that no system of criminal justice can, or should, survive if it comes to depend for its continued effectiveness on the citizens' abdication through unawareness of their Constitutional rights."

"No system worth preserving should have to fear that, if an accused is permitted to consult with a lawyer, he will become aware of, and exercise, these rights. If the exercise of Constitutional rights will thwart the effectiveness of a system of law enforcement, then there is something very wrong with that system."

This decision is in keeping with the basic tenet that subjects should have full knowledge of their Constitutional rights not to incriminate themselves. The burden of proof has to rest with the prosecution, according to American legal tradition.

The protection afforded accused individuals by this Supreme Court ruling should not destroy the effectiveness of law enforcement; if it does, as Justice Goldberg stated, then there is something wrong with the system of enforcement.

# Youth could be elected, but he can't vote

A 16-year-old from Massachusetts named Leonard Tagg has caused some consternation in the Massachusetts House of Representatives.

The high school student discovered a loophole in the Massachusetts requirements for state representatives — no age limit. So the enterprising youth declared himself as a candidate on an independent ticket (he would have to be a registered voter — age 21 — to run as either a Democrat or Republican.)

The Massachusetts House tried to push through a bill setting the age requirement for representatives at 21, but the bill failed to receive the proper majority.

Leonard doesn't expect to win — he only wanted to point out the loophole. It's too bad — he might not be a bad fellow to have around. —Editorials by Linda Weiner

# From rednecks to cotton kings— Mississippi—its people and problem

(Editor's note: This sketch of Mississippi life was written by M. W. Newman of the Chicago Daily News Service and appeared in the Minneapolis Star, June 25.)

By M. W. NEWMAN (Chicago Daily News Service)

Mississippi is as much a state of mind as it is a state of the Union. Its white citizens, rightly or wrongly, have a reputation for hate and violence on a mass scale, in their efforts to uphold racial oppression.

NOT ALL OF Mississippi's whites are that way, of course. Probably only a minority is. But to Northerners, Mississippi has a reputation as the most backward and unreconstructed of the Southern states.

Its people are rednecks, hillbillies, peckerwoods, poor-white farmers, ham politicians, rich cotton planters, depressed and down-trodden Negroes.

It's the state of corn whisky — and state-wide prohibition.

IT'S THE NATION'S poorest state — in an age of affluence.

Racial taboos dominate its life. Mississippi's politics begin and end with the Negro, although few of the state's 915,000 Negroes vote.

The Negro used to make up about half the population. He has left the state for the North in such large numbers that today there are 300,000 more whites than Negroes in Mississippi.

Fear of the Negro is everywhere. He is the scapegoat for the state's poverty, bad fortune and ignorance.

THE WHITES are mostly of Anglo-Saxon deriva-

tion, with names like Turnipseed or Birdsong. Back in the "hills," in the eastern half of the state, they scrape a hot infertile soil.

The "way of life" includes heavy mortgages, unending debt, hunting and fishing, religious revivalism and evangelical preaching, county fairs and howling political orators.

Mississippians will travel miles to hear one candidate chew out another. It's their baseball and football.

The other side of Mississippi is the Delta, a rich plain running along the river levees from "The Peabody Hotel in Memphis to Catfish Row in Vicksburg."

HERE ARE THE huge cotton plantations — once cultivated mainly by Negroes and now by big machines — the traditional seat of Mississippi's landed proprietors, the gentlemen who inscribe Jim Crow on their banners but leave the violence to the Rednecks.

Mississippi's politicians traditionally come to power by pitting the hills against the Delta.

What unites them in an uneasy alliance is fear of the Negro.

And the Negro's voting power, once he can register.

THE "MISSISSIPPI SUMMER PROJECT," commencing this week and involving eventually 1,000 Northern students, is aimed primarily at preparing Negroes to register, and registering them.

But the effort to register Negroes in Mississippi started earlier. So did the violence.

Says the Greenwood (Miss.) Delta Democrat-Times, one of the state's few moderate voices:

"Countless crimes, ranging from the burning of business establishments ... and the bombing of a Negro barbershop ... and motel, have been accomplished with a frightening immunity."

"No one sees anything, says anything or does anything."

ONLY A FEW CASES ever have made big headlines — the battery of teen-ager Emmett Till of Chicago in 1955, the murder of NAACP leader Medgar Evers in 1963.

But on Sept. 25, 1961, a Negro named Herbert Lee was shot to death in downtown Liberty. Lee had been trying to register Negro voters.

His slayer was State Rep. E. H. Hurst. The authorities decided Hurst shot in justifiable "self-defense."

A NEGRO LOGGER, Louis Allen, one of the alibi witnesses for Hurst at the inquest, was killed by a shotgun blast on Jan. 31 of this year.

Civil rights workers say he admitted before his death that he lied about Hurst at the inquest under threat of death.

Justice Department investigators believe there may be 60,000 armed white men in southern Mississippi, organized in guerrilla units.

The Ku Klux Klan is on the prowl. So is the delta-sponsored Americans for the Preservation of the White Race. So are many policemen.

THE STUDENT NONVIOLENCE Co-ordinating Committee (SNCC) has "kept book" on scores of incidents since it began a voter registration drive in Greenwood in August 1962.

Last year, SNCC worker James Travis was

machine-gunned by two white men and eight workers were arrested for "inciting a riot" — that is, marching 100 Negroes to the courthouse to register.

Registration workers were harassed with traffic tickets and fines, tear gas, smoke bombs, cross-burnings, threatening phone calls, arrests and jailings.

The Americans for the Preservation of the White Race began organized boycotts of white businessmen who wouldn't fire Negroes.

THE PUBLISHER of the maverick Greenwood newspaper is Hocking Carter. The night after the recent death of his youngest son, a load of garbage was dumped on his lawn.

In Tylertown, John Hardy, a SNCC worker accompanying two Negroes into the courthouse to register, was gun-slugged on the head from behind, arrested and charged with disturbing the peace.

In Natchez, Archie C. Curtis, 60, an undertaker and vote drive worker, said he and another Negro were stripped and beaten by hooded men on a desolate road.

In Canton, a shotgun blast wounded five Negroes as they walked home from a voter registration meeting.

THE RULEVILLE NEGRO Williams Chapel, used for voter education meetings, was slightly damaged just yesterday by a fire bomb. It marked the fourth church burning in the past 10 days.

These and dozens of other incidents have prompted SNCC officials to demand "thorough investigation by the Justice Department." They contend federal officers have been lax in protecting individual rights in Mississippi.

# Khrushchev pushes candidates views— for U.N. summit

By ROBERT S. ALLEN and PAUL SCOTT

Premier Khrushchev is bent on bringing about a "massive" summit conference next year regardless of who is elected U.S. president.

THE SOVIET RULER HAS disclosed this unannounced determination in a personal communication to U.N. Secretary General U. Thant. The latter wrote Khrushchev, as well as all other heads of state whose countries are U.N. members, concerning plans for a General Assembly meeting in New York early in 1965 to commemorate the International Cooperation Year approved by the Assembly in 1962.

