

# 802 To Be Awarded Diplomas

## Ceremony Starts At 7:30 Tonight

By JUDY BRUHN  
City Editor

A record number of graduate degrees for a single University commencement — 802 — will be conferred by Pres. Howard R. Bowen at summer session Commencement at 7:30 tonight.

A total of 802 degrees will be awarded at the ceremonies in the Field House. The number of Ph.D. degrees — 111 — will also be a single commencement record. Three hundred seventy-four masters and 317 other degrees will be conferred.

J. Richard Palmer, president of Morningside College, Sioux City, will deliver the main address, entitled "Intellectual Royalty." The charge to the graduates will be given by Bowen.

**THE MASTER OF** ceremonies for Commencement will be William D. Coder, director of conferences and institutes. Robert S. Michaelson, administrative director of the School of Religion, will serve as chaplain.

Faculty marshals will be Theodore R. Anderson, professor of sociology and anthropology; Stuart C. Gray, assistant professor of education; and Donald E. Rhoades, dean of admissions and director of convocations.

The commencement will be broadcast by radio station WSUI, with Orville Hitchcock, associate dean of the Graduate College, giving the commentary.

Graduation has already come for 14 women who received their certificates of practical nursing Tuesday night. Merle C. Woodford, assistant professor of nursing, was the main speaker.

**AT 4:30 P.M.** today four men will be commissioned into the U.S. Army and three into the U.S. Air Force at joint ceremonies in the Pharamacy Auditorium. Dean Rhoades will be the speaker.

Among the graduates tonight will be persons from 83 Iowa counties, 42 states, and 25 foreign countries. The 43 foreign graduates are from Algeria, Brazil, Canada, the Canal Zone, Taiwan, Czechoslovakia, Egypt, England, Germany, Greece, India, Iraq, Japan, Jordan, Korea, Lebanon, Paraguay, Portugal, New Zealand, Nigeria, Panama, Rhodesia, Switzerland, Tanzania and Turkey.

The commencement will bring the total number of degrees granted by the University to 94,678. This includes more than 25,000 graduate degrees and more than 4,800 Ph.D. degrees. The University granted its first degrees in 1858.

President Bowen will have awarded more than 3,700 degrees in less than 14 months at the University.

**MORE THAN 18** per cent of the students who had applied for August degrees will not be receiving them. Robert M. Leahy, associate director of admissions, ordered 986 degrees, but only 802 will be conferred.

Low grades or preliminary grades that keep students from meeting minimum grade-point requirements eliminate many undergraduate degree candidates, according to Rhoades.

Most graduate degree candidates who are eliminated have failed to pass their comprehensive examinations or to complete their thesis or dissertation work.

Many of the students who won't receive degrees tonight will graduate at a later commencement, Rhoades said.

**THE DELAY, HOWEVER,** may mean that they will not be able to say they graduated from SU. For tonight's graduates, the word "State" will appear with University of Iowa on all degrees. But this may not last for long.

The University still has a year's supply of diploma covers with the word "State." When that supply runs out and a new degree printing contract is negotiated, said Rhoades, University officials will discuss the possibility of dropping the "State" from the degree.

They will be a couple of years behind the Board of Regents who last year, acting on a suggestion by President Bowen, eliminated "State" from the University name.

Since then, the University of Iowa has been informally recognized as the correct name.

**Cuban Institute Here** — The Communist regime of Fidel Castro has not succeeded in convincing some Cuban people that the Cuban "paradise" is worth the price of freedom. If the members of the Cuban Institute at the University this summer are an example, Castro has failed miserably.

Under a program begun at Iowa in the summer of 1963, groups of Cuban refugees living in the Miami, Fla., area have been given the opportunity to prepare themselves for professional status in the United States. Since then, the program has been developed in Montana, Indiana, and Pennsylvania.

**THIS SUMMER** the Cuban Institute has seventeen members. The purpose of the program is twofold. First, it prepares qualified Cubans to teach Spanish in Iowa high schools, using skills they learned in Cuba to regain their professional status. Secondly, the Institute helps to extend the program of foreign language instruction in Iowa high schools.

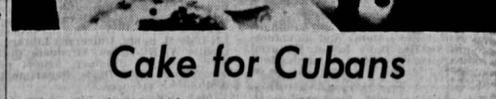

Dr. Florindo Cerreta, associate professor of Romance languages, has served as the director of the Institute during each of its three sessions. The program is under the authority of the College of Education.

The institute offers instruction in teaching methods, comparative education, linguistics, and laboratory use. It also attempts to prepare the Cubans for life in the United States by giving them background instruction in American government and civilization.

**AFTER SUCCESSFULLY** completing the 1965 institute program, each participant will be granted a temporary teaching certificate for the 1965-66 school year. In order to extend their teacher certification beyond one year, the participants must enroll in the graduate program in teacher education at the State College of Iowa, Iowa State University, Drake University or the University of Iowa.

The Cuban Institute is financed by the Federal Government under the provisions of the Migration and Refugee Assistance Act of 1962.

