Reported attributed students' deaths to officer Edwards denies press quote

By the Associated Press

Las Vegas Gov. Ed Whitaker today denied as "trivial" a story that claimed he was the head of a Secret Police in the United States. He denied the story was based on truth.

In a press briefing, Whitaker called the story "completely false and unfounded," and said no evidence had been obtained of any such organization or individual.

Kissinger flew into

Papa John's Restaurant, which will have a picnic on Nov. 3, 1983, in the town of Delawor, Pa., to commemorate the 50th anniversary of the restaurant's founding.

Brandt's coalition winning a
decisive victory in the West

LASA nomination papers due Nov. 27

Liberal Arts students will have until Monday, Nov. 27, to file the nomination papers for seats in the Liberal Arts Student Association (LASA) for the upcoming academic year.

Greg Harris, 3rd-year Liberal Arts student, announced Monday that he would seek re-election to the LASA executive board. Harris, who is currently the vice president, said he was running because he "wants to continue the good work that we've been doing for the past two years." Harris also said he is running because he "wants to continue the good work that we've been doing for the past two years." Harris also said he is running because he "wants to continue the good work that we've been doing for the past two years."
Russia makes emigration change

MOSCOW, April (AP) — The Soviet government has made a specific change in its emigration laws that will probably affect the flow of Soviet Jews to Israel. The move comes in response to a recent Israeli government proposal that would make it more difficult for Soviet Jews to move to Israel.

The specific change in the emigration rules was not known in the Soviet Union until Friday when Soviet officials met with representatives of Jewish communities in the country.

Under the new law, Soviet Jews will now be able to pay fees to leave the country, instead of being asked to bring a set amount of money as was previously required.

The Soviet government has long opposed the idea of Jewish emigration to Israel, but recent developments in the Israeli-Palestinian conflict have increased pressure on Moscow to eased restrictions on Jewish emigration.

The move comes in response to a recent proposal by the Israeli government that would make it more difficult for Soviet Jews to move to Israel, including raising fees for emigration.

The new law was a reaction to a meeting of the Soviet government with representatives of Jewish communities in the country, according to Israeli officials.

The change is intended to make it more difficult for Soviet Jews to leave the country, and is expected to be implemented within the coming days.

The Israeli government has been pushing for changes in Soviet emigration laws for some time, and this move is seen as a step in that direction.

The new law will allow Soviet Jews to pay fees to leave the country, instead of being asked to bring a set amount of money as was previously required.

The move comes as part of a broader effort by the Israeli government to ease restrictions on Jewish emigration to Israel, which has been tightly controlled for many years.

Israel's prime minister, Benjamin Netanyahu, has been a leading advocate for easing restrictions on Jewish emigration to Israel, and the new law is seen as a step in that direction.

The move is likely to be met with mixed reactions from the Soviet Jewish community, which has long been divided on the issue of Jewish emigration.

Some Soviet Jews are likely to welcome the new law as a step towards making it easier to leave the country, while others may view it as a setback.

The new law is expected to come into effect within the coming days, and will likely be followed by further changes in Soviet emigration laws in the future.

Symposium

By BILL BORREMA

The University of Iowa has announced that it will hold a two-day symposium on student unionism, with the theme of "The Unionism of the Future." The symposium will feature a variety of speakers and will include a panel discussion on the role of student unions in higher education.

Intaglio prints

Intaglio prints, by John Thies, instructor in dramatic art at the University of Iowa, are being shown in the Iowa St. Building at the University of Iowa. The prints were done on the intaglio press in the Mass Communications Building, which is open to the public through Dec. 13.

Correction

The Daily Iowan is indebted to some sources for the correction of errors in previous issues. We apologize for these errors and appreciate the cooperation of our readers in bringing them to our attention.

Unionism trends hit Iowa schools

There is a trend toward increasing student participation in student government and other student organizations at Iowa schools. This trend is evident in a recent study by the Center for Educational Research at the University of Iowa.

The study, directed by Prof. A. G. Smolka, examined a number of factors that influence student participation, including personal characteristics, such as age, sex, and ethnicity; institutional factors, such as size and location; and psychological and social factors, such as motivation and community involvement.

The results of the study suggest that student participation is influenced by a number of factors, including the student's level of interest in the activity, the perceived benefits of participation, and the degree of social support available.

Sponsored response to senate search Committee positions ignored

An important announcement was made regarding the search for committee positions at the Iowa National Convention. The announcement indicated that the search committee has failed to consider the needs of student leaders and the community.

The implications of this announcement are significant, as it indicates that the student body is not being adequately represented in the decision-making process. This failure to consider the needs of student leaders and the community has an impact on the quality of education and the overall student experience.

**The automobile: friend or foe**

With all the talk in recent months of bike power and pollution problems it would seem that less and less people would be interested in cars. The latest happenings between an American and his car appears to be on the increase.

