UI Professor Hits Stress On College

By LOWELL FORTE

James Van Allen, University professor of physics and astronomy, told a Governor's Conference on Education Tuesday, "There is a certain blindness in over stressing formal education."

Van Allen, who heads the Department of Physics and Astronomy, told the Conference that not every American needs a college education.

"I personally feel that there are few things in life as important as the pride of craftsmanship, at whatever level it may occur — the pride in a job well done, the feeling of having a horse that one can ride," he said.

He said formal education carries with it the great hidden cost of a lack of economic productivity of millions of young men and women.

"Any normal person over the age of 17 is clearly capable of a substantial amount of productive work," he said.

"Those who continue in school under the pressure of social prestige at a level of passive and indifferent submission to the system do no such work and may moreover suffer an important loss of personal pride and self-esteem."

Van Allen said he saw no reason why much of the burden of education could not, and should not, be shifted from the public to the private sector — to which it is the most directly pertinent and beneficial.

As an example, Van Allen said that instead of striving toward a 32-hour work week, trade unions, manufacturers and business might "widely consider retaining a 40-hour week — eight hours of which are devoted to study, on the job self-improvement and the development of craftsmanship."

He called on the Governor's Advisory Committee to:

• "Break our blind devotion to the idea that extended formal education for everyone is the only route to self-fulfillment and success.

• "Work toward acceptable sociological substitutes for more attendance in college.

• "Foster a wide diversity of vocational, technical and other specialized forms of education in a work-study context."

University Pres. Willard Boyd also addressed the Conference. He stressed the need for diversity in post high school education saying, "Until recently, the more career-oriented the curriculum, the less likely unrest. Even this is changing, for vocational and professional studies are beginning to ask questions."

According to a Fortune magazine poll, said Boyd, "Approximately three-fifths of today's college students can be termed practical minded, which means they are in college to prepare for careers. The other two-fifths are marked mainly by their lack of concern about making money. They seek work which is intellectually challenging and relevant to their social concern."

"My personal experience confirms that the number of concerned students is large. This attitude crosses all political points of view," Boyd said.

Boyd said that the panacea advanced today that "all our educational problems would disappear if we only had small institutions" is an oversimplification.

He said "student concern exists in small colleges as well as in large universities. Furthermore, the issue of student power does not depend on size, but rather on the philosophy of governments."

Former University Student Body Pres. Jim Sutton is scheduled to speak at the conference today, the final day of the Conference.

Poster Boy

Marty Mim Black, 8, likes to throw baseballs, but that doesn't make him an average little boy. Marty, who has been selected as the 1970 March of Dimes Poster Boy, was born without arms and with a hip defect that makes his left leg three inches shorter than his right. He is the son of Mr. and Mrs. William Mim Black, of Santa Clara, Calif. — AP Wirephoto

Would Let Them Write Own Code— CSL Tables Dorm Plan

The Committee on Student Life (CSL) tabled a proposal Tuesday afternoon that would let University residence halls write their own rules and regulations.

A motion by CSL member John Huntley, professor of English, proposed that CSL delete from the Code of Student Life a sentence dealing with the permissible days and hours for open houses — the entertainment of guests of the opposite sex — in the dormitories.

Deletion of this sentence would have opened the way for individual residence halls to set their own hours for open houses.

The motion was tabled by a vote of 8 to 2. However, the CSL added a provision that CSL Chairman John Bowers, professor of speech, contact governing bodies of all approved housing units and ask them to submit a written

Fair and Warmer

Generally fair today. A little warmer. Highs in low 70s. Clear to partly cloudy tonight and Thursday. A little warmer Thursday.

statement to the CSL concerning their feelings on the motion.

The tabling motion also called for the open house proposal to be brought up at the next CSL meeting.

Opposition to the proposal came from associate vice provost Philip Hubbard and Dean of Student Affairs M. L. Huit. Huit was afraid that insufficient time had gone to inform the student body about the open house issue.

Hubbard said he thought that neither the student body nor the CSL had given enough thought to the repercussions outside of the University community to such action.

Also, Hubbard brought up several

Anti-Haysworth Petition Circulated

Some University law students and faculty are calling on Iowa's U.S. senators to vote against Senate confirmation of Judge Clement F. Haysworth Jr. as U.S. Supreme Court justice.

A petition circulated in the College of Law states that President Nixon "has nominated to the bench of the Supreme Court a judge who has shown a clear lack of ethical judgment in conflict-of-

5 Candidates Seek 2 City Council Posts

By DAN ESHELMAN

Five candidates will be seeking two open spots on the City Council in the Nov. 4 election.

They are: Mayor Loren Hickerson; Councilman Robert H. Lind Sr.; Robert A. Lehrman, a University graduate and teacher at Eastern Iowa Community College; J. Patrick White, an Iowa City lawyer, and Carl Swenson, director of University College of Cosmetology, 20 E. Clinton St.

The five will oppose each other in a primary election Oct. 21. City ordinances state that if there are more than four candidates seeking the same position, a primary must be held before the designated election date.

A spokesman at the City Clerk's office said eight sets of nomination papers were taken out, but that only five had been returned by Tuesday's 5 p.m. filing deadline.

The two terms to be filled are both for four years.

Hickerson and Lind were elected to four-year Council terms in 1965. Hickerson was chosen mayor in January, 1968.

The two incumbents announced their candidacies Monday, although Lind had indicated earlier that he would not seek re-election. Both Hickerson and Lind were proponents of Iowa City's urban renewal program, and Hickerson said Monday that the program's apparent success had influenced his decision to seek re-election.

Lind said "a show of interest in revitalizing our downtown shopping area" was one of the factors that prompted his decision to try for re-election.

Statements by Lehrman and White indicate that they too favor the federal urban renewal plan.

In announcing his candidacy Sept. 25, Lehrman said, "I am declaring because the city needs. Council candidates strongly in favor of the Iowa City urban renewal program."

"The plan itself is sound and absolutely essential if Iowa City is going to remain a progressive, interesting and attractive place to live, he said.

In a statement released Tuesday night, White said, "With the submission of urban renewal Project R-14 for final federal approval, we are a large step closer to actual commencement of the plan. I worked actively on the Jaycees unofficial vote on this issue. From the outset, I believed this to be a rational method for unifying the community be-

Beer Permit Of Li'l Bill's Suspended

The City Council voted Tuesday night to suspend the beer permit of Li'l Bill's tavern for 30 days. The vote was three for suspension and two opposing.

Councilman Tim Brandt motioned for the suspension. Brandt and Councilman Robert Lind Sr. joined Mayor Loren L. Hickerson in voting for suspension. Councilmen Robert (Doc) Connell and Lee Butherus opposed the permit suspension.

Charges were filed against Li'l Bill's in connection with the alleged purchase of beer by a minor at the tavern. Mike Swift, 19, 1605 College Court Place, allegedly purchased a six-pack of beer from Li'l Bill's on the evening of Aug. 27. Swift told the City Council that Gary Reynolds, a bartender at Li'l Bill's, sold him the beer.

Police Chief Patrick J. McCarney and City Atty. Jay Honohan asked the Council for suspension of the tavern's beer permit. McCarney cited as a reason several disturbances within the last year, including the alleged sale of beer to a minor and the use of Li'l Bill's as a "hangout" for the D.C. Eagles, a Chicago-based motorcycle gang, on the weekend of Sept. 20th.

McCarney told that Council, "Complaints against Li'l Bill's outnumber complaints against other city taverns by about ten to one."

Democratic Rep. Joseph C. Johnston, a local lawyer, represented Clark at the hearing. Johnston urged the Council to consider the fact that the tavern employee who allegedly sold beer to Swift had not yet been arraigned in District Court.

Under state law, a City Council may suspend a tavern's beer permit for a maximum of 60 days.

Clark commented after the hearing that Li'l Bill's would remain open during the 30-day suspension period. Clark said the tavern would sell "pizza and Pepsi's" and would charge admission when bands performed there.

No date had been set by the Council for the beginning of the 30-day suspension period by 11 p.m.

hind a decision on how best to achieve a common goal — building a better Iowa City."

White added, however, that in implementing the program the Council should "assure that every possible detail is planned as accurately in advance as possible. They have not done so to date. Time is truly of the essence, not only to minimize individual hardships, but to guarantee that, once undertaken, this project will be consistent with our goal of maximum return to the taxpayer."

Swenson was meeting with College of Cosmetology officials Tuesday night and could not be reached for comment.

Previously, it had been thought that the election would shape up to be a contest between pro- and anti-renewal forces, much like the 1967 election.

In that election, three renewal opponents — Robert J. (Doc) Connell, E. Dale Erickson and Clifford B. Kripta — ran against three "independents" — Tim Brandt, LeRoy Butherus and Brooks Booker. At the time, the race was considered a test of the city's desire for a federally financed renewal program.

Connell, Brandt and Butherus were elected to the Council. Brandt and eventually Butherus announced that they favored the renewal plan. Hickerson and Lind had already indicated they were pro-renewal, so the Council stood 4-1 in favor of the plan.

Last Thursday, when the Council voted to submit the plan to the U.S. Department of Housing and Urban Development for final review pending a grant of federal aid for the program, Connell cast the only dissenting vote.

If Hickerson and Lind had decided not to seek re-election, then anti-renewal forces could have gained a majority on the Council by winning the two vacant seats.

It now appears that most of the candidates running are pro-renewal, so the battle between the opposing factions apparently has failed to develop.

The City Clerk's office said two sets of nomination papers were taken out by John Wilson, head of Legal Action for Property Protection (LAPP), a group composed of long-time opponents of federal urban renewal. Wilson did not return one paper before the deadline, but the other was returned by Swenson, the office said.

General 'Regrets' Misuse of Guns

WASHINGTON (AP) — The Army's former top policeman testified Tuesday he regretted signing a statement affirming he would not use personally some confiscated guns he later sold.

But Maj. Gen. Carl C. Turner, Army provost marshal until he retired last year, said Chicago police officials knew when they gave him the guns that they were for his own collection.

The diminutive, wiry former paratrooper karate-chopped the witness table softly for emphasis in proclaiming the innocence of his intentions in accepting 397 guns that Chicago police had earmarked for destruction in a steel mill furnace.

Ticket Exemption Plan Sent to Parking Unit

By DAVE COLLOGAN

A provision to allow students to be automatically excused from the first 20 overtime parking tickets they receive on campus was included in a proposal discussed by the University Committee on Parking and Security at its first meeting Wednesday.

The proposal, submitted by the Ad Hoc Student-Faculty Committee on University Parking, calls for all students who have parking privileges to pay a one dollar fee at the time they register their car. The University would then suspend the first 20 tickets issued to each registered car for overtime parking.

The Ad Hoc Committee is a group of faculty and students independent of the University Parking Committee. The group was formed last summer for the purpose of revising student parking rules.

A. G. Sobin, of Oxford, a research associate in biochemistry, coordinator of the Ad Hoc Committee, who was a guest at the meeting, explained the reasoning behind this provision.

He said that since student metered parking costs five cents an hour, students would have, in effect, paid for twenty hours of parking with the one dollar fee.

The second point recommends that no tickets be issued in any lot where more than 50 per cent of the spaces are vacant.

The recommendation says, "Since the stated purpose of meters is parking control and not the collection of revenue," this could be done.