Government support for the current Institute totals \$39,503. Those Cubans who wish to obtain certification beyond one year must pay all costs of such certification themselves.

**Cake for Cubans**

Eileen Greub, R3, Aiden, presents a going-away cake to members of the Cuban refugee group who have just finished an eight-week training session at the University. Miss Greube and Mary Dickey, A3, Jefferson served the cake at the Burge cafeteria during their stay at the University. —Photo by Mike Toner

# The Daily Iowan

Serving the State University of Iowa and the People of Iowa City

## Cloudy, Warmer

Partly cloudy with showers affecting 20 to 30 per cent of the state today and the north portion tonight and Thursday. A little warmer today; highs, middle 80s east to the lower 90s west.

## News in Brief

### Two 'Negro Americas' Are Feared

**VICE PRESIDENT HUBERT H. HUMPHREY** called Tuesday night for cooperation between private agencies and the government to counter the danger of creating two "Negro Americas."

Humphrey said in a speech in Miami prepared for the National Urban League that "we have witnessed the virtual elimination of legalized prejudice and discrimination in America." But he said the plight of poverty-stricken Negroes remains grim.

"We are, in fact, in danger of creating two separate and distinct Negro America. One comprised of a minority of Negroes entering the middle class. The other inhabited largely by the residents of our urban ghettos and rural slums."

### 'Hughes-Hawkins War' Is Not

Gov. Harold Hughes and Democratic State Chairman Lex Hawkins denied Tuesday that they are feuding over a proposal to endorse candidates in the 1966 primary election.

They called a joint news conference to emphasize what they called their intentions to work out a compromise agreeable to both and end speculation that there is a "Hughes-Hawkins war."

Hughes indicated he has softened his opposition to the proposal launched by Hawkins to give party backing to candidates in next year's primary elections.

**HUGHES**  
Softens His Position

### Negro Churches Believed Bombed

An unidentified deputy sheriff from St. Tammany Parish (County) inspected the ruins of the Protestant Baptist Church near Slidell, La. Police officials believe that the fire was caused by arson.

The church was one of two Negro churches destroyed in St. Tammany Parish in the pre-dawn Wednesday.

No charges have been made.

### September Draft Call Increases

**WASHINGTON** — The Pentagon jumped the September draft call Tuesday to 27,400 men and set the October call for 33,600 to help increase the U.S. forces in Viet Nam.

The quotas are the highest since the Korean War, when 80,000 were called some months. The Navy will draft men in October for the first time since 1956.

A Selective Service spokesman said no difficulty is expected in meeting the larger quotas. He said local draft boards have been directed to bring their files of married men classified 1-A up to date. They also have been reminded that they can ask schools about the grades and status of young men with educational deferments.

The spokesman said review of the draft status of single men is done all the time but hasn't been done generally on married men classified 1-A in a couple of years or so. He explained that some men who were passed over because they were married might now be fathers and eligible for deferment. Some, he said, might no longer be married and thus subject to induction.

It has been the policy to pass over young married men, between 19 and 26.

The Army set its need for military men with no prior military experience at 38,000 for September, 27,400 for the draft, and the rest from expected volunteers; and at 38,400 for October, with 29,000 from the draft.

### Grand Jury Indicts Two For Murder

#### Negroes Still Picketing Despite Sanders' Plea To Halt Demonstrations

**AMERICUS, Ga.** — Two Negroes were indicted Tuesday on first-degree murder charges in the gun slaying of a white youth. The indictments came as more civil rights workers arrived in spite of a plea from Gov. Carl E. Sanders to stop importing demonstrators.

Foreman W. D. White of the Sumter County grand jury said the indictments were returned against Eddie Will Lamar and Charles Lee Hopkins, both 21. They are charged with murdering Andrew A. Whitley, 21, a Marine enlistee shot last Wednesday night about three blocks from a civil rights demonstration.

The 23-man jury, which included one Negro, took five hours and 45 minutes to reach its decision. It heard several witnesses.

No trial date was set. The next term of Superior Court is in November. If convicted, the Negroes could receive the death penalty. They are held in jail, without bail.

The governor told Negro leaders: "I ask that leaders of the so-called civil rights groups display good will and not bring in outsiders to stir up emotions and perhaps cause more violence."

About 40 demonstrators came by bus from Savannah, Ga., as three small groups of pickets demonstrated outside downtown stores.

Lt. Gov. Peter Zack Geer sent a telegram to President Johnson asking him to use his influence to end the demonstrations.

Mayor T. Griffin Walker of Americus urged residents to stay off the streets at night and not to congregate in groups. He also called for an end to demonstrations.

Negro leaders, however, said there would be no letup in picketing and marches.

### Ike To Join Hoover Day Celebration

**WEST BRANCH** — Former President Dwight Eisenhower plans to attend ceremonies commemorating the 91st birthday of the late President Herbert Hoover here Aug. 10, it was announced Tuesday.

