Judges Free Nun

PHILADELPHIA (AP) — Three judges freed a Roman Catholic nun jailed for contempt of court, and said Friday they would decide whether she can legally refuse to tell a grand jury what she knows about an alleged plot to kidnap Presidential Adviser Henry Kissinger and bomb five federal buildings.

Sister Jogues Egan, a member of the Religious of the Sacred Heart and a former president of Marymount colleges in Florida and New York, was imprisoned Tuesday by U.S. District Judge R. Dixon Herman in Harrisburg, Pa., for declining to testify even though granted immunity from prosecution.

Her release from custody pending a constitutional test of her right to remain silent, was ordered by the 3rd U.C. Circuit Court of Appeals in Philadelphia.

Ask Prosecution

WASHINGTON (AP) — The Interior Department said Friday it would recommend criminal prosecution in connection with last month's coal mine explosion near Hyden, Ky., which killed 38 men.

"Proposed civil penalties will be assessed later," said a department announcement.

In an investigation report released Friday, the U.S. Bureau of Mines said the explosion was caused by illegal blasting operations.

The Interior Department announced that it was sending the report to the Department of Justice for possible criminal prosecutions did not say who the defendants might be.

Food Stamp Program

WASHINGTON (AP) — A \$2-billion budget proposal to operate the food stamp program next fiscal year may be a conservative estimate if a goal to add two million more needy persons to the rolls is reached.

Food stamp spending for the year ending June 30 will be more than \$1.5 billion. About 9.5 million persons get the coupons now, according to the Agriculture Department, and some authorities believe a million more may be added by midsummer.

Charles L. Grant, Agriculture Department finance director, says that while no projection for fiscal 1972 can be fully accurate, up to two million more people might be added next year.

State Spending Cuts

DES MOINES (AP) — Drastic slashes in state spending were pledged by members of both parties in the Iowa Senate Friday in an attempt to offset a projected \$11.1 million state budget deficit by the end of the fiscal year June 30.

While Sen. Clifton Lamborn (R-Maquoketa) leader of the majority Republicans, cautioned "We don't want to panic," he acknowledged the state was in financial trouble and promised Republicans would work to balance the budget by June 30.

Sen. Francis Messerly (R-Cedar Falls) chairman of the powerful Appropriations Committee, said all buildings projects that have not been started should be stopped, state travel should be curtailed and no job vacancy should be filled before July 1.

Conferences Hit

WASHINGTON (AP) — Participants in White House conferences on various national problems denounced the parleys Friday as political publicity gimmicks.

Hunger crusader Robert B. Choate accused President Nixon of trying to hide a conference scheduled for next week to assess any results from programs proposed and promises made at last year's White House Conference on Food, Nutrition and Health.

Choate and two other panelists at the annual Consumer Assembly sponsored by the Consumer Federation of America said recent presidents have used the conferences to demonstrate an aura of concern about problems but without permitting any troubling views to surface.

Moon Trainer Crashes

SPACE CENTER, Houston (AP) — A \$1.8 million moon landing trainer used earlier this month by Apollo 14 commander Alan B. Shepard Jr. crashed Friday, the third such vehicle to do so.

Officials say only one craft remains for Apollo 15 training.

The craft, called the Lunar Landing Training Vehicle (LTV), crashed and was destroyed during what officials call "a routine check flight."

Space agency pilot Stuart M. Present was about 200 feet in the air over a runway at Ellington Air Force Base when the electrical power system failed, the officials said.

He ejected immediately as the craft started falling, officials said, and parachuted to safety.

Army Clears Koster

WASHINGTON (AP) — The Army Friday dismissed charges accusing Maj. Gen. Samuel W. Koster of covering up the alleged My Lai massacre despite evidence the former West Point commander knew of some civilian casualties.

The action was taken by Lt. Gen. Jonathan O. Seaman, 1st Army commander at Ft. Meade, Md., who ruled Koster "did not show any intentional abrogation of responsibilities," the Army said.

After considering all factors, the Army announced in a two-page statement, "Gen. Seaman concluded that it would be in the best interest of justice to dismiss all of the charges."

Pollution Standards

WASHINGTON (AP) — The Environmental Protection Agency (EPA) proposed Friday standards to limit six common pollutants in air anywhere in the nation.