The third item proposes the establishment in each lot of a few free spaces that could be used for a maximum of five minutes. These free spaces, the proposal states, could be used by students dropping off books, delivering papers or running other quick errands.

The fourth point calls for students to be allowed to submit written appeals to the Student Traffic Court instead of making personal appearances. It also requests the automatic dismissal of charges against a person if he is kept waiting for more than 20 minutes past the time he was scheduled to appear

before the Traffic Court.

Sobin said that since the proposal was drafted, he has learned that written appeals may be submitted, but he said he still favored automatic dismissal of charges after a 20-minute wait to see the Court.

The members of the University Parking Committee were divided in their opinions about the exemption of a student's first 20 tickets. John D. Dooley, director of parking lot operations, and Ray B. Mossman, business manager and treasurer for the University, both attacked the idea on the grounds that it would cause an immediate increase in the number of meter violations.

Dooley said that the 20 tickets proposal would result in a situation in which students would park their cars in a lot for longer periods of time because they would not be afraid of receiving a fine. He said that this would defeat the purpose of the meters — to create a large turnover in the lots so that more students can park in them.

A Parking Committee member, Ralph

R. Throckmorton, L2, Coralville, said that such a plan might be worth trying. However, he suggested that the number of "free" tickets be reduced to four or five. He said that this would provide relief for the student who did not get out of class on time occasionally but would not be an invitation to completely disregard the meters.

Steve S. Adams, a Staff Council representative to the Parking Committee, also voiced some support for the plan. He stated that it might improve the image of the parking operation with students and that it would demonstrate "that the Office of Parking Lot Operations is not out to get the students."

Dooley also took issue with the proposal that charges be dropped against students who are kept waiting more than 20 minutes for their appointment with the Traffic Court. He said that the Court schedules appointments five minutes apart. He said that this usually allows ten minutes for each appeal since about half the students filing appeals did not keep their appointments.

But, Dooley said, bottlenecks sometimes occurred when people scheduled for consecutive time periods did show up together. He maintained that the schedule was set up in this manner because of the heavy case load.

James Truitt, A4, Greene, chairman of the Student Traffic Court said that many cases simply take longer than others. He said that some students accumulate fines of from \$400 to \$1,000 and that these cases naturally take longer. He said that Student Traffic Court meets every Saturday morning of the year except during vacations and that much of the difficulty in scheduling appeals could be alleviated if people had serious intentions of showing up when they made the appointment and then made sure they were there.

The University Parking Committee voted to send a copy of the Ad Hoc Committee's proposal to Student Senate with a request for the Senate's opinion on the matter. Discussion of the other points of the proposal was delayed until the Senate's reply is received.

Former U.N. Delegate Asks Prohibition on Racist Speech

The major problem in the United States today is the condition of the country's racial relations, according to John Carey, former U.S. delegate to the United Nations and a partner in a New York law firm. In a speech Tuesday afternoon on "Human Rights — Their Promotion through the United Nations," Carey said that the U.N.'s promotion of human relations touches closely upon racial problems in the United States. Carey cited a convention

adopted in 1965 by the U.N. General Assembly condemning all forms of racial discrimination. Article four of the convention prohibits any encouragement of racial prejudice, even through speech.

Although Carey termed racist talk "obnoxious," he pointed out that speakers are protected by the First Amendment of the Constitution. Carey suggested, however, that the constitutional amendment be changed to prohibit racially inflammatory speech,

even in private, on the basis that it creates a "clear and present danger" to the nation's race relations.

If a change in this amendment is considered dangerous to freedom of expression, he said, the alternative would be U.S. ratification of the convention, with a resolution that Article four not effect the Constitution's First Amendment.

Carey said the U.S. should halt its tendency toward racial polarization by promoting a "close and personal relationship" between the races which would overcome hostility.

"The right of peoples to development," a new concept expressing the rights of lesser-developed countries, was also discussed by Carey. He said the aid now received by underdeveloped countries is transferred in "niggardly proportions as international charity." Wealthier nations have a "legal obligation under international law" to help underdeveloped countries, Carey contended.

In a short discussion on Vietnam, Carey said that a total withdrawal of American troops would leave the South Vietnamese in great peril. Carey stated that in order to adhere to "humanitarian objectives" in Vietnam, a large U.S. protective force, part military and part police force, be set up in South Vietnam after the troops had been withdrawn to forestall any threat to the South Vietnamese.

Asked if the U.S. is violating human rights by its participation in the Vietnam war, Carey said it would be a "constitutional crisis of no mean proportions" if the war were found illegal by U.S. courts.

Inquest Rules Violate Rights: Kennedy Plea

BOSTON (AP) — Lawyers for Sen. Edward M. Kennedy (D-Mass.) will tell the Massachusetts Supreme Court today that his constitutional rights would be violated if the lawyers could not cross-examine witnesses at any inquest into the death of Mary Jo Kopechne.

This argument is contained in briefs that have been filed with five members of the state's high court. Oral arguments will be presented at today's hearing, which will be open to the public.

The inquest, originally planned for Sept. 3 in the District

Court at Edgartown, was called to investigate the death of Miss Kopechne, 28. She was found July 19 in Kennedy's car after it had plunged off a bridge on Chappaquiddick Island, near Edgartown.

The inquest was blocked when Kennedy lawyers went to the State Supreme Court, protesting the ground rules District Court Judge James A. Boyle laid down for the inquest.

They opposed Boyle's ruling as unconstitutional on the grounds that he would not allow them to cross-examine.

The NEW PROCESS approach is a friendly one.

Long ago we found that the best way to get and stay on the good side of our customers was to provide them with a real service — a number of them in fact. Private Air Clean-up Asked

DES MOINES (AP) — An environmental expert from New York City called Tuesday for a national private task force to clean up air and water pollution because of government's inability to do so.

"The environment has become a hot political property, with no real effort on the part of recent Congresses or administrations to organize efficient," the speaker, Fred Smith, told a management conference

of Iowa utility companies. "Industry, if it attacks the problem, is likely to move directly toward solutions with a minimum of nonsense. Serious environmental problems exist, are worsening and must be solved," he said.

About 500 local managers for eight gas and electric companies serving Iowa also heard Smith call government help essential, "but we can't depend upon government to develop and perfect methods."

CAMPUS NOTES

FRENCH DEPT. COFFEE

The Department of French will have a coffee for members of the Brussels Chamber Orchestra at 5 p.m. today in the Languages House, 115 N. Clinton St. The public is invited.

ALPHA PHI OMEGA

Alpha Phi Omega, college service organization, will meet at 7:30 tonight in the Union Ohio State Room. Iowa City Mayor Loren Hickerson will be the featured speaker.

DEMO COMMITTEE

The Johnson County Democratic Central Committee will act at 8 tonight on a proposed endorsement of the Oct. 15 Vietnam War Moratorium. The meeting, in the Civic Center, 400 E. Washington St., is open to the public.

JUNIOR PANHELLENIC

The Junior Panhellenic Council will meet at 4 p.m. today in Shambaugh auditorium.

IOWA GROTTO

Iowa Grotto, the University chapter of the National Speleological Society for cave explorers will meet at 7:30 tonight in Room 3407, Electrical Engineering Building.

DELTA SIGMA PI

Delta Sigma Pi, professional business fraternity, will have its first pledge meeting at 7:30 tonight in the Union Indiana Room. Fraternity activities will meet at 6:30 p.m. in the same room for a business meeting.

REC COMMITTEE

A meeting of students interested in promoting student use of the new Recreation Center will be held every Monday at 7:30 p.m. in the Field House Room 203. A petition table of the same group has been set up in the Union's Gold Feather Lobby and is open from 1 p.m. to 5 p.m. Monday through Friday.

BAHA'I CLUB

The Baha'i Club will discuss "The Reality of Man" at 7:30 tonight at the Baha'i Center, 620 N. Van Buren St. Basic Baha'i principles will be reviewed. Transportation can be obtained by calling 337-3553.

SCIENCE DISCUSSION

Sigma Xi honorary fraternity for science majors will sponsor a panel discussion at 8 tonight in 311 McClean Hall (formerly the Math-Science Building). The topic for discussion will be "A Conversation on the Ten Foundations of Statistical Inferences — The Classical vs. the Bayesian View."

CULTURE KITCHEN

The Free Underground Culture Kitchen will hold a meeting at 7:30 tonight in the Union Spoke Room.

HOMEcoming BREAKFAST

Omicron Delta Kappa, honorary leadership fraternity, will sponsor its annual Homecoming breakfast for all members Saturday Oct. 25 in the Union's Hawkeye room. There is a \$2.00 charge for the breakfast. Please make checks payable to Omicron Delta Kappa, and mail them to: Loren Hickerson, ODK; Office of Public Information; 101 Jessup Hall; Iowa City, Iowa 52240.

EXCEPTIONAL KIDS

The Student Council for Exceptional Children will meet at 7:30 tonight in the Union Minnesota Room. Election of officers will be held.

Iowa City to Pay Part of Expenses For Hurt Firemen

City Clerk Glen Eckard said Iowa City would pay the balance of what other organizations do not pay of the medical expenses for seven Iowa City firemen injured April 7 in the Mercy Hospital fire and explosion.

Medical expenses now total nearly \$20,000, plus private physicians' fees.

Eckard said that the bills have not yet been paid and that the city was waiting to see what contributions various civic groups would give for the expenses.

City Manager Frank R. Smiley told city councilmen Monday that according to a current statute, the city would have to make up the difference in expenses not covered by insurance companies.

This is the "something good" you've been looking for.

When you go shopping for "something really good" in stereo equipment, you usually have to pay more than you expected, or settle for something less than you expected.

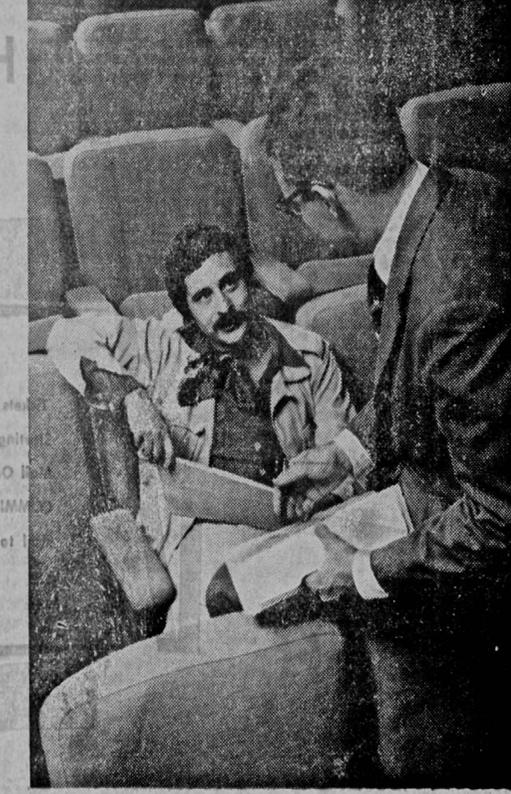

The KLH Model Twenty-Four changes that situation—radically. The Model Twenty-Four is a complete stereo music system. Its performance and sound quality are close—very close—to that of the best equipment that KLH, or anyone else, makes. But it costs only a fraction of what it sounds like. And it fits gracefully into any living room.