U. Thant has told intimates he will discuss Khrushchev's aim for a "massive" summit conference when they confer in Moscow late this month.

President Johnson has been apprised of Khrushchev's scheme.

Also he has been informed the Kremlin chief intends to use his attendance at the U.N. as a world forum for a deluge of militant propaganda, particularly against U.S. policies.

Foremost among those he will assail relate to Soviet satellite Cuba and Communist-periled South Viet Nam.

This is clearly shown in one message U. Thant received from Khrushchev.

Expounding on his purpose to use the General Assembly meeting as a means of conducting a large-scale gathering of heads of state, Khrushchev asserted this would enable them to:

"Fully discuss the strict observance of all states, in accordance with the U.N. charter of the sovereign rights and independence of other states; non-interference in their national affairs; the condemnation of all attempts to impose economic blockades or the encouragement of subversive activities, and of violation of territorial waters and air space of any state."

EQUALLY STRESSED BY Khrushchev, in another note to U. Thant, was his off-voiced demand for an end to strategic (NATO) trade bars, and "the normalization of trade among all the regions and countries of the world, without artificial barriers or discrimination."

That still isn't all. The Soviet leader has grandiose ideas.

Other major issues specified by him for consideration at his contemplated "massive" summit conference are:

- Admittance to the United Nations of the Peoples Government of China and the East German Republic.
- "Neutralization of West Berlin."
- "Withdrawal of U.S. troops from South Viet Nam and South Korea."
- "Establishment of nuclear-free zones in Europe, Asia and Africa."
- "Prohibition of the spread of nuclear weapons."
- "Complete and final liquidation of all systems of colonialism."

Already, Khrushchev has one enthusiastic supporter of his plan — Yugoslavia's Communist ruler Marshal Tito.

In a communication to U. Thant, Tito warmly approves the idea of a "general meeting of heads of state" at the 1965 General Assembly session, on the ground that would "chart the way for a code for peaceful co-existence for the nations of the world."

PARTIAL U.S. APPROVAL — President Johnson has responded with a carefully qualified "yes — but."

Secretary General U. Thant has been advised the President "has no objection" to a meeting of heads of state, on two conditions: He is flatly opposed to a pre-arranged fixed agenda; he wants no conference "at this time" — meaning until after the fall election.

Foreign affairs lieutenants of the President are credited as favoring Khrushchev's "massive" summit meeting, on the theory that would incline him to pursue a temperate course in the cold war during the next six months.

They also reportedly view such a conference as an opportunity for the U.S. to line up wide-scale backing for any regional neutralization understandings that may be worked out with Red China in Southeast Asia, particularly in strife-torn South Viet Nam.

DESPITE OFFICIAL PUBLIC disavowals of such plans, they are definitely contemplated and closely guarded overtures are underway.

There is considerable afoot on this that has not yet become apparent.

The International Cooperation Year, to commemorate the 20th anniversary of the founding of the United Nations, was proposed in a resolution offered jointly by Russia and Yugoslavia. It was unanimously adopted by the 1962 General Assembly, and a committee, headed by U. Thant, was established to formulate plans. To that end, he has been exchanging communications with numerous heads of state.

Khrushchev utilized this correspondence to engage in a series of personal letters with U. Thant, in the course of which the "massive" summit conference scheme was outlined.

"FROM KHRUSHCHEV'S LETTERS, it is apparent he contemplates repeating his 1960 performance when he used a visit to the United Nations to bring to New York numerous chiefs of state, and to launch his world-famous scheme for "general and complete disarmament."

# Scranton's campaign talks reflect political philosophy

(EDITOR'S NOTE: As the Republican convention draws near, information about the candidate's views becomes more and more interesting. Below is a collection of some of Scranton's views. A collection of Goldwater's views was published earlier.)

AGRICULTURE

"It is time that we broke the shackles of an outdated economic philosophy and an outworn political party. It is time that we recognized American agriculture as one of our greatest resources and as one of the truly wondrous achievements of our people and our free society."

"In it we have a priceless asset, a source of enduring strength, to the nations of the free world, a vivid reminder of the failures of the Communist system of collectivized agriculture. It is time that we shaped an agricultural policy that treats abundance as good and not evil."

(Speech, Fargo, N.D., July 2, 1964)

LEADERSHIP

"The leadership vacuum has produced an equally unacceptable and dangerous reaction. Some well-intentioned Americans, frustrated by the paralysis in our foreign policy, have turned to a doctrine of naked power. This doctrine holds that 'total victory' can be won by simply standing up to the Russians, both guns drawn. It reduces the complexities of foreign policy to simple emotional terms that have wide appeal in the American experience — the rugged individualism of the pioneer, the gun slinging marshall of the frontier, the expedition of marines to clean out the pirates in Barbary or the corrupt governments of the Caribbean."

(Speech, Miami, Fla., June 24, 1964)

CUBA

"Though we need toward Cuba a rational, well-thought-out policy, let no one mistake rationality for weakness."

"Let it be clearly understood by our friends and enemies alike that we are prepared to use our military forces — if necessary — to maintain the integrity of our hemisphere."

"Just as for Korea, for The Lebanon and for Berlin — so too in regard to Cuba and Latin America we are prepared when-

ever necessary to commit our military machine.

"Leadership requires commitment. It requires a willingness to act in the interest of those we would lead. The hour is ripe for America to begin to so lead."

(Speech, Miami, Fla., June 24, 1964)

GOLDWATER

"At this moment Sen. Goldwater is the front-running candidate for the Republican Presidential nomination."

"I don't believe — and a lot of other Americans don't either — that his selection would be best for the Republican Party or for the nation."

"I have the privilege of knowing him personally. We are good friends. And just as everyone else who knows the Senator personally, I like him."

"But I don't think he ought to be the Republican candidate for President."

"In the first place, it is clear that he lacks public support. Every survey taken shows that in state-after-state, Sen. Goldwater would run far behind President Johnson this November. In fact, in most states even a majority of Republican voters say they'll vote for Johnson over Goldwater."

"If a man marching in a parade discovers that his cadence is different from every other

U. R. B. (Speech, Salt Lake City, July 1, 1964)

THE SOUTH

"I look to the day when Republican Senators and Republican Congressmen sit in Washington representing every state of the old Confederacy."

"But that day will not be brought closer by those who would cynically exploit the problems of the South — by those who would reopen old wounds by phony invocation of the Constitution or by comparison of the Federal Government of the United States with a police state dictatorship."

(Speech, Atlanta, Ga., June 29, 1964)

AUTOMATION

"Already much is being done. Labor and management are negotiating across the collective bargaining table for the assistance of those workers who temporarily lose their jobs through automation. Government must make clear that it will not interfere with these negotiations. It must create a climate in which they will be carried forward constructively and with flexibility to suit the problems of individual industries."

