## Renewal Plans To Debut Oct. 19

Iowa City's urban renewal plan for the first urban renewal area, the central business district, will be presented to the public Oct. 19.

Mayor William C. Hubbard said Wednesday that the plan would be presented in some auditorium in Iowa City but that questions and discussion would have to wait until a later time.

During the two days following the presentations the plan will be presented to special groups in the city. Planning consultants and city urban renewal planners will be on hand to discuss the plan with these groups.

Hubbard said that four meetings a day could be scheduled with the planners and asked that representatives of the Chamber of Commerce, Downtown Business and Professional Men's Association, the League of Women Voters, the Jaycees, the University and other groups attend the meetings Oct. 20 and 21.

During the weeks after the presentations, Barry Lundberg, director of the department of planning and urban renewal, will be available to present or elaborate the plan.

The next step is to send the plan to federal urban renewal officials who must approve it. When the plan is returned, the city council will hold a public hearing. When the council feels that all necessary changes have been made and the public has had sufficient time to discuss the plan, the council will make its decision.

Hubbard said that the time for the council's vote upon the plan cannot yet be determined, but in previous council meetings, the councilmen set January as an approximate date for the vote.

# Senate Votes Against Cloture On Rights Bill

## Dirksen Adamant About Opposition In Spite Of Plea

WASHINGTON (AP) — The Senate refused Wednesday to halt its civil rights debate, dealing what may have been a death blow to President Johnson's measure.

But Senate Democratic Leader Mike Mansfield of Montana said he might try again to force action on the proposal.

The Senate vote was 54-42, or 10 votes short of the two-thirds required to force an end to debate. Voting for cloture were 42 Democrats and 12 Republicans. Against it were 21 Democrats and 21 Republicans.

When the roll call was over, Mansfield told the Senate it would stick to the same business it had been on. He did not explain that decision on the floor.

Mansfield said he would discuss the question of another effort to win backing for the bill with Sen. Philip A. Hart (D-Mich.), its chief Senate sponsor.

The Democratic leader said he did not plan to confer with President Johnson on the question. He said he had discussed thoroughly the bill's future at the White House Tuesday night.

**New Cloture Move Probable**  
Mansfield had said in advance that a new cloture move would be probable if a majority of the Senate voted for Wednesday's petition, even though the majority fell short of the required two-thirds.

He said Wednesday's vote was about what Democratic strategists had expected.

Mansfield said if he did decide to try again, the new vote would come Monday. The Senate recessed for the night soon after the roll call.

**Dirksen Spurns Plea**  
Sen. Everett M. Dirksen (R-Ill.), Republican leader, spurned a final plea from President Johnson to support a bill that Dirksen called "a package of mischief." In the rolling baritone voice that heralded passage of Johnson's civil rights measures in years past, Dirksen, the Senate Republican leader, declared: "I said to the President: 'This is not for me.' And last night at the White House I reaffirmed it to the President of the United States."

"And if there are any doubting Thomases who thought I would be a miserable retreat, they can get it out of their heads, because that word retreat is not in my dictionary."

Dirksen's climactic oration came on the seventh day of Senate debate on a motion to take up the civil rights bill. Three times that debate has been choked off for lack of enough senators to do business.

**GOP Support Essential**  
And through it all, Mansfield has acknowledged that without Dirksen — and Republican — backing, his bid for an end to the talk could not succeed.

Said Dirksen: "It has been said to me, 'You're going to hurt your party.' Suppose they'd said that to Abraham Lincoln. Do you suppose there'd be a monument to him down there if he'd caved in when they said to him: 'Don't do it, it's the unpopular thing, it isn't good for your party?'"

"I do not want to hurt my party, but I do not want to commit my party to a miserable surrender to expediency and opportunism," Dirksen said.

**Dirksen Adamant**  
Dirksen spoke scornfully of what he called an appeal to fear. "It has been said that this is an invitation to violence," he said. "Are demonstrations to become a way of life?"

If they are, he said, any group of Americans with a grievance will be told:

"Organize and demonstrate, and stay at it. Scare the hell out of them. Tell them you'll take them to the cleaners at the polls."

"The President tried to do a little convincing, but he failed," Mansfield said.

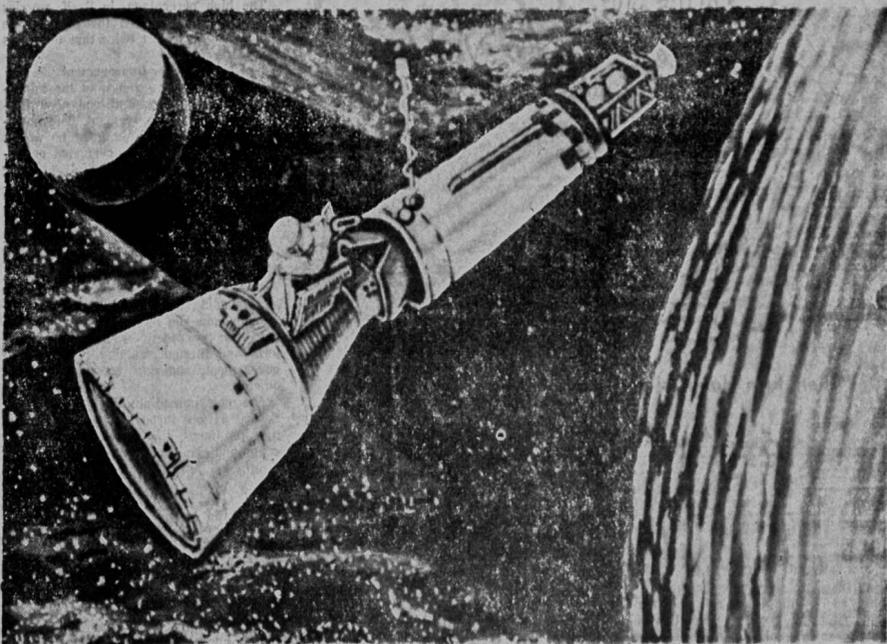

## Stocks Rally, Top 'Magic 800' Mark

NEW YORK (AP) — The stock market converted an early loss to a husky gain Wednesday, surprising many Wall Streeters by its ability to advance for the fourth straight session.

Volume was 6.25 million shares compared with 6.87 million Tuesday.

The Dow Jones industrial average gained 10.75 at 806.23, standing above this "magic 800" level for the first time since Aug. 19. By Aug. 29 the average had crumbled to 767.03 which seems to have been at least the temporary bottom of the 1966 decline.

The surprising nature of the rally was apparent from the general attitude that the market "was entitled to a breather," as many analysts said. It was hoped that profit taking on three days of advances would be kept to narrow bounds.

ASTRONAUT RICHARD F. GORDON JR. is depicted, in a drawing by AP artist John Carlton, opening the hatch of Gemini 11 and photographing the stars. Gordon performed the operation, with the upper part of his body outside the spaceship, while Gemini was mated to the powerful Agena. In the drawing Gordon is between the moon at left and the earth at right.

# Gemini Breaks Records; Recovery Set For Today

CAPE KENNEDY, Fla. (AP) — Awed and chatty, the record-smashing Gemini 11 pilots crammed all they could into their final day in orbit Wednesday, and found that twirling around the globe lassoed to a rocket was really "wild."

Astronauts Charles Conrad Jr. and Richard F. Gordon Jr. blazed to a world altitude record of 850 miles, getting man's first view of earth horizon-to-horizon, then set a new record for time spent by any man outside an orbiting spaceship.

Gordon poked all but his legs from Gemini 11 for two hours and eight minutes, snapping pictures. He and Conrad were so close to it all they cat-napped during slack periods, whipping along at 17,500 miles an hour, with the hatch open.

**Identify Proton 3**  
Mission Control revealed that the Air Force identified an object spotted by the pilots Tuesday as Proton 3 — a large Russian satellite weighing over 12 tons. The scientific vehicle came within 279 miles of them.

Their journey, daring, exotic and virtually without a hitch, neared an end. A meteoric plunse back to earth in the Atlantic Ocean was scheduled for 8:43 a.m. CDT today after 44 trips around the world.

"Man, this is wild!" Gordon declared as Gemini 11 and an Agena sped through space.

## Shelton Convicted In Contempt Case

WASHINGTON (AP) — Robert M. Shelton, imperial wizard of the United Klans of America, was convicted Wednesday of contempt of Congress for refusing to produce Klan records for the House Committee on Un-American Activities.

A U.S. District Court jury made up of nine whites and three Negroes returned a verdict of guilty to the one-count indictment after deliberating the case for little more than an hour.

Shelton and his attorney, Lester V. Chalmers, said immediately that they would appeal.

Judge John J. Sirica permitted Shelton to remain at liberty under the \$500 cash bond he had posted after his indictment. The judge deferred sentencing, saying he was referring the case to the court's probation office for a presentence investigation.

Conviction of the charge carries a sentence of up to one year in prison or a fine up to \$1,000, or both.

Shelton was one of seven Klan leaders indicted for contempt of Congress after refusing to produce records demanded by the House committee in its investigation into Klan organization and activities in the country. The others are to be tried early next month.

Shelton offered no defense testimony during the three-day trial. But Chalmers, in his summation, argued to the jury that the committee subpoena directing the Klan head to produce his records was so broad as to leave Shelton in doubt as to what was wanted.

space, a 100-foot nylon lanyard tied between them. "This is really weird."

"It's like the Agena and I have a skip rope between us. It's rotating and making a big loop," Conrad explained. "I've got things pretty well in hand now, and it looks like we're skipping rope with the thing out here."

**Follows Unlatching**  
The strange three-hour exercise came after Gemini 11 unlatched from the Agena

## Senate Submits Minimum Wage To White House

WASHINGTON (AP) — Legislation to boost the minimum wage from \$1.25 an hour to \$1.60 by 1968 and bring coverage to eight million more workers passed the Senate Wednesday and was sent to President Johnson.

The compromise bill, product of a tough fight in Congress, was passed on a 55-38 roll-call vote.

The legislation, first major labor bill passed by the 89th Congress, was cleared to the President in almost exactly the form he requested. The House had passed it last Wednesday 259-89.

The bill will raise the wage floor to \$1.40 next Feb. 1 and to \$1.60 a year later for 29.6 million workers now covered by the \$1.40 rate next Feb. 1.

Most of the eight million newly covered workers under the bill will start out with a \$1 minimum next Feb. 1. The Labor Department estimates slightly more than one million of these now are paid less than that.

The measure will bring under the act for the first time: some farm workers; employes of hotels, motels, restaurants, laundries, colleges and universities, grade and high schools other than teachers, and transit systems; and noncivil service workers in the federal government.

