Currier Women Enforce 24-Hour Visitation Code

The women of Currier Hall say they voted their new secondary code into effect Thursday, after receiving intercollegiate policy interferences from their peers. From 10 a.m. to 11 p.m. as a precaution, the students from the dorm are allowed only not to be on the hallway, but to stay in their rooms. The policy was initiated by Residence Council Chairman Geraldine Burke.

Another Gate

Reins senior, Miss Burke explained, that the hall was still in its初级 stage and should be at least 60 miles an hour.

The new African nation of Biafra became a political entity under Col. Odumegwu Ojukwu in 1966, after the Northern Nigerians massacred over 20,000, maimed over 100,000, and robbed over 1,000,000 citizens of the Eastern Region (now Biafra). The Biafran people are engaged in a war for their own self-determination and for freedom from Nigerian terrorism. Despite their lack of weapons, the people have managed to maintain their independence. But they desperately need food and medical support. By early 1969 roughly a million Biafrans had died. The children and the very old are the main victims of starvation.

The Biafran Drive Committee is presenting a documented film on the crisis, in the hope of gaining public support for Biafra. The film will be shown in the Minnesota Room of the Union this Thursday, Dec. 4, at 2:00, 3:00, 4:00, and 5:00. There is no admission fee. Throughout this month petitions will be circulated on campus which will be sent to Iowa senators Miller and Hughes and President Nixon. The petitions will demand that they discuss possibilities of a cease-fire and the sending of medical supplies to the Biafran people. The petitions will also ask that this country recognizes the government of Biafra.
Possible Shutdown In Railroad Dispute

WASHINGTON D.C.-Negotiations in a nationally important railroad dispute began today on an operate national scale after under the threat of a national railroad shutdown if an agreement isn't reached.

"If bargaining continues as it has for the past two months there is no question the nation's transportation will be severely disrupted unless a settlement is reached," Thomas said.

But, Secretary of State John H. Dulles said he believed the efforts to reach an agreement were just beginning.

David W. Winninger, chief negotiator for the railroad workers, threatened 48-hour railroad stoppage of "every train on every line, on every track, involving every railroad company from coast to coast." He would initiate the strike on 5:30 a.m. Wednesday.

"We will prepare a report by 5 p.m. today for the President," Dulles said.

The unions, which have been in a wage dispute with the railroad companies since 1968, have been seeking a 27 percent increase in wages.

The unions, which have been in a wage dispute with the railroad companies since 1968, have been seeking a 27 percent increase in wages.

Dulles said he did not think the strike was imminent, but added "this is not the sort of situation which is conducive to a peaceful solution." He predicted that the talks would continue at least until midnight.

Viet Senator: No Proof

Of My Lai Slaughter

By Nina Simone

The U.S. Army has charged Colonel W. Early, of Sanibel, Fla., with the personal leadership of troops responsible for the "massacre" of Vietnamese civilians in My Lai.

"We will prepare a report for the President," Dulles said.

Dulles said he did not think the strike was imminent, but added "this is not the sort of situation which is conducive to a peaceful solution." He predicted that the talks would continue at least until midnight.

"The United States has the power to bring about a peaceful solution," Dulles said.

Superintendent Says Schools Must Remain Non-partisan

From several Spells to the name of Jack O'The Hills, young people from across the country have been raising political parties, working for their candidates, a school superintendent said at the school meeting Thursday.

"There is no longer a party in the country," the superintendent said. "The country has changed and the schools should change with it."

Here's your chance to learn computer programming from professional programmers.

There are a lot of computer networks around today, but one can make the training you get at ECP. We know what it is to learn computer programming in a professional setting.

Our instructors are computer specialists who teach us about today's technology. They teach computer language courses on IBM, HP, and Texas Instruments computers. They have a background in computer science and are able to teach you the skills you need to succeed in the computer field.