There's nothing missing from the Model Twenty-Four. It has a sensitive, drift-free FM stereo tuner, a custom-made Garrard record changer with Pickering cartridge and

diamond stylus, plus jacks for external equipment and for making tape recordings. The solid-state circuitry is powerful enough for any living room, and the unobtrusive speaker cabinets contain a pair of full-range, two-speaker systems. The modest size and price of the Twenty-Four are the results of advanced engineering instead of corner-cutting. Everything from its components to its oiled-walnut cabinetry is designed to provide a genuine surprise rather than that "nice for the money" feeling. Come see and hear how little it can cost for something really good.

Show biz? Ad biz? Aerospace? A CPA can be in all of them.

You don't have to play Hamlet to be in show business. Or write hot copy to be in the ad business. Or design moon rockets to be in aerospace.

The CPA has become a key man in virtually every type of enterprise.

Why? Because financial and business affairs require keen minds to come up with new concepts in fact-gathering, problem-solving and communicating economic information.

So if problems intrigue you, and if you have an aptitude for imaginative, concentrated thinking, you might make a good CPA.

You might work in a public accounting firm, in industry, education or government. Or you may even decide to open a firm of your own.

What other profession offers so many diverse opportunities?

Talk with your faculty adviser. He can tell you about the courses you can take to earn your CPA certificate soon after graduation. Or you might want to do graduate work.

We've prepared a special booklet that tells the whole CPA story. We'll be glad to send it to you. Drop a card or note (mentioning the name of your college) to: Dept. 15, AICPA, 666 Fifth Avenue, New York, N.Y. 10019.

By RICHARD TOMLIN
Amid the colorful crowds of mini-skirts, bell-bottoms, bare feet and young faces that roam the Iowa City campus, a certain petite blond seems out of place. She dresses conservatively in knee-length knit suits, and she is nearing middle age.

Mrs. Iowa Is a Housewife, Celebrity and UI Student

Odd, that this attractive 35-year-old mother of two should carry books, scurry to classes and call herself a loyal Hawkeye. Even more extraordinary is the fact that she holds the title of Mrs. Iowa of 1969.

A little over a year ago, Mrs. Don Bean was an average Iowa housewife who filled in occasionally as a substitute grade-school teacher. The residents of her home town, Marion, considered nothing about her unusual, except perhaps her last name.

Now, she not only is a state celebrity and a dutiful housewife, but she also carries a full load of 17 hours at the University.

Mrs. Bean's campus story is not a romantic one — getting

a college degree isn't a lifelong dream of hers. The only reason she daily commutes the more than 25 miles to classes week after week, she said, is that a college degree is a teaching requirement these days. When she left the University of Northern Iowa at Cedar Falls in the early 50s without a diploma, the B.A. wasn't necessary.

The story of the crowning of Mrs. Iowa, though, has a grain of romance and is a tale Mrs. Bean (Donna, as she likes to be called) takes delight in telling.

Donna spent her early years in Lone Tree, just south of Iowa City. After her college days, she started her teaching

career, found a husband and began to raise a family.

In the spring of 1968, Donna was the brunt of a practical joke played by a fellow elementary teacher. The joke: entering her as a candidate for Mrs. Iowa. As Donna tells it, the whole matter was laughed off and forgotten until application forms came in the mail.

She was forced, she says, by a friend to complete the forms and to send them in.

"They were extensive and time-consuming," Donna says, "but I had to do it — it was a matter of personal honor between myself and my friend."

Donna didn't tell a soul about the contest, not even her family. It continued to be a secret until one day in June. "It was the last week of school, and I was terribly busy filling in for a teacher who was sick," said Donna, "when I received in the mail a letter from Robinson's Wholesale Co. of Cedar Rapids."

"I almost threw the envelope away, thinking it was an advertisement. When I finally did open it, I read that I was one of the finalists for Mrs. Northeast Iowa. I just couldn't believe it," she said.

Donna appeared in the contest at the end of that week,

even though she had little time for preparation. It was another matter of personal pride.

As Donna put it, "I just knew I didn't have a chance."

But, Mrs. Bean charmed the judges and went home with the crown, prizes from Robinson's and a trip to Des Moines two days later to compete against the other four district winners for the Mrs. Iowa title.

In Des Moines, Donna was judged in several areas. She was asked to bring her favorite food cooked and ready to taste. She took lasagne. She brought a craft she had made and a menu of a buffet dinner for 16 people complete with itemized recipes. There was also an essay on entertaining the 16 people.

On top of that, Donna was quizzed by five judges on topics like her philosophy on teenagers, her life as a mother and what she and the state would gain if she became Mrs. Iowa.

This wasn't a quiet day for the husbands, either, Donna said. "They were watched and questioned almost as carefully as we were."

Donna's husband, a University grad and Cedar Rapids teacher, inadvertently was a po-

tential obstacle to his wife's success. When a judge asked him a question implying that the winner might be often gone from home for the next few months, Bean said emphatically that the woman's place was in the home.

Nevertheless, in June of 1968, Donna Bean became Mrs. Iowa. As she explained later, no contest was held in 1969, so she is still holding the title.

"It was something I never dreamed of," she says. "You never expect anything quite this exciting to happen to you after you're married and start raising a family."

Donna's elation in Des Moines that June quickly turned into what she described as "numbness."

"I found there was a tremendous load of work ahead of me for the entire summer," she says.

Preparation started immediately for a 10-day ordeal at Minneapolis that August — the Mrs. America contest.

"Every day a different form would come in the mail, so I'd spend a couple hours filling it out and then I'd send it back to Minneapolis," she said.

Donna also labored over the 20 various contest events.

"Everything from a driving test, to cooking, flower arrangements, making clothes, interior decorating, working with children and physical fitness," she explained. "Anything that a Mrs. would ever be called on to do."

Once again, the husbands were an integral part of the contest, said Donna. They were questioned and tested almost as extensively as the wives.

Speaking to groups around the state has helped keep Mrs. Iowa busy for a year. The experiences have given her a new

appreciation for life, she says, as has her association with the University.

"After attending classes here for a while, I can identify with some of the problems of youth and can understand the peril of parental pressure. I think every parent should go back to school for one semester to see what pressure is really like for a college student," she says.

"I enjoy classes much more now than when I was a single student back in the 1950's," Donna continued. "Now I have definite goals, and different things are very important to me."

Mrs. Bean likes to talk about trends in education. She also likes to compare those trends with what she has seen so far in the University classroom.

"Fifteen years ago we would read a book, learn the facts and the reasons and then be tested on it. Now, the emphasis is on discussion and the theory of concepts, and the professor will ask the student to theorize on a related topic with original thinking," Donna says.

Mrs. Iowa is friendly, purposeful and sincere. Even though she represents middle-aged, middle-class, working Iowa, this combination wife-mother-teacher and champion Mrs. possesses an unexpected understanding and sympathy of young America.

Her philosophy of life, she says, is "No matter what you do, or how you feel — if you always do your best, then that is what really counts."

That's a small generation gap notch from "Do your own thing, baby."

\$14,232 Collected

Gifts and pledges totaling \$14,232 were reported in the Special Gifts Section of the current United Community Services fund-raising drive. This is 23 per cent of the division's goal of \$61,666. Special Gifts are still being solicited.

The remaining three sections of the drive, Employees and Small Businesses, University of Iowa and County and Residential will begin solicitations Oct. 21. The total United Community Services goal is \$166,666.

Mrs. Iowa, Mrs. Donna Bean of Marion, is in her gym class. Mrs. Bean, who was named Mrs. Iowa in June of 1968, is carrying 17 hours at the University to get her B.A. so she can teach. The 35-year-old mother commutes to Iowa City every day.

—'University a Place for Freedom of Thought'— Students Air 'Adaptability' Views

Four Honors students will discuss on a radio program the meaning of "social adaptability" and whether or not the State Legislature has the right to investigate and censure faculty members.

Led by Honors Program director Rhodes Dunlap, the group discussed these questions Monday in a seminar program that will be broadcast over WSUI radio at 5:30 p.m. Oct. 20.

The social adaptability question arose last summer when Sen. Francis Messerly (R-Cedar Falls) used the term in reference to a coming Legislative Interim Budget and Finance Committee investigation into the three state universities.

As part of the investigation, Messerly said the Committee should look into the "social adaptability" of university professors. He did not define what he meant by "social adaptability."

The four students participating were: Helen Kreis, A4, Tripoli; Mike O'Connor, A4, DeWitt; Joe Pasternak, A3, Des Moines; and Mike Hagerman, A1, West Des Moines.

Miss Kreis opened the discussion by defining "social adaptability" as the way a person worked within the framework society established for him.

She said that it was difficult to distinguish between social adaptability and conformity.

O'Connor said that he thought a certain amount of conformity was necessary, but that the Legislature and the people of Iowa should recognize that the University area was a place for greater freedom of thoughts and ideas.

"There definitely will be things that go too far out," O'Connor said, "(but) we have an inclination to regulate ourselves."

Pasternak said he thought that the business of an instructor was to educate and that if his teaching ability

benefited some students, he should be allowed to continue, regardless of his personal philosophy.

If nothing else, he will teach us what not to be," he said.

Hagerman said he thought that the Legislature did not care for the "New Liberalism" and thus did not want it taught. However, he said, a university is the place for an all-around education, and each student needs to learn about all views.

When open advocacy of civil disobedience by professors was brought up — a charge leveled last week by Messerly

against state university faculty members — O'Connor said he thought it was important for a professor to express all points of view on a particular subject.

He said, "I do not think he should be able to choose any one point of view over all others."

O'Connor said that in his opinion a professor had to be less radical than many of the students he came into contact with every day.

"If he (the professor) can deal with the problems that are prevalent today," O'Connor said, "then he provides an

alternative to irresponsible leadership."

Pasternak said it was important to remember that the faculty members held "distinctive degrees" that, he said, would be almost impossible for them to attain without being able to work within the framework of society.

In closing, Miss Kreis said that she did not believe that being in class with one instructor for three hours a week would completely reshape a student's thoughts and ideas.

Asked after the discussion whether they thought an in-

structor who taught civil disobedience in the classroom should be allowed to continue teaching, the students all said that he should not if this instruction led to overt violent behavior contrary to the law.

A Paulist Goes Forward ...not backward

Time never stands still — and neither does a Paulist.

Issues are raised, conflicts appear and the world changes, but the Paulist is always part of the new ... blending the best of the old with the hope and promise of the future.

Because one of the major characteristics of the Paulist is his ability to cope with, and welcome, change, he's better able to meet the needs of modern man: he uses his own talents to work for Christ and is given the freedom to do so.

If you've given thought to the priesthood, find out more about the order that never stands still. Write today for an illustrated brochure and a summary of our recent Renewal Chapter Guidelines.

Border Check on Marijuana To Be Extended Indefinitely

WASHINGTON (AP) — U.S. officials say that they are pleased with results of Operation Intercept and that the anti-drug campaign along the Mexican border will continue indefinitely.

The U.S. commitment to the program is expected to produce some unpleasantness when officials from the two nations renew talks here today on the subjects.

While both countries are in agreement that some form of drug control is necessary, they disagree on how best to go about it.