Adoption and enforcement of the standards would have far-reaching social consequences, perhaps making it necessary to limit the use of automobiles in the cities, said Dr. John T. Middleton, head of EPA's Air Pollution Control Office.

At the same time, EPA issued notice that it intends to seek regulations limiting, and eventually banning, the use of lead in gasoline.

Woodard, Board Hassle Over Ambulance Firing

The extension of the duties of County Civil Defense director Wayne Walters to include the administration of the county ambulance service would not be more economical or efficient than the present arrangement, ambulance service director Robert Woodard contended Thursday.

The controversy erupted over the decision by the Johnson County Board of Supervisors Monday to fire Woodard as ambulance service director for inefficient business management of the service.

Woodard presented his argument to the news media in an "open letter to the citizens of Johnson County."

An endorsement of Woodard signed by 19 professional medical people also appeared Thursday in a local newspaper. It asked that the board "reconsider its decision in the light of Mr. Woodard's qualifications and past record."

The supervisors responded to these actions Friday with the statement, "Our decision stands."

The board indicated that the dismissal of Woodard came in response to a "deliberate deception."

"We do not believe that because a person has medical skills he should be exempt from the law," the statement read.

auditor paid for the equipment without the knowledge or permission of the Board of Supervisors," it continued.

County Auditor Delores A. Rogers said Friday that her deputy, Jean Poulson, received oral permission to pay a large number of accumulated bills at the end of 1970 in order to use funds from the 1970 budget. Among these bills was the claim for the equipment installed by Woodard.

Rogers said the board indicated it would officially approve the expenditures on Jan. 4 of this year.

Rogers also said she believed Woodard had installed the equipment with the understanding that he had board approval.

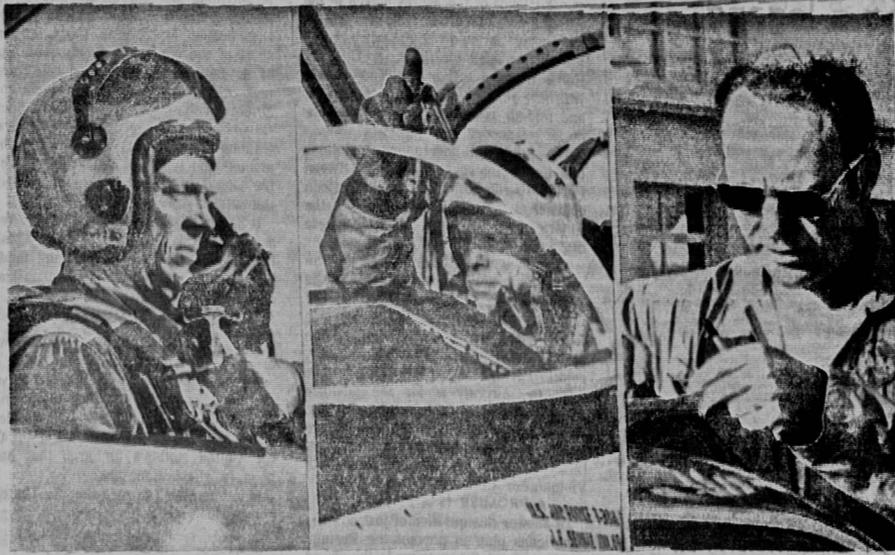

When the payment claim for the ambulance equipment was officially returned to the auditor, it read, "Rejected," and had been signed by all three supervisors.

Woodard said Friday that he is considering seeking legal advice in the matter.

Much Colder

Mostly cloudy and much colder Saturday with strong northerly winds and scattered snow flurries. Highs Saturday zero to 5 above extreme north to teens south.

UI Retirement 'Equalized'

SWEAT Drive Ends With Equity For All Employees

Effective Monday, the "temporary employe" classification will be dropped for student spouses employed by the University of Iowa, entitling them to participate in retirement plans on an equal basis with other employees.

The action came with University Pres. Willard Boyd's approval Friday of a recommendation by the Committee on Funded Retirement and Insurance. Previously the University Human Rights Committee, after a year-long investigation, had declared the "temporary" classification to be discriminatory against women, since (as of Feb., 1970) 95 per cent of all university-employed student spouses were female. The rights committee recommended Nov. 4 that student spouses be granted full participation in any wage-compensation programs.