## Order To Restrain Nazi March Issued

CHICAGO (AP) — Judge Joseph Sam Perry of U.S. District Court issued a temporary restraining order Wednesday prohibiting the American Nazi Party from staging demonstrations in Jewish neighborhoods during the high holidays.

The motion for the order was filed by the Jewish War Veterans.

George Lincoln Rockwell, Nazi party leader, had announced plans to march Saturday in Hyde Park, a South Side neighborhood where many Jews live, to "convince the Jews not to support the Negroes and Communists."

for the first time since Monday, the day the astronauts caught it in the swiftest rendezvous ever performed.

Officials considered giving the "go" for one more chase a few hours before splash-down Thursday after the two vehicles drift about 13 miles apart during the night. However, they said troubles with the Agena's radar equipment might prevent it.

By stretching the cord between the two vehicles, the astronauts wanted to determine if the maneuver might be used in the future as a fuel-saving way to fly in formation with satellites.

Conrad started the spinning ride by firing tiny jet thrusters on Gemini 11, backing away from the Agena to uncoil the tether. Gordon clamped the cord to the nose of Gemini 11 Tuesday during his exhausting 44-minute walk in space.

## News in Briefs

**MILITANT TRADE UNIONS** Wednesday threatened a massive revolt in London against Prime Minister Harold Wilson's Labor government because of the prospect of widespread layoffs in the nation's automobile industry. More than 2,000 automotive workers walked off their jobs in protest of layoffs resulting from Wilson's attempts to deflate the economy and strengthen the pound sterling.

**GERTRUDE BERG, WHO STARRED** for more than 30 years as the maternal "Molly Goldberg" of radio and television, died Wednesday in New York of a heart ailment. She was 66. She turned to the Broadway stage seven years ago and was to have appeared within a few months in a new show, "The Playgirls."

**BRITAIN ANNOUNCED WEDNESDAY** night it will call on Rhodesia to end its rebellion and warned that otherwise it will ask for drastic U.N. sanctions against Prime Minister Ian Smith's all-white regime. The announcement was made in a communique in London after nine days of bitter debate in the 22-nation Commonwealth conference on steps to end the 10-month breakaway. The colony's white regime rebelled over British plans for eventual rule by Rhodesia's overwhelmingly African population.

**THE NEW WORLD JOURNAL TRIBUNE'S** takeover of syndicated material from the defunct Herald Tribune was attacked by the federal government in Washington Wednesday in an antitrust suit. It asked that competing New York dailies be allowed to bid for the columns and features. A monopoly on the syndicated material, the federal court complaint charged, gives the World Journal Tribune a decisive competitive advantage, and especially may threaten the continued existence of its only afternoon rival, the New York Post. In Washington, Atty. Gen. Nicholas Katzenbach said the World Journal Tribune is asked in the suit to waive present rights to the syndicated material to "make it possible for all New York dailies, including the World Journal Tribune, to compete on an equal basis for the publication rights."

**POLICE BEGAN WEDNESDAY** night rounding up suspected "ringleaders" in a mob of some 300 Negro teen-agers who went on a rampage of violence following a high school football game in Des Moines Monday night. Eight boys and three girls described as parolees from the state training schools at Eldora and Mitchellville were taken into custody. Officers reportedly had a list of a score of other youths to be picked up.

**THOUSANDS OF STUDENTS BATTLED** police Wednesday night in downtown Buenos Aires in a new outbreak of violence over the Argentine government's university policies. Two newsmen were injured. The students, hurling homemade incendiary bombs and stones, set a seven-story building afire and burned two parked cars in a two-hour battle with police.

**TWO U.S. SOLDIERS WERE SHOT** from behind and killed Wednesday in a Santo Domingo laundry, police reported. Police said they arrested four laundry workers for questioning in the shooting. The two Americans apparently were members of the 8,000-man Inter-American Peace Force, whose last units are to leave the country Sept. 20.

## Grenada Schools Closed During Court Hearing

GRENADA, Miss. (AP) — U.S. Dist. Judge Claude Clayton ordered all classes suspended for Thursday only in this town of racial torment. He said he was concerned what might happen during the absence of many authorities.

Clayton said he was requiring a number of responsible city and county officials to be in court Thursday at Oxford — 45 miles to the north — during a hearing on a Justice Department request for a preliminary injunction requiring authorities to furnish protection for Negro pupils.

Judge Clayton directed Schools Supt. Gayle Wilborn to reopen classes Friday.

The suspension of classes came after Negro children, protected by more than 300 heavily armed state troopers, had at-

## Petition Sought To Change City's Governing Form

A proposal to change Iowa City's form of city government received both criticism and support at a preliminary meeting held Wednesday night in the Civic Center.

The meeting was called in an effort to begin procedure to change from the present council-manager form of government used in Iowa City to another form. Joe Zajicek of Rural Route 5 called the meeting.

Two other forms of government were presented to the audience — mayor-alderman and commission — and a show of hands was called for of those who wanted a change. Most of those present indicated they wanted a change.

Another show of hands later in the meeting indicated that of those who wanted a change, most favored the mayor-alderman form — the form Iowa City had previous to 1951, when voters decided to change to the council-manager form.

Leaders of the change movement said in order to change, a petition containing about 750 names would have to be filed, and then the present government would have to arrange for a special election to put the issue before the voters. If the issue failed to pass, citizens must wait four years before it can be brought up again.

A hat was passed after the meeting to finance the petition movement.

No dates were set for any further meetings.

tended classes peacefully for the first time with white pupils Wednesday.

**Uneasy Peace Enforced**

Patrolling squad cars and a ring of steel-helmeted highway patrolmen around the two schools enforced the uneasy peace.

The quiet contrasted sharply with the first two days of school when cursing white men beat Negro boys and girls and newsmen with ax handles and pieces of pipe and state troopers lounged in the shade playing cards.

Escorted by highway patrol cars, 83 Negro pupils trudged one mile across town Wednesday from the Bell Flower Church to the school complex. They carried their books under their arms.

Only pupils, their parents and teachers were permitted through police lines, which ringed a two-block area around the two formerly all-white public schools.

**Governor Issues Statement**

Police protection took effect after Judge Clayton had rushed to his courtroom Tuesday night to sign an order directing officials here to cease "their willful failure and refusal" to guard the Negro children and their parents.

Gov. Paul B. Johnson Jr. also issued a statement from the State Capitol in Jackson, saying the state would maintain law and order in Grenada, a north Mississippi town of 8,000 persons, about half of them Negro.

Twelve pickets, guarded by Mississippi highway patrolmen, marched for about an hour through the downtown section Wednesday carrying signs urging Negro to boycott stores. There were no incidents, although many whites laughed and some told the Negroes to quit trying to start trouble.

Constable Grady Carroll called newsmen to the front of the Grenada County Courthouse after the pickets had withdrawn. Asked what would happen when the highway patrol left town, he said: "We'll have it like we've always had." He didn't elaborate.

## British Fulbright Scholar To Teach Rhetoric Here

Norman Jackson, currently a Fulbright Scholar from Hull, England, will be an instructor in rhetoric and possibly in the Writers Workshop during the next year.

Jackson was brought to the University by Paul Engle, director of the Writers Workshop, who spoke at Hull University two years ago. He met Engle after having written to him and sending him some of his work. Jackson was accepted last March and in July received the Fulbright Scholarship to study in the United States.

Jackson attended Hull University as a State Scholar and received his degree in English and drama in 1962. He was editor of the National University Press Magazine "U" for one year and then went to the British Broadcast Corporation as a script-writer; he broadcast his own poetry over the programs "The Northern Ditch" and "Today" for about a year. After that he was a book reviewer on the London Tribune until Engle accepted him.

Jackson has written two volumes of poetry and one long thesis on William Faulkner. The thesis, published by the National University Press in England, is entitled "Faulkner, the Novelist Behind the Man," has been taken by the University of Mississippi for the Mississippi Room where everything written about Faulkner is collected. Jackson said that he might lecture at the University of Mississippi during the next year.

Three poems that Jackson wrote are scheduled to be published in the October issue of "The Reporter." He recently had four poems published in the "Observer," a weekly critical paper published in London.

Jackson said that Engle was well-known in England both for his work and his workshop. Engle's workshop is envied by English universities which would like a comparable setup, said Jackson.

**Forecast**  
Generally fair today and Friday. Highs today middle 60s north and near 70 south. Partly cloudy and a little warmer on Saturday. Chance of showers today through Friday.

### Uninformed public

Tuesday's editorial in the Press-Citizen worried because recent criticism of the Iowa City council has been "uninformed." If it has been uninformed, this is because the councilmen have not been informing the public. We worry about that.

Instead of telling the public precisely why councilmen wanted City Engineer Morse fired, Councilman Burger said he did not want to "air laundry in public."

Instead of telling the public why the council decides the fate of city officials by informal consensus, Councilman Nesmith asked if a church

board ever met in secret. The council is a public body elected by the people to spend the taxpayers' money; the church board is not. There is no parallel.

Instead of defending itself, the council has chosen to remain silent in a situation where circumstances, at least, cast doubt on the impartiality and good intentions of three councilmen.

We think that editorial solicitude might better be bestowed on the interests of the public rather than on those of the council in this situation.

E. M. Midura

### President's Club

Campaign financing continues to be the Achilles' heel of American democracy. Election campaigns in the United States are unbelievably expensive. Parties and candidates are forced to think up clever means to raise the vast sums needed to pay for high cost campaign advertising. They frequently turn for contributions to sources some of which could conceivably stand to gain substantially from government favoritism.

The opportunities for corruption and the consequent suspicion of corruption can be removed. Political scientists believe that, whatever the difficulties, wise and adequate laws relating to campaign financing can be drafted and enforced.

No one would argue that present laws are in the least inadequate. President Johnson submitted a bill to Congress proposing a new law. It would help by requiring more disclosure, encouraging gifts by smaller contributors, and closing some of the present loopholes. Still, it is a bare beginning.

At the same time that this bill would help reduce dependence on the large contributor, Mr. Johnson is using the President's Club as a device to attract to party coffers gifts of \$1,000 or more.

Relying on status appeal, the President's Club has proved to be an unusually successful fund-raising method. And, like the \$1,000-a-plate dinner and the sale of advertisements in slick political brochures at \$15,000 a page, it raises suspicions of improprieties. Such practices should have no place in politics.

It is not necessary to adopt Theodore Roosevelt's suggestion that the government pay campaign expenses by appropriating funds directly to the parties. Helpful measures could include: voluntary agreements to limit advertising expenditures, tax incentive programs for the small contributor, laws providing for shorter campaigns, the application of campaign contribution laws to primaries and conventions, the establishment of proper accounting methods, and the disclosing and publicizing of actual contributions and expenditures.

