## Cigarette Ads Hit

WASHINGTON — The Federal Trade Commission proposed Tuesday to require that all cigarette advertising state that smoking cigarettes is dangerous to health and may cause death.

The FTC plan would require that all advertisements disclose clearly and prominently that "cigarette smoking is dangerous to health and may cause death from cancer, coronary heart disease, chronic bronchitis, pulmonary emphysema and other diseases."

## Tax Bill Dodged

DES MOINES — The House adjourned Tuesday for the second day in a row without taking final action on a Senate-approved bill to repeal the 3 per cent service tax on advertising and new construction.

During three hours of debate Tuesday, the only major action the House took on the measure was to reject an amendment which would have left the tax on new construction.

Rep. Joseph Johnston (D-Iowa City), sponsor of the amendment along with Rep. Norman Jesse (D-Des Moines) said the tax on new construction was a "separate and distinct" problem from the advertising tax.

## Draft Records Hit

LOS ANGELES — Three young men seized draft records in a downtown armed forces induction center Tuesday and burned them in a nearby parking lot, police said.

The records were for 231 men scheduled for induction later in the day. A center staff member said the men will have to be referred back to their local draft boards for reprocessing.

Police said they booked Charles Friend and Robert Siegel, both 22, and Walter Skinner, 25, all of Pasadena, on suspicion of conspiracy to commit burglary.

The trio also faced questioning by FBI agents, who said federal laws may have been violated.

## Long Trucks Out

DES MOINES — Senate and House conferees agreed Tuesday to eliminate until 1970 any attempt to let longer trucks on Iowa highways from a bill raising truck license fees.

The eight-member conference committee reached a consensus on the license fee increase measure after two days of meetings.

But the conference committee remained deadlocked over another aspect of the bill.

House committee members offered to reduce the fee schedule proposed by the House, designed to produce a about \$8 million a year, if the Senate conferees would agree to raise the \$7.3 million fee schedule in the Senate bill.

## SEATO Assured

BANGKOK — Secretary of State William P. Rogers told members of the Southeast Asia Treaty Organization Tuesday that the United States is keeping an open mind about negotiating a settlement in Vietnam.

Rogers told a private session of the SEATO Council, however, that the Nixon administration will not compromise the principle of free choice for the South Vietnamese.

Rogers echoed the spirit of President Nixon's speech last Wednesday in which he said the United States was prepared to negotiate on all issues including those raised by the National Liberation Front and North Vietnamese.

## Cuba Policy Hit

SAN ANTONIO, Tex. — Leaders of the United Presbyterian Church called on the Nixon administration Tuesday to restore diplomatic relations with Cuba at once and lift the eight-year-old U.S. trade embargo against the Caribbean nation.

By a strong voice vote, the 840 balloting delegates at the Church's general assembly approved a Latin-American position paper sharply critical of U.S. conduct in Latin America. But the Cuban section barely passed.

## Court Date Set

A hearing is set for 8 a.m. next Wednesday for University Pres. Howard R. Bowen on a charge of withholding public information.

The charge was filed last week by Jerry Sies, A4, Iowa City, after Bowen refused to give him a copy of the University's 1969-70 budget. Bowen said the budget does not yet exist.

The charge is a misdemeanor carrying a possible \$100 fine or 30 days in jail upon conviction.

### Forecast

Considerable cloudiness today through Thursday, with chance of showers or thunderstorms. Warmer tonight. High today generally in the 60s.

## Moon, Ho! Astronauts Closing In

SPACE CENTER, Houston — The Apollo 10 astronauts got a physical checkup while traveling 251,000 miles through space Tuesday. Only hours separated them from their hazardous inspection of the moon — tugging ever harder at their tiny craft.

"Right now the moon looks as big as earth," said Navy Cmdr. John Young. The astronauts got their first view of both heavenly bodies at the same time.

They were less than 50,000 miles from their destination.

Air Force Col. Thomas P. Stafford, Navy Cmdr. Eugene Cernan and Young were scheduled to be asleep as the spacecraft entered the mysterious and unfelt twilight zone where the pull of earth gravity wanes and the moon's begins.

At 3:45 p.m. (Iowa time) today, they arrive at the point where they fire their engine — out of sight and hearing of earth — and go into moon orbit leading to Thursday's separation of the bug-like lunar lander and its climatic dip to within 9.3 miles of the lunar surface.

Stafford and Cernan will be aboard the LEM. Young, alone in the command module and maintaining the 70-mile-high lunar orbit, will be available to come to their rescue.

Dr. Charles Berry, the astronauts' chief physician, held a conversation — not carried to news media — with the spacemen for reassurances that they were physically up to the 2½ day trial ahead.

Space center spokesmen said they had no indication the astronauts' health was anything but perfect.

Flight Director Jerry Griffin reported that "all spacecraft systems are working beautifully."

If they were apprehensive, they didn't show it in their conversations with the ground and in conducting another televised travelogue of the now-small earth.

Apollo 10 is to dash behind the moon's hidden backside and the astronauts will fire themselves into an orbit about 70 miles above the surface.

The trip in the lunar module is in preparation for the July Apollo 11 flight during which a lunar craft will land two astronauts.

Apollo 10 was on a perfect course for orbiting the moon at its equator. "Right down the slot," mission control called it, as a scheduled midcourse correction was canceled.

The only tasks for the astronauts — other than their boning up for the 2½ days in lunar orbit — were some star sighting experiments.

At the time, the spaceship was 200,000 miles from the earth, gradually slowing to the 2,032 miles an hour where the moon's pull takes over and starts the craft accelerating again.

Apollo 10 will circle the moon 6¼ hours. About 10 a.m. Thursday, Stafford and Cernan will crawl through the nose of their ship into the bug-like lunar lander. Some three hours later, after checking out the complicated systems, they will undock the two craft.

For half an hour, the lunar lander will remain in Young's close scrutiny while he looks it over. Then Young briefly fires his small thrusters to move slowly away.

And in another hour, Stafford and Cernan begin the greatest adventure to date, firing their large descent engine and begin sweeping toward man's nearest approach to the moon.

The lunar module arcs to the face of the moon and dips to within 50,000 feet — only about 10,000 feet higher than a commercial airliner crossing the United States.

## Yocum, Honohan Arrest Each Other

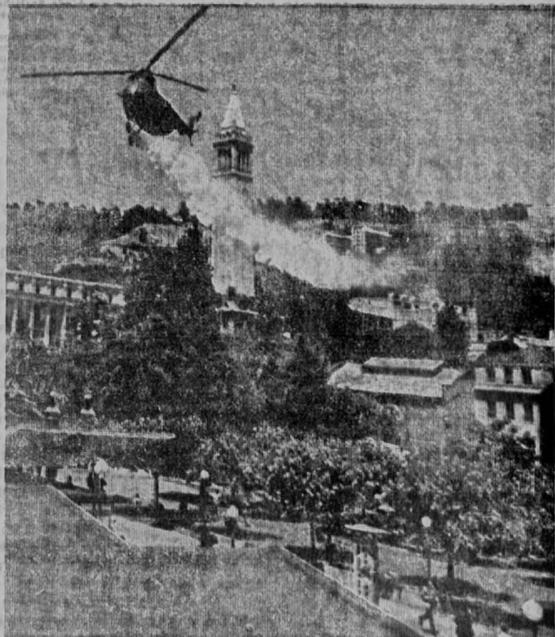

A charge of disorderly conduct was filed against City Atty. Jay Honohan Tuesday night by an Iowa City man whom Honohan had previously tried to arrest for cutting down trees without a city permit.