Since the program started on Sept. 21, U.S. officials report marijuana supplies from Mexico have virtually disappeared from every major American city they have checked.

"We're thrilled with the results," said one U.S. source close to the program. "We plan to continue the program indefinitely."

U.S. Officials say that 53 arrests have been made and that marijuana seizures ranging from two ounces to 1,000 pounds have been registered. They conclude that the operation has been so successful

that pot users in the United States have had to resort to the less potent grass grown in the American Midwest.

Before Operation Intercept, 80 per cent of the marijuana and 20 per cent of the heroin consumed in the United States were produced in Mexico, according to U.S. government figures.

U.S. officials say all but two of the arrests have been made during checks at 31 entry points along the 2,000-mile long border. The others arrested were smugglers who operated by plane and boat.

Tyrone Guthrie Season Is 'Interesting'

This past week there have been no play openings locally, so now is a good time to discuss theater happenings elsewhere. Dramatically speaking, the most interesting is the Tyrone Guthrie Theater in Minneapolis.

I viewed three of the plays in the current repertory in late August and will be going up to see the last two later this month. Running now are "Julius Caesar," "Mourning Becomes Electra," "The Beauty Part," all reviewed here, and the "Homecoming." "Uncle Vanya" opens Oct. 7. The five will be in repertory until after Christmas.

The most interesting of the plays was "Julius Caesar." Unfortunately, it was also the greatest failure. Amazingly, the problem seems to be that the company did not go far enough in an experimental production.

The basic idea was to transpose the story of a dictator and his murder to a stylized South American country. The citizens were dressed in peon costumes and Julius was given an ornamental cape with a sun-god symbol on the back.

But costumes do not a play make. And, this production would have been much improved if all the references to Rome had been edited out of the script; "citizens of Rome" just served to remind us that this was a hybrid production. Also, the soldiers were not differentiated from the officers by costume, so the conversations Brutus has with his officers about protection and holding his sword seem unrelated to reality.

But the production is exciting as far as it goes. A wild peasant dance sets the scene ("to see Caesar and rejoice") and Anthony (while the others are overdressed) comes on almost nude as the athlete and popular hero.

A huge head stands over the stage and it blows apart into a skull when Caesar is dead, to dominate the battles and death of the rest of the play. Excellent use is made of the many entrances available and speeches are made at several heights above the stage for good variety.

The other two plays in the repertory are treated with a more ordinary imagination and thus are entertaining, without being remarkable.

"The Beauty Part" by S. J. Perelman is a comedy which satirizes the early 60's done with wonderful energy and fine unity of plan. Many small sets are used and hexagons provide the common motif for tables, floor lights, sculpture and overhead projections. It is basically the most enjoyable play offered.

"Mourning Becomes Electra" by Eugene O'Neill was five hours long in the original and runs three and a half hours at the Guthrie. I felt the remainder would have been improved by more cutting. The long speeches of the play require the actors to do something with their bodies and hands and nothing has been provided on the barren stage. Thus, the play is visually boring. Also, the play lacks a certain human quality in its

writing that tends to isolate the viewer from the action.

Several plays which are excellent theater or are of historical interest will be opening short runs soon.

Drake University will offer "Ubu Roi" Oct. 16 through 18. This is one of the very first of the modern plays and it started riots with its challenges to the limits of theater.

Grinnell College will present "Six Characters in Search of an Author," also Oct. 16 through 18. This play is the one for which Pirandello is best known. His tale of twisted confrontation, loose characters and stereotyped actors is challenging and enjoyable.

— Mike Firth

Schulze Exhibits Photo-Art

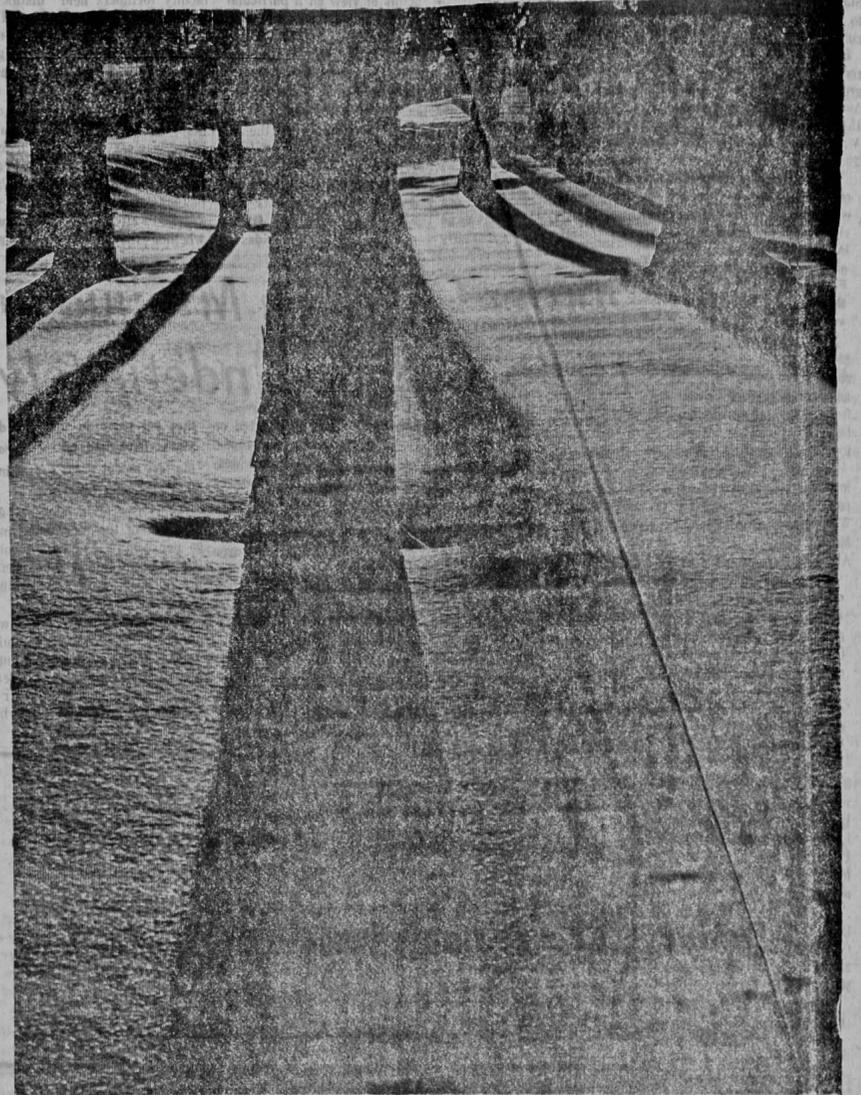

John Schulze, professor of art, recently had a one man exhibit of his photography at the College of St. Benedict in St. Joseph, Minn.

Schulze stated that the exhibit consisted of a general sampling of his work, including several montage panels. He added that when he saw the exhibit, "It

was the first time I thought my work looked beautiful, it was so well displayed."

He said he was well satisfied with the reception of his exhibit.

Although Schulze's show will not be displayed at the University, some of his art photos are presently on exhibit in the Museum of Art.

* ARTY FACTS

* dance

Marcia Thayer, instructor in dance, taught a two-week workshop in Renaissance and Baroque dance at Portland State University this summer. The workshop was sponsored by the University's music department to teach

both dancers and music majors an understanding of dance forms.

As an extension of the workshop, Mrs. Thayer was interviewed and four of the workshop dances were performed on a half-hour color television program. According to Mrs. Thayer, the program has been viewed by the west coast.

* theatre

Sandie Tappan, G. Villa Park, Ill., was staff costume designer last summer at the University of Chicago "Court Theatre." She and her two assistants, Mary Ann Hardy, A2, Cedar Rapids, and Merry Lynn Cuthbert, A2, Vinton, costumed all three of the summer theater shows.

Miss Tappan's work at the University has included costuming "Hang by Their Shoelaces" and "Interplay."

* literature

Jack Marshall, a teacher at the Poetry Workshop, had his first book of poetry, "Bearings," published Oct. 1 by Harper and Row. The poems in it were written over a six-year period in a variety of places including Spain, Mexico, Africa, California and New York.

Marshall's work has appeared in magazines such as The Hudson Review, The New Yorker and Harper's Magazine.

* contests

The Budweiser-sponsored, Intercollegiate Music Festival swings into its fourth year of national competition with emphasis on pop and folk music and a new lineup of regional competitions.

The festival is open to vocalists, vocal groups and instrumental groups from U.S. colleges and universities.

Taped performances are judged to select finalists to compete at six regional events held at Villanova University, the University of South Florida, Southern Illinois University, the University of Texas and in Colorado and California.

Regional winners will be flown to the national finals in August.

Students may secure entry forms by writing: IMF, P.O. Box 1275, Leesburg, Fla. 32748.

Esquire Magazine recently announced the "Esquire College Film Festival" to encourage the fast-growing study and practice of cinema arts in the nation's higher institutions of learning.

Judges for the contest include Andy Warhol, Roman Polanski and Gene Youngblood.

Entries will close Feb. 1. Address inquiries to Esquire Magazine College Film Festival, Beverly Hills Studio, 9336 W. Washington Blvd., Culver City, Calif., 90230.

MFA Theater Program Now Stresses Student Planning, Leadership

By JULIE BISHOP

The Master of Fine Arts (MFA) ensemble in theater will have total responsibility for the production of three plays this season, said David Thayer, professor of speech and dramatic arts in charge of theater.

By formal vote of the 18 MFA students and nine members of the production faculty, it was decided that the MFA candidates would themselves produce "Hamlet: A Collage," "The Bald Soprano" and "The Chronicles of Hell."

The group includes all MFA theater students and "those faculty directly involved with a specific production of the ensemble," said Cosmo Catalano, associate professor of speech and dramatic arts.

The MFA ensemble will do all the acting, designing and building of sets, designing and constructing of costumes and directing.

University Theatre usually welcomes "outside" help to produce a play. Students outside the theater department had been able to open tryouts and be involved in production aspects of all theater productions. Since the MFA ensemble has been asked to take total responsibility of

these three Studio Theatre productions, other students outside the ensemble will not be involved.

Another related side effect is that since "Hamlet: A Collage," will be the University's contender for a place in the National Theatre Festival in Washington, D.C., only MFA students will have a chance to be involved in the festival.

Because of some basic changes in the department's MFA program, MFA students have a strong voice in the direction of and responsibility in their program.

The new program "admits that the student has a fairly sophisticated level of learning," said Catalano. "We used to assume at the beginning of each course that the students knew nothing, and we would start from the beginning each time and present the slightly different point of view of the particular subject matter. We now assume the student knows something by the time he completes his undergraduate degree.

"It is a three-track program," Catalano continued. The first is the "academic track," which includes all the tools necessary for production. The second is the "production track," which is

the MFA ensemble production of some of the season's plays. The third is the "experimental track," which is the workshop.

The faculty took a firm stand in deciding the academic track or tools part of the program, he said. In deciding the form and function of the production and experimental tracks, however, the MFA students were involved.

Throughout last summer, said Thayer, the MFA students and production faculty held discussions. Concern centered around one question: How can "professional" stature be achieved by the end of MFA theater training? Thayer defined "professional" as applying not only to commercial theater, but also to academic or community theater.