The President's Club raises suspicions of influence peddling and corruption, involving the highest office in the land. However reluctant he may be to give up a lucrative source of party income, President Johnson owes it to the people to preside at the dissolution of this club and to do it now.

The Christian Science Monitor

### Our new format

The Daily Iowan's experiment with the wider column format we have been using for the past few days has so far been successful, and we think we're going to stick with it.

We decided to try the six-column make-up on our first page and editorial page this week because other papers who had tried it found that headlines and stories were easier to read and could be set into type faster.

So far, the comment we have received on our new format has been favorable, and we are anxious to hear from our readers about it.

For the next few days we will continue with this format; eventually we hope to extend it to include the other pages as well. If you let us know what you think of it, we would appreciate it.

David Pollen

### There's more behind cultural revolution

By ART BUCHWALD

WASHINGTON — Among the many acts committed by the Chinese Red Guards in the name of cultural revolution has been the shaving of heads of those with capitalistic tendencies. Anyone who wears his or her hair Western style has been subject to a brutal haircut.

I can now reveal that there is more behind the cultural revolution than meets the eye. It is not generally known, but the main source of hair for women's wigs in the Western world comes from Red China. The hair is usually transhipped to Hong Kong or Europe where it is made into wigs.

Human hair has been a major export item of the Red Chinese, and while the United States refuses to allow wigs made up of Communist hair into the country, it has been a losing battle. It's very hard to tell whether Chinese hair comes from the mainland or Taiwan, or to tell a good head from a bad one, without splitting hairs.

Well, this year the demands for wigs in capitalistic countries has soared, but the Red Chinese hair-dealer cooperatives weren't meeting their quotas. There was a reluctance on the part of Red Chinese women to sell their hair for the going rate and Peking didn't know what to do about it. There was, unfortunately, nothing in Mao Tse-tung's works that made any difference to the shearing of Communist heads.

Many Chinese women said they'd be willing to give up their hair if they could get hats to keep their heads warm. But there is a shortage of hats in Red China also, so the government was in a spot.

Faced with this heady predicament, the central committee in Peking met, and decided, in order to meet their wig commitments, that they would have to resort to drastic action.

"We shall call for a cultural revolution," Ling Poo Sung, the minister of the exterior said. "We shall send millions of teen-agers out into the streets and in the name of the

revolution, we will instruct them to shave the heads of anyone who looks like a good prospect for a wig. We shall give each squad of Red Guards a quota to be filled."

There were some on the central committee who thought the suggestion was too drastic and that the people might react against such a hair-raising experiment.

"The people won't have to know what we're doing," Ling Poo said. "All they'll think is that the government has gone berserk again, and we'll let the Red Guards beat up citizens and wreck stores and homes so that they won't know that what we're really after is their hair."

They all turned to Mao Tse-tung for his reaction. He said, "Let a thousand foreheads bloom again."

Needless to say the Red Guard campaign was a big success and there will be more women's wigs on the market this Christmas time than there ever were before.

Unfortunately, some of the Red Guards showed too much enthusiasm and in one case, reported by a Japanese journalist, a Red Guard was severely punished for his actions. His superior was quoted as saying, "I warned him twice about bringing in that greasy kid stuff."

### Better Ben than George

NEW YORK — The shortage of half dollars, brought about in part by the much collected Kennedy coin, came very close to being a shortage of quarters.

According to The Insider's Newsletter, the former chief engraver of the United States Mint has disclosed that the plan originally called for a Kennedy quarter which would have had a wider circulation than the 50-cent piece.

However, The Newsletter reports that Mrs. Jacqueline Kennedy vetoed the idea on the grounds that she did not think it fitting for her late husband's likeness to replace George Washington.

Benjamin Franklin was replaced instead.

### University Bulletin Board

University Bulletin Board notices must be received at The Daily Iowan office, 201 Communications Center, by noon of the day before publication. They must be typed and signed by an advisor or officer of the organization being publicized. Purely social functions are not eligible for this section.

**PARENTS COOPERATIVE Babysitting League** For membership information, call Mrs. Louis Hoffman, 337-4348. Members desiring letters, call Mrs. Paul Christoffers, 337-9952.

**MAIN LIBRARY INTERIM HOURS:** Monday-Friday, 7:30 a.m. - 5 p.m.; Saturday, 7:30 a.m. - Noon; Sunday, Closed. These hours are in effect until Sept. 21.

**EDUCATION-PSYCHOLOGY Library Hours** - Interim, Aug. 10 to Sept. 21. Monday to Friday, 8 a.m. to 5 p.m.

**STUDENTS WHO WISH** to have their class rank information forwarded to their draft boards should pick up request forms in B University Hall. Information will be sent only at the request of the student.

**THE SWIMMING POOL** in the Women's Gymnasium will be open for recreational swimming Monday through Friday, 4:15 to 5:15. This is open to women students, staff, faculty and faculty wives.

**RHODES SCHOLARSHIPS** for two years at Oxford University are offered to unmarried men students aged 18-24 who hold junior, senior or graduate standing. Nominations will be made in mid-October, and possible applicants should consult at once with Professor Dunlap, 108 Schaeffer Hall, 353-3871.

**UNION HOURS:** General Building - 6 a.m. - 11 p.m., Sunday-Thursday; 6 a.m. - midnight, Friday and Saturday.

# Unemployment rises for Negro

By JOHN CUNIFF

AP Business News Analyst  
NEW YORK (AP) — Despite the most intense campaign ever mounted to help the Negro worker, through education, training and law, the latest government figures show a paradox: Negro joblessness has risen.

So unusual is the turnout after five years of steady improvement that the possibility of statistical error presents itself. Attesting to the accuracy of the figures, however, is the government's Bureau of Labor Statistics.

The bureau says that in August, joblessness among nonwhites — most of whom are Negroes — rose to 8.2 per cent of the number employable, more than twice the 3.4 per cent unemployment rate among whites.

The high percentage, in itself, worries the administration even though nonwhite joblessness has been twice that of whites for years.

**Five-Year Improvement**  
Of even greater concern to the administration is the apparent end of a five-year record of improvement. The unemployment rate for whites grew no worse.

If the figures are not corrected or disproved, they carry potential meaning about the Negro racial revolts which sociologists say have origins in idleness, poverty, frustration and despair.

The increase in the Negro unemployment figures comes in a "full employment" economy, one in which the emphasis has been not so much on finding jobs as on finding workers.

Throughout the economy, Negro abilities are being upgraded through personal efforts and through training programs by government, unions, corporations and others.

The most immediate aim of the war on poverty is jobs through programs such as the Job Corps, the work-experience program and the adult basic education program.

In addition, equal opportunity laws are being enforced.

Less Selective

A few months ago it was believed that as the labor market tightened, the Negro would benefit more, proportionately, than the white. The theory was that as workers became more scarce employers would be less selective. They would accept unskilled workers and upgrade them to the requirements of the job.

As the figures show, the Negro apparently has not benefited, in this manner, to the degree expected.

Many theories will be offered. Perhaps it could be the inroads of automation or cost cutting. Or it could mean the elimination of service jobs through social change. It could be, of course, just a temporary, unexplainable statistical situation.

### Gemini flight blazes trail for moon shot

CAPE KENNEDY, Fla. (AP) — Why would anyone want to swing in space tied by rope to another satellite? Or rocket from earth to an orbiting target like a bullet in a shooting gallery?

Each move by Gemini 11 astronauts Charles Conrad Jr. and Richard F. Gordon Jr. has been carefully calculated so it will in some way lead toward making man more useful in space.

The Gemini 11 flight plan is a demonstration of how important man has become in space, and how much he has learned. On early U.S. manned missions, the human was little more than a robot at the mercy of an automated, preprogrammed system.

The successful rendezvous with an Agena target satellite on Gemini 11's first orbit simulated the way American astronauts would leave the moon's surface in an emergency.

On the lunar journey, the mother Apollo ship — containing one of three astronauts — will remain in orbit around the moon while two other astronauts ride a bug-like vehicle called a Lunar Excursion Module to the moon's surface.

A second-orbit rendezvous is planned with the mother ship after the two astronauts leave the moon's surface but, in an emergency situation, they would want to rendezvous as soon as possible on the first orbit.

Tying Gemini 11 to the Agena with a 100-foot cord, as Gordon plans to do Tuesday, will test the concept of roping satellites together as a fuel-saving means of flying in formation.

This ability could enable astronauts in the future to fly alongside a faulty scientific satellite, for example, and stay with it long enough to make repairs — saving the price of a new satellite.

Such skill also would be useful in rescuing astronauts stranded in a crippled spaceship.

Along the same line, Gordon plans to operate a power tool during his space stroll — tightening and loosening bolts on a special panel — to see if tools can be built to make men good mechanics in the weightless world of space, where a turn from an ordinary screwdriver would send an astronaut rotating.

### Letters Policy

Letters to the editor are welcomed. All letters must be signed, should be typed and double spaced. Letters should not be over 500 words; shorter letters are appreciated. The editor reserves the right to edit and shorten letters.

# Photographer, City Subjects Of Exhibition Set For Union

The Photographer and the City" is the title of an exhibition of 110 photographs from the Library of Congress collection which will be open in the Terrace Lounge of the University Memorial Union Tuesday and be on display there until about Oct. 11.

Being circulated throughout the United States under the auspices of The American Federation of Arts, the exhibition will be exhibited at the University by the Art Exhibits Committee of Union Board.

Ranging from early daguerreotypes to photographs of the present decade, the exhibition was on view at the Library of Congress in 1963.

Among the work of outstanding American and European photographers included are photographs by Jacob Riis and Lewis Hine made in the early part of this century featuring the city as a container of forms of humanity and recording the quality of life and the effects of city living.

Contemporary photographs include works by Charles Sheeler and Ben Shahn.

Comprising a kind of history of photography, the exhibition reveals cities seen by some photographers as a series of shapes — manmade landscapes with the quality of light changing with the extremes of weather.

Among early photographs in the exhibition are a view of Washington, D.C., in 1843 from the Matthew B. Brady Studio, and what is believed to be the first successful American aerial photograph, taken by William Black of Boston from a balloon in 1860.

"ITINERANT PHOTOGRAPHER" is the title of this photograph by Ben Shahn, one of the photographers represented in "The Photographer and the City" collection. The exhibition, to be shown in the Terrace Lounge of the Union Sept. 20-Oct. 11, features 110 works from the Library of Congress collection. The show, which is being circulated nationally by The American Federation of Arts, is sponsored locally by the Art Exhibits Committee of Union Board.

