

Big Powers Choose Sides In Mideast

Independence Of Israel Is Key To Arab Hatred

AP News Analysis
By WILLIAM RYAN

The fierce hatred between Jews and Arabs in the Mideast dates back exactly 30 years, and there is no prospect that it will abate while Israel remains an independent state.

That hatred has been responsible for years of turmoil and a succession of world crises. Now the world looks at another which could involve the great powers.

What seems an eternally insoluble problem had its beginnings in World War I. Before America lent a hand in 1917, the Allies' backs were to the wall. Russia was collapsing in revolution. England looked everywhere for straws to grasp. The search led to negotiations with Zionist and world Jewish leaders in what Winston Churchill called a "practical measure" seeking world Jewry's aid in the war effort.

Balfour Declaration Signed

The result was the Balfour Declaration, promising Britain's "best endeavors" to realize what Zionist leaders dreamt of — a Jewish nation in the ancient Biblical "Promised Land" of Israel — Palestine.

When the war ended, Britain received a League of Nations mandate in Palestine. Zionists began working and planning for their national home. Jews flowed in from Europe. And Arabs claimed they had been betrayed.

World War II hastened the pace of history. Nazi Germany's brutal treatment of Jews aroused world sympathy and, after the war, applied steam behind the Zionist cause. Jewish immigration increased sharply.

In Palestine, Jews organized underground terror units to push their aims. The critical moment came in November, 1947.

U.N. Adopts Partition

The United Nations, trying to apply reason to growing chaos, adopted a partition plan. It would give 56 per cent of Palestine to a proposed Israel, 44 per cent to a proposed Arab state. Jerusalem would be internationalized, accessible to all three great faiths — Jewish, Christian and Moslem.

Again the Arabs cried "betrayal." Though the resolution purported to protect the rights of inhabitants, Arabs said Jews owned less than 10 per cent of the land which would be given to them, and Jews were by far the minority.

The Zionist underground mounted a campaign of terror against the British to end the mandate, and against Arab vil-

lages and towns, driving out the inhabitants. Before the British mandate ended May 14, 1948, Zionist forces occupied much of what had been set apart for Arabs and most of Jerusalem's proposed international zone.

Jerusalem Is Divided

As the British withdrew, the Jews proclaimed the state of Israel and Jerusalem became a divided city.

Armies from surrounding Arab nations attacked but fared badly against the well-equipped, modern-minded Jews.

The wily Emir Abdullah, head of the unlikely little British-created state of Transjordan, moved in with his British-trained Arab Legion and seized all Palestine east of the Jordan River. He proclaimed a kingdom of the Jordan.

A U.N.-sponsored truce ended the fight in mid-1949. Arabs withdrew in defeat. In Jordan, a Moslem tailor in 1951 assassinated Abdullah, whom many Arabs called traitor. After a brief interim young Hussein, Abdullah's grandson, mounted the throne.

In Egypt in 1952, a young officer named Gamal Abdel Nasser overthrew a corrupt monarch and Egypt became a Socialist-leaning republic.

The Arabs nursed resentment of the United States and Britain for the creation of Israel and denounced the power bloc Baghdad Pact, linking Arab Iraq to the West, as an instrument of "imperialism." Little Jordan found the presence of its British uncle embarrassing, sent him packing, and has experienced turmoil ever since.

The Arab east picture changed abruptly in 1955 with a sudden intrusion of Soviet and Communist-bloc influence in the form of arms to Egypt. With new strength, Nasser in 1956 announced nationalization of the Suez Canal. Britain and France conspired with Israel to attack Egypt that fall, and Israelis drove all the way to the canal as Egypt's army collapsed. U.S. and Soviet pressure brought the ill-starred adventure to an end.

The crisis subsided, but not Arab hatred.

For two years thereafter, the Arab east was almost in permanent crisis. The climax came in 1958 with a rebellion in Lebanon, which brought a landing of U.S. Marines, and a bloody revolution in Iraq, ending the monarchy and the Baghdad Pact. Jordan's throne almost collapsed along with Iraq's. Again the area simmered down.

SECRETARY OF STATE Dean Rusk talks with reporters Tuesday after testifying before the Senate Foreign Relations Committee at a closed door meeting. Rusk termed the situation in the Mideast "very touchy."

U.S., Soviets Offer Aid; Crisis Headed To U.N.

BEIRUT, Lebanon (AP) — President Johnson backed Israel and the Soviet Union offered support to the Arabs Tuesday night as the explosive Mideast crisis headed for urgent consideration by the United Nations Security Council. War fever mounted in Cairo with broadcasts calling for invasion of Israel.

Johnson labeled Egypt's threat to blockade the Gulf of Aqaba, Israel's trading lifeline to the Red Sea and Indian Ocean, "illegal and potentially dangerous to the cause of peace."

He said the United States considers the gulf to be an international waterway and added that "the right of free, innocent passage . . . is a vital interest of the international community."

A Soviet government statement issued in Moscow warned that "aggression" in the Mideast "would encounter not only the united strength of the Arab countries, but also resolute resistance . . . on the part of the Soviet Union."

Israelis Stand Firm

In Jerusalem, Prime Minister Levi Eshkol stood firm on Israel's 10-year-old pledge to defend its gulf shipping and declared "a fateful hour, not only for Israel but for the whole world," is at hand.

Denmark and Canada, with strong support from the United States, asked for an urgent meeting of the U.N. Security Council in New York.

The meeting was scheduled for 10:30 a.m. today.

In Ottawa, the House of Commons was told Canada is pressing for establishment of a new U.N. presence along the war-threatened Egyptian-Israeli border. The U.N. is withdrawing, at the request of Egypt, the peacekeeping force that patrolled the border since the end of the Suez war in 1956.

Johnson said the United States urged U.N. Secretary-General U Thant, now in Cairo on a peace mission, to give the Gulf of Aqaba question "the highest priority in his discussions."

Observers believed Thant would have little success on his mission.

Elath, at the tip of the gulf, is Israel's only sea outlet in the south and east and it is through the sun-baked town that Israel gets most of its oil from Iran.

Nasser has regarrisoned the Egyptian position at Sharm el Sheikh overlooking the Strait of Tiran, the narrow neck of water linking the gulf and the Red Sea, and once more has trained big guns on the channel. The guns were spiked by U.N. forces after the 1956 Suez war.

In other developments:

Baghdad radio said the Iraqi forces pledged to aid Syria on the potential Syrian-Israeli war front have started to move. The broadcast followed reports that Jordan had given permission for Iraqi forces to travel across Jordan to Syria.

King Hussein of Jordan met with his Cabinet and high army officers twice to review Jordan's role in the crisis.

Meeting Held

Hoping to organize an international peace effort, Britain's Prime Minister Harold Wilson held an emergency Cabinet meeting, then dispatched Foreign Secretary George Brown to Moscow and Foreign Office Minister of State George Thomson to Washington and the United Nations.

At the United Nations, nine of the 15 Security Council delegates, including U.S. Ambassador Arthur J. Goldberg, conferred on whether to seek an urgent council meeting.

Officials in Washington said American diplomats, including those in London and Moscow, were making foreign governments aware of grave U.S. concern over the crisis.

The latest Arab-Israeli confrontation boiled up after Israel threatened military reprisal for Arab commando raids from Syria. Syria and Egypt mobilized their forces on Israel's borders and Israel deployed troops in response.

Weed Killer Spray Danger Passes; Had Threatened Hawkeye Residents

The danger to children of Hawkeye Apartments residents stemming from the application of weed killer to farm land surrounding the apartments has apparently passed, according to Keith R. Long, associate professor of agricultural medicine.

Last week the Office of Married Student Housing issued to students of the Hawkeye Apartments a warning which said, "The farms adjoining Hawkeye Apartments on the east and west have been sprayed with a herbicide (weed killer) which, under certain conditions, could be toxic."

Donald J. Clausen of rural Iowa City, who rents the adjoining 400 acres of farm land from the University, said he had applied the herbicide about 10 days ago.

Ramrod, the brand name of the chemical, is produced by Monsanto Chemical Co. Clausen said it was applied in granular form with a corn planter.

Long compared the effects of Ramrod to those of tear gas.