Karen Yarborough, a secretary in the College of Pharmacy and member of the Student Wives Equity Action Team (SWEAT), the organization that initiated the drive to remove inequities in the benefit system, said, "I was really surprised" to hear that the classification will be removed by Monday.

SWEAT's founding member, Clara Oleson, a pharmacy intern, has been trying to have the inequities eliminated for more than 14 months. Her statement will appear Tuesday in the Daily Iowan.

All full-time, budgeted and continuous student spouse employees hired prior to Monday may elect to participate in group life and group disability insurance. Those who reject the programs will be automatically enrolled on July 1. Both programs are mandatory for full-time employees, although non-academic employees may not join the group disability insurance until they have worked three years with the university.

Presently student spouses may participate only in the Iowa state employees retirement program, having been excluded from the Teachers Insurance and Annuity Association, the Group Life Insurance and Group Permanent Disability Insurance plans, which provide more benefits.

There are some 700 student spouses among the 4,000 fulltime non-academic employees of the university.

Apollo

President Calls for Budget Of Record \$229.2 Billion

WASHINGTON (AP) — President Nixon called Friday for a record \$229.2 billion spending for fiscal 1972 in a "Full Employment Budget" built on two massive deficits totaling \$30.2 billion for this year and next.

U.S. Will Use Airpower—Rogers

WASHINGTON (AP) — Secretary of State William P. Rogers, warning of a critical period ahead in U.S. troop withdrawals, said today the United States will use airpower in any way necessary in Indochina to prevent liberation front forces from massing strength for attack.

Rogers specifically expressed concern about a reported large buildup of North Vietnamese supplies in the panhandle area of Laos which borders Northwestern South Vietnam.

Rogers repeatedly ruled out any use of American ground forces outside of South Vietnam and he affirmed the administration position that even there the troops will be out of combat by May 1.

But when he was asked what the United States view would be of a strike by South Vietnamese troops into Southern Laos, he said his view would depend on the circumstances at the time. He held open the prospect that the United States would give airpower support to the strike.

The critical period in the Vietnamization program was defined by Rogers as "between now and May 1" which will be a time of decreasing U.S. combat activity on the ground, yet a time when drier weather favors increased offensive operations by enemy forces.

Nixon told congress his deliberate deficit policy — reversing generations of Republican economic orthodoxy — signals the activist administration role in restoring "a prosperity without war and without runaway inflation."

Nixon asked no new taxes for the year starting July 1 to pare the deficit. It may be cut nevertheless, by a congressional refusal to vote all of the proposed new spending. His huge revenue sharing plan, a \$4 billion price tag for fiscal 1972 and a \$5 billion price tag for the first full year, is under heavy attack.

Defense outlays will be raised by \$1.6 billion if Congress consents, even though the armed forces will diminish to their lowest strength in 10 years. Higher pay and the rising cost of weaponry will boost the Pentagon budget to nearly \$75 billion.

The President proposed \$1.025 billion for military assistance to foreign countries, bringing total military outlays to a round \$76 billion. Officials refused to disclose the projected costs of the Vietnam and Cambodia operations.

Nixon called for a 6 per cent cost-of-living increase in Social Security benefits retroactive to Jan. 1. Thereafter, he proposed, there should be annual, automatic increases to match inflation.

Overall, the budget bulge was about what had been predicted for Nixon's "New American Revolution" — his slogan for restoring fiscal power to the hard-pressed states and cities by sharing Treasury revenues — plus Cabinet reorganization, welfare reform, new housing programs and the rising cost of fighting crime and pollution.

Possible Case of Homicide Reported Under Investigation in Johnson Co.

An Iowa City attorney, William L. Meardon, Friday said that he is investigating a possible homicide case in Johnson County and that the Johnson County Board of Supervisors had engaged his services for this purpose three months ago.

When questioned by the Daily Iowan as to whether the investigation was initiated because of a specific complaint, Meardon said that it had. But when asked whether a body had been found or when the complaint occurred happened, he declined comment.

Meardon said that he could not give out details now because to do so would

not permit an impartial and fair trial, should one be held.

Meardon also declined to say when the investigation would terminate or what its outcome might be.