# Community Givers Set 1967 Goal At \$125,000

The goal of the local Community Givers campaign, which will be conducted Oct. 3-21, has been set at \$125,000 by the campaign's board of directors.

Contributions to the campaign will be solicited in Iowa City, Coralville and University Heights and used to help support 18 health, welfare and recreational agencies in 1967. This year's goal is an increase of almost 13 per cent over the \$110,995 pledged during last October's campaign.

Seventeen agencies are receiving support from Community Givers during the current year. Goodwill Industries of Southeast Iowa will be the new Community Givers agency during 1967; it has begun operation in Iowa City of a sheltered workshop for handicapped adults.

The budget as adopted includes increases over current allotments for nine agencies. The agencies and their 1967 Community Givers budgets are (1966 allotments in parentheses): Arthritis and Rheumatism Foundation, \$2,330 (2,306); Iowa Association for Mental Health, \$1,750 (1,500); Boy Scouts, \$20,856 (18,402); Girl Scouts, \$19,000 (17,270); Johnson County Association for Retarded Children, \$7,000 (6,000); Red Cross, \$28,328 (26,854); Salvation Army, \$2,050 (1,950); United Service Or-

ganization (U.S.O.), \$1,225 (925) and Visiting Nurse Association, \$23,222 (20,788).

Six Budgets Unchanged The budgets of six agencies are unchanged. American Hearing Society, \$71; American Home-Finding Society, \$1,000; Council on Social Work Education, \$35; Iowa Children's Home Society, \$2,000; School Children's Aid Fund, \$1,500, and Travelers Aid Association, \$50.

Decreases were made in the allotments to two agencies. The Iowa Welfare Association was reduced from \$200 to \$100 and the United Cerebral Palsy Center from \$400 to \$100. The allotment for the new Community Givers agency, Goodwill Industries, is \$7,500.

The budget includes \$2,000 for possible non-payment of pledges and \$4,883 for clerical and administrative costs, campaign expenses, postage, rent, supplies and for dues to Community Chest Councils.

# No Surprises In Results Of Primaries

Georgia Democrats voted in their primary Wednesday on a six-man slate of candidates for governor while national political leaders pondered the results from Tuesday's primaries in 11 states.

For the most part, the big battles of Tuesday went as expected on the basis of advance polls and assessments by political analysts.

Gov. Karl Rolvaag of Minnesota won from the voters a whopping reversal of the Democratic-Farmer-Labor convention's attempt to "dump" him for renomination.

In Massachusetts, Edward J. McCormack, endorsed by the party convention, took the Democratic nomination for governor, and former Gov. Endicott Peabody, also convention-endorsed, won the party's Senate nomination.

The day's big surprise was Democratic nomination of George P. Mahoney for governor in Maryland. His apparent winning card was a declaration that, if elected, he would veto any open housing legislation that might reach him from the legislature.

"Your home is your castle — protect it," he campaigned.

Mahoney is a 64-year-old contractor who has tried for high office six times in the past but never before won an election.

His chief opponents for the gubernatorial nomination were Rep. Carlton R. Sickles, an advocate of opening housing legislation, and State Atty. Gen. Thomas F. Finan who took a stand for exemption of one-unit individual-owned housing from any open housing legislation.

Advance analyses had given Mahoney an outside chance but calculated the contest as principally between Sickles and Finan. In the finishing order, Sickles was second and Finan third.

Another possible straw in the winds of controversy over racial demonstrations and legislation was the size of Democratic renomination won in Wisconsin by Rep. Clement J. Zablocki. He scored about 9-1 over his primary opponent, Roman R. Blenski.

Zablocki's home was picketed last month by demonstrators protesting his membership in the all-white Fraternal Order of Eagles.

# Cong Inflict Big Damage On Motor Pool

SAIGON, South Viet Nam — The Viet Cong are estimated to have inflicted a million dollars damage in a raid Wednesday six miles north of Saigon on a Vietnamese-owned civilian motor pool under military contract.

A Red demolition squad stormed in shooting before dawn, wrecked the administration building, blew up 52 trucks and escaped intact. There were conflicting accounts of casualties, but an initial report that a U.S. soldier was captured apparently was erroneous.

U.S. officials said one American civilian, an Australian civilian and a Vietnamese soldier were wounded. A Vietnamese spokesman said two truck drivers were killed, three civilian workers were missing and two Vietnamese soldiers were unaccounted for and possibly captured.

Captives of another kind were taken by U.S. cavalrymen, ferried by the biggest helicopter assault of the war into a hunt for Communists in valleys of the central coast.

Soldiers of the 1st Cavalry, Airborne, Division picked up a 13-member Hanoi theatrical troupe, the Communist equivalent of USO entertainers, they found hiding in tunnels and trenches Tuesday in the area of Bong Son, 290 miles northeast of Saigon. The barnstorming band was turned over to South Vietnamese authorities.

About 120 helicopters lifted from 10,000 to 15,000 troops to a dozen landing zones while others, armed as gunships, flew in support. Communist ground fire destroyed one helicopter and damaged five.

# Debate On Okay Of Tennis Center Set By Council

A six-court tennis center to be built in City Park will be considered for approval Sept. 20 by the City Council. The Council is expected to begin procedure to get bids as soon as possible so that the center will be ready for next summer.

Plans for the tennis center are now in the hands of Ed Bailey, park and recreation director, and Frederick Moore, of the city engineer's office. Preliminary plans for the center have already been approved by both the Council and the Parks and Recreation Commission.

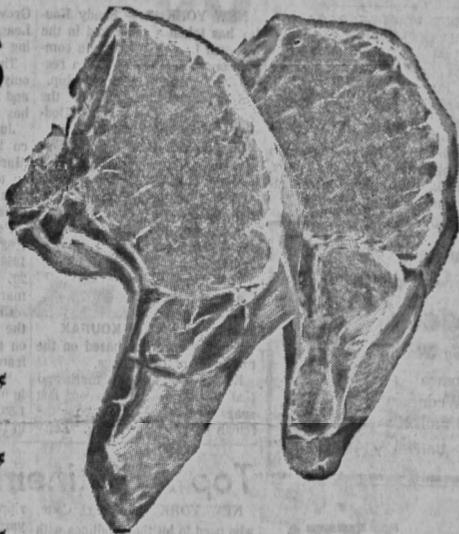

Estimated cost of the center is \$56,000, financed by park bond issue funds.

# ECONOMY MUSIC—

JERUSALEM, Israel Section — In line with the government economy drive, Mayor Agner Garin of Ashdod, a southern port, is saving money by not sending greeting cards for Rosh Hashana. Instead, he is personally ringing every doorbell in town to give greetings — quite a job for the holiday since the town has grown to 30,000 population.

# Arizona Lines Average 217 On Offense, 210 On Defense

TUCSON — Arizona's probable offensive starters in the season's opener against Iowa in Iowa City on Saturday (1:30 P.M. CDT) will outweigh the defensive units by six pounds to the man.

The probable offensive line averages out at 217.1 pounds while the defensive line has a 210.3 average. The offensive backfield has a 196.8 pound average to 186.2 for the defensive backs.

As a team the offensive unit scales out at a 209.7 pound average to 203.1 for the defense.

The offensive starters will have five lettermen from last year; five transfers; and one sophomore.

The defensive unit will have eight lettermen; one non-lettering squad man; one JC transfer and one sophomore.

**Lettermen On Offense**  
Lettermen on the offensive unit are: Bill Lueck and Roger Myers at tackle; Joe Escalada at left guard; Ron Higuera at right end; and Rick Johnson at fullback.

**Defensive Lettermen Starters**  
are: Co-captain Roger Calderwood at left end; Sam Castle at right end; Abe Johnson at right linebacker; Jerry Thompson at left linebacker; Ray Homesely at rover; Jim White and Wally Scott at halfbacks and co-captain Woody King at safety.

The quarterback position lists JC transfer Mark Reed ahead of JC transfer Bob Matthews this

week, but Coach Jim LaRue says that this is a position about even and both will see considerable action.

Saturday's meeting with Iowa will be the first in a four-game series. Other games now sched-

ed are in 1969, at Iowa; 1970, at Arizona and 1973 at Iowa.

The Arizona team will fly to Cedar Rapids on Friday by American Airlines charter DC-6 and will be housed at the Roosevelt hotel.

## Publicist Describes Wildcats' 'New Look' On Offense

Articulate Frank Soltys, Arizona ambassador of sports information, this week is making the Iowa circuit in advance of the invasion of the football team from Tucson for the Saturday game with the Iowa Hawkeyes here.

It's his first go-around in the state because this is the first game between the Hawkeyes and Wildcats — and Frank does not have to be persuaded to tell about the athletes from the sunny southwest.

And he has a lot to talk about, because Arizona is coming up strong with four former Air Force Academy stars, several JC transfers, plus 21 lettermen, a new offense and new hope for a winning season.

**New Look**  
Soltys says: "We have a new look offense, with a pass-receiving split end and a flanker back, along with a pass-catching tight end. We have balance between running and passing — which we did not have in our 3-7 season of 1965.

"These four former Air Force Academy stars will give us a big boost. Fritz Greenlee, split end of 220 and 6-4; a 109.7 100-yard man, in 1964 caught 23 passes for AFA, including a 50-yarder which beat us, 7-0, in the final minute. "Jim Greth, flankerback, grabbed 33 passes for 436 yards that year and halfback Paul Wargo, 195, is a fine runner and returner of punts. The No. 1 center now is Bill Nemeth, the fourth AFA

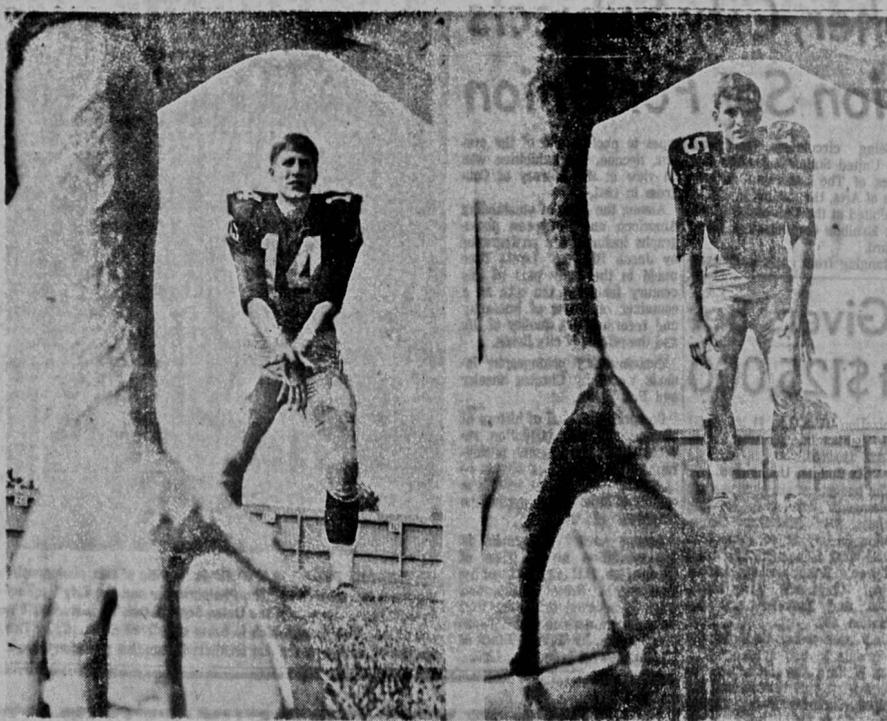

transfer, a 220-pounder.

