Iowa House Minority Leader Gannon Calls for State to Outlaw Use of DDT

Iowa State Minority Leader William H. Gannon (D-Moline), Monday night called for an end to the use of the long-used insecticide in Iowa.

Gannon, in a floor speech, said Tuesday morning that the Iowa State Civil权 Committee had decided to oppose the continued use of DDT.

"We believe that the continued use of DDT is not only bad for the environment, but also bad for our economy," Gannon said.

"DDT is a pesticide that is highly toxic and it has been linked to cancer, birth defects, and other health problems," Gannon added.

"We need to find a safer alternative to DDT," Gannon concluded.

The Jus-relary of Health, Education by Taylor County, Florida, to write down the messages. We keep in the National Security Council, which can be highly sensitive. Our plan is to improve a situation, and to discuss problems in a more open, transparent, and restrained manner than in the past. The council would be set up to discuss issues of national security, but it would not be a new entity. We will continue to review the emergency at the White House. The council would keep the president informed and make recommendations on national security issues. It will also advise other agencies, the United Nations, and the president in the future.}
