Ticket system is proposed

To the Editor:

The Daily Iowan, April 30, 1957, in its Daily Iowan, April 10, 1957, and Daily Iowan, April 17, 1957, issues, states that the proposal of the Associated Student Body to ask the University to install a ticket system at the Union, the Gallery, and University Hall, is a just and necessary proposal. The穿上它，以便于 moisture absorption, and then be covered with a thick, waterproof outer layer. The purpose of the ticket system is to prevent the use of multiple tickets, and to ensure that only students who have paid the appropriate fees will be able to attend these events. The ticket system would also help to reduce the number of counterfeit tickets that are currently being sold on the black market. The Associated Student Body believes that this proposal is a just and necessary one, and that it is in the best interests of the University and its students.

A better idea never came out of a mold.

At Ford Motor Company, we are always breaking molds...when we find a better way to accomplish our objectives. If you like the idea of finding better ways, want to apply your imagination to the sort of problems that haven't even been faced before, you might be our kind of man!

In your own business, we build cars and trucks and tractors. But just because we're one of the nation's largest producers of glass, a leading manufacturer of steel and parts; our subsidiaries include a credit company, a leasing company and an insurance company...and we're even working on a special electric car project.

Whatever your interests, see our representative when you visit our plant.
Should you drink beer straight from the bottle?

If you're on a fishing trip or something, carrying along a glass bottle is a pain. However, when you're at home or in a bar where it's convenient, I think a glass bottle is a lot easier to use than a can. Keeping Budweiser inside the bottle or can is missing half the fun.

I'm sure you've noticed little bubbles getting organized at the top of your glass have a lot to do with taste and aroma. Most bottles have carbonation pumped in mechanically. Not Budweiser. We go to a lot of trouble and expense to let Budweiser create its own bubbles with the natural carbonation of its own barley. So you really can't blame us for wanting you to get it at its best, can you?

Just the same, put your next four or five bottles of Bud into a glass. If you don't agree that the extra taste, clarity and effervescence make a big difference, go back to the bottle. We won't say another word.

**If we looked for stereotyped engineers, Mustang would still be on the drawing board.**

We are a lot of engineers at Ford Motors Company. We come up with better ideas. We don't just hire the same people who look like us, act like us and think like us.

They come from thinking individuals. They're just that good. Ford Motors Company has a College Graduate Program for engineers which guarantees stimulating opportunities for professional development.

And a two year rotational assignment program.

If you want to be an engineer—mechanical, electrical, industrial—write our College Recruiting Department. Or better yet, see your representative. He'll be on campus soon. Looking for better engineers with better ideas.

**Contain Northwestern Rally**

To Post 80-75 Big 10 Win

BY BOB MYLES

Mankato, Minn. — Shelly's Carlisle scored off a Mike Breuer reverse layup with 29 seconds left, but that was not enough to prevent the Northwestern rally. The Minnies scored 11 points in the last minute to win, 75-70.

The victory was a much-needed one for Northwestern, which has been struggling for several weeks. The Minnies led by as many as 16 points in the second half, but couldn't hold on. Shelly's Carlisle led by as many as 11 points in the first half, but that was not enough to preserve the lead.