"Our quarterbacks are junior college transfers — Mark Reed and Bob Matthews. Reed completed 13 of 25 passes for 192 yards in our game-type scrimmage last Saturday and Matthews had 17 of 35 for 212 yards. Greenlee caught 7 for 110 yards.

**Kickers Good**  
"We are proud of our kickers: Joe Payton, who ranked second in the nation last year with a 44.6 average on 56 punts. Don Wilhelm can connect on field goals . . . he had an Arizona record 47-yarder in last Saturday's game.

"Big Brad Hubbert, leading ground-gainer of 1965, can play left half or fullback, and also stars on defense. And we have experienced tackles and guards on offense.

"Our defense alignment is a 5-man front with two linebackers and a rover. Arizona co-captains top the list: Roger Calderwood at left end and Woody King at safety. We figure we have experience, size and mobility."

EITHER SOPHOMORE Ed Podolak, left, or junior Chuck Renard, will open Iowa's football season Saturday against the University of Arizona as the starting quarterback. Coach Ray Nagel says it's a tossup as to which one will start. Both are good runners and passers, and Nagel's offensive plans call for the quarterback to do both. —Photo by Ken Kephart

## Students Must Pick Up Tickets

All students who ordered a 1966 season football ticket will be required to pick up their tickets for the coming season at the Iowa ticket office prior to the Iowa-Arizona game Saturday. Tickets for the first game are not being mailed to the home address as they were last year.

The ticket office is open daily through Friday from 9 a.m. to 4 p.m. and will also be open Saturday from 7 a.m. until game time. Students are reminded that tickets must be picked up at the ticket office and not the stadium. The ticket office is located in the administration building directly in front of the Field House.

This applies to all students, whether they indicated they wished the same seat for every game or to pick up their seat number in the week prior to each home game.

For admittance to each home game, students must show ID cards with their tickets at the stadium.

The Arizona game has been designated a "knothole game," whereby grade school and high school pupils will be admitted for \$1 upon purchase of a ticket at the Stadium ticket offices Saturday.

Athletic business manager Francis Graham anticipates a crowd of about 45,000. Game time is 1:30 p.m. CDT.

## Koufax Leads Competition For Earned Run Championship

NEW YORK (AP) — Sandy Koufax has taken a solid lead in the National League earned run competition while shooting for a record fifth straight championship. Koufax, pitching ace of the league-leading Los Angeles Dodgers, heads the NL with a 1.81 average, figures compiled by the Associated Press showed Wednesday.

Gary Peters of the Chicago White Sox is the American League leader with a 2.02 mark. The leaders were based on the minimum of 140 innings. Koufax broke the NL mark and tied the major league record last season by leading in ERA for the fourth consecutive year. Lefty

Grove paced the American League four straight times starting with 1929.

This year, Koufax has allowed only 56 earned runs in 279 innings, and has pitched five shutouts. He has won 23 games and lost eight. Juan Marichal of San Francisco is second with a 2.06 ERA. Marichal, a right-hander, has given up 62 earned runs in 271 innings while winning 22 games and losing six.

Peters, who won the AL title in 1963 with a 2.33 average, has a 1966 record of 43 earned runs in 205 innings and a 12-10 won-lost mark.

Cleveland's Steve Hargan is the runner-up with a 2.57 average on a yield of earned runs in 161 frames. Koufax' pace-setting averages in other seasons were 2.54 in 1962, 1.88 in 1963, 1.74 in 1964 and 2.04 in 1965.

## Top AFL Lineman Named

NEW YORK (AP) — Bert Coan, who used to hit the headlines with his antics, now is hitting the line with his body — and making just as much news.

He made it Wednesday by being named offensive player of the Week in the American Football League by The Associated Press for the show he put on in leading the Kansas City Chiefs to a 42-20 victory over the Buffalo Bills last Sunday.

Coan, a onetime bad boy of college football, gave the first strong indication that he's ready to gain something besides notoriety as he

ripped the Buffalo line for 101 yards in 11 carries and scored twice, on a four-yard dash and a 12-yard pass from Len Dawson.

Coan got himself tangled up during his college career as he became the center of a recruiting case that eventually cost the University of Kansas the 1960 Big Eight football title.

Coan also made headlines the following spring when he broke his leg, again when he was declared ineligible for supposedly taking a trip at the pros' expense and finally when he quit college and signed with the San Diego Chargers.

## 8 To Be Inducted Into Pro Football Hall Of Fame

CANTON, Ohio (AP) — Eight new members will be inducted into the National Professional Football Hall of Fame here Saturday, boosting the membership to 39. Induction ceremonies will follow a parade to the million-dollar shrine that was opened in 1963 with a charter membership of 17 grid ironists.

Three of the new enshrinees will be inducted posthumously. They are Steve Owen, famed coach of the New York Giants; Hugh Shorty Ray, National Football League technical adviser and officiating supervisor; and Walt Kiesling, who played with several professional teams and served as coach of the Pittsburgh Steelers.

Others to be enshrined are Joe Guyon, who played for the Canton Bulldogs and the New York Giants; Arnie Herber, former halfback with the Giants and the Green Bay Packers; Clyde Bulldog Turner, who was a center with the Chicago Bears; Bill Dudley, former halfback with the Steelers, the Detroit Lions and Washington Redskins; and George McAfee, who played halfback for the Bears.

## Big 10 Attendance Over 3 Million

CHICAGO — The Big 10 has a maximum potential attendance of 3,824,709 for 54 games this season — an average of 70,828 per game.

This is 164,571 more seats available than a year ago. Nearly 80,000 of this increase is due to the \$2,800,000 upper-deck addition to Wisconsin's Camp Randall Stadium. The rest is through the schedule.

Even in the Big 10 these nearly 4 million seats won't be get filled. But projecting the summer-time cash register report, the league's athletic program will be supported by more than 3,200,000 spectators.

## Sports Briefs

**REGGIE HARDING, THE SUSPENDED** 7-foot center of the Detroit Pistons, made another plea for reinstatement Wednesday in a hearing before Commissioner Walter Kennedy of the National Basketball Association. Kennedy, after listening to Harding for nearly three hours, reserved decision. He said he would make a statement on the matter in a few days. Harding, now 24, was suspended by the Pistons and later by the league last year after he had been involved in a series of minor incidents with Detroit police.

**REPRESENTATIVES OF THE** Los Angeles Dodgers, Pittsburgh Pirates and San Francisco Giants will meet Sept. 20 to draw lots to determine the schedule for possible playoff games, National League President Warren C. Giles said Wednesday.

**A TOTAL OF ONLY 1,964** persons paid to see Wednesday's two major league baseball day games. The Chicago White Sox-Red Sox game in Boston attracted 1,003 while the paid attendance for the Atlanta Braves-Cubs game in Chicago was 961, the smallest in either big league this season.

**HEAVYWEIGHT CHAMPION** Cassius Clay was named Fighter of the Month Wednesday by Ring Magazine for stopping Germany's Karl Mildenberger in the 12th round of their title bout at Frankfurt, Germany, last Saturday. Ernie Terrell, the World Boxing Association's champion, is the No. 1 contender.

**PRINCETON UNIVERSITY** sophomore tailback Douglas Boe was listed in critical condition Wednesday, four days after suffering a head injury in a football scrimmage session. Boe, 19, had collapsed into a coma but a spokesman at Princeton Hospital said he was showing some signs of regaining consciousness. The spokesman said he faces more surgery.

**THE WASHINGTON REDSKINS** moved to strengthen their running attack Wednesday by acquiring Steve Thurlow from the New York Giants for veteran guard Darrell Dess who returned to New York to bolster the Giants' sagging front line. The Giants, although held to 32 yards in their opener, apparently felt they could afford to give up Thurlow as well as linebacker Jim Carroll to re-acquire Dess, a New York first stringer for six years.

## Baseball Roundup

### Bosox 2, White Sox 1

BOSTON (AP) — Rookie Joe Foy's two-run homer in the fourth inning Wednesday carried the Boston Red Sox to a 2-1 victory over the Chicago White Sox.

The home run was Foy's 15th of the season and also scored Jose Tartabull, who had opened the frame with a single.

Chicago scored its only run in the sixth on singles by Bill Skowron, Ken Berry and Duane Josephson.

Hank Fischer, obtained from Cincinnati last month, was the winning pitcher. He worked the first seven innings, yielding eight hits before being relieved by Don McMahon.

Chicago . . . . . 000 001 000-1 8 0  
Boston . . . . . 000 200 000-2 4 0  
Howard, Wilhelm (7) and Josephson; Fischer, McMahon (8) and Ryan W. — Fischer (4-11). L — Howard (8-5).  
Home run — Boston, Foy (15).

### Braves 3, Cubs 1

CHICAGO (AP) — Ty Cline and Felipe Alou each drove in a run in the 10th inning Wednesday, enabling the Atlanta Braves to defeat the Chicago Cubs 3-1 for their eighth straight victory.

The Braves scored the winning runs on only one hit in sending Dick Ellsworth, the Cubs' southpaw, to his 21st defeat of the season.

With runners on second and third, and one out in the 10th, Cline grounded to Ernie Banks, but pinch-runner Wes Bales beat the first baseman's throw to the plate. Alou followed with a sacrifice fly.

Atlanta . . . . . 000 001 000-2 3 6 0  
Chicago . . . . . 000 100 000-1 5 1  
Kelley, Carroll (10) and Oliver Torre (10); Ellsworth, Hands (10) and Hundley. W — Kelley (5-4). L — Ellsworth (6-21).  
Home runs — Philadelphia, Allen (38).

