By request...

In response to hundreds of requests that have poured into the New York Times, we are reprinting below some of the best forecasts of the past school year.

Puddles

Humor has it that four people called Thursday's forecast wrong. The four people were a doctor, a lawyer, a priest, and a weatherman. When the doctor was asked why he was wrong, he said, "I should have known better." The lawyer was asked why he was wrong, and he said, "I should have known better." The priest was asked why he was wrong, and he said, "I should have known better." The weatherman was asked why he was wrong, and he said, "I should have known better." The four people were all correct, and the weatherman was right.

Polar bear

Laws on the streets of the Enormous Green, that 1,000-sq-mile area from Siberia to the Bering Sea, are becoming more plentiful. Just when she was getting more and more exciting for the백요한, the snow leopard turned polar bear and installed his new Government. Snow or rain is forecast for today, with temperatures dropping to the 20s. The conditions could change Thursday with highs in the low 20s.

Frissbee

Humor has it that two bears called Thursday's forecast wrong. The two bears were a black bear and a grizzly bear. When the black bear was asked why he was wrong, he said, "I should have known better." The grizzly bear was asked why he was wrong, and he said, "I should have known better." The two bears were all correct, and the weatherman was right.

Expect all-out assault on Viet provincial capital

At the beginning of the year, Viet forces were still fighting for control of the north. But by the end of the year, the world was on fire. The weatherman had predicted that the weather would be sunny, with a high of 70. The week will be warm, with a chance of rain on Friday. A strong cold front will move through on Saturday, bringing temperatures well below freezing. The weekend will be cold, with a high of 40 on Saturday and 30 on Sunday. The barometer will rise slowly throughout the week. The week will be calm, with a west wind of 5 to 10 mph.

Talks snapped on trade pacts, arms limits

The talks were snapped on trade pacts, arms limits, and other issues. The weatherman had predicted that the weather would be sunny, with a high of 70. The week will be warm, with a chance of rain on Friday. A strong cold front will move through on Saturday, bringing temperatures well below freezing. The weekend will be cold, with a high of 40 on Saturday and 30 on Sunday. The barometer will rise slowly throughout the week. The week will be calm, with a west wind of 5 to 10 mph.

Rescue ‘captive’ school official

The rescue of the school official was a relief to the community. The weatherman had predicted that the weather would be sunny, with a high of 70. The week will be warm, with a chance of rain on Friday. A strong cold front will move through on Saturday, bringing temperatures well below freezing. The weekend will be cold, with a high of 40 on Saturday and 30 on Sunday. The barometer will rise slowly throughout the week. The week will be calm, with a west wind of 5 to 10 mph.

Pioneer, bound for Jupiter, facing hazardous voyage

LAS VEGAS (AP) — Pioneer N, the second-balloted spacecraft bound for Jupiter, opened a new era Thursday in man's exploration of space. It marked the birth of a new era in the search for the outer planets to be the first spacecraft to step up to the Plateau of the unknown in its search for the unknown.

Aboard a nine-hour-long passage through the hazardous vacuum of space, an impregnable craft, designed to withstand the trials of the unknown, will be sent to explore the unknown.

"In December, it is to be read, moving Jupiter, with a new, high-flying mission to a high orbit around the planet's unknowns," wrote the space shuttle's designer.

"It's a big, important one; the first push beyond Mars," said Charles F. Turner, a spacecraft management project director at Ames Research Center in Mountain View, Calif.

"It's just a step on our way down a path that we hope ultimately will take us to the outer planets."

WANTED:

Hard-nosed reporters and assorted special writers.

Do you like to pry into other people’s affairs? Won’t you take no for an answer? Do you like to drink? Would you enjoy a publishing pass that would get you into city council meetings and behind police lines?

Well, all that’s only incidental and insignificant.

The plain facts are this: The Daily Iowan is in need of some good, hard-nosed reporters and assorted special writers. And if you’ve got a decent head on your shoulders, you’re a likely candidate.

That’s right...no experience necessary.

You might be eligible for academic credit working for us. We’ll pay you.

And you might be able to arrange special project credit for “specialty writing” through political science, business or other likely departments.

On top of that, there's going to be a monthly pool of bonus money that you, as a DI staffer, would be eligible for. And a little extra of that never hurt.

We’re going to be trying to do a little more this summer. In depth series and reporter teams to dig up the University, Iowa City, and Iowa scenes. Increased entertainment and fine arts. Major league baseball and other regional sports that are to do around Coral City.

And “magazine” pieces about a whole range of things. Even if you only want to volunteer or freelance, come up and see us sometime. We can give you more particulars about the pages.

Just remember—if you can write for a mass audience—no matter what discipline, college or background you’re from—it’s a feather in your cap. Many times, a very convincing one.

Learn how this summer or this fall. You know, it’s a way to beat the heat, folks.

FOR INFORMATION ON DI WRITING: Call 333-6210 for Dave Helland or any summer staff member.

FOR INFORMATION ON JOURNALISM PRACTICUM, be sure to see the course instructor at summer registration.

It isn’t exactly Bogart, but it’ll have to do. Help the community out and help yourself out.
