Iowa City Police Court is located in the Municipal Building, City Hall, and City Hall Annex.

Currently, police court is held in the Municipal Building. The building was first occupied in 1910, and it has been used for various purposes over the years. However, the building is no longer large enough to meet the needs of the Police Court.

The court was originally located in the central part of the building, but it was later moved to the west wing. The current court room is located on the second floor. The building's history is well documented and it is a valuable resource for anyone interested in the history of Iowa City.

The Iowa City Elementary School, above, is a splendid example of the sub-Gothic architecture (note the breathtaking fire escape) which grew out of the pre-Coolidge Renaissance. It was in this handsome structure that State Senator Homer Quackenbush graduated in the upper 65 per cent of his class.

The Principal, Miss Rosetta Stone, is Iowa City's most renowned local authoress. Her published work includes four letters to the Des Moines Register and 19 poems in the monthly newsletter of the Iowa Hog Association.

Here is a close-up of the famous ashed fire escape, above, Iowa City's most popular social attraction. The early Ban-hua influence is evident in the severe geometric approach and the stark simplicity of the adjoining drain pipe. The escape was used only once during a drill in 1944, at which time 14 children suffered permanent vertigo.

The lyric romanticism of Iowa City's WPA period is reflected in this neo-baroque bridge, below, built in 1932 by the Quackenbush Construction Co. at a cost of $295,000, a figure which caused several "investigations" instigated by State Senator Homer Quackenbush's powerful political enemies in the Capital.

Flood River is now the Water Sports Center of Iowa during the summer; the town's younger social set can be seen frolicking on the muddy banks.
The Art and History of Iowa City

As the Christmas shopping days grow fewer, the mailing pieces urging students to send money immediately for an "important" book about Titian, Greece, Reptiles or Peruvian Relics increase. Each book is advertised as a "gallery of hundreds of full-color illustrations" which every red-blooded person (hoping to be blue-blooded) on the mailing list is "especially selected to see an advance copy"... because, naturally, every student is "one of the people vitally interested in today's cultural renaissance."

The productions are actually adult comic books designed exclusively to part the Avant Garde from his cash. You pay the "special pre-publication price" of $9.95 or $19.95 and you obtain said book to presumably become an expert on Tintoretto, Rome or whatever. Quack culture is a booming business. The major effort involved is having mail order specialists design a full-color mailing piece to send to several hundred names on a rented list. It's such a good idea, there's no reason why THE DAILY IOWAN shouldn't jump on the bandwagon and present for the students' shopping spree a really "important" book: "The Art and Culture of Iowa City."

A handsomely illustrated guide to the splendors and excesses of the fabulous culture center of the "Wild Rose" State, whose adventurous story as told in this magnificent volume is an excursion of the human spirit in the glorious American Heritage... Hundreds of photographs of local artifacts such as telephone poles, beer cans, parking meters. Biographies of famous Iowa characters such as State Senator Homer Quackenbush. Learn the exotic practices and rites of the 4-H Clubs. Read the primitive initiation ceremonies of the campus "Greeks". See unretouched photographs of the native women as they go "shopping" in the nationalistic garb which leaves the lower limbs bare and exposes naked knees to the sight of hot-blooded males clad in "bell bottoms". Learn the simulation secrets of students who are "coming of age" in Iowa City...

Here are a few examples of the brilliant pages of history you will encounter in "The Art and Culture of Iowa City..."

No group has made a greater contribution to the Iowa City cultural Delight than the ancient order of the Knights of Old Armory (K of OAI, above). This temple, with its exquisite entrance lights imported from Dubuque, is located in the heart of the University campus 400 feet from the student dormitories. The shirtless men of 19th Century Iowa, whose adventuresome story is told in this magnificent volume, are on excursion of the human spirit in the glorious American Heritage... Bearcats' Ard Gets 41 Points—Cincinnati Burns Iowa, 114-105

By MIKE BLAKEY
CINCINNATI, Ohio—If anyone said you could about a week ago that you could win a game here, you'd say they were nuts. Bearcat fans all around the city agreed.

But the Hawks have managed to capture the No. 5 club in the country. It was the Hawks' first-ever win over the Bearcats here.

The first half was a tale of two teams. The Bearcats were hot from the start of the game, and the Hawks were cold. That's all there was to it. The final score of 105-64 was a testament to that.

The first half was a tale of two teams. The Bearcats were hot from the start of the game, and the Hawks were cold. That's all there was to it. The final score of 105-64 was a testament to that.

The Hawks were unable to get into a rhythm, and the Bearcats were too hot to handle. The Hawks couldn't get their shots to fall, and the Bearcats were too hot to handle.

In the second half, it got even worse for the Hawks. The Bearcats continued to pour in the points, and the Hawks couldn't keep up.

The final score was 105-64, and the Bearcats were too much for the Hawks to handle.