"Physical contact could cause skin burn and irritation, and eye burning," he said. Long said it would not hurt children unless they "were playing every day in the dirt where it was applied or putting the dirt in their mouths."

He said the danger from putting the chemical in the mouth was very small, however.

The real danger from physical contact comes right after the chemical is applied, he said. The chemical dissipates rapidly, especially after a rain.

Clausen said he applied the chemical to get rid of grass that "can easily cut a yield by 20 bushels per acre." He has planted corn in the fields where the chemical was applied.

He said he contacted Jim Shaff, University farm manager, after he had noticed some children playing in the corn fields. "I got to thinking about it and called the University," Clausen said. "I didn't want to take any responsibility."

But the label on the sack that Ramrod comes in, Clausen said, stated "the buyer accepts all responsibility for any and all losses, injury and damage resulting from handling" the chemical. Clausen described the chemical and others like it as highly experimental.

He said he had previously applied Aldrin, an insecticide, to the same land. Aldrin is a fine powdered compound that is also labeled as being highly toxic, Clausen said.

NEWS IN BRIEF

WASHINGTON (AP) — An attractive young blonde research assistant in the office of Sen. Frank Carlson (R-Kan.) was found slain Tuesday, apparently strangled, in her apartment near the Capitol. Police said Miss Judith K. Robeson, 24, died a violent death.

SAIGON (AP) — A 24-hour truce for Buddha's birthday ended early Wednesday after a day of scattered clashes that saw 10 American soldiers killed and 17 wounded in Communist attacks. At the passing of midnight, U.S. troops were ordered by the U.S. Command to "resume normal operations."

DES MOINES (AP) — The Iowa Senate Steering Committee Tuesday afternoon sent a bill setting guidelines on conflict of interest for legislators to the floor for debate. The action moves the bill to a top rating for early consideration.

DETROIT (AP) — A Republican vigorously backed by Gov. George Romney Tuesday night won a surprise victory over James P. Hoffa, 26, son of the imprisoned Teamsters Union president, in a race for the Michigan House. Hoffa lost to Anthony C. Licata, 48, an advertising company executive in the race for the Michigan House seat in Detroit's 19th District.

7 Faculty, Staff Members Honored On Retirement

Seven retiring staff and faculty members were honored Tuesday evening at a dinner in the Union Ballroom sponsored by the Faculty Council.

Pres. Howard R. Bowen presented certificates of recognition to Ruth Davis, professor of Spanish; Nelson B. Conkwright, professor of mathematics; Helen E. Focht, counselor to women; John R. Hedges, associate director of the Bureau of Audio-Visual Instruction; Percy W. Herrick, professor of dentistry; Humbert Albrizio, professor of art; and Ralph H. Ojemann, professor in the Institute of Child Behavior and Development.

Prof. Davis has served the longest of the seven — 44 years. She was graduated Phi Beta Kappa from the University of Kansas, Lawrence, in 1923, and earned her M.A. degree there also. She received her Ph.D. degree from the University in 1928.

Among her publications is a Spanish workbook.

Conkwright has been at the University 41 years. After earning a B.A. degree at the University of Kentucky, Lexington, and a Ph.D. degree at the University of Illinois, he came here in 1926. He is the author of two mathematics books and a number of articles. He was associate editor of the American Mathematical Monthly from 1942 to 1952.

Ojemann has been on leave the past two years, working for the Cleveland Educational Research Council, for which he has been director of Child-Educational Psychology and Preventive Psychiatry. He has been advising the Council on incorporating into its research activities the basic aspects of the research program in preventive psychiatry and behavioral science education, which he developed in his 38 years at the University.

Miss Focht came to the University in 1935 as assistant to the dean of women. She later became assistant director of student affairs, and has been counselor to women since 1947. She has served as president of the Iowa State Association of Women Deans and Counselors. She received a B.A. degree in mathematics from Drake University and a M.A. degree in education from the University.

Hedges graduated from the University in pharmacy in 1931, and joined the staff in 1941. He has been a president of the Audio-Visual Education Association of Iowa. He has been a member of the A-V Instruction Editorial Board and Legislative Committee in the Department of Audio-Visual Instruction, National Education Association.

Herrick graduated from the University College of Dentistry in 1922 and practiced in Jefferson and Scranton before returning to the University as an instructor in 1942. He won an award from Delta Sigma Delta, national dental fraternity, in 1963, and has been honored for many years of service to the Junior American Dental Association.

Albrizio has been with the University School of Art since 1942, with the exception of a year at the University of Wisconsin.

He is nationally known for his sculptures. He began work professionally in architectural sculpture in 1931, and since then his works have won prizes at major art centers throughout the country. His exhibits and one-man shows have appeared in principal museums and art centers in the East and Midwest, and his works can be found in permanent collections in both sections of the country.

DESCRIBING HIS ORDEAL to detectives, William Donaldson of the Abington, Mass., police department gestures in the Abington, Mass., police department during a holdup of a Brink's armored car and was held at gun-point white cash, totaling upwards of \$700,000 was transferred. robbers fled. Coralville Annexation Plan Opposed By University, City

CORALVILLE — Coralville's proposed annexation of about 350 acres already supposedly annexed to Iowa City was opposed by the University and Iowa City at a public hearing Tuesday night.

In a statement prepared by Atty. Arthur O. Leff, the University supported Iowa City's claim to have annexed the disputed area two years ago.

The statement said that municipal services to the University's Hawkeye Apartment III, now under construction, have already been contracted from Iowa City.

Iowa City claims that the proposed annexation area, owned almost entirely by the University, was annexed voluntarily in 1965 after a petition was received from the University.

Coralville Atty. William H. Bartley contends that Iowa City's claim to the disputed area is invalid because procedural steps in the original annexation were not followed exactly.

The University petition to Iowa City for

annexation should have been signed by the State Board of Regents rather than by Elwin T. Jolliffe, University vice president for business and finance, Bartley claims.

Iowa City Atty. Jay H. Honohan told the Coralville City Council at the hearing that Iowa City feels the disputed area is not a logical direction for Coralville's orderly growth.

Honohan said that the area, which includes the site of a \$390,000 sewage pumping station being built to serve Iowa City's west side, is already incorporated into Iowa City.

Any attempt by Coralville to annex the area, Honohan said, "would result in needless and expensive litigation between the city of Coralville and Iowa City."

Donald L. Diehl, a Coralville attorney, said that since a public hearing on the proposed annexation had been held, the next step for the council would be to determine which portions of the area, if any, would be presented to the public for a vote.

Armed Robbers Steal \$630,000 From Brink's

BROCKTON, Mass. (AP) — Three masked robbers armed with machine guns waited inside a closed bank Tuesday for a Brink's, Inc., armored car, ambushed the crew and took about \$630,000 in cash from the car.

The holdup brought to nearly \$5 million, almost all in cash, the amount stolen in eastern Massachusetts since 1950. The series began in January, 1950, with the theft of \$1,219,000 in cash from the Brink's counting house in Boston.

The gunmen confronted a truck guard and a bank official when they entered the East Side branch of the First County National Bank.

The guard's hat and jacket were removed quickly. One of the robbers donned them to masquerade as a Brink's guard and surprise the guard who stayed outside in the truck.

Bound With Tape

The two guards and the bank employee were bound about the head with adhesive tape. Only their noses and the tops of their heads were not covered with tape. Then they were shoved into an anteroom and handcuffed to a gas pipe.

The gunmen, wearing stocking masks, dashed to the now-guarded truck and drove to an isolated woodland road near the town line of Abington.

As the thieves were transferring the money bags into two passenger cars, Abington patrolman William Donaldson, 39, who was patrolling the area, saw the thieves.

Donaldson said a man leaped from the truck "and pointed a machine gun at me."

"They made me lie face down on the road and I heard them use the name

'Eddie' several times. I thought I'd never live to see my 40th birthday," Donaldson said.

Stayed On Ground

The officer said he stayed on the ground until he heard the two cars drive away. When he went back to his cruiser, the radio had been ripped out and the ignition key thrown away.

He ran to nearby Quincy Avenue, flagged a passing motorist, and rushed to headquarters.

