The Reservoir: Water Wonderland

Mississippi Bound

The 75,000 gallons that are released each second begin their voyage downstream to the Mississippi River at this sluice, located on the southeast side of the reservoir. This level of runoff is not unusual for spring, when heavy rains and melting snow swell the rivers, but it is highly unusual for middle summer, according to reservoir officials.

From the people

DI movie critic called 'a paradox'

To the Editor:

It only seems fair to balance out the tag team of Rostoker and Winegarten by lending Mr. Steffa a hand. First of all, let me say that Mr. Steffa and I are not old "buddies," nor have we ever met.

Since Mr. Rostoker seems to regard short letters as boorish, I will make mine a rather long one, in the sincere hope that he reads it before bleeding to death.

Frankly, I was surprised that Rostoker possessed affection for "Wild Bunch" because I also found it somewhat enjoyable myself. There were some nice touches in the dialogue and special effects (staging and the like), and the acting was pretty good. Thus, for me, the DI movie critic emerges as a paradox, for this reason:

Some weeks ago, I was dragged by a friend to a Union movie appropriately titled "Contempt." I was made to understand that old Rostoker had gone way out on the limb this time and called it one of the three best films ever made. Well, if the limb didn't break, it certainly cracked in three places and screeched hell out of him. It was remarkably bad, right down there with "Last Year at Marienbad" and some of Malle's footage.

Appearing in the cast were established actors like Brigitte Bardot (who pouts in a number of expressive ways to denote emotion) and Jack Palance (who reads his lines out of a book). The dialogue was wonderful too. Lines like:

"Do you like my feet?"
"Oui."
"My legs?"
"Oui."
"My . . . ?"
"Oui, God yes."

were not uncommon, and all to the tune of imaginative changes in lighting (a favorite of Al's, I believe). First, a solid red frame dimly outlining the characters, then a navy blue one, and so on.

Shortly thereafter, I saw what I thought to be two rather good movies — "The Prime of Miss Jean Brodie" and "The Fixer." Quite naturally, as I expected, Rostoker disliked them.

There's one other thing that does confuse me, Al. I never liked Nick Meyer either. How do you account for that?

People's pad replaces park

BERKELEY, Calif. (CPS) — While the California Regents have won the latest round at People's Park, the people have found a new home.

The Regents have decided the University of California will soon use the land the park occupies for apartments, although before the park had been cleared, the university had no intention of using the property in the near future. There remains controversy over the use of the land, and several regents have expressed a desire to re-vote on the issue.

In the meantime, the street people have found sanctuary in seven empty barracks, formerly Navy housing, which are owned by the Berkeley Unified School District. The district has agreed to lease the barracks to the Telegraph Avenue Summer Project, a community group providing shelter and activities, for only \$1 for the summer.

The barracks, about a mile from People's Park, can accommodate up to 1,000 people in its 600 rooms. The buildings, which have been vacant since March, will be torn down in the fall to make way for a new adult, night school.

Meanwhile, the students and street people involved in the fight over People's Park have opened "the kind of youth hostel that will be an expression of our community — the way People's Park was," according to Frand Bardecke, a leader in the May demonstrations.

The Telegraph Avenue Summer Project will offer workshops at the hostel in such areas as music, ceramics, sewing, photography, languages, and karate. The classes will be co-organized by the International Liberation School, headed by former SDS-founder Tom Hayden. The school will offer classes in political education, first-aid, writing, and self-defense, among others.

Those who moved into the hostel this week have cleaned, painted, and even gardened the grounds. Visitors to Berkeley this summer are welcome to stay at the hostel free. The purpose of the "People's Pad," as it is called, is to be "a creative revolutionary living area for people . . . a place where people can learn to live together, cooperate, and show those who say the youth movement is nihilistic what it's really about," according to Dan Siegel, president of the Berkeley Associated Students.

NEW YORK CITY (CPS) — More than 250 businessmen met secretly last week to attempt to figure out how to block plans by the Students for a Democratic Society to infiltrate the nation's industry this summer.

