THE ADVENT OF snow brings on a variety of reactions. To those who thrill at speeding down a snowy hill on a toboggan, the thick white stuff couldn't be finer. But for the motorist interested in quick trips from home to office, wintry weather is never a welcome sight. Iowa City experienced many of both reactions Wednesday. — Photo by Marlin Levison

## City Expects Fast Action By Snow Men

Most of Tuesday's and Wednesday's snow should have been removed from city streets by this morning, a member of the city street department said Wednesday. The city's snow removal crew was to start clearing snow from downtown streets Wednesday night at midnight. Several snow plows began operating Tuesday afternoon when snow blanketed in Iowa City. Several plows also operated from 7 p.m. to midnight Tuesday. The plows resumed work at 4 a.m. Wednesday and have been operating since, he said. The city has 11 snow plows, four sanders and two maintainers for removing snow. The city also rents a private maintainer. There are 20 persons involved in snow removal here, including two mechanics. He said the downtown business district and one-way streets would be the first to be cleared. The plows then would concentrate on residential districts, he said. By Wednesday morning plows were clearing snow from the Dodge-Governor and Market-Jefferson one-way street couplets. There was still about two inches of snow on downtown streets Wednesday afternoon.

## Cold, Clearing Follows First Major Snowstorm

Weathermen at the U.S. Weather Bureau in Cedar Rapids were counting stars and catching glimpses of the moon late Wednesday evening as Iowa's first major snowstorm pushed across the state and moved into southern Wisconsin. More than seven inches of snow fell in Iowa City and area streets and highways are snow packed making driving conditions extremely hazardous. Iowa City Police reported that there had been several accidents because of the slippery streets but none were serious. Weather bureau officials said skies were expected to clear here by early this afternoon and temperatures were predicted to dip from three to six degrees below normal. Before the storm passed into southern Wisconsin, record snowfalls were recorded throughout the state. In Dubuque, weather bureau officials reported that by 4 p.m. 9.7 inches of snow had fallen, topping the previous mark of 9.3 inches for a single storm set Dec. 9, 1953. Up to four inches of new snow fell Wednesday and total depths were as much as 10 inches. Winds gusting to nearly 40 miles per hour caused considerable blowing and drifting, adding to the already hazardous driving conditions. Several traffic accidents were reported throughout Iowa and the Iowa Highway Patrol reported that Interstate 80 near Des Moines was "just like glass." Temperatures were in the 20s and 30s throughout the day, with highs ranging from 34 at Burlington and Davenport to 17 at Spencer. Other highs included 28 at Dubuque, 26 at Ottumwa, 25 at Cedar Rapids, 24 at Waterloo, 23 at Mason City, Lamoni and Council Bluffs, 22 at Des Moines, 19 at Fort Dodge and 18 at Sioux City. Today's temperatures were expected to be colder, ranging from the teens in the northeast to the lower 20s in the extreme southwest. Fair skies were forecast for Thursday night with colder readings in the eastern counties. Friday should be partly cloudy and not so cold.

## President Denies Violation Of Orders To Bomb Hanoi

AUSTIN, Tex. (AP) — President Johnson never has authorized the bombing of any but military targets in North Viet Nam, the White House said Wednesday, and he doesn't feel his instructions have been violated. Press Secretary George Christian so reported to newsmen at the Texas White House press headquarters here. Christian relayed the President's feelings when bombarded with questions about the Pentagon's acknowledgement that some civilians have been killed by U.S. bombing raids in the Hanoi area. "There never has been anything authorized except military targets," Christian said. Christian sidestepped any detailed discussion, referring questioners to a state-

ment by the Pentagon that "it is impossible to avoid all damage" to residential areas that were dotted with military targets. Asked whether the President feels his instructions that bombings be limited to military targets have been violated, Christian replied: "No, he doesn't feel that his instructions have been violated at all." In Saigon, U.S. military sources, acknowledging that some civilians have been killed by U.S. bombers said, "It'll happen again." These sources said it was known that some civilians were killed by bombs aimed at a railway yard and truck depot five and six miles from the heart of the North Vietnamese capital, Dec. 13-14. Military spokesmen said in Saigon, "We never call missions against civilian homes