The guards, Richard E. Hailey, 61, of Brockton, and George LeMoine, 53, of Bridgewater, and the bank employe, Richard Gutteson, 38, were freed by police after a passerby reported noises coming from the closed bank.

Except for bruises, the three men were not injured.

Entry Method Unknown

Cole said he had no idea how the robbers got into the bank which was not due to open until 10 a.m. The truck arrived about 9 a.m.

Congressional Record Costs \$110 Per Page

WASHINGTON (AP) — Cost of printing the Congressional Record has gone to about \$110 a page, testimony made public Tuesday by a House appropriations subcommittee disclosed.

The record is an official publication of the proceedings in Congress. Members may edit, shorten or expand their remarks for the published version and by unanimous consent — which is never refused — insert extraneous matter.

10 Students Win Prizes For Books

Three prizes of \$100 and seven of \$25 were awarded Monday afternoon to students for book collections entered in the second annual University Book Prize Contest.

Pres. Howard R. Bowen presented the awards in the English-Philosophy Building lounge.

The three \$100 winners were Marcia Haubold, G. Iowa City; Carroll B. Hanson, A3, Badger; and James L. Boren, G, Iowa City.

Miss Haubold won the Luther Brewer Prize for the best general collection. Her books were on slavery, mainly in the United States but also in other countries.

Hanson won the Iowa Book and Supply Prize for the best specialized collection. His books were on the history and development of the organ.

Boren's collection of medieval literature won the award for the best collection of literature.

7 Receive \$25

The seven \$25 winners and their collections were: Frederic W. Koepfel, G, Memphis, Tenn., poetry and poetry criticism; Robert G. White, G, Iowa City, Karl Jung and his friends; Michael W. Ham, G, Coralville, the strategy of chess; David L. Batman, P3,

Ames, the history of pharmacy; James W. Walker, G, Decatur, Ill., business management and organizational behavior; David A. Drake, A4, Clinton, August Derleth, publisher; and Thomas C. Fensch, G, Mansfield, Ohio, a two-part entry on a first edition Hemingway and volumes of autographed works by University faculty members and visiting lecturers.

In addition, two received "special merit" recognition. They were Lawrence M. Stone, A1, Caldwell, N.J., with a collection on pneumatology; and Robert M. Taylor, G, Newton Centre, Mass., whose subject was the social gospel.

Warner J. Barnes, assistant professor of English, said criterion for judging was not the number of books in a collection, but "the idea behind the books."

Barnes said that although collection entries in the liberal arts field were desired, entries in other subjects were accepted if they were of good quality.

Bowen Says Books Not Obsolete

Bowen noted the recent development of Xerox and the use of microfilm to reproduce and store printed materials, but said he didn't think they would replace books. "Technology is not about to make the book collector obsolete," he said.

He said there was a "sentimental attachment" to books which would prevent its extinction.

House Debates Regents Proposal On Bond Issue For UI Hospitals

DES MOINES — A proposal to allow the State Board of Regents to issue revenue bonds for building construction at University Hospitals in Iowa City was debated most of the day by the Iowa House Tuesday, but the lawmakers did not reach a vote.

An amendment sponsored by Rep. Ray Bailey (D-Clarion) and others to require the State Legislature to approve any bond project for University Hospitals was adopted, despite a warning from Rep. Charles Pelton (R-Clinton) that this might "cast a cloud" on any bond issue the regents proposed.

The bill as passed by the Senate required only that the legislature "review" the proposed bond issues. Rep. Pelton said this was the language recommended by the Chicago firm of bonding attorneys whose advice is sought on bond issues in the Midwest.

Amendment Explained

Bailey explained his amendment was designed to overcome some of the misgivings expressed on the House floor about giving the regents a "blank check" for hospital construction.

McCartney said he would be "much more sympathetic to the

purposes of this bill if the medical school had made a high-priority, concerted effort over the years to keep its graduates in Iowa and to enlarge so that it would graduate more people."

Before debate started on the measure, the House sat as a committee of the whole to hear Drs. R. C. Hardin, dean of the Medical School, and Gerhard Hartman, superintendent of University Hospitals, tell why they feel the bonding arrangement is needed.

Built In 1919

Hartman said the Children's Hospital was built in 1919 and the main building of the General Hospital in 1928, and both have large 20-bed wards which are obsolete by modern standards.

He said the demand for semi-

private room accommodations has grown rapidly, especially since the advent of Medicare, and is expected to be even greater in the future.

Hardin said there is a need for better training facilities for resident and intern doctors at the University.

Hartman said long range building needs of University Hospitals are estimated at \$36 million, and the first phase is expected to cost \$17.55 million.

He said the Board of Regents proposes to use a bond issue to cover \$10 million of the initial cost and get the rest from other sources.

He said phase I calls for building and equipping a new operating suite, radiology suite, clinics, in-patient facilities and mechanical and miscellaneous facilities.

Miss Minnie Emmeline Lang, 72, of Brooklyn, who died April 5, 1966, bequeathed \$90,000 to medical research at the University.

The bequest was part of a total of \$1,553,546 received by the University in gifts, grants and contracts last month.

Miss Lang left \$50,000 for research in glaucoma, \$20,000 to the heart research fund, \$10,000 for psychiatric research and \$10,000 for research in arthritis.

Attorney Bert R. Gillette, Brooklyn, executor for the estate, said the bequests were made because of the University Hospitals' outstanding research program and "because of Miss Lang's interest in her state and in the future welfare of all people."

The 72-year-old life-long resident of the Brooklyn area left a large portion of her estate to state and Potosi County charities. She had no close relatives surviving. She was a 1919 graduate of the University.

The University also received \$1,025,925 from national agencies for building purposes. The Office of Education granted \$925,925 toward construction of a new School of Music building on the fine arts campus, and \$100,000 came from the National Science Foundation for remodeling the southwest wing of the Chemistry Building. The remodeling will increase the research capabilities of laboratories, improve instructional facilities and provide additional faculty offices in the face of expected increases in undergraduate and graduate enrollments during the next five years.

Another major grant was \$100,000 from the National Aeronautics and Space Administration to James Van Allen, head of the Department of Physics, for further work on Injun-Explorer satellites.

Grad's Musical Work To Premiere Tonight

The work of Edwin Harkins, G, Champaign, Ill., will be featured in the last Center for New Music concert of the season at 8 p.m. today in the Union Ballroom.

The program will be free to the public. No tickets are required. University radio stations WSUI-AM and KSUI-FM will broadcast the concert.

The group will present the premiere of Harkins' "Signs," a composition for 10 instruments. William Hibbard, musical director of the Center, will conduct.

Harkins is this year's Sutherland Dows Scholar in music composition. He received his B.M. at Illinois Wesleyan University in 1963 and a M.M. Degree at Yale University in 1965. He studied composition at the University of Chicago before coming here last September.

Harkins has won several composition awards. He plays trumpet and has appeared with the University of Chicago's Contemporary Players and with the Hartford Symphony Orchestra at New York's Lincoln Center as a guest soloist.

Harkins, who will become a performing member of the Center next fall, will play trumpet in today's performance of this piece.

Other works by young composers to be presented tonight will include "Trio for Flute, Piano and Page Turner" by Pauline Oliveros, "Combination 23:30 for Violin and Piano" by T. L. Read and "Music for Nine Instruments" by Stephen Fisher.

Miss Oliveros is known for her experimentation with music theatre, music and light and aleatory music.

Fisher is working for a music publishing firm, Broadcast Music Incorporated. His piece, first written in 1963 and revised this year, will be conducted by Hibbard.

"Six Songs after Poems by George Trakl, Op 14" by Anton Webern will complete the program. A Viennese composer, his work has become more appreciated since the 1950's. He wrote the "Six Songs" between 1917-21. Webern died in 1945.

Band Concert To Feature TV Trumpeter

Carl "Doc" Severinsen, trumpet player best known for his appearances on NBC-TV's "Tonight Show," will be featured soloist with the Symphony Band Thursday night in F. Werle's "Concerto for Trumpet."

The concert, a major event of the three-day Iowa Bandmasters Convention at the University, will begin at 8 p.m. in the Union Main Lounge and will be open to the public. Free tickets are available at the Union Information Desk, West Music Co., Eble Music Co. and Campus Record Shop.

