Seven Muslims killed at Jabbar house

Seven Muslim leaders were killed at Jabbar house, a residence near the University of California. The killings were seen as a political act of revenge against the leaders who had been critical of the U.S. government's policies in the Middle East.

The victims, who were all prominent figures in the Muslim community, had been targeted for their outspoken views against U.S. military interventions in the Middle East. They had also been active in promoting peace and reconciliation in the region.

The killings sparked widespread outrage and condemnation from around the world. The United Nations Security Council condemned the attacks and called on the government to ensure the security of all its citizens.

Several countries, including the United States, expressed concern and offered condolences to the families of the victims. The U.S. government also announced it would review its policies in the region in light of the killings.

The incident highlighted the ongoing tensions between the United States and Muslim-majority countries in the Middle East. The killings also raised questions about the role of the Muslim Brotherhood in the region and its relationship with the government.

Despite the backlash, the government remained committed to its policies in the region. However, the killings were a stark reminder of the dangers posed by political extremism and the need for greater understanding and dialogue between different communities.

In the aftermath of the killings, the government announced a review of its policies and a commitment to engage in dialogue with the Muslim community. The government also called for an international conference to discuss the challenges facing the region.

The incident also highlighted the importance of promoting human rights and the need for greater accountability in the region. The government announced a crackdown on extremist groups and pledged to take steps to prevent similar incidents in the future.

The incident also raised questions about the role of the international community in supporting democratic institutions in the region. The government announced it would seek international assistance in promoting democratic values and ensuring the security of all its citizens.

In conclusion, the killings at Jabbar house were a tragic reminder of the ongoing challenges facing the region and the need for greater understanding and dialogue between different communities. The government remained committed to its policies in the region, but the incident also raised questions about the role of the Muslim Brotherhood and the need for greater accountability in the region.
Group debates methods of Ralston flood control

By WILLIAM BLAIR

The city flood control commission on Tuesday approved the use of $18,000 to develop a soil survey of the entire city.

"The survey will provide valuable information for the development of a comprehensive flood control program," said County Engineer W. J. Randolf, who was a member of the commission.

"It will also assist in the determination of the feasibility of various flood control projects," Randolf said.

The survey will be conducted by the state geological survey and is expected to be completed by the end of the year.

Applications for the survey will be available at the city hall and will be accepted until the end of the year.

The survey will be funded by a grant from the state legislature and is expected to cost $18,000.

UEA Claims victory after ‘back pay’ ruling

By HOWARD S. WILSON
University of Iowa Employee Association (UEA) officials have claimed important victory in their struggle to wrest back pay from the State University of Iowa because the Iowa Industrial Commission has released a decision which upholds their claim.

The University has been involved in a bitter controversy with the UEA over the award of back pay to employees who were fired from the university because of the strike. The UEA has been seeking back pay for employees who were fired during the strike, and the university has been denying it.

The Industrial Commission has now ruled in favor of the UEA, ordering the university to pay back the employees.

The decision of the Industrial Commission is likely to have far-reaching implications for other university employees who have been involved in similar controversies.

Guilty on 25 counts

James Daniel Cleary, supervisor of the Organ Dealer Piano, and Edward Hoffman, foreman of the Organ Dealer Piano, were sentenced in the Fairfield Courthouse, Fairfield, on 25 counts of embezzlement.

The two men were convicted of embezzlement after a lengthy trial in which evidence was presented by the prosecution.

The prosecution proved beyond a reasonable doubt that the men had embezzled funds from the Organ Dealer Piano, a business in which they were employed.

The men will be sentenced to prison terms of from 2 to 10 years.

ELECTION NOTICE

Please submit your application now.

The deadline is this Friday, Jan. 19, at 5 p.m.

In the All-Campus Election, next month, students will be elected to the Board of Trustees of Student Publications, Inc., the governing body of The Daily Iowan. The board is composed of five students and four faculty members.

INSTRUCTIONS FOR BECOMING A CANDIDATE

The candidate must make application to the Board of Trustees, designating a desire for either a one-year or a two-year term of board membership. Applications are available at the Daily Iowan office, Room 111, Communications Center.

These are two-part forms:

PART ONE is a statement of qualifications listing the candidate’s community service grade point average and semester hours completed at the University of Iowa. This statement must be verified by the Registrar’s office.

The candidate must have earned credits in the University of Iowa amounting to 26 semester hours and have a grade point average equal to that required for graduation in the college of the University in which such credits were earned.

PART TWO is a nomination petition stating the candidate’s intention to remain registered as a student in the University of Iowa for the full period of the campaign. The petition must be signed by at least 25 students enrolled in the College of Liberal Arts and Business, etc., in which he or she is registered, and filled out with the signature of the Board of Trustees (Room 111, Communications Center) not later than 5 p.m. on Friday, January 19.

BOARD OF STUDENT PUBLICATIONS, INC.
Douglas Ellinger, Chairman
The week before Christmas, the Bach Mai Hospital in Hanoi was completely destroyed by over 30 phosphorus bombs, two other types of incendiary bombs, and seven cluster bombs. The hospital was one of the most important medical facilities in North Vietnam. The destruction of the hospital was a major blow to the Vietnamese people, who had high hopes for a peaceful future. The destruction of the hospital was a symbol of the ongoing war and the suffering of the Vietnamese people.

PAT hits parietal rules

Revised contract would ensure academically suitable conditions

By MARY WALDMAN

Charles Eastham, L2G, a staff mem-
ber of the Associated Students of the University, said that he has been meet-
ing with university officials to discus
s revised parietal rules that he deems
necessary to ensure that the dorms are
not negatively impacting student life.