The appointment of Meardon as a "special assistant county attorney" was discovered when minutes of the Oct. 26, 1970, meeting of the supervisors were published in a local newspaper.

The minutes gave three reasons for his appointment:

- "A homicide investigation has been commenced by the Johnson County Attorney (Robert W. Jansen) which will require a lengthy investigation continuing beyond the expiration of the term of office of the present county attorney."

- "It is required that said investigation be conducted for as long a period of time as is necessary leading to possible indictment and trial."

- "It is necessary that continuity be maintained in this matter by having control of the investigation in one attorney."

The former county attorney, Robert W. Jansen, declined comment when contacted, saying that he could not possibly say anything at all.

County Attorney Carl G. Goetz was not available for comment.

Col. Kubby Leads Charge to Englert—

'Patton': Super-Duper Training Film

By JAMES HEMESATH
Daily Iowan Reporter

Was there any truth to the rumor that Army ROTC students got a discount at "Patton"? The admission price to "Patton" was \$1.75; I was told that ROTC boys (if they could prove it) were getting in for \$1.50. I called the manager of the Englert Theater. Told him I was a reporter with the DI and...

"It's true," he said, "but why do you want to know?"

"It's news," I said.

"Would you be interested if I gave SDS a 25 cent discount?"

"Of course." The reason I used the telephone was that my chiropractor told me to stay off my feet. "How come you gave them that discount?"

"Are you trying to make something political out of this?" Of course, I thought, and I hope it will be funny, too. But I said, "No, it's just a news item. By the way, what is your name?"

"I'm not going to give you my name. If you're a good reporter you should be able to find out my name."

"Why don't you just tell me?" I didn't

tell him about my sore back. But — in the end — he told me that his name was Irving Heller and that the Army ROTC staff had originally wanted to get their people in free to see "Patton." Next he told me that I could have found out his name by checking with the advertising people at the D.I. Place ads there every week, he said.

I said goodbye to Mr. Heller and grabbed the phone book. The guy I wanted was Col. Robert S. Kubby, professor of military science. And he said —

"I felt that General Patton was one of our outstanding military leaders of all times. Some of his techniques were unusual — perhaps they could never be used successfully by anyone but him."

He went on, "I thought the film was an excellent chance to evaluate a great military leader from many sides. We wanted to make it a classroom exercise. We hoped to see the movie as a group and then discuss it in the classroom."

But the ROTC boys did not see the movie as a group. The best deal they could get was 25 cents off so Kubby made attendance voluntary. The discount

was supposed to ENCOURAGE the ROTC members individually. . .

Let's talk about Patton. Kubby is a pretty big Patton fan and he knows some interesting stuff. First of all to my question, was Patton a homosexual?

"Patently absurd," replied Kubby.

The incident of Patton slapping the private. According to Kubby, the American press in Sicily tried to kill the story. They wanted Patton to lead the invasion of Europe because they knew he would "get the war over quick and save American lives."

Kubby went on to say that (if he remembered correctly) it was Drew Pearson back in the states who finally broke the story.

Patton didn't get the big job and Eisenhower had to risk his neck simply to get Patton another command.

I asked Kubby if Patton was religious? Kubby replied that the pages of Patton's bible were "well thumb worn."

Remember that oxcart at the end of the movie?

The death of Patton. According to Kubby, Patton was going hunting. He had a sedan and a driver. Ahead of them an

oxcart got in the way of a truck and the truck swerved in front of Patton's sedan. Headon collision. Patton's neck was broken, but he lived for a week or two.

What does Kubby tell his students about Patton? He does not encourage them to blindly worship Patton. "We want them to look at his career and see what they can learn from him."

New Radar Units Bad Luck for 21

Twenty-one motorists were disappointed to learn Friday that the Iowa City Police Department has purchased two new radar units.

Police officers in the process of receiving instruction in the use of the new equipment apprehended 17 speeding motorists on N. Dubuque St. in the area of the Mayflower Apartments.

Four motorists were also charged with speeding in the 400 block of S. Dodge St.

Ford Balks at Big In Britain, Gets H

LONDON — The Ford Motor Co. lined up Friday with the British government's bid to curb big pay boosts and was promptly hit by a strike.

Britain's labor situation remained in ferment as a nationwide postal strike continued through its 10th day with no end in sight.