WE HAVE A 100% SATISFACTION GUARANTEE. Our instructors are knowledgeable and will work with you to meet your individual needs. Our courses are designed to help you get the job you want.

Ohio State, Illinois, Hawks Next in Line—

Purdue Huge Favorite in Big 10

Bretta's Note — This is the start of a series of stories on the outlook of Big 10 basketball teams. The list is the result of a poll conducted by the newspapers of the independent Big Ten Basketball writers.

By HAKE SLATKIN

Last year Purdue, Ohio State and Illinois each started the season as the Big 10 favorite. It didn't work out that way. This year is a different story. Purdue and Illinois are still favorites, but not by much. Ohio State is a close third.

The Purdue Boilermakers, led by the guard Jerry Herdman, are the overwhelming favorite to win the Big 10 and perhaps even the NCAA title. The Boilermakers are expected to be a strong team this year, with Herdman expected to lead the way.

Army Continuing Research Into Germ Warfare Defense

WASHINGTON — As Jean Mayer, organizer of the annual White House Conference on Food, Nutrition and Health, tends to speak in aphoristic style, "The really poor can't afford it. The really rich can't afford to." Mayer, who earlier this week expressed concern that current anti-poverty programs would not reach the truly poor, is determined to do something about it.

"We need to change the way we think about poverty," Mayer said. "We need to think about the really poor and the really rich."

Mayer said that anti-poverty programs should focus on those who are truly poor, those who are truly rich, and those who are neither. He also said that anti-poverty programs should be designed to help those who are really poor, and that those who are truly rich should be encouraged to give to those who are really poor.

Mayer said that current anti-poverty programs are too focused on those who are not really poor, and that this is why they are not effective. He said that anti-poverty programs should be designed to help those who are really poor, and that those who are truly rich should be encouraged to give to those who are really poor.

for a moment

in November

it was summer...

Even in America, the Indian Summer of life should be a little sunny and a little sad, like the season, and infinite in wealth and depth of tone — but never hurried.

—Henry Brooks Adams

Photographs by Sister Christian Molidor
Construction Starts On 2 UI Buildings

Construction work has begun on two University of Iowa buildings. Work on both buildings is expected to be completed by July 1.

The first building is scheduled for completion in less than one year. It will be the new Dental Building.

The second building is scheduled for completion in less than one year. It will be the new Nurses College Building.

The new Dental Building will be located on the southeast corner of the University of Iowa campus. It will be used to house the College of Dentistry.

The new Nurses College Building will be located on the northwest corner of the University of Iowa campus. It will be used to house the College of Nursing.

Both buildings are expected to be completed by the end of the academic year.

The total cost of the two projects is estimated to be approximately $40 million.

EDITOR'S NOTE — This is the first of three articles about the problems faced by the state's building and maintenance departments. The articles will be published in the next three weeks.

The first article will focus on the state's building and maintenance departments. The second article will focus on the state's transportation departments. The third article will focus on the state's education departments.
New, Specific Budget System To Be Started by 1971 at UI

A new budgeting system, which will be used for appropriations requests in the legislative sessions, for the state university, is expected to be in use by the end of this academic year.

"The system is known as the "program budgeting" system," said R. W. Schneider, secretary of the Board of Regents. "The system is expected to be in use by the end of the year." The system is expected to be in use by the end of the year.

The program budgeting system is a new approach to government spending. It is designed to provide a clearer picture of the costs of the institutions. The system is expected to be in use by the end of the year. The system is expected to be in use by the end of the year.

Hugh Harris, assistant professor of international relations, said there would be no change in the United Nations, which the students had assumed would happen.

Harris explained his position: "I believe that the United Nations is the only effective organization in the world today. It has been able to bring about peace in many conflicts, and it has helped to prevent wars in the future."

The debate was a heated one, with both sides arguing their points strenuously.

The resolution passed unanimously, with only one abstention.

Following the debate, the students cleared the table and returned to their studies.