(Speech, Detroit, June 26, 1964)

WOMEN'S RECREATIONAL SWIMMING will be available 4:30 p.m. Monday through Friday at the Women's Gym pool for students, staff and faculty wives.

COMPLAINTS. Students wishing to file University complaints can now pick up their forms at the Information Desk of the Union and turn them in at the Student Senate Office.

INTER-VARSITY CHRISTIAN FELLOWSHIP, an interdenominational group of students, meets every Tuesday at 7:30 p.m. in 203, Union Auditorium. Meetings are open to the public.

PLAYNIGHTS of mixed recreation activities for students, staff, faculty and their spouses, are held at the Field House each Tuesday and Friday night from 7:30 to 9:30 p.m. provided no home varsity contest is scheduled. (Admission by student or staff ID card.)

ADVERTISEMENTS may be obtained by calling the WYCA office during the afternoon at 2326.

SUNDAY RECREATION HOURS: The Field House will be open for mixed recreational activities from 1 p.m. to 5 p.m. each Sunday afternoon.

IOWA MEMORIAL UNION HOURS: Cafeteria open 11:30 a.m.-2 p.m. Monday-Saturday; 5:45 p.m. Monday-Friday; 11:30 a.m.-1:30 p.m. Sunday. Gold Feather Room open 7 a.m.-10:45 p.m. Monday-Thursday; 7 a.m.-11:45 p.m. Friday; 7:30 a.m.-11:45 p.m. Saturday; 10:45 a.m. Sunday Recreation area open 8 a.m.-11 p.m. Monday-Thursday; 8 a.m.-midnight Friday and Saturday; 8 a.m. Sunday.

MAIN LIBRARY, SUMMER HOURS: June 10-August 4 — Monday-Friday, 9:30 a.m.-midnight; Saturday, 7:30 a.m.-5 p.m.; Sunday, 1:30 p.m.-midnight. Desk Hours: Monday-Thursday, 9 a.m.-6 p.m.; Reference and Reserve closed 5 to 6 p.m.; Friday and Saturday—8 a.m.-5 p.m.; Sunday, 2 p.m.-6 p.m.

PARENTS COOPERATIVE BABY-SITTING LEAGUE. Those interested in membership call Mrs. Charles Hawtrey at 8-6222. Those desiring sitters call Mrs. Daniel Hug at 8-5158.

More Space for Physics Department and is currently renewing a house at 335 Madison

# Physics Department Into 8 Universities

The interior of an eight-room building is being remodeled for use by the department, bringing to eight the number of offices either housed in or constructed.

Specific use to which the building is being put is determined, according to Jim Wells, administrative assistant in the department.

The exterior of the house will remain unchanged. A garage at the back of the property will be removed to provide parking area for the department's mobile equipment.

The house, which has been vacant for some time, will be ready for occupancy in about two weeks.

The Department of Physics and Astronomy now occupies the major part — 30,000 square feet — of the present Physics Building, six offices in Gilmore Hall, a small

building on the east side of the campus.

Specific use to which the building is being put is determined, according to Jim Wells, administrative assistant in the department.

## Physics Department Spills Into 8 University Buildings

The interior of an eight-room house at 335 Madison Street is being remodeled for use by the Physics and Astronomy Department, bringing to eight the number of buildings the department is either housed in or constructing.

Specific use to which the house will be put has not been determined, according to Jim Wells, administrative assistant in the department.

The exterior of the house will remain unchanged. A garage at the back of the property will be removed to provide parking area for the department's mobile equipment.

The house, which has been vacant for some time, will be ready for occupancy in about two weeks.

The department of Physics and Astronomy now occupies the major part — 30,000 square feet — of the present Physics Building, six offices in Gilmore Hall, a small

office in the computer center in East Hall, and the upper floor of the American College Testing Service building at 330 E. Washington.

The department expects to occupy the new Accelerator Building by Aug. 1. Construction on the seven-story Physics Research Building has reached the fifth floor, with building framework and floors complete to that point. The Astronomical Observatory foundation is complete and work is underway on the building. The observatory is located 12 miles southwest of Iowa City, one mile west of Hwy 218.

## Prof Sees Poverty As 'Hard Reality'

Poverty in the United States is a "hard, troublesome reality," according to H. W. Saunders, professor of sociology, in a prepared text he presented to the Iowa City Rotary Club Thursday.

If the current rate of economic growth and chronic unemployment is permitted to persist, Saunders predicts about 13 per cent of the population in this country will have available less than \$3,000 by 1980. One of the gauges of poverty today is the \$3,000 mark for a family unit, he explained. A family earning less than \$3,000 a year qualifies for certain kinds of "poverty" aid.

Saunders believes it will take a long-range program to dent the poverty problem in this country. "You can't completely eliminate 'poverty,'" he said. About two to three per cent of the population seeking employment probably can't be employed, he added, because of sociological and psychological reasons.

## Picnic for Members of Honor Education Society

Pi Lambda Theta, honorary education society, will hold a picnic at the home of Mrs. Ellis Newsome, 127 Ferson Ave., Tuesday, at 6 p.m. Dean Howard Jones of the College of Education will cook.

Reservations must be made by Saturday. Cost is 75 cents. For reservations, call Beatrice Fawson, 6-8986; Jeanette Laughlin, 8-2580; Helen Coleman, 7-4905; or Marge Clatterbough, 7-8230.

## URBAN RENEWAL

"Urban renewal, good in concept, is too often carried out with more regard for bulldozer values than for human values. Often eas are rapidly destroyed, human beings quickly ousted from their homes to satisfy the requirements of some abstract blueprint at is likely to be changed when new set of bureaucrats gets its hands on it."

speech, Newark, N.J., June 23, 1964)

## UROPE

"First of all, we must learn at many European problems are not our business. We are committed to the defense of Western Europe — but we are not committed to any particular political or economic plan for the continent."

"When we seek to wedge other nations into the Common Market like an overanxious mother trying to get her daughters invited to a prom — we succeed only in making ourselves look ridiculous."

speech, Boston, June 20, 1964)

## CIVIL RIGHTS

"We are going to solve the problem of racial discrimination. A large part of this problem will be solved when it is no longer necessary for untrained whites and Negroes to compete for the jobs of our economy. But this problem will not be finally solved and we must face this — until there is a fundamental change in hearts and minds of men."

Such a change is now under

(Commencement address, Bryn Mawr College, June 15, 1964)

# Summer Recreation Menu Varied in Iowa City, Vicinity

By MARILYN HOLMES  
Staff Writer

Yes, it's summertime again, and for some summer fun why not visit one of the many recreational areas in Iowa City and vicinity?

Whether it's swimming, archery, sports, arts and crafts, or adventure you want, you'll find it at one of these spots.

There is swimming at the Municipal Pool in City Park from 1 to 9:30 p.m. daily, except July 11; hours on Labor Day will be from 10 a.m. to 8 p.m. The daily rate for ages 18 and under is 25 cents, and for adults, 50 cents. Suits and towels are available for those who wish to rent them. The Sun Deck in City Park is open for sun bathing, shuffleboard and table tennis by regular pool admission, while the underwater observation tunnel at the deep end of the pool is open to the public without charge.

