This is the text of what I hope will be a mosaic of opinions. The mosaics, which represent the opinions of individuals, are not intended to present a coherent overall picture. The only thing that I believe it is possible to do is to present a collection of opinions, which I believe are worth reading. I believe that this is the only way to understand the society we live in.

**Good jobs & tickets**

To the Editor:

I have been reading your column for some time, and I am impressed with the quality of your writing. I agree with most of what you say, but I disagree with you on one point. You write that "It is not possible to have a good job without a degree." I believe that this is not true. I believe that it is possible to have a good job without a degree. I believe that education is important, but it is not the only factor in determining whether or not you can have a good job. There are other factors, such as experience and skills, that are just as important.

**Senatus Populusque Romae**

To the Editor:

I support the proposal to have a Senate of the People. I believe that the Senate of the People is necessary to prevent the House of Representatives from being dominated by the wealthy and the powerful. I believe that the Senate of the People should be elected by the people, and that it should have equal representation from all states.

**Bad news & tickets**

To the Editor:

I am writing to express my concern about the high cost of tickets. It is becoming increasingly difficult for the average person to afford tickets to events. I believe that the cost of tickets should be reduced, and that more people should be able to afford them.

To the Editor:

I am writing to express my support for the music festival that is being held in our town. I believe that this is a great event, and I urge all of you to attend.

Volpe: Prompted by Wichita Crash—Air Charter Probe Ordered

WASHINGTON — Secretary of Transportation John A. Volpe, a Federal Aviation Administration (FAA) official for nearly a decade, today ordered an air charter service to back off from plans to fly its fleet of Learjet planes to the World Trade Center in New York City.

Volpe said the air charters flown by Midwest Air, Inc., would be suspended pending an FAA investigation into the airline's operations.

The FAA has said it warned both Wichita State and Wichita State's basketball teams about the dangers of flying into the New York City skyline, but had no plans to do so. Wichita State's basketball teams and their radio commentators had been scheduled to fly to New York City for the World Trade Center's National Hockey League games.

The FAA also issued a letter to the school's basketball teams warning about the dangers of flying into New York City.

Auto Sales Rules Proposed by FTC

WASHINGTON — The Federal Trade Commission proposed taking steps to make it easier for salesmen to estimate prices and avoid misleading customers, and to stop them from charging different prices to customers in the same area.

The proposal, which is the first of its kind in the state of Illinois, is intended to help consumers avoid being ripped off by salesmen who are known to overcharge customers in certain areas.

Auto salesmen are often accused of making false estimates of prices and charging different prices to customers in different areas.

The FTC said it was considering making it easier for salesmen to estimate prices by requiring them to use standardized forms and to provide clear and accurate information about the prices they charge.

The proposal also requires salesmen to inform customers of any specials or discounts that are available at the time of purchase.

The FTC said it would consider making changes to the proposal during a public comment period that starts Friday and ends Friday, May 3, 2014.

Iowa Seeks Revenge for Last Year's Upset—Hawks Host 'Sky-high' Badgers

by JAY BRIDGETT
Sports Editor

For the first time in 14 years, the Iowa Hawkeyes were defeated at home by their mid-conference rival, the Badgers. Wisconsin Badgers, under the leadership of new head coach John Curley, defeated the Hawkeyes by a 38-10 margin last season in Kinnick Stadium. The victory came on the heels of a 3-6-1 record and was the first in Kinnick Stadium since 1966. Despite the Hawkeyes' lack of success in recent years, they have compiled an impressive 12-6 record against the Badgers in the last 20 years.

New coach John Curley has his work cut out for him in his first season. The Badgers finished 4-6-1 last year and are expected to improve in 1971. Curley's team will be led by senior quarterback Carl Mitchell, who completed 8 of 15 passes for 106 yards against Iowa in last year's game. Mitchell has picked up 186 yards in previous games against the Hawkeyes.

Despite the loss, there are several bright spots for the Badgers. Senior halfback Larry Manning has a chance to recover from last year's injury. Manning, who led the team in rushing with 1,058 yards in 1970, was injured during the game against Iowa and is questionable for this year's meeting.

Iowa's cross country team has also been successful, with the Hawkeyes winning the Big Ten title for the first time in 1970. The team includes several runners who will compete in the NCAA championships this weekend.
