Push Strike Settlements

Closed Session For Teamsters Fuel Haulers

The strike rally at Lowes(StringUtils: cure) on Monday night brought a strong turnout of union members and supporters. The rally lasted several hours, with speeches and music, and ended with a call to action for continued solidarity. The union leadership expressed gratitude to those who attended and urged everyone to return to their work on Tuesday. The rally was a significant event in the ongoing strike, which has lasted for several weeks and continues to draw attention from the local community.

Iowa City Landlord, Student Tenants Agree in Disputed Rent Request

By BILL KAPP

The Iowa City News Tribune

A University of Iowa student and a landlord in a dispute over rent have announced that they will reach an agreement. The landlord, who is a professor in the College of Liberal Arts, had been demanding rent from the student for several months. The student, who is a graduate student, had been unable to fulfill the request due to financial difficulties. The two parties have agreed to a plan that will allow the student to gradually repay the amount owed. This development is a positive step towards resolving the ongoing conflict, which has strained their relationship.

The White House made public reports that President Ford had considered a proposal to use force against the South Vietnam government. The proposal, which was never implemented, was a controversial issue at the time. The report of this proposal highlights the complexity of the Vietnam War and the political pressures that were at play. The White House's role in shaping policy was a significant factor in the ongoing conflict.

The mandatory retirement age for federal workers has been reduced from 70 to 65. This change, which was approved by Congress, is expected to have a positive impact on the federal workforce. The new age requirement is expected to allow more federal workers to continue working beyond the traditional retirement age, which will help to address staffing shortages.

Guerrillas Renew Fighting in Frontline

JORDAN - The Jordanian army announced that it has deployed troops in the frontline region. The troops are being sent in response to renewed fighting, which has caused concern among the international community. The Jordanian government has been under pressure to address the situation, and this action is seen as a step towards stabilizing the region.

Nixon asks Congress to Postpone Rail Strike

WASHINGTON - President Nixon asked Congress to postpone the upcoming rail strike, which is scheduled to begin on Friday. The President's request comes as a response to the ongoing negotiations between the railroad companies and the railway unions. The strike would have a significant impact on the transportation sector, and the President's action is expected to help resolve the situation.

UI Law Professor, And State Official Differ Over Drugs

Matthews should be implanted, treated, and provided with all the necessary tools to successfully manage addiction. The professor of law, on the other hand, argues that the issue is complex and requires a more nuanced approach. The debate highlights the ongoing challenges in addressing drug addiction, and the differing perspectives on how to approach it.

Union leaders and government officials stated that they are committed to finding a peaceful resolution to the ongoing strike. The leaders emphasized the importance of dialogue and the need for both parties to make concessions in order to reach a solution. The strike has been lengthy, and the leaders expressed hope that this latest development will bring an end to the conflict.

What IS IMPERIALISM? Our country proclaims to the world that it is interested in industrial progress in Mexico. It is true our big industries have big interests in that country. In fact, some of the leaders in Washington have big interests in the Mexican Revolution. We cannot but help thinking of the report of the United States consul at Mexico. He tells us that the revolution is in full swing and that the people of Mexico are rising up against the government of the country. This cannot be good for the United States. What is the matter with our government? Why do we not do something to prevent this revolution from occurring in Mexico? We hear a lot of talk about the Monroe Doctrine, but we do not see any action taken to prevent this revolution from occurring in Mexico. Is it not possible for our government to do something to prevent this revolution from occurring in Mexico? We are told that our government has no right to interfere in the internal affairs of other countries, but we think it is our duty to do all we can to prevent the revolution from occurring in Mexico.

Dear Governor McGovern,

We write to you today to express our concern about the consequences of the oil embargo. We believe it is crucial for the United States to remain steadfast in its commitment to the principles of freedom and democracy. The embargo, while intended to exert economic pressure on the Soviet Union, has the potential to harm the American people and our allies around the world.