A spokesman for the West Branch Heritage Foundation, Inc., said he had been advised by an Eisenhower aide, Gen. Robert Schultz, that "during unforeseen circumstances, Eisenhower is looking forward to attending" the ceremonies.

Former Vice President Richard Nixon, who served under Eisenhower, will deliver the main address. Eisenhower will probably introduce Nixon, who has advised sponsors that the speech will be "a major one" and deal with the international situation under Hoover's presidency.

The program will be held on the grounds of Hoover Memorial Park, near the cottage in which Hoover was born on Aug. 10, 1874, the son of a blacksmith. Hoover and his wife are buried in the park, which is scheduled to become a national historic site.

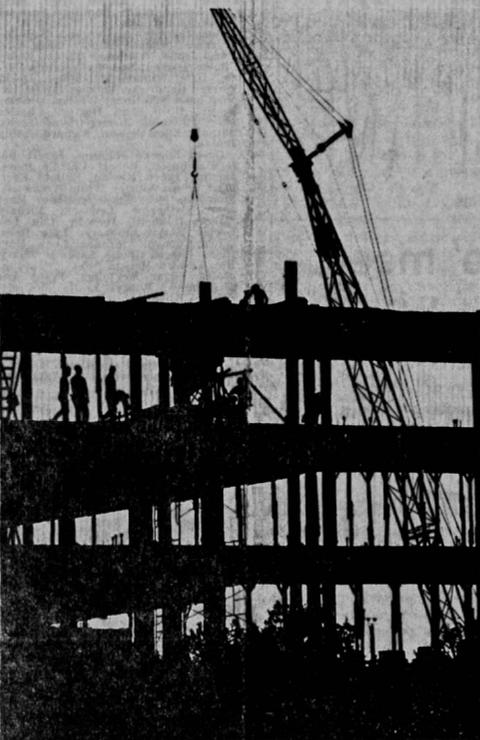

The U.S. Post Office Department will issue a commemorative stamp in honor of Hoover, who died last year.

### 12-Week Session Calls 533 Students

Fewer than 533 students will remain at the University for the final four weeks of the summer session, according to the Registrar's Office.

Students who stay are enrolled in courses that require a 12-week attendance. Rhetoric, elementary chemistry, physical education, and languages are among the subjects that are offered on a two-semester basis.

The Carnival Room will be open from 7 a.m. to 7 p.m. every day until Aug. 25. The Student Health Service plans no schedule changes. The University Library hours will be shortened. From Aug. 5 to Aug. 24 the hours will be Monday through Friday, 7:30 a.m. to 10 p.m.; and Sunday, 1:30 to 10 p.m.

**Little Men**

The silhouettes of construction workers are dwarfed against the frame of the new English building as they unload materials from the even taller crane. The building will house offices and English, creative writing, and rhetoric class rooms when it is completed.

### Centrex Confusion Hits University Phones

By JAMES O'DONNELL  
Staff Writer

The first day of August brought a \$20,000 paycheck to Jack Nicklaus as top prize in the Thunderbird Open, a dispute between President Johnson and Republican House Leader Gerald Ford of Michigan and instant mayhem to residents and students in Iowa City from the introduction of the University Centrex telephone system.

What Centrex boils down to is that you will no longer be able to dial the four-digit extension number if you want to call someone on campus. This changes all the dormitory numbers on both sides of the Iowa River, all University extensions and University Hospitals. The result is confusion to the poor student's mind with a batch of new numbers.

**TO PLACE A CALL** within the University using the new Centrex system, dial the last five digits of the listed seven-digit figure, all of which are new numbers. To call Iowa City numbers, first dial 9, then complete the seven-digit number. If you happen to be living outside of the University Centrex system and you want to dial the University operator, you can't dial 0, you have to dial 353-2121.

Ah, best of all, Direct Distance Dialing also went into effect August 1.

Directions in the Centrex directory read: "If one reaches an incorrect number by Direct Distance Dialing, he should ask the person who answers the phone what city

he has called, then immediately dial 9, then dial 0 and tell the operator what happened."

That's right, tell her you were trying to call Des Moines and wound up talking to a night clerk in a Denver hotel. Or maybe you were dialing Cedar Rapids and wound up talking to the constable of Rapid City, S.D.?

**THE BIG CHANGE** was made for the convenience of outsiders trying to reach someone on the inside of the University, and because the existing phone system was nearing its capacity. This way, outsiders don't have to dial 338-0511 and let the operator dial the extension number for them. No, now they have to do it themselves. It could well be a plot to strengthen the fingers of Midwest youths.

"I don't believe we're experiencing any difficulties," Mike Finnigan, assistant business manager of Northwestern Bell of Iowa City, said. "Not any more than anticipated. Any as far as the changes, it's going as expected," he continued. "We are getting a lot of information calls, but that's all."

**THE SAGA**, however, is just beginning. Wait until 15,000 plus students stamped the campus in September. Or better yet, wait until 60,000 football fans come to town. Iowa City operators may go bald tearing their hair from the roots.