or businesses intentionally. We are after military targets. We are certain, though, that civilians are accidentally involved some of the time." Christian reported that Johnson spent most of the day at his LBJ Ranch desk catching up on paper work he put aside Tuesday for eight hours of conferences with visiting officials from Washington. But in the morning he took time out for a ceremony in which he designated 1967 as Youth for Natural Beauty and Conservation Year. Thirteen teen-agers — six girls and seven boys — were on hand. There was a round of speech-making in which both the President and Mrs. Johnson called on the nation's young people to lead the way in stemming the tide against ugliness.

PRESIDENT JOHNSON Instructions Not Violated

## Kottner, 'Educational Nomad,' Discusses Future Of Union

Loren V. Kottner, director of the Union calls himself an "educational nomad." Kottner, born in Ohio, received his B.A. from Colorado State College of Education, Greeley, Colorado. He held administrative positions in student unions at Kansas State University and Washington State University before coming here. He became chief administrator of all Union activities after the retirement of Earl Harper in 1963. Since his arrival, Kottner has seen a \$4 million addition to the Union, including new conference rooms, a new ballroom and the Iowa House. The addition makes the Union third largest in the United States, in terms of floor space. Only the unions at Purdue University and Indiana University are larger. According to Kottner, more than 10,000 students pass through the union on an average day, and at least 25 meetings are held every day in the conference rooms. "A University Facility" "The Union is a University facility, and we try to cater to the entire University family," Kottner said. He added that one function of a large university is to help people adopt to the rapidly changing world by conducting conferences. "The Iowa House exists for the people who come back to the University for conferences, and for other persons concerned with the University," Kottner said. Kottner said that in addition to the Union's service to visitors, the Iowa House served the students in another way. Through monetary returns the Iowa House pays for itself and for other Union expenses.

The Union is not financed by Board of Regents appropriations, and must be self-supporting. This support comes from the recreation area, the food service and the Iowa House. "A union must continue to expand and change with the changing campus. We need to add facilities for off-campus students, places to park, to leave books, to study and to relax," Kottner said. Specifically, he suggested free lockers for books and more comfortable study areas. He said the Union needed a lockable art gallery and a small permanent movie theater for daily showings. "Even a union service station for commuters' cars is not out of the question," Kottner said. Although students are charged \$17 a year to supplement the Union building fund, students do not pay an additional fee for the privilege of using the building. This fee is not uncommon at many universities today. Kottner said that income from financially stable areas such as food service and the Iowa House were responsible for the lack of a supplemental student fee.

KOTTNER

## American Woman Says U.S. Bombed Non-Military Sites In North Viet Nam

MOSCOW (AP) — An American woman in Hanoi said Wednesday she had seen many places damaged by U.S. bombing raids, and they were not military targets. Miss Barbara Deming, 49, said in a telephone interview that she had also seen North Vietnamese "injured by weapons designed for use against people and not for use against military targets." She mentioned fragmentation bombs. Miss Deming, a Wellfleet, Mass., pacifist, is one of four women from the U.S. peace movement now touring North Viet Nam at the invitation of its Women's Union. They arrived in Hanoi last Thursday after flying by way of Moscow and Peking. In Moscow, the women had condemned American military actions in Viet Nam. They are making their trip without authorization from the State Department. They stand to lose their passports upon their return. Horrified By U.S. Acts "We are all more and more ashamed of

our country, more and more horrified by what our country is doing to these people who are no threat to the United States," Miss Deming said. The other women in the group are Grace Newman, 39, of New York City; Mrs. Joe Griffith, 32, of Ithaca, N.Y.; and Diane Bevel, 22, of Chicago. "On Christmas Day we stood in a Catholic church at Hanoi," Miss Deming said. "Its roof was caved in and the head of the Madonna had been blown off by American air raids. "We spent part of the time Christmas in air raid shelters because there were American planes in the area, although there was supposed to be a truce." Women Visited Hospitals The U.S. Command in Saigon had announced that reconnaissance flights would be made over North Viet Nam during the Christmas truce.