The Ford strike began with a walkout of 3,000 bodyworkers at the company's Halewood plant near Liverpool when the American-owned company rejected a union demand for raises of 40 per cent and more for 48,000 hourly-paid manual workers.

tain's second largest manufacturer after the British Leyland Motor Co., countered the offer of a raise of less than 10 per cent.

The unions have been bargaining for months for pay with the higher paid workers. Britain's industrial midland Ford plants are at Liverpool and in Wales.

This would mean an average raise for Ford manual workers.

Israelis, For Poss

By THE ASSOCIATED PRESS Israeli troops on the Suez Canal have been ordered to increase alertness and wear helmets as a precaution against new fighting should the Mideast cease-fire expire next week, military sources in Aviv said Friday.

While diplomatic sources in Cairo said Egypt would be willing to extend for a month a cease-fire ending next Friday, the Egyptian capital also has gone on the alert. Practically all raid alerts and blackouts were ordered in Cairo.

Israel says it is willing to new the cease-fire. But it has hinged prolongation of the truce on what it calls "sign of progress" in the peace talks at the United Nations.

The newspaper Maariv in Aviv claimed that Egypt fortified itself along the Sinai with weapons and men in number than during the latest fighting along the Suez Canal. Maariv said these included artillery, infantry, tank and amphibious forces.

1970 Living Cost Increase Highest in Two Decades

WASHINGTON (AP) — Americans in 1970 suffered the second steepest rise in living costs in 20 years to cap a two-year inflationary binge that erased 12 cents from every dollar, the government reported Friday.

The final report for last year said consumer prices rose 5.5 per cent on top of 1969's 6.1 per cent rise, the worst two years since living costs soared 9.5 per cent in the Korean War year of 1951.

December's rise of five-tenths on one per cent indicated a renewed upswing in prices of food, housing, automobiles and medical care.

It was unhappy news for President Nixon's hopes to curb inflation and gave Democrats more political ammunition.

"As if to underscore the unreliability of Republican economic promises, living costs in December rose by five-tenths of one per cent — up from three-tenths in November — and this less than one week after Mr. Nixon informed the nation that 'the tide of inflation

has turned,'" said Democratic National Chairman Lawrence F. O'Brien.

Sen. William Proxmire (D-Wis.) chairman of the Senate House Economic Committee, said in a statement: "It is clear that present administration policies, in effect for two years, have reduced our economy to a state of inflationary recession."

The result of 1970's price hikes, along with a sharp business slump that cut hours of work and earnings, left millions of workers trying to make ends meet on fewer, shrunken dollars. Another 4.6 million workers were out of jobs altogether for the worst unemployment total in nine years.

The report by the Bureau of Labor Statistics said that although average earnings of some 45 million rank-and-file workers edge up \$1.03 a week to \$122.43 last month, inflation left them about \$1 a week behind in purchasing power over the year and \$2.39 below two years ago despite wage increases.

"For 1970 as a whole, increases in consumer prices eroded all of the \$5.17 over-the-year gain in average weekly earnings," the bureau said.

The December rise in living costs pushed the Consumer Price Index up to 138.5, meaning it cost \$138.50 a week last month to maintain a standard of living that cost \$100 weekly in the 1957-59 base period. Although 1970's rise of 5.5 per

cent slackened from the 6.1 per cent rise in 1969, the latest report indicated renewed inflation.

Dr. Joel Popkin, assistant commissioner of the bureau, said prices rose at an annual rate of 6.3 per cent the first quarter of last year, slowed to 5.8 per cent the second quarter and 4.2 per cent the third quarter, but headed back upward to a rate of 5.7 per cent the final three months.

Prices of consumer finished goods such as automobiles, television sets and clothing showed a wholesale rise from 3 per cent in 1969 to 3.9 per cent in 1970, and an increase of about 4 per cent in both years at the retail level, he said.

State Patrol Asks Snowmobile Law

DES MOINES (AP) — Legislation giving the Iowa Highway Patrol control over snowmobile operations is being sought by that department.

"We're also going to try for some sort of operators license," Iowa Highway Patrol Assistant Chief James Machholz said. "We don't think they should be driven along the highways and in the public parks with no driver control."

Thursday Asst. Atty. Gen. Clifford Peterson said that under existing state law, Iowa cannot require snowmobile operators to be licensed and tested.