### Cardinals 6, Reds 2

ST. LOUIS (AP) — Tim McCarver hammered two home runs and Lou Brock and Curt Flood socked one each to power the St. Louis Cardinals to a 6-2 victory over Cincinnati Wednesday night.

### A's 3, Indians 0

CLEVELAND (AP) — John (Blue Moon) Odom scattered five singles Wednesday night as the Kansas City Athletics blanked Cleveland 3-0 for their sixth straight victory.

Kansas City . . . . . 020 100 000-3 4 0  
Cleveland . . . . . 000 000 000-0 5 0  
Odom and Roof; McDowell, Tiant (8) and Crandall, Sims (8). W — Odom (4-4). L — McDowell (8-8).  
Home run — Kansas City, Green (8).

### Phillies 2, Giants 0

SAN FRANCISCO (AP) — Jim Bunning pitched a five-hitter and Richie Allen drove in both runs with his 38th homer and a sacrifice fly as the Philadelphia Phillies blanked San Francisco 2-0 Wednesday and dropped the Giants three games back in the National League pennant race.

Allen's leadoff homer in the second was the only run the Phillies managed against Giant starter Gaylord Perry, who was trying for the sixth time to win his 21st game.

Bunning, who won his 17th, protected the slim margin until John Callison's leadoff triple and Allen's sacrifice fly gave him an insurance run in the ninth against reliever Linday McDaniell.

The loss cost the Giants' one-half game in the battle to catch first-place Los Angeles and second-place Pittsburgh. San Francisco trails the Dodgers by three games and is two back of the Pirates.

Perry, who gained his 20th victory on Aug. 20 hasn't won since. Philadelphia . . . . . 010 000 001-2 1 1  
San Francisco . . . . . 000 000 0-0 5 2  
Bunning and Dalrymple; Perry, McDaniell (9) and Haller. W — Bunning (17-11). L — Perry (20-7).  
Home run — Philadelphia, Allen (38).

### Former Boxer Dies

SPRINGFIELD, Ill. (AP) — Johnny Connors, who won the world flyweight boxing title in 1894, died Tuesday at the age of 98.

Connors, who never weighed more than 100 pounds as a fighter, took the crown from Jack Levy in New Orleans and kept the championship until 1900.

[Think school is a laugh? See how funny it is when you can't get a good-paying job.]  
A small education is something you can't laugh off. It's the biggest handicap you'll ever have . . . today, tomorrow, the day after tomorrow, and every day of your working life. And it's a funny thing. People who really stay with it and get a good education are often seen laughing all the way to the bank. It's no joke. To get a good job today, you need a good education. A good education is the number-one requirement for the better jobs with the better salaries . . . and the better futures, too.  
So if you're in school now . . . stay there! Learn all you can for as long as you can. If you're out of school, you can still get lots of valuable training outside the classroom. Just call on the Youth Counselor at your State Employment Service. Or visit a Youth Opportunity Center, which has been set up in many cities to help you.  
To get a good job, get a good education

THE RENOVATION AND REBUILDING job for Iowa Hawkeye football has been placed in the hands of head coach Ray Nagel and his eight-man staff of assistants. Back row, left to right, are Dick Mansperger, Gordon Lee, Ted Lawrence, Frank Gilliam, and Bob Watson. Front row, left to right, are Lynn Stiles, Nagel, Bud Tynes, and George Seifert.

## Meet The 9-Man Iowa Coaching Staff

**RAY NAGEL**  
 On Dec. 11, 1965, the renovation and rebuilding job for Iowa football was placed in the hands of Raymond R. (Ray) Nagel. Nagel came to Iowa from the University of Utah in Salt Lake City (enrollment 16,900) where he had been head coach of football for eight seasons, 1958 through 1965. Iowa's head coach was born May 18, 1927, in Los Angeles, earned a bachelor of science degree in 1950 and a law degree in 1956, both at UCLA. Nagel had previous coaching experience as UCLA freshman backfield coach in 1950 and varsity assistant there in 1951 and 1952. He went to the Chicago Cardinals of the NFL as a playing coach in 1953, then to Oklahoma as backfield coach in 1954 under Bud Wilkinson. In 1955 he accepted an offer to join the UCLA football staff again as a backfield coach. He was an assistant to the late "Red" Sanders during the 1955, 1956 and 1957 seasons. In 1958, at the age of 30, he was named to the University of Utah position, succeeding Jack Curtice, thereby becoming the nation's youngest head football coach at a major university. Eight seasons as the head man of the Utes brought a record of 42 victories, 39 defeats and one tie for a .518 winning percentage. The record of 1964 was the finest in Utah history: 8-2 in the regular season play and a 32-6 winner over West Virginia in the Liberty Bowl. **RICHARD MANSPARGER** Iowa's new offensive line coach is Richard Mansperger. He has seven years of experience, with jobs in junior college, college, and professional football. He came to Iowa after serving as a scout for the Dallas Cowboys of the NFL for one season. Other coaching jobs include the Arizona State freshmen, 1958; Palos Verdes Junior College, Calif., 1959-60; West Texas State, 1961; Arizona State, 1962; and UCLA, 1963-64. Mansperger is a 1958 graduate of Arizona State with a degree in radio and television speech. He played for Arizona State and Palos Verdes and during his two seasons as a guard for Arizona State the team won 19 of 20 games.

**LYNN STILES**  
 Lynn Stiles played for Nagel for three years at Utah, and then served on his staff for two seasons before coming to Iowa. He works with the defensive tackles and guards. At Utah he played guard, center and linebacker. In 1961 he was on the Western Athletic Conference all-academic team. Stiles received a B.S. degree in physical education, health and recreation from Utah in 1963, and is presently finishing work on a master's degree. **BOB WATSON** First assistant to Nagel is Bob Watson, the same spot he held at Utah from 1963 through 1965. He works with the ends and linebackers. He was a teammate of Nagel's at UCLA. He was all-conference in the Pacific Coast Conference and captain of UCLA in 1950. He graduated from UCLA in 1951 and began working for a mortgage company. In 1955 he joined Tommy Prothro's coaching staff at Oregon State and remained there eight years. **FRANK GILLIAM** Frank Gilliam, offensive end coach, is a former star end for the Hawkeyes. He played at Iowa from 1953 through the Rose Bowl game of Jan. 1, 1957. In 1953 and 1954 he was the No. 1 pass-receiver for the Hawks. In 1955 he sat out the season because of a broken leg, but came back in 1956 as a defensive end and helped Iowa win the Big 10 title and a Rose Bowl game. After graduation in 1957, Gilliam played pro ball in Canada for the Vancouver, B.C., Lions from 1957 through 1961. Since then he has been teaching school in Vancouver and coaching junior football, a Canadian program above the high school level. **JOHN (BUD) TYNES** Ray Nagel has moved twice in the past eight years and Bud Tynes has been right behind both times. In 1958, Tynes graduated from Placentia High School in California and was headed for UCLA. But when Nagel moved to Utah, Tynes went along. Now he has come to Iowa from Utah, this time as a coach. He handles the offensive backs

for the Hawkeyes. His competition at Utah ended in 1962 and he stayed to graduate in 1963 and get a master's degree in physical education in 1964. He joined the Utah varsity coaching staff in 1964. **GEORGE SEIFERT** George Seifert is a former Utah player and the only man on the staff besides Nagel to ever hold a head coaching job in a four-year college. In 1965 he was named football coach at Westminster College in Salt Lake City. His team compiled a 3-3 mark. Seifert came to Utah in 1959 after playing one year at San Francisco State. He played guard and end for three Utah teams. After the 1961 season he went into the army and came out in 1963 to graduate with a B.S. in zoology. In 1964 he began working on a master's degree and coached the Utah freshman team. **TED LAWRENCE** Ted Lawrence joined the Iowa coaching staff after compiling a remarkable record in the high school ranks. Over a 16-year span he had a record of 101 wins, 33 defeats, and 6 ties at four different schools. His last six years were spent at Cedar Rapids Jefferson High School, and in 1964 and 1965 his teams were undefeated. The 1965 team was the mythical state champion and Lawrence was named "Coach of the Year" by Iowa newspapers. He graduated from Iowa Wesleyan in 1950, after serving as varsity quarterback four years straight. Lawrence is slated to handle the freshman team. **GORDON LEE** Gordon Lee is one of the Hawkeye coaches who played for Nagel at Utah and then served as an assistant. He was a halfback for the Utes from 1959 through the 1961 season. He graduated from Utah in 1962 and received a master's degree in physical education in 1963. Lee was freshman coach at Utah in 1962 and coached in a California junior college during the 1963 season. He returned to Utah after that for two years on Nagel's varsity staff. He is slated to handle the defensive secondary for Iowa.

## A.P. Writer Predicts Hawks Will Defeat Arizona, 17-12

By CHARLES CHAMBERLAIN  
 Associated Press Sports Writer

CHICAGO (AP) — It's splash-down time again for the Ol' Swami, who hopes he isn't more than 1,000 miles off course in trying to forecast these football openers:

- Iowa State 23, Wisconsin 14 — The Cyclones think they have their best team in history, and it's a cinch that the Badgers' rebuilt secondary will get a thorough test from the Tim Van Galder — Eppie Barney battery.
- Minnesota 18, Missouri 16 — Take your pick. Both teams struggling back from heavy graduation losses and must rely heavily on sophomores.
- Michigan 21, Oregon State 19 — The Beavers have a veteran squad with pass defense apparently their main weakness. The Wolverines could cash in on this with a healthy Dick Vidmer aiming at senior end and captain Jack Clancy.
- Michigan State 24, North Carolina State 14 — The Spartans have one of the greatest foundations in the country — halfback Clint Jones, linebacker George Webster, end Gene Washington, fullback Bob Apisa, tackle Jerry West and 270-pound defensive end Bubba Smith. The Wolfpack should provide a rugged opening test. They have 31 letterman back, including enough to fill all

but two of the 22 starting positions

- Purdue 27, Ohio University 7 — The Boilermakers will be starting four or five sophomores, and this one should give them a good chance under fire. The Bobcats' rookie quarterback, Ron DeLuca, will get to see a master in action — Bob Griese.
- Illinois 23, Southern Methodist 20 — With the loss of fullback Jim Grabowski, the Illini will flash a big-bomb attack, fused by sopho quarterback Bob Napionic and wide end John Wright, and the explosive breakaway running of 154-pound rookie Billy The Bullet Huston. SMU has 14 of its top 22 players back and should be the best team coach Hayden Fry has had in his four years there.
- Northwestern 20, Florida 10 — The Wildcats, predominantly a senior team, have a good blend of running — with Woody Campbell and Bob McKelvy — and passing — Denny Boothe to Mike Donaldson and Cas Banaszek. This should be way too much for Florida, who still has slingshot Steve Spurrier but a wiped-out receiving corps.
- Iowa 17, Arizona 12 — The Hawkeyes are starting afresh under new coach Ray Nagel and will have a lot of greenness to wear off. Arizona is well-armed with 15 regulars among 22 let-

termen returning, plus 18 junior college and university transfers.