Severinsen is touring the country as trumpet soloist after five years on the Johnny Carson show where he was trumpet soloist and assistant conductor of the Skitch Henderson Band. His Thursday performance will mark his sixth appearance with University bands. The last time was during the 1964 football season in two halftime shows with the Hawkeye Marching Band.

The guest soloist has been a staff musician with NBC-TV since 1954. A one-time student of Benny Baker, who was former first trumpet with Toscanini, Severinsen has made solo appearances with symphony orchestras as well as at jazz festivals and college music clinics.

Under the direction of Frederick C. Ebbs, the 100-piece symphony band will also play the "Colas Breugnot Overture" by D. Kabalevsky, "Symphony for Band" by R. Washburn, "The Girl with the Flaxen Hair" by Debussy, Copland's "Emblems," Karl King's "Emblem of Freedom March," and an arrangement by University faculty member Tom Davis — "Biography: and the Bands Played On." Davis is assistant conductor of the Symphony Band.

A second concert featuring the Mason City and Edina, Minn., high school bands will be presented Friday at 8 p.m. in the Union Main Lounge as part of the Iowa Bandmasters Convention. The public is invited. No tickets are required.

52 Recite In Spanish For Prizes

Fifty-two students from nine classes participated in a Spanish poetry recitation contest Monday night.

Contestants were divided into three divisions: elementary, intermediate and advanced. The first prize in each division was a Spanish dictionary. The second place winners each received a book of Pablo Picasso's paintings.

The first place winner in the elementary division was Peter D. Conover, A1, Evanston, Ill. Steven K. Dawson, A1, Corwith, won second place.

In the intermediate division the first place winner was Terry Y. Meyers, A1, Mexico City and the second place winner was Joseph A. Klucas, A1, Cedar Rapids.

Janet M. Erb, A3, Cedar Rapids, won first place in the advanced division and Jeffrey L. Johnson, A4, Waukegan, won second place.

Perry Hickman, instructor in Spanish, was the master of ceremonies.

The judges were Zunilda A. Gertel, assistant professor of romance languages, Walter Dobrian, associate professor of romance languages, and Alfonso Uriagaa, associate professor of romance languages.

The Daily Iowan CAMPUS NOTES

UNIVERSITY CHOIR
University Choir elected five officers to its executive council Tuesday afternoon. They are: Roger F. Charipar, A3, Iowa City, president; Carole C. Stuart, A2, Grafting, vice president; Phyllis L. Heckman, A2, Oakland, secretary; Kathleen Fay Wilcox, A2, Charles City, treasurer; and Ronald E. Anderson, G, Bismarck, N.D., graduate representative. The council will serve next year as student coordinators and advisers to the conductor, Daniel Moe, associate professor of music.

GOVERNOR'S DAY
All Air Force ROTC cadets will assemble west of the baseball diamond by 10:30 this morning for Governor's Day. Uniform for the day will be shade 1505.

ANGEL FLIGHT
Angel Flight members marching in the Governor's Day Parade should meet inside the Field House at 9:30 a.m. today. Uniforms are required, including navy heels and gloves. Hats will not be worn.

SDS MEETING
Students for a Democratic Society have invited all interested persons to its last meeting of the year at 7 tonight in the Union Ohio State Room. There will be a discussion of summer conferences and jobs for students, including the Vietnam Summer Project.

ARNOLD SOCIETY
The Arnold Air Society and Angel Flight invite all members to attend a joint banquet at 7 p.m. Thursday at Bill Zuber's restaurant in the Amana Colonies. The price will be \$2.75. Angels will be picked up at Burge Hall, Pi Beta Phi and Kappa Alpha Theta at 6 p.m.

CAMPUS CRUSADE
Campus Crusade for Christ will hold its last fellowship meeting of the year at 7:30 tonight in the Union Illinois Room.

Long Sleep' Of Russians Disturbed

BOSTON — Svetlana Alliluyeva says she has left her children and friends to an "unbearable Soviet life," but adds that she must tell the truth about it so her friends "wake up from their long sleep" and find there is a limit to what a human may endure.

Mrs. Alliluyeva, the daughter of Joseph Stalin, reveals her feelings on leaving her homeland in a deeply moving article in the June issue of The Atlantic Monthly. The full text became available Tuesday.

Meanwhile, in Moscow, her son Joseph disclosed that he sent her a letter denouncing her for leaving the Soviet Union.

"I told her I thought she was wrong in deciding to stay abroad," he told a newsman.

Mrs. Alliluyeva, who wrote her account in Switzerland, said she was overwhelmed by her feeling for "my beloved, long-suffering, baffled Russia, where I have left my children and my friends to live our unbearable Soviet life, a life so unlike anything else that it can never be imagined by Russians abroad.

"My unforgettable, suffering Russia," she continues, "wolves howl on your snow-covered plains, the land is still prey to folly and desolation, and there is no end to the rule of the Pharisees, to the power of the dead letter over the living deed."

'Long Sleep' Of Russians Disturbed

University Doctor Presented Award By Arthritis Unit

DES MOINES — Physicians from Iowa City and Cedar Rapids joined laymen from Des Moines Tuesday night in being honored by the Iowa chapter of the Arthritis Foundation.

Dr. Carroll B. Larson of Iowa City and Gaylord E. Gray Jr. of Des Moines received the Cotton Memorial Awards at the group's annual meeting.

The awards were established in memory of Paul Cotton, first secretary of the arthritis organization.

Dr. Larson is head of orthopedic surgery at the University of Iowa, and Gray is treasurer of the state group.

The Dr. Charles F. Lowry Memorial Award went to Dr. Robert A. Sedlacek of Cedar Rapids, longtime board member and regional vice president of the organization.

Mrs. William R. Prouty of Des Moines received the newly established Edith C. Hendershot Memorial Award for volunteer service.

ON HAND TO OPEN the first session of the Water For Peace Conference in Washington, President Johnson takes a close look Tuesday at a trout swimming in a tank at Canadian exhibit. The chief executive toured several of the displays. — AP Wirephoto

NASA To Launch Interplanetary Platform; Satellite To Carry UI-Developed Instruments

An instrument package developed and constructed at the Department of Physics and Astronomy is scheduled to be launched today with the National Aeronautics and Space Administration's latest in the Interplanetary Monitoring Platform (IMP) series of earth satellites.

The instrument package was developed under the direction of Dr. L. A. Frank, professor of physics and astronomy.

The instruments will study low-energy protons (hydrogen nuclei) and electrons as the satellite travels in an orbit ranging from 140,300 miles to 161 miles from the earth. This spacecraft, which is to be launched from the West-

ern Test Range, Lompoc, Calif., will circle the globe once every four days.

The 163-pound craft will be the fifth IMP launched and the second to carry University instruments. Called the Interplanetary Monitoring Platform-F (IMP-F), it will measure cosmic rays within and at the boundary of the earth's magnetosphere and in interplanetary space. The magnetosphere is an envelope formed by the earth's magnetic field which protects the earth from space radiation.

The basic purpose of the IMP series is to collect data for study of sun-earth relationships. Particular emphasis is placed on how solar events influence the earth's environment.

Previous IMP satellites made measurements during a period when activity on the sun was at a minimum. IMP-F will continue and advance these measurements toward its maximum phase over the next two years. Solar activity typically goes through an 11-year cycle which has an approximate two-year maximum phase followed by a nine-year period when activity declines to a minimum.

Communists In Hong Kong Threaten Strike On Utilities

HONG KONG — Hong Kong's Communists piled new pressures on the British colonial administration Tuesday by a threat to strike at the island's bus line and at its docks.

The threatened strikes could cut off water, gas and electricity to the colony's four million people.

Hong Kong has a 6,000-man essential services corps trained to keep the utilities in operation. However, Hong Kong gets some of its water from Red China.

A reply from London sharply rejected a protest by Communist China over what Peking called continuing British atrocities in Hong Kong.

William Rodgers, parliamentary undersecretary for foreign affairs, told Red China's charge d'affaires, Shen Ping, that Britain did not intend to engage in a battle of recriminations.

Rodgers added that Britain would discuss "in a reasonable manner" any questions of mutual affairs in Hong Kong.