Police reported that early Tuesday afternoon, Stanley Max Yocum, a former city councilman who owns a surplus and salvage company, was cutting down trees in front of a residence at 111 E. Church St. He was charged with obstructing a street.

Honohan learned that Yocum did not have a city permit to cut down trees, drove up to where Yocum was working and told him he was going to place him under arrest.

Honohan reportedly tried to take Yocum into custody by taking him by the arm, and Yocum, in turn, informed Honohan that he was making a citizens arrest and charging him with disorderly conduct.

Yocum was later charged by police with obstructing a street.

California National Guardsmen use a technique originally developed for getting insecticides onto crops — spraying from the air. The target in this instance, however, is human beings — youths in the troubled University of California campus area of Berkeley — and the weapon is tear gas. ## Nixon, Thieu Will Talk Of Peace on Midway

WASHINGTON — President Nixon and his Vietnamese counterpart, Nguyen Van Thieu, will fly to Midway Island June 8 to appraise the Vietnamese war and the possibilities of peace, it was announced Tuesday.

In a matter of a mere few hours, the two chief executives will try to clarify any misunderstandings on policy and seek agreement on a course for the future.

Thieu spoke up Saturday for a summit session with Nixon. He said, "I feel it is necessary to set up a common policy at this juncture in the situation."

This followed by only three days Nixon's radio-television talk to the nation proposing mutual withdrawal of the contending forces in Vietnam as part of an administration program for opening the way to peace.

Administration officials have said, too, that the United States is willing to discuss the Viet Cong's proposal at the Paris peace talks for creation of a coalition government to supervise national elections in Vietnam.

Thieu consistently has opposed a coalition.

Washington has heard reports that some of Thieu's associates were not completely happy with the Nixon address and that the two nations weren't seeing eye to eye on some points.

However, on Tuesday came a joint announcement from the White House and from Saigon of the Nixon-Thieu meeting on tiny Midway Island. That speak in the Pacific 1,149 miles west of Hawaii gave its name to a crucial American victory in a World War II sea battle.

It looked on the surface as if the session was somewhat hurriedly set up following the Nixon speech.

Not so, said presidential press secretary Ronald L. Ziegler and his counterpart at the State Department, Carl Batch.

Ziegler said Nixon had had the meeting with Thieu, their first since Nixon became president, in mind for some time and the arrangements were not made as a result of the presidential speech.

## Faculty Hits Antiriot Rider

By LARRY CHANDLER  
The Faculty Senate unanimously passed a resolution Tuesday calling for reversal of an antiriot measure approved two weeks ago by the legislature.

The measure, which was attached as a rider to the appropriations bill for Board of Regents-operated schools, stipulates that any University student, faculty or staff member be automatically dismissed if convicted of "rioting."

The faculty attacked the rider as a breach of due process in the firing of faculty members and warned that if the rider is enacted, it could endanger the maintenance of a good faculty.

The resolution reads: "Whereas the recent action of a committee of the Iowa State Legislature to prevent state funds being used to provide payments, assistance or services to anyone convicted of inciting, promoting or carrying on a riot resulting in material damage to public property or injury to persons is clearly in violation of the 1958 Statement on Procedural Standards in Faculty Dismissal Proceedings prepared by a joint committee of the Association of American Colleges and the American Association of University Professors and endorsed by an overwhelming majority of institutions of higher learning in the United States;

"And whereas passage of such a restrictive measure would seriously jeopardize the recruitment and maintenance of a strong and independent faculty;

"And whereas the revocation of the faculty right to established grievance and appeal procedures is an explicit denial of due process;

"And whereas both the Faculty and Student Body of the University of Iowa have made it abundantly clear on numerous occasions that they do not condone riots or other acts of violence initiated by or participated in by faculty or students;

"The University Faculty Senate calls upon the Iowa State Legislature to reaffirm its faith in and long standing support of its colleges and universities by eliminating this offensive section of the appropriations bill."

The resolution is to be sent to the leaders of both houses of the legislature and to the governor.

In other action, the senate approved the appointments of faculty members to senate and University committees.

The approval of the personnel came after extensive discussion of the fact that the senators knew very few of the people being appointed.

The committee nominees presented to the senate were picked by the senate's Committee on Committees from faculty members who had volunteered.

A motion to make it a standing rule that a faculty member can not serve on more than one committee was defeated.

A motion to delay the approval of nominees was defeated. The motion was made to delay approval so the senate could consider the applicants. Although the motion was defeated, the senate made clear that it wants the senate to have the names of nominees in advance the next time committee appointments come before it.

The senate also elected Willim E. Connor, professor of internal medicine, as chairman of Faculty Senate for next

## Student Senate Passes Budget

By DON NICHOLS  
The Student Senate moved into executive session to alter and approve a budget Tuesday night after bitter arguments over appropriations to student organizations threatened to stymie discussion on the matter.

Because the appropriations were approved during the executive session, the breakdown of the appropriations was not immediately available to the press.

Every year the senate allocates funds from student fees to student organizations whose programs are underwritten by senate funds.

Over \$50,000 in appropriations was requested of the senate by student groups,

but the senate has only \$28,000 available to distribute among the organizations, according to Dean Stoline, A2, Norwalk, Action Party senator at large, who is chairman of the senate Budget Committee.

"We aren't going to give student organizations money just so they can use it," Stoline said. He added that his committee accented "income-generating enterprises" over other fund requests.

Stoline explained "income-generating enterprises" as projects which Student Body Pres. Jim Sutton emphasized during his recent campaign for the presidency.

Sutton said that a senate published photo directory (herd book) would generate enough income, hopefully, to finance student groups which were low on the budgeting committee's priority list.

Included in Sutton's "income-generating" projects are pinball machines which would be located in dormitories and fraternity houses. The revenue from the machines would go to the senate.

Clark Reid, A1, Hamburg, Action Party liberal arts senator, asked if the entire budget was based upon income the senate had not received.

Stoline explained that the committee had appropriated the funds at its disposal to finance student organizations for first semester next year. If Sutton's projects pay off, he said, organizations will be funded from those revenues for the following semester.

"Then if kids don't play the pinball machines this budget is worthless," Reid said.

Stoline said Reid was "partially correct."

Hank Fier, B4, Springfield, Ill., a former chairman of the budgeting committee, objected to the way the committee had, "at the spur of the moment, cut away funding to student organizations without notifying the groups."

Fier was especially critical of the committee's funding recommendations for Associated Women Students (AWS).

AWS requested \$2,719.14 to continue its programming. The budgeting committee recommended a \$223 allocation for the group.

Fier criticized the committee's priority system, saying the idea of priorities was a good one, but charged the senate had not followed its priorities.

"The way your budget works," Fier said, "top priority groups should get more money. However, groups with a low priority received 80 per cent of their funding requests, but high priority groups got only 30 per cent of their requests."

Fier pointed out that the Council on International Relations and United Nations Affairs (CIRUNA) and Freshman Orientation were rated as low priority groups by the committee.

Yet CIRUNA received \$1,185 after requesting \$2,035. Orientation, Fier noted, requested \$2,487 and received \$2,002.

"Is this your idea of following priorities?" Fier questioned.