Through these discussions the ensemble decided to be responsible for three of the season's plays and was given equal voice in their selection. A committee was set up with equal numbers of MFA students and production faculty.

The experimental track of the program involves only second and third year MFA students. This aspect of the program was developed by students and faculty more by consensus than formal

vote, said Thayer. Since the program is so new, the workshop consists of only seven second-year students — all male.

Ideas for this year's project were discussed and the MFA students and faculty involved decided as follows:

- To produce a scene of a play attending as closely as possible to the aesthetic standards of the time in which the play was written.
- To take the same scene and make it conform to contemporary conventions — 1969.
- To invent something which makes its own conventions, to push beyond existing conventions.

"What we are trying to do," he continued, "is to provide a better structure for the development of the artist of the theater. A major factor in striving for this result is an emphasis on each individual's contribution working in ensemble. We don't want 'art by committee' because this leads to mediocrity. What we do want is to promote a sense of community, cooperation and responsibility for a production. We want to work for an art form which is a synthesis."

"The students are deeply concerned about what's expected of them and have shown their concern in very responsible ways. They perhaps have some misgivings, but they are aware that this is a new program and that they are helping to share it," said Thayer.

Catalano said, "I feel that we have in the past done a disservice to students because we taught: 'in my lifetime I've learned to solve this kind of problem this way and that's it.' Teaching comes from feedback; and the teacher learns something, too, in the process."

All MFA students randomly interviewed are "excited" and "enthusiastic" about the program. One student said, "It's a good beginning." Another commented, "I'm not sure how it's going to work, but it's a great idea." One added, "The important thing is the 'trying,' not the 'result.' I'm very grateful for the chance to try."

The time demand is high. Some students have up to two-third-time assistantships; some have full-time jobs. The MFA call is 7 to 11 p.m. Monday through Friday. Then there are other course requirements. Nevertheless, the feeling of ensemble is up, way up.

Biafran at U.I.: Oil Interests Continue War

By IRENE RADZYMSKI
American oil interests in Biafra are responsible for the continuation of the war between Biafra and Nigeria, according to Nathaniel Inyamah, G. Owerri, Biafra, who spoke to a group of twenty students in the Union Monday night.

Inyamah's appearance was sponsored by the University's student chapter of the Council on International Relations and United Nations Affairs (CIRUNA).

Standard, Gulf and Texaco are among the American oil companies who have interests in the oil fields of Biafra and midwestern Nigeria, according to Inyamah.

He said American oil companies are afraid that a Biafran victory might end their oil interests in that country.

He added that another reason for the war's continuation is the money that Nigeria receives to pay for American drilling in Biafra and midwestern Nigeria—the money is used to finance the Nigerian war effort.

Inyamah also said the United Nations' assertion that the war between the Biafrans and Nigerians is a civil war, is incorrect. According to Inyamah, the war ceased to be a civil war, or an internal crisis, when the British, the Russians and the Egyptians began to aid the Nigerians.

Inyamah claimed the British have supplied rifles and bombs, the Russians have supplied bombs and Russian MIGs and the Egyptians have sent their pilots to Nigeria to fly the MIGs.

After the aid, Inyamah said, the war became international, and, therefore, it became the duty of the United Nations to step in, in accordance with the United Nations charter.

However, because of British pressure, the United Nations decided not to interfere in the crisis. In the voting, America chose to abstain because of pressure from American oil companies with interests in Biafra, as well as from the British, he said.

He urged his audience to write letters to President Nixon and members of Congress urging them to help end the war in Biafra. He also urged that students write the oil companies and voice a protest.

"The solution will not come until people pressure the American oil interests to pull out of Biafra in the interest of human lives," he said.

Advisory Group in College Of Education Being Set Up

A committee to be a liaison and to help communication between students and the College of Education administration and faculty will have its members elected soon Owen L. Springer, University assistant dean of education, said Monday.

The committee was originally proposed by the faculty of the College of Education last summer and it was approved then for a one year trial.

The student committee will act as an advisory group to the Dean of Education, according to Springer.

The committee will have seven graduate students — one from each of the seven divisions of the College of Education — and five undergraduate students — two from each of the Divisions of Elementary and Secondary Education and one from the Division of Special Education, Springer said.

All undergraduates who have been admitted to a teacher ed-

ucation program and graduate students who have been admitted to an education graduate program before Oct. 10 are eligible to vote or be a candidate for election to the committee.

Students may enter the election by signing a statement of interest and intent in room 200 of the Jefferson Building, at the corner of Washington and Duquesne Streets, before 5 p.m., Oct. 20.

The election will be held on Oct. 23 from 9 a.m. to 4 p.m. Corridors outside C103 East Hall and room 202 Jefferson Building will be the polling places.

Springer encouraged all education students to participate in the election, either as candidates or voters.

A good cry cleanses the soul

After all is shed and done, your soul may be saved... but your contacts need help. They need LENSINE. LENSINE is the one contact lens solution for complete contact care... preparing, cleansing, and soaking.

There was a time when you needed two or more different lens solutions to properly prepare and maintain your contacts. No more. LENSINE, from The Murine Company, makes caring for contact lenses as convenient as wearing them.

Just a drop or two of LENSINE coats and lubricates your lens. This allows the lens to float more freely in the eye, reducing tearful irritation. Why? Because LENSINE

is a compatible, "isotonic" solution, very much like your eye's natural fluids. Cleaning your contacts with LENSINE retards the build-up of foreign deposits on the lenses. And soaking your contacts in LENSINE between wearing periods assures you of proper lens hygiene. You get a free soaking-storage case with individual lens compartments on the bottom of every bottle of LENSINE.

It has been demonstrated the improper storage between wear-

ings permits the growth of bacteria on the lenses. This is a sure cause of eye irritation and in some cases can endanger your vision. Bacteria cannot grow in LENSINE because it's sterile, self-sanitizing, and antiseptic.

LENSINE... the solution for complete contact lens care. Made by the Murine Company, Inc.

Underdog Mets Confident

NEW YORK (AP) — The New York Mets took Tuesday off to recover from their first pennant-clinching celebration and tidy up some personal affairs and ticket problems before starting to get ready for the World Series with a Wednesday morning workout.

Already installed as 8-5 underdogs, a familiar role for a team that started the year as 100-1 longshots, the Mets were confident they would be able to go

all the way and take the series from the Baltimore Orioles.

"Nobody can stop us... Atlanta, Baltimore, nobody," Cleon Jones said in the happy glow of victory. "We're gonna win it all."

The series will open Saturday at Baltimore with Tom Seaver, the Mets' 25-game winner, scheduled to face left-hander Mike Cuellar, who won 23 for the American League champions.

The long delay in starting the

series is the result of the three-game sweeps by the Mets and Orioles in their league playoff series. The weekend start, with days off for travel, also handily assured NBC television of at least one Saturday-Sunday show and possibly two if the series goes six or seven games.

They play in Baltimore Saturday and Sunday, take Monday off for the one-hour flight to New York and resume at Shea Stadium with games Tuesday if a fifth is needed.

Unless somebody has won four by that time they will take another day off Friday for that hop and a skip to Baltimore and pick it up again in Baltimore, Saturday, Oct. 18 and possibly, Sunday Oct. 19. Of course, any rain delay would stretch it out even longer. In the World Series any postponed game is played off the following day on the original site and the whole schedule is pushed back.

The Daily Iowan

SPORTS BRIEFS

Tuesday's I.M. Grid Results

Independent League
Intramural football continued its second week of action with the Spooks of the Independent League scoring their second win of the season 21-3 over the Valley Chiefs. Bill Mertens was again the hero for the Spooks as he scored three touchdowns and an extra point.

Maury Norman scored the Chiefs only touchdown. Each team's defensive unit produced a safety.

In the other Independent League game, the Rock Jocks defeated the Intras 16-12. Larry Scales was the key player for the Jocks as he scored 14 points. Joe Shanahan and Mike Flemming each scored a touchdown for the losers.

Social Fraternity League
The Social Fraternity League had some exciting games. Tau Kappa Epsilon highlighted play with a convincing 44-12 win over Kappa Sigma. Chris Larsen scored three touchdowns while passing for three others.

Jim Sjuln passed for both of the losers' touchdowns.

Sigma Alpha Epsilon edged by Pi Kappa Alpha, 24-20, in another league game. Four players scored touchdowns for the SAE's.

Phi Kappa Psi trounced Phi Kappa Sigma, 31-6. John Wilson, Craig Brownlee, Andy Fotis, Wally Mendenhall, and Eric Neilsen each crossed the goal line for Phi Kappa Psi.

The other Social Fraternity League game saw Steve McReavy pass for two scores while running for another, as Sigma Phi Epsilon defeated Sigma Nu, 19-13.

Quadrangle League
In Quadrangle League action, John Laisle's four tallies led O'Connor House past Mott House 32-20. Mike Brown scored 14 points for Mott House.

Mark Starr, Frank Coulter and Jim Benz scored touchdowns as Lucas House slipped by Larabee House, 19-6.

Rich Stater passed for two scores and ran for two others as Beardsley House smashed Cummins House, 26-6.

Rienow I League
Rienow I League saw Al Humble lead Floor 1 past Floor 4, 14-13. Howard Vaughn was a standout for Floor 4.

Floor 10 edged Floor 6 in the other Rienow I League contest.

Rienow II League
In a hard fought contest in Rienow II League, Floor 11 eased by Floor 6. Dave Messerly tallied twice for Floor 11.

Hope to End Wisconsin Home Jinx— Iowa Begins Preparation For Saturday's Big 10 Opener

Coach Ray Nagel's Hawkeyes returned to the practice field Monday to prepare for this weekend's Big 10 opener at Wisconsin.

The varsity regulars worked out in sweat clothes Monday before resuming contact drills Tuesday while the reserves dropped a 12-6 decision to coach Ted Lawrence's freshman in Monday's "Toilet Bowl."

Nagel said Tuesday three players would miss Saturday's game at Madison with another injured Hawkeye returning to the healthy list.

Offensive guard Chuck Legler and defensive end Bill Bevell will probably miss their third and second game respectively this fall, according to Nagel.

Also on the disabled list will probably be split end Dave Krull, who suffered a cut arm against Arizona and was found to have a chipped bone in his

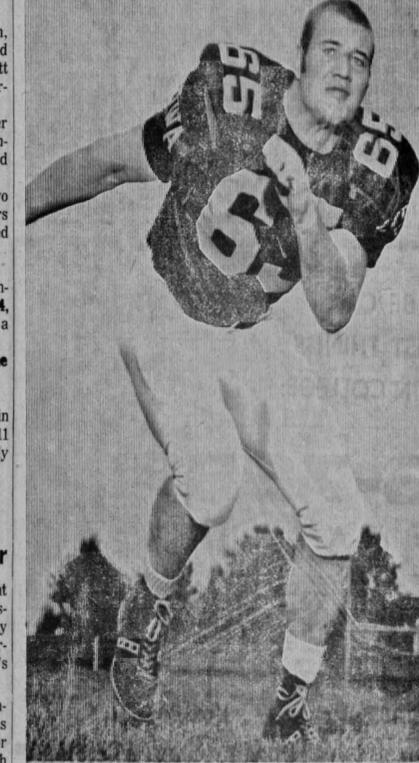

elbow Monday.