Miss Deming said the group had visited hospitals and had seen many North Vietnamese victims of American air raids. She said many of the injured were children. "They were injured by weapons designed for use against people," she said, "not for use against military targets, things like fragmentation bombs." The four American women are expecting to leave North Viet Nam about Sunday. Before then, Miss Deming said, they hope to meet American pilots shot down over the country. Hope To See Ho In Moscow, members of the group said they understood they would have talks in Hanoi with North Vietnamese leaders, including President Ho Chi Minh. Miss Deming said Wednesday that no such talks had taken place yet and none had been promised. The group is facing a problem on how to get home once the visit is over. Miss Deming said that Chinese transit visas have been refused, although they got these for their trip in. She said they might start back by way of Hong Kong, but did not specify how they will get there.

## Funeral Services For Nagle Friday

Services for George Nagle Sr., a 1922 graduate of the University and a prominent Iowa City businessman, who died unexpectedly at his home Wednesday, are scheduled for 2 p.m. Friday at the First Methodist Church, 214 E. Jefferson St. The Rev. Eugene Hancock will conduct the services. Burial will be in Oakland Cemetery. Nagle was president of the Nagle Lumber Co. and the board of the First National Bank of Iowa City. He was a past president of the Iowa City Chamber of Commerce and was chairman of the Community Givers drive in 1965. Besides his widow, Kathryn Nagle, he is survived by two sons, a daughter, six grandchildren and two sisters.

Forecast Partly cloudy today, colder northeast. Fair tonight and colder east. Friday partly cloudy and not so cold. Highs today teens northeast to about 20 extreme southwest.

## China Explodes 5th Bomb, Capability At 'A New Level'

TOKYO (AP) — Communist China Wednesday tested its fifth nuclear device and claimed this raised its nuclear capability "to a new level." It said again that China will never be the first to use nuclear weapons. The announcement of the explosion, made by Peking's official New China News Agency, hinted at further development in China's struggle to become a nuclear power along with the United States and the Soviet Union. State Department press officer Carl Bartch said in Washington that preliminary estimates show the new test was not as powerful as China's third explosion last May. U.S. officials said the latest test was only 10 to 20 times more powerful than the 20-kiloton bomb dropped at Hiroshima. They said it was conducted in the atmosphere in the Lop Nor proving ground in Sinkiang Province in far northwest China. "The success of the three nuclear tests conducted by China in the one year of 1966 is a heavy blow to the plot of U.S. imperialism and Soviet modern revisionism which have been collaborating in a vain attempt to force their nuclear monopoly and sabotage the revolutionary struggles of all oppressed people and oppressed nations," said Peking.

The Chinese did not say how powerful the explosion was and what device was used as they did last Oct. 26 when they announced they had fired a missile with a nuclear weapon tip and it had exploded on target 400 to 600 miles away. The announcement reiterated that "at no time and in no circumstances, will China be the first to use nuclear weapons." The U.S. position was expressed by Bartch who repeated the State Department's Nov. 29 comment that Chinese atmospheric tests "reflect the determination of Peking to move ahead in its nuclear program in defiance of world opinion and of more than 100 nations which have signed the nuclear test ban treaty." The Chinese set off their first explosion on Oct. 16, 1964, and their second on May 14, 1965. U.S. officials put both in the range of the American bomb dropped on Hiroshima in World War II, equal to about 20,000 tons of TNT. The third and the most powerful test was conducted last May 8. It had a yield of about 200,000 tons of TNT. An analysis of the fallout from the test showed that it contained thermonuclear material, indicating the Chinese might be groping toward development of a hydrogen bomb.