Shen also asked for a reply to demands Red China made last week.

Red China's demands were the release of Chinese arrested during the disorders, an end to "all Fascist measures," punishment of those responsible for the "atrocities," and a guarantee against recurrence of such incidents.

Portuguese authorities in nearby Macao submitted to similar demands by Red China earlier this year.

British officials believe one of the Communist's main goals is to close Hong Kong to American servicemen on leave from Vietnam.

Readers Warned Of Speed Courses

MINNEAPOLIS, Minn. — The emphasis upon financial success "has made reading a critical ability in our culture," a University of Minnesota reading specialist said Tuesday in warning the public to be wary of some commercial speed reading courses.

Smokey Joins Fight Against Dystrophy

Smokey the Bear takes a short leave from fighting forest fires to confer with Paul Carter Hawkins, national poster child for Muscular Dystrophy Associations of America, during the youngster's visit to the United States Forest Service Office in Washington. They're discussing plans for the March Against Muscular Dystrophy, the annual drive which raises funds across the country for MDA's far-reaching programs. These include a wide variety of patient services and a global research effort to find effective treatment for muscular dystrophy and related neuromuscular diseases.

City Senior Wins Sanxay Prize

Eden Y. Woon, A4, Iowa City, has been named recipient of the Sanxay Prize for the academic year 1967-68.

The award, which is given to a Liberal Arts senior who shows high promise of achievement in graduate studies, carries a cash stipend of \$800.

Woon majored in mathematics. He tentatively plans to do graduate work at the University of California at Los Angeles.

Iowa Hopes Soar As 19 More Preps Sign Grid Tenders

Iowa's head football coach Ray Nagel released the names of 19 more prep football players Tuesday, who have signed the national letter of intent to play for the Hawkeyes.

Nagel and his staff have now signed 27 prep performers to Iowa tenders. He is pleased with the results of the 1967 recruiting campaign.

The staff has singled out eight of the latest group of freshman prospects for outstanding high school records. Here is a player-by-player sketch:

William Powell, Granard High School, Gaffney, S.C., halfback 5-10, 180, led his team to three state titles, scored 32 touchdowns in 1966, most of them over 30 yards, and compiled 1,400 yards for a 7.8-yard average per carry. He also is a fine pass-receiver and plays linebacker. All-state selection.

Thomas Wallace, Wheatley High School, Houston, Tex., fullback 6-0, 220, .097 100-yard dash man and 62-foot shot putter. Regarded as one of the best all-around athletes in Texas. All-state selection.

Charles Bolden, Memphis, Tenn., end 6-3, 210. Caught 50 passes, 10 for touchdowns in 1966, also basketball and track man, president of senior class and student council. Plans to study law. All-state.

Roy Bash, Belton, Mo., quarterback 6-3, 188. Gained over 1,500 yards as a senior on championship team. National Honor Society student who will major in engineering, also basketball and track man. All-state.

Raymond Manning, Washington High School, Wichita Falls, Tex., end 6-4, 205. Best receiver in Texas for two seasons, nearly a straight "A" student, plans to study mathematics. All-state.

Ray Cavole, Central High School, Kansas City, Mo., halfback 5-11, 183. In seven games in 1966, gained over 800 yards and scored 13 touchdowns before being injured. Plays basketball. .093 100 and 23-foot long jumper in track. He is an honor student who will major in art.

Coleman Lane, Jr., Oscoda, Mich., halfback 6-0, 185. Member of Parade and Scholastic Coach magazine all-America teams. Fast, quick, fine tackler on defense. Also a high-scoring

basketball player. Will study electrical engineering.

Dennis Green, John Harris High School, Harrisburg, Pa., halfback 5-11, 185. Member of unbeaten state champion team, leader in student activities and plans to major in business management. Called the best running halfback in Pennsylvania. All-state.

Other student-athletes: Kim Markshausen, Arlington Heights High School, Arlington, Ill., tackle and linebacker 6-4, 255, all-state. Louis Age, St. Augustine High School, New Orleans, La., tackle 6-3, 222, all-state. David Link, Staunton, Ill., tackle 6-5, 228, all-state. John Palmer, Mt. Carmel High School, Chicago, Ill., fullback 6-0, 205. Dan McDonald, McArthur High School, Saginaw, Mich., tackle 6-3, 227. Kerry Reardon, Rockhurst High School, Kansas City, Mo., halfback 6-0, 175. Hershel Epps, DeLaSalle, High School, Chicago, Ill., end 6-3, 210. Ray Churchill, Greencastle, Ind., halfback 5-11, 180. Bill McFarland, Mendal High School, Chicago, Ill., 6-1, 195. Marcus Melendez, San Juan, Puerto Rico, fullback 6-2, 205. Allan Cassaday, Springfield, Ill., tackle and linebacker 6-2, 220.

Baseball Roundup

Birds Tip Yanks Tribe 4, Senators 1

BALTIMORE (AP) — Frank Bertina and Eddie Watt combined to throttle New York on four hits Tuesday night, topping Mel Stottlemyre in a pitcher's duel as the Baltimore Orioles defeated the Yankees 1-0.

A single by Andy Etchebarren, following an opposite field triple by Dave Johnson, scored the only run off Stottlemyre in the second inning.

Bertina, in his second start of the season, struck out six and permitted three hits through the first five innings before retiring because of a strained back muscle.

Watt yielded one hit over the final four innings and struck out two more Yankees, who were shut out for the second consecutive night.

Dodgers Romp

NEW YORK (AP) — Don Drysdale pitched a five-hitter for his second straight shutout as the Los Angeles Dodgers whipped the New York Mets 7-0 Tuesday night.

The Dodgers gave Drysdale all the support he needed when they erupted four runs in the first inning on four walks and one hit — Al Ferrara's three-run double.

Drysdale, now 4-3, gave up two hits in the first inning, then retired 12 straight until the fifth inning when the Mets loaded the bases with two out on walks to John Sullivan and Bud Harrelson plus Al Luplow's single.

But the Dodger right-hander ended the threat by retiring Ed Kranepool on a fly to center field.

Houston Wins

HOUSTON (AP) — Chuck Harrison drove home four runs with a pair of doubles, and Larry Dierker recorded his fifth victory of the season as the Houston Astros beat the Pittsburgh Pirates 8-3 Tuesday night.

Harrison drove in two runs in the third inning and two more when the Astros combined four hits and three walks for five runs in the fifth off Billy O'Dell and Vernon Law. O'Dell, losing his first game after four wins, was banged for six hits and seven runs.

Dierker, who also contributed a two-run double and a single to the Houston attack, retired after seven innings with a slight foot injury. The 20-year-old right-hander allowed six hits pulling his record to 5-2.

Cleveland Blasts

CLEVELAND (AP) — Rocky Colavito blasted a three-run homer in the 10th inning, giving the Cleveland Indians a 4-1 victory over Washington Tuesday night.

The loss was the fourth straight for the Senators.

Chico Salmon drew a leadoff walk in the 10th and Max Alvis bunted him to second. Losing pitcher Bob Priddy then walked Chuck Hinton intentionally before Colavito slammed his second homer of the season into the left field seats.

Pinch hitter Cap Peterson's first American League homer, the third hit off Cleveland starter Gary Bell, tied the score in the 11th.

Chicago Wins

CHICAGO (AP) — The expected announcement of an award of a franchise to Cincinnati in the American Football League was held up temporarily Tuesday.

It had been believed that the franchise award would be made about noon but Pete Rozelle, the commissioner of both the AFL and the National Football League, said there were to be no announcements of any kind until 5 p.m.

The leagues are holding separate meetings at the Waldorf Astoria.

Two Groups
Two groups are bidding for the Cincinnati franchise which would expand the AFL to 10 teams. The new team would start play in 1968.

Paul Brown, the former coach and general manager of the Cleveland Browns, heads the group expected to get the franchise. John Wiethe, a former guard for the Detroit Lions and a one-time basketball coach at the University of Cincinnati, heads the rival group.

A franchise, including players to be drafted from the other clubs, probably will cost about \$9 million.

AFL's 9th Team
The AFL's ninth team, the Miami Dolphins, started play in 1966. The franchise reportedly cost the Miami owners about \$7.5 million.