### Red Cross Swimming Classes

Swimming instructors approved by the American Red Cross are conducting 40-minute classes from 8:45 a.m. to 12:30 p.m. Course classifications include non-swimmer, beginner, intermediate swimmer, junior and senior life saving and spring board diving. Registration is open to children who have completed second grade and adults, and is held at the Iowa City Recreation Commission Office 130 Lafayette, prior to each session. The third session is scheduled for July 13 to July 25; the fourth session, July 27 to Aug. 8; and the fifth session, Aug. 10 to 22. The fee for Iowa City residents is \$1.50 and for non-residents, \$2.00 per two-week course. Classes meet every day except Sunday.

Other activities at the pool include a demonstration of water safety and swimming lesson skills to be held July 25 at 8 p.m., and the second Dave Armbruster Iowa Amateur Athletic Union (A.A.U.) age group swimming meet to be held Saturday at 9:30 a.m. For people interested in competitive swimming and diving, a swim club for boys and girls of the intermediate level of swimming ability and higher is available. Registration for this group is also handled by the Recreation Office.

### Archery Instruction

Archery instruction is being offered at Happy Hollow Playground, Brown and North Lucas Streets, from 6:30 to 8 p.m. Tuesdays until Aug. 4. Equipment is furnished, and advance registration is not required.

The Iowa City Recreation Commission supervises eight other playgrounds, open Monday through Friday, until Aug. 7. These are Creekside, 7th Ave. Ct., open 1 to 5 p.m. and Thursday evening; Elm Grove, E. Benton St. and S. Dubuque St., open 9:30 to 11:30 a.m. 1 to 5 p.m. and Tuesday evenings; Herbert Hoover School, E. Court St. and 2nd Ave., 1 to 5 p.m. and Thursday evenings; Horace Mann School, N. Dodge St. and Church St., 1 to 5 p.m.; Lincoln School, Teeters Ct. and Rider St., 1 to 5 p.m. and Thursday evenings; Longfellow School, Seymour Ave., 1 to 5 p.m. and Wednesday evenings; Mark Twain School, Franklin St. and De Forest St., 1 to 5 p.m. and Wednesday evenings; and Roosevelt School, W. Benton St., 1 to 5 p.m. and Tuesday evenings.

### Iowa City Playground Activities

Playground activities will include arts and crafts, sports and games, contests music, story time and special events. Guided hikes through Linder Point at the Coralville Reservoir for children in grades three through nine will be held July 15, 22, 28, and Aug. 5 from 1 to 4 p.m. There is no charge, and registration can be made at any of the above playgrounds. Recreation Commission-sponsored sports activities for adults include baseball, softball, tennis, and golf.

The Iowa City Community Theatre in cooperation with the Recreation Commission will conduct a two-week workshop in creative dramatics for children in grades one through six this summer. For information about the workshop schedule, phone the Iowa City Recreation Commission Office, 338-5493.

### Coralville Reservoir

The Coralville Dam and Reservoir is located on the Iowa River, several miles upstream from Iowa City, and consists of four principal sections — the spillway, the earth embankment, the outlet works, the reservoir itself.

The spillway releases water from the reservoir automatically whenever the water level exceeds 712 feet to protect the earth embankment from overtopping. The outlet works consists of a control tower with three gates for regulating flow through the dam, and a stilling basin. Ordinarily, the lake extends between 17.4 and 21.7 miles upstream from the dam; during flood conditions, however, it may extend 35 miles above the dam.

The Coralville project dams the Iowa River temporarily during flood periods. Releases are regulated to reduce flood damage along the Iowa River downstream from the dam and along the Mississippi below the mouth of the Iowa River. During dry periods, regulated releases from the lake provide an increased flow below the dam. The reservoir was built by the Corps of Army Engineers and is under their jurisdiction. Recreational activities in the area include boating, hunting, fishing, swimming, camping and picnicking.

### Lake Macbride State Park

Lake Macbride, west of Solon, is a sub-impoundment of the Coralville Reservoir. The spillway crest of Lake Macbride Dam is at the same elevation as the spillway crest of Coralville Dam, 712 feet above sea level. The lake is ordinarily kept at that level, 32 feet higher than the summer level of Coralville Reservoir. At that level, its area is 935

acres, making it the largest State-owned artificial lake in Iowa. The lake is named in honor of the late Thomas H. Macbride, one of Iowa's most dedicated conservationists. It was formally opened in 1936.

Lake Macbride State Park is also in Johnson County, and is located four miles west of Solon on Iowa Highway 382. The main entrance to the park may be reached either from the northwest part of Solon, or from U.S. Highway 30 — between Cedar Rapids and Mount Vernon — traveling south by way of the county road, and going through Ely to Iowa Highway 382, stopping about 4 miles west of Solon.

### Picnic, Boating, Camping Areas

The park officer's residence is just inside the park entrance. From there the road turns south, branching west to a campground, east to a boat ramp and the supervised beach and bathhouse. The picnic grounds are north and west of the beach area. There are several nature trails, making it possible to cross the dam to the spillway with its many colored rocks and boulders. The Coralville Reservoir can be reached by one of these trails.

From the southwest edge of Solon, a county road is used to reach the inside of the lake. A boat ramp and picnic ground are located straight west of Solon about two miles. A few hundred yards to the east, another road turns south to a campground, picnic area, boat ramp, and the assistant custodian's residence.

Private cottages, many of them palatial and occupied all year round, line the shores of the peninsula near the Central Shop of the State Conservation Commission, and just across the lake from the beach and bathhouse is another boat ramp. Fishing is profitable in the park area but hunting is better in the Coralville Reservoir area.

No reservations are needed for tent and trailer camping in the park, but campers are requested to get a camping permit from the park officer before entering the campground. Rates for trailer camping are \$1 per night per unit on the east area where no modern shower building is available, and \$1.50 per night per unit on the west area where a modern shower building and trailer sewage disposal is provided. A camping unit is defined as a shelter used by the members of one household, a tent, trailer, station wagon, or combination of any of these.

Available facilities include camping space, water, and sanitation. Firewood may be purchased at the park office for 25 cents a bundle. Arrangements can be made for overnight camping for organizations such as scouts at the rate of 15 cents per day per camper. Campers may go into Solon for shopping, church and recreational facilities.

### Palisades-Kepler State Park

Palisades-Kepler State Park consists of 688 acres of natural beauty along the banks of the Cedar River in Linn County. The vertical cliffs on the river suggest the palisades of the Hudson River in New York, for which they are named.

A number of caves, in which many Indian artifacts have been found, are scattered through the palisades. Ancient pottery, stone fishhooks and arrowheads were among the artifacts found in some of the nearby Indian mounds; A molar tooth that once belonged to an ancient mammoth was also found in the park.