WASHINGTON (AP) — Federal taxes will go up by another billion dollars annually on New Year's Day to help pay for increased Social Security benefits and medical care for the aged. It's part of the step-up in Social Security taxes which will raise the maximum paid by a worker and his employer in 1967 to \$290.40 each, \$13.20 more than this year. Increases are already built into the Social Security tax structure through 1967 and President Johnson has made bigger benefits a major part of his legislative program for next year. Greater benefits mean higher taxes. The Jan. 1 rise in Social Security taxes is independent of any action the President and Congress might take on raising personal income and corporation taxes. Tax Up To 4.4% On New Year's Day, the Social Security tax rate goes up from 4.2 to 4.4 per cent each on worker and employer. The first \$6,600 in earnings will be subject to the tax, the same as this year. For the self-employed, the tax rate will rise from 6.15 per cent to 6.4 per cent for

## —Due To Social Security Increases— Federal Taxes To Rise Again — Jan. 1

a maximum payment of \$422.40, up \$16.50 from this year. During 1965 when the tax was limited to the first \$4,800 in earnings and the rate was 3.625 per cent, the maximum Social Security tax paid by any individual was \$174. No change in either tax rates or the amount of earnings taxes is now scheduled for 1968. The next increase is due for New Year's Day of 1969 when the rate goes to 4.9 per cent. The rise in Social Security tax is only one of seven tax law changes which go into effect on Jan. 1. One of them will permit taxpayers with substantial deductions and who normally receive a large refund to claim a \$700 withholding allowance and thus decrease the amount of taxes withheld from their pay checks. This will be similar to the \$600 exemption permitted a taxpayer for each dependent. The allowance is designed to bring withholdings more in line with actual tax obligations. It will reduce or eliminate refunds.

Other Changes Listed Other changes which go into effect next week include: 1. Corporations begin paying taxes on a current basis instead of in 1970 as originally planned. 2. The self-employed must pay Social Security taxes quarterly with their income tax payments. 3. Taxes withheld from wages plus the quarterly payments of estimated tax must total at least 80 per cent of a person's tax bill, instead of 70 per cent as now. This applies only to persons filing estimated tax returns. 4. Persons 65 and over will be able to deduct only those medical expenses which exceed 3 per cent of their gross income. They can now deduct all these expenses although taxpayers under 65 are subject to the 3 per cent floor. This will apply to 1967 taxes and not to tax returns which must be filed next April for 1966 taxes. 5. A person may deduct half of his health insurance premiums up to \$150 as medical expenses even if they don't exceed 3 per cent of his gross income.

AUSTIN, Tex. (AP) — The head of the Texas Department of Public Safety indicated Wednesday that Jack Ruby will be given a polygraph examination-lie detector test — if Ruby's doctors approve. SANTIAGO, Chile (AP) — An undersea volcano belched fire from the ocean floor and a house-shattering earthquake rolled across the copper-rich northern coast of Chile on Wednesday, virtually destroying one town and badly damaging three others. Officials reported three persons killed, two missing and dozens more injured. HAVANA (AP) — The Cuban government started Wednesday the evacuation of 880 Americans and their 1,820 Cuban relatives who have long been denied authorization to leave for the United States. The first group of 75 adults and several children left aboard a special Mexican airliner from Merida, Mexico. They will fly to the United States from there. The airlift of the 100 Americans and their dependents has been arranged by the Mexican government. DETROIT (AP) — A seminar to advise youths how to avoid fighting in Vietnam attracted to its opening session Wednesday fewer than 75 draft-agers from among Wayne County's 180,000 registrants between ages 18 and 29. BURLINGTON, Iowa (AP) — A government expert arrived at the Iowa Army ammunition plant near here Wednesday to investigate a strange illness which has stricken workers on a secret project.

BRIEF

# Mich. St. Is Upset, 75-67; Houston Wins 8th Straight

BY THE ASSOCIATED PRESS

Walt Piatkowski, Dick Rodgers and Al Hairston combined for 56 points to lead Bowling Green to an upset 75-67 win over Michigan State in the opener of the Quaker City consolation round at the Palestra Wednesday night.

Tenth-ranked Michigan State led only once before being eliminated from the tournament. Bowling Green took a 2-1 lead at the outset and quickly built up a 28-13 margin with 9:55 remaining in the first half.