It cost the owners of the NFL's newest two teams, the Atlanta Falcons and New Orleans Saints, an estimated \$8.5 million each for the franchises. The Falcons started play in 1966 while the Saints begin competition in the coming 1967 season.

The AFL's other nine teams are Boston, Buffalo, Houston, Miami, New York Jets, Denver, Kansas City, Oakland and San Diego.

The NFL has 16 teams, including the New Orleans Saints. The other teams in the NFL are At-

Meeting To Finalize Plans For Summer Baseball Loop

By CHUCK STOLBERG

A meeting will be held in Iowa City Sunday to work out a schedule and to finalize plans for a summer baseball program aimed at strengthening the University baseball program, according to Iowa baseball Coach Dick Schultz.

Schultz will be commissioner of the league that will include teams from Iowa City, Davenport, Muscatine, and Milan, Ill.

"We are aiming for a 40-game schedule over 10 weeks, opening on June 11," Schultz said.

The entire program is aimed at developing a better baseball program at Iowa. The summer program will give players an opportunity to play about 100 games, including those played during the regular season, he said.

Schultz noted that his team made good progress during the past season. But if the players aren't given the opportunity to play some good baseball during the summer, they have to start all over again the next season.

"When the league season is over in August, I'd like to assemble everyone eligible for next season and play in the American Baseball Congress tournament," he added.

A definite date for the tryouts hasn't been set yet, but Schultz said they will probably be held around June 8 or 9.

There will be about 14 players on each team.

"I expect that all but two of the varsity players will be playing. I plan to have conferences with the freshman players after their last game, but I expect most of the key freshmen will play," Schultz said.

There will be an attempt to balance the teams. Players who live in one of the participating cities, have jobs lined up there or have relatives with whom they can live in any of the cities, will be allowed to play in that city, he said.

The biggest problem to date has been in getting adequate housing and jobs for the players, Schultz said. But people in the various communities have been lining up jobs for the players and, "I think we're going to get it whipped."

The Iowa City and Davenport teams will be made up of only University players while the Muscatine team will be composed of Muscatine Junior College and Iowa players, and the Milan team will have only one or two Iowa players, he said.

The Iowa City team will be sponsored by Phillips 66 and will be coached by Tom Carlson, Iowa freshman baseball coach. The Muscatine team will be sponsored by the Park Board there and will be coached by Gene Weber, Muscatine Junior College Coach.

The Milan team will be sponsored by a group of local merchants and will be coached by Tom Lenz, while the Davenport team will be sponsored by a group of interested persons and coached by Don Gresning, Davenport Central basketball and baseball coach.

Small Scale Effort
Schultz has been thinking about forming such a league for nearly two years now. "To get the thing started we're doing it on a small scale to be sure it will succeed," Schultz said. "If it turns out all right this summer, we'll expand next year and offer kids from other schools the opportunity to play."

When the season begins, if there are any vacant spaces on any of the rosters, one or two high school players may be given the chance to play, Schultz said. These would be boys the University is interested in recruiting.

Rozelle Halts Announcement Of Cincy Football Franchise

NEW YORK (AP) — The expected announcement of an award of a franchise to Cincinnati in the American Football League was held up temporarily Tuesday.

It had been believed that the franchise award would be made about noon but Pete Rozelle, the commissioner of both the AFL and the National Football League, said there were to be no announcements of any kind until 5 p.m.

The leagues are holding separate meetings at the Waldorf Astoria.

Two Groups
Two groups are bidding for the Cincinnati franchise which would expand the AFL to 10 teams. The new team would start play in 1968.

Paul Brown, the former coach and general manager of the Cleveland Browns, heads the group expected to get the franchise. John Wiethe, a former guard for the Detroit Lions and a one-time basketball coach at the University of Cincinnati, heads the rival group.

A franchise, including players to be drafted from the other clubs, probably will cost about \$9 million.

AFL's 9th Team
The AFL's ninth team, the Miami Dolphins, started play in 1966. The franchise reportedly cost the Miami owners about \$7.5 million.

It cost the owners of the NFL's newest two teams, the Atlanta Falcons and New Orleans Saints, an estimated \$8.5 million each for the franchises. The Falcons started play in 1966 while the Saints begin competition in the coming 1967 season.

The AFL's other nine teams are Boston, Buffalo, Houston, Miami, New York Jets, Denver, Kansas City, Oakland and San Diego.

The NFL has 16 teams, including the New Orleans Saints. The other teams in the NFL are At-

lanta, Baltimore, Chicago, Cleveland, Dallas, Detroit, Green Bay, Los Angeles, Minnesota Vikings, New York Giants, Philadelphia, Pittsburgh, St. Louis, San Francisco and Washington.

Cincinnati had a franchise in the NFL in 1933 and part of 1934. In 1934, the league was shifted to St. Louis and became known as the St. Louis Gunners. It finished with an 0-8 record and was abandoned after the 1934 season.

New Stadium
A new \$40 million stadium is in the works for Cincinnati. If plans go through, the park will be ready in 1969.

The football team could play in 1968 at either Crosley Field, the baseball park which seats between 28,000 and 32,000 for football, and the University of Cincinnati's Nippert Field, which can hold between 30,000 and 34,000 for football.

'Baby Bull' Leads N.L. In Hitting

NEW YORK (AP) — Orlando Cepeda, the baby bull of the St. Louis Cardinals, has charged into second place in the National League batting race on the strength of a 16-point increase that lifted his average to .373.

The husky first baseman, obtained in a trade with San Francisco last season, collected eight hits in 18 tries during the week ending Monday.

Cepeda advanced one place from third and closed to within 19 points of Pittsburgh's Roberto Clemente, the batting leader. Clemente boosted his average two points to .392 with a 10-for-25 performance.

TROTTERS
CHICAGO (AP) — The clowning, world-famous Harlem Globetrotters basketball team — officially recognized by the State Department as ambassadors of good will — passed from the Saperstein trademark to Metromedia, Inc., Tuesday in a sale reportedly in the \$3-million range.

Andy Jackson was tops among batters with .364; followed by centerfielder Larry Kathje, .311; and Russ Sumka, second baseman, .297.

After winning three championships and first division spots in eight of 12 spots, University of Iowa athletic teams in 1966-67 finished fourth in the composite Big 10 rankings, best since 1963.

The survey showed Iowa had "quality points" of 6.08. Ahead of the Hawkeyes are Michigan State 8.62, Michigan 7.36, and Wisconsin 6.37. "Quality points" are obtained by dividing the number of points accumulated on the basis of 10 for first, 9 for second, etc., in the final standing, by the number of sports in which a university entered a team.

The Hawkeyes won titles in cross country, gymnastics and outdoor track. Michigan State likewise won three titles — football, wrestling and tennis, and also a title share in basketball. No other university won more than two titles.

In addition to the first places, Iowa was third in basketball and indoor track, fifth in fencing, baseball and golf, seventh in tennis, eighth in wrestling and tenth in football and swimming.

Iowa Lacked Good Hitting

The longest schedule in Iowa baseball history has ended for the Hawkeyes with a record of fifth in the final Big 10 standings and an overall regular season's mark of 19-12-1.

U.S. Seeks To Improve Trade Policy

WASHINGTON (AP) — With the fine print still to be resolved on the Kennedy Round of tariff cuts, U.S. negotiators set their sights Tuesday on another major initiative to ease trade barriers.

Ambassador William M. Roth told his first formal news conference since returning from the Kennedy Round negotiations in Geneva that the United States plans to embark on a major study of its trade policy after the June 30 signing of the Geneva agreements.

This study, said Roth, would extend into next year and will be the basis for a future major initiative in easing trade barriers at some unspecified time.

Roth is President Johnson's special representative in trade negotiations. He described the Kennedy Round as a very gratifying and rewarding effort but said it was a leap in the dark because little consultation had been held beforehand.

"A good deal of work must be done for the new initiative," he said. Topics to be discussed at future negotiations would include trade with developing nations and the lowering of nontariff barriers including border taxes which Roth described as one of the most difficult problems.