Until that time, patience — and get to know the Centrex directory. It may save both you and the telephone authorities a batch of ulcers.

### Bad Connection Blamed In Power Failure Here

The power failure that struck the University Tuesday was caused by a bad connection in the line between the University Physical Plant and Iowa-Illinois Gas and Electric Co.

D. A. Nollsch, superintendent of the physical plant, said the cause for the "lost tie switch" was unknown, but it was the first time the line had carried a load of 5,500 kilowatts. With forced cooling, though, the line is capable of carrying from 6,000 to 6,200 kilowatts, he said.

The Physical Plant has one of its generators off the line for overhauling and is buying about 50 per cent of its electric power from Iowa-Illinois. This generator would have relieved the line of 3,000 kilowatts.

Most of the "daytime" blackouts were of temporary duration with the one that occurred at 10:45 a.m. the longest. It lasted about fifteen minutes. The ones in the afternoon at 2:32 and 2:37 lasted about three minutes.

Station WSUI was also affected. It went off the air shortly before its sign-off time for about three minutes.

University Hospitals were not affected by the power failure.

### Congress Near Final Approval Of Voting Bill

#### House Sends Measure To Senate; Completion Expected on Thursday

**WASHINGTON** — The House sped to the Senate Tuesday for final congressional approval a landmark bill intended to make sure Southern Negroes are not blocked from voting.

The Senate is expected to act on the measure Thursday, sending it to President Johnson to sign into law.

In a brief debate before the 328-74 vote, the House Republican leader, Gerald R. Ford of Michigan, said the bill in its final form is weaker than the version passed by the House July 9.

Ford criticized the chairman of the House Judiciary Committee, Rep. Emanuel Celler (D-N.Y.) for accepting in a conference with the Senate an amendment to let some Southern communities escape the impact of the bill.

A move to send the bill back to conference failed 284 to 118. On final passage, 54 Democrats — mostly Southerners — and 20 Republicans voted against the measure.

The bill has three main provisions:

- It permits the government to send special federal examiners into states and voting districts where less than 50 per cent of the voters are registered and take over registration there.
- It suspends literacy tests in Alabama, Alaska, Georgia, Louisiana, Mississippi, South Carolina, 34 counties of North Carolina and one county each of Arizona, Idaho and Maine.
- It directs the attorney general to go into court immediately to have the poll tax declared unconstitutional in the state and local elections. This applies in the four states which have the tax: Alabama, Mississippi, Virginia and Texas. A constitutional amendment outlawed the poll tax in national elections.

The object of Ford's fire was a provision that authorizes the removal of federal registrars from counties in which 50 per cent of the Negroes are registered.

### U.S.-Soviet Clash Mars Geneva Talks

**GENEVA** — The United States and the Soviet Union clashed over Viet Nam at the 17-nation disarmament conference Tuesday. Prospects of progress on world disarmament seemed more remote than ever.

Chief Soviet negotiator Semyon K. Tsarapkin said his country will never sign a treaty to halt the spread of nuclear weapons as long as the West continues with its plans to create an Atlantic nuclear force.

He followed this up with a violent attack on American "aggressive imperialism" in Viet Nam and elsewhere, claiming that the United States has "one million officers and men — more than one-third of its total military force" in foreign bases.

He also accused West Germany of applying blackmail against the West in seeking to satisfy what he called its desire for access to nuclear weapons via the proposed Atlantic nuclear force.

William C. Foster, head of the U.S. Arms Control and Disarmament Agency, deplored what he called Tsarapkin's "propaganda, vilification and distortion."

He said Viet Nam has nothing to do with disarmament and that the United States is determined to support a nation "whose only offense is its determination to live in peace and freedom."

The clash reduced hopes of getting the Russians to agree to a British-sponsored draft treaty to halt the spread of nuclear weapons. Western differences over the draft are still being ironed out.

The Soviet Union has thus far rejected the Western argument that an Atlantic nuclear force would constitute an active arms control measure by putting non-nuclear powers such as West Germany virtually under the control of the North Atlantic Treaty Organization nuclear power.

# Installation of New Iowan Press Nearing Completion

By LINDA NOLAN  
Staff Writer

The installation of the new \$85,000 press for The Daily Iowan is 95 per cent completed, according to Arthur Schmeichel, mechanical superintendent of The Iowan. Schmeichel said that all the necessary supplies of ink and paper needed for the first edition are also on campus.

The new press is a Goss tubular letterpress that prints directly from raised type. The press came to the University from Alexandria, La. It was completely reconditioned and is guaranteed to be mechanically perfect by the Inland Newspaper Machine Corporation of Kansas City, Mo.

**THE FIRST EDITION** of the press will be the University Edition to be printed by Aug. 21. The new press will print the 9,000 copies in less than an hour, using color for the first time in headlines and advertising.

Schmeichel has been in the newspaper business for the last 42 years. He worked on the Muscatine Journal and the Davenport Times-Democrat before coming to the University. He is beginning his 16th year at the Iowan.