Palisades-Kepler State Park contains innumerable white oaks and 57 varieties of trees, shrubs and woody vines. Well-marked trails may be seen winding over hill and dale, valley and glen. The Devil's Kitchen, a huge cave with rooms in it large enough to accommodate 30 persons, is located up one river path. Down the river, another path leads down a flight of steps to a natural stone archway.

Accommodations in Palisades-Kepler include cabins, camping and lodges for special picnics and parties. Boating and fishing, a boat landing and dock and a dam across the Cedar River are also found there.

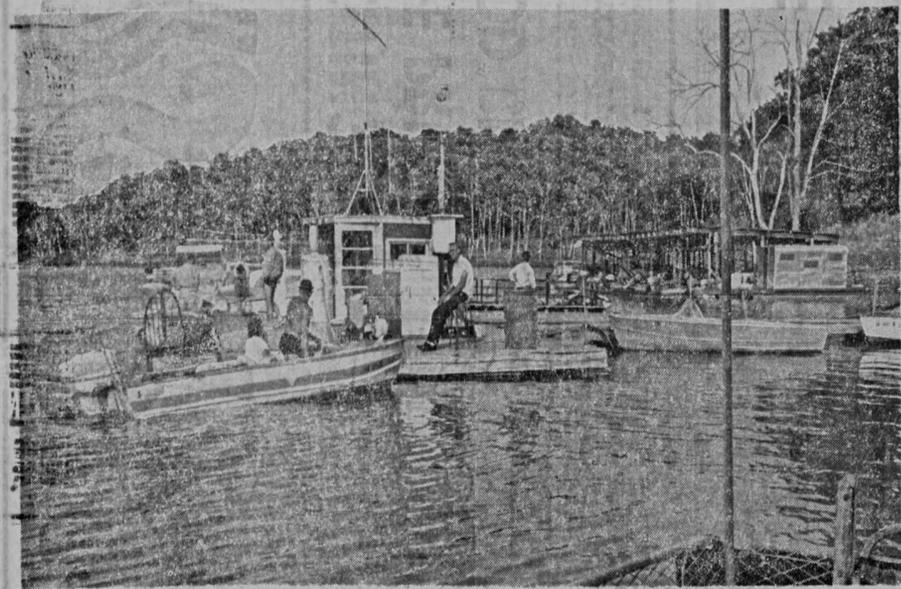

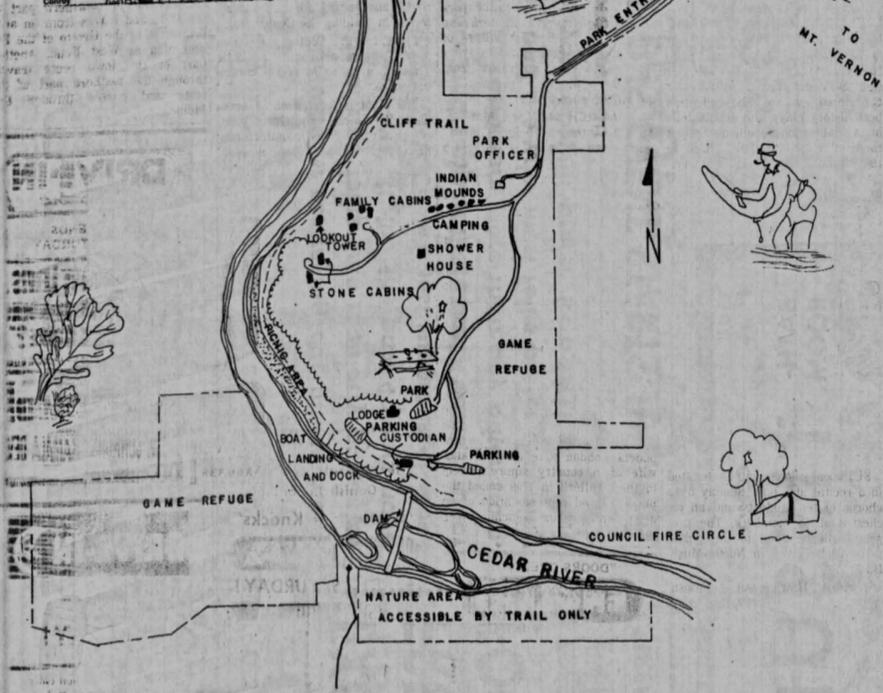

Fishermen reportedly have said that every kind of fish native to Iowa can be caught in the Cedar River above and below the dam. In the impoundment above the dam, pan fish such as bluegill and crappies, as well as bullheads and carp can be found. Big-fish territory is below the dam, where fishermen find walleyed pike and catfish plentiful. Flat-heads can be found lurking under brush piles, submerged hollow logs and vacated beaver apartments.

### Other Scenic Spots

Other scenic spots in the park include Lover's Leap, Maple and Hemlock Junction, the Fern Cliffs, Indian mounds and trails, and the Council Fire Circle. Lookout Tower is located upstream from the parking area at the end of one trail. Atop a high cliff, it furnishes one of the best views of the river and limestone cliffs as well as of the surrounding countryside.

No reservations are necessary for tent and trailer camping at the palisades, but again campers must secure a camping permit from the park office upon arrival, at the rate of \$1 per unit per night. Facilities include camping space, water, a central shower house with toilet facilities, tables and fireplace in the camp and picnic areas, and an area exclusively for campers. Firewood can be bought at the park office for 25 cents a bundle.

The two stone cabins available accommodate eight persons at the rate of \$8 per day, \$40 per week. All reservations are made through the park office. The four family cabins accommodate four persons each at \$6 per cabin per day or \$35 per cabin per week. Extra cots, where available, cost 50 cents each. Shopping, churches and recreation can be found at Mount Vernon, 3 miles away.