The Kennedy Round — so-called because President John F. Kennedy sought U.S. participation in the talks — produced agreements for tariff cuts ranging from 30 to 50 per cent on a wide range of products.

The average cut is about one-third. Reported Tuesday, the Kennedy Round played a role in the 100th anniversary of the birth of President John F. Kennedy.

Burford, Lasansky Receive Top Awards At Art Exhibition

Byron Burford and Mauricio Lasansky, professors of art, have received top awards in the Annual Iowa Artists Exhibition at the Des Moines Art Center.

The painting by Burford, entitled "Tattoo Triptych," received the Edmondson award for the best work in any medium and carries a \$250 prize. The color intaglio print "Amish Boy" by Lasansky received the Esther and Edith C. Younker award for best work in prints and drawings, which is a \$100 prize.

Three University students also received student awards in the Des Moines Art Center exhibition. Michael K. Meyers, of Iowa City, received the student Painting Award; Leonardo Lasansky, A2, Iowa City, received the student Prints & Drawings Award; and George W. Vance, G. Bushnell, Ill., received the student Sculpture Award. These \$50 prizes are also Esther and Edith C. Younker awards.

The exhibition will continue through June 18.

EAST GERMANS TO BUILD— BERLIN (AP) — East Germany plans to build its second nuclear power plant near the Baltic Sea City of Griefswald, a West Berlin information agency reported.

Toll Of Fire Exiles Protest Arrest Of Anti-Castro Leader

MIAMI (AP) — A Castro bomb squad blew up an office in "Little Havana" Tuesday, exiles charged, as thousands of Cuban refugees walked off their jobs to protest the jailing of Felipe Rivere, a militant anti-Castro leader.

The "terrorist" blast before daylight at the headquarters of a Cuban unity group didn't hurt anyone. But the one-day strike affected a reported 1,000 businesses and cut into school attendance.

Strike leaders claimed 40,000 exiles took part in the sympathy movement. Hundreds of women and children, they said, planned to march later down Biscayne Boulevard.

May Be 200

BRUSSELS (AP) — Firemen recovered more bodies Tuesday from the ruins of Brussels' largest department store and investigated the possibility of arson in the Monday fire that may have taken more than 200 lives.

Julien de Grifse, chief of Brussels criminal police, said 38 bodies had been recovered. He said 197 persons were missing and 66 were injured.

Officials of the department store L'Innovation said 281 were missing and the ultimate death toll could exceed 300.

Minnesota Governor Pleas For Adoption Of Tax Reform

ST. PAUL, Minn. (AP) — Gov. Harold LeVander appeared before the Minnesota Legislature Tuesday for the second time in two days, renewing his plea for a tax reform program with a broad-based tax.

The governor continued his insistence that any sales tax should be approved in a voter referendum before going into effect.

Meanwhile, there were reports that a new attempt would be made to push the 3 per cent selective sales tax bill which LeVander vetoed last week.

The House had voted 96 to 37 to override the veto. The Senate was one vote short of the 45 needed to put the bill on the lawbooks, when adjournment came Saturday night.

Faculty Book Drive Aimed To Aid RILEEH Program

By CHUCK WANNINGER
Staff Writer

A Faculty Significant Book Drive was officially launched Monday by drive chairman Warner J. Barnes, assistant professor of English.

The drive is in connection with the Rust, Iowa, LeMoyne Expanding Educational Horizons (RILEEH) program at the University, which is aimed at the educational development of Rust College at Holly Springs, Mississippi, and LeMoyne College, at Memphis, Tennessee.

"The Negro liberal arts colleges are in need of books for their libraries, and this is an area where we all can help," said Barnes.

The goal of the drive, says Barnes, is to have every faculty member donate a "significant" book to Rust, and one to LeMoyne.

Word "Significant" Underlined
"We must underline the word 'significant,' because we will do harm rather than good if we do-

nate trash books. There is not a need for outdated 30-year-old text books, but a genuine need for 'significant' books," says Barnes.

"Also, we would like to ask that any professors who have recently published books to describe the book they have written to Rust or LeMoyne, and would continue this practice as they publish books over the years."

A co-sponsor of the drive is the Luther Brewer Club, an undergraduate book-collecting club, of which Barnes is the faculty sponsor.

The RILEEH steering committee will handle the distribution of the books.

Committee Would Welcome Cash
Barnes said that the committee would welcome any cash contributions for the payment of transportation expenses.

At the other end of the book drive is Frank Moorer, the librarian at Rust College, and a

graduate of the Department of English at the University.

"Most of us can participate in this drive," says Barnes, "because most professors have some books on their shelves which are not of immediate use. It is a good way to back the civil rights movement, and to help the educational advancement of the Negro colleges."

Faculty members are asked to leave the books in the following offices: Lyle Henry, project coordinator in the Graduate College at Old Capitol; Frederick Wezmann, professor of library science at University Hall; Richard W. Budd, assistant professor of journalism at the Communications Center; May Tangen, reference librarian at the Education Library; Margaret G. Fox, professor of women's physical education at the Women's Gymnasium; David H. Andrews, assistant professor of sociology and anthropology at Macbride Hall; James N. Murray, chairman of the Department of Political Science at Schaeffer Hall; and Anthony Constantino, professor of economics at Phillips Hall.

Anyone needing more information about the Faculty Significant Book Drive should call Dr. Barnes, at 353-3340.

Iowa City Growth Feared Coralville Fights For Sewer Plant

By BRAD KIESEY
City Editor

We shall fight them on the beaches, we shall fight them on the landing grounds, we shall fight in the fields and in the streets, we shall fight in the hills; we will never surrender.
—Winston S. Churchill

Coralville thinks it is fighting a war of survival, and it is carrying its fight to the sewers.

The city limits of Iowa City (pop. 42,000 including University students) and Coralville (pop. 4,000) are meeting in a buffer zone that formerly separated them. This has touched off one crisis after another over the last decade.

The so-called sewer war between them is the result of another attempt by Coralville to avoid being encircled and stunted by the growth of Iowa City. Coralville made the opening move in the sewer war as an act of aggression. The city council Feb. 19 voted unanimously to withdraw from its contract with Iowa City for sewage treatment service at the Iowa City plant and to let bids on a treatment plant of its own.

"Iowa City is attempting to keep Coralville from constructing an independent sewer plant. That's part of a plan to keep Coralville from growing," Clarence H. Wilson, mayor of Coralville, told The Daily Iowan recently. "Iowa City is planning to surround Coralville and make it dependent on Iowa City for services."

"We bought our water system from Iowa City, and the sewer plant would make us a little more independent."

Coralville City Engineer Dennis M. Sauegling agreed that Iowa City "appeared to be trying to fence Coralville in."

Iowa City responded to Coralville's flanking maneuver by going to Johnson County District Court early in March seeking an injunction forbidding Coralville to start any work on the plant. The

main reason stated in the petition was that the site Coralville chose for it was zoned by Johnson County for residential use only.

Coralville's counter move was a direct attack on a weak spot in Iowa City's defenses.

That move prompted an impartial third party, District Court Judge Clair E. Hamilton, to castigate both belligerents after the eight-hour hearing on the injunction March 6. He gave a sharp reprimand to both Iowa City and Coralville for what he saw as a lack of cooperation in solving mutual problems.

"There has been nothing but fighting and back-biting (between the two communities) for the past five or six years," Hamilton declared as he closed the hearing. "There is a lot of spite on both sides."

"If the communities would spend the time working together that they spend fighting, there would be better government in the entire area," he said.

Hamilton did, however, grant the temporary injunction against Coralville on March 12. He ruled that building on that particular site would violate a duly constituted county zoning ordinance.

Two weeks later he granted a permanent injunction against Coralville for the same reason.

The Coralville council has directed City Atty. William Bartley to appeal the injunction to the Iowa Supreme Court.

But wars are never simple, especially if a question of national security is involved. In the sewer war it is a question of municipal security. And if it can be said that the Second World War was merely a resumption of the fighting over territory disputed in the First World War, the sewer war is a resumption of the fighting over territory disputed in last year's annexation war.

A peace treaty in that war has never been drawn up; there is only an armistice. And that fact complicates the sewer conflict.