The Daily Iowan started to outgrow the old press 15 years ago and we've been hoping to replace it since that time," he said.

**THE OLD PRESS** is a flatbed model which prints directly from type forms. It can only print 4,000 copies of an eight-page edition an hour.

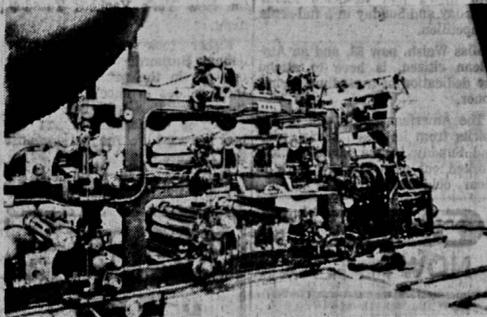

Schmeichel said, "I know of no other newspaper in the country with a daily circulation of the size of The Daily Iowan that is still printing on a flatbed press, so you know that we were due for a change."

The new press prints from plates at a top capacity of 25,000 copies per hour of 20-page editions. This will reduce the time needed to print each day's edition of The Iowan from three hours to less than an hour.

"**ANYONE** will have to be blind to fail not to notice the tremendous improvement in the quality of print of The Iowan, and it will be much less of a strain on the employees," Schmeichel said.

Schmeichel said that the old press was limited in the news capacity that it could handle and the amount of features and advertising that it could print.

The purpose of any newspaper, he said, "is to present as much news to the public as it is financially able to. Now the Iowan will be able to deliver much better service to the community, the students and the alumni," he said. Circulation in the fall will exceed

## New Press

This is the newly finished Iowan press that will soon be printing copies of the University Edition. The rotary press is capable of printing up to 20 pages in a single run. —Photo by Mike Toner

10,000, in contrast to the summer circulation of 6,600.

**THE NEW PRESS** can use color. It is capable of printing 12 pages of two colors with black type, 16 pages with one color and black or 20 of only black.

At present there are six full-time employees and four part-time employees at the print shop. On Thursday Inland Company will send a pressman to instruct the Iowan mechanical employees in the operations of the press, but until then Dick Wilson, machine foreman, and Schmeichel will handle the machine operations.

The men work in two shifts each day, but Schmeichel must be on

call 24 hours a day. He said that there were no immediate plans to increase the staff.

"**THIS,**" HE SAID, "will be done when the circulation growth of the University and the city warrant additional help."

The new press is located in the basement of the Old Sidwell Building on Madison Street which has been rejuvenated with funds from Student Publications, Inc. (SPI). SPI purchased the new press.

The old press is located in Close Hall. It will be removed by Inland Company within 30 days after the rotary operations are set up. All the linotype and composing facilities, however, will remain in Close Hall for the present.

## Davenport Man Sentenced For Income Tax Evasion

DES MOINES (AP) — A federal district judge sentenced Bernard O. Matthys of Davenport Tuesday to a year in prison on each of two counts of federal income tax evasion.

Judge Roy Stephenson also fined Matthys \$10,000 on each count. He set the sentences to run concurrently, with the start of the term suspended for 60 days.

Matthys faced four charges which accused him of failing to pay a total of \$17,196 in income taxes for the years 1958 through 1961.

He originally pleaded not guilty to all charges, but changed his plea to nolo contendere later on indictments relating to the years 1959

and 1960, and sentenced on those charges Tuesday.

Indictments against Matthys said he had taxable income in 1959 and 1960 of \$48,575 but reported income of less than \$4,000.

## Johnson County Nurse Will Leave Post Sept. 1

The Johnson County Board of Supervisors accepted Monday the resignation letter of Mrs. Rosemary Diehl, Johnson County Health nurse.

Mrs. Diehl, who became health nurse Oct. 16, 1963, will resign from her position Sept. 1. The Board of Supervisors will name her successor.

## Campus Notes

### LIBRARY BOOKS DUE

Graduate books are due at the University Library today. Interim books for graduates are due Sept. 22. All other books are due on the dates stamped in them.

### PROF. MASSON HONORED

Professor Edward J. Masson, head of the Department of Office Management and Business Education, was honored recently at the 18th annual dinner held in Armana by the business education department.

Dr. Masson was recognized for his years of service to the department and was presented with a bound volume of 100 letters written to him by students who have graduated from the department over the past 15 years.

Special recognition was also given to 12 master's and Ph.D. degree candidates from the department who will receive degrees today.

### PIANO RECITAL TODAY

Jose Miguel Mariscal, G. Cedar Rapids, will present a piano recital today at 8 p.m. in North Music Hall.

Mariscal, who is organist at the Olivet Presbyterian Church in Cedar Rapids, will present three works: Beethoven's "Sonata, Op. 111," Mendelssohn's "Phantasia, Op. 28" and Alberto Ginastera's "Sofata" (1952).

### GRADUATE MASS

A mass for all graduates, their families and friends will be celebrated at 5 tonight in St. Thomas More Chapel, 405 N. Riverside Dr.