IT'S ABOUT TIME

It sure would be great to have all the time you need for the things you like to do. And if your reading work load is keeping you from some of the finer things, here's an important suggestion. Evelyn Wood Reading Dynamics will show you how to read 3 to 10 times faster with equal or better comprehension. Once you've mastered

Evelyn Wood's method, your reading and studying time will be drastically reduced. You'll know some important secrets of test-taking and be able to keep up better with your studies — as well as those social activities you're missing now. Time — that's what it's all about. Do something about it now.

Hawks, 0-2, Face Northwestern in TV Game— Hawkeyes Seek 1st Big 10 Win

By JOHN RICHARDS
Assoc. Sports Editor

Iowa's basketball team doesn't need to lose another close one, especially today when it returns to Big 10 action against Northwestern at Evanston.

Reardon, Sully, McDowell Picked in Pro Football Draft

Iowa football star Kerry Reardon had a dream come true Thursday as he was selected in the sixth round of the professional football draft by his hometown Kansas City Chiefs.

Reardon, who had not been contacted by the Chiefs before they picked him, said last week that he hoped the Chiefs would pick him.

"The Chiefs have a system of scouting that's all their own," said Reardon, "and you don't really know if they're interested in you." Reardon also pointed out that former Iowa halfback standout Eddie Podolak was drafted in the first round by Kansas City without ever being contacted by them.

Fullback Tim Sullivan and tackle Layne McDowell were the only other Hawkeyes to be selected later on in the draft. Sullivan, a native of Shawnee Mission, Kansas, was drafted by Minnesota in the ninth round. Iowa co-captain McDowell, a Cedar Rapids native, was picked by Boston in the

overall won-loss record than Iowa on the season. The game begins at 1:05 and will be carried on the Big 10 television network.

Hawkeye coach Dick Schultz said after his team lost a 73-69 decision to Cincinnati last Saturday in Chicago Stadium that he didn't know how many of the close losses his young squad could take before it would roll over. Iowa has lost five times already this year by four points or less. Twice the margin was

two points, twice three and four once.

The Hawkeye practices have been spirited this week, but the Hawks still must prove they can win in the Big 10 as they stand 0-2 at the moment with losses to Ohio State and Michigan State.

Schultz experimented with several lineup changes this week in hopes he could find the right combination.

He did make one change as senior Omar Hazley will open at center in place of sophomore Kevin Kunnert, who had a poor

game against Cincinnati. Forwards Ken Grabinski and Sam Williams and guards Fred Brown and Gary Lusk will round out the starting five.

Brown, Lusk and Grabinski all suffered minor injuries against the Bearcats, but are healthy now.

Brown is still Iowa's scoring leader with a 26.9 average through 12 games. Williams is the only other Hawkeye in double figures with a 11.5 average in 11 games and Grab-

inski is next with a 9.5 mark in 12 games.

Northwestern, which has lost six straight games (four in the Big 10), is led by 6-4 junior guard Ron Shoger and 6-5 junior forward Barry Moran. Shoger is averaging 23 points a game and Moran 18.

The other Wildcat starters will be junior Steve Berg at forward, 6-8 junior Barry Henz at center and sophomore Mark Sibley at guard. Brad Snyder is Northwestern's second-year coach.

Schultz is fearful of the Wildcats and also of his squad's ability to play a full game.

"I scouted Northwestern myself and they'll be tough to beat at Evanston," Schultz said. "They've played a tough schedule and lost several close games just like we have. They are definitely much better than their record would lead you to believe."

"We've been playing well enough to win," he added, "but we're in a rut losing those close games. We're having trouble putting a 40-minute game together, which is a trademark of a green ball club."

Personal fouls have been another big problem for the Hawks thus far and are also the trademark of a young team. Iowa has been charged with 251 personal fouls this season compared to 213 by their opponents. Thirteen Hawkeyes have been disqualified because of fouls.

Iowa opponents have connected on 24 more free throws than the Hawkeyes and have had 48 more chances at the charity line.

Brown has been disqualified in five games and this has been very damaging to Iowa's hopes for a better record.