The meeting, sponsored by the Commerce and Industry Association of New York, featured speeches by an FBI assistant director, New York City Police Commissioner Howard Leary, and a Defense Department representative. The businessmen were warned to be careful in screening students who apply for summer jobs so as not to allow any subversives in.

Among them held without repeat offenders, at least two citizens, anyone who is a juror, police, or jurors, persons "dangerous bank robbery, narcotics, and charged with larceny.

WASHINGTON (CPS) — The Pentagon has announced that America has lost the following number of human beings in the Vietnam War from Jan. 1, 1961 to June 14, 1969: Army, 22,934; Navy, 1,165; Marine Corps, 11,591; Air Force, 688.

That comes out to a total of 36,378 dead Americans, not including the 6,657 deaths attributed to accidents and other non-hostile action causes.

The Ancient Mariner would feel right at home if he decided to visit the Coralville Reservoir, north of Iowa City, this week. The Reservoir rose to more than 70 feet above sea level during the past week (normal height is 680 feet above sea level) and has been steadily and quietly overtaking much of the land ordinarily used by fun-seekers for beaches, picnic grounds and boat docking.

Normally, the reservoir contains about 53,750 acre-feet of water (an acre-foot is one acre of water one foot deep). During the past week it has contained about 360,000 acre-feet of water. Its capacity is 480,000 acre-feet.

The steady increase in the reservoir's size is a result of heavy rains and a large runoff from the area north of the reservoir that drains into the Iowa River. Reservoir officials have opened the reservoir flood gates as much as they can without causing severe flooding south of the reservoir; however, they can only release 75,000 gallons of water a second. Since the reservoir is taking in 127,500 gallons a second, this means that the reservoir itself is increasing in size by 52,500 gallons a second.

Reservoir Manager John Story stands Friday above the spillway, where the water has climbed to within 5½ feet of the spillway top. The record reservoir high is 708.5 feet. When this photo was taken, the reservoir was at 707 feet and is expected to top the record next week. Spillway height is 712 feet. In the picture at left that's not the Mariner's albatross, but it's just about as big, as river fish go. Fishing is rumored to be excellent in the high waters.

Teamsters Strike Continues Concrete Deliveries' Tie-Up

A strike against Iowa City's ready-mix concrete plants by cement truck drivers of Teamsters Local 238 continued to tie up concrete deliveries Friday.

George L. Horner, University architect, said Friday that if the strike lasted longer than 10 days, construction of University buildings would be delayed.

The paving of Miller Avenue and Sycamore and Pleasant Streets will not be delayed by the strike, according to a spokesman for Metro Pavers, Inc.

Non-union ready-mix plants in West Liberty and West Branch received orders for concrete from local contractors whose supply has been stopped by the strike.

A source at Larson Ready Mix, West Branch, said that Larson was working overtime and adding a fourth delivery truck to handle requests for ce-

ment. He said the company could not deliver enough concrete to meet the demand.

Most of the calls for concrete were from home builders, he said. No deliveries were being made to union-contracted projects by Larson Ready Mix.

The source said that a Larson cement truck driver told him the strike could last "a long time."

Teamsters established picket lines Thursday at Iowa City Ready Mix, Inc., Johnson County Ready Mix and Central Ready Mixed Concrete Co.

Union representative Melvin Smith said Friday that he had no comment to make about the strike. Negotiations for a new contract between the Teamsters and the companies have been going on since April 30.

Drivers are asking for a 90 cent per hour wage increase. They receive \$3.10 per hour under the old contract.

McCovey Tops NL 'Stars'

NEW YORK (AP) — Willie McCovey, Hank Aaron, Ron Santo and Don Kessinger are the repeaters in the National League All-Star line-up announced Friday that also included Johnny Bench, Felix Millan, Matty Alou and Cleon Jones as first-time starters.

McCovey, the San Francisco Giants' homer-hitting first baseman, was the top vote getter in the poll of players, coaches and managers for the team to face the American League July 22 at Washington.

McCovey had 296 votes and Aaron, the Atlanta Braves'

right fielder who was named for the 15th time, received 295 votes.

