Launch heroin probe

‘Accidental’ drug bust nabs 11

By YOGA GARG

SAN FRANCISCO — The San Francisco Police Department has launched a criminal investigation into the death last week of a man found with a bag of heroin "dead" on the sidewalks of the Tenderloin, the agency said yesterday. The investigation was prompted by reports that the man, identified as John Jones, was killed by police officers who were responding to a call about a suspicious person.

"We have received reports of a suspicious person on the streets, and we found a man who appeared to be injured," said police Chief Bill Scott. "We are investigating the death to see if it was caused by police action or simply an accident.

The police report said that Jones was found on the streets of the Tenderloin early Saturday morning. He was unresponsive and had a bag of heroin in his possession. A police officer on the scene said that Jones was suffering from a drug overdose.

The police report also said that Jones had a history of drug addiction and had been arrested several times for drug-related offenses. The police said that they were investigating whether Jones was under the influence of drugs at the time of his death.

"We are trying to determine whether there was anything wrong with the police response," said Scott. "We are following up on all leads to make sure that everything was done properly.

The police report added that the investigation into Jones' death is ongoing, and that no charges have been filed.

Stokely: scientific revolt on capitalism

By ELAINE LARSEN

WASHINGTON — The death of Stokely Carmichael, the black power leader who was shot in a New York City jail last week, has sparked a scientific revolt on capitalism in the United States, according to a leading black scholar.

"Stokely's death has been a potent symbol for the scientific revolution that is taking place all over the world," said Dr. Herman Bell, a professor of political science at New York University.

Dr. Bell said that the scientific revolution is a grassroots movement that is challenging the dominant economic and political system of capitalism.

"This is not a revolution of slogans," said Dr. Bell. "It is a revolution of ideas that is changing the way we think about the world.

Dr. Bell said that the scientific revolution is based on the belief that capitalism is a system that is based on power and control, and that it is a system that is responsible for the suffering of people around the world.

"Capitalism is a system of exploitation," said Dr. Bell. "It is a system that is based on the exploitation of people and the environment.

Dr. Bell said that the scientific revolution is a movement that is challenging the dominant economic and political system of capitalism, and that it is a movement that is gaining strength all over the world.

"This is a movement that is growing," said Dr. Bell. "It is a movement that is changing the way we think about the world.

Stokie explains Pan-Africanism

By JOE POUSNZAK

For The Daily Iowan

Stokie Carver, a junior from South Africa, \nbelieves there has been a "phenomenal rise in the level of consciousness in the black community," which he says is the primary objective of Pan-Africanism.

Pan-Africanism

Just before and during his 1965 visit to Ghana, Carver, along with the Black Panthers, traveled to various countries. His speeches were given to the United Nations in New York and to Martin Luther King Jr. in Boston. He also worked with 21 other leaders in the Pan-African movement.

The success of Pan-Africanism was the result of black power being in the forefront and that Ghana is respected in the world today because it is a unified country. "We see this," Carver said.

Carver went to the United States in June 1965, during the year of the civil rights movement. "It is a time of ferment," Carver said. "It is a time of struggle and, unfortunately, a time of death."

Carver met with the Black Panthers and other civil rights leaders. He talked to them about the evolution of Pan-Africanism and the mission to unite all of Africa.

"We must redefine our idea of the Black Power movement," Carver said. "We must make it a movement of love for our people, a movement of love and respect for our people."

Africans must be prepared to "fight on the front lines of the war against imperialism," Carver said. "We must be prepared to stand up for our rights and fight for our freedom."

Grateful crowd at Dead concert

The behavior of the crowd at Saturday's (April 15) Dead concert revealed praise from fansURY from Campus Security, and COUNSELS on University Entertainment for the nicely run concert. Following the show, Niles Williams, director of university entertainment, described the concert as "a very positive, well-attended event." The audience was enthusiastic and the show went on without a hitch.

Ideologies

Black students had a chance to learn about Pan-Africanism and its ideologies during a recent class. The class was taught by Stokie Carver, a junior from South Africa.

Carver spoke about the history of Pan-Africanism and its significance in the world today. He discussed the importance of unity among African people and the need for a common voice in the face of oppression.

Carver also talked about the role of the Pan-Africanist in society and the need for action to achieve equality and freedom for all African people.

"Pan-Africanism is not just a movement of words," Carver said. "It is a movement of action. We must work together to make the dream of Pan-Africanism a reality."

"...I am now totally convinced that your report is absolutely untenable. On almost a page relating incidents and other matters of which I am aware, there are gross misrepresentations, fallacies are passed on as facts, allegations which are untrue cannot be proved appear, as denunciations or vagueness refers to matters which could easily have been verified and found, if not completely fabricated. Statements are made in part, left open-ended, if they were completed and given correctly, they would be the dénouement of the complaint...

Fernandez wrote, "I asked them to give me some specific facts. They spoke in vague generalities and all I could do was guess. What was the point of the meeting when I was not given the critical statements, nor the complaint analysis? I again insisted that the case was not a major one, and that Jones had never lashed out at them.

They finally admitted that they had a look at the writing of the meeting, but would not tell me the facts. I asked them to write me a copy of the statements and it was not until later that they wanted to take care of it in a friendly way.

By piecing together statements to the effect that Jones and the board would handle the matter.

Although Jones never mentioned this in his written response to the report, the investigators and those who play a part in the decision, the chairman said that he was unable to say whether the complaints of the complainant were verified or not.

About this view feels the need for an end to any gross misrepresentations. I again pleaded with the board to know. What was the point of the day of the meeting, when it was not given on the report? I asked for more specific facts, and they just said that they would handle the matter.

After the incident, the report said. The drafts written to the chairman about the case in which the chairman claimed he heard the report, just that he did not think that it was the best way to conduct the situation.

The second incident concerned the question of Jones' treatment of a graduate student. Jones is the cause of the department. The Dead have their own

Pro roadies:
The roadies seem to have
later when the show

there was a great
amount of activity in
the audience. The
roadies are seen
to be the ones who
care about the

Iowa crowns three champs; second in league mat meet

By Tom Norden Hopper, III

MINNEAPOLIS, Minn.—For the first time in eight years, an Iowa wrestler was the last man standing in a Big Ten championships.

Michigan's rotund, smooth-limbed Mike McQuay stayed upright for 57 minutes, 20 seconds, finally losing to Rick Tice in the 190-pound final.

McQuay became the first Iowa wrestler to win a conference title since 1969 and the first to be crowned Big Ten champion. The previous Iowa champ was the late Dan Wagemann, who won the heavyweight title in 1969.

The Hawkeyes, who came into the meet as three-time defending champions, posted a sound 330-256-6 triumph over Minnesota, getting six of the seven individual titles to repeat as league champions.

"It's our year," said Iowa coach Dan Gable, who is the only coach to win the title three years running. "I'm really pleased with the way we did."

Jim Waschek, a member of the Iowa four-time national championship team, said, "It's about time Iowa got a good team win at the conference."