## County, Cities Building More

There has been an increase in the number of constructions in Johnson County, according to the seven-month reports of the various engineer and building inspectors' offices.

Building permits issued by Johnson County, which includes all parts of the county except Iowa City, Coralville and University Heights, for Jan. 1 to July 30 total 57, valued at \$1,337,500.

This is a 13-permit increase over the 44 issued during the first seven months of last year, which were valued at \$882,765.

The total number of county permits issued during 1964 totaled 89, valued at \$3,772,295.

County building permits are issued by Ray H. Justen, county engineer, if the permit requested corresponds to the county zoning laws. If the desired construction is not within the existing zoning laws, the person must apply to the Board of Supervisors and the Zoning Commission to obtain a change in zoning before the permit can be issued.

A county building permit for a family construction is \$10. The cost of permits for business constructions is computed on the evaluation of the value of the building.

Iowa City issued 52 building permits in July as compared to 41 permits issued during July of 1964. The estimated value of permits issued for the first seven months of 1965 is \$7,891,982. The value of permits issued for the first seven months of 1964 was \$4,918,437.

Iowa City building permits are required for the construction of any building worth more than \$20.

Coralville issued 49 permits, valued at \$632,900, thus far this year. During the first seven months of last year 46 permits were issued, with an estimated value of \$472,000.

University Heights issued 11 permits, valued at \$237,000 this year. This is a two-permit increase over the nine building permits, valued at \$227,000, issued during the first seven months of 1964.

Twenty-one building permits, valued at \$445,000, were issued in University Heights last year.

## School Board Bids Slated for Aug. 18

Candidates to be endorsed for the School Board election Sept. 13 will be selected by the Bi-Partisan School Board Nominating Committee for the Iowa Community School District, at a meeting at 7:30 p.m. Aug. 18 in the Civic Center.

Two three-year terms on the board will be open when the terms of board members Mrs. B. F. Patrick and Herbert Williams expire in September. Williams does not plan to seek another term, but Mrs. Patrick said she will run for reelection.

The purpose of the school board nominating committee is to insure that there will be more than one candidate seeking election to the board. However, any qualified resident of the district may become a candidate if he desires.

Democratic and Republican party caucuses selected the committee members last year. Members who cannot attend the nominating committee meeting are to name alternates to go in their places.

## Mom Exposes Child to Pox To Save Life

VENTURA, Calif. (AP) — A young mother said Tuesday she deliberately exposed her leukemia-stricken daughter to chicken pox in a desperate attempt to prolong her life.

Sharon Evans, 24, said her daughter, Joy, 4, has been given less than a month to live.

"When I read somewhere about 10 days ago that a few terminal leukemia cases seem to have been arrested by chicken pox, I decided it was worth a calculated risk," Mrs. Evans said in an interview.

Joy's physician, a pediatrician at the University of California at Los Angeles Medical Center, said he warned Mrs. Evans the procedure was "very dangerous."

"However, the mother feels there is nothing to lose because it is definite the child is in the last month of life, and she is taking the risk on her own," she said.

Mrs. Evans appealed through a local newspaper for an active case of chicken pox and got several replies. Last Sunday she took Joy to the home of a couple whose 3-year-old son has the contagious disease. The children played together and drank from the same cup, Mrs. Evans said. "We won't know for at least two weeks whether Joy caught chicken pox, but I desperately hope so," she said.

Mrs. Evans said she was told the procedure was "strictly experimental."

## City Youth Corps Program Outlined To Kiwanis Group

The fall Neighborhood Youth Corps (NYC) program will include training in the city offices, the recreation department and the library, John Adamson, city administrative assistant, told members of the Iowa City Kiwanis Club Tuesday.

The NYC project, operated by Iowa City, is part of President Johnson's War on Poverty program. It is supported by 90 per cent federal funds and 10 per cent local funds.

"The Neighborhood Youth Corps is a work-training program to give a sense of pride and accomplishment to young men and women who often have known nothing but failure, rejection and frustration," Adamson said.

He said that the summer NYC program has employed 40 boys from the ages of 16 to 21. These boys are being taught the basics of park conservation.

The summer program also evaluates and counsels the youth as to further education and training. "In our summer program our entire emphasis has been of learning what your responsibility was to your job, your fellow employees, and your employer," Adamson said.

He said that more emphasis should be placed on the training side of NYC and that training would be the main goal of the winter program.

One of the problems faced in planning the winter NYC is finding suitable places for training the youth, Adamson said. The NYC program requires that the participants work for non-profit organizations.

## Loan Committee Processes Student Aid Applications

In the less than five weeks since he became the director of student financial aid, John E. Moore has helped channel more than \$1,100,000 to students seeking financial assistance.

Tuesday, Moore and the three other members of the president-appointed University Loan Committee met to consider loan applications from 2,200 to 2,400 students applying for National Defense Student Loans (NDSL).