Jim Robbins, A4, Glenview, Ill., president of the Student Activities Board, was especially critical of the committee's appropriations to the board.

"We requested \$876 for next year," Robbins said. "You're recommending we get only \$465. The only reason you gave for cutting our request was that you don't see the need for a student organizations handbook and a secretary for the board. The cost of those two items doesn't come anywhere near your cuts in our budget," he said.

"Earlier this semester, activities board gave the senate \$4,000 to be used for financing student organizations," Robbins said. "What happened to the money? If you used the money for the right purpose, you wouldn't have all these groups without sufficient funds for next year."

The budgeting committee did not allocate funds to seven organizations. The groups are: the Home Economics Association, Forensic Association, the Iowa Society of International and Comparative Law, the University Karate Club, the Soccer Club, the Student Leadership Program and the Women's Recreation Association.

## Pulitzer Poet Reads

Gwendolyn Brooks, the Pulitzer Prize-winning poetess, presented a reading of her works in Old Capitol before an overflow crowd of 300 Tuesday night. In conjunction with the reading, the formation of a Gwendolyn Brooks Scholarship Fund was announced by the Afro-American Student Association, which also presented awards to two black student writers at the reading.

Recipients of the \$150 awards were Deanna J. Harris, A4, Tulsa, Okla., and James A. McPherson, G, Cambridge.

## Council OKs Plan For Improvement Of Sewer System

By TERRY LANE  
The City Council passed a resolution approving plans, specifications and form of contract for the 1969 sanitary sewer improvements Tuesday night.

The council also approved a resolution for bid openings for the sewer project. Bids will be opened at 2 p.m. May 29. A report to the council on the bids will be given June 3.

In other business, City Atty. Jay Honohan said the University faculty Triangle Club was considering relinquishing its liquor license and keeping only its beer permit. He said the action was considered at a Triangle Club meeting being held Tuesday night.

City Manager Frank Smiley plans to go ahead with design work on five projects in the street improvement program. He said a priority schedule for the projects would be set after the design work is completed. A public hearing would be required before the council gives approval of the projects.

The projects and their estimated costs are:

- Widening Burlington Street to four lanes from Gilbert to Summit Streets, \$227,000.

- Widening the Maiden Lane underpass at the Rock Island Lines tracks to four lanes and pave four-lane approaches from Gilbert Street to Kirkwood Avenue, \$532,000.

- Making block-long sections of Clinton and Dubuque streets south of Benton one-way to ease traffic flow from the Benton Street bridge to Kirkwood Avenue, \$217,4200. Clinton would be southbound and Dubuque northbound.

- Repaving and doing curve work on Keokuk Street to serve as a connection with Highway 6 Bypass, \$70,000.

- Construction of a new four-lane Dodge Street bridge over the Rock Island tracks and widening approaches to four lane from Kirkwood Ave. and Bowery St., \$542,000.

# Reparation and the pew

By DICK GREGORY

An old peace and freedom song speaks of laying one's sword and shield "Down By the Riverside." On Sunday morning, May 4, James Forman, representing the National Black Economic Development Conference, laid down a Freedom Manifesto by the altar of historic Riverside Church in New York City. His Black Manifesto is directed to all the white churches and synagogues of this nation, and it is a direct challenge to the religious establishment.

The Black Manifesto was first presented before a national conference held recently in Detroit, sponsored by the Interreligious Foundation for Community Organization (IFCO), an ecumenical body designed to channel religious, foundation and private funds to worthy community organization efforts.

Public reaction to Forman's invasion of the Riverside worship service seems to fall heavily on the side of the sanctity of public worship and the unholy audacity of disrupting such gatherings.

It is not as though James Forman had not tried white America's popular "law and order" route. He had asked Riverside's pastor, the Rev. Ernest Campbell, for permission to read his Manifesto during the worship hour. Permission was denied, the reason given that May 4 was Communion Sunday.

Still trying to avoid "Crime in the pews" Forman asked when he could have Sunday morning time. Permission was still withheld, so Forman decided to follow the historical precedent of Amos, Jesus and a few others, and speak the truth regardless of propriety.

Riverside Church obtained a court order to restrain Forman's future disruption of worship services. New York's Mayor John Lindsay offered police protection and the full support of his city's legal system for any churches requesting it. And the issue of religious tranquility seems to have obscured the force and justice of the Manifesto demands.

In summary, the Manifesto of the National Black Economic Development Conference is demanding \$500 million in reparation for the black community from the white churches and synagogues to be used for:

1. The establishment of a Southern land bank to help blacks who have been forced to leave their land because of racist pressure. A sum of \$200 million is designated for this program.
2. The establishment of four major publishing and printing industries in the United States to be funded with \$10 million each.
3. The establishment of four of the "most advanced scientific" audio-visual networks. Each TV network will require a funding of \$10 million.

4. A research skills center which will provide research on the problems of black people (\$30 million).

5. A training center for the teaching of all skills needed in communication (\$10 million).

6. Assistance for the National Welfare Rights Organization (\$10 million).

7. The establishment of a National Black Labor Strike and Defense Fund (\$20 million).

8. The establishment of the International Black Appeal, designed to produce more capital for creating cooperative businesses in the United States and in Africa (\$20 million).

9. The establishment of a Black University, located in the South. (\$130 million).

How the churches and synagogues will respond to the demand for financial reparation to black people remains to be seen. I understand some Roman Catholics have offered modest reparation since the recent Vatican reevaluation of the status of saints and are offering to send 2,000,000 used St. Christopher medals to Harlem.

But certainly the Manifesto is correct in zeroing in on the religious establishment to try to create some correlation between words and rhetoric. Says the Manifesto: "We call upon all white Christians and Jews to practice patience, tolerance, understanding and non-violence as they have encouraged, advised and demanded that we as black people should do throughout our entire enforced slavery in the United States.

Their faith and belief in the Cross and the words of the prophets will certainly be put to the test as we seek legitimate and extremely modest reparation for our role in developing the industrial base of the Western world through our slave labor."

And the church's role as a corporate interest in our capitalistic system, as well as an agent of colonization, cannot be denied. I remember as a youth in church marveling at the power of the Word. When the white missionaries went to Africa, they had the Bible and the black folks had the land.

When they left, black folks had the Bible and the missionaries had the land. I wondered even then if I could go to General Motors with a Bible under my arm and effect such a transaction.

Morally, financially and practically speaking, the Manifesto reparation demand is modest indeed. James Forman has said that he is only asking for the death price of 1,000 Vietcong, since it takes \$500,000 in military expenditure for every Vietcong killed. And the white churches and synagogues have yet to say a loud, unified "no" to that spending. Perhaps they will even unite in a resounding "yes" to reparation payment.

# The new community

Jim Sutton

Pres. Howard R. Bowen has said an adequate organization and structure for campus governance has not yet been found. After meeting the faculty members on his committee to study the budget, I reckon he was right.

Two of the four faculty representatives on this committee are also members of the Faculty Committee for the Selection of Central Administrators. In other words, half of the faculty on the committee to review Dean Boyd's budget are the men who selected him president.

In addition, three of the four faculty members on the committee are members of the Faculty Council. It was the Faculty Council which elected faculty members to the budget committee. In other words, the Faculty Council appointed itself to the budget committee. There is some question to the propriety of all this.

Nevertheless, Bowen refused to consider the question of the propriety of the presence of these faculty members on the budget committee. Also, he refused to consider the criticism that the faculty representatives represented only one faculty point of view, a view which was indistinguishable from the Administration's view.