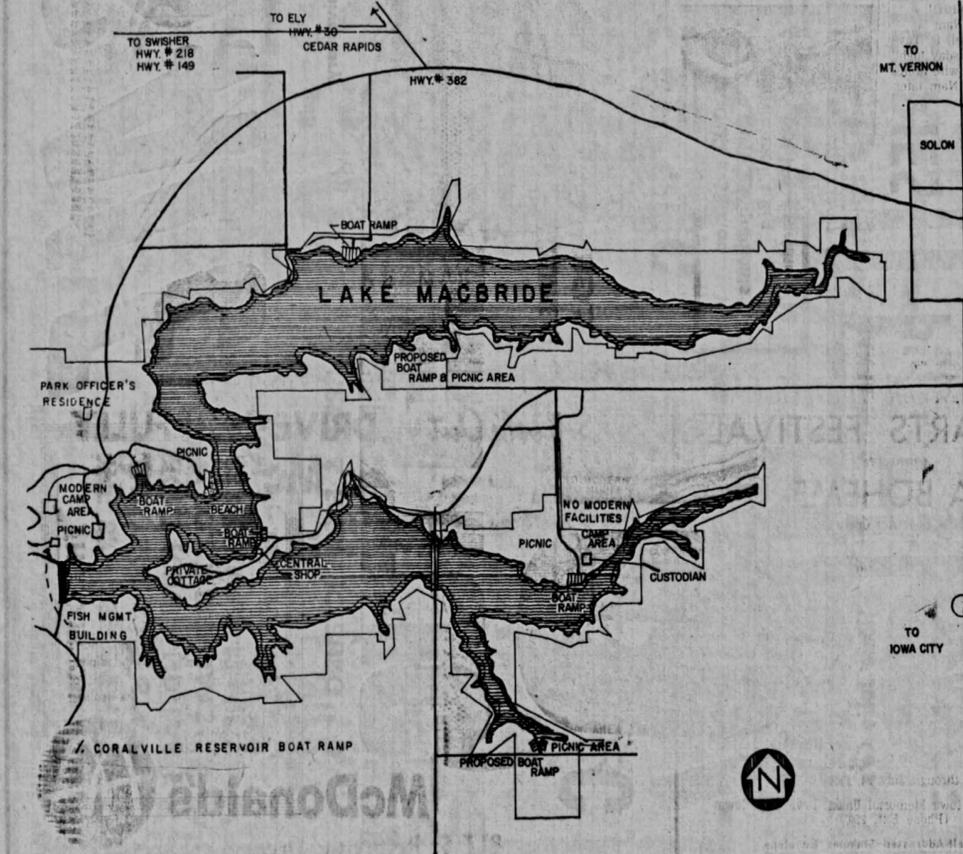

## Facilities Furnished for Boating Enthusiasts

Pleasure seekers often visit the Coral Marina, one of three marinas near the dam at Coralville Reservoir where motor boats may be

rented. The Coral Marina is operated by Ken and Mary Kallaus. Fishing and boating supplies are also available at these marinas.

—Photo by John Anderson

## Riding Paths Provided Along Reservoir

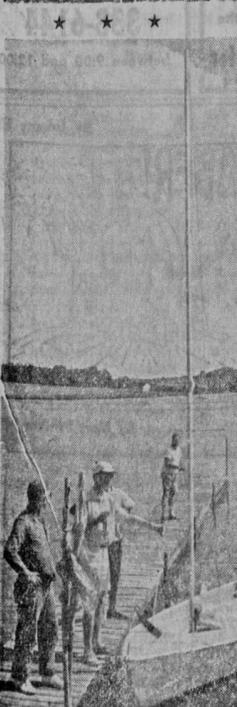

Donald Coulter, proprietor of the Sugar Bottom Stables, Coralville, is joined by his dog for a look at the stables and surrounding area. The stables are located near the Coralville Dam

and Reservoir. Visitors to the area may enjoy horseback riding and a trip through the Sugar Bottom recreation area, where picnic facilities are available.

# Week-Long Program Set For Brazilian Students

Eight student leaders from Brazil who are making an educational exchange tour of the United States will arrive in Iowa City Sunday for a week-long visit at SUI.

The students plan stops at Miami, New Orleans, Washington, D.C. Philadelphia, New York City, and Flint, Mich., as well as Iowa City. The tour is under the direction of the State Department's Education Travel Program with arrangements being made by the National Social Welfare Assembly.

Six of the visitors are law students from the Federal University of the State of Rio de Janeiro and the Catholic University of Petropolis. The two remaining students are studying veterinary medicine and economics.

**WHILE VISITING** the University, the students will tour SUI's educational facilities and will attend a series of discussion seminars. Also planned for the group is a trip Wednesday to visit farms and homes of families in Keosauqua.

Monday the students will attend a briefing meeting which will be followed in the afternoon by a campus tour. A reception will be held for the visitors by the SUI College of Law Tuesday and will be followed by a seminar with the law faculty.

Other seminar discussion sessions planned for members of the tour include "U.S. Economic Development," with Lewis E. Wagner, director of the SUI Bureau of Business and Economic Research, Wednesday; "Education in the United States," with Stuart C. Gray, associate professor of education, Thursday, and "Government

and Politics in the United States," with Peter Snow, assistant professor of political science, Friday.

**STUDENTS** from the Federal University of Rio de Janeiro are Sylvio Lessa, 25, law; Wayne dos Santos Goncalves, 31, law; Aloysio Santos, 23, Paulo Galliao Prata, 23, veterinary medicine; Ledio D'Assupcao Goncalves, 29, law; Salim Abdulmessih Ramonos, 25, law; and Christiano Alves de Araujo Franco, 21, economics. Jehovah Almeida Gomes, 25, is a law student at the Catholic University of Petropolis.

W. Wallace Maner, SUI foreign student adviser, is in charge of program arrangements for the Iowa City visit.

# Play Titles Given For SUI Theatre

Five plays ranging from Shakespearean tragedy to modern musical comedy will be presented at the SUI Theatre during the next academic year.

The plays are Shakespeare's "King Henry IV, Part I," Racine's "Phaedra," Lerner and Loewe's "Brigadoon," Ibsen's "Hedda Gabler" and Wycherley's "The Country Wife."

The season will open with "King Henry IV, Part I," which will run Oct. 29-31 and Nov. 2-7. Generally considered one of Shakespeare's best history plays, the drama tells of a gathering rebellion against the English king, whose claim to the throne is weak and who alienates those who have helped him to his position. The play introduces Sir John Falstaff, one of the most popular comic characters in English literature.

**RACINE'S "PHAEDRA"** will be presented Dec. 3-5 and 7-12. It is a version by the 17th century French poet of the Greek legend of Phaedra, wife of Theseus and descendant of gods and monsters, in whom Aphrodite implants a guilty passion for Hippolytus, Phaedra's stepson.

The season will end with William Wycherley's Restoration comedy, "The Country Wife." Popular since 1672, the complicated plot deals with the intrigues between an impudent London rake and the idiot wife of a country squire. Steele in the "Tatler" in 1709 called the play "a good representation of an age when Love and Wenching were the only business of life."

**STUDENTS Present Recitals on Sunday**

SUI vocal soloists will be assisted in a recital at 2 p.m. Sunday by a chorus of ten students and an orchestra of 16 members. The program will be open to the public and will be given in North Music Hall.

Elizabeth Hawley, A2, Anamosa, will open the program with a group of numbers. Allan Dean Kellar, G, Danville, will follow with four compositions by Gabriel Faure.

Linda Jones, A3, Centerville, will be at the piano. After an intermission, Miss Hawley and Kellar will appear as soloists with the chorus and orchestra in Henry Purcell's "Come Ye Sons of Art." Joe M. Noble, G, Riceville, will conduct this number.

The program has been planned and rehearsed by the students participating.

**EXPECTING AGAIN —** ABERDEEN, S.D. — Andrew Fischer, 39, father of the Aberdeen quintuplets, confirmed Thursday his wife is expecting again.

Fischer, contacted by an Aberdeen American-News reporter, did not confirm, however, reports that a multiple birth is expected.

