CAMP ALPFA (Vietnam - AP) - While U.S. military officials in Vietnam were trying to locate the 16-year-old girl who had been kidnapped by the Viet Cong, the U.S. government was planning a military operation to rescue her. The operation was called "Operation Ranch Hand." The military operation had been planned by the U.S. military because of the girl's kidnapping. The girl, named Kim, had been kidnapped by the Viet Cong while she was visiting her grandmother's house.

New manager of Hulk named

In DES MOINES
Shirl Walters

Shirl Walters, former general manager of the University of Iowa's Hulk, was named its new general manager this week by Robert W. Jenkins, assistant university attorney.

"We needed to name someone who will be a "good" employee and who will work well with our staff," Jenkins said. "Shirl is an excellent choice." Walters, who has held the position of general manager for the last two years, now holds the position of assistant university attorney.

Current Hulk employee, Dave Walters, will also be named as the new general manager of the Hulk. Walters is currently serving as the assistant university attorney.

"We have named Walters as the new general manager because he has shown a great deal of promise," Jenkins said. "His work ethic and dedication have been outstanding." Walters has been a part of the Hulk team for the last two years and has shown a strong commitment to the university and its students.

The new general manager will be responsible for overseeing the Hulk's operations, including the development and implementation of policies and procedures, as well as ensuring compliance with university and federal regulations.

"We are excited to have Walters as our new general manager," Jenkins said. "He brings a wealth of knowledge and experience to the position and we look forward to working with him to continue to improve the Hulk for our students." Walters is a dedicated and hard-working individual who has served the university and its students well, and we are confident that he will continue to do so in his new role.

Walters' appointment is effective immediately, and he will begin his new position as soon as possible. He will work closely with Jenkins and other members of the university's administration to ensure the smooth transition of responsibilities and to ensure that the Hulk continues to operate effectively and efficiently.

"We are confident that Walters will be able to lead the Hulk team in its mission to provide a positive and engaging experience for our students," Jenkins said. "We look forward to seeing the creativity and innovation that Walters will bring to the position." Walters is a dedicated and hard-working individual who has served the university and its students well, and we are confident that he will continue to do so in his new role.

Mississippi floods farms; some forced to flee homes

The Mississippi River has topped hundreds of homes and forced some people to flee in areas along the river near downtown Memphis and in New Orleans, according to the National Weather Service.

"The Mississippi River is over 7 feet above flood stage in Mississippi and Louisiana," said National Weather Service meteorologist John Bardos. "This is a life-threatening situation, and people in these areas should take steps to protect themselves.

The river目前已 reached flood stage levels in several locations, including

- Memphis, Tennessee, where the river is expected to crest at 41 feet by April 8.
- Cairo, Illinois, where the river is already at 41 feet.
- St. Louis, Missouri, where the river is at 51 feet.

People in these areas should avoid contact with the river and evacuate if necessary."