By his actions, Bowen not only refused to question the faculty's credentials, but he judged their credentials above criticism. And he excluded democratically-elected students from the meeting.

The significance of the incident is that the problem with governance is Bowen's notion of the chain of command.

Bowen believes he has ultimate authority over all the other scholars in the community. He also believes he has final authority over every area of the University. If he does not like a committee's decision, he may ignore it or reverse it. He may even create another committee if the committee irks him.

This is what he in fact did when he created a Presidential library committee to supersede a Presidential library com-

mittee. Bowen believes that he has the authority even to overrule the faculty or student body meeting in convocation or referendum.

Our democratic tradition has never condoned giving one man ultimate authority over the daily lives of other men. We say we believe that all men are equal under the law. But we do not say, as Bowen does, that one man is the law. One man does not make a University.

President Bowen believes he has total authority because he is appointed by the Regents who are appointed by the Legislature who are elected by the people who have ultimate authority. But there is some question that an appointment fourth removed from the people is democratic or just merely bureaucratic.

Or why should our society tolerate a system of governance in the university which is authoritarian and autocratic in conception and operation?

One faculty member at our university has said that there is such a thing as too much democracy, by which he means the only workable possibility is the corporate body. He has also said that universities were never meant to be democratic, by which he means things could not be otherwise because they have never yet been better than they are now.

Such arguments are merely attempts to preserve the privileges of a few at the expense of the interest of the majority.

It is reported that one of the few departments which has extensive funds for faculty recruiting next year is represented by the department's chairman on Bowen's budget committee. Is this faculty member serving the interest of the entire community or merely protecting the narrow interest of his own department and his own career?

The present mode of governance encourages such selfishness by building it into the system and by rewarding it. The present mode of governance protects the interest of the few at the expense of the many. And this is the failure of Bowenism.

# From the people

## DI 'heads' roll . . .

To the Editor:  
 Your recent use of "humorous" headlines i.e. "Tuna Boat Hooked" on fairly serious, important stories reflects the quality and present reputation of The Daily Iowan.

I see nothing funny about Peru seizing a U.S. fishing boat and would hope your genius minds would limit themselves to headlines on stories of a truly humorous content i.e. "Truck Bill Stalled."

In this same light, however, it is blatant editorializing on your part which has no place on the front page. The least you can do for your readers is to present a clear concise report of the facts, even though the DI more than not is read for Rostoker's corruption of the movie industry and the clear editorializing present in news stories.

# ... On the edit page

To the Editor:  
 Hurray! — Congratulations!  
 At long last there is something worth reading on the editorial page. Yea verily, I think I even perceive some articles that give evidence that someone is finally putting some thought and style into editorials and articles. After a long drought the Sies piece — how irreverent,

how sacreligious — how refreshing!  
 No more the daily doings of Tillie the Toiler or doting to SDS or the BAU as an official mouthpiece — Ye gods — foresooth, perchance a real newspaper for a change.

# Class in motion

To the Editor:  
 We, the members of Rhetoric 10.2, 201 announce that we held our Wednesday, May 14 class meeting in the elevator of the Union. This was decided by a democratic, non-violent election.

One member of the class was selected, also through a democratic, non-violent vote, to alternately push the top and bottom buttons throughout the hour, keeping our class in constant motion.

We did this to (1) purge our acute sense of frustration in not being able to really find out who/what is the cause of the near-doubling of the tuition, and (2) to symbolize the Iowa Legislature which,

with every step forward, seems to take just as big a step backward.

# Reader questions media priorities

To the Editor:  
 I have a question which no one seems to be able to answer. My question is this: Why is it that whenever something wrong or destructive happens it gets excellent news coverage, while an event that is good or helps someone barely gets mentioned, even though it may be of far greater significance.

Why is it that 500 students peacefully protesting in Des Moines against a tuition hike are outweighed by one student sitting on a flag?

Why is it that 25 students breaking into Pres. Howard Bowen's office receive more publicity than 1,500 people on a "hunger hike" to raise funds for the starving masses of the world?

Is the acknowledgement of racial strife, of civil unrest, of lawless disorder what makes this country so great? Or

is it the uncountable millions who go about their own business or doing something to help others and are never heard of?

The old joke about newspapers being black and white and red all over is not a joke any more. And it does not include just the newspapers, it includes the whole news media and even the people of the nation.

How about showing the people that are trying to help, that are doing all they can to straighten out these problems instead of showing only the problems.

What do you, the people, say?  
 Roger D. Harris, Al  
 E012 Hillcrest

# Letters wanted

To the Editor:  
 I honestly and respectfully beg you to please publish my name and address in your newspaper. As a member of the American Library, I read your newspaper in the library a couple of weeks ago.

After much reading I appreciate the contents therein. I have been eager to get a pen pal in the U.S. but have been unable to do so. I seize this opportunity by writing to you to please publish my letter.

I am 18 years of age with black hair and am five feet four inches tall. My hobbies are collecting stamps, coins, postcards, fishing, playing football, swimming, writing letters and reading magazines from abroad.

I would welcome all letters from either sex, old or young, if they are willing to write to me and include a photograph of themselves.

**LETTERS POLICY**  
 Letters to the editor and all other types of contributions to The Daily Iowan are encouraged. All contributions should be signed by the writer, typed with triple spacing. Letters should be no longer than 300 words. Shorter contributions are more likely to be used. The Daily Iowan reserves the right to reject or edit any contribution. Names will be withheld for valid reasons if requested.

# Student round-up

**WARSAW, Poland** — The Communist organ "Trybuna Ludu" announced that this year the students of the first three years of advanced courses (around 40,000) must also carry out a period of manual labour, of from two to four months, with the principal aim of acquainting themselves with the "reality of working and peasant life."

**ADDIS ABABA, Ethiopia** — One student killed and 500 arrested in clashes between police and Ethiopian university students who for more than a month had been asking for reforms in teaching methods and, as a sign of protest, had been boycotting courses.

**JOHANNESBURG, South Africa** — On the tenth anniversary of the passing of a law forbidding admission to the university of black students, the English-speaking South African students announced a demonstration of protest that was to last for eight days.

**RABAT, Morocco** — On the occasion of re-opening after the holidays, King Hassan II proclaimed an amnesty for the Moroccan students imprisoned during the strikes of last month.

**TOKYO, Japan** — After the clashes of the previous days which took place at the University of Okamaaya, between Hiroshima and Osaka, 300 Maoist students attempted to reoccupy the Nihon University at Tokyo: the result of clashes with the police was 67 wounded among police and students and 127 arrested.

**FLORENCE, Italy** — In response to the appeal made by an organization of moderate students, the President of the Italian Republic, Saragat, sent a return message in which he declared his gratitude for the fact that the problems of the university had been explained to him in "democratic language."

**MEXICO CITY** — The members of the committee of coordination for the Independent University and for the Polytechnic met to reaffirm their will to proceed with "the fight for the defense of education and for a reform in educa-

tion that shall truly respond to the needs of the country."

**COPENHAGEN, Denmark** — Danish students protested against the decision to exempt from taxation the 150,000 crowns for the Sonning prize which had been awarded to the writer H. Laxness, Nobel prize 1955, who is of fairly progressive ideas. The students maintain that the funds for the prize derive from property speculation, an abuse which often prevents students from being able to find lodgings.