The Falcons led 40-29 at half-time and blocked every Michigan State rally in the second half.

Bowling Green boosted its record to 5-3 while the loss was

Michigan State's third against five wins.

**Houston Wins**  
In another key tournament game Wednesday night, sixth-ranked Houston, led by Elvin Hayes and Don Chaney, whipped Kent State 85-73 in the opening round of the Holiday Basketball Tournament at Arkansas State College.

Hayes and Chaney each scored 22 points as the Cougars rolled to their eighth straight victory and their 10th in 11 games.

**Late Scores**

Virginia 112, Columbia 88  
Cincinnati 95, Marquette 76

An eight-day layoff showed as the Cougars were never able to pull away and completely dominate the game. The smaller Flashes never trailed by more than 12 points and were behind by only five with 7:56 remaining before Hayes hit two straight field goals to put Houston in control the rest of the way.

In other tournament games Wednesday night, Oklahoma beat Missouri 76-67 in the first round of the Big Eight Tournament; Providence whipped Northwestern 91-79 in the semifinals of the Holiday Festival in New York; and Temple beat Arizona State 82-63 in the first round of the All-College Basketball Tournament in Oklahoma City.

**NAMATH SURGERY—**  
NEW YORK (AP)—A tendon transfer was performed Wednesday in the right knee of Joe Namath, expensive quarterback of the New York Jets, and the quarterback is expected to play again next fall with more stable footing and with greater ability to change direction while running.

# Iowa Tops Wichita, 94-76

IOWA'S GERRY JONES comes down with a sure rebound, leg out wide for protection, in action against Wichita State Wednesday night. Jones' 23 points helped Iowa defeat the Shockers 94-76.

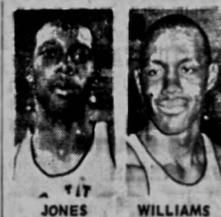

By RON BLISS  
Asst. Sports Editor

Tom Chapman led a three-ringed Iowa scoring attack Wednesday night as the Hawkeyes coasted by Wichita State to record their fifth straight victory of the season, 94-76.

Chapman, a senior who was not a starter until this season, scored on 11 of 17 shots and added six free throws to lead all scorers with 23 points. Gerry Jones scored 23 points and Sam Williams added 22 as the three Hawkeye stars accounted for 73 of Iowa's 94 total points.

The game, the first between Iowa and Wichita State since Iowa Coach Ralph Miller came here from Wichita State three years ago, was ragged throughout as both teams employed look-alike full-court pressure defenses and caused numerous mistakes by the other team.

Iowa could manage only two points in the first four minutes of the first half and spotted Wichita

JONES WILLIAMS

hita a 7-2 lead before it could get its game in gear.

In the next two minutes, however, the Hawkeyes came on strong to outscore the Shockers 11-1 and grabbed a 13-8 lead. The Hawks were never headed from that point on and led by as much as eleven points in the first half. They led at halftime 46-37.

Iowa scored six quick points at the beginning of the second half then and increased its lead to 58-43 with 16:01 remaining. Wichita never got closer than eight points after that and the Hawks were able to coast to their 17th straight victory on their home court. Iowa hasn't lost a game in the Field House since the 1964-65 season.

Warren Armstrong led Wichita scorers with 21 points in the game, 15 of which came in the second half. Jamie Thompson, who led the Missouri Valley in scoring last season, added 20 for the Shockers.

Iowa held an edge in both shooting and rebounding. The

Hawks made 39 of 75 shots from the field for a torrid 52 percent and outrebounded Wichita 39 to 32. Wichita shot 43.8 percent from the field.

The victory raised Iowa's season record to 6-2. The Hawkeyes face unbeaten Cincinnati in the second game of a doubleheader in Chicago Stadium Friday night. Wichita State is now 3-5 for the season.

## Heavyweight Champs Nearly Come To Blows In Interview

NEW YORK (AP)—Cassius Clay slapped Ernie Terrell on the arm today and the two heavyweight champions almost came to blows at a press conference after Clay called Terrell "an Uncle Tom."