Gymnasts at Michigan Dual; Wrestlers, 2 Others at Home

By MIKE GILL
DI Sports Writer

A busy weekend is on tap for Iowa athletic teams. The Hawks' track, wrestling, and swimming squads will host meets in Iowa City while Iowa's gymnasts travel to Ann Arbor, Michigan, to compete in a double-dual meet.

The new Recreation Building will be the scene of Iowa's opening indoor track meet Saturday when they entertain Northern Illinois. The Recreation Building, which cost \$2 million dollars, features a six lane, 220-yard tartan track and seats 1,500.

Coach Francis Cretzmeyer looks for a much-improved team this winter with the return of 15 lettermen and the addition of several promising newcomers.

Last year, Iowa was 1-1 in dual meets and finished ninth in the Big 10.

"The new building has really helped our track program," commented Cretzmeyer. "The last two years the program suffered due to lack of a facility."

"Despite not winning last Saturday, we're still making good progress," said veteran Coach McCuskey. "We used a lot of young kids and their performances were very encouraging."

Steve DeVries (177 pounds) and Dan Sherman (118) will be risking their unbeaten records and appear to be the Hawks top

Saturdays meet will be Iowa's first home indoor meet since Feb. 23, 1968.

Iowa appears to be strong in the middle distance events with Rick Hexum, John Criswell, and Mark Steffen, and in the longer distance events with returnees, Bob Schum and Dave Eastland.

Pole vaulters Lynn Overson, John Tefer and Phil Wertman also figure to aid the Hawks chances this year. Cretzmeyer expects vaulter Wertman to clear the 16-foot mark before the outdoor season.

Coach Dave McCuskey's wrestling squad will be going for their fifth victory of the season Saturday when they take on Northwestern, Indiana and Arizona at 1 p.m. in the Fieldhouse.

The Hawks will wrestle all three teams, with Northwestern and Indiana both meeting Arizona. The Wildcats and Hoosiers will not face each other.

Iowa, 4-2-1 on the season, tied Ohio University and lost to Southern Illinois in their last two outings.

"Michigan holds an 8-5 edge over the Hawks and Indiana State and Iowa have never met before."

The University of Iowa's track team has selected seniors John Criswell and Phil Wertman as their 1971 track captains.

Criswell has been one of the Hawkeye's top 880 yard runners the last two seasons. The Indianola native placed fifth in his speciality in 1970's Big 10 outdoor meet.

Wertman is expected to become Iowa's first 16-foot pole vaulter this season. The Villisca native finished fifth indoors and second outdoors in the Big 10 1970 pole vault competition.

Cards Trade Davalillo for Pirates' Alou

ST. LOUIS (AP) — The St. Louis Cardinals announced Friday they have traded outfielder Vic Davalillo and pitcher Nelson Briles to the Pittsburgh Pirates in exchange for centerfielder Matty Alou and relief pitcher George Brunet.

Alou, 32, was National League batting champion in 1966 with a .342 average.

The 5-9, 160-pound outfielder hit .297 in 1970 with the Eastern Division champions of the National League after averages of .338 in 1967, .332 in 1968 and .331 in 1969.

Brunet, 35, played with the Washington Senators and Pittsburgh in 1970, posting an 8-6 record and a 4.42 earned run average with the American League club and a 1-1 record and earned run average of 2.65 with the Pirates. Brunet, a left-hander, has a career record of 69 victories and 92 losses.

Briles, 27, who was hampered by a pulled hamstring muscle in his right leg in the early months of the 1970 season, finished the season with a 6-7 record and a 6.22 earned run average. The righthander has a 61-54 lifetime record and a 3.41 earned run average.

Davalillo, 34, was a mild sensation as a pinchhitter with the Cardinals last season. He tied a National League record with 24 hits in 73 times at bat as a pinchhitter, getting eight doubles, three triples and one home run.

His pinchhitting average for the year was .329 and his overall average in 111 games was .311.

Women Cagers Win Twinbill

By BONNIE BANNISTER

The Iowa Women's Basketball teams won a doubleheader from Luther here Thursday night.

The score in the first team game was 69-58, as Mary Rotler (19 points) and Diane Lappe (17) led Iowa, and Marcia Engbreton of Luther topped all scorers with 22.

The second team game was an Iowa walk-in, 56-23, as the Hawks broke the game open in the first period. Alda Siebrads scored nine and Therese Singleton six for Iowa in the period.