**MILAN, Italy** — For the third consecutive day Professor Trimarchi, lecturer in private law at the State university, was prevented from holding his class; the extremist students are demanding his resignation, if not his expulsion, while members of the Student Confederation support him — also physically.

**PARIS, France** — Daniel Cohn-Bendit, expelled from France last year after the events of that May in Paris, attempted, in vain, to re-enter the country. At the airport of Orly he was detained while leaving an aircraft that had arrived from Rome and he was at once put on board another jet that was about to depart for Munich.

**PRAGUE, Czechoslovakia** — Around 500 students occupied the faculty of Philosophy of the Carlo University to protest against the removal of Dubeck from his post as secretary of the Party. Other faculties, also in different cities of Czechoslovakia, were occupied by the students.

**LONDON, England** — The new member of Parliament, Bernadette Devlin, made her maiden speech in the Commons with rousing words on the conditions of Catholics in Northern Ireland — a matter which has recently been brought forcibly to public attention. The young student, wearing a dress bought shortly before in a department store, won the attention and the appreciation even of her enemies.

# Paper Says MDA 'Floods' Dubuque

By LES CARROLL  
Use of the controversial new drug MDA has reached sizeable proportions in at least one Iowa city.

The Dubuque Telegraph-Herald Sunday reported uncovering widespread use of MDA among the city's high schoolers.

Information received by the Telegraph-Herald indicated that MDA was first made in the Midwest in early March in a makeshift laboratory near the University of Wisconsin at Madison. By mid-April, the drug had "flooded Dubuque" and was reported to have reached campuses throughout Iowa and as far away as the East and West coasts, the paper reported.

Stories of rapidly increasing use of MDA were brought to a special drug meeting called by the Dubuque Social Welfare Department this month. Concurring reports filed by city and county welfare staff members convinced police, education, and social welfare officials present that they were facing increased MDA usage at all levels.

Concern over MDA usage at the University came to the forefront Tuesday when The Daily Iowan published a report of blindness a student claimed occurred as an after-effect produced by the drug.

MDA first came to official notice in the Midwest on the evening of April 13 when federal narcotics agents and Madison police raided a homemade laboratory operated by two University of Wisconsin students.

The agents confiscated 5 pounds of what was eventually classified as "a new hallucinogenic drug known as MDA that is not controlled by federal or state drug laws." The raid also resulted in the destruction of a large quantity of other chemicals, which were said to be capable of producing \$800,000 worth of MDA (based on an average return of \$4.50 per sale).

Following the raid, the head of the Madison narcotics squad told reporters that he had received word that a lab operation was manufacturing a hallucinogen "someplace close to campus." Special agents then traced imports of chemicals by private cars from Chicago and by public express routes from the East Coast to the Madison address.

The Telegraph-Herald story asserted that MDA purchased in powder form represents an intermediate stage in the drug's production. According to the Herald, liquid MDA is the end product of the manufacturing process. Iowa City MDA users have stated that

both powdered and liquid forms of the drug are sold here.

Liquid MDA was supposedly suffered by a University student last week. Dubuque youths told the Telegraph-Herald that the drug is most often taken in a soft drink or soaked into a cookie or cracker. Recently, a technique involving soaking liquid MDA into an antacid tablet, like "Tums," was developed. This technique supposedly relieves the nauseous effects suffered by some MDA users immediately after the drug is taken.

A Wisconsin Crime Laboratory analyst has reported that MDA confiscated in the mid-April Madison raid was a compound of methylene, dimethoxy and amphetamine.

The Wisconsin analyst commented on the possible effects of MDA usage. "As far as we can figure it — without going into a great deal of testing and study — there is no any measurable amount of physical damage done by this combination. Judging from the ingredients involved, and their modifying interaction capabilities, a user should suffer no physical damage."

However, a biochemist of the Cook County (Ill.) Department of Pathology and Toxicology views MDA usage on a broader background: "The question isn't whether this particular concoction is dangerous or not. The real danger is that these guys — these amateurs who come up with the new drug formulas — don't really know what the reaction of any two or more elements will be. I mean they combine methylene and a hallucinogenic, say, and then they feed it to some kids and if it doesn't kill them, he's got a good thing going."

# Costs, Space At 2 Schools Worry Board

By SHARON WATKINS  
Problems with new construction and remodeling of present facilities were discussed by the Community Board of Education Tuesday night.

Presentation and discussion of the budget proposal for the coming fiscal year were delayed as the board discussed problems with the new Grissel Place Elementary School and the proposed addition to Penn Elementary School.

Architect Harvey W. Henry told the board that since the first space and cost estimates were arrived at, 3,600 more square feet of space had been worked into the architectural plan. He said this would raise the cost of the building from \$350,000 to \$400,000.

Board member Russell M. Ross suggested that Henry revise his plan to condense the number of square feet. The board directed Henry to study his plan and cut out as much space as would be feasible, without harming the overall plan. He said he would present the new figures at next week's meeting.

Bids for the addition to Penn Elementary School were not accepted at the meeting. According to architect Roland Weyner, all the mechanical bids were too high. He cited the current sheet metal workers' strike as a major reason for this.

Weyner advised the board to accept the other contracts, which include general and electrical work and carpeting. He suggested that the board call for rebidding on the mechanical contract.

# Killing of Parking Proposal Means 'More of the Same'

By DAVE COLLOGAN  
A DI News Analysis

When Pres. Howard R. Bowen vetoed a proposed parking plan Monday, he canceled out what had been seen by some observers as a new approach to campus parking problems. In effect, this means "more of the same" for University motorists.

"More of the same" implies continued traffic congestion on the central campus, a tough time finding a parking place and, frequently, a long walk to class after the car is parked. Bowen said, in a letter to the chairman of the Parking and Security Committee, Edward B. Buchanan, associate professor of chemistry, that he felt the proposed plan was a good idea and hoped it would serve as a model for future committees.

However, he said that for the 1969-1970 school year it would not be possible to put the plan into effect. He cited modest raises for faculty and staff and tuition increases for students as the reason he did not wish to increase parking fees.

Committee members were divided in their reactions Tuesday to the rejection. Buchanan said, "I think I've been expecting it."

He said that he was aware of the arguments that Bowen advanced for not increasing parking fees and he tended to agree with him.

Committee members thought it was "their job to bring out a recommendation they thought was best and that would serve the needs of the parking system," Buchanan said.

He said he thought that he had done this but that Bowen had the responsibility to look at the whole University situation, not just parking.

John J. O'Mara, associate professor of engineering and a committee member, said he was surprised by the fact that no changes at all were being undertaken for next year.

James French, B3, Davenport, a student member of the committee, said Bowen's decision "wasn't unexpected."

He said that, in view of Bowen's letter to University personnel to hold the line on spending and expansion, he

hadn't been optimistic about the proposal's chances. French said that he thought the plan will be resurrected, "because parking has been neglected for so long someone will have to act on it."

Jack B. White, administrative assistant in the Examination Service, was more outspoken in his criticism. "I was in hopes that we could make an improvement in the parking system," White said. "We either had or we didn't have a bad system when we started on this committee. I was of the impression it was bad. This (the rejection) doesn't make progress," he concluded.

Gary Martin, A2, Iowa City, also a committee member, was of the impression that the committee wasted its time.

"We spent all year working on this. In a sense we had a mandate from the members of the University community to provide a peripheral lot shuttle bus system. Our two public hearings proved that this was what the people wanted. I think that the recommendation will be put in the files and allowed to get dusty," Martin said.