Middle guard Bill Windauer, who has been sidelined since Iowa's opening game loss to Oregon State with an ankle injury, is expected to be ready for the Wisconsin encounter.

The Hawkeyes spent most of Tuesday's session working on fundamentals and familiarizing themselves with the Badgers' offensive and defensive sets.

Nagel views Wisconsin as a serious challenge and remembers the famous "clock incident" at Madison two years ago. The clock's failure to stop at the proper time was instrumental in a 21-21 tie, and that is the only game the Badgers haven't lost in their last 23 outings.

"Wisconsin is obviously a better football team this year," says Nagel. "They have some exciting young running backs and they are scoring some

Bill Windauer, Iowa's 6-4, 235-pound sophomore sensation at middle guard, is expected to be ready for Saturday's Big 10 opener at Wisconsin. Windauer, who has been compared to Iowa's great All-American guard, the late Calvin Jones, missed the Washington State and Arizona games following an ankle injury suffered in the Oregon State tilt.

points. It's just a question of time before they break through and win one. I know they are aiming at us."

Since 1958, when Iowa won 20-9, the Hawks have lost four and tied one at Madison. Iowa has opened its Big 10 campaign 11 times against the Badgers and has won only once.

The Hawkeyes thrashed the Badgers 41-0 here last year but trail in the series that started in 1894. Wisconsin holds a 29-19-1 advantage.

IOWA ITEMS — Iowa's all-time record in Big 10 openers is 25-42-2. The Hawks are 13-14-2 at home and 12-28-0 on the road.

The Hawkeyes are averaging 538 yards a game and 6.5 yards per play. Last week, Iowa led the nation in total offense with an average of 577 per game.

Ray Manning's seven pass receptions against Arizona is a career high for the Wichita Falls, Tex., junior. Manning caught five passes in four different games last fall when he led Iowa with 35 receptions for the season.

Iowa has lost 11 fumbles in three games this year. Last season, the Hawks lost only 15 in 10 contests.

Eight of the touchdowns scored against Iowa this year have come in the air with three by running, one on a punt return and one on an interception return.

★ ★ ★

Tickets for Saturday's Iowa-Wisconsin football game at Madison are available at the Iowa Ticket Office in the Athletic Administration Building and will remain on sale only through this afternoon.

Hawkeye fans who do not have tickets and who may make a late decision to attend the game are advised that plenty of tickets will be on sale at the Wisconsin Stadium Saturday.

Choose a look. Norelco will help you keep it.

Choose any look. Make it yours. Then Norelco will help you keep it. Because no matter which look you choose, your beard still grows. It still needs to be trimmed and shaved. Norelco handles that.

Its pop-up trimmer will keep your whiskers and sideburns shaped the way you want them. The 3 floating heads will shave the parts of your face you want shaved. And inside the floating heads are 18 self-sharpening blades that shave as close or closer than a blade every day. Without nicks or cuts. The Norelco unique rotary action keeps the blades sharp while it strokes off whiskers. Every time you shave.

Then, when you're finished, you just push a button and the head flips open for an easy clean-up job.

Now make another choice. Choose the cord model or the Rechargeable. Both will help you keep your look. But the Rechargeable will let you do it anywhere. For up to three weeks. Because it gives you almost twice as many shaves per charge as any other rechargeable.

Look them over. The choice is yours.

Venture:
Use a love call
to count bacteria.

The *lampyridae* beetle family. Delight of small boys. Biological light bulb. And prime source of raw material for another Du Pont innovation.

Luciferase, an enzymatic protein with intriguing properties, obtainable only from fireflies. Luciferin, an organic molecule also found in fireflies, but synthesizable. Adenosine triphosphate (ATP), a common energy-yielding substance found in all living cells.

Those are the three main ingredients in *lampyridae*'s love light. And because ATP is common to all living cells, university researchers discovered they could produce an artificial glow by mixing luciferin and luciferase wherever life is present.

Noting that phenomenon, Du Pont scientists and engineers went on to develop it into a practical analytical system. Correlating the intensity of the artificial "glow" with the amount of ATP present in bacteria, they designed a means of measuring the reaction.

The result is the luminescence biometer—the first really basic improvement in bacteria-counting methods since the time of Louis Pasteur. Rather than waiting days for a culture to demonstrate growth density, a doctor or technician can now get a digital readout of bacteria concentration in a matter of minutes.

Other potentially lifesaving uses for the biometer are being suggested every day—such as diagnosing metabolic rates, enzyme deficiencies and nerve damage.

Innovation—applying the known to discover the unknown, inventing new materials and putting them to work, using research and engineering to create the ideas and products of the future—this is the venture Du Pont people are engaged in.

You can become one of them, and advance professionally in your chosen field. See your Du Pont Recruiter. Or send us the coupon.

VENTURES FOR BETTER LIVING.

Big 10 is Worried; Conference Rules Being Reassessed

CHICAGO (AP) — Reassessment of the Big Ten's rule structure by faculty representatives will be done after the football season, Commissioner Bill Reed said Tuesday.

"Such a reassessment has been made for several years and there never has been a change," he told Chicago football writers.

The question of the Big Ten's rule against red shirting, its comparative rigid stand on junior college transfers and its limit of 30 football grant-in-aid tenders came up in the wake of the conference's 12-16-1 showing against outsiders in football this season.

"I don't think the Big Ten is a disaster area," said Reed. "We have two teams No. 1 Ohio State and No. 9 Purdue in the top 10 rankings and this has been the same year in and year out."

The upswing of Big Eight teams against the Big Ten the last two seasons in particular was based possibly on the growing strength through red shirting — mothballing an athlete for a year for extra maturity.

The Big Ten was 0-4 against Big Eight football teams last season and is 0-6 this year as Oklahoma, Missouri twice, Iowa State, Nebraska and Colorado piled up impressive victories.

Reed admitted there is divided opinions on the red shirt rule among Big Ten faculty members but said "the majority is heavy against it."

As for increasing football tenders, Reed said the marginal benefits would not be as large as expected because the extra athletes coming in probably would not be able to hack the grades.

The junior college transfer rule varies. The NCAA permits eligibility for a transfer after one year if he maintains a B average.

The Pacific-8 permits eligibility after 1½ years, thus giving transfers the benefit of spring practices.

The Big Ten's eligibility is based on two full years at the same junior college. This eliminated spring drills for the transfers.

APPLING REJOINS CHISOX—CHICAGO (AP) — Luke Appling, whose 20-year playing career with the Chicago White Sox carried him into the Hall of Fame, is rejoining the Sox as a coach next season, President John Allyn announced Tuesday.

Dallas Cowboys' winners of their games this year in the National Football League Statistics released showed the Cowboys up an average of a game with a balance of running and passing and 212 passing first in rushing.

Minnesota is first with an average of

Atlanta Hawks

LOS ANGELES (AP) — Beatty, high scorer and ace of the Atlanta Hawks, jumped to the Los Angeles Stars of the American Football Association Tuesday said he will sit out this season.

"I signed because of security the contract Stars provided," said Beatty, who has a three-year contract with the Hawks since Sept. 30.

The Stars offered a pact with an undisclosed amount, but Beatty, 29, said the more than that he had under his expired pact with the Atlanta Hawks.

"I plan to wait a while and meanwhile keep myself in shape," said Beatty. "I didn't plan to wait with the Hawks this season," he replied. "I don't want any chance on getting injured so I could end my contract with Los Angeles."

Mississippi AP Back of W

NEW YORK (AP) — Quarterback Johnny Vaught, who got Johnny Vaught to pare quarterbacks, but say that Archie Manning was "the greatest player ever" by a quarterback seen."

And the Mississippi has seen some beautiful. Day, Glenn Griffith, Gibbs, all reached under Vaught. But matched the show Manning as Ole Miss a 33-32 heartbreaker bama.

Twenty-four national eastern Conference, and Alabama offensive fell as Manning completed 52 passes for 436 yards and two touchdowns and times for 104 yards. Miss' other three stars

For his 540-yard performance, Manning, a 6-foot-3 junior from Drew, named college football of the Week by The Press Tuesday.

Even though Alabama with Scott Hunter completed 29 for 300 yards. Bear Bryant was Manning's show.

"To think that records could be set," said the Bear, "is stingy defensive under what folks like Jordan now a pro would say about it."

"The honor makes real good," Manning said. "I'd feel better if it were my game. I thought it was a tremendous job at some honor, too."

Manning was praised for all corners.

"We're real fortunate to have a very fine receiver. And our offense has been great a turday night was job."

Dallas Cowboys

NEW YORK (AP) — Cowboys' winners of their games this year in the National Football League Statistics released showed the Cowboys up an average of a game with a balance of running and passing and 212 passing first in rushing.

Minnesota is first with an average of

Iowa's Lawrence, Clemons Named to 'Hawkeye Club'

Two Hawkeyes share the honor of being the first two members of the Iowa football "Hawk Club." Craig Clemons, a sophomore defensive back, and Larry Lawrence, Iowa's junior quarterback, became the first two members of the club, now in its second year. Both received the honor to wear Hawkeye decals on the side of their helmets following Iowa's 31-19 victory over Arizona.

Hawk decals in numerous ways. For each decal, the individual must earn four letters, spelling the word H-A-W-K. These letters are placed on the back of the player's helmet. When a player earns five letters, he receives the Hawk decal. However, letters can be taken away also. There is one change in club rules this year. No letters are given if the team lost. Therefore, the team members have had only two games in which

to receive letters this year. Here is how the point system is set up:

OFFENSE

- A pass receiver who catches six or more passes or more than 100 yards gained on pass receptions;
- Scoring a touchdown or field goal;
- Gaining 100 yards or more in total offense;
- Throwing a key block;
- A touchdown pass or 60 per cent completion average by a quarterback;
- On passes completed on 10 or more attempts;
- Gaining 180 yards or more on passes completed on 10 or more attempts;
- Gaining 100 yards rushing;
- Throwing two blocks on one play;
- Recovering an opponent's fumble;
- A 35-yard punt from line of scrimmage to point of return;
- Making a tackle on a punt before the returner gets more than three yards;
- Or gaining 35 yards or more

on a kickoff return. Points are lost on offense for throwing an interception or fumbling.

DEFENSE

- Intercepting a pass;
- Breaking up a pass;
- Creating a fumble;
- Recovering a fumble;
- Blocking a punt;
- Blocking a field goal or extra point;
- Scoring on a touchdown or safety;
- Leading unassisted tackler (lineman);
- Leading unassisted tackler (linebacker);
- Tackling the returner inside the 20-yard line on a kickoff;
- Kicking off into the end zone;
- Knocking down a pass (linebacker);
- Throwing the ball-carrier for a loss of seven yards or more;
- Or punt return of 30 yards or more.

The entire punt return team earns a letter on a punt return for a touchdown.

Atlanta Hawks' Zelmo Beaty Jumps to ABA's L.A. Stars

LOS ANGELES (AP) — Zelmo Beaty, high scorer and rebounding ace of the Atlanta Hawks, jumped to the Los Angeles Stars of the American Basketball Association Tuesday and said he will sit out his option this season.

Beaty's contract becomes effective for the 1970-71 season but he already has moved his family from Atlanta to Los Angeles.