"I'm no Uncle Tom," retorted Terrell.

"Yes, you are," insisted Clay, who had a wild look in his eyes. "You're acting like another Uncle Tom like Floyd Patterson."

Then they shouted at each other from a distance about six feet apart in a crowded room at Madison Square Garden. Finally Clay reached over and slapped Terrell's right arm with his left hand.

Clay ripped off his sports jacket and yelled to Terrell "let's have it out right now."

Terrell lunged toward Clay as Clay started for Terrell. But they were held back by various handlers and other people jammed in the room.

On TV The whole thing started as they were being interviewed before television cameras by Howard Cossell of the ABC network. The occasion was a press conference to announce that the Garden will show the telecast of the Feb. 6 title fight between Clay and Terrell in Houston.

The tournament opened here Tuesday night and continues through Friday.

The next rule change will do away with the dunk shot by tall players, Iba predicted, and the raising of the basket would come later.

"Height is a God-given blessing, so let's make it equal at both ends of the court," he said.

Iba explained the dunk shot puts officials in an awkward spot, because it is a technical foul to grab the basket and illegal for players from either side to interfere with the ball above the basket.

Iba added that he foresaw no difficulty in determining between a dunk and a tip shot.

"The big always will have the advantage," he said. "With all the isometrics and weight programs that we have today, it won't be long until the players jump up and throw themselves through the basket."

"I don't know when, but in the days to come the basket is going up."

## Iba Forecasts Ban On Dunk

KANSAS CITY (AP)—A prediction that collegiate basketball rules makers would raise the height of the basket and outlaw the dunk shot was made Wednesday by Coach Henry Iba of Oklahoma State.

Iba, a member of the national basketball committee which makes the rules for the game, addressed a Big Eight Conference tournament tip-off luncheon.

The tournament opened here Tuesday night and continues through Friday.

The next rule change will do away with the dunk shot by tall players, Iba predicted, and the raising of the basket would come later.

"Height is a God-given blessing, so let's make it equal at both ends of the court," he said.

Iba explained the dunk shot puts officials in an awkward spot, because it is a technical foul to grab the basket and illegal for players from either side to interfere with the ball above the basket.

Iba added that he foresaw no difficulty in determining between a dunk and a tip shot.

"The big always will have the advantage," he said. "With all the isometrics and weight programs that we have today, it won't be long until the players jump up and throw themselves through the basket."

"I don't know when, but in the days to come the basket is going up."

## Green Bay Won't Pull Surprises, Says Tom Landry

DALLAS (AP)—Coach Tom Landry of the Dallas Cowboys expects no surprises from Green Bay in Sunday's game and thinks it will take 21 to 24 points to win the National Football League title.

"It would be a real surprise if the Packers did come out with something different," said Landry Wednesday at the Cowboys' new offices near their practice field.

"In a game like this you go with what you have been doing. The boys do best the things they have already done."

"Green Bay is throwing the ball better this year than I've ever seen them. Bart Starr is having a fine year but the thing that has won for them is defense. They have experienced men who can adjust very rapidly to any situation."

When a newsman asked Landry if he would attempt to guess how many points it would take to win, he said, "I'll say between 21 and 24 points."

"I don't know if we can get three touchdowns against that team. We may have to get some field goals mixed in. I'd guess the score would be in the area of 21-17 or 24-21. But I've been in 47-7 games. These games have a tendency to get out of hand."

**Drake's Gary Lovemark Suspended Indefinitely**  
DES MOINES (AP)—Gary Lovemark was suspended from the Drake University basketball team Wednesday as the Bulldogs left to play in the Sun Bowl Tournament at El Paso, Tex.

Coach Maurice John said the 6-7 junior letterman, No. 3 scorer on the team, was suspended indefinitely for breaking training rules.

Lovemark, from Robbinsdale, Minn., has averaged 10.6 points a game.

John said he probably would use Steve Brennan, 6-6 junior letterman from El Paso, in place of Lovemark at forward when Drake meets Southern Methodist Thursday.