The parking plan offered by the committee had involved opening up the present storage lots to all faculty, staff and students to allow a greater number of people to take advantage of these areas.

At the present time, the principal users of storage lots are dormitory residents who leave their cars in the lots for a week or more at a time. The storage lots are located on Harrison Street near the Physical Plant, on Myrtle Avenue south of Rienow Hall and on South Riverside Drive near the Hydraulics Plant.

Besides the opening up of these lots to more users, the committee recommended that a shuttle bus system be provided which would connect the peripheral lots with the central campus. The bus route would also have passed near the dormitories, the fraternity houses, the Art Building and the Law Center.

The plan called for increases in faculty and staff fees from the present \$60 a year to \$72 a

year. Student meter rates in student reserved lots would have gone from 5 cents an hour to 10 cents an hour.

Persons who wished to park in the storage lots would have paid \$30 a year for this privilege. Included in the \$30 parking fee was the opportunity to ride the shuttle bus to central campus. Those who bought storage lot stickers would have been given fee bus passes and others who wanted to ride the bus would have had to pay ten cents a ride.

The plan was a compromise among members of the committee. Some favored raising the fees higher and opening a 400-space lot near the Iowa City airport which would have been connected to the shuttle bus system.

Others on the committee favored doing nothing and leaving everything as it is at present. The outcome of the committee's discussions was a recommendation for a limited increase in fees and a limited shuttle bus system.

In effect, Bowen's decision to reject the plan will stop any major improvement of the parking system for the next year. Fees will not get higher for the next year, nor will they get lower. Services will not improve; hopefully they will not worsen.

More students will be enrolling in the fall, and with them will come more cars. But there will be no additional parking places to accommodate them.

## Lose 10 Lbs. In 10 Days On New Grapefruit Diet

NEW YORK (Special) — This is the revolutionary new grapefruit diet that everyone is suddenly talking about. Literally thousands upon thousands of copies have been passed from hand to hand in factories, plants and offices throughout the U.S. and Canada. Word of its success has spread like wildfire, because this is the one diet that really seems to work for most overweight people. A well known Toronto columnist recently praised it to the skies. He reported losing 20 pounds quickly and easily long after he despaired of ever getting down to his wartime weight of 165 pounds. All this without cutting out the occasional beer or rye. If it is followed exactly the average overweight person should lose 10 pounds in 10 days. There will be no weight loss in the first four days. But you will suddenly drop 5 pounds on the 5th day. Thereafter you will lose one pound a day until the 10th day. Then you will lose 1½ pounds every two days until you get down to your proper weight. Best of all there should be no hunger pangs. Now revised and enlarged, this new diet plan lets you stuff yourself with foods that were formerly "forbidden." Such as big steaks trimmed with fat, Southern fried chicken, rich gravies, mayonnaise, lobsters swimming in butter, bacon, fats, sausages and scrambled eggs. You can eat until you are full, until you cannot possibly eat any more. And still you should lose 10 pounds in the first ten days, plus 1½ pounds every two days thereafter until your weight is down to normal. The secret behind this new "Quick weight loss" is not generally known. Fat, it has been theorized, does not form fat. Perhaps fat fights fat. And the grapefruit juice in this new diet might act as a catalyst (the "trigger") to start the fat burning process. You stuff yourself on the permitted foods listed in the diet plan, and still lose unsightly fat and excess body fluids. When the fat and bloat are gone you will cease to lose weight, and your weight will remain controlled. A copy of this new and startlingly successful diet plan can be obtained by sending \$2 to The

KANE ASSOCIATES  
P.O. Box 646  
Lincoln, Nebr.  
68501

Unconditional money-back guarantee. If after trying the diet plan you have not lost 7 pounds in the first 7 days, another 6 pounds in the next 7 days, and 1½ pounds every two days thereafter, simply return the diet plan and your \$2 will be refunded promptly, and without argument. Tear out this message as a reminder. Decide now to regain the trim attractive figure of your youth, while still enjoying hearty breakfasts, lunches and dinners. Order now before others snap up the limited supply.

# Allies' 10-Day Struggle Wins 'Hamburger Hill'

DONG AP BIA, Vietnam — U.S. paratroopers and South Vietnamese drove the North Vietnamese from Ap Bia Mountain Tuesday and pursued the enemy toward Laos, little more than a mile away.

Fortress-like Dong Ap Bia (dong means mountain) stands 3,000 feet high overlooking the A Shau Valley to the east, and it had withstood bombing, artillery barrages and 10 infantry assaults since May 10. U.S. troops have nicknamed the mountain "Hamburger Hill."

But it succumbed on the 11th attack as 1,000 troopers of the U.S. 101st Airborne Division and 400 South Vietnamese swarmed up the ridgelines to the summit, delayed only by an enemy rearguard fighting from the tunnels and bunkers honeycombing the mountain.

"It was a great victory by a

gutter bunch of guys," said Maj. Gen. Melvin Zais, commander of the 101st Airborne Division. "Real victories don't come easily."

U.S. officers said 426 North Vietnamese had been killed in the battle for the mountain. Many bodies were reported found in deep bunkers partly crushed by massive air strikes. It is believed the mountain was headquarters for the 29th North Vietnamese regiment.

In taking the mountain, 43 Americans were killed and 290 were wounded, according to U.S. reports. The final assault cost the Americans one dead and 45 wounded, reports added. The North Vietnamese, estimated at 900 men, had pulled out most of their forces overnight, leaving a rearguard of about 250.

# Blind Student Wins Honors

A graduate student in psychology at the University has been honored at the White House by President Nixon.

James Winford Selby, G. Metairie, La., received two \$500 1969 Scholastic Achievement Awards of Recording for the Blind, Inc. Monday. The awards are conferred annually in recognition of outstanding academic performance.

Selby, blinded by glaucoma when he was 10 years old, graduated magna cum laude from

Tulane University in 1968. He is a member of Psi Chi, national psychology honorary, and Phi Beta Kappa.

He has also received a Dressler Memorial Scholarship, the Aaron Hartman Award and a Danforth Foundation Fellowship.

He is currently working on his Ph.D. in psychology at the University.

# Funds for Oakdale 'Too Low'

By GARY BRITSON

State Sen. Minnette Doderer (D-Iowa City) said Tuesday that, in view of low appropriations for the Oakdale Maximum Security Hospital, "the pay for mental health workers will be so low it's laughable."

Mrs. Doderer, who cast the only dissenting vote on an \$80.4-million appropriations bill for the State Department of Social Services Monday, said the \$1.3 million appropriated for the Oakdale hospital means the hospital will have trouble getting workers.

"The pay scale is just too low," she said in a telephone interview from Des Moines.

She said she voted as she did to protest low appropriations to Oakdale.

"Oakdale will be competing with other hospitals in Johnson County for personnel," Mrs. Doderer said. "And since the Oakdale pay scales will be \$100 a month less than at University Hospital, it's bound to present problems with finding enough people to work."

## The Daily Iowan

Published by Student Publications, Inc., Communications Center, Iowa City, Iowa, daily except Sundays, Mondays, legal holidays and the day after legal holidays. Entered as second class matter at the post office at Iowa City under the Act of Congress of March 2, 1879.

The Daily Iowan is written and edited by students of the University of Iowa. Opinions expressed in the editorial columns of the paper are those of the writers.