- Indiana 20, Miami of Ohio 7 — At 216 pounds, halfback Terry Cole, now a junior, is blessed with speed as well as power. This Hoosier star could be one of the country's best. Miami will find out.

**Cyclone Player Ill, May Miss Wisconsin Game**

AMES, Iowa (AP) — Iowa State University's football team received a jolt Wednesday when Bill Brooks, a 225-pound offensive guard from Auskegon, Mich., was hospitalized with tonsillitis and a fever. His availability for the Cyclones' opener against Wisconsin at Madison Saturday is uncertain. If Brooks cannot play he will be replaced by Rick Burchett, a 215-pound junior from Harlan, Iowa.

Balancing the scales a bit was the return to practice of linebacker Jon Soucek, who suffered a knee injury Monday. He should be ready for the Wisconsin game.

# Surplus Store Suits Many Needs

## Good Bargains Are Available Each Week

By DIANE YING

**Staff Writer And Photographer**  
To school departments, University Surplus Equipment Pool is a place to get rid of things they no longer need.

To newly married students, it is a place to buy furniture for their rented unfurnished apartments.

To some repair stores, it is a place to get engines, pumps and electrical equipments.

And to those who like to have good bargains, it is a place to visit every Tuesday and Friday noon.

Confirming all these, Richard Gerlach, manager of the Surplus Equipment Pool said, "here we have almost everything in the world, and we meet all kinds of customers."

Besides bookshelves, desks and various office supplies, scattered around in the shabby building across the street from the Communication's Center are all kinds of furniture, from 20-cent foot stool up to \$30 leather-covered davenport. Stoves, dryers are piled up in one corner, broken doors and adjustable pumps in another. Occasionally, one can find some unexpected items there — from apple cider, artificial lambs, medical refrigerator to jet engine.

Gerlach said that usually departments were privileged to choose first in buying things from the pool, then the public could have their choice.

RICHARD GERLACH, manager of the Surplus Equipment Pool, opens the door every Tuesday and Friday at the sound of a noon siren to welcome customers.

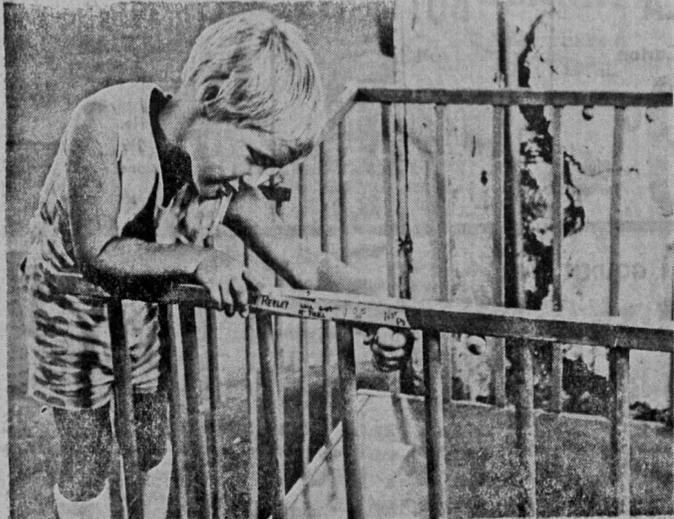

EXAMINING THE DISHES is Mrs. John Bollinger, 516 3rd Ave.

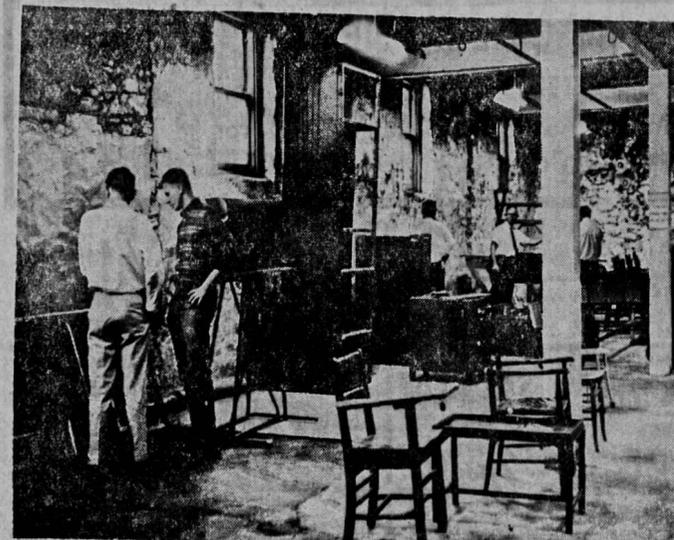

WHILE THEIR PARENTS are looking around, Mike Owen, 12, and Mark Owen, 5, enjoy themselves at the davenport which is priced for \$30.

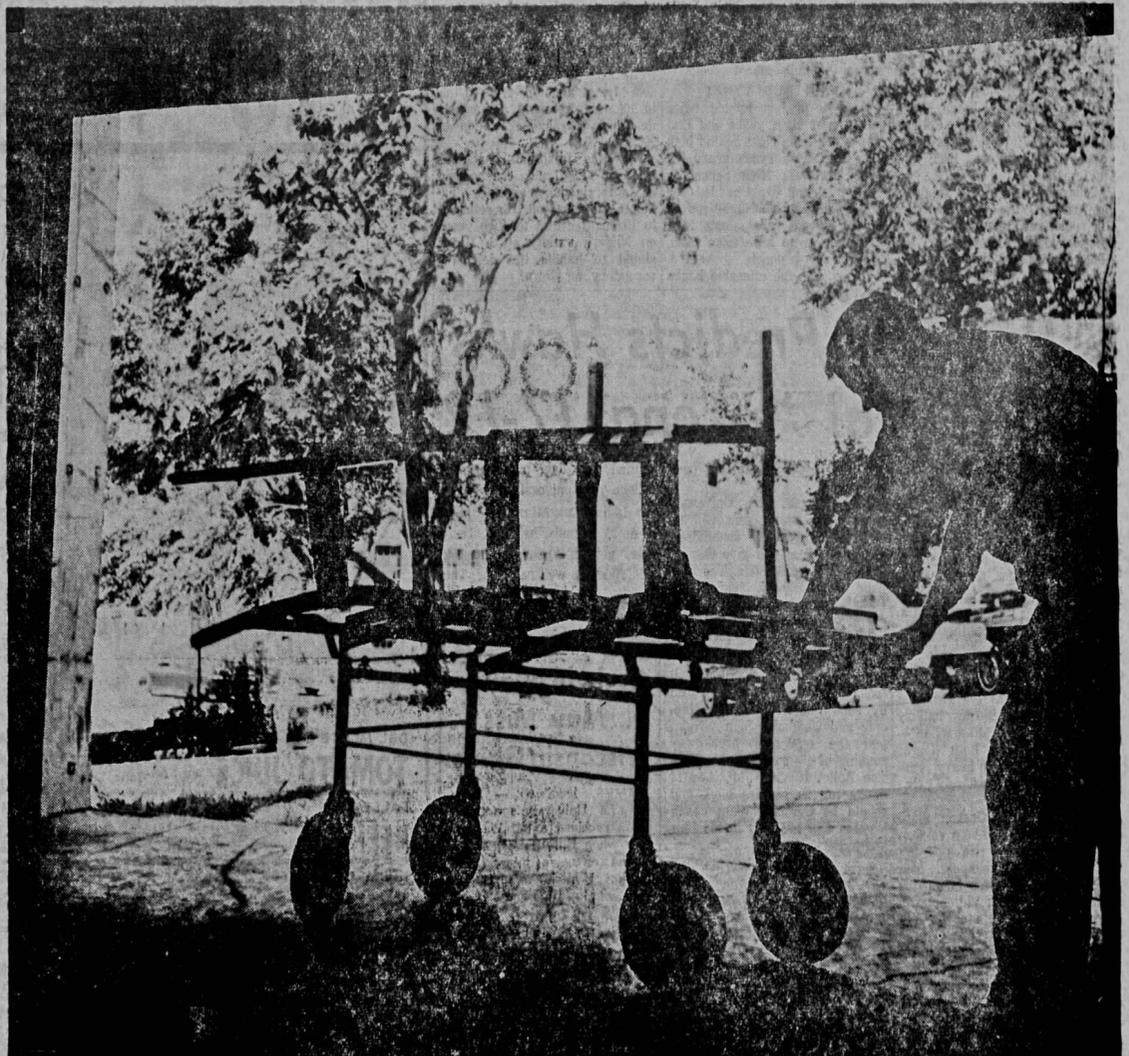

THOMAS ALDRICH, G, and Mrs. Aldrich are testing the piano, which is sold for \$25.

THOUGH SHE SAYS she is "too big for it," Carl a R. Williams, 4, still shows her interest at the baby playing pen.

A CORNER OF the Surplus Equipment Pool.

CARRYING OUT HIS NEWLY BOUGHT CHAIRS, is Neil Meglitsch, G. Those chairs are sold at 50 cents a piece.

# Sales Tax Needs Study, Report Says

DES MOINES (AP)—The retail sales tax "deserves serious consideration" as a source of increased revenue to state and local government in Iowa, Dr. James A. Papke of Purdue University said Wednesday.

Papke made the comment as part of his report to the Governor's Tax Study Advisory Committee as part of a \$50,000 look into the Iowa tax structure. The committee will make recommendations to the governor, who may submit a tax revision program to the legislature.

**Sales Tax Unfair**  
The Purdue expert said the sales tax as now set up takes an unfair proportion of revenue from low-income persons, but he outlined ways he said this could be corrected.

Papke also said state aid programs for local governments should be revised if they are intended to improve performance of local governments.

And he said taxes collected from businesses — of which property taxes are the main part — should be revised. He recommended a two- or three-part formula for taxing businesses on the basis of payrolls and sales, or payrolls, property and sales.

Papke said the sales tax discriminates against low-income persons but added:

**Credit, Rebates Needed**  
"Reduction, and in some cases, elimination of the major equity deficiencies of the Iowa retail sales tax, while retaining all its advantages, can be accomplished by providing to each resident a year-end credit or rebate for the sales tax paid on a given amount or purchases."