This has been reflected in the slackening in sales of cars during the past few years. It looks, however, as if this failing was more a matter of price than other factors. For this year's Jan (this year in calendar months) new car sales have been reported by the four major car manufacturers (together) to top all of the market. However, 1972 seems as if it will be a record year for American car sales estimated in million. As a matter of fact GM's highest quarter this year has been an inability to keep up with the demand (it has more than half the market).

This renewed desire for the motor car is a cause for alarm among environmentalists and those of us with an interest in the future. Already the cities and suburbs are congested with increasing levels. With the increasing use of combination engined vehicles at the rate of 20-30 per cent per year, it is hard to avoid being pessimistic about the future.

A present source of comfort in the IRS Federal regulations, tax breaks and quite prevalent. Auto manufacturers, however, claim that they have been working with their car makers to meet these standards and be reasonably priced and practical.

It is likely that rather than reduce car manufacturing substantially, the US government will either modify or rescind the standards before 1977 deadline or not bother to enforce those standards (or both). The emissions systems currently used are therefore unlikely to change very much in the near future. Auto pollution will increase rather than decrease.

One way to avert the disastrous consequences that the present system of transportation brings is to change to alternative fuel mass transit is just a new idea, but it is necessary that Coupling the mass transit to the mass transportation system, the present highly satisfactory system, one of their reasons for not using it is that such funds come from car users and should be used to benefit the car users. As a matter of fact, a part of that group and everyone is being threatened by the car manufacturer.

Americans have been brainwashed by advertising, propaganda into thinking that the automobile is necessary. "Necessity", "comfort", "status", this common status symbol. The most popular automobile produced in the US is the Ford, which is over 50 years old! If this is the type of vehicle we want to mass-produce, we are in trouble.

People must be made to realize that the automobile is not all it is cracked up to be. Unfortunately there are great barriers to the way of changing people's views on this matter. People are accustomed to things as they are including the noise and the traffic congestion. The American public has been given the support of the giant petroleum and auto manufacturing corporation. Add to this their education and that from out of their complacency. Let's hope that Americans come in their senses before events get too far.

*Caroline Forre*
Indians of the Sanilac Reservation have applied to the Bureau of Indian Affairs for the reservation's recognition as a tribe. A judge in U.S. District Court in Detroit has ordered the Bureau to respond to the tribe's application within 60 days. The Indians, who number about 4,000, have lived in the Sanilac area for centuries and have a long history of cultural and political discrimination.

WASHINGTON (AP) — The President of the United States, George Washington, has signed a bill into law that is expected to have a significant impact on the lives of Native Americans. The bill, which was introduced by Senator Elizabeth Warren, D-Mass., and approved by Congress, is designed to address the ongoing issue of inadequate healthcare services for Native Americans.

The bill, known as the Native American Health Act, includes provisions that would increase funding for Native American health clinics and provide for the expansion of telemedicine services to remote areas. It also includes provisions that would establish a task force to study the barriers that Native Americans face in accessing healthcare services.

The bill was introduced in September and has been approved by both the House and Senate. It is expected to be signed into law by the President within the next few days.

The bill is seen as a major victory for Native American activists, who have been fighting for better healthcare services for years. The bill is also seen as a major step forward in addressing the ongoing issue of racial and ethnic disparities in healthcare.

The bill is expected to have a significant impact on the lives of Native Americans, who have long faced a lack of access to quality healthcare services. The bill is seen as a major step forward in addressing the ongoing issue of inadequate healthcare services for Native Americans.

Capra worked his way up town
From newsboy to director

BY CARL ST. MOUTH

Capra made movies to support his family. Frank Capra, master of the

American film, started his career as a newsboy.

“I was a newsboy. Capra, being small, grew faster than a normal infant. He skipped his first 3 to 4 years of life. His favorite game was playing with a small baseball and pink ball. Capra would throw the balls at his own feet and try to catch them. This kept him active and busy for hours. He was a natural leader among his peers and was often seen giving orders to his co-workers. People often commented on his ability to organize and direct them. Capra's passion for storytelling and entertainment began at a young age.

Capra decided to pursue his dream of becoming a filmmaker. He started by working as a newsboy, a job that taught him the importance of time management and storytelling. He quickly realized that his passion for storytelling could be translated into the movie industry. Capra worked hard and eventually became a successful director and producer.

Capra's success was not just limited to his work as a director. He was also known for his work as a public speaker, writer, and educator. Capra was a tireless advocate for the film industry and was known for his ability to inspire and motivate others.

Capra's legacy lives on through his films, which continue to inspire and entertain audiences worldwide. His dedication to his craft and his commitment to storytelling have made him a beloved figure in the film industry.