Other league switchers, such as Billy Cunningham moving from Philadelphia to Carolina effective in 1971, and Dave Bing, from Detroit to Washington, have indicated they'll continue to play in the NBA this season.

In Atlanta, a spokesman for the Hawks said, "We have filed suit against Beaty to keep him from playing with anyone else and a hearing on the suit comes up in Fulton County Atlanta Superior Court on Thursday."

The spokesman said Beaty was served with the court action more than two weeks ago. The player, however, said in Los Angeles that he had not been served.

"I signed because of the security the contract with the Stars provided," said the 6-9 star whose three-year contract with the Hawks expired Sept. 30.

The Stars offered a four-year pact with an undisclosed salary. Beaty, 29, said the money was more than that he had received under his expired pact with Atlanta.

"I plan to wait a year and a day meanwhile keep myself in physical shape," said Beaty. Asked why he didn't plan to compete with the Hawks this season, he replied, "I don't want to take any chance on getting myself injured so I could not fulfill my contract with Los Angeles."

Beaty averaged 21.5 points for Atlanta last season with 798 rebounds. He'll be 30 on Oct. 25 and has played seven seasons in the NBA after finishing his collegiate career at Prairie View A&M. Twice he has been named for the NBA All-Star game.

10 is Worried; Conference Rules Being Reassessed

NEW YORK (AP) — You'll never get Johnny Vaught to compare quarterbacks, but he did say that Archie Manning's record-smashing evening Saturday was "the greatest performance by a quarterback I've ever seen."

And the Mississippi coach has seen some beats. Eagle Day, Glynn Griffing, Jake Gibbs... all reached stardom under Vaught. But none ever matched the show put on by Manning as Ole Miss dropped a 33-32 heartbreaker to Alabama.

Twenty-four national, Southeastern Conference, Mississippi and Alabama offensive records fell as Manning completed 33 of 52 passes for 436 yards and two touchdowns and carried 15 times for 104 yards and Ole Miss' other three scores.

For his 540-yard performance, Manning, a 6-foot-3, 196-pound junior from Drew, Miss., was named college football's Back of the Week by The Associated Press Tuesday.

Even though Alabama won — with Scott Hunter completing 22 of 29 for 300 yards — Coach Bear Bryant was stunned by Manning's show.

"To think that offensive records could be set against us," said the Bear, noted for his stingy defensive units. "I wonder what folks like Lee Roy Jordan now a pro linebacker would say about that."

"The honor makes me feel real good," Manning said, "but I'd feel better if we'd won the game. I thought Hunter did a tremendous job and deserves some honor, too."

Manning was lavish with praise for all concerned.

"We're real fortunate to have very fine receivers," he said. "And our offensive linemen have been great all year. Saturday night was their best job."

Dallas Cowboys Tops in Offense

NEW YORK (AP) — The Dallas Cowboys' winners of all three of their games this season, are sitting the pace in total offense in the National Football League.

Statistics released Tuesday showed the Cowboys have rolled up an average of 394 yards per game with a balanced mixture of running and passing. They have averaged 182 yards rushing and 212 passing. They are first in rushing.

Minnesota is first in passing with an average of 273 yards.

Atlanta Hawks' Zelmo Beaty Jumps to ABA's L.A. Stars

LOS ANGELES (AP) — Zelmo Beaty, high scorer and rebounding ace of the Atlanta Hawks, jumped to the Los Angeles Stars of the American Basketball Association Tuesday and said he will sit out his option this season.

Beaty's contract becomes effective for the 1970-71 season but he already has moved his family from Atlanta to Los Angeles.

\$10,400.00 EXTRA CASH

WHENEVER YOU GO TO THE HOSPITAL

- Only 25¢ covers your entire family for the first month

- ★ Pays you extra cash at the rate of \$100.00 a week for as long as 104 weeks...for each hospital stay
- ★ Guaranteed renewable for life. At last—a hospital plan that guarantees never to cancel your protection no matter how old you get or how many claims you make

- ★ Pays all cash direct to you (not to the doctor or hospital)
- ★ Pays in addition to any other companies' coverage you have—including Medicare
- ★ No age limit—no medical examination required
- ★ No salesman will call

ACT NOW—YOUR ENROLLMENT FORM MUST BE MAILED BY MIDNIGHT THURSDAY, OCTOBER 9, OR IT CANNOT BE ACCEPTED

ONE out of two families will have someone in the hospital this year! It could be you—or some beloved member of your family tomorrow...next week...next month. Sad to say, very few families have anywhere near enough coverage to meet today's soaring hospital costs. These costs have doubled in just a few short years. They are expected to double again in the few years ahead.

Stop for a moment. Think how much a long stay in the hospital will cost you or a loved one. How would you ever pay for costly, but necessary, X-rays, doctor bills, drugs and medicines? What would you do if your pay check stopped, but living expenses kept on going the same as ever? The same rent, phone, food, all the day-to-day expenses that never stop.

What is the average breadwinner to do? We believe we have the answer in the famous Presidential Extra Cash Hospital Plan that...

Pays you \$100.00-a-week tax-free cash whenever you are hospitalized.

What a blessing it is when you know you have an extra \$100.00 cash coming in every week—beginning the very first day you enter the hospital.

Now, Presidential's economy plan enables you to enjoy this protection at once. Your special low price is just 25¢ for the first month's coverage for your entire family. Then continue at regular low added rates.

The additional protection you NEED!

All benefits of this Presidential \$100.00-A-WEEK Hospital Plan are paid directly to you, in tax-free cash, in addition to whatever you may receive from your insurance with any other company! Spend the money as you see fit—for hospital or doctor bills, mortgage payments, to replace savings—or any necessary but costly extras not covered fully by usual hospital policies.

You get your \$100.00 per week—TAX-FREE—from your first day in the hospital, and as long as you are confined there, even for 104 weeks, if necessary. And, when you and your insured spouse are hospitalized at the same time for an accidental injury, Presidential pays out an EXTRAORDINARY DOUBLE-CASH BENEFIT. You receive not \$100.00, but \$200.00 a week. Your spouse receives not \$100.00, but \$200.00 a week. That's \$400.00 in all, in cash payments to you every week while you both remain in the hospital...even for as long as 2 whole years.

We can never cancel your policy!

You can count on Presidential's generous protection no matter how old you get or how many times you collect from us. It is written into your policy that we cannot cancel your protection after you've made a lot of claims, or become old—or both. It is **GUARANTEED RENEWABLE FOR LIFE!**

And that's not all. Suppose you have a growing family—this special Presidential Plan (HP35L-868)...

PAYS up to \$10,400.00 CASH for each accident or illness, starting the very first day in the hospital.

PAYS up to \$10,010.00 CASH if you're 65 or over—at the rate of \$70.00 A WEEK for first 13 weeks, and a full \$100.00 weekly while you remain in the hospital thereafter, (for 91 more weeks if necessary)...in addition to whatever benefits you receive from Medicare.

PAYS up to \$41,600.00 CASH when both husband and wife are hospitalized at same time for accidental injury, for as long as both remain in the hospital—at the rate of \$400.00 A WEEK.

PAYS up to \$2,000.00 CASH for complete accidental loss of limbs or eyesight.

PAYS \$100.00-A-WEEK CASH for each pregnancy requiring a hospital stay, when both husband and wife are insured for the entire pregnancy and have Coverage for Children and Maternity Benefits.

PAYS up to \$6,240.00 at the rate of \$60.00 A WEEK when a child goes to the hospital for any accident or illness (when Coverage for Children has been added to the basic plan).

65 OR OVER? YOU COLLECT UP TO \$10,010.00 CASH IN ADDITION TO MEDICARE BENEFITS

We have designed this plan as the important addition to whatever is paid by Medicare—or health insurance you may have in any other companies. Remember, all checks will be sent directly to you (not to the doctor or hospital), to give you that "extra" help just when you need it most. Use the tax-free cash any way you see fit. And you will be glad to know the checks will be big ones! In addition to what is paid by Medicare, Presidential pays you \$70.00 a week for first 13 weeks, and a full \$100.00 weekly while hospitalized thereafter...for an additional 91 weeks if necessary! You can receive as much as \$10,010.00 for each new illness or injury when hospitalized!

Pays you \$100.00-a-week cash maternity benefits!

Ordinary hospital insurance may take care of part of your expenses when you go to the hospital to have a baby. But what policy can you think of that gives you cash to help buy all the things you need for the new baby? Now, if both husband and wife are insured for the entire pregnancy and have added Coverage for Children and Maternity Benefits, you get extra cash to use any way you want. If a pregnancy, childbirth or even miscarriage puts you in the hospital for one day, five days, 10 days—as long as necessary—you get \$100.00 a week for every day of your confinement.

All these added cash benefits.

Added cash benefits: Up to \$2,000.00 cash for accidental loss of limbs or eyesight, when the loss occurs any time within 90 days of the accident. Nothing can replace such a loss, but a check for \$1,000.00 or \$2,000.00 brings peace of mind during the period of adjustment.

Added cash benefits: Choose Coverage for Children (with or without Maternity Benefits) and all your dependent, unmarried children from ages one month through 18 years will be covered, too! Presidential pays up to \$6,240.00, at the rate of \$60.00 a week, when your youngster is hospitalized...for removal of tonsils, appendix or any other illness or injury. Yes, you will receive \$60.00 a week cash, week after week while the child is in the hospital, even for as many as 104 weeks!

We pay your premiums when you are not able.

If you—the person to whom the basic policy is issued—are hospitalized just 8 weeks or more, all premiums for you and all Covered Members that come due while you are still in the hospital after this period will be paid by Presidential. And your protection continues as if you were paying the premiums yourself! Then if you leave the hospital and must return for the same condition before you have resumed full normal activities for 180 days, Presidential will again PAY ANY PREMIUMS WHILE YOU ARE IN THE HOSPITAL—for as long as 104 weeks—for the total confinement! This means you pay no premiums, yet your full protection remains in force—you collect a maximum of \$10,400.00 for the confinement!

These are the ONLY exclusions!

Your Presidential Policy covers every conceivable kind of sickness or accident except conditions caused by: war or any act of war; any mental disease or disorder; pregnancy, except as provided under the Maternity Benefit provision; and expenses resulting from any sickness or injury you had before the Effective Date of your Policy...during the first 2 years only.

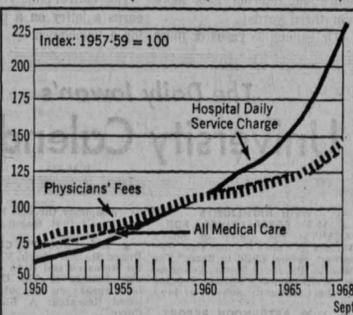

This last item is a real help if you already have a health problem. If you are sick before you take out this Policy, you will even be covered for that condition after the Policy has been in effect for 2 years. Meanwhile, of course, every new condition is covered immediately! You are covered for care in the hospital of your choice, except, of course, a U.S. Government hospital or nursing or convalescent facility.

Why you must act before the date shown on your Enrollment Form—Just a few days from today.

Why do we give you so little time to apply for your insurance policy—only a few days? Because this is a special Enrollment

Medical Costs Skyrocketing!