The Associated Press is entitled to the exclusive use for republication all local as well as all AP news and dispatches.

## STATE DEPARTMENT GROUP

30:180, 3 hrs.  
prerequisite: sophomore status

This is a new course that will be offered for the first time fall semester, and its purpose is a detailed study of U.S. Foreign Policy. The course has no tests or lectures, but consists of individual and group study. People in the program will develop new policies and programs to replace or supplement existing U.S. Foreign Policy, and they will clearly indicate why it is in the national interest of the U.S. to follow these policy proposals. The results of the study will be correlated into a student proposed foreign policy and the results published. People interested in a position in the State Department Group should come to the Lucas Dodge Room of the Union tonight at 6:30.

# 'Laughead' Means Photos Across Nation's Gridirons

By KEITH GILLET  
To a football player, photo day is one of those days that you just have to learn to like. If you're the kind that likes to pose with a football tucked under an arm while a dozen guys with cameras click away, it's great. If you're the kind that can't stand still for a minute, it's pure torture, especially with heavy football gear on under a blazing sun — which was the case here last Friday afternoon.

Prior to last Friday afternoon, this was what a typical picture-taking session was like to an Iowa football player. At least that's what it was like before Jim Laughead rolled into town.

Who is Jim Laughead? The name certainly does not ring a bell with most sports fans, but it should. It is Laughead's football photos that viewers frequently see flashed on TV screens before a televised college or pro football game. His photos are also used extensively in newspapers and magazines.

Laughead is recognized as the tops in his field. Friday's photo session with the Hawkeye foot-

ball squad was his 61st assignment of the year. He takes 48 college teams a year, along with nine teams in the NFL and four in the AFL.

Laughead's style is unorthodox. Most photographers complain that they cannot get a snapping out of players when they snap pictures. This is where Laughead distinguishes himself from the other sports photographers.

Laughead puts fire and determination into his work. He realizes that the only way to get the desired action pose of a charging lineman is to go out and show the lineman exactly what he wants done.

"Alright brother Windauer, get your tail down. Dig in my boy! Hucking and bucking now. Now you've got it! Now let's reverse it. Hucking and bucking Windauer! Beautiful Windauer, you've had it."

And so another football face is recorded on film along with the countless others that will be captured, processed and sent back later.

If a player is slow to figure out what it is that Laughead wants, Laughead charges out and goes through all the out-

tions of a fleet back or lineman, stressing footwork and body stance.

Another thing that distinguishes Laughead from the rest of the magazine and newspaper photographers is his dress. Laughead had on his usual work outfit Friday, a pair of jeans with suspenders, a red Western vest, a Western-style bow tie, and cleat-soled shoes.

To top it off, he sports a floppy hat with more holes than you could stick your fingers through. This hat is special, though, since it is the first hat that Laughead ever owned. It is insured for \$10,000 and he is never without it on an assignment.

"I'm known as the Mad Hatter from Texas. (He hails from Dallas) It's the only hat I've ever known."

He is not sensitive to comments about his style and is quick to flash back with a reply.

"Son, this is not an act. I do it out of compulsion and dedication. The first player I shot was Red Granger of Illinois right before he turned pro in 1925, so I guess that dates me

a little bit."

Laughead said that he was a freshman at Ohio State at the time.

"I wanted to be an athlete but I wasn't talented enough. The only way I could get into the locker room was to offer to take their picture."

Perhaps the biggest blow to his career aspirations occurred when his photo instructor at Ohio State gave him a "D" in photography.

"The photography instructor wanted to give me a "D." I told him I was an "A" and "B" student. He explained that all I ever shot was coeds and athletes. In those days you took architecture and scenery."

Since that time Laughead has photographed nearly all of the football greats from Sammy Baugh to Johnny Unitas.

Laughead completed assignments at Notre Dame and Iowa State and is scheduled to finish up on the West Coast this week.

Certainly the Iowa Sports Information Service is looking forward to some fine publicity pictures to go along with what could be a banner year for the Hawkeyes on the gridiron.

Pro Photographer at Work—

Jim Laughead, veteran professional photographer from Dallas, shows exactly how he wants his pictures posed during a photo day for the Iowa football players Friday. This was Laughead's first photo assignment at Iowa.

# Hawks Topple Penn Twice

The Iowa baseball team climbed over the 500 mark for the first time this season with a doubleheader sweep over William Penn Tuesday. The Hawkeyes won the initial game, 3-1, and came back in the nightcap to take a 4-0 victory. The two wins boosted Iowa's record to 11-20. The Hawkeyes have now won eight of their last nine games.

The Hawks started the scoring in the fourth inning of the first game. Gary Breshears stroked a lead-off double to open the inning and was driven in by Bob Cataldo's single.

Iowa produced its last two runs in the fifth inning. Ken Ray led off the inning with a single, was sacrificed to second by Ben Banta, and scored on a single

by Dave Krull. Krull crossed the plate on a fielder's choice by Andy (Stoney) Jackson.

The Statesmen scored their only run in the sixth as Jim Chambers doubled and was driven home by Tyrone Lewis' single.

Breshears and Ray collected two hits apiece to lead the Hawkeye attack in the first game.

Banta upped his pitching record to 3-1 with the victory. The Hawkeye right-hander allowed five hits, struck out three and didn't allow a base on balls in the contest.

In the second game, Iowa jumped on Penn pitcher Terry Moss for a run in the first inning. Krull reached first base on an error, stole second, and scored on a single by Cataldo two outs later.

The Hawks scored another run in the fourth on four straight hits. Cataldo, Mike Wymore and Bob Rushe all collected singles to load the bases. Catcher Dave Alamsah kept the string going by pounding a long drive to deep left field which Cataldo scored on.

Iowa added two insurance runs in the fifth. Krull bunted his way to first, reached second on an error, stole third, and scored on Jackson's sacrifice fly. Breshears scored the last run of the game as he crossed the plate on Wymore's double after reaching first on a single.

Cataldo and Wymore provided the big bats for the Hawks in the second contest with two hits each.

Al Schuette and Mike Klein combined for a fourth shutout.

Schuette allowed two of the hits, walked four and fanned four Statesmen in his five-inning stint. Klein also allowed two hits and struck out one in a two-inning relief role.

Krull extended his hitting streak to 13 games in the two games. Cataldo collected two runs, batted in for the day to bring his total to 29 for the year. Wymore garnered another double, his ninth of the year.

Breshears collected three hits, making it 43 for the year. The second baseman's average rose to .361 for the season.

The Hawkeyes close out their season this weekend with a doubleheader at Michigan State on Friday and another twinbill on Saturday at Michigan.

# 3 Marks Bettered in IM Track

Three league records were set last week in the 1969 intramural track meet last Wednesday, Thursday and Friday. The meet, not an All-University event, saw champions crowned in each of the six intramural leagues.

Lance Veit of Hillcrest's Higbee House turned in a time of :54.1 in the 440 to better the old Hillcrest standard.

Tom Pyper, Delta Upsilon social fraternity, jumped an even six feet in the high jump to break the social fraternity high jump record.

Tom Sedgwick vaulted 11-feet in the pole vault to break the Quadrangle League mark in that event. Sedgwick was competing for Chambers House of Quadrangle.

All three records are league

marks only. No All-University records are kept for the meet.

The six league champions crowned were Briggs of Quadrangle, Phi Epsilon Kappa professional fraternity, Floor 6 of Rienow I, Floor 4 of Rienow II, Higbee of Hillcrest and Delta Upsilon social fraternity.