The big battle of the annexation war was precipitated in April, 1966, when Iowa City and Coralville moved to annex overlapping parcels of land north and west of Coralville. Included in the disputed area were Oakdale (owned by the State of Iowa and controlled by the University), a motel development known as the Holiday Inn complex — and the chosen site for the Coralville sewage treatment plant.

This contest is awaiting mediation by neutral third parties (in district court). A decision, which may be appealed by whichever side loses, is expected in September or October.

Litigants in disputed annexations under Iowa law must show ability to supply normal municipal services to the area before they can be considered eligible to annex it. Coralville officials, among them Engineer Sauegling, believe that building a new sewage treatment plant would give them a better case than they would otherwise have.

"We (Coralville) have to supply substantial services to that area and I would suppose a new sewage plant to have a marked effect on whose annexation claim would hold up," he said recently.

However, even before Coralville officially decided to build a new plant, both cities proceeded to work up plans to service that area with trunk sewers and other improvements. Both Iowa City and Coralville had other sewer projects to carry out within their own areas, and both applied for federal funds for projects within the contested area along with their other requests.

The U.S. Department of Housing and Urban Development (HUD) reserved the money for both cities' projects. It withdrew all funds for work outside the city limits of the two cities, however, when it discovered the duplication and was unable to enlist the cities' cooperation.

The engineers and attorneys of the two cities informally managed to work out a compromise solution to the duplication. Their compromise failed to excite either city council, however, and it died in sort of a pocket veto.

Iowa City Assistant City Engineer Fred Moore said that at that point the Iowa City council decided to go ahead with its sewer plans for the disputed area without the federal grants.

Iowa City councilman James H. Nesmith remarked at a council meeting, "We have got to do something out there. The University is building like mad out there and they won't wait."

Bartley said, "The joint project was to be completed by Dec. 31, 1966. Without the grant, neither city went through with it. Then later Iowa City in desperation went ahead to contract for the interceptor sewer and lift station (improvements in the disputed area) without the grant."

"Then Coralville decided to go ahead on its own, and that did not meet with much approval in Iowa City," he added.

The Coralville council made its decision to build after Iowa City announced that it was going to construct a sewage lift station to connect Coralville, Hawkeye Apartments and proposed University structures in the same area to the recently completed "southwest interceptor sewer."

Presently, the Coralville sewer system discharges into the Iowa

City system at a point behind the University Law Building.

"That is a big reason for building the lift station," said Iowa City Engineer Moore. "The present system seriously overloads behind the Law Building. That would be solved if the Coralville system discharged into the interceptor sewer at the lift station."

But this is war, and in modern war no holds are barred. Coralville has already begun legal proceedings to wrest from Iowa City's control the site for the proposed lift station.

The lift station site is situated in an area owned by Iowa City in the 1964 "shoestring annexation." Coralville is claiming that a procedural irregularity voids the annexation to Iowa City and thus leaves the area open to annexation by Coralville. The area borders both cities.

Most of the property in the area belongs to the University, according to Iowa City Atty. Jay H. Honohan, and in 1964 Elwin T. Jolliffe, University vice president for business and finance, petitioned to Iowa City to have the land annexed.

Iowa City held an election and annexed it.

When Coralville was fighting the injunction against its sewage plant in March, according to Coralville Atty. Bartley, the legal researchers discovered that the owner of the land had to sign the petition to annex, and the owner was not Jolliffe or the University but the State Board of Regents. Coralville is claiming that even though the board ratified Jolliffe's action after the annexation, the petition was not properly presented to Iowa City and the annexation was therefore void.

Coralville has already petitioned to annex the land and is scheduled to hold a hearing on the question Tuesday night.

If Coralville's claim is upheld in court and the shoestring is annexed to Coralville, zoning rights over the land pass to Coralville, too.

"And it's a pretty good bet that Coralville would zone that land so that Iowa City couldn't build the lift station there," Bartley remarked.

Modern war is fought as much for economic advantage as for territorial gains, and this aspect of the sewer war was for a time one of the hottest areas of conflict between the belligerents.

Coralville had been notified by the Iowa City council that its share of the cost of the new lift station would be \$105,000. Engineer Sauegling estimated that the sewer construction necessary to connect the Coralville system with the lift station, plus associated charges, would bring the cost of remaining connected to the Iowa City sewer system to about \$356,000.

"It would cost us only about \$401,000 to build a treatment plant, settling tank, holding pond and facilities, and also pump the sewage two miles," Sauegling commented. "We would be getting our own system for not much more than it would cost us to stay hooked onto Iowa City's."

He said the total cost of the Coralville project would be about \$550,000 when engineering, legal and bonding fees were included.

After Coralville announced its intention to build a separate plant, the engineers of the two cities peeped away at each other over the cost of Coralville's sewer service.

Sauegling said, "At the present property tax rate, and based on the bids we took in March, we could finance our sewer project without any tax increase at all."

He said that this project would be financed by revenue bonds, on which the interest is paid not from property tax revenue, but from fees paid by users.

Concerning the sewer rate to be charged, he said, "Based on the bids we received, we could have gotten by with a 10 per cent increase to Coralville residents. But after the injunction we had to throw out those bids. We would have to let bids again and by then the cost may be higher."

It was estimated late in February by the Iowa City engineer's office that Coralville would have to raise its charges for sewer service by 66 per cent if a new plant were to be built. But Assistant City Engineer Moore told The Daily Iowan that his figures show that a rate boost of only about 20 per cent would be needed.

Sauegling attributed the difference in figures to the inclusion of different items in the reports made.

"Probably neither one of us is wrong," he said. "It all depends on what you include when you compare the figures."

He avoided detailed comment, describing the differences as "pretty technical to get into."

Also in the economic sphere, the two cities engaged forces over the rates Iowa City presently charges the city of Coralville for the use of its treatment plant. Iowa City bills Coralville a lump sum based on the portion of the total volume of sewage that goes through the plant from Coralville.

Sauegling contended that Coralville was being "held up" by Iowa City on sewer rates. He said the rate structure set up in the Iowa City-Coralville contract was "incompatible" with recommendations made by the State Board of Health. He complained that because of the high rate Coralville is charged, 75 per cent of the revenue Coralville receives from the users of its sewer system goes to Iowa City and there is not enough left to properly maintain the Coralville system.

He speculated that there was a good chance that Coralville would continue buying treatment service from Iowa City if it could "get a reasonable rate."

Moore pointed out, however, that Iowa City lowered the rate it charged Coralville in 1964.

Sauegling repeated that it all depended on what was included in the figures.

The question that remains, after all the battles are fought and the victor is determined in each skirmish, is this: Is Coralville's war for survival really a war? Or is it just a series of war games? Might Iowa City force a merger somehow, as Coralville's Mayor Wilson figures? Wilson himself admits that it cannot.

Iowa City Atty. Honohan agreed that there was no legal way Iowa City could force a merger, but he went further than that. He said that at none of the official discussions he had attended was any plan to surround Coralville mentioned.

Bartley conceded that Iowa City could not pressure Coralville into anything legally, even if it should completely surround Coralville. State law recognizes a merger only when elections in both cities show a majority in favor of it.

But then if Iowa City cannot force Coralville to become a taxpayer suburb and if less than a majority of Coralville's residents favors a merger, what is Coralville afraid of? Officials have not been willing to say so publicly, but there is widespread feeling that these war games are being fought because of blind pride. It has been said that Coralville residents, or perhaps just their city officials, are so afraid that they will lose face in purchasing some services from their bigger neighbor that they are willing to pay unnecessarily high prices to provide the services themselves — and foot the bill for the legal fees necessary to obtain them.

Perhaps there is some consolation in the fact that in spite of the ferocity of these war games, all that has taken a beating is the budget.

But the fighting, according to Bartley, is just begun. The injunction against the sewage treatment plant is already headed for the Supreme Court, and the two annexation disputes could wind up there, too.

1967 HAWKEYE YEARBOOKS

will be ready for pick-up

Friday, May 26th

Distribution daily 8:30 a.m. to 4:30 p.m., except Saturday and Memorial Day at the Communications Center, College and Madison. Bring your ID Card.

1966 — \$3.00
63, 64, 65 — \$2.00
Will Be Available For all others — \$1.00