(Source: U.S. Dept. of Health, Education & Welfare)

Govt. figures reveal your present health protection... may no longer protect you against today's rising medical costs! Don't leave your loved ones defenseless! Act at once to add coverage that provides to a maximum of \$10,400.00 health protection for only 25¢ for the first month for entire family.

Period—and we must receive your Enrollment Form the same time as all the others in order to pass on to you the savings that come from processing many policies at one time. This highly efficient "Mass Enrollment" method cuts costs to the bone—and the savings are passed on to you!

We mail you the Policy as soon as we receive your Enrollment Form. When the Policy arrives, examine it in the privacy of your own home. Take all the time you need. It's a very short document, and you'll be pleasantly surprised to discover there is NO FINE PRINT. Then—show it, if you wish, to someone you trust. Perhaps your lawyer, accountant, or doctor. Better still—show it to your own insurance man...even though he may very well be working for another company! If he is a personal friend, he has your best interests in mind. So you can believe him when he tells you there is no better bargain available anywhere—at any price!

GRATEFUL POLICYOWNERS WRITE...

"Let me say the full payment as per the policy was most gratifying. There was doubt in our minds for some time especially where we started with only a first payment of 25¢, but that doubt now has been completely erased. The settlement definitely was in full payment for the time in the hospital and our sincere thanks for the check."

LETHA SCHRECKENGAST, Cedar Rapids, Iowa

"Just a few words to thank you for the prompt manner in which you settled my claim. I certainly will recommend Presidential Life Ins. to my friends."

MRS. SYLVIA LEVIN, Los Angeles, California

Presidential Life rated "A+ Excellent"

Dunne's Insurance Report, the world's largest reporting service, gives Presidential a rating of A+ EXCELLENT. There is no higher rating a company can attain!

Money-Back Guarantee—

in case you change your mind.

Even after you mail your Enrollment Form below... even after you examine the Policy in your own home and talk it over with anyone you wish... even after all this you are still free to return the Policy within 15 days of the date you receive it, and your quarter will be refunded at once. There will be no obligation whatever.

Meanwhile, all during the 15 days you are making up your mind—you'll be protected by \$100.00-A-WEEK extra cash benefits just as if you had already said "yes." That's right, you will be covered all this time for any accident or illness which puts you in the hospital, even if you finally decide to return the Policy.

However, after you've seen the Policy for yourself, you will surely agree that this is a tremendous value and you'll want to continue this \$100.00-A-WEEK extra cash protection.

HERE ARE YOUR LOW RATES—

The following rate chart shows how little it costs after the first month to cover yourself, your spouse, and any adult dependents. Naturally, at these low rates, we can issue only one policy of this type per person. Each adult—16 or over—pays (per person) the rate shown for his or her age.

Age at Enrollment	Monthly Premium Per Adult
16-44	only \$3.45
45-49	only \$3.95
50-54	only \$4.45
55-59	only \$4.95
60-69	only \$5.95
70-74	only \$6.95
75 and over	only \$8.95

Only \$2 more covers all your dependent, unmarried children...

from the ages of one month through 18 years. And then, if you wish, just add \$1 more to that, and you're covered for Maternity Benefits, too! Newborn children are covered automatically at the age of one month—at no additional cost!

NOTE: The regular Monthly Premium shown here (for age at time of enrollment) is the same low premium you will continue to pay. It will not automatically increase as you pass from one age bracket to the next! Once you have enrolled in this Presidential plan, your rate can never be changed because of how much or how often you collect from us—or because of advanced age—but only if there is a general rate adjustment, up or down, on all policies of this type in your entire state!

Act NOW—'Later' May Be TOO Late!
Just 25¢ covers your whole family for the first month.

TIME IS PRECIOUS! Act quickly. (No salesman will call.) Get your Enrollment Form into the mail today—because once you suffer an accident or sickness, it's TOO LATE to buy protection at any cost. That's why we urge you to act today—before anything unexpected happens.

THESE 19 QUESTIONS AND ANSWERS

Tell us how Presidential's EXTRA CASH HOSPITAL PLAN gives you the protection you need—at amazingly low cost!

- How much will my Policy pay me when I go to the hospital? \$100.00 per week—to the full maximum of \$10,400.00 cash. If you're over 65, you collect to a maximum of \$10,010.00 cash benefits on top of any Medicare benefits. \$70.00 a week for first 13 weeks, and \$100.00 weekly while you remain continuously hospitalized afterwards, for a maximum of 91 additional weeks! You collect cash not just for yourself, but for all covered members of your family when they are hospitalized!
- When do I collect \$2,000.00 extra cash for accidents? We pay you \$1,000.00 extra cash for complete accidental loss of one hand or one foot or sight of one eye, and \$2,000.00 extra cash for loss of both hands or both feet or sight of both eyes—even if the loss occurs as long as 3 months after the accident.
- What if I am hospitalized by the same illness—again? You still collect your \$100.00-a-week extra cash to the full maximum of \$10,400.00. You need only to have resumed full normal activities for just 180 days—that if you're hospitalized for the same illness you begin to collect all over again.
- If I receive more money than my total medical bills—do I keep the "extra cash"? You certainly do! We always pay you the full \$100.00 a week—all the way to the maximum of \$10,400.00 cash. If your bills add up to just part of that amount, you still keep every dollar of the extra cash—tax-free! That's why this Policy's called an extra cash plan. It's perfectly possible under this plan for you to come out of the hospital with extra dollars you can use for bills, rent or anything else. And if you already have some health or hospital insurance—all the better for you. Because we pay you anyway, on top of what they pay you! On top of Blue Cross, Major Medical, Workmen's Compensation, or whatever insurance policy you have with other companies.
- Will you pay me \$100.00-a-week cash—even for pregnancy? Yes! Many health plans don't cover pregnancy. But we do, when Coverage for Children and Maternity Benefits are added to the basic plan. You collect maximum cash benefits of \$10,400.00—for pregnancy, childbirth, or miscarriage that results in a hospital stay. (Both parents have to be enrolled in this plan for entire pregnancy period.)
- Do you pay me cash even for my children, too? And... for my "future" children? You collect \$60.00-a-week cash anytime your child goes to the hospital, when Coverage for Children is added to basic plan. A maximum of \$6,240.00 each time any dependent, unmarried child (ages 1 month through 18 years old) is in the hospital for sickness or injury. And if you have a growing family—as soon as your newborn child's one month old, he too is covered—automatically...at no additional cost to you.
- Are there times I might collect as much as \$20,800.00—as much as \$41,600.00? There are! Remember, we pay cash not just for you, but for every covered member of your family. So if you or your spouse are hospitalized more than once...or even both of you more than once...or if a child gets sick or has an accident—you could end up collecting \$20,800.00 or more! And that's not the whole story. Presidential gives policyowners an EXTRAORDINARY DOUBLE-CASH BENEFIT. If you and your covered spouse are both in an accident and go to the hospital at the same time...Presidential pays you \$400.00-a-week extra cash. The amount is paid for as long as both of you remain in the hospital. Even for as long as 104 weeks! You receive up to a maximum of \$41,600.00—to pay for doctor and hospital bills and other expenses resulting from one accident alone!
- Can I spend my cash benefits any way I please? Yes! Spend the money any way you choose. Use it to pay your hospital, doctor and nursing bills. Use it to pay for rent, food, clothing. Or put it in the bank to replace any savings spent during your hospitalization. All cash comes direct to you (not to doctor or hospital unless you request it) so you alone decide how it is to be spent!
- Must I pay taxes on the money you send me? Certainly NOT! Every dollar we send you is 100% tax-free.
- Am I ever allowed to stop paying premiums during a long stay in the hospital—yet still remain fully covered? Yes, you are! All premiums that come due after you—the person to whom the basic Policy is issued—stop paying after the first 8 weeks or more...do not have to be paid by you! Yes, even if you are in for months, a year or longer! We pay all premiums for you, and for all covered members of your family, too, while you remain hospitalized. You aren't expected to pay us back either.
- How can you give me so much—for so little? Because you buy your Policy directly from the company. You don't deal through middlemen, who eliminate costly processing charges and "red tape" that are included in the cost of most insurance. That's the reason why Presidential can provide you with exceptional high-savings health insurance protection—including a full month's coverage for your family for only 25¢!
- How do I go about submitting a claim? We invite you to contact CASH BENEFITS HEADQUARTERS direct. Whether you want to submit a claim, or just ask us a question, don't hesitate to contact us. As a Presidential policy owner, you are entitled to prompt, courteous and direct attention at all times...and you will get it.
- Because Presidential costs less...do I get less protection? Absolutely not. You get more! \$100.00 weekly cash payments for a maximum of 2 years for each hospital stay. And that goes for all covered members of your family. Yet all you pay to get this Policy in force for one month is...25¢. And if you want, continue this protection afterwards at the regular low Presidential rate! That's why we urge you—for your own satisfaction—to compare these big cash benefits with any comparable policy issued by any other insurance company...anywhere. Naturally, at these low rates, we can issue only one policy of this type per person.
- Now tell me what's the "catch"—what doesn't my Policy cover? Get ready for a welcome surprise. Your Policy covers everything except conditions caused by: war or act of war; mental disease or disorder; pregnancy except as provided under the Maternity Benefit provision; and any sickness or injury you had before the Effective Date of your policy—but even this last "exclusion" is done away with after you've been a policyowner for only two years. Everything else is definitely covered. You are covered for care in the hospital of your choice, except, of course, a U.S. Government hospital or nursing or convalescent facility.
- Will you cancel my Policy if I make too many claims? Or because of age? No! We positively not! Only you can cancel. The company cannot—no matter how many claims you have...how old you get or for any other reason whatsoever. A GUARANTEED-RENEWABLE-FOR-LIFE clause has been written into your Policy.
- If I'm hospitalized less than a week—do you still pay in full? Yes! We pay you every week you're hospitalized. There's no "waiting period" before you start collecting.
- What are the requirements to enroll in this Extra Cash Hospital Plan? You must not have been refused or had cancelled any health, hospital or life insurance due to reasons of health; and to qualify during this Enrollment Period—you must enroll before midnight of the date shown in the Enrollment Form.
- Besides saving money—are there any other advantages of joining Presidential during the Enrollment Period? Yes! A very important one is that you don't need to complete a lengthy, detailed application—just the brief Enrollment Form in the corner of this page. Also during this Enrollment Period there are no extra requirements for eligibility, and no "waivers" or restrictive endorsements can be put on your Policy!
- How do I enroll? Fill out the brief Enrollment Form and mail it with just 25¢ for the first month's protection for your entire family. Mail to: The Presidential Life Insurance Company of America, 11401 Roosevelt Blvd., Philadelphia, Pa. 19154.

To the best of my knowledge and belief neither I nor any person listed above has been refused or had cancelled any health, hospital or life insurance coverage due to reasons of health. I hereby apply for the Extra Cash Hospital Plan. I understand that I, and any person listed above will be covered under this Policy for a recurrence of any injury or sickness I (we) had before the Effective Date of this Policy after two years from Effective Date, but not before, and that this Policy shall not be in force until the Effective Date shown in the Policy Schedule. I am enclosing \$2.25 for the first month's premium for coverage for myself and all other Family Members listed above.

Signature X Date

MAIL THIS ENROLLMENT FORM BEFORE MIDNIGHT, THURS., OCT. 9, 1969