**THE COMMITTEE** considers all the applications from students who qualify by grade point (freshman—2.1; sophomores, juniors and seniors—2.25; M.A. candidates—2.5; Ph.D. candidates—2.75; professionals—upper two-third class rank) and demonstration of financial need. Those who applied and do not qualify have been sent letters of loan denial. Moore said those who will get loans will probably receive letters of confirmation next week.

In approving loans to students, the committee is hampered only by the amount of funds available. This year the committee has a little more than \$1 million to loan and is hoping for more. The Loan Committee doesn't have to spend too much time deciding who will get a loan if the student is eligible, but it does have to decide how much can be loaned to the student.

According to Moore, the real discussion comes when the University Scholarship Committee, also appointed by the president, considers the scholarship applications. Many

deserving students apply for scholarships, said Moore, and it's sometimes hard to decide who should get the scholarships.

**LAST WEEK** the scholarship committee met and awarded approximately \$100,000 in general University merit and student aid scholarships. Those students receiving the scholarships have been notified.

In addition to handling all National Defense loans and the University scholarship program, Moore's office works with student employment, short-term loans for a year, the Health Profession loans, and the Freshmen and National Merit scholarships.

Mrs. Nancy Moss, Financial Aid Office manager, handles most of the clerical work on the loans and others in the office work on scholarships, small loans and employment. Howard Moffitt, assistant director of student financial aid, works a good deal with student employment. Moore, however, does look through most of the loan applications.

**MOORE'S OFFICE** also works with the Registrar's office in making high school contacts and planning College Career Programs in high schools. Many of the industrial scholarships such as those from Alcoa, General Motors and Maytag are awarded through the Financial Aid Office.

After registration, students with loans are notified to come in and pick them up at the Financial Aid

Office. A cross check is made to assure that students with loans have registered.

**IN DECEMBER**, the Loan Committee meets again to consider the applications from students for second semester loans. In the spring, Freshman Merit Scholarships are awarded.

Moore became financial aid director July 1, replacing Charles Mason who is now assistant dean in the Graduate College. Moore had been principal of Southeast Junior High in Iowa City for three years. Before that he was principal of Herbert Hoover elementary school for eight years.

Moore received his B.A. in education from the University in 1950. In 1956, he earned his M.A. in school administration.

## Stock Market Edges Ahead; Trading Mixed

NEW YORK (AP) — The stock market showed selective improvement amid a mixed pattern at the close Tuesday. Trading was moderately active.

Kennecott, Zenith and American South African Investment were up about 2 points each. IBM gained 5 or more.

## JAP SHIPS TO VISIT BRAZIL

RECIFE, Brazil (AP) — The first Japanese warships to visit Brazil in 40 years are due here next Sunday. They are part of Japan's self-defense fleet.

## Tigers Breeze Past Cleveland

CLEVELAND (AP) — The Detroit Tigers exploded for nine runs in the fifth inning Tuesday night, sending 13 batters against three Cleveland pitchers, and breezed to a 12-7 victory over the Indians.

It was a hitters' battle all the way, with Cleveland scoring seven runs in the first five innings on a dozen hits.

Rookie Steve Hargan, a right-hander just up from Portland, held

the Tigers to three hits in the first four innings before they clobbered him in the fifth.

Bill Freehan started the big inning for Detroit with a double, and before the fireworks were over he also had a two-run single.

Detroit ..... 000 290 010—12 14 0  
Cleveland ..... 202 210 000—7 15 0  
Lolich, Navarro (5), Fox (4) and Freehan; Hargan, Stange (5), Weaver (5), Tiant (6), Terry (6) and Azcue. W—Fox (5-3). L—Stange (5-3). Home runs — Detroit, Cash (14).

## NL President Says Spitballs 'Infrequent'

By HAROLD HARRISON  
Associated Press Writer

CINCINNATI (AP) — National League President Warren C. Giles took a dim view Tuesday of protests over the alleged use of the illegal spitball in baseball games. He said complaining managers should make their objections to him and the league in writing and not just in public statements. He added he has received no such written complaints.

"I don't think the pitches (spitters) are as numerous as the batters claim," Giles said in an interview.

Giles said he has heard nothing officially from Bobby Bragan, manager of the Milwaukee Braves, who said a few days ago he was telling his pitchers to use the spitball in retaliation against San Francisco Giant hurlers, particularly Bob Shaw.

"I asked Bragan to substantiate his charges or tell me he could not substantiate them," Giles said. "I have heard nothing."

As for himself, Giles said he is opposed to legalization of the pitch.

Giles said he sat in on the last rules committee meeting at which the spitball was considered and use of it was rejected.

Since then, he said, there have been no direct representations to the league to legalize it.

Giles said he had talked with National League umpires about watching for the pitch and use of it has not been detected.

He explained again that rules permit the pitcher to go to his mouth before throwing the ball providing he wipes his fingers with the resin bag or on his uniform before making his pitch.

Pirates 7, Mets 0

NEW YORK (AP) — Vern Law pitched a three-hitter as Pittsburgh whacked the New York Mets 7-0 Tuesday night.