In conclusion, Frank Capra's journey from newsboy to director is a testament to his passion and dedication. His hard work and determination have made him a legend in the film industry, and his legacy will continue to inspire future generations.
Bald Eagle days to raise funds

Big stretch by the Gabe

Dolphins clinch East title

Mama's Touchdowns

Tarkenton passes Vikings to 45-41 win

Sports

Varsity reserves pop Illini, 27-20

He successfully intercepted two passes and scored a touchdown in the game against the Milwaukee Creamers.

The loss dropped the Rams to a 5-6-1 record. Tarkenton put the Vikings ahead 24-20 with a touchdown, and Nolan upped the lead to 27-20 with a 14-yard pass to set up the second touchdown of the day.

Thevikings made it close with a touchdown on the next drive, but the Rams held on for the win.

The Vikings' passing attack was led by Mike Zahren, who threw for 301 yards and two touchdowns.

On the line...

By Townsend Hoopes III

and Bernie Owens

The kickoff should be one of the best with the Michigan and Nebraska teams in the Big Ten.

The Michigan-Nebraska game is set for 1 p.m. at Memorial Stadium in Champaign, Ill. The game is expected to draw a large crowd, with both teams coming off strong performances in their previous games.

The Michigan-Nebraska game will be followed by the Nebraska-Illinois game, which is also expected to be a close contest.

The final game of the day will be the Michigan State-Illinois game, which is set for 4 p.m. at Memorial Stadium in Champaign, Ill. Both teams are looking for their first Big Ten victory of the season.

The Michigan-Nebraska game is expected to be a high-scoring affair, with both teams averaging over 30 points per game.

The Nebraska-Illinois game is also expected to be a high-scoring affair, with both teams averaging over 30 points per game.

The Michigan State-Illinois game is expected to be a close contest, with both teams looking for their first Big Ten victory of the season.

Despite the fact that Iowa's Hawkeyes were having problems Saturday in Lexington, Ind., Kircikian Diknes, the junior guard, led the Hawkeyes Eight Conference tournament.

The opening game in the tournament was against rival Regis. The game was won 79-73 by Regis. The second game was against Catholic Regina, played in the opening round of the Tournament. The game was won 72-66 by Regis. The third game was against City College. The game was won 84-78 by City College.

The Hawkeye Eight Conference is a group of schools that have been successful in the past and are expected to be successful in the future. The conference is made up of eight schools, including Catholic Regina, City College, and Catholic Regina.

The conference tournament is held each year and is open to all schools in the conference. The tournament is a single-elimination bracket, and the team with the best record in the regular season is the host team.

In the opening game, the Hawkeyes were leading 30-20 at halftime. The second game was won by Catholic Regina, 72-66. The third game was won by City College, 84-78.

The conference tournament is a great way for the teams to prepare for the upcoming season. The teams are able to get a feel for each other's style of play and to work on their own weaknesses.

The conference tournament is also a great way for the fans to see some great basketball. The games are always closely contested and are filled with exciting moments.

Hawkeyes refuse IU ‘gifts’

BY BART RIPP
Sports Editor

BLOOMINGTON, Ind. — In the space of two minutes of Saturday's first quarter, Indiana times gave the football to Iowa, and IU fans say, "Here we go! On to Terre Haute before our Indiana fans arrive!"

The Hoosiers nearly wanted to plug the Hoosiers on their own but once Mark Zellmer, recovering the ball on the Hoosier one.

The referees interceded with the Edina, Minn. senior's plan of "Here. Tie us. Torture us before our Hawks refuse IU."

"I got hit from every way but up. I wouldn't have been able to make it."

But Caldwell wasn't and Bobby threw and Brian had to dive back to the 2 to catch the ball. Five .

"On the second half, our defense took it to us and we just couldn't control the ball out of our hands," Hawk Notes.

"The duplication of multiplicities caused the entrance of a civilian dogwoods. The first was Dickey's, which he hospitably off."

"Here was a 16-8 victory."

"The Hoosiers took over. ran the ball to midfield and preserved the Illinois 16-3."

"But Caldwell didn't score and the ball went back to Iowa soon got the ball back and was..."

"We proved we could play good ball in the first half. But, ..."

"Brian Bryant didn't play good ball in the first half. We had 153 return yards. Thanks to Wellington."

"Hawk Notes.

"We had typical Hawkeye weather. Cold and overcast..."

"Bill Atkinson, a sophomore from Gas City, Ind., didn't play good ball in the first half."

"When the official threw the flag, I asked him why, and he picked it up. It was a big thing for the officials."

"We had typical Hawkeye weather. Cold and overcast..."

"Both times Caldwell tried to get into the end zone, then came back."

"If there was no flag over the down, "Dickie" said later."

"The coach ran out on the field, yelling at the ref. This was exasperating."

"The duplication of multiplicities caused the entrance of a civilian dogwoods. The first was Dickey's, which he hospitably off."

"Our Coaches Coordinator Bob Greaths was jumping around, pointing to the scoreboard and shouting. "We're back in the saddle again!""

"But Caldwell won't, and Bobby-triggered the Iowa 47."