The university originally adopted parietal rules in 1970, and they have been
enforced ever since. Eastham said that
the current rules are not only difficult
to enforce, but also problematic for stu-
dents. He added that he has been meet-
ing with university officials to discus
s revised parietal rules that he deems
necessary to ensure that the dorms are
not negatively impacting student life.

"The university is running a financially
very successful dorm system when it has
been telling everyone it is in trouble," he
said.

The revised contract would also ap-
allege that the dorm system is not ade-
quately meeting the needs of students.

The public transportation Asso-
ciation and the National Education
Association have also weighed in on the
issue, saying that the current rules are
not helping to create a more equitable
dorm environment.

"If there is one thing we do know, it is
that the university does discriminate on
sex," said Eastham. "It is the responsibility of both the
dorm students and officials to
discuss and work on these issues.

"There is to much cacophony and mis-
understanding," he said. "We should
be working together to create a better
dorm environment for all students.

"If we can't come to an agreement
on these issues, then it is up to the
students to speak out and make their
voices heard."

Dirty Little Billy: just a dirty little film is all

Get away from TV

No, but you...
To Woodyallenland!

It is a hard life, Buttercup. Yes, I've decided that it is.

Dear Lit teacher,

I am writing to express my gratitude for your guidance and for the opportunity to have your class. I have learned a great deal from you, and I look forward to seeing you next year.

Warm regards,

[Signature]

Dear Mr. Miller,

I am writing to ask about the availability of the Woodyallenland film review for the upcoming week. I am interested in attending the screening, and I would like to know if there are any tickets left.

Thank you for your time and consideration.

The London flu seizes Iowa, but no epidemic threat

By MERRY BROOKS

Staff Writer

The London flu is flaring up, and we know that it's for us. The strain, which is normally restricted to London, has now spread to Iowa, and the authorities are taking action to prevent an epidemic.

The flu is caused by a virus that is transmitted through contact with infected individuals. Symptoms include fever, fatigue, cough, and sore throat. In some cases, the virus can cause pneumonia, which can be life-threatening.

The flu is most common in the winter months, and it can spread quickly in crowded areas such as schools and workplaces.

The Iowa Department of Public Health recommends that people wash their hands frequently, stay home when they are sick, and avoid close contact with others when they have symptoms of the flu.

The flu vaccine is also recommended for those who are at higher risk of severe complications from the flu, such as older adults, children under 5, and people with certain medical conditions.

The flu season is expected to peak in January or February, and the authorities are preparing to respond to any increase in cases.

Sunday

by TOWNSEND HOOPES

Ewell, Sunday daily workouts at his troops through two and a half hour workouts. The Hawks open up Big Ten tournament with a strenght and defense. Banks expresses sunny vulnerability should be a super defensive catcher. "Right now, we're working on pitchers," says Banks. "We don't really know just how many we'll carry when March rolls around.

With names like those on the roster, the Hawks' pitching was already the focal point of the Hawks' defense. We should be a super defensive team," says Banks.

"I'm working on our pitching," says Banks, who doubles as the Hawks' catcher. "I'm working on our pitching to make it in the big leagues."

Banks expresses sunny vulnerability should be a super defensive catcher. "We're very deep in available talent," says Banks, "whoever we will set and play everyone. I'm very comfortable behind the mask."

His comments were echoed by catcher Jim Sundberg, who keys stout defense.

"I know that's a strong statement, but those kids are really fast and we only have a few veterans on this team."

Bancroft is expected to start and play everyone. "We're going to play everyone," says Banks. "I'm very comfortable behind the mask."

The Hawks faced pre-tourney favorite Arizona for the College World Series.

"I'm not thinking about that yet," says Banks. "We'll go at it as a unit, we can win."

The Hawks open up Big Ten season against Creighton and will face Winona in their first baseman. "We're going to be in tempo with his pitching and defense and will see how it goes," says banks.

"I don't think I'll need coaching. I've got talent, we'd thought with him and his team, and now in the big leagues, we could do it all."

Lawrence’s 31 clips Iowa varsity reserves 83-77

BY BOB NUTT

Iowa State 64, Iowa 61

Iowa will be coached by assistant coach Larry Sharp, who was associate head coach under former Hawkeye coach Bill McCracken.

Sharp, who was an assistant coach at Drake University for the past three years, said he was impressed with the Hawkeyes’ offense.

“I’ve been watching them a lot this year,” Sharp said. “They’ve got a lot of talent on that team.”

Iowa State led most of the game, scoring 62 points in the first half and 32 in the second. The Hawkeyes were held to 24 points in the first half and 21 in the second.

Sharp said the Hawkeyes will be a tough team to beat because of their depth and experience.

“I think they’ve got a lot of good players on that team,” Sharp said. “They’ve got some good young players, and they’ve got some veterans.”

Iowa State outrebounded Iowa 39-29.

“I think they’ve got a lot of good players on that team,” Sharp said. “They’ve got some good young players, and they’ve got some veterans.”

Iowa State guard Marv Diamond scored 18 points for the Hawkeyes.

The Hawkeyes were led by forward Mark Young, who scored 14 points.

Iowa State forward John Franklin scored 12 points.

The Hawkeyes have won six of their last seven games, including a 64-61 win over Iowa in their last meeting.

The Hawkeyes played without starter Jimmy Williams, who missed the game due to an injury.

Sharp said he was pleased with the way his team played.

“I think we played well,” Sharp said. “We played well defensively and we played well offensively.”

Iowa State guard John Franklin scored 12 points.

The Hawkeyes were led by forward Mark Young, who scored 14 points.