Law, winning his 12th game of the season, did not permit a Met past first base and allowed only three singles. It was his third shut-out this season against the Mets.

Pittsburgh's Roberto Clemente drove in two runs with a single and a triple. Willie Stargell had two doubles and a single, driving in one run and Gene Alley ripped his third home run of the season.

New York ..... 000 000 000—0 3 1  
Pittsburgh ..... 000 131 011—7 13 0  
Law and Paganoni; Chico, Kroll (5), Miller (6), McGraw (9) and Schaffer, Stephenson (6). W—Law (12-9). L—Chico (3-7). Home run — Pittsburgh, Alley (3).

Cubs 2, Phillies 0

PHILADELPHIA (AP) — Bill Faul pitched a two-hitter and drove in a run with a single as Chicago blanked Philadelphia 2-0 Tuesday.

Faul limited the Phillies to Wes Covington's second inning double and a single by Tony Gonzalez in the third, and struck out nine while hanging up his second victory of the season. He retired the last 19 batters he faced and has given just one run in the last 26 innings.

Don Landrum, hit in the leg by a Ray Culp pitch in the sixth inning, came home on Billy Williams' double off the left-center field grandstand wall.

Don Kessinger walked with two out in the eighth, went to second on Culp's wild pitch and scored on Faul's single into center.

Chicago ..... 000 001 100—2 5 0  
Philadelphia ..... 000 000 000—0 2 0  
Faul and Roxnovsky; Culp, Belinsky (8), Baldeusch (9) and Dairyple. W—Faul (2-2). L—Culp (7-7).

Astros 10, Cards 7

ST. LOUIS (AP) — The Houston Astros, powered by Jim Wynn's tape-measure three-run homer, downed the St. Louis Cardinals for the eighth time in nine tries this season when they won the opener of a two-night doubleheader Tuesday night, 10-7.

Houston ..... 110 010 520—10 15 0  
St. Louis ..... 001 020 220—7 10 0  
Dierker, Owens (7), Cuellar (8), Taylor (8) and Brand; Purkey, Sadecki (7), Dennis (7), Schultz (8), Briles (8) and McCarver. W—Dierker (5-5). L—Purkey (8-8). Home runs — Houston, Dierker (1), Wynn (13), St. Louis, Brock (10), McCarver (10).

HOUGHTON WINS—Steve Houghton of Iowa City won his first round match in the U.S. National Junior and Boys tennis championships at Kalamazoo, Mich.

## Record Expected as U.S. Track Team Meets Poland

By WILL GRIMSLEY  
Associated Press Sports Writer

WARSAW, Poland (AP) — A world record for the women's 100 meter is almost certain when Wyoming Tyus of Griffin, Ga., faces Poland's two sensational sprinters in the dual track meet with the United States here this weekend, a running immortal predicted Tuesday.

"I don't believe ever in history have there been three world record holders in the same race," said Stella Walsh, who won four gold medals and three silver as a sprinter for Poland back in the 1930's.

"Something has to give. I foresee the race being run in 11 seconds flat."

Miss Tyus, 19-year-old Tennessee A. and I. student, equalled the record of 11.1 seconds in winning her specialty in the U.S.-Russia meet at Kiev last week. The mark had been set two weeks before in Prague by Eva Klobukowska and Irena Kirszenstein.

The three of them and Olympic 200-meter champion Edith McGuire of Atlanta line up in what appears

to be the highlight of the U.S.-Poland meet, bringing together both men's and women's teams Saturday and Sunday in a full-scale competition.

Fisher took over for starter Johnny Buzhardt with two on and one out in the seventh and held the Yankees in check the rest of the way. Buzhardt boosted his record to 8-4 for the season and now has a 6-0 lifetime mark against the Yankees.

Stottlemire had a 2-0 lead going into the fourth and he retired

## White Sox Down Yanks, 3-2

CHICAGO (AP) — Ron Hansen's bases-loaded triple in the fourth inning and Eddie Fisher's clutch relief pitching carried the Chicago White Sox to a 3-2 victory over the New York Yankees Tuesday night.

Fisher took over for starter Johnny Buzhardt with two on and one out in the seventh and held the Yankees in check the rest of the way. Buzhardt boosted his record to 8-4 for the season and now has a 6-0 lifetime mark against the Yankees.

Stottlemire had a 2-0 lead going into the fourth and he retired

# blocks

**harmful contaminants**  
(so they can't block your gas line!)

What does the American FINAL/FILTER really do? Automotive engineers know—they asked for it and American Oil Research developed it to stand between you and trouble. You see, all gasolines pick up tiny impurities in transit and in storage. These impurities, should they get in your gasoline tank, could clog up the fuel line filter and stop you cold. The American FINAL/FILTER blocks out contaminants right at the pump nozzle. If you use your car on the job (and even if you don't) you stay out of trouble when you "fill 'er up filtered" with American, Regular or American, Super-Premium. **You expect more from Standard and you get it!**