The voting competition was hottest at second and third base. Millan of the Atlanta Braves beat out Glenn Beckert of Chicago for second base, 137-110, and of the Cubs held off the challenge of Cincinnati's

Tony Perez for third base, 196-151. Players were not permitted to vote for their own teammates.

Pitchers and the remainder of the 28-man squad will be named by manager Red Schoendienst of the St. Louis Cardinals later.

The American League starters, to be managed by Mayo Smith of the Detroit Tigers, were announced Thursday. The eight starters were catcher Bill Freehan of Detroit, first baseman Boog Powell of Baltimore, second baseman Rod Carew of Minnesota, third baseman Sal Bando of Oakland, shortstop Rico Petrocelli of Boston and outfielders Frank Robinson of Baltimore, Reggie Jackson of Oakland and Frank Howard of Washington.

Among the missing in the National ranks were Roberto Clemente of Pittsburgh, a four-time batting champion; Pete Rose of Cincinnati, the 1968 batting champ and Jerry Grote of New York, the starting catcher last year who did not get a single vote this time.

Willie Mays, who holds many All-Star records and won last year's 1-0 game in Houston, was sixth among the outfielders but could be named to the squad by Schoendienst.

Bench was an easy winner for the catching job. The Cincinnati star piled up a 261-76 margin over Randy Hundley of Chicago.

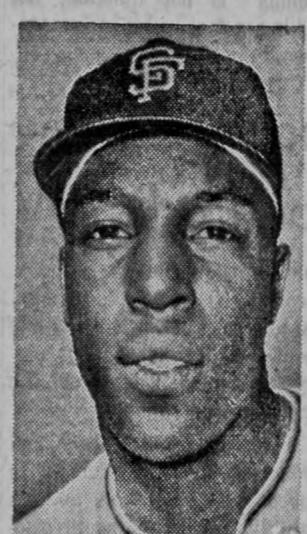

McCovey breezed at first base, 296-33, over Cincinnati's Lee May, his closest competitor. Kessinger, second Cub to make the team, had a 228-103 margin over Denis Menke of Houston for shortstop although Menke also got 19 votes as a second baseman.

Among the missing in the National ranks were Roberto

Gym Clinic Sunday

By JIM HARRIS

Several former U.S. Olympic gymnasts and national gymnastics champions will perform and instruct in the University of Iowa's third annual gymnastics clinic, which begins Sunday in the North Gym of the Field House.

Miss Zuber will direct the women's and girls' program assisted by Miss Grossfeld, Miss Metheny and Dick Mulvihill, a former coach of U.S. women's teams. Scorsa, Schmidt, Farnum and Morlan will aid in both the women's and men's programs.

Instruction will also be provided for coaches and physical education teachers. The instruction will include: spotting techniques; skill learning; video taping; compulsory exercises and judging techniques.

Instruction in the men's and boys' program will be divided

into beginner, intermediate and advanced, and special teaching sections.

The beginner section will stress basic gymnastics skills, flexibility, strength, tumbling and presentation techniques.

The intermediate and advanced section will stress routine competition, advanced skills and world championship compulsory exercises.

The special instruction section will emphasize video taping and spotting and will include films of past Olympics.

The women's program is basically the same as the men's. However, the women's program will include instruction in ballet and modern dance routines.

Iowa Gymnast Rich Scorsa

Jacklin Leads British Open

LYTHAM-ST. ANNES, England (UPI) — Tony Jacklin, the 25-year-old Englishman now at home on the United States circuit, took a two-stroke lead Friday over Irishman Christy O'Connor and New Zealander Bob Charles after three rounds of the 1969 British Open Golf championship.

A total of 46 players, including nine Americans, made the cut at 222 for 54 holes over the Royal Lytham and St. Annes links beside the Irish Sea, where par is 35-36-71.

Jacobson said he is expecting about 50 persons to enroll in the clinic, which will provide instruction for men, women and children of all ages. The clinic will end Wednesday.

Jacobsen will direct the men's and boys' instructional program. He will be assisted by Sam Baille, Iowa gymnastic coach from 1966-68 and Dick Holzapfel.