The United States is a global leader in the fight against terrorism. We must continue to support our allies and maintain our position as a strong force in the world. The oil embargo, however, is counterproductive and undermines our efforts to combat extremism.

We urge you to reconsider the embargo and find a more effective way to address the threat posed by the Soviet Union. We are committed to working with you in this critical time to ensure the safety and security of our nation.

Sincerely,

Iowa Swimmers Place 6th At Illinois State Relays

By TIM REEK

After a disappointing loss to Northern Illinois two weekends ago, Iowa's swimmers came back with a bang on Saturday to finish third in the meet and fifth in the team race at the Relays.

The swimmers' performance was particularly impressive considering the large number of athletes who were in the meet. The high point of the meet was the 200yard freestyle relay, which was won by the Iowa team in a time of 1:37.42.

Gymnastics Finals Preliminaries

Barry Strickland, scoring a 15 of 16 on a routine, finished in second place in the meet, while Iowa's Dave Taylor, with a 15 of 16, finished in third place. Iowa's Dave Taylor also finished in second place in the meet with a 16 of 16 on the parallel bars.

Frosh Open Here Tonight

Iowa's freshman basketball team will open its season tonight at 8:00 p.m. at the State Gymnasium. The team will face off against Drake University, a team that has had mixed success in recent years.

Iowa, although not a strong team, is expected to give a good fight against Drake. The Hawkeyes have been working hard in practice and are looking forward to the challenge.

The game is open to the public and is expected to be well attended. The fans are encouraged to arrive early to secure their seats.
Introducing the most absorbent tampon ever put in an applicator.

What makes it so absorbent? Eliminate the Drug Roach's classical set in a series of tiny traps. It's revolutionary: the most absorbent tampon ever made for a tampon. And we're the only ones who have it, in fact, we've patented it. 

Compact when dry, it expands when wet to absorb an extraordinary amount of moisture. And absorbs much faster than tampons can.

With the Modern Tampon, you feel secure. Even on your worst days. Others have an extraordinary amount of moisture. And absorbs much faster than tampons can.

And the sell, flexible polyethylene applicator can be stuck or pinch or smash the way cardboard can.

Because, once a month, every little bit of comfort.

Make this test, it's taken on the streets of thousands of women, to develop this tampon. But the test that really counts is for you to try it in the next time you have your period.

Just think, more comfort, more protection. Fewer times to change with new Meds, the Modern Tampon.

For Meds and Moderns are leaders in Tampon Research Company.
Germany Recognizes Oder-Neisse
As Legal Western Border of Poland

Wednesday, July 7 - Chancellor Willy Brandt of West Germany today agreed to Madrid's long-standing demand for recognition of the Oder-Neisse Line as Poland's bill of pain and justice for the nation's sacrifices in World War II.

An English-speaking official said the Chancellor had carried the public responsibility for this decision, but one of his personal plenipotentiary for the draft treaty to the Oder-Neisse Line.

The move, which has been awaited for weeks, will bring a new phase to the immense task of German reparation, but has not been met with any immediate comments.

Transplants. That's the new miracle word in medical science. Transplants mean another chance to live. They also mean tremendous bills. They are going to become more common.

We worry about people who need them and can't afford

them.

That's why Blue Cross and Blue Shield benefit work on transplants just as they do on other illnesses or injuries.

You could be hospitalized for as long as a year and still be free of hospital and doctor bills.

Blue Cross benefits stand steady all through hospitalization. There's no dropping off after a few days, or a limited number of dollars worth of care. Newest Blue Shield coverages, are based on the doctor's usual, customary and reasonable fee.

That we can read toward the stars.
And total misconception at all times.
That technology puts them both equally at our disposal.
Never before has man possessed so much
Or pervaded so much over his environment.
And yet all of his marvelous achievements have done little
To help him understand his relationship to other men.
That's where you come in.
You have to make it better.