"Only God knows. No X-rays have been taken," Fischer said.

Mrs. Fischer, 31, could not make a formal announcement of the impending birth when interviewed earlier this week. The American-News said the birth is expected in early fall.

The Fischer quintuplets will be a year old Sept. 14.

# Cultural Center Plans Furthered By Land Donation

Plans for a new Cultural Center on the Iowa State University campus at Ames were furthered recently when the International Harvester Company gave the ISU Foundation Des Moines lands and buildings formerly occupied by Solar Aircraft Company.

Iowa State will be able to sell or lease the property to an industrial firm, thus getting additional funds to use in building the Center.

The plant is located on 59 acres along the Chicago and Great Western Railroad. The manufacturing area includes the original plant built in 1951, later additions, an office and cafeteria and large, surfaced parking areas adjoining the plant.

Since 1958, the Foundation has sponsored a national campaign among some 51,000 alumni, corporate firms and students to raise funds for the project.

# Hiawatha Pioneer Trail To Be Marked in Iowa

The Iowa segment of Hiawatha Pioneer Trail will be marked for motorists beginning Friday. The Iowa Highway Commission has announced that all route markers and auxiliary signs have been prepared and will be erected by the commission or by county road departments.

The trail, which also winds through Minnesota, Wisconsin and Illinois, enters Iowa in the east, runs across the northern part of the state and leaves from an area northwest of the Grotto of the Redemption at West Bend. Another part of the Iowa route travels through the southern part of the state and passes through Des Moines.

# Enforcement Rigid On Rule Banning Skiing Near Shore

The state regulation prohibiting water skiing within 300 feet of shore is being rigidly enforced by the State Conservation Commission at the Coralville Reservoir.

During the July Fourth weekend, several boaters and waterskiers were ticketed for the offense at the reservoir. They were to appear in Justice of the Peace Court Thursday evening. Most said they were not aware of the regulation.

Louis M. Boers, chief of the Conservation Commission's water division, said Thursday in Des Moines that two water patrol boats may be on the reservoir this weekend. One patrol boat is regularly assigned.

The commission's regulation that waterskiers must be at least 300 feet from shore has been a rule for years on Iowa's natural lakes, Boers said. Last summer, the rule was extended to cover reservoirs behind U.S. Army Corps of Engineers dams. The regulation is also in effect on Iowa's side of the Mississippi River.

Boers is a former park officer at Lake Macbride State Park.

Other boat regulations being violated at the reservoir include two pertaining to the speed of boats.

Boats traveling more than 5 miles an hour must stay at least 250 feet from boats traveling at less than 5 miles an hour.

Boats traveling more than 5 miles an hour must stay at least 50 feet from each other.

**Number of SUIowans Accepted for Advanced ROTC Training Doubles**

Ninety-eight students at SUI have been accepted into the advanced course of the Army Reserve Officer Training Corps (ROTC). This is 46 more students than were admitted to the advanced program last year and represents the largest advanced Army ROTC class at SUI since the Korean War.

To qualify for the advanced program, students must have completed two years of military science courses and regular University work. Selection is based upon academic standing, leadership potential, and the student's performance on physical and mental examinations.

After students complete an additional two years of advanced ROTC and receive a diploma from the University, they will earn a commission as a second lieutenant in the U.S. Army.

**DIPLOMAT IN COMA —** STROKE MANDEVILLE, England (AP) — Dr. Roberto Arias, wounded Panamanian diplomat, lay in a coma Friday while his wife, ballerina Margot Fonteyn, hovered anxiously at his bedside.

A spokesman at Stoke Mandeville Hospital where Arias, 46, is under treatment for gunshot wounds said: "He is unconscious. He fell into a coma yesterday and is desperately ill."

# Blue Prefers Nursing Home For the Old

Some of the elderly people in hospitals today do not need to be there at all, former Iowa governor Robert Blue said Thursday at the SUI Workshop for Social Gerontology for Home Economics.

Blue, a native of Eagle Grove, was governor from 1945-49.

He said that sometimes elderly people are hospitalized even though they are not chronically ill. "Hospital" has become a magic word because of modern advances in medicine, he said, but such patients could get adequate care in nursing homes, since they are not actually in need of extensive medical care.

Blue noted that providing a bed in a nursing home costs only about half as much as providing one in a hospital.

He cautioned that not only should hospitals avoid lapsing into work better suited for nursing homes, but that nursing homes should not strive for too extensive medical facilities. In a good nursing home, he said, the diagnostic equipment should be limited to that found in an average doctor's office.

# Iowa City Lodges Will Entertain 82 Out-of-State Teens

Iowa City Odd Fellow and Rebekah lodges will entertain 82 California and Nebraska young people here during the coming week.

The 16- and 17-year-olds are part of a group of nearly 1,200 young people taking part in the fifteenth annual "United Nations Pilgrimage for Youth" sponsored by the Odd Fellows and Rebekahs of America. The program includes 26 New York City tours scheduled for young people from the United States and Canada.

Monday, a North Liberty high school girl, Sandy Stimmel, representing the Iowa City area, will leave for New York City.

The tours include visits to the United Nations, sight-seeing in New York City and a day at the New York World's Fair.

# Orioles Take 2 from Indians, Increase Lead to 3 1/2 Games

## 3 Home Runs Aid Sweep At Cleveland

CLEVELAND — The American League-leading Baltimore Orioles swept to a two-night doubleheader from Cleveland Thursday, defeating the Indians 4-3 as Boog Powell slammed a pair of two-run homers and 2-1 on a ninth inning homer by rookie Sam Bowens.

Bowen's seventh homer, with two out in the top of the ninth, broke a 1-1 tie and tagged Sam McDowell with the loss in the second game.

The Indians broke a scoreless deadlock in the seventh inning when rookie Chico Salmon singled in a run after Fred Whitfield bled an opposite-field double.

Baltimore came back with a run in the eighth and had McDowell on the ropes. Norm Siebern and John Orsino singled. Bob Johnson, batting for Powell doubled to bring in Siebern. But McDowell struck out Jerry Adair and Gino Cimoli grounded out to end the inning.

Orioles starter Milt Pappas, who was yanked for a pinch hitter in the eighth, had given up only two singles until the seventh.

Rookie Wally Bunker was working on a two-hitter for the Orioles in the ninth inning of the opener when Bob Chance tagged him for a two-run homer. Until then, Vic Davalillo's double and Leon Wagner's 18th homer, both in the first inning were Cleveland's only hits.

Chance's blast brought in Stu Miller, who struck out Tito Francona to end the game. The victory was the ninth against two losses for Bunker, who pitched his second one-hitter of the season just six days ago.

Powell slammed his 22nd homer in the first after Luis Aparicio hit the first following Jack Brandt's single. Starter Dick Donovan, 4-6, was the victim both times.

Twilight Game 000-4 8 0 Cleveland 100 000-3 3 0 Bunker, Miller (7) and Lau; Donovan, Siebert (7), Ramos (1) and Azcue, W. — Bunker, (9-2), L. — Donovan, (4-2).