Briggs captured the Quadrangle crown by compiling 44 points. Chambers was second with 20 1/2 points and Cummins third with 18 1/2.

Phi Epsilon Kappa won the Professional League title with 45 points. Nu Sigma Nu had 24 for second and Alpha Chi Sigma 18 to take third.

Floor 6 of the Rienow I / South Quad League edged Floor 7 for the title, 26-16. Floor 3 finished a close third with 13.

Floor 4 of Rienow II breezed to its league championship. Floor 4 amassed 60 points to outdistance runner-up Floor 7 with 19 points and Floor 11 with 13.

Higbee won the Hillcrest title by totaling 27 points. Thacher was next with 19 and Fenton third with 15.

The Social Fraternity League also had a close meet. Delta Upsilon took the title with 25 1/2 points. Sigma Alpha Epsilon was second with 17 and Alpha

Epsilon Pi third with 12 1/2.

The best performance in each of the eleven events combining all leagues was as follows:

60-yard dash: Kermit Anderson, Delta Upsilon social fraternity and Jamie Nadler, Alpha Epsilon Pi social fraternity, tie, :6.5.

100-yard dash: Ray Cooper, Nu Sigma Nu professional fraternity, :10.2.

440-yard run: Lance Veit, Higbee House of Hillcrest, :54.1.

60-yard high hurdles: Jim Toombs, Higbee House of Hillcrest, :8.6.

120-yard low hurdles: Bill Johnson, Lambda Chi Alpha social fraternity, :13.8.

440-yard relay: Phi Kappa Psi social fraternity (Walter Mendenhall, John Brown, Jim Bowers, Rick Nielson), :47.5.

Shot put: Russ Langton, Phi Epsilon Kappa professional fraternity, 39 feet.

Long jump: Bob Dickket, Floor 4 of Rienow, 20-3 1/2.

Football throw: Jim Monkerud, Tau Kappa Epsilon social fraternity, 175 feet.

High jump: Tom Pyper, Delta Upsilon social fraternity, 6 feet.

Pole vault: Tom Sedgwick, Quadrangle's Chamber House, 11 feet.

# Infernos Gain League Title

The University's soccer club, the Infernos, defeated the Cedar Rapids Comets Sunday, 3-0, to assure the team of no less than a tie for first place in the Upper Mississippi Soccer Alliance.

The triumph marked the Infernos' fifth victory of the season. They were not defeated during the entire season, although tied three times.

The Infernos were paced in victory Sunday by Frank Broh and Luis Vargas. Broh scored the first goal to give the Infernos the lead and Vargas scored the next two to insure the victory.

GYM LOCKERS DUE — Ed O'Brien, manager in the Field House, has asked that all persons with gym lockers in the Field House check these lockers in no later than this evening. Any lockers not checked in by then will have the locks removed and the contents taken out.

# Senate Approves Regents Bonding Bill

DES MOINES (AP)—A bill to give the State Board of Regents authority to finance academic buildings by revenue bonds was resurrected by the Senate and sent to the governor Tuesday. The measure had been killed on a 26 to 25 vote Thursday, but the Senate voted 36 to 19 to reconsider that action and then passed the bill 36 to 21.

The Senate also passed, 32 to 17, a bill appropriating \$150,000 to the Board of Regents to replace student fees pledged against the first revenue bonds it plans to issue. The measure now goes to the House. The Board of Regents had asked the bond authority to

continue building programs at the University of Iowa, Iowa State University and University of Northern Iowa. It had the backing of Gov. Robert Ray. The bill would permit the regents to issue revenue bonds for classroom and laboratory building construction, pledging

student fees to secure them. The regents would ask the legislature to appropriate enough money every two years to pay off the bonds and interest. The final version of the bill lacks a provision permitting the regents to issue bonds for buildings on a branch campus of an existing university. The House struck that provision from the bill after critics charged it would allow the board to start a fourth state higher educational institution. The legislature still would have to approve specific building projects before the regents could issue bonds to build them. A resolution authorizing the regents to issue bonds totaling \$16.1 million for university buildings in the next two years was approved 22-5 by the Senate Appropriations Committee a few hours later. The committee also gave its approval to a 10-year \$93 million program of construction at the University of Iowa, Iowa State University and University of Northern Iowa. The 10-year program must be reviewed at two-year intervals before specific projects included in it may be built. Projects approved by the committee for the next two years include: University of Iowa—library, basic science and dental science buildings, nursing building and power plant boiler.

# Bakers' Appeal Is Rejected

SAN ANTONIO, Tex. (AP)—The United Presbyterian Church refused Tuesday to reopen the case of a local couple suspended from church membership in 1968 in a dispute over a church building program. The dispute centered on a proposal to raze the First Presbyterian Church which the couple, Prof. and Mrs. Joseph E. Baker, opposed in an effort to save the old building. Baker, a professor of English at the University has called the building an "architectural gem."

The 1968 general assembly, at its meeting in Minneapolis, had upheld suspension of the Bakers imposed by the Synod of Iowa. The Southeast Iowa Presbyterian, in a rare action for the modern church, formally excommunicated the couple a few weeks ago. The Bakers had been members of the First Presbyterian Church of Iowa City. The general assembly decision of Tuesday indicated that the highest body in the United Presbyterian system of church courts found no reason to retract their case. "The committee is of the

 ADMISSION — FREE

## Campus Notes

**ANGEL FLIGHT**  
 An Angel Flight pledge meeting will be held at 4:30 p.m. today in the Union Miller Room.

**SAILING CLUB**  
 The Sailing Club will meet at 7 tonight in the Union Illinois Room. Licensing of club boats by the State Conservation Department will be discussed.

**DENTAL LECTURE**  
 Capt. Seymour Hoffman from the Naval Institute of Dental Research at Great Lakes, Ill., will speak on the "Scanning Electron Microscope" at 7 tonight in the Union Grant Wood Room. Cosponsored by the Junior Dental Association and the Naval Dental Unit, the lecture is free and open to the public.

**HAWKEYE**  
 Applications for staff photographers for the 1970 Hawkeye Yearbook are available in 201 Communications Center until Friday.

**WATER SKIING CLUB**  
 The Water Skiing Club will meet at 8 tonight in the Union Minnesota Room.

**YOUNG DEMOCRATS**  
 The Young Democrats will hold its final meeting of the year at 7:30 p.m. Thursday in the Union Michigan Room.

## Michigan Regents Rescind 'Graduated Tuition' Plan

EAST LANSING, Mich. — Michigan State University's controversial graduated tuition plan is dead. The Michigan Board of Regents, reportedly under heavy pressure from the legislature, voted Monday to rescind the plan, which had been in operation for two years. (A similar plan, based on the income of the student's family, is reportedly under study at the University of Iowa and is to be presented to the Iowa Board of Regents by University Pres.

Howard R. Bowen at the board's June meeting.) According to an editor on the Michigan State Daily, the campus newspaper, the action was the result of "legislative blackmail." The legislature threatened to withhold \$550,000 in appropriations unless the regents abolished the graduated tuition, the editor said.

**Former Student Seeks Damages**  
 A former University student filed a \$42,800 damage suit in Johnson County District Court Tuesday. Thomas Boyle of Bennett requested the judgment for damages and injuries which resulted from an auto collision on June 2, 1967.