For example, he said a credit of \$6 per taxpayer, spouse and dependent at the present 2 percent rate probably would in effect remove the tax from the basic necessities of life and thus reduce the low-income person's share of the burden.

He said that probably would reduce revenue about \$16 million a year but said \$16 million could be gained by extending the tax to more services.

Papke emphasized more money would be needed if Iowa continues governmental services at the present level. With these services going to a growing population, he said, another \$23 million a year will be needed in the next 10 years.

**Property Tax Burdensome**  
In his criticism of the property tax, Papke cited it as the heaviest financial burden Iowa puts on business.

"It is not the level of business taxes in Iowa that is irritating, but the structure," he said.

He said the existing corporation next income tax "could serve as the vehicle for an improved business tax system, but not without revision" to take into consideration factors other than sales.

He said about \$400 million a year in total taxes is collected from Iowa commercial and industrial businesses, and about three-fourths of this is in local property taxes. He called the state's corporation income tax, now yielding a little more than \$7 million a year, "a comparatively insignificant source of state revenue."

**Abolish Examining Boards**  
Health Commissioner Says

DES MOINES (AP)—State Health Commissioner Arthur P. Long called Wednesday for abolishing the state's many separate licensing and examining boards.

These boards, Dr. Long declared, "may be as interested in protecting their guilds as in protecting the public interest."

He said, "We are trying to get rid of them."

Dr. Long told members of the State Board of Health that the separate units should be replaced by a central licensing and examining agency.

He called the present system of 46 separate licensing and examining boards "chaotic."

The health commissioner advised the board against approving requests from such boards for more money or additional powers, saying such action would "add confusion to chaos."

Dr. Long and other State Health Department officials told the board that it is hoped a study of state governmental reorganization now being conducted by a private consulting firm would provide guidelines for abolishing the separate units.

Boards included in Dr. Long's recommendations are those over which the department has nominal jurisdiction but very little control.

Dr. Long said they included units dealing with medical doctors, osteopathic physicians and surgeons, dentists, funeral directors and embalmers, optometrists, physical therapists, chiropractors, podiatrists, barbers and cosmetologists.

# Corps Volunteer Nabbed By Reds

WASHINGTON (AP)—A Peace Corps volunteer was arrested Sunday by Soviet guards at the border of Iran and the Soviet Union, the Peace Corps announced Tuesday night.

The volunteer was identified as Thomas Roselle Dawson, 24, of Annapolis, Md.

Officials declined to say specifically what steps were being taken in the case but it was presumed the American embassy in Moscow was making inquiries.

Sent to Iran last May, Dawson had been teaching English at Ahar in the province of Azerbaizan.

According to reports reaching Washington, Dawson and three other volunteers were en route to a meeting in Tehran. They stopped to spend the night at Astara on the Caspian Sea.

Dawson and one other volunteer went for a walk.

The other volunteer said they reached a small stream. Dawson waded across and walked along a bank looking for shells.

It was dusk but they could see a fence in the distance which they assumed was the Soviet border.

Dawson's companion said he sat by the stream but didn't cross it, and then saw three Soviet border guards take Dawson into custody.

The Peace Corps identified the volunteer who accompanied Dawson as David Osterberg, 23, of Walnut Creek, Calif. The other two volunteers were a married couple, John Santana, 23, of Tracy, Calif., and his wife, the former Mary Cassidy, 23, of San Jose, Calif.

**Revenue-Sharing Plans Gaining Support: Romney**

LANSING, Mich. (AP)—Although the Johnson Administration is cool to it, the idea of a revenue-sharing plan between federal, state and possibly local governments is gaining support among governors, Michigan Gov. George Romney said Wednesday.

The plan will be discussed thoroughly at a special business meeting of the National Governors' Conference in White Sulphur Springs, W. Va., Dec. 16-17, where governors-elect will be welcome, Romney said in a news conference.

The idea, long a concern of the conference, usually finds greater support among newer governors, Romney said when asked whether large-scale changes caused by this fall's state elections might hurt chances of developing such a program.

# Mercy Expansion Proposal To Be Discussed Today

A request by Mercy Hospital that would vacate a block next to the hospital for expansion will be discussed Thursday afternoon by the Planning and Zoning Commission in the Civic Center.

A study committee has prepared a report on the proposal. The hospital has asked that Van Buren Street between Bloomington and Market be vacated to permit expansion west of the hospital. Hospital officials maintained that their proposal is the most economic and logical method of expansion.

The commission will also hear a progress report from Director of Planning Barry D. Lundberg, and several rezoning requests.

**STARTS OPERATION—PERTH, Australia (AP)—**A U.S. Navy radio base being built here will be in operation early next year, its purpose is to maintain communications with Polar-1 submarines in the Indian and South Pacific oceans.

# 10,000 Students Expected To Seek Part-Time Work

With an estimated 10,000 University of Iowa student job-seekers returning to campus next week, manager Howard Moffitt of the University Student Employment Office will have his hands — and his office — full.

"When school begins," he said, "I'll be seeing a student about a job every five minutes from 8 to 5." Enrollment is expected to reach 18,000 and if job needs follow the recent pattern, over half of the students will want part-time work.

A majority of the students employed in Iowa City receive their paychecks from the University, though city merchants and home owners hire many students each year.

During 1965-1966 the University hired more than 7,000 students who earned more than \$7 million for part-time work. Of these 7,000 employees, 1,706 were graduate student assistants who received a total of more than \$3.3 million. Undergraduate and graduate students also received 91 fellowships valued at about \$95,000. Assistantships and fellowships are awarded through academic departments, not through the Student Employment Office.

The minimum hourly wage paid by the University is \$1.25 per hour; most student employees make between this and \$1.50. Students with special skills, such as shorthand, get more money.

Moffitt placed more than 2,000 students in jobs in the Iowa City community during 1965-1966. Men working at odd jobs earned a total of about \$6,500; students working part-time earned about \$400,000; and students working for room and/or board earned the equivalent of some \$129,000.

Between 55 and 60 percent of all students work part-time and their hours on the job range from 6 to 25 a week. Moffitt's office recommends that students work not more than 20 hours a week. Students whose classes are in the morning or all in the afternoon have better chances of finding jobs than those whose classes are scattered throughout the day.

ships and fellowships are awarded through academic departments, not through the Student Employment Office.

# FBI Agents Get Suspect In Stolen Car

DAVENPORT (AP)—Scott County authorities prepared to fly to Texas Thursday to return a former mental patient wanted for questioning in the killing of a Davenport man.

Dale L. Weih, 27, Davenport, was captured by FBI agents early Wednesday as he slept in a car parked along Interstate 35 about 25 miles south of Austin, Tex. He offered no resistance.

Weih waived a preliminary hearing before U.S. Commissioner Forrest Troutman and indicated he would waive extradition as well.

"I'm willing to go back to Iowa," he said. "The quicker I can be back to Iowa the better."

Authorities said the car in which Weih was sleeping was the 1966 model automobile stolen from George M. Smith, 45, whose battered body was found Aug. 20 in a creekbed near Wildcat Den State Park at Muscatine.

Police said Smith, an employee of the Davenport Sanitation Department, had been slain by a blow to the head and then carried to a bridge and thrown into the creek.

Weih and Smith were seen together in a Davenport tavern the night before Smith's body was found, investigators reported.

The 6-foot-2 Weih was picked up on a federal warrant charging unlawful flight to avoid prosecution for an Iowa charge of vehicle theft. A tip from a girlfriend reportedly led to his capture.

**GOP Candidates To Be Featured At YR Meeting**

Four Republican candidates from the area will be featured as speakers at a meeting of the Johnson County Young Republicans at 8 p.m. Friday in the Carousel Restaurant.

Fred Schwengel, candidate for 1st District congressman, Earl Yoder and Dale Erickson, candidates for state representative and John Nolan, county attorney candidate, will each address the group. Members and guests will have an opportunity to ask the candidates questions about the current campaign and its issues.

# Opening Mail Can Be Fun

**By HAL BOYLE**  
NEW YORK (AP) — Things a columnist might never know if he didn't open his mail:  
If America's \$11-billion economic loss from traffic accidents in 1965 were spread equally, each U.S. family would get a bill for \$208.  
Czechoslovakia claims its babies are the largest in the world, so it follows that baby carriages there are 37 inches long, rather than the standard 35 inches.  
We're not sure whether this is a proof of progress or not, but

we now make roofing shingles from the same asphalt mixtures which the ancient Egyptians used to preserve mummies.  
Those who try to "talk down" to the American public are making a mistake. That public, after all, includes some 10 million college graduates and half of all the people in the world who have gone through high school.  
Romance never dies in the male heart. Among those who marry at the age of 65 or older, there are three times as many men as women.

Quotable notables: "We live in terror of doing the wrong thing instead of in hope of finding the right." — Harold J. Laski.  
Summer has been defined as that time of year when you couldn't close all winter.  
An English court ruled that a citizen who has had too much to drink and decides to push his car home, rather than get behind the wheel, may still be found guilty of drunken driving.  
The world is so mixed up that it is hard to be certain about

anything anymore. But here's one thing you can be certain of: All birds have feathers. And there is no animal with feathers that is not a bird.  
We complain of nuisance mail but it's worse in Belgium. The average American gets only 90 pieces of mail a year — presumably not including magazines — the average Belgian 192 pieces.  
Notice in a parish bulletin: "Our annual bazaar was rather like heaven. Many we expected to see there were absent."

Legally, a married woman has the right to hold a job outside the home and can do so even over her husband's objections. But where do you find a husband any more who objects?  
Worth remembering: "A lot of people are smarter than they look — and they ought to be."  
It was George Eliot, the lady novelist, who observed, "There is nothing will kill a man so soon as having nobody to find fault with but himself."

# Weightless Void Of Space Difficult To Maneuver In

**By JIM STROTHMAN**  
**AP Aerospace Writer**  
CAPE KENNEDY, Fla. (AP) — Astronaut Richard F. Gordon's problems outside Gemini 11 Tuesday showed once again that working in the weightless void of space is a feat man has yet to master.  
This is a major concern of officials directing America's space program. For example,

astronauts are to perform tasks while on the moon. If they cannot, getting man to the moon might be a hollow victory.  
Grimly important also is the fact astronauts would have to work outside a spacecraft during a space rescue. The need to move efficiently in space will also arise if future spacemen are to erect space stations or repair a disabled satellite.

"The thing that has continued to baffle us," said Dr. Charles Berry, chief astronaut physician, "is that you'd think in the Zero G weightlessness state that it would be easier. Basically, all the astronauts have said the same thing — it's harder to do things and it takes longer to do them in space than it does on the ground."