Home runs — Baltimore, Powell 2 (2); Cleveland, Wagner (1), Chance (9).

Night Game 011-2 9 0 Cleveland 000 000-10-1 4 1 Pappas, Haddix (8) and Orsino, Brown (2); McDowell and Romano, W. — Haddix, (3-2), L. — McDowell, (3-2); Home run — Baltimore, Bowens (7).

## Phils Maintain NL Lead With 4-3 Win over Reds

PHILADELPHIA — Clay Dalrymple drove in two runs with a homer and a single and All-Star hero Johnny Callison threw out the potential tying run at the plate as the National League leading Philadelphia Phillies edged Cincinnati 4-3 Thursday night.

The victory kept the Phillies 1 1/2 games in front of second-place San Francisco.

Dalrymple hit his homer with the bases empty in the second inning, then capped the Phillies' decisive three-run rally in the sixth inning. A pair of walks and three straight singles off John T'stouris, all on the first pitch, accounted for the runs and a 4-2 lead.

Walks to Tony Gonzalez and Callison started the uprising and Richie Allen, Wes Covington and Jack Dalrymple followed with the first-pitch singles.

Although the second-place Giants chased Chicago's 11-game winner Larry Jackson, their own starter, Jack Sanford, had to quit in the second inning with a numbed right arm.

One of the Giants' four regular starters, Sanford was to fly to San Francisco Thursday night for a thorough examination of apparent impaired circulation in his pitching arm.

The victory went to Gaylord Perry, who replaced Sanford with two out in the second and gave up seven hits including pinch-hitter Len Gabrielson's none-on-homer in the fifth. Perry needed help from Bob Shaw in the ninth after yielding two more runs.

Jackson, now 11-6, yielded Mays' 25th homer in the first, gave up two second-inning runs mainly on shaky Cub throwing, and retreated in a three-run Giant fifth.

San Francisco 120 033 000-9 16 9 Chicago 010 003 000-4 10 3 Sanford, Perry (2), Shaw (9) and Haller; Jackson, Epton (5), Scott (4), Schurr (6), Burdette (8) and Berrill, W. — Perry, (7-4), L. — Jackson, (11-6).

Home runs — San Francisco, Mays (25), McCovey (12), Chicago, Gabrielson (1).

Expected to be among the top competitors are defending champion Steve Spray of Indiana and John Liechty of Marshalltown. Spray is recovering from a wrist injury that has hampered him recently, but is expected to be in top form for this tournament.

Liechty may not be able to play here because he has entered the Broadmor Invitational tournament at Colorado Springs during the same week. He missed the tournament here last year because of his prior injury in that tournament.

The Central States is sponsored by the Iowa City Shrine Club, which provides prizes valued at \$2,500. Proceeds are used for the Shrine Club's equipment pool for handicapped children.

Winners of eight championship flights will be awarded prizes or gift certificates and four prizes in all lower flights. The tournament champion and medalist receive matching trophies, with smaller replicas of each for permanent possession.

## SF Launches 16-Hit Attack In 9-4 Win

CHICAGO — The San Francisco Giants spiced a 16-hit attack with homers by Willie Mays and Willie McCovey and routed the Chicago Cubs 9-4 Thursday.

Although the second-place Giants chased Chicago's 11-game winner Larry Jackson, their own starter, Jack Sanford, had to quit in the second inning with a numbed right arm.

One of the Giants' four regular starters, Sanford was to fly to San Francisco Thursday night for a thorough examination of apparent impaired circulation in his pitching arm.

The victory went to Gaylord Perry, who replaced Sanford with two out in the second and gave up seven hits including pinch-hitter Len Gabrielson's none-on-homer in the fifth. Perry needed help from Bob Shaw in the ninth after yielding two more runs.

Jackson, now 11-6, yielded Mays' 25th homer in the first, gave up two second-inning runs mainly on shaky Cub throwing, and retreated in a three-run Giant fifth.

## City Netsters Gain Victories In Local Meet

Three Iowa Citizens advanced into the semi-final round of the Iowa State Closed Tennis tournament which began on the SUI courts Thursday. Action will continue beginning at 9 a.m. today.

Steve Houghton, seeded No. 1 in the boys singles for 16-and-under, defeated Doug Zorsky of Rock Island, Ill., 12-0.

Rich Strauss, seeded No. 1 in the junior singles, drew a bye in the first round and went on to defeat Brian Brindley of Des Moines, 12-9, in the second round.

In the first round of the girls singles 18-and-under, Mona Schallau of Iowa City, seeded No. 2, drew a

first-round bye and defeated Nancy Nelson of Clinton, 12-5, in the quarterfinals.

In the boys singles 12-and-under, Rich Larow, the No. 4 seed, defeated Bill Merrett of Dubuque, 12-6, in the first round, but lost to Barry Young of Waterloo in the second round, 12-7.

Chad Dore, also of Iowa City, but unseeded, defeated Paul Biehemore of Des Moines, 12-5, in the second round, but lost to third-seeded John Schrap in the quarterfinals, 12-3.

In the boys singles 16-and-under, the second-, third- and fourth-seeded players advanced along with Houghton.

George Robb, the No. 2 seed, defeated Steve Broglion, 12-2; Steve Ehlers, the No. 3 seed, defeated Gary Greenbaum of Des Moines, 12-0; and Bill Romp of Des Moines defeated Alan Langhor of Burlington, 12-2.

Semifinalists besides Miss Schallau in the girls 18-and-under division are Mary Mrzak, Judy Nolling and Charlene Mixdorf, all of Waterloo.

## Ex-Hawk Announcer Joins LA Organization

LOS ANGELES — A native Iowan and former announcer of Iowa Hawkeye football games has been hired by the Los Angeles Dodgers to do the play-by-play of the Dodgers' home games offered to subscribers of the Subscription Television, Inc. (STV), Tom Galery, vice president and sports director, has announced.

Frank Sims, a native of Fort Dodge who handled the action and Fresco Thompson, who has been associated with organized baseball for over 40 years, will handle the color.

Sims, a graduate of Purdue University, began his broadcasting career in 1939. Following service in the Air Force, he returned to Iowa where he broadcast Hawkeye football for four years.

In 1949, Sims moved to Detroit where for the next 10 years he announced football, professional basketball and, in 1957, began announcing for the Detroit Tigers.

In 1960, he moved to Philadelphia where he announced Phillies baseball on both radio and TV, and had other sports assignments, including NCAA basketball championships and professional football.

Sims joined the Dodger organization in 1963 when he began announcing for the Albuquerque Dukes in the Texas League.

Thompson, a vice-president and farm director of the Dodger organization, began his organized baseball career in Grand Island, Neb., in 1923. The following year, he began his major league career playing for Pittsburgh, New York, Philadelphia and Brooklyn. In 1936, he began managing with the Birmingham (Ala.) Barons of the Sou-
